

Chapter 1366 Lindy's In Danger

Liam, Shiloh, and Trudy made their way through the Titan Bugs' stronghold, with Liam eliminating numerous Titan Bugs along their path.

Shiloh and Trudy followed Liam closely behind, having learned that Liam was the famous genius. They no longer felt any concern, simply collecting the corpses of the Titan Bugs Liam had slain.

After wandering through the stronghold, the trio eventually reached the border between the outer and inner areas of the Titan Bugs' territory.

Once Liam confirmed their safety, he prepared to lead Shiloh and Trudy deeper into the stronghold. However, he suddenly picked up on some noises coming from a nearby valley.

Noticing Liam's sudden halt, Shiloh sensed that something had caught Liam's attention. He quickly stepped forward and asked, "Liam, what's the matter? Did you sense any Titan Bugs?"

Liam shook his head and replied, "I just heard some commotion coming from the valley nearby. It sounds like some of our allies are fighting Titan Bugs. Shiloh, you and Trudy should stay here while I go check it out."

Hearing this, Shiloh frowned and immediately said, "Liam, we're a team now. We should face any challenges together! How can we let you go there alone? We're going with you!"

Trudy nodded in agreement and added, "Liam, I'm with Shiloh."

As teammates, we should stick together!"

Looking at the duo, Liam considered their words carefully before finally agreeing to let them accompany him.

He said, "Alright, but your safety comes first. That's the most important thing. Understood?"

Shiloh and Trudy responded, "Don't worry; we understand that!"

Seeing their determination, Liam said no more. Turning towards the valley where the noise was coming from, he swiftly led them there.

Upon reaching the valley, Liam signaled for Shiloh and Trudy to remain silent as he cautiously moved to the top of the valley with them.

After surveying the area and confirming there were no Titan Bugs above, Liam quietly approached the cliff's edge and peered down into the valley.

Below, a large swarm of Titan Bugs surrounded a small group of four people—two men and two women.

All four members of the group were badly injured, and their combat abilities were significantly diminished.

But that wasn't what Liam was focused on.

What caught his attention was the familiar face among them.

Recognizing the person, Liam couldn't help but mutter, "Lindy!"

Upon confirming that it was indeed Lindy down there, Liam was worried and anxious.

Lindy was someone who had a close bond with him. When he had entered the illusion battlefield of the Shadow Palace, Lindy had offered him valuable guidance and even saved his life.
