

Stronger 1131

Chapter 1131: Celestial Spirit Fire (2)

I initially thought that this third wave of celestial tribulation would be more and stronger celestial tribulation thunder. Unexpectedly, it turned out to be the even more terrifying Celestial Spirit Fire compared to celestial tribulation thunder. Alas, I hope this wave... Great Success Jade Bright Bodhisattva can withstand it!"

Celestial Spirit Fire?

At this moment, Lin Xuankong, who was seeing the final heavenly tribulation of a Strongest Immortal Lord level for the first time, was attentively focused,

After all, he is now in the Initial Stage of the Strongest Immortal Lord realm and possesses an extremely fast cultivation speed. It is feared that not long after, he will be able to break through all the way to the mid-stage, late-stage, and even Perfection of the Strongest Immortal Lord!

Observing the last heavenly tribulation of other powerhouses at the Strongest Immortal Lord level at this moment will undoubtedly have significant reference value for his future crossing of tribulations!

After hearing the Qilin Race Elder Clan Leader's statement, Lin Xuankong looked at the cluster of flames with some surprise,

His eye power is exceptionally strong, and with a Divine Soul of the Supreme Realm, he can naturally see clearly the small flame cluster with a diameter of hundreds of feet, appearing pure white. Although the color of this celestial tribulation fire is somewhat peculiar, differing from normal blue, red, green, and purple flames, there is nothing special on the countless flames above the fire cluster... The previous waves of heavenly thunders from the sky contained various profound runes, appearing powerful and extremely intimidating!

The small flame cluster before them seems completely unremarkable. However, the Qilin Race Elder Clan Leader implies that this cluster of flame is very strong, and actually called Celestial Spirit Fire?

Nearby, Guang Yu'er, the Strongest Immortal Lord, seemed to notice Lin Xuankong's confusion and frowned:

"Xuankong, you are likely insufficient in realm and haven't yet rushed to understand the situation of the final heavenly tribulation of various Strongest Immortal Lords!

The heavenly tribulations that Strongest Immortal Lord-level powerhouses must endure vary according to their cultivation, strength, foundation, and cultivation technique!

For instance, our Immortal Realm Human Race righteous cultivators often encounter various forms of celestial thunder tribulations, such as Five Thunders Tribulation, Yin Thunder Tribulation, Zhengyang Thunder Tribulation, Zhengkun Thunder Tribulation, etc. In contrast, the demon cultivators and Demon Lords of the Profound Yin Demon Sect experience mostly Heart Demon Tribulations, often manifesting in bizarre forms, although nearly half are thunder tribulations, the majority consist of Ghost Soul Tribulations, such as Ten Thousand Souls Tribulation, Fierce Soul Tribulation, Yin Soul Tribulation, etc.!

According to the sayings of our Immortal Tribulation predecessors, it's because the demon cultivators of the Profound Yin Demon Sect have committed too many acts against the heavens during their cultivation to enhance their strength, thereby encountering various Yin Souls and evil spirits during celestial tribulations!

Generally speaking, regardless of the Immortal Realm Human Race cultivators, Unbounded Mountain Demon Race cultivators, Spirit Platform Buddhism cultivators, or Demon Sect cultivators, the heavenly tribulations they each encounter differ!

The Five Elements Extermination Tribulation before us is one among countless types of Strongest Immortal Lord-level final tribulations, hailed as never being successfully crossed by anyone, no matter how strong the talent, no matter how plentiful the treasure, no matter how powerful the cultivation technique, once encountering such a Five Elements Extermination Tribulation, seemingly all face inevitable demise!

As for this cluster of white flame,

Indeed called Celestial Spirit Fire,

It is one type of heavenly tribulation known as Divine Fire Body Refining Tribulation!

According to my Guangqing Immortal Sect's texts, Divine Fire Body Refining Tribulation is also an extremely difficult tribulation to overcome, with records showing forty-seven Strongest Immortal Lords encountering it, only two predecessors seemingly managed to pass with great fortuitous assistance!

And the ninth-layer attack of the Divine Fire Body Refining Tribulation, the final layer being the hardest to cross, the most terrifying, has toppled the most Strongest Immortal Lords, which is the Celestial Spirit Fire!

It is said that this terrifying flame will burn the Strongest Immortal Lord for three full Hours, directly penetrating the defenses of magical artifacts, magical treasures, and cultivation techniques without harming immortal bodies or magical treasures but exclusively burning immortal yuan and divine soul. Once encountering this terrifying Celestial Spirit Fire, the most likely outcome is all immortal yuan being burned away!

If one's strength is slightly lacking or preparation is slightly inadequate, upon facing this Celestial Spirit Fire, after exhausting immortal yuan, the only result is the inability to protect the divine soul, eventually resulting in demise!

But now, it's merely the third wave of celestial tribulation that actually includes Celestial Spirit Fire, this Five Elements Extermination Tribulation's third wave attack being the ninth-layer attack of other tribulations, which is really quite excessive. No one knows whether Great Success Jade Bright Bodhisattva can hang in there!"

Upon explaining this, a trace of worry appeared in Guang Yu'er's eyes, evidently uncertain about Great Success Jade Bright Bodhisattva's prospects.

After all, no matter how great Great Success Jade Bright Bodhisattva's reputation and strength are, it isn't necessarily superior to those recorded predecessors who fell to the Celestial Spirit Fire in Guangqing Immortal Sect's texts!

After hearing Guang Yu'er, the Strongest Immortal Lord, explain the Celestial Spirit Fire, Lin Xuankong no longer held much reverence for this Celestial Spirit Fire... Though this tribulation attack that exclusively burns immortal yuan might pose extreme threats to other Strongest Immortal Lord-level powerhouses, his Vigorous in Old Age Life Plate contains an immense amount of stored immortal yuan, potentially exceeding the immortal yuan of tens of thousands or even hundreds of thousands of Same Tier

cultivators. Under such circumstances, claiming Lin Xuankong's immortal yuan is inadequate for the burning of the Celestial Spirit Fire, perhaps throughout these millions of years in the Golden Dragon Immortal Realm, one couldn't possibly find another capable of surviving this tribulation!

However,

Although Lin Xuankong is certain he could overcome the tribulation attack known as Celestial Spirit Fire,

He couldn't be sure whether this Spirit Platform Buddhism's Great Success Jade Bright Bodhisattva could overcome this Celestial Spirit Fire!

The crux is,

This Celestial Spirit Fire can directly penetrate the defenses of magical artifacts, magical treasures, and cultivation techniques, appearing very similar to Lin Xuankong's Vigorous in Old Age Life Plate's talent effect of Piercing the Mountain and Hitting the Ox!

If this Celestial Spirit Fire is truly so, even if Lin Xuankong were to take out an Eighth-Grade Immortal Artifact right now, it still wouldn't be able to aid this Lingtian Buddhism's Great Success Jade Bright Bodhisattva!

At the same time,

He couldn't approach to transfer immortal yuan to this Great Success Jade Bright Bodhisattva because, once Lin Xuankong flies over and enters the scope of the Five Elements Extermination Tribulation, the tribulation's attack power will multiply several times, and then it might not help Great Success Jade Bright Bodhisattva but rather potentially harm them!

Thinking of this,

Previously confident in helping Great Success Jade Bright Bodhisattva to cross this Five Elements Extermination Tribulation, Lin Xuankong couldn't help but frown.

He pondered to himself: The peculiar and powerful celestial tribulation attacks in the Golden Dragon Immortal Realm are indeed somewhat bewildering, completely unforeseen! Unable to assist Great Success Jade Bright Bodhisattva in facing this Celestial Spirit Fire, he feels powerless! Who knows what kind of celestial tribulation he will encounter when cultivating to the realm of Strongest Immortal Lord Perfection and trying to cross the final tribulation?

According to little lover Guang Yu'er, the power and form of celestial tribulations will adjust according to the strength, treasures, cultivation, and cultivation techniques of the Strongest Immortal Lords. If his Strongest Immortal Lord is stronger, the power of the tribulations might become greater...

It seems he should never underestimate the road of cultivation. Even possessing the Vigorous in Old Age Life Plate's extraordinary talents, he should always prepare more diligently no matter what he does in the Immortal Realm! Previously, he thought having Ninth-Grade Immortal Artifacts would make overcoming the final tribulation incredibly easy... Now it appears that due to recent smooth progress, he became overly optimistic. Continuing to be optimistic in the future might jeopardize his chances of overcoming the final tribulation!

Great Success Jade Bright Bodhisattva and Celestial Eye Demon Lord are unaware,

Struggling to cope with the Five Elements Extermination Tribulation, they inadvertently heightened the vigilance of Lin Xuankong observing from the sidelines...

Currently, both Great Success Jade Bright Bodhisattva and Celestial Eye Demon Lord, seeing that small flame falling closer and closer, have already taken out a large amount of Profound Truth Jade from their Golden Patterned Ghost Frog Pouch at their waists, preparing to frantically replenish during the burning of the Celestial Spirit Fire, lest their immortal yuan and demonic qi deplete, directly destroying their divine souls!

Chapter 1132: This Celestial Eye Is So Embarrassing

In a moment,

those two small white flames,

descended from the sky, landing respectively at the positions of the Celestial Eye Demon Lord and the Great Success Jade Bright Bodhisattva!

