Chapter 1161: Attaining Celestial Immortal Today (Part 2)

It seems Guang Yu'er knows the origin and danger of this Celestial Tribulation from those ancient texts!

But if the Taiji Soul Annihilation Tribulation is truly this terrifying, can that Eighth-Grade Immortal Artifact really help Great Success Jade Bright Bodhisattva survive this attack?

If even the Eighth-Grade Immortal Artifact cannot assist Great Success Jade Bright Bodhisattva at this moment, can a Ninth-Grade Immortal Artifact withstand this Celestial Tribulation that terrified the strongest Immortal Lords two million years ago?

With a hint of caution, Lin Xuankong looked closely at Great Success Jade Bright Bodhisattva's position and saw her already activating the Eighth-Grade Immortal Artifact.

The Eighth-Grade Immortal Artifact, which had originally shrunk to several dozen zhang, quickly expanded under the full activation of Great Success Jade Bright Bodhisattva, transforming into an enormous Immortal Artifact thousands of zhang long and wide. Great Success Jade Bright Bodhisattva was using this gigantic Immortal Artifact to fly with all her might in the opposite direction of the Taiji Black Hole, trying to avoid being drawn into the terrifying vortex!

However,

The suction of the black hole was indeed extremely terrifying,

Even though Great Success Jade Bright Bodhisattva was currently activating it with full force, causing the countless artifact patterns on the Eighth-Grade Immortal Artifact to shimmer, she was still unable to distance herself from the immense Taiji Black Hole, merely maintaining herself precariously in mid-air, neither rising nor falling!

This was an Eighth-Grade Immortal Artifact fully activated by the strongest Immortal Lord, so one can imagine how fast it would fly if unleashed!

Previously, the countless Jianmu Pollen descending from the sky were all sliced apart by this artifact's extreme speed! Not to mention, even a Third-Grade Immortal Artifact, like the one owned by the Sect Leader of the Divine Dynasty Immortal Sect, allows its bearer to travel from Cangwu to North Sea in a day! How fast then would the Eighth-Grade Immortal Artifact be...probably able to circle the vast Golden Dragon Immortal Realm in an hour!

Yet, even if Lin Xuankong's refined Eighth-Grade Immortal Artifact was far superior to ordinary ones, it could not evoke much movement away from the Taiji Black Hole at this moment!

"It seems Great Success Jade Bright Bodhisattva senior managed to stabilize herself with Xuankong's Eighth-Grade Immortal Artifact, amazing, truly worthy of the masterful touch of the Immortal Realm's top Artifact Refining Master!" The strongest Immortal Lord Guang Yu'er brightened at this sight, praising Great Success Jade Bright Bodhisattva while simultaneously lauding her own sweetheart Lin Xuankong!

Yet Lin Xuankong seemed somewhat like a "blockhead," completely unresponsive to the praises of his beloved beside him, as he furrowed his brow and said:

"I don't know how long this Taiji Soul Annihilation Tribulation will last, observing the current situation, it seems Great Success Jade Bright Bodhisattva senior is evenly matched with the Taiji Black Hole, but this tribulation is formed by the influence of the power of heaven and earth, and the Immortal Realm Power contained in this black hole is definitely inexhaustible under the support of the tribulation cloud!

Great Success Jade Bright Bodhisattva has battled fiercely multiple times, through no less than eight powerful celestial tribulations. Does she have enough Immortal Yuan to hold out until the end?"

Hearing Lin Xuankong's words,

Nearby, the strongest Immortal Lord Guang Yu'er, the Qilin Race Elder Clan Leader, Cyan-forehead Qilin, White-forehead Qilin, and Little Bodhisattva Galin all reacted visibly, unable to help but gaze over at Great Success Jade Bright Bodhisattva with noticeably increased worry!

There's no choice, the previous celestial tribulations had all unfolded as Lin Xuankong predicted, and the final outcome was always as he foretold, with Great Success Jade Bright Bodhisattva repeatedly overcoming those fearsome tribulations!

But now, Lin Xuankong, who always had confidence in Great Success Jade Bright Bodhisattva and his Eighth-Grade Immortal Artifact, actually started "predicting gloom" for Great Success Jade Bright Bodhisattva...

As such,

The many cultivators and strongest Immortal Lords who had seen Lin Xuankong's predictions repeatedly come true naturally began to worry.

Especially the Bodhisattvas of Spirit Platform Buddhism, who began urgently chanting Buddhist scriptures, all wishing for Great Success Jade Bright Bodhisattva to pass this tribulation both in words and in heart!

Time slowly passed in the expectant and slightly anxious atmosphere,

Finally, after a full hour, just as Great Success Jade Bright Bodhisattva was struggling to maintain resistance against the pull, the swirling Taiji Yin Eye in the sky gradually ceased its suction, and then the massive Taiji Diagram pattern in the sky slowly dispersed!

Next moment,

Before that enormous Taiji Diagram disappeared completely,

A ray of radiance suddenly shone from the Taiji Diagram's Yang Eye, beaming onto the top of Great Success Jade Bright Bodhisattva's head!

Then came endless pleasing Immortal Music from the Taiji Diagram and tribulation cloud, along with countless illusory Buddhist Lotus Flowers cascading rapidly from the high sky towards Great Success Jade Bright Bodhisattva's location!

As soon as those illusory Buddhist Lotus Flowers appeared,

In the Luo Water Array, there erupted a thunderous and earth-shaking cheer!

Whether cultivators and disciples from the Wine Immortal Sect, or talented juniors from various Immortal Sects and different clans, upon seeing those ethereal and spiritually resonant Buddhist Flowers, they immediately understood that Great Success Jade Bright Bodhisattva had successfully passed through the terrifying and powerful nine-layer celestial tribulation, and these Buddhist Lotus Flowers naturally carried the pure and potent energy of the Supreme Origin Realm, soon to transform Great Success Jade Bright Bodhisattva's body and divine soul!

Of course,

The ones most delighted at this moment,

Were still those Little Bodhisattvas from Spirit Platform Buddhism!

Seeing their own sect's Great Accomplishment Bodhisattva narrowly defeating the tribulation, Little Bodhisattva Galin and others were naturally excited, if not for the strict Buddhist rules, these Little Bodhisattvas would probably have already flown up in joy!

Meanwhile, Great Success Jade Bright Bodhisattva finally relaxed,

She glanced upwards at the endless extraordinary flowers falling gently from the sky, exhaled deeply, then closed her eyes slightly, preparing to embrace the surging power from the Supreme Origin Realm!

Soon,

Those countless pure lotus flowers descended one after another, permeating into Great Success Jade Bright Bodhisattva's body.

As those pure and spiritually resonant still lotus flowers settled onto Great Success Jade Bright Bodhisattva, the strong waves emitted from her body grew ever stronger!

The entire process lasted for several hundred breaths,

Until Great Success Jade Bright Bodhisattva reopened her eyes, the countless tribulation clouds in the sky vanished directly, and the sky once again revealed its bright firmament!

In the distance, within the ranks of the Profound Yin Demon Sect,

The First Demon Lord, seated at the center among many Demon Lords, furrowed his brow into a 'chuan' character, clearly worried,

Nearby, the Ten Thousand Forms Demon Lord narrowed his eyes slightly, speaking:

"This Great Success Jade Bright baldy, how did he manage to resolve such a dreadful Taiji Soul Annihilation Tribulation so quickly? Damn it, that Eighth-Grade Immortal Artifact Lin Xuankong gave Great Success Jade Bright baldy truly played a significant significant role!

But Brahma Desire Saint Master need not worry, now that Great Success Jade Bright Bodhisattva has survived the final tribulation, she will inevitably be rejected by this world, soon disappearing from the Golden Dragon Immortal Realm!

By then, even if Great Success Jade Bright Bodhisattva is strong, what of it? This means there will be one less formidable late-stage Strongest Immortal Lord Level expert in the Golden Dragon Immortal Realm, which for our Holy Sect, definitely counts as a good thing, absolutely a good thing!"

Many Demon Lords and Demon Generals nodded promptly at the Ten Thousand Forms Demon Lord's words.

At this moment, Great Success Jade Bright Bodhisattva suddenly opened her luminous eyes, gazing far towards Lin Xuankong's location,

"Immortal Lin, without your help during this tribulation, Yu Ming would have perished without question under such a fearsome celestial tribulation, even if she had ten or a hundred lives!

Today I, Yu Ming, have achieved the Celestial Immortal Realm, and am about to depart from this Golden Dragon Immortal Realm,

Yet I promise, if someday Immortal Lin can also pass the final tribulation and ascend to the Upper Realm, whatever orders you may have, reach out to me in the Upper Realm, and no matter the cost, Yu Ming will assist Immortal Lin!"

Chapter 1162: Celestial Sword

Lin Xuankong was momentarily stunned upon hearing this, and thought to himself: Great Success Jade Bright Bodhisattva saying this...

Buddhism never speaks falsehoods, it seems that if I achieve the Strongest Immortal Lord Perfection Realm in the future and ascend to the Supreme Origin Realm, I will have a senior to pave the way and support me!

In this light,

giving this Eighth-Grade Immortal Artifact to Great Success Jade Bright Bodhisattva seems like a profitable exchange!

After all, a Great Accomplishment Bodhisattva from Spirit Platform Buddhism publicly stating these words is bound to be true, unless this Great Success Jade Bright Bodhisattva intends to stop practicing the Buddhist Technique dedicated to cultivating the heart after ascending to the Upper Realm!

