

Stronger 1341

Chapter 1341: Giving You a Chance

The scene before his eyes,

for the Cyan Bird Celestial Demon, was also the first time witnessing such an event since the dawn of time,

though it had heard of the unparalleled genius Yidao from the Ten Thousand Laws Celestial Demon Race, and the Second Princess from the Candle Dragon Race, who once, at the Late Stage of Initial Tier Celestial Demon and Celestial Demon, defeated opponents at the Early Stage of Minor Success Realm. But those unparalleled geniuses only appeared occasionally within the entire Great Domain and never amongst cultivators who ascended from the lower Little World below!

Moreover, the most important point was that those so-called unparalleled geniuses who could defeat Early Stage opponents at the Late Stage of Initial Tier also used some powerful Immortal and Demon Artifacts or Growth-type Divine Artifacts!

How could someone like Lin Xuankong, an Initial Stage Perfection Celestial Immortal, purely rely on their own physical power and speed, purely on their own strength, to defeat a guy at the Early Stage of Minor Success Realm Celestial Demon!

In the midst of the Cyan Bird Celestial Demon's astonishment, it saw Lin Xuankong, who had completely gained the upper hand, and those twelve Initial Stage Perfection Demon Body Incarnations, vigorously brandishing the red-haired long whips torn from the Red-haired Celestial Demon.

With the blessing of the Ultimate Golden Body Demon Suppression Technique,

the power of Lin Xuankong at this moment was astonishing. Those dozens of red-haired long whips lashed at the blood-stained Red-haired Celestial Demon with terrifying speed, directly drawing the howling Red-haired Celestial Demon from mid-air to the ground, smashing the ground's rocks along with the Red-haired Celestial Demon into the depths of dozens of yards underground!

The ground of the Supreme Origin Realm is by no means comparable to the ground of the lower Little World under the Golden Dragon Immortal Realm,

especially the hard rocks on the ground. Although the hardness of these ground rocks in the Supreme Origin Realm cannot be compared with Demon Artifacts, Immortal Artifacts, or Divine Artifacts, the rocks, soil, and land of the Supreme Origin Realm contain endless Upper Realm Primordial Qi, their hardness is equivalent to the Seventh and Eighth Grade Immortal Artifacts of the lower Little World!

This kind of hard ground was forcibly smashed into a pit dozens of yards deep by the body of the Red-haired Celestial Demon. It is imaginable, the force exploded by Lin Xuankong and his twelve Demon Body Incarnations, under the blessing of the Ultimate Golden Body Demon Suppression Technique, was terrifying!

At this moment,

at the depths of a pit dozens of yards deep,

the Red-haired Celestial Demon at the bottom, originally quickly recovering the muscle and skin injuries by absorbing Upper Realm Primordial Qi, had numerous bones broken by that terrifying power, lying there limply like a mollusk, completely unable to move!

Of course, the body of a Celestial Demon, especially at the Early Stage of Minor Success, had an extremely strong recovery ability!

Enduring the terrible pain all over its body, the Red-haired Celestial Demon frantically absorbed the outside Supreme Primordial Qi. In merely a fraction of a second, the originally motionless Red-haired Celemon, with countless broken bones, automatically connected back together, quickly starting the process of recovery, estimated to need no more than a hundredth of a second, for all its injuries to rapidly heal!

But would Lin Xuankong, who had the advantage, possibly look on as this previously arrogant Red-haired Celestial Demon recovered from its injuries,

He and the twelve Demon Body Incarnations all activated the Supreme Primordial Qi within their bodies, infusing it into the red-haired long whips in their hands. In the next extremely brief moment, those red-haired long whips suddenly extended again, attacking towards the Red-haired Celestial Demon deep in the pit!

The Red-haired Celestial Demon, accelerating its recovery from injuries, upon seeing this, immediately had its red hair stand on end, once again exclaiming in shock, "Lord save me, Lord save me!"

As the shocked exclamation of the Red-haired Celestial Demon sounded,

the first powerhouse in the Cyan Wood Forest, and highest-ranking Celestial Demon Lord, the Cyan Bird Celestial Demon finally moved!

Its back, in a ten-thousandth of a second, grew a pair of cyan feathered wings, several yards wide, streaming with light. As soon as they appeared, they flapped once, immediately causing the Upper Realm Primordial Qi within hundreds of yards around to violently surge, and the Cyan Bird Celestial Demon, originally standing in place, shot to the position of the red-haired long whips attacking the Red-haired Celestial Demon at a terrifying speed, surpassing lightning!

Cyan Bird's Wings!

This is the strongest Demon Artifact of the first powerhouse in Cyan Wood Forest and the highest-ranking Celestial Demon Lord, the Mid-grade Minor Success Realm Cyan Bird Celestial Demon!

The magical Qi waves emitted by this pair of Cyan Bird Wings are even slightly stronger than those emitted by Cyan Bird Celestial Demon's nine-grade Immortal Artifact turned nine-grade Demon Artifact!

This is also a special technique practiced by the Thousand Illusion Celestial Demon Race, besides using Demon Artifacts: Thousand Illusionary Body Demon Artifact, a powerful technique passed on to the thousands of Thousand Illusion Celestial Demon Race by the Thousand Illusion Saint Monarch! This technique is a mysterious method where cultivators of the Thousand Illusion Celestial Demon Race transform a part of their body into Demon Artifacts. Every cultivator in the Thousand Illusion Celestial Demon Race would spend endless ages refining their Thousand Illusionary Body Demon Artifacts, and some successful Great Success Thousand Illusion Celestial Demons even have Thousand Illusionary Body Demon Artifacts comparable to Initial and even Late Stage Initial tier Growth-type Divine Artifacts!

Including the Red-haired Celestial Demon deep in the pit, its red-haired long whip is also its body Demon Artifact, but due to the short duration of refinement and cultivation, merely one or two million years,

the refinement and cultivation degree is insufficient, making it incomparable to the Ninth-Grade Demon Artifact!

Chapter 1342: Giving You a Chance (2)

-----That is why this Red-haired Celestial Demon is so eager to obtain one or two more Ninth-Grade Demon Artifacts bestowed by the Cyan Bird Celestial Demon! As for the other Initial Tier Celestial Demons in the Cyan Wood Forest, although each possesses their own Thousand Illusionary Body Demon Artifact, they are all just like the Red-haired Celestial Demon, and many of them have tempered theirs for an even shorter time than he has, so they simply cannot compare to High Tier Demon Artifacts. This has also led to the situation in which, among those Initial Tier Celestial Demons in the Cyan Wood Forest, not a single Celestial Demon does not yearn to obtain a Ninth-Grade Demon Artifact bestowed by the Cyan Bird Celestial Demon!

As for the Cyan Bird Celestial Demon's Cyan Bird's Wings, they are a pair of wings on its Demon Body itself, which it then tempered and nurtured with its own Supreme Demonic Qi for several million years; only then did they become so powerful, to the point that they are slightly stronger even than a Ninth-Grade Demon Artifact!

Of course, although the Thousand Illusionary Body Demon Artifacts are powerful, because they are body-borne Demon Artifacts, intimately bound to the Celestial Demon's body, once a Thousand Illusionary Body Demon Artifact is damaged, it means that the body of the Cultivator of the Thousand Illusion Celestial Demon Race will suffer heavy injuries, and may even lead to damage to their foundation, so that for hundreds, thousands, or even tens of thousands of years, their cultivation will be unable to advance—unless they completely repair the Thousand Illusionary Body Demon Artifact. This is also why, despite their power and the fact that every Cultivator of the Thousand Illusion Celestial Demon Race possesses one, very few Celestial Demons of the Thousand Illusion Race directly activate these Thousand Illusionary Body Demon Artifacts to battle their opponents!

By contrast, the Ninth-Grade Demon Artifacts, or even growth-type Divine Artifacts obtained from the outside world, are not within this category. No matter how the Ninth-Grade Demon Artifacts or growth-type Divine Artifacts acquired externally are attacked or destroyed, they will not harm the foundations of the Thousand Illusion Celestial Demon Race's true bodies!

This was also, over eight thousand years ago,

one of the reasons why, when the Cyan Bird Celestial Demon was pursuing that Great Success Yu Zhen Bodhisattva, it did not display its body's Cyan Bird's Wings!

Yet at this very moment,

the Cyan Bird Celestial Demon had no choice but to unleash the Cyan Bird's Wings.

Because at this moment, Lin Xuankong and his twelve Demon Body Incarnations, relying on the support of the Ultimate Golden Body Demon Suppression Technique, were displaying a level of power and speed that was far too terrifying! That speed was such that even a Mid Stage of Minor Success Celestial Demon like the Cyan Bird Celestial Demon was somewhat astonished; it was even absolutely certain that if it did not activate its own Thousand Illusionary Body Demon Artifact, it would be utterly unable to rush over from afar in time to save the Red-haired Celestial Demon, whose foundation had already been injured!

"Pa-pa-pa-pa"

A violent surge of Primordial Qi fluctuations appeared at the edge of the pit!

Lin Xuankong, who was in the midst of activating the Red-haired Demon Whip, lifted his eyes slightly, only to see that Cyan Bird Celestial Demon who had activated its Thousand Illusionary Body Demon Artifact had, within an extremely brief span of time, seized all dozens of Red-haired Demon Whips being simultaneously driven by Lin Xuankong and his twelve Demon Body Incarnations into its two hands!

