

Stronger 1251

Chapter 1251: Three Solutions

These cultivators and strongest Immortal Lord-level powerhouses,

clearly none of them sensed what happened in the hall at the entrance of the supreme Origin Realm world passage,

furthermore, no one knows that the much-envied Immortal Lord Feiyun is now in a precarious situation, with his life or death uncertain!

Even Sect Leader Qiu of the Divine Dynasty Immortal Sect, who like Lin Xuankong possesses a supreme realm divine soul from the Golden Dragon Immortal Realm, was quite delightedly discussing with his peers about Immortal Lord Feiyun's grand feat today of showcasing divine might and overcoming the Azure Sky Killing Tribulation!

Of course, many strongest Immortal Lord-level powerhouses and cultivators, apart from discussing Feiyun's tribulation, nearly half of the cultivators and strongest Immortal Lords frequently glanced at Lin Xuankong, eyes gleaming with eagerness!

All the cultivators and strongest Immortal Lords understood that today's Lin Xuankong, by aiding Immortal Lord Feiyun to cross a tribulation never before faced by anyone, meant that in the future, if they could establish a relationship with this Immortal Lin, their tribulations might be easier, because unlike the unprecedentedly talented Immortal Lord Feiyun, the heavenly tribulations they might face in the future could be far weaker than the Azure Sky Killing Tribulation Feiyun encountered. Probably, without the Eighth-Grade Immortal Artifacts, only Fifth, Sixth, or Seventh-Grade Immortal Artifacts would suffice to ease through it!

In their hearts, to Immortal Lin, eighteen Eighth-Grade Immortal Artifacts meant nothing, so Fifth, Sixth, or Seventh-Grade Immortal Artifacts would be even less significant to him!

At this moment,

standing outside the Demon Suppression Hall at the First Spirit Peak's Demon Suppression Spirit Peak, Lin Xuankong had almost become the sole hope in the eyes of each cultivator and strongest Immortal Lords present, the hope of achieving Celestial Immortal, Celestial Buddha, Celestial Demon!

If it weren't for their significant apprehension and reverence towards Lin Xuankong's strength and status, countless cultivators would have approached by now to present various treasures to Lin Xuankong, desperately trying to forge a relationship with him!

However,

while the many strongest Immortal Lords and cultivators were eagerly watching Lin Xuankong,

the Immortal Lin, whom they regarded as their only hope, furrowed his brows and transformed into a streak of light, returning directly to his cave abode at the First Spirit Peak.

This left those strongest Immortal Lords and cultivators who were paying attention to Lin Xuankong somewhat disappointed....

....

Several days later,

in the Tier Nine Celestial Demon Bone Secret Realm,

atop the tallest central peak of the secret realm, Lin Xuankong stood at the entrance of Xiuyi Hall, looking at the artifact refining genius Xiao Xiuyi in front of him, and spoke:

"Since you've witnessed the situation when Immortal Lord Feiyun crossed his tribulation, Miss Xiao, you should be able to sense the metamorphosis that occurred with the eighteen Eighth-Grade Immortal Artifacts after enduring the Azure Sky Killing Tribulation!

I also sensed it at that time. Unfortunately, my talent in the path of artifact refining pales in comparison to Miss Xiao's. Even if I can sense the subtle changes before and after the transformation of the Immortal Artifacts, I am unable to fully replicate those specific details during the artifact refining process! I wonder if Miss Xiao has any insights?"

This artifact refining genius Xiao Xiuyi, her appearance remained the same as two thousand years ago, with attire similar to when Lin Xuankong first met her, dressed in black, with a figure both tall and graceful.

However, the cultivation realm of this artifact refining genius had reached the early stage of the Strongest Immortal Lord Realm. Not only her, but Lin Xuankong's wives and Little Hu had also long reached the Strongest Immortal Lord Realm.

Among them, Alchemy Master Young Lady Lii Xiaolan and Third Lady Xiaoo Ying'Er had reached the mid-grade of the Strongest Immortal Lord Realm, just a step behind Lin Xuankong's Strongest Immortal Lord Perfection Realm. After all, no matter how talented these two young ladies were, they couldn't compare to Lin Xuankong, who grows more vigorous with age!

Second Lady Zhao Yufei's talent was slightly inferior, and having spent a considerable amount of time over two thousand years managing the entire Celestial Demon Bone Secret Realm, her realm was at the early stage of the Strongest Immortal Lord Realm! But with Lin Xuankong's abnormal talent effect of "Wives, Children, Elders, and Youngsters," even Zhao Yufei, a cultivator with decent talent, could at least cultivate to the Ninth-Grade Earth Immortal Realm in two thousand years, even if it were a pig!

Of course, in recent years, because Little Hu and others had also progressed from the Ninth-Grade Earth Immortal Realm to the early stage of the Strongest Immortal Lord Realm, they had more time to assist Zhao Yufei with the complex affairs of managing the Tier Nine Celestial Demon Bone Secret Realm, so in the past few hundred years, Zhao Yufei, the manager of the Tier Nine Celestial Demon Bone Secret Realm, had become much more at ease!

Even though the number of humans in the Tier Nine Celestial Demon Bone had reached nearly a hundred billion, with many cultivators emerging among them, becoming a 'Little Golden Dragon Immortal Realm' in the Secret Realm-like fashion, Zhao Yufei remained at ease; after all, with Little Hu and other strongest Immortal Lord-level powerhouses managing the human race in the Celestial Demon Bone Secret Realm, who would dare not comply...

As a result, the number of strongest Immortal Lords in the Tier Nine Celestial Demon Bone Secret Realm had reached twelve!

To know, among the entire human race in the Golden Dragon Immortal Realm, after excluding the Great Success Jade Bright Bodhisattva and Immortal Lord Feiyun who have ascended to the supreme Origin Realm, there are only thirty of the strongest Immortal Lord-level powerhouses!

The number of strongest Immortal Lords in Lin Xuankong's Tier Nine Celestial Demon Bone Secret Realm is nearly half of the strongest Immortal Lords in the Golden Dragon Immortal Realm humans! That is to say, even without counting Lin Xuankong's unmatched absolutely strongest Immortal Lord, just the wives and subordinates in Lin Xuankong's Tier Nine Celestial Demon Bone Secret Realm, relying on Lin Xuankong's Immortal Artifacts, are already enough to contend with the entire Immortal Realm!

Chapter 1252: Three Solutions (Part 2)

If the Human Race's strongest Immortal Lords in the Golden Dragon Immortal Realm, the Demon Kings of the Unbounded Mountain Demon Race, and those Great Accomplishment Bodhisattvas of the Spirit Platform Buddhism were to know that there was such a terrifying force in the Golden Dragon Immortal Realm's Secret Realm, those Immortal Lord-level powerhouses would probably be utterly astonished on the spot!

At this moment,

after hearing Lin Xuankong mention the Metamorphosis of those Eighth-Grade Immortal Artifacts, Xiao Xiuyi pondered slightly, then frowned and said:

"When Immortal Lord Feiyun ascended, although I hid in the Demon Suppression Hall to observe carefully, the distance between Immortal Lord Feiyun and those Eighth-Grade Immortal Artifacts was quite far, and I couldn't closely comprehend and observe how much those Eighth-Grade Immortal Artifacts changed after metamorphosis. However, I sensed the fluctuations produced by those Eighth-Grade Immortal Artifacts after metamorphosis quite clearly. These days, after careful reflection, I vaguely have some direction in artifact refining!

After all, the information obtained is very limited, and wanting to truly refine that kind of metamorphosed High-Grade Immortal Artifact is definitely not a one-day achievement; it would take at least thousands or tens of thousands of years of repeated trials!

But I'm sure, once refined successfully, the Immortal Artifacts appearing would definitely be many times stronger than Ninth-Grade Immortal Artifacts, whether in attack or defense prowess; they would be at least several tens of times stronger! Perhaps the Immortal Artifacts refined then should be called Tenth-Grade Immortal Artifacts?

Moreover, to refine an Immortal Artifact of this level, even for me, it is estimated to be extremely difficult to succeed. The materials consumed would be hundreds or thousands of times more than those for Ninth-Grade Immortal Artifacts. Therefore, by then, probably even exhausting all materials in the Golden Dragon Immortal Realm and the Celestial Demon Bone Secret Realm, the number of powerful Immortal Artifacts that could be refined wouldn't be many, at most a few!"

"Tenth-Grade Immortal Artifact?

Stronger tens of times more in attack and defense ability than Ninth-Grade Immortal Artifacts?

Estimated to be able to refine a few pieces?"

Even though having a profound understanding of the Artifact Refining Talent of this artifact refining genius Miss Xiao Xiuyi, hearing this, Lin Xuankong couldn't help but be somewhat surprised.

Lin Xuankong is not only a Supreme Realm Divine Soul in the Golden Dragon Immortal Realm but also the only cultivator in the Golden Dragon Immortal Realm's Human Race who has cultivated the Nine Gates Celestial Eye to near Perfection. Relying on these two Divine Techniques, he's completely confident that his observation of those eighteen metamorphosed Eighth-Grade Immortal Artifacts was far more detailed than this artifact refining genius Miss Xiao Xiuyi's!

However, even though his artifact refining level is already at Ninth Grade, after observing so carefully, he still has no clue on how to replicate that meticulous metamorphosis, even in his heart thinking almost for certain that in the Golden Dragon Immortal Realm, it's impossible to manufacture those metamorphosed High-Grade Immortal Artifacts!

