

Stronger 1141

Chapter 1141:

The elder of the Qilin clan worriedly expressed,

This Silver Thread Sword Tribulation doesn't test whether the Tribulation Crosser's Immortal Yuan is sufficient, nor does it test whether the Tribulation Crosser's Divine Soul is strong enough, but rather it tests whether the Tribulation Crosser's treasures are strong enough and whether their defensive Immortal Techniques are powerful enough!

Unfortunately, the numerous Great Accomplishment Bodhisattvas of Spirit Platform Buddhism mostly rely on Buddhist Techniques to bless ordinary items, endowing them with special Buddha Nature and producing various mystical effects. However, most of these effects are not strongly related to defense and attack! Moreover, the Golden Body Demon Suppression Technique of Great Success Jade Bright Bodhisattva has already consumed nearly half of her Buddha Body just to form two Golden Shields.... Can her Golden Body Demon Suppression Technique withstand this Silver Thread Sword Tribulation in the future?"

After saying this, the elder clan leader of the Qilin race shook his head repeatedly, his eyes filled with even greater and more obvious concern than when Great Accomplishment Jade Bright Bodhisattva was opposing the Netherworld Water Tribulation!

Supreme Immortal Master Guang Yu'er heard this and couldn't help but frown deeply. She pondered slightly, then turned to Lin Xuankong, "Xuankong, since this Celestial Tribulation tests whether the Tribulation Crosser's treasures are strong enough, whether Great Success Jade Bright Bodhisattva can overcome this round of Silver Thread Sword Tribulation may depend on your help! However, according to the elder clan leader, the three Strongest Immortal Lords who crossed the Silver Thread Sword Tribulation millions of years ago only barely managed it by relying on several pieces of Seventh-Grade High-Grade Immortal Artifacts... This is truly some trouble! I wonder if your Fourth-Grade Immortal Artifacts can help Great Success Jade Bright Bodhisattva overcome this tribulation!"

Lin Xuankong originally felt quite apprehensive about the threat posed by the countless silver thread light points in front of the Silver Thread Celestial Tribulation,

but after listening to the elder Qilin's explanation, a stone in his heart fell to the ground!

If those three Strongest Immortal Lord predecessors could cross the Silver Thread Celestial Tribulation with several Seventh-Grade Immortal Artifacts, then if I lend Great Success Jade Bright Bodhisattva an Eighth-Grade Immortal Artifact, there should be no problem, but if one Eighth-Grade artifact is insufficient, then two, if two aren't enough then three, four, or five Fourth-Grade ones, after all, I have plenty of Eighth-Grade Immortal Artifacts...

Considering this, all of Lin Xuankong's worried expressions vanished from his face, and he even relaxed a bit, turning to look at Supreme Immortal Master Guang Yu'er with a joking tone: "All my Fourth-Grade Immortal Artifacts have already formed the Luo Water Array, where would I find enough Fourth-Grade Immortal Artifacts to help Great Success Jade Bright Bodhisattva unless I dismantled the Luo Water Array that protects numerous junior talents, but in doing so, wouldn't I put these hundreds of thousands of lives from various sects and clans in danger?"

This...

Guang Yu'er was momentarily puzzled upon hearing this.

She hesitated for a moment, then took off the Immortal Artifact from her waist and frowned: "No matter what, we absolutely must help Great Success Jade Bright Bodhisattva and can't just watch her encounter problems during the tribulation crossing. If it's no good, let's give all the remaining Immortal Artifacts from me, the elder clan leader of the Qilin race, and yourself to Great Success Jade Bright Bodhisattva first; whether these Immortal Artifacts are enough is up to doing our best and leaving the rest to celestial destiny!"

The elder of the Qilin race nodded, opened his massive Qilin mouth, and immediately shot out several streams of light from it, which were naturally the few Immortal Artifacts that Lin Xuankong had previously given to the Qilin race!

Seeing the two express such intent, Lin Xuankong couldn't help but shake his head with a smile, saying: "No need to rush, just wait and see, perhaps Great Success Jade Bright Bodhisattva can directly block the attack of the countless Silver Thread Tribulations with her Golden Body Demon Suppression Technique! Additionally, if Great Success Jade Bright Bodhisattva is truly in danger, I'll definitely step in to help, as for you two, Guang Yu'er and elder clan leader of the Qilin, you don't need to offer your Immortal Artifacts to Great Success Jade Bright Bodhisattva, just rest assured!"

Both the Qilin race elder clan leader and Supreme Immortal Master Guang Yu'er felt rather puzzled upon hearing Lin Xuankong say this,

Guang Yu'er looked at Lin Xuankong's smiling face and frowned, saying: "What time is it now? Great Accomplishment Jade Bright Bodhisattva is about to be attacked by the Silver Thread Sword Tribulation, how can you still be smiling? That is the Silver Thread Sword Tribulation, haven't you heard the elder clan leader say that only having several Seventh-Grade Immortal Artifacts might just barely allow you to overcome this Silver Thread Celestial Tribulation!"

Lin Xuankong simply shook his head slightly, uttered no more words, and turned to look in the Great Success Jade Bright Bodhisattva's direction.

The elder of the Qilin clan recalled how Lin Xuankong had confidently said that Great Success Jade Bright Bodhisattva could overcome the Netherworld Water Tribulation, and couldn't help but fall silent, and after a few moments, he looked up at Supreme Immortal Master Guang Yu'er, saying:

"Immortal Lord Guang, perhaps Lin Immortal has a plan as he says, moreover, this time, even if we give Great Success Jade Bright Bodhisattva our few low-grade Immortal Artifacts, they will likely be of no avail! Better let's follow what Lin Immortal said and see first..."

Supreme Immortal Master Guang Yu'er heard this, frowned, and looked at Lin Xuankong, seeing her lover's calm face showing no sign of panic, she couldn't help but feel a flood of doubts come to her mind... This guy Xuankong, always taking her by surprise, whether in cultivation of immortal techniques, dealing with the demons of the Profound Yin Demon Sect, or refining immortal artifacts, array formations, responding to various crises, this guy seems to always be able to turn the tide, perhaps he's really thought of some plan now?

But in this Silver Thread Sword Tribulation before them, if it were truly as terrifying as the Qilin elder clan leader said, would Xuankong really have a way to help Great Success Jade Bright Bodhisattva avoid this tribulation?

While Supreme Immortal Master Guang Yu'er felt bewildered, the sky suddenly brightened immensely, her complexion tightened as she gazed outside, then narrowed her eyes involuntarily, as at this moment above both Great Success Jade Bright Bodhisattva and the Celestial Eye Demon Lord, there appeared hundreds of silver points of light, breaking free from the tribulation cloud above, shooting towards them at an incredibly alarming speed!

The speed was comparable to a First-Grade Immortal Artifact activated by a Strongest Immortal Lord-level powerhouse, and the power contained within was no different from when the Strongest Immortal Lord-level powerhouse fully activates their favored Immortal Technique!

But what's dire is,

there are hundreds of silver light points!

This means that at this moment, it is as if hundreds of Strongest Immortal Lord-level powerhouses are activating their First-Grade Immortal Artifacts, or hundreds of Strongest Immortal Lord-level powerhouses are using powerful Immortal Techniques simultaneously attacking the Great Success Jade Bright Bodhisattva and the Celestial Eye Demon Lord!

Although under normal circumstances, battles between Strongest Immortal Lord-level powerhouses usually last for several days, with continuous attacks of Immortal Techniques, in such cases, both sides are executing one Immortal Technique at a time, it has never seen the likes of hundreds of Strongest Immortal Lord-level powerhouses focusing their tactics in such an attack!

With hundreds of Same Tier powerhouses striking simultaneously, attempting to remain unscathed is genuinely challenging!

As Guang Yu'er thought through heart, those hundreds of silver light points descending from above already shot to the front of Great Success Jade Bright Bodhisattva and the Celestial Eye Demon Lord!

The Celestial Eye Demon Lord clearly had heard of this terrifying Silver Thread Sword Tribulation,

so, although it felt frustrated and panic-stricken, and its face was full of a bitter expression, it had evidently prepared,

as the silver light points came near, its demonic qi suddenly began to rage crazily, while from the massive single eye on its forehead, without hesitation, it shot out an immense crimson light beam that enveloped all the hundreds of silver light points heading its way!

On the other side, Great Success Jade Bright Bodhisattva once again recited majestic and righteous Buddhist Scriptures,

the two golden shields adorned with Buddhist Phenomena above her head blocked between the silver light points and her Buddha Body!

Naturally, Great Success Jade Bright Bodhisattva also heard of this Celestial Tribulation, dared not underestimate the hundreds of silver light points of massive power, and as the two golden shields impeded the silver light points, her body emitted countless rays of Buddha's Light, forming a Great Brightness Defense Barrier before her, although this Great Brightness Barrier isn't as renowned as the Golden Body Demon Suppression Technique, it's also an extremely powerful defensive Buddhist Technique within Spirit Platform Buddhism!

Chapter 1142: The Proud Celestial Eye

"Ding ding ding ding ding"

The attack of the Silver Thread Sword Tribulation descending from the heavens, its power concentrated beyond compare,

fell upon the golden shield of the Great Success Yu Ming Bodhisattva without causing any spread of power, not even making much noise!

However,

the noise may have been minimal, but the power was exceedingly terrifying!

