

## **Stronger 1331**

### Chapter 1331: Seventy Percent Confidence

Gathered around Lin Xuankong were the Initial Tier Celestial Immortals, Initial Tier Celestial Demons, and Celestial Buddhas, each one initially filled with chatter and joy!

Upon hearing Lin Xuankong's words, many of the Celestial Immortals, Celestial Demons, and Celestial Buddhas turned solemn. Clearly, after successfully enduring the ultimate tribulation and transforming into true Initial Tier Celestial Immortals, Celestial Demons, and Celestial Buddhas, they could acutely sense that their strength was at least tenfold greater than that of an Earth Immortal Demon King or a Great Accomplishment Bodhisattva!

Based on this reasoning, those powerful Celestial Demon Race members within the Supreme Origin Realm, who could freely absorb the Upper Realm Primordial Qi, would naturally become even more formidable under the nourishment of such an abundant Primordial Qi!

After hearing Lin Xuankong's reminder and contemplating these facts, how could the numerous Initial Tier Celestial Immortals, Celestial Buddhas, and Celestial Demons present not feel weighed down with anxiety?

Even Immortal Lord Luoshui Yaan Mingyu, Initial Tier Celestial Immortal Lii Xiaolan, and Initial Tier Celestial Demon Cyan-forehead Qilin and White-forehead Qilin, who had always been full of confidence in Lin Xuankong, now had some concerns after their metamorphosis, having come to truly understand the might of the Celestial Immortal Realm.

"The Young Master's strength... should be able to handle those Celestial Demons ambushing at the passage entrance, right?" said the somewhat hesitant Initial Tier Celestial Demon Cyan-forehead Qilin.

In the Golden Dragon Immortal Realm, the Cyan-forehead Qilin, who always revered Lin Xuankong, would absolutely consider him invincible... but the Supreme Origin Realm is, after all, a brand new world. In that world, cultivators have limitless lifespans, nearly immortal, meaning the cultivators in that Supreme Origin Realm might have cultivated for hundreds of thousands, millions, even tens of millions, or hundreds of millions of years, or even far longer, enduring countless times more than the birth of the Golden Dragon Immortal Realm!

Now about to face opponents from such a world, even the Cyan-forehead Qilin, who had always admired Lin Xuankong, began to feel a slight doubt!

That being the case for the Initial Tier Celestial Demon Cyan-forehead Qilin, how much more would it be for other cultivators? At this moment, besides Immortal Lord Luoshui Yaan Mingyu, Lii Xiaolan, Zhao Yufei, Guang Yu'er, Xiaoo Ying'Er, Li Xiaohu, White-forehead Qilin, and others, who decided to advance and retreat with Lin Xuankong regardless of the circumstances, other cultivators inevitably felt a bit tense!

Lin Xuankong looked at the gathered Initial Tier Celestial Demons, Initial Tier Celestial Immortals, and Celestial Buddhas, and solemnly began:

"I am speaking of these matters with fellow cultivators now because I have some trump cards to confront those Initial Tier Celestial Demons!

With those trump cards, I have a seventy percent chance to counter those Initial Tier Celestial Demons. Even if I can't defeat them, I surely can escape from the grand array they've set, evading their capture!

Now, fellow cultivators are presented with two choices. First, upon ascending to the Supreme Origin Realm, if encountering an ambush by those Initial Tier Celestial Demons, all scatter and escape individually. Otherwise, given your current realms as Initial Tier early-stage Celestial Immortals, Celestial Demons, and Celestial Buddhas, even with a Ninth-Grade Immortal Artifact in hand, you are likely not their match, and lingering in battle will inevitably result in capture. Of course, if you choose to scatter and flee, whether you escape alive will depend on your abilities!

The second choice, before ascending to the Supreme Origin Realm, is to all enter the small secret realm derived from the Celestial Demon Bone that I have merged with, thus leaving only me, Lin Xuankong, to face the Initial Tier Celestial Demon Realm's strong foes alone! Fellow cultivators, making this choice will hide in my small secret realm, and I will surely exhaust every means and play every trump card to lead these fellows out of the encirclement of those Initial Tier Celestial Demon Realm strong foes!

Of course, making this choice means we are all in it together; if I, Lin Xuankong, am captured, those who enter my Celestial Demon Bone Small Secret Realm will undoubtedly find it hard to escape alive!

The tribulation has completed, the metamorphosis is done, and time is short!

Now these two choices are laid before fellow cultivators, for you to decide!"

After finishing, ripples emanated from within Lin Xuankong's body, and a glistening small secret realm transference appeared before him, as his gaze turned toward the many surrounding cultivators!

Listening to Lin Xuankong's words and seeing the small secret realm transference gate he opened, many Initial Tier Celestial Immortals, Celestial Demons, and Celestial Buddhas paused in expression, quickly contemplating.

However, it was Lii Xiaolan who first stepped forward, walking toward the shimmering transference gate, her stunning face showing a hint of a smile, "For over ten thousand years, I have cultivated and practiced alchemy in the Celestial Demon Bone Secret Realm, only emerging occasionally to endure the Earth Immortal Tribulation, but remaining there constantly! This time, returning to Great Marsh Prefecture of the Great Xia Dynasty with the old man fulfilled a wish of over ten thousand years! Hmm, I've longed to return to the Celestial Demon Bone Secret Realm!"

Before her words fell, the Initial Tier Celestial Immortal Lii Xiaolan had already stepped into the Celestial Demon Bone Secret Realm.

Second Lady Zhao Yufei, Third Lady Xiaoo Ying'Er, adopted son Li Xiaohu, and others followed closely behind, nodding slightly to Lin Xuankong before all stepping into the Celestial Demon Bone Secret Realm.

If there are those in the Golden Dragon Immortal Realm who trust Lin Xuankong without any conditions, it must certainly be these 'wives, children, elders, and youngsters' who walked with Lin Xuankong all the way from the Great Xia Dynasty.

#### Chapter 1332: Seventy Percent Confidence (Part 2)

However, the title that Initial Tier Celestial Immortal Lii Xiaolan used for Lin Xuankong caused the gathered cultivators to show slightly strange expressions... Old man, this was what Lii Xiaolan called Lin Xuankong! One must know, Lin Xuankong was undoubtedly the foremost figure in the entire Golden Dragon Immortal Realm. Usually, apart from the Strongest Immortal Lord Yaan Mingyu, which other Strongest Immortal Lord wouldn't greet Lin Xuankong respectfully as Immortal Lin!

Yet, these Initial Tier Celestial Immortals, Initial Tier Celestial Demons, and Initial Tier Celestial Buddhas couldn't possibly know that back in the Great Xia Dynasty's Great Marsh Prefecture on Cow and Horse Street, Lin Xuankong really was an old man selling pancakes! Who would have thought that the old Lin peddling pancakes along the street not only didn't meet his end but also, in mere thousands of years, became the foremost person of the entire Golden Dragon Immortal Realm? Even the Golden Dragon Ancestor praised Lin Xuankong's talent highly, predicting that one day he would reach the heights achieved by the Golden Dragon Ancestor, possessing the power that was once the strongest!

"The Young Master's Wife has already gone in; next should be Sister Bai and me! Hahahahaha, Grandfather Clan Leader, Master Mingyu, Sister Bai and I will go in first to see just how magnificent the Young Master's Secret Realm is!"

After reaching the Initial Tier Celestial Immortal Realm, the Cyan-forehead Qilin and White-forehead Qilin had long changed forms, transforming into two Qilin Celestial Demon beauties with horns, long green hair, beautiful faces, and graceful figures. Compared to other Human Race Initial Tier Celestial Immortals, besides having a pair of horns, each bore a shining Qilin Cyan Scale and Qilin White Scale on their foreheads, enhancing their ethereal aura!

However, Cyan-forehead Qilin's lively personality hadn't changed at all despite reaching the Initial Tier Celestial Immortal Realm. She maintained her bold demeanor, and after exchanging some greetings with her Qilin Race Elder Clan Leader and Immortal Lord Luoshui Yaan Mingyu, she pulled White-forehead Qilin into the shimmering Spirit Vein Transference before they could respond.

Initial Tier Celestial Immortal Guang Yu'er then respectfully saluted her master, Qiaan Yuan Early-stage Celestial Immortal, and her uncle-master, Kunyuan Early-stage Celestial Immortal, before pulling Guang Ling'er to follow Cyan-forehead Qilin and White-forehead Qilin into the shimmering Spirit Vein Transference.

By this time, among the dozens of Strongest Immortal Lord-level powerhouses undergoing tribulation, already over half had entered Lin Xuankong's Celestial Demon Bone Small Secret Realm.

Seeing this, Immortal Lord Luoshui Yaan Mingyu, Immortal Lord Qiaan Yuan, Immortal Lord Kunyuan, Qilin Race Elder Clan Leader, Black Tortoise Race Elder Clan Leader, and Fire Phoenix Race Elder Clan Leader exchanged glances and, clasping their hands, led their respective sects' and clans' Celestial Demons and Celestial Immortals into Lin Xuankong's Celestial Demon Bone Small Secret Realm.

By this time, among the Initial Tier Celestial Buddhas of the Spirit Platform Buddhism, an old acquaintance of Lin Xuankong stood out. It was Galin Bodhisattva, who had reached the Great Accomplishment Bodhisattva Realm over a thousand years ago.