Although Lin Xuankong had not yet reached the Early-Stage Minor Success Celestial Immortal, and had not yet comprehended that incomparably subtle, Dao-rhyme-infused attack trajectory, so that when he activated the Red-haired Demon Whip, he could not attain that same unfathomable mystique as when the Red-haired Celestial Demon used it, nonetheless, under the augmentation of the Ultimate Golden Body Demon Suppression Technique, the speed at which Lin Xuankong and his twelve Demon Body Incarnations drove the Red-haired Demon Whip to attack was still considerably faster than that of the Red-haired Celestial Demon!

Yet even with so many Demon Body Incarnations attacking in unison, even though the speed unleashed by the Ultimate Golden Body Demon Suppression Technique was so terrifying, all of the attacks launched by the Red-haired Demon Whips were still completely blocked by the opponent, who even grasped all of the whip-tips of the Red-haired Demon Whips in its hands...

Truly worthy of being a Lord Level Celestial Demon!

Its speed surpasses even the speed I can unleash when activating the Ultimate Golden Body Demon Suppression Technique by at least tenfold!

Within the Supreme Origin Realm, every step a Cultivator takes forward in cultivation yields an improvement that far surpasses the differences in strength between Cultivators of various Realms in the Little Worlds below!

As for this Cyan Bird Celestial Demon, if I do not activate the various wondrous innate powers within the Vigorous in Old Age Life Plate, and rely solely on my Demon Body and Golden Body Demon Suppression Technique, I am most likely not this Cyan Bird Celestial Demon Lord's match at all!

Lin Xuankong's thoughts whirled, and his brows involuntarily furrowed.

The Cyan Bird Celestial Demon in the distance opposite him now had Demonic Qi surging all over its body, and it tugged with force on both hands,

and immediately, a surge of irresistible, terrifying power was transmitted along those dozens of Red-haired Demon Whips. If such an incomparably terrifying power were unleashed in the Golden Dragon Immortal Realm, it could probably directly obliterate heaven and earth across a span of several hundred thousand li; yet in this Supreme Origin Realm, it was suppressed by the dense Primordial Qi and world laws of the Supreme Origin Realm, utterly incapable of causing even the slightest damage to this Supreme Origin Realm!

However, when such terrifying power acted upon those dozens of Red-haired Demon Whips, it caused Lin Xuankong and his twelve Demon Body Incarnations to all let out a muffled groan,

and those dozens of Red-haired Demon Whips that had originally been held in the hands of Lin Xuankong and his twelve Demon Body Incarnations were actually seized with ease by this Mid Stage of Minor Achievement Cyan Bird Celestial Demon.

Lin Xuankong's already furrowed brows knit even tighter,

while the Cyan Bird Celestial Demon, having seized those dozens of Red-haired Demon Whips, glanced once at the tightly furrowing Lin Xuankong; a trace of greed and burning fervor flashed within its twin

pupils, and then it coiled those Red-haired Demon Whips in its hands and tossed them toward the depths of the pit, where the Red-haired Celestial Demon had already recovered from its injuries.

The Red-haired Celestial Demon, who had rapidly recovered from its injuries and was in the Early Stage of Minor Success, flickered, rising from the depths of the pit to land beside the Cyan Bird Celestial Demon, a look of shame and vexation appearing on its face as it bowed and cupped its hands, saying:

"This subordinate is incompetent, actually losing to such an Initial Tier Perfection Little Celestial Immortal, and even needing Lord to personally act to rescue me. I beg Lord to give this subordinate another chance; let this subordinate continue to battle this Initial Tier Perfection Little Celestial Immortal. This time, if this subordinate activates the Thousand Illusion Demon Blood Technique, I will definitely be able to capture him!"

The Cyan Bird Celestial Demon, however, merely shook its head slightly. "If you were to employ the incomparably exalted Thousand Illusion Demon Blood Technique passed down by the most esteemed Thousand Illusion Divine Monarch, then with the effect of your Thousand Illusion Demon Blood Technique at the Minor Success Realm, you would naturally be able to cause your strength to instantly increase more than twentyfold. In contending against this Lin Xuankong, you would presumably be able to seize him with certainty! Yet once the Thousand Illusion Demon Blood Technique is activated, it will damage your cultivation foundation, destroy the Dao-rhyme that has condensed within you, and will inevitably cause your cultivation to stagnate for over tens of thousands of years!

Your Thousand Illusionary Body Demon Artifact, the Red-haired Demon Whip, has already suffered some damage, injuring part of your cultivation foundation; that alone will delay your cultivation for several hundred, even a thousand years. If you were to once again activate the Thousand Illusion Demon Blood Technique, I fear you would injure yourself on top of injury, causing your cultivation to stagnate for over a hundred thousand years!

To deal with this Initial Tier Perfection Lin Xuankong is not worth permitting you to suffer such damage!

Stand down. I shall be the one to deal with this Lin Xuankong!"

Seeing this, the shame and vexation on the Red-haired Celestial Demon's face grew even more pronounced,

for in its heart it understood all too clearly that its own Lord had long yearned to capture this Lin Xuankong for nearly ten thousand years; moreover, this Lin Xuankong possessed some astonishing Talent... If it could personally act to help its Lord take down this Lin Xuankong, then even if it earned no merit, it would at least have rendered hard service. By the time Lord handed the captured Lin Xuankong over to the incomparably noble Thousand Illusion Divine Monarch, when the Thousand Illusion Saint Monarch bestowed Treasures in reward, perhaps it might obtain just a little bit more!

Curse it! Had I known that this Lin Xuankong could actually cultivate both Demon Techniques and Buddhist Techniques to such a shocking extent, I should have simultaneously activated the Thousand Illusionary Body Demon Artifact and the Thousand Illusion Demon Blood Technique from the very start!

The Red-haired Celestial Demon's heart was filled with unwillingness; it felt that to withdraw at this moment was tantamount to losing a heaven-sent opportunity, a great chance that might not be encountered even once in several million, tens of millions, or even hundreds of millions of years!

Yet how could it dare disobey its Lord's command? With a face full of unwillingness, the Red-haired Celestial Demon stepped back one step at a time, standing behind the Cyan Bird Celestial Demon, a trace of venomous resentment in its eyes as it gazed at Lin Xuankong.

At this moment, the Cyan Bird Celestial Demon's avian eyes widened slightly as it stared at Lin Xuankong from afar, and it spoke faintly:

"Within this Supreme Origin Realm, whether Celestial Demons, Celestial Immortals, Celestial Demons of the beast races, or Celestial Buddhas, all are merely striving for cultivation. In the end, it is said that in that Supreme Realm, all fuse themselves with the Dao; in this sense, it is also all roads returning to the same destination! Calculated thus, although you belong to the Human Race and are a Cultivator of the Celestial Immortal Realm, it is not necessarily impossible for you to join my Thousand Illusion Celestial Demon Race and become one of us, for after all, you have once cultivated Demon Techniques as well! Mm, for the moment, I shall grant you this opportunity."

Chapter 1343: You Are No Match for Me

During the conversation,

the Cyan Bird Celestial Demon looked at Lin Xuankong with a calm expression,

except for a hint of hidden greed and excitement in its eyes, its expression was incredibly composed, and its tone was like that of a kindly elder enticing a younger one!

"Lin Xuankong, your artifact refining talent is astonishing. Even though I have cultivated for millions of years, I've never seen such a young Artifact Refining Master in the Supreme Origin Realm. So, the opportunity to recruit a Human Race Celestial Immortal into the Thousand Illusion Celestial Demon Race is something that has happened only once in several million years of Cyan Wood Forest's history!

Before you, from that Little World below the Golden Dragon Immortal Realm, countless Human Race Celestial Immortals, Demon Race Celestial Demons, and Buddhist Sect Celestial Buddhas ascended, only to be expelled or become eternal prisoners in the Red Water Prison. This includes dozens of Initial Tier Celestial Immortals, Initial Tier Celestial Demons, and Initial Tier Celestial Buddhas who ascended from the Golden Dragon Immortal Realm in nearly ten thousand years!

This opportunity is extremely precious to any cultivator from a Little World below, worthy of excitement and gratitude!"

Saying this, the Cyan Bird Celestial Demon raised its hand, and in the center of its palm, black Demonic Qi continuously floated, gradually forming a complex three-dimensional Demon Pattern above its palm,

In addition to the astonishing artifact refining talent, you can immediately break through to Initial Tier Perfection after ascending, and defeat my strongest general at the Initial Tier Perfection Realm. This shows that your talent on the Dao path and in cultivation techniques is also extraordinary! However, you are ultimately just an Initial Tier Celestial Immortal; even at Initial Tier Perfection, you are still at the Initial Tier. Perhaps you can defeat a Celestial Demon at the Early Stage of Minor Success with your many years of cultivated Demon Technique and Buddhist Technique, but can you defeat me at the Mid Stage of Minor Success? Can you withstand the attack of the Immortal Slaying Thousand Demon Array laid down by thousands of Initial Tier Celestial Demons?

Right now, there are two paths in front of you!

One is to agree to join my Thousand Illusion Celestial Demon Race, accept the mark of the Thousand Illusion Celestial Demon Race in my hand, and from then on, unconditionally follow the commands of the most honorable Thousand Illusion Saint Monarch! If you do so, it will be a joyful conclusion for all. I will immediately escort you to the esteemed Thousand Illusion Saint Monarch, and from then on, you will be the third majestically honored Artifact Refining Master under the esteemed Thousand Illusion Saint Monarch, possessing the ability to refine Growth-type Divine Artifacts!!