"Then I wish Jade Bright Celestial Buddha success in entering the Supreme Origin Realm, with cultivation increasing day by day, and when my cultivation progresses and I ascend to the Upper Realm, we shall reunite with Jade Bright Celestial Buddha!"

Lin Xuankong folded his hands in respect towards the position of Great Success Jade Bright Bodhisattva.

At this moment, Great Success Jade Bright Bodhisattva had already crossed the final Celestial Tribulation. Evidently, she can no longer be called Bodhisattva, for she is now a true Celestial Buddha of the Upper Realm!

Great Success Jade Bright Bodhisattva glanced at Lin Xuankong, a smile appearing at the corners of her mouth, and nodded, saying: "With Immortal Lin's realm and strength, surely that day will not be long in coming!"

Before the voice faded,

Great Success Jade Bright Celestial Buddha suddenly trembled all over, and skin and muscles began to shed from her body, even her skull, finger bones, and others continuously fell off, then shattered in mid-air, dispersing into an overflowing spiritual qi!

Witnessing this, Lin Xuankong's expression changed involuntarily,

The calamity clouds that densely filled the sky had already completely dispersed; now the sky was blue and the sun was high, indicating that the Five Elements Extermination Tribulation which was rumored never to be crossed had been overcome by Great Success Jade Bright Bodhisattva, so why did her flesh and bones start to rapidly disintegrate?

With alarm in his heart, Lin Xuankong was about to ask the Strongest Immortal Lord Guang Yu'er beside him when Guang Yu'er exclaimed with admiration, saying: "Jade Bright Celestial Buddha truly has completed the Celestial Tribulation Body Refining, now she is transforming completely into a Glazed Celestial Buddha Body!"

Glazed Celestial Buddha Body?

Lin Xuankong showed a hint of perplexity in his eyes.

The Qilin Race Elder Clan Leader beside him held a look of excitement, his voice trembling as he spoke:

"Since the Immortal Realm's heavenly materials and earthly treasures were nearly consumed by cultivators, for over forty thousand years, no Strongest Immortal Lord-level powerhouse has crossed the celestial tribulation and ascended to the Upper Realm! Now Great Success Jade Bright Bodhisattva has relied on the Eighth-Grade Immortal Artifact from Immortal Lin to reopen the Celestial Road, achieving the Glazed Celestial Buddha Body—this sight, this event, will undoubtedly be recorded in the annals of

various immortal sects and clans. I am fortunate indeed to personally partake in this monumental event that will affect the Immortal Realm for countless years ahead! I am truly fortunate, so very fortunate!"

The Little Bodhisattvas of the Spirit Platform Buddhism standing behind Lin Xuankong and other powerhouses were gazing reverently at the Jade Bright Celestial Buddha who was metamorphosing in the distant sky, then they knelt down in reverence, incessantly reciting Buddhist scripture, although their voices were filled with excitement and joy! That originally monotonous and repetitive chanting became jubilant in tone!

The junior geniuses from various immortal sects and clans looked at the Jade Bright Celestial Buddha who was transforming, each one showing expressions of reverence and envy.

To forcefully cross the celestial tribulation and achieve the Glazed Buddha Body, akin to attaining the Celestial Immortal Body upon overcoming the celestial tribulation, is the lifelong pursuit of every cultivator! Now Great Success Jade Bright Bodhisattva has crossed the fatal Five Elements Extermination Tribulation before them, achieving the legendary Glazed Celestial Buddha Body—how could they not feel envious and excited!

At this moment,

Under the gaze of the multitudes, the physical body of Great Success Jade Bright Bodhisattva, originally a Bodhisattva Gold Body, had entirely shed away, leaving only the immensely powerful divine soul hovering between real and unreal,

Then, a spot of radiant Buddhist light flickered at the forehead of her divine soul, followed by countless rays emerging, making the surrounding thousands of miles bright beyond compare!

This Buddha's Light was so dazzling that as it shone upon the crowd, whether it was the Qilin Race Elder Clan Leader, the Strongest Immortal Lord Guang Yu'er, or those younger geniuses from various sects and clans including Lin Xuankong—all felt their sight temporarily lost in the brightness!

When the crowd circulated Immortal Yuan to their eyes and restored vision, looking again at the position of Great Success Jade Bright Bodhisattva, their expressions involuntarily lit up.

Where Great Success Jade Bright Bodhisattva had originally stood, now a semi-transparent Buddha Body flashing with radiant seven-colored glazed light, towering ten thousand metres high, had appeared. The divine visage of Jade Bright Celestial Buddha at the Buddha's head remained unchanged, but now bore an extremely different temperament, imbued with a solemn dignity mixed with a deep compassion that instantly calmed emotions. The opening and closing of the Buddha's eyes emitted a brilliant light, as dazzling as the Star River, giving one a glimpse of Jade Bright Celestial Buddha's endless wisdom and Buddha Nature at a glance!

Moreover, although Jade Bright Celestial Buddha remained still and silent, she invoked a profound urge to worship within every cultivator present within the Luo Water Array, as if merely worshiping this Celestial Buddha would bring clarity and freedom from worldly troubles!

This was clearly not Jade Bright Celestial Buddha employing some potent and mysterious Buddhist technique, but rather the sheer authority of having truly acquired the Glazed Buddha Body following metamorphosis, signifying Jade Bright Celestial Buddha was no longer a creature of the Golden Dragon Immortal Realm, but a powerful being of the Upper Realm Supreme Origin Realm. Such a mighty being naturally exerted an overwhelming awe upon any living being of the Lower Realm!

Chapter 1163: Celestial Sword (Part 2)

In an instant,

aside from the Little Bodhisattvas of the Spirit Platform Buddhism who had long since knelt down and were chanting Buddhist scriptures,

all the Earth Immortals, cultivators, and disciples of the Wine Immortal Sect, as well as the young geniuses from various immortal sects and clans, without exception, all knelt down in excitement and reverence in the direction of the Jade Bright Celestial Buddha.

These young talents from various immortal sects and clans were all highly gifted, proud, and were hailed as the future hope of their respective clans and sects, yet in front of the Yu Ming Tian Buddha who had metamorphosed into a Glazed Buddha Body, none of them could summon an ounce of pride. Each person, in the face of this powerful and pure Glazed Celestial Buddha, felt an immense sense of disparity alongside an overwhelming sense of awe and oppression!

Among them, only the Qilin Race Elder Clan Leader, Lin Xuankong, and the strongest Immortal Lord Guang Yu'er, who had entered the Strongest Immortal Lord Realm, could barely restrain their inner impulses and maintain standing, without directly kneeling.

Besides these three,

even on the side of the Profound Yin Demon Sect, countless demons and demon generals knelt down!

This time, the First Demon Lord Fan Yu brought many demon heads and generals, numbering in the millions, and each one was a powerful entity. However, in front of the Jade Bright Celestial Buddha, who had completed the metamorphosis, these always ruthless demon sect monsters could not withstand the intimidation coming from the Yu Ming Tian Buddha!

When the demon heads and demon generals of the Profound Yin Demon Sect knelt, it was different from the cultivators in the Luo Water Array,

The cultivators within the Luo Water Array, whether from the Immortal Realm Human Race, Unbounded Mountain Demon Race, or Spirit Platform Buddhism, all had faces full of excitement, devotion, and reverence. But the millions of demon heads and demon generals of the Profound Yin Demon Sect, when kneeling, were trembling with fear, with demonic qi spilling out!

The appearances of these powerful demon heads and generals were just like little mice encountering an irresistible predator, a large cat...

Only the nineteen demon lord-level powerhouses of the Profound Yin Demon Sect could still stand, but unlike Lin Xuankong, the Qilin Race Elder Clan Leader, and the strongest Immortal Lord Guang Yu'er, these powerful demon lords were forcibly controlling their demon bodies, resisting the urge to kneel, with each demon lord's face showing a trace of fear, and their vertical pupils shrinking to the size of a needle point!

After all, that was a Celestial Buddha, a true Celestial Buddha, possessing the true power of the Upper Realm!

For each demon lord of the Profound Yin Demon Sect, the current Yu Ming Tian Buddha was an existence akin to a nightmare!

However, what kept these demon lords of the Profound Yin Demon Sect from fleeing outright was the knowledge that, although the powerful Yu Ming Tian Buddha was unrivaled, possessing the Celestial Buddha Power beyond their resistance, this Buddha was a being of the Upper Realm, no longer accommodated by the Golden Dragon Immortal World—the Yu Ming Tian Buddha would certainly be swiftly rejected by this world!

At this moment, far away in the Luo Water Array, Lin Xuankong, feeling the formidable intimidation of the Great Success Yu Ming Tian Buddha, looked at the millions of demons and demon generals of the Profound Yin Demon Sect kneeling on the ground, and at the demon lords whose faces were full of fear, feeling some sentiment in his heart.

Of course, his various trump cards were exceptionally powerful, especially various talents and powerful immortal artifacts; otherwise, the Great Success Jade Bright Bodhisattva might not have been able to weather the Five Elements Extermination Tribulation. But on the other hand, the power possessed by the Yu Ming Tian Buddha after achieving the Glazed Buddha Body, was certainly beyond what his Lower Realm-being self could compare with!

