Chapter 1241: Ascension

Thinking of that Immortal Lord Feiyun,

Lin Xuankong couldn't help but shake his head and chuckle again.

Before he killed the Demon Child Gang Bone with a hundred thousand demon bodies,

this Immortal Lord Feiyun was known throughout the Immortal Realm as the first genius in immortal techniques, particularly famous for her prideful nature. However, such a proud Immortal Lord Feiyun was easily injured by a strong practitioner from the Profound Yin Demon Sect during the Immortal Demon War!

He initially thought that after experiencing that Immortal Demon War, this Immortal Lord Feiyun's personality would change slightly,

but now it seems that this Immortal Lord Feiyun is still the same special personality, still a bit impatient....

....

Before long,

Lin Xuankong, Immortal Lord Luoshui Yaan Mingyu, Strongest Immortal Lord Guang Yu'er, Cyan-forehead Qilin, White-forehead Qilin, and others each rode on clouds out of the Profound Void Cave and arrived at the Demon Suppression Hall of the Demon Suppression Spirit Peak.

Waiting in the Demon Suppression Hall, besides the ones mentioned by Cyan-forehead Qilin earlier, such as Sect Leader Qiu of the Divine Dynasty Immortal Sect, Qilin Race Elder Clan Leader, Great Success Yu Zhen Bodhisattva, and Immortal Lord Feiyun, there were dozens of strong Immortal Lord-level powerhouses from the Immortal Realm Human Race, Unbounded Mountain Demon Race, and Spirit Platform Buddhism! Among them was a newly ascended Strongest Immortal Lord from two hundred years ago, the junior sister of Strongest Immortal Lord Guang Yu'er, Guang Ling'Er.

Guang Yu'er is now not only the Strongest Immortal Lord of Guangqing Immortal Sect but also the Dao partner of the first of the Immortal World, Lin Xuankong. With such a senior sister and "brother-in-law," Guang Ling'er, naturally talented, managed smoothly to become the thirtieth Strongest Immortal Lord-level powerhouse of the Immortal Realm Human Race!

This development made the Guangqing Immortal Sect, which was originally ranked third among the many Immortal Sects of the Immortal Realm Human Race, have the momentum to surpass the Divine Dynasty Immortal Sect!

After all, although the Divine Dynasty Immortal Sect is brimming with geniuses and powerful practitioners as numerous as carp crossing a river, the number of truly top-tier Strongest Immortal Lord-level powerhouses is only three, namely, Sect Leader Qiu of the Divine Dynasty Immortal Sect, the first Grand Elder of the Divine Dynasty Immortal Sect, Elder Qiu, and Strongest Immortal Lord Ling Wuji. Meanwhile, Guangqing Immortal Sect now boasts a total of four Strongest Immortal Lords, namely, Immortal Lord Qiaan Yuan, Immortal Lord Kunyuan, Strongest Immortal Lord Guang Yu'er, and Guang Ling'er!

If not for the Sect Leader Qiu of the Divine Dynasty Immortal Sect, the once first of the Immortal World, possessing a Supreme Realm Divine Soul that can suppress any Strongest Immortal Lord-level powerhouse, the Guangqing Immortal Sect might already have become the second top Immortal Sect of the Immortal Realm Human Race! As for the first-ranked Immortal Sect of the Immortal Realm Human Race, it is no longer the Divine Dynasty Immortal Sect but Luoshui Immortal Sect, which boasts of Lin Xuankong, the first of the Immortal World, and Lin Xuankong's master, Immortal Lord Luoshui Yaan Mingyu!

It can be said that a thousand and five hundred years ago, the emergence of Lin Xuankong in that Immortal Demon War not only drastically altered the situation of the Golden Dragon Immortal Realm but also subtly changed the ranking of top sects of the Immortal Realm Human Race.... Now, in the entire Golden Dragon Immortal Realm, the most aspired Immortal Sect among cultivators is no longer the Divine Dynasty Immortal Sect, but rather the Luoshui Immortal Sect, where Lin Xuankong, the first of the Immortal World, resides. Besides that, the Spiritual Crane Immortal Sect in the Western Region of the Central Divine Dynasty has now become the second aspiration of many cultivators in the Golden Dragon Immortal Realm!

This kind of aspiration is not only yearned by the Immortal Realm Human Race cultivators. The countless Little Demon Kings and talented members of the Unbounded Mountain Demon Race equally long to join the Luoshui Immortal Sect and the Spiritual Crane Immortal Sect—rumor has it that once one becomes a

cultivator of the Luoshui Immortal Sect or the Spiritual Crane Immortal Sect, if in the future one can achieve the Earth Immortal Realm, the sect will directly reward with two or three Initial Tier Immortal Artifacts or First-grade Immortal Artifacts! Such rewards naturally incite the fervent aspiration of countless talented cultivators in the Golden Dragon Immortal Realm!

At this moment,

the numerous Strongest Immortal Lord-level powerhouses from the Immortal Realm Human Race, Unbounded Mountain Demon Race, and Spirit Platform Buddhism,

saw Lin Xuankong alongside Immortal Lord Luoshui Yaan Mingyu and Strongest Immortal Lord Guang Yu'er entering the hall and promptly rose to welcome them.

Lin Xuankong nodded slightly towards the numerous Strongest Immortal Lord-level powerhouses and then focused his gaze on Immortal Lord Feiyun among the crowd, slightly frowning, and said:

"Immortal Lord Feiyun, are you sure you want to provoke the final Celestial Tribulation today? Although fifteen hundred years ago, Great Success Yu Ming Bodhisattva successfully crossed the last Celestial Tribulation and achieved the Celestial Buddha Fruit Position, besides the Great Success Yu Ming Bodhisattva of that time, our Immortal Realm Human Race has not seen a successful example of a Strongest Immortal Lord crossing tribulation in hundreds of thousands of years!"

Although 'Bastard' Gang Bone mentioned that the Thousand Illusion Saint Monarch might target him, Lin Xuankong is still worried that similar other fellows in the Golden Dragon Immortal Realm like Immortal Lord Feiyun might also be targeted by that Supreme Celestial Demon Thousand Illusion Saint Monarch! Yet, this matter cannot be confirmed, and Lin Xuankong naturally cannot inform all the comrades present lest it undermine the Dao Hearts of these Human Race, Demon Race, and Buddhism cultivators.

Immortal Lord Feiyun gazed at Lin Xuankong with a complex expression, cupping her hands, and said: "Immortal Lin, the danger of the final celestial tribulation is known to me, however, cultivators like us ought not to fear hardships. Moreover, because Immortal Lin had previously placed several eighth-grade Immortal Artifacts in the Demon Suppression Hall for all to use, with Immortal Lin's Eighth-Grade Immortal Artifacts in hand, even should I encounter a Life-taking Celestial Tribulation like the Five Elements Extermination Tribulation, I am confident in crossing it!"

For the proud at heart Immortal Lord Feiyun, the only insurmountable figure in this life is the Lin Xuankong before her. Even the Sect Leader Qiu of the Divine Dynasty Immortal Sect remains a goal she believes she can surpass in the future; only the feats created by Lin Xuankong are something she cannot even conceive of surpassing, let alone one day achieving. Hence, the usually proud Immortal Lord Feiyun decided to undergo the tribulation early on, thereby hoping to attain the Celestial Immortal Body and ascend to the more mysterious and vast Supreme Origin Realm!

Chapter 1242: Ascension (Part 2)

In this way, even if she knows that in this life she will never surpass the achievements accomplished by Lin Xuankong, at least on the Immortal Path, she has managed to take one step ahead of Lin Xuankong!

However, at this moment, Immortal Lord Feiyun has no idea about Lin Xuankong's current concerns.

Watching the complex expression of Immortal Lord Feiyun, Lin Xuankong was silent for a moment, then transmitted the message to Immortal Lord Feiyun about the matter concerning the possibly powerful force and incredibly formidable Thousand Illusion Saint Monarch in the Supreme Origin Realm. He then spoke:

"Since the Immortal Lord is determined to cross the tribulation and ascend, it is not my place to hinder you. However, these dangers are such that even I am helpless now. If any accident occurs, I will not be able to aid the Immortal Lord!"

Upon hearing Lin Xuankong's transmission, Immortal Lord Feiyun was evidently somewhat surprised.

Yet, after a few moments, this proud-hearted Immortal Lord Feiyun resolutely shook her head and said, "The path of cultivation is never smooth sailing. Even if there are dangers as described by Immortal Lin, can we just linger forever in the Golden Dragon Immortal Realm? Today, Feiyun has decided to transcend the tribulation, and naturally, I have no fear!"

Seeing this, Lin Xuankong could only furrow his brows without speaking.

The nearby strongest Immortal Lord-level powerhouses naturally did not hear Lin Xuankong's transmission to Immortal Lord Feiyun through the Supreme Divine Soul and Immortal Yuan. Upon hearing Immortal Lord Feiyun's words, many strongest Immortal Lord-level powerhouses approached, among whom Sect Leader Qiu of the Divine Dynasty Immortal Sect couldn't help but speak:

"Immortal Lin need not worry for Fellow Daoist Feiyun!

As Fellow Daoist Feiyun said, although none of the Immortal Realm Human Race besides that Great Success Jade Bright Bodhisattva has successfully transcended the tribulation and ascended to the Upper Realm for hundreds of thousands of years, the current Immortal Realm is completely different from the past. With an artifact refiner like Immortal Lin, unseen for millions of years, and the Eighth-Grade Immortal Artifacts prepared by Immortal Lin for fellow cultivators, it should be extremely easy for Immortal Lord Feiyun to transcend the final celestial tribulation!

