Chapter 1271: The Strangeness of the Golden Dragon Immortal Realm

At this moment, Lin Xuankong gazed at the twenty-eight Strongest Immortal Lord-level powerhouses preparing to cross their tribulation in the distance, with a slight frown.

He had no worries about whether these Strongest Immortal Lord-level powerhouses could pass the final celestial tribulation. Those twenty-eight Ninth-Grade Immortal Artifacts, though not the most perfect among the numerous Ninth-Grade Immortal Artifacts he owned, were still considered top-notch among Ninth-Grade Immortal Artifacts!

Not to mention these powerhouses already at the Perfection Realm, even if a Ninth-Grade Earth Immortal triggered the final celestial tribulation, Lin Xuankong had enough confidence, under the condition that the other party used his Ninth-Grade Immortal Artifacts, to easily pass the final celestial tribulation!

After all, Ninth-Grade Immortal Artifacts, compared to Eighth-Grade Immortal Artifacts, were on a completely different level in terms of power, even if these top-notch Ninth-Grade Immortal Artifacts could not compare to the metamorphosed Eighth-Grade Immortal Artifacts, the difference was not too great!

But can Great Success Yu Zhen Bodhisattva, Sect Leader Qiu, Elder Qiu, and others, relying on these top-grade Immortal Artifacts, defeat the Celestial Demon Realm powerhouses in the area near the passage entrance after ascending to the Supreme Origin Realm?

Lin Xuankong had little confidence in this!

Even though he himself now had the strength to easily crush dozens or even hundreds of Strongest Immortal Lord-level powerhouses, he could not guarantee a hundred percent victory in a battle against those Celestial Demon Realm powerhouses who had been cultivating in the Supreme Origin Realm for an unknown number of years after ascending. Moreover, the area near the passage entrance might very well have more than one Celestial Demon Realm demon race!

As if sensing some of Lin Xuankong's melancholy,

the Strongest Immortal Lord Guang Yu'er leaned over, snuggling beside Lin Xuankong, and whispered:

"Xuankong, I know you worry that these elders and comrades will encounter danger after ascending to the Supreme Origin Realm!

These elders are already nearing the end of their lifespan, and even with the consumption of a large number of life-extending elixirs, they can only extend their lifespan a little. Eventually, they cannot stop the gradual decline of their strength over time. In such circumstances, we can only do our best and leave the rest to celestial destiny. You have already done your utmost by gifting those precious Ninth-Grade Immortal Artifacts to these elders and comrades. As for whether these elders and comrades will encounter Celestial Demons and be able to resist them after ascending to the Upper Realm, it will all depend on their fate!

However, with the Ninth-Grade Immortal Artifacts that haven't appeared in the Golden Dragon Immortal Realm for millions of years, and with all twenty-eight of them, these elders and comrades, even if their strength is inferior to those of the Celestial Demon Realm demon race after ascending to the Supreme Origin Realm, should have the power to put up a fight. Hence, you shouldn't worry so much!"

Lin Xuankong nodded slightly, then stirred the Immortal Yuan within him, activating the Nine Gates Celestial Eye, preparing to attach those red glimmers onto Sect Leader Qiu of the Divine Dynasty Immortal Sect and others.

...

Red Water Demon City, the edge of Cyan Wood Forest, Red Water Passage No. 3 Entrance.

Hundreds of towering, uniquely-featured Celestial Demons hovered respectively near the entrance to the Red Water Passage in the sky.

The fluctuations emitted by these Celestial Demons, though far from those of the Early Stage of Minor Success Cyan Wood Celestial Demon, and not as significant as the Late Stage of the Initial Tier Bird-faced Celestial Demon, clearly belonged to demonic powerhouses who had been cultivating in the Supreme Origin Realm for a long time. The concentration of demonic qi around them was thousands of times more condensed than that of the Strongest Immortal Lord Perfection Realm powerhouses in the Golden

Dragon Immortal Realm. Compared to the concentration of immortal qi of the Immortal Lord Feiyun, who was trapped in the Red Water Prison, it was also clearly superior.

In other words, any one of the hundreds of Celestial Demon Race powerhouses gathered at the entrance to the third Red Water Passage, alone, had a strength far superior to that of the Golden Dragon Immortal Realm's top immortal technique genius Feiyun after ascension!

Most astonishing of all,

before each Celestial Demon floating in mid-air was a demon artifact emitting extremely strong fluctuations. It was unknown what material these demon artifacts were made from, but they seemed to emit fluctuations stronger than the demonic qi of the Celestial Demon bodies themselves, surpassing even the fluctuations emitted by the metamorphosed Eighth-Grade Immortal Artifacts used by Immortal Lord Feiyun upon ascending to the Supreme Origin Realm!

These powerful demon artifacts, under the activation of hundreds of Celestial Demons, spun around,

and the positions of hundreds of demon artifacts and Celestial Demons in the sky faintly contained a special pattern, as if they secretly mobilized an extremely terrifying force!

If Lin Xuankong were here, he would surely have seen that this formation composed of hundreds of Initial Tier Celestial Demons and demon artifacts was even stronger than the Six-Layered Luo Water Array arranged after he and Immortal Lord Luoshui Yaan Mingyu had comprehended the Luo Water Divine Diagram for thousands of years!

The reason for this, of course, was that the Six-Layered Luo Water Array arranged by Lin Xuankong and Immortal Lord Luoshui Yaan Mingyu was ultimately an arrangement of hundreds of Immortal Artifacts controlled by individual power... while the 'Immortal Slaying Thousand Demon Array' in front of them was not only composed of hundreds of powerful Primordial Realm demon artifacts but also combined the power of hundreds of Initial Tier Celestial Demons, naturally increasing its power significantly!

Surely, if Lin Xuankong and Immortal Lord Luoshui Yaan Mingyu were here, even if they saw that the Immortal Slaying Thousand Demon Array was considerably stronger than the Six-Layered Luo Water Array, they would still be immensely pleased!

Because Lin Xuankong had not yet crossed the final celestial tribulation and had not yet become a Celestial Immortal Realm powerhouse, yet he was able to arrange a formation whose power was slightly lower than the Immortal Slaying Thousand Demon Grand Array created by hundreds of Celestial Demons and Primordial Realm demon artifacts... The array of the Strongest Immortal Lord was only slightly inferior to the astonishing demon array arranged by hundreds of Celestial Demons. If Lin Xuankong knew, how could he not be delighted? He would probably immediately decide to focus his attention wholeheartedly on comprehending the Luo Water Divine Diagram to arrange a Seven Realms Luo Water Grand Array comparable to the Immortal Slaying Thousand Demon Array!

Chapter 1272: The Oddities of the Golden Dragon Immortal Realm (2)

At this moment,

at the very center of the Immortal Slaying Thousand Demon Array formed by hundreds of Celestial Demons,

the bird-faced Celestial Demon who once captured Immortal Lord Feiyun—Cyan Bird—was somewhat despondently gazing at the location of the Supreme Origin Realm Red Water Passage's third entrance.

Three thousand years ago, eager to capture Lin Xuankong for the reward from the Thousand Illusion Saint Monarch, the Cyan Wood Celestial Demon commanded all Celestial Demons of the Cyan Wood Forest to gather here, taking turns to stand guard, with the Cyan Wood Celestial Demon itself also stationed here. Yet, after three thousand years, not to mention Lin Xuankong whom the Cyan Wood Celestial Demon targeted, not a single Immortal Lord-level powerhouse from the entire Golden Dragon Immortal Realm has crossed the tribulation...

This situation nearly chilled the heart of the Cyan Wood Celestial Demon!

This powerful Initial Tier Minor Success Celestial Demon really couldn't understand—why would such a superlative Artifact Refining Master like Lin Xuankong appear in the lower Little World of the Golden Dragon Immortal Realm, and Lin Xuankong was so generous that he'd casually gift some High-Grade Immortal Artifacts to some cultivators of the Golden Dragon Immortal Realm... So why has not a single Immortal Lord-level powerhouse crossed their final Celestial Tribulation?

Not to mention owning eighteen Eighth-Grade Immortal Artifacts like Feiyun Little Celestial Fairy, having even just one Eighth-Grade Immortal Artifact would suffice for most of the Immortal Lord-level powerhouses of the Golden Dragon Immortal Realm to easily survive their final Celestial Tribulation!

The fact that no Immortal Lord-level powerhouse has crossed for three thousand years made the Cyan Wood Celestial Demon suspicious whether the information obtained initially by the soul searching technique on Feiyun Little Celestial Fairy was false. For this reason, the Cyan Wood Celestial Demon visited Red Water Prison multiple times to soul search Feiyun Little Celestial Fairy, yet the results were entirely consistent with the previously obtained information!

In the eyes of the Cyan Wood Celestial Demon, this was utterly unreasonable!

Yet the Cyan Wood Celestial Demon's strength was far inferior to the Thousand Illusion Saint Monarch and was completely unable to extend its Celestial Demon Power into the lower Little World...

With over three thousand years having passed, the Cyan Wood Celestial Demon almost lost all patience, yet it couldn't completely forsake the task assigned by the Thousand Illusion Saint Monarch. Nowadays, the Cyan Wood Celestial Demon rarely visited the area near the Red Water Passage third entrance at the edge of the Cyan Wood Forest, only dispatching some subordinate Initial Tier Celestial Demons to guard it!

The bird-faced Celestial Demon, Cyan Bird, who initially captured Feiyun, was assigned by the Cyan Wood Celestial Demon as the leader to manage and guard day and night.

Even the Cyan Wood Celestial Demon had lost patience, how could the bird-faced Celestial Demon, Cyan Bird, remain enthusiastic about this 'boring for three thousand years' task...