She bowed slightly to Lin Xuankong, her dignified and graceful face showing a gentle smile, "Over ten thousand years ago, on first meeting Immortal Lin, I perceived Immortal Lin's extraordinary talent and incredible wisdom root. It was a pity that the Spirit Platform Buddhism's fortune wasn't enough; even after several invitations by Galin, Immortal Lin never joined Spirit Platform Buddhism.

Indeed, as Galin predicted, in mere thousands of years, Immortal Lin transformed the entire Golden Dragon Immortal Realm, allowing countless cultivators of the Golden Dragon Immortal Realm to no longer fear the Profound Yin Demon Race, such immense merit... truly admirable!

Now,

Galin still has some guesses,

that once this crossing of tribulation succeeds and ascension to the Upper Realm follows, no matter the trials met, such a benevolent person as Immortal Lin will surely overcome misfortune!

This time, no matter what, Galin must join with several fellow disciples to follow Immortal Lin!"

Seeing this, Lin Xuankong nodded to the Little Bodhisattva Galin and the other Initial Tier Celestial Buddhas behind her, returning a courtesy, "Back when joining the Spiritual Crane Immortal Sect, it was thanks to the Buddhist Spiritual Treasure gifted by Celestial Buddha Galin. Without it, it wouldn't have been possible for me to grow so swiftly. Now, with such trust from Celestial Buddha Galin and the Celestial Buddhas, I shall ensure the safety of all the Celestial Buddhas!"

Hearing this, the Little Celestial Buddha Galin and several Initial Tier Celestial Buddhas from the Spirit Platform Buddhism intoned a Buddhist chant together and stepped into Lin Xuankong's Celestial Demon Bone Small Secret Realm.

By this time, only over a dozen Initial Tier Celestial Immortals and Initial Tier Celestial Demons remained.

Among them, the Initial Tier Celestial Demon Little Linglong of the Cyan Dragon Race glanced at the surrounding Initial Tier Celestial Demons and Celestial Immortals and laughed:

"What are you still hesitating for!

With such a grand opportunity as Immortal Lin, do you really intend to ascend to the Supreme Origin Realm alone, facing those Celestial Demon Realm powerhouses who've cultivated for who knows how many millennia, or want to escape their pursuit alone?

Heh, don't mention escaping from those Celestial Demon Realm powerhouses; even with a casual strike from Immortal Lin right now, can you escape? I fear that with your current Celestial Immortal Bodies, you'd surely be seriously injured by a single strike from Immortal Lin!

Everyone, suppose after ascending to the Supreme Origin Realm, encountering those Celestial Demon Realm powerhouses, and even Immortal Lin can't escape from their grasp, do you think you can?

Hahahaha, such things don't need second thoughts!"

Before finishing her words, the Initial Tier Celestial Demon Little Linglong of the Cyan Dragon Race vanished into the shimmering Spirit Vein Transference and entered Lin Xuankong's Little World.

After hearing Little Linglong, the remaining Initial Tier Celestial Demons and Celestial Immortals had a moment of realization and then shared a glance, not daring to hesitate anymore, and all of them moved into Lin Xuankong's Little World. Although unsure if Lin Xuankong could thwart the ambushes and grand arrays of those Celestial Demon Realm powerhouses, they were sure of one thing: relying solely on their own strength, escaping encirclement from numerous Initial Tier Celestial Demons was utterly impossible!

Yet entering Lin Xuankong's Little World and following him might also mean falling into the Celestial Demon Realm powerhouses' trap, but the odds of survival were multiple times higher!

By this time, all the numerous Strongest Immortal Lord-level powerhouses who were crossing tribulations had already entered Lin Xuankong's Celestial Demon Bone Small Secret Realm.

Lin Xuankong respectfully saluted the distant Strongest Immortal Lords on the Central Peak and then gazed at the sky and the World Passage.

At this moment,

Lin Xuankong could feel,

the World Passage, radiating endless light, exerted a powerful pull on his Celestial Immortal Body. The force was so great that even with his power, he couldn't resist for long, a mere moment later, and he would be unable to resist and be compelled into the World Passage.

Simultaneously, the entire Golden Dragon Immortal Realm produced a strong repellant force, seemingly intending to forcibly eject Lin Xuankong from the Golden Dragon Mini World through the World Passage's entrance!

Upon sensing these forces intensifying, Lin Xuankong simply relinquished resistance, allowing his body to fly rapidly towards the World Passage entrance position,

his gaze crossed a great distance, observing the endless scenery of the Golden Dragon Immortal Realm, including the Great Marsh Prefecture of the Great Xia Dynasty far, far away. Though, due to the distance, even with his current Celestial Immortal Body, he couldn't clearly see the Great Marsh Prefecture, only discerning vague outlines!

Yet, when Lin Xuankong cast his gaze, it carried an indiscernible trace of longing, for he knew that with this ascension, he might not return to this world for tens of thousands, millions, or even billions of years!

Chapter 1333: Demonic Qi Soaring

Retracting his gaze,

Lin Xuankong looked up at the sky, his Celestial Immortal Body quickly heading toward the World Passage.

At the very moment he entered the World Passage, he suddenly felt his hairs stand on end, his heart pounding, and his Celestial Immortal Body's skin covered in countless goosebumps. Lin Xuankong's

Divine Soul sensed a cold and indifferent consciousness sweeping across his body! The reactions on his Celestial Immortal Body were clearly generated by that consciousness!

Fortunately, that vast, boundless, and incredibly powerful consciousness, seemingly even superior to the Divine Soul of the Golden Dragon Ancestor, did not linger on Lin Xuankong. After sweeping across his body, it vanished completely!

As Lin Xuankong quickly traversed the World Passage, his pupils constricted, his heart still racing uncontrollably.

The Golden Dragon Ancestor was said to have dominated the Supreme Origin Realm for hundreds of billions of years, having achieved the position of Saint Monarch long ago, standing atop countless cultivators in the Supreme Origin Realm!

When the Divine Soul of the Golden Dragon Ancestor communicated with Lin Xuankong, although it left him feeling utterly powerless to resist, it never gave him such a vast, strong, and indifferent sensation...

Perhaps this is the realm higher than the Saint Monarch that the Golden Dragon Ancestor mentioned? That unspeakable, unnameable, unapproachable supreme being? According to the Golden Dragon Ancestor, such a supreme being could lock onto the Golden Dragon Ancestor from across countless worlds just by mentioning their name or describing any aspect of them!

Maybe the Golden Dragon Ancestor had fallen at the hands of such a powerful supreme being back then! Otherwise, with the proclaimed true Saint Monarch strength and status of the Golden Dragon Ancestor in the Supreme Origin Realm, how could he have fallen, been forced to slumber for tens of millions of years, and still not dare to mention the name or details of that being!

Indeed, the Supreme Origin Realm is full of hidden dragons and crouching tigers, more exciting and dangerous than the Golden Dragon Immortal Realm!

I must be careful.....

Thinking of this, Lin Xuankong silently mused: It seems I truly should heed the advice of the Golden Dragon Ancestor. Upon ascending to the Supreme Origin Realm, if I encounter those Initial Tier Celestial

Demons and Minor Success Celestial Demons of the Thousand Illusion Celestial Demon Race, I must temporarily refrain from fully revealing my various talents and achievements in the Path of Artifact Refining. Otherwise, not to mention attracting the attention of that unspeakable supreme being, even drawing the direct attention of that Thousand Illusion Saint Monarch could lead to mortal danger!

...

Red Water Demon City, Cyan Wood Forest, near the entrance to Passage Number Three.

Sitting at the head of his grand hall, the Cyan Bird Celestial Demon was surrounded by twenty Ninth-Grade Demon Artifacts floating incessantly. Each floating Ninth-Grade Demon Artifact emitted powerful waves.

These twenty Ninth-Grade Demon Artifacts were naturally acquired by him from Sect Leader Qiu of the Divine Dynasty Immortal Sect and other Initial Tier Celestial Immortals long ago. After years of nurturing, all of them had been transformed into powerful and precious Ninth-Grade Demon Artifacts! Although in the Supreme Origin Realm, those dedicated to refining demon artifacts might have been immersed in the Path of Artifact Refining for tens of millions of years, the number of Celestial Demon Artifact Refiners who could easily refine Ninth-Grade Demon Artifacts still wasn't many!

Even in the mighty Red Water Demon City, the number of Celestial Demon Artifact Refiners capable of producing Ninth-Grade Demon Artifacts was only in the single digits!

After all, the Path of Artifact Refining exhausts too much heart spirit and energy, requiring serene research and refinement. Most demons are accustomed to cultivating various bloodthirsty and brutal demon techniques; few demons are willing to spend time on this path! Compared to the Human Race, cultivators of the Celestial Demon Race are still more inclined to spend time on cultivation or indulge in various pleasures in the Supreme Origin Realm. For the Path of Artifact Refining, which hampers cultivation and consumes immense heart spirit, they generally lack interest!

Especially since the Path of Artifact Refining demands extremely high talent, even among hundreds of thousands of Celestial Demons, it's uncertain if there's one truly gifted in this path, leading to the scarcity of truly powerful Celestial Demon Artifact Refiners even in the Thousand Illusion Celestial Demon Race of Red Water Demon City!