The other is that I personally strike you down, torture you, and then forcibly implant the mark of the Thousand Illusion Celestial Demon Race in my hand into your Divine Soul, leaving you with no ability to resist the Celestial Demon powerhouses of the Thousand Illusion Race!

Which path do you choose?"

After finishing this speech, the Cyan Bird Celestial Demon started to walk slowly towards Lin Xuankong, completely ignoring the twelve mighty Demon Body Incarnations comparable in strength to Lin Xuankong. It seemed that to the Lord of Cyan Wood Forest, to this powerful Celestial Demon at the Mid Stage of Minor Success, Lin Xuankong's twelve mighty Demon Body Incarnations were not worthy of its attention at all!

Meanwhile,

the thousands of Initial Tier Celestial Demons around, without waiting for the Cyan Bird Celestial Demon Lord to give the order, each activated the full power of their Demon Artifacts. Instantly, a massive black Demonic Qi barrier enveloped an area of tens of thousands of feet, and above the black barrier appeared a black eyeball with a vertical pupil. The vertical pupil was a crimson color, with numerous red streams flowing from the pupil area, as if the terrifying power contained within was about to erupt at any moment!

Most crucially, the demonic wave released by this huge black eyeball was even more violently powerful than that emitted by a Bird-faced Celestial Demon at the Mid Stage of Minor Success!

This Immortal Slaying Thousand Demon Array, laid down by these thousands of Initial Tier Celestial Demons, was at least ten times stronger than the one encountered in the past by Sect Leader Qiu of the Divine Dynasty Immortal Sect, Great Success Yu Zhen Bodhisattva, Elder Qiu, and others!

Clearly, although this Immortal Slaying Thousand Demon Array seemed crude in Lin Xuankong's eyes, merely a notch above an ordinary ninth-grade Grand Array of the Golden Dragon Immortal Realm, it had a unique Array Formation Skill, capable of increasing its power by increasing the number of Array Hubs and array members. Moreover, just like Lin Xuankong's Luo Water Array, this Immortal Slaying Thousand Demon Array, with thousands of array hubs, already possessed the ability to summon a powerful Array Spirit!

However, unlike the celestial and ethereal Array Spirit condensed from Immortal Yuan and Array Patterns in the Luo Water Array, the Array Spirit of this Immortal Slaying Thousand Demon Array, that enormous eyeball, carried an absolute sense of evilness and brutality!

Seeing the Mid Stage Celestial Demon Lord Cyan Bird approaching step by step, surrounded by thousands of Initial Tier Celestial Demons who had already activated most of the Immortal Slaying Thousand Demon Array's power, a trace of dread inevitably rose in Lin Xuankong's eyes.

Because Lin Xuankong knew very well that at this moment, purely relying on the Golden Body Demon Suppression Technique at the Ultimate Realm and twelve Demon Body Incarnations, it was impossible to be a match for the Cyan Bird Celestial Demon at the Mid Stage of Minor Success, let alone the Array Spirit of the Immortal Slaying Thousand Demon Array laid down by thousands of Initial Tier Celestial Demons!

However... remembering the warning once given by the Golden Dragon Ancestor, Lin Xuankong understood very clearly that if he were to employ the miraculous talents of the Vigorous in Old Age Life Plate at this moment, then break through to Initial Tier Perfection and defeat the Cyan Bird Celestial Demon at the Mid Stage of Minor Success and the Array Spirit of the Immortal Slaying Thousand Demon Array, his reputation, and talents would soon reach the ears of the so-called most esteemed Thousand Illusion Saint Monarch!

Chapter 1344: You Are No Match for Me_2

Lin Xuankong was wary of the Cyan Bird Celestial Demon at the mid stage of Minor Success, wary of the Grand Array Spirit of the Immortal Slaying Thousand Demon Array which grew stronger with more array hubs, but what he feared more was attracting the attention of a truly Saint Monarch-level powerhouse!

During his time in the Golden Dragon Immortal Realm, Lin Xuankong clearly sensed the overwhelming might of the Golden Dragon Ancestor. Even if he activated the myriad wondrous talents of his Vigorous in Old Age Life Plate, he definitely could not contend with the unrecovered Saint Monarch power of the Golden Dragon Ancestor, a goal unattainable in the short term!

If the unrecovered power of the Golden Dragon Ancestor in the Golden Dragon Immortal Realm was already at that level, then how fearsome must the Thousand Illusion Saint Monarch, whose power remained unscathed and who commanded countless powerful Celestial Demons, be!

Stay low-key, a little patience is needed now; it's definitely not the moment to use the various wondrous talents of the Vigorous in Old Age Life Plate!

Lin Xuankong mused silently.

With that in mind, Lin Xuankong's heart moved like lightning as he decided to use other trump cards aside from the wondrous talents of his Vigorous in Old Age Life Plate!

Suddenly, the wariness in Lin Xuankong's eyes vanished, and he looked sharply at the approaching Cyan Bird Celestial Demon, speaking coldly:

"Different species harbor different intentions! How could I ever trust a Celestial Demon Race that relishes in refining other lives into Demon Artifact materials, cruel and tyrannical, and then serve as slaves to your so-called honorable Thousand Illusion Divine Monarch to forge growth-type Divine Artifacts! As for the two paths you suggested, I will take neither!"

Upon hearing Lin Xuankong's words,

the Cyan Bird Celestial Demon, who was proceeding calmly, paused its steps. The cyan bird wings on its back began to fan slowly, the feathers gradually transforming from cyan to a special metallic material that Lin Xuankong had never seen before, becoming extremely sharp and shimmering with cold light!

The cyan bird wings of this Cyan Bird Celestial Demon were clearly not just for speed, but also had a terrifying offensive capability. Even though Lin Xuankong hadn't personally experienced the attack of these wings, and was still several thousand feet away from the Cyan Bird Celestial Demon, he had an intuitive feeling that the metallic wings could easily slice through his Initial Tier Celestial Immortal Body!

"Not choosing either path?"

Hmph, do you think you can match me in battle?

You are mistaken, Lin Xuankong. Even if you possess a powerful Immortal Artifact, you as an Initial Tier Perfection could never be my opponent! Submitting to my Thousand Illusion Celestial Demon Clan is your best path forward now! Otherwise, I'll have no choice but to teach you a lesson!"

The Cyan Bird Celestial Demon sneered, seeing Lin Xuankong still stubbornly standing his ground, and spoke.

The thousands of Initial Tier Celestial Demons who had laid down the Immortal Slaying Thousand Demon Array, seeing their Lord step forward with overwhelming momentum that completely suppressed Lin Xuankong's Initial Tier Perfection Celestial Immortal aura, began to shout immediately.

These Initial Tier Celestial Demons, emboldened by the Cyan Bird Celestial Demon, clearly disregarded Lin Xuankong's recent miraculous victory over the Red-haired Celestial Demon!

To them, everything Lin Xuankong said now was mere bravado. The gap between Initial Tier Perfection and Mid Stage of Minor Success was described aptly as vast as the heavens and earth!

"How powerful Lord Cyan Bird is, having cultivated for millions of years and reaching Mid Stage of Minor Success. Even in Red Water Demon City he is a formidable force... does Lin Xuankong think he can combat Lord Cyan Bird?"

"Hahaha, this kid must think Lord's power is similar to the Vice Lord's, truly a country bumpkin from a lower world, unaware of the might of a Lord-level power!"

"Hey Lin Xuankong, you've spoken your defiant words, yet since the Lord wants to recruit you, why resist against Lord Qingmu?"

The Initial Tier Celestial Demons discussed among themselves, shaking their heads at Lin Xuankong, clearly not believing that Lin Xuankong had any chance before the Cyan Bird Celestial Demon!

"Fancy looking bird-faced Cyan Bird Lord? Do your worst!"

After saying this, the Supreme Primordial Qi within Lin Xuankong surged quickly,

while from his Golden Patterned Ghost Frog Pouch shot out stream after stream of brilliant light,

these streams, though not the Ninth-Grade Immortal Artifacts refined by Lin Xuankong and the artifact refining genius Xiao Xiuyi, were Eighth-Grade Earth Immortal Artifacts, with similarly strong aura and ripples! Importantly, as soon as these Eighth-Grade Immortal Artifacts appeared, they continuously absorbed the surrounding Supreme Origin Realm Primordial Qi, showing signs of Metamorphosis!

In the next moment,

the streams of light formed by the Eighth-Grade Immortal Artifacts each landed in profound positions, forming a seemingly miniature array shield from the sky, enveloping Lin Xuankong in the blink of an eye!

Soon after, above the light shield of this miniature Seven Realms Luo Water Array, a sinuous, lifelike, consciousness-having river appeared, remarkably similar to the Luo Water Divine Diagram that Lin Xuankong had studied, as if a real river appeared in the sky!

Additionally, the aura emanating from the Grand Array Spirit, the Luo Water Spirit, called forth by this Seven Realms Luo Water Array, was surprisingly akin to the Array Spirit of the Immortal Slaying Thousand Demon Array laid down by thousands of Initial Tier Celestial Demons, causing the summoned eye of the Immortal Slaying Thousand Demon Array to flicker continuously, locking onto Lin Xuankong!

The thousands of Initial Tier Celestial Demons who had structured the Immortal Slaying Thousand Demon Array, seeing the overpowering might of the Seven Realms Luo Water Array's Array Spirit laid down by Lin Xuankong, immediately fell silent...