"Damn it, if it weren't for Lord Qingmu's soul searching technique being infallible, if it weren't for that Feiyun possessing eighteen Eighth-Grade Immortal Artifacts that couldn't possibly appear in the End of Dharma World, I'd suspect that the Golden Dragon Little Immortal Realm never had any superlative Artifact Refining Master like Lin Xuankong. Three thousand years, what exactly happened in the Golden Dragon Immortal Realm, why hasn't a single unfortunate fellow ascended?"

The Cyan Wood Celestial Demon looked despondently at the Red Water Passage third entrance, shaking his head and sighing.

Beside him, another Late Stage Initial Tier Celestial Demon, with splendid red feathers on its face, had a similarly despondent look on its strange face,

"What Brother Cyan Bird says is indeed true. In three thousand years, even if not ten or eight, at least one or two fellows should have ascended! Even if no cultivators of the Human Race ascend, there should still be one or two from the Demon Race or our Demon Race! What exactly has happened in the Golden Dragon Little Immortal Realm to be so eerie?

I heard that among the eight lords who took on the tasks from the Thousand Illusion Saint Monarch, the other seven lords have already captured many ascended Little Celestial Immortals, Little Celestial Demons, and Little Celestial Buddhas, and are thereby close to capturing the true culprits from those seven Little Worlds who sabotaged the Thousand Illusion Saint Monarch's arrangements! But here, since capturing that Feiyun Little Celestial Fairy, there has not been any movement!

Three thousand years of waiting here, if not for idling time, our realms might have already approached Initial Tier Perfection!"

The bird-faced Celestial Demon, Cyan Bird, shook its head and sighed,

"I heard over at Liguó Treasure Pool, the Buddhist Sect and the Human, Demon race's Great Success Celestial Immortals, Celestial Buddhas, and Celestial Demons have attacked our Demon Race's Liguó Holy City again. As many as over nine thousand Initial Tier Celestial Demons were captured by those Celestial Immortals, Celestial Buddhas, and Celestial Demons and suppressed in Jianmu Divine City! If not for the Thousand Illusion Saint Monarch and those adults of the Great Success Realm's intervention to repel those nearly hundred Great Success powerhouses, this time, the War of Liguó Holy City might have seen tens of thousands of Initial Tier Celestial Demons captured!

With the strength of you and me, if we can't cultivate to Initial Tier Perfection early, when faced with such terrifying War of the Gods and Demons, the only outcome would be to become cannon fodder and be captured by those Celestial Immortals, Celestial Buddhas, and Celestial Demons and eternally suppressed in the Human Race's Jianmu Divine City!

The fear is that those Great Success Celestial Immortals, Celestial Buddhas, and Celestial Demons will suddenly attack the Red Water Holy City one day, and if that were to happen..."

Hearing the bird-faced Celestial Demon, Cyan Bird, bringing up the War of Liguó Holy City, the red-feathered Celestial Demon's face immediately changed colors, its pupils shrank, and it spoke up: "Indeed, if cultivators in the Initial Tier Celestial Realm cannot cultivate to Initial Tier Perfection Realm and master a smidgeon of Source Power, they can only be considered powerless cannon fodder in battles of that level!

Not to mention the Great Success Celestial Immortals, Celestial Buddhas, and Celestial Demons, even those in the Early Stage of Minor Success like Celestial Immortals or Celestial Buddhas, can easily suppress dozens or hundreds of cultivators who haven't mastered Source Power!

Sigh, back then, we stood at the pinnacle of power in the Jade Bee Little Immortal Realm, how glorious it was, who would have thought that after ascending to the Supreme Origin Realm, our strength here would be considered the bottom of the bottom! It's so frustrating!"

Upon hearing this, Cyan Bird slightly shook his head,

"It can't be said like that, if you and I had indulged in the glory and enjoyment of the Jade Bee Little Immortal Realm back then, by now, we would have drained all our lifespan, met our demise, and been forced to start over in a new life!

Now that we have ascended to the Supreme Origin Realm, while we may be considered small characters at the bottom here, we genuinely have endless lifespan and an Undying Body,

Even if one day our luck runs out and we're captured by a Minor Success or Great Success Celestial Immortal from the Human Race, taken to Jianmu Divine City and suppressed under the Jianmu, becoming a tool for those Human Race cultivators, at least we can preserve our Divine Soul and Celestial Level body, free from the worry of utter annihilation!"

The red-feathered Celestial Demon, hearing Cyan Bird's words, was just about to reply when it suddenly sensed something, turning sharply to look toward the direction of the Red Water Passage's third entrance,

Its whole face with red feathers bristled, its pupils fixed on the entrance of the Red Water Passage, it anxiously shouted: "There's a peculiar fluctuation at the entrance of the passage; this fluctuation suggests that within the lower Little World, the Golden Dragon Immortal Realm, a cultivator is triggering the final Celestial Tribulation!"

Saying this, it was already gleefully floating with Celestial Demon Qi surging up.

Cyan Bird was also exuberant, swiftly levitating, shouting loudly to the surrounding hundreds of Initial Tier Early and Mid-grade Celestial Demons:

"All of you, be alert, do not slacken!

Hahaha, after three thousand years, there's finally some movement in this damned Golden Dragon Little Immortal Realm!

I hope that the one crossing the final Celestial Tribulation is that superlative Artifact Refining Master named Lin Xuankong. If so, as long as we capture Lin Xuankong together and hand him over to Lord Qingmu, we could certainly earn astonishing rewards, and perhaps gain a smidgeon of the Little World Origin that will help us in the future to reach the Minor Success Realm!"

Upon hearing Cyan Bird mention the Little World Origin, the hundreds of Initial Tier Early and Mid-grade Celestial Demons instantly surged with Demonic Qi, their Demon Artifacts spinning wildly in excitement.

Cyan Bird and the red-feathered Celestial Demon quickly floated near the third entrance, each moving their Demonic Qi, carefully sensing the situation.

Chapter 1273: The Astounded Celestial Demons

At the moment, at the entrance of Channel Three,

The special fluctuation that had just appeared suddenly intensified rapidly.

Both the Cyan Bird and the Red-haired Celestial Demon, who were carefully sensing it, furrowed their brows and displayed a look of puzzlement. The hundreds of Initial Tier Celestial Demons who were activating Demonic Qi also felt perplexed.

The Red-haired Celestial Demon said with a frown:

"In the nearly ten thousand years since ascending to the Supreme Origin Realm,

I have executed Lord Qingmu's task of guarding the passage entrance more than a dozen times, and sensed the fluctuations caused by cultivators crossing the tribulation in the Little World below also more than a dozen times!

But I have never found such intense fluctuations from a heavenly tribulation as this!

What is going on with this Golden Dragon Little Immortal Realm, how can it produce such violent final heavenly tribulation....?

Lord Cyan Bird, what do you think?"

As the Red-haired Celestial Demon spoke, the hundreds of Initial Tier Celestial Demons activating the Immortal Slaying Thousand Demon Array with Demonic Qi all looked at the Cyan Bird Celestial Demon, the strongest among them and greatly admired by Minor Success Celestial Demon Qingmu.

At this moment, how could Cyan Bird Celestial Demon know the reason; even if it racked its brains, it could never have guessed that in the Little World below, within the Golden Dragon Immortal Realm, there were as many as twenty-eight Strongest Immortal Lord-level powerhouses simultaneously triggering their own final heavenly tribulation!

However, being the right-hand man of Minor Success Celestial Demon Qingmu, and an Initial Tier Late Stage Celestial Demon powerhouse, Cyan Bird maintained its stature, how could it show weakness in front of these 'Little Celestial Demons' who have not been in the Supreme Origin Realm for long!

Its bird-like face, eyes darting about for a while, then it looked at those Early-stage Initial Tier Celestial Demons around, coldly chuckled,

"Look at your inexperienced selves!

Actually, it's understandable, after all, you all have barely managed to cross the Celestial Demon Tribulation and ascend to the Supreme Origin Realm in the last few thousand years, with very little experience of such things in the Supreme Origin Realm!

This kind of situation where the fluctuation from the cultivators' tribulation in the Little World below is extremely intense obviously means that there is a Strongest Immortal Lord Level Perfection Realm powerhouse crossing the tribulation in the Golden Dragon Little Immortal Realm, and I estimate there is more than one cultivator in the Little World below crossing the tribulation!"

The Red-haired Celestial Demon, hearing this, immediately bowed respectfully, saying: "Lord Cyan Bird is indeed the right-hand man of Lord Qingmu, such insight is truly unmatched by us juniors!"

Those hundreds of Initial Tier Celestial Demons also nodded repeatedly, praising profusely, among them, an Initial Tier Celestial Demon with a puzzled look asked, "Lord Cyan Bird's insight is indeed unique, but the fluctuation from the crossing of tribulation at hand is truly too intense, I wonder how many cultivators are crossing the tribulation simultaneously?"

The surrounding hundreds of Initial Tier Celestial Demons all looked towards Cyan Bird upon hearing this.

Upon hearing this, Cyan Bird Celestial Demon could not help but secretly curse in its heart, I am not the Thousand Illusion Saint Monarch who has lived for billions of years, how could I see through the situation at hand, I too wish to know how come the fluctuation from the crossing of tribulation is this intense, how many cultivators are crossing together!

After rolling its eyes, Cyan Bird Celestial Demon braced itself and said:

"It's just an End of Dharma Era Little World below, with extremely poor resources, even though this Golden Dragon Little Immortal Realm produced a super Artifact Refining Master like Lin Xuankong, ultimately a skillful woman cannot cook without rice, it's impossible to refine too many Eighth-Grade Immortal Artifacts, so even if they have Strongest Immortal Lord level cultivators crossing the tribulation simultaneously, they wouldn't exceed three to five, it's impossible for all Strongest Immortal Lord-level cultivators in the Golden Dragon Little Immortal Realm to cross the tribulation simultaneously, unless all the Strongest Immortal Lords in the Golden Dragon Little Immortal Realm have gone mad!

However, regardless of how many Strongest Immortal Lord level cultivators in this Little World are crossing their final heavenly tribulation, they are merely Initial Tier Junior Celestial Immortals who have just undergone Metamorphosis!