Just floating in mid-air, it could make millions of powerful demon heads and generals kneel on the ground, making those demon lords who were renowned for hundreds of thousands of years fear as if they were tigers. Such majesty, such momentum, truly inspiring reverence! Furthermore, now that the Yu Ming Tian Buddha has metamorphosed into a Glazed Buddha Body, possessing various Buddhist techniques and power that are probably beyond what I can currently imagine!

This level of power, this kind of prestige, one wonders how long it would take to achieve such... hopefully not too long!

Moreover, if the weakest beings in the Supreme Origin Realm are such powerful Celestial Buddhas, Celestial Immortals, and Celestial Demons, what kind of world would that be, how fantastical, how spectacular!

Thinking of this, the desire to elevate his cultivation to the Late Stage of the Strongest Immortal Lord Realm as soon as possible, and to cultivate more powerful immortal techniques and Buddhist teachings, became ever more fervent within Lin Xuankong's heart.

Lin Xuankong at this moment had a yearning towards achieving Celestial Buddha status,

while those demon lords of the Profound Yin Demon Sect, who were barely holding on, became increasingly unable to endure, including that very First Demon Lord, who began to tremble slightly.

However,

just as these demon lords predicted,

the Yu Ming Tian Buddha, having completed the metamorphosis into a Glazed Buddha Body, suddenly flew upwards after only three breaths of time, and every cultivator present could clearly feel an invisible and irresistible force pushing the Yu Ming Tian Buddha towards the depths of the vast sky, as if to expel the Great Success Yu Ming Tian Buddha from this world!

Moreover, numerous cultivators could clearly see that the surface of the Yu Ming Tian Buddha's Glazed Buddha Body was swiftly covered by a faint layer of light membrane, which seemed to be a barrier between the Golden Dragon Immortal World and her!

Seeing this scene,

the Ten Thousand Forms Demon Lord of the Profound Yin Demon Sect, whose body had been constantly trembling, sighed heavily,

"At last, this Yu Ming is to be expelled by the world power of the Golden Dragon Immortal World, to the Supreme Origin Realm where she belongs! Tsk tsk, if Yu Ming stayed around here any longer, I fear my demonic qi, condensed over hundreds of thousands of years, would be dispelled by the Celestial Buddha wave she emits!

Fortunately, when the Golden Dragon Immortal World expelled Yu Ming, it formed a membrane on her body surface, preventing her from utilizing any power of the Golden Dragon Immortal World at this moment, nor can she channel her Buddhist techniques through that world membrane to attack us!

Otherwise, if Yu Ming intended to deal with us before ascending to the Supreme Origin Realm, I'm afraid more than half of my fellow disciples present would directly fall! Tsk tsk, she indeed possesses the full power of a Celestial Buddha, not just a trickle of the Celestial Monarch's Power!"

At this moment, while speaking, this Ten Thousand Forms Demon Lord no longer dared to refer to the Yu Ming Tian Buddha as a bald donkey,

knowing that until now, these demon lords of the Profound Yin Demon Sect would always rudely refer to the Great Success Jade Bright Bodhisattva with such derogatory terms. But now, they could only call the Yu Ming Tian Buddha by name, and even their tone of speech had lost its previous insulting, contemptuous demeanor!

The other demon lords of the Profound Yin Demon Sect, upon witnessing this, also felt relieved,

so much so that the First Demon Lord Fan Yu, the most powerful among them, couldn't help but take a few heavy breaths, like a drowning person finally surfacing, needing to gulp a few breaths!

However,

just at this moment,

a brightness suddenly flickered beside the Yu Ming Tian Buddha,

causing the faces of many demon lords of the Profound Yin Demon Sect to change subtly. Upon looking carefully, they found that the brightness was the Eighth-Grade Immortal Artifact that accompanied the Yu Ming Tian Buddha through the Five Elements Extermination Tribulation!

Yet now, this Eighth-Grade Immortal Artifact, which Lin Xuankong had gifted to the Yu Ming Tian Buddha, had already together with the Yu Ming Tian Buddha, after overcoming the Five Elements Extermination Tribulation, received source power emitted from the Supreme Origin Realm during the celestial tribulation, completing its metamorphosis, and directly transformed into a 'Celestial Artifact' with even greater destructive power!

"Damn it! I thought Yu Ming couldn't possibly pass the Five Elements Extermination Tribulation, which nearly made me forget that the Immortal Artifact beside her would transform during the celestial tribulation to become a Celestial Treasure! Danger, fellow disciples, be careful!"

The First Demon Lord Fan Yu's expression suddenly changed, and he shouted urgently.

Chapter 1164: The Elegance of That Sword

Hearing the cry of the First Demon Lord Fan Yu,

every Demon Lord, Demon, and Demon General of the Profound Yin Demon Sect present changed their expressions drastically, as if they had thought of something extremely terrifying!

However, those Demons and Demon Generals of the Profound Yin Demon Sect who were kneeling on the ground, at this moment, with all their demonic qi suppressed by the powerful aura of the Jade Bright Celestial Buddha, were as immobilized as stones, unable to react at all.

So these Demon Lords and lower-tier Demons and Demon Generals, even those at the Ninth Grade Perfection Level, who had undergone the transformation from the Demon Child Gang Bone and Celestial Demon Power, could not move and could only show expressions of despair!

Around the First Demon Lord Fan Yu,

the Demon Lords with highly concentrated demonic qi,

whether it was the Ten Thousand Forms Demon Lord or the Soul Shifting Demon Lord, reacted immediately, shouted out loud, and retreated rapidly with faces full of fear!

These Demon Lords, all carrying powerful demon artifacts, and even if not all were Third Grade, nearly all of them carried Second Grade demon artifacts, and at this moment, they fully activated their demon artifacts and escape techniques, fleeing with incredible speed, each turning into a black line, shooting thousands of miles away in an instant!

Moreover, each Demon Lord chose a different direction, fleeing rapidly towards the north, south, east, and west!

Among them, over ten veteran Demon Lords, such as the Ten Thousand Forms Demon Lord, the Soul Shifting Demon Lord, and the First Demon Lord Fan Yu, directly activated highly bizarre and self-harming

special demon techniques, their bodies alight with black demon flames, and while flying quickly, their speed was more than twice as fast as other Demon Lords!

In the distance,

within the Luo Water Array,

the Qilin Race Elder Clan Leader, the Strongest Immortal Lord Guang Yu'er, and Lin Xuankong saw this scene, and their expressions all changed, seemingly realizing something.

The Strongest Immortal Lord Guang Yu'er even had her eyes light up, a hint of excitement appearing on her face, and she exclaimed with exuberance:

"The Jade Bright Celestial Buddha has completed the Metamorphosis of the Glazed Body, and has begun to be repelled by the Power of the World from the Golden Dragon Immortal Realm, and the Eighth-Grade Immortal Artifact given by Profound Void has evidently undergone a metamorphosis under the Celestial Tribulation, becoming a powerful Celestial Sword!

Normally, influenced by the Power of the World from the Golden Dragon Immortal Realm, the Jade Bright Celestial Buddha would be unable to launch an attack on any being in the Golden Dragon Immortal Realm with her own Buddhist Techniques and Celestial Buddha Power,

but even though the Jade Bright Celestial Buddha cannot use Celestial Buddha Power to launch Buddhist technique attacks, she can still use her Divine Soul to wield the Celestial Sword!

At this moment, the Celestial Sword flickers with light, clearly about to be activated,

these sly Demon Lords of the Profound Yin Demon Sect scattered in all directions as soon as they saw the Celestial Sword light up. Goodness, over ten Demon Lords also activated the Blood Burning Demon Technique, said to be the strongest escape technique of the Profound Yin Demon Sect!

Yet now the one ready to act is the Jade Buddha Lord, using the transformed Celestial Sword, no matter how fast they run, they are unlikely to avoid getting stabbed, right?

Ha ha ha, today we witness not only the legendary deathly Celestial Tribulation, Five Elements Extermination Tribulation, but also the Jade Bright Celestial Buddha completing the Five Elements Extermination Tribulation to achieve the Celestial Buddha Glazed Body, and even witness first-hand the power of a Celestial Buddha-level strong one in action. Today's spectacle is truly amazing!"

The Strongest Immortal Lord Guang Yu'er's reaction was like a child seeing magic tricks, quite amusing indeed! It's no wonder she was so excited, as witnessing such scenes today is undoubtedly a once-in-a-lifetime experience for cultivators of the Golden Dragon Immortal Realm!

Lin Xuankong, hearing this, also couldn't help but cheer up, looking deep into the distant sky where the Jade Bright Celestial Buddha was situated,

at this moment, the Jade Bright Celestial Buddha was being swiftly repelled to a distance of hundreds of thousands of feet deep in the sky due to the influence of the Power of the World from the Golden Dragon Immortal Realm, and if not for the giant figure of the Jade Bright Celestial Buddha and her brilliant Buddha's Light, most cultivators would likely find it difficult to see her!

Moreover, in that deeply distant sky, a huge rift pulsating with countless lights had already split open, emitting fluctuations that, even at a distance of hundreds of thousands of feet, still made Lin Xuankong's heart race. This was evidently the spacetime passage connecting the Supreme Origin Realm and the Golden Dragon Immortal Realm, successfully opened after overcoming the Celestial Tribulation!