Moreover, Fellow Daoist Feiyun's Immortal Techniques are already extremely strong. Paired with Immortal Lin's Eighth-Grade Immortal Artifact, there's an estimated hundred percent chance of transcending the celestial tribulation!"

Other uninformed strongest Immortal Lords also nodded in agreement. The Great Success Yu Zhen Bodhisattva of Spirit Platform Buddhism further clasped his hands together, raising his eyebrows and said: "For hundreds of thousands of years, the Golden Dragon Immortal Realm predecessors dared to brave the waves and risk crossing the tribulations even without Immortal Lin's High-Grade Immortal Artifacts. Now, with Immortal Lin's assistance, how could our fellow cultivators retreat!

If it weren't for the need to teach the Buddhist techniques of the sect to disciples like Galin, I would certainly transcend the tribulation alongside Immortal Lord Feiyun!"

The Cyan Dragon Race Elder Clan Leader could not help but smile and said: "Immortal Lin really need not advise anymore. If it weren't for Immortal Lin's intervention fifteen hundred years ago, most of us old folks would have perished in the Immortal Demon War, and the remaining lifespan would certainly be a boon!

This time with Immortal Lord Feiyun transcending the tribulation first, I, Old Qing, will undoubtedly also trigger the final celestial tribulation shortly!

I've heard from the Cyan Dragon Race's ancestors numerous times about the Upper Realm, yet have never personally seen what the Supreme Origin Realm truly looks like. Now, with the unprecedented opportunity created by Immortal Lin's Immortal Artifacts, how could we old folks possibly remain afraid!"

The numerous strongest Immortal Lord-level powerhouses, hearing the Cyan Dragon Race Elder Clan Leader's words, nodded repeatedly in agreement.

Seeing this, Lin Xuankong could only remain silent, while beside him, Immortal Lord Luoshui Yaan Mingyu furrowed her brows for a moment, then shook her head slightly at Lin Xuankong, transmitting: "That which Gang Bone speaks of cannot be fully believed as of now, so the circumstances after ascending to the Supreme Origin Realm cannot be entirely confirmed by either of us! Besides, Immortal Lord Feiyun's mind is now resolved, so, Xuankong, you need not persuade any further! This crossing of the tribulation may be a blessing or misfortune for Fellow Daoist Feiyun, determined by fate!"

....

Immortal Lord Feiyun intends to transcend the final celestial tribulation,

For the Golden Dragon Immortal Realm, which has not seen anyone transcend the final celestial tribulation for fifteen hundred years, it certainly counts as a grand event!

Thus, at the Demon Suppression Spirit Peak, numerous cultivators and disciples of the Spiritual Crane Immortal Sect prepared a rather lavish banquet for the strongest Immortal Lord-level powerhouses attending the ceremony!

Several hours later,

The strongest Immortal Lord-level powerhouses have had their fill of food and drink, and the time has reached the moment of sunset and moonrise!

By this time, Lin Xuankong took out an Eighth-Grade Immortal Artifact stored in the depths of the Demon Suppression Hall, handed it to Immortal Lord Feiyun, who was already beginning preparations for transcending the final celestial tribulation. Immortal Lord Feiyun gladly accepted it, offered thanks, and was the first to walk out of the Demon Suppression Hall.

Outside the Demon Suppression Spirit Peak,

Numerous cultivators from various Immortal Sects and clans had already gathered, naturally having traveled millions of miles to specifically witness the ascendancy ceremony of Immortal Lord Feiyun.

Since Lin Xuankong slew Demon Child Gang Bone fifteen hundred years ago, the strongest Immortal Lords from the Immortal Realm Human Race, Unbounded Mountain Demon Race, and Spirit Platform Buddhism, using the Fourth-Grade Immortal Artifact gifted by Lin Xuankong, swept through the Profound Yin Demon Realm. Since then, the entire Golden Dragon Immortal Realm has enjoyed an era of peace and prosperity, with few major disputes arising and no significant events worth the attention of cultivators!

In this era of peace and prosperity, the transcendence and ascendancy of Immortal Lord Feiyun indeed becomes a rare and lively affair, prompting any informed cultivator to break their solitude and rush to witness the ceremony!

Immortal Lord Feiyun, upon walking out of the Demon Suppression Hall, bowed toward Lin Xuankong and the numerous strongest Immortal Lords before unleashing her Immortal Yuan and flitting out of the Spirit Peak.

In the next instant,

Immortal Lord Feiyun had appeared five hundred miles beyond the Demon Suppression Spirit Peak,

With the Eighth-Grade Immortal Artifact gifted by Lin Xuankong at her side, as soon as she casually activated it, her escape speed became terrifyingly fast!

Upon flashing five hundred miles beyond the Demon Suppression Spirit Peak, Immortal Lord Feiyun gazed up at the sky, her expression gradually turning solemn as more and more Immortal Yuan was activated within her Immortal Body. As the last wisp of Immortal Yuan within her body was stirred and rapidly circulated through her Immortal Body, the skies in all directions suddenly began to darken!

Not long after,

One thick tribulation cloud after another gradually appeared in the depths of the sky. Accompanied by these tribulation clouds drifting across the sky, one thick bolt of hidden lightning after another gradually revealed its fierce face!

This time,

The tribulation clouds above Immortal Lord Feiyun,

Were completely different from those encountered by Great Success Jade Bright Bodhisattva during his transcendence of the final celestial tribulation fifteen hundred years ago!

Back then, the tribulation clouds of the Five Elements Extermination Tribulation faced by Great Success Jade Bright Bodhisattva were similarly thick, yet they appeared in ordinary cloud shapes. The ones above Immortal Lord Feiyun now, amidst continuous rolling and collision, gradually shifted shapes, transforming into countless living forms made of thick clouds!

These living forms created from thick clouds comprised nearly one-sixth of human shapes; of course, compared to ordinary human bodies, these human-shaped tribulation clouds were vastly larger, filled within with fearsome, destructive energy!

Beyond these human-shaped tribulation clouds, the remaining five-sixths were shockingly transformed into ink-black Demon Race forms, flying and roaming rapidly in the sky, looking exceedingly ferocious and terrifying!

Chapter 1243: Immortal Artifacts as Numerous as Oxen Hairs

For the past fifteen hundred years,

Lin Xuankong was almost always in the Profound Void Cave of the Demon Suppression Spirit Peak, pondering the Luo Water Divine Diagram with his master, Immortal Lord Luoshui, and studying the Luo Water Array!

Thus, even though Lin Xuankong had spent a full fifteen hundred years in the Spiritual Crane Immortal Sect, he knew very little about the various rumors of the Immortal Realm. Suddenly confronted with such a strange tribulation cloud, Lin Xuankong felt somewhat surprised and couldn't help but ask:

"Master, such tribulation cloud that resembles a living being is something Xuankong has never seen before. Has this ultimate celestial tribulation ever appeared in the Immortal Realm before?"

Immortal Lord Luoshui, Yaan Mingyu's eyebrows furrowed tightly, his expression solemn, as he said, "This tribulation is known as the Azure Sky Killing Tribulation!"

"The Azure Sky Killing Tribulation?" Lin Xuankong nodded slightly and asked, "Judging by the power of the tribulation cloud before us, it seems to differ little from the ultimate celestial tribulation Great Success Yu Zhen Bodhisattva encountered. Could this Azure Sky Killing Tribulation be a particularly famous and extremely difficult celestial tribulation to overcome?"

Beside him, the Strongest Immortal Lord Guang Yu'er raised her eyebrows, revealing a somewhat speechless expression,

"Xuankong, you spend all day studying arrays, yet you don't even know about the Azure Sky Killing Tribulation!"

This Azure Sky Killing Tribulation is evidently a very famous and extremely difficult celestial tribulation to overcome, similar to the Five Elements Extermination Tribulation, both of which are among the three major tribulations that have remained unconquered since the Ancient Era!

However, the Five Elements Extermination Tribulation ranks third in notoriety among the three major tribulations, while the Azure Sky Killing Tribulation is ranked as the second-most terrifying killing tribulation among all celestial tribulations!

The reason, you ask, is that the Five Elements Extermination Tribulation has never been overcome by anyone, yet there are very few Strongest Immortal Lords who have encountered it. But the Azure Sky Killing Tribulation is different; since the Ancient Era in the Golden Dragon Immortal Realm to the present, many Strongest Immortal Lord-level powerhouses have fallen in this terrifying Azure Sky Killing Tribulation. In the records of our Guangqing Immortal Sect, there are over three hundred Strongest Immortal Lords with names who were documented!

The key point is that those three hundred Strongest Immortal Lords with names, who fell in the Azure Sky Killing Tribulation, were all legendary geniuses of their era, yet they all met their doom beneath the Azure Sky Killing Tribulation!"

Over three hundred Strongest Immortal Lord-level powerhouses recorded in the Guangqing Immortal Sect's annals all fell under the Azure Sky Killing Tribulation... Even though Lin Xuankong was prepared for this upon hearing it, he still couldn't help feeling startled.

After all, they were Strongest Immortal Lord-level powerhouses, usually requiring tens of thousands, if not over a hundred thousand years of cultivation to reach such a realm! Not to mention that being recorded in the annals of a sect like Guangqing Immortal Sect, these Strongest Immortal Lords were all renowned heroes in history! Yet, not a single one of these many Strongest Immortal Lord-level powerhouses could overcome this Azure Sky Killing Tribulation...

Not only was Lin Xuankong somewhat surprised,

the surrounding Strongest Immortal Lords, genius descendants, and High-Grade Earth Immortals from various Immortal Sects and clans gathered to witness, couldn't help but stir into a buzz and began murmuring in low voices upon seeing the tribulation cloud of the Azure Sky Celestial Tribulation appear.

