Chapter 1311: Lin Xuankong's Celestial Tribulation

In the Supreme Origin Realm, within Red Water Demon City,

at the center of the Cyan Wood Forest, there stood a gigantic building of eerie and sinister design.

At this moment, in the central hall of the structure, several tall, oddly featured Celestial Demons were seated behind a long table, feasting ravenously.

On the dining table, besides the fresh red Demon Essence Fruits produced in the Cyan Wood Forest and saturated with Demonic Qi, there were also all kinds of bound living creatures' bodies. These creatures, born in the Supreme Origin Realm and nourished by vast amounts of Upper Realm Primordial Qi, were all rather delicate and spiritual in appearance. Yet the Cyan Wood Forest was suffused with Demonic Qi; after long-term pollution by Upper Realm Demonic Qi, although their bodies were exquisite, their heads had grown extremely peculiar, looking almost identical to the grotesque visages of those Celestial Demons.

However, the Celestial Demons eating at this moment clearly did not regard these strange creatures, suffused with Demonic Qi and Upper Realm Primordial Qi, as their own kind, but instead as delicious food! All of these bizarre creatures were living beings, yet because they were bound, they could not move at all, and could only watch helplessly as the creatures beside them were picked up one by one and shoved into the Celestial Demons' mouths.

As those Celestial Demons chewed, the sound of bones shattering within the living bodies continually came from their mouths, and copious blood kept flowing from the corners of their lips, causing the entire great hall to be filled with a strong, cloying stench of blood!

Among the several Minor Success Celestial Demons, a Minor Success Celestial Demon with a bizarre face and nine eyes on its forehead swallowed a creature shaped like a peacock, then split open its bloodstained maw and shook its head, saying:

"Qingmu, I heard that for these eight thousand years, you've never pulled back the subordinates encircling the entrance to the Red Water Passage. What's the point!

I figure that in that little Golden Dragon Immortal Realm, the number of Cultivators capable of Ascension to the Upper Realm isn't that large. Those who ascended in one batch eight thousand years ago should all have been the relatively powerful Strongest Immortal Lord Level Cultivators in that Golden Dragon Immortal Realm. As for the remaining Strongest Immortal Lord Level Cultivators, they probably don't have many chances to even get through their Celestial Tribulation!

Hoping to once again obtain a large batch of Ninth-Grade Immortal Artifacts from the hands of those Ascenders from the Golden Dragon Immortal Realm will be incredibly difficult!"

Another Minor Success Celestial Demon with a face covered in white hair also shook his head.

"Ten thousand years ago, the venerable Thousand Illusion Saint Monarch assigned tasks to a few of us, and basically none of them have been completed. The mission rewards are indeed unimaginably generous— even those Great Success Demon Monarchs can't help but feel tempted— but among the powerful Cultivators of our Supreme Origin Realm, only the supremely noble Saint Monarchs, who stand above Venerables of the Perfect Realm, have even the slightest possibility of piercing a trace of their Power through the Wall of the World and transmitting it into the Little Worlds below!

For fellows like us who only recently stepped into the Minor Success Realm, where would we get a chance to pierce even a trace of Power through the Wall of the World? Even if there were a thousand, ten thousand, a billion of us Minor Success Celestial Demons, it would still be impossible!

This mission, I'm afraid none of us will ever complete it!

Fortunately, over these past ten thousand or so years, the venerable Thousand Illusion Saint Monarch hasn't brought up this mission again, and has instead shifted his attention and focus to dealing with the Human Race Saint Monarchs near Ligu Treasure Pool. I've heard that in these three to four thousand years, quite a few Minor Success Celestial Demons have relied on the battles near Ligu Treasure Pool to obtain rewards from the venerable Thousand Illusion Saint Monarch; their strength has greatly increased, their territories have expanded significantly, and they've even received some Little World Origin!

Alas, back then we thought the missions we took on were all sweet pastries, but who would have thought that after over ten thousand years we'd end up empty-handed, not a single task completed!

If you ask me, the venerable Thousand Illusion Saint Monarch probably never really expected small fry like us to complete those missions. It was just to punish those troublemaking Little World Cultivators, to capture every last one of the Cultivators who ascended from those Little Worlds, and throw them all into Red Water Prison as nourishment!"

After the White-haired Celestial Demon and the Nine-Eyed Celestial Demon finished speaking, the other Minor Success Celestial Demons all shook their heads repeatedly and began to sigh.

It was obvious that these Minor Success Celestial Demons who had taken the mission back then had all failed to complete it, leaving them deeply unwilling and envious of those Minor Success Celestial Demons who had taken part in the battle of Ligu Treasure Pool!

Seeing this, the Cyan Wood Celestial Demon's bird-like face immediately showed a slightly vexed expression as he sighed and said, "Exactly! How could I not think the same? I've heard that over these past several thousand years, those Minor Success Celestial Demons participating in the defense of Ligu Treasure Pool, because they received extremely generous rewards and quite a bit of Little World Origin, already have more than a dozen Late Stage of Minor Success Celestial Demons whose strength has advanced by leaps and bounds, breaking through to the Great Success Celestial Demon Realm, thereby obtaining the right to carve out new lands and occupy a large amount of resource-rich territory!

But since we have already accepted the mission from the incomparably venerable Thousand Illusion Saint Monarch, we must continue to carry it out. Never mind ten thousand years; even if it takes a hundred thousand or a million years, we still have to persist until the mission is completed!"

After he finished speaking, the Cyan Wood Celestial Demon put on a helpless expression and raised a huge goblet brimming with blood. "Everyone, stop envying those Minor Success Celestial Demons who joined the defense of Ligu Treasure Pool. After all, although the Minor Success Celestial Demons who take part in such a war that continues for hundreds of thousands of years do indeed have a chance to capture some Human Race Minor Success Celestial Immortals, they also might run into Human Race Great Success Celestial Immortals and end up as eternal prisoners in the Human Race's Demon Suppression Hall!

By comparison, our mission here may be dull, and the chances of earning rewards are extremely small, but at least it's a bit safer!"

Chapter 1312: Lin Xuankong's Celestial Tribulation (2)

The few Initial Tier Celestial Demons, upon hearing the words, lifted their goblets filled with blood and drank them in one gulp, all with expressions of resignation.

The Cyan Wood Celestial Demon set down its goblet and ordered its subordinates to summon a group of incredibly seductive demonesses to perform the Celestial Demon Dance for these sorrowful Initial Tier Celestial Demons.

Those mournful Initial Tier Celestial Demons were quickly captivated by the mesmerizing music and the seductive dance of the demonesses, each showing a smile. For these Initial Tier Celestial Demons, participating in the guarding battle of the Ligu Treasure Pool undoubtedly held great allure. Their task of monitoring the passage entrances to the various little worlds was indeed tedious and dull. However, for them, with almost endless life spans, waiting for opportunities with virtually infinite time available did not weigh heavily on their minds. With such vast lifespans, they certainly prioritized enjoyment!

Seeing the other Initial Tier Celestial Demons distracted by the seductive demonesses, the eyes of the Cyan Wood Celestial Demon flickered slightly.

Just a moment ago, it had deliberately put on an expression of helplessness and gloom, but in its heart, it was fervently excited....

Back when all twenty-eight of the Strongest Immortal Lord-level powerhouses ascended from the Golden Dragon Mini World, it was an extraordinarily rare occurrence for a little world. Even more unprecedented, even never before seen, was that each of these twenty-eight Strongest Immortal Lord-level powerhouses carried a Ninth-Grade Immortal Artifact, something quite valuable even in the Supreme Origin Realm!

This made the Cyan Wood Celestial Demon very certain that, should the Artifact Refiner named Lin Xuankong from the Golden Dragon Mini World be captured and presented to the Thousand Illusion Saint Monarch, it would undoubtedly be a monumental stroke of fate that could alter its future!

After all, within the realm governed by the Thousand Illusion Saint Monarch's Endless Demon Land, even the most powerful Artifact Refining Celestial Demon would struggle to achieve such artifact refining prowess as crafting Ninth-Grade Immortal Artifacts in such abundance. Perhaps only in areas governed by even more powerful Venerable Level Celestial Demons could Artifact Refiners possibly manage to craft so many Ninth-Grade Immortal Artifacts from the inferior materials found in low-level worlds!

Should this Artifact Refining Master Lin Xuankong be captured and presented to the Thousand Illusion Saint Monarch, under the control of the Saint Monarch, it's highly probable he could manufacture a vast

quantity of Ninth-Grade Immortal Artifacts. This could result in obtaining a significant number of growth-type Divine Artifacts, potentially, after ten or eighty thousand years, allowing the Thousand Illusion Saint Monarch to decisively defeat the Human Race Saint Monarch continuously vying for the Ligu Treasure Pool!

If this truly comes to pass, then it would have accomplished a peerless meritorious feat for the esteemed Thousand Illusion Saint Monarch, one unmatched in eons!

Ah..... the reward the esteemed Thousand Illusion Saint Monarch would bestow upon me then would be unimaginable; at the very least, it would easily see me grow from the Early Stage of Minor Success to the Great Success Celestial Demon, or even become a Perfection Level Demon Monarch!

The heart of the Cyan Wood Celestial Demon once again burned with fervor,

It glanced at the surrounding Initial Tier Celestial Demons, a slight smirk on its lips, thinking coldly:

What do you all know about what happened 8,000 years ago in the Cyan Wood Forest! What do you know about the kind of Artifact Refining Master hidden within the Golden Dragon Mini World connected to the Red Water Passage entrance number three that I monitor!

