Chapter 1101: One Hundred Thousand Essence Blood Enters My Belly (Part 2)

Although the Life Extension Technique of the Ten Thousand Laws Immortal Sect is mystical, it requires capturing a top Demon King on Boundaryless Mountain while the Black Tortoise Race Demon King is alive, then forcibly seizing their foundation and life source... This technique, although extremely effective, is indeed very sinister and venomous, almost on par with the demon techniques of the Profound Yin Demon Sect's demons who use human beings to refine Demon Artifacts, all aiming to poison other beings and harm their foundation to enhance one's own. Such is an Evil Technique!

This time, it was the Elder Clan Leader of the Black Tortoise Race who, after hearing my request, rallied the Ninth-Grade Demon Kings of the Black Tortoise Race to proactively force out some Essence Blood... If not for this, even if I had mastered this Life Extension Technique of the Ten Thousand Laws Immortal Sect, I wouldn't have dared to use it!

As Lin Xuankong's thoughts flowed, he did not slack off in the operation of Immortal Yuan within his body. When the Essence Blood of the Black Tortoise Race Demon Kings he absorbed had spread throughout every meridian, he moved his finger slightly again, and a jar of Spirit Wine instantly turned into a small group of Spirit Wine, which floated up and swiftly fell to his mouth.

"Hiss hiss hiss hiss"

Accompanied by the slight sound of wine liquid breaking through the air, that jar of Spirit Wine, brewed by the Sect Founder of the Wine Immortal Sect from thousands of Spirit Fruits and stored for hundreds of thousands of years, was entirely consumed by Lin Xuankong.

The Ten Thousand Years Spirit Wine entered the stomach,

Lin Xuankong immediately felt a warmth and comfort in his abdomen,

The life force contained in the Demon King Essence Blood that was running within the meridians became even more active, swiftly repairing the flaws in Lin Xuankong's Immortal Body, Divine Soul, Immortal Yuan, and Spiritual Root, with thoroughness and meticulousness that was nearly all-encompassing.

The feeling of life becoming more complete and perfect continually emanated from every part of Lin Xuankong's Immortal Body, Divine Soul, Spiritual Root, and Immortal Yuan, making him feel indescribably comfortable, far surpassing the feeling of drinking a large glass of cold beverage when thirsty by thousands, ten thousands, even billions of times!

Beside him, the Strongest Immortal Lord Guang Yu'er, knowing that Lin Xuankong was constantly undergoing Metamorphosis of his Immortal Body and Divine Soul under the influence of Demon King Essence Blood and Ten Thousand Years Spirit Wine,

This little sweetheart of Lin Xuankong naturally showed a hint of vigilance, silently floated to the entrance of the cave, unleashed her Divine Soul perception, and without the slightest hesitation, guarded Lin Xuankong's protection!

This foundational repair and enhancement of Lin Xuankong lasted several hours,

Until the sun set on the Wine Immortal Sect Spirit Peak, casting a long slanted shadow at the entrance of Lin Xuankong's cave, and as the temperature on the First Spirit Peak of the Wine Immortal Sect gradually took on a bit of chill, Guang Yu'er heard Lin Xuankong's sudden groan from the depths of the cave.

Hearing this groan, the Strongest Immortal Lord Guang Yu'er raised an eyebrow, her eyes flashed with a touch of confusion, turned into a stream of light, and flew back into the depths of the cave.

Arriving not far from Lin Xuankong, the Strongest Immortal Lord Guang Yu'er looked at Lin Xuankong with a hint of confusion and concern in her eyes, and asked nervously, "What just caused you to suddenly make such a strange groan, could it be that there was an accident the first time you used the Life Extension Technique of the Ten Thousand Laws Immortal Sect? Xuankong, are you alright?"

At this time, Lin Xuankong's face was full of comfort, upon hearing the inquiry from the Strongest Immortal Lord Guang Yu'er, he couldn't help but shake his head slightly, "No problem, it's just that since I started Cultivation, I've never felt so comfortable, not even when I first transformed from a mortal to the Earth Immortal Realm, the feeling during body transformation back then was far from matching this moment. Even the first night I got married wasn't as comfortable as this life Metamorphosis, so I couldn't help but groan for a moment!"

The wedding night? More comfortable?

Upon hearing this, Guang Yu'er blushed and gave Lin Xuankong a stern look,

"You wretch, speaking such shameless nonsense all the time!"

Lin Xuankong was initially fine, he really was just speaking casually, unknowingly mentioning the wedding night,

Seeing the beauty before him so shyly alluring, he couldn't help but feel moved in his heart!

After all, Guang Yu'er standing before him possesses outstanding beauty, not losing out compared to Young Lady Li Xiaolan's natural charm, especially after advancing to the Strongest Immortal Lord Realm, she had an added ethereal charm, not to mention her graceful figure clad in a tight-fitting white Daoist Robe, which added countless enchantments!

After taking a close look at the beauty beside him, Lin Xuankong couldn't help but reach out to pull the beautiful woman into his arms, and together they gazed at the Spirit Wine on the table, smiling he said:

"The previous jar of Spirit Wine helped me absorb all the one hundred thousand catties of Demon King Essence Blood, significantly enhancing the effect of using the Life Extension Technique of the Ten Thousand Laws Immortal Sect!

Unfortunately, when consuming that jar of Spirit Wine, I was activating the Life Extension Technique of the Ten Thousand Laws Immortal Sect, so during the operation of the Immortal Yuan, all the potency of that jar of Ten Thousand Years Spirit Wine was neutralized. As such, although it greatly boosted the effects of the one hundred thousand catties of Demon King Essence Blood and the Life Extension Technique of the Ten Thousand Laws Immortal Sect, it wasted the intoxicating and exhilarating potency of the Ten Thousand Years Spirit Wine!

Fortunately, there is another jar of Spirit Wine here, why don't we drink some together, to properly savor the potency and taste of this Ten Thousand Years Spirit Wine, and since we've already set our feelings, why not take advantage of this moment under the influence of this Ten Thousand Years Spirit Wine to consummate in this cave. Such blissful taste, perhaps even a Celestial Immortal from the Upper Realm cannot feel it!"

Hearing Lin Xuankong speak this way, the Strongest Immortal Lord Guang Yu'er's face became even more blushing red,

She couldn't help but lower her head, raising her hand to bump Lin Xuankong's chest a few times, tutting, "You rogue, you always seem honest, upright, and low-key, but you must have ten million catties of bad ideas in your stomach! Oh, keep your hands honest..."

...

Several hours later,

inside the cave full of wine aroma,

the Strongest Immortal Lord Guang Yu'er leaned against Lin Xuankong's arms, she raised her hand to smooth the slightly messy hair on her forehead, turned her head to look at Lin Xuankong's face, eyes full of tenderness,

Silently pondering: Although in this Immortal Demon War, with all the immortal artifacts provided by Xuankong, but the Demon Child Gang Bone of the Profound Yin Demon Sect possessed the Celestial Demon Power from the Ancient Celestial Demon of the Supreme Origin Realm. Comparing the two sides, the outcome is yet uncertain. Truly not knowing how many more of such peaceful, blissful moments as now remain, nor how many years this Immortal Demon War will actually last!

Lin Xuankong sensed the movement of the beauty beside him, lowered his head to check, and spoke softly, "What are you thinking about?"

The Strongest Immortal Lord Guang Yu'er, with worry in her heart but not wanting to bother Lin Xuankong, slightly shook her head with a smile, "Nothing, just feeling that you have been quite mischievous, tormenting me for such a long time!

Moreover, I am really curious, those hundred thousand catties of Demon King Essence Blood paired with that jar of Spirit Wine, stimulated by the Life Extension Technique of the Ten Thousand Laws Immortal

Sect, tempered your Immortal Body, Immortal Yuan, Divine Soul, Spiritual Root, exactly how many years of lifespan did it grant you?

Yet lifespan is something unseen and intangible, that even Immortal Yuan cannot detect. Only with the passage of long time can it finally be verified!

Nonetheless, it being one of the significant Immortal Techniques of the Ten Thousand Laws Immortal Sect, coupled with such precious one hundred thousand catties of Demon King Essence Blood and a jar of Ten Thousand Years Spirit Wine, the effect is expected not to be too bad, right?"

Hearing this, Lin Xuankong's eyes couldn't help but shift,

If it was any other Earth Immortal, even a Perfection Level Strongest Immortal Lord, probably couldn't accurately calculate the lifespan limit of any Earth Immortal,

But I am different, with the Life Plate of being Vigorous in Old Age, I possess the ability to discern my lifespan limit with precision down to a single day!

Chapter 1102: Lifespan Greatly Increased, Outbreak of War

Previously, Lin Xuankong consumed Ten Thousand Years Spirit Wine, a hundred thousand catties of Demon King Essence Blood, and activated the Life Extension Technique of the Ten Thousand Laws Immortal Sect.

Since his lifespan wasn't directly increased to its limit, but rather continuously growing,

a few hours ago, Lin Xuankong couldn't be certain how much his lifespan had increased under the influence of various Spiritual Objects and Marvelous Immortal Techniques!