Just as the Qilin Race Elder Clan Leader and Strongest Immortal Lord Guang Yu'er had said,

this seemingly weak yet terrifying Celestial Spirit Fire could not be shielded by immortal techniques or magical treasures,

the white flame directly penetrated the red column of light of the Celestial Eye Demon Lord and the two golden shields above the Great Success Jade Bright Bodhisattva, landing directly on them!

Immediately,

on the side of the Celestial Eye Demon Lord, the flames rose fiercely!

The countless condensed demonic qi emitted from its giant demon body, upon encountering the legendary terrifying Celestial Spirit Fire, burned brightly like fuel meeting flame. This fire not only appeared on the surface of its demon body, but also brightened its eyes, ears, mouth, nose, and countless pores, ejecting flames!

The very reliance that once allowed this Profound Yin Demon Sect's Celestial Eye Demon Lord to rampage across the Immortal Realm, the countless demonic qi, became fuel for the Celestial Spirit Fire, being consumed at a rapid pace!

The most terrifying is,

this fire uses the demonic qi of the Celestial Eye Demon Lord as fuel, burning every part inside and outside of its demon body!

It's fortunate that the Celestial Eye Demon Lord is already a Strongest Immortal Lord level being; the robustness of its demon body is unafraid of the terrifying high temperature for a short time. Otherwise, if a middle-low tier Earth Immortal or Demon General encountered such fearsome Celestial Spirit Fire, they would likely turn to ash in less than a tenth of a breath, without a single hair, bit of flesh, or even a shred of bone remaining!

With the Celestial Spirit Fire consuming its body at this moment,

the Celestial Eye Demon Lord could barely withstand the damage for a while, relying on tens of thousands of years of accumulation, to barely manage the consumption of demonic qi by the Celestial Spirit Fire. Yet the horrific burning pain that pervaded every part of its body caused its entire frame to tremble, its fingers and toes to twist, and ghastly screams continually erupted from its mouth!

The Great Success Jade Bright Bodhisattva was not faring much better,

under the rampant Celestial Spirit Fire,

the Buddha Light emitted from the Great Success Jade Bright Bodhisattva transformed into lines of flame; in her eyes, ears, mouth, nose, and viscera, fire spread everywhere!

But the Great Success Bodhisattva from Spirit Platform Buddhism,

perhaps lacking compared to the Celestial Eye Demon Lord's demon technique, possessed a much stronger mental fortitude from years of practicing Buddhist technique!

Even when faced with the incredibly high-temperature flames ravaging her body, the Great Success Jade Bright Bodhisattva not only refrained from emitting any cries of agony, but remained calm with her Buddha body steady. Her legs crossed as she sat in mid-air, even chanting Buddhist scriptures!

The demeanor of this Spirit Platform Buddhism Great Success Bodhisattva truly earned the admiration of all onlookers; the Celestial Spirit Fire burning her body's immortal yuan seemingly did not exist!

In the Luo Water Array,

Lin Xuankong gazed at the distant Great Success Jade Bright Bodhisattva, feeling quite respectful,

known as the Celestial Spirit Fire and an attack of Heavenly Tribulation, one can only imagine the pain this flame brings to the Tribulation Crosser!

Yet this heavenly tribulation attack could not be blocked by immortal artifacts, magical treasures, spiritual objects, or immortal techniques, only by enduring it with one's own body and immortal yuan... If faced with this dreadful Celestial Spirit Fire consuming one's body, even I would certainly not escape a painful moan, even if stronger than the constantly wailing Celestial Eye Demon Lord, certainly not as serene as this Great Success Jade Bright Bodhisattva, who accepts it with equanimity!

Beside Lin Xuankong, Strongest Immortal Lord Guang Yu'er couldn't help but voice admiration,

"Tsk tsk, the Buddha Heart of Great Success Jade Bright Bodhisattva is close to perfect harmony! Facing such terrifying Celestial Spirit Fire burning the body, if I encountered it, while not crying out in pain, I'd at least tremble all over with a twisted expression. But the Great Success Jade Bright Bodhisattva's face remains peaceful as ever, even in the mood to chant the Heart-Clearing Mantra of Buddha! No wonder, being one of the three Great Bodhisattvas of Spirit Platform Buddhism, the Buddhist Dao practice of Great Success Jade Bright Bodhisattva is far beyond what someone like me can achieve!"

The Qilin Race Elder Clan Leader also nodded repeatedly, his eyes full of admiration,

"Earlier, I was worried that the Celestial Spirit Fire, a domineering heavenly tribulation attack, would be hard for even the Great Success Jade Bright Bodhisattva to withstand. But now it appears, given her calm demeanor and strong mental fortitude, she might indeed be confident enough to pass through the third wave of the Five Elements Extermination Tribulation!

The Human Race indeed produces outstanding heroes, with Immortal Lord Guang achieving Strongest Immortal Lord Realm in mere millennia, Lin Xuankong a peerless artifact refining genius in a million years, and Great Success Jade Bright Bodhisattva a Great Virtuous Bodhisattva!

If not for the overwhelming strength of the Profound Yin Demon Sect of the Demon Race, the Human Race of the Immortal Realm might already, with countless talents, have become the dominant clan of countless great domains across the Immortal Realm!"

Upon hearing the Qilin Race Elder Clan Leader say this, the genius juniors of various Immortal Sects from the Immortal Realm Human Race were suddenly a bit excited and thrilled, feeling proud to be praised by such a figure from the Qilin Race, one of the four Great Spirit Beast Clans of the Boundaryless Mountain.

In their excitement, these talented juniors from various Immortal Sects looked at Lin Xuankong, Guang Yu'er, and then at the distant Great Success Jade Bright Bodhisattva undergoing the tribulation, all with eyes full of admiration and respect.

Chapter 1133: This Celestial Eye Is Just Too Embarrassing (Part 2)

The budding talented Demon Kings of the various clans of Boundaryless Mountain, after hearing the words of the Qilin Race Elder Clan Leader, felt slightly discontented. The most noticeable was the Cyan Dragon Race's top prodigy, Little Linglong, who, although in human form, had two long horns and the tail of a Little Dragon Girl, her mouth pouting in dissatisfaction.

Yet upon seeing the terrifying flames enveloping the body of the Great Success Jade Bright Bodhisattva who was crossing the Tribulation, and his serene recitation of the Buddhist Scripture, even this top prodigy of the Cyan Dragon Race, despite some resistance in her heart, had to admit that when it came to mental fortitude, she was ten thousand miles away from the Great Success Jade Bright Bodhisattva!

As for comparing cultivation speeds with the Strongest Immortal Lord Guang Yu'er, she had to concede... and Lin Xuankong's proficiency in the Path of Artifact Refining and Array Formation was well known to her. Even if given hundreds of thousands or even millions of years, she could never achieve the level of this monstrous and talented anomaly!

"Indeed, when compared to the mental fortitude of the Great Success Jade Bright Bodhisattva, the Path of Artifact Refining of Immortal Lin, and the cultivation speed of Immortal Lord Guang, our young talented Demon Kings of Boundaryless Mountain are certainly a bit lacking,

but compared to other Immortal Realm Human Race prodigies, the young talents of our Boundaryless Mountain are surely not inferior at all!"

Feeling a bit frustrated, this top prodigy Little Demon King of the Cyan Dragon Race could only muse in her heart...

But what this top prodigy Little Demon King of the Cyan Dragon Race did not know was that Lin Xuankong's prowess was not limited to the Paths of Array Formation and Artifact Refining being unmatched; when it came to cultivation speed, there was absolutely no one in the entire Immortal Realm who could compare!

In just over a hundred years, Lin Xuankong had risen from an ordinary mortal to become a Strongest Immortal Lord-level powerhouse standing atop the pinnacle of the Immortal Realm!

This cultivation speed, not only does it exceed her as the top prodigy Little Demon King of the Cyan Dragon Race, but it also surpasses the Strongest Immortal Lord Guang Yu'er and Immortal Lord Feiyun, as well as countless cultivators throughout the annals of the Golden Dragon Immortal Realm... no other Earth Immortal, Demon Race, or Demon Race prodigy can match this near two-hundred-fold cultivation speed!

Moreover, this is just the present,

if Lin Xuankong were to steadily live for several thousand or ten thousand years, when his cultivation amplifies to several thousand-fold or ten-thousand-fold, who knows what effects he will achieve in cultivating various Immortal Techniques!

At this moment,

within the Luo Water Array, the young talents of the Demon Race and Human Race

were all watching the position of the Great Success Jade Bright Bodhisattva with admiration and hoping that this Great Accomplishment Bodhisattva of Spirit Platform Buddhism would safely pass through the third wave of the Five Elements Extermination Tribulation!

On the side of the Profound Yin Demon Sect,

the expressions of those Demon Lords, Demons, Demon Generals, and Demon Soldiers were extremely intriguing!

Originally, the Celestial Eye Demon Lord being 'dragged' to cross the Celestial Tribulation together with the Great Success Jade Bright Bodhisattva made these Profound Yin Demon Sect Demon Lords and Demon Generals quite depressed! Despite Celestial Eye Demon Lord having the upper hand in previous encounters with the Great Success Jade Bright Bodhisattva, now having to cross tribulation together, there was no longer any advantage!