As soon as they ascend, remember, never let any one of them escape, you must immediately cooperate to activate the Immortal Slaying Thousand Demon Array!

If by chance this time the luck is good, among the captured cultivators, if there happens to be that super Artifact Refining Master called Lin Xuankong, all present will achieve a merit that will make the Thousand Illusion Saint Monarch and Lord Qingmu glance in admiration! This is the perfect opportunity to receive the grace of the Saint Monarch and Lord Qingmu, such an opportunity might not appear again in tens of thousands or even millions of years!"

Hearing Cyan Bird Celestial Demon say this, many Initial Tier Celestial Demons became a bit excited, each one put more effort into activating their Demon Artifact!

Cyan Bird Celestial Demon and Red-haired Celestial Demon both gazed at the entrance of Red Water Passage Channel Three, a strong sense of anticipation arose in their hearts. Although this time, Cyan Wood Celestial Demon ordered Cyan Bird Celestial Demon and Red-haired Celestial Demon, both Initial Tier Late Stage Celestial Demons, to guard here, having promised considerable grace, after several thousand years, Cyan Bird Celestial Demon and Red-haired Celestial Demon had long grown weary of tirelessly guarding this place day by day!

Although inside the Red Water Demon City, Cyan Bird Celestial Demon and Red-haired Celestial Demon may not be considered big figures, they are outstanding among Initial Tier Celestial Demons, the myriad pleasures and cultivation resources they can enjoy in Cyan Wood Forest and Red Water Demon City are a thousand times better than here at the entrance of Red Water Passage Channel Three!

At the very least, the taste of charming demonesses and Hundred-Change Demon Food in Cyan Wood Forest and Red Water Demon City, is something they both absolutely cannot enjoy near the entrance of Red Water Passage!

Thus, compared to the surrounding hundreds of Little Celestial Demons who have just arrived in the Supreme Origin Realm, Cyan Bird Celestial Demon and Red-haired Celestial Demon hope even more to capture super Artifact Refining Master Lin Xuankong as soon as possible at the location of Red Water Passage Channel Three entrance....

Chapter 1274: The Astonished Celestial Demons (2)

At this moment,

numerous Celestial Demons were anxiously urging their Demon Artifacts, eyes fixated on the position of the Third Entrance of the Red Water Passage, each prepared and ready.

If Feiyun, who ascended to the Supreme Origin Realm three thousand years ago, saw the formation at the Third Entrance of the Red Water Passage, she might feel despair despite her proud nature!

Back then, Feiyun, relying on the incredible escape speed of her Eighth-Grade Immortal Artifact after its Metamorphosis, fled from the position of the Third Entrance of Red Water Passage, only to be confronted by six or seven Initial and Mid-grade Little Celestial Demons, resulting in her being surrounded and captured!

That was merely six or seven Initial and Mid-grade Little Celestial Demons, but there were hundreds of Initial Tier Celestial Demons in front of her, with two Late-Stage Initial Tier Celestial Demons guarding!

Moreover,

these Initial and Mid-grade Little Celestial Demons had each activated Demon Artifacts no less potent than an Eighth-Grade Immortal Artifact after Metamorphosis, forming the orderly and powerful Immortal Slaying Thousand Demon Array!

With such a formation, not just Feiyun, but even ten, twenty, or thirty Feiyuns could hardly escape such an encirclement!

But now, the twenty-eight Strongest Immortal Lord-level Powerhouses undergoing their final Celestial Tribulation in the Golden Dragon Little Immortal Realm, how could they know that awaiting them in the Supreme Origin Realm was such a massive and terrifying Immortal Slaying Thousand Demon Array!

As time passed little by little,

nearly half an hour later,

the Red-haired Celestial Demon standing at the Array Hub of the Immortal Slaying Thousand Demon Array suddenly frowned and said, "Something's not right, Lord Cyan Bird. I suddenly feel that the unique

Upper Realm Primordial Qi of the Supreme Origin Realm is rapidly thinning out, with a massive influx of Upper Realm Primordial Qi rushing into the Third Entrance of the Red Water Passage!

Normally, even with a cultivator from the lower Little World successfully crossing their final Celestial Tribulation, causing a Metamorphosis of Upper Realm Primordial Qi, it wouldn't cause such a massive Qi surge!"

The Cyan Bird Celestial Demon also clearly sensed that something was amiss. Being slightly stronger than the Red-haired Celestial Demon as a Late-Stage Initial Tier Celestial Demon, its sense perception was naturally more acute, making the disappearance of Primordial Qi even more apparent.

A hint of surprise flashed in its bird eyes,

This amount of Upper Realm Primordial Qi disappearing was too unusual, clearly not something provoked by three to five Strongest Immortal Lord-level cultivators completing their final Celestial Tribulation in the lower Little World!

Could it be that the number of Strongest Immortal Lord-level cultivators undergoing their final Celestial Tribulation in the Golden Dragon Immortal Realm of the lower Little World was significantly more than anticipated?

Furthermore, it seems all the cultivators in the Golden Dragon Immortal Realm completed their Tribulation successfully at the same time?

But how is that possible?

For countless ages, the probability of Strongest Immortal Lord-level cultivators successfully crossing their final Celestial Tribulation in the lower Little World has been exceedingly low, even if they possess an Eighth-Grade Immortal Artifact, stable passage is never guaranteed!

It couldn't be that in the Golden Dragon Little Immortal Realm, the super Artifact Refining Master named Lin Xuankong actually used extremely low-tier materials to refine extremely high-tier Immortal Artifacts and truly bestowed several Eighth-Grade Immortal Artifacts to the Tribulation-crossing Strongest Immortal Lord-level cultivators?

Could Lin Xuankong's artifact refining skills be even greater than Lord Qingmu estimated?

But that's utterly impossible!

In the estimation of Lord Qingmu... Lin Xuankong, who could bestow eighteen Eighth-Grade Immortal Artifacts to that Feiyun Little Celestial Immortal, was already given extremely high appraisal, so much so that the artifact refining level of Lin Xuankong in the lower Little World could be compared to the two strongest Artifact Refining Masters of the Celestial Demon Race in the Supreme Origin Realm!

It's impossible for Lin Xuankong's artifact refining skills to surpass those of the two strongest Artifact Refining Masters of the Celestial Demon Race in the Supreme Origin Realm!

"Don't concern yourselves with these minor details!

No matter how many cultivators from the lower Little World are undergoing Tribulation at the same time, they absolutely cannot rival the Immortal Slaying Thousand Demon Array, nor is there the slightest chance of escaping from its siege!

This phenomenon of Upper Realm Primordial Qi continuously disappearing in the Supreme Origin Realm clearly proves that some of the young ones from the Golden Dragon Immortal Realm below have already succeeded in their Tribulation, so everyone, get ready! The opportunity to achieve extraordinary merits is right before us, hahaha!"

The Cyan Bird Celestial Demon's heart was filled with shock, but its face displayed an air of confidence, bursting into laughter.

However,

its laughter hadn't ended,

when suddenly, a great light erupted from the position of the Third Entrance of the Red Water Passage!

Immediately following, one figure after another appeared from the position of the Third Entrance — exactly the twenty-eight Strongest Immortal Lord-level Powerhouses from the Golden Dragon Little Immortal Realm; more precisely, twenty-eight Initial, Early-grade Little Celestial Immortals, Little Celestial Demons, and Little Celestial Buddhas!

Twenty-eight full Strongest Immortal Lord-level Powers provoking Celestial Tribulation simultaneously, yet succeeding altogether, achieving a 100% success rate... all this, naturally, was because each of these twenty-eight Strongest Immortal Lord-level Powers held a Ninth-Grade Immortal Artifact!

This was the Ninth-Grade Immortal Artifact that, since the resource-rich and astonishing Ancient Era, has been extremely difficult to successfully refine,

and yet, at this time, each of the twenty-eight Little Celestial Immortals, Little Celestial Demons, and Little Celestial Buddhas held one!

What was most astonishing,

Unlike in the Golden Dragon Immortal Realm,

the Ninth-Grade Immortal Artifacts held by Sect Leader Qiu of the Divine Dynasty Immortal Sect, Grand Elder Qiu, Great Success Yu Zhen Bodhisattva, Sect Leader Guangqing, and other Little Celestial Immortals, Little Celestial Demons, and Little Celestial Buddhas, had been refined by the ordeal of the final Celestial Tribulation and nourished by Upper Realm Primordial Qi in the Supreme Origin Realm, making them even more imbued with Immortal Charm!

Each Ninth-Grade Immortal Artifact, held in the hands of Celestial Immortals, Celestial Buddhas, and Celestial Demons, was now continuously emitting brilliant rays, while a vast amount of Upper Realm Primordial Qi from the Supreme Origin Realm was gathering toward the positions of all twenty-eight Metamorphosed Ninth-Grade Immortal Artifacts!

The rate and amount at which these twenty-eight Metamorphosed Ninth-Grade Immortal Artifacts devoured and absorbed Upper Realm Primordial Qi surpassed by countless times the quantity of Upper Realm Primordial Qi that could be absorbed by Sect Leader Qiu of the Divine Dynasty Immortal Sect,

Elder Qiu, Great Success Yu Zhen Bodhisattva, Sect Leader Guangqing, and other Immortal Lord-level Powers after being done with Tribulation!

At this time,

the twenty-eight Strongest Immortal Lord-level Powers who ascended to the Supreme Origin Realm, initially filled with joy due to successful Tribulation, now all wore expressions of heaviness, surprise, and tension, and hence, these Little Celestial Immortals, Little Celestial Demons, and Little Celestial Buddhas were carefully monitoring the changes in the Ninth-Grade Immortal Artifacts in their hands!

Because these Little Celestial Immortals, Little Celestial Demons, and Little Celestial Buddhas now saw the scene before them...