At this moment, after struggling with the Strongest Immortal Lord Guang Yu'er for several hours,

the effects of the Ten Thousand Years Spirit Wine, hundred thousand catties of Demon King Essence Blood, and the Life Extension Technique of the Ten Thousand Laws Immortal Sect have gradually transformed his Immortal Yuan, Immortal Body, Spiritual Root, and Divine Soul, so now he can take a look at how much his lifespan has increased!

With a thought, Lin Xuankong immersed his Divine Soul into his Brain Mansion,

Lin Xuankong: Remaining Lifespan is 11,783,669,769 years and 188 days.

Life Plate: [Vigorous in Old Age]

First Talent of the Life Plate: [Old and Wise]?? Talent: Increases cultivation speed according to age, age of 176 years, cultivation speed increased by 176 times.

Second Talent of the Life Plate: [Wives, Children, Elders, and Youngsters] Rule Talent: Continuously gain insight and proficiency in the cultivation techniques and skills of wives, children, and family. Wives and children gain influence from the Life Plate, increasing cultivation speed by forty times (Life Plate influence on targets can be waived).

Third Talent of the Life Plate: [bullying the old and weak] Rule Talent: Enhances the effect of Magic, Array, Spiritual Beast attacks based on the opponent's age and cultivation realm. The lower the opponent's cultivation realm compared to oneself, the stronger the effect of the Magic, Array, Spiritual Beast attacks; for each grade lower, the effect doubles. The older the opponent compared to oneself, the stronger the effect of the Magic, Array, Spiritual Beast attacks; every thousand years, the effect doubles.

Fourth Talent of the Life Plate: [Piercing the Mountain and Hitting the Ox] Rule Talent: Can penetrate all defenses of the opponent, piercing Battle Armor, Immortal Armor, Magic, Array defenses; Magic, Array, Spiritual Beast attacks will achieve one hundred percent effect.

Fifth Talent of the Life Plate: [Growing Stronger with Age] Rule Talent, after activation, increases the defense capability of the body and Divine Soul based on age for a certain period. Current age 176 years, defense capability increased by 176 times, duration is seventeen breaths; each activation requires seventeen days to restore the talent.

Sixth Talent of the Life Plate: [Return to Hometown] Rule Talent, after activation, consumes a certain amount of lifespan to instantly traverse vast distances back to a pre-set location. Current age 176 years, instantaneous traversal distance is 1,760,000 miles, each activation consumes seventeen years of lifespan.

[Immortal Yuan: 622000000000/622000000000]

[Realm: Early Stage of the Strongest Immortal Lord Realm 47382/1000000]

....

Seeing his various changes afterwards,

although he had already estimated in his heart, Lin Xuankong's eyes still showed a trace of surprise.

Back then, after Lin Xuankong consumed the Spirit Fruit, thanks to the 176-fold increase effect of the Old and Wise talent in the Vigorous in Old Age Life Plate, his lifespan limit soared to over thirty million years!

That lifespan limit of over thirty million years meant that within thirty million years, Lin Xuankong's Immortal Yuan, Spiritual Root, Immortal Body, and Divine Soul would not decay, nor would his realm drop or his strength diminish. With such a terrifying foundation, let alone short-lived species like the Immortal Realm Human Race, even long-lived species like the Black Tortoise Race of Boundaryless Mountain, or similar long-lived species of the Profound Yin Demon Race, are far from comparable! Even the strongest and oldest First Demon Lord of the Profound Yin Demon Sect, has only a lifespan of a little over one million years and is about to reach the end of life!

It is conceivable how joyful Lin Xuankong felt at that time!

That meant Lin Xuankong had more than enough time to easily prepare over thirty million years before the final Celestial Tribulation arrived.... with Lin Xuankong's strength, Life Plate, and talents, if he really got to prepare thirty million years, even he himself couldn't imagine what heights he would reach under the blessing of the Vigorous in Old Age Life Plate and talents like Old and Wise??

At that time, even without considering the terrifying 30 million-fold cultivation speed boosted by the Old and Wise talent, just the effect of another rule talent [Growing Stronger with Age] would be enough to make Lin Xuankong an absolutely terrifying existence, because the effect of Growing Stronger with Age constantly increases Lin Xuankong's defense capability with age.... 30 million-fold defense capability,

with a duration effect of over three hundred breaths, would the Celestial Tribulation pose any threat to Lin Xuankong?

It is estimated that by that time, facing the Celestial Tribulation, with all means unleashed, the Celestial Tribulation can strike for a thousand years and still might not harm a single hair of Lin Xuankong!

And now,

under the refinement of the Divine Marvelous Immortal Technique of the Ten Thousand Laws Immortal Sect, the influence of forty thousand years Spirit Wine and a hundred thousand catties of Black Tortoise Race Demon King Essence Blood, under the influence of the Old and Wise talent,

Lin Xuankong's lifespan limit had shockingly reached an incomparably terrifying 100 million years!

A lifespan limit of hundreds of millions of years might not seem too significant on other Strongest Immortal Lords or Earth Immortals, but when applied to Lin Xuankong, who boasts the Vigorous in Old Age Life Plate with various talents that grow stronger with age...

Not to mention the terrifying extent Lin Xuankong's attack capabilities might reach at that time, just the defense capability of Growing Stronger with Age alone could make Lin Xuankong completely invincible! A defense capability of a hundred million times, casually activating a Golden Light Shield as a defense technique, the entire Golden Dragon Immortal Realm might shatter without harming Lin Xuankong!

Chapter 1103: Lifespan Greatly Increased, Outbreak of War_2

There's one more thing,

that left Lin Xuankong somewhat amazed,

and that is the effect of the Ten Thousand Laws Immortal Sect's Divine Marvelous Immortal Technique just now!

Even excluding the enhancement from Lin Xuankong's Old and Wise talent on cultivation techniques and spirit medicine, just the effect of the Ten Thousand Laws Immortal Sect's Divine Marvelous Immortal Technique, coupled with the 400,000-year-old Spirit Wine and 100,000 catties of Demon King Essence

Blood from the Black Tortoise Race, was enough to grant Lin Xuankong an increase of four million years in lifespan!

This colossal increase in lifespan, even the effect of the Second Spirit Medicine of the Immortal Realm, the Seven-leaf Spirit Tea, can't compare!

However, upon second thought,

Lin Xuankong found this quite understandable.

After all, although the life extension technique of the Ten Thousand Laws Immortal Sect is akin to an evil technique, it is nevertheless one of the three main immortal techniques jointly listed by the numerous powerhouses of the Ten Thousand Laws Immortal Sect, which has been established for tens of thousands or even a million years. If the effect wasn't strong enough and the foundation deep, how could the Ten Thousand Laws Immortal Sect place such importance on this technique!

Moreover, included in this is the effect of 100,000 catties of Ninth-Grade Demon King Essence Blood from the Black Tortoise Race, which forms the foundation of several hundreds of Ninth-Grade Demon Kings. Even if it doesn't completely plunder the lifespans of those hundreds of Ninth-Grade Black Tortoise Demon Kings, it's at least equivalent to obtaining the lifespan of several dozen Ninth-Grade Demon Kings from the Black Tortoise Race!

And there's also the world-class Spirit Wine collected by the Sect Founder of the Wine Immortal Sect over 400,000 years, brewed with thousands of kinds of spirit fruits from the Immortal Realm!

With various immortal techniques and spirit fruits, spirit medicines stacked together, it's rather normal to have such miraculous life extension effects!

It's a pity that...

Lin Xuankong glanced at the jar of Spirit Wine on the table not far away. Before the wedding with Guang Yu'er, they shared some of this Ten-Thousand-Year Spirit Wine, and now there's about ninety percent left of this jar, but now only one jar is left in the world!

Fortunately, with this jar of Spirit Wine, there's hope to acquire some more of the Demon King Essence Blood, so that Young Lady Li Xiaolan, Second Lady Zhao Yufei, Third Lady Xiao Ying'Er, Fourth Lady Guang Yu'er, the Artifact Refining Genius Xiao Xiuyi, among others, will all have the chance to possess extremely long lifespans too! Even if it can't compare to their astronomical lifespan limit of a hundred million years, allowing these ladies to have a lifespan of several million years would still be rather easy!

When the time comes, several million years later, even if proceeding with leisure, the preparation and cultivation would ensure a foolproof success, and he can lead these ladies and important people around him to transcend the ultimate celestial tribulation together and ascend to the Upper Realm!

Lin Xuankong gradually settled his mind, with a hint of pride in his eyes.

He thought silently to himself: With a lifespan greater than ten million years, even just the initial digits alone exceed over ten million years, such an exceptionally long lifespan limit, even against the Curse of Time from an Ancient Celestial Demon of the Upper Realm, he can remain unscathed!

After all, even if the Demon Child Gang Bone of the Profound Yin Demon Sect could attach Celestial Demon Power onto those Demon Lords, causing them to use the Curse of Time against him, it would all be in vain!