What frustrated the Profound Yin Demon Sect's Demon Lords and Demons was that

when the third wave of the Five Elements Extermination Tribulation and the Celestial Spirit Fire was unleashed, the Great Success Jade Bright Bodhisattva remained unharmed, serenely reciting the Buddhist Scripture, while Celestial Eye Demon Lord was being burned to the point of wailing like a ghost, feeling like he's dying. In stark contrast, the Demon Lords and Demons of Profound Yin Demon Sect felt utterly embarrassed by Celestial Eye Demon Lord!

Celestial Eye, oh Celestial Eye, you are a renowned Demon Lord of tens of thousands of years, once recklessly roaming the Immortal Realm, slaughtering numerous Immortal Realm Human Race experts as a great Demon Lord, and now burning like a beaten dog under the Celestial Spirit Fire... what has become of your prestige, your dominance, your arrogance!

Each Demon Lord, Demon Head, and Demon General of the Profound Yin Demon Sect was inwardly critical at this moment. If they weren't afraid of being targeted by the tribulation upon rushing over, some Demon Lords would have already been unable to restrain themselves and would have acted against Celestial Eye Demon Lord, knocking out the one bringing disgrace to the Profound Yin Demon Sect!

Even the First Demon Lord Fan Yu, seated in the army, displayed a hint of dissatisfaction on his otherwise unperturbed, dark face.

However, given the current situation, even the First Demon Lord Fan Yu had no recourse. He couldn't order Celestial Eye Demon Lord, tormented by the Celestial Spirit Fire, to stop his wailing now!

Of course, the reason the First Demon Lord Fan Yu was still calmly watching without rebuking Celestial Eye Demon Lord was because he remained highly confident in Celestial Eye Demon Lord's power and the refinement of demonic qi! After all, every Demon Lord of the Profound Yin Demon Sect had already enhanced their prowess using Demon Child Gang Bone and Celestial Demon Power!

In the First Demon Lord's view, perhaps Celestial Eye Demon Lord couldn't withstand certain future waves of attacks from the Five Elements Extermination Tribulation, but overcoming this wave of Celestial Spirit Fire attack wasn't a big problem for Celestial Eye Demon Lord!

Concerning whether he could ultimately succeed in crossing the tribulation...

At this moment, First Demon Lord Fan Yu hoped only that Celestial Eye Demon Lord could endure one or two more attacks than the Great Success Jade Bright Bodhisattva and not shame the Profound Yin Demon Sect! After all, this is the legendary Five Elements Extermination Tribulation that not even numerous high-grade Immortal Artifacts could overcome!

...while the various demons of Profound Yin Demon Sect and the numerous cultivators within the Luo Water Array remained silent, time passed bit by bit!

The Great Success Jade Bright Bodhisattva and Celestial Eye Demon Lord undergoing the tribulation together continued to endure the scalding of the Celestial Spirit Fire continuously!

A full three Hours later,

the fearsome Celestial Spirit Fire burning the bodies of the Great Success Jade Bright Bodhisattva and Celestial Eye Demon Lord gradually extinguished,

by this time, even the bodies of these two Strongest Immortal Lord-level powerhouses, though incredibly robust, had been burned into a black hue, even with much of their flesh having turned to ash, both nearly becoming blackened skeletons!

However,

as the Celestial Spirit Fire completely died out,

the Great Success Jade Bright Bodhisattva was immediately surrounded by sparkling Buddha's Light, and the Buddha Body, which was about to become a skeleton, had its flesh squirm and recover its plump flesh and skin in less than a tenth of a breath, even autonomously restoring the Buddhist Robe on its surface!

The same held true for Celestial Eye Demon Lord; once the Celestial Spirit Fire vanished, strands of demonic qi appeared, wrapping around its body, and in the blink of an eye, this Demon Lord who nearly became a skeletal demon recovered its formidable Demon Body, though the Celestial Eye Demon Lord presently showed no delight for surviving the Celestial Spirit Fire attack.

Because it knew,

that if the third wave attack of the Five Elements Extermination Tribulation was already unbearably monstrous, manifesting in the legendary Celestial Spirit Fire, then the upcoming tribulation attacks would be fiercer and harder to endure, one by one!

Feeling frustrated, this Celestial Eye Demon Lord that had been famous for tens of thousands of years squeezed a handful of several thousand Mid-grade Profound Truth Jade fiercely, the cracking sounds constantly echoing, from which countless strands of refined demonic qi seeped out of cracks, and Celestial Eye Demon Lord inhaled them all into its belly!

With such replenishment of substantial demonic qi, and having already consumed over half of its demonic qi within, Celestial Eye Demon Lord immediately replenished to perfection. Then, the old demon raised its head to watch the heavy tribulation clouds in the high sky, its eyes filled with complex emotions.

On the other side, the Great Success Jade Bright Bodhisattva nodded slightly towards the void, and a white lotus instantly appeared before her, from which nine lotus seeds flew out of the seedpod, entering the mouth of the Great Success Jade Bright Bodhisattva. The Buddha's Light, which had dimmed somewhat, suddenly became brilliantly illuminated, clearly indicating that her Immortal Yuan, having depleted by nearly half, was now fully replenished.

The Great Success Jade Bright Bodhisattva also looked up at the sky,

as a Great Success Bodhisattva who has cultivated for over a hundred thousand years, her heart naturally hoped to cross this Five Elements Extermination Tribulation and become a true Buddha possessing Buddha Nature, great wisdom, and great power in the Upper Realm!

However, with the third wave of tribulation attacks already being the Celestial Spirit Fire, what terrifying form might the fourth wave take?

Chapter 1134: Netherworld Water Tribulation

In the distant Luo Water Array,

the Elder Clan Leader of the Qilin Race couldn't help but speak:

"Though I've read about the Five Elements Extermination Tribulation in ancient texts, it's rare to see it occur. Even the most recent appearance was hundreds of thousands of years ago, so the descriptions are quite vague!

I really never expected this Five Elements Extermination Tribulation to be so strong. Just the third wave of attack has revealed the Celestial Spirit Fire. I truly wonder what legendary tribulation attack will appear next! I hope the Great Success Yu Ming Bodhisattva can withstand this tribulation, which no one has ever crossed before!"

At this point, the Elder Clan Leader of the Qilin Race turned toward Lin Xuankong and Strongest Immortal Lord Guang Yu'er and continued:

"However, being able to witness the Five Elements Extermination Tribulation, with all kinds of tribulation attacks together,

is quite beneficial for Immortal Lord Guang and Immortal Lin when facing their final tribulation in the future!

After all, the chance to resolve the Five Elements Extermination Tribulation is extremely rare!

In our Immortal Realm, strong Immortal Lord-level powerhouses are few, and encountering the Five Elements Extermination Tribulation is even rarer!

I hope you both don't waste the opportunity given by the Great Success Yu Ming Bodhisattva's tribulation. Observe these tribulation attacks' methods, power, and forms carefully to prepare for your final tribulation in the future!"

At this point, the Elder Clan Leader of the Qilin Race seemed to think of something and quickly added:

"Of course, what I'm saying is not in hopes that Immortal Lord Guang and Immortal Lin will face such a Five Elements Extermination Tribulation for their final tribulation!

Such a terrifying tribulation is truly..."

After saying this, he gazed at the ominous clouds outside, fell silent, perhaps calculating if he, as the Clan Leader of the Qilin Race, faced this terrifying Five Elements Extermination Tribulation in the future, how many levels could he get through!

However, looking at the expression of the old Qilin,

he appears to have absolutely no confidence in overcoming this legendary tribulation that no one has ever crossed!

Upon hearing this, Lin Xuankong nodded slightly,

he naturally understood the principle of knowing oneself and their opponent leads to victory. Having the chance to see this Five Elements Extermination Tribulation personally is a rare opportunity for him! Though the Spiritual Crane Immortal Sect and Luo Water Immortal Sect's texts document various tribulation forms, most are forms of thunder tribulation. This rare and formidable Five Elements Extermination Tribulation indeed is a rare sight, perhaps one seen once in millions of years!

Moreover, the Five Elements Extermination Tribulation has such diverse forms of tribulation attacks, equivalent to many final tribulations combined, offering great observational value!

Most importantly,

Lin Xuankong has a rather clear understanding of himself,

since he initially entered the Initial Tier Earth Immortal, then reached the Ninth-Grade Earth Immortal and the Initial Stage of the Strongest Immortal Lord, the thunder tribulations he encountered were far more terrifying than any other Earth Immortal he knew! For example, the Thirty-Six Great Celestial Immortal Tribulations... Lin Xuankong suspects that his Life Plate and Talent are too defiant, thus every realm advancement he makes attracts overly powerful thunder tribulations!

Fortunately, from Initial Tier Earth Immortal to Ninth-Grade Earth Immortal, all Earth Immortals faced thunder tribulations, so despite the terrifying tribulations Lin Xuankong faced, they weren't outside the thunder tribulation attack form. Hence, with lots of High-Grade Immortal Artifacts, he passed those tribulations quite effortlessly, quite comfortably!

However,

when he advances to the Late Stage of the Strongest Immortal Lord Realm and faces the final tribulation,

Lin Xuankong suspects that heaven might target him with extreme tribulations!

Hmm, very likely!

Thus, observing the peculiar and strong Five Elements Extermination Tribulation faced by Great Success Yu Ming Bodhisattva is crucial for him, preparing him for the final tribulation's havoc he'll endure in the future!

