Chapter 1121: Suppressing Demons with One's Own Body (Part 2)

In the blink of an eye,

The myriad demon eyes on Celestial Eye Demon Lord's face astonishingly merged into a single, enormous red demon eye, situated right at the center of his forehead!

Coupled with Celestial Eye Demon Lord's colossal form towering over ten thousand zhang, this Celestial Eye Demon Lord now resembled the one-eyed behemoth of ancient human legends!

At this moment,

The Glazed Demon-Slaying Pestle in Great Success Yu Ming Bodhisattva's hand emitted endless Buddha's Light, which obliterated the demonic qi mass obstructing Celestial Eye Demon Lord, unleashing a brilliantly bright golden pillar of Buddha's Light shooting towards Celestial Eye Demon Lord's head with terrifying speed. Such overwhelming force seemed poised to render the head of this one-eyed monster into nothingness in an instant!

However,

The Celestial Eye Demon Lord, having completed the Demon Eye Fusion, let out another strange cry, and from the gigantic single eye at his forehead, a red beam filled with countless bizarre images shot forth, perfectly countering the oncoming golden pillar of Buddha's Light, removing the threat of Buddha's Light "smashing" onto his face!

What tightened the expressions of countless young geniuses within the Luo Water Array was the realization that,

This red beam emitting from Celestial Eye Demon Lord's forehead not only withstood the Glazed Demon-Slaying Pestle's attack, but continued to advance towards Great Success Yu Ming Bodhisattva while holding off the golden beam!

Within the golden pillar, the swiftly surfacing countless Buddhist Secret Patterns shattered rapidly under the attack of the red beam, unable to withstand its assault!

Most intriguingly,

All sorts of phenomena constantly manifested within that red beam, appearing immensely profound!

Within it, large stars continuously formed in the void, evolved and then rapidly declined, disintegrating into endless cosmic dust. Exotic beasts, unprecedented in the Golden Dragon Immortal Realm, appeared quickly within the red beam, maturing fast, then aging swiftly, turning into skeletons, which then decayed into dust, alongside various unusual spirit plants and objects never before seen in the Golden Dragon Immortal Realm, repeatedly surfacing within the beam. These spirit plants and objects grew rapidly, reaching towering heights, then underwent rapid cycles of flowering and fruition, followed by withering, snapping, and disappearing...

Mainly the red beam from Celestial Eye Demon Lord's single eye was so thick and massive. Every phenomena within the beam could be seen exceptionally clearly by every cultivator within the Luo Water Array!

The presence of such a strong, terrifying beam, continually erasing Great Success Yu Ming Bodhisattva's Buddha's Light, filled every cultivator with considerable surprise, causing a tremor in their hearts, their faces becoming somewhat tense.

The Qilin Race Elder Clan Leader standing beside Lin Xuankong, looking at the beam that rapidly obliterated Great Success Yu Ming Bodhisattva's Buddha's Light, couldn't help but frown and say:

"What peculiar demon technique! I've never faced this Celestial Eye Demon Lord, but over the hundreds of thousands of years, I've heard of this Celestial Eye Demon Lord numerous times!

I'm quite knowledgeable about its various demon techniques and methods, yet, I have never read or heard about this Celestial Eye Demon Lord possessing such magical pupil techniques outside of its known spiritual attack techniques!

What surprises people the most is that not only have I never heard of the Celestial Eye Demon Lord having such pupil techniques, but I've also never seen phenomena like those in the red beam, not even in the millions of texts in our Qilin Sacred Mountain. Or perhaps, these phenomena are not from our Immortal Realm?"

Upon this thought, the Elder Clan Leader of the Qilin Race seemed to think of something, his eyes changing as he looked towards Lin Xuankong and the Strongest Immortal Lord Guang Yu'er, only to find them looking back with frowns,

After exchanging glances, the two humans and the beast unexpectedly spoke in unison,

"Is this Celestial Demon Power at work?"

"Heavenly Demon Child Gang Bone's Celestial Eye Power?"

"Could this be the Demon Technique of Profound Yin Demon Sect Demon Lord modified by Celestial Demon Power?"

After speaking, a trace of worry appeared in the eyes of all three, especially the Qilin Race Elder Clan Leader.

After all, Lin Xuankong and Strongest Immortal Lord Guang Yu'er had, during a previous encounter at the Spiritual Crane Immortal Sect against the Ten Thousand Laws Immortal Sect Second Elder Sima Ling, heard from Sima Ling about the Profound Yin Demon Sect Demon Child Gang Bone receiving a thread of Celestial Demon Power, leading to some speculations beforehand!

Therefore,

Lin Xuankong and Strongest Immortal Lord Guang Yu'er now had some speculation, roughly guessing that the various phenomena displayed in the red beam by Celestial Eye Demon Lord might pertain to creatures and entities from the Supreme Origin Realm or other large worlds linked to the Supreme Origin Realm. As for the star births and deaths, exotic beast cycles, and the withering of spirit plants, it might be the manifest embodiment of that ancient Celestial Demon Thousand Illusion Saint Monarch's Curse of Time!

Even though they had some prior understanding,

Upon witnessing the Curse of Time phenomena borne of Celestial Demon Power, more unease filled the hearts of Lin Xuankong and Strongest Immortal Lord Guang Yu'er.

For this scene clearly validated Lin Xuankong and Guang Yu'er's worst fears, which were the Demon Child Gang Bone's complete metamorphosis of these Demon Lords' powers and techniques, each potentially possessing even stronger and more terrifying Demon Techniques after the Celestial Demon Power-induced metamorphosis!

Thinking of these, Lin Xuankong and Guang Yu'er naturally felt some unease in their hearts.

Although Qilin Race Elder Clan Leader wasn't aware of the phenomena's identity, possibly influenced by Celestial Demon Power, facing this strange occurrence, the Elder Clan Leader, without any hesitation, directly activated his Immortal Yuan, loudly shouting outside the Luo Water Array:

"Great Success Yu Ming Fellow Daoist, please be careful! This red beam isn't ordinary; it's best not to let it hit you!"

At this moment,

While exerting all her force activating the Immortal Yuan within her, wielding the Glazed Demon-Slaying Pestle, Great Success Yu Ming Bodhisattva naturally sensed the red beam's formidable and bizarre nature eroding her Buddha's Light!

Seeing her golden Buddha's Light pillar utterly unable to resist such a terrifying and bizarre red beam,

Great Success Yu Ming Bodhisattva immediately uttered densely the sound of a Buddhist mantra, reciting with a peculiar tone laced with a sorrowful compassion for the world,

In the next instant,

Great Success Yu Ming Bodhisattva's left arm unexpectedly detached right from the shoulder!

Her chant blared loudly in her voice, "...This disciple is willing to use her body to suppress demons...."

"Boom"

A thunderous crash,

The detached left arm of Great Success Yu Ming Bodhisattva abruptly disintegrated, turning into countless golden specks the size of sand grains!

That was an arm spanning three to four thousand zhang, hundreds of zhang thick, shattered into such tiny golden specks, likely numbering in the hundreds of billions!

Yet, such a massive amount of golden specks, exploding forth, showed not a trace of chaos, rapidly forming golden torrents, swirling ahead of Great Success Yu Ming Bodhisattva, constructing in front of her a solid, colossal golden shield with a diameter of ten thousand zhang, hundreds of zhang thick!

The shield bore countless Buddhist spirit objects like enormous Buddha statues, flying Bodhisattvas, twenty-four-leaf lotuses, golden alms bowls, golden wooden fishes, golden demon-slaying pestles, and so on. These spirit objects were not only vividly clear but also constantly traversing the golden shield, seemingly ready to fly out any time and transform into supreme Buddhist spiritual objects!

Upon witnessing this,

The immense eyes of the Qilin Race Elder Clan Leader revealed a hint of admiration,

"Great Success Yu Ming Bodhisattva has unexpectedly cultivated the Golden Body Demon Suppression Technique of Spirit Platform Buddhism to the realm of perfection? It's said even Great Success Yu Zhen Bodhisattva didn't cultivate this self-harming Buddhist Technique to perfection! Reportedly, this Buddhist Technique demands immense consumption, requiring depletion of countless Immortal Yuan and a portion of one's Immortal Body and foundation to be executed. Moreover, this Buddhist

Technique is the strongest defensively and offensively combined Buddhist technique within Spirit Platform Buddhism!

No doubt that such a formidable Buddhist Technique can surely withstand this bizarre demonic light from Celestial Eye Demon Lord!"

Chapter 1122: Great Accomplishment Buddha Tribulation

After listening to the Qilin Race Elder Clan Leader,

Lin Xuankong couldn't help but feel his heart sink, as he quietly activated the Immortal Yuan within his body.

He had great admiration for the Great Success Jade Bright Bodhisattva's formidable mastery of Buddhist Techniques, but given the current situation and the Qilin Race Elder Clan Leader's description, it was clear that this Golden Body Demon Suppression Technique was extremely costly in terms of energy! The Great Success Jade Bright Bodhisattva was evidently compelled to use this technique due to the terror posed by the Celestial Demon Power: Curse of Time!

However, the demonic technique wielded by the Celestial Eye Demon Lord clearly contained Celestial Demon Power; no one dared guarantee that the Golden Body Demon Suppression Technique could withstand such a terrible demonic technique!