These Initial Tier Celestial Demons, though malicious, were not foolish. They knew that if Lin Xuankong truly activated the river-like Grand Array Spirit, it might indeed rival the strength of the Immortal Slaying Thousand Demon Array's Array Spirit!

Seeing Lin Xuankong deploy the Seven Realms Luo Water Array, a flash of fear flickered in the depths of the Cyan Bird Celestial Demon's eyes,

It clearly felt the power of the Luo Water Array's Array Spirit, its face shifting slightly, then forcing a sneer as it spoke:

"Tsk, tsk, I did not expect you, Lin Xuankong, besides having a strong and astonishing artifact refining talent, to also possess a peerless gift in the Path of Cultivation, capable of instantly deploying a formidable array! Yet, the more powerful, the more astonishing your talents, the less likely you are to escape Red Water Demon City, and the narrower your path becomes!"

Before the voice had fallen,

the Cyan Bird Celemon behind the Cyan Bird wings suddenly fanned,

transforming into a black streak aimed at the direction of the Seven Realms Luo Water Array's Array Spirit!

Having amassed millions of years of experience, the Cyan Bird Celestial Demon understood that combating Lin Xuankong's formidable array directly or attempting to forcefully dismantle it would prove fruitless... and may even prolong the battle enough to attract the curiosity of other Minor Success Celestial Demons or even Great Success Celestial Demons!

The most direct and effective way to tackle any substantial array that summoned an Array Spirit was to destroy the summoned Array Spirit itself!

Simultaneously,

Lin Xuankong, who was controlling the Seven Realms Luo Water Array, moved his gaze,

as the Luo Water, initially hovering above the Seven Realms Luo Water Array, flew to confront the approaching Cyan Bird Celestial Demon!

The Seven Realms Luo Water Array... Lin Xuankong's current Array Realm was already capable of effortlessly surpassing the Eight-Layered Realm Luo Water Array of the Immortal Slaying Thousand Demon Array,

He hadn't set up the Eight-Layered Realm Luo Water Array directly, clearly intending to temporarily conceal his true power!

Chapter 1345: Giving You a Chance

It's a pity that the Cyan Bird Celestial Demon doesn't know that Lin Xuankong's array formation talent is not just strong,

because of the support of the array formation prodigy Yaan Mingyu, who was Vigorous in Old Age, and the talent of Wives, Children, Elders, and Youngsters,

his array formation talent and ability, once truly unleashed, and once the Luo Water Array is elevated to the Eight-Layered Realm, would certainly become strong enough to easily resist the Immortal Slaying Thousand Demon Array at hand, as well as this pretentious and vile Mid Stage of Minor Success Cyan Bird Celestial Demon, which is even more so than the Red-haired Celestial Demon!

Of course, Lin Xuankong's array formation talent and ability, once fully unleashed, if displayed before the Celestial Demons of the Thousand Illusion Race in the Supreme Origin Realm, he would undoubtedly receive the true attention of that Thousand Illusion Saint Monarch...

Such a result,

is something Lin Xuankong cannot bear,

at least the current Lin Xuankong, cannot bear it at all!

"What are you still standing there for? Activate the Immortal Slaying Thousand Demon Array's attack!"

The Cyan Bird Celestial Demon, feeling a bit of pressure, did not hesitate and did not show any arrogance, immediately giving the order!

Facing the Seventh Realm Luo Water Grand Array set by Lin Xuankong, and the powerful Luo Water Array Spirit above it, the Cyan Bird Celestial Demon, though confident in his ability to counter it, realized

that breaking such a powerful array and capturing Lin Xuankong protected by the Seventh Realm Luo Water Grand Array might not be possible within three to five years!

The thousands of Celestial Demons around, hearing the command from their Lord, all showed solemn expressions,

in the next moment,

above the Immortal Slaying Thousand Demon Array,

countless fine demonic qis, as if given life, madly gathered together, transforming into a black magical qi serpent thousands of feet long, diving toward the position of Lin Xuankong's Seventh Realm Luo Water Grand Array!

This black magical qi serpent, thousands of feet long, had an aura even stronger than the Cyan Bird Celestial Demon who had activated the Cyan Bird's Wings, with a faster speed and a body size a thousand times larger. In the instant of diving, it collided with the Luo Water Array Spirit of the Luo Water Grand Array!

The river-shaped Grand Array Spirit formed by the Seventh Realm Luo Water Grand Array below was likewise undaunted, directly colliding with the black magical qi serpent, intertwining and binding each other, continuously launching attacks against each other!

If the Luo Water Grand Array activated by Lin Xuankong were the Eight-Layered Realm Luo Water Grand Array, once the Luo Water Array Spirit were summoned, it could definitely stand firmly in the upper hand. Perhaps, relying on the terrifying impact of the Luo Water River, it could soon suppress the black magical qi serpent, thereby destroying the Immortal Slaying Thousand Demon Array!

However, the Array Spirit of the Seventh Realm Luo Water Grand Array could not accomplish this,

currently, the Array Spirit of the Seventh Realm Luo Water Grand Array struggled to maintain a stance of confrontation with the black magical qi serpent of the Immortal Slaying Thousand Demon Array, even slightly at a disadvantage!

After all, this Seventh Realm Luo Water Grand Array was not sophisticated enough, being assembled by Lin Xuankong alone using some Eighth-Grade Immortal Artifacts—had it been assembled with a large number of Ninth-Grade Immortal Artifacts, it would not be at a disadvantage!

On the other hand, the Immortal Slaying Thousand Demon Array was arranged by thousands of Initial Tier Celestial Demons. Such a tier of Immortal Slaying Thousand Demon Array, even the Mid Stage of Minor Success Cyan Bird Celestial Demon, after activating the Cyan Bird's Wings, could not withstand the attack of a Thousand Demon Array's spirit for long! Though the Mid Stage of Minor Success Celestial Demon's power was strong and could easily handle hundreds of Initial Tier Celestial Demons, there were limits, and it was no match for the combined power of thousands of Initial Tier Celestial Demons in the Immortal Slaying Thousand Demon Array!

Seeing the Seventh Realm Luo Water Grand Array Spirit composed of the Eighth-Grade Immortal Artifacts being able to contend against the Immortal Slaying Thousand Demon Array's spirit, Lin Xuankong's face remained expressionless.

For Lin Xuankong, whose research into the way of arrays was extremely profound, he had long anticipated the current situation of the battle, and he even intentionally let the Luo Water Grand Array Spirit be at a disadvantage against the Immortal Slaying Thousand Demon Array's spirit!

Since learning more about the matters in the Supreme Origin Realm and hearing the advice of the Golden Dragon Ancestor, Lin Xuankong has become increasingly aware that in such a terrifying world of the Supreme Origin Realm where strong individuals could overturn the heavens and the earth with a flip of their hands, to survive continually without being controlled or eradicated, one must be low-key to an extreme!

The Cyan Bird Celestial Demon across from him had no idea what Lin Xuankong was thinking,

seeing the Luo Water Grand Array's spirit Lin Xuankong had set up being overpowered by the Immortal Slaying Thousand Demon Array's spirit, the Mid Stage of Minor Success Cyan Bird Forest Lord's eyes became even more ardent, the ounce of dread initially rising in his heart was completely dispelled!

"Your array formation abilities are impressive, but ultimately cannot compare to the profound mysteries of the Immortal Slaying Thousand Demon Array bestowed by the Thousand Illusion Saint Monarch of my Thousand Illusion Celestial Demon Race!

Well then, I am not inclined to watch you struggle here. Since you have decided to resist, I will let you truly experience the formidable might that a Mid Stage of Minor Success expert wields!"

Before his words faded, the Cyan Bird Celestial Demon, who had already spread his Cyan Bird's Wings, vanished suddenly, and upon reappearing, was already stepping on the light screen of the Seventh Realm Luo Water Grand Array!

"Zhi Zhi Zhi Zhi Zhi Zhi"

A bizarre sound, enough to make one's teeth ache and ears hurt, rang out abruptly.

The metal-like Cyan Bird's Wings of the Cyan Bird Forest Lord Cyan Bird Celestial Demon had already transformed into mirages, continuously attacking the light screen of the Seventh Realm Luo Water Grand Array.

Back when in the Golden Dragon Immortal Realm, the First Realm Luo Water Array alone could make any opponent attacking it despair, for any Strongest Immortal Lord at the Perfection Level, breaking through the First Realm Luo Water Array was almost impossible, even if there were dozens of Strongest Immortal Lords attacking the First Realm Luo Water Array, it would take an extremely long time to completely breach it!

Chapter 1346: I'll Give You a Chance (Part 2)

The Second Realm Luo Water Grand Array, in the eyes of the Strongest Immortal Lord-level powerhouses, is an existence that simply cannot be shaken! Even if all the Strongest Immortal Lord-level powerhouses of the Golden Dragon Immortal Realm joined forces to attack, they probably wouldn't cause the slightest ripple on the light membrane of the Second Realm Luo Water Grand Array, almost like an ant trying to move a tree—before the light membrane of the Luo Water Grand Array, the Strongest Immortal Lord-level powerhouses are mere ants!

When it comes to the Third Realm Luo Water Grand Array, Strongest Immortal Lord-level powerhouses cannot shake the light membrane in the slightest!

Even in the past, when Lin Xuankong was at the Strongest Immortal Lord Realm, he personally tested it. When Lin Xuankong was at the Perfect Advancement Realm of the Strongest Immortal Lord, without activating various vigorous in old age profound talents, or the Ultimate Realm Golden Body Demon

Suppression Technique, he similarly couldn't cause any ripples on the Third Realm Luo Water Grand Array, even if he used the strongest Ninth-Grade Immortal Artifact from the little world below!

