Chapter 1371: Celestial Demon Xiluo

Upon hearing Li Changsheng speak,

the plump-faced, small-eyed Li Changming couldn't help but change his expression, sighing:

"Indeed, if it only took a few Hours to remember the Divine Dragon Ten Thousand Transformations Grand Array Pattern of the second location,

then why would the Seven Cities Construction Hall still require us newcomers, the Divine Mountain Warriors, to contemplate there daily!

Since this array pattern can withstand even Venerable level powerhouses, it can't be forcibly memorized with the Divine Soul. It's perfectly normal not to grasp a change in the pattern quickly!

It's a pity that if we delay a few more days to comprehend a change, the amount of patterns recorded will certainly fall far behind those of the other Divine Mountain Warriors! Catching up with them would then be a daunting task!

That's a quota for exploring newly discovered Little Worlds, with a chance to obtain some Little World Origin!

Alas, I wonder how many days it will take to comprehend a change, ten days, dozens of days?"

As Li Changming said this,

a light laugh suddenly came from afar, followed by the voice of a Cultivator,

"Friend, you must be new to the second group of Divine Mountain Warriors in the second location!

However, if you hope to comprehend a change in the Divine Dragon Ten Thousand Transformations Grand Array Pattern in just ten or dozens of days, it might be quite challenging!"

The members of the Li Family and Lin Xuankong turned to see dozens of Divine Mountain Warriors in dark gray attire flying over, landing nearby.

The Divine Mountain Warrior who spoke stepped forward from the group, bowing towards Lin Xuankong and the Li Family trio, saying: "Old Xiluo greets the four newcomers! I couldn't help but join the conversation upon hearing you discuss comprehending the Divine Dragon's Ten Thousand Transformations Grand Array Pattern. Forgive my intrusion."

This Divine Mountain Warrior, though dressed similarly to the many others behind him, exuded a tall and formidable presence, subtly having a leader's air. His appearance was peculiar, human-like, but his face bore many green scales and his pupils were vertical, reminiscent of those seen in the Profound Yin Demon Race and Thousand Illusion Celestial Demon Race. Yet, they lacked the cold and bloody vibe of the Celestial Demon's vertical pupils.

Being newly arrived, Lin Xuankong and the Li Family trio all politely returned the greeting.

Particularly Li Changsheng, after carefully sensing the Primordial Qi fluctuations of this Xiluo, respectfully bowed again:

"Friend, judging by your appearance, you must be a Cultivator from the Green Python Race. However, your Primordial Qi is extremely refined; you seem to be at the Early Stage of Minor Success?"

Xiluo, the Divine Mountain Warrior, nodded. Among the Cultivators behind him bearing a resemblance in appearance, a sturdy one spoke up: "Master Xiluo, sixteen thousand years ago, advanced to an Early Stage Celestial Demon in the second location's cave dwelling. Although not yet at Mid Stage of Minor Success, he is certainly a powerhouse among those of the Early Stage!"

Upon hearing this, the Li Family trio's expressions immediately turned respectful, bowing repeatedly. In the Supreme Origin Realm, akin to the Immortal Realm Domain of the Golden Dragon Immortal Realm, the respect is upheld for strong leaders. Being Initial Tier Celestial Immortals, they naturally revered an Early Stage Celestial Demon!

Li Changming, with his plump face and small eyes, gave a bow again, somewhat puzzled: "Normally, the Divine Mountain Warriors in the second and Seven Cities Construction Hall should be at the Late Stage of Initial Tier or Initial Tier Perfection. Only those in the first location are at the Early Stage of Minor Success Celestial Immortal and Celestial Demon or Celestial Buddha. The benefits for Divine Mountain Warriors in the first location would be far superior to those in the second. Why would a powerhouse of Minor Success Realm like Senior Xiluo serve in the second location of the Seven Cities Construction Hall!"

The sturdy Cultivator behind Xiluo, glancing at his Master, expressed somewhat emotionally:

"Master and our few disciples from the Green Python Race were punished with fifty-six thousand years of service as Divine Mountain Warriors here due to injuring three Celestial Buddhas from the Dragon Fortune Sect in the Seven Cities Treasure Tower thirty thousand years ago, violating Candle Dragon Race's rules. Though Master has achieved the Early Stage during this time, he remains here until the punishment period ends. As for not going to the first location, Master plans to remain in the second location to help us with more array pattern tasks, giving us more cultivation time!"

Upon hearing this, the Li Family trio and Lin Xuankong came to understand why these dozens of Divine Mountain Warriors showed such reverence towards the Green Python Celestial Demon named Xiluo.

Then Xiluo, the Green Python Clan Early Stage Celestial Demon, looked at the plump-faced, small-eyed Li Changming among the Li family trio, saying: "I overheard you mention hoping to comprehend a change in the second location's Divine Dragon Ten Thousand Transformations Grand Array Pattern within ten or dozens of days. It seems your understanding of this renowned pattern of East Ming Divine Continent is rather lacking, underestimating its challenging insight!"

Feeling somewhat nostalgic, he glanced at the hall storing the Divine Dragon's Ten Thousand Transformations array pattern and shifted his gaze back, pointing to one Cultivator among the dozens of Divine Mountain Warriors behind him:

Chapter 1372: Celestial Demon Xiluo (2)

"Not to mention us, even fellow cultivator Yuan Tianlong, who studied arrays for six million years, took a full year and three months to comprehend one transformation of the Divine Dragon's Ten Thousand Changes Grand Array in the palace! Most others spent seven to eight years before barely mastering all the profound mysteries of one transformation. As for skillfully recording their mastered transformations, it took several more years!"

The three from the Li Family changed their expressions on hearing this. Ever since they heard about the task of recording array patterns, along with the chance to obtain a spot to explore the Little World, their hearts burned with eagerness, wishing they could master one transformation of the array pattern this morning, skillfully record it by the afternoon, and participate in the competition by tomorrow. However...

After Xiluo finished speaking, a stout disciple behind him shook his head and said, "Master is right. Apart from fellow cultivator Yuan Tianlong, Master was the fastest in mastering one transformation of the array pattern among us dozens, taking a bit over six years. Most of us needed eleven to twelve years to skillfully record it!"

The Divine Mountain Warriors behind them also shook their heads slightly.

One of them spoke up, "Although there's more than a year until the selection of spots, judging by the looks of the four fellow cultivators, none have previously studied arrays as Array Masters, so it's unlikely they'll compete in the task before the selection. It's even more impossible for them to secure a spot to explore the Little World!"

The three from the Li Family felt somewhat disheartened upon hearing this.

Li Changming, with his round face and small eyes, rolled his eyes a few times and suddenly pulled out the top-grade Profound Truth Jade he planned to give to Grand Celestial Official Wu of the Construction Hall. He handed it over to the Minor Success Green Python Celestial Demon named Xiluo with a respectful expression, saying:

"Senior Xiluo, the four of us hail from the Red Water Li Family, and due to some issues, violated the laws of the Candle Dragon Race, resulting in our punishment to serve as Divine Mountain Warriors at the second location! We're newcomers, so we hope for care from Senior Xiluo and fellow cultivators. This top-grade Profound Truth Jade is a resource we spent tens of thousands of years collecting and exchanging. We offer it to Senior Xiluo as a meeting gift, hoping you'll accept it for our peace of mind!"

Li Changming, known for his round face and small eyes, was not stingy and understood the principle of 'spending money to avoid trouble.' Even though he's got some connections with Grand Celestial Official Wu, he never acted arrogantly because of them!

Lin Xuankong watched from the side, nodding silently in agreement.