Thinking of this, the Cyan Wood Celestial Demon was profoundly grateful for its past decision—to prevent any other Initial Tier Celestial Demons and those Great Success Celestial Demons from the Red Water Demon City from prying, it had issued a strict order that all Initial Tier Celestial Demons who participated in the battle that day in the Cyan Wood Forest, including the Cyan Bird Celestial Demon, were to keep a tight lid on the information, not letting a single detail slip!

From that day on, the Cyan Wood Celestial Demon even deployed several hundred Initial Tier Celestial Demons to the position of Red Water Passage entrance number three, forbidding the Initial Tier Celestial Demons to leave, not allowing a moment of relaxation, continuously maintaining the operation of the Immortal Slaying Thousand Demon Array! All in hopes of one day capturing Lin Xuankong!

"That Artifact Refining Master Lin Xuankong is mine!

I, Cyan Wood, will absolutely not let any other Celestial Demon get him!

Though I don't understand why Lin Xuankong hasn't yet ascended to the upper realm, for a master artifact refiner like you, crossing the final heavenly tribulation should be an effortless task!

Hmph, even after 8,000 years, even if I have to wait another 8,000 years, 80,000 years, 800,000 years, I'll never let you go!"

The Cyan Wood Celestial Demon brought the goblet now refilled with blood near its mouth, draining it in one go, its eyes full of fervent excitement.

...

Lin Xuankong, of course, was unaware,

that in the Supreme Origin Realm, an Initial Tier Celestial Demon had already set 'getting him' as a goal worth pursuing even for 800,000 years!

At this moment, Lin Xuankong had already arrived at a location within the Boundaryless Mountain Range, where the Mortal World and Golden Dragon Immortal Realm intersected, along with the Strongest Immortal Lords Lii Xiaolan, Zhao Yufei, Xiaoo Ying'Er, Guang Yu'Er, and Li Xiaohu.

From the peak of the towering mountain, Lin Xuankong gazed into the distance,

His current strength was far beyond what it once was; throughout over 8,000 years, he had completely cultivated countless top-tier Immortal Techniques and Body Refinement Immortal Techniques from the Golden Dragon Immortal Realm to Perfection Realm. Therefore, even without activating the formidable Ultimate Golden Body Demon Suppression Technique, he still possessed the most terrifying and powerful Immortal Body in the Golden Dragon Immortal Realm!

If the current him were placed over ten thousand years ago, even without activating the peerlessly powerful Ultimate Golden Body Demon Suppression Technique, he would still have ample confidence, relying on the bonuses of various other Body Refinement Immortal Techniques, to easily kill the Demon Child Gang Bone who had previously activated the Hundred Thousand Supreme Demon Bodies. One could only imagine how powerful Lin Xuankong had become!

"It's the masters coming! Huh, not only Immortal Lord Luoshui, Master Qiaan Yuan, Master Kunyuan, and Junior Sister Guang Ling'Er, but it seems the entire Golden Dragon Immortal Realm, including the Strongest Immortal Lords from both the Human and Demon Races and the Buddhist Sect, are all heading over here!"

Behind Lin Xuankong, the Strongest Immortal Lord Guang Yu'Er's eyes shone as she exclaimed joyfully in a low voice.

As a disciple of Immortal Lord Qiaan Yuan, the Strongest Immortal Lord Guang Yu'Er had trained under both Immortal Lord Qiaan Yuan and Immortal Lord Kunyuan for ten thousand years, and had cultivated tirelessly day and night alongside Guang Ling'Er. Naturally, she harbored deep affection for Immortal Lord Qiaan Yuan, Immortal Lord Kunyuan, and the newly-promoted Strongest Immortal Lord Guang Ling'Er. She hoped to trigger the final heavenly tribulation along with Immortal Lord Qiaan Yuan, Immortal Lord Kunyuan, and the newly-promoted Strongest Immortal Lord Guang Ling'Er, ascending to the Supreme Origin Realm together!

Seeing Immortal Lord Qiaan Yuan, Immortal Lord Kunyuan, and the newly-promoted Strongest Immortal Lord Guang Ling'Er arriving made her heart flood with joy!

As for triggering the final heavenly tribulation alongside Lin Xuankong and ascending to the Supreme Origin Realm, whether they would encounter hordes of Initial Tier Celestial Demons, and whether Lin Xuankong could lead everyone out safely from being encircled by those demons... After more than ten thousand years of interaction, having witnessed time and again the miracles Lin Xuankong had created, Fourth Lady Guang Yu'Er's faith in Lin Xuankong was immeasurable. She firmly believed that since Lin Xuankong had decided to trigger the final heavenly tribulation, he could absolutely handle all crises and take them through successfully!

"All these Strongest Immortal Lords might not all be here to accompany Xuankong in triggering the final heavenly tribulation! Just as it was over 8,000 years ago, this occasion, where so many Strongest Immortal Lord-level powerhouses from the Golden Dragon Immortal Realm are crossing the tribulation, is undoubtedly the premier event in over 8,000 years; they absolutely must come and watch!

Moreover, Xuankong did save the countless living creatures of the entire Golden Dragon Immortal Realm over ten thousand years ago. With such meritorious deeds, these old fellows wouldn't possibly remain indifferent, and feel compelled to see him off!"

Young Lady Lii Xiaolan spoke.

Although Young Lady Lii Xiaolan had long since advanced to the Strongest Immortal Lord Realm, as a Strongest Immortal Lord, she showed no sign of carrying any "idol" or "powerhouse" burdens. Even as she talked, she continuously drew out delicacies from the Golden Patterned Ghost Frog Pouch, eating and chatting away!

Second Lady Zhao Yufei, on the other hand, seemed to recall something, her eyes glistening with concern as she looked at Lin Xuankong, "Based on the pattern of the countless cultivators in the Golden Dragon Immortal Realm crossing the last heavenly tribulation over the years, the stronger the talent of the Strongest Immortal Lord crossing the tribulation, the more terrifying the final heavenly tribulation would be. We don't know what kind of the final heavenly tribulation an unprecedented talent like Xuankong might attract!"

As she spoke, it was clear this Second Lady was extremely concerned about Lin Xuankong. Even as she talked, she moved closer to Lin Xuankong, clearly wanting to spend as much time with him as possible before he underwent the final heavenly tribulation!

Chapter 1313: The Opportunity for Immortal Lords

"Hahaha, Immortal Lord Zhao. Lin Immortal's Celestial Tribulation,

it must be the rarest celestial tribulation in our entire Golden Dragon Immortal Realm in tens of thousands of years!

After all, such an unprecedented genius as Lin Immortal, I fear the most deadly of legendary tribunals, like the Five Elements Extermination Tribulation or the Azure Sky Killing Tribulation, wouldn't be able to harm even a single hair of his!"

The numerous strongest immortal lords arriving from afar had already approached, among them was Immortal Lord Qiaan Yuan, who obviously heard what the strongest immortal lord Zhao Yufei said. Even before landing on this mountain top, he greeted from afar!

With Immortal Lord Qiaan Yuan, flying together were Immortal Lord Kunyuan, strongest immortal lord Guang Ling'Er, Qilin Race Elder Clan Leader, Cyan Dragon Race Elder Clan Leader, and other strongest immortal lord-level powerhouses, all looking towards the strongest immortal lords standing near Lin Xuankong.

Strongest Immortal Lords Lii Xiaolan, Zhao Yufei, Xiaoo Ying'Er, Li Xiaohu, and more than a dozen others stood behind Lin Xuankong.

All the strongest immortal lords knew three years ago that several of Lin Xuankong's Dao companions and his adopted sons had long reached the Strongest Immortal Lord Realm and had even achieved Perfection Level. Three years ago, the entire Golden Dragon Immortal Realm was stunned by the news, including those who prided themselves on being experienced and knowledgeable veteran strongest immortal lords!

Lin Xuankong's personal talent was unprecedented, his artifact refining technique and path of array formation were exquisite, everyone had long known, but who could have thought that not only was Lin Xuankong personally astonishingly powerful, but even his Dao companions and adopted sons around him were equally strong!

The number of cultivators in the entire Golden Dragon Immortal Realm was over billions, yet the number of strongest immortal lord-level powerhouses was only a few dozen. Incidentally, Lin Xuankong alone had more than a dozen Dao companions and adopted sons as strongest immortal lords!

Lin Xuankong's personal power could upend the entire Golden Dragon Immortal Realm, this everyone believed without a doubt. Yet, how could they imagine that even without Lin Xuankong himself acting, there were already as many as a dozen strongest immortal lord-level powerhouses beside him, his Dao companions and adopted sons alone were enough to upend the entire Golden Dragon Immortal Realm! After all, those following Lin Xuankong were his Dao companions and adopted sons, so could they lack immortal artifacts? I fear each of them had at least a few Ninth-Grade Immortal Artifacts on them...

At this moment,

many of the strongest immortal lords looked with emotion at Lin Xuankong and others standing on the mountain peak, while Immortal Lord Luoshui Yaan Mingyu flew to the mountain top first!

Now, in the entire Golden Dragon Immortal Realm, the one with the highest reputation was naturally Lin Xuankong, aside from him, it was this Immortal Lord Luoshui Yaan Mingyu, who had amazing talent in array formation! The reason for such a high reputation, besides Yaan Mingyu's path of array formation that awed countless cultivators in the entire Golden Dragon Immortal Realm, was that she was Lin

Xuankong's genuine master in every sense of the word, and she had taught Lin Xuankong the path of array formation for thousands of years!

"Xuankong, you've been here for some time?"