At this moment, with the flying speed of the Jade Bright Celestial Buddha, she would be sucked into that massive spacetime passage in at most one-tenth of a breath's time, after which she would no longer exert any influence on the Golden Dragon Immortal Realm. This means that the Jade Bright Celestial Buddha, even though she can use her mighty Divine Soul to activate the 'Celestial Sword,' would only have one-tenth of a breath's time!

And the nineteen formidable Demon Lords of the Profound Yin Demon Sect, relying on their powerful demon techniques and escape techniques, had long since scattered in different directions, each several thousand miles apart!

With such extreme dispersion, and those fleeing being powerful Perfection Level Demon Lords of the Profound Yin Demon Sect, even if Lin Xuankong acted with all his might, he could not catch and attack each Demon Lord!

But the one about to act is a Celestial Buddha, the truly become Celestial Buddha, the Jade Bright!

I wonder what the scene will be like when a Celestial Buddha acts, and how powerful it will be?

Lin Xuankong's eyes showed a hint of expectation, and his hand couldn't help but grip slightly with excitement.

At this moment,

at the location of the Jade Bright Celestial Buddha in the extremely deep sky, the light of the Celestial Sword finally moved!

Chapter 1165: The Charm of That Sword (Part 2)

In this instant,

when the Celestial Sword shot out from Yu Ming Celestial Buddha's position,

Lin Xuankong felt as if the entire world's time had stopped!

Then, he saw that Celestial Sword, amidst the frozen heavens and earth, piercing through the hundreds of bowing demons and demon generals of the Profound Yin Demon Sect with an incredibly terrifying speed, transforming into a continuous shadow that penetrated every demon, every general!

Almost simultaneously, due to the speed forming the sword shadow, it left the area of millions of demons and generals, heading towards the nineteen demon lords of the Profound Yin Demon Sect!

Those nineteen demon lords had already fled thousands of miles in a brief moment, with distances nearly ten thousand miles between them, yet in the face of the dreadful sword shadow formed by that Celestial Sword, the vast distance seemed as close as next to them!

Lin Xuankong felt as if merely a fragment of a breath's time, possibly even less, was all it took for the sword's shadow to traverse the endless distance, piercing directly through the positions of those nineteen demon lords of the Profound Yin Demon Sect!

Neither the Ten Thousand Forms Demon Lord, who had conjured thirty thousand avatars in a critical situation,

nor the Soul Shifting Demon Lord, famed for his powerful divine soul abilities, now utilizing the Blood Burning Demon Technique,

nor the other dozen veteran demon lords who've roamed the Immortal Realm for hundreds of thousands of years,

could escape!

Even the first to flee, the most powerful and fastest among them, the First Demon Lord Fan Yu, did not escape; although he had fled eight thousand miles and maintained a terrifying speed, he was still penetrated by that sword shadow within a fragment of a breath!

In the next moment,

the sword shadow returned to the front of the Jade Buddha Lord,

after which this Eighth-Grade Immortal Artifact formed by the Heavenly Tribulation turned into the Celestial Sword along with Yu Ming Celestial Buddha and was repelled to the spatial passage by the world power of the Golden Dragon Immortal Realm, disappearing with a flash of light, as did the mighty huge body of the Jade Buddha Lord and the Heavenly Sword formed by the Eighth-Grade Immortal Artifact. The spatial passage, like a huge opening, vanished simultaneously, and the sky restored its peaceful azure!

Witnessing all this firsthand, Lin Xuankong's eyes had long shown a trace of excitement,

he withdrew his gaze from the sky, turning to look at the millions of demons and generals of the Profound Yin Demon Sect pierced by the sword shadow, and the nineteen demon lords who fled in different directions!

In the next instant,

the face of every demon, general, and demon lord of the Profound Yin Demon Sect revealed a look of absolute despair, this profound despair even deeper than when the Celestial Eye Demon Lord was about to fall in the Celestial Tribulation!

Immediately,

the bodies of every demon, general, and every demon lord of the Profound Yin Demon Sect began trembling violently,

the demonic qi they had condensed over countless years dispersed around them, and their faces, bodies, and demon armor quickly developed cracks, within which bright golden Buddha's light continually emerged!

With the appearance of these cracks, with the continuous flicker of these golden Buddha's light,

those close to millions, nearing ten million demons and generals, including the nineteen formidable demon lords of the Profound Yin Demon Sect, and even the First Demon Lord Fan Yu, renowned for surviving multiple Celestial Demon Tribulations, exploded into countless fragments, utterly and thoroughly shattered into tiny, tiny pieces...

This scene was incredibly shocking,

yet no explosive sound accompanied the blast,

the demons, generals, and demon lords seemed to have their vitality completely extinguished before death, so not even a single scream was uttered!

However,

every cultivator who witnessed this scene firsthand, including Lin Xuankong, were frozen in place, stunned by the terrifying finality before their eyes!

Whether it was Earth Immortal cultivators from the Wine Immortal Sect, or the young talents from various immortal sects and clans, or powerful figures like the Qilin Race Elder Clan Leader and the Strongest Immortal Lord Guang Yu'er, all were left speechless!

The majority of them had seen records in their respective sects' annals about Earth Immortals transcending celestial tribulations to ascend to Celestial Immortals, as well as records of demon lords surpassing Celestial Demon Tribulations to become Celestial Demons, or Great Demon Kings overcoming Celestial Demon Tribulations to become Celestial Demons, but none of them had ever seen the scene of Celestial Demons, Celestial Demons, or Celestial Buddhas taking action in any annals!

This time,

they witnessed it!

Thus, even after ten breaths had passed, most of the Earth Immortals and cultivators remained in complete shock, knowing only to stand blankly in place!

After a while,

Lin Xuankong's nearby Cyan-forehead Qilin shouted,

"Oh my, oh my, my Qilin Ancestor! Is this the power of a Celestial Buddha-level powerhouse? This is incredibly powerful!"

Those were millions, close to ten million demons and generals, among whom there were even Ninth-Grade Demon Artifact-level generals, whose strength surpassed the average Ninth-Grade Earth Immortal by a significant margin! Yet, in merely a fraction, no, possibly a thousandth of a breath's time, these millions, close to ten million demons and generals were gone, wiped away by a single sword!

Among these millions and nearly ten million demons and generals, not one managed to utter a wretch before dying!

This Celestial Buddha-level powerhouse is beyond powerful!"

Hearing the Cyan-forehead Qilin's shout, many cultivators, Earth Immortals, and young talents from various sects and clans seemed to snap awake.

Immediately,

The buzzing discussions resounded throughout the entire First Spirit Peak of the Wine Immortal Sect!

"Truly terrifyingly powerful! I used to fantasize about the scene where Celestial Buddha, Celestial Demon, or Celestial Immortal, Celestial Demon-level powerhouses would make a move, as although sect annals mention scenes of Earth Immortals ascending to Celestial Immortals, they never describe scenes of Celestial Buddha-level Celestial Immortal-level powerhouses taking action, so such events were left to imagination! But even in my wildest imagination, I never thought the strength of Celestial Immortal-level Celestial Buddha-realm powerhouses would be this terrifying!

Wasn't this force composed of nearly a third of the Profound Yin Demon Sect's powerhouses? If not for Immortal Lin's Hundredfold Luo Water Array protection, us here wouldn't last more than a few hours of resistance before being slaughtered!

Yet this overwhelming force that could topple half of the Immortal Realm, such a terrifying number of Profound Yin Demon Sect powerhouses, was entirely swept away by a single sword, by a Celestial Buddha, in merely a fraction, possibly a thousandth of a breath's time!

With this strength, it could flatten the entire Golden Dragon Immortal Realm in less than a breath's time!"

"More than that! More than just all those millions and nearly ten million powerful demons and generals were wiped out, that entire nineteen demon lords were gone too!

Those included the full nineteen renowned veteran demon lords of the Profound Yin Demon Sect, including the First Demon Lord Fan Yu himself! Such veteran demon lords, hailed as the long-lived, boasting strong life force, any single one of them, placed before a Ninth-Grade Earth Immortal like me, may let me attack for months or years without necessarily getting hurt!

Yet, such a large number, such powerful nineteen demon lords of the Profound Yin Demon Sect, are all gone, not even taking a moment, not even having time to blink!"

"No wonder everyone in the Golden Dragon Immortal Realm is pursuing becoming a Celestial Buddha, Celestial Immortal, Celestial Demon, Celestial Demon! Such strength, such terrifying attack, who wouldn't want to possess it!"

"The might of the Celestial Buddha, truly enough to overturn a world!

I initially thought I'd be satisfied if one day I became a Strongest Immortal Lord-level powerhouse with a long lifespan!

But today, having seen Yu Ming Celestial Buddha take action... tsk tsk, a Strongest Immortal Lord-level powerhouse, considered the pinnacle in our Golden Dragon Immortal Realm, is nothing before a Celestial Buddha-level powerhouse; not even mentioning a single Strongest Immortal Lord, perhaps all Strongest Immortal Lord-level powerhouses in the Golden Dragon Immortal Realm altogether wouldn't suffice against a single move from a Celestial Buddha-realm powerhouse!"

Numerous cultivators, Earth Immortals, young talents from various sects and clans, at this moment excitedly calling out and discussing loudly, seemingly only by doing so could they express the shock in their hearts!

Chapter 1166 - First Hero of the Immortal Realm

Atop the First Spirit Peak of the entire Wine Immortal Sect,

there were countless cultivators and Earth Immortals, all teeming with excitement and fervor!

