Chapter 1151: The Disappearance of the Demon Daoist_2

In the next instant,

that "silver river" clashed with hundreds of first-grade demon artifacts driven by the Celestial Eye Demon Lord!

These first-grade demon artifacts were refined by the Demon Lord of the Profound Yin Demon Sect using the flesh and divine souls of countless cultivators, and they are not inferior to late-grade one immortal artifacts. Especially under the control of the seasoned Celestial Eye Demon Lord, their power is almost comparable to that of some ninth-grade Earth Immortals wielding second-grade immortal artifacts!

Thus,

the moment the silver river clashed with the hundreds of first-grade demon artifacts,

hundreds of silver-threaded small swords were blasted far away by the mighty power carried by those demon artifacts!

Moreover, with the frantic activation by the Celestial Eye Demon Lord, those hundreds of variously-shaped first-grade demon artifacts continuously collided in the incoming silver river, quickly knocking hundreds or even thousands of silver small swords far away!

The power each silver small sword carried was equivalent to a full-powered strike from a strongest Immortal Lord-level powerhouse. In an extremely short time, the Celestial Eye Demon Lord knocked away thousands of silver small swords, which is equivalent to blocking the full-power strike of a thousand strongest Immortal Lord-level powerhouses with just hundreds of demon artifacts!

Such formidable strength is indeed commendable! Even throughout the Golden Dragon Immortal Realm, the number of strongest Immortal Lord-level powerhouses capable of achieving this feat likely does not exceed thirty or forty!

However, unfortunately, there are far too many silver small swords!

Despite the hundreds of first-grade demon artifacts driven by the Celestial Eye Demon Lord appearing extremely powerful, transforming into beams of black light and knocking many silver small swords away, in the face of the vastly overwhelming numbers of the 'Silver Thread Sword Tribulation,' they fail to create much of a ripple, barely hindering the momentum of the galaxy's onslaught!

In less than a breath's time,

the galaxy composed of countless silver small swords approached directly to the point above the Celestial Eye Demon Lord's head by a thousand zhang!

And the hundreds of first-grade demon artifacts driven by the Celestial Eye Demon Lord had long been submerged within the 'silver river'!

What drove the Celestial Eye Demon Lord to despair the most was,

as the relentless assault of silver small swords continued, the color of the hundreds of first-grade demon artifacts it manipulated, originally pure black, quickly became lighter and fainter. Clearly, the demonic essence and demonic qi contained within were on the verge of being completely exhausted!

Watching helplessly as the silver river kept closing in,

the Celestial Eye Demon Lord bit down sharply on its pointed teeth, then activated its entire body's demonic qi, causing it to roll and surge. This demonic qi, continuously flashing with black light, was obviously pushed to its extreme by the Celestial Eye Demon Lord. Due to the inability to use a large number of demon artifacts to block the silver small swords, it had no choice but to recall those hundreds of first-grade demon artifacts to safeguard its vicinity!

Yet at this moment, those hundred first-grade demon artifacts were already trapped within the depths of the galaxy, surrounded by incessantly shooting silver small swords, making it impossible to gather those first-grade demon artifacts back with ease amidst the relentless assault of countless silver small swords.

As a tenth of a moment passed,

still desperately struggling and trying to free its hundred first-grade demon artifacts, the Celestial Eye Demon Lord suddenly roared, abandoning its efforts to push those trapped demon artifacts, choosing instead to draw back the vast demonic qi emitted from its demon body, forming a deep black demon armor on its body!

This demon armor, reputed to provide absolute defense, possesses incredibly strong defensive capabilities. It's one of the demon techniques that virtually any Demon General-level powerhouse must cultivate!

Under normal circumstances, even a strongest Immortal Lord-level powerhouse would be greatly troubled when facing a creature like the Celestial Eye Demon Lord who has activated the absolute defense demon armor. After all, not every cultivator is like Lin Xuankong, able to rely on his formidable talent to forcibly break through such demon armor!

At this moment,

the Celestial Eye Demon Lord had just completed the activation of the demon armor,

when the countless silver small swords falling from the sky were already above its head!

Immediately, it was followed by countless attacks from the descending silver thread sword tribulation, striking every position of the Celestial Eye Demon Lord's demon body!

"Ding ding ding ding ding"

Countless sounds, which were clear and melodious to hear, yet induced immense panic in the heart of the Celestial Eye Demon Lord,

emerged from every position of the demon armor activated by the Celestial Eye Demon Lord!

Previously, when facing the Great Success Jade Bright Bodhisattva, the Celestial Eye Demon Lord, under the bombardment of countless silver small swords, continued to fall downward!

Now, this seasoned Demon Lord of the Profound Yin Demon Sect, under the onslaught of the second wave of celestial tribulation of this silver sword tribulation, was incapable of even keeping its body floating in mid-air!

What truly terrified the Celestial Eye Demon Lord was that cracks gradually appeared in the absolute defense demon armor formed by demonic qi and demon technique surrounding its body under the relentless assault of countless small swords!

This wasn't because the defensive power of the absolute defense demon armor activated by the Celestial Eye Demon Lord wasn't strong enough, but rather due to the overwhelming number of descending silver small swords, each of whose attacks equated to a full-powered strike from a strongest Immortal Lord-level powerhouse!

Being able to withstand, and endure for a period of time, the attacks of hundreds, thousands, or even tens of thousands of silver small swords is already a testament to the truly extraordinary strength of this Celestial Eye Demon Lord,

which made the absolute defense demon armor under the activation of this old demon of the Profound Yin Demon Sect several times stronger than any Demon General-level powerhouse of the Profound Yin Demon Sect!

But while the Celestial Eye Demon Lord is powerful, and a Demon General is strong, it doesn't mean the Celestial Eye Demon Lord can truly withstand this celestial tribulation!

"Damn it! Such a damn celestial tribulation!

I have roamed the Immortal Realm with my Celestial Eye for hundreds of thousands of years; am I to fall here today?

I am unwilling to accept it! His Highness Saint Son Gang Bone just used the power of time to enhance my Celestial Eye's strength and told us, the demon lords of the Profound Yin Saint Sect,

that as long as we settle the current Immortal Demon War and defeat that true disciple from Luo Water Immortal Sect, Lin Xuankong, efforts will be made to significantly increase the success rate of each demon lord's tribulation crossing in the Immortal Demon War!

Seeing the opportunity for immortality and ascension to the Upper Realm approaching, am I to fall in this world???"

Amidst the continuous fall caused by the bombardment of silver small swords, the sense of despair in the heart of the Celestial Eye Demon Lord grew increasingly intense, unable to restrain itself from cursing loudly.

Indeed, it felt unwilling, truly desperate, for there lay the opportunity for immortality, for ascension to the Upper Realm!

Yet, no matter how unwilling, there was nothing it could do but allow the descending galaxy to continuously impact it, up until its demonic qi was exhausted! By then, the Celestial Eye Demon Lord would be nearing its fall!

Invested in cursing the celestial tribulation, amidst the intervals of continuously falling to the ground, the seasoned Demon Lord of the Profound Yin Demon Sect couldn't help but glance towards the direction of the Great Success Jade Bright Bodhisattva!

From the perspective of the Celestial Eye Demon Lord, even with the assistance of hundreds of first-grade immortal artifacts, he couldn't resist the terrifying silver thread sword tribulation before his eyes; as for the already injured Great Success Jade Bright Bodhisattva, she must be even more helpless!

Yet the scene before him,

left this old demon lord of the Profound Yin Demon Sect momentarily stunned!

For he suddenly saw,

that the Great Success Jade Bright Bodhisattva, whom he thought wasn't generally stronger than himself, was still calmly sitting in mid-air, with an attitude of complete composure, not showing the slightest hint of fear, as if the silver thread sword tribulation attacking her as a tribulation-crosser had completely lost its threat!

Above the Great Success Jade Bright Bodhisattva's head, at this moment, was an enormous immortal artifact emanating strong immortal qi waves, shielding the space between the Great Success Jade Bright Bodhisattva and the tribulation cloud!

The countless silver small swords, which almost rendered the Celestial Eye Demon Lord powerless, couldn't penetrate that giant immortal artifact and couldn't harm the Great Success Jade Bright Bodhisattva!

Damn it! While I'm about to be taken down by the silver thread sword tribulation, this damn Great Success Jade Bright Bodhisattva actually had such a powerful immortal artifact, making her tribulation-resisting process so much easier!

Chapter 1152: The Might of the Silver Threads

I originally thought I was in a dire situation,

that the Great Success Yu Ming Bodhisattva, having few Immortal Artifacts, would be even less able to resist!

But what on earth is this massive Immortal Artifact in front of me, and what grade of Immortal Artifact has Lin Xuankong, who was specifically named by Holy Son Gang Bone to be captured, given to this old bald-headed Bodhisattva!

At this moment,

above the head of the Great Success Yu Ming Bodhisattva,

hundreds of Silver Threaded Small Swords shot at the enormous Immortal Artifact every moment!

Each Silver Threaded Small Sword seemed insignificant, yet its terrifying power could compare to a full-force strike of the strongest Immortal Lord-level powerhouse. Hundreds of Silver Threaded Small Swords simultaneously shooting at the gigantic Immortal Artifact driven by the Great Success Yu Ming Bodhisattva were like hundreds of Immortal Lord-level powerhouses attacking the Great Success Yu Ming Bodhisattva with all their might!

Such fierce and terrifying attacks are something even a top-tier strongest Immortal Lord-level powerhouse like the Great Success Yu Ming Bodhisattva could not resist! Not to mention the Great Success Yu Ming Bodhisattva, even if faced by the Sect Leader of the Divine Dynasty Immortal Sect, the Great Success Yu Zhen Bodhisattva, and the Cyan Dragon Race Elder Clan Leader, would likely have no choice but to admit defeat, unless they too possessed powerful Immortal Artifacts!