Glancing at Lin Xuankong in front of her, Immortal Lord Luoshui Yaan Mingyu's eyes showed a trace of pride, her only true disciple had become the indisputable first of the Golden Dragon Immortal Realm, with a reputation far surpassing that of Sect Leader Qiu of the Divine Dynasty Immortal Sect from over ten thousand years ago, how could Immortal Lord Luoshui Yaan Mingyu not be proud!

"Master, my companions and I have just arrived not long ago!"

Towards this master who had taught him for thousands of years, Lin Xuankong held no arrogance as the first of the Immortal Realm, he was always very respectful. He not only respected Immortal Lord Luoshui Yaan Mingyu for teaching him for thousands of years but also for her dedication, even in the Immortal Realm, there were only a few immortal lords who could devote themselves entirely to one thing day and night, without being distracted by the endless indulgences of the Immortal Realm, like Immortal Lord Luoshui Yaan Mingyu!

As for other strongest immortal lords, except for the very few encephalopaths, others had obtained a status in the Golden Dragon Immortal Realm that was second to none among billions, how could they not indulge... After countless years of bitter cultivation, was it just to continue cultivating for countless years? The enjoyment of spirit fruits, celestial delicacies, enchanting fairies, mind-bending spirit wines of the Golden Dragon Immortal Realm far exceeded the variety of the mortal world many times over!

"Greetings to Master Luoshui!" "Master Luoshui!"

Young Lady Li Xiaolan, Second Lady Zhao Yufei, Third Lady Xiaoo Ying'Er, Fourth Lady Guang Yu'Er, and Lin Xuankong's adopted sons all followed behind Lin Xuankong, respectfully saluting Immortal Lord Luoshui Yaan Mingyu.

After paying respects to Immortal Lord Luoshui Yaan Mingyu, Lin Xuankong raised his eyebrows and looked towards the surrounding strongest immortal lords, cupping his hands:

"This time, Xuankong, along with a few Dao companions and adopted sons, is crossing the final celestial tribulation, I welcome all of you here!

I wonder which friends plan to join Xuankong in triggering the ultimate celestial tribulation?"

Upon hearing Lin Xuankong's question, the many strongest immortal lord-level powerhouses present fell silent.

Among them, several strongest immortal lords slightly shook their heads, showing Lin Xuankong slightly apologetic expressions. A strongest demon lord from the Boundaryless Mountain Range forced himself to speak, cupping his hands towards Lin Xuankong:

"Lin Immortal's crossing must naturally be one hundred percent successful, but my skills are inadequate, having just broken through to the mid-stage of the strongest immortal lord level, so... so, this time Lin Immortal crosses the tribulation, I won't accompany Lin Immortal together!"

Chapter 1314: The Immortal Lords' Opportunity (2)

With the strongest Demon Lord of the Boundaryless Mountain Demon Race taking the lead,

twenty-some strongest Immortal Lords from the Human Race, Buddhist Sect, and Demon Race soon expressed their apologies to Lin Xuankong, deciding not to trigger the ultimate Celestial Tribulation and ascend to the Upper Realm together with him!

The reasons given by these strongest Immortal Lord-level powerhouses were mostly due to their lack of strength, and indeed, most of them were not lying... Among those who chose not to trigger the ultimate Celestial Tribulation with Lin Xuankong were some who had only ascended to the level of strongest Immortal Lord in the past thirty to forty thousand years. They still had at least tens of thousands of years of lifespan left and were naturally reluctant to recklessly cross the tribulation, risking themselves!

After all, guarding the entrance to the passage to the Golden Dragon Immortal Realm and Supreme Origin Realm were hundreds of formidable Celestial Demons! With such a number of strong Celestial Demons, having undergone nearly ten thousand years of cultivation again in the Supreme Origin Realm, even the strongest Immortal Lord-level powerhouses would feel fear!

To these relatively younger strongest Immortal Lord-level powerhouses, Lin Xuankong was, of course, terrifyingly powerful, capable of sweeping away any single one of them and even easily overpowering them combined. However, upon ascending to the Supreme Origin Realm, whether Lin Xuankong could sweep through those hundreds of Celestial Demons—there was certainly a big question mark in the minds of all the strongest Immortal Lord-level powerhouses!

Under such threat, it was natural for those strong Immortal Lords with tens of thousands of years of lifespan remaining to be unwilling to risk themselves easily, squandering all they had painstakingly cultivated over tens of thousands of years!

However,

Although a considerable number of strongest Immortal Lords chose not to trigger the ultimate Celestial Tribulation with Lin Xuankong, there were quite a few strongest Immortal Lords willing to cross the tribulation with him!

Just after the numerous strongest Immortal Lords who decided not to cross the tribulation together finished speaking, Immortal Lord Qiaan Yuan stood up first, slightly clasping his hands towards Lin Xuankong:

"Over the past ten thousand years, Qiaan Yuan has come to have some understanding of Immortal Lin! Immortal Lin's temperament, it's certain that he is quite confident before crossing this final Celestial Tribulation!

Therefore, Qiaan Yuan is absolutely one hundred percent reassured by Immortal Lin,

Moreover, even though Qiaan Yuan's strength is far inferior to that of Immortal Lin, he is willing to follow Immortal Lin, to trigger the ultimate Celestial Tribulation, ascend together to the Upper Realm, and confront those potential Celestial Demons together!"

After Immortal Lord Qiaan Yuan finished speaking, Immortal Lord Kunyuan immediately burst into laughter, "Master's words are excellent! Kunyuan thinks the same!"

The Elder Clan Leader of the Qilin Race came to the side of White-forehead Qilin and Cyan-forehead Qilin, glanced at the determined expressions in the eyes of the two talented strong Demon Lords of the Qilin Race, and inevitably smiled, then boldly said:

"Over ten thousand years ago, Immortal Lin was able to sweep away the multitude of demons, securing countless years of future stability for the entire Golden Dragon Immortal Realm. Such outstanding achievements, no prior elder of the Golden Dragon Immortal Realm has ever achieved in tens of millions of years! As such, I feel in my heart that if anyone can lead us to repel those Celestial Demons possibly appearing at the entrance of the Upper Realm passage... it must be Immortal Lin!

Therefore, even if we face any crisis after overcoming the final Celestial Tribulation and ascending to the Upper Realm, I firmly believe that Immortal Lin will handle it! This time triggering the ultimate Celestial Tribulation, I must follow Immortal Lin to explore what exactly the Supreme Origin Realm is like!"

"Well said!"

The Elder Clan Leader of the Cyan Dragon Race, along with the strongest Immortal Lord Little Linglong beside him, stood up and continued:

"I and this little genius strongest Demon Lord from our clan also intend to cross the tribulation with Immortal Lin and even plan to hold onto the thighs of Immortal Lin, hahaha!"

After a hearty laugh, he turned to those who chose not to follow Lin Xuankong in crossing the final Celestial Tribulation, "Of course, it's normal for you to have concerns, as ascending to the Supreme Origin Realm might entail encountering a large number of Celestial Demons! But rest assured, since Immortal Lin plans to cross the final Celestial Tribulation this time, he certainly has some assurance to deal with potential crises in the Supreme Origin Realm!

Following Immortal Lin this time over the final Celestial Tribulation and ascending to the Supreme Origin Realm will surely prevent all of you from falling into the same plight as Sect Leader Qiu of the Divine Dynasty Immortal Sect and Elder Qiu faced years ago upon ascending to the Upper Realm!

Anyway, at this point, you've decided to give up on crossing the tribulation together. I'm afraid you may regret it in the future, hahaha!"

Seeing the Elder Clan Leader of the Cyan Dragon Race say this, those strongest Immortal Lord-level powerhouses who decided not to cross the tribulation with Lin Xuankong all showed some reaction.

But after just a few breaths, these strongest Immortal Lord-level powerhouses all regained their usual expressions. As cultivators who have practiced for tens of thousands of years, their minds are naturally extremely resolute, and having made a decision, how could they possibly change their minds directly because of a few words from the Elder Clan Leader of the Cyan Dragon Race!

Seeing that not a single strongest Immortal Lord-level powerhouse changed their minds about not crossing the tribulation together, the Elder Clan Leader of the Cyan Dragon Race shook his head with a smile, and then, along with Little Linglong, the most talented strongest Immortal Lord of the Cyan Dragon Race, stood behind Lin Xuankong.

Lin Xuankong, witnessing this, said nothing,

In his view, it was quite normal that more than half of the strongest Immortal Lord-level powerhouses present chose not to cross the final Celestial Tribulation with him, especially given that over ten thousand years ago, Vice Sect Leader Qiu of the Divine Dynasty Immortal Sect and others—twenty-eight strong Immortal Lord-level powerhouses—crossed the tribulation together, yet twenty-seven were directly captured... With this precedence, which strongest Immortal Lord-level powerhouse would not feel apprehensive?

Of those strongest Immortal Lord-level powerhouses who ascended to the Upper Realm back then, besides Sect Leader Qiu and Elder Qiu of the Divine Dynasty Immortal Sect, there was also the foremost powerhouse of the Buddhist Sect, Great Success Yu Zhen Bodhisattva. Most of the other strongest Immortal Lords were among the highly formidable ones at the time, stronger than most of the remaining strongest Immortal Lord-level powerhouses here. Such a lineup couldn't withstand the force for even a few breaths of time—it's almost needless to say, the joint strength of those hundreds of Celestial Demons was incredibly powerful!

He pondered briefly, turned to look at the dozen or so strongest Immortal Lord-level powerhouses who decided to cross the final Celestial Tribulation with him, and then spoke:

"To have colleagues place such value on me, Lin Xuankong, touches me deeply, but there's one thing I need to clarify with all of you!