Those Demon Lords of the Profound Yin Demon Sect, despite being long-lived species and possessing high realms, with near-million-year lifespan limits, most are ancient Demon Lords of the Profound Yin Demon Realm, having lived for several hundred thousand or even a million years already, so their remaining lifespan limit isn't much. Calculating it this way, those eighty-two Demon Lords combined might only have a lifespan limit of around ten million years, which is not even as high as the initial digits of his lifespan limit!

Ignoring the impact of a shred of Celestial Demon Power from Ancient Celestial Demon Thousand Illusion Saint Monarch: The Curse of Time, the rest of those Demon Lords, Demon Generals, and Demons, under his full Perfection Level, plus the age-old talent of Bullying the Weak, against the Guangqing Cold Extreme Skill, don't stand much chance of winning!

This doesn't even account for his accomplishments along the Path of Array and the massive collection of High-Grade Immortal Artifacts from the Art of Refining...

Of this thought, Lin Xuankong, with pride in his eyes, finally relaxed his heart, feeling that this Immortal Demon War posed little threat to him!

He couldn't help but glance at the graceful Guang Yu'er beside him, "Yu'er, back when I was in the Mortal Realm of the Great Xia Dynasty, I practiced several interesting cultivation techniques. Come, come, I'll spar with you for a few more hours with these techniques now!"

"You... Do you still look like an Immortal!"

....

The next day.

Elder Chi, the strongest immortal lord, got up early and sat in front of a dresser formed by immortal technique, casually yet serenely grooming her attire and hair with a touch of allure, the strongest immortal lord of the Guangqing Immortal Sect wearing a smile infused with profound contentment and pleasure.

Beside him, Lin Xuankong sat by the bed, carefully perusing the various immortal techniques of the Ten Thousand Laws Immortal Sect,

having tasted the sweetness brought by the life extension technique of the Ten Thousand Laws Immortal Sect, this piqued Lin Xuankong's interest in the other immortal techniques of the sect.

However, before he could finish reading through the immortal techniques in hand, an urgent voice came from outside the cave dwelling, "Guangxian Technique, Immortal Lin!"

It was the voice of Elder Chi Liuxia of the Wine Immortal Sect.

The strongest immortal lord Guang Yu'er frowned slightly, "Elder Chi, what matter requires disturbing Immortal Lin so early?"

The voice of Chi Liuxia from outside the cave dwelling echoed, "Guangxian Technique, word came through a spirit talisman from the Spiritual Crane Immortal Sect, stating that the demon army from the Profound Yin Demon Sect has split into three paths heading toward the Spiritual Crane Immortal Sect. It's estimated that in at most half an hour, one path of the demon army from the Profound Yin Demon Sect will reach the southwest line of defense of the Immortal Realm Human Race!"

The Immortal Demon War has finally begun!!!

Upon hearing this, the strongest immortal lord Guang Yu'er raised an eyebrow and turned to Lin Xuankong. Without hesitations, both turned into a stream of light and were at the entrance of the cave dwelling in the blink of an eye. Lin Xuankong looked at Chi Liuxia with a frown, "Is there a demon army from the Profound Yin Demon Sect heading towards the Wine Immortal Sect?"

Elder Chi Liuxia of the Wine Immortal Sect shook his head, "Our sect has already dispatched over eight thousand scouts skilled in stealth and detection magic to monitor and keep the area thirty thousand miles surrounding the Wine Immortal Sect under close observation, and yet there's been no trace whatsoever of the Profound Yin Demon Sect's army to date!

Additionally, those scouts are equipped with unique microscopic arrays from our sect, even if they are directly eliminated by a powerful Demon Lord from the Profound Yin Demon Sect, it will trigger special hidden arrays to relay back information of those disciples' demise, and to this point, all eight thousand disciples are safe and sound, there should be no issue!"

Lin Xuankong nodded slightly, then his body's immortal yuan began circulating, activating the Nine Gates Celestial Eye at its reach in an extremely high realm,

his Nine Gates Celestial Eye, supported by the supreme realm divine soul, allows him to see over a hundred thousand miles at a glance. Now having attained the Strongest Immortal Lord Realm, he can see clearly up to several hundred thousand miles. If including some faint sensing, it's feared the appearance of Great Demon from the Profound Yin Demon Sect in a seventy to eighty thousand miles' radius will not escape under Lin Xuankong's Nine Gates Celestial Eye!

At this moment, as Lin Xuankong activated the Nine Gates Celestial Eye and scanned the area, his expression abruptly turned serious,

"Our Immortal Realm Human Race, the Unbounded Mountain Demon Race, and the Spirit Platform Buddhism, specially arranged for one hundred thousand younger generation geniuses to avoid the battles here and even sealed the information, yet it still could not evade the spies from the Profound Yin Demon Sect!"

Upon hearing this, Elder Chi Liuxia's face changed,

"Does Immortal Lin mean you observed signs of the Profound Yin Demon Sect's army advancing here?"

It shouldn't be, should my Wine Immortal Sect's eight thousand skilled scouts overseeing the conditions within a thirty thousand mile radius miss such a significant stirring, and a demon army from the Profound Yin Demon Sect, should they have approached, would indeed cause overwhelming demonic qi, darkening the skies and causing up a tumultuous stir, how could it have entered within a thirty thousand mile radius without any report returning!"

Chapter 1104: Turmoil of the People, Luo Water Array

No wonder Chi Liuxia felt suspicious,

with a distance of over 300,000 miles, it's difficult enough for even the strongest Immortal Lord level expert to extend their divine soul and use a detection technique to cover and grasp a range of 10,000 miles. Even then, probing such a large area bit by bit with the divine soul would take numerous days and nights, even for an expert of that level!

Even the Sect Leader Qiu of the Divine Dynasty Immortal Sect, possessing the supreme divine soul realm in the Immortal Realm, could at most extend his detection range by another 100,000 miles.

At this moment, even the newly advanced strongest Immortal Lord Guang Yu'er showed a hint of curiosity in her eyes,

This female Immortal Lord, ever since being convinced by Lin Xuankong, has always had a peculiar trust in Lin Xuankong's words, and thus wouldn't doubt what Lin Xuankong said at this moment. However, she was very curious about how Lin Xuankong saw this and why he was so sure that the Profound Yin Demon Sect had already grasped the information that 100,000 young talents from various races were hiding in the Wine Immortal Sect and had sent an army!

What Chi Liuxia and Guang Yu'er didn't know,

was that the man standing before them was no longer the Earth Immortal of the Fourth Grade realm he once was, and now possessed one of the only two supreme divine souls in the Immortal Realm, along with the powerful demon technique Nine Gates Celestial Eye from the Profound Yin Demon Sect, which even Sect Leader Qiu of the Divine Dynasty Immortal Sect had never cultivated!

"Enough, let's not waste any more time. Listen to my command, immediately recall the scouts stationed west in the Wine Immortal Sect, or have them hide on the spot. Make sure they make no movements within half an hour; otherwise, if discovered by the army of the Profound Yin Demon Sect, I'm afraid none will survive!

Also, order all Earth Immortals and disciples in the Wine Immortal Sect to gather at the First Spirit Peak of the Wine Immortal Sect, and assemble the 100,000 young talents from various races there as well! Go quickly!"

Lin Xuankong at this time sensed the overwhelming demonic qi of the Profound Yin Demon Sect's army. Despite having considerable confidence in his strength, he couldn't help but become serious.

Chi Liuxia of the Wine Immortal Sect, seeing the unmistakable authority in Lin Xuankong's serious demeanor, cupped his hands in obedience and flew towards the Spirit Peak where the sect master of the Wine Immortal Sect was located.

The strongest Immortal Lord Guang Yu'er stood beside Lin Xuankong, her delicate brows furrowing as she asked:

"Xuankong, now that you've sensed the presence of the Profound Yin Demon Sect's army, can you ascertain how many demons have come and which Demon Lord is leading them?"

Lin Xuankong slightly shook his head, "Although I can sense them, the distance is indeed vast. The army of the Profound Yin Demon Sect is still about seven to eight hundred thousand miles away, so for now I cannot determine exactly how many demons are there, or which Demon Lord is leading them!"

"Seven to eight hundred thousand miles?--!"

The expression on the charming face of the strongest Immortal Lord Guang Yu'er paused, and she couldn't help but exclaim softly.

Guang Yu'er had recently advanced to the strongest Immortal Lord realm, and though this advancement did not require overcoming a celestial tribulation, and was merely a higher step within the Ninth Grade realm, once the strongest Immortal Lord realm was achieved, due to the complete fusion of the immortal body and divine soul, the divine soul ability under the support of the immortal body, immortal yuan, and spiritual root would experience a qualitative leap, granting the strongest Immortal Lord level Earth Immortal dozens of times the sensing ability compared to a Ninth Grade Perfect Earth Immortal!

But even now, when she fully mobilized her immortal yuan and divine soul, the sensing range was still vast compared to seven to eight hundred thousand miles!

Thinking of this, Guang Yu'er couldn't help but look strangely at Lin Xuankong, "Even possessing immortal techniques akin to clairvoyance and clairsentience, trained to the utmost, would not be enough to detect movements over a range of seven to eight hundred thousand miles! Even practicing the Nine Gates Celestial Eye, one of the most bizarre demon techniques of the Profound Yin Demon Sect, would not make it possible to detect such distances! Xuankong, are you sure that the demon army of the Profound Yin Demon Sect has truly appeared seven to eight hundred thousand miles away?"