Hundreds of Initial Tier Celestial Demons each urged their extremely concentrated Demonic Qi, manipulating unusually shaped Demon Artifacts, all flying in the sky according to incredibly profound positions, clearly forming an exceedingly powerful and perilous fearsome Grand Array!

The crucial thing is, not to mention these Celestial Demon Realm Powers were each urging powerful Demon Artifacts to form a fearsome Grand Array,

just the number of Celestial Demon Realm Powers in front of them made Sect Leader Qiu of the Divine Dynasty Immortal Sect, Elder Qiu, Great Success Yu Zhen Bodhisattva, and others nervous and astonished!

There were as many as hundreds of Celestial Demon Realm Powers!

Even in their wildest dreams, Sect Leader Qiu of the Divine Dynasty Immortal Sect, Elder Qiu, Great Success Yu Zhen Bodhisattva, and others, could instantly understand that these hundreds of bizarre and ferocious-looking Celestial Demons gathered here definitely weren't here to host them a welcome feast!

However,

it was not the newly ascended Little Celestial Immortals, Little Celestial Demons, Little Celestial Buddhas like Sect Leader Qiu, Elder Qiu, and Great Success Yu Zhen Bodhisattva in the Supreme Origin Realm who were most surprised at this moment, but rather the Red-haired Celestial Demon and Cyan Bird Celestial Demon guarding the very center of the Immortal Slaying Thousand Demon Array.

These two Late-Stage Initial Tier Celestial Demons were utterly astonished as they looked at the Ninth-Grade Immortal Artifacts in the hands of Sect Leader Qiu of the Divine Dynasty Immortal Sect, Great Success Yu Zhen Bodhisattva, and others, their expressions utterly fascinating!

Chapter 1275: The Secret of Ninth-Grade Immortal Artifacts

The most astonished at this moment should have been the Red-haired Celestial Demon and the Cyan Bird,

because of the number of cultivators simultaneously succeeding in the tribulation in the Golden Dragon Immortal Realm of the lower world!

These two late-stage initial tier celestial demons have been wandering in the Supreme Origin Realm for many years, and in their impression, there has never been any lower world that could have succeeded in the tribulation with so many cultivators at the same time!

It was the ultimate celestial tribulation that struck fear into the hearts of any cultivator from the lower world!

Even the most talented cultivators from the lower worlds cannot be one hundred percent sure of surviving the ultimate celestial tribulation — after all, a large number of eighth-grade immortal artifacts or a ninth-grade immortal artifact that can guarantee a one hundred percent success rate for lower world cultivators are extremely precious treasures!

It just so happened that in the Golden Dragon Little Immortal Realm, there emerged Lin Xuankong and artifact refining genius Xiao Xiuyi, resulting in the once invaluable eighth-grade immortal artifacts and even more precious ninth-grade immortal artifacts becoming 'commonplace' in the Golden Dragon Immortal Realm!

This allowed twenty-eight powerhouses at the strongest immortal lord realm in the Golden Dragon Little Immortal Realm to undergo the tribulation simultaneously and succeed simultaneously!

Twenty-eight strongest immortal lords simultaneously becoming little celestial immortals, little celestial demons, and little celestial buddhas. This is a rare event, even in the vast Supreme Origin Realm with countless little worlds!

Such an occurrence before them,

it was only natural for the Red-haired Celestial Demon and Cyan Bird to be shocked!

Yet what shocked the Red-haired Celestial Demon and Cyan Bird the most was not the sudden appearance of twenty-eight successful tribulation crossers,

but that each of these twenty-eight cultivators who came from the end-law small world Golden Dragon Immortal Realm was holding a ninth-grade immortal artifact—the ninth-grade immortal artifacts that were rapidly metamorphosing!

"Damn it, these guys... these guys, each of them actually has a ninth-grade immortal artifact! If I hadn't seen it with my own eyes, even if my own father told me, I would not have believed it!"

The Red-haired Celestial Demon showed a look of extreme greed in its eyes, staring intently at the ninth-grade immortal artifacts rapidly metamorphosing in the hands of Sect Leader Qiu of the Divine Dynasty Immortal Sect and Great Success Yu Zhen Bodhisattva and others. It swallowed hard and murmured.

At this time, Great Success Yu Zhen Bodhisattva, Sect Leader Qiu of the Divine Dynasty Immortal Sect, Elder Qiu, Sect Leader Guangqing, and other initial tier celestial immortals also noticed something was off.

In front of them, hundreds of celestial demons, especially the two celestial demons in the central position of the array with quite a strong presence, did not launch an attack immediately but focused their attention on the ninth-grade immortal artifacts rapidly metamorphosing in their hands. The expressions of these celestial demons, besides shock, clearly showed an uncontrollable greed.

Seeing this scene,

these twenty-eight newly ascended initial tier celestial immortals immediately gathered together, each channeling their true qi, which had transformed into upper realm primordial qi, ready to face the powerful celestial demons ahead at any moment.

It was only at this moment that the many initial tier celestial immortals fully understood the warning Lin Xuankong had given them about not rushing to cross the tribulation...

Of course, to be fair, it wasn't really the fault of these twenty-eight cultivators, because even Lin Xuankong could not have been one hundred percent sure that the entrance of the passageway connecting the Golden Dragon Immortal Realm to the Supreme Origin Realm had already been controlled by so many of the celestial demon race! Moreover, their lifespans were indeed running out, and although Lin Xuankong had Young Lady Li Xiaolan to refine quite a few Turtle-Poria Immortal Elixirs that could extend life, ultimately it was impossible to distribute those elixirs to every strongest immortal lord whose lifespan was nearly exhausted. In a situation where there were many wolves and less meat, it was only natural for Lin Xuankong to first help the strongest immortal lords who were close to him!

Facing such a situation, the initial tier celestial immortals like Sect Leader Qiu of the Divine Dynasty Immortal Sect and Great Success Yu Zhen Bodhisattva, their joy from successfully crossing the tribulation and ascending to the Supreme Origin Realm had turned into tension and excitement!

The quick shift from great joy to great sorrow, even the strongest immortal lords tempered by the years, found it hard to bear!

Fortunately, among these initial tier celestial immortals, there were a few Great Accomplishment Bodhisattvas from the Spirit Platform Buddhism, and among them, Great Success Yu Zhen Bodhisattva chanted the Heart-Clearing Mantra, forcibly calming his turbulent emotions completely.

Then, this Great Success Yu Zhen Bodhisattva from the Spirit Platform Buddhism quickly noticed the strangeness of the situation in front of him,

"Fellow practitioners, something is amiss!

Thousands of years ago, when Senior Sister Great Success Yuming crossed the tribulation, my direct disciple Galin was at the Wine Immortal Sect! According to Galin, after Senior Sister Great Success Yuming successfully crossed the tribulation, the eighth-grade immortal artifact gifted by Immortal Lin

she used also completed its metamorphosis with her, transforming into a more powerful special immortal artifact!

Three thousand years ago, when Immortal Lord Feiyun crossed the tribulation, many of you and I witnessed it together! At that time, the eighteen eighth-grade immortal artifacts gifted by Immortal Lin that Immortal Lord Feiyun used, also after Immortal Lord Feiyun successfully crossed the tribulation, those eighteen eighth-grade immortal artifacts underwent the change with Immortal Lord Feiyun due to the celestial tribulation power and metamorphosed into eighteen quite powerful special immortal artifacts!

If we follow the experiences of Senior Sister Great Success Yuming and Immortal Lord Feiyun, our ninth-grade immortal artifacts should have completed their metamorphosis with us after the celestial tribulation!

However, now I can clearly sense that the ninth-grade immortal artifacts in my hands and the hands of fellow practitioners, after completing their metamorphosis in the Golden Dragon Immortal Realm and entering the Supreme Origin Realm, seem to be rapidly absorbing the thick upper realm primordial qi of the Supreme Origin Realm!

Chapter 1276: The Secrets of the Ninth-Grade Immortal Artifact (2)

"Could it be that once a ninth-grade immortal artifact is brought into the Supreme Origin Realm, it undergoes a special metamorphosis unlike the eighth-grade immortal artifacts?"

The Sect Leader Qiu of the Divine Dynasty Immortal Sect, Elder Qiu, Sect Leader Guangqing, and a few other Initial Tier Celestial Immortals heard this and nodded gravely.

Among them, Elder Qiu frowned and said, "In our Divine Dynasty Immortal Sect's ancient texts, there are a few records from the ancient, remote, and middle ages about cultivators who relied on ninth-grade immortal artifacts to pass the final celestial tribulation. But the recorders of those texts could never determine what kind of metamorphosis these ninth-grade immortal artifacts underwent after their owners successfully ascended to the Supreme Origin Realm!"

Some of the other Initial Tier Celestial Immortals focused their attention on the surrounding hundreds of Celestial Demons, each showing a troubled expression.

After cultivating for hundreds of thousands of years, they were fortunate enough to encounter Lin Xuankong, an artifact refining master, and managed to safely pass their respective final celestial tribulations using the ninth-grade immortal artifacts Lin Xuankong bestowed upon them. But before they could even celebrate, they fell into the encirclement of the Celestial Demon Race. How could they not be troubled!

The hundreds of Celestial Demons around them remained silent, their gaze fixed on the ninth-grade immortal artifacts in the hands of the Initial Tier Celestial Immortals, as if the rewards for the task given by the Cyan Wood Celestial Demon were less alluring than the rapidly metamorphosing ninth-grade immortal artifacts!

In the center of the Immortal Slaying Thousand Demon Array, the Red-haired Celestial Demon, upon hearing the comments of the Great Success Yu Zhen Bodhisattva, sneered coldly.

"Hmph, what a bunch of ignorant fools!

They are just some Little Celestial Immortals who have newly ascended to the Supreme Origin Realm. How would they know the benefits of a ninth-grade immortal artifact?