This time, as I trigger the ultimate Celestial Tribulation and plan to ascend to the Supreme Origin Realm, although I fancy myself prepared, it's nonetheless a realm controlled by the Celestial Demon Race, and there might be even stronger Celestial Demon powerhouses! Under such circumstances, Xuankong does not possess one hundred percent confidence in necessarily being able to lead all of you out of the encirclement!"

A strongest Immortal Lord-level powerhouse from the Human Race heard this and burst into laughter, "Hahaha, Immortal Lin, what are you talking about!

We old folks here actually want to enjoy a few more years in this Golden Dragon Immortal Realm, but time doesn't spare anyone, and we old undying ones are already nearing the end of our lifespan. If we don't follow Immortal Lin to cross the tribulation this time, we might not even have the chance to cross it later!

Under such circumstances, following Immortal Lin to challenge those potential Celestial Demon powerhouses counts as a last desperate effort!"

"Indeed, I, as this old Qilin, if I don't follow Immortal Lin to cross the final Celestial Tribulation, in a few hundred more years, all my scales might fall off, then my strength would inevitably decline significantly! Therefore, this opportunity to cross the final Celestial Tribulation with Immortal Lin is one this old Qilin cannot miss!"

The Elder Clan Leader of the Qilin Race standing behind Lin Xuankong couldn't help but speak up.

Lin Xuankong remained standing in the center of everyone, casting a glance around,

Previously, those strongest Immortal Lord-level powerhouses who decided to cross the tribulation and ascend to the Supreme Origin Realm with him showed no objection, Lin Xuankong couldn't help but nod silently, thinking: These fellow cultivators indeed trust me greatly, let's hope... this time crossing the final Celestial Tribulation and ascending to the Supreme Origin Realm results without incident for these colleagues!

Chapter 1315: The Foremost of the Calamities, Six Harmonies Celestial Tribulation

After chatting for a while, the many strongest Immortal Lords stood on either side of Lin Xuankong.

Young Lady Li Xiaolan, Second Lady Zhao Yufei, Third Lady Xiaoo Ying'Er, Fourth Lady Guang Yu'Er, and others looked towards Lin Xuankong, their eyes all showing resolute expressions.

Lin Xuankong nodded to the many strongest Immortal Lord-level powerhouses and set out first into the distance, stopping in the sky three thousand miles away in the blink of an eye.

The many strongest Immortal Lord-level powerhouses, who were preparing to cross the tribulation with Lin Xuankong, also showed resolute expressions, heading to pre-discussed positions, each approximately three hundred miles apart. However, the powerhouses preparing to cross the tribulation, including Immortal Lord Luoshui Yaan Mingyu and others, were all far from Lin Xuankong.

Clearly, all the strongest Immortal Lords understood that a peerless genius like Lin Xuankong, who hadn't appeared for tens of millions of years, would trigger an unprecedentedly terrifying celestial tribulation once it descended. The attacks and might from such a tribulation might be so frightening that even the legendary three deadly tribulations would pale in comparison before Lin Xuankong's celestial tribulation!

After everyone found their position, they each took out several Ninth-Grade Immortal Artifacts that Lin Xuankong had previously gifted, and activated them.

In an instant,

under the scorching sun, nearly a hundred dazzling streaks of light continued to flash, and the Immortal Yuan fluctuations generated by these Ninth-Grade Immortal Artifacts after being activated by the strongest Immortal Lord-level powerhouses spread instantly to tens of thousands of miles away, causing the space within tens of thousands of miles to vibrate violently, as if the heavens and earth were going to collapse!

Among them,

Lin Xuankong's several wives and Little Hu all used nine Ninth-Grade Immortal Artifacts. Each of these Ninth-Grade Immortal Artifacts brought a might far greater than those of other strongest Immortal Lords!

And the ones who used the most Ninth-Grade Immortal Artifacts were, of course, Lin Xuankong's master, Immortal Lord Luoshui Yaan Mingyu, and the artifact refining genius Xiao Xiuyi!

There's no need to elaborate on the artifact refining genius Xiao Xiuyi. Lin Xuankong's unmatched artifact refining skills, on one hand, were due to being old and wise, and on the other hand, because the artifact refining genius Miss Xiao's refining talent was incredibly astonishing. As such, among the Ninth-Grade Immortal Artifacts refined by Lin Xuankong in the past ten thousand years, nearly half were personally refined by this artifact refining genius, Miss Xiao Xiuyi. At this moment, while crossing the final celestial tribulation, she prepared several more. It's only natural!

After all, Lin Xuankong had specially instructed her that with her astonishing refining talent, the celestial tribulation she would encounter would be as terrifying as the three deadly tribulations, making it absolutely crucial not to be careless!

As for Immortal Lord Luoshui Yaan Mingyu, this Immortal Lord who taught Lin Xuankong for thousands of years was equally astonishing in talent and comprehension, and the final celestial tribulation he would encounter would undoubtedly be extremely terrifying, at least as terrifying as the three deadly tribulations! For his master's successful tribulation crossing, Lin Xuankong had no reservations, directly giving Immortal Lord Luoshui Yaan Mingyu two hundred and forty Ninth-Grade Immortal Artifacts for setting up the Eight-Layered Realm Luo Water Array! Of course, at this moment, Immortal Lord Luoshui Yaan Mingyu couldn't possibly activate all the Ninth-Grade Immortal Artifacts directly. He only took out thirty-six Ninth-Grade Immortal Artifacts to set up a Second Realm Luo Water Array when danger arose!

For Lin Xuankong, artifact refining genius Miss Xiao, and the strongest Immortal Lords close to Lin Xuankong, thirty-six Ninth-Grade Immortal Artifacts are nothing,

but for those other strongest Immortal Lord-level powerhouses, thirty-six Ninth-Grade Immortal Artifacts are enough to make any one of them stare in awe! After all, in the tens of millions of years of history in the Golden Dragon Immortal Realm, even the most glorious and powerful Immortal Sect never possessed so many Ninth-Grade Immortal Artifacts! Even in the Ancient Era when heavenly materials and earthly treasures frequently appeared, a powerful sect of humans, demons, or the Buddhist Sect having one Ninth-Grade Immortal Artifact to guard their sect was already enough to rank the sect among the top Immortal Sects of the time!

Thus, if it was like this in the Ancient Era, it's even more significant in the End of Dharma Era of the Golden Dragon Immortal Realm----- It shows just how strong the artifact refining genius Xiao Xiuyi and Lin Xuankong's method of refining Ninth-Grade Immortal Artifacts with vast quantities of ordinary materials is!

It's not that the tens of millions of years of history in the Golden Dragon Immortal Realm hasn't seen any refining genius whose talent and comprehension could compare to the artifact refining genius Miss Xiao,

It's just that the artifact refining genius Miss Xiao's own talent and comprehension are extraordinary, and the opportunities she encountered are equally extraordinary! Even if there were several artifact refining geniuses within the tens of millions of years in the Golden Dragon Immortal Realm whose talent and comprehension could compare to the artifact refining genius Miss Xiao's, they never got the enhancement from Lin Xuankong's old and wise talent or the wives, children, elders, and youngsters talent!

Those possible geniuses whose refining talent and comprehension were similar to the artifact refining genius Miss Xiao, even if their lifespan reached the limit, would be only around ten thousand years at most. They would spend their entire lives researching the path of artifact refining, and after accounting for cultivating Immortal Techniques and searching for materials, would only be able to study for several thousand years at most!

While Lin Xuankong, more than ten thousand years old, his age brings an enhancement from the old and wise talent reaching over ten thousand times...and even the enhancement from the wives, children, elders, and youngsters talent is half of this, resulting in an over five thousand times enhancement! Thus, for the artifact refining genius Miss Xiao, one year of studying the path of artifact refining is equal to at least six thousand years of study for other refining geniuses!

And the artifact refining genius Miss Xiao has studied the path of artifact refining for over ten thousand years now...

If Lin Xuankong's age continues to grow to tens of thousands, hundreds of thousands, or millions, under the enhancement of his old and wise talent and wives, children, elders, and youngsters talent, who knows what wondrous treasure artifacts the artifact refining genius Miss Xiao will be able to create in the future!

Chapter 1316: Chief of the Killing Tribulations, Six Harmonies Celestial Tribulation (2)

At this moment,

the many Strongest Immortal Lord-level powerhouses, including Immortal Lord Luoshui Yaan Mingyu, Artifact Refining Genius Xiao Xiuyi, Young Lady Li Xiaolan, Strongest Immortal Lord Guang Yu'er, Immortal Lord Qiaan Yuan, Qilin Race Elder Clan Leader, Strongest Immortal Lord Guang Ling'er,

Strongest Demon Lord White-forehead Qilin Bai E, and so on, were all prepared, and thus together they turned their gaze towards Lin Xuankong.

Lin Xuankong merely uttered a light shout toward the crowd,

"Fellow Daoists, today we cross the tribulation and ascend to the Supreme Origin Realm, let's go together and see what kind of spectacle that Supreme Origin Realm truly holds!"

"What Immortal Lin said is indeed good, hahahaha, this old man has waited for today for no less than a hundred thousand years, and today the wish is finally to be fulfilled. With Immortal Lin alongside, even if there are Celestial Demons within that Supreme Origin Realm, they will certainly be smashed!"

"Hahahaha, once we ascend to the Supreme Origin Realm, should we encounter any of those pesky Celestial Demons, I'll be the first to step up; I want to see just how strong these so-called Celestial Demons that Sect Leader Qiu of the Divine Dynasty Immortal Sect couldn't resist back then are!"