Take the third wave attack of Celestial Spirit Fire for example... it highly alerts Lin Xuankong, clearly a flame attack, yet capable of penetrating any defense, Immortal Technique, Magical Treasure, Immortal Artifact, Spiritual Treasure, and directly affecting Great Success Yu Ming Bodhisattva and Celestial Eye Demon Lord's bodies, Immortal Yuan, and Demonic Qi. This tribulation attack is indeed quite shameless, almost comparable to his talent, [Piercing the Mountain and Hitting the Ox], excessively shameless!

What will the fourth wave of tribulation attack be? Will it be more terrifying, more shameless?

Considering it's called the Five Elements Extermination Tribulation, since the third wave showed Celestial Spirit Fire, will the next be water, earth, metal, wood kinds of special attacks?

Thinking of this, Lin Xuankong perked up and gazed above Great Success Yu Ming Bodhisattva, beyond the Luo Water Array.

At that moment,

the thick tribulation cloud covering the entire sky, above Great Success Yu Ming Bodhisattva and Celestial Eye Demon Lord's heads, suddenly swirled vast amounts of tribulation cloud, revealing two massive, dark cavities, and there emerged tumultuous water sounds and countless anguished howls from humans, beasts, demons, ghosts, monsters!

"Water sounds?"

Next to Lin Xuankong, Strongest Immortal Lord Guang Yu'er grabbed Lin Xuankong's hand tightly, revealing an expression of surprise on her face.

Chapter 1135: Netherworld Water Tribulation (Part 2)

Seeing Guang Yu'er like this, Lin Xuankong couldn't help but be a bit surprised. He turned his head to the strongest Immortal Lord sweetheart beside him with some curiosity and said, "Is there something wrong with the water sound? Since it's called the Five Elements Immortal Slaying Tribulation, surely there should at least be some sort of Five Elements heavenly tribulation attack, right? This kind of water sound should indicate that the next attack is a special water attribute heavenly tribulation!"

At this moment, the strongest Immortal Lord Guang Yu'er was looking in the direction of the Great Success Jade Bright Bodhisattva with a slightly worried expression on her little face, shaking her head and said:

"If it's a normal water attribute attack, such as the legendary nine types of heavy water within water attribute tribulations, or the legendary nine layers of corrosive water and other water attribute attacks, it would be fine. But haven't you heard the sounds coming from within those heavy tribulation clouds? Beyond the sound of water, there's the wailing of countless creatures?

This is likely to be one of the most terrifying water attribute tribulations, the Netherworld Water Tribulation!"

"Netherworld Water Tribulation?"

Lin Xuankong slightly frowned.

Beside him, the Qilin Race Elder Clan Leader heard these four words and became tense, nervously looking at the strongest Immortal Lord Guang Yu'er, "Immortal Lord Guang, are you sure it's the Netherworld Water Tribulation? There are three water attribute tribulations renowned for the wailing of creatures: the Rebirth Water Tribulation, the Hell Water Tribulation, and the Netherworld Water Tribulation. The most terrifying, causing cultivators to change color at its name, is the Netherworld Water Tribulation!

It's said that the Rebirth Water Tribulation is even scarier than all thunder attribute tribulations, and for a strongest Immortal Lord encountering it, there's merely a one in ten chance of survival. The Hell Water Tribulation consists of waves where each subsequent wave is more powerful than the last, amplifying its force eighteen times, similarly leaving merely one in ten survivors. For these two tribulations, strongest Immortal Lords must prepare a large number of middle to high-grade immortal artifacts to possibly pass through!

Yet the Netherworld Water Tribulation is the most fearsome among these three water tribulations, much like the Celestial Spirit Fire, it cannot be resisted by any immortal artifact, magical treasure, immortal technique, or spiritual object, directly targeting the divine soul of the strongest Immortal Lord crossing it! According to historical records spanning millions of years, there have been over seven hundred strongest Immortal Lords who encountered this Netherworld Water Tribulation, yet only twelve barely survived!

It's been said that there are traces to follow when overcoming other heavenly tribulations, but this Netherworld Water Tribulation is an untraceable special spiritual attack!"

The strongest Immortal Lord Guang Yu'er solemnly nodded and said:

"There should be no mistake. Our Guangqing Immortal Lord's legacy has been passed down for millions of years, and several ancestors have encountered such a tribulation, so the records about the Netherworld Water Tribulation in our Guangqing Immortal Sect are quite detailed! Judging from the sounds of human wails, demon howls, ghost cries, and spiritual howls coming from the black hole in the tribulation cloud, it must undoubtedly be the Netherworld Water Tribulation!"

Seeing the strongest Immortal Lord Guang Yu'er so certain, the Qilin Race Elder Clan Leader couldn't help but shake his head repeatedly, "Netherworld Water Tribulation, Netherworld Water Tribulation! This time, the Great Success Jade Bright Bodhisattva probably won't survive the fourth wave of the Five Elements Immortal Slaying Tribulation!"

Listening to the conversation between the two, Lin Xuankong immediately furrowed his brows again.

In his heart, he thought to himself: This heavenly tribulation encountered by the strongest Immortal Lords is indeed abnormal, having so many kinds of tribulation attacks that are hard to resist even with immortal artifacts and magical treasures. If I had known it was like this, I might have triggered the final tribulation while at the Ninth Grade, making things simpler. After all, the ultimate tribulation for a Ninth-Grade Earth Immortal is sure to be a lightning tribulation, and even if it's powerful, at least with a lot of immortal artifacts, it would be easy to get through!

However, thinking over again, Lin Xuankong couldn't help but shake his head,

This is just my own thinking! Where could other Ninth-Grade Earth Immortals find so many high-grade immortal artifacts like I have, not to mention casually creating hundreds or thousands of seventh and eighth-grade immortal artifacts. The 'impoverished state' of the human race's numerous immortal sects in the Golden Dragon Immortal Realm makes even the wealthiest Earth Immortal struggle to find hundreds of first-grade immortal artifacts!

In such circumstances, the human Earth Immortals in the Golden Dragon Immortal Tribulation are naturally lacking confidence in overcoming the ultimate tribulation during the Ninth-Grade Earth Immortal stage, leading them to continue cultivating, integrating their divine soul and immortal body, progressing to a stronger level with a longer lifespan, reaching the realms of the strongest Immortal Lord, Demon Lord, or Great Accomplishment Bodhisattva in anticipation of being better prepared to face the final heavenly tribulation over long years!

Alas, the main reason is that over countless ages, due to the 'over-exploitation and collection' by many predecessors, the spiritual objects, treasures, heavenly materials, and earthly treasures in the Golden Dragon Immortal Realm have become too scarce, leaving the Earth Immortals, demons, and Bodhisattvas very impoverished!

From this, it seems that my crossing into this Golden Dragon Immortal Realm, relying on the Vigorous in Old Age Life Plate and various talents, coupled with meeting Miss Xiao Xiuyi and acquiring a strong path of artifact refining, have indeed brought some hope to the cultivation community of the human race in this resource-depleted Golden Dragon Immortal Realm?

Thinking of this, Lin Xuankong couldn't help but shake his head and smile.

Nearby, the strongest Immortal Lord Guang Yu'er noticed Lin Xuankong suddenly smiling strangely and couldn't help but glare at him, "The Great Success Jade Bright Bodhisattva might be in trouble this time! How can you laugh at such a moment? I'm almost dying of worry!"

Lin Xuankong:

After his gaze slightly shifted, Lin Xuankong put away his smile and looked seriously at Guang Yu'er and the Qilin Race Elder Clan Leader and said:

"Actually, with the terrifying celestial spirit fire tribulation earlier, I had some concerns about whether the Great Success Jade Bright Bodhisattva could overcome it. But though the Netherworld Water Tribulation is terrifying, it ultimately targets spiritual attacks of the water attribute on the divine soul!

In my view, the Great Success Jade Bright Bodhisattva will likely pass this fourth wave of the Netherworld Water Tribulation, so Elder Clan Leader and Yu'er, you need not worry!"

The reason Lin Xuankong said this,

is naturally due to the divine soul realm of the Great Success Jade Bright Bodhisattva!

Lin Xuankong himself possesses the supreme realm divine soul of the Golden Dragon Immortal Realm and has cultivated the Guangqing Illusion Technique to perfection. Even the Immortal Lord Kunyuan, Immortal Lord Qiaan Yuan, and his own master, the Immortal Lord Luoshui, along with the first Grand Elder of the Divine Dynasty Immortal Sect, Elder Qiu, never noticed he was using illusion techniques. Yet this Great Success Jade Bright Bodhisattva sensed it the first time they met, clearly detecting Lin Xuankong's use of illusion techniques!

Though this is partly because the Great Success Jade Bright Bodhisattva is a Great Accomplishment Bodhisattva of the Spirit Platform Buddhism and cultivated the Buddhist Celestial Eye Divine Techniques, Lin Xuankong is certain that this Great Success Jade Bright Bodhisattva's divine soul realm is incredibly close to the supreme realm divine soul of the Immortal Realm, and despite not matching his own or the Sect Master of the Divine Dynasty Immortal Sect, it's not too far off!

Given such a strong divine soul, overcoming a heavenly tribulation targeting it should considerably increase the success rate!

But while Lin Xuankong knows all this, where would others learn it from?

"No need to worry? You do have a lot of confidence in the Great Success Jade Bright Bodhisattva. If that's true, it would be wonderful!" The strongest Immortal Lord Guang Yu'er furrowed her brows, clearly not having much faith in Lin Xuankong's words.