However, it wouldn't hurt to tell you, so you can understand before entering the Red Water Prison as aware prisoners!

How can ninth-grade immortal artifacts be compared to eighth-grade or seventh-grade immortal artifacts? Each ninth-grade immortal artifact born in the lower realms, perfect or not, regardless of the level of refining, is a divine artifact seed containing a sliver of the world origin from the small worlds below! After all, the materials used to refine a ninth-grade immortal artifact, even scrap pieces of heavenly materials and earthly treasures, are inevitably formed from the essence of heaven and earth!

And once a cultivator from the small world below brings the ninth-grade immortal artifact when crossing the final celestial tribulation to ascend to the Supreme Origin Realm, there is a chance for these ninth-grade immortal artifacts, as divine artifact seeds, to grow into genuine initial tier divine artifacts. Although just initial tier, they possess endless growth potential and tremendous power, which even celestial immortals, celestial demons, and celestial buddhas at the Minor Success Realm may not qualify to obtain!

What I am most curious about now is, in your Golden Dragon Little Immortal Realm, which has endured for over thirty million years and should have entered the End of Dharma Era with scarce spirit materials and Qi... How is it that each of you Little Celestial Immortals carries a ninth-grade immortal artifact to ascend to the Supreme Origin Realm?

Or could it be that these ninth-grade immortal artifacts were indeed refined by that artifact refiner named Lin Xuankong, using the essence extracted from a vast amount of materials?"

Upon hearing the Red-haired Celestial Demon say this,

the twenty-eight Initial Tier Celestial Immortals, including the Great Success Yu Zhen Bodhisattva and Sect Leader Qiu of the Divine Dynasty Immortal Sect, had their expressions change.

A ninth-grade immortal artifact, once brought into the Supreme Origin Realm, has a chance to grow into a genuine initial tier divine artifact? And an artifact with endless growth potential and power so great that celestial demons and celestial immortals at the Minor Success Realm may not even be qualified to possess? Although the people of the Divine Dynasty Immortal Sect like Sect Leader Qiu do not yet understand how strong celestial demons at the Minor Success Realm are, or what status they hold in the Supreme Origin Realm, from the tone of the Red-haired Celestial Demon, celestial demons at the Minor Success Realm must be at least stronger than this imposingly powerful celestial demon!

Nonetheless, after a moment of thought, these twenty-eight Initial Tier Celestial Immortals understood the reasoning. Besides Lin Xuankong's ninth-grade immortal artifacts, the famed ninth-grade immortal artifacts that appeared over the thirty million years of Golden Dragon Immortal Realm's history were all refined from a vast amount of incredibly precious heavenly materials and earthly treasures!

Such immortal artifacts, which gathered infinitely precious materials, being nourished by the vast primordial Qi of the Supreme Origin Realm after ascension, metamorphosing into initial tier divine artifacts, is indeed a natural course!

Among them, the Great Success Yu Zhen Bodhisattva, with a hint of anger in her gaze, looked at the sneering Red-haired Celestial Demon, "There is a Wall of the World between the Supreme Origin Realm and the Golden Dragon Immortal Realm below. Even the strongest celestial demons shouldn't be able to know matters of the Golden Dragon Immortal Realm below. How do you know about Immortal Lin Xuankong?"

The people of the Divine Dynasty Immortal Sect, like Sect Leader Qiu, also took on a solemn demeanor and gazed at the Red-haired Celestial Demon.

The Red-haired Celestial Demon sneered again at this, "Hmph, we have our ways of knowing the affairs of your Golden Dragon Immortal Realm. For instance, that Yu Ming and Feiyun you just mentioned, were captured right after ascension and have long been imprisoned in the Red Water Prison, enduring the constant washing of Red Water eternally, becoming bricks eternal for the nourishment of our Red Water Holy City! Naturally, everything in Feiyun's divine soul was also thoroughly searched using our Celestial Demon Race's Soul Searching Technique!"

Yu Ming has already been captured by these Celestial Demon powerhouses and held in the Red Water Prison?

Yu Ming ascended to the Supreme Origin Realm five thousand years ago, while Feiyun ascended three thousand years ago... Does this mean Yu Ming and Feiyun have been enduring torment in this Supreme Origin Realm's so-called Red Water Holy City for thousands of years!

The hot-tempered Great Success Yu Zhen Bodhisattva, hearing this, immediately widened her eyes,

"Damn it, damn it indeed! Back in the Golden Dragon Immortal Realm, you demons of the Demon Race wreaked havoc for over thirty million years, committing countless atrocities! In the Supreme Origin Realm, you demons who ascended continue to be cruel and vicious, even imprisoning and torturing my sister Yu Ming for thousands of years!

Now that I, Yu Zhen, have ascended, I will battle you demons!"

Before her words fell, the primordial Qi within the Jade Bright Celestial Buddha surged suddenly, forming a grand and mighty Angry-eyed Vajra phantom, and the ninth-grade immortal artifact in her hand buzzed continuously.

The other twenty-seven Initial Tier Celestial Immortals, though intimidated by the formidable force of the numerous celestial demons before them, also activated the primordial Qi within them, urging the rapidly transforming ninth-grade immortal artifacts in front of them.

These strongest Immortal Lord-level powerhouses of the Golden Dragon Immortal Realm, after crossing the final celestial tribulation, had all greatly increased in strength,

Especially the four, including Sect Leader Qiu of the Divine Dynasty Immortal Sect, Elder Qiu, Sect Leader Guangqing, and the Great Success Yu Zhen Bodhisattva, who, due to their exceptional talent, had triggered powerful celestial tribulations and, after metamorphosing their immortal bodies and divine souls, had already made a significant step forward in the realm of Initial Tier Celestial Immortals and Initial Tier Celestial Buddhas. Even if not reaching the mid-grade initial tier stage, they were still much stronger than ordinary Initial Tier Celestial Immortals and Celestial Buddhas, slightly surpassing the aura of the weaker individuals among the hundreds of celestial demons.

Unfortunately, they have ultimately just crossed the final celestial tribulation, having only just become Initial Tier Celestial Immortals, Initial Tier Celestial Demons, and Initial Tier Celestial Buddhas, and their numbers are only twenty-eight!

In contrast, the Celestial Demon Race opposed them easily numbered in the hundreds, and most had already successfully crossed tribulations and cultivated in the Supreme Origin Realm for thousands to tens of thousands of years, with these celestial demons being guided by the Early Stage Minor Success Celestial Demon, Cyan Wood Celestial Demon, forming an Immortal Slaying Thousand Demon Array more powerful than the Six-Layered Luo Water Array!

No matter how these twenty-eight Initial Tier Celestial Immortals, Initial Tier Celestial Buddhas, and Initial Tier Celestial Demons urged the primordial Qi within their bodies, their aura was still vastly weaker than that of the surrounding Celestial Demon Race powerhouses!

The feeling was akin to that of a small cat roaring angrily in front of an adult elephant!

The Red-haired Celestial Demon, looking at the appearance of Yu Zhen Little Celestial Buddha and others, could not help but sneer again, then turned to the Cyan Bird Celestial Demon beside him, speaking with respect, "Lord Cyan Bird, should we let our subordinates activate the grand array to directly crush these Little Celestial Immortals and Little Celestial Buddhas, or toy with them leisurely?"

Chapter 1277: Thousand Demon Array Second Form

At the words of the Red-haired Celestial Demon,

the faces of the several hundred Initial Tier Celestial Demons who had already arranged the array became solemn,

each one putting away the greed in their eyes and fully mobilizing the demonic energy within their bodies.

The Cyan Bird Celestial Demon cast a glance towards Yu Zhen Little Celestial Buddha and the others,

then reached into its bosom, taking out a special demon artifact in the shape of a skull, and said:

"Even lions use their full strength to capture rabbits!

The cultivators who ascended from the Golden Dragon Little Immortal Realm before us,

are targets appointed by Lord Qingmu, and not a single one must be allowed to escape.

Everyone, activate the Immortal Slaying Thousand Demon Array!

But everyone must remember one thing: these Initial Tier Celestial Immortals are using Ninth-Grade Immortal Artifacts that are absorbing the Upper Realm Primordial Qi and undergoing rapid metamorphosis. While it is uncertain if any of these twenty-eight Ninth-Grade Immortal Artifacts will transform into Initial Tier Divine Artifacts, such extremely precious treasures must not be damaged! When attacking these Initial Tier Celestial Immortals, be careful not to harm those Ninth-Grade Immortal Artifacts that are rapidly transforming!"

No sooner had the words left his mouth than the Cyan Bird Celestial Demon abruptly infused a massive amount of demonic energy into the Skull Demon Artifact,

which emitted hundreds of tendrils of black energy, linking all the demon artifacts placed before the several hundred Initial Tier Celestial Demons who had set up the Immortal Slaying Thousand Demon Array. In an instant, endless Upper Realm demonic energy circulated swiftly among the hundreds of demon artifacts!

At the same time,

streams of highly concentrated demonic energy transformed into the forms of various Celestial Demons, Demonesses, Skeletons, Exotic Beasts, and Demon Artifacts, carrying an immensely fierce momentum, emitting strange and chilling cries, they attacked towards the twenty-eight Initial Tier Celestial Immortals!

Witnessing this, Great Success Yu Zhen Bodhisattva, Sect Leader Qiu of the Divine Dynasty Immortal Sect, Elder Qiu, Sect Leader Guangqing, and the other Initial Tier Celestial Immortals wasted no time, each unleashing the most powerful immortal techniques they had ever cultivated in their lifetime!

In an instant,

where the twenty-eight Initial Tier Celestial Immortals stood,

ten thousand rays of colorful light, immortal apparitions, Buddhist divine aspects, and demon race totems manifested one after another, welcoming the overwhelming attack from the Immortal Slaying Thousand Demon Array!