It shows how powerful this Luo Water Grand Array, which might have been comprehended from the Luo Water Divine Diagram from the Supreme Origin Realm, truly is!

By the time it reaches the Fourth Realm Luo Water Grand Array, its defensive power rises dramatically, and even if Lin Xuankong personally uses the Ultimate Realm Golden Body Demon Suppression Technique, activating numerous Ninth-Grade Immortal Artifacts, he cannot break through the slightest inch of the Luo Water Grand Array!

Given the strength of the Fourth Realm Luo Water Grand Array, stronger yet will the Fifth Realm Luo Water Grand Array be, to say nothing of the Sixth Realm Luo Water Grand Array, and the even more terrifying Seventh Realm Luo Water Grand Array!

In fact, when Lin Xuankong was in the Golden Dragon Immortal Realm, contemplating the Luo Water Divine Diagram with his master, Immortal Lord Luoshui Yaan Mingyu, they pushed the Luo Water Grand Array to the Fourth Layer, and both were one hundred percent certain that the damaged Luo Water Divine Diagram absolutely came from the Supreme Origin Realm, though it was unclear why it got damaged and ended up in the Golden Dragon Immortal Realm!

During a conversation with the Golden Dragon Ancestor, Lin Xuankong tried to ask the founder of the Golden Dragon Immortal Realm, but unfortunately, the Golden Dragon Ancestor came and went in a hurry, a truly impatient fellow, leaving no opportunity for Lin Xuankong to converse longer. Subsequently, Lin Xuankong ascended directly to the Supreme Origin Realm, leaving the Golden Dragon Immortal Realm... Under such circumstances, Lin Xuankong had no means to contact the creator of the Golden Dragon Immortal Realm again! As for the mystery of the Luo Water Divine Diagram's origins, it could only be searched for by Lin Xuankong and Yaan Mingyu in this Supreme Origin Realm!

So mystical, so powerful is the Luo Water Grand Array that Lin Xuankong and Yaan Mingyu are very certain, even the Eight-Layered Luo Water Grand Array is definitely not the limit of the Luo Water Grand Array and the Luo Water Divine Diagram. If they had more time to continue their simulations, Immortal Lord Luoshui Yaan Mingyu and Lin Xuankong even feel that beyond the Eight-Layered Realm, there must be a Ninth Realm, Tenth Realm, and even more terrifying, more mighty the Eleventh, Twelfth Layers...

Of course, the lower realm's Fourth Realm, Fifth Realm, even the Sixth Realm's power and immunity to being broken are relative to the cultivators of the little world beneath the Golden Dragon Immortal Realm!

At present, the Cyan Bird Celestial Demon, lord of the Cyan Wood Forest, already in the Mid Stage of Minor Success, relies on the Blue Bird's Wings, nurtured and refined over millions of years of cultivation, whose terrifying attack power far surpasses the so-called powerful Immortal Techniques of the Strongest Immortal Lord-level powerhouses in the lower little world! The might of the Blue Bird's Wings even begins to approach the terrifying power of the Initial Tier Growth-type Divine Artifact, which has already undergone some metamorphosis!

Not to mention anything else, just the endless Upper Realm Primordial Qi in the Supreme Origin Realm providing nourishment for millions of years is enough to make the Lifebound Demon Artifact of this Cyan Bird Celestial Demon at Mid Stage of Minor Success extremely powerful...

Such a powerful demon, at Mid Stage of Minor Success, wielding such a formidable Thousand Illusion Celestial Demon Lifebound Demon Artifact, one can imagine the terrifying power unleashed. It's likely that the combined attacks of thousands, even tens of thousands of Strongest Immortal Lord-level powerhouses wouldn't match the power of this mighty demon activating its lifebound artifact!

"Squeak squeak squeak squeak squeak squeak"

The piercing sound constantly resounded atop the light membrane of the Luo Water Grand Array,

The Cyan Bird Celestial Demon's metallic-feeling Blue Bird's Wings continuously scrape against the light membrane, causing wrinkles and deformation, while the array patterns atop the light membrane flicker and dim!

As a Seventh Realm Luo Water Grand Array, the number of array patterns on its light membrane far exceeds the original First Realm Luo Water Grand Array! When Immortal Lord Luoshui Yaan Mingyu set up the First Realm Luo Water Grand Array, about three thousand six hundred Luo Water array patterns would flicker upon being attacked. Currently, the Seventh Realm Luo Water Grand Array's array patterns number over a billion, the dense array patterns manifesting the solidity of this Seventh Realm Luo Water Grand Array!

Every Luo Water array pattern embodies the defensive power of the Luo Water Grand Array and naturally cannot be easily erased by the Cyan Bird Celestial Demon's attacks!

However, the location where the Cyan Bird Celestial Demon at Mid Stage of Minor Success attacks involves at least hundreds of array patterns, becoming increasingly dim, so that although numerous Luo Water array patterns roam in from the surroundings to replace those that have endured attacks, the Cyan Bird Celestial Demon evidently is determined to achieve victory. The frequency and intensity of the attacks continue to increase, and those freshly meandering patterns quickly have to be replaced once more!

Crucially, one of the Seven Realm Luo Water Grand Array's defensive measures, the Luo Water Array Spirit, is currently being restrained by the array spirit of the Immortal Slaying Thousand Demon Array, unable to come over to block this Cyan Bird Celestial Demon's attacks!

At this moment,

Lin Xuankong, standing inside the light membrane of the Luo Water Grand Array, sensed the changes in the Seventh Realm Luo Water Grand Array and the attack intensity of the Cyan Bird Celestial Demon at Mid Stage of Minor Success, and spoke calmly:

"Cyan Bird, with your current level of attack intensity, trying to open a temporary gap sufficient for you to enter the array in the position you're attacking would take hundreds of years; don't you feel that such an attack is completely in vain?"

Hearing this, the Cyan Bird Celestial Demon laughed coldly while accelerating the attack frequency of the Blue Bird's Wings,

"As I thought, you're just an ignorant junior from the lower little world who recently ascended to the Supreme Origin Realm. The words you speak are truly the height of ignorance! Do you understand, here in the Supreme Origin Realm, when similar-strength powerhouses engage in combat, it might last hundreds, even thousands, or tens of thousands of years!

With the endless primordial qi of the Supreme Origin Realm as support, how can the victory or defeat among powerhouses be decided so easily!

Lin Xuankong, now that you've fallen into my hands, don't mention taking hundreds of years to break through this light membrane to get to you; even battling for a thousand or ten thousand years, your ultimate fate is already sealed!"

Hearing this, Lin Xuankong couldn't help raising an eyebrow slightly,

Of course, he could feel that during the battle, the endless primordial qi of the Supreme Origin Realm quickly replenished his own expenditure, meaning that the battle could last not just hundreds but even thousands or tens of thousands or hundreds of thousands of years without him being defeated due to primordial qi depletion; at most, he would gradually be suppressed due to lack of strength, or the array patterns on the light membrane would fail to be repaired and replenished in time, allowing the Cyan Bird Celestial Demon's attacks to break through!

If he truly could maintain the current situation for thousands or tens of thousands or hundreds of thousands of years, Lin Xuankong naturally wouldn't have the slightest fear! Not to mention that his Luo Water Grand Array long had the capability to set up an Eighth Layer that would utterly dash the hopes of the Cyan Bird Celestial Demon before him; the tens of thousands of Ninth-Grade Immortal Artifacts in Lin Xuankong's possession alone would be sufficient to form numerous stronger Seven Realm Luo Water Grand Arrays, such that even a million or ten million years wouldn't be enough for this Cyan Bird Celestial Demon to break through!

Nonetheless, what Lin Xuankong dreaded wasn't the Cyan Bird Celestial Demon before him, but rather the other Mid Stage and Late Stage Minor Success Celestial Demons, the Great Success Celestial Demons, the Venerable-level Celestial Demons, and the Thousand Illusion Saint Monarch, whom they all revere, within this very region!

The longer the current battle dragged on, the more likely it would attract even mightier celestial demons... and that was the last thing Lin Xuankong wanted to see!

Thinking this, Lin Xuankong calmly said: "Hundreds of years... there's no need for that long; I'll give you a chance right now to come inside and face me!"

Chapter 1347: Is This All You've Got? Still Not Enough

"What did you say?"

The Cyan Bird Celestial Demon paused its assault on the light membrane of the Luo Water Array with its Cyan Bird's Wings.

In the eyes of this Mid Stage of Minor Success Cyan Bird Celestial Demon, the greatest obstacle to capturing Lin Xuankong was the Luo Water Array before it!

It truly hadn't anticipated that someone with an extraordinary talent in artifact refining, a rare genius through the ages, could single-handedly set up such a profound and powerful array, nearly rivaling the Immortal Slaying Thousand Demon Array created by thousands of Initial Tier Celestial Demons working in unison!

This level of array formation... although it still couldn't compare to the unparalleled Path of Array Formation of the Thousand Illusion Saint Monarch of the Thousand Illusion Celestial Demon Race, the Lin Xuankong before it was merely a "young rascal" who had just ascended to the Supreme Origin Realm! Such a person, in the future, could have countless possibilities to become incredibly powerful!

Yet, as the light membrane of the grand array was set to block it for perhaps hundreds of years, Lin Xuankong suddenly claimed he would let it in for a duel!

Is Lin Xuankong insane, or just foolish?