The Qilin Race Elder Clan Leader also furrowed his brows tightly, restlessly treading with his hooves.

For Lin Xuankong, who is extraordinarily talented in the Path of Array Formation and Path of Artifact Refining, the Qilin Race Elder Clan Leader has much respect and admiration. Thus, even if internally disagreeing, he didn't casually retort like Lin Xuankong's young sweetheart Guang Yu'er. Nevertheless, this Qilin Race Elder Clan Leader evidently has little confidence in the Great Success Jade Bright Bodhisattva overcoming this fourth wave of the Netherworld Water Tribulation!

As for the other cultivators within the Luo Water Array, and the young talents from various immortal sects and clans gathered there, hearing the discussion from afar, they all wore grave expressions, each lacking any sense of confidence.

However, the Little Bodhisattva Galin Bodhisattva from the Spirit Platform Buddhism, upon hearing Guang Yu'er and the Qilin Clan Leader speak of the Netherworld Water Tribulation, actually had her eyes light up.

Chapter 1136: Soul Shifting Demon Pearl

Except for Little Bodhisattva Galin,

the numerous young talented Bodhisattvas of the Spirit Platform Buddhism, upon seeing the Heavenly Fire earlier, were all exceedingly nervous, incessantly chanting Buddhist Scripture,

at this moment, having witnessed the Netherworld Water Tribulation, do not seem as tense as the young talents of other Immortal Sects and clans!

Strongest Immortal Lord Guang Yu'er noticed this and, observing those Little Bodhisattvas of Spirit Platform Buddhism and Lin Xuankong, who had considerable confidence in Great Success Jade Bright Bodhisattva, couldn't help but show a face full of doubt.

However,

due to browsing numerous classics of the Guangqing Immortal Sect for many years,

this little sweetheart of Lin Xuankong, the Strongest Immortal Lord, still felt quite apprehensive about the Netherworld Water Tribulation. Until now, she still believed that Great Success Jade Bright Bodhisattva might struggle to withstand this formidable celestial tribulation attack and further thought that Lin Xuankong was surely being overly optimistic this time!

Outside the Luo Water Array,

on the side of the Profound Yin Demon Sect,

many Demon, Demon General, and Demon Lord of the Profound Yin Demon Sect were gazing at the two gigantic black holes within the distant tribulation cloud, listening to the continuous sound of waves and various horrific screams emanating from the black holes.

Unlike the Human Race and Demon Race cultivators on the Luo Water Array side, the faces of these Demon, Demon General, Demon Lord from the Profound Yin Demon Sect didn't show tension but instead appeared pale and dark.

Among them, that veteran Demon Lord known as Ten Thousand Forms Demon Lord suddenly shook his head and said:

"If I didn't hear incorrectly, this should be the Netherworld Water Tribulation. Tsk tsk, this time, it seems very difficult for Celestial Eye to hold on! The Five Elements Extermination Tribulation certainly deserves its reputation as one of the three most terrifying celestial tribulations in legend, and the fourth wave of celestial tribulation attack has brought forth such a direct assault on the Divine Soul with the Netherworld Water Tribulation!

This formidable celestial tribulation attack, throughout the Golden Dragon Immortal Realm, only the Sect Master of Divine Dynasty Immortal Sect could probably endure it unscathed!

According to the message transmitted to us from the most noble Thousand Illusion Saint Monarch during the Golden Dragon Immortal Tribulation, it is said that on the side of the Human Race, the Celestial Immortals have mastered Immortal Techniques specifically targeting the Netherworld Water, and some predecessors from our Holy Sect, tens of thousands of years ago, forcibly triggered the celestial tribulation with Ninth-Grade Saint General Realm, becoming Initial Grade Celestial Monarch after going through it. Because they did not complete the integration of the Divine Soul and Holy Body, they could not perfectly resist the type of Netherworld Water Immortal Technique, and often suffered some Divine Soul injuries! Even those predecessors of Initial Grade Celestial Monarch were somewhat intimidated by such Netherworld Water, let alone Celestial Eye...."

Other Demon Lords of the Profound Yin Demon Sect, upon hearing Ten Thousand Forms Demon Lord's words, their faces became even grimmer,

even First Demon Lord Fan Yu, whose status and strength in the Profound Yin Demon Sect were second only to Demon Child Gang Bone, couldn't help but furrow his brows, looking somewhat apprehensive at the two gigantic black holes continuously swirling within the tribulation cloud.

Clearly, even this First Demon Lord of the Profound Yin Demon Sect does not have absolute confidence in retreating whole and sound from the attack of the Netherworld Water Tribulation!

However,

Celestial Eye Demon Lord, being a veteran Demon Lord of the Profound Yin Demon Sect and having a very close relationship with First Demon Lord Fan Yu, was also the first Demon Lord to respond to Fan Yu's command to fight; how could this First Demon Lord of the Profound Yin Demon Sect, Fan Yu, bear to watch Celestial Eye Demon Lord suffer severe injuries at this point, and possibly unable to even withstand the fourth wave of the Five Elements Extermination Tribulation attack!

After a brief contemplation,

this First Demon Lord of the Profound Yin Demon Sect turned his gaze to the many Demon Lords, especially the Soul Shifting Demon Lord, and said with a furrowed brow:

"Soul Shifting Junior Brother, Celestial Eye and you have jointly cultivated the Holy Technique for 460,000 years, always advancing and retreating together; every time when harvesting flesh and Sacred Artifact materials on the side of Immortal Realm Human Race, you two fought side by side, and even dealt with Spirit Platform Buddhism's Great Success Jade Bright Bodhisattva and Great Success Yu Zhen Bodhisattva together at one time. That battle, I remember vividly, I recall you once personally told me that if Celestial Eye hadn't actively blocked the Buddhist Technique attacks of Great Success Jade Bright Bodhisattva and Great Success Yu Zhen Bodhisattva, your Divine Soul would have been severely damaged by Yu Zhen Bodhisattva's Jade Bodhi!

Now, tens of thousands of years have passed, the past remains vivid, yet Celestial Eye Junior Brother has the potential to soon perish in the Five Elements Extermination Tribulation, fearing that relying on our Holy Race's strong recovery ability to survive, he would also become a Demon with significant Divine Soul wounds! It's truly sentiment-provoking!"

Upon hearing this, many Demon Lords of the Profound Yin Demon Sect turned to the Soul Shifting Demon Lord,

and Ten Thousand Forms Demon Lord couldn't help but squint his eyes and somewhat remarks with a sense of realization:

"If Senior Brother Fan Yu hadn't mentioned it, I almost forgot, Soul Shifting Junior Brother, you possess the Soul Shifting Pearl Sacred Artifact, the strongest Spiritual Spiritual Treasure of our Holy Sect, and your Soul Shifting Pearl Sacred Artifact should have nearly reached the level of a Third-Grade Spiritual Treasure. Although it cannot compare to a Third-Grade Immortal Artifact in terms of attack power, its protective effects on the Divine Soul surpass a regular Third-Grade Immortal Artifact by an unknown multiple!

Right now, facing what seems almost insoluble in the Netherworld Water Tribulation, the Sacred Artifacts in the hands of us old folks surely won't help Celestial Eye, but your Soul Shifting Pearl may very well be Celestial Eye Junior Brother's sole hope!"

The Soul Shifting Demon Lord, upon hearing the words of First Demon Lord Fan Yu of the Profound Yin Demon Sect, already had an indecisive expression,

As an ancient monster who had lived for hundreds of thousands of years, he well understood First Demon Lord Fan Yu's intention. Although the First Demon Lord Fan Yu did not explicitly utter any words demanding him to present the Soul Shifting Pearl for help, the implication was more than clear!

However, the Soul Shifting Pearl was refined through his heart, further honed over hundreds of thousands of years, consuming an unknown amount of Essence Blood from Earth Immortal of the Human Race for irrigation before it reached near a Third-Grade Spiritual Treasure level! Such a precious and powerful Spiritual Treasure, how could he be willing to hand it over to Celestial Eye!

Chapter 1137: Soul Shifting Demon Pearl (Part 2)

As for its tens of thousands of years of "friendship" with Celestial Eye, and the attack Celestial Eye blocked for it during their battles long ago... For the demon heads of Profound Yin Demon Sect, not to mention tens of thousands of years of friendship, even a million years of friendship, these demon lords, demon heads, and demon generals would never let themselves suffer too much loss for the sake of others!

The relationships among these demon heads of Profound Yin Demon Sect can never compare with the friendships among the cultivators of some Immortal Sects or clans in the Immortal Realm Human Race. For instance, Lin Xuankong, Guang Yu'er, and the Qilin Clan Elder, even if they have just become acquainted with the Great Success Jade Bright Bodhisattva, they all quite hope to help the Great Success Jade Bright Bodhisattva through this difficult time! Even in the Immortal Realm Human Race, there are many extremely sophisticated self-centered individuals and heartless people, but they still surpass these utterly inhuman, purely demonic beings by a notch!

Of course, on the surface, these demon heads of the Profound Yin Demon Sect all claim to be part of the Holy Race Sacred Sect, and call fellow demon heads their brethren, and each of them speaks hypocritically pleasant words, since the more deceitful, sinister, and cunning something is, the more it will boast of its sincerity, purity, and honesty...

