Chapter 1281: Nine-Headed Immortal-Swallowing Snake

Before him were hundreds of Initial Tier Celestial Demons,

among them were several with a presence far surpassing that of the Yu Zhen Little Celestial Buddha, powerful demons,

and these hundreds of Initial Tier Celestial Demons had joined forces to form a demon array more potent than the Six-Layered Luo Water Array!

Not to mention the Great Success Yu Zhen Bodhisattva, Sect Leader Qiu of the Divine Dynasty Immortal Sect, Sect Leader Guangqing, and the others, those Initial Tier Junior Celestial Immortals and Celestial Buddhas and Celestial Demons were involved as well. Even Lin Xuankong, who could directly trigger the final Celestial Tribulation and ascend to the third entrance of the Red Water Passage, was not entirely confident he could easily escape from the entrapment of this Immortal Slaying Thousand Demon Array!

Yet, before him, Fourth Lady Guang Yu'er was clearly deeply worried for the senior sect member, Sect Leader Guangqing, and for the dozens of fellow cultivators. How could Lin Xuankong rashly say: They are absolutely done for, there's no chance of escape!

As for why Fourth Lady Guang Yu'er inquired about the reason these hundreds of Initial Tier Celestial Demons gathered here...

Lin Xuankong had learned from the Red-haired Celestial Demon and the Bird-faced Celestial Demon that all this originated from the Thousand Illusion Saint Monarch's scheming, namely from the Demon Child Gang Bone provoking the Immortal Demon War, from himself disrupting the Thousand Illusion Saint Monarch's plans, and certainly from refining a large number of High-Grade Immortal Artifacts-----an innocent man is made guilty by his wealth!

At this moment, the cause of Lin Xuankong's ever-changing expression was also partly because the red glimmer of his Nine Gates Celestial Eye not only received the visual and auditory senses from those twenty-eight Initial Tier Celestial Immortals, Celestial Buddhas, and Celestial Demons, but also their feelings, tactile sensations, and so forth!

In other words, the agony that ten of those Initial Tier Celestial Immortals, Celestial Buddhas, and Celestial Demons are enduring, was also thoroughly transferred to Lin Xuankong! Such pain was unbearable even for the ten Immortals, Buddhas, and Demons... it's just that Lin Xuankong had cultivated the Golden Body Demon Suppression Technique to the Ultimate Realm and honed his Supreme Demon Body to Perfection Realm, while possessing a Divine Soul of Supreme Realm from the Golden Dragon Immortal Realm, otherwise, the intense pain transferred back from the ten Initial Tier Celestial Immortals, Buddhas, and Demons might have outright shattered Lin Xuankong's Divine Soul, causing him to collapse!

This incredible red glimmer of the Nine Gates Celestial Eye, capable of probing everything, truly has infinite wondrous uses, yet it embodies the characteristics of a Demon Technique, as Lin Xuankong must also endure the counterpart's pain, embodying true "empathy"!

Of course, thanks to the red glimmer of the Nine Gates Celestial Eye, not all of the obtained information is bad news!

For Lin Xuankong, amidst the information that induced his changing expressions and heavy heart yet provided some excitement, was the news concerning Ninth-Grade Immortal Artifacts!

Ninth-Grade Immortal Artifacts, upon entering the Supreme Origin Realm and absorbing a massive amount of Upper Realm Primordial Qi, can unexpectedly continue to metamorphose, potentially even evolving into Initial Tier Divine Artifacts with growth potential...

For Lin Xuankong, this was by far the most thrilling news he had received in thousands of years!

Indeed, the probability of a Ninth-Grade Immortal Artifact metamorphosing into a growth-oriented Initial Tier Divine Artifact is exceedingly low, occurring once among hundreds or even thousands, an odds that is more akin to gambling for other cultivators within lesser worlds...

Other cultivators within lesser immortal realms are not like Lin Xuankong; fortunate enough to have at his side an Artifact Refining Genius Miss Xiao, whose talent benefited from the blessing of his Wives, Children, Elders, and Youngsters!

For those cultivators within lesser worlds and realms, the sole opportunity to achieve a Ninth-Grade Immortal Artifact is if their small world or realm exists during the cyclical Ancient Era, Ancient Times, or

even Ancient Times' eras, for only then could those cultivators obtain the invaluable, world-origin infused Heavenly Materials and Earthly Treasures required for crafting Ninth-Grade Immortal Artifacts!

Lin Xuankong's Old and Wise talent and Wives, Children, Elders, and Youngsters talent immensely amplified the Artifact Refining Talent of the genius Xiao Xiuyi by thousands of times, equating the accomplishments of the genius Miss Xiao, researched over thousands of years, to what other Artifact Refining Masters pursue over millions or even billions of years!

However, the Artifact Refining Masters of the lower worlds, devoid of the everlasting lifespan of Celestial Immortals, Celestial Demons, Celestial Buddhas, they lack the time to iteratively perfect the Artifact Refining Technique through tens of millions or billions of years...

"The number of Ninth-Grade Immortal Artifacts I now possess has reached several hundreds!

This was due to Miss Xiao focusing, for thousands of years, on how to induce the metamorphosis of Eighth-Grade and Ninth-Grade Immortal Artifacts within the lower worlds!

Otherwise, given Miss Xiao's Realm in the Path of Artifact Refining combined with my various talents, it's conceivable that the number of Ninth-Grade Immortal Artifacts could have increased to thousands or even more! Of course, the precondition is that I am able to find materials sufficient to forge such a quantity of Ninth-Grade Immortal Artifacts within the Golden Dragon Immortal Realm!

If I truly discover abundant materials in the Golden Dragon Immortal Realm and the Tier Nine Celestial Demon Bone little world, coupled with my new Vigorous in Old Age Life Plate talent of Old Antiques, I'll undoubtedly mature some insufficiently aged materials to usable states...

If everything goes smoothly thereafter, does it not imply that I could possibly bear thousands to tens of thousands of Ninth-Grade Immortal Artifacts upon ascending to the Supreme Origin Realm after the final Celestial Tribulation!

Chapter 1282: Nine-Headed Immortal-Swallowing Snake (2)

By then, even if the chances of a Ninth-Grade Immortal Artifact undergoing Metamorphosis into an Initial Tier Divine Artifact were extremely low, with so many Ninth-Grade Immortal Artifacts, at least one or two of them should be able to Metamorphose successfully!"

A flash of excitement flickered in the depths of Lin Xuankong's eyes.

Judging from the performance of that Red-haired Celestial Demon and Bird-faced Celestial Demon, a growth-type Divine Artifact would definitely count as an extremely powerful and extremely rare Divine Artifact even among the Celestial Demon Race! An artifact like that would certainly be powerful enough to give him a new trump card of astonishing might!

This time, with Great Success Yu Zhen Bodhisattva, Sect Leader Qiu of the Divine Dynasty Immortal Sect and Elder Qiu, Sect Leader Guangqing and the other seniors Crossing the Tribulation together, it was absolutely equivalent to providing him with a new path to become stronger!

Thinking of this, Lin Xuankong couldn't help but once again focus his attention on the information being transmitted back through the crimson light of the Nine Gates Celestial Eye,

At this moment, Lin Xuankong was naturally hoping that Great Success Yu Zhen Bodhisattva, Sect Leader Qiu of the Divine Dynasty Immortal Sect and Elder Qiu, Sect Leader Guangqing and the other seniors, who had already become Initial Tier Celestial Immortals, would be able to escape the siege of the Immortal Slaying Thousand Demon Array laid down by several hundred Celestial Demons!

...

At the edge of the Cyan Wood Forest outside Red Water Demon City, at the third entrance of the Red Water Passage.

After another fifth of the allotted time had slipped away,

The number of Initial Tier Celestial Immortals, Celestial Buddhas, and Celestial Demons still resisting the attacks of those Demonic Qi miniature little snakes from the Immortal Slaying Thousand Demon Array had dropped to only seven!

Among them, Great Success Yu Zhen Bodhisattva, Sect Leader Qiu of the Divine Dynasty Immortal Sect, Elder Qiu, and the others, whose strength and Immortal Technique Cultivation were rather formidable, were still frantically driving their Ninth-Grade Immortal Artifacts to defend themselves. But that Sect Master of the Guangqing Immortal Sect, whose strength was second only to Great Success Yu Zhen

Bodhisattva and the few others, was at this moment already lying on the ground, just like the other twenty-one Initial Tier Celestial Immortals, Celestial Buddhas, and Celestial Demons—his entire body convulsing, countless Demonic Artifact miniature little snakes having invaded his Immortal Body, leaving him completely without the ability to resist!

Sect Leader Guangqing's strength, compared to the highly renowned Immortal Lord Qiaan Yuan and Immortal Lord Kunyuan, surpassed them by several degrees. After advancing to an Initial Tier Celestial Immortal, his power had naturally increased tremendously, and combined with the continuously Metamorphosing Ninth-Grade Immortal Artifact he was driving, his strength was astonishing. Yet under the all-pervasive attacks of those Demonic Artifact miniature little snakes of the Immortal Slaying Thousand Demon Array, he had still fallen prey!

The seven powerful Initial Tier Celestial Immortals and Celestial Buddhas, including Great Success Yu Zhen Bodhisattva, Sect Leader Qiu of the Divine Dynasty Immortal Sect, and Elder Qiu, all felt a chill in their hearts as they sensed the plight of Sect Leader Guangqing and the others while resisting.

At this moment, even Sect Leader Qiu of the Divine Dynasty Immortal Sect—whose Heart Nature had always been incomparably firm, and whose Divine Soul had already reached the Supreme Realm in the Golden Dragon Immortal Realm—was in utter turmoil, his former calmness and composure gone!

Just then,

Elder Qiu, the master standing at Sect Leader Qiu of the Divine Dynasty Immortal Sect's side, suddenly opened his eyes wide and bellowed:

"The power of this Immortal Slaying Thousand Demon Array is so bizarre and formidable—if we keep resisting, we few will eventually be defeated, and when that time comes, we will all fall into the hands of these damned Celestial Demons!