On the other hand,

Although Lin Xuankong hadn't spent much time with the Great Success Jade Bright Bodhisattva,

the Bodhisattva's gentle personality and compassionate heart made it impossible for Lin Xuankong to just stand by and watch as the Bodhisattva suffered severe injuries, or worse, fell here!

But as soon as Lin Xuankong began circulating his Immortal Yuan,

the strongest Immortal Lord, Guang Yu'er, noticed it. She lightly stepped over and took Lin Xuankong's hand, transmitting a message, saying:

"There's no need to worry, Xuankong. The Great Success Jade Bright Bodhisattva has been renowned for over a hundred thousand years, their power is considerably stronger than my master, Immortal Lord Qiaan Yuan, and my senior uncle, Immortal Lord Kunyuan. They can almost compare to the foremost figures of the Immortal Realm such as Elder Qiu, Great Success Yu Zhen Bodhisattva, and Immortal Lord Luoshui. The Great Success Jade Bright Bodhisattva isn't going to be easily defeated by the Celestial Eye Demon Lord!

Furthermore, battles between the strongest Immortal Lords typically last for several days before a victor is determined. It's never over within the time it takes for one or two sticks of incense to burn!

Additionally,

the demonic technique used by the Celestial Eye Demon Lord, exhibiting unusual phenomena, clearly differs from what is recorded about their techniques, obviously infused with some Celestial Demon Power, potentially even the power of the Curse of Time!

In such a scenario, if the Great Success Jade Bright Bodhisattva happens to be unable to match the Celestial Eye Demon Lord, it's not your turn to act. I, along with the Qilin Race Elder Clan Leader, will surely intervene!

At the very least, not until we thoroughly understand the attack method of this Celestial Demon Power will I permit you to take any risks!"

Upon finishing, the strongest Immortal Lord, Guang Yu'er, gazed intently at Lin Xuankong, shaking her head gently at him.

After hearing what Guang Yu'er beside him said, Lin Xuankong felt warmth arise in his heart and mused to himself:

The Great Success Jade Bright Bodhisattva has been renowned for over a hundred thousand years, yet the Bodhisattvas of the Spirit Platform Buddhism are known for their peaceful minds and unique cultivation techniques. It's said that upon reaching the Great Accomplishment Bodhisattva Realm, they often possess a lifespan of one hundred seventy to eighty thousand years! Under these circumstances, even if the Celestial Eye Demon Lord's attack carries the Celestial Demon Power: Curse of Time, it shouldn't be able to cause the Great Success Jade Bright Bodhisattva to fall in a short time! Not to

mention that as a much more advanced cultivator than myself, I shouldn't underestimate the Great Success Jade Bright Bodhisattva!

At this thought, Lin Xuankong gradually relaxed the Immortal Yuan he had raised. Of course, Lin Xuankong felt able to relax, partly due to Guang Yu'er's reassurances and the Great Success Jade Bright Bodhisattva's strength, and most importantly because of the Great Reincarnation Technique he possessed!

With such an incomparably powerful Celestial Demon Technique, even if something unexpected happened, Lin Xuankong ensured that the Great Success Jade Bright Bodhisattva could safely reincarnate!

Thinking of this, Lin Xuankong focused his Heart Spirit, carefully observing the battle between the Great Success Jade Bright Bodhisattva and the Celestial Eye Demon Lord.

At this moment,

the beam of Buddha's Light emitted by the Glazed Demon-Slaying Pestle in the Great Success Jade Bright Bodhisattva's hand was nearing annihilation by the evil light of the Celestial Eye Demon Lord,

while the anomalous, mighty evil light of the Celestial Eye Demon Lord was steadily approaching the Great Success Jade Bright Bodhisattva, leaving less than three zhang remaining before reaching the Bodhisattva's being!

Within the Luo Water Array,

all the various clans and sects' young geniuses who were intensely observing the battle couldn't help but grip their weapons tightly and focus their Immortal Yuan,

Beyond their tension, a sense of helplessness arose within these young geniuses. After all, this was a battle involving the strongest Immortal Lord-level powerhouses; even with the best talents and strongest constitutions, they lacked the strength to intervene. It seemed their only option was to silently pray for the Great Success Jade Bright Bodhisattva and hope that he could triumph in this fierce battle!

Yet, it was evident that the Great Success Jade Bright Bodhisattva was at a disadvantage....

"Damn it, isn't this Celestial Eye Demon Lord of the Profound Yin Demon Sect ranked only twentieth among the Seventy-Two Demon Lords, hardly the most formidable? Meanwhile, the Great Success Jade Bright Bodhisattva is among the strongest three Bodhisattvas of Spirit Platform Buddhism, second only to Sect Leader Qiu of the Divine Dynasty Immortal Sect. With such a disparity in power, why is the Great Success Jade Bright Bodhisattva at a disadvantage?"

"Yes, indeed. Years ago, the Great Success Yu Zhen Bodhisattva nearly swept through the Profound Yin Demon Sect, causing the old demon lords to retreat. This Celestial Eye Demon Lord was once defeated by the Great Success Jade Bright Bodhisattva, whose Demon Eye was utterly destroyed by the Bodhisattva, greatly diminishing its strength. Why, then, is it now suppressing the Great Success Jade Bright Bodhisattva?"

Chapter 1123: Great Accomplishment Buddha Tribulation (2)

"Perhaps, it's the effect of that trace of Celestial Demon Power obtained by the Profound Yin Demon Sect?"

The demon technique of this Celestial Eye Demon Lord looks incredibly strange, completely unlike the demon techniques previously displayed by those demons of the Profound Yin Demon Sect!"

The young geniuses from various clans and immortal sects all looked anxious, whispering among themselves.

As everyone discussed, the wicked light of the Celestial Eye Demon Lord finally eroded all the Buddha's light pillars from the Glazed Demon-Slaying Pestle wielded by the Great Success Yu Ming Bodhisattva, directly shining onto the golden shield in front of the Great Success Yu Ming Bodhisattva!

The strange, evil red light beam,

Upon contacting the golden shield with its righteous Buddha's light,

A violent and endless power erupted from the point of contact between the red beam and the golden shield, spreading outward with terrifying speed!

That horrifying wave of energy dispersed rapidly over the Luo Water Array arranged by Lin Xuankong, within a fraction of a second, the numerous array patterns on the light membrane of the outermost layer of the Luo Water Array were obliterated, and the seemingly indestructible light membrane slightly dented inward, as immense explosive sounds transmitted from the outermost layer of the Luo Water Array!

Fortunately, the Luo Water Array, comprehended from the Luo Water Divine Diagram rumored to be an object of the Upper Realm, is far beyond a usual Nine-Layered Sect Protection Array in comparison!

Despite this destruction seeming capable of annihilating the heavens and earth, though many array patterns on the Luo Water Array's membrane were obliterated, it was still unable to pierce through the light membrane of the Luo Water Array, nor cause any damage to it, the membrane slightly dented due to the power quickly regained its shape!

Nonetheless,

The terrifying explosion sounds emanating from the membrane,

Caused the complexion of tens of thousands of young geniuses from different clans and sects on the First Spirit Peak of the Wine Immortal Sect to subtly change.

The Ninth-Grade Demon King Little Linglong of the Boundaryless Mountain Emperor Race, one of the Four Great Spirit Beasts, whispered, "Good heavens, such violent power! The residual power from the exchange between Great Success Yu Ming Bodhisattva and this Celestial Eye Demon Lord is truly terrifying. If I had been outside the Luo Water Array just now, I would have been blasted hundreds of miles away by this spreading power, with half of my scales shedding!"

I always thought that my grandfather, the Cyan Dragon Clan Elder, was immensely strong, but I never expected that the power of the Great Success Yu Ming Bodhisattva and this Celestial Eye Demon Lord would surpass that of my grandfather!

Thankfully, there's the Luo Water Array arranged by Immortal Lin; otherwise, just from this exchange alone, we observers here would have been seriously injured!"

The other young geniuses of the Demon Race behind the Ninth-Grade Demon King Little Linglong also kept changing their expressions, evidently intimidated by the terrifying battle between these top Immortal Realm powerhouses. Even though they're under the protection of Lin Xuankong's hundred-layer Luo Water Array, the vast gap between them and Great Success Yu Ming Bodhisattva and the Celestial Eye Demon Lord deeply shocked these young demon kings, typically high and mighty. Moreover, when accounting for the illusion attacks from the Celestial Eye Demon Lord earlier, the minds of these young demon kings had already suffered two major blows!

If the battle continues, it won't just affect these demon kings from the Boundaryless Mountain; even the human race of the Immortal Realm and those of the Spirit Platform Buddhism, who've never witnessed the Sect Leader of the Divine Dynasty Immortal Sect, Immortal Lord Luoshui, Elder Qiu, Great Success Yu Zhen Bodhisattva, and Great Success Yu Ming Bodhisattva in action, will suffer a demoralizing blow, their arrogance thoroughly worn down!

Indeed,

The battle indeed continues endlessly....