Seeing the puzzled look on his bride's face, Lin Xuankong's expression gradually softened, showing a hint of a smile, "Yu'er, your husband's formidable methods are many. Didn't you experience several of them just yesterday!"

The strongest Immortal Lord Guang Yu'er couldn't help but spit out upon hearing this,

"You scoundrel, this is no time for nonsense!"

As the two spoke,

a series of urgent bell tolls suddenly resounded from the Spirit Peak where the Wine Immortal Sect's sect master was located,

This massive bell on the Spirit Peak was clearly a powerful magical artifact crafted by a special method. When the bell sounded, it created waves of spiritual qi that rapidly spread across the vast Wine Immortal Sect, spanning nearly a thousand miles in diameter, at speeds incomprehensible compared to that of sound waves! Moreover, the urgent tolling relayed to Lin Xuankong's ears as if someone was whispering nearby, informing him of the critical situation, demanding everyone evacuate immediately and gather at the First Spirit Peak of the Wine Immortal Sect!

Seeing such a peculiar magical artifact, Lin Xuankong couldn't help the flicker of light in his eyes,

He had already been recognized by countless Earth Immortals of the Immortal Realm, numerous Great Demons of Boundaryless Mountain, and many Bodhisattvas of Spirit Platform Buddhism as the foremost artifact refining master of the Immortal Realm in a million years. However, his expertise actually lay in the artifact refining technique of creating attacking-type immortal artifacts! This was because the artifact refining genius Xiao Xiuyi had devoted his efforts solely to refining immortal artifacts over the years, never diverting his focus to refining other types of immortal artifacts or magical artifacts!

Chapter 1105: Uneasy Hearts, Luo Water Array (Part 2)

At this moment, seeing the special magical artifact of the Wine Immortal Sect, and thinking about the miraculous spirit wine refined by the Wine Immortal Sect, and recalling the various extraordinary immortal techniques of the Ten Thousand Laws Immortal Sect, Lin Xuankong couldn't help but secretly think: In this Golden Dragon Immortal Realm, talented geniuses emerge one after another. Although I now possess the strength to rival Demon Lord-level powerhouses of the Profound Yin Demon Sect, and have many miraculous trump cards, I must not underestimate the countless geniuses born from the vast and boundless Golden Dragon Immortal Realm, nor can I look down upon the myriad immortal techniques that have emerged over countless ages in the Golden Dragon Immortal Realm!

Of course, even if I have the confidence to contend with Demon Lord-level powerhouses of the Profound Yin Demon Sect, I still cannot underestimate those Demon Lords of the Profound Yin Demon Sect, who possess all sorts of strange demon techniques, for among the special demon techniques mastered by the powerful Demon Lords of the Profound Yin Demon Sect, there is more than just one Nine Gates Celestial Eye!

While Lin Xuankong pondered secretly,

Figures had already started flying up from the various Spiritual Peaks of the Wine Immortal Sect,

and a large number of disciples from the Wine Immortal Sect were climbing down from their respective Spiritual Peaks, heading towards the First Spirit Peak of the Wine Immortal Sect!

Before long,

a huge square outside Lin Xuankong's cave mansion had already gathered most of the Earth Immortals of the Wine Immortal Sect, as well as some Seventh, Eighth, and Ninth Grade genius juniors from various clans, such as the White-forehead Qilin, Cyan-forehead Qilin, Chi Liuxia, Guang Ling'Er, Little Linglong, a Ninth Grade Perfection Level genius of the Cyan Dragon Race, and Mao Rong, the Sect Master of the Wine Immortal Sect, among others.

The Great Success Jade Bright Bodhisattva of the Spirit Platform Buddhism brought the Galin Bodhisattva, along with the elder clan leader of the Qilin clan, to fall beside Lin Xuankong.

The numerous small cave mansions beneath the First Spirit Peak quickly filled with middle and low-grade genius juniors from various clans and disciples of the Wine Immortal Sect.

The elder clan leader of the Qilin Race glanced with some concern at the genius juniors of the Qilin Race,

seeing the presence of the Cyan-forehead Qilin, White-forehead Qilin, and other genius juniors of the Qilin Race, he relaxed slightly.

After giving a 'silence' look to the genius juniors of his Qilin clan, he turned to Lin Xuankong and the Strongest Immortal Lord Guang Yu'er, and spoke with some confusion:

"Immortal Lord Guang, Immortal Lin, suddenly asking Sect Leader Mao Rong of the Wine Immortal Sect to notify everyone of danger and quickly gather, is there some special situation discovered?"

Beside them, the Great Success Jade Bright Bodhisattva's eyes sparkled with light, already observing the surroundings.

The Strongest Immortal Lord Guang Yu'er glanced helplessly at Lin Xuankong and cupped his hands towards the elder clan leader of the Qilin Race, saying:

"I presume the elder clan leader already knows that the three armies of the Profound Yin Demon Sect have started moving, heading towards the Spiritual Crane Immortal Sect, and one of them is already approaching the southwestern defensive line of the Immortal Realm, and it seems a battle is imminent!"

The elder clan leader of the Qilin Race nodded slightly, "Indeed, Sect Leader Mao Rong has just sent someone to notify our Qilin Race!"

The Strongest Immortal Lord Guang Yu'er frowned and said, "However, from what I and Xuankong know, the armies of the Profound Yin Demon Sect have not only split into three routes to begin encircling the front lines of the Spiritual Crane Immortal Sect, but the Profound Yin Demon Sect also secretly dispatched another army. This army is now approaching our Wine Immortal Sect, likely having already learned about the gathering of genius juniors from various clans, specifically targeting the genius juniors from each clan!"

Upon hearing this, the elder clan leader of the Qilin Race's expression changed slightly, "Is there a route of the Profound Yin Demon Sect's army heading this way?"

On the huge square, many Earth Immortals of the Wine Immortal Sect, as well as numerous high-grade genius juniors from the Human Race of the Immortal Realm, the Unbounded Mountain Demon Race, and the Spirit Platform Buddhism, also tightened their expressions after hearing the words of the Strongest Immortal Lord Guang Yu'er and the elder clan leader of the Qilin Race.

Next, a low murmuring arose among the crowd,

"This shouldn't be happening! According to my master Immortal Lord Kunyuan, the information about the early transfer of genius juniors from each clan was kept within a very small scope, and everyone who knows this information should be trustworthy cultivators from each clan!" The little junior sister of the Strongest Immortal Lord Guang Yu'er, Guang Ling'Er, couldn't help but mumble in a low voice.

"Yes, even my father and mother didn't know about the early arrival of the twelve geniuses from my Python Tiger Race, let alone other clansmen. It must be the same with other clans. How can it be that the news leaked ahead of time, attracting an army of the Profound Yin Demon Sect?"

"It's truly despicable! Although the Profound Yin Demon Sect is powerful, they are ultimately an evil race. By the end of this Immortal Demon War, it should surely be our Immortal Realm's various clans

that win. Who on earth has already defected to the Profound Yin Demon Sect, doing such treacherous things that endanger countless clans of the Immortal Realm!"

"If the Profound Yin Demon Sect really dispatched an army, would there be any danger on our side? The Spiritual Crane Immortal Sect has nearly sixty Strongest Immortal Lord-level powerhouses, and nearly ten thousand Ninth Grade Perfection Level powerhouses, but our side..."

The genius juniors from various clans were considering this, with slightly grim expressions. One reason was the information leak, and the other was that the overall strength on their side was far inferior to the Spiritual Crane Immortal Sect's side. As a result, some genius juniors from certain clans suddenly felt that following the three Strongest Immortal Lord-level powerhouses here might not be a good idea.

Among the numerous genius juniors, only those who knew Lin Xuankong well, like Galin Bodhisattva, Cyan-forehead Qilin, and White-forehead Qilin, felt at ease without fear or tension after seeing that Lin Xuankong and Guang Yu'er appeared calm.

The elder clan leader of the Qilin Race then also activated his Immortal Yuan to observe the surroundings,

a moment later,

before the elder clan leader of the Qilin Race finished his observation, the Great Success Jade Bright Bodhisattva from the Spirit Platform Buddhism, whose eyes had flashed with brilliance, put his hands together and said:

"Immortal Lord Guang and Immortal Lin's means truly surprise Yu Ming. To think they were able to detect the approaching demonic qi of this army from the Profound Yin Demon Sect half a stick of incense time ago! Yu Ming used the Celestial Eye Divine Techniques cultivated for a hundred thousand years and observed for dozens of breaths before sensing that indeed, on the west side, there is the overwhelming demonic qi of the Profound Yin Demon Sect's army coming! This difference honestly cannot be compared. I wonder whether it was Immortal Lord Guang or Immortal Lin who observed the army of the Profound Yin Demon Sect in advance. Such means must be far superior to the Nine Gates Celestial Eye mastered by the First Demon Lord of the Profound Yin Demon Sect, Fan Yu!"