Sect Leader Qiu of the Divine Dynasty Immortal Sect, who was once the first in the Immortal Realm, couldn't help shaking his head and said: "For Fellow Daoist Feiyun to encounter this Azure Sky Killing Tribulation is truly unfortunate! Back when Great Success Yu Ming Bodhisattva faced the Five Elements Extermination Tribulation fifteen hundred years ago, the Azure Sky Killing Tribulation's perilous nature is far greater than the Five Elements Extermination Tribulation, several times over! For our Immortal Realm Human Race cultivators, striving to achieve the Celestial Immortal is so incredibly difficult!"

The Qilin Race Elder Clan Leader couldn't help but shake his head repeatedly, sighing: "I assumed that Immortal Lord Feiyun and Great Success Yu Ming Bodhisattva, having received the Eighth-Grade Immortal Artifact gifted by Immortal Lin, would surely overcome her ultimate celestial tribulation. Who could have foreseen that she would encounter the Azure Sky Killing Tribulation? Now, even with that Eighth-Grade Immortal Artifact gifted by Immortal Lin, whether Fellow Daoist Feiyun succeeds or not hangs in the balance!"

Immortal Lord Qiaan Yuan furrowed his brows and said:

"Great Success Yu Ming Bodhisattva, known for her Wisdom Root comparable to Great Success Yu Zhen Bodhisattva in the Spirit Platform Buddhism, possessing an unprecedented strong Wisdom Root was shunned by the Power of the World of the Golden Dragon Immortal Realm, encountering the lifeless

Five Elements Extermination Tribulation, which was actually within expectations! After all, regarding the power of celestial tribulations, our ancestors and predecessors of each Immortal Sect in the Golden Dragon Immortal Realm have conjectured that the more exceptional the talent, the more outstanding the talent that stands out, the greater the chance of encountering a more terrifying celestial tribulation!

As for Immortal Lord Feiyun, who unexpectedly encountered the even more fearsome Azure Sky Killing Tribulation than the Five Elements Extermination Tribulation, perhaps it also indicates that Immortal Lord Feiyun's talent and comprehension in immortal techniques are indeed exceptionally outstanding! Alas, the greater the genius, the more extraordinary the comprehension surpasses peers, the greater the chance of encountering an even more terrifying celestial tribulation!"

Other Strongest Immortal Lords and High-Grade Earth Immortals, younger geniuses, also shook their heads and sighed.

Since the Immortal Demon War, it's been peaceful in the Golden Dragon Immortal Realm; the Human Race, Demon Race, and Buddhist Sect cultivators in the Immortal Realm, each filled with hope for the future!

This time, Immortal Lord Feiyun crossed the ultimate celestial tribulation, and countless cultivators naturally hoped that Immortal Lord Feiyun, like Great Success Yu Ming Bodhisattva, could successfully overcome the ultimate celestial tribulation, attain the Celestial Immortal Body, ascend to the Supreme Origin Realm, and carve a path filled with ever more hopeful cultivation for countless cultivators in the Golden Dragon Immortal Realm!

Unfortunately, who would have thought that Immortal Lord Feiyun would encounter the infamously more terrifying Azure Sky Killing Tribulation than the Five Elements Extermination Tribulation!

Lin Xuankong listened to the discussions among the crowd, and secretly thought: Great Success Yu Ming Bodhisattva had an extremely strong Wisdom Root and faced the Five Elements Extermination Tribulation; Immortal Lord Feiyun's talent and comprehension in immortal techniques are outstanding, far surpassing her contemporaries, resulting in encountering the even more formidable Azure Sky Killing Tribulation! As for myself, possessing a unique Vigorous in Old Age Life Plate and various miraculous talents, should I face the final celestial tribulation in the future, what kind of celestial tribulation would I encounter? Perhaps it would be one even more terrifying than the Azure Sky Killing Tribulation!

Chapter 1244: Countless Supreme Immortal Artifacts (Part 2)

After all, before reaching the Strongest Immortal Lord Realm, between the Initial Tier Earth Immortal and Ninth-Grade Earth Immortal, every Celestial Tribulation I encountered was almost unbearably terrifying for an ordinary Earth Immortal!

I really wonder what kind of surprise, or perhaps shock, the World Origin of this Golden Dragon Immortal Realm will give me when I cross my final tribulation?

At this moment,

beneath the countless continuously writhing tribulation clouds, transforming into various living beings,

The Immortal Lord Feiyun, who initially felt confident, gradually turned solemn, unconsciously tightening the grip on the Eighth-Grade Immortal Sword.

Originally, Immortal Lord Feiyun prided himself on his enhanced Flying Cloud Immortal Technique, which had become increasingly powerful through numerous improvements, surpassing the Flying Cloud Immortal Technique refined by generations of ancestors of the Flying Cloud Immortal Sect in terms of might. Moreover, with the addition of Lin Xuankong's refined Eighth-Grade Immortal Artifact, the combination was like adding wings to a tiger, capable of sweeping through ninety-nine percent of the tribulations, effortlessly crossing the final tribulation, and then ascending to the Supreme Origin Realm, achieving the Celestial Immortal Position!

Unexpectedly, however, he encountered the Azure Sky Celestial Tribulation,

This Azure Sky Celestial Tribulation, notoriously, ceases only when the Tribulation Crosser dies,

Although it seems exaggerated, for millions of years, not a single Strongest Immortal Lord has ever succeeded under such a tribulation! The most lethal part is that each tribulation cloud of the Azure Sky Celestial Tribulation creates tribulation cloud beings matching the Tribulation Crosser's power, attacking in turns!

The number of tribulation clouds before him is not merely tens of thousands, implying as many tribulation cloud beings possessing the Flying Cloud Immortal Technique and matching Immortal Lord

Feiyun in power will alternatively assault him, even though these beings carry no treasure. However, they are genuinely Late Stage of the Strongest Immortal Lord Realm tribulation cloud beings!

Immortal Lord Feiyun frowned, gazing at the countless Azure Sky Killing Tribulation Cloud Beings eager to move high in the sky, his mouth turning slightly bitter,

Even if these tens of thousands of tribulation cloud beings don't strike together, attacking in turns still means tens of thousands of 'Immortal Lord Feiyun' nonetheless! I wonder, relying on the mid-grade Profound Truth Jade and numerous Magical Artifacts prepared in advance, alongside the Eighth-Grade Immortal Artifact gifted by Immortal Lin, how many Azure Sky Tribulation Cloud Beings I could withstand?

Ten? Twenty? Or perhaps fight up to sixty or seventy?

According to the Flying Cloud Immortal Sect's records, during the sect's peak in the Middle Ages, Supreme Elder Bi Yan of the Flying Cloud Immortal Sect, having acquired a life-extending Dragon Birth Feather Flower Fruit, gained 380,000 years of longevity. With the enormous number of Magical Artifacts and large quantities of mid-grade Immortal Artifacts accumulated over a long life, he was certain to successfully pass the final tribulation but perished at the sixty-third tribulation cloud being's furious assault, exhausting his Immortal Yuan!

I might ultimately follow in the footsteps of Grandmaster Bi Yan this time!

Back then, Elder Bi Yan was in the Middle Ages with countless Heavenly Materials and Earthly Treasures, possessing much deeper foundations than mine. Moreover, the current Flying Cloud Immortal Technique's might, refined through countless upgrades, far surpasses Elder Bi Yan's time! Meaning, my current preparations are far inferior to Elder Bi Yan's back then, yet I must face one tribulation cloud being after another wielding Immortal Techniques more potent than Elder Bi Yan's!

This tribulation before me,

The hope is indeed very slim!

But in any case, I must contend!

After a quick mental calculation, Immortal Lord Feiyun, known for his firm resolve, activated the Immortal Yuan, preparing to attack the Azure Sky Killing Tribulation Cloud Beings before the countless tribulation clouds of the Azure Sky Celestial Tribulation fully formed!

Just at this moment,

Decided for a life-and-death fight, Immortal Lord Feiyun suddenly sensed seventeen immensely strong Immortal Qi fluctuations rapidly approaching his position.

Surprised, Immortal Lord Feiyun swiftly turned to look, only to witness a scene that made the expression of this immensely gifted Immortal Lord change.

He saw that from the direction of the Demon Suppression Hall on the Demon Suppression Spirit Peak, no less than seventeen streams of light emitted by Immortal Artifacts were rapidly shooting towards him. These Immortal Artifacts flashed with spiritual light, and any one of them could rival the Eighth-Grade Immortal Artifact currently tightly held by Immortal Lord Feiyun. Among them, three high-grade Immortal Artifacts even surpassed the Eighth-Grade Immortal Artifact in his hand in terms of Immortal Artifact vibration, with a faint sense of breaking boundaries to become a Ninth-Grade Immortal Artifact! Even if not a Ninth-Grade Immortal Artifact, those three high-grade Immortal Artifacts are indisputably the most elite and powerful Eighth-Grade Immortal Artifacts!

Alongside these seventeen streams of Eighth-Grade Immortal Artifacts, came Lin Xuankong's voice, "Should it have been another tribulation, Xuankong would naturally not intervene, as Fellow Daoist Feiyun's power is unquestionably sufficient. However, the Azure Sky Killing Tribulation stands among the three greatest tribulations, even more perilous than the Five Elements Extermination Tribulation. Let these dozen-plus pieces of Eighth-Grade Immortal Artifacts serve as gifts from Xuankong to aid Fellow Daoist Feiyun through this perilous tribulation!"

A full seventeen Eighth-Grade Immortal Artifacts!

Together with Immortal Lord Feiyun's held Eighth-Grade Immortal Artifact, that makes a total of eighteen Eighth-Grade Immortal Artifacts!