The red beam of the Celestial Eye Demon Lord, carrying waves of terrifying and strange power, relentlessly bombarded the golden shield in front of the Great Success Yu Ming Bodhisattva,

Despite appearing to be just a slightly thick beam of light, it seemed to come crashing down with the weight of ten thousand mountains, its terrifying and strange power causing the golden shield in front of the Great Success Yu Ming Bodhisattva to tremble vigorously, golden light scattering everywhere!

Dozens of breaths later, a change occurred again,

Behind the golden shield, the Great Success Yu Ming Bodhisattva seemed to sense something, her wide, angry eyes shifting as she gazed at the golden shield in front of her.

The golden shield seemed to be becoming dim rapidly, the Buddhist Spiritual Treasure anomalies on the shield swiftly changing, the once tall and imposing Buddhist White Elephant rapidly aged, its enormous white tusks darkened quickly, then fell from the mouth of the White Elephant; the vividly lifelike Buddhist Flying Bodhisattva statue also aged rapidly, transforming instantly from a plump and beautiful

Flying Fairy into a gray-haired old hag, the various Buddhist Spiritual Treasure anomalies began showing cracks that appeared only after the erosion of infinitely long years...

"Such power, how peculiar... Even the shield condensed from the Supreme Dharma Golden Body Demon Suppression Technique left by the Great Success ancestor cannot withstand it?"

Suspicion and amazement surfaced in the heart of the Great Success Yu Ming Bodhisattva.

Yet as the red beam of the Celestial Eye Demon Lord continuously attacked, seeing the state of the golden shield in front of her, the Great Success Yu Ming Bodhisattva had no time to ponder why the Celestial Eye Demon Lord possessed such strange abilities!

After a subtle change in her gaze,

A resolute look suddenly appeared in the eyes of the Great Success Yu Ming Bodhisattva.

In the next moment,

This renowned Great Success Bodhisattva of the Immortal Realm began chanting the Buddhist Mantra again, though the rhythm of the mantra was nearly identical to the previous one, it was much faster, and the chanting increased several folds!

Upon finishing the Buddhist Mantra,

Her enormous, magnificent Buddha Body began to glow with dazzling Buddha's light, emanating not from its surface, but from within, it appeared as if her Buddha Body contained an object on the verge of explosion!

From the top of the Great Success Yu Ming Bodhisattva's head, a myriad of Buddha's lights radiated, instantly traversing infinite distances, piercing the sky, reaching into the endlessly distant cosmic space!

This peculiar maneuver by the Great Success Yu Ming Bodhisattva caught the Demon Lords and Generals of the Profound Yin Demon Sect thousands of miles away by surprise,

The Soul Shifting Buddha Lord awkwardly remarked:

"With Junior Brother Tianyan's Celestial Eye Sacred Technique, amplified significantly under the influence of the Holy Son Gang Bone's Celestial Monarch's Power, possessing a trace of the Power of Laws that causes rapid aging of any target, this Great Success Yu Ming Bodhisattva's ability is indeed commendable, but she is by no means a match for the present Junior Brother Tianyan; her Buddha Bone and Buddha Soul are undoubtedly inescapable from calamity!

However, this maneuver of the Great Success Yu Ming Bodhisattva seems rather strange! Why would such a powerful Buddha's light aim at the empty sky?"

Upon hearing, numerous Demon Lords exchanged glances, shaking their heads slightly,

Only the First Demon Lord Fan Yu seemed to realize something, furrowing his brow, his eyes squinting as he gazed remotely at the distant Celestial Eye Demon Lord, uttering, "Soul Shifter, tell Tianyan to retreat! This Great Success Yu Ming Bodhisattva must be insane, she actually intends to invoke a Celestial Tribulation, triggering her Great Accomplishment Buddha Tribulation during the battle!"

"What? This unusual Buddha's light is the Great Success Yu Ming Bodhisattva about to trigger a Great Accomplishment Buddha Tribulation?"

"Insane, isn't she? Great Success Yu Ming Bodhisattva just lost an arm under Tianyan Senior Brother's attack, her Glazed Demon-Slaying Pestle also lost most of its power, in this weakened state, triggering a Celestial Tribulation is tantamount to courting death!"

"Haha, they've always said that the Great Success Bodhisattvas of the Spirit Platform Buddhism are a bunch of fanatics dedicated to Buddha; now it seems true! Yet, the Great Success Yu Ming Bodhisattva must be unaware that our First Saint Master has already uncovered her plans!"

All the Demon Lords immediately shook their heads, chuckling, engaging in discussions.

In their perspective, triggering a Celestial Tribulation during a great war, aiming for mutual destruction with the opponent, was undoubtedly lunacy; however, given that the First Demon Lord had uncovered it, her chances of success were slim to none!

Chapter 1124: The Mad Great Accomplishment Bodhisattva

At this moment,

The Celestial Eye Demon Lord, continuously releasing the red light pillar, seemed to sense something amiss,

Its forehead on the right side kept wriggling, quickly growing another demon eye, gazing towards the sky.

Only to see that deep in the sky, enormous and thick tribulation clouds were rapidly gathering,

These black tribulation clouds were different from the demon clouds formed by the demonic qi released by the Demon Sect demons. Hidden within these tribulation clouds were massive bolts of thunder and lightning, which were terrifying when they flowed like serpents. Each thunderbolt seemed capable of piercing the earth!

Although at this moment the tribulation clouds had not yet fully formed,

As this was the celestial tribulation faced by a pinnacle expert like the Great Success Jade Bright Bodhisattva,

How could it be the same as the tribulation clouds faced by ordinary Earth Immortals? Even though the tribulation clouds had not yet fully formed, the scary pressure they exerted already hindered the operation of Human Immortal Yuan, causing the demonic qi of the Yin Demon Sect demons to retreat within their demon bodies!

And at this time, the Soul Shifting Demon Lord had already sent a demon sound to the Celestial Eye Demon Lord, urging it to retreat swiftly...

In fact, as the tribulation clouds were gradually forming, even without the Soul Shifting Demon Lord's reminder, the Celestial Eye Demon Lord was already scared out of its wits, unwilling to linger any longer!

Because every cultivator knew well,

If an Earth Immortal is crossing a tribulation, others absolutely cannot come within a hundred miles of them. Otherwise, not only would they become targets of the celestial tribulation like the tribulation crosser, but the celestial tribulation would also increase in power, doubling or tripling its might due to additional targets!

Especially since this was the Great Accomplishment Buddha Tribulation of the Great Success Jade Bright Bodhisattva, the horror when the celestial tribulation descends would be unimaginable.....

The next instant,

The Celestial Eye Demon Lord let out a strange scream, the demon eye on its forehead abruptly closed, the red light pillar vanished instantly, and the Celestial Eye Demon Lord frantically operated the demonic qi within its body, using the fastest escape speed it could muster, retreating backward, hoping to evade a hundred miles away before the tribulation clouds fully unleashed their attack!

However,

The Great Success Jade Bright Bodhisattva, who intentionally triggered her Great Accomplishment Buddha Tribulation at this moment, wouldn't miss this chance to drag the Celestial Eye Demon Lord into "taking the beating" together!

"Celestial Eye, since you're here, why the panic, why flee like a house dog without a home!"

The majestic, clear voice of the Great Success Jade Bright Bodhisattva rang out, immediately her only remaining right arm on her Buddha body exploded, the Glazed Demon-Slaying Pestle it held also directly exploded, in an instant, tens of billions of golden light points appeared, transforming into two golden chains, directly extending a hundred miles, tightly binding the demon body of the Celestial Eye Demon Lord!

The demon body of the Celestial Eye Demon Lord was suddenly bound, the eyes on its forehead widened in shock, the demonic qi suppressed inside by the celestial tribulation's pressure surged out, continually attacking the two golden chains. The larger demon eye on its forehead emitted a red light pillar aimed at the golden chains,

At this moment, the Celestial Eye Demon Lord had long abandoned its intent to continue attacking the Great Success Jade Bright Bodhisattva, only thinking of eroding away the golden chains binding it, escaping alive, fleeing the range of the terrifying celestial tribulation's influence, escaping this somewhat insane Great Success Jade Bright Bodhisattva!

Unfortunately, despairing the Celestial Eye Demon Lord was,

Its densely concentrated corrosive demonic qi, as well as its red light pillar carrying a hint of Celestial Demon Power: Curse of Time, couldn't wear down the binding golden chains in a short time! Those golden chains were clearly condensed from the Golden Body Demon Suppression Technique of the Great Success Jade Bright Bodhisattva, akin to the previous golden shield, it might take several incense stick durations of the Celestial Eye Demon Lord's red light pillar to destroy!

But now, the celestial tribulation is descending, the terrifying tribulation clouds are rapidly forming, and multiple terrifying celestial tribulation attacks are soon to appear, how is there time for several incense sticks???

In a panic,

This Celestial Eye Demon Lord suddenly turned its head, roaring desperately towards the direction where the Yin Demon Sect army was assembled, "First Saint Master Senior Brother, Soul Shifting Saint Master Senior Brother, Ten Thousand Forms Saint Master Senior Brother, all senior and junior brothers quickly rescue me, quickly save me from here!"