And at this moment, what the Great Success Yu Ming Bodhisattva is channeling happens to be an Eighth-Grade Immortal Artifact, which has been rarely seen in the Immortal Realm since ancient times!

Normally, even a First-grade Immortal Artifact allows any Earth Immortal or strongest Immortal Lord-level powerhouse to unleash fiercer attacks or a stronger defense, let alone a high-grade Immortal Artifact like an Eighth-Grade one, especially since this is an Eighth-Grade Immortal Artifact made by Artifact Refining Genius Xiao Xiuyi, which is unlike any ordinary Eighth-Grade Immortal Artifact!

Therefore,

the Silver Thread Sword Tribulation attacks, which almost no strongest Immortal Lord-level powerhouse could resist,

only make the Eighth-Grade Immortal Artifact driven by the Great Success Yu Ming Bodhisattva tremble slightly. The countless Silver Threaded Small Swords simply cannot leave any mark upon the Eighth-Grade Immortal Artifact, at most causing a large spark on its surface!

Seeing this scene, the Celestial Eye Demon Lord immediately suffered a lapse of Heart Spirit,

At this time, amidst the fierce attack of countless Silver Threaded Small Swords of the Silver Thread Sword Tribulation, the lapse of Heart Spirit leads the Celestial Eye Demon Lord's First-Grade Demon Artifact and the red light column being halted!

Following that,

countless Silver Swords,

pierced through the red light column, through those First-Grade Demon Artifacts, relentlessly shooting towards the Celestial Eye Demon Lord!

The countless refined Demonic Qi outside the demon body of the Celestial Eye Demon Lord was instantly scattered, and the black Demon Armor formed by massive amounts of Demonic Qi on its surface rapidly deformed, leaving giant dents from the countless Silver Threaded Small Swords!

It is not that the Celestial Eye Demon Lord's black Demon Armor defense is weak, but rather the attack power of the Silver Threaded Small Swords is too strong, and the sheer number is overwhelming!

Only three breaths of time passed,

The Celestial Eye Demon Lord, no longer able to channel any defenses, suddenly let out a shrill wail, as its black Demon Armor, constructed from countless Demonic Qi, finally could not withstand the mighty attack of the Silver Threaded Small Swords, shattering directly into countless pieces, dissipating into Demonic Qi, spreading around!

And the Celestial Eye Demon Lord, bereft of its black Demon Armor, in an instant was pierced by thousands upon tens of thousands of Silver Threaded Small Swords...

"Chichichichi"

The dense sound of sharp weapons piercing through flesh rang out continuously,

The thousands upon tens of thousands of unimpeded Silver Threaded Small Swords incessantly pierced in and out of the demon body of the Celestial Eye Demon Lord, raising clouds of blood mist, and triggering countless explosions within its demon body!

Each Silver Threaded Small Sword equates to a full-strength strike from the strongest Immortal Lord-level powerhouse; thousands upon tens of thousands of Silver Threaded Small Swords continuously piercing and exploding as if tens of thousands of strongest Immortal Lord-level powerhouses were wantonly attacking on the demon body of the Celestial Eye Demon Lord!

Such a terrifying attack, even for the Celestial Eye Demon Lord, a mighty Demon Lord who has cultivated for hundreds of thousands of years, remains unbearable, and even the long-lived race of the Profound Yin Demon Sect, with their frightening recovery capabilities, cannot withstand, unable to timely recover from the dire injuries!

In a short three breaths time thereafter,

under the encirclement of thousands upon tens of thousands of Silver Threaded Small Swords, constantly exploding, continuously wailing the Celestial Eye Demon Lord suddenly stiffened, with a trace of despair appearing in its eyes,

In the next moment,

"Boom"

A deafening explosion sounded,

This old magical demon lord, who had wreaked havoc in the Immortal Realm for hundreds of thousands of years, saw its entire demon body explode and shattered by the fearsome power of the thousands upon tens of thousands of Silver Threaded Small Swords into blood mist all over the sky!

The Celestial Eye Demon Lord's demon body was a full ten thousand zhang tall,

Such a colossal body, upon explosion, saw a range extending thousands of miles filled with rising blood mist, saturated with an intense, overwhelming stench of blood!

Within the Luo Water Array,

the many cultivators and disciples of the Wine Immortal Sect, alongside the over one hundred thousand young talents from various Immortal Sects and clans, upon witnessing this scene, at once froze, then displayed expressions of excitement. Among them, it was unclear who cheered first, but by the next moment, every Earth Immortal and cultivator within the Luo Water Array cheered in delight!

The Celestial Eye Demon Lord has fallen!

That infamous old Demon Lord of the Profound Yin Demon Sect, far more renowned than the previous Fenghuo Lin Demon Lord or the Thirty-Six Tribulation Demon Lords, has fallen!

Over the past hundreds of thousands of years,

although numerous fierce wars have erupted between the Immortal Realm Human Race and the Profound Yin Demon Sect, never before has any old Demon Lord of the Profound Yin Demon Sect fallen!

Chapter 1153: The Power of Silver Threads (Part 2)

For hundreds of thousands of years, many cultivators and younger generations from the Human Race, Demon Race, and Spirit Platform Buddhism have believed that the veteran Demon Lords from the Profound Yin Demon Sect are unstoppable entities, possessing a life force far superior to that of the strongest Immortal Lord-level powerhouses among the Human and Demon Races!

Many veteran Demon Lords of the Profound Yin Demon Sect have triggered the Celestial Demon Tribulation multiple times, yet not a single Demon Lord-level powerhouse from the Profound Yin Demon Sect has ever fallen! However, among the Human Race of the Immortal Realm, the Demon Race of Boundaryless Mountain, and Spirit Platform Buddhism, numerous Strongest Immortal Lord-level powerhouses have perished in the celestial tribulations!

In comparison, many cultivators and Earth Immortals from the Human Race, Demon Race, and Spirit Platform Buddhism consider the veteran Demon Lords of the Profound Yin Demon Sect even stronger, surpassing most of the Strongest Immortal Lord-level powerhouses of the Immortal Realm Human Race!

But today,

under the ravages of the Five Elements Extermination Tribulation, known as one of the three major celestial tribulations in the Immortal Realm,

yet another Demon Lord-level powerhouse has fallen!

Even though this Celestial Eye Demon Lord wasn't killed by a powerhouse from the Immortal Realm Human Race, Demon Race, or Spirit Platform Buddhism, but died under the celestial tribulation itself, it couldn't curb the excitement and joy of countless cultivators in the Luo Water Array!

The genius demon king Little Linglong from the Boundaryless Mountain Demon Race looked at the blood mist drifting through the sky and couldn't help but cheer: "Hahahaha, it seems the strength of the Great Success Jade Bright Bodhisattva is indeed superior! This old demon of the Profound Yin Demon Sect couldn't resist this celestial tribulation despite relying on a hundred First-Grade Demon Artifacts, while the Great Success Jade Bright Bodhisattva managed to hold on only using a single Immortal Artifact!"

"Little Linglong, that is natural! Look whose handiwork is behind the Immortal Artifact wielded by the Great Success Jade Bright Bodhisattva!"

Among the crowd, the Cyan-forehead Qilin flew up, landing beside Little Linglong, the talented junior of the Cyan Dragon Race, proudly lifting its Qilin head.

"Hahahaha, indeed, this Immortal Artifact from Immortal Lin is at least a Sixth-Grade Immortal Artifact, it's incredibly strong! From the appearance of the Great Success Jade Bright Bodhisattva, it's evident that she is fully at ease!" The talented member of the Cyan Dragon Race, Little Linglong, nodded repeatedly, clearly endorsing the view of the Cyan-forehead Qilin without caring that it directly addressed it by name!

"That damned Celestial Eye Demon Lord is finally dead; it has finally fallen!"

Hahahaha, it's finally dead! How satisfying, truly satisfying! To witness the fall of a Strongest Immortal Lord-level powerhouse under the celestial tribulation for the first time, and it's the Demon Lord from the Profound Yin Demon Sect—indeed, heaven has eyes, truly heaven has eyes!"

The sect master of the Wine Immortal Sect, at this moment, showed a particularly cheerful smile.

When the Profound Yin Demon Sect's army came before, they captured many Human Race Earth Immortals and cultivators, including disciples and Earth Immortals from the Wine Immortal Sect. Because those disciples and Earth Immortals were killed, this sect master of the Wine Immortal Sect already held deep resentment against the Celestial Eye Demon Lord of the Profound Yin Demon Sect, and seeing that old demon who ravaged the Immortal Realm Human Race finally unable to withstand the celestial tribulation and falling on the spot, how could he not be overjoyed!

Beside the Wine Immortal Sect Sect Master, the Fifth-Grade Earth Immortal Chi Liuxia also couldn't help but burst into laughter.

If not for observing that the Great Success Jade Bright Bodhisattva was still crossing the tribulation and the time for celebration had not yet come, Chi Liuxia, the elder from the Wine Immortal Sect, might directly take out a considerable amount of Spirit Wine, allowing every cultivator, demon king, and Buddhist Bodhisattva present to enjoy an indulgent celebration!

The Elder Clan Leader of the Qilin Race, however, remained exceptionally clear-headed at this time,

was extremely glad to see that damned Celestial Eye Demon Lord directly fall in the Five Elements Extermination Tribulation!

Nevertheless, this Elder Clan Leader of the Qilin Race was most concerned about the Great Success Jade Bright Bodhisattva, worried whether she could withstand the continuous attacks of the forthcoming Silver Thread Sword Tribulation!

After all,

this is the legendary Five Elements Extermination Tribulation, which no Strongest Immortal Lord-level powerhouse has ever survived!