Without the protection of this powerful array, does he have other means to resist it?

Or is this a trap? Aside from this grand array defense, does Lin Xuankong have other stronger offensive methods?

The Cyan Bird Celestial Demon had lived for millions of years, and naturally wouldn't become joyous over a mere sentence from Lin Xuankong,

After a few moments of contemplation, the Cyan Bird Celestial Demon looked towards Lin Xuankong with a touch of doubt in its eyes, beyond the light membrane of the Luo Water Array.

Yet Lin Xuankong raised his right hand, waving it lightly, and at the Cyan Bird Celestial Demon's location, a hole of about one foot radius suddenly appeared in the light membrane of the Luo Water Array, "If you have the courage, step inside! Of course, if you're afraid, you—the so-called Mid Stage Celestial Demon and Lord—can simply flee!"

The Cyan Bird Celestial Demon's expression changed upon seeing this,

It gazed down at the foot-sized hole beneath it, its vertical pupils roving, calculating what measures Lin Xuankong might have!

The surrounding thousands of Initial Tier Celestial Demons involved in activating the Immortal Slaying Thousand Demon Array were all wide-eyed,

Some among them couldn't help but howl,

"That Lin Xuankong, a mere Initial Tier Celestial Immortal, must be insane, daring to face Lord Cyan Bird without the protection of the grand array—he's just a tiny Initial Tier Celestial Immortal, after millions or even tens of millions of years of cultivation, he might not reach the Mid Stage of Minor Success Realm, how does he dare!"

"Lord Cyan Bird is absolutely invincible in the Cyan Wood Forest. Even the lords from nearby small domains have come all this way to congratulate since Lord Cyan Bird advanced to Mid Stage Celestial Demon. Yet this ascender to the Supreme Origin Realm dares such disdain!"

"Damn it, not even a hundred of these Initial Tier Celestial Immortals could ever challenge Lord Cyan Bird! This guy must be mad, daring such disregard of Lord Cyan Bird's prestige and power! Once Lord Cyan Bird enters the grand array, he can capture that kid in less than a thousandth of a breath!"

"The reputation and power of Lord Cyan Bird are such that even the Demon Dragon race, naturally residing in the Supreme Origin Realm, must look up to it. How dare this guy be so brazen!"

Amidst the enraged cries of the Initial Tier Celestial Demons, the Red-haired Celestial Demon stood further away, squinting its eyes slightly, having personally felt the terrifying power of Lin Xuankong and his twelve Demon Body Incarnations. Naturally, it couldn't be like these uninformed Initial Tier Celestial

Demons, believing Lin Xuankong could be defeated by the Cyan Bird Celestial Demon in a fraction of a breath! Yet, the Red-haired Celestial Demon couldn't fathom what card, what confidence Lin Xuankong held to so lightly dismiss the Cyan Bird Celestial Demon!

Perhaps it's his Ninth-Grade Immortal Artifacts... The Red-haired Celestial Demon's expression shifted while pondering this, its earlier suspicions about Lin Xuankong's artifact refining skills lingering! Over the past ten thousand years, the captured cultivators from the Golden Dragon Immortal Realm have all used Ninth-Grade Immortal Artifacts refined by Lin Xuankong. Yet Lin Xuankong, before them, despite deploying numerous Eighth-Grade Immortal Artifacts, hadn't showcased even one Ninth-Grade Immortal Artifact, which was definitely odd!

Upon realizing this, the Red-haired Celestial Demon loudly declared: "Lord Cyan Bird, this Lin Xuankong is definitely not your match; even after millions of years of cultivation, he couldn't keep pace with your achievements. Yet his artifact refining techniques are astonishing, and he hasn't used a single Ninth-Grade Immortal Artifact thus far; there's definitely something wrong with this kid!"

The Cyan Bird Celestial Demon nodded slightly upon hearing this,

It also had this thought... The most pivotal concern was not Lin Xuankong's large stock of Ninth-Grade Immortal Artifacts, but the Luo Water Array Lin Xuankong had set!

At that moment,

Floating amidst the Seven Realms Luo Water Grand Array, Lin Xuankong's expression shifted, as radiant streams of light flew out from behind him, transforming into exquisitely designed, coldly gleaming, rippling Ninth-Grade Immortal Artifacts!

The number of these Ninth-Grade Immortal Artifacts amounted to forty-eight, circling around Lin Xuankong, imposing in appearance!

Lin Xuankong, gazing at the Cyan Bird Celestial Demon, calmly remarked: "What's wrong, are you afraid? Rest assured, these forty-eight Ninth-Grade Immortal Artifacts might at most hurt you among your thousands of subordinates, causing you to lose some face. They shouldn't be able to severely injure you!"

Chapter 1348: Is This All You've Got? Still Not Enough_2

As they spoke, Lin Xuankong looked at the Cyan Bird Celestial Demon with a hint of contempt in his gaze, and his facial expression was even more filled with provocation!

Lin Xuankong's words,

fell upon the ears of those thousands of Initial Tier Celestial Demons, naturally igniting a fire in the hearts of each of these Initial Tier Celestial Demons who followed the Cyan Bird Celestial Demon!

However, what most captivated the hearts of the numerous Celestial Demons present was the Ninth-Grade Immortal Artifacts that had just flown out from Lin Xuankong's Golden Patterned Ghost Frog Pouch, continuously absorbing the exceedingly abundant Upper Realm Supreme Primordial Qi, and the forms and auras of those Immortal Swords were rapidly enhancing, elevating continuously!

Forty-eight Ninth-Grade Immortal Artifacts, compared to the time when twenty-eight Strongest Immortal Lords simultaneously ascended to the Supreme Origin Realm, the number of Ninth-Grade Immortal Artifacts brought was nearly twice as much!

Such a large number of Ninth-Grade Immortal Artifacts, not to mention placing them at the entrance of the third passage of the Cyan Wood Forest, even at the entrance of the numerous Little World passages in the entire Red Water Demon City, have never appeared together!

Even in the memory of the Cyan Bird Celestial Demon, the number of Ninth-Grade Immortal Artifacts that appeared at any single passage entrance of the Red Water Demon City, accumulated over millions of years, may not have been as many as this!

"Did a den of Ninth-Grade Immortal Artifacts just get blown up?" Among those thousands of Initial Tier Celestial Demons, an Initial Tier Celestial Demon with a dog's face and a human body, looking at the Ninth-Grade Immortal Artifacts continuously circling around Lin Xuankong, couldn't help but groan and whispered.

"This guy is so arrogant, Lord Cyan Bird will surely teach him a lesson, but having said that, this guy's artifact refining technique is indeed extremely impressive, to actually be able to refine so many Ninth-Grade Immortal Artifacts in the Little World below, relying on the low-tier materials from the world below!" Another Initial Tier Mid-stage Celestial Demon looked at the tens of Ninth-Grade Immortal Artifacts undergoing Metamorphosis with an overwhelmingly desirous fervor in his eyes.

"So what if there are many Ninth-Grade Immortal Artifacts, can it really be like eight thousand years ago, when a Growth-type Initial Tier Divine Artifact appeared? It's said that the probability of a Ninth-Grade Immortal Artifact transforming into a Growth-type Divine Artifact is absurdly low, possibly less than one in ten thousand! What's more, even if among these forty-eight Ninth-Grade Immortal Artifacts in this guy's hand, there was one that metamorphosed into a Growth-type Initial Tier Divine Artifact, it would still be of no use! A Celestial Immortal at Initial Tier Perfection, even with a Growth-type Initial Tier Divine Artifact, could never be a match for Lord Cyan Bird at Mid Stage of Minor Success! Unless this guy could possess a Growth-type Minor Success Divine Artifact, but how could Lord Cyan Bird possibly give him the opportunity, let alone enough time to grow, a Growth-type Divine Artifact needs tens of thousands of years to grow into a Minor Success Divine Artifact!"

Another Late Stage Initial Tier Celestial Demon, although with a hint of amazement in his eyes, still remained confident, unwavering in his faith in their Lord, the Cyan Bird Celestial Demon!

At this moment, floating at the passage entrance of the Luo Water Array, the Cyan Bird Celestial Demon, certainly felt a wave of turbulence in his heart too!

He had long anticipated that Lin Xuankong would definitely ascend to the Supreme Origin Realm with many Ninth-Grade Immortal Artifacts, but he hadn't expected there to be so many!

However, while being amazed in his heart, the Cyan Bird Celestial Demon, looking at those forty-eight immensely powerful, transforming Ninth-Grade Immortal Artifacts, had the initial trepidation floating in his heart dissipate without a trace, replaced by an uncontrollable greed and yearning!

The Cyan Bird Celestial Demon was originally worried that Lin Xuankong might have some kind of fallback, or unexpected card up his sleeve, but seeing Lin Xuankong showcase forty-eight Ninth-Grade Immortal Artifacts, his heart stabilized, for he had already observed that when Lin Xuankong had just set up the Luo Water Array, he used as many as six hundred and more Eighth-Grade Immortal Artifacts!

Which means, to arrange such a powerful array with power comparable to the Immortal Slaying Thousand Demon Array once more, it would require at least six hundred or more Eighth-Grade or Ninth-Grade Immortal Artifacts as the Array Hub!

It is absolutely impossible to arrange another one with just forty-eight Ninth-Grade Immortal Artifacts!

If that's the case, since this Lin Xuankong's trump card is just these forty-eight Ninth-Grade Immortal Artifacts, and he's being so arrogant, then what is there for me to fear!