Any one of these Eighth-Grade Immortal Artifacts would drive any Cultivator in the Golden Dragon Immortal Realm to madness!

Yet now, handed over casually by Lin Xuankong, as if they were mere trivial gadgets!

Even the strongest Immortal Lord-level powerhouses and talented juniors present, although knowing Lin Xuankong's Path of Artifact Refining stands peerless across time, never expected him to have a full eighteen Eighth-Grade Immortal Artifacts stored in the Demon Suppression Hall on the Demon Suppression Spirit Peak!

All the Strongest Immortal Lord-level powerhouses and Cultivators present, gazing at the continuously shooting eighteen Eighth-Grade Immortal Artifacts, displayed surprise and astonishment in their eyes!

When they looked back at Lin Xuankong, their faces were filled with a myriad of expressions, each more speechless than the last!

Even Sect Leader Qiu of the Divine Dynasty Immortal Sect, once the first in the Immortal World, had a stunned expression, unable to utter a word!

However, how could these Cultivators and Strongest Immortal Lords of the Golden Dragon Immortal Realm know that for Lin Xuankong at this moment, eighteen Eighth-Grade Immortal Artifacts indeed are nothing noteworthy. Behind Lin Xuankong stands the true Artifact Refining Genius, Miss Xiao!

Fifteen hundred years ago, with merely a century or two of preparation, Lin Xuankong and the Artifact Refining Genius Miss Xiao could refine numerous Eighth-Grade Immortal Artifacts and one Growth-type Ninth-Grade Immortal Artifact!

Now, after fifteen hundred years, although Lin Xuankong spent most of his time studying the Luo Water Divine Diagram and Luo Water Array, Miss Xiao not necessarily, persistent in the Path of Artifact Refining at all times....Now, the Artifact Refining Genius Xiao Xiuyi has long surpassed the refinement route of Growth-type Immortal Artifacts solely to craft a single Ninth-Grade Immortal Artifact! This Artifact Refining Genius Xiao Xiuyi can now consistently succeed in each Ninth-Grade Immortal Artifact refinement!

In Immortal Lin's Celestial Demon Bone Secret Realm, in Xiao Xiuyi's abode, the number of Ninth-Grade Immortal Artifacts now exceeds the quantity of Eighth-Grade Immortal Artifacts that Lin Xuankong owned fifteen hundred years ago by quite a margin, reaching nearly a thousand! This is due to the extremely high and stringent material requirements for refining Ninth-Grade Immortal Artifacts. Even owning the entire Tier Nine Celestial Demon Bone Secret Realm and the whole Golden Dragon Immortal Realm, Lin Xuankong still spent time, manpower, and beast fundamentals. Otherwise, Lin Xuankong's current stock of Ninth-Grade Immortal Artifacts might equal the number of Magical Artifacts controlled by Sect Leader Qiu of the Divine Dynasty Immortal Sect!

Even for Ninth-Grade Immortal Artifacts, the supreme Immortal Artifacts within the Golden Dragon Immortal Realm,

Lin Xuankong possesses such an astonishing quantity!

As for his possession of Eighth-Grade Immortal Artifacts...the term 'many' doesn't suffice to describe it!

If not worried about being overly shocking, the Eighth-Grade Immortal Artifacts Lin Xuankong gifted to Immortal Lord Feiyun might well exceed eighteen!

Chapter 1245: Fierce Battle

Amidst the surprise of numerous Earth Immortals and Strongest Immortal Lords,

the seventeen Eighth-Grade Immortal Artifacts had already shot in front of Immortal Lord Feiyun.

At this moment, those calamity clouds of the Azure Sky Killing Tribulation in the high sky had completed the process of the creatures' Metamorphosis. Around each tribulation cloud creature's body floated numerous incredibly condensed small clouds and bright lightning!

Immortal Lord Feiyun's most adept Immortal Technique was the improved Flying Cloud Immortal Technique. Since these tribulation clouds of the Azure Sky Killing Tribulation transformed into creature avatars with strength comparable to Immortal Lord Feiyun, they naturally possessed similar techniques!

It is known that Immortal Lord Feiyun's own strength ranks extremely high in the current Golden Dragon Immortal Realm. Besides the unmatched Lin Xuankong, there is only Sect Leader Qiu of the Divine Dynasty Immortal Sect, Immortal Lord Luoshui Yaan Mingyu, and Great Success Yu Zhen Bodhisattva

who can surpass Immortal Lord Feiyun slightly. Even the master of Sect Leader Qiu of the Divine Dynasty Immortal Sect, Elder Qiu, does not dare claim he can definitely defeat Immortal Lord Feiyun!

Yet in the high sky, tens of thousands of tribulation cloud creatures condensed by the Azure Sky Killing Tribulation are each as strong as Immortal Lord Feiyun, possessing Immortal Yuan fluctuations similar to Immortal Lord Feiyun and techniques akin to Immortal Lord Feiyun's!

At this moment, when all the tribulation cloud creatures of the Azure Sky Killing Tribulation were fully formed, emitting nearly endless powerful fluctuations,

every cultivator in the Golden Dragon Immortal Realm looking up at the sky had faces that constantly changed expression. Except for Lin Xuankong, Sect Leader Qiu of the Divine Dynasty Immortal Sect, Immortal Lord Luoshui Yaan Mingyu, and Great Success Yu Zhen Bodhisattva, the four strongest Immortal Lords, the other cultivators, even those who had weathered countless storms and even captured the Demon Lord of the Profound Yin Demon Sect, had faces that looked grim, unable to conceal the astonishment in their hearts!

The Elder Clan Leader of the Cyan Dragon Race couldn't help but moan softly, then spoke with some difficulty: "Just looking at the Cyan Dragon Race's records, those records about the Azure Sky Killing Tribulation, it's truly unimaginable to witness such terrifying scenes when actually Crossing the Azure Sky Celestial Tribulation! No wonder, since the Ancient Era, over three hundred extraordinary geniuses, who led an era, have all fallen in this Azure Sky Celestial Tribulation!"

The Qilin Race Elder Clan Leader was slightly nervous, glancing at the endless tribulation cloud creatures in the sky, then at the eighteen Eighth-Grade Immortal Artifacts hovering around Immortal Lord Feiyun, his expression continually changing, muttering: "Just wonder, by the end of today's battle of crossing the tribulation, will Immortal Lord Feiyun rely on Immortal Lin's eighteen Eighth-Grade Immortal Artifacts to persevere, or will these countless Celestial Tribulation creatures overwhelm Immortal Lord Feiyun!"

While numerous Strongest Immortal Lord-level powerhouses and many cultivators sighed with emotion,

in the distance, Immortal Lord Feiyun with a solemn expression activated all eighteen Immortal Artifacts bestowed by Lin Xuankong.

With the tribulation's attack imminent, Immortal Lord Feiyun, without much to discuss with Lin Xuankong who gifted the sword, bowed remotely towards Lin Xuankong, then let out a long roar, with Immortal Yuan within him suddenly erupting entirely.

In the next instant,

the eighteen Eighth-Grade Immortal Artifacts around Immortal Lord Feiyun were already surrounded by numerous condensed, small clouds and countless tiny, violent energy-infused lightning. Then each turned into a stream of light, charged into the depths of the sky, aiming at the Azure Sky Celestial Tribulation's tribulation cloud creature closest to Immortal Lord Feiyun!

This tribulation cloud creature's form looked somewhat akin to the Demon King of the Cyan Dragon Race, body dragon-shaped, with five claws and dual horns, covered in scales, appearing quite mighty, especially surrounded by numerous small, condensed clouds and lightning, resembling a Divine Dragon's descendent, awe-inspiring!

The moment eighteen Eighth-Grade Immortal Artifacts were activated, this tribulation cloud dragon had already opened its giant mouth. Instantly, bolts of lightning were spurred by it.

With Third-Grade Immortal Artifacts activated by Earth Immortal Realm cultivators, they could take cultivators on broad and boundless journeys in the Golden Dragon Immortal Realm within a day and night,

but one can imagine, with Eighth-Grade Immortal Artifacts fully activated by such a powerful Immortal Lord like Immortal Lord Feiyun, how frightening their speed could be!

Nonetheless, the tribulation cloud creature resembling a Cyan Dragon in form, aided by the clouds and lightning, had equally fast speed, with no retreat or evasion, instead charging head-on towards those eighteen Immortal Artifacts!

In the blink of an eye,

the eighteen Immortal Artifacts clashed with the tribulation cloud creature resembling a Cyan Dragon,

causing all spectators and Strongest Immortal Lord-level powerhouses to brighten their eyes. The tribulation cloud creature with strength comparable to Immortal Lord Feiyun, and with overwhelming momentum, was unexpectedly bombarded by eighteen Eighth-Grade Immortal Artifacts, nearly shattering half of its small clouds and lightning at the moment of contact!

In just a breath's time, under the attack of a full eighteen Eighth-Grade Immortal Artifacts, all the protective clouds and lightning of the Azure Sky Celestial Tribulation's tribulation cloud creature with strength comparable to Immortal Lord Feiyun were utterly annihilated. After three more breaths, the tribulation cloud creature's body was already covered in scars!

"Break!"

Gaining the upper hand, Immortal Lord Feiyun did not hesitate for a moment, gathering the eighteen Eighth-Grade Immortal Artifacts together, directly stabbing towards the vital points of the tribulation cloud creature!

After a series of sharp noises "chichi chichi chichi chichi chichi," the originally overwhelming tribulation cloud creature's body suddenly froze stiff, then exploded, dispersing into Immortal Yuan fluctuations that spread over hundreds of miles, thoroughly dissipating into the depths of the sky!

Chapter 1246: Fierce Battle (Part 2)

Seeing this scene,

The originally tense numerous strongest Immortal Lords and cultivators all cheered in unison.