Fellow Daoists, this old man will lend you a hand. I hope that after you escape with your lives, you can, as soon as possible in the Supreme Origin Realm, find powerful experts of the Human Race, Demon Race, and Buddhist Sect to rescue me, Sect Leader Guangqing, and these other old fellows!"

Before his voice had fallen, the thick and condensed Primordial Qi covering Elder Qiu's entire body—this Elder Qiu who had already been cultivating in the Golden Dragon Little Immortal Realm for more than

two hundred thousand years—suddenly turned a pure crimson, surging toward the Immortal Bodies of the six fellow Daoists around him, dyeing the bodies of Great Success Yu Zhen Bodhisattva, Sect Leader Qiu of the Divine Dynasty Immortal Sect, and the other five completely blood-red!

Seeing Elder Qiu like this, Sect Leader Qiu of the Divine Dynasty Immortal Sect couldn't help but change expression drastically and shout: "Master, once this Five Elements Wedding Dress Escape is activated, it will burn away the Essence Blood and Primordial Qi of the one who performs it, and will also heavily damage that person's foundation, greatly injuring the root and forever cutting off the possibility of advancing further on the Immortal Path! We can still hold on for now—why must Master go this far!"

"Enough nonsense. You can still hold on now, but how much longer can you hold?"

Ten breaths of time, twenty breaths, or thirty breaths? In the end, won't you still be exhausted of all your hard-earned Upper Realm Primordial Qi and end up in complete defeat!

The Five Elements Wedding Dress Escape Secret Technique I am activating is already the only chance for you six to flee this place. The chances of success might not even be that high....Hurry and activate your Escape Techniques—the wedding dress will increase your escape speed dozens of times over!"

As Elder Qiu spoke, his aura was already rapidly weakening, and the Ninth-Grade Immortal Artifact he was driving slowed down. In an instant, the Demonic Artifact miniature little snakes besieging Elder Qiu pressed even closer to his Immortal Body!

Seeing this situation, Sect Leader Qiu of the Divine Dynasty Immortal Sect, despite the ten thousand strands of reluctance and conflict in his heart, had no choice but to obey his master's words. Forcing himself to rally his spirit, he shouted to Great Success Yu Zhen Bodhisattva and the other five: "Fellow Daoists, flee in different directions and contact each other by the method we agreed on previously!"

As soon as his voice fell, Sect Leader Qiu of the Divine Dynasty Immortal Sect activated the powerful Escape Technique of the Divine Dynasty Immortal Sect, turning into a streak of flowing light whose speed was terrifyingly fast. While dodging the encirclement of those Demonic Qi miniature little snakes, he fled toward the edge of the Immortal Slaying Thousand Demon Array. His speed was so great that he actually left those exceedingly fast Demonic Qi miniature little snakes far behind!

The Five Elements Wedding Dress Escape truly lived up to being the strongest support-type Immortal Technique of a top-tier Immortal Sect like the Divine Dynasty Immortal Sect. That layer of "wedding dress" formed from blood-red Primordial Qi covering Sect Leader Qiu of the Divine Dynasty Immortal Sect's body actually allowed him, an Initial Tier Early-stage Junior Celestial Immortal, to unleash a speed comparable to that of a Late Stage of Initial Tier Celestial Immortal. Even the second-form attacks of the Immortal Slaying Thousand Demon Array, driven by several hundred Initial Tier Early-stage Celestial Demons, were unable to catch up to his Escape Speed!

Great Success Yu Zhen Bodhisattva and the other five did not dare hesitate any longer. Each activated their own Escape Technique, turning into five streaks of flowing light, shaking off the relentlessly encircling Demonic Qi miniature little snakes and fleeing into the distance!

Seeing this, Elder Qiu, who remained in place, had a flash of hope explode in his eyes, while a faint smile tugged at the corner of his mouth. The next instant, one of the Demonic Qi miniature little snakes had already slipped past the attacks of the Ninth-Grade Immortal Artifact, found a gap in his defenses, darted in close, and burrowed into Elder Qiu's Immortal Body!

In an instant, the speed at which Elder Qiu was driving the Ninth-Grade Immortal Artifact dropped sharply, and countless Demonic Qi miniature little snakes all twisted toward him at once, burrowing into his Immortal Body!

This Elder Qiu, who had cultivated in the Golden Dragon Little Immortal Realm for more than two hundred thousand years, finally fell!

Fortunately, under the aid of Elder Qiu's Five Elements Wedding Robe Immortal Escape Technique, Sect Leader Qiu of the Divine Dynasty Immortal Sect, Great Success Yu Zhen Bodhisattva, and the other six had each driven their Escape Techniques and their Metamorphosing Ninth-Grade Immortal Artifacts, crashing left and right, forcing their way to the edge of the Immortal Slaying Thousand Demon Array, and were just about to escape with their lives!

At this very moment,

The Cyan Bird, guarding the central position of the Immortal Slaying Thousand Demon Array, suddenly let out a cold laugh. "It's nothing more than a little Five Elements Wedding Dress Escape researched by Cultivators from a Little World below, yet you still dream of using it to help a few Initial Tier Junior Celestial Immortals escape the Immortal Slaying Thousand Demon Array. What wishful thinking!"

Then it casually tossed the Demonic Artifact in its hand up into the air and began to rapidly chant a string of convoluted Demon Race Spells.

The instant that Demon Race Spell resounded,

The countless Demonic Qi miniature little snakes in the Immortal Slaying Thousand Demon Array that were currently chasing Sect Leader Qiu of the Divine Dynasty Immortal Sect, Great Success Yu Zhen Bodhisattva, and the other six all suddenly tangled together. In only a ten-thousandth of a breath, those hundreds of millions, tens of billions of Demonic Qi miniature little snakes twisted into one, forming a gigantic Demon Snake several hundred zhang long, with nine enormous heads!

One must know that in the Supreme Origin Realm, because the entire boundless Supreme Origin Realm was filled with dense Upper Realm Primordial Qi, the pressure was immense. Even Initial Tier Early-stage Celestial Immortals like Sect Leader Qiu of the Divine Dynasty Immortal Sect and Great Success Yu Zhen Bodhisattva, who were somewhat stronger, simply could not drive their Immortal Artifacts to change size, while the other four Initial Tier Early-stage Celestial Immortals couldn't even manage to alter the size of their Ninth-Grade Immortal Artifacts at all!

Yet under such terrifying world-Primordial Qi pressure, the third attack form of the Immortal Slaying Thousand Demon Array—the Nine-Headed Immortal-Swallowing Snake—could actually possess a fearsome body several hundred zhang long! It could well be imagined just how terrifying the strength of this Nine-Headed Immortal-Swallowing Snake, formed from the Immortal Slaying Thousand Demon Array and several hundred Initial Tier Celestial Demons, truly was!

The moment this Nine-Headed Immortal-Swallowing Snake finished manifesting, it slammed its body against the ground, transforming into a nearly invisible unreal streak of flowing light, shooting toward the six Initial Tier Early-stage Celestial Immortals who were currently fleeing!

Chapter 1283: Purification Bottle Willow

This Nine-Headed Immortal-Swallowing Snake truly deserves its reputation as a creature with such a powerful Demon Body,

and even more so, one conjured from the Immortal Slaying Thousand Demon Array after absorbing the power of hundreds of Initial Tier Celestial Demons and entering its third transformation.

As soon as it started moving, it reached one Initial Tier Early-stage Celestial Immortal with terrifying speed, far beyond that of lightning!

The Initial Tier Early-stage Celestial Immortal, whose abilities were not much weaker than Sect Leader Qiu of the Divine Dynasty Immortal Sect and Great Success Yu Zhen Bodhisattva, sensed approaching danger, and his face changed drastically.

With the aid of the Five Elements Wedding Robe Immortal Escape Technique, his speed was much faster than that of a Ninth-Grade Immortal Artifact, but this incredible escape speed was still surpassed by the Nine-Headed Snake in an instant—how could he not be shocked, how could his soul not be terrified!

In shock, this Initial Tier Early-stage Celestial Immortal unhesitatingly activated his metamorphosing Ninth-Grade Immortal Artifact, slashing towards the stream of light that was the Nine-Headed Immortal-Swallowing Snake!

Unfortunately,

before the Ninth-Grade Immortal Artifact could strike the Nine-Headed Immortal-Swallowing Snake, the illusory light form of the snake agilely twisted and avoided the quick attack, moving behind the Initial Tier Early-stage Celestial Immortal!

Before the Initial Tier Early-stage Celestial Immortal could react, one of the snake's large mouths suddenly opened wide, engulfing the Celestial Immortal's Immortal Body!

The Initial Tier Early-stage Celestial Immortal didn't have time to exclaim or resist before he felt an incredibly terrifying pull, as if it could absorb the whole world, sucking his entire Immortal Body into the Nine-Headed Immortal-Swallowing Snake's stomach—this belly of the conjured Array Spirit was as spacious as the Ghost Frog King in the Golden Dragon Little Immortal Realm! After falling into it, the Celestial Immortal flew around desperately, yet could never find the esophagus of the swallowing Nine-Headed Immortal-Swallowing Snake...

After devouring the first Initial Tier Early-stage Celestial Immortal,

the Nine-Headed Immortal-Swallowing Snake barely paused and transformed once more into a terrifyingly swift illusory stream of light, darting towards several other Initial Tier Early-stage Celestial Immortals!

As only a fraction of a moment passed,

the six Initial Tier Early-stage Celestial Immortals who were about to escape the Immortal Slaying Thousand Demon Array were reduced to just Great Success Yu Zhen Bodhisattva alone!

Even Sect Leader Qiu, the once first of the Golden Dragon Immortal Realm, like the other Initial Tier Early-stage Celestial Immortals, was caught up and sucked into the gigantic stomach space of the Nine-Headed Immortal-Swallowing Snake!