Turning his Heart Thought to this,

the Cyan Bird Celestial Demon no longer hesitated a bit, his figure moved, and he instantly passed through that Seven Realms Luo Water Array's passage entrance, landing within the Seven Realms Luo Water Array!

In that extremely brief moment when the Cyan Bird Celestial Demon passed through the light membrane opening, he immediately felt that the light membrane opening behind him promptly restored...

Seeing this, the Cyan Bird Celestial Demon couldn't help but raise an eyebrow, revealing a cold sneer, "What, still planning to seal this rather considerable array, planning to duel me within the grand array? You truly have great confidence in those forty-eight Ninth-Grade Immortal Artifacts in your hand!"

After saying this, the Cyan Bird Celestial Demon slowly flapped the Cyan Bird's Wings, stepping through the air, gradually approaching Lin Xuankong.

With each step closer, the Cyan Bird Celestial Demon's momentum increased a bit more, and by the time he had stepped several dozen steps forward, the momentum around him had reached its peak, several times stronger than when he was attacking the array light membrane outside the Luo Water Array!

And the Demonic Qi on his body surface continually altered his body, making his originally fuzzy body take on a metallic texture, transforming into a similar powerful substance as the Cyan Bird's Wings behind him!

At the same time,

the Cyan Bird Celestial Demon's eyes carried a hint of absolute confidence, as he spoke:

"To speak of it, if you didn't overestimate yourself like this, even with the Cyan Bird's Wings, I might need at least hundreds of years to break through your array's light curtain, even if I pushed the power of the Thousand Illusionary Body Demon Artifact to the extreme, transforming my body to match the power of the body Demon Artifact, it could only speed up the breaking of the array light curtain a few folds, but no matter how fast, it would still take at least a hundred years!

But alas, you're truly overestimating yourself, did you think that after millions of years cultivating in the Supreme Origin Realm, I, Cyan Bird, have only refined the wings on my back into a Thousand Illusionary Body Demon Artifact?

All my flesh and blood, all my Demon Bones, have already been completely refined and nourished to the extreme by the endless Upper Realm Primordial Qi over millions of years of extensive cultivation.....now, not only do my Cyan Bird's Wings hold nearly Initial Tier Growth-type Divine Artifact's attack power, but even my limbs, elbows, knees, and teeth are all incredibly close to the attack power of Initial Tier Growth-type Divine Artifacts!

Do you know what this means?

This means, any part of my body, taken alone, can possess nearly 80% of the power of a Growth-type Initial Tier Divine Artifact,

This means, I nearly possess a dozen Growth-type Initial Tier Divine Artifacts, even if not exactly, the difference isn't far!"

After saying this, the Cyan Bird Celestial Demon's gaze towards Lin Xuankong was even more filled with fervor and excitement, "So, even if among those forty-eight Ninth-Grade Immortal Artifacts in your hand now, one or two have transformed into Growth-type Initial Tier Divine Artifacts, it won't make a difference, absolutely not a match for me!"

Upon hearing the Cyan Bird Celestial Demon say this,

Watching the approaching steps of the Cyan Bird Celestial Demon,

Seeing the fully demonized strong body and terrifying momentum of the Cyan Bird Celestial Demon,

Lin Xuankong, however, showed no sign of panic or surprise, his gaze firmly upon the Cyan Bird Celestial Demon, he coolly said:

"How could a Mid Stage of Minor Success Celestial Demon Realm, possess only the skills you just exhibited!

You have the capability to demonize your entire body...though I didn't anticipate it fully, my conjecture wasn't far off,

After all, speaking of it, since you are an old Celestial Demon of millions of years, how could you lack a little trump card of your own!

So,

is this all of your capability? If you have any other trump cards, feel free to show them now!"

The Cyan Bird Celestial Demon, upon hearing this, couldn't help but let out another cold laugh, "To deal with you, what I have now is more than enough, quite sufficient!"

At this moment,

Lin Xuankong suddenly shook his head, then lifted his right hand, speaking:

"Then let me have a try, and see exactly how strong your fully demonized body is!"

Chapter 1349: Lin Xuankong, You Are Shameless

At this moment, the heart of the Cyan Bird Celestial Demon,

was already burning with intense eagerness,

having no mind left to speak with Lin Xuankong.

The instant Lin Xuankong's right hand lifted,

the Cyan Bird Celestial Demon had already unleashed the full power of the Cyan Bird's Wings on its back, preparing to capture Lin Xuankong with the utmost speed and seize those dozens of Ninth-Grade Immortal Artifacts!

At that very moment,

just as the Cyan Bird Celestial Demon was about to move, it suddenly saw countless streams of light flashing around Lin Xuankong's body!

Those streams of light were dazzlingly bright, each emitting a rather powerful wave, evidently each one a sharp and exquisite Seventh- or Eighth-Grade Immortal Sword... Most startling of all to the Cyan Bird Celestial Demon was that, even with its capabilities, it couldn't quickly count the exact number of those Eighth-Grade Immortal Artifacts, but it was sure that the number of these dazzling streams of light in front of it was at least in the thousands, almost ten thousand!

"How... how could there be so many, and all of them are Seventh- and Eighth-Grade Immortal Artifacts!"

The Cyan Bird Celestial Demon's form halted, stopping its rush forward, its vertical pupils nearly shrinking into two slits!

Like Lin Xuankong, the Cyan Bird Celestial Demon was also not a native being of the Supreme Origin Realm, but had ascended from another lower world! Before ascending to the Supreme Origin Realm, the Cyan Bird Celestial Demon, like the Demon Lord of the Profound Yin Demon Race in the Golden Dragon Immortal Realm, had also cultivated for hundreds of thousands of years in a lower world, waiting until it was confident enough to pass the final Celestial Tribulation to ascend to the Upper Realm, before triggering the ultimate Celestial Tribulation!

Thus, the Cyan Bird Celestial Demon was well aware of how incredibly difficult it was for the Artifact Refining Masters of those lower worlds to refine an Immortal Artifact! Even for the Strongest Immortal

Lord level Artifact Refining Masters, having access to vast resources, successfully refining a First-Grade Immortal Artifact was no easy task, often failing several times or even a dozen times before succeeding! And that's just for a First-Grade Immortal Artifact; for a Second- or Third-Grade Immortal Artifact, the difficulty doubled. If it were Fourth- or Fifth- or even Sixth-Grade, it would require extremely precious materials and often fail dozens of times!

As for Seventh- and Eighth-Grade Immortal Artifacts, for the Artifact Refining Masters in those lower worlds, it was as difficult as climbing to the heavens! In the eyes of ninety-nine percent of Artifact Refining Masters, refining a Seventh- or Eighth-Grade Immortal Artifact was as challenging as passing the final Celestial Tribulation! As for Ninth-Grade Immortal Artifacts, there was no need to mention them; a lower world evolving for tens of millions of years might not see more than a hundred Ninth-Grade Immortal Artifacts!

This was why, upon discovering that the Golden Dragon Immortal Realm surprisingly had twenty-eight Ninth-Grade Immortal Artifacts, all crafted by the same Artifact Refiner, Lin Xuankong, the Cyan Bird Celestial Demon resolved to capture Lin Xuankong at all costs!

But no matter how much the Cyan Bird Celestial Demon overestimated Lin Xuankong's artifact refining skills, it never imagined that Lin Xuankong would be able to refine so many Seventh- and Eighth-Grade Immortal Artifacts!

Thousands, nearly ten thousand Seventh- and Eighth-Grade Immortal Artifacts!

The Cyan Bird Celestial Demon, gazing at the densely packed Seventh- and Eighth-Grade Immortal Artifacts, felt a surge of astonishment rising in its heart, almost beyond description.

Yet the Cyan Bird Celestial Demon had no idea that the number of Seventh- and Eighth-Grade Immortal Artifacts owned by Lin Xuankong all together was still less than the number of Ninth-Grade Immortal Artifacts he and the Artifact Refining Genius Xiao Xiuyi had refined!

At this moment, Lin Xuankong was truly too humble...

He didn't use the mystical talents contained within the Vigorous in Old Age Life Plate, nor the Eight-Layered Realm Luo Water Array obtained after studying the Luo Water Divine Diagram for ten thousand years, nor the enormous number of Ninth-Grade Immortal Artifacts!

But Lin Xuankong felt he was being extremely low-key at this moment,

yet those Celestial Demons of the Thousand Illusion Race did not think so at all!

For those Initial Tier Celestial Demons of the Thousand Illusion Race, each having one or two Middle or High-Grade Demon Artifacts, and for these subordinates of the Cyan Bird Celestial Demon, the thousands or tens of thousands of High-Grade Immortal Artifacts flashing within the Luo Water Array seemed like a fantasy, something they could hardly believe their eyes.

"Damn it, are those really Seventh- and Eighth-Grade Immortal Artifacts? Am I seeing this wrong, sensing this wrong? I must be seeing this wrong; perhaps I've fallen for some illusion technique!"

"Those should all be Seventh- and Eighth-Grade Immortal Artifacts; otherwise, how could they be so dazzling! But... but how could a mere Initial Tier Celestial Immortal from a lower world possibly have so many High-Grade Immortal Artifacts? Even if he had taken all the resources of a lower world for himself, it would still take time to refine so many High-Grade Immortal Artifacts!"