So at this moment, facing the numerous demon heads, demon lords, and demon generals looking toward itself,

even though the Soul Shifting Demon Lord is highly unwilling, it has no choice but to reluctantly accept it...

However, what forces the Soul Shifting Demon Lord to reluctantly accept the most is still the First Demon Lord Fan Yu's strength!

It is no match for the First Demon Lord and does not dare to easily offend this First Demon Lord. The Demon Artifact can be refined again, but if it is targeted by this most sinister, cunning, and ferocious First Demon Lord of the Profound Yin Demon Sect, the hardships the Soul Shifter may have to endure later will definitely be more painful than cultivating a new Demon Artifact!

In its depression, this Soul Shifting Demon Lord raised its hand and touched its chest,

instantly,

the black demon armor on its chest directly split open to both sides, and even its black-skinned chest split into two halves, revealing the heart beating inside, and above the heart, there was a transparent pearl spinning round and round!

Along with the Soul Shifting Demon Lord's activation, the transparent pearl flew out from its chest split into two halves, turning into a stream of light, and instantly fell in front of the Celestial Eye Demon Lord beneath the tribulation cloud.

At this time,

the Celestial Eye Demon Lord beneath the tribulation cloud already wore a face full of despair,

the Great Success Jade Bright Bodhisattva showed no fear against the Netherworld Water Tribulation, but where does Celestial Eye Demon Lord have even a shred of confidence to overcome such a Netherworld Water Tribulation!

When it saw the pearl appear in front of it, the Celestial Eye Demon Lord, who wore a face full of despair, couldn't help but tremble all over, the large demon eye on its forehead widened roundly, and it immediately activated demonic qi without hesitation, sweeping the transparent pearl to the front of itself.

Tightly gripping this transparent pearl, confirming that the pearl in its hand was not an illusion, only then did the Celestial Eye Demon Lord feel reassured, with a trace of excitement on its face, turning to look at the numerous demon lords of Profound Yin Demon Sect.

As a veteran demon lord of Profound Yin Demon Sect, this Celestial Eye Demon Lord knows exceptionally well that the transparent pearl in its hand is one of the strongest spiritual-type Demon Artifacts controlled by the demon lords of Profound Yin Demon Sect, and it is the Lifebound Demon Artifact of the Soul Shifting Demon Lord, nurtured over tens of thousands of years!

It really could never have imagined that in such a critical moment, that guy Soul Shifter actually was willing to let it use a Demon Artifact cultivated with tens of thousands of years' worth of effort, after all, the veteran demon lord Celestial Eye understands all too well what kind of sinister nature its fellow members of Profound Yin Demon Sect have!

As the Celestial Eye Demon Lord turned its head, it saw the distant Soul Shifting Demon Lord force out a slight smile, while the First Demon Lord Fan Yu slightly nodded toward it, sending a voice transmission:

"Having gone through the Five Elements Extermination Tribulation, regardless of whether you can safely cross it in the end, you must not experience fewer waves of tribulation attacks than the Great Success Jade Bright Bodhisattva of Spirit Platform Buddhism. Otherwise, wouldn't that be a disgrace to our Profound Yin Saint Sect, let alone the face of our Holy Sect's Saint Heir Gang Bone and the supreme Thousand Illusion Saint Monarch! Rest assured, regardless of the horrifying attacks you encounter in the Five Elements Extermination Tribulation ahead, I will never stand by and watch my junior brother fall!"

Upon hearing the First Demon Lord Fan Yu say this, although the Celestial Eye Demon Lord was not very convinced, it understood that, at this moment, senior brother First Demon Lord Fan Yu ultimately saved its life!

It was about to send a voice transmission back, intending to rack its brain to sincerely thank its senior brother of Profound Yin Demon Sect, but before it could speak, it felt a great sense of danger suddenly arriving from above!

In shock,

the Celestial Eye Demon Lord's hair stood on end, looking up,

only to see that from the enormous black hole within the tribulation cloud, infinite Netherworld Water was already surging downward, from the black hole within the tribulation cloud to the Celestial Eye

Demon Lord's position. Although nearly a thousand miles away, this Netherworld Water rushed downward, as quickly as the High-Grade Immortal Artifact shooting forth, reaching the Celestial Eye Demon Lord's position in less than a hundredth of a breath's time!

This river of Netherworld Water descending from the sky appeared black, and within it were the corpses of countless Human Race, Demon Race, and Buddhist cultivators. These corpses either presented as dry bones or semi-decayed forms, looking incredibly eerie and carrying a stench that soared to the heavens along with icy coldness!

As the Netherworld Water reached the body, the Celestial Eye Demon Lord dared not hesitate a single moment, immediately circulating all its demonic qi, infusing it into the Soul Shifting Demon Pearl in its hand, and in an instant, from within the Soul Shifting Demon Pearl, countless resentful souls of living beings flew out, as many as tens of thousands, with this being merely the first wave of resentful souls of living beings. Together with the Celestial Eye Demon Lord's incantation, the Soul Shifting Demon Pearl seemed to contain an endless number of resentful souls continually flying out!

This tiny pearl surprisingly contained so many resentful souls of living beings, one can imagine how many lives, including those of countless Immortal Realm Human Race, Demon Race, and Buddhist cultivators, were claimed by the Soul Shifting Demon Lord in order to nurture this Soul Shifting Demon Pearl, not to mention the lives of numerous its own Demon Race cultivators...

Once these resentful souls appeared, they surrounded the Celestial Eye Demon Lord's body, continuously fluttering around. Although these resentful souls were not large, about the size of ordinary humans, their number was so great, they gathered together, sheltering the thousand-zhang tall Celestial Eye Demon Lord in the center, forming layer upon layer of ghosts around the exterior of the Celestial Eye Demon Lord's body!

However, the Netherworld Water Tribulation,

could not be defended against using Immortal Artifacts, Magical Treasures, Spiritual Objects, Immortal Techniques, or Demon Techniques,

because the Netherworld Water Tribulation, seeming like water, like surging rivers, actually constituted a spiritual attack from the Five Elements Extermination Tribulation. These surging waves and the countless corpses of Human Race, Demon Creatures, and Cultivators can largely be regarded as a spiritual illusion!

Nevertheless, although Immortal Artifacts, Magical Treasures, Spiritual Objects, Immortal Techniques, Demon Techniques, and so forth could not defend against the Netherworld Water, those resentful souls, brought forth by the Celestial Eye Demon Lord, all condensed from the resentful thoughts of lives claimed by Soul Shifting Demon Lord, can actually be considered spiritual 'objects'!

At this moment, these seemingly endless ghosts indeed sheltered the Celestial Eye Demon Lord's demon body. After forming layer upon layer of protection around its body, it managed to temporarily block the Netherworld Water's attack on the Celestial Eye Demon Lord!

Of course, the Netherworld Water indeed lived up to being the fourth wave of tribulation attacks from the Five Elements Extermination Tribulation. Despite those resentful souls temporarily blocking the Netherworld Water, under the constant impact and engulfing of Netherworld Water, those resentful souls' bodies rapidly eroded and withered away...

In less than a breath's time, tens of thousands of resentful souls of Soul Shifting Demon Lord were completely shattered by the Netherworld Water, becoming a part of the Netherworld Water!

But anyhow, this veteran demon lord of the Profound Yin Demon Sect, the Celestial Eye Demon Lord, ultimately relied on this Soul Shifting Demon Pearl to temporarily resist the attack of Netherworld Water.

After slightly relaxing its heart, the lone demon eye on the forehead of Celestial Eye Demon Lord, including a trace of resentment, gazed at the distant Great Success Jade Bright Bodhisattva!

Chapter 1138: Lin Xuankong's Misgivings

At a glance,

the Celestial Eye Demon Lord's large solitary eye immediately narrowed its pupil,

while a look of almost disbelief appeared on its face.

In the mind of the Celestial Eye Demon Lord,

the Netherworld Water Tribulation, which had deterred it despite its hundreds of thousands of years of cultivation,

would undoubtedly be insurmountable even by the Great Success Jade Bright Bodhisattva, leading to a direct impact on her Divine Soul by the endless resentment carried within, possibly even leading to her abrupt downfall on the spot!

Yet at this moment, as the Celestial Eye Demon Lord looked towards the Great Success Jade Bright Bodhisattva, it discovered,

that this Bodhisattva, who once defeated it, had surprisingly retracted the two golden shields filled with Buddhist phenomena above her head, allowing the Netherworld Water carrying countless resentful souls and resentment to strike her body!

In the process of the terrifying Netherworld Water falling from the sky,

the Great Success Jade Bright Bodhisattva from Spirit Platform Buddhism not only showed no sign of pain, but instead appeared serene, with her eyes slightly closed, looking rather at ease!

The endless Netherworld Water, along with the endless resentful souls and resentment it carried, seemed to just bathe the Great Success Jade Bright Bodhisattva like ordinary fresh water, devoid of any power!

Faced with such a scene, the Celestial Eye Demon Lord felt somewhat overwhelmed, and couldn't help but mutter under its breath, "The Netherworld Water, said to be formed by the boundless resentment of countless wrongful dead souls from the Yellow Springs, inevitably affects the Divine Soul upon contact, making it unavoidable even with powerful Immortal Technique cultivation. How...how can you allow these waters to strike you, to let the endless resentment assault you?"