Additionally, those Little Bodhisattvas from Spirit Platform Buddhism, after their initial excitement, quickly calmed down, chanting various Buddhist scriptures while focusing on the Great Success Jade Bright Bodhisattva.

Inside the Luo Water Array,

the scene was incredibly lively, with cultivators discussing and reciting Buddhist scriptures.

On the side of the Profound Yin Demon Sect,

it was very quiet!

The demon heads and Demon Generals of the Profound Yin Demon Sect, floating above the demon cloud, each frowned tightly, their expressions extremely grim, knowing better than the cultivators of the Immortal Realm Human Race about the strength of the Celestial Eye Demon Lord... Hence, the scene of the Celestial Eye Demon Lord's demon body shattering on the spot was truly unacceptable for the demon heads and Demon Generals of the Profound Yin Demon Sect!

As for the positions where the Demon Lords of the Profound Yin Demon Sect stood, the renowned Demon Lords were equally with dark faces, silent.

Moments later,

The First Demon Lord Fan Yu, surrounded by numerous Demon Lords, suddenly coughed and then turned towards the Soul Shifting Demon Lord who was known for specializing in cultivating Spiritual Demon Techniques and spoke:

"Perhaps it's destined to be this tribulation!

The Celestial Eye has cultivated for hundreds of thousands of years, logically, it shouldn't have fallen so quickly,

but unfortunately, this is the Five Elements Extermination Tribulation... Indeed, it has never been survived by anyone!

Soul Shifter, activate your Holy Technique, see if you can sense the Divine Soul of the Celestial Eye."

The First Demon Lord Fan Yu was certainly quite depressed about the situation of the Celestial Eye Demon Lord's demon body exploding and being greatly defeated in the Five Elements Extermination Tribulation. What bothered him most was that the Great Success Jade Bright Bodhisattva, obviously at a disadvantage in the earlier confrontation, relied on an Immortal Artifact gifted by Lin Xuankong, yet could resist the celestial tribulation better than the Celestial Eye Demon Lord... Moreover, the wave of that Immortal Artifact was incredibly powerful, even surpassing the Seventh-Grade Immortal Artifact wave he had seen a million years ago!

But Fan Yu was well aware that it was futile to consider the Immortal Artifact in the hands of the Great Success Jade Bright Bodhisattva at this time, after all, the Five Elements Extermination Tribulation was yet to be over; perhaps even relying on that formidable Immortal Artifact, the Great Success Jade Bright Bodhisattva wouldn't endure the continually increasing terrifying celestial tribulation attacks!

Furthermore, lamenting the death of the Celestial Eye Demon Lord now wouldn't help; the most crucial task at hand was to promptly rescue the Divine Soul of the brave Celestial Eye Demon Lord fallen in the tribulation!

If achieved, although only the Divine Soul would remain, the Celestial Eye Demon Lord's strength would plummet, yet no matter what, preserving the Celestial Eye Demon Lord's Divine Soul would mean keeping the 'vanguard' alive!

Upon hearing the First Demon Lord Fan Yu's request, the Soul Shifting Demon Lord didn't care about exhausting its Soul Shifting Pearl that he had nurtured for hundreds of thousands of years, and immediately activated his demon technique.

After a few breaths,

The Soul Shifting Demon Lord solemnly cupped his hands to the First Demon Lord Fan Yiu and said:

"Sanskrit Saint Master, I recently pushed my demon technique to the extreme, carefully sweeping every piece of bone and flesh of his, and even screened every droplet of blood mist after the explosion of his body, yet I cannot find any fluctuation of Celestial Eye Junior Brother's Divine Soul... Under such a situation... It is highly possible that Celestial Eye Junior Brother has fully perished in this Silver Thread Sword Tribulation, not only being physically destroyed, demonic qi dispersed, but even his Divine Soul was entirely obliterated by those silver-threaded small swords!"

The nearby Ten Thousand Forms Demon Lord, upon hearing this, immediately turned dark-faced and frowned, saying:

"Soul Shifter, are you sure about this? Celestial Eye Junior Brother has cultivated for hundreds of thousands of years, his strength is indisputable, plus he had the Holy Son Gang Bone enhanced by Celestial Monarch's Power, how could he dissipate simply because his body exploded? Celestial Eye Junior Brother has triggered the Celestial Demon Tribulation twice; although he didn't withstand the final attack both times in the tribulation, he survived with strong power and Divine Soul both times! The two Celestial Demon Tribulations didn't kill Celestial Eye Junior Brother...and you say he directly perished thoroughly in this Silver Thread Sword Tribulation?"

The Soul Shifting Demon Lord's expression shifted, then decisively spoke: "Celestial Eye Junior Brother has cultivated for hundreds of thousands of years, although his Divine Soul has not reached the Supreme Realm of the Golden Dragon Immortal Realm, it is still extraordinarily refined; if Junior Brother's Divine Soul wasn't triggered, such a strong Divine Soul would easily be found with a slight search. Under the current conditions... This Silver Thread Sword Tribulation sure is quite terrifying!"

The other Demon Lords of the Profound Yin Demon Sect listened to the Soul Shifting Demon Lord's report, their expressions exceedingly grim.

Chapter 1154: Eighth-Grade Immortal Artifact Shocks Immortals and Demons Alike

These Demon Lords of the Profound Yin Demon Sect,

have always rampaged through the Immortal Realm unchecked,

Moreover, these powerful Demon Lords are long-lived beings, possessing life force far beyond that of the Immortal Realm Human Race, Unbounded Mountain Demon Race, and Spirit Platform Buddhism Bodhisattvas, so they almost never fear any opponent, even when encountering the Celestial Demon Tribulation, they have a significant chance of surviving!

This is one of the reasons why the Demon Lords of the Profound Yin Demon Sect are always extremely proud, extremely brutal, and never regard the other clans of the Golden Dragon Immortal Realm, or even the Celestial Tribulation, seriously.

Yet, according to the Soul Shifting Demon Lord,

it seems the Celestial Eye Demon Lord has really perished completely....

Among these twenty Demon Lords, nearly twelve or thirteen of them have strength slightly inferior to the Celestial Eye Demon Lord, even those slightly stronger are not much stronger!

Thus, you can imagine,

when the Soul Shifting Demon Lord firmly stated that the Celestial Eye Demon Lord not only had his Demon Body completely destroyed by the tribulation, but even his Divine Soul was entirely annihilated, how difficult it was for the Demon Lords of the Profound Yin Demon Sect to accept it!

Of course,

what these Demon Lords of the Profound Yin Demon Sect found hardest to accept was,

with the Celestial Eye Demon Lord already fallen, even his Divine Soul vanished, the Great Success Jade Bright Bodhisattva of Spirit Platform Buddhism, however, was safe and secure, seemingly even appearing somewhat relaxed!

At this moment, near the Great Success Jade Bright Bodhisattva,

the 'galaxy' formed by the Silver Threaded Small Sword from above kept crashing towards the Eighth-Grade Immortal Artifact, and waves of terrifying explosive might continuously erupted above the Eighth-Grade Immortal Sword!

However, even when the entire galaxy formed by the Silver Threaded Small Sword 'shattered' on the Eighth-Grade Immortal Sword, that immense Eighth-Grade Immortal Sword continued to shine brightly, its spiritual energy abundant, without a single scratch on the mirror-like surface of the Sword Body!

Finally, the Great Success Jade Bright Bodhisattva who endured this terrifying Silver Thread Sword Tribulation, sensed the Eighth-Grade Immortal Sword she wielded, and though she always maintained a calm and serene Buddha Heart, she couldn't help but reveal a hint of surprise.

After several breaths,

this Great Accomplishment Bodhisattva of Spirit Platform Buddhism finally calmed her steadily surging emotions, she glanced at the Eighth-Grade Immortal Artifact above, then turned her gaze towards the direction of the Luo Water Array, nodding remotely towards Lin Xuankong a thousand miles away, with hands together in gratitude, she spoke:

"This time, Yu Ming was able to survive the Silver Thread Sword Tribulation, entirely thanks to the Immortal Artifact gifted by Immortal Lin! Without this artifact, even if Yu Ming's strength improved severalfold, it would have been extremely difficult to resist the nearly one hundred thousand silver thread swords just now, surely ending up like that Celestial Eye Demon Lord, with body shattered and soul extinguished!

The act of gifting an Immortal Sword to save a life makes Yu Ming feel immensely grateful in my heart!"

Within the Luo Water Array,

Lin Xuankong gazed at the Great Success Jade Bright Bodhisattva in the distance, radiating Buddha's Light, and slightly shook his head, saying:

"We are all fellow practitioners from the Immortal Realm Human Race, why does the Great Success Jade Bright Bodhisattva need to be so distant, facing numerous demons from the Profound Yin Demon Sect, the predecessor Yu Ming stood alone in battle, even risking igniting the Five Elements Extermination Tribulation to vow to perish together with that Celestial Eye Demon Lord! That kind of courage, I, Lin Xuankong, am far from matching! As for the Immortal Artifact, it is merely a small gesture, the predecessor Yu Ming need not keep it in mind!"

This is not Lin Xuankong boasting, for the Eighth-Grade Immortal Artifact, to him now, truly doesn't count as something rare, really just a slight effort, you know, in the hundred years accelerated by the Luo Water Array, he and the Artifact Refining Genius, Miss Xiao Xiuyi, were already able to refine Eighth-Grade Immortal Artifacts..... Now, in his Golden Patterned Ghost Frog Pouch, several Eighth-Grade Immortal Artifacts reside!

Seeing Lin Xuankong speak like this, the gratitude and admiration in Great Success Jade Bright Bodhisattva's eyes instantly intensified,

She pondered slightly, somewhat puzzled, looking towards Lin Xuankong, she asked:

"There's one thing Yu Ming still doesn't quite understand, I wish to inquire Immortal Lin!"

