

STRIKER 82

Chapter 82 TIER-1, Rank 2- Mid Stage (Small Breakthrough)

Instructor Jacob and Ariel left City C after having a fruitful conversation with Jeremy Night's parents. They had solved a major problem from arising.

They thought it was time for the medium-sized families to pay a price for crossing the red line.

Time passed.

After a few hours of travel, they returned to the True Elements Society. Then they informed Dean Carolyn before returning to their residence.

The following day,

Jeremy Night got out of bed early. Then he started his morning routine. It took him one hour to finish the routine.

He then placed a mat on the floor before sitting cross-legged on it. He closed his eyes and started running the inner healing method.

As time passes, the natural energy enters the body. He then guided the natural energy to course through his body.

At the same time, the unknown beast egg was absorbing natural energy from the surroundings as well.

The unknown beast egg acts on it. There is no fixed time for its practice. Whenever it needs it, the unknown egg automatically absorbs natural energy from the surroundings.

The white mist covered the mental zone space. It's the starlight energy. A few more minutes passed, and something happened.

Click!

Changes started appearing in the concentric circles marked on the huge black door. TIER-1's RANK 2-Sub block shone in white color.

Outside,

Jeremy felt a sudden increase in strength in his body. This would only happen when the body evolved one step further.

He took time to assess the situation. After checking his body, he realized that he had reached Rank-2 Mid Stage from Early Stage. But he was still Tier-1 in overall strength.

There were still 7 more ranks to cross before reaching Tier-2. But Jeremy thought that the Inner Healing Method was working well for him.

He had hardly any time to focus on practicing it. Most of the work was done by his unknown egg lifeline beast. He thought that the unknown egg might be working harder compared to others' lifeline beasts.

"Maybe because of its strong instincts to survive," Jeremy's eyes flashed with solemnity.

To stabilize the new strength, he either had to spend more hours practicing the inner healing method or he could consume treasures.

Fortunately, he had one: the 3 Petal Rose Flower given to him by Instructor Jacob. He took the flower from the storage ring and consumed the 3 petals in one go.

A sweet warm current went down his throat. When the energy entered his stomach, he felt a burning sensation. He then quickly started running the Inner Healing Method.

The natural energy then mixed with herbal energy and began coursing through his body. Along the way, the mixed energy was absorbed by the cells.

Jeremy felt a strong reaction from the cells, as if the entire body was craving herbal energy. He then pushed down these thoughts and continued to focus on running the mixed energy in his body.

After a few hours, the mixed energy was fully consumed. He had a feeling that his new strength was stabilized and had gained more accumulation.

It wouldn't take him long to reach Rank-2 Peak Stage. Jeremy then opened his eyes and stood up. He clenched his right fist. He could feel the power hidden in his muscles.

His Supreme Combat Body Talent made his physique stronger. He could compare his current physique to an average Tier-3 Beast Tamer's body.

With a smile on his face, Jeremy then went to take a bath.

An hour later,

Jeremy left the dorm building after getting ready. He was dressed in uniform. He then started heading toward the Department Building.

When he got there, he smiled and nodded to the other department's Beast Tamers. They were the Beast Tamers from the Medicine and Machinery Department.

Looking at their faces, he thought they were attending all the classes. He reached the elevator. After entering, he pressed the 5th floor button.

Creak!

On the 5th floor, the lift door opened. Jeremy walked out. When he reached the class, he saw Betsy Lowe was already there, busy watching videos on her device.

"Where is Instructor Jacob?" Jeremy asked.

"Don't know?"

"I'm as surprised as you are," Betsy Lowe replied, looking at him, then shifting her attention back to the device.

Jeremy then sat in his seat. He knew that Instructor Jacob went to meet his parents with Instructor Ariel yesterday.

So he thought it was normal for them to arrive late.

Time passed.

Betsy was busy watching videos, while he was focused on reading online articles. He guessed they were the only ones doing something different compared to other departments.

Meanwhile,

Violet Heath was in her 3rd-year class. But rumors regarding her visit to the 1st-year area leaked out through some people.

People always loved gossip. Interested individuals started discussing it. Since Violet Heath's identity was significant, they didn't dare to discuss it near her.

When the news spread, it didn't take long for it to reach the ears of Ernest Knox. Ernest Knox was out of the city yesterday due to a mission, so he didn't know earlier.

Right now, he was surprised after hearing the rumor, since it only stated her visit but didn't reveal the reason. He avoided it.

But he was taken aback by different news. It was the action of the 2nd Attack Department Beast Tamers against a 1st Year Beast Tamer.

He was surprised by the identity of the 1st year. It was the same young man who was appointed as the Striker Department Representative.

The Striker Department had been discussed during their meeting at that time. Dean Carolyn had volunteered to support and redevelop the fallen department.

Ernest smiled. He shared the same opinion as Violet Heath. He thought that the Medium-Sized Families were foolish; they had used university students to attack and kill other students.

It was not something to be received well by Beast Taming Families. Some of the medium-sized families were independent, while others were connected to the Top Families. He didn't know which one did it.

But he was sure it was not the medium-sized families related to the Knox Family. They had issued a clear warning earlier. The same case applied to the Heath Family.

So he quickly pushed down these thoughts and resumed his work. Unless something related to his own family occurred, he wouldn't care about other matters.