"Good, good, good! To be able to cross the tribulation with Immortal Lin, I don't know how many lifetimes I've cultivated this heavenly good fortune and opportunity!"

Unlike the Strongest Immortal Lord-level powerhouses who crossed the tribulation tens of thousands of years ago, the ones crossing the tribulation at this moment felt no concern about failing to overcome the final Celestial Tribulation... It's not that they were overly confident in their strength, but rather that the Ninth-Grade Immortal Artifacts each held gave them incomparable firm belief!

Over eight thousand years ago, while crossing the tribulation, Sect Leader Qiu of the Divine Dynasty Immortal Sect and other Strongest Immortal Lord-level powerhouses each held a piece of Ninth-Grade Immortal Artifact, easily overcoming their respective ultimate Celestial Tribulation. Now, these Strongest Immortal Lords crossing the ultimate tribulation together with Lin Xuankong have at least two Ninth-Grade Immortal Artifacts; why would they fear any ultimate tribulation? Their only concern is the unforeseen dangers lurking within the never-before-seen Supreme Origin Realm!

At this moment,

while the numerous Strongest Immortal Lord-level powerhouses called out, they all unleashed the suppressed Immortal Yuan fluctuations within their bodies,

in an instant,

the heavens and earth across tens of thousands of miles suddenly trembled,

an unknown number of tribulation clouds abruptly formed from the sky across tens of thousands of miles, each of those tribulation clouds possessing different forms but all incredibly dense and appearing filled with infinite might!

Among those Strongest Immortal Lord-level powerhouses not crossing the tribulation atop the Central Peak, a Strongest Demon King from the Fire Phoenix Race suddenly looked westward, raised his brows, and said:

"Surely worthy of the rare Array Formation genius seen in our Golden Dragon Immortal Realm over countless years, Elder Yaan's final Celestial Tribulation is one of the legendary three killing tribulations: the Azure Sky Killing Tribulation! Back then, the strongest Great Success Bodhisattva Yu Zhen from the Spirit Platform Buddhism encountered the Azure Sky Killing Tribulation, and were it not for Immortal Lin's assistance, Great Success Yu Zhen Bodhisattva would presumably have fallen to it despite his immense strength!"

The numerous Strongest Immortal Lord-level powerhouses turned their heads, only to see that indeed, the tribulation clouds above Immortal Lord Luoshui Yaan Mingyu were consistent with the Azure Sky Killing Tribulation encountered by Great Success Yu Zhen Bodhisattva over ten thousand years ago!

A Great Accomplishment Bodhisattva from the Buddhist Sect nodded and said: "Surely consistent with the Celestial Tribulation encountered by Master Yu Zhen, but back then Master Yu Zhen could rely on several Ninth-Grade Immortal Artifacts to pass through the Azure Sky Killing Tribulation. With Elder Yaan possessing as many Ninth-Grade Immortal Artifacts, surely passing through this Azure Sky Killing Tribulation, once traversed only by one in tens of millions of years, will be no issue at all!"

"Indeed! Elder Yaan will surely pass the Azure Sky Killing Tribulation without any suspense! But from today onward, perhaps this Azure Sky Killing Tribulation, hailed as one of the three major killing

tribulations, will need a name change, since both Great Success Yu Zhen Bodhisattva and Elder Yaan have passed it easily; what right does it have to be called a killing tribulation!"

"Hahahaha, not necessarily! Just because Elder Yaan and Great Success Yu Zhen Bodhisattva could easily pass this Azure Sky Killing Tribulation doesn't mean future generations will certainly be able to cross it! After all, once Immortal Lin departs from our Golden Dragon Immortal Realm, there will be no other unparalleled Artifact Refining Master like him to provide Ninth-Grade Immortal Artifacts to future cultivators!"

While the many Strongest Immortal Lord-level powerhouses discussed, that Strongest Demon King from the Fire Phoenix Race suddenly turned to observe the position of Miss Xiao, the Artifact Refining Genius, and whispered in astonishment:

"My heavens, it's the most terrifying and unmatched First of Three Major Killing Tribulations - Six Harmonies Killing Tribulation!"

The crowd, upon hearing this, turned their heads, inhaling sharply,

only to see above Miss Xiao, the Artifact Refining Genius, numerous dense tribulation clouds coalescing to form six bizarre creatures, each towering hundreds of thousands of feet tall, with strange forms: a creature with a mouse head and bull body covered in brown-yellow fur, a tiger head and pig body covered in black fur, a rabbit head and dog body, a dragon head and chicken body, and a creature with a snake head and ape body towering hundreds of thousands of feet!

These six gigantic bizarre creatures each roared towards Miss Xiao, releasing divine lights, all shooting down towards Xiao Xiuyi!

Each of these bizarre creatures emanated terrifying Immortal Yuan fluctuations and might, almost comparable to the power wielded by Demon Child Gang Bone with his Hundred Thousand Supreme Demon Bodies; it is imaginable how fearsome and mighty these Six Harmonies Celestial Tribulation creatures are!

The Demon Child Gang Bone, who swept through Strongest Immortal Lord-level powerhouses and was defeated by Lin Xuankong, was an entity capable of heavily injuring nine Perfection-level Strongest Immortal Lords in one strike!

Witnessing this scene,

those Strongest Immortal Lord-level powerhouses who had heard of the Six Harmonies Celestial Tribulation, feeling the terrifying might of the Six Harmonies Celestial Tribulation creatures, each wore an expression of shifting hues, even though they were thousands of miles away from Xiao Xiuyi who was undergoing the tribulation, they felt as though witnessing the world's end, the cosmos collapsing, their Dao hearts trembling!

"No wonder our Fire Phoenix Race's tomes record the Six Harmonies Killing Tribulation as first among the Three Major Killing Tribulations alongside the Five Elements Extermination Tribulation and Azure Sky Killing Tribulation, yet the might of the Six Harmonies Killing Tribulation far surpasses that of the other two. Years ago, I didn't quite believe it; the records on the Six Harmonies Killing Tribulation were too ancient and vague, I merely thought our forefathers exaggerated in their descriptions!"

Now, witnessing the Six Harmonies Killing Tribulation with my own eyes, I understand, our ancestors' records aren't a bit exaggerated; the terror of this Six Harmonies Killing Tribulation indeed far exceeds the despair induced by the Five Elements Extermination Tribulation and Azure Sky Killing Tribulation!"

The Strongest Demon Lord from the Fire Phoenix Race continuously sighed, his expression changing repeatedly, and as he spoke, the Immortal Yuan surrounding his body fluctuated markedly, clearly influenced by the terrifying might of the Six Harmonies Celestial Tribulation, shaking his Dao heart slightly!

Nearby, a Strongest Immortal Lord from the Human Race seemed to think of something and exclaimed lowly:

"That's not right, something's off about this situation!"

Among these predecessors crossing the tribulation, Immortal Lin's talent is unquestionably unparalleled, incomparable to anyone else, followed should be Elder Yaan Mingyu of Immortal Lord Luoshui!

Why is Elder Yaan Mingyu encountering the second-ranked of the Three Killing Tribulations, the Azure Sky Killing Tribulation, whereas the associate of Immortal Lin, whose origins are unknown, encounters

the terrifying and astonishing Six Harmonies Killing Tribulation? Doesn't this suggest that this associate of Immortal Lin might surpass Elder Yaan in talent and comprehension!

But how could this be! Elder Yaan Mingyu's reputation and strength are only second to Immortal Lin; in the Path of Array Formation, he stands alongside Immortal Lin, even guiding Immortal Lin for thousands of years during his early Immortal Path days, and is highly respected as a teacher by Immortal Lin!

This Elder Yaan Mingyu, could it be that his talent and comprehension do not surpass that of Immortal Lin's mysterious associate?"

Chapter 1317: What Kind of Celestial Tribulation Is This?

Among the numerous Strongest Immortal Lord-level powerhouses, discussions were filled with astonishment,

as everyone found it exceedingly peculiar that the enigmatic Xiao Xiuyi encountered the Six Harmonies Celestial Tribulation!

Suddenly, a Strongest Demon Lord from the Black Tortoise Race spoke with a sense of awe:

"Since Immortal Lin is regarded as the foremost genius of our Golden Dragon Immortal Realm in tens of millions of years,

it is natural that any partners or fellow cultivators around him are the crème de la crème, dragons among men, qilins among immortals, as the saying goes, birds of a feather flock together!

Yet seeing this scene, watching this companion facing the Six Harmonies Killing Tribulation without a trace of fear, I suddenly feel that not following Immortal Lin to cross the tribulation this time might become the greatest regret of my cultivation journey!"

Upon hearing this, the numerous Strongest Immortal Lord-level powerhouses, who were deep in discussion, all fell silent.

Many of the Strongest Immortal Lords started to feel some regret in their hearts for not deciding earlier to cross the final tribulation with Lin Xuankong... However, at this time, the surrounding area was

already densely packed with various ultimate heavenly tribulations, leaving little space, even if they changed their minds, there was no longer any opportunity!

On this side, the faces of the many Strongest Immortal Lord-level powerhouses changed one after another, their thoughts fluctuating,

while on Xiao Xiuyi's side, the Artifact Refining Genius had already engaged in combat with the six Celestial Tribulation Creatures of the Six Harmonies.

These were six incredibly terrifying Celestial Tribulation Creatures of the Six Harmonies, their power comparable to the Demon Child Gang Bone wielding a hundred thousand Supreme Demon Bodies. For an ordinary Strongest Immortal Lord-level powerhouse, encountering not even all six, but just one Celestial Tribulation Creature of the Six Harmonies, would be enough to inflict severe injuries in an instant—even if that powerhouse possessed a Ninth-Grade Immortal Artifact bestowed by Lin Xuankong, the situation would hardly improve much, perhaps merely slowing down the time to defeat a little!