Yet, this artifact refining genius Miss Xiao, relying solely on sensing the fluctuations of those metamorphosed High-Grade Immortal Artifacts, already has such clear insight and is somewhat confident!

Let alone this artifact refining genius saying it takes thousands or tens of thousands of years to refine such 'Tenth-Grade Immortal Artifacts', even if this artifact refining genius said it takes hundreds of thousands or millions of years, Lin Xuankong would definitely be able to wait, and with great happiness and delight!

Miss Xiao, however, seemed to have thought of something, continuing to frown while saying:

"It's a pity I've only seen Immortal Lord Feiyun's Crossing the Tribulation once, only sensed the changes and fluctuations of those metamorphosed High-Grade Immortal Artifacts once. If I could see the strongest Immortal Lord-level powerhouses crossing tribulations a few more times, and sense the changes and fluctuations of those metamorphosed High-Grade Immortal Artifacts a few more times, perhaps the time needed for me to refine them would be faster!"

Hearing Miss Xiao say this, Lin Xuankong couldn't help but frown,

relying on the red light of the Nine Gates Celestial Eye, he personally saw Immortal Lord Feiyun ascend to the Supreme Origin Realm afterwards, already knowing the current situation of Golden Dragon Immortal Realm cultivators, who would fall into the Celestial Demon's territory upon Ascension to the Upper Realm, and might even fall into the territory of the Thousand Illusion Saint Monarch Celestial Demon, whose strength is unfathomable!

Under such circumstances, Lin Xuankong had long decided that before he had certain assurance that he and other ascenders could escape the Celestial Demon's power, he would definitely advise the strongest Immortal Lord-level powerhouses in the Golden Dragon Immortal Realm not to cross tribulations, so as to avoid becoming prisoners of the Celestial Demons in the Supreme Origin Realm, subjected to endless years of torment!

Hence, Miss Xiao's idea would be difficult to realize!

After letting out a slight sigh, Lin Xuankong frowned and said: "Since Miss Xiao already has insight, then focus on artifact refining; no matter how long it takes or how many materials are needed, from my side there's absolutely no issue, as for the crossing tribulation matter....due to some changes, I'm afraid there won't be any strongest Immortal Lord-level powerhouses crossing tribulations in the next few thousand years!"

Hearing this, the artifact refining genius Miss Xiao didn't say anything else, nodded to Lin Xuankong, and turned back to Xiuyi Hall.

Lin Xuankong stood atop the highest peak of the Tier Nine Celestial Demon Bone Secret Realm, gazing out at the vast and boundless world.

In his heart he mused: Miss Xiao's refinement of 'Tenth-Grade Immortal Artifacts' can naturally be considered a future trump card, employed as a means to confront the Celestial Demons upon Ascension to the Supreme Origin Realm!

But relying solely on this approach, thinking it could allow him and the Golden Dragon Immortal Realm cultivators to escape the Celestial Demon's control and territory after Ascension to the Supreme Origin Realm, probably won't suffice!

Besides this approach,

collaborating with Master Immortal Lord Luoshui Yaan Mingyu to comprehend the Luo Water Divine Diagram, striving to elevate the realm of the Luo Water Array to a higher level before crossing the final Celestial Tribulation, could also be considered a pretty decent trump card and strategy! After all, array formations depend not on individual prowess, entirely hinging on the array former's skill level and the materials deployed!

If the Luo Water Array could be evolved to the Fourth Layer, Fifth Layer, or even Sixth Layer Realm, and then with the artifact refining genius Miss Xiao refining a whole slew of Ninth-Grade Immortal Artifacts, using Ninth-Grade Immortal Artifacts to form the Fourth Layer, Fifth Layer, or Sixth Layer Luo Water Array....certainly would be many times stronger than the Celestial Demon Array laid by the Celestial Demon at the Ascension channel entrance encountered by Immortal Lord Feiyun!

The only drawback is, once the Luo Water Array is deployed, it can't be moved freely and quickly, being a passive defensive strategy and trump card!

Thinking to this point,

Lin Xuankong's eyes suddenly brightened,

remembering what he observed at the entrance of the Supreme Origin Realm using the red light of the Nine Gates Celestial Eye!

He secretly thought: Since I could cultivate the Nine Gates Celestial Eye's Demon Technique to such a high realm, nearing Perfection, then surely I could also cultivate some other powerful Demon Techniques of the Profound Yin Demon Sect! If I were to cultivate some particularly powerful Demon Techniques of the Profound Yin Demon Sect to the Perfection Realm, and combine them with my Supreme Realm Divine Soul of the Golden Dragon Immortal Realm, as well as my mastered Perfection Realm Guangqing Illusion Technique, I wonder if I could transform into the appearance of a Celestial Demon during the Ascension to the Supreme Origin Realm?

The most crucial factor is, if I could cultivate some of the potent Demon Techniques of the Profound Yin Demon Sect, and during activation convert the spiritual energy inside the Immortal Body to the Demonic Qi of the Profound Yin Demon Sect's Demon Race powerhouses, then combine it with Guangqing Illusion Technique and other tactics, there should be a certain chance to deceive some Celestial Demons!

This method is worth a try!

No matter if this method works or not...the various powerful Demon Techniques of the Profound Yin Demon Sect are still very strong, as long as I don't employ the cruel cultivation methods of those Profound Yin Demon Sect demons, I can wholly cultivate those formidable Demon Techniques to enhance my prowess, after all, cultivation techniques in themselves aren't classified as righteous or evil, immortal or demon, it's all about how they are practiced and those who wield them!

With this thought,

Lin Xuankong no longer hesitated, his mind moved, already leaving the Secret Realm of the Tier Nine Celestial Demon Bone, returning to his cave residence at the Spiritual Crane Immortal Sect's Demon Suppression Spirit Peak.

After leaving the cave residence, Lin Xuankong went directly towards the Demon Suppression Hall of the Demon Suppression Spirit Peak, where dozens of Demon Lord-level powerhouses captured from the Profound Yin Demon Sect were suppressed by the powerful array set by Immortal Lord Luoshui Yaan Mingyu, confined beneath the Demon Suppression Hall.

Chapter 1253: Demon Technique

These powerhouses of the Profound Yin Demon Sect, being of the Changming kind, possess extremely potent life force,

Moreover, these powerhouses are akin to Demon Lord-level powerhouses similar to the Strongest Immortal Lord Perfection Level, naturally making them exceedingly difficult to kill!

Before the Great Accomplishment Jade Bright Bodhisattva successfully crossed the tribulation, the Strongest Immortal Lord-level powerhouses of the Immortal Realm Human Race were all terrified of the ultimate Celestial Tribulation, because these powerhouses would only face death if they failed the final tribulation, falling immediately!

As for these Demon Lord-level powerhouses of the Profound Yin Demon Sect, most have experienced numerous ultimate Celestial Demon Tribulations, and even the ancient ones might have undergone dozens of such tribulations. Yet, over countless eras, hardly any Demon Lord-level powerhouse has perished in the Celestial Demon Tribulation; most would only be wounded by it!

It can be said that besides Lin Xuankong, almost no Strongest Immortal Lord-level powerhouses of the Immortal Realm Human Race can easily annihilate these Demon Lord-level powerhouses of the Profound Yin Demon Sect. Their sole method to make these powerhouses perish is by imprisoning them under the Demon Suppression Hall, where they gradually erode away their demonic qi, divine soul, demon body, little by little expending all their powerful life force!

Hence, almost every Demon Lord-level powerhouse captured from the Profound Yin Demon Realm by the Strongest Immortal Lord-level powerhouses is imprisoned within the Demon Suppression Hall, having their demonic qi, divine soul, and demon body worn away day and night!

At this moment,

Lin Xuankong stepped into the Demon Suppression Hall, looking up at the array suppressing the entire hall,

This Demon Suppression Array was personally arranged by Immortal Lord Luoshui Yaan Mingyu, employing a full one hundred and eight Fourth-Grade Immortal Artifacts, named the Demon Annihilation Array!

Lin Xuankong glanced at the one hundred and eight Fourth-Grade Immortal Artifacts surrounding the Demon Suppression Hall, raised his hand to activate a strand of Immortal Yuan, which fell on the location of one of the Fourth-Grade Immortal Artifacts. Instantly, the entire Demon Annihilation Array roared, and a shimmering spirit vein transference appeared at the center of the Demon Suppression Hall.

Lin Xuankong's form moved, entering that shimmering spirit vein transference,

In the next moment,

the scenery before his eyes changed, entering the first layer of the Demon Annihilation Array.

The first layer of the Demon Annihilation Array, vast in area, stood with nearly a thousand cultivation halls. At this time, near the entrance of each cultivation hall, Mortal Tier Cultivators from various Immortal Sects and clans were waiting, holding the Spiritual Crane Immortal Sect token to enter and cultivate in the halls.

The nearly thousand cultivation halls of the first layer of the Demon Annihilation Array were arranged by Immortal Lord Luoshui Yaan Mingyu, using the array pattern lock chain of the Demon Annihilation Array to extract the power of divine soul and demon body from those dozens of Demon Lord-level powerhouses of the Profound Void Demon Sect as a source, forming numerous Ninth Grade of the Mortal Tier demons within the halls for the Mortal Tier Cultivators of various Immortal Sects and clans to battle, enhancing their strength and combat experience, while also eroding the power of these Demon Lord-level powerhouses of the Profound Yin Demon Sect!