Lin Xuankong raised his eyebrows slightly, "Please ask predecessor Yu Ming!"

"If I haven't sensed incorrectly, haven't judged incorrectly, the Immortal Artifact gifted by Immortal Lin for me to use is mightily potent, fluctuating immensely, incredibly robust, this should be... Eighth-Grade Immortal Artifact, right?" Great Success Jade Bright Bodhisattva asked.

Before Lin Xuankong could answer,

those cultivators within the Luo Water Array, and those young talents from various Immortal Sects and clans, had already exploded with excitement.

"What, I didn't hear it wrong, did I, the predecessor Great Success Jade Bright Bodhisattva actually said the Immortal Artifact given to her by Immortal Lin is an Eighth-Grade Immortal Artifact? My heavens, Eighth-Grade Immortal Artifact, fear not in the Immortal Realm, for eight-grade immortal artifacts have not appeared for millions of years! According to records from my Three Profound Immortal Sect, even in the Near Ancient Era, eight-grade immortal artifacts had vanished from the Immortal Realm, it seems the last instance an eight-grade immortal artifact emerged in the Immortal Realm was during the Middle Ages, which means, at least three million years ago!"

"It cannot truly be an eight-grade immortal artifact, can it? My heavens, I, Hua Qianqiu, as the sole True Disciple of Nine Spirits Immortal Sect Master, only possess one Grade-Entered Immortal Artifact, among tens of thousands in the sect, the only one owning a First-grade Immortal Artifact is my master! Tsk tsk tsk, yet Immortal Lin possesses an eight-grade immortal artifact and casually lends it to others! Is this the disparity between people? This disparity is far greater than between Celestial Immortals and mortal dogs!"

"Is this the eight-grade Immortal Artifact?"

Oh heavens, I, Chi Liuxia, in this life, actually get to see the eight-grade Immortal Artifact with my own eyes, sensing the ethereal spiritual energy of the eight-grade Immortal Artifact firsthand!

Chapter 1155: Eighth-Grade Immortal Artifact Shocks Both Immortal and Demon

No wonder, no wonder as soon as this Immortal Artifact reached the hands of Great Success Jade Bright Bodhisattva, the Senior who previously struggled against hundreds of Silver Threaded Small Swords could now face nearly ten thousand Silver Threaded Small Swords with ease, as if strolling leisurely! Hahaha, truly worthy of being the greatest Artifact Refining Genius in our Immortal Realm for millions of years, Immortal Lin continues to astound us repeatedly!"

"Surely, Great Success Jade Bright Bodhisattva isn't joking! Immortal Lin could only refine Fourth-Grade Immortal Artifacts, so how could there now be an Eighth-Grade Immortal Artifact! Previously, I felt the fluctuations of this Immortal Artifact were too powerful, not at all like Fourth, Fifth, or even Sixth Grade Immortal Artifacts. Unexpectedly, unexpectedly, it not only isn't a Fourth, Fifth, or Sixth Grade Immortal Artifact, but it very possibly is an Eighth-Grade Immortal Artifact!"

"Great Success Jade Bright Bodhisattva's esteemed character, how could he possibly be making jokes at a time like this!

If Great Success Jade Bright Bodhisattva claims this Immortal Artifact is an Eighth-Grade Immortal Artifact, then it absolutely is an Eighth-Grade Immortal Artifact!

But the reappearance of an Eighth-Grade Immortal Artifact in the Immortal Realm, such a thing is truly astonishing! Had I not heard Great Success Jade Bright Bodhisattva say it with my own ears, I wouldn't have dared to believe if you beat me to death that Immortal Lin actually possesses an Eighth-Grade Immortal Artifact! Tsk tsk, with an Eighth-Grade Immortal Artifact in hand, even if Immortal Lin is only at the Fourth-Grade Earth Immortal Realm, he could easily injure the strongest Immortal Lord-level experts, no wonder Immortal Lin has demonstrated such astounding power time and again, even injuring that Thirty-Six Tribulation Demon Lord!"

At this time, Lin Xuankong has not yet personally confirmed that the Immortal Artifact is an Eighth-Grade Immortal Artifact, but all the cultivators within the Luo Water Array have already boiled over, their faces flushed with excitement as they gaze at the Eighth-Grade Immortal Artifact above Great Success Jade Bright Bodhisattva's head!

After all, that's Great Success Jade Bright Bodhisattva speaking, and Buddhism never speaks false lies, much less someone like Great Success Jade Bright Bodhisattva, so why would he speak casually or announce something uncertain in public? Thus, most people at this moment have already believed that

the Immortal Artifact above Great Success Jade Bright Bodhisattva's head indeed is an Eighth-Grade Immortal Artifact, one that hasn't appeared in millions of years within the entire Immortal Realm!

Therefore,

At this moment,

Many cultivators and Earth Immortals have eyes filled with overwhelming fanaticism, staring dead at the Eighth-Grade Immortal Artifact above Great Success Jade Bright Bodhisattva's head. These fellows, it seems, are all desperates wanting to fly over immediately and personally touch the Eighth-Grade Immortal Artifact that hasn't appeared in millions of years, to get close and feel exactly what it's like near an Eighth-Grade Immortal Artifact!

Next to Lin Xuankong, the strongest Immortal Lord Guang Yu'er is similarly astonished by Great Success Jade Bright Bodhisattva's words, her small mouth slightly agape in disbelief as she turns to Lin Xuankong by her side: "This... what Great Success Jade Bright Bodhisattva said is true? This Immortal Artifact is really an Eighth-Grade Immortal Artifact? Xuankong, you actually possess an Eighth-Grade Immortal Artifact?"

At this time, Cyan-forehead Qilin and White-forehead Qilin also excitedly floated over, standing next to the Qilin Race Elder Clan Leader. Before the Elder Clan Leader, the two Little Demon Kings of the Qilin Race wouldn't dare speak so freely nor behave too wantonly. Nonetheless, knowing their Young Master is so formidable, actually possessing an Eighth-Grade Immortal Artifact, these two little rulers of the Qilin Race naturally feel extremely proud, immensely delighted indeed!

The Elder Clan Leader of the Qilin Race, although having previously speculated about this Immortal Artifact, didn't conceive that Great Success Jade Bright Bodhisattva would claim it as an Eighth-Grade Immortal Artifact! Thus, this Elder Clan Leader of the Qilin Race also looks curiously and doubtfully at Lin Xuankong, waiting for Lin Xuankong's response.

At this time, Lin Xuankong sees that many people's gazes are focused on him, even the strongest Immortal Lord and little sweetheart Guang Yu'er by his side is full of doubt, causing him to shake his head with a laugh.

He pondered momentarily, nodded toward Great Success Jade Bright Bodhisattva in the distance.

Great Success Jade Bright Bodhisattva truly has discerning eyes like torches; this Immortal Artifact indeed is an Eighth-Grade Immortal Artifact without a doubt! However, whether this Immortal Artifact is Eighth Grade isn't crucial right now; the key point is that this Immortal Artifact should best help Great Success Jade Bright Bodhisattva through the next few rounds of Celestial Tribulation attacks!"

When Lin Xuankong said these words,

it evidently confirmed that this Immortal Artifact was indeed an Eighth-Grade Immortal Artifact,

thus igniting even more excitement within the Luoshu Array.

Among them are many cultivators from the Wine Immortal Sect and numerous young talents from various Immortal Sects and clans, unexpectedly soaring up eagerly, moving closer to the light membrane of the Luo Water Array! Clearly, these fellows flew there entirely due to wanting to get closer to the Eighth-Grade Immortal Artifact, to witness more clearly...

The most excited among them,

of course, were those genius Little Bodhisattvas from the Spirit Platform Buddhism,

led by Little Bodhisattva Galin, after confirming that their Lotus Buddhism's Great Success Jade Bright Bodhisattva was indeed receiving assistance from an Eighth-Grade Immortal Artifact, the previously overwhelming worry and anxiety immediately transformed into joy, causing the numerous Little Bodhisattvas to recite Buddhist scriptures with lighter voices, their faces displaying hints of cheer.

At this moment,

after confirming the Immortal Artifact above Great Success Jade Bright Bodhisattva's head is an Eighth-Grade Immortal Artifact,

it wasn't only the Human Race, Demon Race, and Spirit Platform Buddhism cultivators on the Luo Water Array side who became excited.

Countless Demon, Demon General, and Demon Lord experts of the Profound Yin Demon Sect also at their location, their expressions rapidly shifting, staring unblinkingly at the Eighth-Grade Immortal Artifact above Great Success Jade Bright Bodhisattva's head!

These Demon Race experts, who rampage across the Immortal Realm, living on plundering the blood, flesh, Divine Souls, and treasures of various races, how could they not crave an Eighth-Grade Immortal Artifact!

However, the many Demons, Demon Generals, and Demon Lords present knew very well that Great Success Jade Bright Bodhisattva was currently undergoing the Five Elements Extermination Tribulation, and at this time, if anyone dared to make a move against Great Success Jade Bright Bodhisattva or approach to seize the Immortal Artifact, they would definitely be attacked by the Five Elements Extermination Tribulation, following in the unlucky footsteps of that Celestial Eye Demon Lord!

Of course, the current possessor of the Eighth-Grade Immortal Artifact is none other than the immensely powerful Great Success Jade Bright Bodhisattva; trying to seize it from him isn't easy! If not for this, those Demon Lords of the Profound Yin Demon Sect would surely be unable to resist the massive temptation of the Eighth-Grade Immortal Artifact, rushing forward even while taking the risk of being enveloped by the Five Elements Extermination Tribulation, to seize this Eighth-Grade Immortal Artifact...

"Damn it, truly damn it!