Therefore, the acquisition of dozens of Ninth-Grade Immortal Artifacts thousands of years ago reinforced the Cyan Bird Celestial Demon's resolve. He continued to dispatch all Initial Tier Celestial Demons from Cyan Wood Forest to encircle the area around the entrance to Passage Number Three completely, with a larger scale than thousands of years ago!

"According to the soul-search results from those twenty or more Initial Tier Celestial Immortals, Celestial Demons, and Celestial Buddhas from the Golden Dragon Mini World, the Artifact Refiner named Lin Xuankong is not only supremely gifted in the Path of Artifact Refining but is also astonishingly talented in cultivation!

If that is so, the Artifact Refiner named Lin Xuankong should long have possessed sufficient strength to overcome the final celestial tribulation of the Earth Immortal and ascend to the Supreme Origin Realm!

Yet after waiting thousands of years, my thousands of subordinates have grown restless, but the Artifact Refiner named Lin Xuankong still hasn't ascended, which is indeed bizarre!"

A hint of doubt flashed in the Cyan Bird Celestial Demon's eyes as he looked toward the Red-haired Celestial Demon beside him.

Thousands of years have passed, and the Cyan Bird Celestial Demon, as the lord of the entire Cyan Wood Forest and the most talented among all the demons, has rapidly advanced in strength and is now very close to the Mid Stage of Minor Success Realm. The Red-haired Celestial Demon, who was once equal in strength to the Cyan Bird Celestial Demon, has made little progress after thousands of years of cultivation, still remaining at the Early Stage of Minor Success Realm!

#### Chapter 1334: Demonic Qi Surging (Part 2)

Of course, for those powerful beings in the Celestial Demon Realm who have already ascended to the Supreme Origin Realm and possess nearly infinite lifespan, several thousand years is but a fleeting moment in their lives, hardly worth mentioning! Over these thousands of years, the Red-haired Celestial Demon, whose talent is just below that of the Cyan Bird Celestial Demon, has not broken through to the Mid Stage of Minor Success Realm, which is a completely normal occurrence for the Initial Tier Celestial Demons in Cyan Wood Forest!

Back then, it took the Red-haired Celestial Demon nearly a million years just to advance from the Early-Stage Initial Tier Celestial Demon to the Early Stage of Minor Success!

If the Red-haired Celestial Demon managed to advance from the Early Stage of Minor Success to the Mid Stage in just a few thousand years, that would certainly astonish the thousands of Initial Tier Celestial Demons in Cyan Wood Forest!

After all, not every cultivator who can ascend to the Supreme Origin Realm is like Lin Xuankong, that bizarre character, who even before truly reaching the Supreme Origin Realm, directly jumped from the Early-Stage Initial Tier Celestial Immortal to the Initial Tier Celestial Immortal Perfection Realm, under the baptism of the Celestial Tribulation and the Primordial Qi of the Supreme Origin Realm... The stronger the realm, the later the stage within that realm, the more difficult it becomes for a cultivator to advance, as is the case for 99.999999% of cultivators. Ultimately, Lin Xuankong is an anomaly, a character even praised by the Golden Dragon Ancestor who once roamed the Supreme Origin Realm!

Upon hearing the Cyan Bird Celestial Demon say this, the Red-haired Celestial Demon seated below immediately accompanied his laughter,

"Heh heh, why rush, Lord Cyan Bird? After all, any cultivator in the Golden Dragon Mini World that crosses the final Celestial Tribulation and ascends to the Supreme Origin Realm must enter through the entrance of the third passageway! Even if that Artifact Refiner named Lin Xuankong somehow glimpsed some information about the entrance to the third passageway, he would still be helpless!

Unless that Artifact Refiner named Lin Xuankong is willing to remain in the Strongest Immortal Lord Realm indefinitely, even though his talent is extraordinary, he would at most have a lifespan of just over a hundred thousand years, at most around two hundred thousand or so. At that point, to avoid dying from running out of lifespan, he would only have the choice to trigger the final Celestial Tribulation to ascend to the Supreme Origin Realm!

Our time is unlimited, while the time of that Artifact Refiner named Lin Xuankong is very limited. In this case, at most, we only have to wait for him for a hundred thousand or two hundred thousand years!

To Lord Cyan Bird, two hundred thousand years is just a short time for one retreat, why pay attention!

In my opinion, Lord Cyan Bird, you might as well simply go into retreat for cultivation, leave the task of watching over the entrance to the third passageway to me and those little ones. I don't believe it; can several thousand Initial Tier Mid-Stage and even Late-Stage Celestial Demons not handle a small Initial Tier Celestial Immortal! Even if that Artifact Refiner named Lin Xuankong, after ascending to the Supreme Origin Realm, like that Great Success Yu Zhen Celestial Buddha, by some great chance directly

obtained a Growth-type Divine Artifact, with the Thousand Demon Slaying Immortal Array formed by several thousand Initial Tier Celestial Demons before him, he would still be utterly inescapable!"

The Cyan Bird Celestial Demon, hearing this, slightly shook its head,

To it, Lin Xuankong's artifact refining skills represent not only some Ninth-Grade Demon Artifacts or merely a Growth-type Divine Artifact but also a once-in-a-billion-year opportunity to curry favor with the Thousand Illusion Saint Monarch and receive his grace!

For this opportunity, let alone abandoning two hundred thousand years of closed-door cultivation, even two million years, or even twenty million years, it could give up!

This opportunity is too vital for it!

Just at that moment,

A voice suddenly came from outside the hall,

"Lord Cyan Bird, the Early-Stage Later Stage Celestial Demon Master San Lang, who is guarding the entrance to the third passageway, just sent a message, saying that the Golden Dragon Mini World connected to the third passageway suddenly experienced intense fluctuations; these fluctuations are several times more intense than those triggered eight thousand years ago when twenty-eight cultivators from the Golden Dragon Mini World crossed the tribulation simultaneously!

According to Master San Lang, if there is no mistake in perception, the number of cultivators crossing the tribulation in the Golden Dragon Mini World this time might be significantly more than eight thousand years ago!"

Upon hearing this, the face of the Cyan Bird Celestial Demon changed, and it suddenly stood up from its seat, "Could there be such a thing!"

In its eyes, a glint of greed and joy flashed,

The Cyan Bird Celestial Demon had even resolved to patiently stand guard over the entrance of the third passageway for tens of thousands of years, but never expected the Golden Dragon Mini World would once again have a large number of Strongest Immortal Lords crossing the tribulation so soon. How could it not be excited, how could it not be greedy, how could it not be joyous! After all, whenever someone ascends from the Golden Dragon Mini World through tribulation, there is always a chance it might be Lin Xuankong!

The Red-haired Celestial Demon repeatedly spoke, "Heh heh, no wonder that Artifact Refiner named Lin Xuankong spent over eight thousand years without crossing the tribulation; it's estimated this guy likely obtained some information about the Supreme Origin Realm, and then feared he might be captured by us like those twenty-seven Golden Dragon Immortal Realm cultivators, so this time, he gathered more cultivators of the Strongest Immortal Lord Realm to cross the tribulation together!

Hahahaha, this time, among those crossing the tribulation, that Artifact Refiner named Lin Xuankong is likely included! Your subordinate congratulates you in advance, Lord Cyan Bird, congratulations!"

In the eyes of this Red-haired Celestial Demon, as long as Lin Xuankong dares to cross the tribulation and ascend to the entrance of the third passageway, he would absolutely be unable to escape!

After all, after the previous incident where the Great Success Yu Zhen Celestial Demon escaped with a Growth-type Divine Artifact, the entire Cyan Wood Forest has been mobilized! The Thousand Demon Slaying Immortal Array at the entrance to the third passageway is now several times stronger than before. The Red-haired Celestial Demon is a hundred percent confident that even if Lin Xuankong ascends to the Supreme Origin Realm and among the various Ninth-Grade Immortal Artifacts he brings, a Growth-type Divine Artifact appears again, he still won't be able to escape!

The Cyan Bird Celestial Demon, bearing a look of joy, nodded slightly, then its whole body surged with an intense Demonic Qi, and the twenty Ninth-Grade Demon Artifacts each turned into a stream of light and merged into the range of Demonic Qi swirling around its body!

In the next instant, the Cyan Bird Celestial Demon and the Red-haired Celestial Demon had already vanished. When they reappeared, they were already in the high sky miles above, then these two leaders of the Cyan Wood Forest sped off toward the location of the third passageway entrance!

Soon after,

The Cyan Bird Celestial Demon and the Red-haired Celestial Demon arrived at the location of the third passageway entrance,

At this time, the number of Initial Tier Celestial Demons entrenched at the entrance to the third passageway had reached thousands, each one bowing and calling out "Lord" when they saw their Lord Cyan Bird Celestial Demon and Vice Lord Red-haired Celestial Demon.