The Strongest Immortal Lord Guang Yu'er of the Guangqing Immortal Sect couldn't help but glance at Lin Xuankong upon hearing this, feeling a small sense of pride internally, and thought to herself: Humph, this is my husband, naturally his means are formidable, even though I still don't know how Xuankong managed to do it!

The elder clan leader of the Qilin Race, upon stopping his observation, shook his head and said, "Not mentioning the means of Immortal Lord Guang and Immortal Lin, the observational ability of the Great Success Jade Bright Bodhisattva's Celestial Eye Divine Techniques far exceeds the Qilin Eye Demon Technique of our Qilin Race. Even now, I cannot see the demonic qi of the Profound Yin Demon Sect's army on the west side! However, since the army of the Profound Yin Demon Sect has already approached, we should be prepared for any eventuality!"

Upon hearing the elder clan leader of the Qilin Race's words,

Sect Leader Mao Rong of the Wine Immortal Sect immediately waved his hand, and at the positions of the thirty-six array hubs around the First Spirit Peak of the Wine Immortal Sect, a spiritual light shot up to the sky and pierced straight into the sky, forming a semi-circular transparent light curtain in the sky surrounding the First Spirit Peak of the Wine Immortal Sect!

At this point, among the crowd, the Cyan-forehead Qilin couldn't help but speak, "The Luo Water Array pre-arranged here by Immortal Lord Luoshui, compared to the Nine-Layered Thousand Cranes Grand Array that I have learned, has hundreds of times more array patterns. Such a powerful grand array, even if the army of the Profound Yin Demon Sect this time had a dozen Demon Lords and thousands of Ninth-Grade Demon Artifact-level Demon Generals, it would still be extremely difficult to break through in a short time!"

Chapter 1106: Three Thousand Six Hundred Streams of Radiance

The great name of Immortal Lord Luoshui,

is well-known throughout the Golden Dragon Immortal Realm,

even if it doesn't quite match Lin Xuankong's recent meteoric rise, for thousands of years, this first genius in arrays, Immortal Lord Luoshui's reputation, has already been deeply ingrained in people's hearts!

At this moment, seeing the transparent light curtain of the Luo Water Array that Immortal Lord Luoshui deployed early rise around, those younger geniuses from various races and the many Earth Immortals and disciples of the Wine Immortal Sect all showed slightly softened expressions, relaxing somewhat from the tension caused by the news of the approaching Profound Yin Demon Sect army!

However, during this Immortal Demon War,

after all, the Profound Yin Demon Sect has fully committed,

and has gained some unknown terrifying Celestial Demon Power, so these younger geniuses from various races, although not as nervous as before, still cannot completely relax!

Many people continued to whisper quietly, discussing whether the decision to retreat early to the Wine Immortal Sect was wise...

Seeing these younger geniuses from various races still somewhat disorganized,

the Elder Clan Leader of the Qilin Race and the Strongest Immortal Lord Guang Yu'er both looked slightly somber.

After a moment of silence, the Elder Clan Leader of the Qilin Race suddenly activated his Immortal Yuan and shouted, "Ladies and gentlemen, do not worry. Here, we have me and the Great Success Yu Ming Bodhisattva, Immortal Lord Guangqing Guang Yu'er, Immortal Lin, and, moreover, the grand array personally deployed by Immortal Lord Luoshui Yaan Mingyu to protect us. Even if the Profound Yin Demon Sect army attacks, it is extremely difficult to break this array, and impossible to harm you under our protection!"

Upon hearing the Elder Clan Leader of the Qilin Race,

the younger geniuses from the various demon races of Boundaryless Mountain, including White-forehead Qilin, Cyan-forehead Qilin, and the Cyan Dragon Race genius Little Linglong, all quieted down.

They were naturally deeply aware of the abilities of the Qilin Race Elder Clan Leader, this old Qilin achieved the Strongest Immortal Lord Level over hundreds of thousands of years ago! Moreover, the demon race younger geniuses, including Cyan-forehead Qilin, White-forehead Qilin, and Cyan Dragon Race's Little Linglong, have either seen Lin Xuankong single-handedly repel numerous powerful warriors of the Ba Xia Race with their own eyes, or have definitely heard of it and thus have complete confidence in Lin Xuankong!

However,

the younger geniuses from the Immortal Realm Human Race couldn't help but start to murmur quietly,

for one, these younger geniuses from various Immortal Sects aren't particularly familiar with Lin Xuankong,

on the other hand, they're somewhat frustrated because these younger geniuses from various Immortal Sects came along with the Qilin Elder Clan Leader and others to the Wine Immortal Sect to escape the ravages of war, yet... trying to avoid it, now they're facing the mighty army of the Profound Yin Demon Sect, which undoubtedly vexes them.

"Had we known that hiding at the Wine Immortal Sect would still lead to a confrontation with the demon leaders of the Profound Yin Demon Sect, why did we hide here? At least over at the Spiritual Crane Immortal Sect, my Seven Spirits Immortal Sect has Elders and a Sect Master there, and there are strong members from the Divine Dynasty Immortal Sect, Guangqing Immortal Sect, Luo Water Immortal Sect, Spirit Platform Buddhism, and the Boundless Mountain Four Great Spirit Beast Clans. Here, though we have Elder Qilin Clan Leader, Great Success Yu Ming Bodhisattva, Immortal Lord Guang, and Immortal Lin, it's still somewhat lacking compared to the strength over there!"

"Exactly! How come the Profound Yin Demon Sect grasped the secretive news of us leaving the Spiritual Crane Immortal Sect so precisely? Otherwise, why would they specifically dispatch an army towards us? This is perilous!"

"Just afraid if the Profound Yin Demon Sect rallies their forces, it's not just one or two demon lords coming. If ten or eight elder demon lords come, I'm afraid even with Elder Yaan Mingyu's Luo Water Array, we can't withstand the joint assault of countless demon army!"

"If we're supposed to shelter here, they really should have sent more seniors to assist!"

"The way the Profound Yin Demon Sect is acting, it's clear they've entirely grasped the gathering of younger geniuses here, and know the Qilin Clan Leader Elder, Great Success Yu Ming Bodhisattva, Immortal Lord Guang, and Immortal Lin are here. Under these circumstances, Profound Yin Demon Sect sending an army can't be done hastily; surely they've prepared many people, and countless strong ones!"

The numerous younger geniuses from various Immortal Sects, having listened to the Qilin Race Elder Clan Leader's words, although not daring to loudly discuss, mumbled with faces full of anxiety, clearly lacking much confidence in the battle looming on the horizon!

The Qilin Race Elder Clan Leader and the Great Success Yu Ming Bodhisattva exchanged glances, both slightly furrowing their brows.

Though the words coming from these younger Immortal Sect geniuses were frustrating to the two, the discussions held some truth to them.

In that moment,

the Qilin Race Elder Clan Leader and the Great Success Yu Ming Bodhisattva felt disgruntled, yet powerless... Indeed, within their hearts, they harbored some concern because, according to the current circumstances, the Profound Yin Demon Sect certainly seems to have grasped the news of various racial young talents arriving at the Wine Immortal Sect; otherwise, how could they have specifically dispatched an army over? This suggests unwelcome intents, and there surely are numerous strong figures in the approaching Profound Yin Demon Sect army!

Just now, the words of the Qilin Race Elder Clan Leader,

could only be seen as attempts to reassure and encourage everyone; now, seeing that everyone's heart is already like a clear mirror, this Qilin Race Elder Clan Leader did not know what else to say!

Chapter 1107: 3,600 Streams of Radiance (Part 2)

At this moment,

standing beside the Qilin Race Elder Clan Leader, Lin Xuankong looked at the scene of various clan geniuses in the square engaged in lively discussion and couldn't help but shake his head slightly,

While Guang Yu'er, the strongest Immortal Lord of the Guangqing Immortal Sect beside him, leaned over and whispered with a frown: "According to the previous calculations of the Profound Yin Demon Sect, the army they dispatch this time might not just be targeting the young geniuses from various clans and sects, perhaps their main target is you!"

Lin Xuankong was rendered speechless upon hearing this.

However, there's indeed some logic in Guang Yu'er's words. After all, back when they were at the Spiritual Crane Immortal Sect, the Profound Yin Demon Sect sent so-called envoys, stating that if the Immortal Realm Human Race handed him over, they would stop this unprecedented Immortal and Demon War, even promising that humanity wouldn't need to worry about the Profound Yin Demon Sect's invasion for a million years. Later, they even incited as many as thirty-six Ninth Grade Perfection Level Earth Immortals from the Ten Thousand Laws Immortal Sect to launch a surprise attack on him, attempting to capture him!

It appears that perhaps this time the Profound Yin Demon Sect specifically dispatched an army towards the Wine Immortal Sect primarily to capture him...

Thinking to this point, Lin Xuankong no longer hesitated and immediately urged the Immortal Yuan within him, slightly raising his right hand, bringing the index and middle fingers together, while shouting: "Rise!"

Upon hearing this sudden shout from Lin Xuankong,

regardless if it was the Qilin Race Elder Clan Leader, Great Success Jade Bright Bodhisattva, or the strongest Immortal Lord Guang Yu'er, or even the countless young geniuses from various clans and sects in the square, they all looked at Lin Xuankong with some confusion.