Besides nearly a thousand cultivation halls in the first layer of the Demon Annihilation Array, there are nine layers below, for First-Grade Earth Immortal, Second-Grade Earth Immortal up to Ninth Grade Realm Earth Immortal-level powerhouses. The demons within these cultivation halls are powered by the array pattern lock chain of the Demon Annihilation Array, extracting the power of divine soul and demon body from the Demon Lord-level powerhouses of the Profound Yin Demon Sect as the source!

Using this method to erode the power of the Demon Lord-level powerhouses of the Profound Yin Demon Sect is truly multifaceted, allowing these younger generation cultivators to gain substantial combat experience, eroding the power of the Demon Lord-level powerhouses of the Profound Yin Demon Sect, and by screening the qualification to enter the cultivation halls, stimulates and rewards the

younger generation cultivators of the Immortal Realm Human Race, Unbounded Mountain Demon Race, and Spirit Platform Buddhism, enhancing their enthusiasm!

At this moment, the countless young cultivators from various Immortal Sects and clans lined up at the entrance of the cultivation halls saw the legendary figure Lin Xuankong, unique in status in the Immortal Realm, entering the first layer of the Demon Annihilation Array. All the Mortal Tier Cultivators from various sects and clans solemnly bowed on one knee, chanting Immortal Lord Lin!

In an instant, the entire first layer of the Demon Annihilation Array saw tens of thousands of cultivators kneeling!

Nowadays, in the entire Golden Dragon Immortal Realm, even the Strongest Immortal Lords of the Immortal Realm Human Race, the top demon kings of the Unbounded Mountain Demon Race, and the Great Accomplishment Bodhisattvas of the Spirit Platform Buddhism hold Lin Xuankong in profound reverence, let alone these young Mortal Tier Cultivators from various sects and clans!

Since the end of the Immortal Demon War in the Golden Dragon Immortal Realm, after Lin Xuankong annihilated Demon Child Gang Bone with a single blow, almost every sect and clan in the Golden Dragon Immortal Realm erected statues of Lin Xuankong in their sect gates and clan sacred places, continuously offering incense, guarding them day and night, to commemorate Lin Xuankong's grand exploits in saving the realm, cleansing the Profound Yin Demon Sect, which harmed the Golden Dragon Immortal Realm for tens of millions of years!

Therefore, Lin Xuankong's name, including his visage and demeanor, is well-known throughout the entire Golden Dragon Immortal Realm, even in the Mortal World, Lin Xuankong's name is familiar among both young and old!

Now Lin Xuankong's prestige surpasses that of Sect Leader Qiu of the Divine Dynasty Immortal Sect, who was once known as the first person of the Immortal Realm, by countless times!

Chapter 1254: Demon Technique (Part 2)

Similarly, thanks to Lin Xuankong's presence and the Demon Suppression Spirit Peak, Demon Suppression Hall, and Demon Annihilation Array here, the Spiritual Crane Immortal Sect has long since risen with the tide. The number of disciples, Earth Immortals, and tributors, among other figures, has already reached the standard of a top-tier sect in the Golden Dragon Immortal World!

Even though the Spiritual Crane Immortal Sect's Sect Leader Li is currently only at the Seventh-Grade Earth Immortal Realm, within the entire Golden Dragon Immortal World, let alone Eighth-Grade Earth Immortals or Ninth-Grade Earth Immortals, even the strongest Immortal Lord-level powerhouses from various Immortal Sects and clans have to greet him as Fellow Daoist Li!

All these changes are naturally attributed to Lin Xuankong; it can be said that Lin Xuankong's ascension to immortality has caused the Spiritual Crane Immortal Sect to prosper immensely!

At this moment, after Lin Xuankong nodded slightly to the tens of thousands of Mortal Tier Cultivators from various sects and clans who were kneeling on one knee, his figure moved and disappeared on the spot. When his figure reappeared, he was already at the deepest layer of the Demon Annihilation Array.

This deepest layer is where the Demon Annihilation Array suppresses dozens of Demon Lord-level powerhouses from the Profound Yin Demon Sect,

Those Demon Lord-level powerhouses from the Profound Yin Demon Sect, originally towering and formidable with their awe-inspiring demon bodies, were now each reduced to a mass, bound and suppressed by countless array pattern lock chains of the Demon Annihilation Array, unable to move even a finger!

Lin Xuankong scanned around, noting that the suppression by the Demon Annihilation Array, after almost two thousand years, still showed no sign of any problem, silently praising inwardly:

Though his current path of arrays has reached the fourth layer of the Luo Water Array, his level of arranging various extraordinarily intricate grand arrays still falls short compared to his master, Immortal Lord Luoshui Yaan Mingyu! Not to mention other aspects, merely setting up such a powerful array to easily suppress dozens of Demon Lord-level powerhouses would require him to carefully contemplate his master's insights and findings, undoubtedly impossible for him to accomplish like his master Yaan Mingyu, who can casually wave a hand and form such a powerful Demon Suppression Array with one hundred and eight Immortal Artifacts!

In the next moment,

Lin Xuankong's figure flickered again, now appearing at the location of a grand hall at the final layer of the Demon Annihilation Array.

This grand hall is constructed exquisitely, with towering magnificence and impressive grandeur, bearing the plaque with four large characters: Demon Artifact Hall.

Even compared with the main halls of top-tier sects of the Immortal Realm Human Race, this hall does not pale in comparison. However, it has one flaw; the only flaw is that due to the collection of various treasures like demon artifacts and unique demon techniques gathered by strongest Immortal Lord-level powerhouses from the Profound Yin Demon Realm, the vicinity of the hall, despite not being surrounded by demonic qi, still feels eerily sinister!

Seated at the entrance of the Demon Artifact Hall at this moment is an old acquaintance of Lin Xuankong — the strongest Immortal Lord Ling Wuji.

Since the Immortal Demon War, every strongest Immortal Lord-level powerhouse of the Immortal Realm Human Race, no longer fearing the demons from the Profound Yin Demon Sect, has set their goals on enhancing their own strength.

This strongest Immortal Lord Ling Wuji is no exception. His guarding of the entrance of the Demon Artifact Hall was not due to the inability of various Immortal Sects and clans to dispatch other powerhouses or high-grade Earth Immortals... It is said this strongest Immortal Lord Ling Wuji has cultivated a remarkably wondrous Immortal Technique from the Divine Dynasty Immortal Sect, capable of converting extremely concentrated demonic qi into concentrated Immortal Yuan or Spiritual Qi!

Currently, the area with the most abundant demonic qi in the entire Golden Dragon Immortal Realm is not the Profound Yin Demon Realm where the Profound Yin Demon Sect once reigned supreme, but rather the deepest layer of the Demon Annihilation Array.

After all, here is where dozens of Demon Lord-level powerhouses of the Profound Yin Demon Sect are imprisoned; all old demon lords who've cultivated for tens of thousands of years their casually emitted fluctuations and demonic qi are sufficient for that strongest Immortal Lord Ling Wuji to convert demonic qi with great ease and joy!

"Immortal Lin, to have come to the Demon Artifact Hall today without prior notice, Wuji did not receive you from afar, and I hope Immortal Lin won't mind!"

This disciple of the first Grand Elder of the Divine Dynasty Immortal Sect, Elder Qiu's strongest Immortal Lord Ling Wuji, stood respectfully before Lin Xuankong and even carried the demeanor of a disciple's courtesy.

Actually, this is quite normal,

As the strongest Immortal Lord Ling Wuji and other strongest Immortal Lords of the Immortal Realm Human Race do not know the experiences of Immortal Lord Feiyun after his ascension to the Supreme Origin Realm.

What these strongest Immortal Lord-level powerhouses know is that Immortal Lord Feiyun relied on the eighteen Eighth-Grade Immortal Artifacts gifted by Lin Xuankong to pass through the Azure Sky Killing Tribulation, known for annihilating over three hundred strongest Immortal Lord-level powerhouses! Without Lin Xuankong's eighteen Eighth-Grade Immortal Artifacts, Immortal Lord Feiyun might have withstood the tribulation clouds' spirits only for eight or ten cycles before exhausting all his Immortal Yuan and perishing completely, as those tribulation clouds' spirits were all top-tier strongest Immortal Lord-level powerhouses equivalent to Immortal Lord Feiyun in strength!

In the eyes of these strongest Immortal Lords of the Immortal Realm Human Race, to successfully pass the final Celestial Tribulation in the future... pleasing and befriending Lin Xuankong seems to be the assured means to completely pass the final Celestial Tribulation!

Thus, this disciple of the first Grand Elder of the Divine Dynasty Immortal Sect, Elder Qiu's strongest Immortal Lord Ling Wuji, though he might address others besides Elder Qiu and Sect Leader Qiu as Fellow Daoists, always treated Lin Xuankong with utmost respect!

Moreover... if he wasn't aware that Sect Leader Qiu and Elder Qiu wouldn't agree, this strongest Immortal Lord Ling Wuji might have sought ways to join the Spiritual Crane Immortal Sect or Luo Water Immortal Sect, as that would undoubtedly bring him closer to Lin Xuankong — a sentiment echoed by many strongest Immortal Lord-level powerhouses and cultivators of the Immortal Realm Human Race and Unbounded Mountain Demon Race, hence the swift growth of the Spiritual Crane Immortal Sect and Luo Water Immortal Sect over these years!

"Fellow Daoist Ling is too kind. I have come to the Demon Artifact Hall this time to peruse some cultivation technique records and jade scrolls of the Profound Yin Demon Sect," Lin Xuankong nodded slightly, directly stating the purpose of his visit.