He thought to himself: Li Changming, with his round face and small eyes, is quite meticulous, outgoing, and sociable. When he offered the top-grade Profound Truth Jade to Xiluo, he included himself without saying he wasn't part of the Red Water Li Family!

Speaking of which, I'm newly acquainted with the three from the Li Family. Li Changming not only handles things well but also went out of his way to explain many things about the Supreme Origin Realm, giving me insight into many previously unknown facts. This guy indeed seems like a friend at first meeting!

If Li Changming continues to treat me kindly, I might as well help him if I have the chance!

At this moment,

The dozens of Divine Mountain Warriors behind Xiluo saw Li Changming being so tactful and generous, and showing such respect to Xiluo. Their initial sense of distance when looking at the three from the Li Family and Lin Xuankong visibly diminished.

The Minor Success Green Python Celestial Demon Xiluo's eyes subtly changed after hearing Li Changming's words. Then his expression turned solemn, and he spoke:

"The four of you are descendants of the Red Water Li Family, whose clan's strong members were nearly wiped out, fighting against the Thousand Illusion Celestial Demon Race in the battle of Red Water? Tsk tsk, back then, several human Celestial Immortal clans like the Li Family, Huang Family, Ma Family, Zhao Family, Zhu Family, and Ying Family fiercely resisted and delivered a massive blow to the core forces of the Thousand Illusion Celestial Demon Race. They laid a superb foundation for the eventual rise of the Candle Dragon Race in East Ming Divine Continent! It's said that the peace we've experienced in East Ming Divine Continent recently owes not only to the strength of the Candle Dragon Race but also significantly to the contributions of those human Celestial Immortal clans from Red Water back then!

Since you're descendants of the Red Water Li Family, arriving at the third group of the second location as friends, let's face future challenges together and support each other!

As for this top-grade Profound Truth Jade, I absolutely cannot accept it; I must not. The Red Water Li Family's elites perished back then, and I imagine your Li Family descendants have endured hardship over the years! Keep this top-grade Profound Truth Jade for emergencies!"

Li Changming, with his round face and small eyes, was touched by Xiluo's words, and Li Changsheng and Li Changshou standing beside him also showed signs of excitement.

The prosperity of the Red Water Li Family from back then is millions of years past, and if people still remember, their descendants naturally feel immensely proud and excited.

The dozens of Divine Mountain Warriors behind the Minor Success Celestial Demon Xiluo expressed their admiration.

"Of course, the Red Water Li Family was commendable and exemplary for our Human Race. Senior Xiluo is admirable for his righteousness shown towards the descendants of the Red Water Li Family!"

"If everyone were like Senior Xiluo, showing such courtesy and regard for human descendants who resisted the Thousand Illusion Celestial Demon and the Ten Thousand Laws Celestial Demon, why would our Human Race and Demon Race worry about rising?"

"Indeed, it's regretful that some Demon Race and Human Race members, seeing the decline of forces that fought against the Ten Thousand Laws Celestial Demon and the Thousand Illusions Celestial Demon, instead pushed them while they're down, making things difficult for heirs and disciples of those Immortal Sects and clans! Had it not been for their actions disrupting the mindset of predecessors and cultivators, we might not have repeatedly faced frequent losses against the Human and Demon Races in later battles, leading to the Thousand Illusion Celestial Demon Race and Ten Thousand Laws Celestial Demon Race occupying nearly half of East Ming Divine Continent!"

"That's for sure; if everyone carried righteousness and command respect like Senior Xiluo, and all Human Race and Demon Race united, not to mention the Thousand Illusion Celestial Demon Race and Ten Thousand Laws Celestial Demon Race, even the Eight Celestial Demon Races ruling Supreme Origin Realm would find no place to stand, and the Supreme Origin Realm would've been a peaceful Bliss Land ages ago!"

Among the many Divine Mountain Warriors exchanging words were notes of reflection.

When Lin Xuankong heard the Human Race and Demon Race Divine Mountain Warriors talk like this, he quietly mused: Based on what they say, it seems the various Human and Demon Race clans and sects in the Supreme Origin Realm are disorganized, similar to the Golden Dragon Immortal Realm from back then. Yet this is unavoidable; human nature and demon nature are such, facing the fierce Celestial Demon Race. How many Human Race Immortal Sects or Demon Race clans would willingly risk their sects and clans' ruin and charge with all they're worth? Which Immortal Sect or Demon Race clan wouldn't hope other sects or clans bear the brunt against the Eight Celestial Demon Races!

The Minor Success Celestial Demon Xiluo looked at the moved Li Family members and the impassioned Divine Mountain Warriors. Inside, he sneered somewhat. If he hadn't known beforehand about the relationship between Grand Celestial Official Wu from Seven Cities Construction Hall and the Red Water Li Family during the battle of Red Water, how could he, a Mighty Success cultivator for over ten thousand years, show such courtesy to the decaying Red Water Li Family's Initial Tier Celestial Immortal descendants, especially since they're new Divine Mountain Warriors with insufficient power, unsure of how long it would take them to gain access to the origin of a Little World to ascend to the Early Stage of Minor Success realm...

Yet, he did want to make acquaintances with these new Li Family members, so he naturally needed to find a dignified reason.

Seeing everyone's reactions naturally satisfied him greatly!

After a bout of inner mockery, the Celestial Demon Xiluo addressed Li Changming with his round face and small eyes: "Seeing as you all are here, no need to worry, consider it home. Especially, should you have any doubts about contemplating the Divine Dragon's Ten Thousand Transformations Grand Array Pattern, feel free to ask either me or fellow cultivator Yuan Tianlong. Despite missing the chance for the task recording array patterns this time and not obtaining spots to explore the Little World, you should not underestimate yourselves. You must strive to comprehend, as the Candle Dragon Race excels in probing Little Worlds, and there's always potential for new opportunities to arise!"

Chapter 1373: The Venerable's Attention

The three members of the Li Family were overjoyed to hear that the Celestial Demon Xiluo was actually advising them to consult either him or the array master Yuan Tianlong if they had any questions while comprehending the Divine Dragon Ten Thousand Transformations Grand Array Pattern. They couldn't help but express their gratitude to Celestial Demon Xiluo and the array master Yuan Tianlong.

Celestial Demon Xiluo, after exchanging pleasantries, left with dozens of Divine Mountain Warriors, each returning to their own abode.

Among the three members of the Li Family, the chubby-faced small-eyed Li Changming looked to Lin Xuankong with joy on his face and said:

"I never expected that the blessing left by the ancestors of the Li Family could still benefit us, the descendants of the Li Family, millions of years later!

But Brother Lin, you need not worry. I just told them that you too are a descendant of the Li Family. As long as neither of us says otherwise, that Celestial Demon Xiluo senior and that array master Yuan Tianlong will naturally regard you as one of the Li Family's own. This way, when we are comprehending that Divine Dragon Ten Thousand Transformations Grand Array Pattern, you can, of course, ask senior Celestial Demon Xiluo and array master Yuan Tianlong together with us if you have any questions!"

Hearing this, Lin Xuankong did not argue but smiled and nodded, "Brother Changming is so righteous, Profound Void thanks you!"

For this rather righteous little chubby Li Changming, he did feel quite appreciative. After all, since arriving in the Supreme Origin Realm, among the Celestial Demon, Celestial Immortal, and Celestial Demon he encountered, it was only this little chubby from the Red Water Li Family who sincerely treated him as a friend!

However, how could the little chubby Li Changming know that the Lin Xuankong before him had such profound array skills that, while not matching the legendary Eldest Princess of the Candle Dragon Race, he could effortlessly set up an Eighth Grade realm city defense array! If Lin Xuankong were to set up the extremely high-grade grand array that the Eldest Princess of the Candle Dragon Race could arrange, he was far from capable of achieving that, but comprehending a change within a change hidden in the Divine Dragon Ten Thousand Transformations Grand Array's mass of patterns was extremely simple!