In the next instant,

the Qilin Race Elder Clan Leader's eyes widened suddenly, and the Great Success Jade Bright Bodhisattva's brows raised slightly,

while a gleam of light flashed in the eyes of the strongest Immortal Lord Guang Yu'er, and the young geniuses from various sects and clans all froze in their gaze!

Because at this moment,

stream after stream of flowing light shot out from Lin Xuankong's sleeve,

each stream of light, as it shot out, carried with it the most condensed Immortal Yuan fluctuations, and they were clearly Third-grade Immortal Artifacts far exceeding ordinary Immortal Artifacts in level!

In less than a breath's time, the number of Third-grade Immortal Artifacts shooting out from Lin Xuankong's sleeve reached as many as three thousand six hundred, these three thousand six hundred Third-grade Immortal Artifacts floated above everyone's heads, continuously flashing various spiritual lights, continually generating layers of condensed Immortal Yuan fluctuations!

Three thousand six hundred Third-grade Immortal Artifacts...

Just a few years ago, throughout the entire Immortal Realm, only Sect Leader Qiu of the Divine Dynasty Immortal Sect possessed the singular Third-grade Immortal Artifact!

Even though Lin Xuankong had previously gifted several dozen Third-grade and Fourth-grade Immortal Artifacts to the strongest Immortal Lords of the Immortal Realm Human Race, still, how could several dozen Third-grade and Fourth-grade Immortal Artifacts compare to three thousand six hundred Third-grade Immortal Artifacts!

What's more, this was in a single breath, activating as many as three thousand six hundred Third-grade Immortal Artifacts, imagine the intensity of the Immortal Yuan fluctuations generated by so many flying Third-grade Immortal Artifacts?

Seeing such a scene,

the Qilin Race Elder Clan Leader couldn't help but touch the Immortal Artifact he always carried at his waist, this Immortal Artifact was a gift from Lin Xuankong when he was at Boundaryless Mountain, bestowed upon him and some other Qilin Race Demon Kings, an artifact of which the Qilin Race Elder Clan Leader was quite proud! After all, besides himself, the elder clan leader of the Qilin Race, and other demon kings of the Qilin clan, there were few demon clans within Boundaryless Mountain that could possess an Immortal Artifact!

But now... Looking at those three thousand six hundred flying Third-grade Immortal Artifacts, the Qilin Race Elder Clan Leader suddenly felt that the First-grade Immortal Artifact at his waist wasn't as impressive anymore!

As the elder leader of one of the Four Great Spirit Beasts, he had considered a First-grade Immortal Artifact a treasure for so many years, yet here was Lin Xuankong, Immortal Lin, who could simultaneously activate three thousand six hundred Third-grade Immortal Artifacts, just how monstrous was his Path of Artifact Refining!

While the Qilin Race Elder Clan Leader was astonished,

the always gentle Great Success Jade Bright Bodhisattva couldn't help but clasp his hands together, a noticeable gleam of surprise flashing in his eyes.

Although the Bodhisattvas of Spirit Platform Buddhism, especially this Great Success Jade Bright Bodhisattva, mainly focus on cultivating Buddhist Technique and do not pursue possessing numerous Immortal Artifacts or significant First or Second or even Third-grade powerful Immortal Artifacts, they couldn't help but be stunned by the spectacle before them!

The strongest Immortal Lord, Guang Yu'er, couldn't resist a low exclamation, then pouted and secretly thought: "Well, Lin Xuankong that guy... The one Immortal Artifact he gifted me before already made me so happy, yet it turns out he was hiding so many, it's infuriating, why didn't he give me a few hundred more back then!"

If even these three Immortal Lord Realm experts were so shocked, let alone those young geniuses from various clans and sects,

Among these young geniuses, some were disciples from top major sects like Guangqing Immortal Sect, Divine Dynasty Immortal Sect, and Luo Water Immortal Sect. They have, of course, witnessed many grand scenes, and even some disciples of the Divine Dynasty Immortal Sect have witnessed scenes of hundreds of Immortal Artifacts flying simultaneously. After all, gathering the foundations of the Divine Dynasty Immortal Sect can still assemble two to three hundred Grade-entered and First-grade Immortal Artifacts!

But the Immortal Artifacts of the Divine Dynasty Immortal Sect... Two to three hundred Grade-entered and First-grade Immortal Artifacts represents the strength of an entire sect, which simply cannot compare to Lin Xuankong, who alone tossed out three thousand six hundred Immortal Artifacts before them!

As for the disciples from other immortal sects and clans, the largest scenes and the best treasures they had ever seen in their lives pale in comparison to the astonishing scene before them!

"Oh my, my respect for Immortal Lin as the most admirable genius of Liangcai was thoroughly justified!

I originally thought that when Immortal Lin gifted several dozens of Third and Fourth-grade Immortal Artifacts to the Immortal Realm Human Race's powerhouses, it could already become the most shocking legend in the Immortal Realm! Who would've imagined that Immortal Lin was still hiding so many Third-grade Immortal Artifacts!"

"Tsk tsk tsk, this can only be believed when seen with one's own eyes... If someone else had told me that a person wielded three thousand six hundred Third-grade Immortal Artifacts in a single wave, I would think that person had lost their mind!"

"Heavens, over three thousand Third-grade Immortal Artifacts! They are actually all Third-grade Immortal Artifacts!

Truly, it's all about perspective: compared to others it's deadly, compared to goods it's worthless, my Seven Spirits Immortal Sect, forget Immortal Artifacts, can't even gather three thousand six hundred well-crafted Magical Artifacts!"

"Hahaha, doesn't your Seven Spirits Immortal Sect have a Second-grade Immortal Artifact, which even allowed you to expand your territory and become a top-tier immortal sect in Central State, don't belittle yourselves, hahaha!"

"Oh my goodness, can someone tell me just how strong Lin Xuankong's Path of Artifact Refining is!

The strongest in artifact refining in our Divine Dynasty Immortal Sect, Master Wan, known as the best in Central State, needs at least several months to refine even a Grade-entered Immortal Artifact, and years for a First-grade Immortal Artifact, without guaranteed success!

I've heard Lin Xuankong only joined the Spiritual Crane Immortal Sect for a few years, how on earth did he refine so many First, Second, and Third-grade Immortal Artifacts? I bet that if Master Wan, the top artifact refining master of our Divine Dynasty Immortal Sect, were here, he would probably kneel down on the spot and desperately beg Lin Xuankong to take him as a disciple!"

"Immortal Lin above,

I am a disciple of Nine-Star Immortal Sect, shamefully named Zhao Sancheng! Here I sincerely bow down, if Immortal Lin intends to take students, I am surely willing to be one, even if it means facing death and diving into the Demon Realm, I am willing to risk it!"

"I am Qian Tong, a disciple of Wanli Immortal Sect, willing to follow Immortal Lin anywhere, even if I must toil like an ox or a horse!"

At this moment,

it seemed the entire square was boiling over,

many young geniuses from various immortal sects and clans, looking at the sky filled with whirling, light-emitting Third-grade Immortal Artifacts, were overwhelmingly excited. Quite a few young geniuses, unable to contain the surging emotions in their hearts, knelt down on the spot.

Chapter 1108: Hundred-Layer Grand Array, the Demon Sect's Rising Power

It wasn't that the Strongest Immortal Lord Guang Yu'er of the Guangqing Immortal Sect had never seen the world,

nor that the Qilin Race Elder Clan Leader had never seen treasures,

still less that the Great Success Jade Bright Bodhisattva had too little experience,

nor that the present young geniuses of various sects and clans were too rash!

It's just that these young geniuses, who once stood high above, and the strongest immortal lords could never have imagined, nor anticipated, that the famous Immortal Lin Xuankong before their eyes was actually such a monstrous talent, wielding a third-grade Immortal Artifact as if waving a few thousand tree branches found anywhere, as if in Lin Xuankong's hands, third-grade Immortal Artifacts were worthless, and there were as many as desired!

In such a situation, how could everyone not be shocked, not be astonished to the point of being at a loss!

Of course,

these strongest immortal lords, and young geniuses from every immortal sect and clan,

did indeed guess correctly, because in Lin Xuankong's heart at this moment, third-grade Immortal Artifacts were indeed not worth much, and very not worth much!

The current Lin Xuankong, deploying so many third-grade Immortal Artifacts, was certainly not to show off in front of these young geniuses from each immortal sect and clan, but to set up a Grand Array!

And the number of Immortal Artifacts Lin Xuankong possessed, the high grade, had long exceeded the imagination of those present, Lin Xuankong did not use those other Immortal Artifacts, did not use those fourth, fifth, sixth, seventh, and eighth grade Immortal Artifacts in large quantities, primarily because, over the years, Lin Xuankong had spent most of his mind on cultivation and had not focused on

inscribing a large number of array patterns on those middle to high-grade Immortal Artifacts, making them unsuitable for array setup!

At this moment,

amid the shocked, emotional stirrings of the strongest immortal lords and young geniuses,

Lin Xuankong again lifted his right hand and waved, lightly exclaiming, "Luo Water Array, complete!"