Upon hearing this, the strongest Immortal Lord Ling Wuji immediately led the way for Lin Xuankong, taking him into the Demon Artifact Hall, through the Treasure Hall where various demon artifacts were stored, reaching the Library Hall where cultivation technique records and jade scrolls of the Profound Yin Demon Sect were kept.

Looking at the numerous large bookshelves lined one after another and the demon sect records and jade scrolls placed on them, the strongest Immortal Lord Ling Wuji spoke:

"Most of the demon techniques from the Profound Yin Demon Sect require the slaughter of living beings, the offering of living beings, the torment of living beings for cultivation, with many needing the collection of life souls, grievances, flesh, bone remnants, and so forth, as well as various special bloodlines and talents, although once achieved, the power and effects of many demon techniques can be quite strong. Yet, on one hand, they defy natural harmony, prompting various causes and effects; on the other hand, they require rather unique bloodline talents, and furthermore, compared to our human race's Immortal Techniques and magical arts, they are not faster, requiring more time and are not suitable for the Human Race's shorter lifespans.

After sweeping through the Profound Yin Demon Realm, numerous Fellow Daoists collected all cultivation technique records and jade scrolls from the Profound Yin Demon Sect headquarters and brought them here, but in recent years, Fellow Daoists interested in these demon techniques have been quite few.

I wonder what type of demon technique Immortal Lin needs, so I may help seek it out for Immortal Lin!"

This strongest Immortal Lord followed closely beside Lin Xuankong, speaking very politely, appearing ready to serve Lin Xuankong meticulously.

Lin Xuankong glanced at the numerous records and jade scrolls in the hall, casually thinking of an excuse, shaking his head slightly:

"As the saying goes, other mountains' stones can be used to polish jade; I have encountered some hindrances recently in cultivating an Immortal Technique from the Luo Water Immortal Sect and merely wish to broaden my horizon here by looking at the various demon techniques of the Profound Yin Demon Sect, I have no specific target in mind to find."

Upon hearing this from Lin Xuankong, the strongest Immortal Lord Ling Wuji immediately understood Lin Xuankong's meaning, promptly retreating towards the entrance of the Library Hall, and soon withdrawing to the doorway, before bowing respectfully at Lin Xuankong from a distance:

"Since that's the case, Immortal Lin may study here with all focus, and Wuji will guard the hall entrance outside for Immortal Lin, ensuring no one disturbs him at all!"

Chapter 1255: Closing In Step by Step

This Strongest Immortal Lord Ling Wuji is quite understanding and has a rather good character!

Lin Xuankong couldn't help but slightly nod when he saw the courteous demeanor and actions of the Strongest Immortal Lord Ling Wuji.

However, what Lin Xuankong didn't know was that when the Profound Yin Demon Sect launched a massive attack on the Central Divine Dynasty Eastern Domain, this Strongest Immortal Lord Ling Wuji was the first Strongest Immortal Lord that the Divine Dynasty Immortal Sect sent over. He was always known for his decisive slaughter and fierce boldness; otherwise, he wouldn't have been ambushed by the Profound Yin Demon Sect's setup, leading to heavy injuries from a siege by many Ninth-Grade Demon Artifact Level Demon Generals for his aggressive advance... The only ones who could make this Strongest Immortal Lord Ling Wuji be so courteous were his master, the first Grand Elder Elder Qiu of the Divine Dynasty Immortal Sect, and Lin Xuankong!

Even Sect Leader Qiu of the Divine Dynasty Immortal Sect, the former number one in the Immortal Realm, had never been treated with such courtesy and respect by his junior brother Ling Wuji!

After the Strongest Immortal Lord Ling Wuji left the Library Hall and sealed the hall doors, Lin Xuankong looked towards the surrounding scriptures and jade scrolls of the Profound Yin Demon Sect.

At this moment, Lin Xuankong, indeed as he had told the Strongest Immortal Lord Ling Wuji, hadn't decided which demon technique to cultivate!

On one hand, it's because Lin Xuankong, over nearly two thousand years, spent most of his time contemplating the Luo Water Divine Diagram and cultivating the Golden Body Demon Suppression Technique, and wasn't familiar with the various demon techniques of the Profound Yin Demon Sect. The only Profound Yin Demon Technique he'd cultivated was Nine Gates Celestial Demon!

On the other hand, Lin Xuankong also knew that ninety percent of the demon techniques from the Profound Yin Demon Sect require causing unbearable harm to countless living beings.

Since Lin Xuankong wasn't an entirely good person, he's also far from being the kind of villain who views living beings as mere grass; if it required him to harm countless humans and demons to cultivate a certain demon technique to Great Success, he absolutely couldn't bring himself to do it. Therefore, in the Library Hall now, it's likely that ninety percent of the Profound Yin Demon Sect's demon techniques are ones Lin Xuankong absolutely cannot cultivate!

As for the remaining ten percent....

According to Lin Xuankong's superficial understanding, it was indeed as the Strongest Immortal Lord Ling Wuji stated; the majority of the Profound Yin Demon Sect's demon techniques require certain bloodline and talent of the Demon Race themselves to cultivate. For example, Lin Xuankong's mastery of Nine Gates Celestial Eye, though the realm is nearing perfection and almost isn't weaker than demon lord-level powerhouses who mastered this demon technique, speaking of it, Lin Xuankong never actively cultivated this demon technique!

Nine Gates Celestial Eye was something Lin Xuankong acquired from Second Lady Zhao Yufei from the very beginning, and since Lin Xuankong's immortal body did not possess a Double Pupil bloodline, he couldn't actively cultivate this Nine Gates Celestial Eye at all. Over the years, the realm and progress of Nine Gates Celestial Demon continuously improved all because Second Lady Zhao Yufei kept cultivating this demon technique...

"The number of various exquisite demon techniques of the Profound Yin Demon Sect before my eyes exceeds tens of thousands; removing those requiring endless harm to living beings, and removing those with extremely special requirements on bloodline and talent, I wonder how many will be left?"

Thinking of this, Lin Xuankong shook his head slightly, then his Immortal Yuan inside him suddenly began to circulate, with red gleams flickering in his eyes.

In the next moment, his Double Pupil eyes slowly swept over the countless scriptures and jade scrolls within the Library Hall,

With Lin Xuankong now in the late stage of Strongest Immortal Lord realm, and possessing the nearly perfect Nine Gates Celestial Eye and the supreme divine soul of the Golden Dragon Immortal Realm, reading many scriptures and jade scrolls hardly required picking them up one by one to slowly open!

The thick scriptures and jade scrolls atop the tall bookshelves, once swept by the red gleam within Lin Xuankong's Double Pupil, instantly transformed from complex contents into endless information, appearing within Lin Xuankong's mind.

After merely half an hour,

Lin Xuankong had relied on Nine Gates Celestial Demon and Supreme Divine Soul to thoroughly view all the tens of thousands of Profound Yin Demon Sect's demon technique scriptures and inheritance jade scrolls stored within the vast Library Hall.

This "scanning" and reviewing speed, throughout the entire Immortal Realm, no one else could achieve; after all, even that Sect Leader Qiu of the Divine Dynasty Immortal Sect who likewise possessed the supreme divine soul realm of Golden Dragon Immortal Realm could not utilize this miraculous method of Lin Xuankong for reviewing due to not having cultivated the extraordinary Nine Gates Celestial Eye!

After thoroughly reviewing all the demon technique scriptures and inheritance jade scrolls of the Profound Yin Demon Sect, Lin Xuankong slowly exhaled a breath, raised his right hand with a slight gesture,

At this moment,

On twelve different bookshelves in various positions within the Library Hall covering several dozens of acres, each had a demon technique scripture of the Profound Yin Demon Sect flying up, swiftly floating to Lin Xuankong's front.

On the covers of these demon technique scriptures were written: "Nine Nether Burning Yuan Technique," "Ten Thousand Body Sacred Technique," "Supreme Holy Body"....

Among them, Nine Nether Burning Yuan Technique and Ten Thousand Body Sacred Technique, etc., all had no special requirements for bloodline talent and did not require slaughtering countless living beings.

Their content and cultivation methods were somewhat similar to top-tier immortal techniques Lin Xuankong had previously cultivated within some elite Immortal Sects, except that they required Demonic Qi when activating, which is the fundamental distinction between these demon techniques of the Profound Yin Demon Sect and the immortal techniques of the Immortal Realm Human Race!

As for the demon technique labeled on the cover "Supreme Holy Body," it was because Lin Xuankong had seen the Hehuan Netherworld Demon Lord and Demon Child Gang Bone perform it before. Although this demon technique couldn't compare to Lin Xuankong's cultivation of the Golden Body Demon Suppression Technique to the Ultimate Realm, it undoubtedly counted as one of the most powerful demon techniques of the Profound Yin Demon Sect that Lin Xuankong had heard or seen before.

Chapter 1256: Closing In Step by Step (Part 2)

At that time, when the Hehuan Netherworld Demon Lord activated it, it made the Qilin Race Elder Clan Leader, the Great Success Jade Bright Bodhisattva, and other Strongest Immortal Lords extremely apprehensive. The Supreme Demon Body Technique driven by the Demon Child Gang Bone, which was claimed to have a hundred thousand demon bodies, granted the Demon Child Gang Bone terrifying ability to seriously injure nine Strongest Immortal Lords with a single strike!

This kind of demon technique may not match the Ultimate Golden Body Demon Suppression Technique, but it is far better than the Perfection Realm Golden Body Demon Suppression Technique previously employed by the Great Success Jade Bright Bodhisattva!