These twenty-eight Initial Tier Celestial Immortals, having undergone the refinement and metamorphosis of the ultimate Celestial Tribulation, had greatly increased in power, each capable of sweeping across the entire Golden Dragon Immortal Realm almost effortlessly!

Even someone like Lin Xuankong, the foremost in the Golden Dragon Immortal Realm, before undergoing the ultimate Celestial Tribulation and complete metamorphosis, would find it extremely difficult to resist and might not be a match for any one of these Initial Tier Celestial Immortals!

Such Initial Tier Celestial Immortals, totaling twenty-eight, acting at once, naturally wielded immense power. Even Lin Xuankong, observing this through the red glow of the Nine Gates Celestial Eye in the Golden Dragon Immortal Realm, couldn't help but feel a sense of longing at the sight of the immortal techniques driven by Upper Realm Primordial Qi used by these Initial Tier Celestial Immortals!

However, compared to the might of the attacks initiated by the several hundred Celestial Demons forming the Immortal Slaying Thousand Demon Array around them, the efforts of these twenty-eight

Initial Tier Celestial Immortals, strong enough to easily sweep the Golden Dragon Immortal Realm, were as futile as an ant trying to stop a chariot!

In just a fraction of a split second,

the myriad colors, visions, totems, and more unleashed by the twenty-eight Initial Tier Celestial Immortals, Celestial Buddhas, and Celestial Demons, such as Great Success Yu Zhen Bodhisattva, Sect Leader Qiu of the Divine Dynasty Immortal Sect, Elder Qiu, Sect Leader Guangqing, were all completely shattered, turning into dissipating Upper Realm Primordial Qi!

Whereas the oncoming assault from the Immortal Slaying Thousand Demon Array initiated by the several hundred Celestial Demons was imminent!

The combined strength of the several hundred Celestial Demons, plus that of the Red-haired Celestial Demon and Cyan Bird Celestial Demon, far surpassed what these twenty-eight Initial Tier Celestial Immortals could contend with!

Moreover, the miraculous and powerful Immortal Slaying Thousand Demon Array formed by these several hundred Initial Tier Celestial Demons along with the Red-haired and Cyan Bird Celestial Demons saw their combined strength augment tremendously under the array's blessing, elevating their power by countless multiples. Under such circumstances, for the varied rays of color, visions, and totems unleashed by the twenty-eight Initial Tier Celestial Immortals to last a mere fraction of a split second was already quite exceptional, primarily because these twenty-eight Initial Tier Celestial Immortals' techniques were propelled by the metamorphosing Ninth-Grade Immortal Artifacts. Otherwise, they wouldn't have lasted even a tenth of a fraction of a split second before their varied techniques were crushed!

In a flash,

just as the incomparably fierce and terrifying attacks from the Immortal Slaying Thousand Demon Array were about to crash into the essence of the immortals,

Great Success Yu Zhen Bodhisattva and Sect Leader Qiu of the Divine Dynasty Immortal Sect, standing before the twenty-eight Initial Tier Celestial Immortals, abruptly urged the Ninth-Grade Immortal Artifacts in the midst of metamorphosis, and in an instant, the two Ninth-Grade Immortal Artifacts

undergoing rapid transformation suddenly enlarged, expanding to several tens of meters in size, completely shielding the front of the twenty-eight Initial Tier Celestial Immortals!

The countless incoming attacks from the Immortal Slaying Thousand Demon Array were incredibly near to the two suddenly enlarged Ninth-Grade Immortal Artifacts within that incredibly brief moment!

In that extremely brief instant,

the Red-haired Celestial Demon, Cyan Bird Celestial Demon, and the other several hundred Initial Tier Celestial Demons orchestrating the Immortal Slaying Thousand Demon Array all showed a grim expression, simultaneously exerting their demon techniques to forcibly halt the myriad assaults of the Immortal Slaying Thousand Demon Array!

At that very moment,

countless condensed demonic energies taking the forms of Celestial Demon bodies, Demoness figures, Skeletal figures, and Exotic Beasts stopped dead, just three meters before the two enlarged Ninth-Grade Immortal Artifacts!

Though a distance of three meters is within close range for these Initial Tier Celestial Demons, capable of having their demonic powers span tens to hundreds or even thousands of miles in an instant, these Initial Tier Celestial Demons all ceased, and none among them allowed their attack to land on the two enlarged Ninth-Grade Immortal Artifacts!

Chapter 1278: Thousand Demon Array Second Form_2

Seeing this situation, Great Success Yu Zhen Bodhisattva, Sect Leader Qiu of the Divine Dynasty Immortal Sect, Elder Qiu, Sect Leader Guangqing, and others all showed a hint of delight in their expressions.

"These damned demons are powerful and have set up an extremely intricate array, yet they covet the Ninth-Grade Immortal Artifacts in our hands! Fellow cultivators, let's take advantage of these demons' greed. Use our Ninth-Grade Immortal Artifacts to enlarge them, shield our Immortal Bodies, and forge a path out!"

Great Success Yu Zhen Bodhisattva shouted loudly without hesitation.

Upon hearing Great Success Yu Zhen Bodhisattva's words, apart from Sect Leader Qiu of the Divine Dynasty Immortal Sect, Sect Leader Guangqing and Elder Qiu and other Initial Tier Celestial Immortals showed slightly troubled expressions and shook their heads.

Elder Qiu of the Divine Dynasty Immortal Sect frowned and said, "Yu Zhen Celestial Buddha, haven't you felt that since ascending to the Supreme Origin Realm, the Primordial Qi in this Upper Realm is overwhelmingly dense, constantly pressuring our Immortal Bodies? The pressure from this dense Primordial Qi is a thousand times greater than that in the Golden Dragon Immortal Realm below! In this situation, while our Immortal Techniques have grown more powerful due to the abundance of Upper Realm Primordial Qi, our strength has increased many times over, yet we cannot perform various Transformation Techniques. Even trying to expand the Ninth-Grade Immortal Artifacts in our hands is extremely difficult!"

Upon hearing this, the expression of Yu Zhen Celestial Buddha changed, looking towards Sect Leader Qiu of the Divine Dynasty Immortal Sect,

Sect Leader Qiu of the Divine Dynasty Immortal Sect nodded,

"I also feel that the Primordial Qi in the Supreme Origin Realm is too dense. Expanding a Ninth-Grade Immortal Artifact to thirty or forty zhang is already the limit, yet we can barely transform our Immortal Bodies and manage some transformation of the Ninth-Grade Immortal Artifacts! As for the rest of our fellow cultivators, it seems they lack the strength to transform the size of the Ninth-Grade Immortal Artifacts!

This situation... perhaps during the final Heavenly Tribulation, only we activated the Ninth-Grade Immortal Artifacts during the last round to protect ourselves, so we reaped more benefits from the final Heavenly Tribulation's body and soul refinement compared to other fellow cultivators, allowing us to advance a few more steps in the Initial Tier Celestial Immortal Realm!"

Upon hearing this, Great Success Yu Zhen Bodhisattva turned to look at the other Initial Tier Celestial Immortals and Celestial Buddhas and Celestial Demons; seeing them all nodding, couldn't help but furrow her brow.

Before they underwent the final Heavenly Tribulation, Lin Xuankong had gifted them Ninth-Grade Immortal Artifacts, all in the form of three-foot longswords. If these Immortal Artifacts cannot change

size, they are fine for attacking, but using them as 'shields' to block the attacks of the Immortal Slaying Thousand Demon Array becomes somewhat inadequate!

Seeing the expressions of these Initial Tier Celestial Immortals,

the Red-haired Celestial Demon guarding the center of the Immortal Slaying Thousand Demon Array sneered once again,

"Humph, if it weren't for not wanting to interrupt the metamorphosis process of the Ninth-Grade Immortal Artifacts, you mere Initial Tier Early-stage Celestial Immortals would have already been obliterated by the power of the Immortal Slaying Thousand Demon Array in less than a thousandth of an instant! But even with these twenty-eight metamorphosing Ninth-Grade Immortal Artifacts, so what? The mystery and wonder of the Immortal Slaying Thousand Demon Array set up by my Lord Qingmu are not something you newly ascended, small Initial Tier Early-stage Celestial Immortals can resist!"

After speaking, it shouted to the surrounding hundreds of Initial Tier Celestial Demons: "Change the formation, miniaturize the attacks of the Immortal Slaying Thousand Demon Array, so these small Initial Tier Early-stage Celestial Immortals cannot possibly defend against it, let them experience the wonders of Lord Qingmu's Immortal Slaying Thousand Demon Array!"

The numerous Initial Tier Celestial Demons responded with loud approval and quickly began changing their hand seals and positions.

Seeing this Red-haired Celestial Demon speak so, and witnessing the hundreds of powerful Celestial Demons rapidly changing hand seals and positions, the twenty-eight Initial Tier Celestial Immortals surrounded at the center all changed their expressions, not daring to delay. They all gathered near the two Ninth-Grade Immortal Artifacts of Great Success Yu Zhen Bodhisattva and Sect Leader Qiu of the Divine Dynasty Immortal Sect. Simultaneously, they unleashed the three-foot Ninth-Grade Immortal Swords that could not change size, making them float in front of them, ready to withstand the next wave of the Immortal Slaying Thousand Demon Array's attack at any moment!

Elder Qiu of the Divine Dynasty Immortal Sect stood beside Sect Leader Qiu, looking at the surrounding hundreds of 'certain-to-succeed' Initial Tier Celestial Demons. This most experienced and senior of the twenty-eight Initial Tier Celestial Immortals had a constantly changing expression, seemingly contemplating something.

Great Success Yu Zhen Bodhisattva and Sect Leader Qiu of the Divine Dynasty Immortal Sect, vigilantly activated the enlarged Ninth-Grade Immortal Artifacts, one in front, one behind, shielding the other twenty-six Initial Tier Celestial Immortals at the center.

"Ssssss"

Strange sounds burst forth continuously!