This Celestial Eye Demon Lord has been famous for hundreds of thousands of years,

During these hundreds of thousands of years, it rampaged through the Demon Realm, frequently invaded the Human Race Immortal Realm territory, countless Human Race Earth Immortals and geniuses have died beneath its Celestial Eye, countless Human Race Earth Immortals and geniuses have been refined into its Celestial Demon Eye!

Its fierce reputation and power, formidable demon techniques, have been recorded in the annals of every Immortal Sect in the Immortal Realm Human Race, and even in the clan records of the Unbounded Mountain Demon Race!

It can be said, for hundreds of thousands of years, this Celestial Eye Demon Lord marauded through the Golden Dragon Immortal Realm, apart from having its Celestial Demon Eye destroyed by the Great Success Jade Bright Bodhisattva years ago, it almost never failed, what a figure of terrifying might!

Yet at this moment, this old demon, renowned for hundreds of thousands of years, in panic actually kept calling out, like a helpless young lady robbed by bandits....

If the Demon Race didn't lack tear glands, this old demon, renowned for hundreds of thousands of years, probably could cry for its Yin Demon Sect siblings to see!

Nevertheless,

Even though this Celestial Eye Demon Lord at this moment was full of fear, constantly howling, pleading for rescue from his Yin Demon Sect's First Demon Lord, Soul Shifting Demon Lord, Ten Thousand Forms Demon Lord, and various siblings, there wasn't a single demon lord or demon general who dared to come close, helping him break through the binding of the golden chains!

Chapter 1125: The Mad Great Accomplishment Bodhisattva (Part 2)

No other reason, only because these Demon, Demon General, and Demon Lord clearly understand,

as long as they dare to come close, or if the demonic qi carried by the demon technique they activate enters the range of the celestial tribulation, they will become the target of the Great Success Jade Bright Bodhisattva's celestial tribulation attack, and then endure several times the onslaught of the strongest immortal lord's celestial tribulation!

Perhaps these old-school demons of the Profound Yin Demon Sect have strong vitality and can survive their own celestial demon tribulations time and time again, but this doesn't mean that they can survive under the power of several times the celestial tribulation!

If they were confident of surviving under the power of several times the celestial tribulation, these Demon Lords would probably have ascended to the upper realm long ago, instead of being trapped in this Golden Dragon Immortal Realm...

Therefore,

these demons, demon generals, and demon lords of the Profound Yin Demon Sect,

looked from a distance at the Celestial Eye Demon Lord who was continuously wailing and struggling, and at the increasingly dense celestial tribulation clouds in the sky. Not only did they not help this fellow disciple, the Celestial Eye Demon Lord, they even activated the demon cloud together and retreated hundreds of miles...

Upon seeing this scene,

the originally frantically shouting Celestial Eye Demon Lord immediately shut his mouth, and a trace of resentment appeared in the massive single eye on his forehead!

At this moment,

this old-school Demon Lord, who had been famous for hundreds of thousands of years, finally gave up on shouting and then withdrew the red beam of the huge demon eye, stopping the attack on the golden light cable, and looked into the depths of the sky!

Helplessly, he has already started to prepare to accumulate demonic qi and power to resist the several times more powerful strongest immortal lord level celestial tribulation of the Great Success Jade Bright Bodhisattva!

However, after a few breaths, the Celestial Eye Demon Lord couldn't help but glance at the Great Success Jade Bright Bodhisattva, sneered, and said, "Yu Ming, you are really crazy, you actually want to drag me to fight against your Great Accomplishment Buddha Tribulation, but I am very curious, you must know that if both of us, two strongest immortal lord perfection level powerhouses, are under the tribulation cloud, it will definitely trigger a colossal, several times more powerful celestial tribulation!

But you are also injured at this moment...

At this time, if one of us can survive this tribulation, it's definitely the one who already possesses a trace of the Celestial Monarch's power, and not you, this half-dead fellow!

What are you thinking?

Do you want to let me, the Celestial Eye, prematurely transcend the tribulation and become a Celestial Monarch?"

The current Great Success Jade Bright Bodhisattva, upon hearing the words of the Celestial Eye Demon Lord, did not release the binding of the golden long rope. She activated the golden long rope formed by the Golden Body Demon Suppression Technique while slightly shaking her head, saying:

"Celestial Eye, that red beam you just unleashed is indeed extremely strong, seemingly containing a trace of the Buddha's power recorded in our Buddhist classics, or called the Celestial Demon Power, and it's the time-type Buddha power! Facing your Celestial Demon Power, even though I have long cultivated the Golden Body Demon Suppression Technique to perfection, I still can't resist it. Within the time of a few incense sticks burning, that trace of Celestial Demon Power of yours, relying on time annihilation, completely annihilated me!

In such a situation, if I continue to rely on the Golden Body Demon Suppression Technique to fight with you for several days and nights, I'm afraid the only outcome is that all my Great Accomplishment Bodhisattva's golden body will be completely consumed and annihilated by your bizarre Celestial Demon Power, and I will ultimately lose to you!

Of course, I don't want to lose to you like this!

After all, although I have long since lost any desire to win, I am still the only Great Success Bodhisattva in the Spirit Platform Buddhism who has a great chance of transcending the celestial tribulation by cultivating the Golden Body Demon Suppression Technique to the Perfection Realm. Even my renowned-in-the-immortal-realm Great Success Yu Zhen junior sister has never cultivated this Buddhist technique to the Perfection Realm!

If my Great Success Yu Zhen junior sister knows that even though I, the senior sister, have the Golden Body Demon Suppression Technique of the Perfection Realm, I was defeated by you, this Multi-eyed Little Demon, wouldn't it be disgraceful! Buddhist Bodhisattvas also care about face!

Hence, I can only do this, and simply drag you, this Multi-eyed Little Demon, to transcend my Yu Ming's celestial tribulation together!

My Golden Body Demon Suppression Technique, though unable to counter your Celestial Demon Power, there is indeed power in this Golden Dragon Immortal Realm that can counter your Celestial Demon Power!"

Upon saying this, the Great Success Jade Bright Bodhisattva looked up to the sky and smiled, saying:

"In the Immortal Realm, every cultivator is very clear that the celestial tribulation enables a cultivator's immortal body and divine soul to undergo one transformation after another, ultimately achieving the Strongest Immortal Lord Realm and then ascending to the upper realm. This is because the power of the celestial tribulation comes from the upper realm. Although full of destructive power, it can also temper the cultivator amidst destruction!

Precisely because the power of the celestial tribulation comes from the upper realm, it should also be able to deal with the Celestial Demon Power you can activate, Celestial Eye, don't you think?"

Upon hearing this, the Celestial Eye Demon Lord couldn't help but have his face twisted and shouted, "Crazy, crazy, truly crazy! You Spirit Platform Buddhists are all mad, to think of using the power of the celestial tribulation to deal with me. Don't you know that once the power of this celestial tribulation increases several-fold, even you will inevitably fall in the celestial tribulation, with tens of thousands of years of cultivation going up in smoke, and there would be no chance of ascending to the upper realm!

The Great Success Jade Bright Bodhisattva, upon hearing this, again smiled and said, "That's not necessarily true. Although my Golden Body Demon Suppression Technique cannot easily resist your Celestial Demon Power, it can constantly temper my golden body, divine soul, and Buddha elixir during the process of resisting the celestial tribulation! If the celestial tribulation comes even stronger, although the damage to my golden body becomes greater, the tempering effect is also better!

Although I am not sure I can definitely survive this celestial tribulation, I can be sure that you definitely have no chance of surviving it!"

Celestial Eye Demon Lord:

Upon seeing the Great Success Jade Bright Bodhisattva say so, the Celestial Eye Demon Lord simply fell silent, no longer saying anything or struggling hard.

On one hand, it is because he knows that at this time, no matter how hard he struggles, there is no chance of escaping the golden light cable before the celestial tribulation arrives. On the other hand, it's because he has already felt the terrifying destructive power contained within the celestial tribulation has vaguely locked onto him, meaning that even if he has a chance to escape the golden light cable, he cannot escape the celestial tribulation. No matter how he tries to flee, that terrible power in the celestial tribulation clouds will always descend upon him!

At this time, saying anything would be entirely useless. The only option is to gather all his strength and fight this unreasonable celestial tribulation!

On this side, the Celestial Eye Demon Lord fell completely silent,

while within the Luo Water Array, it was as lively as boiling water!

Those Earth Immortals and cultivators of the Wine Immortal Sect, those young geniuses from various immortal sects and clans, were all genuinely shocked by the "brazen" actions of the Great Success Jade Bright Bodhisattva!

They can hardly imagine that, in the face of the Celestial Eye Demon Lord's demon technique with the enhancement of the irresistible Celestial Demon Power, this Great Success Jade Bright Bodhisattva of the Spirit Platform Buddhism didn't choose to retreat or hide back in the Luo Water Array but instead "went crazy" by directly triggering her own celestial tribulation to compete with the Celestial Eye Demon Lord to see who can endure the tribulation!

"This is just... the Great Success Jade Bright Bodhisattva indeed doesn't fall short of being a Great Success Bodhisattva. Such a peculiar approach is really beyond the understanding of me, this little Cyan Dragon!"

"Alas, I'm afraid the Great Success Jade Bright Bodhisattva doesn't want to lose to the Profound Yin Demon Sect because this is the first battle between the immortals and demons from the Wine Immortal Sect's side!"