It is conceivable that if Lin Xuankong could cultivate this powerful technique referred to as the Supreme Holy Body by the Profound Yin Demon Sect demons beyond the realm of that Demon Child Gang Bone, it might become a cultivation technique even stronger than the Ultimate Golden Body Demon Suppression Technique!

What surprised Lin Xuankong the most was that this powerful demon technique, known as the Supreme Holy Body by the Profound Yin Demonic Cult demons, though vast in content and seemingly harder to cultivate than any other demon technique, does not require special bloodlines or talent... The only dilemma for Lin Xuankong is that this powerful demon technique, which claims to be the Supreme Holy Body, although not requiring endless slaughter during cultivation, demands the integration of numerous bodies of beings who have cultivated demon techniques, and whose realm is lower than the activator, to drive it to the extreme!

For Lin Xuankong's Strongest Immortal Lord Realm, if he were to cultivate this Supreme Holy Body in the future, it would indeed be best to fuse the bodies of numerous mighty beings from the Ninth Grade

Realm and above of the Demon Sect and Demon General Level, so as to form the most powerful Supreme Holy Body!

For Lin Xuankong, fusing the bodies of some Ninth Grade Realm and above Demon Sect and Demon General Level beings certainly poses no psychological pressure! After all, they are different species, and every Demon General Level being of the Profound Yin Demon Sect is stained with endless blood and has killed countless beings of the Human Race! But the problem is, today's Golden Dragon Immortal Realm is not the Golden Dragon Immortal Realm of fifteen hundred years ago!

Nowadays, within the Golden Dragon Immortal Realm, the region once dominated by the Profound Yin Demon Sect, the Profound Yin Demon Realm, is already vacant of demons, more or less devoid of any mortal-tier demon race beings, let alone powerful Ninth-Grade Demon General Level beings! Currently, the Profound Yin Demon Realm has been divided and occupied by various major immortal sects of the Immortal Realm Human Race, as for the mortal-tier demon race beings within, they have all been regulated and not allowed to cultivate any type of demon technique, with no chance of becoming Earth Immortal Level demon overlords in the future!

In such a situation, Lin Xuankong has nowhere to find the bodies of numerous mighty beings from the Profound Yin Demon Sect at the Ninth-Grade Demon Artifact Level or higher, nor does he know how to activate this Supreme Holy Body demon technique... Is he to fuse countless bodies of demon race beings below Mortal Tier? Not to mention if such fusion would enhance Lin Xuankong's power greatly, those mortal-tier demon race beings have hardly ever invaded the Immortal Realm Human Race, mostly being mere common demon folk, how could Lin Xuankong bring himself to harm them!

"It seems this demon technique called the Supreme Holy Body,

even if I reach the Perfection Realm in the future, cannot be activated!

This Supreme Holy Body demon technique, the greatest use for me, would probably be to contrast it with the Ultimate Golden Body Demon Suppression Technique and see if it can be used as reference to refine it!"

However, the other eleven demon techniques, each is somewhat mystical and powerful, worth thoroughly reading and cultivating!

The reason the Profound Yin Demon Sect could dominate the Golden Dragon Immortal Realm for countless years is all due to these powerful demon techniques, and now these fairly gentle powerful demon techniques have fallen into my hands, they could help me confront those Celestial Demons upon Ascension to the Upper Realm, serving as some aces against those mighty Celestial Demons!

Anyway, if I truly use these demon techniques of the Profound Yin Demon Sect to confront those powerful Celestial Demons in the future... it would indeed be interesting!"

Lin Xuankong thought thus, and the twelve thick demon technique tomes floated to the position of the Golden Patterned Ghost Frog Pouch at his waist. With a flicker, they all disappeared into the air, descending into the space within the Golden Patterned Ghost Frog Pouch.

....

In the Supreme Origin Realm, within a grand hall near the third entrance of the Red Water Passage in Red Water Demon City.

The Cyan Wood Celestial Demon sat in a massive throne at the top of the hall, looking excitedly at the Bird-faced Celestial Demon in the central position of the hall, "Cyan Bird, the Soul-Searching Technique on that Initial Tier Celestial Immortal, does it truly reveal the reason for the Thousand Illusion Saint Monarch's layout being disrupted in the Golden Dragon Immortal Realm?"

The Bird-faced Celestial Demon, referred to as Cyan Bird, knelt on one knee, respectfully clasping its hands, saying:

"Lord Qingmu, if I wasn't absolutely sure, how would I dare speak recklessly before you!"

After saying this, it abruptly opened its beak wide, and instantly, eighteen flashing Spiritual Light transformed Eighth-Grade Immortal Artifacts shot out from its beak, landing on the ground.

Seeing these eighteen transformed Eighth-Grade Immortal Artifacts, the face of the Cyan Wood Celestial Demon suddenly changed, its figure sitting in the massive throne immediately blurred, appearing in front of the Bird-faced Celestial Demon in the next instant.

The eyes of the Cyan Wood Celestial Demon filled with excitement, closely observing the flashing Spiritual Light of the eighteen transformed Eighth-Grade Immortal Artifacts, then suddenly burst into laughter,

"Hahahahaha, indeed, these eighteen transformed Eighth-Grade Immortal Artifacts, regardless of materials or refining techniques, are very similar to the Eighth-Grade Immortal Artifacts held by that Jade Bright Little Celestial Buddha, and furthermore, the sword hilt of all eighteen Eighth-Grade Immortal Swords are inscribed with the words Xuankong! Hahaha, this time it seems I will be the first to complete the task assigned by the Thousand Illusion Saint Monarch!"

After laughing for a while,

The Cyan Wood Celestial Demon turned to the Bird-faced Celestial Demon and said:

"Tell me all the information you obtained from that Initial Tier Celestial Immortal's Divine Soul, don't omit a single detail!"

In the heart of the Minor Success Celestial Demon Cyan Wood Celestial Demon, not to mention the exceedingly esteemed Thousand Illusion Saint Monarch in the Profound Yin Saint Sect and Holy Race, even terrifying Celestial Demons like the Soul Shattering Celestial Demon, who have lived countless tens of billions of years, once transmitting a trace of Celestial Demon Power through special Celestial Demon Techniques to the Lower Realm Little Immortal Realm, would absolutely overturn a world, and absolutely no accident could occur!

Yet, in this inconspicuous Golden Dragon Immortal Realm among numerous Little Worlds and Little Immortal Realms, a change occurred, disrupting the power transmitted by the Thousand Illusion Saint Monarch to the Lower Realm Little Immortal Realm... Even if the trace of Celestial Demon Power from the Thousand Illusion Saint Monarch has diminished through the World Wall to one in a billion, it should have been impossible for living beings in the Little Immortal Realm below to resist! Never mind the so-called Celestial Pride Level Strongest Immortal Lord, and the Great Accomplishment Bodhisattva, Top Demon King, even if all living beings and cultivators from the entire Little Immortal Realm below combined, they shouldn't be able to resist the trace of Celestial Demon Power from the Thousand Illusion Saint Monarch!

As a result, this time,

Not only did the Golden Dragon Little Immortal Realm face problems, but seven other Little Worlds encountered issues as well.....

The Cyan Wood Celestial Demon is certainly tempted by those rewards from the Thousand Illusion Celestial Demon, but it is also extremely curious about what changes have occurred in the Golden Dragon Little Immortal Realm, and what sort of Earth Immortal, Bodhisattva, and Demon King disrupted that trace of Celestial Demon Power from the Thousand Illusion Saint Monarch!

At this moment,

Upon hearing the Cyan Wood Celestial Demon speak like this, the Bird-faced Celestial Demon hesitated slightly, then continued:

"Lord Qingmu, this Initial Tier Celestial Immortal called Feiyun, though his Divine Soul Strength is far inferior to that of the Jade Bright Little Celestial Buddha, his Divine Soul Strength is many times stronger than that of ordinary Celestial Immortals who have just ascended to the Supreme Origin Realm. Although I have repeatedly used the Soul-Searching Technique personally passed down by Lord Qingmu to obtain some information, it is still not quite detailed!

And besides... besides..."

Seeing the Bird-faced Celestial Demon speak hesitantly, the Cyan Wood Celestial Demon's expression darkened, and it demanded coldly, "Whatever information you've got, speak it directly! Especially the reason why a large number of High-Grade Immortal Artifacts suddenly appeared in the Golden Dragon Little Immortal Realm, tell me everything!"

Chapter 1257: The Cyan Wood Celestial Demon's Astonishment

Seeing that Lord Qingmu was enraged,

the bird-faced Celestial Demon immediately shivered all over, hurriedly crouched on the ground, and repeatedly spoke:

"Lord Qingmu,

it's not that the subordinate hesitated,

it's really because the information obtained from the divine soul of that Feiyun Little Celestial Fairy is too astonishing!

The information obtained by the subordinate is, in fact, uncertain whether the soul-searching technique took effect, or if some false information was transmitted to my divine soul during the resistance of that Feiyun Little Celestial Fairy's divine soul! After all, that Feiyun Little Celestial Fairy is truly powerful, whether it be her divine soul or immortal body, or immortal technique, all are incredibly strong! Especially relying on those eighteen Eighth-Grade Immortal Artifacts, she injured all three of my subordinates, and it was only after my other six subordinates caught up with her, after a bitter battle, that they managed to capture her!

As for what kind of information it is..... It is, it is about a matter concerning an Earth Immortal named Lin Xuankong!"