One of the Initial Tier Celestial Demons, with particularly concentrated Demonic Qi around him, quickly landed beside the Cyan Bird Celestial Demon and the Red-haired Celestial Demon, cupping his hands, "Lord, Vice Lord, the unusual fluctuations from the Golden Dragon Mini World have been ongoing for a while. It is estimated that those cultivators from the Golden Dragon Mini World, who are crossing the tribulation simultaneously, are currently combating the final Celestial Tribulation. Calculating the time, in at most half an hour, those cultivators from the Golden Dragon Mini World will have all crossed the final Celestial Tribulation, and then ascend to the entrance here!

Your subordinate congratulates Lord Cyan Bird in advance, this time Lord Cyan Bird will surely obtain a large number of Ninth-Grade Demon Artifacts, even acquire Growth-type Divine Artifacts!"

The thousands of Initial Tier Celestial Demons around him were also excited, beginning to slowly activate the Demon Artifacts of various grades before them! Among these, nearly ten Initial Tier Celestial Demons were activating Ninth-Grade Demon Artifacts, all of which were naturally bestowed by the Cyan Bird Celestial Demon, the Ninth-Grade Immortal Artifacts once used by the Great Success Yu Zhen Celestial Buddha and others!

For these Initial Tier Celestial Demons, if another significant wave of cultivators from the Golden Dragon Mini World crosses the tribulation this time, while Lord Cyan Bird would indeed take the lion's share of the spoils, there was still some possibility of them getting a share of the reward, receiving some Ninth-Grade Demon Artifacts as a reward. How could they not be excited at the thought of this!

Chapter 1335: So What If It's a Minor Success Celestial Demon?

Amidst the anticipation of numerous Initial Tier Celestial Demons of the Thousand Illusion Race, time quietly slipped by, and half an hour passed in the blink of an eye.

To the surprise of all the Celestial Demons present,

under normal circumstances, once a cultivator in the Little World below successfully passes the final Celestial Tribulation, they would soon ascend to the Supreme Origin Realm through the World Passage.

However, this time,

after the unique fluctuations of the Golden Dragon Mini World ceased,

dozens of breaths passed, and still no cultivator from the Golden Dragon Mini World ascended!

The numerous Initial Tier Celestial Demons of the Thousand Illusion Race could not help but show expressions of puzzlement. Even the Cyan Bird Celestial Demon and the Red-haired Celestial Demon, who have been cultivating in the Supreme Origin Realm for an exceptionally long time, gradually showed peculiar expressions!

These Celestial Demons had no idea that the Ancestor of the Golden Dragon Immortal Realm was so engrossed in conversation with Lin Xuankong that it almost delayed the metamorphosis of dozens of Strongest Immortal Lord-level powerhouses!

Of course, most importantly, for these early-stage Initial Tier Celestial Demons to reach out to a powerhouse like the Golden Dragon Ancestor, they would likely need to cultivate for countless years, at least until the Minor Success Realm. Then, there would be a slight possibility of meeting powerhouses like the Thousand Illusion Saint Monarch at the early stage of Saint Monarch, while Lin Xuankong, already in the Strongest Immortal Lord Realm, was praised by Great Success Saint Monarchs like the Golden Dragon Ancestor and considered by the Golden Dragon Saint Monarch as a hopeful figure for future ascension!

After the numerous Celestial Demons puzzled for a while,

the Red-haired Celestial Demon in the early stage of Minor Success suddenly brightened his gaze and exclaimed, "It's here. Finally, a cultivator from the Golden Dragon Immortal Realm ascends to the Supreme Origin Realm. Judging by the previous intense fluctuations, the number of Initial Tier Celestial Immortals and Celestial Demons and Celestial Buddhas ascending this time might not be small! Heh, these little ones from the Golden Dragon Immortal Realm are indeed interesting. Either they don't ascend, or they all flock together at once!"

As he spoke, he looked at the Cyan Bird Celestial Demon beside him with a face full of respect and said, "I anticipate that among the cultivators ascending from the Golden Dragon Mini World to the Supreme Origin Realm this time, there might be that guy named Lin Xuankong! Let me congratulate Lord Cyan Bird in advance!"

Upon hearing this, the Cyan Bird Celestial Demon immediately showed a hint of hot expectation in his eyes,

Though he possesses an almost infinite lifespan, and he could wait at the entrance of this third gateway for hundreds of thousands or even millions of years, he would still do it! But if he could seize an opportunity to take down Lin Xuankong early, he would be extremely happy and expectant! After all, the hierarchy in the Thousand Illusion Celestial Demon Race is strict. Though he holds an extraordinary position in the Cyan Wood Forest, as the leader of all Initial Tier Celestial Demons and the undisputed Lord Cyan Bird, leaving the Cyan Wood Forest doesn't require going too far, just within the Red Water Demon City, there are many more Celestial Demons more powerful and with higher status than him!

It's not just the Great Success Celestial Demon Realm City Lord and the Saint Monarch Envoy from Red Water Demon City; even among the Minor Success Celestial Demons, many are much stronger than he is, in the late stage of Minor Success, and in the Minor Success Perfection Realm! In this Red Water Demon City, the Cyan Bird Celestial Demon must greet any Minor Success Celestial Demon in the late stage or perfected realm respectfully, calling them "sir"! To put it simply, during meals, other late-stage Minor Success Celestial Demons can sit, whereas he must stand. Others can serve themselves first, but he has to watch! Even the halls where Celestial Demons reside are strictly segregated by rank and strength!

Take the hall of the Cyan Bird Celestial Demon in the Cyan Wood Forest for instance; it absolutely cannot surpass any hall of a late-stage Minor Success Celestial Demon in terms of grandeur and construction standards, otherwise it would be considered overstepping and disrespecting the superior! In this strength-respected Supreme Origin Realm, especially among the Celestial Demon Race, being weak is the original sin!

As a result, the Cyan Bird Celestial Demon has been eagerly anticipating the moment of capturing Lin Xuankong ever since obtaining information about him!

Right now, with such a possibility finally arising, how could the Cyan Bird Celestial Demon not anticipate it, not be excited!

"Everyone heed my command, immediately push the Immortal Slaying Thousand Demon Array to the utmost, do not let any cultivator from the entrance of the third gateway slip through, even if they are from the Profound Yin Demon Race, do not allow them to leave! If we can capture that guy named Lin Xuankong among the dozens of Initial Tier Celestial Immortals and Celestial Demons and Celestial Buddhas this time, the one who contributes the most will definitely receive more than one Ninth-Grade Demon Artifact, and may even receive a trace of the World Source!"

As the Cyan Bird Celestial Demon gave orders, his voice carried a slight tremble.

It wasn't the fear of not capturing Lin Xuankong that made him tremble, but the possibility of seizing a once-in-a-lifetime opportunity to transform his destiny!

All the thousands of Initial Stage, Mid-grade, and a few Late Stage Initial Tier Celestial Demons present heard this and shouted in unison, each invoking their abundant demonic Qi, and in front of them, various grades of demon artifacts shone with even more powerful ripples!

At this moment, all the Celestial Demons present unanimously turned their gaze toward the entrance of the third gateway, which flickered with light.

At this moment,

the light at the entrance of the third gateway, which had been continuously sparkling, suddenly dimmed, and a figure suddenly appeared, dressed in a moon-white Daoist robe, precisely Lin Xuankong. Following him, the entrance of the third gateway, connecting the Golden Dragon Mini World and the Supreme Origin Realm, abruptly closed.

Seeing the entrance of the third gateway close directly, with only one person ascending from the Golden Dragon Mini World,

Chapter 1336: So What If You're a Minor Success Celestial Demon (2)

The red-haired Celestial Demon standing next to the Cyan Bird Celestial Demon couldn't help but show a look of surprise and doubt on his face, "This... the intense fluctuation earlier, it's clear, there should be at least several dozen Strongest Immortal Lord Level youngsters who have crossed the Celestial Tribulation. The degree of Primordial Qi surge in the Supreme Origin Realm also indicates that at least dozens or even close to a hundred Strongest Immortal Lord Level youngsters must have been tempered

by the Primordial Qi of the Supreme World! But why did only one Little Celestial Immortal arrive, and the entrance to Passage Three closed!"

It's not just the red-haired Celestial Demon; the thousands of Initial Tier Celestial Demons maintaining the Immortal Slaying Thousand Demon Array all showed astonished expressions.

These guys originally thought that if dozens or even nearly a hundred Strongest Immortal Lord Level folks ascended to the Supreme Origin Realm, then after dealing with those Initial Tier Little Celestial Immortals, Little Celestial Demons, and Little Celestial Buddhas, they would at least be able to acquire dozens or even hundreds of Middle to High-Grade Immortal Artifacts. In such a scenario, if Lord Cyan Bird became happy, he might reward them with a heap. Their chances of obtaining Middle to High-Grade Immortal Artifacts would significantly increase! What they didn't expect was, despite the huge commotion in the Little World below, only a single Little Celestial Immortal popped up!

However,

amid the astonishment of the many Initial Tier Celestial Demons,

the Cyan Bird Celestial Demon's face revealed a look of ecstatic joy.

The fact that only one cultivator ascended, closing the entrance of Passage Three, naturally surprised the Cyan Bird Celestial Demon. But when it saw the appearance of the cultivator in front of it, a surge of ecstatic emotion instantly rose in its heart-----earlier, at this entrance of Passage Three, as many as twenty-eight cultivators from the Human Race, Demon Race, and Buddhist Sect were captured by him, including Immortal Lord Feiyun, Sect Leader Qiu of the Divine Dynasty Immortal Sect, and Elder Qiu of the Divine Dynasty Immortal Sect, all of whom had their souls searched by the Cyan Bird Celestial Demon! Naturally, the Cyan Bird Celestial Demon had long memorized Lin Xuankong's appearance!