In front of the hundreds of Initial Tier Celestial Demons, countless small twisting black snakes shot out from the Demon Artifacts, appearing as thin as hairs and as short as fingers yet numbering in the millions! As soon as these black micro-snakes appeared, they shot swiftly towards the twenty-eight Initial Tier Celestial Immortals at the center of the Immortal Slaying Thousand Demon Array. In the process of flying, the numerous and omnipresent dense Primordial Qi of the Supreme Origin Realm let out abnormal sounds as they pierced through!

Even without experiencing it firsthand, the twenty-eight Initial Tier Celestial Immortals knew that these millions of micro-snakes of demonic Qi, possessing such fearsome momentum, enhanced by the Immortal Slaying Thousand Demon Array and driven by hundreds of powerful Celestial Demons, definitely had a ferocious attack power. Once these fearsome small snakes of demonic Qi bypassed their defenses, the defensive power of their Immortal Bodies would undoubtedly fail to withstand it and suffer attacks and torment from these micro-snakes!

Thus, as those black micro-snakes flew near, the twenty-eight Initial Tier Celestial Immortals all shouted in unison, activating their respective Ninth-Grade Immortal Artifacts at lightning speed, madly and swiftly slashing towards those micro-snakes of demonic Qi!

"Ding ding ding ding ding"

The sound of metal clashing continued to ring around the twenty-eight Initial Tier Celestial Immortals.

In just one-tenth of an instant, hundreds of thousands of micro-snakes of demonic Qi were cut into pieces by the extremely sharp Ninth-Grade Immortal Artifacts, completely shattered, and dissipated into the air!

Unfortunately, although these twenty-eight Initial Tier Celestial Immortals' Ninth-Grade Immortal Artifacts were invaluable and unmatched in sharpness, their own strength, except for Great Success Yu Zhen Bodhisattva and Sect Leader Qiu of the Divine Dynasty Immortal Sect, was only that of the most novice Initial Tier Celestial Immortals! With such strength, how could they seamlessly block the second form of the Immortal Slaying Thousand Demon Array's attack!

"Ah!"

Only a fifth of an instant passed,

when an Initial Tier Early-stage Demon Immortal let out a miserable cry, falling backward to the ground, twitching and howling incessantly.

This was an Initial Tier Early-stage Demon Immortal belonging to the Cyan Dragon Race. Its strength was clearly inferior to that of the Elder Clan Leader of the Cyan Dragon Race. During the final Heavenly Tribulation's third-round attack, unable to withstand the attack, it used the Ninth-Grade Immortal Artifact gifted by Lin Xuankong, resulting in its Immortal Body not receiving the utmost Heavenly Tribulation refinement and metamorphosis, failing to elevate the Immortal Artifact and Divine Soul to the level of Great Success Yu Zhen Bodhisattva and being even weaker than the surrounding Initial Tier Early-stage Celestial Immortals!

Correspondingly, this Initial Tier Early-stage Demon Immortal of the Cyan Dragon Race, lacking strength, naturally experienced a deficiency in the speed and power of the Ninth-Grade Immortal Artifact it wielded, thus allowing the boundless micro-snakes of demonic Qi to find gaps, directly penetrating its Immortal Body!

The micro-snakes of demonic Qi from the Immortal Slaying Thousand Demon Array infiltrated, immediately disrupting the Primordial Qi flow of this Initial Tier Early-stage Demon Immortal of the Cyan Dragon Race, inflicting severe damage upon its Immortal Body in a very short time...

Though an Initial Tier Early-stage Celestial Immortal possesses an Immortal Body almost infinitely close to immortality and a Divine Soul similarly close to never perishing, with an astoundingly fast recovery ability capable of healing Immortal Body injuries inflicted by micro-snakes of demonic Qi in an extremely short time, the massive amount of micro-snakes of demonic Qi invading its Demon Immortal Body continued their relentless, fierce destruction of its Immortal Body, rendering it incapable of regaining combat capability in such a short time!

Chapter 1279: Perilous Situation

Upon seeing the Cyan Dragon Race's Celestial Demon fall to the ground,

the other twenty-seven Initial Tier Celestial Immortals felt a chill in their hearts.

Yet, at this moment, faced with the overwhelming attack of endless magic micro-snakes, the twenty-seven Initial Tier Celestial Immortals were already struggling to cope, and could hardly spare the power to help the Cyan Dragon Race's Celestial Demon expel the magic micro-snakes from its body.

What's even more fatal is that,

merely a tenth of a breath later,

the Initial Tier, early-stage Celestial Demon from the Cyan Dragon Race, lying on the ground, had a magic micro-snake drilled into every pore of its body,

It is likely that tens of thousands of magic micro-snakes have now invaded his Immortal Body... Under the rampant attack of so many magic micro-snakes, this Initial Tier, early-stage Celestial Demon of the Cyan Dragon Race couldn't even twitch, nor could it utter a roar, leaving only bloodshot eyes revealing a nearly insane expression—it was clearly in extreme agony!

If it weren't for the Celestial Demons possessing near-immortal bodies, this terrifying attack might have caused this Initial Tier Celestial Demon to fall within a millionth of a breath!

At this moment,

"Ah!" "Ah!" "Ah!"

Three cries of agony erupted from the crowd of Initial Tier Celestial Immortals, followed by three figures collapsing and convulsing violently. The three Ninth-Grade Immortal Artifacts they wielded clattered with a crisp sound as they fell to the ground!

Subsequently, dozens of magic micro-snakes swept up the four Ninth-Grade Immortal Artifacts that had fallen and were rapidly metamorphosing, swiftly heading towards the Cyan Bird Celestial Demon.

In less than a breath's time,

four Initial Tier Celestial Immortals and Celestial Demons had their defenses breached by the magic micro-snakes!

The second form of attack from the Immortal Slaying Thousand Demon Array was terrifying indeed!

The other twenty-four Initial Tier Celestial Immortals still struggling to hold on, including Great Success Yu Zhen Bodhisattva and Sect Leader Qiu of the Divine Dynasty Immortal Sect, felt a sudden tension throughout their bodies, their hearts sinking to the bottom.

Because the overwhelming number of magic micro-snakes rushing at them was increasing, when the twenty-four Initial Tier Celestial Immortals and Celestial Buddhas looked up, the entire sky and earth were filled with densely packed, rapidly writhing magic micro-snakes. The second form of the Immortal Slaying Thousand Demon Array's attack was becoming more and more intense, more terrifying, and harder to withstand!

At this moment, in the Array Hub of the Immortal Slaying Thousand Demon Array,

the Cyan Bird Celestial Demon, while wielding the Skull Demon Artifact, excitedly clasped the four Ninth-Grade Immortal Artifacts engulfed by the magic snakes.

Sensing the ever-metamorphosing power of the four Ninth-Grade Immortal Artifacts in its hand, the Cyan Bird Celestial Demon slightly trembled its demonic power, completely erasing the Initial Tier Celestial Immortal's mark from the four Ninth-Grade Immortal Artifacts, leaving its own control mark!

"Congratulations, Lord Cyan Bird. Even if none of these twenty-eight Ninth-Grade Immortal Artifacts can metamorphose into an Initial Tier Divine Artifact, as Ninth-Grade Immortal Artifacts, their power already ranks as Upper Grade among the numerous treasures of the Supreme Origin Realm, far stronger than the Eighth-Grade Demon Artifact I use, by dozens or a hundred times!"

The Red-haired Celestial Demon, eyes filled with greed and envy, looked at the four metamorphosing Ninth-Grade Immortal Artifacts in the Cyan Bird Celestial Demon's hand, speaking with a face full of flattery.

Pausing, it couldn't help but add,

"Of course, if among these twenty-eight Ninth-Grade Immortal Artifacts acquired by Lord Cyan Bird today, there happens to be one with the chance to metamorphose into an Initial Tier Divine Artifact... Tsk tsk, an Initial Tier Divine Artifact can easily gravely injure any Late Stage of Initial Tier Celestial Immortal, Celestial Buddha, and Celestial Demon, and can continue to grow by devouring the essence of Celestial Immortals, Celestial Buddhas, Celestial Demons, and the Little World!"

Currently, the twenty-four Initial Tier Celestial Immortals, Celestial Demons, and Celestial Buddhas continued to resist fiercely, but in the Red-haired Celestial Demon's view, the resistance of these twenty-four Initial Tier Celestial Immortals, Celestial Demons, and Celestial Buddhas was futile, and in a few breaths' time, these little Celestial Buddhas, Celestial Demons, and Celestial Immortals would surely be defeated. In that case, the twenty-eight Ninth-Grade Immortal Artifacts would undoubtedly fall into the Cyan Bird Celestial Demon's hands!

In this, should even one Ninth-Grade Immortal Artifact metamorphose into an Initial Tier Divine Artifact, it would be a peerless Divine Artifact that even the Cyan Celestial Demon might not dare to claim for itself. Perhaps only the City Lord of Red Water, whose status is far higher than that of the Cyan Wood Celestial Demon, would qualify to possess it in the entire Red Water Holy City!

Of course, even if the Red-haired Celestial Demon, Cyan Bird Celestial Demon, or Cyan Wood Celestial Demon were unqualified to own an Initial Tier Divine Artifact, how could it matter? Such precious items in the Supreme Origin Realm, which only a Great Success Celestial Demon could qualify to possess, once given by the Cyan Bird Celestial Demon to the Cyan Wood Celestial Demon, and from the Cyan Wood Celestial Demon to the City Lord of Red Water or Thousand Illusion Saint Monarch, the City Lord and Saint Monarch would surely bestow extremely generous rewards. This might even include a substantial amount of Little World Origin, essential for an Initial Tier Celestial Demon to advance to a Minor Success Celestial Demon, and a Minor Success Celestial Demon to progress to a Great Success Celestial Demon!