Upon hearing this, the Cyan Wood Celestial Demon couldn't help but pick up one of the metamorphosed Eighth-Grade Immortal Swords, carefully looking at the word 'Profound Void' on the sword hilt, and said in a deep voice:

"It truly relates to that artifact refiner named Profound Void. Speak, how did that artifact refiner named Lin Xuankong manage to disrupt the power layout that the Thousand Illusion Sage Lord set in the lower Little World?"

The bird-faced Celestial Demon nodded respectfully and said:

"After using the soul-searching technique, I discovered within the divine soul of that Feiyun Little Celestial Fairy that the trace of Celestial Demon power from the Thousand Illusion Sage Lord that arrived in the Golden Dragon Little Celestial Realm quickly unified the entire Profound Yin Saint Sect, and significantly enhanced the power of the holy clan cultivators in the Golden Dragon Little Celestial Realm, elevating both the General Level and Saint Master Level experts to a strength they couldn't possibly achieve through cultivation!

The most crucial aspect is that in the lower Golden Dragon Little Celestial Realm, the strength of the Profound Yin Saint Sect has long held sway over the human race, demon race, and Buddhist Sect forces

within the Golden Dragon Immortal Realm. Having undergone the metamorphosis of the Saint Heir Gang Bone who obtained the Celestial Demon Power, the Profound Yin Saint Sect was supposed to rapidly unify the entire Golden Dragon Little Celestial Realm, and indeed the Saint Heir Gang Bone launched a battle capable of overturning the entire Golden Dragon Little Celestial Realm!

Unfortunately, right within the Golden Dragon Little Celestial Realm, there emerged this artifact refiner named Lin Xuankong, whose artifact refining techniques are astonishingly advanced, capable of using some low and middle tier materials to refine a vast number of immortal artifacts!"

Hearing this, the Cyan Wood Celestial Demon paused with surprise, "A vast number of immortal artifacts? In an era similar to the end of the Dharma era in the Golden Dragon Little Celestial Realm, where the next cycle hasn't started yet, even if there are the most top-notch artifact refiners skilled in artifact refining techniques who can refine some immortal artifacts, their number should not be overly numerous. Could it even surpass the eighteen Eighth-Grade Immortal Artifacts we are already aware of?"

Upon hearing such words from the Cyan Wood Celestial Demon, the bird-faced Celestial Demon hesitated for a while before saying, "The number indeed isn't particularly large. According to the information from the divine soul of this Feiyun Little Celestial Fairy, the artifact refining methods of that artifact refiner named Lin Xuankong are exceptionally advanced, but it is...it's just that, within a few years, he has refined several thousand immortal artifacts of Third, Fourth, and Fifth Grades, sufficient to establish a Hundredfold Sect Protection Array!"

"What?"

Upon hearing this, the Cyan Wood Celestial Demon's expression changed involuntarily, with astonishment evident in his vertical pupils.

He remained silent for a while, then slapped the bird-faced Celestial Demon across the face, skewing its bird beak,

"What nonsense are you babbling with that bird mouth of yours?"

What do you mean the number isn't particularly large, what do you mean within a few years, several thousand immortal artifacts of Third, Fourth, and Fifth Grades have been refined?

Damn, several thousand immortal artifacts, and that's considered not particularly many? And are you sure that the Earth Immortal named Lin Xuankong genuinely refined several thousand immortal artifacts, including eighteen Eighth-Grade Immortal Artifacts within those few years? This information sounds too fantastical, too unreal!"

The bird-faced Celestial Demon, having been slapped by the Cyan Wood Celestial Demon and having its bird beak skewed, lay on the ground, not daring to speak, but inwardly lamented: Damn it, it was Lord Qingmu who said that the number of immortal artifacts refined by Lin Xuankong shouldn't be too many, I'm only following Lord Qingmu's reasoning, but ended up flattering Lord Qingmu the wrong way!

After being silent for a moment, the Cyan Wood Celestial Demon looked at the bird-faced Celestial Demon, speaking in a deep voice: "The information you obtained is exceedingly unreal, if that artifact refiner named Lin Xuankong truly can, in the end of Dharma era Golden Dragon Little Celestial Realm, refine several thousand middle-high grade immortal artifacts within a few years, it would indeed be enough to allow the human race, demon race, and Buddhist Sect cultivators in the Golden Dragon Little Celestial Realm to overturn the power layout that the Thousand Illusion Sage Lord transmitted through the World Wall into the Little World!

How could such an artifact refiner with incredible techniques emerge in the lower Little World?

Even among the Saint Clan in the Supreme Origin Realm, those artifact refiners who have been researching the path of artifact refining for billions of years can hardly achieve such feats, perhaps only those two Artifact Refining Divine Masters whom even the Thousand Illusion Sage Monarch respects dearly could barely accomplish this feat. After all, no matter how high the level of artifact refining, without enough materials, even a clever housewife cannot cook without ingredients!

But if this matter were true....

If that artifact refining master named Lin Xuankong truly possesses an astonishing number of immortal artifacts, once he successfully crosses the tribulation, allowing all those refined immortal artifacts to undergo metamorphosis and greatly increase in strength and power, then by that time, if he ascends to the position at the Third Entrance of the Red Water Passage with thousands of metamorphosed middle-high grade immortal artifacts, it might take a major battle, perhaps even me personally to subdue him!

Chapter 1258: The Cyan Wood Celestial Demon's Surprise (2)

This matter must be thoroughly understood so that I can prepare in advance!

Take me to the Red Water Prison where that Little Celestial Immortal is held, I want to personally use the Soul Searching Technique on that Little Celestial Immortal!"

As soon as the words fell, the Cyan Wood Celestial Demon had already lifted the Bird-faced Celestial Demon and, with a flicker, disappeared from the main hall.

Half an incense stick later,

on the shore of the Red Water Demon River to the east of Red Water Demon City, within the Celestial Demon Prison,

the Bird-faced Celestial Demon followed behind the Cyan Wood Celestial Demon, standing in front of a water prison, pointed at the Flying Cloud Immortal inside, bound by red water currents, and said to the Cyan Wood Celestial Demon:

"Lord Qingmu, this is the Little Celestial Immortal who wounded several of my subordinates!"

At this moment, hearing the commotion outside the water prison, Feiyun had long since looked up. At this moment, countless water streams, like serpents or insects, were wriggling on her Immortal Body, tightly binding her. Even though her Celestial Immortal Body, having been tempered by the Celestial Tribulation, was close to the mid-stage of the Initial Tier, she still couldn't shake off these seemingly lifelike water currents.

Besides binding her tightly, countless tiny crimson water streams were penetrating in and out of her skin's pores, continuously traversing her flesh. Such terrifying pain would have long since killed an ordinary person many times over; even an Earth Immortal Realm or Strongest Immortal Lord Realm body couldn't withstand such horrific pain, suffering fatal injuries causing the body to dissipate. Only a Celestial Immortal Body can maintain life force amidst such terrifying injuries, continuously self-recovering while being harmed!

Yet this self-recovery forced Feiyun to endure extreme pain at all times. It's conceivable that if she were always trapped in this water prison, she might endure this horrific pain for endless years... for every Celestial Immortal, whether Initial Tier, Minor Success, or Great Success, possesses a truly near-eternal lifespan!

Nonetheless, Feiyun is an extraordinarily talented cultivator with an exceedingly strong character. Though enduring boundless pain at this moment, her eyes remained resolute without the slightest sign of fear or begging as she looked at the Cyan Wood Celestial Demon and the Bird-faced Celestial Demon!

The Cyan Wood Celestial Demon, seeing this, sneered coldly and said,

"You were once a weak human, achieving ascension to the Supreme Origin Realm, heaven knows how much effort you expended, how much hardship you endured! Now, having ascended to the Supreme Origin Realm and achieved a Celestial Immortal Body, you could enjoy endless lifespans and all sorts of pleasures. Alas, you are so stubborn... If you obediently tell me everything that happened in the Golden Dragon Immortal Realm below and then submit to the Holy Race, there would be no need for endless torment!

If you speak everything about the Golden Dragon Immortal Realm, perhaps you wouldn't have to endure this sinful poison and its endless torture, nor the pain of the Soul-Searching Technique, wouldn't that be a thousand times better than your current situation?"

Feiyun, hearing this, did not reply, but a faint, disdainful coldness appeared in her eyes.

If, when Feiyun ascended to the Supreme Origin Realm, she hadn't received Lin Xuankong's assistance, if the Immortal Realm Human Race hadn't been spared countless years of demonic invasions thanks to Lin Xuankong's great benevolence, Feiyun might have chosen to bow to these Celestial Demons in this moment. After all, to Feiyun, as long as there's a chance to escape, she believed that one day she would repay a hundredfold, a thousandfold the humiliation and torment the Celestial Demon Race gave her!

But being able to achieve a Celestial Immortal Body, to fulfill her greatest cultivation wish of tens of thousands of years, was entirely due to Lin Xuankong's gift of High-Grade Immortal Artifacts. And the Human Race, Demon Race, and Buddhist Sect cultivators in the Golden Dragon Immortal Realm, thanks to Lin Xuankong's appearance, have achieved what could be countless years of peace. Under such circumstances, how could a proud and stubborn person like Feiyun willingly divulge anything about Lin Xuankong to these Celestial Demons!

"I, Feiyun, have never bowed to anyone or any force in my life, not even in the face of a Celestial Tribulation! What counts this little torment now? At worst, my soul shatters, and I reincarnate anew! To think you could make me Feiyun succumb to you despicable demons is pure wishful thinking, you so-

called Celestial Demons, claiming to be the Holy Race, yet doing such heinous, vile things—it's truly shameful, utterly disgusting!"