This damn monk from Spirit Platform Buddhism actually acquired the assistance of an Eighth-Grade Immortal Artifact, no wonder Junior Brother Tianyan, relying on a hundred First-Grade Sacred Artifacts, couldn't withstand the Silver Thread Sword Tribulation, yet this monk easily blocked it! Damn it! If only I had an Eighth-Grade Immortal Artifact in hand and transformed it into Sacred Artifacts, what kind of bullshit Silver Thread Sword Tribulation, I too would be completely fearless!"

"Eighth-Grade Immortal Artifact... It has been millions of years since it appeared in the Golden Dragon Immortal Realm! Ever since three million and eight hundred thousand years ago, when the then number one Artifact Refining Grandmaster Rongyu Sect crafted the last segment of that Celestial Demon Horn into an Eighth-Grade Immortal Artifact, there hasn't been any Artifact Refining Master able to refine an Eighth-Grade Immortal Artifact within the Golden Dragon Immortal Realm! How did this Lin Xuankong find an Eighth-Grade Immortal Artifact? Could his peerless Artifact Refining skills, which dominate today's entire Immortal Realm, be related to this Eighth-Grade Immortal Artifact?"

"Damn it, perhaps Lin Xuankong encountered some great opportunity and obtained the relic treasure of an Ancient Times powerhouse! Otherwise, given today's entire Golden Dragon Immortal Realm's impoverished resources, how could they refine another Eighth-Grade Immortal Artifact! Tsk tsk, it's a pity such powerful Immortal Artifacts should belong to our Profound Yin Saint Sect, yet ended up in the hands of this fellow and that monk Yu Ming!"

"Don't be upset, there are still a full four rounds of even more terrifying Celestial Tribulation attacks to come in this Five Elements Extermination Tribulation! It's said that two million years ago, a powerful strongest Immortal Lord possessing three Seventh-Grade Immortal Artifacts fell during the Five Elements Extermination Tribulation, relying on one Eighth-Grade Immortal Artifact, that damned monk Yu Ming still might not make it through!"

If... If this damned monk Yu Ming were to fall during this Celestial Tribulation, then when we strike together, this Eighth-Grade Immortal Artifact naturally will fall into the hands of our Saint Sect's experts!"

The Soul Shifting Demon Lord, who had lost his Soul Shifting Pearl, suddenly spoke with an eerie tone.

Chapter 1156: Jianmu Disaster Calamity

While the many Demon Lords of the Profound Yin Demon Sect were discussing, they heard the words of the Soul Shifting Demon Lord,

the Demon Lords couldn't help but show a change in their expressions, with greed transparently gleaming in their eyes.

Even sitting in the center of the Demon Lords,

the strongest, most renowned, and most respected First Demon Lord Fan Yu,

after listening to the Soul Shifting Demon Lord's words, the vertical pupils couldn't help but suddenly contract,

and on its elongated, dark face, like the other Demon Lords, flashed a glint of greed.

Until this moment,

the First Demon Lord Fan Yu realized why their Profound Yin Demon Sect's Holy Son Gang Bone had mobilized the entire Profound Yin Demon Sect's forces, even at the cost of engaging countless powerful figures from the Immortal Realm Human Race, Unbounded Mountain Demon Race, and Spirit Platform Buddhism in a battle that might see the fall of numerous strong practitioners, all because of Lin Xuankong!

Such a battle, even though many of the Profound Yin Demon Sect's strong practitioners had already been enhanced by the Saint Monarch's Power from the Thousand Illusion Saint Monarch, it was likely that many would still fall, for instance, the fall of the Celestial Eye Demon Lord...

But it is worth it, definitely worth it!

A fervor rose in the vertical pupils of the First Demon Lord Fan Yu.

If Lin Xuankong possessed some First, Second, and Third Grade Immortal Artifacts, the death of numerous Demon, Demon General, and Demon Lord of the Profound Yin Demon Sect might not be worth it! But Lin Xuankong held an Eighth-Grade Immortal Artifact!

Such an Eighth-Grade Immortal Artifact, once transformed into a Demon Artifact, would be almost certainly assured as a solution for crossing the troublesome Celestial Demon Tribulation when handed over to the First Demon Lord Fan Yu, the Ten Thousand Forms Demon Lord, the Soul Shifting Demon Lord, and other Demon Lords!

What if, what if Lin Xuankong possessed the Eighth-Grade Immortal Artifact not because he obtained relics and treasures from some expert in ancient times? What if this guy's path of artifact refining indeed was astonishingly strong, and the Eighth-Grade Immortal Artifact was crafted by him personally! After all, the Luo Water Array this guy set up involved more than three thousand Third and Fourth Grade Immortal Artifacts! With so many Immortal Artifacts... even if some ancient expert was deranged, it would be impossible to hide away so many Immortal Artifacts without passing on to their descendants!

It's very likely, extremely likely, that this Eighth-Grade Immortal Artifact was refined by Lin Xuankong himself!

If so, this child must be controlled by the strong practitioners of our Holy Sect! Once achieved, the future growth of the entire Profound Yin Saint Sect would be unimaginably terrifying!

First Demon Lord Fan Yu, thinking of this, could not help but straighten up, no longer leaning against the back of the large chair, and stared intently at Lin Xuankong's location within the Luo Water Array a thousand miles away.

Fortunately, their Holy Son Gang Bone made a resolute decision; this Lin Xuankong should still be around the Third and Fourth Tier Realm. Even with a large number of Immortal Artifacts, he can still be overwhelmed and killed by the countless strong practitioners of my Profound Yin Saint Sect! If allowed to grow, who could control him in the future?

Thinking of this,

The First Demon Lord Fan Yu couldn't help but reflect on some matters regarding the Supreme Origin Realm mentioned by Holy Son Gang Bone,

According to Holy Son Gang Bone, even within the Supreme Origin Realm, the Seventh, Eighth, Ninth Grade Immortal Artifacts and Sacred Artifacts are treasures that Saint Monarchs, Celestial Immortals, Celestial Demons, Great Buddhas vie for! Reportedly, it's because within the Supreme Origin Realm, the bodies and Divine Souls of Earth Immortals are nourished by the Source Qi, transforming into Celestial Immortals, and those Seventh, Eighth, Ninth, and higher-grade Immortal Artifacts and Sacred Artifacts, due to the Source Qi influence of the Supreme Origin Realm, experience a certain degree of metamorphosis into more powerful Seventh, Eighth, Ninth, and higher-grade Source Artifacts!

Once Lin Xuankong is controlled, even when reaching the Supreme Origin Realm later, there exists an opportunity for the Saint Monarchs of the Holy Sect to continuously obtain powerful Source Artifacts!

We must capture him!

We must capture Lin Xuankong!

No matter the enormous cost!

Even a hundredfold Luo Water Array, no matter exhausted of the Demonic Qi of the millions of subordinates brought along, must completely destroy these arrays, even if it takes centuries, we must capture Lin Xuankong alive!

At this thought,

The First Demon Lord Fan Yu suddenly felt,

If the Great Success Jade Bright Bodhisattva could overcome the Five Elements Extermination Tribulation using this Eighth-Grade Immortal Artifact, it seemed like a good thing too! Because then, the power passed down from the Supreme Origin Realm through the Celestial Tribulation would elevate the Great Success Jade Bright Bodhisattva to an Initial Tier Great Buddha before departing the Golden Dragon Immortal Realm! The Eighth-Grade Immortal Artifact would also transform into an Eighth-Grade Source Artifact due to the Supreme Origin Realm's Source Qi influence, and at that time, influenced by heaven and earth's rules, the Golden Dragon Immortal Realm would automatically "expel" this Eighth-Grade Immortal Artifact along with the Great Success Jade Bright Bodhisattva, leaving this place together!

In this way, Lin Xuankong would lose a strong helper of the Strongest Immortal Lord Perfection Level, and also suffer the loss of an Eighth-Grade Immortal Artifact!

Very likely, Lin Xuankong doesn't possess many such Eighth-Grade Immortal Artifacts, after all, that is an Eighth-Grade Immortal Artifact; even during the ancient periods of the Golden Dragon Immortal Realm where spiritual objects were abundant, for those Artifact Refining Masters, refining an Eighth-Grade Immortal Artifact is as difficult as ascending to the heavens!

At this point, First Demon Lord Fan Yu, originally sitting upright, suddenly curled his lips into a smile,

then comfortably leaned back in his chair, looking towards the Great Success Jade Bright Bodhisattva, with a hint of anticipation flashing in his eyes.

At this moment,

Chapter 1157: Jianmu Disaster Tribulation (Part 2)

The Great Achievement Yu Ming Bodhisattva seemed to sense something and looked up towards the depths of the sky,

only to see countless heavy tribulation clouds suddenly extend countless brown leaves and branches. Although they didn't match the previous number of small silver swords from the Silver Sword Tribulation, the quantity was not far off. At the very least, the branches extending from the tribulation clouds numbered over a hundred thousand!

Because these leaves and branches were within the tribulation clouds in the high sky, they appeared not too large, but in reality, their size was astonishing. Each leaf had a diameter of several thousand zhang and was hundreds of zhang thick, while the gray-brown branches were extremely thick, possibly hundreds of zhang thick, and exceeded a length of ten thousand zhang!

Such enormous leaves, any one of them falling could cover a vast mountain range. What's even more terrifying is that these leaves, as they slightly sway, seem to contain unparalleled power, far more frightening than the small swords of the Silver Sword Tribulation in the fifth round of tribulation...

As these branches and leaves continued to wriggle and grow,

suddenly blush buds appeared between the giant leaves and on the branches. Over time, these buds grew larger until they bloomed into flowers nearly ten thousand zhang in diameter!

Seeing such strange and shocking scenes, the Great Achievement Yu Ming Bodhisattva, having just crossed the dreadful Silver Sword Tribulation, couldn't help but slightly furrow her brow.