Before the sound had completely fallen,

the 3,600 third-grade Immortal Artifacts flying in the sky began to fall into different positions, and during their flight, the positions where these third-grade Immortal Artifacts fell were extremely intricate yet orderly, as if at this moment, there were dozens of masters extremely proficient in the Path of Array Formation controlling those Immortal Artifacts simultaneously!

One must know, just moments ago, when Sect Leader Mao Rong of the Wine Immortal Sect ordered the array deployment, there had been thousands of disciples and Earth Immortals simultaneously controlling massive amounts of Immortal Yuan, each doing their own part, only then rapidly activating a pre-arranged Luo Water Array!

But the Lin Xuankong before everyone's eyes used his power alone to simultaneously arrange these 3,600 third-grade Immortal Artifacts without a fraction of error, precisely in place!

This kind of astonishing control is unparalleled throughout the entire Immortal Realm; there could never be two such people!

Even if Immortal Lord Luoshui, who personally instructed Lin Xuankong in the Dao of Arrays for a hundred years, were here, to arrange so many array hubs in such a short time would still be beyond his ability! It's not to say that Immortal Lord Luoshui Yaan Mingyu's Path of Array is inferior to Lin Xuankong's...

After all, Immortal Lord Luoshui Yaan Mingyu, with unmatched talent in the Path of Array Formation, was considered the first prodigy in Array Formation in the Immortal Realm for hundreds of thousands of years before Lin Xuankong, having studied the wondrous Luo Water Divine Diagram for thousands of years, and with the additional bonus of Lin Xuankong's Vigorous in Old Age Life Plate through his Wives, Children, Elders, and Youngsters talent, his progress in the Path of Array is certainly not slower than Lin Xuankong!

Lin Xuankong's strength lies in that he possesses one of the only two Supreme Divine Soul Realms in the Immortal Realm; it is precisely because of this that he can accurately activate each Immortal Artifact without a hint of error and simultaneously set up a large number of Luo Water Arrays!

At this moment,

each of the 3,600 Immortal Artifacts fell into their respective positions,

Lin Xuankong then lightly exhaled again, "Luo Water Array, protect!"

In an instant,

at the location of the First Spirit Peak of the Wine Immortal Sect, light flickered in the sky,

unexpectedly, as many as a hundredfold of the transparent light membranes of the Luo Water Array appeared simultaneously, protecting the First Spirit Peak of the Wine Immortal Sect completely!

Only until this moment did,

Lin Xuankong, who controlled those 3,600 Immortal Artifacts to set up the Luo Water Array, slightly exhale, with a smile on his face as he gazed at the countless young geniuses from various sects and clans in the plaza, "Everyone, now, with the addition of my master, Immortal Lord Luoshui's Luo Water Array, there are already 101 layers of Luo Water Arrays set up on top of the Wine Immortal Sect; in such a situation, presumably everyone is a bit more secure, and you don't have to worry too much about the Yin Demon Sect's demon sect army, right!"

"Damn!"

The others, those Strongest Immortal Lords and young geniuses from various sects and clans, were still in shock, but Lin Xuankong's little lover, the Strongest Immortal Lord Guang Yu'er couldn't help but whisper a curse.

That's a hundredfold Luo Water Array; all of it is arranged with third-grade Immortal Artifacts, and any single one would probably be stronger than the Luo Water Array set up by the senior Immortal Lord Luoshui Yaan Mingyu, after all, the Luo Water Array set up by the senior Immortal Lord Luoshui Yaan Mingyu was arranged with first-grade Immortal Artifacts...

Yet, Xuankong actually said, in this situation, presumably everyone is a bit more secure?

Is this a matter of being a bit more secure? This is a matter of being immensely more secure!

The Strongest Immortal Lord Guang Yu'er of the Guangqing Immortal Sect whispered a curse, then couldn't help but turn to look at Lin Xuankong, bursting into laughter,

this fellow, he must have said so on purpose, for sure, how showy, huh!

Yet, he's a show-off that people can't help but like!

Chapter 1109: Hundred-Layer Grand Array, Demon Sect's Rising Power (Part 2)

At this moment, those talented descendants from various sects and clans finally began to recover from their extreme shock,

among them,

standing at the forefront of the group was the Cyan-forehead Qilin, unable to hold back a loud roar, followed by hearty laughter, "Hahaha, truly lives up to being our Young Master! I told Sister Bai long ago, this time the Young Master came out after closed cultivation for so many years, and he would definitely make a grand move. Even I couldn't have possibly imagined that the Young Master would play such a perverse game! Hahaha, this is precisely a Hundred and One-fold Luo Water Array, incomparable to the Thousand Cranes Array of the Spiritual Crane Immortal Sect!"

Amid Cyan-forehead Qilin's excitement, beside him, the White-forehead Qilin also had an expression full of excitement,

that talented descendant Little Linglong from the Cyan Dragon Race couldn't help but float upward into the sky, approaching the light membrane of the Luo Water Array in the heavens. After inspecting for a while, she exclaimed:

"Immortal Lin is simply too strong! Even at Cyan Dragon Sacred Mountain, our Cyan Dragon Race has a Nine-Layered Clan Protection Array, personally arranged by Immortal Lord Luoshui Elder. But looking at the light membrane, array patterns, and fluctuations of this Luo Water Array before us, I can say with one hundred percent certainty that each layer of the Luo Water Array is no less than ten times stronger than a typical Nine-Layered Sect Protection Array!

Hahaha, even speaking of so many layers of the Luo Water Array, just one layer of it let alone, any Strongest Immortal Lord-level powerhouse attacking it wouldn't be able to break it within ten or eight years! A hundred and one layers, those demons of Profound Yin Demon Sect coming to attack, probably after fighting for a thousand years, wouldn't be able to break half of the array!"

Little Linglong's behavior of the Cyan Dragon Race talented descendant seemed to be infectious,

other talented descendants from various clans and immortal sects immediately followed suit, many floated into the air, approached the vicinity of the light membrane of the Luo Water Array, and began examining intently.

Amid the viewing, everyone expressed continuous admiration, even those talented descendants from top large immortal sects such as Divine Dynasty Immortal Sect, Luo Water Immortal Sect, Guangqing Immortal Sect were astonished beyond belief. Their conversations were filled with undeniable confirmation that any layer of the Hundred and One-fold Luo Water Array before them was nearly ten times stronger than the sect protection arrays of top large immortal sects!

Looking at those awe-struck talented descendants from various clans and sects,

Lin Xuankong secretly thought to himself:

Through over a hundred years, although I have devoted most of my energy to elevating my Immortal Path Realm and cultivating Guangqing Illusion Technique and Guangqing Cold Extreme Skill, thanks to the guidance from my master, Immortal Lord Luoshui, my proficiency in the Luo Water Array has long reached a level not far below my master herself! The arrays arranged by my master, Immortal Lord Luoshui, are revered as the strongest currently in the Immortal Realm, how could I, as her disciple, bring her any disgrace!

The defensive power of these Luo Water Arrays is indeed, as said by those talented descendants of various sects, more than ten times stronger than the sect protection arrays of other top immortal sects. This only accounts for the defensive capacity of the Luo Water Array; when compared to other sect protection arrays of those immortal sects, the offensive capacity of the Luo Water Array is equally ten times stronger! Moreover, the Luo Water Array possesses unique features that are unparalleled by the sect protection arrays of other top large immortal sects, which is its ability to influence the speed of Time Flow!

It's just because the impending battle is on the horizon, the effect of the Luo Water Array opening the influence of Time Flow requires vast energy consumption, hence these special functionalities of the Luo Water Array have not been activated!

While Lin Xuankong was secretly contemplating,

the elder clan leader of the Qilin Race sighed deeply, and cupped his hands toward Lin Xuankong, saying:

"As the saying goes, the younger generation surpasses the old. Compared to Immortal Lin, we old fellows indeed have fallen behind quite a bit! Just now the old man painstakingly endeavored, hoping those talented descendants from various immortal sects won't lose confidence, achieving minimal effect, yet Immortal Lin's demonstration has assured every talented descendant present completely! Not only these talented descendants, but even I, situated within a Hundred and One-fold Luo Water Array, feel extraordinarily safe!"

That Great Success Jade Bright Bodhisattva from Spirit Platform Buddhism clasped his hands towards Lin Xuankong with a smile, saying:

"Had we known earlier that Immortal Lin had already prepared 3,600 Third Grade Immortal Artifacts and could arrange a hundred layers of Luo Water Array with a mere wave of his hand, then this task of

safeguarding the talented descendants from various sects and clans wouldn't require me and the Qilin Clan elder, Immortal Lord Guang, Immortal Lin alone here is sufficient to fend off the million-strong army of Profound Yin Demon Sect!"

"A single person able to obstruct a million-strong Demon Sect army!

Elder Jade Bright Bodhisattva, Yu'er wholeheartedly agrees with your statement!

As for the Qilin Race elder clan leader's opinion about Immortal Lin that the younger generation surpasses the previous one, this little immortal also agrees very much!"