At this moment,

the heart of Great Success Yu Zhen Bodhisattva sank deeper and deeper,

the terrifying attack power of the third transformation of the Nine-Headed Immortal-Swallowing Snake from the Immortal Slaying Thousand Demon Array far exceeded Great Success Yu Zhen Bodhisattva's imagination, and its speed surpassed her Initial Tier Celestial Buddha immensely!

In her cultivation history of over a hundred thousand years, Great Success Yu Zhen Bodhisattva for the first time felt the despair of having no resistance whatsoever!

The Nine-Headed Immortal-Swallowing Snake that devoured Sect Leader Qiu turned its form, its cold, emotionless snake eyes now fixed on Great Success Yu Zhen Bodhisattva!

Witnessing the snake's action, the utterly despairing Great Success Yu Zhen Bodhisattva felt an icy, evil consciousness locking onto her, and her rapidly circulating Upper Realm Primordial Qi suddenly slowed down. This Nine-Headed Immortal-Swallowing Snake had not only terrifying pursuit speed and a powerful devouring ability, but also this power that stalled the opponent's Upper Realm Primordial Qi!

With despair in Great Success Yu Zhen Bodhisattva's heart came a tinge of anger,

when she became the only target left, the Nine-Headed Immortal-Swallowing Snake, which had previously swept and devoured several Initial Tier Celestial Immortals in an instant, now did not immediately chase her down to swallow her! This time, the snake trailed steadily beside Great Success Yu Zhen Bodhisattva, pressing her to change direction, preventing her from successfully fleeing beyond the Array range of the Immortal Slaying Thousand Demon Array!

The demeanor was clearly one of a cat playing with a mouse!

This conjured Array Spirit from the Immortal Slaying Thousand Demon Array was not only thousands of times stronger than the Array Spirit summoned from the Luo Water Array cast by Lin Xuankong, but also surpassed it in terms of intelligence, with a wicked and cruel nature!

At this point, Cyan Bird Celestial Demon and Red-haired Celestial Demon coldly laughed as they saw that of the twenty-eight Initial Tier Celestial Immortals, Celestial Demons, and Celestial Buddhas, only Great Success Yu Zhen Bodhisattva remained, toyed with by the Nine-Headed Immortal-Swallowing Snake.

"The Nine-Headed Immortal-Swallowing Snake in the third transformation of the Immortal Slaying Thousand Demon Array has power equivalent to Celestial Demon of the Minor Success Realm entering stage. Even if it doesn't match Lord Qingmu's strength, the difference isn't far. Such an Array Spirit is certainly beyond the resistance of these Initial Tier Early-stage Little Celestial Immortals, Little Celestial Demons, and Celestial Buddhas!

This time, Lord Cyan Bird not only proved the reason for the disturbances in the Golden Dragon Immortal Realm and confirmed that Lin Xuankong, the Artifact Refiner, was behind them but also aided Lord Qingmu in obtaining twenty-eight extremely precious Ninth-Grade Immortal Artifacts. With such accomplishments, Lord Qingmu will undoubtedly reward heavily! Congratulations to Lord Qingmu!"

Red-haired Celestial Demon's face showed a trace of pride, its dense, red hair bristling with smugness.

Having served as assistant to Cyan Bird Celestial Demon, stationed to guard the Immortal Slaying Thousand Demon Array, it was naturally entitled to a share of Cyan Bird Celestial Demon's credit. With the thought that among these extremely precious Ninth-Grade Immortal Artifacts, one or two might be rewarded by Lord Qingmu, how could Red-haired Celestial Demon not be pleased!

Chapter 1284: Purification Bottle and Willow Branches (2)

The Bluebird Heavenly Demon nodded slightly, gazing at the struggling and fleeing Great Accomplishment Jade True Bodhisattva, opened its beak and said with a smile:

"Rest assured, when Lord Qingmu summons me, Red Eagle and your contributions, as well as those of other Heavenly Demons, I will surely report truthfully. If Lord Qingmu decides to reward us, you and everyone else will certainly not be forgotten!

But speaking of which, Lin Xuankong, the artifact refiner from the Golden Dragon Immortal Realm, indeed has extraordinary means. These are merely Initial Tier Early-stage little Celestial Immortals, Celestial Demons, and Celestial Buddhas, yet they rely on the Ninth-Grade Immortal Artifacts refined by Lin Xuankong to resist until now, requiring you and me to use the third form of the Immortal Slaying Thousand Demons Array, which is quite impressive..."

The Bluebird Heavenly Demon was just speaking when its pupils suddenly contracted while staring at the distant Great Accomplishment Jade True Bodhisattva.

It seemed to think of something, and its face suddenly changed, revealing an expression of shock and joy, speaking urgently:

"No, something's not right. The Ninth-Grade Immortal Artifact, wielded by this Initial Tier Early-stage little Celestial Buddha, is still absorbing the vast Primordial Qi from the Supreme Origin World, whereas normally a Ninth-Grade Immortal Artifact should already cease absorbing the Supreme Primordial Qi if it fails to metamorphose into an Initial Tier Divine Artifact!"

Upon hearing this, the Red-haired Heavenly Demon immediately looked towards the Bluebird Heavenly Demon's hand but saw those Ninth-Grade Immortal Artifacts swept by the miniature demonic snakes had already stopped absorbing Supreme Primordial Qi, all ceasing metamorphosis and restraining their radiance!

Yet the Ninth-Grade Immortal Artifact that the Great Accomplishment Jade True Bodhisattva was wielding in the distance continued to absorb the surrounding Supreme Primordial Qi, and its shape gradually transformed, under the activation of the Great Accomplishment Jade True Bodhisattva, from a flying sword into the exquisite form of a Buddhist Jade Purification Bottle!

The Red-haired Heavenly Demon's face immediately changed, like the Bird-faced Heavenly Demon, showing an expression of shock and joy, exclaiming:

"This this this... Could among these twenty-eight Ninth-Grade Immortal Artifacts, there truly emerge a precious and unmatched Growth-type Initial Tier Divine Artifact?"

Thousand Illusions Saint Monarch above, Red Eagle has never seen what a divine artifact actually looks like, and today is about to witness the birth of one?

Thousand Illusions Saint Monarch above, Thousand Illusions Saint Monarch above..."

The Red-haired Heavenly Demon, looking at the changes of the Ninth-Grade Immortal Artifact in the Great Accomplishment Jade True Bodhisattva's hand, was already too excited to speak coherently, repeatedly reciting the name of the Thousand Illusions Saint Monarch, the great demon of the Supreme Origin World!

It couldn't help but be excited because that is a Growth-type Initial Tier Divine Artifact... Even in the entire Red Water Demon City, which spans billions of miles in the Supreme Origin World, only the City Lord of Red Water and the Holy Envoy of the Thousand Illusions Saint Monarch, two Great Success Late Stage Heavenly Demons, are eligible, with great fortune, to possess a Growth-type divine artifact!

In Red Water Demon City, there are eight major demon realms and eighty-one minor domains, excluding the Little Demon Realm Cyan Wood Forest, and the rest of the seven major demon realms and eighty minor domains house nearly over 300,000 Heavenly Demon-level experts combined, among whom there are over four hundred Minor Success Heavenly Demons, and seventeen or eighteen Great Success Early, Mid, and Late Stage Heavenly Demons!

However, among so many powerful Heavenly Demons, eligible and fortunate to acquire a Growth-type divine artifact are only two!

Such Growth-type divine artifacts are rare even in the Thousand Illusions Saint Monarch's possession... The Thousand Illusions Saint Monarch is one of the eight top Saint Monarchs among the Celestial Demon Race, under whose command are over three hundred Holy Cities with over five hundred Great Success Heavenly Demons, famously known as the Five Hundred Great Success, controlling the Southern Border, and the number of Small Thousand Worlds occupied is countless!

This shows how difficult it is for a Ninth-Grade Immortal Artifact to metamorphose into a Growth-type Initial Tier Divine Artifact, and how precious such metamorphosed Growth-type Initial Tier Divine Artifact is!

Earlier, when the Red-haired Heavenly Demon and Bird-faced Heavenly Demon saw the Great Accomplishment Jade True Bodhisattva and other Initial Tier Early-stage Celestial Immortals ascend, they noticed they were carrying twenty-eight Ninth-Grade Immortal Artifacts, leading to a casual remark that there might be a Ninth-Grade Immortal Artifact capable of metamorphosing into a Growth-type Initial Tier Divine Artifact! At that time, the expectation in the hearts of Red-haired Heavenly Demon and Bluebird Heavenly Demon to encounter a Growth-type Initial Tier Divine Artifact was very small, indeed, given the few thousandths or ten-thousandths chance, how easily could it be encountered!

But the Red-haired Heavenly Demon and Bird-faced Heavenly Demon could never have imagined,

that in the dominion of the Thousand Illusions Saint Monarch, one of the eight top Saint Monarchs, they would actually encounter such a precious Growth-type Initial Tier Divine Artifact!

"Damn... Thousand Illusions Saint Monarch above, today I, Bluebird, truly received an enormous fortune, hahaha!"

After being stunned for a moment, the Bluebird Heavenly Demon burst into laughter, then shouted with decisive force, "Nine-headed, quickly capture this Initial Tier Early-stage Little Celestial Buddha, hahaha, if Lord Qingmu knows this news, surely he will be overjoyed, perhaps holding a Supreme Ultimate Bliss Endless Gathering lasting thousands of years, hahaha!"

Under the Bluebird Heavenly Demon's explosive shout,

the Nine-headed Immortal-Swallowing Snake that was teasing the Great Accomplishment Jade True Bodhisattva, its eyes instantly erupted with fierce light, transforming into a stream of light, shooting towards the Great Accomplishment Jade True Bodhisattva, the central head of its nine huge heads raised high, it moved towards the Great Accomplishment Jade True Bodhisattva with unstoppable devouring force!