Within the distant Luo Water Array,

upon seeing the appearance of those leaves and branches, the Elder Clan Leader of the Qilin Race couldn't help but stand, revealing a noticeable look of apprehension and said in a somewhat low tone:

"This Five Elements Extermination Tribulation is indeed one tribulation more dreadful than the other. The third and fourth Netherworld Water Tribulation and Celestial Spirit Fire would be enough to make some slightly weaker Strongest Immortal Lord-level powerhouses despair. The Silver Sword Tribulation ranks among the deadliest twelfth celestial tribulations; even a top-level Strongest Immortal Lord like

Great Achievement Yu Ming Bodhisattva would fall without the Eighth-Grade Immortal Artifact gifted by Immortal Lin. And now this sixth round's attack turns out to be the Jianmu Calamity!"

"Jianmu Calamity?" Lin Xuankong curiously gazed at those giant branches and leaves in the distant sky.

The Elder Clan Leader of the Qilin Race nodded gravely, "Among the various tribulations in the world, three celestial tribulations have never been crossed by anyone — Five Elements Extermination Tribulation is one such, a name that strikes fear into many. Besides these three celestial tribulations, there are nine other tribulations considered as calamities, meaning that once these tribulations appear, they are nearly unstoppable like natural disasters! This Jianmu Calamity is one of them, ranked ninth, posing an extremely frightening threat to Strongest Immortal Lord-level powerhouses. Yet, because seniors of ancient times did manage to cross it with strong abilities and treasures, it's considered less terrifying compared to the three celestial tribulations!"

Sighing, the Elder Clan Leader of the Qilin Race shook his head and said, "Facing the previous Celestial Spirit Fire, Netherworld Water, and Silver Sword Tribulation, I might gather courage to combat it. But if I face the Jianmu Calamity when crossing my final celestial tribulation one day, I'm afraid my only choice will be to wait for death!"

For this talented Elder Clan Leader of the Qilin Race to utter such words, implying that the Jianmu Calamity is more frightening than Celestial Spirit Fire and the Silver Sword Tribulation, Lin Xuankong couldn't help but focus his attention, observing more carefully outside.

Beside him, the Strongest Immortal Lord Guang Yu'er suddenly showed a slight smile, a hint of pride in her eyes, and spoke:

"Why be so pessimistic, Elder Clan Leader? We have all seen how the Great Achievement Yu Ming Bodhisattva easily blocked the Silver Sword Tribulation ranking just below the Jianmu Calamity with Xuankong's Eighth-Grade Immortal Artifact! With this Eight-Grade Immortal Artifact, the Great Achievement Yu Ming Bodhisattva should handle this Jianmu Calamity easily!"

As for your future crossing of the final celestial tribulation, with Xuankong's Path of Artifact Refining, if Elder Clan Leader waits some time for Xuankong to refine more Eighth-Grade, or even Ninth-Grade Immortal Artifacts, then when facing the Jianmu Calamity, you shouldn't worry, you'll surely cross it easily!"

If Guang Yu'er had said this before the Great Achievement Yu Ming Bodhisattva crossed the Silver Sword Tribulation, the Qilin Race's Elder Clan Leader might have thought her words were exaggerated. But having witnessed Great Achievement Yu Ming Bodhisattva easily block the Silver Sword Tribulation, hearing Guang Yu'er now caused him to perk up and gaze enviously at the Eighth-Grade Immortal Artifact propelled by the distant Great Achievement Yu Ming Bodhisattva!

At this moment,

the giant buds growing on the massive branches in the high sky began to wither, and a massive amount of red powdery pollen flew rapidly from the position of the blossoms!

After these pollen flew out from the stamens, they floated towards the Great Achievement Yu Ming Bodhisattva's location; the sheer number of giant branches meant an enormous number of flowers, and when these giant flowers released their pollen, it was as if the sky rained countless red pollen droplets. Strangely, these myriad pollen particles all floated towards the Great Achievement Yu Ming Bodhisattva, not scattering like normal pollen drifting in the wind!

Beneath the countless pollen particles, the Great Achievement Yu Ming Bodhisattva furrowed her brows tightly, fully mobilizing her Immortal Yuan,

Her Eighth-Grade Immortal Artifact above her head instantly transformed into a stream of light, shooting towards the myriad pollen falling from the sky!

Within the distant Luo Water Array,

the Elder Clan Leader of the Qilin Race saw the Great Achievement Yu Ming Bodhisattva actively use her Immortal Artifact to attack the pollen, couldn't help but nod:

"Facing such Jianmu Calamity, Great Achievement Yu Ming fellow Daoist probably has no choice but to go on the offensive to gain a chance for survival. I hope she can use the Eighth-Grade Immortal Artifact gifted by Immortal Lin to obliterate every particle of pollen!

These floating red pollen particles seem beautiful and harmless; in reality, they all are Jianmu Pollen. If they fell near a cultivator, each pollen would immediately swell, crazily absorbing the Tribulation

Crosser's Immortal Yuan, and grow into a small Jianmu until they drain all of the Tribulation Crosser's Immortal Yuan, blood, and Divine Soul, then stop!

Key point is,

According to what I know,

there is no cultivation technique or talent in this world that can combat or suppress the absorption of Jianmu Pollen!

To avoid the absorption of this pollen, the only way is to prevent the pollen from approaching, striking it into dust and powder from a great distance using an Immortal Artifact; otherwise, if any pollen lands within a thousand zhang of the Tribulation Crosser, it would empty their Immortal Yuan swiftly, leading to total defeat and death!

These pollen particles seem small, smaller than a typical head yet incredibly sturdy, containing the terrifying life force of the mystical plant Jianmu. Even low-tier Immortal Artifacts activated by a Strongest Immortal Lord-level powerhouse can't destroy any particle of pollen!

Hopefully... hopefully the Great Achievement Yu Ming Bodhisattva's activated Eighth-Grade Immortal Artifact can obliterate the vitality of this pollen!"

At this point, the Elder Clan Leader of the Qilin Race fell silent, tightening his brow while fixating on the Great Achievement Yu Ming Bodhisattva's activated Eighth-Grade Immortal Artifact!

Listening to the Elder Clan Leader of the Qilin Race, Lin Xuankong was secretly astonished,

Jianmu Calamity, Jianmu Pollen, not to mention these, just the word Jianmu sounds incredibly powerful! According to ancient mythologies recalled from his previous life, Jianmu was revered as the divine tree linking heaven and earth in the ancient mythical era!

Just uncertain if this Jianmu is the same as the Jianmu in the Blue Star's mythological lore...

However, relying solely on the Elder Clan Leader's description, one can feel the daunting nature of Jianmu Pollen, that each pollen nearing a thousand zhang can rapidly drain a Strongest Immortal Lord-level powerhouse to their last breath...

Chapter 1158: The Final Strike

The Immortal Yuan of a Strongest Immortal Lord-level powerhouse is immensely abundant,

compared to a regular Ninth Grade Earth Immortal-level powerhouse, the Immortal Yuan contained within the Immortal Body of a Strongest Immortal Lord-level powerhouse might be ten or even dozens of times greater!

Doesn't this mean that any speck of Jianmu Pollen, when it nears a Cultivator, could instantly absorb all the Immortal Yuan of dozens of Ninth-Grade Earth Immortals...

Moreover, what the Qilin Race Elder Clan Leader mentioned was a single speck of Jianmu Pollen,

and in front of them, in the high skies, the amount of red pollen drifting down is at least several billion, perhaps up to several tens of billions!

This terrifying quantity of Jianmu Pollen, once it falls, could probably drain all the Immortal Yuan of every Earth Immortal Cultivator in half of the Golden Dragon Immortal Realm!

The Five Elements Extermination Tribulation truly is extraordinary, worthy of being one of the three major Celestial Tribulations from the Ancient Era to now, which no one has ever survived!

"Look quickly, the Eighth-Grade Immortal Artifact activated by Great Success Jade Bright Bodhisattva is so powerful!" Lin Xuankong lamented as the Cyan-forehead Qilin behind him couldn't help but shout.

Lin Xuankong, the Qilin Race Elder Clan Leader, the Strongest Immortal Lord Guang Yu'er, and others raised their heads. They saw the Eighth-Grade Immortal Artifact activated by Great Success Jade Bright Bodhisattva transform from its massive form into a "Little Jian" forty zhang long, swiftly shuttling through the sky at a terrifying speed!

In a mere tenth of a breath,

that Eighth-Grade Immortal Artifact forty zhang long left tens of thousands of afterimages in the sky,

furthermore, during its rapid flight, each afterimage precisely pierced through a speck of Jianmu Pollen. Tens of thousands of afterimages pierced through tens of thousands of specks of Jianmu Pollen!

As the sixth round of the Five Elements Extermination Tribulation's Celestial Tribulation attack, the Jianmu Pollen's ability to absorb Immortal Yuan is extremely terrifying, and its sturdiness far surpasses ordinary Immortal Artifacts!

Yet under the shooting of the Eighth-Grade Immortal Artifact personally refined by Miss Xiao Xiuyi, these incredibly sturdy Jianmu Pollen specks were like butter being sliced by a sharp blade. They couldn't hinder the flight of the Eighth-Grade Immortal Artifact in the slightest and were directly cut to fragments, dispersing into the sky!

After ten breaths of time had passed,

the Eighth-Grade Immortal Artifact in the sky had already changed direction millions of times in its rapid shooting, and simultaneously, millions of specks of incredibly sturdy, dangerous Jianmu Pollen were cut to dust, unable to pose any threat to Great Success Jade Bright Bodhisattva anymore!

Such a sharp Eighth-Grade Immortal Artifact, such terrifying battle feats, such rapid flying speed,

left almost every Cultivator witnessing this battle gaping in awe, necks feeling a chill!