When those hundreds of silver light points, the foremost tens of them carrying the terrifying power of the Celestial Tribulation, fully exerted their force on the golden shield over the Great Success Yu Ming Bodhisattva, the golden shield continuously trembled, and the densely packed Buddhist phenomena that initially adorned the golden shield were rapidly disappearing!

With the increasing number of silver light points falling on the golden shield,

the seemingly indestructible golden shield, which could withstand the red light beam of the Celestial Eye Demon Lord for extended periods, surprisingly began to show quite apparent cracks, as if it were a golden glass about to shatter!

The most frightening thing was that the Great Success Yu Ming Bodhisattva was also deploying the Buddha Light Divine Techniques at this moment, but the bright Buddha's Light emanating from her body could not shake any of the hundreds of silver light points above her head!

Those silver light points were slender silver needles, as thin as cow's hair and only as long as a palm. They appeared extremely delicate, and compared with the Great Success Yu Ming Bodhisattva they were attacking, they were definitely insignificant! The Great Success Yu Ming Bodhisattva's Buddha Body was fully deployed, towering over ten thousand feet, yet these extremely tiny silver needles ignored the might of the Great Success Yu Ming Bodhisattva's Buddha Light Divine Techniques and even began to shatter the golden shield condensed by her most powerful Golden Body Demon Suppression Technique!

Struggling to sustain the golden shield, exerting great effort to resist those silver needles, the once-placid and serene expression of the Great Success Yu Ming Bodhisattva had long since turned into one of great solemnity.

In the previous rounds of Five Elements Extermination Tribulation attacks, the Great Success Yu Ming Bodhisattva had managed to resist, though somewhat laboriously, without her life ever being threatened. Yet now, facing the fifth round of tribulation strikes from the Silver Thread Sword Tribulation, the Great Success Yu Ming Bodhisattva was exceptionally aware of the dreadfulness of those silver needles above her head!

The issue is,

this is merely the first wave of the Silver Thread Sword Tribulation's assault,

featuring only a few hundred silver needles constantly striking the golden shield of the Golden Body Demon Suppression Technique!

Yet at this moment, above the Great Success Yu Ming Bodhisattva's head, within the tribulation cloud covering the entire sky, the number of nourished silver needles might be in the millions or tens of millions, perhaps even more!

In that instant,

a tinge of despair began to surface in the formerly composed heart of the Great Success Yu Ming Bodhisattva.

Although she was proficient in Buddhist Techniques, her Divine Soul refined and her Wisdom Root exceptionally good, it did not mean that this Great Success Bodhisattva was willing to perish under the celestial tribulation! She had studied Buddhist Techniques for hundreds of thousands of years for the sole purpose of overcoming the ultimate tribulation before her, aiming to achieve the Buddha Realm, a feat unparalleled for hundreds of thousands of years!

On this side, the Great Success Yu Ming Bodhisattva struggled immensely against the Silver Thread Sword Tribulation, while on the other side, the Celestial Eye Demon Lord was in even direr straits!

Even though the Celestial Eye Demon Lord had its power augmented by a trace of Celestial Demon Power from the Demon Child Gang Bone, the currently released Celestial Eye Demon Technique wielded the terrifying power of the Curse of Time. However, it was clear that these silver needles from the celestial tribulation were also powered by forces from the Upper Realm, and the Curse of Time within the Celestial Eye Demon Technique could not seem to make these silver needles vanish under the ravages of time!

At this juncture,

the red beam emitted from the giant eye on the Celestial Eye Demon Lord's forehead,

was constantly approached by the hundreds of silver needles, leaving only a few hundred feet between them and its single eye!

This veteran Demon Lord of the Profound Yin Demon Sect gazed at the approaching silver needles within the red beam, its pupils involuntarily constricted tighter and tighter, while its demonic qi continuously vaporized, evidently having been pushed to the extreme!

Yet no matter how it urged the Celestial Eye Demon Technique, no matter how it mobilized the demonic qi it had cultivated for hundreds of thousands of years, it still could not halt the slow approach of those silver needles!

The Celestial Eye Demon Technique of the Celestial Eye Demon Lord was naturally quite powerful, and this veteran Demon Lord of the Profound Yin Demon Sect could easily gain the upper hand even against beings as powerful as the Qiaan Yuan Demon Lord, the Kunyuan Demon Lord, or the Thirty-Six Tribulation Demon Lords who were Strongest Immortal Lord-level powerhouses!

However, this mighty Celestial Eye Demon Lord found itself with no other options under the assault of just a mere few hundred silver needles!

This is obviously because the Celestial Eye Demon Technique was not an overwhelmingly powerful defensive Demon Technique! Against Immortal Realm Human Race cultivators, Unbounded Mountain Demon Race, or Buddhist Sect cultivators, the Celestial Eye Demon Technique was exceedingly formidable, possessing terrifying offensiveness. Moreover, it carried a hint of the Curse of Time, making any opponent of the Celestial Eye Demon Lord extraordinarily vexed and struggling to fend off! But since it was not a defensive technique, how could it serve greatly in the face of such a Silver Thread Sword Tribulation?

The Great Success Yu Ming Bodhisattva, possessing the Perfection Realm's Golden Body Demon Suppression Technique, had already been pushed into such a precarious situation trying to deploy it. Let alone this Celestial Eye Demon Lord!

Watching those silver needles getting closer,

the heart of the Celestial Eye Demon Lord was near to collapse!

Although it had never personally experienced the power of these silver needles from the Silver Thread Sword Tribulation, the Celestial Eye Demon Lord was absolutely certain that when those silver needles pierced through the red beam and impaled its Demon Body, it would have absolutely no chance of survival!

Chapter 1143: The Triumphant Celestial Eye (2)

In the midst of panic,

This Celestial Eye Demon Lord finally couldn't bear the imminent crisis of being abandoned, suddenly howling, while activating the Celestial Eye Demon Technique, retreated toward the position of the First Demon Lord Fan Yu and other Demon Lords!

In the blink of an eye,

This old demon from the Profound Yin Demon Sect, carrying hundreds of silver needles stuck to it, flew to a position two hundred miles away from the First Demon Lord Fan Yu and others!

Those many demons, Demon Generals, and Demon Lords from the Profound Yin Demon Sect, upon seeing this Celestial Eye Demon Lord retreating to them in panic, immediately tightened their expressions and, activating their respective demon clouds, quickly retreated backward!

At this moment,

Even those somewhat weaker Demon Generals and Demon Soldiers from the Profound Yin Demon Sect erupted with their highest escape speed, instantly retreating a thousand miles!

Among them, several old Demon Lords from the Profound Yin Demon Sect couldn't help but shout curses,

"Tianyan, are you insane? Actually approaching us during the final Celestial Tribulation, don't you *** know, once you get within a hundred miles of us, this Five Elements Extermination Tribulation would consider us as the cultivators undergoing tribulation, and the power of the Five Elements Extermination Tribulation would increase exponentially!"

"Celestial Eye Old Ghost, quickly *** retreat, if you dare approach us again, I, Soul Shifter, will take action! I've just sacrificed the Soul Shifting Pearl I nurtured for hundreds of thousands of years to help you through the fourth tribulation, the Netherworld Water Tribulation of the Five Elements Extermination Tribulation. And yet, you don't thank me but retreat toward us?"

"Junior Brother Tianyan, stop right away, we'll think of ways to help you with this Silver Thread Sword Tribulation! If you dare approach again, don't blame us for disregarding the camaraderie of fellow

disciples and directly taking action against you! I, Ten Thousand Forms, though with few means, can still manage to severely wound you during your tribulation!"

These old demons of the Profound Yin Demon Sect still have the face to talk about camaraderie... At this moment, these old demons, having cultivated for hundreds of thousands of years, upon seeing the Celestial Eye approaching, obviously wanted to kill Tianyan directly!

However, the First Demon Lord Fan Yu, who ultimately cultivated for millions of years, as the Profound Yin Demon Sect's strongest figure, was far more superior in both strength and mentality compared to its surrounding "Junior Brothers"!

Upon seeing the Celestial Eye Demon Lord helplessly retreating,

It suddenly opened its mouth, shooting out nearly a hundred streams of black light toward the position of the Celestial Eye Demon Lord, which turned out to be demon artifacts in the shape of hundreds of Immortal Swords from the Immortal Realm Human Race. However, these treasures that should belong to the Immortal Realm Human Race had long been corrupted into demon artifacts by the First Demon Lord Fan Yu!

The Celestial Eye Demon Lord, initially despairing while resisting those silver spots of light, upon hearing its fellow sect members speak this way, suddenly felt even more despair.

However, when the Celestial Eye Demon Lord sensed those shooting streams of black light, a hint of delight emerged in the lone eye on its forehead.

The next moment,

From its demon body towering ten thousand feet high, over a hundred black pillars of demonic aura suddenly extended, sweeping up all the First Demon Lord Fan Yu's shooting hundreds of First-Grade demon artifacts, and then, without any hesitation, crazily propelled those hundred First-Grade demon artifacts toward the hundreds of silver needles advancing on it!

In an instant,

The hundred black First-Grade demon artifacts each locked onto a silver spot of light, continuously striking the silver spots, causing them to emit a crisp sound!