Feiyun, holding onto a breath, shouted insults for a while, then closed her eyes, no longer paying attention to the Cyan Wood Celestial Demon and Bird-faced Celestial Demon before her.

The Cyan Wood Celestial Demon, having been so insulted by Feiyun, couldn't help but twitch slightly, a murderous look floating in its longitudinal pupils. It snorted coldly, and its internal demonic essence immediately spurred forward, a phantom of the Cyan Wood Celestial Demon instantly appearing above its head, then suddenly pouncing at Feiyun, who had tightly closed eyes.

The next moment,

The phantom Cyan Wood Celestial Demon was already pouncing on Feiyun's Immortal Body,

The tightly closed-eyed Feiyun suddenly groaned, her eyes flew open, but those eyes, originally glittering with vitality, were now full of pain, clearly seized by the Cyan Wood Celestial Demon's Soul Searching Technique!

This Soul Searching Technique, when cast, causes great harm to the target, resulting in extreme pain for the one being searched, bringing endless torment from the depths of the Divine Soul—far surpassing the physical torment of the Immortal Body by unknown multiples!

However, at this moment, Feiyun, tormented by the Soul Searching Technique, only groaned a few times and then fell silent.

Seeing this scene,

even the opposing Bird-faced Celestial Demon couldn't help but show a touch of wonder in its eyes,

As a powerful Celestial Demon nearing the Minor Success Realm, it naturally knew the kind of terrifying pain the target would suffer under the Soul Searching Technique. But the Feiyun before its eyes, after

just a few groans, fell silent; such astonishing perseverance was something the Bird-faced Celestial Demon couldn't even begin to compare to, no matter if its cultivation realm far surpassed Feiyun's!

"No wonder this Feiyun, upon ascending to the Supreme Origin Realm, was already at such a high realm, nearing the Mid-Stage Initial Tier of Celestial Immortal! With such astonishing perseverance, naturally, in the Immortal Path, she can travel further than other weaker humans!"

The Bird-faced Celestial Demon thought silently.

How could this Bird-faced Celestial Demon know that Feiyun's perseverance was firm beyond words? In the entire Golden Dragon Mini World below, apart from Lin Xuankong, Feiyun was the peerless prodigy with the strongest talent for Immortal Techniques in the entire Golden Dragon Immortal Realm!

The Bird-faced Celestial Demon couldn't possibly understand that Feiyun's Divine Soul, although firm and powerful, couldn't compare even slightly to Lin Xuankong's Divine Soul!

After all, the Soul Searching Technique is not omnipotent. After invading the target's Divine Soul, most of what the cultivator performing the Soul Searching Technique can discover are some memory fragments that left a strong impression in the target's soul... If it weren't like this, if the Celestial Demon Race's Soul Searching Technique could grasp all information from the target's soul, wouldn't it mean that by casually soul-searching a target, they could immediately master all the various Immortal Techniques, Artifact Refining, Alchemy, Array Formation, Beast Nurturing, Puppet, and other Secret Techniques of the other party... ...

After a full half an Hour,

Feiyun, whose eyes were originally filled with pain, lips tightly pressed, suddenly groaned, her pupil contraction abruptly after, the look of agony on her face had diminished considerably!

And the phantom form driven by the Cyan Wood Celestial Demon rapidly ascended from Feiyun's position, returning back into the Cyan Wood Celestial Demon's body.

At this moment, the Cyan Wood Celestial Demon's eyes reflected an extremely obvious look of surprise,

"Cyan Bird, your information obtained from the Soul Searching Technique was unexpectedly accurate!

That Lin Xuankong appearing in the lower realm's Golden Dragon Immortal Realm, during the End of Dharma Era of the Golden Dragon Immortal Realm, actually refined thousands of Immortal Artifacts using some Low and Middle Tier materials, and it's precisely because of these Immortal Artifacts that the Human Race, Demon Race, and Buddhist Sect cultivators of the Golden Dragon Immortal Realm could reverse the situation, disrupting the layout of that trace of Celestial Demon Power belonging to the Thousand Illusion Saint Monarch in the Golden Dragon Immortal Realm!

That such an astonishingly skilled artifact refiner could emerge in the Golden Dragon Immortal Realm?"

Chapter 1259: Immortal Slaying Thousand Demon Array

In the impression of Cyan Wood Celestial Demon,

those able to refine Middle to High-Grade Immortal Artifacts using Low and Middle Tier materials are not absent in the Supreme Origin Realm, yet they are as rare as phoenix feathers and unicorn horns....

Any Super Refining Master of such a realm is held in incredibly high esteem within any faction in the Supreme Origin Realm!

Even in the Celestial Demon Race where power is supreme,

such a Super Refining Master commands immense respect from any Celestial Demon powerhouse of any realm!

Because a Super Refining Master capable of using Low and Middle Tier materials to refine Middle to High-Grade Immortal Artifacts, if committed to refining with full support, can drastically enhance a faction's strength in a very short period!

Among the Eight Great Domains governed by Thousand Illusion Saint Monarch, in the Red Water Domain, Luo Water Domain, and Ligu Domain, although there are numerous Celestial Demons cultivating the Path of Artifact Refining, numbering in the billions, those able to elevate the Artifact Refining Technique to such a realm are at most only one or two! It's worth noting that, only after endless epochs, did one or two such Super Refining Masters emerge among the Eight Great Domains....

It is imaginable how difficult it is for such a Super Refining Master to appear!

The most unacceptable thing for Cyan Wood Celestial Demon is that, within the information searched from Feiyun's Divine Soul, there is a clear record that the Artifact Refining Master named Lin Xuankong, took only a mere few decades from stepping into the Earth Immortal Realm to influencing the entire Golden Dragon Immortal Realm!

A few decades compared to endless epochs,

the disparity is absurdly large!

This demonstrates that even without mentioning Lin Xuankong's Immortal Path Realm and Immortal Technique methods, just Lin Xuankong's Artifact Refining methods are far superior to the two most esteemed Super Refining Masters in the Eight Great Domains of Celestial Demon in the Supreme Origin Realm?

Were it not for these pieces of information, obtained by Cyan Wood Celestial Demon using the Soul-Searching Technique, Cyan Wood Celestial Demon might not believe such a thing!

Yet these pieces of information all came from Cyan Wood Celestial Demon's personal use of the Soul-Searching Technique...

Emerging from his astonishment, the Bird-faced Celestial Demon turned his eyeballs and spoke respectfully: "Congratulations Lord Qingmu, Congratulations, Lord Qingmu!"

Cyan Wood Celestial Demon's expression changed as he raised his eyebrows and said, "In this Golden Dragon Little Immortal Realm, a Practitioner with such daunting and incredible refining skills appears, is there anything worth celebrating?"

The Bird-faced Celestial Demon respectfully said: "The Supreme Origin Realm is vast and boundless, over countless generations, the number of Artifact Refiners among the Cultivators ascended to the Supreme Origin Realm from our Holy Race is counted in billions, yet only those two Little Celestial Monarchs have refined the Path of Artifact Refining to such a prodigious level!

Now, the Golden Dragon Little Immortal Realm connected to the third entrance of Red Water Passage has an Artifact Refiner of such astonishing skill, isn't this a great good thing?

Once this Human Race Artifact Refiner ascends to the Supreme Origin Realm, capturing him, and having Lord Qingmu personally deliver him to Thousand Illusion Saint Monarch, with Thousand Illusion Saint Monarch's incredible means, naturally he could completely control this Human Race Artifact Refiner named Lin Xuankong and use him for the Saint Monarch's advantage!

If all goes smoothly, Lord Qingmu can enable Thousand Illusion Saint Monarch to gain such a stunning level Artifact Refiner; the rewards bestowed by the Saint Monarch then are bound to be abundantly splendid! Perhaps, in a cheerful mood, Thousand Illusion Saint Monarch might even accept Lord Qingmu as a disciple; thus, Lord Qingmu's future will certainly be extraordinarily bright, not to mention achieving the otherwise elusive realm of Great Success Celestial Demon, perhaps even nearing the Perfection Realm would not be impossible!

The twelve disciples of Thousand Illusion Saint Monarch are each in the Late Stage of Great Success Celestial Demon Realm, controlling their respective three thousand Little Worlds, having at least ten times the resources compared to other Celestial Demons in the Great Success realm!"

Upon hearing this, Cyan Wood Celestial Demon's great Demon Heart accelerated its beat, a trace of emotion emerged on his face.

Capture Lin Xuankong... dedicate a stunning level Artifact Refiner to Thousand Illusion Saint Monarch... become the incredibly noble and exalted disciple of Thousand Illusion Saint Monarch.... control thousands of Little Worlds, acquire the origins of those Little Worlds at will....

This is undeniably an opportunity for this Early Stage Minor Success Celestial Demon to leap into becoming a big figure in the Supreme Origin Realm, an opportunity that might not appear in billions of years!

After these thoughts flashed through his mind, Cyan Wood Celestial Demon could no longer suppress the immense joy within his heart, and burst into laughter, "Good, good, good, it's still Cyan Bird's lively mind, quickly realized this point! Hahaha, if things go as you and I have calculated, capturing the Human Race Artifact Refiner named Lin Xuankong and presenting him to Thousand Illusion Saint Monarch, if the Saint Monarch rewards us, I will certainly not forget you little one, hahahaha!"

Seeing this, the Bird-faced Celestial Demon hesitated no longer, immediately knelt down with a thud, bowed his head repeatedly, "Then your subordinate wishes in advance for Lord Qingmu to achieve his wishes, achieve his wishes!"