"In my opinion, it's not necessarily that, it's possible the Great Success Jade Bright Bodhisattva saw Immortal Lin set up a Hundredfold Luo Water Array, ensuring our safety is basically guaranteed, so she decided to give it her all!"

"Regardless, for the Great Success Jade Bright Bodhisattva to directly trigger a celestial tribulation to drive away the Celestial Eye Demon Lord, such fearless courage is really unmatched by us juniors!"

The many young talents from various clans and sects kept discussing. Some young talents from the Immortal Realm Human Race sighed with great emotion, while those from the Unbounded Mountain Demon Race were utterly confused, yet the little Bodhisattvas of the Spirit Platform Buddhism were full of reverence!

Chapter 1126: Lend Her a Helping Hand

As the young geniuses of various races and sects ponder and debate,

The elder clan leader of the Qilin Race continually changes his expression, sighs deeply, and says:

"From the Five States of the Immortal Realm,

to the countless Spirit Peaks of Boundaryless Mountain,

millions of Human Race and Demon Race cultivators focus wholeheartedly on the Dao, naturally seeking eternal life!

Even if eternal life is unattainable, these cultivators, myself included, all hope for some additional years!

Therefore, since the disappearance of high-grade Immortal Artifacts in the Immortal Realm, generation after generation of strongest Immortal Lord-level powerhouses only face their final celestial tribulations when they can no longer extend their lifespan.

For someone like the Great Success Jade Bright Bodhisattva, who boldly triggers her final celestial tribulation to protect the talents of various sects and races and to oppose the Profound Yin Demon Sect, she truly commands admiration!

However, triggering her final celestial tribulation so hastily suggests that there's a significant possibility the Great Success Jade Bright Bodhisattva might perish alongside the Celestial Eye Demon Lord, undoing tens of thousands of years of arduous cultivation in an instant!"

The elder clan leader of the Qilin Race is clearly moved by the actions of the Great Success Jade Bright Bodhisattva, his old Qilin eyes full of emotion and solemnity.

Evidently, just like the Demon Lords of the Profound Yin Demon Sect, the elder clan leader of the Qilin Race also believes that the Great Success Jade Bright Bodhisattva has little chance of overcoming her current celestial tribulation!

Beside Lin Xuankong, the strongest Immortal Lord Guang Yu'er shakes her head slightly, saying:

"Elder clan leader, there's no need to be so pessimistic; it seems to me the Great Success Jade Bright Bodhisattva, daring to trigger her final celestial tribulation at this moment, might have already prepared for it. Not to mention anything else, the powerful defensive ability of her Golden Body Demon Suppression Technique might just help her overcome this tribulation!"

"Let's hope so! If the Great Success Jade Bright Bodhisattva can overcome this final celestial tribulation, she will become the sole Immortal Lord-level powerhouse in tens of thousands of years to survive the final celestial tribulation within the entire Immortal Realm, Boundaryless Mountain, Spirit Platform Buddha Realm, Profound Yin Demon Realm, and other great domains! Yet since the disappearance of high-grade Immortal Artifacts in the Immortal Realm, no cultivator has overcome the final celestial tribulation in tens of thousands of years, and there have been nearly thirty strongest Immortal Lord-level powerhouses who fell directly to the final celestial tribulation!

That's the final celestial tribulation, the last barrier for all cultivators in this realm to ascend to the Upper Realm; it's not something that can be overcome easily!"

The elder clan leader of the Qilin Race clearly does not agree with Guang Yu'er's opinion.

At this moment,

Little Bodhisattva Galin of the Spirit Platform Buddhism, standing behind everyone, looks towards the Great Success Jade Bright Bodhisattva outside the Luo Water Array with a trace of concern in her eyes,

She clasps her hands together, reciting Buddhist scripture over and over, obviously praying for the Great Success Jade Bright Bodhisattva and hoping her Bodhisattva mentor can overcome this tribulation.

As for the young talented Little Bodhisattva disciples behind Galin, they also have solemn expressions, whispering Buddhist scripture with clasped hands. It's clear these talented young bodhisattvas from Spirit Platform Buddhism don't have much confidence that the Great Success Jade Bright Bodhisattva can overcome this tribulation, but they know that no matter how anxious or worried they are, their only recourse now is to recite scripture from afar. If anyone tries to help the Great Success Jade Bright Bodhisattva at this moment, not only would they fall within the range of the celestial tribulation's assault, but they would also amplify the terrifying force of the celestial tribulation several times over!

In that scenario, not only would they fail to assist the Great Success Jade Bright Bodhisattva, but they would also hinder her and sacrifice their own lives!

For a moment,

aside from the strongest Immortal Lord Guang Yu'er, Cyan-forehead Qilin, and a few other cultivators, the hearts of young geniuses from various races and sects, including those from the Wine Immortal Sect, grew heavy.

Although they wish for the Great Success Jade Bright Bodhisattva, the first to battle, to defeat the fearsome Celestial Eye Demon Lord, if she were to eliminate the Celestial Eye Demon Lord in a mutually destructive manner... No rational cultivator would be able to rejoice over that.

Moments later,

high above, a hundred miles from the Luo Water Array, above the Great Success Jade Bright Bodhisattva and Celestial Eye Demon Lord, the celestial tribulation clouds grow thicker and denser, containing increasingly terrifying forms of celestial tribulation!

Previously within these clouds, the celestial tribulation took the form of lightning as thick as mountains, roaming the cloudiness continuously; now, not only is the mountain-thick lightning becoming more frequent, but also emerging are hundreds of clusters of eerie blue flames, flickering in and out of sight, and even without having descended, the terrifying heat they radiate has already melted all peaks within a hundred miles below into magma and vaporized into a scorching atmosphere!

Moreover, within the celestial tribulation clouds, peculiar wind blades moving as swiftly as light have appeared, cutting the sky and creating cracks that split the turbulent air within in two!

Besides these, other astonishing phenomena are present, with liquid forming into the terrifying shape of Kunpeng and countless delicate golden needles fine as ox hair...

The strongest Immortal Lord Guang Yu'er, initially confident in the Great Success Jade Bright Bodhisattva, visibly changes color as these phenomena gradually appear, clutching Lin Xuankong's hand tightly, and says:

"The final celestial tribulation the Great Success Jade Bright Bodhisattva faces turns out to be the Five Elements Extermination Tribulation recorded in the annals!

Chapter 1127: Lending Her a Helping Hand (2)

It is said... it is said that such a terrifying Five Elements Extermination Tribulation once caused an unparalleled Earth Immortal from the Middle Ages, who possessed twelve Seventh-Grade Immortal Artifacts, to fall! Those twelve Seventh-Grade Immortal Artifacts owned by the unparalleled Earth Immortal were said to be able to form countless kinds of arrays, enough to withstand any celestial tribulation that appeared before the Middle Ages. Yet in the end, he still met with disaster, falling in the first appearance of the Five Elements Extermination Tribulation!

In the millions of years that followed, the Five Elements Extermination Tribulation has only appeared twice, and each time it brought an end to the unparalleled Earth Immortals who dominated their eras.

Therefore, it is called the Five Elements Extermination Tribulation, meaning this tribulation appears not for Earth Immortals to pass, but is specifically sent by the heavens to destroy Earth Immortals!

This, this, this... Even though the Great Success Jade Bright Bodhisattva is very powerful, she cannot possibly match an unparalleled Earth Immortal with twelve Seventh-Grade Immortal Artifacts. How could she be so unlucky to encounter such a terrifying celestial tribulation? Isn't there no longer the slightest possibility to survive this tribulation?"

At this moment, Lin Xuankong's face also changes slightly...

Looking at the various phenomena appearing within the clouds of celestial tribulation, even separated by the Luo Water Grand Array, without personally feeling the oppression brought by those terrifying phenomena, Lin Xuankong is utterly convinced that any one of the phenomena attacks within these clouds of celestial tribulation in front of him is hundreds or thousands of times more powerful than the tribulation he encountered when advancing from Eighth-Grade Earth Immortal to Ninth-Grade Earth Immortal!

And the various phenomena appearing in the clouds of celestial tribulation before him are as numerous as cattle hair... At this moment, even if there were ten thousand Ninth-Grade Earth Immortals near the clouds of celestial tribulation, they would absolutely be unable to withstand these terrifying powers and would certainly be annihilated in an instant when the power descends!

So, is this the final celestial tribulation that a Strongest Immortal Lord-level powerhouse would face?

But this is too abnormal!

This simply indicates that the heavens do not want anyone to successfully cross the tribulation!

Even though a Strongest Immortal Lord-level powerhouse is much stronger than a Ninth-Grade Earth Immortal, in the face of such terrifying power from a celestial tribulation, they are definitely going to fall directly!

At this moment,

Lin Xuankong is not even one hundred percent certain whether he can resist the terrifying power of the tribulation with the Ninth-Grade Immortal Artifact inside the Golden Patterned Ghost Frog Pouch around his waist! That immense power, enough to easily pulverize Eighth-Grade Immortal Artifacts using Ninth-Grade Immortal Artifacts, could resist a hundred, a thousand, or ten thousand attacks from such a tribulation. Yet, the terrifying phenomena nurtured within the clouds of celestial tribulation may be billions in number, so one Ninth-Grade Immortal Artifact likely cannot withstand them!