"Lin, Xuan, Kong! You've finally ascended to the Supreme Origin Realm! Hahahahaha!

Lin Xuankong, oh Lin Xuankong, did you know that I've been waiting here for you for nearly ten thousand years!"

The Cyan Bird Celestial Demon couldn't contain his ecstatic joy, raising his head and laughing wildly. That appearance, matched with his bird-like face, was truly immensely arrogant. At this moment, the Cyan Bird Celestial Demon felt he was so close to the Late Stage of the Minor Success Realm, Minor Success Perfection, he even thought that as long as he handed over Lin Xuankong to the Thousand Illusion Saint Monarch, achieving the position of Great Success Celestial Demon in the future would be without question!

Clearly, in the heart of this Mid Stage Minor Success Celestial Demon powerhouse, there was simply no possibility of Lin Xuankong escaping.

Having just ascended to the Supreme Origin Realm, Lin Xuankong,

sensing the extremely abundant Upper Realm Primordial Qi around him, initially showed a hint of delight on his face.

In his conception, the Supreme Origin Realm might be similar to the Golden Dragon Immortal Realm, although Spiritual Qi was everywhere, yet it was rather thin. However, the moment he ascended to the Supreme Origin Realm, he was constantly feeling his Immortal Body rapidly absorbing the endless Upper Realm Primordial Qi around him!

"This Supreme Origin Realm, truly worthy of the 'Supreme' name, such abundant Upper Realm Primordial Qi... even an ordinary person from the Golden Dragon Mini World who came here could immediately grow from a weak and humble ordinary person to the Ninth Grade of Transcendence or even the Tenth Grade of Transcendence!"

Lin Xuankong, with a face of joy, secretly said to himself.

Upon hearing the words of the Cyan Bird Celestial Demon and its wild laughter, Lin Xuankong suppressed his delight and looked towards the distant Cyan Bird Celestial Demon and the thousands of Celestial Demons around,

and a layer of coldness quickly appeared on his face, "Looking at this formation, it seems that you indeed have waited for me for nearly ten thousand years, and not just one person, but thousands of Celestial Demon Realm powerhouses! You surely think highly of me, setting up such a large formation, even stronger than a formation set up over thousands of years by several times!

But that bird-faced guy, you don't need to be so happy first. If the Celestial Demon Realm powerhouses you can summon are only these in front of me, you probably won't be able to keep me! Moreover, the formation set up by thousands of Celestial Demon Realm powerhouses is so poorly executed, with no progress at all over nearly ten thousand years, which is quite disappointing!"

At this moment, Lin Xuankong's voice was icy, but without a hint of arrogance!

Experiencing the Immortal Slaying Thousand Demon Array set up by thousands of Initial Tier Celestial Demons, and witnessing the two Minor Success Celestial Demons in front of him, he was quite disappointed because he had waited for nearly ten thousand years, diligently cultivating for nearly ten thousand years, with the goal of having enough strength and trump cards to face the Celestial Demon Race's ambush when he finally ascended to the Supreme Origin Realm!

During these near ten thousand years, Lin Xuankong was always cultivating, consistently refining various Immortal Techniques, Demon Techniques, and Buddhist Techniques, and simultaneously studying arrays and refining Immortal Artifacts. Yet what he found after nearly ten thousand years of preparation, was that the Immortal Slaying Thousand Demon Array set up by the thousands of Initial Tier Celestial Demons was, apart from being slightly larger and a bit more powerful, had made no progress in terms of array intricacies!

The current setup, for Lin Xuankong, felt like he fully prepared to hammer a piece of iron, only to find he was striking tofu instead!

Facing the Celestial Demons and their so-called Immortal Slaying Thousand Demon Array that hadn't made much progress over the nearly ten thousand years, Lin Xuankong felt he didn't need to resort to the thousands of Ninth-Grade Immortal Artifacts he had prepared, nor did he need to set up the Luo Water Array, which had reached the Eight-Layered Realm! He feared he could just use his Ultimate Golden Body Demon Suppression Technique along with his Hundred Thousand Demon Bodies, relying purely on power and speed, to handle it!

"Hehe, such big talk! Just a little guy who has just ascended to the Supreme Origin Realm, claiming to oppose the array siege of thousands of Celestial Demon Realm powerhouses..."

The red-haired Celestial Demon obviously thought Lin Xuankong was bragging, but just as he said this, he seemed to sense something and then showed an incredulous expression, exclaiming:

"Something's wrong, very wrong, this guy clearly just ascended from the Golden Dragon Mini World as an Initial Tier Celestial Immortal, why is his emanating fluctuation so strong? If I haven't sensed wrongly, this guy is already at the Initial Tier Perfection level of a Celestial Immortal? But how is that possible, not to mention in a Lower Realm like the Golden Dragon Mini World, even in the Supreme Origin Realm filled with endless Primordial Qi, it's hard to quickly elevate one's realm! This guy..."

Sensing Lin Xuankong's realm, the red-haired Celestial Demon's face was full of disbelief when he looked at Lin Xuankong again.

The other thousands of Initial Early Stage, Mid-grade, and Late Stage Celestial Demons, at this moment, looked at Lin Xuankong, sensing his fluctuation, all showing astonished expressions.

One Celestial Demon Realm powerhouse at the Late Stage of Initial Tier couldn't help but speak out: "Indeed, it's a fluctuation that only a cultivator at Initial Tier Perfection could emit! The lord was right, this is too strange! It's not possible this guy could quickly grow to such a realm just by crossing the tribulation!"

Seeing this, the Cyan Bird Celestial Demon couldn't help but snort coldly, "Humph! Even if it's a small Celestial Immortal at the Initial Tier Late Stage or Perfection, so what? No matter what kind of grand opportunity you, Lin Xuankong, have, encountering our Immortal Slaying Thousand Demon Array of the Cyan Wood Forest, the only result is capture!"

This cold snort was clearly powered by some Profound Mysterious Demon Technique, containing a special power, when the sound was transmitted instantly into each Initial Tier Celestial Demon's ears, enhanced by Demonic Qi, immediately awakening all these astonished Initial Tier Celestial Demons, each accelerating to activate the thousands of Demon Artifacts acting as array hubs.

In an instant,

the Immortal Slaying Thousand Demon Array, originally set up, instantly increased in power, waves of fluctuation formed by Demonic Qi slowly spread towards Lin Xuankong.

Lin Xuankong, however, completely disregarded the Immortal Slaying Thousand Demon Array set up by these thousands of Celestial Demon Realm powerhouses, after hearing the Cyan Bird Celestial Demon's words, his voice carried a tinge of coldness as he spoke:

"Humph! Even if you're a Minor Success Celestial Demon, so what!

Today, since I, Lin Xuankong, dare to ascend alone to this Upper Realm, surely I have the ability to take you all down!"

Chapter 1337: How Could He Possibly Do It

"Hahaha! This kid is so arrogant, how dare he say 'What does a Minor Success Celestial Demon matter?'"

"This little Celestial Immortal must be terrified by the sheer number and power of those besieging him!"

"Even if he has ascended to the Supreme Origin Realm and directly achieved the Late Stage of the Initial Tier Realm through some opportunity, so what? With thousands of strong cultivators forming the Immortal Slaying Thousand Demon Array, not to mention an Initial Tier Perfection Celestial Immortal, even a Celestial Immortal at the Late Stage of Minor Success might not be able to escape from the array! He's crazy, what he's saying is nonsense, hahaha, he must be scared out of his wits!"

"Absolutely! How could a little Celestial Immortal possibly think that after ascending to the Supreme Origin Realm, instead of achieving great prospects and futures, he would immediately encounter thousands of strong cultivators— isn't it only natural for him to be terrified?"

After hearing Lin Xuankong say "What does a Minor Success Celestial Demon matter?"

Those Initial Tier Celestial Demons who had just snapped out of their shock couldn't help but burst into laughter.

Indeed, Lin Xuankong had just entered the Supreme Origin Realm and already possessed the power of Initial Tier Perfection, which surprised every Initial Tier Celestial Demon present. After all, they had spent tens of thousands, even hundreds of thousands of years in the Supreme Origin Realm, only reaching the realm of Initial Tier Celestial Demon; even those with extraordinary talent had merely

cultivated to the Celestial Demon Realm powered by Initial Tier Demonic Qi... How could they have ever seen a cultivator from lower small worlds emerge from the World Passage at Initial Tier Perfection!

But to them, an Initial Tier Perfection Celestial Immortal might lose when facing them individually... Now there were thousands of Initial Tier Celestial Demons here!

In the view of these thousands of Initial Tier Celestial Demons, not to mention an Initial Tier Perfection Celestial Immortal, even a Celestial Immortal at the Early or Mid Stage of Minor Success facing the Immortal Slaying Thousand Demon Array couldn't escape or resist! Even if the Early Stage of Minor Success might single-handedly defeat hundreds or even thousands of Initial Tier Celestial Demons, it's definitely impossible against thousands, especially since the Immortal Slaying Thousand Demon Array is enhanced and amplified through a Profound Mysterious Array!