After ten breaths of time had passed,

This Celestial Eye Demon Lord actually relied on the hundred First-Grade demon artifacts given by the First Demon Lord Fan Yu to smash all the hundreds of silver small swords in the red light column into pieces, breaking them, and then transforming into streams of pure and dark Celestial Tribulation Power, which surged into the demon body of the Celestial Eye Demon Lord!

Until now,

This old demon of the Profound Yin Demon Sect finally sighed in relief!

It couldn't help but turn its head towards the location of the First Demon Lord Fan Yu, calling loudly, "Celestial Eye is grateful to Saint Master Fan Yu for his assistance, just now if not for your help, my life might have soon completely perished!"

On the other side, the Great Success Yu Ming Bodhisattva had already been thoroughly depleted by the terrifying power carried by hundreds of silver spots of light!

However, the Great Success Yu Ming Bodhisattva was not doing well either, the two golden shields on its head had long completely shattered, transforming into extremely pure Buddhist aura between heaven and earth. To resist those fleeting spots of light, she even chanted a spell, again transforming her two legs into two golden shields, floating above her head once more!

Having dealt with hundreds of silver small swords, this Great Accomplishment Bodhisattva from Spirit Platform Buddhism showed no trace of joy,

Because she had already seen that within the densely packed, incredibly heavy clouds of the Five Elements Extermination Tribulation, again a large number of silver small swords were shooting toward her with far more than before, numbering several thousand!

Just now, hundreds of silver needles,

had already made the Great Success Yu Ming Bodhisattva sacrifice her legs once more,

With several thousand silver needles attacking at once, even if the Great Success Yu Ming Bodhisattva sacrificed everything below her neck, she probably couldn't block them. The problem is, this is just the second wave of the Silver Thread Sword Tribulation; afterward, there might be tens of thousands, even hundreds of thousands of silver needles!

This Five Elements Extermination Tribulation,

indeed reputed as one of the most terrifying final Celestial Tribulations from Ancient Times that even ancient strong figures couldn't overcome!

With eyebrows tightly locked, the Great Success Yu Ming Bodhisattva looked into the sky with deep fear and reflection!

At this moment,

Having regained some confidence from the hundred First-Grade demon artifacts given by the First Demon Lord Fan Yu, the Celestial Eye Demon Lord saw the Great Success Yu Ming Bodhisattva's expression filled with bitterness and couldn't help but burst into laughter, "Hahahahaha, Yu Ming old bald donkey oh old bald donkey, you didn't expect that the fellow members of our Profound Yin Saint Sect would be so united, and our sect's First Saint Master would even entrust me with a hundred First-Grade Immortal Artifacts! You never thought, you wanted to defeat me, so you triggered the final Celestial Tribulation, yet maybe you can't drag me down, and you might directly perish in the Celestial Tribulation! Hahahaha!"

It's not that this Celestial Eye Demon Lord is arrogant,

It's because surviving the ordeal just now gave it inexplicable confidence!

After speaking, this Celestial Eye Demon Lord's entire body surged with demonic aura, and those hundred black First-Grade demon artifacts shot up to its head, meeting the several thousand silver needles falling down with terrifying power!

A few breaths passed,

The sky once again echoed with extremely crisp sounds, and those several thousand silver small swords falling from the sky were actually temporarily stalled by the hundreds of demon artifacts propelled by the Celestial Eye Demon Lord!

Accompanied by the faint sounds of "whoosh whoosh" and "ding ding ding ding ding,"

all those several thousand silver small swords were blocked where they were by the hundreds of demon artifacts, seemingly unable to pose any threat to the Celestial Eye Demon Lord!

Using a large number of First-Grade demon artifacts to deal with the Silver Thread Celestial Tribulation, in translation, is still far stronger than relying solely on the Celestial Eye Demon Lord's powerful demon technique!

Witnessing those several thousand silver needles constantly shattering under the attack of hundreds of black demon artifacts, the old demon's face immediately revealed a peculiar smile it hadn't shown for 'quite a long time'!

At this moment, this Celestial Eye Demon Lord even felt that whatever Five Elements Extermination Tribulation, whatever Silver Thread Sword Tribulation, simply wasn't that difficult! Perhaps with the First Saint Master Fan Yu's hundred First-Grade demon artifacts, it could truly overcome the final tribulation that no one has crossed for hundreds of thousands of years!

In delight, this Celestial Eye Demon Lord, cultivated for hundreds of thousands of years yet still with monstrous demonic aura, shallow in character, and full of demonic nature, looked at the distant Great Success Yu Ming Bodhisattva struggling to resist, its mouth involuntarily curled up, feeling very proud in its heart!

Chapter 1144: Secrets of the Final Celestial Tribulation

In a moment of triumph,

This Celestial Eye Demon Lord, who was somewhat shallow and cruel in temperament, had a fierce glint in his eye,

Then his demonic qi surged, directing one of the black First-Grade Demon Artifacts away from his vicinity, shooting towards the distant Jade Bright Bodhisattva, who was struggling to withstand!

The distance between the Celestial Eye Demon Lord and Jade Bright Bodhisattva was already less than a few hundred miles,

With the First-Grade Demon Artifact being activated with full strength, it naturally shot into the area illuminated by the Buddha's light of Jade Bright Bodhisattva in an instant!

This sinister old demon of the Profound Yin Demon Sect was about to add insult to injury, taking advantage of Jade Bright Bodhisattva's difficult resistance against the Silver Thread Sword Tribulation, and launched a sneak attack on Jade Bright Bodhisattva!

If the First-Grade Demon Artifact were activated by ordinary high-grade Earth Immortals or Demon General level experts of the Profound Yin Demon Sect,

It would certainly be unable to break through the Buddha's light imbued with Buddhist power surrounding Jade Bright Bodhisattva, much less harm a single hair on Jade Bright Bodhisattva!

However,

When this First-Grade Demon Artifact was activated by the Celestial Eye Demon Lord with extremely condensed demonic qi, its power was terrifyingly potent,

The First-Grade Demon Artifact transformed directly into a black skull, its mouth opening with razor-sharp teeth, quickly approaching Jade Bright Bodhisattva. Even those Buddha's lights that could penetrate mountains couldn't stop this black skull from swiftly shooting!

In less than a fraction of a second, the First-Grade Demon Artifact had transformed into a gigantic skull with a diameter of a thousand feet, nearing Jade Bright Bodhisattva, its mouth suddenly opening to bite at the throat of Jade Bright Bodhisattva!

What was most fatal,

The black skull transformed from the First-Grade Demon Artifact was distinctly endowed with a very special attribute of demon artifacts; although it flew extremely fast, it didn't produce any sound, nor did it stir up any wave of demonic qi. At this moment, Jade Bright Bodhisattva, was entirely focused on the hundreds of small silver needles above, seemingly without sensing the approach of the gigantic black skull!

Witnessing this scene,

In the Luo Water Array, many cultivators of the Wine Immortal Sect and the young talents from various immortal sects and clans exclaimed out loud, even the Strongest Immortal Lord Guang Yu'er and the Qilin Race Elder Clan Leader frowned. However, at this point, even if they wanted to help Jade Bright Bodhisattva, it was already completely too late!

All they could do was watch as the hundreds of razor-sharp teeth of the gigantic black skull bit directly onto Jade Bright Bodhisattva's neck!

However,

The relief came when,

The teeth of the gigantic black skull formed from the demon qi, though incredibly sharp, upon biting onto Jade Bright Bodhisattva's neck, emitted strange sounds and burst forth hundreds of sparks, yet did not penetrate Jade Bright Bodhisattva's neck, nor did it lead to the anticipated scene of Jade Bright Bodhisattva suffering severe injuries!

The location on Jade Bright Bodhisattva's neck, being bitten by the black sharp teeth, surprisingly manifested countless dense Buddhist secret patterns at the moment of impact, blocking between the

skin and the teeth, preventing the teeth of the black skull formed from the First-Grade Demon Artifact from penetrating, not even breaking Jade Bright Bodhisattva's skin!

No matter how the distant Celestial Eye Demon Lord urged the demon artifact, no matter how the gigantic black skull exerted force, it couldn't penetrate those Buddhist secret patterns floating on Jade Bright Bodhisattva's neck!

Then at this moment,

Jade Bright Bodhisattva finally activated the Immortal Yuan within, shouting a booming command, "Begone!"

In the next instant,

The brightness of Jade Bright Bodhisattva's Buddha's light increased several folds, almost turning into a shining sun. The moment countless Buddha's lights were unleashed, they sent the gigantic black skull hurtling back a thousand miles, directly crashing back to the position of the Celestial Eye Demon Lord!

The Celestial Eye Demon Lord, originally showing a trace of triumph in his eyes, upon witnessing this, froze his expression, mobilizing demonic qi with full force, only then could he halt the recoiling black skull, avoiding self-infliction by the First-Grade Demon Artifact!

Seeing Jade Bright Bodhisattva so effortlessly handling the Celestial Eye Demon Lord's sneak attack, the cultivators of the Wine Immortal Sect and the tens of thousands of young talents in the Luo Water Array let out a heavy sigh of relief, their eyes showing expressions of admiration.

At this moment,

Little Bodhisattva Galin, who stood not far behind Lin Xuankong, Guang Yu'er, and others, clasped her hands together, saying:

"The Golden Body Demon Suppression Technique of Jade Bright Bodhisattva was passed down by the great virtue of our Spirit Platform Buddhism, specifically cultivated to counter the demon artifact attacks

the demon heads of Profound Yin Demon Sect excel in. Not to mention this Celestial Eye Demon Lord relying on First-Grade Demon Artifact unable to harm Jade Bright Bodhisattva, even if the Celestial Eye Demon Lord activated hundreds of First-Grade Demon Artifacts at once to attack Jade Bright Bodhisattva, it wouldn't harm my honorable master one bit!"

