

Chapter 1404 Seclusion

Liam sold the blood essence of the Blood Sovereign and evenly distributed the ninety thousand points.

In the Celestial Palace, the City Lord, who had been keeping an eye on Liam, displayed a look of approval on his face.

He had never expected that Liam would sell such a valuable item, the blood essence of the Blood Sovereign, all to keep a promise.

He had never seen anyone who placed such high value on their word. He was really impressed by Liam.

Liam's character and potential were truly exceptional.

The City Lord even believed that after Liam fully unlock his potential, Liam's status would surpass his current standing.

At this realization, the City Lord nodded to himself and murmured, "It seems this young man is destined to become the most successful individual in the Human Clan."

Meanwhile, after distributing the rewards, Liam didn't stay long and bade farewell to Lewis and the others.

Lewis and his group eagerly exchanged contact information with Liam, who had no objections about this and was, in fact, pleased.

Having undergone life-and-death situations together with Lewis and the others, Liam trusted them completely.

This was Liam's greatest gain since his arrival in the Cosmic realm.

After parting ways with the group, Liam checked his task points and found he was close to having enough to unlock level-five clearance.

Just one more mission and he would accumulate the necessary points to unlock that higher level of clearance.

Liam felt optimistic. With level-five clearance and the status of Primogem King soon within his grasp, he would have access to the four galaxies of the Human Clan and could venture beyond the territory of the Human Clan in search of the fragments of the Heart of Life.

More importantly, he could finally go to find Julie and Asher.

Fueled by this thought, Liam had a renewed sense of purpose.

He entered a secret cultivation room, planning to engage in intensive training for a period of time.

He decided not to use the one-hundred-day cultivation reward from the special mission just yet. He planned to save it for when he ascended to the level of the Primogem King.

Right now, he was far from reaching the level of the Primogem Emperor. If he held onto the reward, it would not yield substantial benefits at his current stage.

Each advancement to the level of the Primogem King required mastering three percent of the law power, which would significantly accelerate his ability to fully grasp the law power. However, it would slow the rate at which his strength grew.

Liam pondered his situation. "With my current level, I should be able to withstand the strength of the blood essence of the Blood Sovereign. Why don't I use it now?"

Despite the significant gap between a level-nine Primogem Expert and a Primogem King, Liam's soul power had already surpassed those at his level, so he was confident in his abilities.

However, Liam remained cautious.

Since he had never used the blood essence of the Blood Sovereign before, he wasn't certain if he could safely absorb it.

Just then, an idea came to Liam's mind.

He retrieved a bottle of clear water and carefully added a drop of the blood essence to it, diluting the blood essence.

Chapter 1404 Seclusion

Looking at the now diluted blood essence in the bottle, Liam didn't feel so nervous.

Now that the blood essence had been diluted to such an extent, he was confident it would be much easier and safer to absorb.