However, faced with the terrifying six Celestial Tribulation Creatures of the Six Harmonies, the Artifact Refining Genius Xiao Xiuyi showed not a hint of fear,

upon discovering that the ultimate heavenly tribulation he invoked was the legendary Six Harmonies Celestial Tribulation—more dreadful than the Five Elements Extermination Tribulation and the Azure Sky Killing Tribulation. In that instant, the Artifact Refining Genius Xiao Xiuyi immediately mobilized another eighteen Perfection Level Ninth-Grade Immortal Artifacts from the many Immortal Artifacts in his storage space!

The same Ninth-Grade Immortal Artifacts, these Perfection Level ones were a whole grade stronger than ordinary Ninth-Grade Immortal Artifacts. The Perfection Level Ninth-Grade Immortal Artifacts she mobilized were like ordinary Ninth-Grade Immortal Artifacts that had undergone some Metamorphosis through Upper Realm Primordial Qi, whether in terms of the artifacts' power, speed, durability, or flexibility, each was at least several times stronger than ordinary Ninth-Grade Immortal Artifacts!

Along with the nine Perfection Level Ninth-Grade Immortal Artifacts she previously mobilized, there were a total of twenty-seven Perfection Level Ninth-Grade Immortal Artifacts!

Such a formidable array, such a multitude of Perfection Level Ninth-Grade Immortal Artifacts, all transformed into streaks of light, converging to meet the Seven-Colored Divine Light emitted by those six Celestial Tribulation Creatures!

No matter how fast or fierce those Seven-Colored Divine Lights might be, they could not penetrate the defensive net formed by those twenty-seven Perfection Level Ninth-Grade Immortal Artifacts!

Amidst the generation of terrifying waves and the deafening collision sounds, the Seven-Colored Divine Lights launched by the six Celestial Tribulation Creatures of the Six Harmonies were continuously shattered by the twenty-seven Perfection Level Ninth-Grade Immortal Artifacts, turned into scattered starlights, and gradually disappeared into the sky!

Witnessing this scene, the Strongest Immortal Lord-level powerhouses watching on Central Peak couldn't help but retract their thoughts, cheering one after another!

Some Strongest Immortal Lords even marveled at the Artifact Refining Genius Xiao Xiuyi for possessing such a large number of exceptionally good, immensely powerful Ninth-Grade Immortal Artifacts!

Several of the Strongest Immortal Lords even secretly speculated whether the Artifact Refining Genius Xiao Xiuyi might be Lin Xuankong's beloved one! Otherwise, why would Lin Xuankong give such a large number of powerful twenty-seven Ninth-Grade Immortal Artifacts to this mysterious Strongest Immortal Lord!

But those Strongest Immortal Lord-level powerhouses had no idea that the Artifact Refining Genius Xiao Xiuyi didn't need any Ninth-Grade Immortal Artifacts bestowed by Lin Xuankong! It wasn't merely that he didn't need Lin Xuankong's gifts—indeed, much of the high-grade Immortal Artifacts that stunned the entire Golden Dragon Immortal Realm came from the Artifact Refining Genius Xiao Xiuyi, as did most of Lin Xuankong's high-grade Immortal Artifacts!

After all, Lin Xuankong was no Artifact Refining Genius like Xiao Xiuyi. Over these ten thousand years, most of Lin Xuankong's time had been spent cultivating various powerful Immortal Techniques, leaving little time and energy for artifact refining!

Of course, the geniuses around Lin Xuankong were not limited to the Artifact Refining Genius Xiao Xiuyi!

Immortal Lord Luoshui Yaan Mingyu, Lin Xuankong's teacher, had talent in Array Formation that surpassed Lin Xuankong by more than a notch... which is why the tribulation Immortal Lord Luoshui Yaan Mingyu faced was the Azure Sky Killing Tribulation that struck fear among many of the strongest Immortal Lords in the Immortal Realm!

Additionally, there was the Alchemy Genius Young Lady Li Xiaolan,

Young Lady Li Xiaolan's talent in alchemy had already amazed the Medicine Immortal Qu Wan'Er, who had become a Strongest Immortal Lord, more than ten thousand years ago! Although Li Xiaolan's talent and comprehension in alchemy were not as monstrous as those of the Artifact Refining Genius Xiao Xiuyi and Immortal Lord Luoshui Yaan Mingyu in artifact refining and array formation!

Chapter 1318: What Kind of Celestial Tribulation Is This? (2)

However, the alchemy talent of Young Lady Li Xiaolan is definitely among the top even among millions, and it is precisely because of this powerful talent that the ultimate tribulation triggered by Young Lady Li Xiaolan at this moment is also an extremely dangerous and terrifying tribulation—Five Elements Extermination Tribulation!

It is only because many of the Strongest Immortal Lord-level powerhouses present had already heard of the Great Success Jade Bright Bodhisattva crossing such a tribulation tens of thousands of years ago that they did not show excessive surprise at this moment!

As for Lin Xuankong's other close ones, such as Second Lady Zhao Yufei, Third Lady Xiaoo Ying'Er, Fourth Lady Guang Yu'Er, adopted son Li Xiaohu, and others, the tribulations they faced were similarly famous, extremely dangerous powerful ultimate tribulations, albeit slightly lower in level compared to the ultimate tribulation, the Five Elements Extermination Tribulation, faced by Young Lady Li Xiaolan!

As for the other Strongest Immortal Lords crossing the tribulation with Lin Xuankong,

the Strongest Immortal Lord, White-forehead Qilin, the Strongest Immortal Lord, Cyan-forehead Qilin, the Qilin Race Elder Clan Leader, the Strongest Immortal Lord, Immortal Lord Qiaan Yuan, Immortal Lord Kunyuan, the Strongest Immortal Lord Guang Ling'Er, the Cyan Dragon Race Elder Clan Leader, the Strongest Demon Lord Little Linglong, etc., all encountered extraordinary ultimate tribulations!

Of course, this is also because these Strongest Immortal Lords who had the confidence to cross the final tribulation with Lin Xuankong were outstanding figures among this generation of Strongest Immortal

Lord-level powerhouses, even stronger than the previous batch of Strongest Immortal Lords who crossed the tribulation together with Sect Leader Qiu of the Divine Dynasty Immortal Sect, only slightly inferior to Lin Xuankong's Dao companions, adopted son, masters, as well as Sect Leader Qiu, Elder Qiu, and the Great Success Yu Zhen Bodhisattva, Great Success Jade Bright Bodhisattva!

At this moment, within a range of tens of thousands of miles around, various tribulations roared continuously, various Celestial Tribulation Creatures appeared continuously,

and those Strongest Immortal Lord-level powerhouses were each urging the Ninth-Grade Immortal Artifacts bestowed by Lin Xuankong, displaying their most powerful Immortal Techniques, constantly resisting the mighty various tribulations! The space within a range of tens of thousands to hundreds of thousands of miles had already been shattered beyond repair, with black chaos appearing everywhere after the space shattered. If Lin Xuankong had not long instructed the nearby Immortal Sect to move all the people, cultivators, and creatures within a million-mile radius, the aftermath from these Strongest Immortal Lords countering the tribulations would have directly taken countless lives!

The Strongest Immortal Lord-level powerhouses watching the battle were each watching the incredibly exciting scene of crossing the tribulation without missing a moment!

At this moment,

the Strongest Immortal Lord of the Fire Phoenix Race, who always had a keen eye and was the first to notice problems, suddenly exclaimed, raised his hand to point to the center of the many Strongest Immortal Lords crossing the tribulation, "Look, look over there, the tribulation cloud on Immortal Lin's side has finally taken shape, but what kind of tribulation exactly is this tribulation, why, at a distance of three thousand miles, do the Celestial Tribulation Creatures still not appear, yet the presence it exudes has already somewhat suppressed the Immortal Yuan within me, and even from deep within my Divine Soul arises a trembling sensation!"

The many Strongest Immortal Lord-level powerhouses heard this and focused their eye power to look carefully, yet they saw that above the sky where Lin Xuankong was, the almost endless tribulation cloud seemed to be pressing down the entire sky!

And the seemingly endless, thick tribulation cloud, after churning, slowly began merging together, constantly writhing, seemingly about to form some extremely terrifying, extremely powerful, never-before-seen Celestial Tribulation Creature!

The many Strongest Immortal Lord-level powerhouses sensed the terrifying pressure from the distant thousands of miles away tribulation cloud, each one of their expressions changed,

and one of the Human Race Strongest Immortal Lords couldn't help but speak with a slightly hoarse voice:

"So much, such thick tribulation cloud, even the Six Harmonies Celestial Tribulation that Immortal Lin's Daoist friend just encountered seems far less than this!

But according to the records of the various Immortal Sects of our Human Race, in the entire history of the Golden Dragon Immortal Realm spanning tens of millions of years, the most terrible, the most dangerous, the first fatal tribulation that no one has ever passed is the Six Harmonies Celestial Tribulation! What kind of tribulation is this in front of us? As Fellow Daoist Chengfeng said, at a distance of thousands of miles, I can already feel the horrible pressure of the impending Celestial Tribulation Creatures, yet this tribulation cloud creature hasn't even fully materialized! If it were to fully materialize, wouldn't it be dozens of times stronger than those six Six Harmonies Celestial Tribulation Creatures?