Saying this, she turned to look towards Jade Bright Bodhisattva's position, "Jade Bright Bodhisattva's cultivation is immense, almost unmatched compared to my master Yu Zhen Bodhisattva. While my honorable master might struggle somewhat against the righteous might of the Silver Thread Sword Tribulation, when it comes to dealing with the demon heads of the Profound Yin Demon Sect, she has established quite an achievement!"

Upon hearing these words, everyone nodded repeatedly,

Among them, some high-grade Eighth and Ninth Grade cultivators, when looking towards Jade Bright Bodhisattva, their eyes showed expressions of admiration and reverence.

They knew very well, if just now, the Celestial Eye Demon Lord activated First-Grade Demon Artifact formed black skull targeted them, these Eighth and Ninth Grade Earth Immortals, they would likely be severely injured immediately, not only would their throats be bitten off by the hundreds of razor-sharp teeth of the gigantic black skull, but the condensed demonic qi carried by the demon artifact would invade their meridians and Immortal Body, even if not perishing on the spot, they would instantly lose all ability to resist!

Chapter 1145: Secrets of the Final Celestial Tribulation (Part 2)

Everyone sighed with emotion; Great Success Jade Bright Bodhisattva is truly worthy of being a powerful Bodhisattva known in the Immortal Realm for a hundred thousand years. Based on the terrifyingly defensive Golden Body Demon Suppression Technique alone, he is sufficient to rank among the top five strongest Immortal Lord-level powerhouses in the Immortal Realm. Though they were considered figures in their respective sects and clans, compared to Great Success Jade Bright Bodhisattva, they were insignificant, and the difference was like night and day!

Some talented juniors whispered, saying that if they were to cross this Five Elements Extermination Tribulation, they probably couldn't withstand even the First Layer of the Five Elements Extermination Tribulation!

Even Lin Xuankong, who possessed nearly invincible defensive talent, admired and was a bit envious of the Golden Body Demon Suppression Technique cultivated by Great Success Jade Bright Bodhisattva!

Hmm... In the future, if given the chance, I should discuss with Little Bodhisattva Galin to see if I can learn the superior Buddhist Technique of the Spirit Platform Buddhism without joining it. I hope Little Bodhisattva Galin or other Bodhisattvas of the Spirit Platform Buddhism will agree!

If I could learn this terrifyingly defensive Golden Body Demon Suppression Technique, complemented by the various talents in my Vigorous in Old Age Life Plate, I could swiftly cultivate this superior Buddhist Technique of the Spirit Platform Buddhism to Perfection Realm!

In that case, when I cross my final Celestial Tribulation in the future, no matter how terrifying the tribulation I encounter is, even more fierce than this Five Elements Extermination Tribulation, I should have a greatly increased chance of overcoming it!

Thinking of these, Lin Xuankong felt a surge of heat in his heart.

However, considering the current situation, Great Success Jade Bright Bodhisattva is struggling to cross this final tribulation, it really isn't the time to speak to Little Bodhisattva Galin, otherwise Lin Xuankong would have spoken to Little Bodhisattva Galin long ago!

After all, although Lin Xuankong is cultivating various techniques and Immortal Techniques now, he lacks a defensive Immortal Technique or Buddhist Technique like the Golden Body Demon Suppression Technique. If he could master this Buddhist Technique and combine it with the Luo Water Array... then in the Golden Dragon Immortal Realm, there wouldn't be any tribulation that could make Lin Xuankong fear — perhaps it is the origin consciousness of this world, transformed by the corpse of the Five-Clawed Golden Dragon, that should be worried!

With Lin Xuankong's heart ablaze,

Great Success Jade Bright Bodhisattva finally relied on the Golden Shield to block the attacks of hundreds of golden silver needles,

But, because unlike the Celestial Eye Demon Lord who possessed lots of First-Grade treasures, one of Great Success Jade Bright Bodhisattva's Golden Shields had shattered completely, dispersing into countless golden light specks in the sky!

Of course,

Perhaps because he relied solely on his own power to cross this tribulation,

At this moment, Great Success Jade Bright Bodhisattva's Buddha's Light seemed brighter, and the fluctuations emanating from his enormous Buddha Body appeared stronger!

Compared to the Celestial Eye Demon Lord who relied on hundreds of First-Grade Demon Artifacts to survive the attack, after this attack, Great Success Jade Bright Bodhisattva had clearly made more progress in Buddha Body Immortal Essence, etc., whereas the Celestial Eye Demon Lord, although still brimming with demonic qi, showed no notable change compared to before!

Seeing this difference,

Lin Xuankong couldn't help but frown slightly, turning to his side to use voice transmission to ask his cherished Immortal Lord Guang Yu'er:

"Both crossed a wave of Silver Thread Sword Tribulation, why did Great Success Jade Bright Bodhisattva seem to quickly grow stronger within the tribulation, but the Celestial Eye Demon Lord's strength hasn't undergone any Metamorphosis? Normally, when crossing a tribulation, isn't the Supreme Origin Realm's aura supposed to appear after the last wave of Celestial Tribulation attack, transforming the tribulation crosser's spirit and Immortal Body?"

As Great Success Jade Bright Bodhisattva had crossed the wave of attack in front of them, Immortal Lord Guang Yu'er's mood seemed slightly improved,

Upon hearing Lin Xuankong's voice transmission, her delicate eyebrows raised slightly before she couldn't help but laugh:

"Haha, Xuankong, are you beginning to have some reputation concerns because you are too famous in our Immortal Realm now! If you have questions, just ask them boldly, why use voice transmission to ask me such things!"

Lin Xuankong:

"Damn girl, wait until I've dealt with these Profound Yin Demon Sect demons in front of me, see if I don't take you into the Celestial Demon Bone Secret Realm and use all sorts of techniques to take care of you!" With a bit of embarrassment, Lin Xuankong glared at Immortal Lord Guang Yu'er before using voice transmission with a fierce demeanor.

"Hehehe, I won't enter your Celestial Demon Bone Secret Realm!"

Immortal Lord Guang Yu'er saw Lin Xuankong's embarrassment, couldn't help but chuckle softly again before using voice transmission:

"Normally, the Earth Immortal's tribulation waits until the last wave of Celestial Tribulation attack before channeling the aura of the Supreme Origin Realm, thereby enhancing the strength of the Immortal Body and personal power. However, what Great Success Jade Bright Bodhisattva is crossing now is the final Celestial Tribulation!

This final Celestial Tribulation encountered by Earth Immortals, Demon Lords, Demon Kings, and Bodhisattvas in the Immortal Realm is undoubtedly different,

According to my memory from various records of the Guangqing Immortal Sect, descriptions state all final Celestial Tribulations, including the Five Elements Extermination Tribulation in front of us, these attacks of the final Celestial Tribulation actually contain threads of Upper Realm power, which are sensed during the resistance against the Celestial Tribulation by Strongest Immortal Lords, allowing them to perceive the technique, change the Immortal Body, and refine the Immortal Essence! Of course, if they can cross the final wave of Celestial Tribulation, it becomes an opportunity sought by every cultivator in the Immortal Realm – an immense transformation of the Immortal Body, enabling one to follow the tribulation cloud and ascend into the Supreme Immortal Realm!

During the attack of the Silver Thread Sword Tribulation just now,

Great Success Jade Bright Bodhisattva relied on his Immortal Essence, Buddha Body, spiritual will, to face it directly, enabling him to evidently absorb a thread of Upper Realm aura, gaining another leap in strength!

The Celestial Eye Demon Lord, however, relied on lots of Demon Artifacts to complete the tribulation resistance, as a result by using external objects, the growth is slightly limited, almost imperceptible!

Of course,

Since the final Celestial Tribulation is the last tribulation faced by every cultivator in the Golden Dragon Immortal Realm, and the strongest tribulation that might occur within the Golden Dragon Immortal Realm,

So, most cultivators, whether they are Immortal Realm Human Race Strongest Immortal Lords, old Demon Lords of the Profound Yin Demon Sect, or Clan Leader-level Demon Kings of the Boundaryless Mountain, or Buddhist Great Accomplishment Bodhisattvas of Spirit Platform Buddhism, almost cannot rely on their own Immortal Body, Demon Body, Immortal Essence, spiritual will to forcefully overcome the Celestial Tribulation!

Throughout history, in all the records I've read over millions of years, there hasn't been any Immortal Realm Human Race Strongest Immortal, old Demon of the Profound Yin Demon Sect, Clan Leader-level Demon King of the Boundaryless Mountain, Great Accomplishment Bodhisattva of Spirit Platform Buddhism, who could purely rely on their own strength, completely without using external objects, to cross the final Celestial Tribulation, they nearly all used some Immortal Artifacts, Demon Artifacts, Buddhist Spiritual Treasures! Just now, didn't Great Success Jade Bright Bodhisattva also activate his Glazed Demon-Slaying Pestle!