The Great Success Jade Bright Bodhisattva, seemingly hearing the Celestial Eye Demon Lord's voice, slightly opened her eyes amidst the constant washing of the Netherworld Water, looking towards the Demon Lord, and softly said, "Why? You devil, do you wish to know why I dare to willingly withstand the washing of the Netherworld Water?"

Upon hearing this from the Great Success Jade Bright Bodhisattva, the Celestial Eye Demon Lord's expression momentarily hesitated, and a touch of shame and anger appeared on its large, black face.

But the Great Success Jade Bright Bodhisattva merely smiled and said:

"Celestial Eye, as a demon head of the Profound Yin Demon Sect, whose cultivation is entirely based on plundering the flesh and Divine Souls of all living beings, naturally fails to grasp how one truly resists this Netherworld Water!

Indeed,

the Netherworld Water is said to appear only within the Netherworld where the dead are reborn, formed by endless resentful souls and resentment. When it strikes the Immortal Body and Divine Soul of a cultivator, it immediately triggers the evil thoughts buried deep in the cultivator's heart, infinitely magnifying these evil thoughts, even directly assimilating the Divine Soul of the Tribulation Crosser into part of the Netherworld Water, resulting in immediate demise within the waters!

But all of this assumes one condition,

that the heart of the Tribulation Crosser facing the Netherworld Water must harbor sufficient evil and malicious thoughts, allowing the water to magnify them and gradually assimilate them, completely obliterating the Divine Soul's will!

However, though my Yu Ming may not be the best in Spirit Platform Buddhism in terms of Wisdom Root, talent, or strength, I've lived an honest life, never holding excessive malicious or evil thoughts toward others. Moreover, our Buddhist Technique of Spirit Platform excels in cultivating Buddha Nature, focusing on comprehension and Heart Nature. Over tens of thousands of years, I've long since cleared the mirror of my heart, with a pure Divine Soul, making it impossible to harbor evil or malicious thoughts within!

Given such circumstances, I naturally fear nothing from the Netherworld Water. Not to mention that the Netherworld Water Tribulation of this Five Elements Extermination Tribulation is only the fourth wave, with limited impact time; even if I fell into the Yellow Springs of the rebirth Netherworld now and lingered amidst the Netherworld Water for thousands or tens of thousands of years, I would still remain unscathed, without erosion or assimilation!"

Upon hearing this from the Great Success Jade Bright Bodhisattva,

the Celestial Eye Demon Lord, continually activating the Soul Shifting Pearl, had its solitary eye on its forehead flicker continuously, seeming to harbor a touch of envy.

The Great Success Jade Bright Bodhisattva then glanced at the Celestial Eye Demon Lord, shaking her head slightly and said:

"As for demon heads like you in the Profound Yin Demon Sect, even if given tens, millions, or tens of millions of years of cultivation, no matter how strong your Divine Soul gets, it would still be incapable of withstanding the direct impact of the Netherworld Water! For demon heads like you from the Profound Yin Demon Sect, the only possibility of confronting this Netherworld Water Tribulation lies in relying on external items, relying on the Soul Shifting Pearl of the soul-shifting demon head in your hand, or else there's not even a small chance to cross the present Netherworld Water Tribulation!

The world speaks of how powerful and formidable the demon heads of the Profound Yin Demon Sect are, yet they wouldn't know that the various cultivation techniques you practice, although seemingly powerful, are ultimately crooked paths, forever unable to achieve the true unity of Divine Soul and Immortal Body. Even if you fortuitously crossed the final Celestial Tribulation, becoming a so-called formidable Celestial Demon, the Celestial Demon Power under your control would always be incapable of prevailing over the rightful Celestial Immortal Power of the Immortal Realm Celestial Immortals!"

Having spoken thus, the Great Success Jade Bright Bodhisattva ceased to regard the darkened expression of the Celestial Eye Demon Lord, once more closing her eyes gently, peacefully enduring the Netherworld Water pouring down from the heavens!

After a series of facial changes, the Celestial Eye Demon Lord couldn't help but let out a heavy snort, "It's said that the bald monks of Buddhism enjoy spouting nonsensical truths, and it seems true! Talking about understanding one's mind and seeing one's nature, speaking of cultivating Buddha Nature, as if the cultivation method of your Buddhist Sect is the greatest!"

Chapter 1139: Lin Xuankong's Misgivings (2)

In my view, it's just that. If you can use the so-called Buddha nature to resist this Netherworld Water Tribulation, my Celestial Eye can equally rely on our Profound Yin Saint Sect's Sacred Artifact to resist the Netherworld Water Tribulation!

The path of cultivation in the Immortal Realm, is ultimately all about achieving great power, ascending to the Upper Realm, and becoming a true powerhouse with an infinite lifespan. Whoever's cultivation technique can fight, whose treasure can assist in overcoming the celestial tribulation, that family's cultivation technique and treasure are truly formidable!

Hmph, you talk so high and mighty now, but weren't you almost defeated by my Celestial Eye attacks previously? It's just that the fourth wave of the Five Elements Extermination Tribulation's celestial attack was the Netherworld Water, so I was a little passive; if it were other types of celestial tribulations, the one leisurely here might not necessarily be you, bald monk!"

At this moment, the Celestial Eye Demon Lord was clearly somewhat unable to bear the leisurely ease of the Great Success Jade Bright Bodhisattva in front of him, shouting repeatedly with anger after finishing speaking, still full of rage.

However, this Celestial Eye Demon Lord seemed to have forgotten,

Just not too long ago, it looked up at the enormous black hole beneath the tribulation clouds in the sky, hearing the sound of Netherworld Water and the wails of ghosts, and was in sheer terror and helplessness!

Had it not been for the First Demon Lord Fan Yu forcing the Soul Shifting Demon Lord to give it the Soul Shifting Pearl, it long suffered the torment of the Netherworld Water, and even its divine soul was affected by the resentful ghost's malice. It might have already been assimilated into part of the Netherworld Water with its countless grievances!

At this moment,

Lin Xuankong within the Luo Water Array, hearing the dialogue between the Great Success Jade Bright Bodhisattva and the Celestial Eye Demon Lord, couldn't help but nod slightly, his face relaxing a bit.

Lin Xuankong himself is the Supreme Divine Soul Realm of the Immortal Realm, considering himself not inferior to the divine soul realm of the Great Success Jade Bright Bodhisattva. Although he may not necessarily compare in terms of divine soul purity and Buddha nature to this Great Virtuous Bodhisattva of the Spirit Platform Buddhism, Lin Xuankong is equally confident, having crossed over to this Golden

Dragon Immortal Realm for over a hundred years, everything he has done has been of his volition, and compared to these demons of the Profound Yin Demon Sect, it's genuinely considered great charitable deeds!

With these thoughts, Lin Xuankong gazed again at the Netherworld Water from the sky, seemingly containing countless resentful souls and grievances, without any sense of dread!

Since the Great Success Jade Bright Bodhisattva hasn't reached the Supreme Divine Soul Realm, yet so effortlessly under the attack of the Netherworld Water Tribulation, then he too need not worry when facing the last celestial tribulation in the future should it be this Netherworld Water Tribulation. Moreover, with the myriad wondrous talents within his Vigorous in Old Age Life Plate, he needn't fear this Netherworld Water Tribulation in the slightest!

Yet unaware of the bizarre celestial tribulation attacks ahead within the remaining layers of the five elements extermination tribulation, said to never be surpassed by any cultivator!

Considering this, Lin Xuankong felt assured,

Yet the strongest Immortal Lord Guang Yu'er, Elder Clan Leader of the Qilin Race, Cyan-forehead Qilin, White-forehead Qilin, and many geniuses from various immortal sects and clans, remained uneasy, fixated on the Great Success Jade Bright Bodhisattva outside the Luo Water Array, fervently hoping he could survive the wave of celestial tribulation attacks!

Time slipped away amid everyone's tense feelings,

Lin Xuankong's little sweetheart, the strongest Immortal Lord Guang Yu'er, clutched his hand tightly until the seemingly endless netherworld water stopped flowing, she heaved a heavy sigh.

But before Lin Xuankong could speak, the new strongest Immortal Lord of the Guangqing Immortal Sect couldn't help but exclaim lightly, "Oh, after enduring such a terrifying netherworld water attack, it seems the Great Success Jade Bright Bodhisattva not only remains unharmed but has grown even stronger? The Buddha's light emanating from the Great Success Jade Bright Bodhisattva is even brighter and more resplendent now!"

Lin Xuankong, upon hearing, couldn't help but reveal a hint of a smile,

"Haha, I distinctly remember that just now when I expressed certainty that the Great Success Jade Bright Bodhisattva would safely overcome the wave of celestial tribulation attacks, you seemed to disagree quite a bit!"

Originally staring with a surprised expression at the Great Success Jade Bright Bodhisattva, Guang Yu'er paused upon hearing Lin Xuankong, recalling past events, she turned to him with a hint of doubt in her eyes, "Oh, come to think of it, I'm curious now, you seem to have known the Great Success Jade Bright Bodhisattva later than I did, and it's even your first time meeting him at the Wine Immortal Sect! Uncertain as to whether he'd overcome the recent netherworld water tribulation, how were you able to foresee and be so assured?"

Haha, I certainly won't tell you little one that I'm now of the Supreme Divine Soul Realm of the Immortal Realm, thus knowing the Great Success Jade Bright Bodhisattva's divine soul has approached this realm, otherwise, your little mouth might drop in sheer surprise!