Even those Little Bodhisattvas of Spirit Platform Buddhism practicing Buddhist techniques, their faces flushed with excitement, were endlessly discussing with their fellow Little Bodhisattvas. Even Little Bodhisattva Galin was similarly agitated!

Even the usually dignified Elder Clan Leader of the Qilin Race couldn't suppress his excitement, muttering to himself non-stop.

In the crowd,

the Strongest Immortal Lord Guang Yu'er was equally excited, her face a little flushed.

However, her face soon showed a hint of doubt, and she looked at Lin Xuankong, who seemed to be pondering something, and asked:

"Hmm, you seem a bit off!

The Great Success Jade Bright Bodhisattva has achieved the position of Celestial Buddha and swept away millions of demons with one strike, lifting the siege crisis on the Wine Immortal Sect!

Everyone is so excited now, why are you so quiet, lost in thought? You're not heartbroken over your Eighth-Grade Immortal Artifact, are you? Xuankong, your artifact refining path is so formidable; since you can create an Eighth-Grade Immortal Artifact, there will be future opportunities to refine another Eighth-Grade Immortal Artifact, or even a stronger Ninth-Grade Immortal Artifact. Why be so crestfallen over losing one Eighth-Grade Immortal Artifact?"

Lin Xuankong, hearing her words, couldn't help but laugh and shook his head, raising his hand to pat the Strongest Immortal Lord Guang Yu'er's head.

"What nonsense! How could I be crestfallen over that Eighth-Grade Immortal Artifact? Since I gave it to the Great Success Jade Bright Bodhisattva, I was already prepared for the metamorphosis to occur after crossing the tribulation!

I'm just because.... "

Saying this, Lin Xuankong restrained his smile and looked towards where Yu Ming Heavenly Buddha left this world.

"I'm just reflecting, having seen Yu Ming Heavenly Buddha's actions. According to my previous understanding, strong beings at the Strongest Immortal Lord Level, Demon Lord Level, and Great Success Bodhisattva Level were already extremely powerful, nearly achieving an undying body. Except for the fearsome celestial tribulations which could cause some Strongest Immortal Lords, Demon Lords, and Great Success Bodhisattvas to fall, almost nobody could completely kill a strong being at the Strongest Immortal Lord Level or Demon Lord Level!

Yet in front of Yu Ming Heavenly Buddha, those nineteen Demon Lords, including the First Demon Lord Fan Yu, who had cultivated for a million years, were unable to offer any resistance against the formidable attack by Yu Ming Heavenly Buddha! The strength of Celestial Buddha Level, Celestial Immortal Level, and Celestial Demon Level strong beings is indeed terrifying, which was beyond my expectations!"

Lin Xuankong's words were true; he indeed felt immense pressure and dread upon witnessing Yu Ming Heavenly Buddha's actions!

Now, he's already a strong being at the Initial Stage of the Strongest Immortal Lord, and considering his various trump cards and formidable talents, he feels confident he could defeat the First Hero of the Immortal Realm, the Sect Leader of the Divine Dynasty Immortal Sect, or the First Demon Lord Fan Yu!

But defeating is one thing; he wouldn't be able to instantly eradicate dozen of Demon Lords, not even completely obliterate any one Demon Lord easily. After all, Demon Lords possess such mighty life forces; his previous actions of detonating the Grand Array Spirit only severely injured one Thirty-Six Tribulation Demon Lords under numerous talent amplifications!

It can be said,

that aside from the Yu Ming Heavenly Buddha, who had just ascended to the Supreme Origin Realm, Lin Xuankong considers himself nearly invincible in this world!

However, precisely because of Yu Ming Heavenly Buddha's appearance, Lin Xuankong now understands what it means to be a strong being of the Upper Realm... The elegance of Yu Ming Heavenly Buddha's sword is simply irresistible! Lin Xuankong predicts the only chance he has to survive such terrifying attacks would be relying on his miraculous talent to instantly move to distant places, otherwise no defensive means would work; he'd definitely perish without even a chance to 'scream'!

The most crucial part is,

Yu Ming Heavenly Buddha's sword attack was launched under the suppression of the Golden Dragon Immortal Realm's world power,

if there wasn't such suppression, Lin Xuankong couldn't fathom what it would be like if Yu Ming Heavenly Buddha struck at full power. Perhaps even those demons, demon generals, and demon lords in the Spiritual Crane Immortal Sect might be dealt with by Yu Ming Heavenly Buddha!

Such a mighty strength, such overwhelming power, how could Lin Xuankong not yearn for it!

Right now, his mind is ablaze, wishing he could retreat to his residence, enter seclusion for cultivation, and soon advance to the Late Stage of the Strongest Immortal Lord, enhancing all aspects of his power to cross the ultimate celestial tribulation, and possess such incredible power!

"Ah, so Xuankong, you also have unexpected matters!

I thought you were the kind of guy that only caused surprises for others, always the calmest of them all!"

Strongest Immortal Lord Guang Yu'er laughed.

Then she waved her little hand, earnestly saying:

"Since Yu Ming Heavenly Buddha has already metamorphosed into a true Celestial Buddha, the mighty power he possesses is naturally incomparable to and unfathomable by us beings of the Golden Dragon Immortal Realm! But Xuankong, you shouldn't be too envious; with your current Fourth-Grade Earth

Immortal Realm, it might take hundreds, even thousands of years before you have the chance to cultivate to the Strongest Immortal Lord Realm! After all, for strong beings in the Earth Immortal Realm, the later stages are more difficult for tier advancement! So, desiring to cross the ultimate celestial tribulation and ascend to the Upper Realm, one mustn't be too hasty, it's better to remain calm!"

Chapter 1167 First Hero of the Immortal Realm (Part 2)

Lin Xuankong was left speechless upon hearing this.

Fourth-Grade Earth Immortal Realm... My dearest strongest Immortal Lord, I am no longer one! It's just that my brother prefers to be low-key!

At this moment,

Little Bodhisattva Galin, not far from Lin Xuankong, suddenly walked over with a group of talented little Bodhisattvas from the Spirit Platform Buddhism Sect.

After the many little Bodhisattvas settled beside Lin Xuankong, Little Bodhisattva Galin was the first to greet Lin Xuankong with clasped hands, solemnly saying:

"Jade Bright Celestial Buddha has successfully transcended the Five Elements Extermination Tribulation and ascended to the Upper Realm, even completely eliminating millions of demons, demon generals, and demon lords of the Profound Yin Demon Sect. This is the greatest fortune for Spirit Platform Buddhism Sect in hundreds of thousands of years, and an immense blessing for the entire Immortal Realm Human Race! If not for Immortal Lin's gift of that invaluable Eighth-Grade Immortal Artifact, which had not appeared for millions of years, to Great Success Jade Bright Bodhisattva, I'm afraid Grandmaster Yu Ming would have perished in the Five Elements Extermination Tribulation, let alone sweep through millions of evil demons!

Galin and my fellow disciples of the Spirit Platform Buddhism Sect are here to thank Immortal Lin!

It can be said that Immortal Lin's gift of the Eighth-Grade Immortal Artifact to Jade Bright Celestial Buddha is an immense grace for Spirit Platform Buddhism Sect and for the entire Immortal Realm Human Race!

Immortal Lin, in the future, no matter what requests you make, as long as Spirit Platform Buddhism Sect can fulfill them, I believe Grandmaster Yu Zhen Bodhisattva and countless past sages and fellow disciples will spare no effort to heed Immortal Lin's commands!"

After Little Bodhisattva Galin finished speaking, the thousands of talented little Bodhisattvas from the Spirit Platform Buddhism Sect behind her all clasped their hands in salute and said in unison, "Thank you, Immortal Lin!"

The voices of the Spirit Platform Buddhism Sect's little Bodhisattvas resounded loudly, echoing to every corner of the First Spirit Peak of the Wine Immortal Sect, immediately drawing the attention of all present cultivators!

Upon hearing about the Eighth-Grade Immortal Artifact,

those Earth Immortals from the Wine Immortal Sect and talented juniors from various sects and clans, who were originally extremely excited, immediately quieted down and looked towards Lin Xuankong.

Standing at the forefront of many talented juniors from various sects and clans, the Cyan-forehead Qilin suddenly blinked its large eyes and began to speak, "Immortal Lin's generous act of gifting an Immortal Artifact has indeed saved Great Success Jade Bright Bodhisattva, and every cultivator present. It will further bring earth-shattering changes to the entire Immortal Realm Human Race. This kind of grace, my Qilin Race is endlessly grateful for!"

Even before the Cyan-forehead Qilin finished speaking,

the tens of thousands of talented juniors and Earth Immortals from the Wine Immortal Sect present reacted, and then they each began to shout,

"Little Bodhisattva Galin and Immortal Cyan Forehead speak truly. If not for Immortal Lin's gift of the Eighth-Grade Immortal Artifact, Great Success Jade Bright Bodhisattva might have struggled to transcend the Five Elements Extermination Tribulation and attain the status of Celestial Buddha, let alone lift the siege on the Wine Immortal Sect! My Cyan Dragon Race, in gratitude to Immortal Lin, thanks him a million times!"