This incredibly terrifying ultimate tribulation, is it truly the source of the world of our Golden Dragon Immortal Realm testing and transforming Strongest Immortal Lords? This is clearly a terrifying tribulation aimed at ensuring the death of whoever crosses it!"

The other Strongest Immortal Lord-level powerhouses heard this and nodded repeatedly, clearly feeling the same terrifying majesty!

The pressure brought by the yet-to-materialize tribulation cloud creature not only made the Immortal Yuan within these Strongest Immortal Lord-level powerhouses extremely condensed, hard to maneuver flexibly, it also directly affected their Divine Souls, making these watching Strongest Immortal Lords feel an urge to quickly flee this place!

Yet, among so many Strongest Immortal Lord-level powerhouses, even those old fellows who have lived for over a hundred thousand years, not a single Strongest Immortal Lord-level powerhouse could recognize what this terrifying tribulation in front of them was called!

"Indeed, Immortal Lin, capable of overturning the entire Golden Dragon Immortal Realm situation, attracted an ultimate tribulation this terrifying, far exceeding the Five Elements Extermination Tribulation, Azure Sky Killing Tribulation, and Six Harmonies Celestial Tribulation, and might even increase its terrifying presence once the tribulation cloud creature fully forms!

It's just... This tribulation is so terrifyingly scary, could Immortal Lin really make it through?

Can such a tribulation truly be completely resisted with just Immortal Artifacts or Arrays?"

A Demon Race Strongest Immortal Lord-level powerhouse, gazing at the tribulation cloud creature consistently forming in the distance, sensing the fear rising from his soul, couldn't help but show a face full of worry.

The Strongest Immortal Lord-level powerhouses surrounding were also gradually taking on solemn expressions, a hint of worry appearing in their eyes.

If the ultimate tribulation Lin Xuankong encountered was one of the ultimate tribulations they had heard of, even if Lin Xuankong faced the Five Elements Extermination Tribulation combined with the Azure Sky Celestial Tribulation and Six Harmonies Celestial Tribulation, these Strongest Immortal Lord-level powerhouses wouldn't be the least bit worried and would certainly believe that Lin Xuankong could easily pass the ultimate tribulation!

However, this unknown, yet so terrifying ultimate tribulation,

made the expectation that Lin Xuankong could easily pass the ultimate tribulation suddenly seem not as solid among these Strongest Immortal Lord-level powerhouses.

At this moment,

not only those Strongest Immortal Lord-level powerhouses,

but even Lin Xuankong, who was crossing the final tribulation, was somewhat surprised.

This time crossing the final tribulation, Lin Xuankong had already prepared in advance, understanding all kinds of terrifying tribulations and strange tribulations that have appeared over tens of millions of years during the Golden Dragon Immortal Tribulation and even claimed he could handle any kind of tribulation, yet the terrifying tribulation appearing now had never appeared in the entire history of the Golden Dragon Immortal Tribulation!

Goodness!

Is this ultimate tribulation specifically targeting me, Lin Xuankong?

It's a bit much, this kind of presence is dozens of times more ferocious than the first fatal tribulation, the Six Harmonies Celestial Tribulation faced by Miss Xiao, and it seems that the presence and power are still accumulating!

It should not merely be because my current strength has undoubtedly reached the first of the entire Golden Dragon Immortal Tribulation!

After a moment of thought, originally somewhat speechless and surprised Lin Xuankong suddenly had a bright glint in his eyes,

according to the records of the predecessors in the Golden Dragon Immortal Realm, the stronger and more terrifying the ultimate tribulation, once passed, the better the foundation laid for the Strongest Immortal Lord who crossed the tribulation! The situation observed before also confirmed this, for instance, the Great Success Yu Zhen Bodhisattva and Sect Leader Qiu of the Divine Dynasty Immortal Sect who crossed the tribulation successfully and ascended to the Supreme Origin Realm more than eight thousand years ago, was precisely because they crossed a very perilous and powerful tribulation, thus laying a foundation much stronger than other Strongest Immortal Lords when they ascended!

Chapter 1319: Candle Dragon Celestial Immortal Tribulation

The greater the might of the Celestial Tribulation, the more perilous it is, and the better the foundation it can forge!

The Celestial Tribulation he had encountered now seemed dozens of times stronger even than the Six Harmonies Celestial Tribulation,

so once he successfully crossed it, the distance he could directly step across within the Celestial Immortal Realm would definitely far surpass the distance gained after surviving tribulations such as the Azure Sky Killing Tribulation, the Five Elements Extermination Tribulation, and the like!

With this thought, a hint of anticipation surfaced in Lin Xuankong's eyes, and he roused his incomparably vast Immortal Yuan.

Unlike those Strongest Immortal Lord-level powerhouses around him who were currently Crossing the Tribulation,

while the surrounding Strongest Immortal Lord-level powerhouses undergoing tribulation were all urging their Ninth-Grade Immortal Artifacts to resist the terrifying Celestial Tribulation strikes falling from the heavens, Lin Xuankong had absolutely no intention of using a Ninth-Grade Immortal Artifact, even though the number of Ninth-Grade Immortal Artifacts he possessed at this moment was enough to make everyone present drop their jaws!

Because Lin Xuankong knew that in facing this final tribulation that tested and tempered Strongest Immortal Lord-level powerhouses, the more Immortal Artifacts and other Treasure that bolstered one's strength were used, the more the final tribulation's tempering of his Immortal Body and Divine Soul would be diminished!

Only by relying purely on his own strength, his own Spiritual Will, his own Immortal Body to confront this final tribulation could he reap the greatest benefits and growth from the tribulation's test and tempering!

Of course, everyone present, every single Strongest Immortal Lord-level powerhouse, and even every High-Grade Earth Immortal of the Golden Dragon Immortal Realm understood this very well; they too knew that if they used only their Immortal Body and Immortal Techniques to resist the final tribulation, the degree of tempering upon their Immortal Body and Divine Soul would be incomparably high!

But so what? In the tens of millions of years of the Golden Dragon Immortal Realm, how many Strongest Immortal Lord-level powerhouses, when facing tribulation, would not seek Divine Weapons and Divine Marvelous Elixirs to increase their odds of success? Was it that they did not wish to grit their teeth and rely purely on their Immortal Body and Immortal Techniques?

It wasn't that they didn't want to; they simply could not!

Not to mention a final tribulation as terrifying as the one Lin Xuankong now faced—even the three great killing tribulations, the Five Elements Extermination Tribulation, the Azure Sky Killing Tribulation, and the Six Harmonies Celestial Tribulation, had already made countless Strongest Immortal Lord-level powerhouses throughout tens of millions of years in the Golden Dragon Immortal Realm tremble in terror. Those Strongest Immortal Lords who had once encountered the three great killing tribulations, even after preparing one or two Ninth-Grade Immortal Artifacts, still failed to cross them, let alone speaking of relying solely on flesh and Immortal Body to hard-tank them. Wouldn't that be pure courting of death?

Even putting aside the three great killing tribulations—the Five Elements Extermination Tribulation, the Azure Sky Killing Tribulation, and the Six Harmonies Celestial Tribulation—just an ordinary final tribulation was still incomparably terrifying. According to the records of the Golden Dragon Immortal Realm over tens of millions of years, there had never been a single Strongest Immortal Lord-level powerhouse who could endure it purely with Immortal Body and Immortal Techniques; the only difference between them lay in how much Treasure they borrowed strength from...

Yet at this very moment, Lin Xuankong had already decided that he would not use a single Immortal Artifact, nor any auxiliary Spirit Elixir, and would not employ the Luo Water Array either, but would instead face the final tribulation head-on with only his Immortal Body and Immortal Techniques!

If he succeeded, then Lin Xuankong would once more create a miracle in the Golden Dragon Immortal Realm that had never been seen since ancient times!

As time little by little flowed past,

that bizarre and mighty tribulation cloud had already fully taken shape, actually transforming into a Five-Clawed Golden Dragon whose mere presence was terrifying to the extreme, thirty-six hundred thousand zhang in length, body covered in golden scales, feet stepping upon Liuyun!

What caused Lin Xuankong's gaze to flicker was that this Five-Clawed Golden Dragon not only radiated a might a hundred times greater than the creatures of the Six Harmonies Celestial Tribulation, but was also extremely similar to the Five-Clawed Golden Dragon he had seen in the illusion when he had taken the Tier Nine Celestial Demon Bone, and faintly carried an aura similar to that Tier Nine Celestial Demon Bone!

When this Five-Clawed Golden Dragon, which sprawled between heaven and earth, twisted and coiled and its enormous eyes locked onto Lin Xuankong's body, Lin Xuankong could even feel the Tier Nine Celestial Demon Bone that had completely fused within him trembling in waves. Within that trembling was a hint of joy, like a child who had lost its way from home and, in the midst of its crying, suddenly saw its mother again. That joy, seeping into the very marrow, made even Lin Xuankong involuntarily give rise to a faint sense of intimacy toward the Five-Clawed Golden Dragon in the sky!

According to legend, the Tier Nine Celestial Demon Bone should have originated from the corpse of that fallen Five-Clawed Golden Dragon—the incomparably formidable Five-Clawed Golden Dragon Celestial Demon from which the Golden Dragon Immortal Realm itself had derived!

But why had the tribulation cloud before his eyes actually formed the phantom of a Five-Clawed Golden Dragon Celestial Demon? Even though its might was far inferior to the Five-Turn Golden Dragon Illusion he had seen before—so weak it was not even a billionth of that illusion—it still possessed a trace of the divine charm of that Fifth-Transformation Golden Dragon!