Now,

the Celestial Eye Demon Lord trapped nearby by the Great Success Jade Bright Bodhisattva, even if he is a Longevity Species with extremely strong life force, is definitely doomed.

But the Great Success Jade Bright Bodhisattva...

With furrowed brows, Lin Xuankong ponders,

As Strongest Immortal Lord Guang Yu'er couldn't help but flick her right hand, speaking with some concern: "Xuankong, if you were to activate the Luo Water Array Spirit of the Luo Water Grand Array at this moment to assist the Great Success Jade Bright Bodhisattva..."

Just as she says this,

the Qilin Clan Elder's face tightens, shaking his head repeatedly, "No, absolutely not. If Immortal Lin were to activate the Luo Water Array Spirit to assist the Great Success Jade Bright Bodhisattva at this moment, it would definitely draw the tribulation's attack on the Luo Water Grand Array, making all one hundred and one layers of the Luo Water Grand Array the target of the tribulation clouds' attack!

The terrifying Five Elements Extermination Tribulation in front of us, which has only appeared three times in the Immortal Realm over tens of thousands of years, possesses power of unimaginable terror. Even Seventh-Grade Immortal Artifacts are destroyed under its devastating attacks. If it were to attack the Luo Water Grand Array... No matter how solid the Luo Water Grand Array is, it probably cannot withstand the endless attacks of this terrifying tribulation!

Moreover, once Immortal Lin activates the Luo Water Array Spirit to approach within a hundred miles of the Great Success Jade Bright Bodhisattva, the power of this Five Elements Extermination Tribulation will certainly increase severalfold again. By that time, it will be too late for regret!"

Upon hearing these words, Strongest Immortal Lord Guang Yu'er slightly furrows her brows, sighing:

"Alas, this means that all of us can only watch helplessly as the Great Success Jade Bright Bodhisattva falls in this final tribulation, without a single bit of recourse?"

The Qilin Clan Elder says, "The Great Success Jade Bright Bodhisattva leads the tribulation upon herself, intending to slay this Celestial Eye Demon Lord for the safety of these young talents, and more importantly, to frighten various evil demons! Immortal Lord Guang, I naturally understand your feelings at this moment. Right now... we indeed can only watch helplessly, but following this, after the Great Success Jade Bright Bodhisattva falls, the Demon Lords of the Profound Yin Demon Sect will certainly become more frenzied. You, Immortal Lin, and I should plan well on how to face the subsequent battles!"

After finishing, the Qilin Clan Elder sighs repeatedly, his expression full of sorrow and helplessness.

At this moment,

Lin Xuankong's voice suddenly carries over,

"No matter the circumstances, we must still find a way to lend aid to the Great Success Jade Bright Bodhisattva!"

Upon hearing this, the Qilin Clan Elder and Strongest Immortal Lord Guang Yu'er both look toward Lin Xuankong, but they merely shake their heads slightly, clearly believing that even Lin Xuankong cannot have any means in the face of such a fearsome Five Elements Extermination Tribulation!

After all,

from their perspective,

although Lin Xuankong's path of Artifact Refining and Array Formation is unparalleled in strength,

the Luo Water Grand Array cannot be utilized, Immortal Artifacts can only be refined to Fourth Grade, and his own power is merely at the Fourth Grade Realm... Under such circumstances, how could Lin Xuankong possibly have a way? How could he lend aid to the Great Success Jade Bright Bodhisattva?

Little Bodhisattva Galin from afar, upon hearing Lin Xuankong speak, pauses her recitation of the Buddhist scripture, cups her hands in gratitude toward Lin Xuankong, saying:

"Immortal Lin has the heart, and Galin thanks you on behalf of Grandmaster Yu Ming! But Immortal Lin must not act impulsively, prioritizing his own safety. Grandmaster Yu Ming once told me that although Immortal Lin's path of Artifact Refining is unparalleled and kind-hearted, should he grow, even if he does not join the Spirit Platform Buddhism in the future, he will surely become a blessing for millions of cultivators in the Immortal Realm!"

Seeing Strongest Immortal Lord Guang Yu'er and the Qilin Elder Clan Leader both shaking their heads, along with Little Bodhisattva Galin echoing the sentiment,

Lin Xuankong can only feel somewhat helpless, and he shakes his head slightly, falling into silence.

Yet his Immortal Yuan already probes into the Golden Patterned Ghost Frog Pouch, landing upon one of the Eighth-Grade Immortal Artifacts within!

Since Guang Yu'er said that millions of years ago, the unparalleled Earth Immortal who first faced the Five Elements Extermination Tribulation had his twelve Seventh-Grade Immortal Artifacts destroyed by it, then he should simply forgo those Fifth, Sixth, and Seventh-Grade Immortal Artifacts altogether, instead directly using one of the thousands of Eighth-Grade Immortal Artifacts. Waiting for when the Great Success Jade Bright Bodhisattva is in danger, he would hand it to her. If it's not enough, he'd give several more; if even that fails, then he'll resort to the Ninth-Grade Immortal Artifacts—he cannot just watch the first Great Accomplishment Bodhisattva representing the Immortal Realm in battle fall before him, remaining indifferent!

Just as Lin Xuankong has resolved this in his mind,

The dim sky outside suddenly brightens immensely, as two gargantuan, mountain-like thunderbolts from the tribulation clouds split through the air, revealing their enormous bodies, shooting toward the locations of the Great Success Jade Bright Bodhisattva and the Celestial Eye Demon Lord!

Seeing that he can no longer avoid it, and must face the terrifying Five Elements Extermination Tribulation alongside the Great Success Jade Bright Bodhisattva,

the Celestial Eye Demon Lord finally bites his teeth with an indignant expression, as the massive Demon Eye in the center of his forehead suddenly opens wide, emitting a thick red beam aimed at the first celestial tribulation lightning bolt! The demon technique empowered by the Celestial Demon Power, originally meant to claim the life of the Great Success Jade Bright Bodhisattva, is forced to resist the Five Elements Extermination Tribulation, leaving the Celestial Eye Demon Lord feeling utterly anguished and hopeless!

Meanwhile, the Great Success Jade Bright Bodhisattva rapidly chants a Buddhist mantra,

In an instant, the two golden light cords entwining the Celestial Eye Demon Lord and rendering him immobile swiftly retract to the Great Success Jade Bright Bodhisattva's front,

Then those two golden light cords transform into two enormous golden shields adorned with various Buddhist phenomena in a supremely brief moment, perfectly intercepting that first celestial tribulation lightning bolt between them and the Great Success Jade Bright Bodhisattva in the nick of time!

Within the protective membrane of the Luo Water Grand Array,

Lin Xuankong activates his Immortal Yuan, keeping a focused eye on the Great Success Jade Bright Bodhisattva's front, ready at any moment to toss an Eighth-Grade Immortal Artifact from inside the Golden Patterned Ghost Frog Pouch!

Chapter 1128: The Shameless Power of the Five Elements Catastrophe

"Zzzz..."

The red light beam released from the gigantic Demon Eye of the Celestial Eye Demon Lord,

along with the terrifying Divine Thunder descending from the heavens,

each carried immensely horrifying power, suddenly colliding together, producing strange sounds that made one's teeth ache, instantly spreading hundreds to thousands of miles away!

The red light beam released from the Demon Eye of the Celestial Eye Demon Lord,

had previously in the battle with the Great Success Yu Ming Bodhisattva, already revealed its terrifying power after being enhanced with the Celestial Eye Demon Technique and the Celestial Demon Power, even against the Buddha's Light unleashed by the Glazed Demon-Slaying Pestle enhanced by ten thousand years of cultivation by the Great Success Yu Ming Bodhisattva, it was extremely difficult to resist this red light beam, as its power would be rapidly eroded away!

However,

when facing the Five Elements Extermination Tribulation,

when facing one of the most terrifying of the legendary Celestial Tribulations, the Tribulation Thunder,

that red light beam, which seemed capable of destroying everything, making any Buddhist Technique, Immortal Technique, or Treasure instantly decay, was unable to produce even the slightest reduction in the power of the pure white Celestial Tribulation Thunder!

However, this was after all the first Celestial Tribulation attack of the Five Elements Extermination Tribulation, the weakest attack at the very beginning of the entire Celestial Tribulation, so, even though the red light beam could not produce any decay effect on the Celestial Tribulation Thunder, it still withstood that mountain-like Celestial Tribulation Thunder, causing it to twist continuously and gradually shorten!

Seeing the first Celestial Thunder of the legendary terrifying Five Elements Extermination Tribulation blocked by itself and slowly blasted back, the other Demon Eye on the forehead of the Celestial Eye Demon Lord did not show any hint of delight.

Because the Celestial Eye Demon Lord, who had survived several Celestial Demon Tribulations, knew too well!

Next, not to mention the other phenomena of the Five Elements Extermination Tribulation, just this Celestial Thunder strikes, would definitely be one more terrifying than the other, one more ferocious than the other...