Thus, even as the Red-haired Celestial Demon saw the Cyan Bird Celestial Demon holding all four Ninth-Grade Immortal Artifacts, it felt immense joy amidst its greed and envy, for with the Cyan Wood Celestial Demon and Cyan Bird Celestial Demon 'eating the meat' and 'drinking the soup', it, as a Late Stage of Initial Tier Celestial Demon, would have the chance to savor one or two sips of the leftover broth!

Chapter 1280: Dire Crisis (Part 2)

"Hahahaha, everyone, exert your strength and activate the Immortal Slaying Thousand Demon Array, quickly capture these Initial Tier Junior Celestial Immortals and Little Celestial Demons, don't let a single one escape!

Once we obtain these twenty-eight Ninth-Grade Immortal Artifacts, every Celestial Demon present has a chance to receive Lord Qingmu's reward. If any of these Ninth-Grade Immortal Artifacts undergoes Metamorphosis to become an Initial Tier Divine Artifact, then perhaps everyone here will get a little bit of the Little World's Origin, providing a chance to increase their probability of advancing to Minor Success Celestial Demons in the future!"

Ecstatically, the Cyan Bird Celestial Demon shouted out.

It naturally understands that in the entire Red Water Demon City, Divine Artifacts are extremely rare, with only the City Lord of Red Water and Saint Monarch Envoy possessing one each, both of which miraculously metamorphosed from thousands of Ninth-Grade Immortal Artifacts! The chance of Ninth-Grade Immortal Artifacts metamorphosing into Divine Artifacts under the nourishing Primordial Qi of the Upper Realm is incredibly low, so even with thousands of Ninth-Grade Immortal Artifacts, it's unlikely even one will succeed in metamorphosing!

Yet before them are a full twenty-eight Ninth-Grade Immortal Artifacts, so perhaps today fortune smiles, and they might witness the birth of an Initial Tier Divine Artifact!

Hundreds of Initial Tier Celestial Demons actively activating the Immortal Slaying Thousand Demon Array, hearing the Cyan Bird Celestial Demon's call, immediately felt invigorated, tirelessly activating the Demon Artifacts, thereby greatly enhancing the power of the Immortal Slaying Thousand Demon Array!

Even knowing the Cyan Bird Celestial Demon is painting an unattainable dream, the name 'Little World Origin' excites the Initial Tier Celestial Demons, unable to suppress the thrill in their hearts despite the slim hope!

That could indeed be one of the most elusive divine items required by Initial Tier Celestial Demons to cultivate to the Late Stage and advance to Minor Success Celestial Demons!

Regarding the power and status upon becoming Minor Success Celestial Demons... In the Cyan Wood Forest, there are close to a thousand Initial Stage, Mid-grade Stage, and Late Stage Celestial Demons, none of which dare to disrespect the Cyan Wood Celestial Demon or question its orders!

A Celestial Demon of Minor Success Realm can devastate any Initial Stage, Mid-grade Stage, or Late Stage Celestial Demon in mere moments, within fractions of a second!

Not only do the Initial Tier Celestial Demons in the Cyan Wood Forest revere the Cyan Wood Celestial Demon, but any Initial Tier Celestial Demons within the Cyan Wood Forest Realm, including those from other realms in Red Water Holy City, must worship and regard any Minor Success Celestial Demon as a deity!

Within the lower Little World of Golden Dragon Immortal Realm, people fear martial artists like tigers, Mortal Tier Martial Artists venerate Earth Immortals like deities, Earth Immortals respect Strongest Immortal Lords as gods—a situation that exists even more in this Supreme Origin Realm! Because in the lower world immortal realms, offending a high-tier cultivator as a low-tier cultivator might lead only to corporal destruction and immediate death, yet reincarnation is still an option, and those who practice Buddhist Techniques might even awaken past wisdom in future lives!

But in the Supreme Origin Realm, the imperishable bodies and immortal souls of Celestial Immortals, Celestial Buddhas, Celestial Fiends, and Celestial Demons once they greatly offend a strong figure, wouldn't even have the chance to escape; a powerful one's fury could subject lower tiers to endless torture... Not needing to worry about whether they might over-torture and kill these low-tier Celestial Immortals, Celestial Demons, and Celestial Buddhas!

Thus, within the Supreme Origin Realm the hierarchies between strong ones and lower tiers are extremely clear; weak ones revere strong ones undoubtedly like mortals respect deities!

In such a Supreme Origin Realm, how could these Initial Tier Celestial Demons not dream of obtaining a fragment of Little World Origin, to slightly boost their chances of becoming Minor Success Celestial Demons!

Presently, hearing the unattainable dream painted by the Cyan Bird Celestial Demon, hundreds of Initial Tier Celestial Demons became energized, driving the Immortal Slaying Thousand Demon Array to near its limit!

Suddenly,

The twenty-four Initial Tier Celestial Immortals and Celestial Buddhas being besieged by countless miniature snake-like Demonic Qi, found it increasingly difficult to resist!

Among them, only those slightly stronger, thus able to expand their Ninth-Grade Immortal Artifacts to dozens of feet in size like Great Success Yu Zhen Bodhisattva and Sect Leader Qiu of the Divine Dynasty Immortal Sect, could barely sustain themselves, while other Initial Tier Celestial Immortals, Celestial Buddhas, and Celestial Demons immediately fell into grave peril.

Just a twentieth of a breath later,

Six simultaneous cries of agony rang out, belonging to Strongest Immortal Lord Ling Wuji of the Divine Dynasty Immortal Sect, an Initial Tier Celestial Immortal of the Spiritual Crane Immortal Sect, and four Initial Tier Celestial Demons from Boundaryless Mountain!

The six Initial Stage Junior Celestial Demons and Celestial Immortals fell victim to the sneak attacks of miniature snake-like Demonic Qi penetrating through, causing their immortal bodies to collapse and twitch helplessly. Their six Ninth-Grade Immortal Artifacts were swept by the snake-like Demonic Qi as before and delivered to the Cyan Bird Celestial Demon, who had a face full of joy.

Witnessing such a situation,

The remaining eighteen Initial Tier Celestial Immortals, Celestial Demons, and Celestial Buddhas, whether Great Success Yu Zhen Bodhisattva, Sect Leader Qiu, or Elder Qiu, all showed an extremely unpleasant look, and their spirits weighed heavily!

With manpower dwindling, the opposing Celestial Demon Race's Immortal Slaying Thousand Demon Array attacks were becoming increasingly fierce... Even fiery-tempered Great Success Yu Zhen Bodhisattva amongst eighteen Initial Tier Celestial Immortals had to admit that perhaps the current calamity was inevitably inescapable, despite expending all possible strength!

Spiritual Crane Immortal Sect's Demon Suppression Spirit Peak, Profound Void Cave.

Lin Xuankong sat serenely on the Profound Truth Jade Bed, his Heart Spirit already tracking the Initial Tier Celestial Demons, Celestial Buddhas, and Celestial Demons at the entrance of the Supreme Origin Realm's third passage via the scarlet beam from the Nine Gates Celestial Eye.

At this moment, Great Success Yu Zhen Bodhisattva, Sect Leader Qiu, and others were trapped at the location of the third entrance to the Red Water Passage, near the World Wall of the Supreme Origin Realm and Golden Dragon Immortal Realm, so the scarlet beam from his Nine Gates Celestial Eye could still transmit all that the twenty-eight Initial Tier Celestial Immortals, Celestial Buddhas, and Celestial Demons could see and feel, without deviation.

"Xuankong, what exactly happened after Great Success Yu Zhen Bodhisattva and Sect Leader Qiu ascended to the Supreme Origin Realm, for your expression to shift back and forth?"

Beside Lin Xuankong, the Strongest Immortal Lord Guang Yu'er, observing Lin Xuankong with an expression full of concern, inquired earnestly.

Lin Xuankong, having intended to thwart numerous Strongest Immortal Lords from ascending to the Supreme Origin Realm, had long been open about his cultivation of the Nine Gates Celestial Eye through the Demon Technique with Strongest Immortal Lord Guang Yu'er and others. Lin Xuankong's practice of Profound Yin Demon Race's Demon Techniques had become extensive, masking was unnecessary!

Consequently, Strongest Immortal Lord Guang Yu'er was aware that Lin Xuankong was, at that moment, activating the Nine Gates Celestial Eye to observe the situation of Divine Dynasty Immortal Sect's Sect Leader Qiu, and Great Success Yu Zhen Bodhisattva, among others.

Listening to Fourth Lady Guang Yu'er's voice, Lin Xuankong diverted a sliver of Heart Spirit, opened his eyes to look at Guang Yu'er, and slightly shook his head:

"The situation is quite dire..."

A few breaths later, Lin Xuankong narrated the situation of Great Success Yu Zhen Bodhisattva and others ascending to the Supreme Origin Realm only to encounter an array laid by hundreds of powerful

Celestial Demons. Strongest Immortal Lord Guang Yu'er promptly stood up, anxiously expressing, "Sect Leader, Yu Zhen Bodhisattva, and Sect Leader Qiu... How could the ascension entrance connecting the Supreme Origin Realm to Golden Dragon Immortal Realm have so many formidable Celestial Demons! Facing such a situation, can Sect Leader, Yu Zhen Bodhisattva, and Sect Leader Qiu still have a chance to escape the encirclement?"

Lin Xuankong at this moment fell silent, ceasing his speech.

Is there still a chance to escape the encirclement? Lin Xuankong certainly hoped these fellow companions from the Golden Dragon Immortal Realm would escape the siege of hundreds of Celestial Demons, considering he had gifted Great Success Yu Zhen Bodhisattva, Sect Leader Qiu, Sect Leader Guangqing, Elder Qiu, and others Ninth-Grade Immortal Artifacts—not just out of camaraderie but to create a benevolent bond! These elders can be regarded as exceptionally talented prodigies, and once they ascend, relying on their astounding talent and fortune, they might grow swiftly, fostering numerous friendships and advantages for Lin Xuankong when he crosses the tribulation in the future!

But given the current circumstances...