With Immortal Lord Feiyun winning the first battle, everyone naturally was joyful for him and gained much more confidence in his upcoming crossing of the Azure Sky Celestial Tribulation.

The Qilin Race Elder Clan Leader couldn't help but speak, "The eighteen pieces of Eighth-Grade Immortal Artifacts gifted by Immortal Lin to Immortal Lord Feiyun have truly enhanced his strength greatly. Even if the tribulation cloud spirit of the Azure Sky Celestial Tribulation matches Immortal Lord Feiyun in power, without the formidable boost of eighteen pieces of Eighth-Grade Immortal Artifacts, how could it be a match for Immortal Lord Feiyun! It seems today, with Immortal Lin's numerous Eighth-Grade Immortal Artifacts aiding him, Immortal Lord Feiyun has a pretty good chance of succeeding in his tribulation, hahaha!"

Immortal Lord Qiaan Yuan also couldn't help but clap and laugh heartily, "Good, good, good, good! Last time, Great Success Jade Bright Bodhisattva crossed the Five Elements Extermination Tribulation with the help of Eighth-Grade Immortal Artifacts gifted by Immortal Lin, achieving the first Ascension to the Upper Realm Heavenly Buddha in our Golden Dragon Immortal Realm in hundreds of thousands of years! Unfortunately, we were at the Spiritual Crane Immortal Sect at the time and couldn't witness the spectacular scene of Great Success Jade Bright Bodhisattva using the Eighth-Grade Immortal Artifacts to cross the tribulation. Now, it looks like Immortal Lord Feiyun's tribulation will be an opportunity to make up for that regret!"

Immortal Lord Kunyuan's eyes shone slightly, speaking a bit excitedly:

"All fellow Daoists know how terrifying the Azure Sky Celestial Tribulation is, with no strongest Immortal Lord-level powerhouse ever being able to cross it! However, for such a peerless prodigy as Immortal Lord Feiyun, who can elevate the power of the Flying Cloud Immortal Technique by several times, he's not your ordinary peerless prodigy, especially with the eighteen pieces of Eighth-Grade Immortal Artifacts gifted by Immortal Lin!

As far as I know, the previous predecessors who perished in the Azure Sky Celestial Tribulation, the most and strongest Immortal Artifacts they possessed were only three pieces of Eighth-Grade Immortal Artifacts, which pales in comparison to the eighteen pieces given to Immortal Lord Feiyun by Immortal Lin!

Fellow Daoists, in my view, our previous worries for Immortal Lord Feiyun were somewhat unnecessary! We, ah, have never come into contact with Eighth-Grade Immortal Artifacts, and thus know too little about these high-grade Immortal Artifacts, which are so rare even on the Immortal Artifact list within the Golden Dragon Immortal Realm for thousands of years. We simply cannot fathom the terror of these Eighth-Grade Immortal Artifacts, especially eighteen of them!"

By this time,

Even Sect Leader Qiu of the Divine Dynasty Immortal Sect couldn't help but nod slightly, "In just those few moments, which seemed short, Immortal Lord Feiyun used those eighteen pieces of Eighth-Grade Immortal Artifacts to attack the Azure Sky Tribulation cloud spirit over hundreds of thousands of times. Only with so many Eighth-Grade Immortal Artifacts in the hands of a powerhouse like Fellow Daoist Feiyun could such a massive number of powerful attacks be launched in such a brief period!

Based on the number and power of the attacks just launched by Fellow Daoist Feiyun, even if I were in the position of that tribulation cloud spirit, I would likely suffer severe injuries, being not much stronger than it!

Eighteen pieces of Eighth-Grade Immortal Artifacts... Immortal Lin's generous and astonishing gift this time is expected to let Fellow Daoist Feiyun cross this Azure Sky Celestial Tribulation without any danger!"

Seeing some hope in Immortal Lord Feiyun's tribulation crossing, many strongest Immortal Lords started to relax a bit and discuss continually.

Under the tribulation clouds, Immortal Lord Feiyun, seeing that he had completely obliterated one Azure Sky Tribulation cloud spirit in such a short time, a hint of joy surfaced deep in his eyes, along with an even greater gratitude for Lin Xuankong's gift of eighteen Eighth-Grade Immortal Artifacts!

However, as the tribulation had just begun, Immortal Lord Feiyun knew very well that merely obliterating one Azure Sky Tribulation cloud spirit only represented a sliver of hope in facing this Azure Sky Celestial Tribulation. It didn't mean that he could persevere to the end, as the entire Azure Sky Tribulation cloud forms overwhelmingly numbered tribulation cloud spirits, which could easily number in the tens of thousands! Especially since no one had ever successfully crossed the Azure Sky Celestial Tribulation, no one knew how many tribulation cloud spirits needed to be obliterated to be considered to have crossed the tribulation....

Immortal Lord Feiyun's biggest concern was that if all tens of thousands of tribulation cloud spirits needed to be obliterated to succeed in the tribulation crossing, even if these Azure Sky Tribulation cloud spirits didn't all attack at once, such a frightening number of strongest Immortal Lord-level spirits would definitely exceed the capacity of his Immortal Yuan to last until the end, even after exhausting all the prepared Mid-grade Profound Truth Jade, it would still fall way short...

But no matter what, since the Azure Sky Celestial Tribulation has begun, there's no turning back. The only way to survive is to keep defeating these Azure Sky Tribulation cloud spirits until the moment of successful tribulation crossing!

"Go!"

Thinking of this, Immortal Lord Feiyun no longer hesitated and immediately activated those eighteen pieces of Eighth-Grade Immortal Artifacts, attacking the next tribulation cloud spirit!

...

Three full hours later,

On the Demon Suppression Spirit Peak, numerous strongest Immortal Lords and cultivators were already quiet.

These strongest Immortal Lords and cultivators, looking at Immortal Lord Feiyun, who was still fighting hundreds of miles away, and the seemingly endless tribulation cloud spirits in the sky, were all furrowing their brows.

In the three full hours that have passed, the battle between Immortal Lord Feiyun and the Azure Sky Tribulation cloud spirits has continued. Each time a tribulation cloud spirit was annihilated by Immortal Lord Feiyun's eighteen Eighth-Grade Immortal Artifacts, another would immediately surge forward to attack Immortal Lord Feiyun again. This battle seemed as if it would go on forever....

In the time of three full hours, Immortal Lord Feiyun had already annihilated a total of one hundred and seven Azure Sky Tribulation cloud spirits!

If Immortal Lord Feiyun annihilated the tribulation cloud spirits at the same speed as the first one, after three hours, the number of tribulation cloud spirits annihilated should have already exceeded ten thousand!

But how could things be that simple? Those Azure Sky Tribulation cloud spirits were not mindless beings. After the first three tribulation cloud spirits were annihilated, starting with the fourth tribulation cloud spirit, they began finding ways to counter the attacks of the Eighth-Grade Immortal Artifacts and started consciously evading the attacks!

As a result, the Immortal Yuan and time required for Immortal Lord Feiyun to annihilate each tribulation cloud spirit increased significantly. By the time it reached the fifth and sixth tribulation cloud spirits,

their dodging and attacking became more structured, to the extent that it almost took half a stick of incense's time to annihilate any one tribulation cloud spirit!

So even after full three hours, with Immortal Lord Feiyun fully utilizing the Eighth-Grade Immortal Artifacts, he had only annihilated a hundred and seven Azure Sky Tribulation cloud spirits in total!

Of course, within the Azure Sky Celestial Tribulation, annihilating a total of one hundred and seven tribulation cloud spirits had already far surpassed the records documented in the scriptures of various Immortal Sects and clans about predecessors crossing the Azure Sky Celestial Tribulation. From the Ancient Era to the present, among the more than three hundred documented predecessors who attempted to cross the Azure Sky Celestial Tribulation, the highest recorded number of tribulation cloud spirits annihilated was just over sixty!

This record of over sixty tribulation cloud spirits belonged to the predecessor with three pieces of Eighth-Grade Immortal Artifacts, as spoken by Immortal Lord Kunyuan. This predecessor's record of annihilating Azure Sky Tribulation cloud spirits stood unmatched for tens of millions of years.... However, today it was far exceeded by the Immortal Lord Feiyun, who wielded eighteen pieces of Eighth-Grade Immortal Artifacts, nearly doubling that predecessor's record!

This is not just any one hundred and seven tribulation cloud spirits,

Each of these tribulation cloud spirits had strength comparable to the immensely powerful Immortal Lord Feiyun!

If at this moment, facing these tribulation cloud spirits, Immortal Lord Feiyun did not have the eighteen pieces of Eighth-Grade Immortal Artifacts gifted by Lin Xuankong, no matter how strong or well-prepared he was, it would be far from possible to achieve the current feats!

And yet, even after Immortal Lord Feiyun annihilated so many tribulation cloud spirits, there was no sign of the Azure Sky Tribulation's cloud dispersing.... This made the strongest Immortal Lords and cultivators on the Demon Suppression Spirit Peak doubt whether Immortal Lord Feiyun would have to keep fighting until all the Azure Sky Tribulation cloud spirits were completely annihilated!

Chapter 1247: Beyond the Celestial Tribulation

The many strongest Immortal Lords and cultivators all understood,

that if they really needed to extinguish all the Azure Sky Celestial Tribulation cloud spirits, let alone the Immortal Lord Feiyun before them, even if all the present strongest Immortal Lords combined and took turns controlling those eighteen Eighth-Grade Immortal Artifacts, it would still be impossible!

After all, controlling as many as eighteen Eighth-Grade Immortal Artifacts is an enormous consumption even for the strongest Immortal Lord-level powerhouse!