But how could the Celestial Eye Demon Lord simply give up resisting at such a time? The life of a Demon Lord who ran rampant for hundreds of thousands of years was too comfortable, and to it, that mad thrill of doing as it pleases is unimaginable to the cultivators of the Human Race in the Immortal Realm... The higher one stands at the top of the world, the longer one lives, beings like the Celestial Eye Demon Lord desire even more to continue living!

Damn it, Great Success Yu Ming Bodhisattva!

Insane Great Success Yu Ming Bodhisattva!

Damn it, is living well not good enough?

At this moment,

the Celestial Eye Demon Lord suddenly felt a tinge of regret, regretting that after its metamorphosis through the Celestial Demon Power of the Demon Child Gang Bone, its confidence had swelled too much, believing that it could win against anyone, even against the Great Success Yu Ming Bodhisattva, Great Success Yu Zhen Bodhisattva, and even Sect Leader Qiu of the Divine Dynasty Immortal Sect!

Who could have imagined!

The Great Success Bodhisattvas of Buddhism would be so crazy that they couldn't fight without dragging me to die together, shameless, absolutely shameless, more shameless than the Saint Masters of our Profound Yin Saint Sect!

Amid the depression,

as the Celestial Eye Demon Lord resisted the first Celestial Tribulation Thunder, it glanced toward the Great Success Yu Ming Bodhisattva's direction.

At this moment near Great Success Yu Ming Bodhisattva,

the first Celestial Tribulation Thunder of the Five Elements Extermination Tribulation had also struck the golden shield formed by the Buddha Body of Great Success Yu Ming Bodhisattva!

"Zzzzziii..."

The ear-piercing sound constantly echoed on that golden shield filled with countless Buddhist Phenomena, the terrible power carried by the Celestial Tribulation Thunder kept the shield shaking continuously!

However, much to the Celestial Eye Demon Lord's depression,

although the first Celestial Thunder of the Five Elements Extermination Tribulation carried much greater power than the ordinary final Celestial Tribulation, it did not have the bizarre power of the Curse of Time carried on its own red light beam, which could not rapidly age and dissipate the Buddhist Treasure Appearance on that golden shield, so, even though the Celestial Tribulation Thunder kept striking that golden shield, it kept trembling, yet showed no signs of breaking anytime soon!

The Celestial Eye Demon Lord even realized,

as the first Celestial Tribulation Thunder continued to strike,

the Buddha's Light on that golden shield seemed to become even brighter...

Damn it! Damn it indeed!

This Golden Body Demon Suppression Technique of the Great Success Yu Ming Bodhisattva, although not proficient in resisting the powers of the Curse of Time, appears to have a slightly stronger defense against the direct impact of this Celestial Tribulation power than a Middle-Low Grade Immortal Artifact!

Thinking about this, the Celestial Eye Demon Lord became even more frustrated, wishing it could immediately give up resisting the Celestial Tribulation Thunder and use the red light beam from its Demon Eye to continue attacking Great Success Yu Ming Bodhisattva...

But,

after careful consideration,

the Celestial Eye Demon Lord ultimately gave up on this impulsive "perish together" thought!

Perhaps... it was because it hoped to survive this terrifying Five Elements Extermination Tribulation more than the Great Success Yu Ming Bodhisattva!

After a few dozen breaths,

the body of the first Celestial Tribulation Thunder gradually dispersed from the clouds,

the Celestial Eye Demon Lord, a renowned old Demon Lord of hundreds of thousands of years, had, with the metamorphosis of the Celestial Demon Power from the Demon Child Gang Bone, finally demonstrated the capability of an established Demon Lord, thoroughly dispersing the first Celestial Tribulation Thunder!

On the other side,

Great Success Yu Ming Bodhisattva, with two golden shields above its head, also completely dissipated all the power of the first Celestial Tribulation Thunder!

In mid-air,

these two old rivals who had fought countless times tens of thousands of years ago glanced at each other,

the corners of the Celestial Eye Demon Lord's eyes twitched slightly, suppressing the outrage and helplessness in its heart, a cold snort, "Great Success Yu Ming, you yourself are not a match for my Celestial Eye, and you think that by triggering the Celestial Tribulation, you can perish together with me. You underestimate the established Saint Masters of the Profound Yin Demon Sect too much, and all the enhancements that the Holy Son Gang Bone brings us established Saint Masters, you regard as insignificant!

Chapter 1129: The Shameless Might of the Five Elements Calamity (Part 2)

"This time, you are destined to fall in the Five Elements Extermination Tribulation, while I, with the Celestial Eye, shall cross this final Celestial Tribulation and become one of the powerful Celestial Demons of the Upper Realm!"

The Celestial Eye Demon Lord was clearly talking nonsense!

If facing a regular final tribulation,

Even though the tribulation's power would multiply several times due to two individuals within its range, the Celestial Eye Demon Lord might have a hint of confidence, using the Demon Race's longevity species' vigorous life force to barely survive!

But this time, appearing before their eyes was indeed one of the most terrifying three tribulations in countless eras of the Golden Dragon Immortal Tribulation, known as the Five Elements Extermination Tribulation, and none of the powerful Earth Immortals have ever succeeded in overcoming it!

Such a tribulation, how could the Celestial Eye Demon Lord possibly fully pass through it!

These words now, of course, were because the Celestial Eye Demon Lord was exceedingly frustrated, so... just indulging in some verbal satisfaction, to demoralize the heart of the Great Success Jade Bright Bodhisattva opposite, preferably causing this mad Great Success Jade Bright Bodhisattva to die before him, so that at least before falling, the Celestial Eye Demon Lord's mood would improve a little!

Unfortunately,

Hearing these words from the Celestial Eye Demon Lord,

The Great Success Jade Bright Bodhisattva showed no signs of emotional disturbance, instead an expression of a slight smile emerged on the face that was previously wide-eyed in anger,

"I indeed do not have full assurance to pass through this final tribulation, given that it is the Five Elements Extermination Tribulation. However, for me, being able to perish under the Five Elements Extermination Tribulation is still an honorable way to die, at least the annals of my Spirit Platform Buddhism will record that I, the Great Success Yu Ming, will be the fourth to die under this Five Elements Extermination Tribulation's power! But, based on my understanding of your Demon Sect, at this moment your Celestial Eye is probably filled with indignation, frustration, and hatred!"

"Heed my counsel, letting go of the indignation and hatred from your heart is the right choice, otherwise, after falling, upon reincarnation, you will likely still carry the karma, making it inevitable to become a demon in the next life!"

After speaking, this Great Success Jade Bright Bodhisattva, amidst a lethal crisis, instead displayed extreme calmness, ignored the exceedingly frustrated old demon opposite, and turned away towards the tribulation clouds overhead.

The Celestial Eye Demon Lord was further agitated by this admonition from the Great Success Jade Bright Bodhisattva,

It's a pity,

Before he could say anything further,

The tribulation clouds above had already begun to roll violently!

In the next instant,

A total of twenty-four terrifying Celestial Tribulation Thunder bolts, just like the one before, suddenly emerged from the clouds, winding and twisting, shooting towards the Celestial Eye Demon Lord's location! On the other side, in the Great Success Jade Bright Bodhisattva's location, similarly, twenty-four bolts of tribulation thunder simultaneously struck down!

"Damn it, dead! Surely it's the vicious and ruthless Five Elements Extermination Tribulation, just beginning the second wave of tribulation attack, it has already turned into twenty-four bolts, increasing in power by twenty-four times. If this goes on, how terrifying would the third wave be, and what will the fourth wave be..."

The Celestial Eye Demon Lord's mind only had time to raise this exceedingly frustrating thought before he had to summon his entire concentrated demonic qi, and from the position of the large Demon Eye on his forehead, shot out a vastly thick red beam, facing those twenty-four terrible tribulation bolts!

In the blink of an eye,

The twenty-four tribulation bolts,

Had been entirely held back by the Celestial Eye Demon Lord using a surprisingly clever route with a single red beam!

Being a demon of tens of thousands of years, the Celestial Eye Demon Lord naturally had his own strengths!

After the red beam and tribulation thunder came into contact, a deafening "zzzzzzzzzz" sound once again erupted from the sky!

But this time, there was a difference from the last,

The first tribulation bolt consisted of only one bolt, quickly repelled by the red beam from the Celestial Eye Demon Lord's Demon Eye, rapidly dispersing unseen!

This time,

A full twenty-four terrible tribulation bolts raced together,

Even though the red beam from the Celestial Eye Demon Lord contained terrifying power, it could no longer easily suppress so many terrible tribulation bolts!

Although during the continuous shooting of the red beam, it still held the twenty-four bolts at bay, it was unable to further press these many bolts back or curve them quickly, the only thing the red beam could achieve was to hold the twenty-four tribulation bolts' attacks in mid-air!

On the other side, the Great Success Jade Bright Bodhisattva was also barely enduring,

Her two golden shields, emblazoned with countless Buddhist Treasure Appearances, amid twenty-four simultaneous tribulation strikes, kept being worn away, while the Buddha's Light was completely suppressed!

Seeing this sight, the Great Success Jade Bright Bodhisattva couldn't help but slightly shake her head,

Though the Golden Body Demon Suppression Technique was indeed the Spirit Platform Buddhism's foremost offensive and defensive Buddhist technique, it may have some sharpness when facing ordinary final tribulations, but against such shamefully powerful Five Elements Extermination Tribulation, it seemed somewhat inadequate!