Though this Eighth-Grade Immortal Artifact could shoot so fast and exhibit such powerful combat strength, it was closely related to the immense strength of Great Success Jade Bright Bodhisattva himself. Yet every Cultivator who saw this scene knew very well that if the Immortal Artifact activated by Great Success Jade Bright Bodhisattva was of Fourth, Fifth, or Sixth Grade, it could not possibly have achieved such frightening effects, as that was Jianmu Pollen; how could a middle-low tier Immortal Artifact so easily shatter it?

Thinking of this, how could the numerous Cultivators not be in awe!

As for the chill on their necks... amongst the numerous Human Race Cultivators, Demon Race geniuses, and Buddhist Bodhisattvas from the Spirit Platform Buddhism present, it was relatively fine. But as for the countless demons and demon generals from the Profound Yin Demon Sect, they were absolutely certain that if the target of Great Success Jade Bright Bodhisattva's Eighth-Grade Immortal Artifact wasn't the Jianmu Pollen but rather them from the Profound Yin Demon Sect, they would surely be exterminated and annihilated like the Jianmu Pollen, in just a few breaths of time!

At this moment,

even though there were still tens of millions or nearly a hundred million specks of Jianmu Pollen drifting downward in the sky,

there was no longer any Cultivator in the Luo Water Array that doubted Great Success Jade Bright Bodhisattva's ability to survive this Jianmu Calamity before him! As for the demons, demon generals, and demon lords from the Profound Yin Demon Sect, they all displayed complex expressions. For these demons, demon generals, and demon lords from the Profound Yin Demon Sect, the idea that Great Success Jade Bright Bodhisattva might easily pass through the current Jianmu Calamity was, of course, depressing, but seeing that Eighth-Grade Immortal Artifact darting about the sky at lightning speed, how could they not be stirred...

However,

whether it was the Cultivators from the Wine Immortal Sect, the young geniuses from various Immortal Sects and clans, or the countless demons, demon generals, and demon lords from the Profound Yin Demon Sect, everyone was extremely certain of one thing,

the power of this Eighth-Grade Immortal Artifact was so terrifying,

that even if there were a few times more Jianmu Pollen in the sky, it shouldn't be able to get close to Great Success Jade Bright Bodhisattva!

"Immortal Lin's Eighth-Grade Immortal Artifact has truly been of great help to Great Success Yu Ming this time; it seems Great Success Yu Ming will easily pass through this round of Jianmu Calamity!

Tsk tsk, in my lifetime, to witness the astonishing power of an Eighth-Grade Immortal Artifact with my own eyes, is truly delightful! Eighth-Grade Immortal Artifacts were something I had only read about while perusing ancient texts, in accounts of Human Race seniors, Demon Race seniors, or Spirit Platform Buddhism seniors. After several million years, Eighth-Grade Immortal Artifacts have reappeared in the human world!

It seems, in this round of the Immortal Demon War, with Immortal Lin on our side, our chances of victory will skyrocket! Hahahahaha!

In my view, Great Success Jade Bright Bodhisattva, relying on Immortal Lin's Eighth-Grade Immortal Artifact, might indeed cross over this Five Elements Extermination Tribulation before us!"

Chapter 1159: The Final Strike (Part 2)

Looking in the direction of Great Success Jade Bright Bodhisattva, who already had victory in hand, the Elder Clan Leader of the Qilin Race felt gratified and emotional, thinking that seeing the peerless might of an Eighth-Grade Immortal Artifact in his lifetime was truly without regret!

"Of course, Clan Leader Grandfather! This is the Eighth-Grade Immortal Artifact personally refined by our Young Master, probably even more powerful than any Eighth-Grade Immortal Artifacts you've read about in the records!" The Cyan-forehead Qilin couldn't help but add when he saw the Elder Clan Leader of the Qilin Race so emotional and happy.

Immortal Lord Guang Yu'er couldn't help but squeeze Lin Xuankong's small hand, looking at Lin Xuankong beside her with a hint of admiration in her eyes.

Facing such a terrifying Five Elements Extermination Tribulation, Guang Yu'er, who considered herself extremely strong and formidable after entering the Strongest Immortal Lord Realm, suddenly realized that in front of such a level of terrifying celestial tribulation, she seemed unable to do anything or provide any help to Great Success Jade Bright Bodhisattva!

Yet, her little lover Lin Xuankong, who was just at the Fourth Grade Realm, used an amazingly unprecedented refining technique to turn Great Success Jade Bright Bodhisattva from struggling to resist the tribulation to easily crossing it!

Indeed, this is my beloved Guang Yu'er, as expected to be so formidable!

Thinking of this, this typically proud and arrogant Strongest Immortal Lord showed more apparent pride and admiration towards Lin Xuankong!

Moments later,

Outside the Luo Water Array, peace finally returned, no longer resonating with the sound of the Eighth-Grade Immortal Artifact piercing through the void!

And Great Success Jade Bright Bodhisattva, who relied on the Eighth-Grade Immortal Artifact gifted by Lin Xuankong, finally crossed the Jianmu Calamity with ease, as everyone had hoped!

When the massive leaves and branches of the Jianmu in the sky's tribulation clouds gradually disappeared, and the Five Elements Extermination Tribulation started to nurture the next wave of attacks, Great Success Jade Bright Bodhisattva called back the Eighth-Grade Immortal Artifact flying from the sky and grasped it in hand!

Although Buddhist cultivators have always focused on cultivating the heart and not relying on external objects!

But this is an Eighth-Grade Immortal Artifact, personally used, feeling the power of this artifact...

Even though Great Success Jade Bright Bodhisattva has a steadfast heart nature, she couldn't help but feel some joy and intense love from within, then continuously caressed the blade with both hands, clearly showing extreme love and cherishing of this Eighth-Grade Immortal Artifact!

This Spirit Platform Buddhism's Great Success Jade Bright Bodhisattva, after caressing the blade excitedly for a while, settled her mind and calmed her thoughts, turned her head towards the direction of the Luo Water Array, and transmitted her voice out using Immortal Yuan,

"Immortal Lin! If not for your sword's assistance, I, Yu Ming, would probably have already fallen in the Silver Thread Sword Tribulation! Counting it up, Immortal Lin has solidly saved my life twice!"

From a distance, within the Luo Water Array, Lin Xuankong slightly shook his head upon hearing this, "Great Success Jade Bright Bodhisattva, there's no need for such politeness! Additionally, you shouldn't be distracted to thank me at this moment but should be wary of the next wave of celestial tribulation attacks! After all, the Five Elements Extermination Tribulation is known as one of the three great disasters, and the upcoming attacks might become increasingly terrifying with each wave!"

However, Spirit Platform Buddhism's Great Success Jade Bright Bodhisattva suddenly seemed to think of something, her face turned serious, and she spoke towards Lin Xuankong's direction:

"Although Yu Ming's strength is inferior, not among the top experts in our Immortal Realm, with Immortal Lin's Eighth-Grade Immortal Artifact, the chance to cross this immediate Five Elements Extermination Tribulation should be relatively high!

Furthermore, if today I, Yu Ming, can truly cross this Five Elements Extermination Tribulation and thereby ascend to the Upper Realm, I will definitely not forget Immortal Lin's help!"

Hearing Great Success Jade Bright Bodhisattva say this, Lin Xuankong couldn't help but shake his head and laugh,

Previously, upon noticing that this celestial tribulation was the Five Elements Extermination Tribulation, there was hardly any cultivator within the Luo Water Array who believed that Great Success Jade Bright Bodhisattva could overcome this unprecedented terrifying tribulation! Not even my Strongest Immortal Lord little lover, the Elder Clan Leader of the Qilin Race, or even those Little Bodhisattvas of Spirit Platform Buddhism had much confidence!

Now with the Eighth-Grade Immortal Artifact in Great Success Jade Bright Bodhisattva's hands, Yu'er and the Elder Clan Leader of the Qilin Race, as well as the talented younger generations from various sects and clans, have completely changed their attitude, from not believing that Great Success Jade Bright Bodhisattva could overcome this tribulation, to believing that she now has a great chance to cross the Five Elements Extermination Tribulation!

Even Great Success Jade Bright Bodhisattva herself now seems exceedingly confident, already contemplating crossing the tribulation and ascending to the Upper Realm in the future!

This is still when I've only brought out an Eighth-Grade Immortal Artifact,

If I were to take out all the Eighth-Grade Immortal Artifacts from the Golden Patterned Ghost Frog Pouch, I wonder what expressions the numerous Immortal Realm Human Race cultivators, the talented younger generations from various clans, and the Elder Clan Leader of the Qilin Race would show, probably quite a spectacle!

And this is just an Eighth-Grade Immortal Artifact, if I were to take out my Immortal Artifact, which has already grown to the Ninth-Grade, the highest grade, the Elder Clan Leader of the Qilin Race and those talented younger generations from various sects and clans might be directly dumbfounded, with their mouths wide enough to swallow ten oxen!

Not long after,

The tribulation clouds in the sky began to change again...

...

Nearly an hour later,

In the Luo Water Array, the fair and smooth face of the Strongest Immortal Lord Guang Yu'er had a slightly opened small mouth, whispered in awe: "Great Success Jade Bright Bodhisattva, with such a powerful Immortal Lord-level power paired with an Eighth-Grade Immortal Artifact, is indeed absurdly strong!

The seventh wave's Nail-head Ten Thousand Arrows Tribulation and the eighth wave's Heavenly Star Big Dipper Tribulation were all celestial tribulations whose terrors surpassed that of the Jianmu Calamity!

Without that Eighth-Grade Immortal Artifact, with Great Success Jade Bright Bodhisattva's strength, facing these two waves of celestial tribulations, she might perish and cease to exist within a few breaths, yet with the Eighth-Grade Immortal Artifact you gifted, Lin Xuankong, Great Success Jade Bright Bodhisattva managed to cross these two waves relatively easily!"