"How many cloud spirits need to be extinguished? Already over a hundred!

This means that within the span of three hours, Immortal Lord Feiyun has already slain over a hundred strongest Immortal Lord-level powerhouses similar to her in strength! This Azure Sky Celestial Tribulation is just too monstrous!"

Immortal Lord Qiaan Yuan looked at the countless cloud spirits in the depths of the sky, unable to maintain the composure of a strongest Immortal Lord-level powerhouse when speaking.

"No wonder it's called the most difficult second celestial tribulation,

The Five Elements Extermination Tribulation that the Great Success Jade Bright Bodhisattva crossed was also extremely terrifying,

but it pales in comparison to the monstrosity of this Azure Sky Celestial Tribulation!

This isn't a test for the tribulation crosser; this celestial tribulation is practically designed to kill the tribulation crosser without fail!"

Another top Demon King of the Cyan Dragon Race couldn't help but complain with a conflicted face.

At this moment, even Sect Leader Qiu of the Divine Dynasty Immortal Sect, who is quite confident in his own strength, couldn't help but shake his head repeatedly. Each cloud spirit equals the strength of the tribulation crosser, meaning that if he ever crosses the ultimate celestial tribulation one day and encounters such an Azure Sky Celestial Tribulation, he would face cloud spirits with the exact same

realm, Divine Soul strength, and Immortal Technique prowess as himself! At that time, he would probably find himself at a complete loss against such a tribulation too!

Lin Xuankong, who had been frowning while watching the battle, suddenly spoke up: "There are already forces from the Supreme Origin Realm subtly beginning to transform Immortal Lord Feiyun, indicating that this Azure Sky Celestial Tribulation should be nearing its end!"

The words of Lin Xuankong caused all the strongest Immortal Lords to be startled, and they unexpectedly activated their Immortal Yuan, carefully observing the location of Immortal Lord Feiyun.

Clearly, none of the strongest Immortal Lord-level powerhouses among the Immortal Realm Human Race, Unbounded Mountain Demon Race, or Spirit Platform Buddhism present had sensed or observed any change in Immortal Lord Feiyun. Even Immortal Lord Feiyun herself showed no sign of change, still wholly focused. Yet Lin Xuankong claimed that the power from the Supreme Origin Realm was already transforming Immortal Lord Feiyun... This suggests that Lin Xuankong's sensing ability far surpasses that of any strongest Immortal Lord present!

If this were one thousand five hundred years ago, before Lin Xuankong killed the Demon Child Gang Bone, there would certainly have been a strongest Immortal Lord or top Demon King to refute his claims. But now Lin Xuankong's numerous feats have earned the admiration of every strongest Immortal Lord, so naturally, no one doubts his words; rather, they all focus their attention intently on the position of Immortal Lord Feiyun!

The next moment,

amongst countless cloud spirits formed by the Azure Sky Celestial Tribulation's clouds, the 108th cloud spirit was just extinguished by an already exhausted Immortal Lord Feiyun!

Immediately afterward,

Immortal Lord Feiyun, who was struggling to hold on, seemed to sense something, stopping her action of using the eighteen Eighth-Grade Immortal Artifacts to attack the cloud spirits, and instead, she looked towards the sky with some surprise.

At this moment, in the depths of the sky, the countless cloud spirits forming from the Azure Sky Celestial Tribulation's clouds suddenly began to writhe, gradually reverting to cloud form, and at the center of these countless clouds, a brilliant sphere of light appeared!

After a series of flashes, that sphere emitted an extremely bright light beam, which instantly shone down from the depths of the sky onto the position of Immortal Lord Feiyun, enveloping both her and the eighteen Eighth-Grade Immortal Artifacts she was controlling, while simultaneously, wave after wave of powerful pulsations spread from the light sphere along the light beam to Immortal Lord Feiyun's Immortal Body and those Eighth-Grade Immortal Artifacts!

The strongest Immortal Lords and the cultivators from various Immortal Sects and clans, witnessing this scene from afar, all widened their eyes in astonishment, their expressions showing a touch of excitement and a hint of envy.

No matter how slow their reactions, everyone now clearly understood that, just as Lin Xuankong said, the first to choose to cross the final celestial tribulation in fifteen hundred years, Immortal Lord Feiyun, has finally crossed the legendary Azure Sky Celestial Tribulation, said to have killed more than three hundred strongest Immortal Lords. The powerful pulsations created within those light beams indeed originate from the forces of the Supreme Origin Realm, rapidly transforming Immortal Lord Feiyun's Immortal Body and Divine Soul!

In the span of just a few brief breaths,

that light beam descending from the sky suddenly vanished, revealing the Immortal Body of Immortal Lord Feiyun, which had been enveloped within it!

At this moment, Immortal Lord Feiyun was full of joy, and the pulsations radiating from her Immortal Body were incredibly strong, exceeding those generated from the Celestial Buddha Body attained by the Great Success Jade Bright Bodhisattva when he succeeded in his tribulation fifteen hundred years ago by a margin!

It is evident that the more powerful the celestial tribulation, the more thorough the metamorphosis for the strongest Immortal Lord-level powerhouses who cross it. This allows the tribulation crosser to ascend to the Supreme Origin Realm with an even more formidable Immortal Body and strength!

Meanwhile, the Azure Sky Celestial Tribulation clouds in the sky have silently vanished altogether, revealing a brilliantly colored channel above the dense cloud layer!

Chapter 1248: Above the Celestial Tribulation_2

After glancing at the passage, Immortal Lord Feiyun, who had successfully crossed the tribulation and achieved a Celestial Immortal Body, had a look of pride in his eyes.

For hundreds of thousands of years, among the Immortal Realm Human Race's cultivators, not one has succeeded in crossing the tribulation! That Great Success Jade Bright Bodhisattva who succeeded fifteen hundred years ago was also of the Human Race, but his path of cultivation was Buddhist techniques, different from the Immortal Path of Immortal Lord Feiyun and other strongest Immortal Lords, after all, one is an Immortal, the other a Buddha, the paths are different!

It can be said that Immortal Lord Feiyun is the only one among the Immortal Realm Human Race cultivators in hundreds of thousands of years to succeed in crossing the tribulation, and he crossed the legendary Azure Sky Celestial Tribulation, which is more dangerous than the Five Elements Extermination Tribulation! With such an achievement, how can Immortal Lord Feiyun not be proud!

At this moment, Immortal Lord Feiyun's immortal body was rapidly heading towards the location of the passage, drawn by its colorful brilliance!

Floating in the air, Immortal Lord Feiyun, rather excited, cupped his hands towards the many Immortal Lord-level powerhouses of the Spiritual Crane Immortal Sect who were watching the scene, "Fellow Daoists, respected seniors, Feiyun is grateful for your concern. Today, I am fortunate to have succeeded in crossing the tribulation. I hope all fellow Daoists and seniors can also succeed soon, so we may meet again in the Supreme Origin Realm!"

The many strongest Immortal Lord-level powerhouses from the Immortal Realm Human Race, the Unbounded Mountain Demon Race, and the Spirit Platform Buddhism, responded by cupping their hands in greeting, continually offering congratulations to Immortal Lord Feiyun as he floated upwards!

As Immortal Lord Feiyun prepared to ascend to the Supreme Origin Realm, his gaze swept across the crowd and finally rested on Lin Xuankong. He then bowed deeply and said:

"In this tribulation, although I, Feiyun, was long prepared and confident, I never expected to encounter the Azure Sky Celestial Tribulation, one of the legendary three deadly tribulations. If not for Immortal

Lin's assistance, giving me eighteen invaluable eighth-grade immortal artifacts, even if I had exerted all my strength, I would have had no chance of crossing this tribulation today!

After ascending to the Supreme Origin Realm, if Feiyun can secure a foothold there, I will surely await Immortal Lin's arrival! One day, when Immortal Lin reaches the Supreme Origin Realm, whatever the need, Feiyun will spare no effort!"

Seeing this, Lin Xuankong cupped his hands and replied, "Immortal Lord Feiyun, you are too kind! We are all cultivators of the Golden Dragon Immortal Realm Human Race, no need for formalities. Moreover, those eighteen eighth-grade immortal artifacts were just a small handlift, nothing worth mentioning!"

The other numerous strongest Immortal Lord-level powerhouses standing behind Lin Xuankong couldn't help but feel some emotion when they saw Immortal Lord Feiyun, now a Celestial Immortal and about to ascend to the Supreme Origin Realm, show such gratitude to Lin Xuankong.

The only one in the entire Golden Dragon Immortal Realm who can make a Celestial Immortal, especially one as proud as Immortal Lord Feiyun, act so respectfully, is Lin Xuankong alone!

Moreover, what Lin Xuankong has gained is not just the gratitude of one Immortal Lord Feiyun, but also that of the Jade Bright Celestial Buddha, who ascended to the Supreme Origin Realm fifteen hundred years ago!

With everything concluded,

Immortal Lord Feiyun took one last look at the Golden Dragon Immortal Realm, where he had practiced cultivation for tens of thousands of years, and with a flash, disappeared into the colorful passage.

Many strongest Immortal Lord-level powerhouses, upon seeing Immortal Lord Feiyun's immortal body vanish into the colorful passage, had a few more shades of envy in their eyes, yet even more of them turned their eager gazes towards Lin Xuankong!

All these strongest Immortal Lord-level powerhouses clearly understand that if one day they decide to face the final celestial tribulation, their success in crossing the tribulation is closely related to this foremost person of the Golden Dragon Immortal Realm, Immortal Lin!

At this moment, Lin Xuankong activated the divine soul of the Supreme Realm and simultaneously employed the Nine Gates Celestial Eye, which had already reached a deep realm and was near Perfection Realm, to carefully view the colorful passage, as an imperceptible red light instantly traveled thousands of miles, landing on Immortal Lord Feiyun who had just passed through the passage.