"Damn it! I've been cultivating in the Cyan Wood Forest for hundreds of thousands of years, and I've heard that in the entire Red Water Demon City, the one with the most High-Grade Demon Artifacts is our incredibly esteemed City Lord of Red Water! But even after managing Red Water Demon City for 1.2 billion years, the City Lord has only collected a thousand High-Grade Immortal Artifacts and one Growth-type Divine Artifact! Damn it, how could this Lin Xuankong, just an Initial Tier Celestial Immortal who recently ascended from a lower world, have more High-Grade Immortal Artifacts than the City Lord of Red Water!"

"Tsk tsk, speaking of which among the various Great Domains nearby, the one with the most High-Grade Immortal or Demon Artifacts, besides our most revered Thousand Illusion Saint Monarch, would be the Eldest Princess of the Candle Dragon Race. It is said that the Eldest Princess of the Candle Dragon Race has a penchant for collecting various exotic treasures and various High-Grade Immortal and Demon Artifacts, and Growth-type Divine Artifacts! Perhaps among the Great Domains around, the only ones who might own more High-Grade Immortal and Demon Artifacts than this guy in front of us are our extremely revered Thousand Illusion Saint Monarch and the Eldest Princess of the Candle Dragon Race!"

Chapter 1350: Lin Xuankong, You Are Shameless Beyond Measure (2)

"No, no, this Initial Tier Celestial Immortal who has just ascended from the Golden Dragon Mini World, how can he compare with the highly revered Thousand Illusion Saint Monarch! The Thousand Illusion

Saint Monarch has ruled over the Eight Great Domains for ninety-eight billion years, and only then could he accumulate such an immensely rich foundation!"

"The problem is, where did this guy's thousands upon tens of thousands of high-grade immortal artifacts come from? Surely he couldn't have refined them all by himself! I've heard that in the entire Red Water Demon City, the Feather Demon Workshop is the most skilled in artifact refining, boasting a full one hundred and seventy-two Artifact Refining Masters, but over countless years, the number of high-grade immortal artifacts and high-grade demon artifacts they have produced is just over nine thousand one hundred! It's impossible for Lin Xuankong to rely solely on his own power to surpass the Feather Demon Workshop with its one hundred and seventy-two Artifact Refining Masters!"

"It's absolutely insane, definitely insane! These radiant lights before my eyes must all be illusions! I absolutely cannot believe that an Initial Tier Celestial Immortal from a lower Little World could possess so many high-grade immortal artifacts! How old is he, at most tens of thousands of years, and even if all that time was spent on refining artifacts, it wouldn't be possible to produce more than ten high-grade immortal artifacts..."

When those dazzling radiant lights filled the sky,

all the present Initial Tier Celestial Demons each showed expressions full of disbelief.

They did not doubt that the most pinnacle powerhouses in the Supreme Origin Realm possessed fewer high-grade immortal artifacts than Lin Xuankong before them, what they couldn't accept or believe was that an Initial Tier Celestial Immortal from a lower Little World, having just ascended, could casually fling out thousands upon tens of thousands of high-grade immortal artifacts!

At this moment,

faced with the densely packed high-grade immortal artifacts,

the Cyan Bird Celestial Demon, who was originally full of confidence in its mid-stage of Minor Success Realm and in its thousand illusionary body demon artifact, finally felt a tinge of panic within its shocked heart.

The Cyan Bird Celestial Demon wasn't afraid that when those thousands upon tens of thousands of high-grade immortal artifacts attacked, it wouldn't be able to resist!

After all, the Cyan Bird Celestial Demon had cultivated the thousand illusionary body demon artifact for millions of years, having refined its flesh, blood, skeleton, and hair into a near growth-type Initial Tier Divine Artifact! With such an incomparably powerful demon body, the Cyan Bird Celestial Demon was utterly certain that even if all the thousands upon tens of thousands of high-grade immortal artifacts released their full power against it, it could definitely evade most of them and then withstand some of the remaining powers of the high-grade immortal artifacts!

What caused its heart some panic was that it initially thought Lin Xuankong probably only had dozens of Ninth-Grade Immortal Artifacts left, who would have expected Lin Xuankong to casually throw out so many, thousands upon tens of thousands of high-grade immortal artifacts... In the Cyan Bird Celestial Demon's view, no matter how powerful dozens of Ninth-Grade Immortal Artifacts were, they couldn't break through the defense capabilities of its demon body; after all, the Cyan Bird Celestial Demon had already cultivated its demon body into a truly minor success realm cultivation technique of the thousand illusionary body demon artifact, reaching a strength close to a growth-type Initial Tier Divine Artifact!

If it truly were that situation, the Cyan Bird Celestial Demon's confidence in easily defeating Lin Xuankong would undoubtedly be one hundred and twenty percent!

What a pity, seeing those thousands upon tens of thousands of Seventh and Eighth-Grade Immortal Artifacts appearing simultaneously, the Cyan Bird Celestial Demon panicked... because it realized that since Lin Xuankong could utilize hundreds of Eighth-Grade Immortal Artifacts to instantly construct a powerful array, Lin Xuankong similarly could possibly use the thousands upon tens of thousands of Seventh and Eighth-Grade Immortal Artifacts before it to construct 'some' powerful arrays once more!

Panic-stricken, the Cyan Bird Celestial Demon couldn't help but turn its head and look at the entrance from which it had just arrived, only to see that the membrane of the Luo Water Array there had already returned to its original state, with not a hint of a gap!

Not far away, seeing the Cyan Bird Celestial Demon's actions, Lin Xuankong couldn't help but shake his head slightly,

When two strong individuals meet, the brave one wins. This Cyan Bird Celestial Demon is powerful, and if I don't utilize the numerous trump cards I've prepared over ten thousand years, if I don't deploy the massive number of Seventh and Eighth-Grade Immortal Artifacts accumulated over time, I might really

end up defeated by this mid-stage Celestial Demon Lord! However, it isn't yet the time to fight desperately, and this mid-stage Celestial Demon Lord is already feeling fearful, considering retreat... If it were to charge over at this moment with all its might, given its speed, it might actually make me suffer a small loss before I set up the first layer of Luo Water Array membrane!

But this moment of hesitation from the Cyan Bird Celestial Demon is an irreversible mistake!

In the thoughts swirling in Lin Xuankong's mind, the thousands upon tens of thousands of Seventh and Eighth-Grade Immortal Artifacts around him already took their respective positions.

Immediately,

layers of membranes from the Seven Realms Luo Water Grand Array rose, wrapping Lin Xuankong layer upon layer, and to the surprise of all, the number of layers actually amounted to eighteen, meaning the number of Seventh and Eighth-Grade Immortal Artifacts Lin Xuankong had activated was indeed close to ten thousand!

Once those eighteen layers of the Seven Realms Luo Water Grand Array membranes tightly enveloped Lin Xuankong, he suddenly spoke while gazing at the Cyan Bird Celestial Demon not far away:

"Right now, I offer you two paths!

The first path, immediately disperse all demonic qi within your body, give up resisting, and obediently let the array spirits I've summoned control you.

The second path, let the array spirits of my arrays give you a brutal beating, and then control you afterwards!

Of course, which path you choose is entirely your freedom!"

Before the words had even finished, waves of immensely powerful fluctuations suddenly appeared,

above Lin Xuankong's head, over those layers of Luo Water Array membranes that enveloped him, there appeared no fewer than eighteen serpentine river-shaped array spirits!

These grand array spirits, upon appearing, instantly moved with speeds exceeding lightning, directly twisting around the Cyan Bird Celestial Demon, surrounding this mid-stage Lord from Cyan Wood Forest on all sides!

Though these eighteen Seven Realms Luo Water Grand Arrays were not entirely composed of Eighth-Grade Immortal Artifacts, they were genuinely Seven Realms Luo Water Grand Arrays, and within them, those array spirits formed with Seventh-Grade Immortal Artifacts serving as array hubs, although slightly less powerful than those formed with Eighth-Grade Immortal Artifacts, were nonetheless extremely strong, only differing by a negligible amount when compared to the wave emanations released by the Cyan Bird Celestial Demon at full capacity in its mid-stage realm!

In other words, among these eighteen Seven Realms Luo Water Grand Arrays' spirits, even the weakest of the array spirits is only slightly less powerful than this mid-stage Lord's prowess; but with such sheer numbers, and considering among them those array spirits formed with Eighth-Grade Immortal Artifacts, which are even stronger by a slight margin than the Cyan Bird Celestial Demon's strength... Overall, these eighteen array spirits are essentially equivalent to eighteen Cyan Bird Celestial Demons!

And in this moment, the Cyan Bird Celestial Demon evidently sensed the terrifying threat posed by these eighteen Luo Water Grand Array spirits,

it lifted its pale face to look at Lin Xuankong not far away, eyes filled with unwillingness,

A full ten thousand years, it had waited ten thousand years, only to be met with this situation... What upset it the most was Lin Xuankong's recent remarks, because not long ago, it had confidently told Lin Xuankong to choose between two paths, never expecting that in such a short span of time, Lin Xuankong would be the one offering it two path choices!

Its heart churned with thoughts as the Cyan Bird Celestial Demon stared intently at Lin Xuankong, opening its mouth: "Lin Xuankong, such treacherous shrewdness is utterly disgraceful! Had I not been careless for a moment, how could I have entered your grand array, or been trapped by you! Aren't your human race known as people of integrity, always upright and forthright? Don't your human race claim to disdain using various schemes and intrigues?"

If you truly claim to be a cultivator of the human race, a disciple of righteousness, upright and forthright, then fight me one-on-one without using those array spirits—what kind of skill is there in bullying with numbers?"