At this moment,

In the hand of the Great Accomplishment Jade True Bodhisattva,

the gradually forming Buddhist Jade Purification Bottle suddenly emitted a myriad of Buddha's Light,

and from the mouth of the Buddhist Jade Purification Bottle, dozens of verdant and supple willow branches quickly stretched out!

These verdant and supple, seemingly weak willow branches spread faster than the speed of the Array Spirit Nine-headed Immortal-Swallowing Snake of the Immortal Slaying Thousand Demons Array's third form, reaching the snakehead position in an instant, wrapping tightly around the already-opened gigantic mouth!

This astonishing change directly disrupted the attack of the Nine-headed Immortal-Swallowing Snake's devouring ability, its huge eyes immediately widened, swinging the snakehead wrapped by willow branches violently!

This is the Immortal Slaying Thousand Demons Array, jointly activated by hundreds of Initial Tier Heavenly Demons. It's the Array Spirit of the third form, whose power, in the mouths of the Red-haired Heavenly Demon and Bird-faced Heavenly Demon, is comparable to the Initial Stage of Minor Achievement Cyan Wood Heavenly Demon. Such a powerful and terrifying Array Spirit, when swinging the giant head with full force, can unleash unimaginable power!

If this were in the Lower Little World Golden Dragon Immortal Realm, the vigorous swinging of the Nine-headed Immortal-Swallowing Snake's enormous head would likely disperse even the clouds of the final celestial tribulation, potentially turning the entire Golden Dragon Immortal Realm upside down by its stirring!

However,

those seemingly slender and fragile willow branches are incredibly resilient!

No matter how the powerful Array Spirit Nine-headed Immortal-Swallowing Snake of the Immortal Slaying Thousand Demons Arrays sways or exerts force, it cannot break even a single willow branch, and

those willow branches tighten continuously, wrapping the snakehead and even deforming the snake mouth slightly!

The Great Accomplishment Jade True Bodhisattva, activating the Initial Tier Divine Artifact—the Buddhist Jade Purification Bottle, seeing this scene, couldn't help but reveal a look of pleasant surprise.

Just now, when the Nine-headed Immortal-Swallowing Snake shot forward instantly with its raised head for an attack, given the Great Accomplishment Jade True Bodhisattva's realm of Initial Tier Early-stage Little Celestial Buddha, there was simply no way to avoid it, not to mention the Nine-headed Immortal-Swallowing Snake has dreadful superpowers capable of reducing the circulation of Supreme Primordial Qi within the Great Accomplishment Jade True Bodhisattva!

But the attack of the Nine-headed Immortal-Swallowing Snake, leaving her in such despair and unable to resist, was effortlessly countered by the self-protective counterattack from the Initial Tier Divine Artifact Buddhist Jade Purification Bottle!

"If not for the Ninth-Grade Immortal Artifact gifted by Immortal Lin, fearing I could overcome the final celestial tribulation, I would ultimately fall into the hands of the Celestial Demon Race. Now that the Ninth-Grade Immortal Artifact has transformed into an Initial Tier Divine Artifact, there is finally a hint of vitality left for me!" The delighted Great Accomplishment Jade True Bodhisattva couldn't help but recall Lin Xuankong from the Golden Dragon Immortal Realm.

Chapter 1285: The Furious Lord Qingmu

Spiritual Crane Immortal Sect · Demon Suppression Spirit Peak · Profound Void Cave.

Relying on the mysterious red glow of the Nine Gates Celestial Eye, Lin Xuankong observed the scene, unable to suppress a look of surprise and delight.

Lin Xuankong was certainly delighted by the news that a Ninth-Grade Immortal Artifact could metamorphose into a Growth-type Initial Tier Divine Artifact! But the news, after all, was heard from the red-haired Celestial Demon and Cyan Bird Celestial Demon of the Celestial Demon Race. Lin Xuankong was well aware of the Celestial Demon Race's cunning and cruelty. How could he be one hundred percent certain of news heard from the mouths of demon cultivators!

Yet, seeing the Ninth-Grade Immortal Artifact in Great Success Yu Zhen Bodhisattva's hand truly nourished by endless primordial qi, transforming into a special Buddhist artifact, the Jade Purification

Bottle, which Lin Xuankong had never imagined, and seeing the bottle's spontaneous protection ward off the despairing attack of the Nine-Headed Immortal-Swallowing Snake, Lin Xuankong no longer doubted that a Ninth-Grade Immortal Artifact could indeed metamorphose into a Growth-type Initial Tier Divine Artifact!

This news,

For any cultivator or artifact refiner from the little world below, might only be a piece of 'good news' worth anticipating, but with a very low, very low probability!

However, for Lin Xuankong, it was excellent news that could influence his future destiny and affect his next move!

"What's the matter, Xuankong, why do you suddenly look so surprised and delighted?"

Accompanying Lin Xuankong in the Profound Void Cave, the Strongest Immortal Lord Guang Yu'er saw Lin Xuankong suddenly widen his eyes, his mouth curling up in an ecstatic expression, and couldn't help showing a curious look.

Hearing the voice of the Strongest Immortal Lord Guang Yu'er, Lin Xuankong slightly shook his head, indicating her to wait a moment!

At that moment, the battle between Great Success Yu Zhen Bodhisattva and the Nine-Headed Immortal-Swallowing Snake was at a critical point,

Even though the Growth-type Initial Tier Divine Artifact Buddhist Jade Purification Bottle in Great Success Yu Zhen Bodhisattva's hand blocked the attack of one of the nine heads of the Nine-Headed Immortal-Swallowing Snake, there were still eight other heads to face with their formidable menace. At such a moment, Lin Xuankong couldn't be sure whether Great Success Yu Zhen Bodhisattva could escape the Nine-Headed Immortal-Swallowing Snake's attack with the Growth-type Initial Tier Divine Artifact Buddhist Jade Purification Bottle!

After all, the artifact in Great Success Yu Zhen Bodhisattva's hand was a Growth-type Initial Tier Divine Artifact, yet to truly absorb rare resources and grow, whereas Great Success Yu Zhen Bodhisattva had to

resist the powerful array spirit of the third form of the Immortal Slaying Thousand Demon Array, the Nine-Headed Immortal-Swallowing Snake, driven by hundreds of Celestial Demons together!

....

Near the third entrance of the Red Water Passage.

The fearsome Nine-Headed Immortal-Swallowing Snake struggled intensely, only to find it couldn't break free from those dozens of seemingly delicate and weak willow branches, instead, they tightened more and more around it, almost snapping its mouth, the bones of its mouth continuously making creaking sounds...

In amazement, the Nine-Headed Immortal-Swallowing Snake twisted, then stared again at the Buddhist Jade Purification Bottle in Great Success Yu Zhen Bodhisattva's hand, and then this strong array spirit of the third form of the Immortal Slaying Thousand Demon Array roared, devouring towards Great Success Yu Zhen Bodhisattva with all eight of its large heads!

At this moment, even if dozens more jade willow branches emerged from the Buddhist Jade Purification Bottle, they certainly couldn't withstand the devouring of so many giant snake heads!

In the distance, the red-haired Celestial Demon and Cyan Bird Celestial Demon saw this, clenching their demon hands, revealing a look of anticipation.

The hundreds of Initial Tier Celestial Demons who were driving the Thousand Demon Array all showed excitement and anticipation on their faces.

Every Celestial Demon's heart understood that if the Nine-Headed Immortal-Swallowing Snake could take down the Initial Tier Early Stage Little Celestial Buddha in this battle, they would surely receive an extremely rich reward, one that every Initial Tier Celestial Demon or even Minor Success Celestial Demon in Red Water Demon City would envy!

With such hope, how could the hundreds of Initial Tier Celestial Demons present not be excited, not be full of anticipation!

However,

The scene that shocked the hundreds of Celestial Demons present was,

when the eight large heads of the Nine-Headed Immortal-Swallowing Snake swiftly approached Great Success Yu Zhen Bodhisattva's position,

the Growth-type Initial Tier Divine Artifact Buddhist Jade Purification Bottle suddenly trembled, then a ripple appeared at the bottle's mouth!

When the ripple landed on Great Success Yu Zhen Bodhisattva, the originally six meters tall Great Success Yu Zhen Bodhisattva suddenly transformed into a tiny man as small as a corn kernel in a fraction of a second, and then, the bottle mouth of the Buddhist Jade Purification Bottle emitted a powerful suction, directly absorbing the Great Success Yu Zhen Bodhisattva, now the size of a corn kernel, into it!

Simultaneously, the Buddhist Jade Purification Bottle transformed into a swift streak of light, shooting out from between the eight huge snake heads of the Nine-Headed Immortal-Swallowing Snake!

The escape speed of the Buddhist Jade Purification Bottle at this moment exceeded even the speed of the Nine-Headed Immortal-Swallowing Snake. Before the hundreds of Initial Tier Celestial Demons could react, it had already shot out of the range of the Immortal Slaying Thousand Demon Array, heading into the distance!

The escape speed of the Buddhist Jade Purification Bottle was so fast, it could even surpass the speed of the Nine-Headed Immortal-Swallowing Snake, let alone the hundreds of Initial Tier Celestial Demons!

Even the strongest among the hundreds of Initial Tier Celestial Demons present, the red-haired Celestial Demon and Cyan Bird Celestial Demon, couldn't help but curse when they saw the escape speed of the Buddhist Jade Purification Bottle.

"Damn it! Damn it! Damn it! This Initial Tier Divine Artifact Jade Purification Bottle transformed from a Ninth-Grade Immortal Artifact is actually a powerful artifact for protection and escape!"

Chapter 1286: The Furious Lord Qingmu (Part 2)

The Red-haired Celestial Demon, initially flushed with excitement and exhilaration, now seemed even more intense, with all the hair turning into upright red strands. As it shouted, its voice carried endless resentment and helplessness.