Moreover, guarding near the third passage entrance were the Cyan Bird Celestial Demon at the Mid Stage of Minor Success, respected by every Celestial Demon in the Cyan Wood Forest, and the Red-haired Celestial Demon at the Early Stage of Minor Success!

Under such a disparity of power and circumstance,

Lin Xuankong nonetheless uttered the phrase "What does a Minor Success Celestial Demon matter!"

Upon hearing this, these thousands of Initial Tier Celestial Demons couldn't help but feel the absurdity, believing Lin Xuankong must be crazy!

After a round of sneering discussions among the demons, the Red-haired Celestial Demon standing next to the Cyan Bird Celestial Demon suddenly spoke: "Lord Cyan Bird, this kid is so rampant, this subordinate finds it unbearable. Why not let this subordinate handle this brat who doesn't know the immensity of heaven and earth!"

The Cyan Bird Celestial Demon had been filled with confidence about his combat power since reaching the Mid Stage of Minor Success, considering that the Ninth-Grade Immortal Artifact possessed by Lin Xuankong had a likelihood of advancing to a Growth-type Divine Artifact, yet undoubtedly could not escape his grasp, surely wouldn't end up like the Great Success Yu Zhen Bodhisattva nearly ten thousand years ago... In his view, eight thousand years ago, if it weren't for exceptionally bad luck, running into

the Fourteenth Princess of the Candle Dragon Celestial Demon Race, that Great Success Yu Zhen Bodhisattva would never have escaped!

Additionally, given the Immortal Slaying Thousand Demon Array arranged by thousands of his subordinates nearby, the Cyan Bird Celestial Demon had absolutely no doubt about capturing Lin Xuankong!

Encountering Lin Xuankong whom he had waited for nearly ten thousand years, the Cyan Bird Celestial Demon was indeed in high spirits, nodding slightly, "Remember not to overdo it, don't injure him too severely. Lin Xuankong is of significant use to me, and of great use to the esteemed Thousand Illusion Saint Monarch as well!"

Upon hearing this, the Red-haired Celestial Demon immediately cupped his hands and said: "Rest assured, Lord Cyan Bird, it's merely to teach this boy a lesson. How dare this subordinate do anything too heavy-handed and spoil your plans!"

Having said this, the Red-haired Celestial Demon turned to Lin Xuankong, a scornful look gleaming in his vertical pupils, sneering: "Lin Xuankong, you are so arrogant, presumably because you rely on your exceptional Path of Artifact Refining skills, having refined some Ninth-Grade Immortal Artifacts! Since that's the case, I'll give you an opportunity now, to activate all your Ninth-Grade Immortal Artifacts that you have prepared, whether ten or eight, or dozens, I'll allow you to use them freely, I'll let you attack first so that you don't accuse this old man of bullying the young!"

As his words stopped, the Demonic Qi around the Red-haired Celestial Demon's body surged continuously,

The red hair on its body extended continuously and in an instant formed dozens of entwined red-haired long whips, with condensed Demonic Qi wrapped around them, about hundreds of feet in length, one end connected to the demon body of the Red-haired Celestial Demon, the other end swaying continuously, appearing quite eerie, as if dozens of long red arms suddenly grew around its body!

Most strikingly, as the thirty-six constantly swinging arms of the Red-haired Celestial Demon twisted, they seemed to faintly hold some special rhythm, appearing eerily yet possessing a unique beauty filled with extreme danger!

Although the talent and power of the Red-haired Celestial Demon weren't as high as the Cyan Bird Celestial Demon, it was after all a true Celestial Demon at the Early Stage of Minor Success, possessing strength far beyond Initial Tier Celestial Demons, clearly displaying a sense of Dao rhythm when invoking the Demon Technique!

Chapter 1338: How Could He Possibly Do That? (2)

Thousands of Celestial Demons surrounding them showed a hint of awe as they saw the Red-haired Celestial Demon immediately summon its renowned Thirty-Six Celestial Spirits Demon Whip.

As the Red-haired Celestial Demon drew closer to Lin Xuankong, many Celestial Demons looked at Lin Xuankong from afar and sneered, gazing at Lin Xuankong as if he were a mad fool.

The gap between each realm among cultivators in the Supreme Origin Realm is vast,

such as the difference between Initial Tier Celestial Demons and Initial Tier Celestial Immortals, and Minor Success Celestial Immortals and Minor Success Celestial Demons, is like a chasm,

far greater than the gap between similar realms among cultivators in the Little Worlds like the Golden Dragon Immortal Realm!

For example, in the Golden Dragon Immortal Realm, even the strongest Immortal Lord-level powerhouses, despite being considered peak powerhouses capable of dominating the Golden Dragon Immortal Realm, if they faced dozens of Ninth-Grade Earth Immortals, they could still be defeated by them working together! But in the Supreme Origin Realm, not even a hundred Initial Tier Celestial Demons and Initial Tier Celestial Immortals could be a match for Minor Success Celestial Demons and Minor Success Celestial Immortals!

Given such a vast disparity, no Initial Tier Celestial Demon would ever think that Lin Xuankong was a match for the Red-haired Celestial Demon!

Lin Xuankong saw many Celestial Demons sneer one by one, while the Red-haired Celestial Demon was even more arrogant, insisting he make the first move,

he couldn't help but shake his head slightly, not showing any trace of anger, and even found it somewhat amusing.

At this moment, the Red-haired Celestial Demon had floated within a thousand feet of Lin Xuankong, with its red-haired long whip twisting constantly with a certain Dao rhythm, all pointing directly at Lin Xuankong, looking as if dozens of tentacles with terrifying power could extend over and attack Lin Xuankong at any time!

Even though Lin Xuankong's realm was at Initial Tier Perfection, being locked on by these dozens of red-haired long whips, he could still feel a sense of danger!

It was the pressure from the immense gap between cultivation tiers, pressure from the level of life, but it wasn't that Lin Xuankong didn't have confidence in his own trump card!

"If you don't unleash your Ninth-Grade Immortal Artifacts soon, you'll miss your chance!

Lin Xuankong, are you sure you want to rely solely on your immortal body to face my Thirty-Six Celestial Spirits Demon Whip? Tsk tsk, I thought fighting a master artifact refiner like you might be interesting, since you have at least dozens of Ninth-Grade Immortal Artifacts, you would have some strength! But seeing you like this... Could it be you've realized the difference between you and a Minor Success Realm Celestial Demon, and are ready to give up?"

"Hahaha, the lord is right, this kid must be ready to give up resisting!"

"It's fine, it's fine, just give up resisting and surrender directly, saving the lord from having to act in person!"

"That guy named Lin Xuankong, where's the aura you had earlier, speaking so boldly about Minor Success Celestial Demons!"

Thousands of Initial Tier Celestial Demons heard their Red-haired Celestial Demon Lord say this and instantly laughed heartily one after another.

Lin Xuankong remained unmoved, completely ignoring the thousands of wildly laughing Initial Tier Celestial Demons. In Lin Xuankong's view, even the Immortal Slaying Celestial Demon Array laid down by

these thousands of Initial Tier Celestial Demons still had countless flaws; such an array was simply too poor in the eyes of an Array Master like him!

"To deal with a Minor Success Early Stage Celestial Demon like you, I don't need to use any Ninth-Grade Immortal Artifacts!"

Lin Xuankong looked at the Red-haired Celestial Demon of Minor Success Early Stage already within a thousand feet and suddenly spoke.

Even before the Red-haired Celestial Demon could become furious over this statement, Lin Xuankong had already activated all the upper realm primordial qi he had just absorbed, chanting under his breath,

In the next instant,

all the upper realm primordial qi within Lin Xuankong's body had instantly converted into pitch-black demonic qi, and immediately, on both the left and right sides of Lin Xuankong's body, appeared six avatars each, looking identical in form and appearance to him, totaling twelve Initial Tier Perfection avatars.

This Ten Thousand Body Demon Technique from the Profound Yin Demon Sect had long been cultivated by Lin Xuankong to Perfection Realm; after his immortal body was nourished by the Supreme Origin Realm's primordial qi, this demon technique from the Profound Yin Demon Sect, when activated, became many times stronger, with the two manifested demon bodies matching Lin Xuankong perfectly in body strength, demonic qi concentration, and more!

It's important to note that in the Golden Dragon Immortal Realm, even the Demon Lord-level powerhouses from the Profound Yin Demon Sect adept at using the Ten Thousand Body Demon Technique could never successfully manifest twelve avatars with identical strength, at best similar in appearance, with the avatar realm being at least one or two grades lower!

Otherwise, those Demon Lord-level powerhouses of the Profound Yin Demon Sect in the Golden Dragon Immortal Realm would definitely have each cultivated this terrifying demon technique that could amplify their own strength twelvefold! Under such circumstances, dozens of Demon Lord-level powerhouses from the Profound Yin Demon Sect would have turned into hundreds of Demon Lord-level

powerhouses at once...so many Demon Lord-level powerhouses, even just relying on their physical bodies, could have swept across the entire Golden Dragon Immortal Realm countless years ago!