However, having reached this point, the Great Success Jade Bright Bodhisattva's heart held not a shred of regret, instead her mouth slightly curved into a compassionate smile, as a melodious Buddhist scripture chant continued to echo from her lips.

Within the Luo Water Array,

Every cultivator's face constantly changed, seemingly shaken by the Five Elements Extermination Tribulation before them!

It was quite normal actually,

These young geniuses from various Immortal Sects and clans, although of supreme talent, they were young and had never witnessed such a terrifying, despair-inducing tribulation!

"This doesn't seem right! I remember when I advanced from the Eighth Grade to the Ninth Grade Earth Immortal, the tribulation I faced was strong and terrifying, but during the second wave of thunder strike, the descending thunder changed from one bolt to two! But now in this tribulation of the Great Success Jade Bright Bodhisattva, it suddenly changes from one bolt in the first wave to twenty-four bolts in the second wave?"

"Oh my! What kind of tribulation is this?"

Must a Strongest Immortal Lord level power confront such a dreadful tribulation when attempting ascension to the Upper Realm?

The tribulation has just begun its second wave and already become so dreadful, what level of terror will the third wave, fourth wave, up to the eighth wave, ninth wave reach? Is this really a tribulation that cultivators from our Immortal Realm can pass?"

"Look, I seem to have seen a description of this tribulation in the sect's ancient texts, it's called the Five Elements Extermination Tribulation? Should be right! It's said under this tribulation, no Earth Immortal in the Immortal Realm has ever been able to pass!"

"Extermination Tribulation? Impossible, how could there be a tribulation called by cultivators like this!"

"Looks like the Great Success Jade Bright Bodhisattva seems to be struggling more than the Celestial Eye Demon Lord! In the end, could it be that damned shameless demon crosses this tribulation, while the Great Success Jade Bright Bodhisattva fails to pass?"

"Shh shh shh, what a jinx! Which side are you on, not hoping for the Great Success Jade Bright Bodhisattva to pass this tribulation, but rather hoping that the old demon makes it across?"

The young geniuses discussed fervently, most cultivators had never seen or heard of this Five Elements Extermination Tribulation before, the escalating terror of the tribulation before them had greatly exceeded these young talents' expectations from each sect and clan!

At the forefront,

Little Bodhisattva Galin stood behind Lin Xuankong, gazing from afar at the increasingly strained Great Success Jade Bright Bodhisattva, the worry in her eyes growing more intense, even a hint of despair emerging on her face.

Having just entered the second wave, her aunt was already struggling so much, does she truly have a chance to withstand all nine waves of the Five Elements Extermination Tribulation?

It seemed highly likely this time, her aunt will surely fall!

Thinking of this, Little Bodhisattva Galin couldn't help but glance at Lin Xuankong, silently pondering: Just now Immortal Lin mentioned planning to lend her aunt a helping hand, can he really do it?

At this moment, even the Strongest Immortal Lord Guang Immortal Lord and the Qilin Race Elder Clan Leader are powerless! Immortal Lin cannot manipulate the Luo Water Array, how could he have a way to assist her aunt, alas, it's the chaos from concern making me think too much, isn't it!

Chapter 1130: Celestial Spirit Fire

At this moment, Little Bodhisattva Galin was indeed troubled by her concerns, and despite her mindset cultivated over thousands of years, she was equally unsettled.

However, the terrifying thunder power of the Five Elements Extermination Tribulation did not diminish in the slightest due to Little Bodhisattva Galin's worries and unrest!

Those twenty-four terrifying celestial thunders, seemingly capable of destroying heaven and earth,

raged for nearly the time it takes to burn an incense stick on the red light pillar of the Celestial Eye Demon Lord and the two golden shields of Great Success Jade Bright Bodhisattva before gradually dimming and exhausting all their power!

At this moment,

the Celestial Eye Demon Lord, whose entire body was constantly steaming with demonic qi, took a few rapid breaths, and the despair in its demon eye was extremely evident!

It could clearly feel that the demonic qi within its body had consumed nearly one tenth during the recent strike of the second wave of thunder of the celestial tribulation!

Although it still had nine-tenths of its demonic qi left, the surging and condensed demonic qi on its surface didn't seem to have weakened much, but this was only the second round of the celestial tribulation!

"This is even more fierce than the sixth and seventh rounds of the celestial tribulation I failed to cross 120,000 years ago!

If not for its Holy Body, Holy Qi, and Holy Technique, which had dramatically improved under the influence of the Celestial Monarch's Power from the Holy Son Gang Bone, I fear that just this wave of celestial tribulation thunder would have halved my strength!"

If it hadn't undergone hundreds of thousands of years of cultivation, making its heart nature firm as a rock, the Celestial Eye Demon Lord might have directly given up on resistance at this moment!

That enormous demon eye looked in the direction of First Demon Lord Fan Yu in the distance, seeking help from the First Demon Lord and other demon lords from the Profound Yin Demon Sect by transmitting messages repeatedly.

On the other side, Great Success Yu Zhen Bodhisattva also felt somewhat uncomfortable.

This Great Accomplishment Bodhisattva who deliberately triggered the celestial tribulation had two originally golden shields adorned with Buddhist Treasure Appearance above her head, now losing a small half of their Buddhist Treasure Appearance, and the brightness of the golden shields was not as bright as before, dimmed as if covered by a layer of dust.

However, unlike the despairing gaze of the Celestial Eye Demon Lord,

the expression on the face of Great Success Jade Bright Bodhisattva from Spirit Platform Buddhism showed a touch of resolve and excitement.

Because she knew very well,

Although those twenty-four celestial tribulation thunders were extremely fierce and terrifyingly powerful, they did not carry any strange destructive power, but rather a righteous and vigorous force. This even allowed her to gain a slight spiritual insight in her understanding of Golden Body Demon Suppression Technique during her struggle against the celestial tribulation!

Even though, up until now, this insight was still as though separated by a thin paper window, unable to let her fully comprehend it, yet at least it provided Great Success Jade Bright Bodhisattva with a hint of hope to continue progressing in Buddhist Technique!

Moreover,

because it was Great Success Jade Bright Bodhisattva who triggered the celestial tribulation,

the attacks of each wave of celestial tribulation, besides becoming increasingly fierce, also further purified Great Success Jade Bright Bodhisattva's Buddha Body, Buddha Essence, and Buddha Soul. Such metamorphosis was utterly impossible for the ill-fated Celestial Eye Demon Lord!

In addition to this,

Great Success Jade Bright Bodhisattva was very confident,

if she continued to contend with the Celestial Eye Demon Lord, the red light pillar launched by the demon eye embedded with strange Celestial Demon Power would likely have destroyed one of her golden shields again!

But now, the celestial tribulation was fierce, yet still didn't carry that kind of strange Celestial Demon Power, nor destroy her golden shield!

Therefore, although the Five Elements Extermination Tribulation was terrifying, it was instead a bit easier for Great Success Jade Bright Bodhisattva than dealing with the Celestial Eye Demon Lord!

Of course, this is limited to the First Layer and Second Layer of the celestial tribulation for now. Considering the increasingly terrible power of each wave of the Five Elements Extermination Tribulation, the later waves would undoubtedly become increasingly fearsome. Perhaps by the Fourth or Fifth Wave, its power would far exceed the demon eye of the Celestial Eye Demon Lord carrying Celestial Demon Power!

However, perhaps during the Third Layer or Fourth Layer, Great Success Jade Bright Bodhisattva might attain some insights that are absolutely inaccessible under normal cultivation conditions and thereby greatly increase her strength, ultimately overcoming this celestial tribulation!

These thoughts ran through the mind of Great Success Jade Bright Bodhisattva, causing her to feel slightly excited and filled with resolve, in stark contrast to the despairing Celestial Eye Demon Lord on the other side!

The time quickly passed again for a few breaths,

the boundless tribulation clouds of the Five Elements Extermination Tribulation seemed to have accumulated the terrible power once more, and suddenly the light shone brightly in the depths of the sky once more!

But this time,

descending toward Great Success Jade Bright Bodhisattva and the Celestial Eye Demon Lord was no longer celestial tribulation thunder, but a small tender-looking mass of blazing white flame!

That mass of flame emerged from within the tribulation cloud, and it didn't look large, merely several hundred feet in area, roughly equivalent to the size of the heads of Great Success Jade Bright

Bodhisattva and the Celestial Eye Demon Lord, entirely insignificant compared to the figures of Great Success Jade Bright Bodhisattva and the Celestial Eye Demon Lord below!

But as soon as this flame appeared,

the faces of the Celestial Eye Demon Lord and Great Success Jade Bright Bodhisattva below became solemn, with the Celestial Eye Demon Lord's face showing increased despair!

In the distant Luo Water Array,

the face of the Qilin Race Elder Clan Leader standing beside Lin Xuankong changed upon seeing the flame, and he sighed: "Indeed, it is worthy to be the Five Elements Extermination Tribulation, which no Earth Immortal has been able to overcome since ancient times. This, it turns out, is the Third Wave attack of the Five Elements Extermination Tribulation, and its celestial tribulation power surely far exceeds the old man's imagination!"