Hundreds of other Initial Tier Celestial Demons also fell into chaos,

Unfortunately, even the powerful Array Spirit Nine-Headed Immortal-Swallowing Snake in the third form of the Immortal Slaying Thousand Demon Array couldn't match the escape speed of the Initial Tier Divine Artifact, the Buddhist Jade Purification Bottle. These Initial Tier Celestial Demons, whose abilities and escape speed were inferior to that of the Nine-Headed Immortal-Swallowing Snake, had no solution!

They could only look eagerly at the Golden stream of light transforming from the Buddhist Jade Purification Bottle disappearing into the sky!

"Report swiftly to Lord Qingmu, report swiftly to Lord Qingmu!"

At this moment, the Cyan Bird Celestial Demon was the first to react, shouting while urging demonic qi into the upper-grade Profound Truth Jade in its grasp.

That was a Growth-type Initial Tier Divine Artifact transformed from a Ninth-Grade Immortal Artifact, an extremely precious Treasure readily obtainable. How could the Cyan Bird Celestial Demon easily give up on this Artifact so close at hand?

But with its current power, it was entirely unable to stop the escape of the Buddhist Jade Purification Bottle. Its sole thought was to immediately inform the Cyan Wood Celestial Demon, so that the Cyan Wood Celestial Demon, with power dozens of times greater than its own, could hurry over!

After a slight tremor in the messaging upper-grade Profound Truth Jade,

In only three breaths, a surge of demonic qi soared up from the depths of the Cyan Wood Forest, and a tall silhouette transformed into black stream of light swiftly shot forth, landing before the Cyan Bird Celestial Demon and the Red-haired Celestial Demon. It was the minor success Celestial Demon – the Cyan Wood Celestial Demon, the master of the Cyan Wood Forest Small Realm!

Upon arriving here, the Cyan Wood Celestial Demon swept its gaze across the surroundings, seeing the twenty-odd fallen Initial Tier Celestial Immortals, Initial Tier Early-stage Little Celestial Buddhas and Celestial Demons, and the twenty-plus Ninth-Grade Immortal Artifacts in the Cyan Bird Celestial Demon's hand. Its gaze flickered,

"What happened here that interrupted my cultivation?

Is it because of the simultaneous ascension of so many Celestial Immortals, Celestial Demons, and Celestial Buddhas at the entrance of channel number three?

Hmm! Over twenty Ninth-Grade Immortal Artifacts, all engraved with Lin Xuankong's name on their hilt. So, the one disrupting Thousand Illusion Saint Monarch's setup is actually this Artifact Refiner Lin Xuankong from the Golden Dragon Immortal Realm, refining so many Ninth-Grade Immortal Artifacts in the Golden Dragon Little Immortal Realm that has entered the End of Dharma Era. Lin Xuankong indeed has an outstanding Artifact Refining Technique!

But even so, you didn't need to interrupt my cultivation. Those from the Golden Dragon Little Immortal Realm, even having obtained Ninth-Grade Immortal Artifacts, even if twenty people ascended simultaneously, are absolutely not a match for the three-form Immortal Slaying Thousand Demon Array!

Besides, I'm currently near a crucial moment reaching mid-stage of Minor Success!"

The Cyan Bird Celestial Demon didn't dare interrupt the Cyan Wood Celestial Demon, only stood silently, and when Lord Qingmu finished speaking, Cyan Bird Celestial Demon's expression changed rapidly.

It swallowed, clenched its teeth, and suddenly knelt, shouting urgently, "Lord Qingmu, it's not about those already captured Initial Tier Celestial Immortals, Celestial Buddhas, and Celestial Demons, but among the twenty-eight ascended cultivators' twenty-eight Ninth-Grade Immortal Artifacts, one Immortal Artifact has undergone Metamorphosis into a Growth-type Initial Tier Divine Artifact. One Initial Tier Early-stage Little Celestial Buddha already relied on that Buddhist Jade Purification Bottle that metamorphosed into an Initial Tier Divine Artifact to fend off the Nine-Headed Immortal-Swallowing Snake's attack, escaping from the Grand Array and heading southeast!"

"What???"

Growth-type Initial Tier Divine Artifact?

You mean a Ninth-Grade Immortal Artifact metamorphosed into a Growth-type Initial Tier Divine Artifact, and then ascended relying on that Growth-type Initial Tier Divine Artifact to escape???

Damn it.... Why didn't you report to me the moment the Growth-type Initial Tier Divine Artifact appeared?! Damn it, really damn it!"

After hearing the Cyan Bird Celestial Demon's words, the Cyan Wood Celestial Demon suddenly urged its demonic qi to sense briefly, and with its Minor Success Initial Tier Celestial Demon realm, it swiftly sensed the remnants of Initial Tier Divine Artifact aura from the Buddhist Jade Purification Bottle nearby!

In its own territory, such news of a Growth-type Divine Artifact appearing, even after countless treasures and resources seen over tens of thousands of years of cultivation in the Supreme Origin Realm, witnessing countless tempests and unrest, the Cyan Wood Celestial Demon couldn't maintain composure!

It, as a Minor Success Initial Tier Realm Celestial Demon, understood far more than the Cyan Bird Celestial Demon and Red-haired Celestial Demon about the preciousness and power of a Growth-type Initial Tier Divine Artifact!

Such an astonishing Divine Artifact that could grow by devouring resources, and with enough resources, it could even grow to a level capable of injuring a Saint Monarch!

These Growth-type Divine Artifacts are more precious and rarer than ordinary Divine Artifacts refined by powerful Artifact Refiners in the Supreme Origin Realm, since only a Ninth-Grade Immortal Artifact refined by an Artifact Refiner in the Little World below can successfully undergo metamorphosis!

And Divine Artifacts refined in the Supreme Origin Realm, using materials and treasures nurtured by Supreme Primordial Qi, can't constantly grow, unless it's a Saint Monarch-level Divine Artifact using the Supreme Origin Realm's most precious materials. Otherwise, even Minor Success Divine Artifacts and Great Success Divine Artifacts can't compare to the preciousness of Growth-type Initial Tier Divine Artifacts!

"Damn you!"

If the Growth-type Divine Artifact appearing in the Cyan Wood Forest Region this time can't be obtained by me, then you fool yourself can head to the Red Water Prison to receive a three-thousand-year penalty!"

With flames of rage igniting in its heart, the Cyan Wood Celestial Demon kicked the kneeling Cyan Bird Celestial Demon aside, then transformed directly into a stream of light, swiftly flying southeast, sensing the aura of the Growth-type Initial Tier Divine Artifact Buddhist Jade Purification Bottle.

The Cyan Bird Celestial Demon, kicked over, ignored the pain and shouted hoarsely to the hundreds of Initial Tier Celestial Demons around,

"What are you all dawdling here for? Red Eagle, you immediately notify all Celestial Demons in the Cyan Wood Forest, set out now, gather toward the southeast, and track the escape marks of the Initial Tier Early-stage Little Celestial Buddha!"

You all, urge the Immortal Slaying Thousand Demon Array fully, let this dumb snake carry you along, pursuing southeast!

Damn it, if this time the Initial Tier Early-stage Little Celestial Buddha can't be found, and I'm thrown into the Red Water Prison by Lord Qingmu, none of you can escape, you'll join me in prison, serving thousands of years of penalty!"

Upon hearing the Cyan Bird Celestial Demon's heart-wrenching cries,

Red-haired Celestial Demon immediately transformed into a stream of light heading to where the Cyan Wood Forest Celestial Demons were gathered, while the hundreds of Initial Tier Celestial Demons hastily urged the demon artifacts before them, spurring the Immortal Slaying Thousand Demon Array even fiercer. The Nine-Headed Immortal-Swallowing Snake opened its nine giant mouths, absorbing the hundreds of Initial Tier Celestial Demons, their demon artifacts, and the Cyan Bird Celestial Demon inside, then twisted, heading southeast!

Moments later, nearly a thousand black streams of light transformed from Initial Tier Celestial Demons arced up from the Cyan Wood Forest where the Red-haired Celestial Demon journeyed, swiftly flickering southeast!

Now all the Celestial Demon powerhouses in the Cyan Wood Forest were mobilized, with only one target – the Growth-type Initial Tier Divine Artifact Buddhist Jade Purification Bottle held by the Great Success Yu Zhen Bodhisattva!

....

On the mouth of the Growth-type Initial Tier Divine Artifact Buddhist Jade Purification Bottle,

The corn-sized Great Success Yu Zhen Bodhisattva stood at the mouth, feeling the rushing Primordial Qi, its face showed a hint of post-crisis relief. Ascending together from the Golden Dragon Little Immortal Realm were twenty-eight Strongest Immortal Lord-level powerhouses, each already passing the final Celestial Tribulation, transforming into Initial Tier Early-stage Celestial Immortals, Celestial Demons, and Celestial Buddhas that could sweep across the entire Golden Dragon Immortal Realm! But so many powerhouses, under the attack of the Immortal Slaying Thousand Demon Array, couldn't even last three breaths, all were defeated and fell into the Demon Race's hands, leaving only itself surviving...

Luckily, the Ninth-Grade Immortal Artifact Lin the Immortal Lord bestowed upon it metamorphosed at the most crucial moment into a wondrous Growth-type Initial Tier Divine Artifact Buddhist Jade Purification Bottle!

Chapter 1287: Spatial Devil Hand

After thinking of Lin Xuankong,

infinite emotions involuntarily arose in the heart of Great Success Yu Zhen Bodhisattva.

The Ninth-Grade Immortal Artifact given by Immortal Lin could actually transform into a growth-type Initial Tier Divine Artifact, a miraculous Buddhist Jade Purification Bottle Artifact, by relying on the endless Primordial Qi of the Supreme Origin Realm!

At this moment, Immortal Lin, who is still in the little world below, doesn't know how many Ninth-Grade Immortal Artifacts he has. When he ascends to the Supreme Origin Realm, could those Ninth-Grade Immortal Artifacts of his have a chance to grow into growth-type Initial Tier Divine Artifacts?