Many times, he had heard cultivators of the Profound Yin Demon Sect, demon kings of the Unbounded Mountain, and the Earth Immortals of the Immortal Realm Human Race speak of the Upper Realm, yet what the Upper Realm truly looked like was naturally a profound curiosity and great longing in his mind!

After all this,

Lin Xuankong slightly closed his eyes, carefully sensing the information transmitted by the thread of red light from the Nine Gates Celestial Eye attached to Immortal Lord Feiyun!

He saw Immortal Lord Feiyun's immortal body vanish into the colorful passage, rapidly advancing along the passage connecting the Supreme Origin Realm and the Golden Dragon Immortal Realm, seeming to traverse billions of miles in just an instant!

Immediately after,

light flickered before Immortal Lord Feiyun's eyes, revealing a vast space in front of him!

This space was filled with numerous sculptures, each immense and nearly ten thousand feet tall, exuding a wave of energy even greater than that emanating from Immortal Lord Feiyun's metamorphosed immortal body!

This sight made Lin Xuankong furrow his brows; those sculptures resembled heavenly immortals not at all but instead had bizarre features, such as crimson eyes and vertical pupils, faces covered with a multitude of eyes, or single-horned heads... All without exception, these statues strikingly resembled the

appearances of the demon race powerhouses from the Profound Yin Demon Sect Lin Xuankong had seen!

The sculptures, beyond their bizarre forms similar to those of the demon race, all seemed to fix their somewhat lively eyes on the exit of the passage! The eyes of these statues bulged outward, their pupils turning crimson, seeming ready to emit some strange light, about to launch an attack on Immortal Lord Feiyun!

Through the red light, through Immortal Lord Feiyun's eyes, seeing such an eerie and unusual situation at the entrance of the Supreme Origin Realm, Lin Xuankong immediately furrowed his brow, thinking to himself:

"After successfully crossing the tribulation, the locations where the strongest Immortal Lords from the Immortal Realm Human Race are supposed to ascend to the Upper Realm should definitely have numerous Celestial Immortals, as immortals and demons follow different paths! But what is with these present circumstances? Why are there so many demon statues here, making it seem like they've arrived at a gathering place for Profound Yin Demon Sect demon heads?"

Just as this thought crossed his mind, Lin Xuankong saw all thirty-six pairs of eyes from the gigantic demon race sculptures shoot out crimson beams of light, all speeding terrifyingly fast towards Immortal Lord Feiyun!

Just because of the joy of having crossed the tribulation, Immortal Lord Feiyun's face suddenly changed when faced with this situation. He mobilized the supreme primordial power within him at the fastest possible speed, setting those eighteen eighth-grade immortal artifacts, which had already undergone some metamorphosis, into motion, forming layers of protection in front of him!

"Sizzling sound..."

The crimson beams of light, carrying terrifying power, struck against the immortal artifacts that Immortal Lord Feiyun had activated.

Luckily, Immortal Lord Feiyun reacted swiftly, hastily activating those immortal artifacts without missing a single attack from the crimson beams of light, but the continuous assault of the crimson beams from

the Profound Yin Demon Sect's demon statues swiftly extinguished the supreme primordial power Feiyun had imbued into the eighteen eighth-grade immortal artifacts!

Desperately holding up his defense, Immortal Lord Feiyun anxiously looked around, seeking a way to escape, lest he be held back by the attacks launched by the thirty-six demon sculptures and exhaust the hard-earned supreme primordial qi!

Yet this grand hall was exceedingly vast, seemingly without doors or windows, constructed entirely of special materials and covered in various demon patterns!

At this moment, a tall demon body suddenly emerged from the rear of one of the Profound Yin Demon Sect's demon sculptures. This demon powerhouse was the very same Initial Tier Celestial Demon under Qingmu Celestial Demon's order, guarding the ascension passage. Though his body was humanoid, his face was strangely configured with a protruding double mouth forming a sharp beak, and his face had monkey-like characteristics with a sharp nose, resembling a bird's appearance!

Chapter 1249: The Celestial Demon's Influence

The Initial Tier Celestial Demon appearing behind the Demon Race sculpture looked at the struggling Immortal Lord Feiyun and smirked:

"The Golden Dragon Immortal Realm is indeed peculiar,

clearly it has already approached the End of Dharma Era,

yet strangely there are so many High-Grade Immortal Artifacts!

That Jade Bright Little Celestial Buddha, when ascending to my Upper Realm, having a rare Eighth-Grade Immortal Artifact was one thing, but it's surprising that there are cultivators with so many Eighth-Grade Immortal Artifacts!

Hahaha, initially I thought Boss Qingmu's assigned task was troublesome, but it turned out to be a lucrative venture!

I say, dear Fairy, given you are already encircled by my Thirty-Six Celestial Eagle Array, it's best to surrender quietly!

The attacks from this Thirty-Six Celestial Eagle Array are stronger than the so-called Azure Sky Killing Tribulation you just went through by hundreds, even thousands of times!

Hahaha, surrender yourself and I can spare you some suffering,

but if you persist in resisting, you, a mere Initial Tier Celestial Immortal, will end up like that Jade Bright Little Celestial Buddha, enduring endless torment of being washed by the Water of Ligu in the Heaven-Suppressing Prison!"

The struggling Immortal Lord Feiyun, after undergoing Metamorphosis to Celestial Immortal, had her strength surge tens of times, and gained the endless lifespan that only Celestial Immortals possess. She thought upon arriving in this Supreme Origin Realm, she'd witness broader horizons, but who knew upon leaving the Golden Dragon Immortal Realm, she ended up trapped in this terrifying Demon Sect Array.... At this moment, facing the arrogant Bird-faced Celestial Demon, Immortal Lord Feiyun's heart continued to sink.

What shocked Immortal Lord Feiyun the most was the mention of Jade Bright Celestial Buddha,

in the Golden Dragon Immortal Realm, because Jade Bright Celestial Buddha was the strongest who ascended to the Supreme Origin Realm for the first time in hundreds of thousands of years, so for fifteen hundred years, in the Golden Dragon Immortal Realm, apart from Lin Xuankong, the one most discussed and envied was Jade Bright Celestial Buddha!

Yet after Jade Bright Celestial Buddha ascended to the Upper Realm, she did not reach the Buddhist Realm of the Supreme Origin Realm, but fell into the hands of the Celestial Demon, imprisoned in some Heaven-Suppressing Prison?

This news was akin to a thunderbolt, making Immortal Lord Feiyun's face turn extremely ugly, who was initially joyful due to her transformation into a Celestial Immortal body and ascension to the Upper Realm.

Yet Immortal Lord Feiyun has always been proud and ambitious, how could she possibly yield to the Celestial Demon before her!

After her expression changed for a moment, Immortal Lord Feiyun suppressed the shock in her heart, fully activating the eighteen Eighth-Grade Immortal Artifacts gifted by Lin Xuankong.

Although Immortal Lord Feiyun had just successfully crossed the tribulation and ascended to the Supreme Origin Realm,

the tribulation she went through was even more perilous than the Five Elements Extermination Tribulation experienced by Jade Bright Celestial Buddha, being the dangerous and terrifying Azure Sky Killing Tribulation. After such a perilous tribulation, the metamorphosis and enhancement it brought to Immortal Lord Feiyun naturally surpassed those received by Jade Bright Celestial Buddha at the time of tribulation, even more significant than those obtained by ordinary strongest Immortal Lords of the past tens of thousands of years in the Golden Dragon Immortal Realm!

After this crossing the tribulation process ended, the Supreme Primordial Power contained in the tribulation that Immortal Lord Feiyun obtained became more abundant, so even though she had just completed the crossing the tribulation, her strength was no longer at its earliest stage as an Initial Tier Celestial Immortal but had already taken a big step forward within the Initial Tier Celestial Immortal Realm, even though she had not reached the Mid-grade of the Initial Tier Celestial Immortal Realm, she had progressed nearly halfway!

The most important thing is,

along with Immortal Lord Feiyun, there was also the eighteen Eighth-Grade Immortal Artifacts gifted by Lin Xuankong being washed and metamorphosed by the tribulation!

These eighteen already extremely powerful Eighth-Grade Immortal Artifacts, after undergoing such a powerful tribulation washing and metamorphosis, had already surpassed the Eighth-Grade Immortal Artifact owned by Jade Bright Celestial Buddha before once, not to mention the number was considerably large, full eighteen pieces, which allowed Immortal Lord Feiyun, though a bit challenging when resisting the Celestial Demon Array, to still have enough force to fight back!

After dozens of breaths,

Immortal Lord Feiyun, who had adapted to the attack rhythm of the Celestial Demon sculptures, suddenly whispered lightly during resistance, thus maximizing the power of her Flying Cloud Immortal Technique, fully empowering the eighteen Eighth-Grade Immortal Artifacts!

Immediately,

these eighteen Eighth-Grade Immortal Artifacts, originally swiftly shuttling within the space, warding off the attacks of the Celestial Demon Array, were now shining brightly and swathed in copious refined Immortal Yuan and electric light. This empowerment made the flight speed of the eighteen Eighth-Grade Immortal Artifacts even fiercer, completely transforming into a series of phantoms while traversing space, effortlessly blocking all attacks from the Celestial Demon Array!

Seeing this, Immortal Lord Feiyun, who activated the Eighth-Grade Immortal Artifacts and Flying Cloud Immortal Technique, perceived the surroundings, her tense expression slightly eased, and developed a preliminary understanding of the differences between the Supreme Origin Realm and the Golden Dragon Immortal Realm.