Cyan Wood Celestial Demon nodded repeatedly, after another bout of laughter, his expression gradually calmed down, his voice gravely opened:

"This Human Race Artifact Refiner named Lin Xuankong, having such astounding refining skills, when he ascends to the Supreme Origin Realm, even if he's merely in the Early Stage of the Initial Tier Celestial Immortal realm, relying on numerous metamorphosed Immortal Artifacts, he absolutely cannot be underestimated!"

Chapter 1260: Immortal Slaying Thousand Demon Array (2)

"Transmit my order: have all the Celestial Demons from the Cyan Wood Forest gather at the third entrance of the Red Water Passage immediately. From this day forth, divide into two teams to take turns on guard, ready to strike with me at any moment to seize any cultivator ascending from the Golden Dragon Little Immortal Realm to the Supreme Origin Realm!"

The Bird-faced Celestial Demon heard this and immediately kowtowed, "Subordinate receives the order!"

However, after its eyes flickered a few times, it couldn't help but speak:

"Lord Qingmu, even if that human Artifact Refiner named Lin Xuankong ascends to the Supreme Origin Realm carrying a large number of metamorphosed Immortal Artifacts, those Immortal Artifacts have not fully metamorphosed and still cannot be considered true Upper Realm Divine Artifacts! In such a case, even if Lin Xuankong wields many Immortal Artifacts, his strength is limited. Why would you, Lord Qingmu, need to personally intervene? With me and our fellow members from the Cyan Wood Forest, we are enough to capture Lin Xuankong. Surely, he, an Initial Tier Celestial Immortal, cannot withstand the combined strength of hundreds of formidable Initial Tier Celestial Demons?"

The Cyan Wood Celestial Demon heard this and shook its head slightly,

"This matter is of great significance and absolutely cannot afford any mishaps!"

This time, not only will I personally oversee it, but I will also have all the Holy Race Celestial Demons from the Cyan Wood Forest work together to arrange an Immortal Slaying Thousand Demon Array!"

The Bird-faced Celestial Demon, hearing the words 'Immortal Slaying Thousand Demon Array,' immediately changed its expression, its eyes widening in surprise as it said, "The Immortal Slaying Thousand Demon Array? Lord Qingmu, it's been thousands of years since our Cyan Wood Forest last set up such an energy-consuming grand array. In the past, whenever this array was set up, it was used against Celestial Immortals at the early stage or above of the Minor Success Realm... Such an array, and yet Lord Qingmu intends to use it against an Initial Tier Junior Celestial Immortal, isn't that overestimating Lin Xuankong?"

The Cyan Wood Celestial Demon spoke with a serious expression:

"Ordinarily, once the Immortal Slaying Thousand Demon Array unfolds, it doesn't matter if they are Celestial Immortals at the early stage of the Minor Success Realm; even those at the mid-stage will suffer against it. After all, the Immortal Slaying Thousand Demon Array can concentrate the power of nearly a thousand Initial Tier Celestial Demons, and its might is not much weaker than that of a Celestial Immortal at the mid-stage of the Minor Success Realm!

An array like this, with such a lineup, does indeed have a feeling of using a sledgehammer to kill a chicken when dealing with a newly ascended tiny human Initial Tier Celestial Immortal!

However, the success or failure of this endeavor is indeed almost significant, and there can be absolutely no room for failure!

Go and notify the others in the Cyan Wood Forest. As long as we can capture Lin Xuankong this time, what are such trivial expenses!"

Seeing Lord Qingmu's certainty, the Bird-faced Celestial Demon could only rise and leave to notify those Celestial Demons near the third entrance of the Red Water Passage in the Cyan Wood Forest.

The Cyan Wood Celestial Demon glanced at the Flying Cloud Immortal before laughing heartily for a moment and then disappeared in a flash from the spot!

Having endured another round of the Soul-Searching Technique's torment and the endless torture of the Red Water Flow, the Feiyun Little Celestial Immortal was frowning as she stared at the spot where the Cyan Wood Celestial Demon vanished.

She mused to herself: The Red Water Flow Lock of this Red Water Prison not only binds my Immortal Body but also suppresses my Immortal Yuan that has already metamorphosed into Source Qi, making it impossible for me to escape this torment. Moreover, since this area has entirely fallen into the hands of the Celestial Demon Race, there's absolutely no possibility for me to escape with my life from here!

But how did the Red Water Passage and Red Water Domain end up in the hands of the Celestial Demon Race? Could it be that in the Supreme Origin Realm, our Human Race, along with the Demon Race and the predecessors of the Buddhist Sect, are, just like the circumstances in the Golden Dragon Immortal Realm thousands or tens of thousands of years ago, on the losing side?

Thinking of this, the Feiyun Little Celestial Immortal couldn't help but let out a helpless sigh, recalling the warnings Lin Xuankong gave her before her ascension to the Supreme Origin Realm.

At that time, Immortal Lin repeatedly advised me not to rush into triggering the final Celestial Tribulation... Or did Immortal Lin have some foreknowledge about what would happen after ascension to the Supreme Origin Realm?

It's infuriating that I didn't heed Immortal Lin's advice back then, leading to my current predicament... I've brought this upon myself, but it's such a pity for those eighteen eighth-grade Immortal Artifacts Immortal Lin gifted me!

I once thought that after my ascension to the Supreme Origin Realm, I could certainly carve out a niche for myself just as I did in the Golden Dragon Immortal Realm, relying on my single-minded pursuit of Dao and decent Comprehension of Immortal Techniques. By the time Immortal Lin ascended, I thought I would have already established myself and be able to assist Immortal Lin upon his ascension to the Supreme Origin Realm, thus repaying the kindness of receiving those eighteen invaluable eighth-grade Immortal Artifacts!

But now... in my current state, how can I repay any kindness!

What troubles me most is that the Cyan Wood Celestial Demon and the Bird-faced Celestial Demon have already prepared to lay out an inescapable net and a menacing array at the third entrance of the Red Water Passage. And overseeing this so-called Immortal Slaying Thousand Demon Array are not only hundreds of Celestial Demon Realm powerhouses but also a fearsome Celestial Demon at the Minor Success Realm!

In such a situation, no matter how strong Immortal Lin's artifact refining and Immortal Technique cultivation are, he will certainly struggle upon his recent ascension to the Supreme Origin Realm!

If, like me, Immortal Lin becomes a prisoner or, as suggested by that Bird-faced Celestial Demon, he gets captured and presented to the Thousand Illusion Saint Monarch of unknown power, Immortal Lin's future might be even more miserable than mine...

Thinking of this, a deep worry emerged in the eyes of the Feiyun Little Celestial Immortal enduring endless suffering.

Clearly, she sincerely believes that no matter how strong Lin Xuankong might be, it is impossible for him to defeat so many Initial Tier Celestial Demons and a Minor Success Celestial Demon! After all, she couldn't withstand a few Initial Tier Celestial Demons, even with all eighteen metamorphosed eighth-grade Immortal Artifacts. How terrifying must it be with nearly a thousand Celestial Demons plus a fearsome Minor Success Realm Celestial Demon...

....

The Golden Dragon Little Immortal Realm, Demon Suppression Spirit Peak of the Western Spirit Crane Immortal Sect in the Central Divine Dynasty Western Region.

Deep within Lin Xuankong's cavern, the Strongest Immortal Lord, Guang Yu'er, frowned as she gazed at the Profound Yin Demon Sect's demon technique tomes displayed on the Profound Truth Jade Table, unable to refrain from asking, "Xuankong, if you're planning to cultivate more techniques, there are countless miraculous and powerful Immortal Techniques, Demon Pearls, and Buddhist Techniques within the Human Race of the Immortal Realm, Unbounded Mountain Demon Race, and Spirit Platform Buddhism!

Moreover, if you wish to learn, any one of the Immortal Sect, Unbounded Mountain Demon Race clan, or Spirit Platform Buddhism will be eager to pass down their Sect's Guardian Immortal, Demon, and Buddhist arts to you willingly, given your unique and unparalleled status in the Immortal Realm at present!

What are you thinking, getting suddenly interested in the demon techniques of the Profound Yin Demon Sect? Not to mention most of the Profound Yin Demon Sect's techniques require harming living beings, even in terms of combat strength, how could these demon techniques compare to the legitimate and virtuous Immortal Techniques? Through countless ages, the Profound Yin Demon Sect's demons could often prevail not because their techniques were superior but because the talents and Demon Bodies of those Demons were inherently powerful!"

At this moment, Lin Xuankong naturally was not aware of what was transpiring in the Supreme Origin Realm's Red Water Prison. Nor did he imagine that due to Flying Cloud Immortal Lord's capture, he had now attracted the attention of the formidable Minor Success Celestial Demon, Cyan Wood Celestial Demon, which in turn was going to gather nearly a thousand Celestial Demons to set up an Immortal Slaying Thousand Demon Array against him!

However, although Lin Xuankong did not know these details, he already suspected that there was indeed a problem with the Red Water Passage, for he had 'seen' the Flying Cloud Immortal Lord being immediately attacked by Celestial Demon powerhouses right after her ascension to the Supreme Origin Realm!

Because of this, Lin Xuankong had proactively decided to prepare all the trump cards he could gather in the Golden Dragon Immortal Realm before ascending to the Supreme Origin Realm!

These demon techniques from the Profound Yin Demon Sect, being one of Lin Xuankong's trump cards, naturally had to be cultivated!