Seeing the always steady and highly respected elder clan leader of the Qilin Race and the Great Success Jade Bright Bodhisattva praising Lin Xuankong so much, the Strongest Immortal Lord Guang Yu'er felt tremendously pleased, immediately expressing agreement repeatedly.

Upon hearing Guang Yu'er speak so, Lin Xuankong couldn't help but feel speechless, what about the younger generation surpassing the previous one, if anyone else said this it would be fine, but Yu'er it's quite weird hearing it from you! How am I, the younger generation, pushing you the older generation?

While everyone was speaking,

the prior tense atmosphere atop the First Spirit Peak of the Wine Immortal Sect had already completely dissipated,

whether they were the talented descendants from various immortal sects and clans or those Earth Immortals and disciples of the Wine Immortal Sect, their faces were filled with hope at this moment. Some of the slightly impetuous Earth Immortals and talented descendants from various clans had already begun to anticipate, when the demon army of Profound Yin Demon Sect arrives, what kind of expression they will showcase upon seeing this Hundred and One-fold Luo Water Array!

....

Thirty thousand miles away from the Wine Immortal Sect, billowing dark Liuyun clouds were sweeping in from afar.

Standing each on these dark Liuyun clouds were burly figures clad in black battle armor, the demons of Profound Yin Demon Sect, among them, those with highly condensed demonic qi tended to float high in the sky, while those with slightly lesser demonic qi fluctuations drifted in mid-air!

However, among this army of flying demons as far as the eye can see, even those demons of Profound Yin Demon Sect with the poorest demonic qi fluctuations were all above First Grade, let alone First Grade Realm demons of Profound Yin Demon Sect which were relatively rare, most were powerful demons of Second and Third Grades, with a total quantity reaching several hundred thousand!

The astounding number of these "Earth Immortal-level" demons is beyond what any clans of Boundaryless Mountain could gather, even within the First Immortal Sect Divine Dynasty Immortal Sect of the Human Race, relying solely on one sect's power couldn't possibly gather such a terrifying number of Earth Immortal-level powerhouses, which truly demonstrates the reason why Profound Yin Demon Sect has been able to dominate the Immortal Realm for countless ages, oppressing numerous clans to the point of suffocation!

As this demon army was flying over, passing through several human race cities, numerous demons descended from the cloud tops quickly surveying those human race cities, any human race cultivators that hadn't managed to evacuate would be immediately rolled up by demonic qi and swallowed whole! Even the fleeing low-tier spiritual beasts, chickens, dogs, cows, sheep, flying insects, birds, and sparrows within those cities, the demons of Profound Yin Demon Sect would not miss any, swallowing all with demonic qi...

Every human race city along the route, after this demon army's swift passage, would immediately fall silent, without the slightest sign of living creatures, even the sounds of cicadas chirping and frogs croaking could no longer be heard!

The savage faces of those demons who devoured a multitude of living creatures showed rather satisfied expressions.

At this moment,

in the central position of this demon sect army,

there were twenty mighty demons as large as small mountains, riding on long carpets made from some unknown creature's fur, each meditating with closed eyes, seemingly uninterested by the human race cities and hidden low-tier cultivators intriguing those lesser demons!

However, when these twenty mighty demons as large as small mountains flew over a mountain ridge filled with green pines, one of them with seventy-two eyes suddenly opened two of its tightly shut demon eyes, looked towards a position in this mountain ridge, and immediately, a strand of demonic qi swept out from its demon body!

Chapter 1110: The Demon Sect's Shameless Schemes

At this moment,

countless black clouds were skimming over the mountain ridge.

The demons on those black clouds hadn't noticed anything unusual on the ridge, until a wisp of Demonic Qi burst forth from the Demon Lord-level master of the Profound Yin Demon Sect. Only then did the demons, demon soldiers, and demon generals on the black clouds show expressions of awe and hurriedly step aside!

That wisp of Demonic Qi from the Demon Lord-level expert of the Profound Yin Demon Sect quickly pierced through the black clouds, heading straight for a green pine on the ridge.

"Swoosh"

A soft sound was heard,

the green pine trembled slightly and was immediately penetrated by that wisp of Demonic Qi!

A fountain of blood spurted from the spot where the green pine was punctured, accompanied by a muffled groan from within the tree.

Immediately afterward, a rather graceful figure shot out from within the pine, rushing toward the Demon Lord of the Profound Yin Demon Sect operating in the high sky. Although the Immortal Yuan fluctuations from this figure were not very strong, the speed was frighteningly fast, approaching the escape speed that only an Eighth-Grade Earth Immortal could utilize!

Moreover, as the figure flew by, a wave of wine fragrance spread from where it passed, causing those who smelled the special wine aroma among the demons of the Profound Yin Demon Sect to involuntarily twitch their noses, showing expressions of intoxication. For a moment, not a single demon from the Profound Yin Demon Sect launched an attack on this Earth Immortal passing by them!

Such a peculiar escape speed, such a peculiar Immortal Technique,

brought a hint of curiosity to the eyes of the Demon Lord of the Profound Yin Demon Sect, whose eyes were filled with a chilling gleam.

The Demon Lord remained unmoved on the flying carpet. Suddenly, twelve of the densely packed demon eyes on its face opened wide,

and in the next instant,

each vertical pupil of the demon eyes emitted an arresting black light, striking the flying figure with terrifying speed.

"Sshh sshh sshh"

The Earth Immortal shooting forward couldn't dodge and was immediately hit by these twelve beams of demonic light, spraying Immortal Blood like a fountain, and its originally astonishing speed slowed down instantly.

It wasn't until then,

that the strange Profound Yin Demon Lord with seventy-two demon eyes extended a thousand-zhang-long arm and seized the Earth Immortal in its grasp, holding it between its fingers.

Gazing at the Earth Immortal who intended to ambush it, this Seventy-Two-Eyed Demon Lord laughed coldly, "Clearly at just Fifth Grade, but able to explode with such amazing speed due to that special Spirit Wine, such an interesting little Immortal Technique has piqued my interest!

However, your concealment technique is really poor. Do you really intend to deceive the experts of my Profound Yin Demon Sect with this ridiculous Secret Technique of controlling Immortal Yuan fluctuations?

Speak, who are you? Are you from the Wine Immortal Sect or some other Immortal Sect? How is this Spirit Wine brewed? If you speak quickly, I will let you die quickly!"

At this moment, the female cultivator held by the Seventy-Two-Eyed Demon Lord's claw was squeezed to the point where her Immortal Body creaked, and it seemed that if the Demon Lord applied a bit more force, this Fifth-Grade female cultivator's Immortal Body would completely shatter into a mist of blood!

But at this moment,

facing the certainty of death and feeling terrifying pain throughout her body, this female cultivator, clearly a spy from the Wine Immortal Sect, forced her Immortal Yuan to speak defiantly, "It's no use saying more, only death awaits. Since I dared to accept the mission and lay in ambush here to probe the movements of your Profound Yin Demon Sect, how could I possibly be someone afraid of death!

Upon seeing your Profound Yin Demon Sect's Demon Lords passing by, I planned to fight to the death, aiming to kill a few demons, and thus activated my Immortal Yuan, which is how you discovered me! If not, how could my Wine Immortal Sect's Invisibility Technique be detected by you foolish demons of the Profound Yin Demon Sect!"

Seeing that the female cultivator in its demonic claw was close to having her Immortal Body shatter and still so stubborn, this Demon Lord of the Profound Yin Demon Sect couldn't help but shake its head slightly, "Ridiculous, how do you know the terrifying methods within my Profound Yin Saint Sect, and how could I let you die so easily without telling me what I want to know!"

With that, the Seventy-Two-Eyed Demon Lord of the Profound Yin Demon Sect opened one of its demon eyes on top of its forehead, releasing a wisp of Demonic Qi to tie up the female cultivator from the Wine

Immortal Sect securely, and then turned to the Demon Lord in the center among the twenty Demon Lords, speaking with a touch of respect, "Brahma Desire Saint Master, since this female cultivator from the Wine Immortal Sect discovered us, she must have already sent the message back to the Wine Immortal Sect. It's estimated that the Great Success Jade Bright Bodhisattva, the Qilin Clan Leader, and Guang Yu'er who protect the tens of thousands of various younger generations at the Wine Immortal Sect have made preparations, and it's very likely they have already activated the Luo Water Array!

That Luo Water Array of Immortal Lord Luoshui, Yaan Mingyu, is reputed as the most powerful Sect Protection Array in the Immortal Realm, set up with numerous Immortal Artifacts as the Array Hub, and presumably has considerable defensive capabilities!

Under such circumstances, it's almost impossible to hide our traces and launch a surprise attack when approaching the Wine Immortal Sect, which makes it troublesome if the Great Success Jade Bright Bodhisattva, the Qilin Race Elder Clan Leader, and Guang Yu'er decide to defend the Luo Water Array in battle!

Moreover, if the Wine Immortal Sect has relayed the message in advance back to the Spiritual Crane Immortal Sect?"

Upon hearing the Demon Lord's words, the First Demon Lord Fan Yu, the most powerful of the Profound Yin Demon Sect, who was resting with his eyes closed, slightly shook his head and said:
