Chapter 1321: The Buddhist Sect Suddenly Becomes Popular

Facing the incomparably awe-inspiring Five-Clawed Golden Dragon,

facing what might be an incarnation of a wisp of the Power of World Origin,

even Lin Xuankong, who possessed all sorts of wondrous Talents, did not dare harbor the slightest carelessness.

At this moment, facing the terrifying pressure sweeping over like a sky-filling tide, a certain impulse even rose from the depths of Lin Xuankong's heart—he was about to activate all the numerous Perfection-Level Ninth-Grade Immortal Artifacts stored in the Golden Patterned Ghost Frog Pouch!

Only, thinking of the benefits that might come from withstanding this Celestial Tribulation Creature head-on,

Lin Xuankong forcibly suppressed that trace of panic in his heart, and also suppressed that sliver of impulsiveness.

After he fully activated all the Immortal Techniques that enhanced his Immortal Body and Divine Soul Strength, Lin Xuankong raised his head to look at that colossal, matchless Five-Clawed Golden Dragon that had already closed to within ten thousand zhang, his mouth continuously chanting complex Buddhist mantras.

In the next instant,

Lin Xuankong suddenly soared into the air, heading straight to meet that gigantic Five-Clawed Golden Dragon that was diving down!

The might of that Five-Clawed Golden Dragon, which caused even Strongest Immortal Lord-level Powerhouses to panic endlessly, actually vanished completely from his heart along with Lin Xuankong's charge. At this moment, there was only one thought left in Lin Xuankong's mind—to defeat this awe-inspiring Five-Clawed Golden Dragon before him!

Several thousand li away,

atop the Central Peak,

those many Strongest Immortal Lords who were watching this scene from afar all widened their eyes when they saw this.

"Immortal Lin is... he actually intends to use the Power of his Immortal Body alone to clash head-on with this Five-Clawed Golden Dragon? That might be a living being manifested from the very foundation of this Golden Dragon World's World Origin! He actually wants to rely on the Power of his Immortal Body to clash head-on instead of remotely activating various Immortal Techniques?"

A Strongest Demon Lord could not hide the shock in his heart and shouted out in a low voice.

That Strongest Demon Lord Yu Feng of the Fire Phoenix Race furrowed her brows tightly. "The many Strongest Immortal Lords of the Human Race are all renowned for their myriad wondrous Immortal Techniques, thereby able to stand proudly within the Golden Dragon Immortal Realm. Over these more than ten thousand years, Immortal Lin has even collected all kinds of wondrous Immortal Techniques from various Immortal Sects, so why at this very moment would he choose such a head-on fighting method to contend against such a terrifying, such an irresistible Celestial Tribulation Creature?"

"Indeed! Why clash head-on? The Immortal Bodies of the Human Race are inherently inferior to those of many of our Demon Race peers!"

"Most crucially, Immortal Lin possesses so many Ninth-Grade Immortal Artifacts, yet he is not activating a single one!

Once those Ninth-Grade Immortal Artifacts of his are all activated, no need for too many—just a dozen or so Ninth-Grade Immortal Artifacts would be enough to increase his strength dozens of times over!

Tsk tsk! Immortal Lin going head-to-head like this this time, I'm afraid he will suffer a loss!"

"Exactly, this is Immortal Lin's final Celestial Tribulation; such a crucial battle even determines whether Immortal Lin can safely ascend to the Supreme Origin Realm. Why at such a time would he choose the combat method least advantageous to himself! This is no ordinary final Celestial Tribulation, but a Celestial Tribulation Creature that is hundreds of times, even several hundred times, more dangerous than the Three Great Killing Tribulations!

At a time like this, the primary goal should be to survive within the Celestial Tribulation; he shouldn't be worrying about the possibility that using Immortal Artifacts and Immortal Techniques might reduce the tempering effect of the tribulation!"

The many Strongest Immortal Lord-level Powerhouses of the Human Race, Demon Race, and Buddhist Sect, resisting the terrifying pressure transmitted from that Five-Clawed Golden Dragon across several thousand li, all frowned deeply as they watched Lin Xuankong, who was charging straight toward that boundless Five-Clawed Golden Dragon.

Of course they knew that if one used only the Immortal Body to contend against the final Celestial Tribulation, one could obtain the maximum tempering from the tribulation, bringing about a stronger Metamorphosis in the process of Crossing the Tribulation, bringing about greater benefits!

But the present Celestial Tribulation was clearly far too terrifying—so terrifying that the many Strongest Immortal Lord-level Powerhouses present, even with Ninth-Grade Immortal Artifacts in hand, could not activate them, and could not even give rise to the slightest thought of resistance!

At this moment,

the faith of the many Strongest Immortal Lord-level Powerhouses watching the battle, in Lin Xuankong's ability to smoothly pass through his own final Celestial Tribulation, was completely shaken!

Even though back then, when Lin Xuankong killed the Demon Child Gang Bone, the power he displayed by activating the Ultimate Realm Golden Body Demon Suppression Technique was incomparably formidable, far surpassing the imagination of any Strongest Immortal Lord,

in their eyes, compared to the Five-Clawed Golden Dragon manifested by this terrifying Celestial Tribulation before them, it was still not enough—far from enough!

Only, how could they possibly know,

that Lin Xuankong's greatest reliance was fundamentally not that Ultimate Realm Golden Body Demon Suppression Technique and those various wondrous Immortal Techniques that empowered his Immortal Body.

Lin Xuankong dared to confront head-on this Celestial Tribulation Creature that might be the manifestation of World Origin; his greatest trump card was not the Ultimate Realm Golden Body Demon Suppression Technique that everyone believed in, nor the Path of Array Formation that made everyone envious and praise him as heaven-defying, nor the Path of Artifact Refining that everyone lauded as unprecedented since ancient times. Lin Xuankong's greatest trump card was the solid Immortal Body foundation he had forged through more than ten thousand years of arduous cultivation, and the powerful confidence brought by the myriad wondrous Talents of his Vigorous in Old Age Life Plate after more than ten thousand years of time!

At this moment,

Lin Xuankong, who was charging toward the Five-Clawed Golden Dragon, was, while activating various Immortal Techniques and the Ultimate Golden Body Demon Suppression Technique, also activating the [Cunning and Deceitful] Talent and the [Growing Stronger with Age] Talent within his Vigorous in Old Age Life Plate!

Eighth Talent of the Life Chart: [Cunning and Deceitful], a Rule Talent. After activation, one can, in an instant, consume a certain amount of Lifespan, causing the opponent's attack might to lose its target and slide past at one's side, reducing the opponent's attack power by ninety-five percent, lasting for ninety-five breaths. Current age ten thousand and eight hundred years; each activation of the Rule Talent [Cunning and Deceitful] consumes one thousand years of Lifespan.

Chapter 1322: The Buddhist Sect Suddenly Became Popular (Part 2)

Life Plate Fifth Talent: [Growing Stronger with Age] Rule Talent, after activating the talent, within a certain period, enhance the defense capabilities of one's body and Divine Soul based on age. Current age is ten thousand and eight hundred years, defense capability increased by ten thousand and eight hundred times, duration is one hundred and eight breaths. After each activation, one hundred and eight days are needed to restore the talent.

Facing the immense power of the Five-Clawed Golden Dragon,

Lin Xuankong naturally wouldn't take it lightly, even though the Ultimate Realm Golden Body Demon Suppression Technique provides him with extremely formidable defensive power,

the creature before him might very well be a life form formed from a trace of World Origin in the Golden Dragon Immortal Realm. Facing such Celestial Tribulation Creatures, it's certain to 'add several layers of armor'!

The defensive talents "Cunning and Deceitful" and "Growing Stronger with Age" from the Vigorous in Old Age Life Plate are akin to armor far exceeding the defensive capability of countless Ninth-Grade Immortal Artifacts!

Reduce opponent's attack power by ninety-five percent, enhance defense capability by ten thousand and eight hundred times... Such astonishing defensive augmentation, not to mention on Lin Xuankong who has activated the Ultimate Realm Golden Body Demon Suppression Technique, even on a mere mortal in the Mortal World, would suffice to give that mortal a Vajra Indestructible body, likely impervious even to cannon blasts...

The diving Five-Clawed Golden Dragon, seeing Lin Xuankong activate the Golden Body Demon Suppression Technique and confront it, yet not activating any Immortal Artifact, flashes a hint of gold in its giant dragon eyes, with a subtle shift in gaze. But its face remains stern and imposing, full of fierce aura, so even if its eyes flash momentarily, Lin Xuankong cannot decipher the true intent behind the gaze of this Celestial Tribulation Creature!

Just this minor change in its gaze alone made Lin Xuankong more certain that this Celestial Tribulation Creature is truly not ordinary. In his past encounters with countless Celestial Tribulation Creatures, they always had expressionless faces, with no fluctuations of gaze or expression, even when destroyed. This infinitely mighty Five-Clawed Golden Dragon seemingly possesses some independent consciousness... Apparently, it's ninety-nine percent formed from a trace of World Origin of this Golden Dragon Immortal Realm!

What grace or virtue do I, Lin Xuankong, have, to trigger the World Origin of a true Immortal Realm! They really value me greatly!

With thoughts swirling, Lin Xuankong already collided fiercely with the mighty Five-Clawed Golden Dragon,

at this moment, Lin Xuankong fully deployed the Ultimate Realm Golden Body Demon Suppression Technique, transforming into a giant Immortal Body of golden brilliance and talismans, yet compared to the three hundred and sixty thousand zhang Five-Clawed Golden Dragon, it's as mismatched as a small hamster challenging a Tibetan mastiff, the disparity in size is simply too glaring!

However,

those Strongest Immortal Lord-level powerhouses at the Central Peak widened their eyes once more,

seeing the seemingly weak Lin Xuankong, in fact, standing on equal footing with the infinitely mighty Five-Clawed Golden Dragon!

Although it appeared that Lin Xuankong, as he punched and stepped, left little impact on the golden-scaled body of the Five-Clawed Golden Dragon, merely a flash of golden light at best, when the Five-Clawed Golden Dragon unleashed its earth-shattering five giant claws at Lin Xuankong's Immortal Body, surprisingly, there was only a burst of golden light without leaving a trace of mark on Lin Xuankong's Immortal Body!

During the battle, up and down, left and right at lightning speed, the Strongest Immortal Lord-level powerhouses almost couldn't catch up with the speed. Only when both sides paused slightly in a certain position could the many powerhouses see the attack and defense moves of both sides clearly!

The most bizarre part was, Lin Xuankong and the Five-Clawed Golden Dragon unleashed attacks that seemed world-destroying, effortlessly mobilizing endless Immortal Yuan, yet not a single ripple of combat spread out!

This peculiar scenario evidently arises because both Lin Xuankong and the Five-Clawed Golden Dragon reached a power control level almost unattainable by the Strongest Immortal Lord-level powerhouses, their attacks striking the opponent's body without any external spillover!

For a time,

the many Strongest Immortal Lords watching from Central Peak were attentively captivated, filled with awe in their hearts.

After a dozen breaths, among the many Strongest Immortal Lords, one Spirit Platform Buddhism Great Accomplishment Bodhisattva, awakening from the shock, with hands clasped and eyes showing reverence, spoke:

"Amitabha Buddha, to witness such an overwhelmingly astounding, unprecedented battle personally is the greatest fortuity of my impoverished life! Immortal Lin's control over power and Immortal Yuan has reached the true level of Taoism and body Unity. The ten thousand Buddha Images power from the Ultimate Realm Golden Body Demon Suppression Technique, even if leaked during battle, would be enough to completely collapse the space within tens or hundreds of miles, yet during these dozen breaths, Immortal Lin attacked the Five-Clawed Golden Dragon hundreds and thousands of times, without any combat ripples appearing!"

Such an unbelievably magical control over power and Immortal Yuan is simply inconceivable, truly miraculous and wondrous!

No wonder Immortal Lin dares to confront this terrifying Celestial Tribulation Creature head-on, without activating any Ninth-Grade Immortal Artifact!"

Other Strongest Immortal Lord-level powerhouses heard the Great Accomplishment Bodhisattva speak, and all snapped out of it, showing faces full of reverence. They knew very well that having fierce and destructive power is easy, merely by continuously enhancing one's strength. But to have control over power and Immortal Yuan like Lin Xuankong, is definitely not something achievable just by possessing strength. This kind of tremendous control is incredibly difficult, akin to climbing the heavens. Ten thousand years of cultivation might not even graze the surface of such control! Yet Lin Xuankong has cultivated for only over ten thousand years since starting on the Immortal Path!

But how could they know, Lin Xuankong's over ten thousand years equate to millions of years of cultivation by unparalleled geniuses! Lin Xuankong's Vigorous in Old Age Life Plate's Old and Wise talent, once his age surpassed ten thousand years, made his cultivation augmentation effects, and comprehension enhancement during cultivation increasingly abnormal!

A Human Race Strongest Immortal Lord couldn't help but remark: "Immortal Lin's battle... The control over power and Immortal Yuan is beyond compare, and the defensive capability of his Ultimate Realm Golden Body Demon Suppression Technique is exceedingly excessive!"

I feel every attack from the Five-Clawed Golden Dragon could probably annihilate most of my Immortal Body, even Ninth-Grade Immortal Artifact protection might not withstand two or three assaults! Immortal Lin and this fearsome Five-Clawed Golden Dragon mutually attacked each other hundreds and thousands of times, yet it seems not a single hair was harmed. Can this defensive capability truly be accomplished by the Ultimate Realm Golden Body Demon Suppression Technique? Tsk tsk, seeing Immortal Lin's Golden Body Demon Suppression Technique's defense at such terrifying levels, I contemplate leaving my own Immortal Sect to join your Spirit Platform Buddhism Sect, to learn your Spirit Platform Buddhism's Golden Body Demon Suppression Technique!"

An Immortal Sect-level powerhouse with a giant python head glanced at the Great Accomplishment Bodhisattva of Spirit Platform Buddhism, snakes flickering between. He spoke:

"Indeed, although Immortal Lin activated at least thirty kinds of Immortal Techniques to enhance Immortal Body power and defense before the fight, it's quite apparent that Immortal Lin's Ultimate Realm Demon Suppression Technique contributes the most to the defensive capability of his Immortal Body! Great Success Jade Void Bodhisattva, does your Spirit Platform Buddhism Sect recruit Sect Guardian Divine Beasts? This old serpent may not possess great Wisdom Root, but being at the Mid-grade Strongest Immortal Lord Level should suffice as a Sect Guardian Divine Beast for your Spirit Platform Buddhism Sect!"

Other Strongest Immortal Lord-level powerhouses also glanced at the Spirit Platform Buddhism Sect's Great Accomplishment Bodhisattvas, then turned their gaze towards the Great Success Jade Void Bodhisattva who now leads the Spirit Platform Buddhism Sect.

The Spirit Platform Buddhism's first Great Accomplishment Bodhisattva Jade Void Bodhisattva saw her fellow cultivators behaving this way, couldn't help but shake her head and chuckle. She then turned back to look at the distant Lin Xuankong, a hint of perplexity flickering in her eyes.

Chapter 1323: The Voice of the Source

It's a sudden honor for our Spirit Platform Buddhism to receive the attention of so many fellow Cultivators,

The first Great Success Bodhisattva of Spirit Platform Buddhism, Jade Void Bodhisattva, should indeed be rejoicing in her heart.

However, she always felt that the Golden Body Demon Suppression Technique at the Ultimate Realm should not possess such frightening and astonishing defensive power as witnessed before her!

After all, though the power of Great Success Jade Void Bodhisattva was not as great as that of Great Success Yu Zhen Bodhisattva and Great Success Yu Ming Bodhisattva, she had trained in the Golden Body Demon Suppression Technique and had personally witnessed Lin Xuankong perform it over ten thousand years ago!

She thought to herself: Over ten thousand years ago, Immortal Lin, when battling the Demon Child Gang Bone with a hundred thousand Supreme Demon Bodies, though he extinguished them with a single punch, did not exhibit such an astonishing might as now!

Over ten thousand years ago, Immortal Lin had already cultivated the Golden Body Demon Suppression Technique to the Ultimate Realm, accomplishing what countless of the Spirit Platform Buddhism's predecessors speculated, achieving feats unattainable by any prior great virtues! The current power and defensive capability of Immortal Lin's Golden Body Demon Suppression Technique is unparalleled, at least ten times stronger than before, with defensive capabilities increased by a hundredfold. Could it be that there's a realm beyond the Ultimate Realm for the Golden Body Demon Suppression Technique?

Yet numerous Spirit Platform Buddhism's predecessors have cultivated for over a hundred thousand years, and are still unable to perfect this resource-intensive Buddhist Technique. How did Immortal Lin cultivate it to such an insurmountable level? Just how extraordinary is Immortal Lin's comprehension and talent?

Thinking of this, the smile of joy that once graced Great Success Jade Void Bodhisattva's face faded as she once again glanced at Lin Xuankong battling the Five-Clawed Golden Dragon. She could only feel that she, as a so-called Great Success Bodhisattva, before Lin Xuankong, was like an ant standing before a true Buddhist deity. In terms of power, talent, comprehension, and wisdom root, all felt despairingly inaccessible!

"Amitabha Buddha, after millions of years, the Golden Dragon Immortal Realm has produced a genuine extraordinary genius like Immortal Lin! After today, who knows how many tens of thousands, or even hundreds of millions of years must pass for such an astonishing genius to appear again, or it may just be that future generations will only admire Immortal Lin's miracles in the records with a sense of awe!

Although the Golden Body Demon Suppression Technique is the strongest Defense Technique of our Spirit Platform Buddhism, over millions of years, no Great Success Bodhisattva has ever cultivated it to such a level! Perhaps, the strength many fellow Cultivators see in the Golden Body Demon Suppression Technique is not due to the technique itself, but because Immortal Lin's talent, comprehension, ability,

and wisdom root are all unmatched, transcending ordinary limits, or perhaps if Immortal Lin were to display other Immortal Techniques from the Immortal Sects, it would similarly be unattainable!"

Great Success Jade Void Bodhisattva thought with deep feelings and proclaimed a Buddhist blessing in admiration.

The other strongest Immortal Lord-level powerhouses, seeing Great Success Jade Void Bodhisattva in such a manner, also paused their discussions, all with a sense of reflection on their faces.

These strongest Immortal Lord-level powerhouses, among billions of Cultivators, all possess talents, comprehension, and luck far surpassing their peers. Each possesses near-absolute confidence and pride, yet looking at Lin Xuankong, who is battling the Five-Clawed Golden Dragon without defeat, and without even deeming it necessary to use an Immortal Artifact, they have to admit from deep within their hearts that compared to Lin Xuankong, their extraordinary talent, comprehension, and luck, found only once in a billion, are not worth mentioning!

There was a time when countless Cultivators of the Golden Dragon Immortal Realm believed that if their Artifact Refining Masters could refine another Grade Three Immortal Artifact as did Sect Leader Qiu of the Divine Dynasty Immortal Sect, it would be a crowning achievement for the Golden Dragon Immortal Realm! Given that the resources of the Golden Dragon Immortal Realm had long been exhausted, and truly rare and powerful Heavenly Materials and Earthly Treasures had already been depleted through generations of Earth Immortals' gathering, Lin Xuankong's appearance astonishingly revealed to many Artifact Refining Masters that even second or third-grade resources could be used to refine Ninth-Grade Immortal Artifacts as rare as millions of years ago!

There was a time when countless Immortal Sects and Demon Races of the Golden Dragon Immortal Realm believed that a Ninth-Grade Sect Protection Array was the strongest defensive power in the Immortal Realm. Powered by some Low-Grade Earth Immortals, a Ninth-Grade Sect Protection Array was sufficient to resist attacks from Ninth-Grade Earth Immortals and even strongest Immortal Lord-level powerhouses!

Immortal Lord Luoshui Yaan Mingyu, however, used the Luo Water Divine Diagram to create a Luo Water Array of a single realm with defensive capabilities far surpassing a Ninth-grade Grand Array. Yet the exclamations of amazement from countless Earth Immortals upon the emergence of this single-realm Luo Water Array hadn't even died down before Lin Xuankong appeared and, together with Immortal Lord Luoshui Yaan Mingyu, once again elevated the defensive capability of the Luo Water Array to an even more powerful level! It's rumored that Lin Xuankong and Immortal Lord Luoshui Yaan Mingyu are already able to arrange an Eight-Layered Realm Luo Water Array, whose defensive capability

is comparable to hundreds of layers of a Ninth-Grade Sect Protection Array arranged with identically numbered and quality Array Hubs!

There was a time when countless Cultivators of the Golden Dragon Immortal Realm believed that the Profound Yin Demon Race, which reigned over the Golden Dragon Immortal Realm, would always be a threat to every Human and Demon Race Cultivator! Especially with the emergence of Demon Child Gang Bone, claiming to possess a trace of Celestial Demon Power, which sent countless Human and Demon Race Cultivators fleeing for their lives, hiding in the micro little worlds at the borders of the Golden Dragon Immortal Realm, hoping to survive just a while longer! Yet the appearance of Lin Xuankong led to the downfall of the once glorious and formidable Profound Yin Demon Sect, and Demon Child Gang Bone, touted as invincible, was obliterated with a single punch!

Chapter 1324: The Voice of the Source (2)

Once upon a time, the strongest Immortal Lord-level powerhouses of the Golden Dragon Immortal Realm almost unanimously believed they could not survive the final heavenly tribulation. However, since Lin Xuankong appeared, not only did the Golden Dragon Immortal Realm witness the grand spectacle of dozens facing the final heavenly tribulation together more than once, but astonishingly, nearly every strongest Immortal Lord-level powerhouse believed that with the Ninth-Grade Immortal Artifacts gifted by Lin Xuankong, they could easily pass the final heavenly tribulation! The once-nightmarish ultimate heavenly tribulations, known as the Three Great Killing Tribulations—the Five Elements Extermination Tribulation, Azure Sky Killing Tribulation, and Six Harmonies Celestial Tribulation—no longer instilled fear in the tribulation crossers!

Gazing at Lin Xuankong currently battling the Five-Clawed Golden Dragon, the thoughts of many strongest Immortal Lord-level powerhouses surged endlessly. The miracles that Lin Xuankong had created, which overturned countless cultivators' beliefs within the entire Golden Dragon Immortal Realm, kept surfacing in their minds.

"The very end and highest peak of the path of cultivation for an Earth Immortal is definitely the Immortal Lin we are witnessing!

Immortal Lin, at this moment confronting the Five-Clawed Golden Dragon, probably hasn't even used one percent of his true strength and trump cards. After all, he hasn't used any Ninth-Grade Immortal Artifacts, nor has he unleashed the Luo Water Array he shares with Immortal Lord Luoshui Yaan Mingyu!

From this perspective, Immortal Lin's success in crossing this tribulation is bound to happen!

However, I wonder what kind of miracles Immortal Lin will create after successfully overcoming this Nameless Heavenly Tribulation and ascending to the Supreme Origin Realm today!"

After a few breaths of time passed, the strongest Immortal Lords returned to their senses from their awe and reflection. One human strongest Immortal Lord couldn't help but exclaim, while the other strongest Immortal Lord-level powerhouses all nodded in agreement. Initially, they thought Lin Xuankong was in danger upon witnessing the terrifying majesty of the formed heavenly tribulation. Yet, after a dozen breaths, no one doubted that Lin Xuankong could overcome this tribulation!

As Lin Xuankong was crossing the tribulation, amidst intense battle, his eyes revealed a trace of joy.

Because, while resisting the mighty attacks of the enormous Five-Clawed Golden Dragon phantom, every impact he endured with his Immortal Body brought not only the destructive power but also an immensely pure and genuine force. This pure force seeped into his body and was continually transforming Lin Xuankong's Immortal Body, gradually improving its foundation!

Originally, after cultivating for over ten thousand years, Lin Xuankong had mastered all sorts of Immortal Techniques, Demon Techniques, and Buddhist Techniques to temper his Immortal Body and Divine Soul to Perfection Realm, priding himself on having cultivated his Immortal Body and Divine Soul to near perfection!

However, the terrifying attacks of the Five-Clawed Golden Dragon phantom, along with the incredibly pure and genuine miraculous power seeping into him, was like a flowing spring soaking into the sand dunes of a desert, effortlessly reaching the deepest parts of Lin Xuankong's Immortal Body and Divine Soul. It was as if Lin Xuankong's self-proclaimed near-perfect Immortal Body had micro fractures everywhere, and this power effortlessly patched up these tiny cracks!

The most critical aspect is that Lin Xuankong could clearly sense that the unique power hidden within the Five-Clawed Golden Dragon phantom's attacks was many times purer than the Upper Realm Primordial Qi he once sensed from the Supreme Origin Realm through the Nine Gates Celestial Eye!

Feeling this, Lin Xuankong's eyes, besides the joy, gradually showed a trace of doubt.

Why is it that in the past processes of other strongest Immortal Lords crossing the final heavenly tribulation, I never sensed such remarkably pure power?

Why is it that even the Supreme Yu Zhen Bodhisattva, Great Success Jade Bright Bodhisattva, and Sect Leader Qiu of the Divine Dynasty Immortal Sect, who succeeded in their boundary crossing and were guided by the Upper Realm Primordial Qi capable of transforming Immortal Bodies, seem far less pure compared to this power?

Or perhaps, this extremely pure power is indeed the Power of World Origin, manifested because the Five-Clawed Golden Dragon battling me is a reflection of this sliver of World Origin from the Golden Dragon Immortal Realm?

Upon reaching this thought, a flash of brilliance shone in Lin Xuankong's eyes, making him even more excited.

In the ensuing battle with the Five-Clawed Golden Dragon phantom, Lin Xuankong further unleashed himself, even lowering his defenses intentionally, aiming to endure more attacks from the Five-Clawed Golden Dragon phantom, absorbing even a bit more of the extremely pure power contained within those attacks!

Of course, only someone like Lin Xuankong, due to his Vigorous in Old Age Life Plate, coupled with the Cunning and Deceitful Talent, Old But Stronger Talent, and the immensely powerful defensive ability of the Ultimate Golden Body Demon Suppression Technique, could afford to sustain some hits during a tribulation, trying to absorb more attacks... If it were any other strongest Immortal Lord-level powerhouse in his place during this heavenly tribulation, not only would they avoid lowering their defenses to take a few more hits, they would likely find their Immortal Body shattered and obliterated by a single dragon claw strike of the Five-Clawed Golden Dragon phantom, falling on the spot!

Time continued to tick away,

The other strongest Immortal Lord-level powerhouses crossing the tribulation with Lin Xuankong were gradually approaching the final round of their respective ultimate heavenly tribulations.

Including Immortal Lord Luoshui Yaan Mingyu, the Artifact Refining Genius Xiao Xiuyi, Young Lady Li Xiaolan, and other strongest Immortal Lords faced with powerful heavenly tribulations like the Five Elements Extermination Tribulation, Six Harmonies Celestial Tribulation, etc., were also nearing the last round!

Many of these strongest Immortal Lord-level powerhouses crossing the tribulation secretly breathed a sigh of relief at heart,

At this moment, these strongest Immortal Lord-level powerhouses dared only slightly to relax as they looked around.

Upon seeing the Five-Clawed Golden Dragon phantom that Lin Xuankong was facing, so mighty to an astonishing extent, everybody was taken aback, nearly losing their composure... Several strongest Immortal Lords crossing the tribulation, rattled by the sight, ended up taking a few more hits from their ultimate heavenly tribulations, almost resulting in failed tribulation crossing!

Fortunately, the Ninth-Grade Immortal Artifacts gifted by Lin Xuankong were powerful enough, filled with spirituality, having the miraculous ability to auto-protect, else even a single glimpse at the might of that Five-Clawed Golden Dragon phantom might have frightened multiple tribulation crossers to the point of immediate failure!

Meanwhile, the Five-Clawed Golden Dragon phantom facing Lin Xuankong also began to fade to transparency, and finally, the tiny trace of the Power of World Origin within its attacks became increasingly scarce.

Is it about to end?

Sensing all this, Lin Xuankong felt a bit disheartened,

This fantastically pure, vitality-enhancing power... If only I could battle for hundreds or thousands of years, who knows to what extent my Immortal Body's foundation might transform!

What a pity indeed!

Lin Xuankong took a dragon claw strike from the Five-Clawed Golden Dragon phantom squarely on his head, brooding in his heart.

At that moment,

An extremely ancient voice abruptly reached Lin Xuankong's mind. The voice did not use Immortal Yuan or other powers to vibrate the space but rather acted directly upon Lin Xuankong's Divine Soul, as if echoing within his mind,

"You little rascal, so insatiable!

This Golden Dragon World of mine has only been evolving for just a few tens of millions of years, not even having completed a single cycle. The quantity of World Origin power it can generate is very limited. Allowing you to absorb even a one-billionth of it is already a fortuitous opportunity that Upper Realm Celestial Immortals, Celestial Demons, and Celestial Fiends might not encounter even after cultivating for a billion years!

And yet, here you are, acting as if you got a deal and are being coy!

Had I known you were this shameless, this insatiable back then during your tribulation crossing, the old me shouldn't have manifested a phantom at all, and should have just finished you off with the lowest tier heavenly tribulation right off the bat!

Or perhaps, does all life from the world your Divine Soul originates from have such shamelessness?"

Chapter 1325: Celestial Immortals Are Not All Alike

A sudden voice echoed within his Divine Soul,

Lin Xuannong, who was initially a bit joyful after surviving the terrifying Celestial Tribulation and gaining mysterious power, was taken aback.

What surprised him was neither the dialogue between this Celestial Tribulation creature's Five-Clawed Golden Dragon phantom and his Divine Soul nor the origin of this Celestial Tribulation creature's Five-Clawed Golden Dragon!

After all, when he previously sensed those traces of incredibly pure power, Lin Xuankong had already speculated that this Five-Clawed Golden Dragon phantom was likely a manifestation of the Power of World Origin of this Golden Dragon World!

He was surprised and wary because,

this Five-Clawed Golden Dragon phantom seemed to have long known about his origins from an Otherworld, from that Blue Star!

As surprise and caution rose in Lin Xuankong's heart,

that incredibly ancient yet amiable voice sounded once again,

"No need to be so surprised, nor so wary!

Since I am the origin of this world, the fundamental consciousness origin of this evolving Golden Dragon World, how could I not see through your Divine Soul carrying peculiar power and not being a native creature of the Golden Dragon World!

Moreover, you little fellow have caused quite a few significant events since you came to this Golden Dragon World; even if I didn't want to notice you, it would be impossible!"

Causing many significant events, impossible not to notice me?

Lin Xuankong felt a bit helpless, thinking to himself that he had tried to stay as low-key as possible, wanting even more to be discreet, but alas... his strength simply didn't allow it!

"Indeed, slightly thick-skinned, a shameless little fellow, but I do quite like you. Back in the day, when the old me swept across the Sixth Domain of the Supreme Origin Realm, I was just like you, haha, so powerful that it's impossible to keep a low profile!"

As if clearly sensing Lin Xuankong's thoughts, that extremely ancient voice laughed.

Feeling the voice within his Divine Soul, Lin Xuankong, somewhat puzzled and cautious, sent a thought, ".....are you the Five-Clawed Golden Dragon I saw when I obtained the Tier Nine Celestial Demon Bone?"

"What 'you, you, you', not even a hint of respectful address. Though you are a being from an Otherworld, when you first came to this world, the body you possessed was ultimately evolved by my world. In a way, I am half your ancestor, and now I have given you a grand opportunity that countless Tribulation Crossers never received... Don't you know what respect is!"

Despite the words, that ancient voice had no trace of anger, instead carrying a sense of familiarity and friendliness.

Perceiving this friendliness, Lin Xuankong dared not be careless, for the earlier Five-Clawed Golden Dragon shadow was immensely strong, carrying only a fraction of the Power of World Origin. One could easily imagine that the true origin consciousness of this Golden Dragon World, should it intend harm towards him... even on their turf, using all Ninth-Grade Immortal Artifacts and Eight-Layered Realms Luo Water Array, would be hard-pressed to match this World Origin!

Under the eaves, one must bow or their head shall be bloodied!

Lin Xuankong's expression turned serious, reverently sending over a thought,

"It's my fault... The great ancestor suddenly contacted me through my Divine Soul, suggesting there is more than mere idle chat, or to simply tell me of the grand opportunity I've received. Is there another reason for this sudden contact, great ancestor?"

Having practised in this Golden Dragon World for over ten thousand years, Lin Xuankong had accomplished countless astonishing deeds. If indeed as the Five-Clawed Golden Dragon Ancestor claimed, then the ancestor should have long noticed him. Yet for over ten thousand years, this World Origin Five-Clawed Golden Dragon had never communicated with him until now, during the tribulation. Naturally, Lin Xuankong harbored suspicions.

"You indeed are sharp-witted! Now that you are crossing the final Celestial Tribulation, my manifestation to grant you a significant opportunity that even powerful Celestial Immortal, Celestial Demon, Celestial Fiend rarely obtain, naturally has its reason!

It must be known, among countless beings of the little worlds connected to the Supreme Origin Realm, if they successfully cross the tribulation and only then receive the refining of their Immortal Body by the Primordial Qi of the Supreme Origin Realm, even if they ascend to the Upper Realm to become a Celestial Immortal, Celestial Demon, or Celestial Fiend after the final tribulation, they can only be termed as Postnatal Celestial Immortal, Postnatal Celestial Demon, or Postnatal Celestial Fiend!

Only by obtaining a powerful refining of a trace of World Origin's power during the final Celestial Tribulation, before achieving the Celestial Immortal, Celestial Demon, Celestial Fiend realms, do they qualify to be termed as Primordial Celestial Fiend, Primordial Celestial Demon, Primordial Celestial Immortal, thereby possessing the capability to truly evolve worlds when in the Initial Tier Celestial Immortal, Initial Tier Celestial Demon, Initial Tier Celestial Fiend realm, able to wield the power of little worlds' phantoms to combat opponents at the Initial Tier Celestial Immortal, Initial Tier Celestial Demon, Initial Tier Celestial Fiend realms!

Alas, to wear the crown, one must bear its weight!

This power of origin is incredibly pure, without sufficiently powerful Immortal Body and Divine Soul, without the ability to withstand the attack of the power of origin's phantom, even little fellows at the Strongest Immortal Lord Level cannot endure the baptism of the power of origin!

Since the evolution of my Golden Dragon World, altogether there have been 100,466 Tribulation Crossers at the Strongest Immortal Lord Level, yet none could bear this benefit, naturally unable to gain this opportunity!

Only you, little fellow, are not only from an Otherworld but also possess an extremely marvelous Life Plate. Analyzing the reason, it is likely due to your Divine Soul being altered while traversing the Wall of the World, gaining this astonishing, unmatched Rule-level ability! Precisely because you possess this incredible Rule-Level ability, you have had the chance to grow to this extent, having the capability to endure the opportunity I intend to bestow!"

Chapter 1326: Celestial Immortals Are Not All Alike (2)

"Otherwise, in the world I, the Golden Dragon Saint Monarch, have evolved from, where countless creatures survive, why would I consider the likes of your Divine Soul, you little outsider!"

The voice claiming to be the Golden Dragon Saint Monarch instantly transmitted a vast amount of information into Lin Xuankong's Divine Soul.

Sensing this information, Lin Xuankong couldn't help but feel a stirring in his heart.

Since arriving in this Golden Dragon Immortal Realm, he had possessed the Vigorous in Old Age Life Plate, as well as the astonishing talents derived from it, rapidly growing by relying on these abilities and his own arduous cultivation! In his spare time, whenever Lin Xuankong thought of his Vigorous in Old Age Life Plate and various mysterious talents, he was filled with confusion, never understanding the origin of his abilities!

Now, this so-called ancestor of the Golden Dragon Immortal Realm, who calls himself the Golden Dragon Saint Monarch, made a guess... yet this ancestor had a high opinion of his Vigorous in Old Age Life Plate, calling it a unique ability beyond rule-level! It seems this ancestor himself does not possess such an ability?

"Hehe, little one, no need to be so self-satisfied!

Your ancestor indeed does not have your unique shameless Life Plate ability. It's not just me; even those so-called invincible Saint Monarchs, who traverse endless years in the Supreme Origin Realm and claim to have peerless talents, do not possess your unique Life Plate ability! After all, this Life Plate ability of yours not only changes yourself but also influences the outside world, to the extent that even I cannot interfere with the effects of your talents!

However, you are still just a little one who hasn't grown up. Even though in the Golden Dragon Immortal Realm, except for me, your ancestor, no power, no strong being can be your opponent in a single confrontation, but once you ascend to the Supreme Origin Realm, you'll understand. In that realm, there are countless true powerhouses. Among them, needless to say, are the Saint Monarch-level powerhouses, even the Venerable-level ones. Even those Celestial Immortals, Celestial Demons, and Celestial Beasts in the Great Success and Minor Success Realms can use Supreme Origin Realm's Divine Artifacts and Primordial Realm Divine Techniques to defeat you!

Your talent and potential are absolutely unique even in the Supreme Origin Realm, and now you've obtained the greatest opportunity in the Golden Dragon Immortal Realm. If you survive and continue to grow, the achievements you may attain will surely astonish countless powerhouses! Even make my old rivals in the boundless Supreme Origin Realm marvel at such an extraordinary little one arising from the world I've derived!

But remember, this is only if you can keep surviving, keep growing, and avoid being captured by the Great Success Celestial Demons, Venerables, and Saint Monarchs of the Celestial Demon Race, otherwise..."

At this point, the voice of the ancestor called the Golden Dragon Saint Monarch adopted a solemn tone, "Once a human cultivator's Immortal Body survives the last Celestial Tribulation and transforms into a true Celestial Immortal Body, it's normally endowed with endless recovery power and lifespan, able to regenerate from even a single strand of hair!

This powerful recovery is enough for any Initial Tier Celestial Immortal to survive the full attack of a Great Success Celestial Demon and Venerable-level demon!

But in front of a Saint Monarch-level power's destruction, even endless recovery is but a joke, as Saint Monarch-level powerhouses can completely isolate the Primordial Qi of the Supreme Origin Realm! If you face a Saint Monarch-level powerhouse and lack the ability to defeat them, make sure to find every means to flee, otherwise, if isolated from the endless Primordial Qi of the Supreme Origin Realm by a Saint Monarch, your recovery ability becomes meaningless, and you'll quickly be exhausted of all your Primordial Qi and wiped out!"

Upon hearing this, Lin Xuankong's face turned somewhat serious. At present, the ancestor of the Golden Dragon Immortal Realm, who could communicate with him in his Divine Soul, had merely unleashed a fraction of his boundless power, a millionth or even less, to confront his Immortal Body, amplified by the talents of Cunning and Deceitful, Old But Stronger, and various Immortal and Demonic Techniques, holding him to a standstill!

It was imaginable that if this Golden Dragon Saint Monarch fully mobilized his power of World Origin, even he would absolutely not be a match, not even have a chance of escape, even with the myriad miraculous talents within his Vigorous in Old Age Life Plate. This entire Golden Dragon Immortal Realm belongs to the Golden Dragon Saint Monarch, and even his Tier Nine Celestial Demon Bone Secret Realm originated from a piece of the opponent's Dragon Bone!

Facing such a powerhouse, Lin Xuankong had to take his words seriously... A Saint Monarch-level power can completely isolate the Primordial Qi of the Supreme Origin Realm, making even Celestial Immortal-level powers unable to absorb Primordial Qi, thereby losing their power and recovery! Worst of all, he had once offended a Supreme Origin Realm Saint Monarch-level powerhouse, a member of the Celestial Demon Race—the Thousand Illusion Saint Monarch!

This was quite troublesome indeed!

Just as this thought crossed his mind, the voice of the Golden Dragon Saint Monarch resounded again in his ears,

"Hahaha, even a little one like you worries! I remember when you killed that Demon Child Gang Bone, you were quite spirited. You are worshiped by countless cultivators in the Golden Dragon Immortal Realm as the first of the realm!"

Hearing this, Lin Xuankong felt slightly embarrassed. It was indeed awkward to bear the title of the first in the Golden Dragon Immortal Realm in front of its ancestor and creator!

The Golden Dragon Saint Monarch's voice carried a hint of amusement, "Little one, no need to be so afraid of that Thousand Illusion Saint Monarch! Back when I traversed the Supreme Origin Realm, that so-called Thousand Illusion Saint Monarch was repeatedly defeated by me. The Thousand Illusion Race among the many clans of the Eight Celestial Demon Races is not the strongest, and the Thousand Illusion Saint Monarch hasn't even reached the pinnacle of Saint Monarch-level Celestial Demons, unable to comprehend the true dao intent of the Path of Demon!

Moreover, you, little one, even if you withstand the last Celestial Tribulation purely relying on your Immortal Body, gaining great benefits, and with some nurturing from the Primordial Qi of the Supreme Origin Realm, you might at most reach the late or Perfection Realm of Initial Tier Celestial Immortal, still needing to absorb more origins from other Little Worlds, combined with the piece of the Golden Dragon Immortal Realm origin I just gifted you, before growing into a Minor Success Realm Celestial Immortal!

You're not even a Minor Success Celestial Immortal, so why would the Thousand Illusion Saint Monarch bother with you? Not to mention the Thousand Illusion Saint Monarch, even the Great Success Celestial Demons or Venerable-level demons would never consider you an absolute target to kill!"

Here, the Golden Dragon Saint Monarch's voice paused slightly, "However, remember this, your and your Dao companion Xiao Xiuyi's Artifact Refining Talent is truly astonishing. Even an old guy like me, who wandered the Supreme Origin Realm for hundreds of billions of years, seldom encountered such Artifact Refining geniuses like you two!

That you and Xiao Xiuyi could, in just a little over ten thousand years, advance the Path of Artifact Refining to such a degree, using second-rate materials to refine Ninth-Grade Immortal Artifacts, and perfect-level Ninth-Grade Immortal Artifacts at that! If your Artifact Refining talents were exposed and known by the many powerhouses of the Celestial Demon Race, they would certainly not let you leave the Thousand Illusion Celestial Demon Race's territory but would surely control you and Xiao Xiuyi to refine growth-type Divine Artifacts or even more powerful Sacred Artifacts for that worthless Thousand Illusion Saint Monarch!

Thus, remember this: after you survive the last Celestial Tribulation and ascend to the Supreme Origin Realm, the first thing you must do is quickly escape the territory of those Celestial Demon powerhouses under the Thousand Illusion Saint Monarch. Secondly, until you have sufficient self-preservation capabilities in the Supreme Origin Realm, absolutely do not let anyone easily discover that your Artifact Refining talent has reached such heights!"

Chapter 1327: Celestial Tribulation Malfunction

Listening to the Golden Dragon Saint Monarch,

Lin Xuankong couldn't help but nod slightly.

During the tribulation of Great Success Yu Zhen Bodhisattva, Sect Leader Qiu of the Divine Dynasty Immortal Sect, and others, the words spoken by those Initial Tier Celestial Demons from the Thousand Illusion Celestial Demon Race, as well as the Bird-faced Celestial Demon and the Red-haired Celestial Demon, were clearly because of issues with the Demon Child Gang Bone of the Golden Dragon Immortal Realm and the numerous Immortal Artifacts possessed by Ascenders of the Golden Dragon Immortal Realm, which necessitated using so many Celestial Demons to form the so-called Thousand Demon Slaying Immortal Array!

In this light, the Great Success Jade Bright Celestial Buddha who ascended from the Spirit Platform Buddhism to the Upper Realm earlier might have already fallen into the hands of the Thousand Illusion Celestial Demon Race, rather than them already knowing some matters about me...

Fortunately, during the tribulation of Great Success Yu Ming's Talent, Great Success Yu Zhen, Celestial Buddha, and Sect Leader Qiu of the Divine Dynasty Immortal Sect, I hadn't fully revealed my true artifact refining ability! Calculating this, perhaps although the Bird-faced Celestial Demon and the Red-haired Celestial Demon know about some of my artifact refining matters, they don't know that I can now use second-class materials to refine a large number of perfect-level Ninth-Grade Immortal Artifacts!

'The twenty-something little fellows succeeded in crossing their tribulation last time, what happened during their ascension to the Supreme Origin Realm, I learned a bit through my Celestial Eye ability.

Unfortunately, my Saint Monarch's Power hasn't fully recovered yet; it'll take at least several billion years to understand more about the Supreme Origin Realm in the brief time of cultivators from the Golden Dragon Immortal Realm ascending to the Upper Realm!

Judging from last time's events, those Minor Success Celestial Demons clearly haven't reported your matters to Thousand Illusion Saint Monarch, otherwise, when those twenty-something little fellows ascended after crossing their tribulation, they wouldn't have possibly encountered hundreds of Initial Tier Celestial Demons, but rather a large number of Minor Success Celestial Demons, Great Success Celestial Demons, or even Venerable level Celestial Demons waiting in ambush!'

However, your artifact refining ability, this time during the tribulation process, more of these little fellows from the Golden Dragon Immortal Realm have already become aware. As you ascend this time, it's best to bring all these little fellows into your inner secret realm! After all these years of cultivation, relying on the secret realm derived from my Gang Bone of Forehead, it's grown to a size comparable to the Golden Dragon Immortal Realm, if not larger, and there's no issue in bringing these little fellows inside!

Actually, to consider, you and I are truly fated; you, a little fellow from an Otherworld, unexpectedly obtained the Gang Bone from the forehead of my previous life's body, never completely decayed! Back when I fell in my previous life, there were three Gang Bones from the forehead that did not decay, while other undecayed bones were mostly scales or fragments; only the Gang Bone of the forehead derived remnants of the world, able to grow to a size comparable to the Golden Dragon Immortal Realm, or even possibly larger!

Though the secret realm world derived from the Tier Nine Gang Bone of Forehead lacks the Power of Origin and the Heavenly Dao remains incomplete, unable to transform into a true little world, with the beings inside unable to bring forth a celestial tribulation and unable to metamorphose themselves, but it's quite suitable for planting spirit fruits and elixirs!'

Hearing the Golden Dragon Saint Monarch say so, Lin Xuankong couldn't help but feel his heart race; the Tier Nine Celestial Demon Bone he obtained indeed seems to be a fragment of the bones from this Golden Dragon Saint Monarch, and one of only three pieces of the Saint Monarch level Gang Bone of Forehead; truly, my luck is exceedingly good! But... how could it be that such a powerful Saint Monarch could fall if even his previous life's body could transform into a true little world?

Just as he thought this, the voice of the Golden Dragon Saint Monarch once again echoed in his divine soul,

'Under normal circumstances, Saint Monarch level Celestial Demon, Celestial Immortal, and Celestial Demon are extremely difficult to fall! But within the Supreme Origin Realm, after countless years of cultivation and growth, there is actually another realm above the Saint Monarch Realm, said to be the true summit of living beings' Immortal Path! In the Supreme Origin Realm, only beings who reach that realm can achieve killing even Saint Monarch masters!'

The voice paused here, as if the Golden Dragon Saint Monarch felt some apprehension upon mentioning the 'true summit' realm,

'However, that realm cannot be spoken, cannot be named, cannot be mentioned, otherwise, even across the Wall of the World, the masters of that realm can sense and lock in on the beings that speak of them! Remember, I have yet to regain the power of my former peak, and cannot mention the names and abilities of those masters from that realm to you. Otherwise, given my current strength, I may be instantly wiped out again, and it would be uncertain how many years must pass before I can awaken once more!'

Saint Monarch level masters still aren't the pinnacle of the Immortal Path in the Supreme Origin Realm!

Terrifying masters like the Golden Dragon Ancestor, capable of matching me even with only a fraction of their strength, were ultimately felled by masters from that realm, and even the Golden Dragon Ancestor could not mention the names and powers of that realm?

Thinking of these things, Lin Xuankong couldn't help but feel a weight on his heart.

The voice of the Golden Dragon Saint Monarch then sounded again after a few moments of silence, 'These warnings for you are for later, what matters now is that you cross your final celestial tribulation and ascend to the Supreme Origin Realm; remember to hide your true Immortal Path talents and artifact refining skills! Remember that a tall tree attracts the wind, a tree that stands out in the forest will surely be felled!'

Lin Xuankong nodded slightly, 'I will certainly remember the Golden Dragon Ancestor's warning!'

At this moment, the voice of the Golden Dragon Saint Monarch gradually faded, becoming increasingly faint in Lin Xuankong's divine soul, 'My strength has yet to fully recover, cannot remain awake for too long, otherwise, it would attract the attention of those unspeakable masters, and the countless years of evolution of the Golden Dragon Immortal Realm would be in vain!'

Chapter 1328: Celestial Tribulation Problem_2

"This time, I specifically communicate with your Divine Soul to entrust you with something!"

Lin Xuankong's eyes moved, "Is it about those cultivators from the Golden Dragon Immortal Realm who ascended to the Supreme Origin Realm only to be captured by the powerful ones from the Thousand Illusion Celestial Demon Race? The Golden Dragon Ancestor can rest assured, once I ascend to the Supreme Origin Realm and establish myself, I will surely find a way to rescue those comrades from the Golden Dragon Immortal Realm!"

The voice of the Golden Dragon Saint Monarch was now so weak it was barely audible. If Lin Xuankong's Divine Soul hadn't long since fused with his Immortal Body and reached an extremely profound realm, he wouldn't have sensed the voice of the Golden Dragon Ancestor, "Those little ones, born in the Golden Dragon Immortal Realm derived from my body, cultivating within the realm formed by my body, naturally count as my descendants, and their life origin is closely tied to my Golden Dragon Immortal Realm. If they become powerful someday, they can feedback to me through the Heavenly Dao, speeding up the evolution and strengthening of my Golden Dragon Immortal Realm!

If you grow strong enough to rescue them one day, I hope you can lend a hand! But of course, the prerequisite is that during the rescue process, you can ensure your own safety, as you are the most talented cultivator nurtured by the Golden Dragon Immortal Realm, and the greatest hope for the future evolution and strengthening of the realm. You are the hope of my Golden Dragon to sprout strong Little Worlds and return to the Saint Monarch position!"

Upon hearing this, Lin Xuankong's gaze revealed a hint of determination. "Golden Dragon Ancestor, rest assured, Xuankong will surely not disappoint you."

"...Everything should prioritize your own safety, and unless you reach the highest level of the Saint Monarch Realm, do not provoke those powerful beings hidden in the Heavenly Dao of the Supreme Origin Realm; their strength is far beyond your current imagination..."

At this point, the voice of the Golden Dragon Ancestor completely fell silent, and the powerful Divine Soul sensed within Lin Xuankong also vanished!

It was only at this moment that Lin Xuankong let out a sigh of relief.

This sudden emergence of the Golden Dragon Ancestor naturally could not leave Lin Xuankong without any wariness!

Even though Lin Xuankong's Immortal Body was initially nurtured by the Golden Dragon Immortal Realm, and the Golden Dragon Ancestor is the progenitor of all beings in the Golden Dragon Immortal Realm, Lin Xuankong remained ever vigilant, for facing such a powerful being without wariness and reverence would be ridiculous!

However, Lin Xuankong also understood one thing, which is-----that given the Golden Dragon Ancestor's ability to easily invade his Divine Soul to converse with him, the opponent could potentially influence or control his Immortal Body or Divine Soul at any time if they wished...

Since the Golden Dragon Ancestor didn't do so, there are only two reasons. The first might be because of his own Vigorous in Old Age Life Plate, whose various talents are praised even by the Golden Dragon Ancestor, who claims he hasn't seen the like in hundreds of billions of years. This kind of Life Plate Talent likely cannot be taken away by anyone merely through controlling Divine Soul or Immortal Body! The second reason is that the words spoken by the Golden Dragon Ancestor of the Golden Dragon Immortal Realm might indeed be true-----that if he grows stronger in the Supreme Origin Realm, he might truly influence the Heavenly Dao to feedback to the Golden Dragon Immortal Realm, greatly aiding the restoration of the Golden Dragon Ancestor's strength!

Regardless, this Golden Dragon Ancestor of the Golden Dragon Immortal Realm has never harmed him since he crossed into this world. During his final celestial tribulation, he granted him a profound opportunity, allowing him to receive a trace of the origin power from the Golden Dragon Immortal Realm!

Through the information initially obtained via the Nine Gates Celestial Eye, that so-called Little World Origin Power is of precious worth, difficult even for Minor Success Celestial Demons or Great Success Celestial Demons to obtain, and is an invaluable resource necessary for the transformation of power among the Celestial Demon Celestial Immortal Celestial Demon Realm powerhouses!

Given that he obtained such resources and benefits within the world derived from the Golden Dragon Ancestor's body, allowing him to step by step achieve the Strongest Immortal Lord Perfection Realm, and now further obtaining the rare opportunity unseen by countless other Strongest Immortal Lords in the entire Golden Dragon Immortal Realm, it stands to reason that after ascending to the Supreme Origin Realm, he should find a way to fulfill the Golden Dragon Ancestor's trust and rescue Great Success Jade Bright Bodhisattva, Sect Leader Qiu of the Divine Dynasty Immortal Sect, and other comrades!

But for now...the most important thing is the metamorphosis after crossing the final celestial tribulation and shortly ascending to the Supreme Origin Realm, and escaping the ambush of the powerful ones from the Thousand Illusion Celestial Demon Race!

Thinking of this, Lin Xuankong looked around, and his expression couldn't help but pause!

Because he suddenly discovered something extremely bizarre had happened before him...

The dozens of Strongest Immortal Lords who had triggered the final celestial tribulation along with Lin Xuankong were now floating in their positions with puzzled expressions.

Several Strongest Immortal Lords couldn't help but glance around before speaking with full confusion:

"Something's not right! I have personally witnessed Great Success Jade Bright Bodhisattva, Sect Leader Qiu of the Divine Dynasty Immortal Sect, Great Success Yu Zhen Bodhisattva, Immortal Lord Feiyun and others undergoing the final celestial tribulation! After those elders resisted the assault of the celestial tribulation, a passageway leading to the Supreme Origin Realm would immediately appear deep in the sky, bringing some primordial qi to refine the Immortal Body, thereby achieving the Celestial Immortal position! But why is it that today, among so many comrades undergoing the final celestial tribulation, there is no movement whatsoever in the sky after resisting the final celestial tribulation?"

"Indeed, this is far too strange! Not only is Great Success Jade Bright Bodhisattva, Great Success Yu Zhen Bodhisattva, and Sect Leader Qiu of the Divine Dynasty Immortal Sect as you mentioned when they underwent the final celestial tribulation! All recorded in the numerous classics of my Yiming Immortal Sect, whenever predecessors successfully crossed the tribulation, a world passage immediately appears! Why is there no anomaly in the depths of the sky now, what's going on?"

"Could it be that the world passage connecting the Golden Dragon Immortal Realm to the Supreme Origin Realm is having issues? After all, according to Immortal Lin's statement from thousands of years ago, the entrance of the world passage between the Supreme Origin Realm and the Golden Dragon Immortal Realm is heavily ambushed by celestial demons, or perhaps those powerful celestial demons destroyed the world passage?"

The numerous Strongest Immortal Lords who had already resisted the final celestial tribulation were all discussing fervently,

Even the extremely experienced Immortal Lord Qiaan Yuan and Immortal Lord Kunyuan were dumbstruck!

Even the usually mild-mannered Immortal Lord Luoshui Yaan Mingyu was now furrowing her brows, clearly puzzled whether it was a problem with the Golden Dragon Immortal Realm, or the Supreme Origin Realm, or perhaps the world passage between the two worlds had issues, or whether the celestial tribulation they were undergoing had problems. Although Immortal Lord Luoshui Yaan Mingyu is scholarly and far exceeds numerous cultivators in the Path of Array Formation talents, it's ultimately her first time experiencing the final celestial tribulation, without any experience!

Among them, Young Lady Li Xiaolan, Second Lady Zhao Yufei, Third Lady Xiaoo Ying'Er, Strongest Immortal Lord Guang Yu'er, Strongest Immortal Lord Xiao Xiuyi, and Li Xiaohu all turned simultaneously, casting their gazes towards Lin Xuankong. Their eyes clearly carried meanings of doubt and inquiry.

At such a time, they were also filled with confusion and naturally thought of Lin Xuankong, who could always solve problems easily. Obviously, in the eyes of these extremely talented Strongest Immortal Lord-level young ladies and godsons, if there is anyone who could explain the current situation to them, it must be Lin Xuankong!

Seeing this, Lin Xuankong couldn't help but frown and ponder deeply,

The current situation was one Lin Xuankong could never have anticipated, as all the final celestial tribulations he had personally witnessed among those dozens of Strongest Immortal Lord-level powerhouses were very 'normal'!

Chapter 1329: Talents Will Become Even Stronger

In an instant,

every Strongest Immortal Lord who had just resisted the final celestial tribulation had a face full of confusion.

Those Strongest Immortal Lords observing from afar on the central peak wore expressions of astonishment, as the situation unfolding was far beyond the expectations of every cultivator present!

Who could have thought that dozens of Strongest Immortal Lord-level powerhouses would undergo the tribulation alongside Lin Xuankong,

only for the final celestial tribulation of these dozens of Strongest Immortal Lord-level powerhouses, including Lin Xuankong's, to all 'break down' together!

However, it was clear that the conversation Lin Xuankong just had with the Golden Dragon Ancestor of the Golden Dragon Immortal Realm in his divine soul was not noticed by the many Strongest Immortal Lord-level powerhouses present! Even the immensely powerful Immortal Lord Luoshui Yaan Mingyu, along with Young Lady Li Xiaolan, Second Lady Zhao Yufei, Third Lady Xiaoo Ying'Er, Strongest Immortal Lord Guang Yu'er, among others, failed to notice anything unusual!

Lin Xuankong pondered briefly before thinking of a possibility...

At that moment, the once silent voice of the Golden Dragon Ancestor resounded again in Lin Xuankong's divine soul, carrying a tone of helplessness and self-mockery,

"Indeed, without recovering the Saint Monarch's power, one shouldn't awaken carelessly, and definitely shouldn't frivolously utilize the Power of Origin of the Golden Dragon Immortal Realm. Tsk tsk, just a moment ago, to lend you a helping hand and provide your immortal body and divine soul an unprecedented opportunity, which even the Supreme Origin Realm hasn't witnessed, those youngsters almost had to endure the final celestial tribulation attacks for nothing for such a long time!"

After saying this, the voice of the Golden Dragon Ancestor fell silent once more.

Immediately after,

Lin Xuankong suddenly sensed something and looked up into the depths of the sky.

Quickly, those Strongest Immortal Lord-level powerhouses who had just crossed the final celestial tribulation also sensed something and uniformly looked skyward!

At this moment, the winds and clouds roiled in the sky, with the celestial essence fluctuation becoming extremely intense, causing the vast sky of hundreds of thousands of miles around to distort and tremble!

In the next instant, dazzling light appeared high above, with a channel flashing endless radiance suddenly emerging in the depths of the sky. Strands of the invisible, yet palpable Primordial Qi from the Supreme Origin Realm rapidly spread toward the dozens of Strongest Immortal Lord-level powerhouses who had just succeeded in crossing the tribulation!

Among them, the amount of Upper Realm Primordial Qi spreading toward Lin Xuankong was the most abundant and intense, followed by Immortal Lord Luoshui Yaan Mingyu, Artifact Refining Genius Xiao Xiuyi, Strongest Immortal Lord Xiaoo Ying'Er, Artifact Refining Genius Li Xiaolan, and the rest of Lin Xuankong's mentors and several Dao companions. The remaining Strongest Immortal Lord-level powerhouses mostly received only one or two strands of Upper Realm Primordial Qi from the Supreme Origin Realm!

As the Primordial Qi entered their bodies, including Lin Xuankong, the numerous Strongest Immortal Lord-level powerhouses immediately felt their immortal bodies continuously strengthening.

In the Golden Dragon Immortal Realm, because of the limitations imposed by the world rules of this Little World, the immortal bodies of these Strongest Immortal Lord-level powerhouses had long reached the limits of what Earth Immortal cultivation could achieve, with someone like Lin Xuankong having genuinely reached the extent of what Earth Immortal could accomplish! Along with the existence of the World of the Wall, the cultivators of the Golden Dragon Immortal Realm, aside from crossing the final celestial tribulation, were utterly incapable of accessing the nourishment of Upper Realm Primordial Qi to achieve a higher realm!

The moment the Supreme Origin Realm and the Golden Dragon Immortal Realm were connected through the world passage, the world rules of the Golden Dragon Immortal Realm were immediately suppressed by the stronger heavenly laws of the Supreme Origin Realm, naturally initiating a

metamorphosis into the Celestial Immortal and Celestial Demon realms for the Strongest Immortal Lord-level powerhouses, including Lin Xuankong!

At this time, each of the previously perplexed Strongest Immortal Lord-level powerhouses, including Lin Xuankong, couldn't be bothered to ponder why the world passage took so long to appear. Instead, every Strongest Immortal Lord was guiding the Upper Realm Primordial Qi from the Supreme Origin Realm to temper their immortal bodies!

The aura and emitted fluctuations of each Strongest Immortal Lord were rapidly strengthening!

Those Strongest Immortal Lords standing on the central peak and watching the battle bore expressions of envy in their eyes as they witnessed this sight.

Among them, some were limited by their cultivation realm, having just entered the Strongest Immortal Lord realm and not daring to initiate the final celestial tribulation lightly, while others had several ten thousand years of lifespan remaining and were not in a hurry to trigger the final celestial tribulation, having faced those Celestial Demon Realm powerhouses alongside Lin Xuankong... However, as they saw their fellow cultivators, also Strongest Immortal Lords of the Golden Dragon Immortal Realm, rapidly strengthening at this moment, transforming into the genuine Celestial Immortals and Celestial Demons that they had yearned to be for tens of thousands of years, how could they not be envious, how could they not yearn for it!

Amidst the envious gazes of the numerous Strongest Immortal Lord-level powerhouses,

Lin Xuankong was intently guiding the vast Upper Realm Primordial Qi to temper and enhance his immortal body,

Meanwhile, he diverted a strand of heart spirit to focus on the information displayed on his Vigorous in Old Age Life Plate in his brain mansion!

With the changes in the large characters of the Vigorous in Old Age Life Plate, Lin Xuankong's realm continuously ascended.... Early-stage Initial Tier Celestial Immortal, Mid-stage Initial Tier Celestial Immortal, Late-stage Initial Tier Celestial Immortal, until finally, the purple-golden large characters indicating Lin Xuankong's realm on the Vigorous in Old Age Life Plate suddenly changed to Initial Tier Celestial Immortal Perfection Realm!

Upon completing these transformations, Lin Xuankong carefully sensed his celestial immortal body and discovered, astonishingly, that the strength and power of this Celestial Immortal Body had already surpassed the strength and power of his immortal body after employing the Ultimate Golden Body Demon Suppression Technique in the past!

Chapter 1330: Talents Will Become Even Stronger (2)

One must know that the Ultimate Golden Body Demon Suppression Technique allows Lin Xuankong to, at the Strongest Immortal Lord Realm, slay the Demon Child Gang Bone who possesses a trace of Saint Monarch's power. At that moment, the force Lin Xuankong unleashed was hundreds of times stronger than his normal power and speed!

Upon receiving such a massive boost, a hint of joy inevitably welled in Lin Xuankong's heart,

He thought to himself: The Initial Tier Celestial Immortal Perfection Realm is so much stronger than the Strongest Immortal Lord Perfection Realm, even three to four times stronger than the Early-Stage Initial Tier Celestial Immortal. No wonder that when Great Success Jade Bright Bodhisattva, Great Success Yu Zhen Bodhisattva, and Sect Leader Qiu of the Divine Dynasty Immortal Sect ascended to the Supreme Origin Realm after surviving the final tribulation, they couldn't withstand even the slightest resistance against the Bird-faced Celestial Demon and Red-haired Celestial Demon, who seemed to be at the Minor Success Realm, not even with a Ninth-Grade Immortal Artifact. The gap between both sides was just too large!

This gap is almost as large as that between the Strongest Immortal Lord and the Eighth-Grade Earth Immortal!

Of course, the transition from the Earth Immortal Realm's Strongest Immortal Lord Realm to the Initial Tier Celestial Immortal Perfection Realm brings more than just an improvement in the power and strength of the Immortal Body!

Becoming a true Celestial Immortal means that when Lin Xuankong uses various Immortal Techniques, Demon Techniques, and Monk Techniques, he will no longer rely on the Immortal Yuan of the Golden Dragon Mini World but rather the Upper Realm Primordial Qi of the Supreme Origin Realm. This also means that when he uses the Guangqing Cold Extreme Skill, Ultimate Golden Body Demon Suppression Technique, Guangqing Illusion Technique, and Hundred Thousand Supreme Demon Bodies, these Immortal Techniques will exhibit an even more profound and powerful effect!

Besides,

What pleases Lin Xuankong the most is the enhancement in lifespan!

Before this final tribulation, Lin Xuankong had already utilized various cultivation techniques to increase lifespan and consumed numerous elixirs enhancing lifespan, so his lifespan cap had reached an astonishing number of tens of millions of years! And this time, after successfully crossing the tribulation, absorbing a vast amount of Upper Realm Primordial Qi, and undergoing the metamorphosis of his Immortal Body into a Celestial Immortal Body, his lifespan has increased countless times!

In the vivid purple-gold words of the Vigorous in Old Age Life Plate, Lin Xuankong's current maximum lifespan astonishingly reads as infinite!

In other words, now that Lin Xuankong, at the Initial Tier Celestial Immortal Perfection Realm, has ascended to the Supreme Origin Realm through the world passage, as long as he doesn't act recklessly and isn't targeted by those inexpressible Celestial Demon, Celestial Immortal, Celestial Buddha, Celestial Monster powerhouses, he will possess a near-immortal life like any other Celestial Immortal!

To other Celestial Immortals, perhaps this infinite lifespan, this near-immortal life, merely implies that they can survive perpetually in the Supreme Origin Realm!

But to Lin Xuankong, the significance of infinite lifespan is indescribable!

Due to the various talents in Lin Xuankong's Vigorous in Old Age Life Plate, whether it is the accelerated cultivation and comprehension effect of being Old and Wise, the defensive effects of Growing Stronger with Age and being Cunning and Deceitful, or other attacking talents, all will grow stronger as Lin Xuankong ages!

Without mentioning other aspects, just the accelerated cultivation and comprehension effect of being Old and Wise can become increasingly phenomenal with the support of infinite lifespan! Lin Xuankong's age is a little over ten thousand, yet he already possesses over ten thousand times the comprehension ability of other cultivators. By consuming various Spirit Elixirs, he gets an over ten thousand times enhancement. Imagine if Lin Xuankong lives tens of thousands, hundreds of millions, billions of years... Lin Xuankong can't even fathom what kind of effects would occur when his comprehension ability

receives over a billion times his talent boost, going on to cultivate various Immortal Techniques, Demon Techniques, and Buddhist Techniques!

At the thought of these, Lin Xuankong longed for time to accelerate a thousandfold!

But since he already has infinite lifespan, as long as he can survive in the Supreme Origin Realm, he will one day reach the truly pinnacle realm!

"Xuankong, what are you pondering?"

A gentle voice called out.

Lin Xuankong looked up to see his master, Immortal Lord Luoshui Yaan Mingyu, drifting nearby with Lii Xiaolan, Zhao Yufei, the Qilin Race Elder Clan Leader, White-forehead Qilin, Cyan-forehead Qilin, Xiaoo Ying'Er, among others, including those several Strongest Immortal Lord-level powerhouses, who had gathered around.

Having successfully crossed the tribulation and completed the metamorphosis, many Initial Tier Celestial Immortals were ready to join Lin Xuankong in entering the world passage and ascend to the Supreme Origin Realm!

"Things seem a bit peculiar! Although the tribulation Immortal Lin endured was extremely terrifying, it was ultimately the final tribulation that these Strongest Immortal Lords underwent. So why did I feel that nearly ninety percent of the Upper Realm Primordial Qi from the Supreme Origin Realm flowed towards Immortal Lin's position? Now, we've all transformed into Celestial Immortal bodies. So why do I feel that the aura emitted by Immortal Lin's Immortal Body is stronger than that emitted by dozens of our Celestial Immortal bodies combined?"

The Qilin Race Elder Clan Leader looked towards Lin Xuankong with a puzzled expression.

"Hahaha, are you once again envious of our Young Master, Elder Clan Leader?" The White-forehead Qilin remained calm with over ten thousand years of practice, while the Cyan-forehead Qilin still retained a rather carefree disposition.

It approached Lin Xuankong slightly, sensing and exclaimed: "Elder Clan Leader, I feel that the strength of the Young Master's Immortal Body now could probably thrash dozens or even more like you without employing any Immortal Techniques, Demon Techniques, or Monk Techniques!"

The Qilin Race Elder Clan Leader's face slightly froze upon hearing this.

The other Strongest Immortal Lord-level powerhouses who successfully crossed the tribulation laughed heartily at these words. These Initial Tier Celestial Immortals had fulfilled their wish of cultivating for tens of thousands, even over ten thousand years, naturally brightening their moods with joy!

"For someone like Immortal Lin, who can single-handedly overthrow the entire Golden Dragon Immortal Realm, it's only natural that after successfully crossing the tribulation, his enhancements are greater than those of us old fellas! Old Qilin, you surely wouldn't think that after Immortal Lin arduously withstood that dreadful Five-Clawed Golden Dragon Celestial Tribulation Creature, the benefits he obtained post-tribulation would be the same as you or me, would you? Hahahahaha!" The Black Tortoise Race Elder Clan Leader came over, also teasing the rather familiar Qilin Race Elder Clan Leader!

"Indeed! If not for Immortal Lin emerging out of nowhere over ten thousand years ago, we old fellas wouldn't be talking about any tribulation success, as we would have likely long become materials for Artifact Refining in the hands of the demonics and Demon Child Gang Bone of the Profound Yin Demon Sect. How would we have any opportunity for tribulation success! Immortal Lin's influence on the entire Golden Dragon Immortal Realm is so immense, overwhelmingly surpassing you and me countless times; if he couldn't secure greater opportunities than us in the final tribulation, that'd seem a bit unjust, hahaha!"

A Human Race Initial Tier Celestial Immortal couldn't help but interject.

Amid the chatter of many Initial Tier Celestial Immortals, Lin Xuankong couldn't help but look up at the world passage connecting the Supreme Origin Realm and the Golden Dragon Mini World, recalling the words the Golden Dragon Ancestor had spoken to him before.

Thinking of this, Lin Xuankong hesitated no more and said:

"Fellow Daoists, I have something to tell you!

All of us have successfully surpassed the final tribulation, and we've each gained leaps of growth post-final tribulation, which is certainly a great boon!

But everyone must not forget that the challenge facing us, the many tribulation-successful cultivators in the Golden Dragon Immortal Realm, isn't the final tribulation but those Celestial Demon Race powerhouses possibly ambushing near the world passage entrance!

We've been cultivating our Immortal Techniques, Demon Techniques, and Buddhist Techniques these past years, but those Celestial Demon Race powerhouses in the Supreme Origin Realm have also cultivated for about eight thousand years; their strength might be more formidable than when they captured Great Success Jade Bright Bodhisattva, Sect Leader Qiu of the Divine Dynasty Immortal Sect, and Elder Qiu!"