Could it be that this Celestial Tribulation Creature before him was somehow related to the World Origin of the Five-Clawed Golden Dragon?

That shouldn't be possible, right? Even if my Lin Xuankong's Talent is a little better, it shouldn't be enough to alarm the World Origin of the entire Golden Dragon Immortal Realm, causing the World Origin of the Golden Dragon Immortal Realm to manifest a strand of Power specifically to deal with me, to test me!

No matter how strong I, Lin Xuankong, may be, right now I'm only a Strongest Immortal Lord, still far from comparable to an Initial Tier Celestial Immortal! Yet in Crossing a single final tribulation, instead of drawing a normal tribulation, I've actually drawn the trial of the World Origin?

This is going too far! Lin Xuankong's heart pounded faster, his brows knit, and a hint of astonishment surfaced in his eyes.

And not only Lin Xuankong,

when this boundlessly mighty Five-Clawed Golden Dragon phantom fully formed,

aside from those Strongest Immortal Lord-level powerhouses who were currently Crossing the Tribulation and thus could not sense what was happening here because of the tribulation's interference, every Strongest Immortal Lord on the Central Peak stared wide-eyed at that incomparably imposing Five-Clawed Golden Dragon, a surge of utterly irresistible, absolutely worship-compelling urge to kneel and kowtow rising in their hearts!

Chapter 1320: Candle Dragon Celestial Immortal Tribulation (Part 2)

Even the youngest of these strongest Immortal Lord-level powerhouses is already tens of thousands of years old, with minds tempered by countless trials. Yet, upon witnessing the Five-Clawed Golden Dragon, a creature birthed from the tribulation clouds, an impulse to kneel down and worship surged from the depths of their hearts... One can imagine how powerful, terrifying, and awe-inspiring the manifesting Five-Clawed Golden Dragon is at this moment!

Fortunately, though the countless strongest Immortal Lords felt some panic and reverence in their hearts, they ultimately resisted the urge to kneel, but the endless pressure coming at them caused their hearts to race wildly, and their Immortal Yuan completely stagnated.

"This... why is this tribulation cloud creature so frightening? The Immortal Yuan within me is almost completely compressed into my Immortal Technique Golden Core, making it extremely difficult to mobilize!

If it were me facing this Five-Clawed Golden Dragon at such a close distance, I fear I wouldn't even be able to use the Escape Technique and would fall straight from the high heavens!"

A Human Race strongest Immortal Lord-level powerhouse, watching the Five-Clawed Golden Dragon from thousands of miles away, whispered with a slight tremble in his voice.

The other strongest Immortal Lord-level powerhouses were also not feeling well, each with pale faces. The illusions of exotic beasts and splendid flowers that originally formed around them due to the fluctuations of Immortal Yuan disappeared completely as their Immortal Yuan compressed into the Immortal Lord Golden Core. Some Initial Tier strongest Demon Lords, who had not been in the strongest Immortal Lord-level Realm for long, even had their Immortal Bodies trembling slightly.

All the strongest Immortal Lord-level powerhouses were extremely certain that if they were to face this Five-Clawed Golden Dragon Celestial Tribulation Creature now, they, as the strongest Immortal Lords,

would fall to the ground before the creature could attack, completely unable to use any Immortal Techniques!

A Fire Phoenix Race strongest Demon Lord with keen eyesight took a couple of rapid breaths, suppressing the surging waves of shock in his heart, and said quickly:

"Yes, if it were me, I would surely have my Immortal Yuan completely stagnated, my Immortal Body's power in disarray, and fall to the ground, unable even to flap my wings to fly!

What kind of final trial is it that Immortal Lin is crossing? Why is it so terrifying!

I originally thought that among us strongest Immortal Lords, the strongest Immortal Lin would have no problem crossing the final trial, even if faced with the Five Elements Extermination Tribulation, Azure Sky Killing Tribulation, or Six Harmonies Celestial Tribulation. With Immortal Lin's power, he should easily cross them! Who could have imagined that the final trial Immortal Lin invoked would be such a fierce and astonishing Celestial Tribulation Creature!

Can Immortal Lin pass this final trial safely this time?"

Another Fire Phoenix Race strongest Demon Lord frowned, thought for a while, suppressed his inner panic, and suddenly shook his head, saying:

"No, no, our Immortal Yuan is being suppressed back into the Immortal Lord Golden Core by the terrifying pressure of the Five-Clawed Golden Dragon, yet it seems that Immortal Lin is not too affected. I see he appears a bit surprised, but not at all panicked, and his floating is steady without any sign of having his Immortal Yuan stagnate! Hiss, although this Five-Clawed Golden Dragon of the final trial is terrifying, it doesn't seem to seriously affect Immortal Lin. It seems Immortal Lin's power far exceeds ours by countless times, truly deserving to be called the First of the Golden Dragon Immortal Realm..."

Just as he said this, this Fire Phoenix Race strongest Demon Lord seemed to suddenly think of something, his face changed dramatically, and he exclaimed:

"Golden Dragon Immortal Realm, Golden Dragon Immortal Realm, according to Immortal Lin, those Celestial Demons at the entrances of the Supreme Origin Realm pathways call our Immortal Realm the

Golden Dragon Immortal Realm! And the final trial that Immortal Lin invokes is precisely the Five-Clawed Golden Dragon whose pressure surpasses the Six Harmonies Celestial Tribulation by nearly a hundred times!

Could it be that the Celestial Tribulation Creature of Immortal Lin's ultimate trial is somehow related to the world foundation of our Golden Dragon Immortal Realm?"

This Fire Phoenix Race strongest Immortal Lord clearly guessed correctly to some extent, but, having never encountered matters of the Supreme Origin Realm nor understood the origins of the Golden Dragon Immortal Realm, he naturally couldn't comprehend that the Celestial Tribulation Creature formed from Lin Xuankong's final trial was not somehow the world foundation of the Golden Dragon Immortal Realm, but rather the manifestation of the realm's source power!

In other words, what is testing Lin Xuankong now is not some Celestial Tribulation Creature from tribulation clouds, but the entire source power of the Golden Dragon Immortal Realm...

"World foundation? This, this, Yu Feng, you can't be joking, can you? No matter how great Immortal Lin's talent and power are, it shouldn't be possible for the world will of our Golden Dragon Immortal Realm to appear to target him during his tribulation! If that's truly the case, no matter how strong Immortal Lin is, he ultimately is a creature born of this world; how could he possibly be a match for the entire world's will of the Golden Dragon Immortal Realm! That would be a certain death trial!" a Human Race strongest Immortal Lord frowned and spoke upon hearing what the Fire Phoenix Race strongest Demon Lord said.

Other Human Race strongest Immortal Lords also suppressed their fear and shock, shaking their heads repeatedly.

Comparatively, the Human Race's strongest Immortal Lords naturally hoped even more than the Demon Race's strongest Immortal Lords for Lin Xuankong to pass the current final tribulation, as Lin Xuankong's sudden rise made the Human Race completely rise to prominence, becoming the undisputed first clan of the entire Golden Dragon Immortal Realm! Consequently, when Lin Xuankong encountered such a terrifying Celestial Tribulation Creature, many Human Race strongest Immortal Lords could not accept that Lin Xuankong would draw opposition from the entire power of the Golden Dragon Immortal Realm for crossing the tribulation!

"I hope... I hope my speculation was wrong!"

I certainly hope Immortal Lin can pass the current tribulation... Immortal Lin has greatly aided all clans, and even I have received a Ninth-Grade Immortal Artifact from him; how could I not hope for his successful tribulation crossing!"

Seeing many Human Race strongest Immortal Lords shaking their heads, Yu Feng of the Fire Phoenix Race, sighed and said.

"But, even if the Five-Clawed Golden Dragon is not the manifestation of the world's power of our Golden Dragon Immortal Realm, it is still a hundred times scarier than the Six Harmonies Celestial Tribulation,

Immortal Lin will probably have to put forth his utmost effort to secure a chance to pass this final tribulation successfully!"

Hearing his words, many strongest Immortal Lord-level powerhouses frowned deeply, suppressed their inner fear, and looked towards Lin Xuankong's position.

They saw the Five-Clawed Golden Dragon, previously writhing and twisting in the deep sky, now flying toward Lin Xuankong with an incredible aura. Strangely, though the Five-Clawed Golden Dragon's presence was overwhelmingly majestic, seemingly with each movement capable of shattering the world, it caused no space collapse nor even a hint of disturbance!

This odd feeling did not reassure the strongest Immortal Lord-level powerhouses who were concerned for Lin Xuankong. Instead, it made them furrow their brows even tighter.

After all, an unusual event tends to harbor danger. Such a gigantic body with such terrifying might, yet without causing any space collapse, indicated that this Five-Clawed Golden Dragon Celestial Tribulation Creature's control over the entire space of the Golden Dragon Immortal Realm had reached a level unattainable by even the strongest Immortal Lord-level powerhouses!

At this moment, Lin Xuankong was staring at the approaching Five-Clawed Golden Dragon, muttering words to himself.

In the next instant,

massive golden runes appeared around Lin Xuankong's body, the mystical Buddhist Runes of the Golden Body Demon Suppression Technique, which, after radiating a dazzling golden light, all adhered to the surface of Lin Xuankong's Immortal Body!

In the Ultimate Realm, the Golden Body Demon Suppression Technique had already been activated by him. This realm, which once left the Great Success Yu Zhen Bodhisattva yearning, was now once again glowing brilliantly on Lin Xuankong!

At the same time, all the Immortal Techniques that Lin Xuankong had cultivated over thousands of years to enhance his Divine Soul and Immortal Body were triggered by him.