If at this moment in the Golden Dragon Immortal Realm, not to mention the Eighth-Grade Immortal Artifacts activated by Feiyun, who had become a Celestial Immortal, even a normal High-Grade Earth Immortal activating such mighty Eighth-Grade Immortal Artifacts would be able, with utter ease, to completely destroy the spatial structure of the Golden Dragon Immortal Realm, forming patches of chaotic dark space!

But in this Supreme Origin Realm,

Feiyun, an Initial Tier Celestial Immortal, with full effort initiating the Eighth-Grade Immortal Artifacts that possessed a trace of Divine Artifact power and launching a complete attack, unexpectedly couldn't make the space within this Supreme Origin Realm produce any fluctuation or destruction, and even the battlefield ripples created during the attack with those eighteen metamorphosed Eighth-Grade Immortal Artifacts couldn't cause much destruction to the ground's bricks, at most only stirred up some swirling dust...

Chapter 1250: Celestial Demon Forces (Part 2)

The world structure of this Supreme Origin Realm is evidently completely different from that of the Golden Dragon Immortal Realm. It possesses a more formidable and mystical world structure, and even

a single brick, a single blade of grass, or a tree in this Supreme Origin Realm is far sturdier than some low-grade Immortal Artifacts of the Golden Dragon Immortal Realm!

Upon sensing this, the Flying Cloud Immortal furrowed her eyebrows once more.

Arriving in such a mysterious and utterly different world, if not directly falling into the trap of this Bird-faced Celestial Demon, I would surely be able to experience many landscapes completely different from those in the Golden Dragon Immortal Realm, and have the opportunity to grow step by step!

However, the current situation is quite dire. Although relying on the Flying Cloud Immortal Technique and eighteen Eighth-Grade Immortal Artifacts that have undergone Metamorphosis temporarily holds off the Celestial Demon Array set by that Bird-faced Celestial Demon, what is the strength of this Bird-faced Celestial Demon? Are there other Celestial Demons nearby? Where exactly is this place—is it the territory of the Demon Sect of the Supreme Origin Realm or the territory of the Human Race Celestial Immortals?

All of this is unknown..... As Immortal Lord Feiyun's mind raced, she continually observed the operational patterns of the Celestial Demon Array before her, hoping to identify any flaws to aid her escape.

At this moment, the Bird-faced Celestial Demon laughed eerily once more and spoke:

"The Golden Dragon Immortal Realm is indeed somewhat peculiar. You, a mere Little Celestial Immortal who has just ascended to the Supreme Origin Realm, already possess power equivalent to that of a Cultivator who has been practicing in the Supreme Origin Realm for thousands of years. Before you ascended, you must have faced at least the Five Elements Extermination Tribulation or the Azure Sky Killing Tribulation; otherwise, it would have been impossible to achieve such an astonishing Metamorphosis!

Your ability to overcome the Five Elements Extermination Tribulation or the Azure Sky Killing Tribulation must be due to these eighteen Eighth-Grade Immortal Artifacts!

I see the word 'Profound Void' engraved on each of your eighteen Eighth-Grade Immortal Artifacts. It seems this 'Profound Void' is either your title or the name of the Artifact Refiner who crafted these eighteen Immortal Artifacts!

With eighteen Eighth-Grade Immortal Artifacts, plus an additional Eighth-Grade Immortal Artifact from that Jade Bright Little Celestial Buddha, these nineteen Eighth-Grade Immortal Artifacts alone are enough to overturn the Lower World Golden Dragon Immortal Realm. The root of the problem in the Golden Dragon Immortal Realm likely lies in these nineteen Eighth-Grade Immortal Artifacts!

Little Celestial Immortal, recount to me the process by which you obtained these eighteen Eighth-Grade Immortal Artifacts, and how the Profound Yin Saint Sect in the Golden Dragon Immortal Realm experienced upheaval. Then, hand over half of these eighteen Eighth-Grade Immortal Artifacts to me! If you willingly surrender and hand over nine Eighth-Grade Immortal Artifacts, I will immediately stop the array and allow you to leave this passage entrance. Then, you will have the opportunity to leave this Red Water Holy City and find your Human Race's Immortal City!"

Upon hearing this, Immortal Lord Feiyun coldly laughed, "How laughable. If I were to believe a single word from the Demon Race, it would mean I've reached the height of foolishness! Moreover, why would I need your permission to leave this passage entrance or this so-called Red Water Demon City when my sword will naturally carve out a path!"

Before Immortal Lord Feiyun could finish speaking, eight of the eighteen Eighth-Grade Immortal Artifacts she manipulated transformed into faint phantoms, piercing the neck joints of the surrounding Celestial Demon statues at lightning speed. Instantly, the eight statues creaked, losing function, and their previously activated attacks ceased completely!

Immortal Lord Feiyun's eyes lit up with joy. She soared into the air, heading toward a corner of the great hall, while the remaining ten Eighth-Grade Immortal Artifacts guarded around her body, crashing into the wall in the corner of the great hall with her!

The bricks of the Supreme Origin Realm are many times harder than those in the Golden Dragon Immortal Realm, but Immortal Lord Feiyun is already a capable Initial Tier Celestial Immortal, wielding Eighth-Grade Immortal Artifacts that have undergone Metamorphosis.

With her full force, the thick wall trembled under the impact, causing bricks and stones to splatter, breaking a large hole. The external light immediately poured in, along with the world vibrations and dense Supreme Primordial Qi of the Supreme Origin Realm!

Feeling the air filled with Supreme Primordial Qi and the external brightness, Immortal Lord Feiyun's eyes gleamed with divine light. She transformed into a stream of light, proceeding toward the outside, accompanied by eighteen Eighth-Grade Immortal Artifacts in a row!

Seeing this change, the Bird-faced Celestial Demon remained unfazed.

It sneered, "In this Red Water Holy City, a mere Initial Tier Celestial Immortal actually dares to think of escaping; how utterly laughable!"

After speaking, the Bird-faced Celestial Demon took a deep breath and suddenly let out a howl. The sound turned into intensely powerful waves that spread around—it was clearly summoning its subordinates surrounding the great hall...

....

Just as Immortal Lord Feiyun broke through the wall at the passage entrance and truly stepped into the great world of the Supreme Origin Realm, the red light that had been constantly transmitting information to Lin Xuankong was instantly severed by the world vibrations of the Supreme Origin Realm!

Silently observing everything happening in the great hall at the passage entrance, Lin Xuankong frowned, stopping the activation of the Nine Gates Celestial Eye.

The events that just transpired at the passage entrance,

not only shocked the heart of Immortal Lord Feiyun, newly arrived in the Supreme Origin Realm,

but also surprised Lin Xuankong, the instigator behind the failure of the Golden Dragon Immortal Realm's Demon Child Gang Bone and the Profound Yin Demon Sect.

In his original plan, Lin Xuankong thought that even after offending the Thousand Illusion Saint Monarch by killing the Demon Child Gang Bone and disrupting some of its arrangements, it wouldn't bring immediate danger upon his ascension to the Upper Realm. After all, such a powerful so-called Thousand

Illusion Saint Monarch couldn't possibly have much attention for a minor Lower World Cultivator like himself!

He never expected that the World Passage for the Golden Dragon Immortal Realm's ascension to the Supreme Origin Realm would be controlled by the Demon Race....

This means that as soon as I ascend to the Supreme Origin Realm, I have to deal with these formidable Celestial Demons. Even if I don't face that Thousand Illusion Saint Monarch directly, facing those Celestial Demons who have been cultivating in the Supreme Origin Realm for who knows how long is still a headache!

It appears that,

in the Supreme Origin Realm,

the influence of the Human Race Celestial Immortals, the influence of the Celestial Demon Race, and the influence of the Celestial Buddha of the Buddhist Sect may not be optimistic!

Has the strength of the Celestial Demons become so strong in the Supreme Origin Realm?

As Lin Xuankong frowned in thought, Immortal Lord Luoshui Yaan Mingyu, who stood beside him, seemed to notice Lin Xuankong's troubles and communicated telepathically:

"Xuankong, ever since Immortal Lord Feiyun ascended into the passage of the Supreme Origin Realm, you've been frowning; did you perceive something, or did you see something wrong through some Immortal Technique?"

Seeing his mentor, Immortal Lord Luoshui, questioning him, Lin Xuankong slightly shook his head, forcing a seemingly natural smile. "Nothing much, just some doubts about the Luo Water Array suddenly came to mind, and I've been pondering for a while without any good solutions, so I'm a bit troubled!"

The events occurring at the passage entrance in the Supreme Origin Realm and that great hall are utterly sensational,

especially since this matter could be a calamity capable of shaking the Dao Heart of any Cultivator in the Golden Dragon Immortal Realm!

Even if my mentor, Immortal Lord Luoshui Yaan Mingyu, has always had a steadfast Dao Heart, she probably wouldn't be able to accept that ascending to the Supreme Origin Realm would land one in the territory of the Celestial Demon Race, facing fatal crisis!

As I haven't thought of any adequate solution to this matter yet, informing my mentor Yaan Mingyu would be futile, so it's better to keep it to myself for now!

Immortal Lord Luoshui Yaan Mingyu, being intelligent and wise, saw through Lin Xuankong's forced smile, and naturally understood that her disciple's current concerns and troubles likely weren't about the Luo Water Array. There had to be a reason the disciple was unwilling to speak, so asking further would be pointless. It was best to let it rest for now!

At this moment, Lin Xuankong looked around, noticing that besides Immortal Lord Luoshui Yaan Mingyu, all the present Strongest Immortal Lord-level Powerhouses and Cultivators from various Immortal Sects and Clans were excitedly and eagerly discussing Immortal Lord Feiyun's ascension today, many showing envy in their eyes.