Nonetheless, in various records written by the predecessors of my Guangqing Immortal Lord, they were very sure, if any Earth Immortal of the Human Race, Demon Lord of the Profound Yin Demon Sect, Great Accomplishment Bodhisattva, Clan Leader-level Demon King, could completely rely on themselves without using external treasures to cross the final Celestial Tribulation, they would definitely lay down a very strong foundation during the final Celestial Tribulation, and when they achieve the Celestial Immortal Realm in the future, they would also become extremely powerful Celestial Immortals!

According to speculation from various predecessors, even among Celestial Immortals, Celestial Demons, Celestial Demons, and Great Buddhas ascending to the Upper Realm, there would be considerable differences! After all, Mortal Tier cultivators are like this, Earth Immortals are like this, Celestial Immortals would naturally be like this too! Thus, some predecessors of my Guangqing Immortal Sect have also tried to not use Immortal Artifacts, Spiritual Treasures, Arrays, etc., and rely entirely on their own power to cross the final Celestial Tribulation!"

Chapter 1146: The First Demon Lord in Despair

The final heavenly tribulation actually holds such secrets,

yet there are no such records in the numerous tomes of the Spiritual Crane Immortal Sect and Luo Water Immortal Sect!

It seems that although the Strongest Immortal Lords of the Guangqing Immortal Sect do not match the prowess of my master, the Immortal Lord Luoshui, compared to my own Spiritual Crane Immortal Sect and Luo Water Immortal Sect, the foundation of the Guangqing Immortal Sect is still slightly stronger!

Thinking of this, Lin Xuankong couldn't help but transmit a voice to ask again:

"Since it's like this, among the seniors of the Guangqing Immortal Sect who crossed the final heavenly tribulation through personal strength, how many succeeded through this method?"

Upon hearing this, the Strongest Immortal Lord Guang Yu'er had a momentary expression of embarrassment on her little face, and then shook her head somewhat dejectedly,

"According to the records of my Guangqing Immortal Sect, numerous seniors who intended to use this method to cross the final heavenly tribulation were all unable to withstand the sixth or seventh wave of celestial attacks, directly falling within the tribulation!

However, this is not a matter of shame for our Guangqing Immortal Sect's seniors, nor a sign of inadequacy of their strength,

because according to our records, throughout the Golden Dragon Immortal Realm, there has never been any Strongest Immortal Lord who has purely relied on personal strength to cross the final heavenly tribulation, even those peerless geniuses with extraordinary talent among the Strongest Immortal Lords could not accomplish this. The strongest among them could only endure until the ninth wave of the tribulation, before having to activate pre-prepared Immortal Artifacts, Spiritual Treasures, and the like!

There's no helping it, this is the final heavenly tribulation, incomparable to the celestial ascension tribulation triggered at the Ninth-Grade Earth Immortal. Each kind of final heavenly tribulation is extremely terrifying, even if they are slightly more benevolent than the Five Elements Extermination

Tribulation before us, they are still extremely dreadful. Otherwise, how could it be that in the Immortal Realm, for tens of thousands of years, there hasn't been a single Strongest Immortal Lord-level powerhouse able to cross the final heavenly tribulation again!"

Saying this, the Strongest Immortal Lord Guang Yu'er slightly furrows her brows, glances over to the distance at the Great Success Yu Ming Bodhisattva, shaking her head with a sigh:

"Just like the Great Success Yu Ming Bodhisattva before us, though she has already crossed four waves of tribulation, currently crossing the fifth, who can guarantee she can withstand wave after increasingly stronger, increasingly fearsome celestial attacks?"

Hearing this, Lin Xuankong felt a surge of ambition and enthusiasm in his heart,

In the entire Golden Dragon Immortal Realm, for millions of years, there has not been a single Strongest Immortal Lord-level powerhouse who by sheer talent and strength crossed the final heavenly tribulation, and this includes not only the Human Race of the Immortal Realm, the Demon Race of the Profound Yin Demon Sect, the Buddhist practitioners of the Spirit Platform Buddhism, and the Demon Race of the Unbounded Mountain, none have ever existed!

The key is, based on the changes and strength enhancements seen in Great Success Yu Ming Bodhisattva during the tribulation, what Yu'er said must be true—depending on pure strength and talent to bravely cross the tribulation rather than relying on external aids to cross the tribulation, could lay a better groundwork before ascending to the Upper Realm, possibly becoming a stronger Celestial Immortal in the future!

Click! Clack! From this perspective, I must think carefully and prepare seriously before reaching the Strongest Immortal Lord Perfection Realm!

Who knows, maybe I could become the only one in the entire Golden Dragon Immortal Realm for millions of years, to cross the final heavenly tribulation by relying purely on individual Immortal Body, Yuan, and spiritual will... and then become a stronger Celestial Immortal in the future!

Whether it will work or not, I must fight to try!

Thinking of these, Lin Xuankong couldn't help looking again at the Little Bodhisattva Galin not far away, secretly saying in his heart: it seems I must find a way to learn the incredibly powerful Golden Body Demon Suppression Technique from the Bodhisattvas of Spirit Platform Buddhism!

Of course, perhaps not only the Superior Buddhism Golden Body Demon Suppression Technique from Spirit Platform Buddhism, but within the entire Immortal Realm, various strong and profound Immortal Techniques are as numerous as the mill, and naturally, the more I learn, the better, the stronger the Immortal Techniques and Buddhism I learn, the better!

After secretly making up his mind, Lin Xuankong finally withdrew his gaze from Galin Little Bodhisattva, turned his head towards outside the Luo Water Array, towards the Great Success Yu Ming Bodhisattva.

At this moment,

above the Great Success Yu Ming Bodhisattva,

within the thick tribulation cloud, a large number of silver needles began to appear continuously.

At first, there were only a few hundred silver needles, but after several breaths, the number of silver needles emerging from the heavy tribulation clouds reached thousands, appearing densely packed, making one's scalp tingle!

It should be known, those few hundred silver needles just now already caused the Great Success Yu Ming Bodhisattva to lose a golden shield formed by her right arm condensation, now the number of silver needles increased to as many as thousands!

From hundreds to thousands, nearly a tenfold increase!

But how could the Great Success Yu Ming Bodhisattva have so many 'arms', so many Buddha Bodies!

However,

the gathering of silver needles in the sky still hasn't stopped!

As time continued to pass for just ten breaths, the number of silver needles emerging from the extremely heavy tribulation clouds had reached an incredibly terrifying number of tens of thousands, almost a hundred thousand!

Such a scene appears as if tens of thousands of silver points of light similar to the North Star appeared in the sky, looking dazzlingly bright, extremely wonderful, yet any cultivator seeing this scene thinking of the power of those silver needles would undergo a change of expression, breathing rapidly!

Chapter 1147: The Despair of the First Demon Lord (Part 2)

Of course, above the head of the veteran Demon Lord, the Celestial Eye Demon Lord of the Profound Yin Demon Sect, nearly a hundred thousand bright and dazzling silver needles appeared, identical in number to those above the head of the Great Success Jade Bright Bodhisattva!

But the difference is,

The Great Success Jade Bright Bodhisattva looked at those nearly hundred thousand dazzling bright silver needles with a furrowed brow, yet showed no trace of fear. After cultivating Buddhist Techniques for over 100,000 years, the Great Success Jade Bright Bodhisattva's heart nature was clearly extremely stable. The Celestial Eye Demon Lord was quite the opposite, its face already looked extremely grim!

Previously, when it managed hundreds of silver needles with a hundred First-Grade Demon Artifacts, it was quite proud, especially seeing the Great Success Jade Bright Bodhisattva struggle and lose a Golden Shield. Even though this veteran Demon Lord from the Profound Yin Demon Sect knew it might not survive the forthcoming terrifying celestial tribulation, it couldn't help but feel some schadenfreude!

After all, in the view of the Celestial Eye Demon Lord, although it might not survive the final rounds of the Five Elements Extermination Tribulation, witnessing the deeply hated Great Success Jade Bright Bodhisattva being struck down by the celestial tribulation first was quite to its liking!

The Celestial Eye Demon Lord, at this moment, looked at the nearly hundred thousand silver needles above and the despair in its eyes was exceedingly evident, its mentality completely shattered!

"Shameful celestial tribulation, damn heavens! Just now, even the hundreds of silver thread sword tribulations, with each equivalent to a full strike of a Strongest Immortal Lord-level powerhouse, could be tolerated!

But damn it, what are nearly a hundred thousand silver needles?

This is equal to my Celestial Eye enduring nearly a hundred thousand full strikes from Strongest Immortal Lords simultaneously! Damn it, even a body formed by high-grade Sacred Artifacts couldn't withstand such shameless and terrible attacks! This damn Five Elements Extermination Tribulation appears purely to prevent me from crossing!"

With its mentality broken, the Celestial Eye Demon Lord couldn't control its violent temper and directly cursed at the depths of the sky!

At this moment, watching the nearly hundred thousand silver needles appearing in the depths of the sky, the many demons, Demon Generals, and Demon Lords of the Profound Yin Demon Sect hiding at a distance, also changed color.

No matter if it was the Soul Shifting Demon Lord specialized in spiritual cultivation techniques and demon artifacts, or the previously proud Ten Thousand Forms Demon Lord, looking at the terrifying celestial tribulation in the sky, their pupils shrank, and even the demonic qi around them became somewhat stagnant. Clearly, these Demon Lords of the Profound Yin Demon Sect, who always prided themselves as saints and gods, rampant in the Immortal Realm, almost none had the confidence to withstand such a large number of silver needle attacks!