"The Black Tortoise Race, six thousand one hundred and twenty-eight clansmen, thank Immortal Lin! An Eighth-Grade Immortal Artifact is beyond valuable; even set in a time rife with heavenly materials and earthly treasures millions of years ago, it would still be considered a peerless treasure. Immortal Lin's generosity makes every clansman of my Black Tortoise Race endlessly grateful!"

"One hundred eighty-two disciples of the Ten Thousand Gu Immortal Sect thank Immortal Lin! It's said Immortal Lin is the strongest artifact refining master of a million years in the Immortal Realm. Now it seems, this title is rather inadequate, greatly inadequate. Immortal Lin is more than just the strongest artifact refining master among our Immortal Realm Human Race of a million years; there may never have existed such a powerful artifact refining master on the Path of Artifact Refining in tens of millions of years! This is truly unprecedented, and probably never to be seen again!"

"Two hundred thirty-two disciples of the Yin Yang Fiery Fire Sect thank Immortal Lin..."

"Seven thousand clansmen of the Fire Phoenix Race thank Immortal Lin..."

With the reminder of the Cyan-forehead Qilin, more than a hundred thousand cultivators from various Immortal Sects and clans present were looking at Lin Xuankong with extremely pious expressions. Their voices conveyed deep gratitude and excitement!

The Strongest Immortal Lord Guang Yu'er saw this and couldn't help but softly laugh:

"Xuankong, this time, you're not only going to be the first artifact refining master of the Immortal Realm, you might even become the first person among the Immortal Realm Human Race of all ages!"

The Profound Yin Demon Sect, who came here to the Wine Immortal Sect, was probably at least a third of the entire power of the Profound Yin Demon Sect, yet such a strong lineup, such a vast number of demons, demon generals, and demon lords, all perished!

As it stands, it's probably very difficult for the Profound Yin Demon Sect to reorganize such a scaled and powerful force!

Moreover, the talented juniors from various Immortal Sects and clans who have migrated to the Wine Immortal Sect have all turned danger into safety!

Most importantly, the Profound Yin Demon Sect has already lost a third of its power today alone, and with this, the pressure on our Immortal Realm Human Race has lessened greatly, and the chances of victory have increased significantly!

If this Immortal Demon War ends in the future, you might be recognized across the whole Immortal Realm as the first hero!"

After being thanked by everyone, upon hearing Guang Yu'er's words, Lin Xuankong first quieted everyone, then gently shook his head and said:

"There's no need for everyone to thank me like this. Those millions of demons, demon generals, demon lords were all cleared by Jade Bright Celestial Buddha. I merely provided an Eighth-Grade Immortal Artifact; it hardly deserves such great thanks from you all!"

Seeing Lin Xuankong say this, everyone present shook their heads and bowed again in salute. Everyone knew very well that if not for the generous gift of that Eighth-Grade Immortal Artifact by Lin Xuankong, Great Success Jade Bright Bodhisattva would likely have fallen in the Five Elements Extermination Tribulation, and none of the subsequent events would have been possible...

Nearly half an hour later,

the numerous cultivators, full of so many "thank you's," left the First Spirit Peak of the Wine Immortal Sect, allowing this incredibly noisy Spirit Peak to temporarily quiet down. Of course, after returning to their respective residences, these talented juniors from various Immortal Sects and clans couldn't wait to take out their Communication Jades to relay the major events of today and the great news of the fall of First Demon Lord Fan Yu and other demon lords to their elders!

At this point,

Little Bodhisattva Galin, left by Lin Xuankong on the First Spirit Peak, curiously looked around at the now empty Spirit Peak, clasped her hands in a gesture of respect, and said, "Immortal Lin, is there something you wish to instruct Galin?"

At this time, the Elder Clan Leader of the Qilin Race and others had already left, and only the Strongest Immortal Lord Guang Yu'er and Lin Xuankong remained on the Spirit Peak. The Strongest Immortal Lord Guang Yu'er was also curious and glanced at Lin Xuankong upon seeing him leaving Little Bodhisattva Galin behind.

Looking at Little Bodhisattva Galin before him, Lin Xuankong couldn't help but recall the scene of Great Success Jade Bright Bodhisattva exhibiting the Golden Body Demon Suppression Technique,

Currently, Lin Xuankong possessed a myriad of miraculous talents and a large collection of Immortal Artifacts and various trump cards, yet he lacked a technique that could significantly enhance his defensive capabilities! The Guangqing Illusion Technique, Guangqing Cold Extreme Skill, and others he previously cultivated were all disguise and attack-type Immortal Techniques. Although these techniques were among the top powerful Immortal Techniques in the Immortal Realm, they were inferior to the defensive Golden Body Demon Suppression Technique when facing Celestial Tribulations!

Of course, having already acquired a Ninth-Grade Immortal Artifact and numerous Eighth-Grade Immortal Artifacts, after witnessing Great Success Jade Bright Bodhisattva surviving the Five Elements Extermination Tribulation with just one Eighth-Grade Immortal Artifact, Lin Xuankong had great confidence in his future capacity to transcend the Celestial Tribulation!

However, through the process of Great Success Jade Bright Bodhisattva transcending the tribulation, Lin Xuankong learned from the Strongest Immortal Lord Guang Yu'er and the Elder Clan Leader of the Qilin Race that to refine one's Immortal Body to be even purer and more thorough during the final tribulations, it's actually best not to rely on various Immortal Artifacts and Spiritual Treasures!

Therefore, cultivating a few strong defensive techniques was naturally very necessary! And the Golden Body Demon Suppression Technique was clearly the most powerful among the defensive techniques Lin Xuankong had heard of!

Lin Xuankong's only concern was whether this Buddhist Golden Body Demon Suppression Technique required some special Wisdom Root for cultivation!

Though Little Bodhisattva Galin, Great Success Yu Zhen Bodhisattva, and others seemed to think Lin Xuankong possessed Wisdom Root, Lin Xuankong knew his own situation well. Of course, the reason Little Bodhisattva Galin believed he had Wisdom Root was actually due to him activating the Nine Gates Celestial Eye at that time...

Chapter 1168 Supreme Perfection Realm

Lin Xuankong was quite sure that,

although he was not a dullard, he certainly couldn't claim to be wholly pure of mind, much less a great sage of complete enlightenment!

Therefore,

at this moment, Lin Xuankong could only hope that,

this Golden Body Demon Suppression Technique of the Spirit Platform Buddhism wouldn't have such high requirements for so-called Buddha Nature and Wisdom Root!

After all, there were precedents, such as the special cultivation techniques practiced by Young Lady Li Xiaolan, Second Lady Zhao Yufei, and Third Lady Xiaoo Ying'Er, all of which had special requirements for bone structure and bloodline!

With some anxiety in his heart, Lin Xuankong looked at the curious little Bodhisattva Galin and asked:

"Galin Bodhisattva, I have specifically asked you to stay because I intend to ask for your help with something!"

Upon hearing this, little Bodhisattva Galin was somewhat flustered and waved her hands repeatedly, "Immortal Lin must not say such a thing. You can just instruct Galin if there's anything."

Lin Xuankong's Eighth-Grade Immortal Artifact assisted the Great Success Jade Bright Bodhisattva in becoming the Jade Bright Celestial Buddha, saving little Bodhisattva Galin's mentor from the brink of demise. Furthermore, it brought unparalleled honor to the Spirit Platform Buddhism, which had not seen a single Great Accomplishment Bodhisattva ascend to the Upper Realm in hundreds of thousands of years, and filled the many little Bodhisattvas of the Spirit Platform Buddhism with hope for the future! With such abundant grace, little Bodhisattva Galin now held Lin Xuankong in absolute reverence, genuinely admiring him exceedingly!

In such circumstances, how could little Bodhisattva Galin endure Lin Xuankong's courteous demeanor!

When Lin Xuankong saw little Bodhisattva Galin in this state, he couldn't help but recall the situation when he first encountered this outstanding disciple of the Great Success Yu Zhen Bodhisattva. At that time, little Bodhisattva Galin's status in the Spiritual Crane Immortal Sect and the Western Region of the Central Divine Dynasty was unrivaled. Yet, at that time, he himself was just a young lad from the remote countryside seeking immortality and seeking his path in the Western Region of the Central Divine Dynasty. Now, more than a decade later, times have changed, and the transformation has been too significant!

Back then, little Bodhisattva Galin, respected by the Sect Master of the Spiritual Crane Immortal Sect, the Elder of the Wine Immortal Sect Chi Liuxia, and other seniors, now seemed somewhat at a loss in his presence, much like a child facing a parent!

"Galin Bodhisattva, there is no need to be so formal with me. We have known each other for many years, so let's not be overly constrained. You don't need to keep addressing me as Immortal. Moreover, now that I'm asking Galin Bodhisattva for help, there's even less need for such formality!

As for the help I need from Galin Bodhisattva... I would like to inquire about the Golden Body Demon Suppression Technique!" Lin Xuankong said.

Little Bodhisattva Galin's expression paused, and she looked at Lin Xuankong with some surprise, "Golden Body Demon Suppression Technique? Immortal Lin, why do you suddenly ask about the Golden Body Demon Suppression Technique? Are you interested in this Body Refining Technique of my Spirit Platform Buddhism? This technique..."

Having said this, little Bodhisattva Galin fell silent.