Amitabha Buddha, I hope that those Ninth-Grade Immortal Artifacts in Immortal Lin's possession may also have one or two pieces that can grow into growth-type Initial Tier Divine Artifacts like mine!

Otherwise, with the passage between the Supreme Origin Realm and the Golden Dragon Immortal Realm occupied by so many Celestial Demons from the Demon Race, even the incredibly powerful Immortal Lin might not be able to escape unscathed from the siege of so many Celestial Demons!

After feeling emotional,

Great Success Yu Zhen Bodhisattva raised her hand to stroke the mouth of the Buddhist Jade Purification Bottle, feeling the profound lines of this true Divine Artifact, and then looked down below.

At this moment, the Buddhist Jade Purification Bottle, while flying, is deep within the clouds of the sky, a full one hundred thousand zhang from the ground. Normally, even the extremely powerful Celestial Demons, unless they deliberately search, would not be able to sense a small Jade Purification Bottle swiftly flying high in the sky. In such a situation, Great Success Yu Zhen Bodhisattva should be relatively safe!

However, when Great Success Yu Zhen Bodhisattva looked closely beneath the bottle mouth, she couldn't help but furrow her brow deeply.

Due to the extremely high altitude, when Great Success Yu Zhen Bodhisattva looked below, her vision was immensely broad. A glance encompassed scenes of the Supreme Origin Realm spanning hundreds of thousands of miles. But what made Great Success Yu Zhen Bodhisattva's heart tighten was the discovery that whether she looked east or west, or north or south, all places within her sight were shrouded in surging Demonic Qi. The visible structures all had bizarre shapes, unmistakably Demon territories!

At this time, Great Success Yu Zhen Bodhisattva is a genuine Celestial Immortal, even at the early stage of the Initial Tier, she has obtained a truly formidable Celestial Immortal Body. This body naturally grants

her exceptionally strong eye power, even surpassing the eye power of Lin Xuankong, who is at the Strongest Immortal Lord Realm in the little world below!

But even with such strong eye power,

Great Success Yu Zhen Bodhisattva, from one hundred thousand zhang high in the sky, surveyed around her. All regions within view were shrouded in dark, swirling Demonic Qi, with no clear spot in sight!

While observing, Great Success Yu Zhen Bodhisattva suddenly sensed something, her eyes showing caution, and looked towards the west, only to see a black stream of light approaching the Buddhist Jade Purification Bottle with terrifying speed, slightly faster than the escape speed of the Buddhist Jade Purification Bottle!

Having just fought against the Array Spirit Nine-Headed Immortal-Swallowing Snake of the Immortal Slaying Thousand Demon Array, Great Success Yu Zhen Bodhisattva's expression changed. The escape speed of the Buddhist Jade Purification Bottle, which even hundreds of Initial Tier Celestial Buddhas couldn't handle in the third form of the Immortal Slaying Thousand Demon Array, allowed the Buddhist Jade Purification Bottle to escape its range of control... This incoming being's escape speed is slightly faster than the Buddhist Jade Purification Bottle, could it be that this black stream of light powerhouse is stronger than the combined force of hundreds of Initial Tier Celestial Demons!

Is this the Lord Qingmu mentioned by the Red-haired Celestial Demon and Bird-beaked Celestial Demon? I wonder what Realm this so-called Lord Qingmu, with such terrifying power, belongs to as a Celestial Demon powerhouse!

As soon as this thought arose in Great Success Yu Zhen Bodhisattva's mind, she did not hesitate to mobilize all the Upper Realm Primordial Qi within her, driving the escape speed of the growth-type Initial Tier Divine Artifact Buddhist Jade Purification Bottle to the extreme!

The Buddhist Jade Purification Bottle, worthy of being a growth-type Initial Tier Divine Artifact transformed from a Ninth-Grade Immortal Artifact, embodies both defense and escape speed. At this moment, under the full activation of Great Success Yu Zhen Bodhisattva, its escape speed increased once more. Even if unable to easily shake off the black stream of light coming from behind, it could maintain the distance, preventing the black stream of light from catching up!

The black stream of light in pursuit now is exactly as Great Success Yu Zhen Bodhisattva suspected, the Minor Success Celestial Demon Qingmu,

as a leader of over a thousand Initial Tier Celestial Demons and a Minor Success early-stage Celestial Demon commander, Qingmu's power is unrivaled in the Cyan Wood Forest. At full activation of his Demon Technique, even the Initial Tier Divine Artifact Buddhist Jade Purification Bottle cannot escape!

Gazing at the tiny Jade Purification Bottle, nearly invisible amid clouds tens of thousands of miles ahead,

the eyes of the Cyan Wood Celestial Demon glowed with greed, excitement, and thrill, along with a hint of luck!

Because the Buddhist Jade Purification Bottle is traveling through the sky at one hundred thousand zhang and is incredibly tiny, almost the size of a palm, causing little Primordial Qi fluctuation. Consequently, even though the Red Water Demon City below is filled with an impressive number of Initial Tier Celestial Buddhas, Minor Success Celestial Demons, and some Great Success Celestial Demons, none of these Celestial Demon powerhouses noticed the dream treasure they long for, swiftly fleeing just over a hundred thousand zhang above their head!

Although the power of the Cyan Wood Celestial Demon is considerable, making it a formidable entity in the Cyan Wood Forest, in the entire Eight Great Demon Realms and Eighty-one Small Domains of the Red Water Demon City, he can only barely be regarded as just above the bottom level 'little strong person'!

Chapter 1288: Spatial Devil Hand (Part 2)

Not to mention the City Lord and Holy Envoy of Red Water Demon City, even without those Great Success Demons, among the more than four hundred Minor Success Celestial Demons that remain, nearly sixty to seventy percent have strength far surpassing that of Cyan Wood Celestial Demon, while the rest of the Early-stage Minor Success Celestial Demons are comparable in strength to Cyan Wood Celestial Demon!

It is conceivable,

if within Red Water Demon City,

a Great Success Celestial Demon or another Minor Success Celestial Demon were to discover that there is unexpectedly a rare, invaluable growth-type Initial Tier Divine Artifact, which even Late Stage or Perfection Realm Great Success Celestial Demons find hard to obtain, then Cyan Wood Celestial Demon wouldn't have even the slightest opportunity to acquire this growth-type Initial Tier Divine Artifact, the Buddhist Jade Purification Bottle!

Thus, Cyan Wood Celestial Demon, currently pursuing Great Success Yu Zhen Bodhisattva, was filled with a sense of fortune, greed, excitement, and exhilaration, urging the Tunneling Technique Demon Technique without daring to cause too strong a disturbance, lest it attract the attention of those Minor Success or Great Success Celestial Demons!

As for contacting other Minor Success Celestial Demons to help intercept Great Success Yu Zhen Bodhisattva... Cyan Wood Celestial Demon would never do such a thing, even if it means watching that Buddhist Jade Purification Bottle escape, because these vicious demons will grudgingly ensure neither they nor anyone else obtains it, igniting envy and wrath!

These intentions of Cyan Wood Celestial Demon,

indeed provided Great Success Yu Zhen Bodhisattva with an opportunity to escape Red Water Demon City,

otherwise, within the range of this powerful demon-laden Red Water Demon City, as long as Cyan Wood Celestial Demon forcefully urges its Demon Technique, attracting attention from some Minor or Great Success Celestial Demons, Great Success Yu Zhen Bodhisattva, even holding such a growth-type Initial Tier Divine Artifact, the Buddhist Jade Purification Bottle, would equally struggle to escape alive!

One immortal, one demon,

are now headed eastward from Red Water Demon City at a terrifying speed!

In just dozens of breath moments, Great Success Yu Zhen Bodhisattva and Cyan Wood Celestial Demon both fled the astonishingly vast confines of Red Water Demon City!

At this moment, Great Success Yu Zhen Bodhisattva was fully exerting the Buddhist Jade Purification Bottle in the front, while frantically consuming her internal Upper Realm Primordial Qi, gazing ahead somewhat bewildered.

Her previous goal was to escape Red Water Demon City, and now looking ahead, beyond the vast, scarlet river, there was only barren land left; in the visible distance ahead, there were no special structures!

Being new to the Supreme Origin Realm, Great Success Yu Zhen Bodhisattva didn't know which direction to flee to, nor was she aware of how far she needed to go to leave the area controlled by the Celestial Demon Race and reach territories of the Human Race, Demon Race, or Buddhist Sect cultivators!

Nearly a hundred breath moments later,

Great Success Yu Zhen Bodhisattva had already urged the Buddhist Jade Purification Bottle to a distance of billions of miles from Red Water Demon City; even though the structures within Red Water Demon City were tall and vast, looking back while flying she could no longer glimpse its blurry silhouette!

However, after leaving Red Water Demon City, the trailing Minor Success Celestial Demon Cyan Wood Celestial Demon no longer held any reservations, and when urging his Escape Technique, he exerted it with full force; his Escape Speed grew faster and faster, closing the gap between him and Great Success Yu Zhen Bodhisattva from over a hundred thousand miles to nearly fifty thousand miles!

According to the attack methods of strong beings in the Celestial Demon Realm, it won't take much to close the distance allowing for powerful demon techniques to directly attack Great Success Yu Zhen Bodhisattva!

Great Success Yu Zhen Bodhisattva naturally anticipated this, so while urging full-speed flight of the growth-type Initial Tier Divine Artifact Buddhist Jade Purification Bottle, she had already summoned dozens of Willow Jade Branches equipped with strong defensive and binding capabilities to counter any attacks from Minor Success Celestial Demon Cyan Wood Celestial Demon at any time!

"This Divine Artifact should belong to me, Cyan Wood!

If you, Little Celestial Buddha, obediently drop this growth-type Initial Tier Divine Artifact and flee alone, I, Cyan Wood, will certainly spare you a way out!