The most crucial thing is,

Lin Xuankong had the actual grand array pattern in front of him to comprehend this Divine Dragon Ten Thousand Transformations Grand Array,

which was much easier and simpler than when Lin Xuankong and his master Yaan Mingyu relied painfully on visualizing an abstract Luo Water Divine Diagram and then deduced the Luo Water Array!

If not for today's short time for comprehension, only giving Lin Xuankong a few hours, he might have been able to completely understand a transformation of a particular array pattern of the Divine Dragon Ten Thousand Transformations Grand Array today, and then soon be able to inscribe it in numbers!

There's no helping it, it's because Lin Xuankong possesses naturally excellent array talent, along with an enhancement to his comprehension speed by more than ten thousand times that granted by an Old and Wise talent. Strictly speaking, now with the over ten thousand times speed enhancement in place, Lin Xuankong — or Yaan Mingyu with around six thousand times enhancement — comprehends unfamiliar grand array patterns faster by at least several hundred to a thousand times than the Eldest Princess of the Candle Dragon Race, who was said to have the top array formation talent and ability across several continents!

As for what the little chubby Li Changming mentioned about Celestial Demon Xiluo, and the so-called array master Yuan Tianlong... Celestial Demon Xiluo spent almost ten years to comprehend one change of a particular array pattern of the Divine Dragon Ten Thousand Transformations Grand Array, array master Yuan Tianlong took over a year to comprehend one change of an array pattern, this comprehension speed simply couldn't compare with Lin Xuankong, the difference was worlds apart! Lin Xuankong had no need to consult them!

The little chubby Li Changming, seeing how courteous Lin Xuankong was, increased the joy on his face, waved repeatedly and said: "What thanks, Profound Void brother, you're too polite! Speaking of which, we are all Human Race Celestial Immortals, and punished together in this Seven Cities Construction Hall on the same day, so we're brothers in suffering together. In the future, if Profound Void brother has anything, feel free to tell me, Li Changming. Here, we will surely succeed under the watch of Grand Celestial Official Wu from the Seven Cities Construction Hall!

On hearing these words, Lin Xuankong slightly nodded, while Li Changshou and Li Changsheng frowned. With a sigh and a frown, Li Changsheng said: "It's a pity that such a good opportunity will certainly be missed by the four of us! Since that Early Stage of Minor Success Celestial Demon senior Xiluo, and the array master Yuan Tianlong spent at least over a year to master one change in the Divine Dragon Ten Thousand Transformations Grand Array pattern, we too, would likely need at least that long...even if we had an opportunity for a little guidance, it would still probably take over a decade!

The originally joyful little chubby Li Changming's expression faltered hearing Li Changsheng,

but in a blink of an eye, the chubby Li Changming shook his head, "Brother Longevity, why be so downhearted, isn't there still some time!

More importantly, even if we don't get the opportunity for this little world exploration mission, so what! With the connections of Grand Celestial Official Wu from the Seven Cities Construction Hall, as long as we manipulate things a bit, Wu could very well spare us, opening a back door for one of us!"

This chubby Li Changming is naturally quite optimistic!

Hearing these words, Li Changshou could only sigh: "Changming, you're thinking too optimistically. This kind of little world exploration mission quota, though extremely risky, and even if some little world origins are obtained, most must be handed to the Candle Dragon Race, in the end, these quotas are opportunities for Initial Tier Celestial Immortal, Celestial Demon, and Celestial Buddha to defy fate!

Chapter 1374: The Venerable's Attention (2)

The Seven Cities Construction Hall doesn't know how many Celestial Officials, guards, and Divine Mountain Warriors are closely watching the exploration spots for the Little World! At a time like this, with such an important opportunity to explore the Little World at stake, even as high-ranking as Grand Celestial Official Wu is, he wouldn't dare to show favoritism indiscriminately!"

Li Family's Little Fatty, Li Changming, heard this, and couldn't help but frown, lowering his head in thought.

Lin Xuankong, on the other hand, cupped his hands towards the three, "Fellow Daoists, Xuankong will go to the cave dwelling for some rest and cultivation, so I won't accompany you all here any longer! As for the opportunity Fellow Daoist Changming mentioned, I think we might indeed get a turn, so there's no need to hastily give up!"

After saying this, Lin Xuankong turned and headed towards the cave dwelling assigned to him.

Li Changshou and Li Changsheng both cupped their hands in return, and the previously somewhat gloomy-faced Little Fatty Li Changming, smiled, "Brothers, listen, Fellow Daoist Lin agrees with me, so don't belittle yourselves and give up prematurely!"

Li Changshou and Li Changsheng, upon hearing this, shook their heads again,

Clearly, these two descendants of the Li Family had little hope of comprehending even one variation of the Divine Dragon Array pattern. At the same time, they had no hope that Li Changming and Lin Xuankong could comprehend any variations of the Divine Dragon Array pattern either!

....

Inside the small cave dwelling,

Deep within, Lin Xuankong first mobilized his Divine Soul, thoroughly probing both the inside and outside of the cave dwelling. After confirming there were no traces of surveillance artifacts or fluctuations within, he breathed a slight sigh of relief, his eyes gleaming with eagerness.

Ever since hearing Li Changming, the Little Fatty of the Li family, talk about the preciousness of completing a growth-type Divine Artifact, Lin Xuankong had been impatient, planning to quickly metamorphose those Perfect-Level Ninth-Grade Immortal Artifacts of his, hoping for the luck to transform them into growth-type Divine Artifacts!

However, Lin Xuankong was also acutely aware,

That he was currently a prisoner of the Candle Dragon Race, his actions absolutely restricted, possibly even under special surveillance.

Moreover, Lin Xuankong understood very well that even though his Divine Soul had probed thoroughly inside and out, he might not have completely checked if this cave dwelling in the second location, third group of the Divine Mountain Warriors of the Candle Dragon Race's Seven Cities Construction Hall, had any unique monitoring items! Having witnessed the prowess of the Green-Scaled powerhouses of the Candle Dragon Race, and the profoundness of the Candle Dragon Race's Divine Dragon Ten Thousand Changes Array, Lin Xuankong had a clear understanding of the Candle Dragon Race's might, and dared not be even slightly complacent or careless... The saying, "An innocent man gets into trouble because of his wealth," was something Lin Xuankong very much agreed with!

Sitting on a jade bed deep in the cave dwelling, Lin Xuankong pondered for a long while before his eyes brightened with a solution!

The next moment,

Lin Xuankong retrieved a full dozen seventh-grade Immortal Artifacts from the Golden Patterned Ghost Frog Pouch at his waist,

Then, with a wave of his hand, the dozen metamorphosed seventh-grade Immortal Artifacts swiftly arranged themselves around him, forming a rather mystical array around the jade bed he sat upon.

Soon after, a series of lights lit up as the array formed by those twelve seventh-grade Immortal Artifacts suddenly created a thin light membrane!

This array wasn't a Luo Water Array of any grade, but a special array known for avoiding detection, which Lin Xuankong acquired during his time in the Golden Dragon Immortal Realm before ascending to the Supreme Origin Realm: the Light-Stealing Array!

While the Light-Stealing Array couldn't compare to the Luo Water Array in terms of defense and combat capability,

It far outperformed Luo Water Arrays even of the First Grade in these aspects,

Yet the strength of the Light-Stealing Array lay in its ability to isolate detection, and while this low-grade Light-Stealing Array couldn't stop powerful beings at the Great Success Realm or Venerable Realm, it could uniquely respond to indications of surveillance once an attempt to probe by a powerful entity was detected!