Even the First Demon Lord Fan Yu, known as the first under Demon Child Gang Bone, looked at the sky full of silver needles with tightly furrowed brows and slightly contracted vertical pupils.

At this moment, even this veteran Demon Lord, boasting nearly a million years of cultivation, deeply felt the terror of the Five Elements Extermination Tribulation and understood why no Strongest Immortal Lord-level powerhouse in the Golden Dragon Immortal Realm had succeeded in overcoming this tribulation for thousands of years!

Even the First Demon Lord Fan Yu, confident in barely surviving this wave of nearly hundred thousand silver needle attacks, couldn't muster confidence for the upcoming rounds of celestial tribulation

because this Silver Thread Sword Tribulation was only the fifth round of the Five Elements Extermination Realm's tribulations, with four possibly more terrifying rounds to follow!

As it looked deep into the sky, and then glanced at the Celestial Eye Demon Lord, whose mentality was 'completely broken,' it even thought about retrieving the hundred First-Grade Demon Artifacts given to the Celestial Eye Demon Lord before! Although, with a million years of accumulation, it still held stronger and more demon artifacts, it didn't mean it didn't care about those hundred First-Grade Demon Artifacts; it was no Lin Xuankong...

Yet, after much hesitation, the First Demon Lord Fan Yu of the Profound Yin Demon Sect eventually gritted its teeth and chose not to demand the hundred First-Grade Demon Artifacts back from the Celestial Eye Demon Lord in front of its numerous peers and countless subordinates!

After all, the First Demon Lord Fan Yu, unlike the Celestial Eye Demon Lord, needed to uphold a bit of face, because it wasn't just its face but also the face of the Profound Yin Demon Sect...

Over on the side of the Profound Yin Demon Sect, demon lords, demons, and demon generals all changed their faces drastically,

Within the Luo Water Array, the cultivators of the Immortal Realm Human Race similarly had faces filled with change, shaking their heads repeatedly, and sighing constantly.

Even the Little Bodhisattva Galin, who previously had some confidence in her family's master aunt, had changed her face dramatically, unable to stay calm anymore.

"Truly worthy of being one of the most terrifying legendary celestial tribulations! Such a dreadful Five Elements Extermination Tribulation, is it really meant for cultivators of our Immortal Realm Human Race to temper themselves, cross tribulation, and ascend to the Upper Realm? With the appearance of this Five Elements Extermination Tribulation, it seems entirely used to 'slay' immortals!"

"How could the Great Success Jade Bright Bodhisattva encounter such a damn celestial tribulation? As far as I know, ever since entering Spirit Platform Buddhism, the Great Success Jade Bright Bodhisattva has never killed, only facing demon lords and demons from the Profound Yin Demon Sect with the intention of vanquishing demons for all beings! Such a great Virtuous Bodhisattva of Buddhism, why must encounter such a terrifying celestial tribulation!"

"Damn it! If any of these silver needles hit me, a Ninth-Grade Earth Immortal, it would be enough to kill me immediately! Yet the Great Success Jade Bright Bodhisattva has to face nearly a hundred thousand of these terrifying silver thread sword tribulations! This time, the Great Success Jade Bright Bodhisattva definitely faces great calamity, sigh, the Immortal road is hard, the Buddhist path is hard, hard as ascending to the heavens!"

"Don't say you can't endure the attack from such terrifying silver needles! Even if all tens of thousands of Earth Immortals within the Luo Water Array help, we probably can't withstand this round of Silver Thread Sword Tribulation attacks!"

"It appears even if Immortal Lord Qiaan Yuan, Immortal Lord Kunyuan, Immortal Lord Feiyun, Immortal Lord Luoshui, Immortal Lord Qiu, and other veteran Strongest Immortal Lords were here, joining forces to help the Great Success Jade Bright Bodhisattva, they may not completely fend off this terrifying celestial tribulation, let alone us minor juniors!"

Many Earth Immortals from Wine Immortal Sect and those young talents from various Immortal Sects and clans were rather distraught, whispering among themselves, the entire First Spirit Peak of Wine Immortal Sect was abuzz with discussions, appearing very chaotic!

Among these tens of thousands of Earth Immortals, nearly ninety-nine percent had completely lost confidence in the Great Success Jade Bright Bodhisattva's ability to withstand this round of attacks!

At the forefront of the Earth Immortal ranks,

The Qilin Race Elder Clan Leader sighed heavily, stepped back a few paces somewhat helplessly, and sunk into the chair prepared for it by the Earth Immortals of Wine Immortal Sect, shaking his head repeatedly: "Alas, just judging from the current terrifying number of silver threads, the past Silver Thread Celestial Tribulations encountered by Human Race's Strongest Immortal Lords and my Demon Race's strong individuals, were not as fearful as the Silver Thread Sword Tribulation in the Five Elements Extermination Realm! It's a pity that I only have several First and Second Grades Immortal Artifacts on hand, even if now handed to the Great Success Jade Bright Bodhisattva, it would be of no use!"

Intending to retrieve the Fourth-Grade Immortal Artifact from her waist to give to the Great Success Jade Bright Bodhisattva to help her overcome this tribulation, Strongest Immortal Lord Guang Yu'er,

hearing the Qilin Race Elder Clan Leader speak, couldn't help but slightly open her mouth, breathe out heavily, and stop her action of retrieving the Immortal Artifact from her waist.

Facing the terrifying number of silver needles in the sky,

Even though Strongest Immortal Lord Guang Yu'er didn't want to accept it, she clearly understood, judging from the Great Success Jade Bright Bodhisattva's previous situation against hundreds of silver needles, even giving the Great Success Jade Bright Bodhisattva a dozen Fourth-Grade Immortal Artifacts now might not help much!

"How could such a frightening celestial tribulation arise, if the Great Success Jade Bright Bodhisattva were truly to fall here..."

Suddenly thinking of something at that point, Strongest Immortal Lord Guang Yu'er looked beside her at Lin Xuankong, shaking his large hand with her small hand, then decisively said: "Xuankong, quickly think of a way, we can't just watch as the first to battle, the Great Success Jade Bright Bodhisattva, directly falls!

"Besides, the Great Success Jade Bright Bodhisattva, in order to deal with the Celestial Eye Demon Lord who obtained a trace of Celestial Demon Power, to kill a Great Demon for our Immortal Realm Human Race, fell into such dangerous straits!"

At this moment Lin Xuankong also frowned, greatly feeling the terror the Five Elements Extermination Tribulation brings to the cultivators of the Immortal Realm.

Chapter 1148: The Power of the Eighth-Grade Immortal Artifact

Seeing that Lin Xuankong merely frowned but ignored herself,

Strongest Immortal Lord Guang Yu'er couldn't help but feel even more frustrated. She frowned, thinking for a moment, then her eyes suddenly lit up, and she spoke:

"Xuankong, if you were to give Great Success Jade Bright Bodhisattva thirty-six Third-Grade Immortal Artifacts now, and let her set up a Luo Water Array powerful enough to be helplessly endured even by Demon Lord-level adversaries, wouldn't she be able to rely on that Luo Water Array to endure this wave of Silver Thread Sword Tribulation?"

Upon hearing this, the Qilin Race Elder Clan Leader couldn't help but visibly react, he jumped up from his chair, and looked at Lin Xuankong with hope.

However,

to the disappointment of Strongest Immortal Lord Guang Yu'er, the Qilin Race Elder Clan Leader, and the nearby Earth Immortals,

upon hearing the voice of Strongest Immortal Lord Guang Yu'er, Lin Xuankong decisively shook his head.

"What, are there not enough Third-Grade Immortal Artifacts? Then Xuankong, you could simply gather thirty-six artifacts for a Luo Water Array! If that's not enough, dismantle two Luo Water Arrays, even three would do! After all, we have nearly a hundredfold Luo Water Array protections on our side, we'll certainly be fine, but over there, unless Great Success Jade Bright Bodhisattva has enough Immortal Artifacts to counteract such a terrifying Silver Thread Sword Tribulation, how could she possibly withstand tens of thousands of Silver Threaded Small Swords!" Concerned and anxious, Strongest Immortal Lord Guang Yu'er couldn't help but speak repeatedly.

Seeing his Strongest Immortal Lord Little Dear in such a state, Lin Xuankong couldn't help but shake his head slightly, reaching out to tap her delicate little immortal's nose,

"Yu'er, you've already seen firsthand the power and terror of this Silver Thread Sword Tribulation! That Celestial Eye Demon Lord of the Profound Yin Demon Sect barely resisted hundreds of Silver Threaded Small Swords with one hundred First-Grade Demon Artifacts! The next wave of the Silver Thread Sword Tribulation's attack has as many as tens of thousands, nearly a hundred thousand swords, so strong and numerous, even with thirty-six Third-Grade Immortal Artifacts, a hundred, two hundred, it wouldn't be enough!

Unless...."

Strongest Immortal Lord Guang Yu'er listened up to this point and couldn't help but feel a bit disappointed,

She had to admit, even if Great Success Jade Bright Bodhisattva were given two hundred or three hundred Third-Grade Immortal Artifacts right away, she probably couldn't refine and control them proficiently in such a short time. In such a case, even with more Immortal Artifacts, it wouldn't make a difference!