Seeing the upper realm primordial qi around Lin Xuankong's body instantly transform into condensed demonic qi, and furthermore directly activate a powerful demon technique, manifesting a full twelve avatars, those thousands of Initial Tier Celestial Demons witnessing couldn't help but widen their eyes in shock.

The Red-haired Celestial Demon in the Minor Success Realm, who was preparing to attack Lin Xuankong, couldn't suppress showing an extremely surprised expression, frowning and saying:

"This should be the Ten Thousand Body Demon Technique that the Profound Yin Celestial Demon Race cultivators all practice, to think that Lin Xuankong, you're not only an artifact refiner, but also have some accomplishments in demon techniques, suppose you've surprised me! The Profound Yin Celestial Demon Race cultivators, when conjuring avatars through this technique, the cost is quite high, because it's directly manifesting several genuine selves! I heard that the Celestial Demons of the Profound Yin Celestial Demon Race managed to slightly enhance their clan's status by cultivating this Ten Thousand Body Demon Technique!

You've actually practiced this demon technique as well?"

The Red-haired Celestial Demon showed some doubt and continued: "This situation isn't right; how can you directly manifest twelve avatars identical in strength to yourself? This kind of consumption should only be capable of being activated by Minor Success Mid-stage or higher realm Celestial Demons! You're merely at Initial Tier Perfection; how did you manage this?"

Yet, what the Red-haired Celestial Demon doesn't know is that Lin Xuankong, relying on his various talents and almost ten thousand years of continuous cultivation, can store quantities of upper realm primordial qi within his immortal body far in excess of tens of thousands, even hundreds of thousands, of cultivators of the same realm!

In fact, if not for heeding the words of the Golden Dragon Ancestor, this time Lin Xuankong activated the Ten Thousand Body Demon Technique, he could potentially manifest thousands upon thousands of avatars in the same realm as 'Lin Xuankong'! But that would be far too ostentatious...

At this moment, Lin Xuankong glanced at the puzzled-faced Red-haired Celestial Demon and gently shook his head, saying:

"I'll just repeat what I said earlier; how about a Minor Success Celestial Demon!"

In a flash,

the twelve powerful avatars surrounding Lin Xuankong,

including himself, had already activated the Golden Body Demon Suppression Technique!

Instantly,

the twelve strong avatars around Lin Xuankong, including himself, emitted powerful fluctuations; numerous Buddhist Secret Patterns continuously emerged on Lin Xuankong and the twelve avatars' bodies, and in addition, Buddha's Light was radiating profusely around them!

Those thousands of Initial Tier Celestial Demons, witnessing this, couldn't help but show even more pronounced looks of surprise.

"This can't be, absolutely impossible!

You clearly just transformed all the upper realm primordial qi within your body into demonic qi capable of performing various immortal and demon techniques, now yet able to use these demon bodies to activate the Golden Body Demon Suppression Technique? How can demonic qi possibly activate Buddhist Techniques of Spirit Platform Buddhism!"

The Red-haired Celestial Demon gazed at the changes on Lin Xuankong's side, suppressing its urge to act, and yet its bird-like face revealed an extremely evident expression of puzzlement.

Buddhism and demonism are chasms apart; it's utterly unimaginable to use demonic qi to activate the Golden Body Demon Suppression Technique...this truly goes far beyond its expectations!

## Chapter 1339: Lord, Save Me

"Impossible?"

"It's just that you can't do it, that's all!"

Hearing the Red-haired Celestial Demon's words, seeing the confusion on that ugly bird-face of his,

Lin Xuankong shook his head.

Before his voice had even fallen, Lin Xuankong and the twelve incarnations manifested by the Ten Thousand Body Demon Technique, carrying countless streams of Buddha's Light, slowly walked toward the Red-haired Celestial Demon!

Seeing Lin Xuankong slowly walking over, the Red-haired Celestial Demon, who had been full of doubt a moment ago, suddenly let out a cold laugh,

"So what if you can use Buddhist Technique to drive twelve Ten Thousand Body Demon Techniques?"

Even if there are twelve incarnations at Initial Tier Perfection, the gap between them and a true Celestial Demon at the Early Stage of Minor Success is still as vast as heaven and abyss! Don't say twelve— even a hundred and twenty Initial Tier Perfection incarnations are far from being my match!"

As he finished, his thirty-six Red-haired Demon Whips suddenly extended, tracing out elegant arcs as they swept toward Lin Xuankong and those twelve Initial Tier Perfection incarnations.

To be able to cultivate to the Early Stage of Minor Success as a Celestial Demon, one had obviously already comprehended some superficial Laws; this Red-haired Celestial Demon was no exception. The trajectories of those thirty-six Red-haired Demon Whips looked erratic and unpredictable, yet when they twisted they were pleasing to the eye, complex but not chaotic, like antelope horns hanging in midair, like fine rain drifting down, like ripples on water—Extremely Divine and Mysterious!

The distance between the Red-haired Celestial Demon and Lin Xuankong was only about a thousand zhang to begin with,

For an attack from a powerhouse at Minor Success Celestial Demon Level to cross such a distance, the time needed was far, far too short, to the point it could no longer be described as an instant or a split second. One could only say: more fleeting than a split second, shorter than an instant, faster than a white horse flashing past a crack in the wall!

However,

back when he was in the Golden Dragon Immortal Realm, Lin Xuankong's Divine Soul had already been the most perfect Divine Soul in the Golden Dragon Immortal Realm,

Now, after both Immortal Body and Divine Soul had been nourished and transformed by the Supreme Origin Realm Primordial Qi, they had long since become even more powerful. That Red-haired Celestial Demon's attack, in the eyes of other Initial Tier Celestial Demons or Initial Tier Celestial Immortals, might be unfathomable, so fast they couldn't react at all, but in Lin Xuankong's eyes, it was like the movements of a slow old man, appearing incomparably sluggish!

When those thirty-six constantly twisting Red-haired Long Whips extended to the positions of the twelve Ten Thousand Body Demon Technique incarnations, Lin Xuankong and the twelve Ten Thousand Body Demon Technique incarnations moved in unison, each reaching out to grab those thirty-six Red-haired Demon Whips respectively, then poured boundless Primordial Qi into them, blocking the offensive of those thirty-six Red-haired Demon Whips.

In that instant,

those thirty-six Red-haired Demon Whips and Lin Xuankong formed a stance of mutual deadlock,

No matter how that Red-haired Celestial Demon at the Early Stage of Minor Success urged them on, no matter how those Red-haired Demon Whips twisted, they could not break free from the hands of Lin Xuankong and the twelve Ten Thousand Body Demon Technique incarnations, much less launch any attack on Lin Xuankong! On the other hand, the Red-haired Celestial Demon was, after all, a Celestial Demon at the Early Stage of Minor Success; the Power contained within his Demon Body was incomparably vast, so for a moment Lin Xuankong also could not tear apart those Red-haired Demon Whips!

However, this scene falling into the eyes of those several thousand Initial Tier Celestial Demons made every Initial Tier Celestial Demon present widen their eyes.

"How... how did he do that? An Initial Tier Perfection Celestial Immortal—how could he possibly compare in Power with the Vice Lord? The Vice Lord can't be toying with him on purpose, right, just playing him?"

"What's most bizarre is that he's simultaneously driving twelve Demon Technique incarnations, and then simultaneously grabbing thirty-six hair-whips launched by the Vice Lord. The difficulty of that is countless times greater than controlling one's own body—he's using a single consciousness to command thirteen bodies at the same time!"

"The Vice Lord must be teasing him, otherwise, even thirteen Initial Tier Perfection Celestial Immortals, combined, are still far from being comparable to the Power of a Celestial Demon at the Early Stage of Minor Success!"

As the many Initial Tier Celestial Demons exclaimed in shock, they kept discussing non-stop,

The Red-haired Celestial Demon, hearing those comments, felt a mix of shame and anger rise in his heart,

Like hell I'm toying with him, you bunch of idiots! I've already pushed my Demon Body and Demonic Qi to the limit right now, and I still can't break free from the Power of these twelve Demon Body Incarnations of Lin Xuankong! How in the hell is this Lin Xuankong doing this? Why is the Power of his Demon Body so terrifyingly strong?

The Cyan Bird Celestial Demon, watching from the side, also had a flicker of surprise in his eyes at this moment. He had cultivated together with the Red-haired Celestial Demon in the Cyan Wood Forest for who knows how many years, so he naturally understood this subordinate's strength extremely well! Although, due to the difference in Cultivation Realm, the Red-haired Celestial Demon was far inferior to the Cyan Bird Celestial Demon's strength, within the Cyan Wood Forest, aside from himself, Cyan Bird, the Red-haired Celestial Demon was absolutely an existence that could be called invincible!

Those thirty-six Red-haired Demon Whips of the Red-haired Celestial Demon were fearsome Demon Artifacts that he had nourished and tempered for several million years with condensed Demonic Qi and

Essence Blood of the Supreme Origin Realm, their might several times stronger than what some Ninth-Grade Demon Artifacts could unleash. Even if they couldn't quite compare to an Initial Tier growth-type Divine Artifact, the difference was not that great!

Even the Cyan Bird Celestial Demon, when facing the thirty-six Red-haired Demon Whips of the Red-haired Celestial Demon, would need to use at least twenty to thirty percent of his strength to subdue them!