Completing all this, Lin Xuankong again waved his hand,

And a shimmering Spirit Vein Transference appeared before him; this shimmering portal was none other than the Tier Nine Celestial Demon Bone Small Secret Realm Transference that Lin Xuankong acquired in the Golden Dragon Immortal Realm!

For someone as inclined towards low-key and cautious behavior as Lin Xuankong, directly taking out and metamorphosing tens of thousands of Perfect-Level Ninth-Grade Immortal Artifacts wasn't a good choice; such intense metamorphosis would likely attract the notorious attention of powerful Candle Dragon Clan figures!

He absolutely had no desire to attract the attention of that Green-Scaled powerhouse from the Candle Dragon Race again, given that the warriors of that realm were entirely beyond what Lin Xuankong could contend with using his myriad trump cards!

Yet, Li Changming's words stoked a burning desire within Lin Xuankong, a longing to try it out immediately!

Thus, after contemplating, Lin Xuankong devised a rather clever idea-----without taking out those Perfect-Level Ninth-Grade Immortal Artifacts, he would simply open the Tier Nine Celestial Demon Bone Small Secret Realm Gate and allow the endless, ubiquitous Upper Realm Primordial Qi to flow directly into his Tier Nine Celestial Demon Bone Small Secret Realm, enabling those Perfect-Level Ninth-Grade Immortal Artifacts to undergo metamorphosis by absorbing the Upper Realm Primordial Qi within!

This way, with the separation of the Tier Nine Celestial Demon Bone Small Secret Realm and the Wall of the World from the Supreme Origin Realm, no matter how intense the metamorphic waves from those Perfect-Level Ninth-Grade Immortal Artifacts, they wouldn't be detected!

Moreover, an especially significant point was,

Lin Xuankong's Young Lady Li Xiaolan, Second Lady Zhao Yufei, Third Lady Xiaoo Ying'Er, Fourth Lady Guang Yu'Er, Artifact Refining Genius Xiao Xiuyi, Master Yaan Mingyu, and sworn followers like Li Xiaohu, who accompanied him through the final Celestial Tribulation, preparing to ascend to the Supreme Origin Realm, were all within his Tier Nine Celestial Demon Bone Small Secret Realm!

Although Young Lady Li Xiaolan, Master Yaan Mingyu, and the others had managed power level upgrades from the Strongest Immortal Lord Realm to the Initial Tier Early-stage Celestial Immortal, they were still just at the Initial Tier Early-stage Celestial Immortal due to limited personal power, foundation, and the somewhat modest potency of their ultimate Celestial Tribulation; they hadn't reached the Initial Tier Perfection Realm bottleneck, requiring continuous absorption of the Supreme Origin Realm's Supreme Primordial Qi for cultivation!

Therefore, as long as Lin Xuankong transmitted large amounts of Supreme Primordial Qi through the Tier Nine Celestial Demon Bone Small Secret Realm gate, not only could he safely complete the metamorphosis of a large number of Perfect-Level Ninth-Grade Immortal Artifacts, but he could also supply the Upper Realm Primordial Qi needed for the cultivation of his family and fellow Daoists within the Tier Nine Celestial Demon Bone Small Secret Realm. This indeed was a double win!

At this moment, as the Tier Nine Celestial Demon Bone Small Secret Realm gate opened, massive amounts of Upper Realm Primordial Qi surged perpetually into the gate, and in mere breaths, the amount of Upper Realm Primordial Qi entering the Tier Nine Celestial Demon Bone Small Secret Realm had surpassed what any Early Stage of Minor Success Realm Celestial Demon or Celestial Immortal's Immortal Body could accommodate!

As time flowed on, the eagerness in Lin Xuankong's eyes became increasingly apparent!

Nearly an hour later, sensing that a great influx of Upper Realm Primordial Qi should suffice for metamorphosing those tens of thousands of Perfect-Level Ninth-Grade Immortal Artifacts and for cultivation over a period, Lin Xuankong finally moved, stepping into the Tier Nine Celestial Demon Bone Spirit Vein Transference!

At the very same moment,

In the faraway Divine Lake of the Candle Dragon Race,

The gigantic Green-Scaled Giant Dragon, which had been entrenched in cultivation beneath the lake, suddenly opened its eyes, gazing towards the direction of the Candle Dragon Race's Seventh City Construction Hall,

And it murmured softly:

"This little guy is quite peculiar, why open a small secret realm's spirit vein transference all of a sudden? Are the beings spawned from the little world formed by the body of the Golden Dragon Saint Monarch, who once stirred up a storm in the Supreme Origin Realm, all this intriguing?"

Chapter 1375: The Young Lady's Suggestion

Lin Xuankong had no idea,

that his inherently cautious nature led him to choose entering the Tier Nine Celestial Demon Bone Small Secret Realm, before transforming those tens of thousands of perfect level Ninth-Grade Immortal Artifacts,

which due to this step of caution, he indeed managed to evade the prying gaze of a fearsome powerhouse from the Candle Dragon Race!

The Green-Scaled Giant Dragon lurking at the bottom of the Divine Lake belonging to the Candle Dragon Race, with the tremendously powerful Divine Soul of a Venerable Level, did manage to forcefully spy on Lin Xuankong's movements through the Light-Stealing Array set up by him!

If not for this,

tens of thousands of Ninth-Grade Immortal Artifacts,

and they were perfect level Ninth-Grade Immortal Artifacts,

would have been directly exposed in front of this top-tier Venerable Level powerhouse of the Candle Dragon Race!

Who could guarantee, when faced with such an astonishing quantity of top-tier, most rare Ninth-Grade Immortal Artifacts, that this top-level Venerable of the Candle Dragon Race wouldn't be tempted at all?

....

Tier Nine Celestial Demon Bone Small Secret Realm, at the peak of the giant mountain at the center of the Secret Realm, in the grand hall.

Standing at the entrance of the hall, Second Lady Zhao Yufei looked at Lin Xuankong and smiled: "Those daoist friends who ascended along with you, sensed the influx of Primordial Qi from the Supreme Origin Realm, and each sought a quiet place to establish a cave dwelling for cultivation!

Therefore, within this hall at the peak, we are the only ones left waiting for you!

But ever since you led us to ascend to the Supreme Origin Realm, you've never sent any message here!

During this time, we've been very restless, worried, until you opened the Spirit Vein Transference of the Celestial Demon Bone Secret Realm and transmitted a message, which finally put us somewhat at ease!"

Lin Xuankong nodded slightly, looked around at the crowd, and saw that his master Yaan Mingyu, Young Lady Li Xiaolan, Third Lady Xiaoo Ying'Er, Fourth Lady Guang Yu'Er, his adopted son Li Xiaohu, were all looking at him with some concern, evidently worried about whether he encountered any danger after ascending to the Supreme Origin Realm.

Young Lady Li Xiaolan furrowed her brows and said: "Quickly tell us, what indeed happened after you arrived at the Supreme Origin Realm?

Did you encounter the onslaught of the Celestial Demon Race?

If you did, how did you escape?

Where have you settled outside now?

What's your plan next, Xuankong? When can we go out with you, what does the Supreme Origin Realm really look like?"

Listening to Young Lady Li Xiaolan's barrage of questions, Lin Xuankong's master Yaan Mingyu couldn't help but smile and shake his head, while the others also broke into laughter. Lin Xuankong was somewhat speechless, thinking for a moment, then recounted the series of events after ascending to the Supreme Origin Realm!

For these closest and most trustworthy wives, master, and adopted son, Lin Xuankong naturally felt no need to conceal anything. Besides, the wisdom of many can be as good as a sage, and Lin Xuankong wanted to inform everyone about these affairs so they could provide some ideas and suggestions.