If you stubbornly continue this meaningless struggle to flee, when I, Cyan Wood, catch up to you, it will mark the beginning of your endless suffering!"

As they closed in to nearly fifty thousand miles, Cyan Wood Celestial Demon managed to use Demon Technique to agitate Upper Realm Primordial Qi to transmit his voice from afar.

Great Success Yu Zhen Bodhisattva heard his words, yet remained coldly silent,

She couldn't be certain of the Celestial Demon Race's character in the Supreme Origin Realm, but the Profound Yin Demon Race cultivators in the lower realm Golden Dragon Immortal Realm below were treacherous, brutal, insidious, and shameless, one and all!

Such deceitful words from the Demon Race, not to mention having been in Buddhist Cultivation for over a hundred thousand years, Great Success Yu Zhen Bodhisattva wouldn't believe it; even when first embarking on the path of Buddhist Cultivation, Great Success Yu Zhen Bodhisattva would outright refuse to believe a single word!

But seeing Cyan Wood Celestial Demon getting increasingly closer, Great Success Yu Zhen Bodhisattva grew progressively tense; once Cyan Wood Celestial Demon closes in enough to attack, she couldn't be sure how long the growth-type Initial Tier Divine Artifact Buddhist Jade Purification Bottle could endure!

With this, one immortal, one demon, one ahead and one behind, endlessly heading east,

A few hundred breaths later, Great Success Yu Zhen Bodhisattva was no longer sure of how far she had flown!

What she was sure of was that having become an Initial Tier Early-stage Celestial Buddha, her Escape Technique speed is dozens of times faster than when she was in the Strongest Immortal Lord Realm, especially with the aid of the growth-type Initial Tier Divine Artifact Buddhist Jade Purification Bottle, her Escape Speed now exceeds that of the Strongest Immortal Lord Perfection Level by over a thousand times!

At such speed, flying for nearly a quarter of an hour should be sufficient to traverse several rounds from east to west across the lower realm's Golden Dragon Immortal Realm!

But below, the endlessly vast Red Water River continued to twist beyond the horizon, seeming neverending; this single Red Water River in the Supreme Origin Realm was unexpectedly long, showing the amazing scope of the Supreme Origin Realm, and perhaps only a realm as boundless as the Supreme Origin Realm truly matches the description of being limitless!

At this time,

The trailing Minor Success Initial Tier Celestial Demon Cyan Wood Celestial Demon is now only three thousand miles from Great Success Yu Zhen Bodhisattva who is urging the Buddhist Jade Purification Bottle!

Such a distance is already enough for a Minor Success Early-stage Celestial Demon to launch a powerful assault!

Seeing Great Success Yu Zhen Bodhisattva urging the Buddhist Jade Purification Bottle still fleeing rapidly, Cyan Wood Celestial Demon in furious pursuit couldn't help but sneer coldly and shouted:

"Little Celestial Buddha, even if you have this growth-type Initial Tier Divine Artifact designed specifically for escaping, how can an insignificant Initial Tier Early-stage Celestial Buddha escape from the grasp of a Minor Success expert!"

As his voice finished echoing,

This Initial Stage Minor Success Celestial Demon Cyan Wood placed his palms horizontally on his chest, swiftly forming a Demon Seal.

Suddenly, Great Success Yu Zhen Bodhisattva felt an immense tremor in her heart, an extremely dangerous aura surged within.

Great Success Yu Zhen Bodhisattva dared not hesitate, immediately urging the scarce Upper Realm Primordial Qi remaining within her, forcibly changing the flight direction of the Buddhist Jade Purification Bottle, from escaping east to southeast!

Simultaneously,

An area several hundred meters from the 'original escape direction' of the Buddhist Jade Purification Bottle suddenly distorted spatially, a crack formed, and countless green-black branches rapidly spread from the twisted spatial crack, transforming into tentacles dozens of meters long, repeatedly swaying in that location!

If Great Success Yu Zhen Bodhisattva's Divine Soul Realm wasn't considerably strong, and if the metamorphosed Divine Soul weren't dozens of times stronger, she definitely couldn't preemptively sense some fatal danger... Allowing the Buddhist Jade Purification Bottle to fly towards the previous direction would certainly lead into the encirclement of those dozens of green-black tentacles!

Even without directly confronting that powerful demon, Great Success Yu Zhen Bodhisattva was one hundred percent certain that if attacked by those green-black tentacles, even with the Buddhist Jade Purification Bottle's strong defensive capabilities, escaping would still be difficult!

Chapter 1289: Yun Jiaolong of the East Ming Divine Continent

The Demon Technique of Cyan Wood, an Early Stage of Minor Success Initial Tier Celestial Demon, was actually this terrifying,

making Great Success Yu Zhen Bodhisattva's heart grow even heavier!

How solid was the world-space of the Supreme Origin Realm? Even the Immortal Slaying Thousand Demon Array jointly activated earlier by several hundred Initial Tier Celestial Demons, with the Nine-Headed Immortal-Swallowing Snake in its third form attacking at full force, had been unable to shake the Supreme Origin Realm's space in the slightest, much less strike it to the point of producing any cracks!

Yet this Cyan Wood, an Early Stage of Minor Success Initial Tier Celestial Demon, relied on that bizarre Demon Technique Hand Seal to directly make the world-space of the Supreme Origin Realm, incomparably solid even thirty thousand li away, split open with a clearly visible crack, and from within that crack, summon forth those terrifying dark cyan branch-like tentacles!

At this moment, Great Success Yu Zhen Bodhisattva was utterly certain that the strength of this Celestial Demon behind her, drawing ever nearer, was absolutely enough to handle that Nine-Headed Immortal-Swallowing Snake with ease!

But what virtue or ability do I, Yu Zhen, have? I had only just ascended to the Supreme Origin Realm, yet not only was I captured by an array laid down by several hundred Initial Tier Celestial Demons, I even drew out such a powerful and terrifying Celestial Demon Powerhouse!

A trace of helplessness surfaced in Great Success Yu Zhen Bodhisattva's heart as she did her utmost to drive the branches of the Buddhist Jade Purification Bottle to meet those black tentacles head-on!

Right now Great Success Yu Zhen Bodhisattva had no way of knowing that the Celestial Demon who had chased her all this way and made her feel incomparably mighty was merely a "Little Leader" within Red Water Demon City!

"Creak, creak, creak—"

A series of tooth-achingly strange sounds rang out between the cyan-black branch-like tentacles summoned by the Celestial Demon Cyan Wood and the Jade Branches driven by Great Success Yu Zhen Bodhisattva!

The cyan-black branches driven by Cyan Wood Celestial Demon's powerful Demon Technique were clearly no ordinary foreign objects condensed from Demonic Qi! These branches, drilling out of that tiny spatial crack, tore all the Jade Branches that Great Success Yu Zhen Bodhisattva had urged forth via the Buddhist Jade Purification Bottle into several segments at extreme speed, scattering them all around, then continued swiftly toward the location of Great Success Yu Zhen Bodhisattva's Buddhist Jade Purification Bottle!

At this time Great Success Yu Zhen Bodhisattva's path forward was blocked, the Jade Branches destroyed; her face was full of helplessness as she was forced to fully drive the Growth-type Initial Tier Divine Artifact, the Buddhist Jade Purification Bottle, to dodge toward the right!

But before the Jade Purification Bottle she was driving could dodge far, the space a thousand zhang to the right suddenly twisted and another tiny spatial crack split open. From within this newly-appeared

crack likewise grew a large number of slender cyan-black tentacle-like branches, rushing head-on to coil around the Buddhist Jade Purification Bottle driven by Great Success Yu Zhen Bodhisattva!

At this moment,

it was already too late to dodge again,

Great Success Yu Zhen Bodhisattva let out a low cry, retreating backward with her Immortal Body shrunk to the size of a grain of corn, while at the mouth of the Growth-type Initial Tier Divine Artifact, the Buddhist Jade Purification Bottle, dozens of Jade Branches rapidly sprouted!

These newly grown Jade Branches did not strike out to meet those spreading slender cyan-black tentacle-like branches, but instead twisted together, blocking the mouth of the Growth-type Initial Tier Divine Artifact, the Buddhist Jade Purification Bottle! Dozens of Jade Branches intertwined, constantly proliferating, plugging the tiny mouth of the Jade Purification Bottle so tightly that not even a crack remained!

This was also an act of helplessness on Great Success Yu Zhen Bodhisattva's part!

Unable to escape with any Escape Technique, she could only resort to this inferior plan, using those Jade Branches to seal the mouth of the Buddhist Jade Purification Bottle, so that her Immortal Body would not be struck by those cyan-black tentacle-like branches!

As for what to do afterward? Once in the hands of this powerful Celestial Demon, whether those Jade Branches would one day be broken open and the her hiding within the Buddhist Jade Purification Bottle captured—this was already something Great Success Yu Zhen Bodhisattva could no longer spare the effort to worry about!

What made Great Success Yu Zhen Bodhisattva the most depressed at this moment was that she had already ascended to the Supreme Origin Realm, her strength had advanced by leaps and bounds, and she had even obtained a Growth-type Divine Artifact coveted by countless Celestial Demons—yet precisely because her own strength was insufficient and she could not draw out this Divine Artifact's true might, she ended up falling into crisis in the end, even after fleeing hundreds of millions of li away!

Thirty thousand li away,

when Cyan Wood Celestial Demon saw this scene, wild ecstasy instantly surfaced in its eyes,

as it continued to drive its Demon Technique, causing those cyan-black tentacle-like branches to bind the Divine Artifact, the Buddhist Jade Purification Bottle, while also accelerating and flying at extreme speed toward the Jade Purification Bottle's location.

"Hahahahahaha, a Growth-type Divine Artifact has finally fallen into my, Qingmu's, hands! Having obtained such an incomparably rare Growth-type Divine Artifact this time, whether I offer it up to the Saint Monarch Envoy in the Great Success Realm, or directly present it to the supremely noble Thousand Illusion Saint Monarch, I am sure to receive rewards of unspeakable richness!