A bad premonition arose in Lin Xuankong's heart, and he frowned, saying, "To be honest with Galin Bodhisattva, Xuankong is indeed interested in this Golden Body Demon Suppression Technique of your sect. If I could receive guidance and instruction from Galin Bodhisattva, that would be even better! But... does it mean that to cultivate this Golden Body Demon Suppression Technique, one must join the Spirit Platform Buddhism and become a little monk? Or perhaps, does cultivating this Golden Body Demon Suppression Technique require some special Wisdom Root, talent, or bloodline?"

Seeing Lin Xuankong frown, little Bodhisattva Galin quickly shook her head and said:

"Not at all!

Immortal Lin helped my mentor, the Great Success Yu Ming Bodhisattva, achieve the Celestial Buddha Fruit Position, indirectly saving countless geniuses of the Immortal Realm like those of the Wine Immortal Sect! Such immense grace, such immense merit, is almost unparalleled in the Immortal Realm. How could my Spirit Platform Buddhism be concerned with sectarian views, or require Immortal Lin to join the Spirit Platform Buddhism to teach this Golden Body Demon Suppression Technique?

Furthermore, this Golden Body Demon Suppression Technique requires no special conditions of Wisdom Root, talent, or bloodline. Not only can the many disciples of my Spirit Platform Buddhism cultivate it, but any cultivator who obtains this Golden Body Demon Suppression Technique can also cultivate it, with no obstacles in terms of bloodline or bone structure!"

Upon hearing this, Lin Xuankong couldn't help but raise an eyebrow, "That's strange, when I just mentioned the Golden Body Demon Suppression Technique, Galin Bodhisattva, your reaction..."

Little Bodhisattva Galin sighed lightly, then circulated Immortal Yuan through her body,

In the next moment,

a large number of Buddhist Secret Patterns suddenly appeared all over her body, and her whole body was illuminated with Buddha's Light, appearing upright and solemn, yet awe-inspiring!

Nearby, the Strongest Immortal Lord Guang Yu'er saw this and couldn't help but narrow her eyes and frown, saying, "This wave of energy from the technique... the technique Bodhisattva Galin is casting now is somewhat similar to the Golden Body Demon Suppression Technique that Yu Zhen Celestial Buddha exhibited before, only the sense of oppression seems somewhat lacking!"

Bodhisattva Galin nodded slightly, then retracted the technique and said, "Immortal Lord Guang's intuition is correct, Galin did just cast the Golden Body Demon Suppression Technique, only Immortal Lord Guang's words are too polite. The Golden Body Demon Suppression Technique I am exhibiting,

compared to the Golden Body Demon Suppression Technique of Jade Bright Celestial Buddha, the difference is more than just a slight difference in oppressive power!

The Golden Body Demon Suppression Technique I perform is barely at the Entry Level, forming only dozens of Golden Body Secret Patterns. However, the Golden Body Demon Suppression Technique used by Jade Bright Celestial Buddha during her tribulation has achieved Perfection Realm, she is the only Great Accomplishment Bodhisattva in my Spirit Platform Buddhism to have reached the Perfection Realm, with a hundred thousand Golden Body Secret Patterns!"

With that, Bodhisattva Galin looked at Lin Xuankong and continued:

"This Golden Body Demon Suppression Technique requires consuming a massive amount of Immortal Yuan to form extremely complex Buddhist Secret Patterns in every tiny spot of the body. Each pattern formed grants the strength of a First Level Buddhist Dragon Elephant Power, possessing great might, and it can form into a Golden Patterned Buddha Shield to resist all kinds of attacks!

Chapter 1169: The Realm of Perfection (2)

The more mystic patterns formed, the stronger they become. Ten thousand mystic patterns is considered entry-level, allowing the cultivator to harness the power of ten thousand Buddhist dragon-elephants. The strength with just a wave of the hand is terrifying, and the golden pattern Buddhist shield formed is even stronger. If one were to form a hundred thousand golden body mystic patterns like the Jade Bright Celestial Buddha, they would possess the power of a hundred thousand Buddhist dragon-elephants. The golden pattern Buddhist shield formed from the consumption of the physical body is nearly indestructible, unless it encounters a celestial tribulation like the Five Elements Extermination Tribulation, otherwise, within the Golden Dragon Immortal Realm, there is hardly any power capable of breaking the golden pattern Buddhist shield!

Previously, Immortal Lin and Immortal Lord Guang must have noticed that the red beam of light from the Celestial Eye Demon Lord was extremely formidable, yet it still couldn't shake the golden pattern Buddhist shield. If it weren't for the Celestial Eye Demon Lord's demon technique containing the power of the Upper Realm Celestial Demon, the golden pattern Buddhist shield of the Jade Bright Celestial Buddha would likely remain unharmed no matter how many years the Celestial Eye Demon Lord attacked!"

Hearing this, Lin Xuankong couldn't help but be moved, feeling even more tempted by this Buddhist divine skill.

Little Bodhisattva Galin continued:

"Unfortunately, because this Golden Body Demon Suppression Technique requires an immense amount of Immortal Yuan to cultivate, within our Spirit Platform Buddhism Sect, only the Jade Bright Celestial Buddha has cultivated this technique to the Perfection Realm!

Normally, as the most outstanding talent of our Golden Dragon Immortal Realm, Immortal Lin wouldn't need to worry about the issue of resources and consumption!

However, now that the Immortal-Demon War has just begun, although the Jade Bright Celestial Buddha has eradicated nearly a third of the demons and Demon Lords of the Profound Yin Demon Sect, currently, the overall power of the Profound Yin Demon Sect still holds a certain advantage over the Immortal Realm. This war sweeping across the entire Immortal Realm might last for hundreds or even thousands of years before it ends. Under such circumstances, it would be extremely difficult for Immortal Lin to smoothly obtain the vast resources needed!

Moreover, this Golden Body Demon Suppression Technique requires forming extremely complex Buddhist secret patterns in every tiny part of the body, which is a time-consuming process, requiring painstaking effort!

With Immortal Lin's extraordinary talent, why must you insist on cultivating such a technique?"

Lin Xuankong, hearing this, slightly shook his head,

The Immortal-Demon War... Judging by the strength displayed by First Demon Lord Fan Yu and other Demon Lords before, the Curse of Time certainly has its merits, as it can directly obliterate the lifespan of opponents with Celestial Demon power! However, as long as one is cautious and doesn't get directly hit by such Celestial Demon power, one should be able to deal with the remaining Demon Lords of the Profound Yin Demon Sect using numerous high-grade immortal artifacts, though perhaps not effortlessly, but at least preventing this Immortal-Demon War from lasting thousands or even tens of thousands of years!

As for the Golden Body Demon Suppression Technique requiring vast resources and massive Immortal Yuan....

Within this Golden Dragon Immortal Realm, based on what I know, there doesn't seem to be any human cultivator, or demon cultivator, or Profound Yin Demon Sect cultivator, possessing a Celestial Demon Bone stronger than my Tier Nine Celestial Demon Bone! Now, my Tier Nine Celestial Demon Bone has already expanded vastly, almost rivaling the entire Golden Dragon Immortal Realm. Second Lady Zhao Yufei has, over the past hundred-plus years, led countless humans to manage the entire Celestial Demon Secret Realm impressively!

Under such circumstances, if talking about who possesses ample resources within the Golden Dragon Immortal Realm... Even though I might not yet compare to the Divine Dynasty Immortal Sect, which has dominated the Immortal Realm for countless years, the difference isn't too significant! At least, cultivating a Golden Body Demon Suppression Technique shouldn't be a problem!

As for the painstaking effort mentioned by Little Bodhisattva Galin, that is only a minor issue,

However, I have now advanced the Luo Water Array, imparted by my master, Immortal Lord Luoshui, to the Second Layer Realm. As long as I wish, I can expend resources to activate time acceleration by a hundredfold!

By this calculation, cultivating this Golden Body Demon Suppression Technique might require painstaking effort, but it would be many times faster than that of other cultivators!

Tsk-tsk, the power of ten thousand Buddhist dragon-elephants, golden pattern Buddhist shield, nearly indestructible, if combined with all my talents, I wonder how strong it could be. If it can be cultivated to Perfection Realm, it would at the very least be many times stronger than the golden pattern Buddhist shield of the Great Success Jade Bright Bodhisattva!

If it can be cultivated, when facing the final celestial tribulation and encountering the Five Elements Extermination Tribulation, perhaps I could withstand six or seven rounds without relying on external aids, laying an extremely solid foundation for advancing into the Celestial Immortal Realm!

Thinking of this, Lin Xuankong looked at Bodhisattva Galin, and indeed said: "The path of cultivation is like sailing against the current, where can high-level cultivation techniques be easily achieved with ease and comfort? I do plan to cultivate this Golden Body Demon Suppression Technique, Bodhisattva Galin, what reward is needed for the transmission?"

Little Bodhisattva Galin, seeing Lin Xuankong so resolute, could only sigh, shaking his head: "If Immortal Lin truly intends to learn this Buddhist Technique, Galin is naturally willing to transmit the skill, no need to mention any rewards!"

After saying that, Little Bodhisattva Galin reached into the long sleeve of the Buddhist robe and took out a jade scroll, handing it to Lin Xuankong, "This jade scroll records one hundred and eight types of Buddhist techniques from our Spirit Platform Buddhism Sect, the Golden Body Demon Suppression Technique is also included."

Seeing this, Lin Xuankong no longer stood on ceremony, took the jade scroll, and activated his Immortal Yuan and divine soul to probe into the jade scroll.