However, hearing Lin Xuankong mention "Unless," Strongest Immortal Lord Guang Yu'er couldn't help her eyes lighting up, hastily asking, "Unless what?"

The Qilin Race Elder Clan Leader beside her also had a noticeable reaction, turning to look over,

In this critical situation, the Qilin Race Elder Clan Leader couldn't think of any solution to break the crisis. The Five Elements Extermination Tribulation and Silver Thread Sword Tribulation were too terrifying. In the eyes of the Qilin Race Elder Clan Leader, even if the strongest Sect Leader Qiu of the Divine Dynasty Immortal Sect, Great Success Yu Zhen Bodhisattva, and Cyan Dragon Race Clan Leader were to intervene, they probably wouldn't succeed!

Because if Sect Leader Qiu of the Divine Dynasty Immortal Sect, Great Success Yu Zhen Bodhisattva, and the Cyan Dragon Race Clan Leader were to lend a hand, they would inevitably provoke an attack from the Five Elements Extermination Tribulation, increasing its power by tenfold. In such a scenario, even if Great Success Yu Zhen Bodhisattva, Cyan Dragon Race Clan Leader, Sect Leader Qiu of the Divine Dynasty Immortal Sect, and Great Success Jade Bright Bodhisattva joined forces, they would surely meet a regrettable fate!

But Lin Xuankong's remarks suggest a possibility of helping Great Success Jade Bright Bodhisattva?

Other young geniuses from the Wine Immortal Sect, the Spirit Platform Buddhism including Little Bodhisattva Galin, Cyan-forehead Qilin, White-forehead Qilin, and the Cyan Dragon Race's Little Linglong were also watching Lin Xuankong with transformed expressions, all wondering what solution Lin Xuankong might have.

But as everyone looked at Lin Xuankong, internally they remained pessimistic, doubting Lin Xuankong truly had a miraculous method, as most cultivators viewed Lin Xuankong, despite his astonishing Paths of Artifact Refining and Array Formation, purely based on individual strength....everyone present thought Lin Xuankong was just a Fourth Grade Earth Immortal!

Amidst everyone's concern,

Lin Xuankong looked at Strongest Immortal Lord Guang Yu'er and continued, "Right now, simply giving Great Success Jade Bright Bodhisattva dozens or hundreds of Third and Fourth Grade Immortal Artifacts isn't enough to overcome this tribulation. There are only two possibilities to save Great Success Jade Bright Bodhisattva! The first way is for me to give her some Third and Fourth Grade Immortal Artifacts and she could then set up an array like the powerful Luo Water Array, which could naturally withstand this Silver Thread Sword Tribulation!"

"Luo Water Array?" Strongest Immortal Lord Guang Yu'er couldn't help but frown.

Beside them, the initial look of anticipation on Little Bodhisattva Galin's face dimmed, she shook her head, "My mentor, Great Success Jade Bright Bodhisattva, has practiced Buddhist Techniques since childhood without relying on external objects. She's never set up any arrays, not even on my Spirit Platform Buddhism's Spirit Platform Treasure Mountain. Nor have any Bodhisattvas of my Spirit Platform Buddhism ever practiced array techniques! Immortal Lin's first method won't work!"

Lin Xuankong heard this and slightly furrowed his brow, saying:

"In that case, the first method cannot be used. Because Great Success Jade Bright Bodhisattva is currently crossing the tribulation, if I were to set up a Luo Water Array near her, it would surely provoke an attack from the Five Elements Extermination Tribulation, increasing its power by more than ten times, and in such a case, the celestial tribulation would target even me!"

Chapter 1149: The Might of the Eighth-Grade Immortal Artifact (Part 2)

Faced with the overwhelming and despair-inducing Five Elements Extermination Tribulation, even with many trump cards, Lin Xuankong felt somewhat apprehensive. What's more, at this moment, Lin Xuankong was only in the Early Stage of the Strongest Immortal Lord, with a limited mastery of Immortal Techniques and Buddhist Techniques. He might have a chance against an ordinary Five Elements Extermination Tribulation, but with the power increased tenfold or even dozens of times, even he had little confidence in overcoming it!

The Strongest Immortal Lord, Guang Yu'er, showed a hint of anticipation, holding Lin Xuankong's hand and eagerly said:

"Since the first method doesn't work, Lin Xuankong, tell me the other methods you've thought of! Don't waste any more time; the fiercest attack of this Silver Thread Sword Tribulation is about to strike!"

Seeing this, Lin Xuankong nodded slightly, then a determined look flashed in his eyes as he spoke:

"The second method is to give the Great Success Jade Bright Bodhisattva a better Immortal Artifact. In this way, relying on the powerful might of a formidable Immortal Artifact and the Bodhisattva's own formidable strength, there might be a chance to get through this Silver Thread Sword Tribulation!"

"A better Immortal Artifact? A Fifth-Grade Immortal Artifact or a Sixth-Grade Immortal Artifact? Lin Xuankong, have you already refined better Fifth or Sixth-Grade Immortal Artifacts? It can't be true, right?"

Upon hearing this, the Strongest Immortal Lord Guang Yu'er couldn't help but widen his eyes.

Even the Qilin Race Elder Clan Leader was taken aback, staring at Lin Xuankong in disbelief. Being able to refine so many Third-Grade and Fourth-Grade Immortal Artifacts in just a few years had already amazed him, making him see Lin Xuankong's Path of Artifact Refining as that of a celestial being. Yet, Lin Xuankong's words obviously implied that he had even higher-grade Immortal Artifacts!

Could it really be a Fifth or Sixth-Grade Immortal Artifact?

How is that possible!

For hundreds of thousands of years, higher than Third-Grade Immortal Artifacts have not appeared in the Immortal Realm. Previously, when Immortal Lin Xuankong refined a large number of Third and Fourth-Grade Immortal Artifacts, it already proved that his Path of Artifact Refining far surpassed any Artifact Refining Master of the Immortal Realm Human Race in hundreds of thousands of years, which was already extraordinarily demonic!

The cultivators of the Wine Immortal Sect and Earth Immortals, along with the aspiring talents from various Immortal Sects and clans who stood behind them, reacted with an even richer array of expressions after hearing Lin Xuankong's words!

At this moment, Lin Xuankong stopped speaking, raised his hand, and lightly commanded, "Go!"

In the next instant,

an Immortal Artifact, filled with endless spiritual charm and flashing endless spiritual light, shot out from the Golden Patterned Ghost Frog Pouch at his waist, heading towards the Great Success Jade Bright Bodhisattva!

At the same time,

the Great Success Jade Bright Bodhisattva, receiving Lin Xuankong's transmission, moved his gaze,

and just as he blinked, the spiritual light had already crossed thousands of miles, stopping in front of the Great Success Jade Bright Bodhisattva. Lin Xuankong's voice echoed in his ears again, "Honored Great Success Jade Bright Bodhisattva, Lin Xuankong honors your willingness to trigger the final Celestial Tribulation for demon slaying and being the first to fight against numerous demons of the Profound Yin Demon Sect. Unfortunately, Lin Xuankong's personal strength is limited and cannot join you in resisting during this final Celestial Tribulation. May this Immortal Artifact serve as a small token of assistance for you!"

After hearing Lin Xuankong's transmission, the Great Success Jade Bright Bodhisattva gazed carefully at the powerful Immortal Artifact before him. After a few careful glances, this renowned Great Success Bodhisattva of the Spirit Platform Buddhism suddenly changed his expression, showing a clear look of surprise.

However,

the second wave of the Silver Thread Sword Tribulation, part of the Five Elements Extermination Tribulation, was already poised to strike,

and the Great Success Jade Bright Bodhisattva no longer had the luxury of marveling at why the Immortal Artifact in front of her was so intensely fluctuating and surging. She immediately mobilized the Immortal Yuan inside her, and in the next moment, her two previously lost arms were restored, while

she forcibly suppressed the amazement and excitement in her heart, stretched out her right hand, and grasped the Immortal Artifact radiating immense Immortal Artifact fluctuations.

At the moment the Immortal Artifact was in hand,

the excitement and surprise in the Great Success Jade Bright Bodhisattva's eyes became even more pronounced.

"This... this is definitely not a Third-Grade Immortal Artifact, nor a Fourth-Grade Immortal Artifact. Such a strong Immortal Artifact fluctuation, could it be a Fifth-Grade Immortal Artifact that I have never seen before? No, no, the fluctuating power of the Fourth-Grade Immortal Artifact I sensed from Immortal Lin before, compared to the one in my hand, is like a firefly to the blazing sun, the difference is too great. Such an enormous disparity could not possibly arise from a difference of just one tier of Immortal Artifact!

This might be a Sixth-Grade Immortal Artifact, or even a Seventh-Grade Immortal Artifact not seen for hundreds of thousands or even a million years?"

Even though the Great Success Jade Bright Bodhisattva had practiced Buddhist Cultivation for more than a hundred thousand years and had a heart nature as deep as calm water, the shock brought by the Immortal Artifact in her hand was too great, to the extent that it made the Bodhisattva feel somewhat unreal...

While the Great Success Jade Bright Bodhisattva was uncertain and amazed,

the crowd within the Luo Water Array was in an uproar!