From this day forward, I, Qingmu, will surely rise to prominence within Red Water Demon City, letting the countless Celestial Demons of the entire Red Water Demon City all know that within Red Water Demon City, there is now a Lord Qingmu whose future prospects are limitless, hahahahaha!

As for you, a mere Early-stage of Initial Tier Celestial Buddha—so what if you previously obtained this Growth-type Initial Tier Divine Artifact? With your paltry strength, you probably cannot even bring out a tenth of this Growth-type Initial Tier Divine Artifact's might. Otherwise, how would this Buddhist Jade Purification Bottle Divine Artifact, which excels at Escape Techniques and defense, possibly have ended up in my hands!"

Amid loud, exultant shouts, Cyan Wood Celestial Demon rapidly closed in on that Growth-type Initial Tier Divine Artifact, the Buddhist Jade Purification Bottle, his eyes filled with ecstasy.

Chapter 1290: East Ming Divine Continent Yun Jiaolong (2)

At this moment,

In the far east, eight cold stars suddenly appeared, transforming into eight destructive beams of light, abruptly shooting towards this direction, their speed faster than the Cyan Wood Celestial Demon approaching the Buddhist Jade Purification Bottle by several degrees!

Seven of these beams were crimson, flickering like falling meteors and crimson lightning; the leading beam, however, was silver-white, dazzlingly bright, more so than the other seven beams!

Upon seeing these eight beams of light,

The Cyan Wood Celestial Demon, initially filled with wild joy, suddenly changed its expression dramatically, coming to a forced halt, with deep apprehension in its gaze.

These eight beams flickered for a few breaths and arrived at the place of the Growth-type Initial Tier Divine Artifact, the Buddhist Jade Purification Bottle, then revealed their forms.

Among them, the seven crimson beams were all elegantly built women wearing crimson scale armor. These seven women had exquisite appearances, with scaled helmets that added to their soft, yet heroic stance. Interestingly, each of their helmets bore a single horn, shaped like a deer's antler!

The foremost silver-white beam, after coming to a stop, also revealed its form. This was likewise a woman clad in scale armor, with a battle helmet on her head.

However, this woman's stature was even more graceful, her scale armor composed entirely of silver-white scales, and she had an exceedingly delicate, heroic appearance, far more pleasant to behold than the seven Crimson Armor Maidens behind her! Cultivators who had seen the Strongest Immortal Lord Lii Xiaolan, Guang Yu'er, or Xiaoo Ying'Er would surely sigh in admiration that the world's beauties indeed had their unique allure, like orchids in spring and chrysanthemums in autumn, each excelling in their own way!

After stopping near the Buddhist Jade Purification Bottle,

The seven Crimson Armor Maidens all stood to one side, while the Silver Armor Woman looked at the Growth-type Initial Tier Divine Artifact, the Buddhist Jade Purification Bottle, and with a playful smile, said, "Lan'er, Hua'er, Yu'er, I told you a cup of tea ago, when my left eye kept twitching, that it was a sign of great fortune, and if we went out for a stroll, we might indeed come across a great treasure!

See, I wasn't wrong, was I? Hehe, a Growth-type Initial Tier Divine Artifact, and this Growth-type Initial Tier Divine Artifact, transformed by a Buddhist sect cultivator, into a defensive and escape technique adept Buddhist Jade Purification Bottle! Such treasures are scarce even across our entire East Ming Divine Continent!

Now, do you believe my hunch?

Haha, once I take this Buddhist Jade Purification Bottle back to the cave, using it to arrange flowers and nurture plants will surely make my second brother and elder brother green with envy, perhaps even our respected father will envy me for having such a fine vase!"

This woman, as she spoke, displayed a coquettish charm, her voice crisp and captivating, yet the content was extraordinarily assertive, as she seemed to have already claimed the Growth-type Initial Tier Divine Artifact Buddhist Jade Purification Bottle as her own!

Moreover, when speaking, the woman, who appeared full of heroism, kept her gaze fixed on the Growth-type Initial Tier Divine Artifact, the Buddhist Jade Purification Bottle, her alluring big eyes almost unblinking, reminiscent of a little treasure hoarder who had spotted a Gold Sycee!

Hiding within the Growth-type Initial Tier Divine Artifact Buddhist Jade Purification Bottle, the Great Success Yu Zhen Bodhisattva tasted bitterness in their mouth upon hearing the voice from outside.

Still not free from that powerful Celestial Demon's grasp, another seemingly even more formidable being had appeared, and it was evident that they were eyeing the Growth-type Initial Tier Divine Artifact Buddhist Jade Purification Bottle with interest!

What nonsense about using the Growth-type Initial Tier Divine Artifact Buddhist Jade Purification Bottle as a vase for flowers and plants?

Who on earth is this woman, and how powerful could she be, to even consider using a Growth-type Initial Tier Divine Artifact for flower arrangement?

Out of thousands upon thousands of Ninth Grade Perfection Immortal Artifacts, one might barely transform into a Growth-type Initial Tier Divine Artifact—using it for flower arrangement, isn't that too much!

The Great Success Yu Zhen Bodhisattva tasted bitterness and was even somewhat astonished.

Nonetheless, not knowing whether this powerful woman was friend or foe, whether she was demon or celestial, the Great Success Yu Zhen Bodhisattva didn't dare to emerge from the Growth-type Initial Tier Divine Artifact Buddhist Jade Purification Bottle!

While the Great Success Yu Zhen Bodhisattva was anxious,

More than twenty thousand miles away, the Cyan Wood Celestial Demon halted, apprehension in its eyes, gazing at the silver-white armored woman in the distance. A retreat sentiment had arisen in its heart, yet the preciousness of the Growth-type Initial Tier Divine Artifact Buddhist Jade Purification Bottle made it unwilling to give up easily!

After three breaths of silence, the Cyan Wood Celestial Demon gritted its teeth and shouted into the distance:

"Elder Yun Jiaolong, I am Qingmu, under the jurisdiction of the Thousand Illusion Saint Monarch from the Red Water Demon City. This Growth-type Initial Tier Divine Artifact, having transformed from the Red Water Passage of my Red Water Demon City, is undoubtedly a treasure of the Red Water Demon City, and even more so, a treasure belonging to our esteemed Thousand Illusion Saint Monarch of the Celestial Demon Race!

The Celestial Dragon Race and our Celestial Demon Race have been in peace over recent years. I implore Elder Yun to consider our esteemed Thousand Illusion Saint Monarch and not contest this Growth-type Initial Tier Divine Artifact with me, or else....."

Upon hearing the Cyan Wood Celestial Demon speak so from afar,

The silver armored woman called Yun Jiaolong paid it no mind, her face still filled with joy as she gazed at the Growth-type Initial Tier Divine Artifact Buddhist Jade Purification Bottle, her beautiful eyes brimming with delight.

One of the sword-wielding Crimson Armor Maidens glanced at the Cyan Wood Celestial Demon, who was spouting threats, and spoke coldly:

"What Qingmu or not, you're merely an insignificant Early Stage of Minor Success Celestial Demon! Even the City Lord of your Red Water Holy City wouldn't dare say such things upon seeing my mistress! Haha, suggesting my mistress relinquish a treasure she's set her eyes on? If you want this treasure, have your so-called esteemed Thousand Illusion Saint Monarch come to our East Ming Divine Continent to demand it!

Moreover, you, a mere Initial Stage of Minor Achievement Celestial Demon, if you know my mistress's name, then you must be aware of her temperament, yet you still dare to ask her to leave this Growth-type Initial Tier Divine Artifact!

I'll give you a chance to survive, scam immediately, or else, I'll ignore your status as a subordinate of the City Lord of Red Water and severely wound you right here, taking you back to the East Sheng Divine Continent's Demon Suppression Cliff, sealing you for millions to tens of millions of years!"

From over twenty thousand miles away, upon hearing these words, the Cyan Wood Celestial Demon's face turned a mix of green, purple, and red, constantly changing.

However, merely three breaths later,

The Cyan Wood Celestial Demon let out a heavy sigh, the depth of apprehension in its eyes deepening as it gradually retreated in the direction of the Red Water Demon City, devoid of the previous might it had while pursuing the Great Success Yu Zhen Bodhisattva, nor the excitement when surrounding them!

For it understood all too well the strength of the Celestial Dragon Race, and was well-acquainted with the reputation of the 'Little Treasure Hoarder' Yun Jiaolong of the Eastern Sheng Divine Continent!

It was utterly convinced that Yun Jiaolong didn't need to lift a finger, any of the Crimson Armor Maidens beside her had immense strength, being at least of Mid-Stage Minor Success!

An Initial Stage of Minor Achievement cultivator like itself was certainly no match for Mid to Late Stage Celestial Dragon powerhouses!

Within the body of the Growth-type Initial Tier Divine Artifact Buddhist Jade Purification Bottle, the Great Success Yu Zhen Bodhisattva wore a puzzled expression,

Celestial Dragon Race women? This should indicate a powerhouse of the Demon Race! But what identity does this woman have, for a mere maid beside her to dare address the Thousand Illusion Saint Monarch by name, without a shred of regard for the City Lord of Red Water or the Thousand Illusion Saint Monarch while speaking!

While filled with doubt, the Great Success Yu Zhen Bodhisattva suddenly heard the silver armored woman's voice coming from outside the Buddhist Jade Purification Bottle,

"Alright, all those branches activated by the Cyan Wood Celestial Demon have been thoroughly cleaned up by my maidens, you can come out now and hand over this Growth-type Divine Artifact Buddhist Jade Purification Bottle to me!

Otherwise, I might just personally enter the Buddhist Jade Purification Bottle to find you!"

Upon hearing this from the silver armored woman, the Great Success Yu Zhen Bodhisattva's heart sank once more.