Yet a mere Initial Tier Perfection Celestial Immortal was, relying on twelve Demon Technique incarnations, fighting the Red-haired Celestial Demon to a standstill? The problem was, Lin Xuankong's Talent was supposed to lie in his Artifact Refining Talent—so why was the Power of his Immortal Body so terrifying that he could hard-tank the powerful Demon Artifact of a Celestial Demon at the Early Stage of Minor Success without falling into a disadvantage?

As the Cyan Bird Celestial Demon marveled, the Demonic Qi within his body was already slowly being roused,

Chapter 1340: Lord, Save Me\_2

Lin Xuankong's power before him had already exceeded his expectations. Although it wasn't enough to cause the Cyan Bird Celestial Demon any anxiety or fear, facing a chance that could change his entire life, the Cyan Bird Celestial Demon didn't want any accidents to occur, didn't want any mishaps!

At the same time, the Cyan Bird Celestial Demon said in a deep voice, "Don't think you can simply use your Demon Body and Demon Artifact to overwhelm the opponent. This Lin Xuankong has some unusual power. Activate your Crimson Demon Technique!"

Upon hearing his lord's words, the Red-haired Celestial Demon, who was already activating thirty-six Red-haired Demon Whips against Lin Xuankong, immediately showed a trace of awkwardness and shame on his face. The next moment, a dazzling crimson color suddenly flowed across his skin, and the speed of demonic qi within and on the surface of his body soared several times!

Opposite,

Lin Xuankong, who was activating twelve Demon Body Incarnations, suddenly felt a tightness in his grasp. The power emanating from those thirty-six Red-haired Demon Whips had suddenly increased several times, almost causing him to let go!

"Now this is interesting! If the Early Stage of Minor Success Celestial Demon only had that bit of power before, it would be too disappointing!" Lin Xuankong secretly thought.

This wasn't Lin Xuankong showing off, but he truly hadn't used any trump cards yet, merely activating the Ten Thousand Body Demon Technique and the Perfection Realm Golden Body Demon Suppression Technique!

He hadn't even used any talents from his Vigorous in Old Age Life Plate, such as Growing Stronger with Age, Cunning and Deceitful, and bullying the old and weak!

Especially the powerful talent of bullying the old and weak... this rule-level talent can increase power with the opponent's age. Back in the Golden Dragon Immortal Realm, Lin Xuankong's opponents were mostly tens of thousands, hundreds of thousands, at most several hundred thousand years old Profound Yin Demon Sect Celestial Demons. At that time, whenever Lin Xuankong activated the bullying the old and weak talent, he could increase power by hundreds of times and beat the opponent to pulp. Moreover, after arriving in the Supreme Origin Realm, these Celestial Demons are often several million years old... perhaps even tens of millions, hundreds of millions or more ancient monsters!

Even Lin Xuankong couldn't predict, once he activated the bullying the old and weak talent, what terrifying power would erupt against the target and opponents!

Furthermore, Lin Xuankong couldn't predict the extent of his own energy consumption once he activated the bullying the old and weak talent - after all, in the Supreme Origin Realm, the power he unleashed relies on consuming a substantial amount of Upper Realm Primordial Qi!

But at this moment, what Lin Xuankong least wanted to use immediately was this talent, which is like a super bug after arriving in the Supreme Origin Realm, because although he could achieve a shocking blow using this bullying the old and weak talent, if any news leaks, it would also attract immense attention!

Thus, seeing that those thirty-six Red-haired Demon Whips were constantly twisting in his hands with the twelve Demon Body Incarnations, about to escape his control,

Lin Xuankong immediately focused his gaze and muttered a chant, and majestic and solemn Buddha names came out of his mouth.

In an instant, on Lin Xuankong and the twelve Demon Body Incarnations' bodies, one Buddha Pattern after another began to shine brighter,

Previously, Lin Xuankong activated the Perfection Level Golden Body Demon Suppression Technique, which is said to possess the power of ten thousand Buddha statues, whereas the Ultimate Realm Golden Body Demon Suppression Technique is said to possess the power of a hundred thousand Buddha statues, ten times stronger than the Perfection Realm Golden Body Demon Suppression Technique. The upper Body Cultivation and Defense Technique of Buddhism, under the activation of Primordial Qi from the Supreme Origin Realm, has increased its power by many times!

It is only at the moment in the Supreme Origin Realm, where the world space and material are extremely stable, that Lin Xuankong was able to activate this Ultimate Realm Golden Body Demon Suppression Technique without causing any damage to the surrounding space! Otherwise, if Lin Xuankong were in the Lower World Golden Dragon Immortal Realm and could use the Upper Realm Primordial Qi to activate this Ultimate Realm Golden Body Demon Suppression Technique, the mere fluctuation generated by the body would completely destroy the space stability within hundreds of thousands or even millions of miles, turning that area into collapsed apocalypse!

At this moment, as the Buddha Patterns on Lin Xuankong and the twelve Demon Body Incarnations continued to grow more numerous,

The thirty-six Red-haired Demon Whips that were constantly twisting in Lin Xuankong's hands, about to escape, were immediately gripped tightly by him and the twelve Demon Body Incarnations, unable to escape no matter how they struggled and unable to cut through any attack!

At this moment, the twelve Demon Body Incarnations of Lin Xuankong were full of demonic energy, appearing fierce and formidable, yet their entire bodies were continuously shining with Buddha Patterns, looking bizarre, harmonious, and astonishing!

It's only such a monster as Lin Xuankong, who can cultivate Buddhist Technique, Demon Technique, Immortal Technique, and Demon Technique all to the Perfection Realm, that can display such an extraordinary achievement before thousands of Initial Tier Celestial Demons!

"This... this is impossible. I've already activated the Crimson Demon Technique to its extreme. Even if two hundred Initial Tier Perfection Celestial Immortals simultaneously exert their power, it shouldn't suppress my thirty-six Demon Whips! How did he do it? He's merely an Initial Tier Perfection Celestial Immortal! How can he simultaneously activate Buddhist Technique and Demon Technique? How can his Buddhist Technique release a power that can transcend realms?"

The Red-haired Celestial Demon frantically activated the Crimson Demon Technique, his face somewhat twisted, and shouted softly.

Just then,

The remaining tens of thousands of Buddha Patterns on Lin Xuankong and the twelve Demon Body Incarnations simultaneously lit up,

Then, the twelve Demon Body Incarnations simultaneously roared, firmly grasping the Red-haired Celestial Demon's thirty-six Demon Whips, and then pulled those thirty-six Demon Whips, flying quickly in different directions.

In the blink of an eye, those twelve Demon Body Incarnations fell to different positions, then exerted their power, frantically tearing apart.

The Ultimate Realm Golden Body Demon Suppression Technique, paired with the Ten Thousand Body Demon Technique, paired with Primordial Qi of the Supreme Origin Realm, unleashes a terrifying power,

In less than one ten-thousandth of a breath, the Red-haired Celestial Demon suddenly let out a wretched cry, as over half of its thirty-six Demon Whips were torn from its body!

Those Red hairs are inherently transformed from its Essence Blood and hair, connected to its skin. This round of tearing directly tore off a large portion of this Red-haired Celestial Demon's skin and muscles, revealing the bloody muscles, bones, and internal organs within!

"Ah! Ah!"

The Red-haired Celestial Demon suddenly let out a series of wretched cries.

If it were only a matter of skin and flesh being damaged, which for the Red-haired Celestial Demon with Early Stage of Minor Success power would merely cause some pain, such damage to the skin is hardly worth mentioning to a strong being of the Early Stage of Minor Success, as the injuries could heal instantly!

But these Red-haired Demon Whips are not ordinary hair for the Red-haired Celestial Demon; they are its fatal point, refined over millions of years using Essence Blood and Primordial Qi! The tearing off of these Red-haired Demon Whips equates to the Red-haired Celestial Demon suffering grievous harm, far worse than suffering the exploding of its head a hundred times!

If not for six or seven remaining Red-haired Demon Whips that hadn't been torn off, the Red-haired Celestial Demon would have already fainted on the ground, much like Sect Leader Qiu of the Divine Dynasty Immortal Sect who was previously besieged and grievously injured, losing all resistance and needing to absorb a massive amount of Upper Realm Primordial Qi to recover!

"Lord save me! Lord save me, lord save me!" With the last bit of strength, the Red-haired Celestial Demon desperately activated the Crimson Demon Technique, absorbing the surrounding Upper Realm Primordial Qi, and then let out cries of misery!

At this moment, this Vice Lord, who ranks among thousands of Celestial Demons in the Cyan Wood Forest beneath only one, no longer had the arrogant spirit he showed when facing Lin Xuankong, without the slightest confidence, no longer viewed Lin Xuankong with such disregard!

The faces of those thousands of Initial Tier Celestial Demons seeing this changed drastically, as if witnessing the least likely event in this Realm of Supreme Heroes!

Indeed, such phenomena are extremely rare in the Supreme Origin Realm - an Initial Tier Perfection Celestial Immortal, without utilizing any Immortal Artifact, relying solely on physical strength to defeat an Early Stage of Minor Success Celestial Demon; such a matter, not only have these thousands of Celestial Demons never seen, they barely even heard of it!