Thus, whether it was the incident with the Minor Success Realm Cyan Bird Celestial Demon from the Thousand Illusion Celestial Demon Race, the matter with the Venerable Level giant dragon at the bottom of the Divine Lake belonging to the Candle Dragon Race, or the encounter with the three members of the Li Family at the Seven Cities Construction Hall of the Candle Dragon Race, he explained them concisely to everyone.

After listening to Lin Xuankong's account, everyone present showed varied expressions,

Initial Tier Celestial Immortal Yaan Mingyu frowned and said:

"With your strength, array formation, and artifact refining skills, overcoming the Minor Success Mid Stage Thousand Illusion Race Celestial Demon isn't particularly difficult,

since you escaped the domain of the Thousand Illusion Celestial Demon Race, they shouldn't be searching for you on the Candle Dragon Race territory anytime soon!

After all, according to your description, the Candle Dragon Race's power, though slightly inferior when combined with the Thousand Illusion Celestial Demon Race and the Ten Thousand Laws Celestial Demon Race, is considerably stronger when counted alone! This Thousand Illusion Celestial Demon Race, including the fearsome powerhouse Thousand Illusion Saint Monarch, shouldn't pose any immediate threat to you!

Still, since the Thousand Illusion Saint Monarch is so powerful, you mustn't be too complacent and should always strive to remain humble. As they say, the tallest tree catches the wind. Until you possess the ability to resist pursuit by a Saint Monarch Level fighter, it's best to stay low-profile, because your talents and abilities are indeed astonishing. If the Thousand Illusion Saint Monarch of that race learns of them, it could potentially cause trouble!

As for the side of the Candle Dragon Race... the same applies, although the Candle Dragon Celestial Demon Race is allied with the Human Race and can coexist peacefully. Yet, they are the Demon Race,

and being under another's roof often requires one to bow. With formidable entities around you who could control you easily, you should remain extra vigilant!"

Lin Xuankong nodded slightly and bowed, saying: "Disciple agrees with Master's thoughts, having kept low-key, concealed abilities and talents well at the Seven Cities Construction Hall of the Candle Dragon Race!"

Yaan Mingyu slightly furrowed his brows and then said: "Of course, there's no need to be excessively low-key! Overweening excellence may draw envy or anxiety from others, but general excellence or talent can still earn you more opportunities than a regular Celestial Immortal within the well-structured clan of the Candle Dragon Race!

The only consideration is about the matter of competing for the quota to explore other Little Worlds. Since every Celestial Immortal looking to break through bottlenecks needs to obtain some original essence from those Little Worlds, if this opportunity is missed..."

Chapter 1376: Young Lady's Suggestion (Part 2)

Lin Xuankong slightly raised an eyebrow, "Disciple is somewhat melancholy today, and it's because of this matter! Yet, if I were to directly, within a few short days, comprehend and display one of the changes of an array pattern from the Divine Dragon Ten Thousand Transformations Grand Array, which the Candle Dragon Race is most proud of, it would indeed be too conspicuous! It's said that some array masters need at least over a year to grasp one variation of a pattern within the Divine Dragon Ten Thousand Transformations Grand Array!"

"But if I pretend to be unable to comprehend a change of the Divine Dragon Ten Thousand Transformations Grand Array pattern in a short time, or if I delay for a few months, I will inevitably miss this great opportunity before me, which is rather a dilemma!"

"Whether exposing some talent or hiding some strength in array formation, both have advantages and disadvantages, causing a bit of headache!"

Faced with Lin Xuankong's question, Yaan Mingyu and the people present all furrowed their brows, evidently realizing that whatever choice Lin Xuankong makes now will be somewhat troublesome.

A few moments later, Young Lady Li Xiaolan, standing beside Lin Xuankong, suddenly smiled, patted Lin Xuankong's shoulder, and laughed: "Oh, Immortal Lin, the first in the Golden Dragon Immortal Realm,

with invincible talent in array formation, artifact refining, and cultivation, how can this little problem stump you!"

Lin Xuankong paused, somewhat helplessly glaring at Young Lady Li Xiaolan, "If you have a solution, just say it, stop teasing your husband all day! If you have a good solution, quickly say it!"

Young Lady Li Xiaolan laughed again, her eyes turning as she spoke: "Heh, having gone to the Supreme Origin Realm for so long, you haven't brought any of the realm's specialty delicacies back for Master Yaan, us ladies, or your adopted sons, I'm too lazy to tell you the solution!"

Lin Xuankong:

Second Lady Zhao Yufei, Third Lady Xiaoo Ying'Er, Fourth Lady Guang Yu'Er, and others all laughed.

Among everyone present, besides Master Yaan, whom Lin Xuankong respected quite a lot, the boldest before Lin Xuankong and the one who liked to play with him the most was his first wife, first Dao companion, Li Xiaolan!

Young Lady Li Xiaolan saw Lin Xuankong's helpless expression and laughed again: "Alright, I know once you got to the Supreme Origin Realm, it was a big battle, encountering terrifying Venerable level powers, then getting aimed at Candle Dragon Race's Seven Cities Construction Hall as a Divine Mountain Warrior, indeed there's no time or leisure to bring us delicacies from the Supreme Origin Realm. This time, I won't blame you, but the next time you return to the Celestial Demon Bone Secret Realm, you must not forget to bring us some Supreme Origin Realm delicacies!"

"As for the solution... didn't you say among the three people of Red Water Li Family you encountered, there was a rather nice little chubby celestial immortal, quite righteous? You could spend time with him, becoming close friends, then help him and his two clanmates secretly comprehend a pattern!"

"In this way, the celestial immortal and his people, if they comprehend a pattern thanks to your help, will naturally remember your goodwill! Subsequently, you can pretend to seek advice from them, leveraging their names to comprehend the pattern, and complete your task! For you, array master second only to Master Yaan in the Golden Dragon Immortal Realm, such an operation shouldn't be difficult!"

Lin Xuankong's eyes brightened after hearing, praising: "A good plan! Guiding or timely helping the three Initial Tier Celestial Immortals of Red Water Li Family comprehend one change of a pattern is not hard for me, since it's not about helping them entirely master all variations of the Ten Thousand Transformations pattern! Once an opportunity arises, within days or tens of days, I can do this without leaving a trace!"

"Tsk tsk, this plan is indeed good. If following Lan's method solves the Candle Dragon Race exploration of Little World quota, Lan, you'd definitely be considered meritorious!"

Young Lady Li Xiaolan smiled, shook her head, "What merit or no merit, when you return to this Celestial Demon Bone Secret Realm next time, just remember to bring us some Supreme Origin Realm specialty delicacies!"

Lin Xuankong immediately nodded, smiling: "A small task, next time entering the Celestial Demon Bone Secret Realm, I will definitely bring you some specialties that appear only in the Supreme Origin Realm, along with delicacies that potentially only exist there!"

Everyone laughed heartily upon hearing.

Regarding comprehending the array pattern, competing for the quota to explore the Little World, Lin Xuankong now had a solution, naturally pleased in heart. After pinching the tender cheek of Young Lady Li Xiaolan, he walked to the platform outside the main hall door, feeling the abundant Supreme Primordial Qi within this Tier Nine Celestial Demon Bone Small Secret Realm, then said:

"Now, having opened the Spirit Vein Transference of the Celestial Demon Bone Secret Realm, I've infused a large amount of Supreme Origin Realm's Supreme Primordial Qi into this Celestial Demon Bone Small Secret Realm! Next, you must temporarily cultivate in the Celestial Demon Bone Secret Realm, avoiding possible troubles outside! Here isn't the Golden Dragon Immortal Realm; even if Master Yaan and I combine efforts to arrange various Luo Water Arrays, we cannot contend with top powers within the Supreme Origin Realm!"