First, the Strongest Immortal Lord Guang Yu'er looked at the Immortal Artifact in the Bodhisattva's hand and exclaimed:

"Lin Xuankong... Is this the slightly stronger Immortal Artifact you mentioned? This should be at least a Fifth-Grade Immortal Artifact, or even a Sixth-Grade Immortal Artifact, right? But, how many years have you been cultivating, and how many years have you been refining Immortal Artifacts, how could this be possible, how is this possible?"

Beside them, the Qilin Race Elder Clan Leader, after carefully sensing the fluctuation of the Immortal Artifact in the hands of the Great Success Jade Bright Bodhisattva a thousand miles away, almost popped his large qilin eyes:

"This fluctuation, this spiritual charm, this shape, this spiritual light... absolutely at least a Sixth-Grade Immortal Artifact recorded in the classics!

By my Qilin Ancestors above, it's inconceivable that I, a descendant, could see a Sixth-Grade Immortal Artifact reappear in the world in this lifetime. Tsk, tsk, tsk, this is the spiritual charm of an Immortal Artifact above Sixth-Grade? It is so brilliant, so astonishing, so vast, so powerful, so mysterious!"

At this moment,

the Qilin Race Elder Clan Leader suddenly realized that he could not find words to describe the shock in his heart after seeing the distant Immortal Artifact clearly!

After speaking, the Qilin Race Elder Clan Leader turned and looked at Lin Xuankong, his eyes glued to Lin Xuankong, looking from head to toe, unable to stop his gaze, as if he couldn't believe what he was witnessing!

Such a young Fourth-Grade Earth Immortal of the Human Race, yet he has refined an Immortal Artifact that is beyond the imagination of countless Artifact Refining Masters living for tens of thousands of years in the Immortal Realm!

Is this fellow really just a mere refining genius? Could Immortal Lin be the reincarnation of a Celestial Immortal from the Upper Realm? No, no, even if it were a Celestial Immortal reincarnation, not every Celestial Immortal's reincarnation could possess such supreme refining skills. Even if Lin Xuankong is the reincarnation of an Upper Realm Celestial Immortal, he must have been an Upper Realm Celestial Immortal expert especially proficient in refining!"

While the Qilin Race Elder Clan Leader was wide-eyed and 'scanning' Lin Xuankong, full of shock, amazement, and wonder, the aspiring talents from various Immortal Sects and clans nearby were thoroughly excited.

"I, Little Linglong, swear that all the Immortal Artifacts I have seen in my lifetime, combined, with their Immortal Yuan fluctuations, probably cannot match the immense fluctuations of the single Immortal Artifact Lin Xuankong just handed over to the Great Success Jade Bright Bodhisattva!"

"Oh my, this is the Immortal Yuan fluctuation of a Mid-grade Immortal Artifact! No wonder every strong figure of the Immortal Realm Human Race desires to possess a stronger Immortal Artifact so much! Not to mention using it, just the fluctuation from this Immortal Artifact is enough to make the Immortal Yuan in my Ninth-Grade Earth Immortal body stagnate!"

"Hahaha, now that the Great Success Jade Bright Bodhisattva holds such a strong Immortal Artifact, she should be able to overcome the current Silver Thread Sword Tribulation!"

Why don't you all guess what grade the Immortal Artifact in the hands of the Great Success Jade Bright Bodhisattva is right now? Fifth-Grade or Sixth-Grade Immortal Artifact? Interested in placing bets with me, brothers?"

Chapter 1150: Disappearing Demon Daoist

The young geniuses from the Immortal Realm Human Race, Spirit Platform Buddhism, and Boundaryless Mountain were all extremely excited and thrilled.

If they didn't know that leaving the Luo Water Array at this moment to approach Great Success Jade Bright Bodhisattva would bring terrifying danger, these young geniuses from various Immortal Sect clans would have flown over directly to surround Great Success Jade Bright Bodhisattva and take a closer look at the powerful Immortal Artifact they've never seen before!

However, this group of people clearly underestimated the grade of the Immortal Artifact in front of them.

Whether it was the Strongest Immortal Lord Guang Yu'er, the Qilin Race Elder Clan Leader, or the cultivators of the Wine Immortal Sect, or the young geniuses from various sects and clans, the highest guess for the Immortal Artifact's grade was just a Sixth-Grade Immortal Artifact!

It's not that this group didn't believe Lin Xuankong's Path of Artifact Refining could create a more powerful Immortal Artifact.

It's just that every cultivator present was well aware of just how difficult Immortal Artifacts are to refine. The higher the grade, the harder they are to refine!

A Fifth-Grade Immortal Artifact, a Sixth-Grade Immortal Artifact, already made them feel somewhat incredulous! As for whether this Immortal Artifact was a Seventh-Grade or even higher-grade Artifact... none of the cultivators present thought so.

Amidst everyone's excitement and thrill,

the young genius Xiaoling from the Cyan Dragon Race suddenly shouted, "Look quickly, the second wave of the Silver Thread Sword Tribulation attack has started!"

Upon hearing this, the numerous cultivators immediately closed their mouths and looked toward the tribulation clouds above Great Success Jade Bright Bodhisattva and Celestial Eye Demon Lord, only to see that many Silver Threaded Small Swords had already appeared outside the tribulation clouds, transformed into streaks of light, and were shooting toward Great Success Jade Bright Bodhisattva and Celestial Eye Demon Lord!

Above the heads of Great Success Jade Bright Bodhisattva and Celestial Eye Demon Lord, there were nearly a hundred thousand Silver Threaded Small Swords each. At this moment, the Silver Thread Sword Tribulation of the Five Elements Extermination Tribulation launched attacks on both simultaneously, meaning nearly two hundred thousand dangerous luminous Silver Threaded Small Swords were shooting toward them at the same time!

Such a scene,

was as if the sky nearby the Wine Immortal Sect collapsed, with hundreds of thousands of meteorites and stones descending simultaneously, illuminating the entire sky with dense streaks of light, appearing full of deadly danger, yet carrying an extreme sense of violent beauty!

But unlike normal meteorite falls,

these nearly two hundred thousand Silver Threaded Small Swords were shooting toward the heads of Great Success Jade Bright Bodhisattva and Celestial Eye Demon Lord, and they were so densely packed that it looked not just like stars falling, but like two galaxies formed of stars impacting Great Success Jade Bright Bodhisattva and Celestial Eye Demon Lord!

Witnessing such a shocking scene,

whether it was the cultivators of the Wine Immortal Sect or the young geniuses from various Immortal Sect clans, all were dumbstruck and their hearts leapt to their throats.

Although Lin Xuankong had just gifted Great Success Jade Bright Bodhisattva with an Immortal Artifact clearly extremely powerful, possibly a Fifth or Sixth-Grade Immortal Artifact according to their guesses, the sight of countless Silver Threaded Small Swords descending from the sky was simply too terrifying!

Even Little Bodhisattva Galin from Spirit Platform Buddhism, who had always been confident in Great Success Jade Bright Bodhisattva's abilities and Lin Xuankong's Immortal Artifacts, was extremely tense, and even her voice trembled when reciting the Buddhist scripture.

At this moment,

even the distant onlookers, watching the 'galaxy' of Silver Threaded Small Swords falling from the sky, were so nervous, let alone Celestial Eye Demon Lord and Great Success Jade Bright Bodhisattva, who were preparing to face the Silver Thread Sword Tribulation head-on!

Having just received the Eight-Grade Immortal Artifact from Lin Xuankong, Great Success Jade Bright Bodhisattva's eyes revealed a trace of dread, although her Immortal Yuan was operating crazily, the Eight-Grade Immortal Artifact initially in her hand rapidly expanded, transforming in less than a fraction of a moment into a colossal Immortal Sword ten thousand feet long and a thousand feet wide!

"This... how can it transform into such a huge Immortal Artifact under Immortal Yuan's activation! It seems if I continue activating Immortal Essence Infusion, it can grow even larger? Third-Grade Immortal Artifacts, Fourth-Grade Immortal Artifacts, Fifth-Grade Immortal Artifacts, or even Sixth-Grade Immortal Artifacts shouldn't be able to transform into such a large Immortal Artifact under Immortal Yuan's activation! Could this be a Seventh-Grade... or possibly even an Eight-Grade Immortal Artifact?"

Personally controlling the Eight-Grade Immortal Artifact, Great Success Jade Bright Bodhisattva clearly felt very deeply about the Immortal Artifact she was activating, so her eyes were full of astonishment for a moment, nearly causing her to overlook the countless Silver Threaded Small Swords descending from the sky!

On the other side, Celestial Eye Demon Lord, facing the countless silver small swords forming a galaxy shockwave, showed an expression of utmost despair on his ugly, fierce black face.

But having cultivated for hundreds of thousands of years and experienced celestial tribulations more than once, how could he give up everything he obtained from tens of thousands of years of cultivation at this point? After his expression changed for a moment, he forcefully suppressed the despairing feeling surfacing in his heart, then operated his tightly condensed demonic qi throughout his body, controlling a hundred First-Grade Demon Artifacts that flew overhead, and even directly activated the red beam that his single eye could launch, shooting it toward the top of the silver river descending from the sky!

The red beam capable of challenging even Great Success Jade Bright Bodhisattva was certainly powerful, but as it met the countless silver swords forming a silver river at this moment, the mighty red beam only deflected nearly a hundred silver swords slightly off course, and consumed nearly half of the red beam's power, leaving the immeasurable silver swords gazing at the powerful red beam, rapidly approaching Celestial Eye Demon Lord!