The Elder Clan Leader of the Qilin Race, who initially had a grave expression because of Great Success Jade Bright Bodhisattva crossing the tribulation, had already put on a relaxed face,

"Immortal Lord Guang, you must be joking! This is an Eighth-Grade Immortal Artifact that vanished millions of years ago! With such a powerful Immortal Artifact in hand, let alone Great Success Bodhisattva, even a fellow like me whose strength falls far short of Great Success Jade Bright Bodhisattva could probably rely on the Eighth-Grade Immortal Artifact to cross those two major disasters!

It's just that I don't know what the final tribulation of the Five Elements Extermination Tribulation is like!

Judging by the previous situations, Great Success Jade Bright Bodhisattva might very well continue the relaxed state of combat from before!"

Saying this, the Elder Clan Leader of the Qilin Race turned his head to look at Lin Xuankong, sighed, and said:

"In our entire Immortal Realm, including our Unbounded Mountain Demon Race, the Demon Realm of Profound Yin Demon Sect, and the Buddha Realm of Spirit Platform Buddhism, no one has crossed a celestial tribulation easily for hundreds of thousands of years! From what I know, in the past hundreds of thousands of years, nearly a hundred Strongest Immortal Lord-level powerhouses have perished because they encountered a powerful celestial tribulation!

If only Immortal Lin had been born hundreds of thousands of years earlier, perhaps the seniors of our Immortal Realm, nearly a hundred, could have crossed their celestial tribulations without any peril!"

Upon hearing this, the Strongest Immortal Lord Guang Yu'er couldn't help but glance at the Elder Clan Leader of the Qilin Race, then shook her head with a laugh,

"Why such laments, Elder Clan Leader!

It is fate, and over the past hundreds of thousands of years, those Strongest Immortal Lord-level predecessors hadn't the chance to encounter Lin Xuankong!

But moving forward, if Lin Xuankong were to refine more Sixth, Seventh, and Eighth-Grade Immortal Artifacts, our Immortal Realm Human Race, your Unbounded Mountain Demon Race, and Spirit Platform

Buddhism's future generations will all have it much easier. In the future, apart from the final celestial tribulation for Strongest Immortal Lord-level powerhouses, other celestial tribulations are hardly worth worrying about."

The Elder Clan Leader of the Qilin Race paused upon hearing this, then shook his head with a smile, "That is true, Immortal Lin's astonishing artifact refining technique will definitely revolutionize the entire Immortal Realm in the future!"

At this moment, Lin Xuankong focused his gaze outside the Luo Water Array, carefully observing the situation of the tribulation clouds in the sky,

Great Success Jade Bright Bodhisattva was about to face the last wave of celestial tribulation attacks, just unsure how terrifying and powerful this final strike would be?

Chapter 1160: Achieving Celestial Immortal Today

Lin Xuankong was paying such close attention to the Great Success Jade Bright Bodhisattva's final Celestial Tribulation,

of course not merely because he hoped that a Human Race Cultivator like the Great Success Jade Bright Bodhisattva could successfully cross it!

Lin Xuankong had cultivated all the way from a Mortal Tier Cultivator to the Initial Stage of the Strongest Immortal Lord, undergoing countless hardships; especially after stepping into the Earth Immortal Realm,

with every advancement within the Earth Immortal Realm, the Celestial Tribulation he encountered was always the most terrifying, the most powerful, and the hardest to survive among all tribulations of that Realm!

It might not necessarily be that this "damned Heaven" or this Golden Dragon Immortal Realm was targeting him,

but Lin Xuankong could be one hundred percent certain

that when he cultivated to the Late Stage of the Strongest Immortal Lord Realm and triggered his own final Celestial Tribulation, the tribulation he faced would definitely be incomparably terrifying and fatal!

At the very least, those Celestial Spirit Fire, Netherworld Water Tribulation, Silver Thread Sword Tribulation, Jianmu Calamity and so on were absolutely nothing more than "appetizers" among the tribulations he would face in the future!

After all, from the First Grade Realm, Second-Grade Earth Immortal Realm all the way up to the Ninth-Grade Earth Immortal Realm, this "damned Heaven" had always wanted to kill him using the dreadful tribulations of each Realm; there was no reason that when it came to the final Celestial Tribulation at the Strongest Immortal Lord Realm, this "damned Heaven" would suddenly let him pass easily in a relaxed, ceremonial way!

His own final Celestial Tribulation would at the very least have to be a tribulation on the level of the "Five Elements Extermination Tribulation" that the Great Success Jade Bright Bodhisattva was facing!

With these thoughts in mind,

how could Lin Xuankong not become vigilant, how could he not observe carefully!

These were all precious experiences!

While Lin Xuankong was secretly pondering, atop the Great Success Jade Bright Bodhisattva's head, within those thick and densely packed tribulation clouds, a new change finally occurred!

The countless tribulation clouds in the sky actually began to slowly rotate,

and after several dozen breaths, right above the Great Success Jade Bright Bodhisattva's head, those innumerable tribulation clouds abruptly formed a pattern similar to a black-and-white Tai Chi Diagram; only this Tai Chi Diagram was incomparably enormous, with a diameter spanning several hundred li, and the Tai Chi yin eye within—namely the black yin eye—had formed into a gigantic black hole a hundred li across!

The moment this gigantic black hole formed, a visible ripple surged out and directly enveloped the Great Success Jade Bright Bodhisattva's body!

Immediately after,

the Great Success Jade Bright Bodhisattva's ten-thousand-zhang-tall body actually began uncontrollably flying toward that gigantic black hole in the sky!

The suction from that ripple was actually so terrifying... The Great Success Jade Bright Bodhisattva was a true Strongest Immortal Lord Perfection Realm expert, and among the many Strongest Immortal Lords at the Perfection Realm, he could be counted among the very top; such a powerhouse possessed Escape Techniques of unimaginable might, yet at this moment, under the pull of that gigantic black hole, no matter how the Great Success Jade Bright Bodhisattva urged his Escape Technique, he was actually unable to stop his body from slowly drifting toward the black hole!

The feeling was extremely bizarre; under the effect of that visible ripple, it was as if the Great Success Jade Bright Bodhisattva's ten-thousand-zhang body was merely a tiny leaf floating upon the vast ocean, unable to act on its own, and could only go wherever the current took it!

Seeing this scene, Lin Xuankong couldn't help but knit his brows slightly; this Tai Chi Diagram-shaped tribulation cloud before his eyes was clearly something he had never seen before.

The Qilin Race Elder Clan Leader beside him was likewise frowning repeatedly, yet this time, this Elder Clan Leader of the Qilin Race did not speak to explain; it was evident that even this Old Qilin who had lived for over a hundred thousand years had never seen such a tribulation!

The Strongest Immortal Lord Guang Yu'er, however, could not help but frown and say:

"This sort of scene, this sort of bizarre tribulation fluctuation, seems to be the Taiyin Soul-annihilating Tribulation I once saw recorded in the Ten Thousand Laws Immortal Sect's sect scriptures! According to the records in the Ten Thousand Laws Immortal Sect's classics, in the past millions of years, this kind of tribulation has only appeared twice in our Golden Dragon Immortal Realm, and the ones crossing it were precisely two senior predecessors of the Ten Thousand Laws Immortal Sect at the Strongest Immortal Lord Realm, who underwent their tribulations two million years ago!

But unfortunately, those two Strongest Immortal Lord seniors of the Ten Thousand Laws Immortal Sect were both unable to resist the suction of this Taiyin Soul-annihilating Tribulation; they were directly sucked into that black hole by the Tai Chi Diagram's yin eye and then completely dissipated, without the slightest trace of movement thereafter!

According to the records left by the Ten Thousand Laws Immortal Sect Cultivators who acted as guardians back then for those two Strongest Immortal Lord predecessors, at that time the two Strongest Immortal Lords of the Ten Thousand Laws Immortal Sect urged every Treasure and Immortal Artifact they had collected, yet it was all in vain; on the contrary, those Immortal Artifacts and Treasures were all completely absorbed away by that Tai Chi Diagram yin eye!"

Hearing Guang Yu'er say this, the Qilin Race Elder Clan Leader's expression couldn't help but pause as he frowned and said: "The Ten Thousand Laws Immortal Sect... Although the Ten Thousand Laws Immortal Sect now no longer has any Strongest Immortal Lord Level powerhouse sitting in town, according to what this old man knows, two million years ago the Ten Thousand Laws Immortal Sect was reputed to be the First Immortal Sect of the Immortal Realm; even compared to the Guangqing Immortal Sect where Immortal Lord Guang resides, its reputation was in no way inferior, and at that time even the Divine Dynasty Immortal Sect simply could not compare to the Ten Thousand Laws Immortal Sect!

With the Ten Thousand Laws Immortal Sect possessing such deep foundations and such an exalted status two million years ago, those two Strongest Immortal Lord Level seniors of the Ten Thousand Laws Immortal Sect who were crossing their tribulations back then must surely have been able to gather a vast number of Immortal Artifacts and Treasures! Yet in the end, they actually still fell to this kind of tribulation?

In that light, this Taiyin Soul-annihilating Tribulation is likely far more terrifying than the previous Celestial Spirit Fire, Netherworld Water Tribulation, Jianmu Calamity, Silver Thread Sword Tribulation and the like!

Let us hope that the Great Success Jade Bright Bodhisattva can pass through this tribulation this time!"

Upon hearing this, Lin Xuankong couldn't help but recall that incident back at the Spiritual Crane Immortal Sect, when he was besieged by the Ten Thousand Laws Immortal Sect's Second Elder Sima Ling together with several dozen Ninth-Grade Earth Immortals, as well as the matter of Guang Yu'er later obtaining a large number of scriptures from the Ten Thousand Laws Immortal Sect!