"Once you've absorbed all these Supreme Origin Realm Supreme Primordial Qi during cultivation here, I will again open the Spirit Vein Transference of the Celestial Demon Bone Secret Realm, guiding in more Supreme Origin Realm Supreme Primordial Qi!"

"As for when you can leave, wait until I confirm your safety outside, maybe hundreds of years, thousands, or even tens of thousands, hundreds of thousands or millions of years!"

"Hope Master, all ladies, Fellow Daoist Xiao Xiuyi, Little Hu, you all understand this temporary plight!"

Young Lady Li Xiaolan nodded, "Don't worry, we are not your opponents for now, surely won't leave this Celestial Demon Bone Secret Realm, causing you trouble outside in the Supreme Origin Realm!"

Everyone also assured they weren't anxious to leave the Celestial Demon Bone Small Secret Realm!

Now, even the weakest among them has the Celestial Immortal Body and Celestial Immortal Soul, possessing endless lifespans, their mindset completely different from when in the Golden Dragon Immortal Realm, surely fearless of time's passage! With ensured safety, even waiting hundreds, thousands, tens of thousands, hundreds of thousands, millions of years, they wouldn't feel anxious! This is the mindset shift given by accomplishing the Celestial Immortal Body and Celestial Immortal Soul, normal attitude having infinite lifespan....when lifespans are truly limitless, who would care about tens, hundreds, thousands of years, for infinite lifespan, this duration utterly insignificant!

Seeing everyone's understanding, Lin Xuankong nodded slightly: "Since everyone understands and comprehends, I am relieved! Besides, my return to the Celestial Demon Bone Small Secret Realm has another important matter!"

Speaking here,

Lin Xuankong raised his hand,

Instantly, around the Central Peak, thousands upon tens of thousands of brilliant flowing lights flickered, all gliding towards Lin Xuankong's position!

These brilliant flowing lights, naturally, are a majority of Perfect-Level Ninth-Grade Immortal Artifacts jointly refined by Lin Xuankong and Artifact Refining Genius Miss Xiao Xiuyi! These extremely precious artifacts, even Lin Xuankong and Miss Xiao Xiuyi need tens to hundreds of days to refine one Ninth-Grade Immortal Artifact. Since their inception, they've been stored by Lin Xuankong around the Central Peak in this Tier Nine Celestial Demon Bone Small Secret Realm!

As for other less Perfect-Level Ninth-Grade Immortal Artifacts, they are being carried by Lin Xuankong, for urgent use!

At this moment, Lin Xuankong, activating those numerous perfect-level artifacts, showed a trace of anticipation in his eyes!

Chapter 1377: Divine Artifacts Are Hard to Come By

Growth-type Divine Artifact,

In this Supreme Origin Realm, it is very precious and incredibly powerful!

It is even possible to use a Growth-type Divine Artifact to exchange for a trace of the origin of a Little World from powerful Celestial Immortals and Celestial Demons, giving Lin Xuankong a chance to break through the current cultivation bottleneck in the future!

Such a powerful Divine Artifact,

Lin Xuankong is certainly quite eager for it,

and he extremely anticipates that among the Perfect-Level Ninth-Grade Immortal Artifacts he co-refines with Artifact Refining Genius Miss Xiao, one or two Growth-type Divine Artifacts might truly metamorphose!

Young Lady Lii Xiaolan, seeing this, couldn't help but widen her beautiful eyes and asked, "Why suddenly activate so many Ninth-Grade Immortal Artifacts at once?"

Lin Xuankong smiled and said, "After experiencing a Celestial Tribulation, the Strongest Immortal Lord then absorbs the Supreme Primordial Qi of the Supreme Origin Realm to metamorphose into an Initial Tier Early-stage Celestial Immortal whose lifespan is endless. During the process of absorbing Supreme Primordial Qi, Ninth-Grade Immortal Artifacts naturally will also undergo metamorphosis, enhancing their power! Furthermore, during the metamorphosis process of absorbing Supreme Primordial Qi, there is an extremely, extremely small chance for Ninth-Grade Immortal Artifacts to metamorphose into Growth-type Divine Artifacts, which would greatly enhance their power and allow for unlimited growth!"

After speaking, Lin Xuankong waved his hand, and three thousand strands of 'seeds' of Supreme Primordial Qi flew out from his Immortal Body, landing on those three thousand Perfect-Level Ninth-Grade Immortal Artifacts. Instantly, those three thousand Ninth-Grade Immortal Artifacts turned into flowing lights, distributed themselves on the periphery of all the Immortal Artifacts, and began absorbing the surrounding Supreme Primordial Qi!

A full three thousand Perfect-Level Ninth-Grade Immortal Artifacts simultaneously metamorphosing, the amount of Supreme Primordial Qi absorbed at the same time is naturally enormous, even more than the amount required when three thousand Strongest Immortal Lords simultaneously metamorphose into Celestial Immortals while absorbing Supreme Primordial Qi!

For a moment,

everyone present had a change in expression, for they could all clearly sense the Supreme Primordial Qi around them rushing towards those three thousand Perfect-Level Ninth-Grade Immortal Artifacts. The massive amount of Supreme Primordial Qi being drawn simultaneously caused considerable disturbance, as if a black hole had appeared at the location of those three thousand Perfect-Level Ninth-Grade Immortal Artifacts, specifically absorbing Supreme Primordial Qi!

In Young Lady Lii Xiaolan's beautiful eyes appeared a look of surprise as she looked at those three thousand Perfect-Level Ninth-Grade Immortal Artifacts and couldn't help but ask:

"Ninth-Grade Immortal Artifacts can actually metamorphose after absorbing Supreme Primordial Qi, with even the chance to turn into Growth-type Divine Artifacts. Indeed, the Supreme Primordial Qi of this Supreme Origin Realm is infinitely profound! However, if one or two Ninth-Grade Immortal Artifacts among these three thousand metamorphose into Growth-type Divine Artifacts, what kind of changes will it undergo?"

Lin Xuankong hadn't had the chance to explain to Lii Xiaolan, Zhao Yufei, and other partners the situation where Ninth-Grade Immortal Artifacts undergo metamorphosis after absorbing Supreme Primordial Qi; he had only discussed it with the Artifact Refining Genius Xiao Xiuyi! After all, even if Lii Xiaolan knew about it, she wouldn't be able to help. The art of artifact refining is much more tedious and complex compared to the art of array formation, and not just any Strongest Immortal Lord or Initial Tier Celestial Immortal can easily refine a Ninth-Grade Immortal Artifact!

Not to mention Ninth-Grade Immortal Artifacts, even a First-Grade Immortal Artifact is extremely difficult to refine successfully, and even the Magical Artifacts below Immortal Artifacts require thorough study to master all those incredibly tedious, error-free steps and mysteries!

At this moment, besides Young Lady Lii Xiaolan who was full of amazement and curiosity, Lin Xuankong's master Yaan Mingyu, Second Lady Zhao Yufei, Third Lady Xiaoo Ying'Er, Fourth Lady Guang Yu'Er, as well as several of Lin Xuankong's adopted sons, all looked rather surprised, fixated on those Perfect-Level Ninth-Grade Immortal Artifacts absorbing Supreme Primordial Qi!

As for the question posed by Young Lady Lii Xiaolan, Lin Xuankong paused in expression,

for he himself had only possessed Ninth-Grade Immortal Artifacts that had undergone metamorphosis and not any Growth-type Divine Artifacts, merely having heard from various Celestial Demons of the Thousand Illusion Celestial Demon Race and Li Changming of the Red Water Li Family that during the metamorphosis process of Ninth-Grade Immortal Artifacts, there is an extremely small chance for Growth-type Divine Artifacts to appear!