Lin Xuankong merely shook his head, choosing silence.

Meanwhile, the strongest Immortal Lord Guang Yu'er seemed a bit dejected, yet the Elder Clan Leader of the Qilin Race couldn't help but marvel:

"Immortal Lin indeed possesses discerning eyes, even I couldn't confidently determine whether the Great Success Jade Bright Bodhisattva could overcome the recent netherworld water tribulation, for even I wouldn't dare claim much confidence to ward off the endless grievances!"

Pausing, the Elder Clan Leader glanced at the strongest Immortal Lord Guang Yu'er beside Lin Xuankong, continuing:

"The Immortal Lord Guang's words weren't wrong; the Great Success Jade Bright Bodhisattva has indeed grown stronger, and this growth seems to be foundational metamorphosis!

After all, this five elements extermination tribulation has presented a full four terrifying waves of celestial attacks, which the Great Success Jade Bright Bodhisattva has successfully endured!

Every strongest Immortal Lord-level powerhouse faces such end tribulations; each survivor after the fourth wave attracts celestial breaths, commencing metamorphosis of their divine soul and immortal body. Nevertheless, as that aura originates from the Upper Realm, us mere weaklings of the Immortal Realm couldn't sense or witness it!"

"Oh? Has the first wave's 'benefits' begun manifesting? No wonder the Buddha's light on the Great Success Jade Bright Bodhisattva has indeed changed, becoming more resplendent, more vibrant but not dazzling!" The strongest Immortal Lord Guang Yu'er nodded contemplatively.

Lin Xuankong, hearing the Elder Clan Leader, couldn't resist activating his Nine Gates Celestial Eye of extraordinarily high realm, peering towards the Great Success Jade Bright Bodhisattva and the Celestial Eye Demon Lord, eager to observe those Upper Realm auras.

However, no matter how Lin Xuankong pushed his eyes, wielded the Nine Gates Celestial Eye, or employed his divine soul, he could sense not a trace of aura distinct from the Golden Dragon Immortal Realm!

Nonetheless, the Buddha's light over the Great Success Jade Bright Bodhisattva indeed transformed, that Celestial Eye Demon Lord who narrowly overcame the fourth wave celestial attacks also refined his demonic qi, even the enormous single eye on his forehead deepened further, indicating that beneath this five elements extermination tribulation, these two strongest Immortal Lord-level powerhouses benefited significantly after enduring the fourth celestial wave!

Indeed the aura and power from the Supreme Origin Realm prove genuinely strong and mysterious; even my Supreme Divine Soul of the Immortal Realm and my lofty realm Nine Gates Celestial Eye couldn't detect an anomaly!

Considering all, Lin Xuankong couldn't help but frown, gazing skyward, a hint of dread in his eyes, whispering internally: The Supreme Origin Realm's breaths and powers are undeniably formidable and enigmatic; it seems, recognized already as the Immortal Realm's foremost Artifact Refining Genius and Array Formation Genius, possessing almost unknown trump cards within the Immortal Realm, still one must not underestimate all from the Supreme Origin Realm!

Chapter 1140: Silver Thread Sword Tribulation

Especially,

thinking about the scarlet beam attack previously launched by the Celestial Eye Demon Lord,

Lin Xuankong understood one thing profoundly:

The countless Earth Immortals, Bodhisattvas, Demon Race, and Demon Lords in the Golden Dragon Immortal Realm are all immensely eager to one day overcome the final Celestial Tribulation, becoming the so-called Celestial Immortals, Buddhas, or Celestial Demons.

It's not that they yearn for some illusory, vague thing, but that once they step into the Supreme Origin Realm, referred to as the Upper Realm, the strength of these cultivators will increase dramatically. Any strong entity known as Celestial Immortal, Buddha, or Celestial Demon may not be something their current self can resist!

After all, just a sliver of the power transmitted to the Lower Realm by the Celestial Demon known as the Thousand Illusion Saint Monarch was already enough to make the Celestial Eye Demon Lord, who is far inferior in strength to the Great Success Jade Bright Bodhisattva, almost defeat the Great Success Jade Bright Bodhisattva with that kind of scarlet beam... Imagine how powerful those true Celestial Demons would be!

After thinking about these matters,

now possessing numerous trump cards and considering his strength no less than any Earth Immortal in the Immortal Realm, Lin Xuankong surprisingly felt an impulse to find a place to hide and cultivate tens of thousands, even hundreds of thousands of years!

Of course, impulse is just impulse. In the current Immortal Demon War involving the entire Immortal Realm, Boundaryless Mountain, Spirit Platform Buddha Realm, and Profound Yin Demon Sect, Lin Xuankong certainly cannot stand apart. Moreover, this so-called Demon Child Gang Bone clearly targets not only the countless cultivators of the Human Race in the Immortal Realm but also himself, the one who once drove it to retreat wildly. The Demon Child Gang Bone will certainly not allow him to detach himself!

"The Fifth Layer Celestial Tribulation is approaching?"

While Lin Xuankong was 'wandering beyond the heavens,' the strongest Immortal Lord Guang Yu'er beside him couldn't help but speak out.

Lin Xuankong's eyes moved as he looked towards the Great Success Jade Bright Bodhisattva outside the Luo Water Array. This Spirit Platform Buddha's Great Accomplishment Bodhisattva had a massive black hole above his head that had disappeared, replaced by countless, densely packed, extremely tiny silver dots!

These silver dots continuously emerged from the clouds of the Five Elements Extermination Tribulation, growing more and more, covering a vast area of hundreds of miles above the Great Success Jade Bright Bodhisattva and the Celestial Eye Demon Lord in just moments!

What made Lin Xuankong frown unconsciously was that

these extremely tiny silver dots each carried a dangerous air, markedly different from the eerie sense brought by the prior Netherworld Water, akin to the peril a mortal feels with a knife at their throat or a gun to their forehead!

It should be noted that now, Lin Xuankong is indeed a Strongest Immortal Lord-level powerhouse. Though just at the Early Stage of the Strongest Immortal Lord Realm, and his Immortal Body is slightly inferior to that of a true Late Stage or Perfection Level strong person's Immortal Body, in this Immortal Realm, very few can harm Lin Xuankong!

Aside from those Immortal Techniques from equally matched strongest Immortal Lord-level powerhouses, only Immortal Artifacts could potentially cause some destruction to his Immortal Lord-level Earth Immortal Body, thus inflicting a slight sense of danger! Beyond that, no amount of Magical Artifacts or attacks from Low-Tier Earth Immortals could inflict any destruction on his Immortal Body, much less evoke any sense of danger!

Yet these countless, innumerable silver dots, each one of them could actually evoke a sense of danger in Lin Xuankong....

"These countless silver dots! This feeling!

Truly worthy of the name 'Five Elements Extermination Tribulation' feared by everyone, indeed this is even more terrifying than the Celestial Spirit Fire and the Netherworld Water Tribulation: the Silver Thread Sword Tribulation!"

The Qilin Race Elder Clan Leader, who has lived long and seen much, actually recognized the Celestial Tribulation attack that puzzled Lin Xuankong and the strongest Immortal Lord Guang Yu'er!

"Silver Thread Sword Tribulation?"

Hearing the Qilin Race Elder Clan Leader say so, the strongest Immortal Lord Guang Yu'er unconsciously tightened her grip on Lin Xuankong's hand a bit.

The Qilin Race Elder Clan Leader, with a solemn expression, nodded his head,

"This Silver Thread Sword Tribulation is a type of the Five Elements Great Tribulation, but more difficult to overcome than the Netherworld Water Tribulation and Celestial Spirit Fire! Though the Netherworld Water Tribulation and Celestial Spirit Fire often cause fear amongst the strongest Immortal Lords, there is always some hope for survival, and some predecessors have successfully ascended under the tempering of these tribulations. While terrifying, the Netherworld Water Tribulation and Celestial Spirit Fire can still potentially be withstood by relying on a powerful Divine Soul or having Divine Soul Treasures, and abundant Immortal Yuan.

However, this Silver Thread Sword Tribulation reportedly belongs to the terrifying Metal Element tribulation. In this tribulation, each silver dot's attack is equivalent to the full strength of an Immortal Technique launched by a Perfection Realm Strongest Immortal Lord-level powerhouse, and also comparable to the full strength of an attack with an Immortal Artifact by a Strongest Immortal Lord-level powerhouse!

According to the ancient texts recorded by our Qilin Saint Monarch, the Unbounded Mountain Demon Race had ninety-eight Strongest Immortal Lord-level Demon Kings encounter this Silver Thread Sword Tribulation, yet not one Demon King survived past the Eighth Layer; the one with the strongest defense, a Strongest Immortal Lord-level Demon King from the Black Tortoise Race, barely survived to the Seventh Layer, only to be vanquished brutally by this Silver Thread Sword Tribulation, unable to match even slightly the Black Tortoise Defense, fallen into this tribulation!

As for the Immortal Realm Human Race.... It seems there have been twohundred and one Strongest Immortal Lord-level powerhouses who encountered this tribulation, out of which a hundred and ninety-eight fell, while only the three strongest managed to barely overcome this Silver Thread Sword Tribulation! These three strongest Immortal Lords were, several million years ago, the Sect Masters of top sects in the Immortal Realm, each possessing several pieces of High-Grade Seventh-Rank Immortal Artifacts, and that is how they barely survived!