A moment later,

Lin Xuankong handed the jade scroll back to Bodhisattva Galin with a smile, "If there are any difficulties in cultivating this Golden Body Demon Suppression Technique in the future, I might need to consult Bodhisattva Galin."

Little Bodhisattva Galin seemed to have thought of something and suddenly frowned,

"There's one more thing, I recall several years ago, when the Jade Bright Celestial Buddha was transmitting teachings, she mentioned that although our Spirit Platform Buddhism Sect's Golden Body Demon Suppression Technique is said to reach Perfection with ten thousand golden body mystic patterns, possessing immense power and extraordinary defense, according to Buddhist principles, the transformation within the mustard seed is infinite; ten thousand golden body mystic patterns are not the limit of this technique, but only the limit of an Earth Immortal!

The Jade Bright Celestial Buddha said that if one can cultivate the divine soul to the Supreme Realm of the Immortal Realm and match it with the Celestial Eye divine techniques, one could see the great world within the mustard seed, continuously enhancing the power of this Golden Body Demon Suppression Technique!

According to the Jade Bright Celestial Buddha at the time, the true Perfection and consummate realm of this Golden Body Demon Suppression Technique shouldn't just be ten thousand golden body mystic

patterns; it might be a million golden body mystic patterns, or even ten billion golden body mystic patterns. Its power size depends on the heart, depends on the divine soul!"

Next to them, the strongest Immortal Lord Guang Yu'er was a bit speechless upon hearing this,

"When the Jade Bright Celestial Buddha crossed the tribulation, the Golden Body Demon Suppression Technique with ten thousand golden body mystic patterns formed the golden pattern Buddhist shield, which was already able to resist the red beam of light from the Celestial Eye Demon Lord with Celestial Demon power. It was also able to withstand the fourth round attack, the Silver Thread Sword Tribulation, of the Legendary Level celestial tribulation, the Five Elements Extermination Tribulation!

If a million golden body mystic patterns, wouldn't the defensive ability of the golden pattern Buddhist shield at least increase tenfold? In that case, even without the eighth-grade immortal artifact gifted by Xuankong, withstanding the attacks of five or six rounds of the Five Elements Extermination Tribulation shouldn't be a problem!

If ten billion golden body mystic patterns.... Wouldn't it be perhaps many times stronger than the protection of an eighth-grade immortal artifact!

Isn't this Buddhist technique, if it really can achieve such, unfathomably strong.... Little Bodhisattva Galin must be joking!"

Little Bodhisattva Galin pressed her hands together and shook her head in response to Guang Yu'er:

"Galin only recounted what was said during the Jade Bright Celestial Buddha's teachings back then, but even after cultivating the Golden Body Demon Suppression Technique for over ten thousand years, the Jade Bright Celestial Buddha still reached only the limit of ten thousand mystic patterns, unable to progress further. As for the Supreme Divine Soul Realm, within the whole Immortal Realm, only the Sect Leader of the Divine Dynasty Immortal Sect from our Immortal Realm Human Race has achieved such a realm, only approaching the Supreme Divine Soul before the Jade Bright Celestial Buddha!

As for whether this Golden Body Demon Suppression Technique can achieve a million mystic patterns, or even a hundred million mystic patterns, Galin also does not know!"

Chapter 1170: The First Secret Pattern

Golden Body Demon Suppression Technique at the pinnacle of perfection! Ten billion golden body secret patterns!

There was a hint of fervor in Lin Xuankong's eyes.

Regarding the character of Great Success Jade Bright Bodhisattva, Lin Xuankong held a fair degree of affirmation,

at the very least, unfounded matters would never be casually spoken to the junior bodhisattvas of the Spirit Platform Buddhism by this Great Success Jade Bright Bodhisattva!

This implies that,

this Golden Body Demon Suppression Technique might truly be possible to achieve a million golden body secret patterns, ten million golden body secret patterns, or even ten billion, and even more secret patterns!

Even if it's impossible to achieve these,

the Golden Patterned Buddha Shield of the Golden Body Demon Suppression Technique still possesses extremely powerful defensive capabilities!

This cultivation technique is indispensable, it must be practiced!

Lin Xuankong thought to himself secretly.

...

Several days have passed in the blink of an eye.

During these days, on the First Spirit Peak of Wine Immortal Sect, a light film constantly shrouded the location of Lin Xuankong's cave mansion. This light membrane wasn't large, but it was identical to the complex array patterns on the surrounding Hundredfold Luo Water Array of Wine Immortal Sect, clearly a scaled-down Luo Water Array!

At this moment,

inside the grand array, within the cave mansion,

Lin Xuankong draws out his heart spirit from cultivation, a smile showing on his face.

Ever since obtaining the cultivation method of the Golden Body Demon Suppression Technique from Little Bodhisattva Galin, Lin Xuankong without hesitation set up a very small Second Layer Luo Water Array, and activated the function to accelerate time flow speed in this Luo Water Array to accelerate his cultivation progress of the Golden Body Demon Suppression Technique!

The reason for shrinking the range of the Second Layer Luo Water Array to only cover the scope of the cave mansion is naturally because the smaller the coverage, the lesser the resource consumption when activating the accelerated time flow function of the Luo Water Array!

Even though Lin Xuankong currently possesses vast resources, and has the Celestial Demon Secret Realm, comparable in size to the Golden Dragon Immortal Realm, as a backup, he still dare not waste resources recklessly, because the resource consumption for activating the accelerated time flow function of the Luo Water Array is indeed tremendous!

Even with such a small range, almost every breath in the real world consumes the Immortal Yuan equivalent to hundreds of Grade-Entering Profound Truth Jade stones, and an hour equates to over seven thousand breaths, so the consumption for a few days of the Luo Water Array shows just how much Immortal Yuan Lin Xuankong has spent!

However, these astonishing, even those large Immortal Sects could not bear the consumption, have indeed brought great benefits to Lin Xuankong, making it all worthwhile!

Because with six days passing, equivalent to six hundred days within the small Second Layer Luo Water Array, under the strong talent of the old and wise Lin Xuankong and the cultivation enhancement of over one hundred seventy times, finally he completed the first golden body secret pattern of the Golden Body Demon Suppression Technique, perfectly engraved into his flesh!

Though such an achievement merely signifies Lin Xuankong's initial step into the Golden Body Demon Suppression Technique, and still far from the level achieved by Little Bodhisattva Galin over thousands of years of cultivation, it's nevertheless progress!

For someone like Lin Xuankong, "old and wise," with the first step taken, the subsequent cultivation can only become faster! Because with the passage of time, the speed at which Lin Xuankong engraves flesh with Buddhist secret patterns will only quicken under his talent enhancement!

In excitement,

Lin Xuankong silently recites a Buddhist spell,

in the next instant, a myriad of Buddha's Light suddenly manifest on Lin Xuankong's body surface, along with an intricate and profound Buddhist secret pattern appearing on his body surface. At the same time, Lin Xuankong's supreme divine soul keenly senses, the physical strength of his immortal body has unexpectedly increased several folds!

It's worth noting that Lin Xuankong's current realm is undoubtedly the initial stage of the Strongest Immortal Lord, and his immortal body's physical strength, though not the very pinnacle of countless cultivators in the Immortal Realm, can still be regarded as top-tier. Yet, after cultivating the first Buddhist secret pattern of the Golden Body Demon Suppression Technique and acquiring the First Level of Buddhist Dragon Elephant Power, Lin Xuankong still feels his immortal body's physical strength increased several folds!

This implies, what Little Bodhisattva Galin said before, about the boundless power after cultivating the Golden Body Demon Suppression Technique, is not just empty talk,

this is merely with one Buddhist golden body secret pattern forged, if the number increases to several dozen, by then Lin Xuankong's physical strength of immortal body, even if it doesn't match that of the

Great Success Jade Bright Bodhisattva, can easily crush any Ninth-Grade Perfect Level Earth Immortal with raw physical power!

"This top-notch body refining technique of the Spirit Platform Buddhism is strong beyond measure!

However, the consumption is indeed excessive, even excluding the resource consumption for activating the accelerated time flow function of the Second Layer Luo Water Array, just engraving this one Buddhist secret pattern has already consumed thirty thousand Jade stones equivalent of Immortal Yuan! To cultivate this technique to the Great Success Jade Bright Bodhisattva's level, the Immortal Yuan consumption required is terrifyingly high, no wonder even the Spirit Platform Buddhism with power and foundation comparable to the Divine Dynasty Immortal Sect has only produced one great accomplishment Bodhisattva cultivating Golden Body Demon Suppression Technique to perfection realm!

It seems, besides the Spirit Platform Buddhism in this entire Golden Dragon Immortal Realm, only colossal beings like the Divine Dynasty Immortal Sect or the Profound Yin Demon Sect, or myself, could support a cultivator achieving perfection realm in Golden Body Demon Suppression Technique!"

In reflection, Lin Xuankong carefully senses the changes in his immortal body and the terrifying physical might.

Outside the cave mansion, suddenly came a fluctuation of Immortal Yuan, and a voice appears at the cave entrance, "If I wasn't even busier guiding those bright talents from Guangqing Immortal Sect in their cultivation, I'd want to stay forever in this Luo Water Array where time flows hundredfold faster. Cultivation here, one day equals a hundred days, the progress in cultivation technique and realm is flying fast!"