As for what exactly Growth-type Divine Artifacts are, what divine and powerful abilities they possess, Lin Xuankong couldn't know!

Even the Ninth-Grade Immortal Artifact carried by the Great Success Yu Zhen Bodhisattva from millennia ago, although it metamorphosed into a Growth-type Divine Artifact, and even a Buddhist Growth-type Divine Artifact, Lin Xuankong was not exactly clear on the power and profundity that Buddhist Divine Artifact held!

However, in front of his 'wife', how could he be low-key, how could he admit he didn't know... Lin Xuankong raised his eyebrows and, feigning mystery, said:

"For a Ninth-Grade Immortal Artifact to metamorphose into a Growth-type Divine Artifact, the chances are extremely slim, not to mention these three thousand Perfect-Level Ninth-Grade Immortal Artifacts. Even if six thousand or nine thousand more were to metamorphose, I would be content with just one Growth-type Divine Artifact transforming from a Perfect-Level Ninth-Grade Immortal Artifact! As for what changes, what power, what divine effects a Growth-type Divine Artifact possesses, when a Growth-type Divine Artifact appears, you will naturally know, Lan!"

Upon hearing this, Young Lady Lii Xiaolan was left rather speechless, but since those Perfect-Level Ninth-Grade Immortal Artifacts were in the process of metamorphosis and she didn't want to miss witnessing the process of Immortal Artifacts transforming into Divine Artifacts, she decided not to bother with Lin Xuankong's feigned mystery!

As time passed bit by bit,

in Lin Xuankong's senses, those three thousand Perfect-Level Ninth-Grade Immortal Artifacts had completed their metamorphosis. Unfortunately, out of all three thousand Perfect-Level Ninth-Grade Immortal Artifacts, not a single one metamorphosed into a Growth-type Divine Artifact!

Chapter 1378: Divine Artifacts Are Hard to Come By (2)

This situation was naturally within Lin Xuankong's expectations—according to the sayings of the demon heads of the Thousand Illusion Celestial Demon Race and Li Changming of the Red Water Li Family, a growth-type divine artifact is exceedingly rare, and the chances of a transformation are extremely low!

However, foreseeing it doesn't mean that Lin Xuankong was without any regret, as the three thousand perfect-level ninth-grade immortal artifacts before him represented the meticulous craftsmanship of both him and the artifact refining genius Xiao Xiuyi over hundreds or even thousands of years. The energy, materials, and effort expended were countless multiples more than that of ordinary ninth-grade immortal artifacts!

Nonetheless, Lin Xuankong found some comfort in the fact that,

he could clearly sense that these three thousand pieces of perfectly transformed ninth-grade immortal artifacts had become extremely solid in their artifact bodies, with an incredibly astounding speed of primordial qi transmission. Compared to ordinary ninth-grade immortal artifacts after metamorphosis, the solidity of their artifact bodies was at least twice as strong, and the speed of primordial qi flow almost twice as fast! Normally, in the Golden Dragon Immortal Realm, perfect-level ninth-grade immortal artifacts, compared to ordinary ninth-grade immortal artifacts, would be only about thirty percent stronger in terms of body solidity and immortal yuan flow speed!

Clearly, the gap between perfect-level ninth-grade immortal artifacts and ordinary ninth-grade immortal artifacts, even if neither has transformed into a growth-type divine artifact, has been vastly expanded by the supreme primordial qi during the metamorphosis process!

Don't just look at the solidity of the artifact body being only twice as high...twice the solidity is almost equivalent to the difference between tempered refined steel and ordinary iron; once they are in conflict, the power exhibited by weapons made from ordinary iron versus those made from tempered refined steel can be vastly different. It's like a battle between a three-meter tall man and a 1.5-meter tall child. Even if the height difference is only one fold, in a real fight, the three-meter tall hulk could probably trounce hundreds of 1.5-meter tall children!

Therefore, these three thousand perfect-level ninth-grade immortal artifacts, though none successfully transformed into growth-type divine artifacts, still all became divine weapons for Lin Xuankong to use against opponents. When used to set up the Luo Water Array, it would undoubtedly multiply the array's defensive and offensive power several times over!

"This situation... it seems like each ninth-grade immortal artifact's transformation process is identical, and none have transformed into a growth-type divine artifact?"

Young Lady Li Xiaolan withdrew her gaze, looking somewhat frustrated at Lin Xuankong.

Lin Xuankong nodded slightly with a hint of anticipation in his eyes, saying, "Indeed it is so, but there are still tens of thousands of perfect-level ninth-grade immortal artifacts remaining. There should be at least one or two perfect-level ninth-grade immortal artifacts that will transform into growth-type divine artifacts!"

After speaking, he once again mobilized six thousand strands of primordial qi, guiding six thousand of the tens of thousands of perfect-level ninth-grade immortal artifacts to be arranged on the periphery of the others, allowing these six thousand perfect-level ninth-grade immortal artifacts to absorb enough supreme primordial qi first, thereby undergoing rapid metamorphosis!

As time passed nearly a hundred breaths later,

Lin Xuankong, who had been eagerly expecting the emergence of a growth-type divine artifact, couldn't help but frown slightly. In his perception, among the six thousand perfect-level ninth-grade immortal artifacts he had just activated, not a single one had transformed into a growth-type divine artifact!

This indeed made him a bit frustrated,

Back when the Great Success Yu Zhen Bodhisattva and Sect Leader Qiu of the Divine Dynasty Immortal Sect and twenty-eight of the Strongest Immortal Lords underwent the celestial tribulation and ascended to the Supreme Origin Realm together, their ninth-grade immortal artifacts were all ordinary ones with only a few dozen at hand, yet a growth-type Buddhist divine artifact emerged!

Now, Lin Xuankong had transformed a full nine thousand of the ninth-grade immortal artifacts, all perfect-level ninth-grade ones, yet not a single growth-type divine artifact had appeared. Despite his understanding of the rarity and preciousness of growth-type divine artifacts, it was still somewhat frustrating!

Regarding this issue with transformed immortal artifacts, Lin Xuankong found that his luck was far inferior to Great Success Yu Zhen Bodhisattva's!

Next, gritting his teeth, Lin Xuankong again mobilized as many as nine thousand perfect-level ninth-grade immortal artifacts, positioning them on the periphery of other perfect-level ninth-grade immortal artifacts to let them absorb enough supreme primordial qi for transformation, which only added to Lin Xuankong's consternation!

By this point,

three thousand plus six thousand plus nine thousand, totaling eighteen thousand ninth-grade immortal artifacts, all perfect-level ones,

had used nearly half of Lin Xuankong's tens of thousands of perfect-level ninth-grade immortal artifacts, yet still none had transformed into a growth-type divine artifact!

Even for Lin Xuankong, who had initially estimated an extremely low chance of transformation, this result couldn't help but stir some irritation in his heart.

Standing beside him, Young Lady Li Xiaolan, Second Lady Zhao Yufei, and others all furrowed their brows.

Seeing Lin Xuankong's expression, everyone present, even if they could only use their toes to think, would understand that growth-type divine artifacts must be exceptionally valuable and powerful in the

Supreme Origin Realm, or else Lin Xuankong, with his temperament, would never show such an expression just because some perfect-level ninth-grade immortal artifacts failed to transform into growth-type artifacts!

However, among those present, whether it was Lin Xuankong's mentor Yaan Mingyu or his few dao companions, or even Lin Xuankong's few adopted children, though they were all celestial immortals at the early stage of the initial tier, they were all unfamiliar with matters concerning artifact refining!

Seeing Lin Xuankong in a bad mood, everyone could only be helpless.

The gate of the main hall at the center of the secret realm's mountain peak remained very quiet for a moment, and even the wind that blew around seemed to have calmed down at this time.

Just then, standing not far from Lin Xuankong, the artifact refining genius Xiao Xiuyi seemed to think of something,

she suddenly raised her furrowed brows, approached Lin Xuankong, and abruptly spoke,

"Brother Lin, I recall you mentioning before that when the Great Success Yu Zhen Bodhisattva from the Spirit Platform Buddhism and the other twenty-seven Strongest Immortal Lords ascended to the Supreme Origin Realm together, only the ninth-grade immortal artifact she carried transformed into a growth-type divine artifact. Perhaps the reason that ninth-grade immortal artifact transformed might be related to the Great Success Yu Zhen Bodhisattva, or it might be connected to the Buddhist technique she cultivated?

After all, these perfect-level ninth-grade immortal artifacts were refined by us using only our Immortal Family immortal yuan and never mixed with any other elements of cultivation techniques, such as demon qi, Buddha yuan, or demonic qi! Perhaps the process of transforming into a growth-type divine artifact requires the integration of some other elements of cultivation techniques!"

Lin Xuankong was struck by her words,

Though not entirely certain about Xiao Xiuyi's hypothesis, with nearly half of the perfect-level ninth-grade immortal artifacts already having failed to transform, he had little choice but to try the method

suggested by Xiao Xiuyi, the artifact refining genius! Moreover, Lin Xuankong held an inexplicable trust for this peerless talent in artifact refining, given that in various trials within the Golden Dragon Immortal Realm, this Miss Xiao Xiuyi had often assisted Lin Xuankong with her unparalleled artifact refining expertise!

Nodding towards the artifact refining genius Xiao Xiuyi, Lin Xuankong immediately activated the Golden Body Demon Suppression Technique, which he had cultivated to the ultimate realm,

in an instant, all the supreme immortal yuan within him transformed into supreme Buddha yuan infused with the Buddhist principles. Then, Lin Xuankong looked towards the nearly twenty thousand perfect-level ninth-grade immortal artifacts not far away. With a raised hand, three thousand strands of supreme Buddha yuan infused with Buddhist principles swiftly fell onto the three thousand perfect-level ninth-grade immortal artifacts, entering the interior of these artifacts!

These three thousand perfect-level ninth-grade immortal artifacts, in the blink of an eye, transformed from vibrant with immortal essence to glowing with Buddha's Light, and soon floated to the outer side of the other perfect-level ninth-grade immortal artifacts, prioritizing the absorption of the surrounding supreme primordial qi!

Witnessing this, everyone focused on those three thousand perfect-level ninth-grade immortal artifacts infused with supreme Buddha yuan with some hope!

Chapter 1379: Bodhi Jade

Among those present,

were all Lin Xuankong's Dao companions, masters, and adopted sons,

who had accompanied Lin Xuankong through countless difficulties and obstacles. Naturally, from the bottom of their hearts, they hoped that these perfect-level ninth-grade Immortal Artifacts of Lin Xuankong, as he wished, could metamorphose into growth-type Divine Artifacts!

However, just now everyone had witnessed with their own eyes that a full eighteen thousand perfect-level ninth-grade Immortal Artifacts had not produced a single growth-type Divine Artifact!

The odds of such a metamorphosis, even if not one in tens of thousands, are probably close enough!

With such odds of metamorphosis, it's not as though having tens of thousands of ninth-grade Immortal Artifacts guarantees that one will transform into a growth-type Divine Artifact!

If the probability is low to a certain extent, it's almost entirely dependent on luck... It might take just dozens to produce a growth-type Divine Artifact, or possibly tens of thousands of perfect-level ninth-grade Immortal Artifacts still won't yield any growth-type Divine Artifact!

When this batch of perfect-level ninth-grade Immortal Artifacts had already been undergoing metamorphosis for seventy to eighty breaths' time, the hearts of those present gradually rose with anticipation. Lin Xuankong, driven by the Ultimate Golden Body Demon Suppression Technique, although surrounded by flickering Buddha's Light, couldn't hide the solemn expression on his face as his eyebrows were tightly furrowed.

Young Lady Li Xiaolan, seeing this, couldn't help but feel a wave of indescribable emotion in her heart. She walked to Lin Xuankong's side, took his hand, and whispered:

"Xuankong, since the odds of these ninth-grade Immortal Artifacts metamorphosing into growth-type Divine Artifacts are extremely low, the chance of a growth-type Divine Artifact appearing this time... If it does appear, we'll naturally all be happy for you. But if it doesn't, don't let it affect you. Having achieved the Celestial Immortal Realm, your lifespan is boundless, and there's plenty of time for this in the future. Don't rush!"

Upon hearing Young Lady Li Xiaolan speak this way, Lin Xuankong turned to look at the beauty beside him, only to see Young Lady Li Xiaolan gazing at him with caring and affectionate eyes. The sight of this loyal companion touched the slightly oppressed feeling in Lin Xuankong's heart, causing him to shake his head slightly and smile, saying:

"Rest assured, your husband has already become a Celestial Immortal, how could I be so concerned about temporary gains and losses?"

Even if these tens of thousands of perfect-level ninth-grade Immortal Artifacts can't produce a single growth-type Divine Artifact, at most I'd be a little bit frustrated, but wouldn't feel any sense of defeat! After all, those growth-type Divine Artifacts are incredibly precious within the Supreme Origin Realm, and normally, only Celestial Buddhas, Celestial Demons, Celestial Immortals, and Celestial Monsters in the Great Success Realm and above qualify to possess them!"

Young Lady Li Xiaolan, hearing Lin Xuankong speak so, couldn't help but beam with joy, "Yes, I knew it, my husband is indeed the First of the Immortal World in the Golden Dragon Immortal Realm. How could such a small setback deter him! But don't forget, once complete the metamorphosis of these ninth-grade Immortal Artifacts, bring back a bunch of Supreme Origin Realm's specialty foods when you return!"

"Alright, alright, I won't forget!" Lin Xuankong nodded with a smile.

The others, upon hearing Young Lady Li Xiaolan mention food, couldn't help but laugh. The oppressive feeling shrouding the mountain's grand hall entrance immediately dissipated!

At this moment,

Lin Xuankong suddenly sensed something, a gleam flashing in his eyes, as he turned to look at three thousand flying perfect-level ninth-grade Immortal Artifacts in the distant sky!

At this time, according to the duration, those three thousand ninth-grade Immortal Artifacts should have completed their metamorphosis, flying toward the open land before Lin Xuankong. Yet, among them, two perfect-level ninth-grade Immortal Artifacts remained in place, emitting bright Buddhist golden light, with the sword body slightly vibrating and surrounded by copious amounts of Supreme Primordial Qi flowing into the sword. These two perfect-level ninth-grade Immortal Artifacts, using the Primordial Qi from Buddhist Techniques as a catalyst, differed visibly from the others. They hadn't finished metamorphosis and their metamorphosis time extended considerably!

Upon seeing this situation,

The previously comforting Young Lady Li Xiaolan immediately widened her bright-eyed gaze and asked, full of joy and smiling: "Are these two perfect-level ninth-grade Immortal Artifacts completely different from the others, still undergoing metamorphosis? Could it mean there's hope for them to become growth-type Divine Artifacts!"

Lin Xuankong nodded, his face also unable to conceal his delight, "The situation resembles what I saw through the world passage using Profound Yin Demon Sect's Nine Gates Celestial Demon Technique! A thousand years ago, Great Success Yu Zhen Bodhisattva Friend, his ninth-grade Immortal Artifact was

able to metamorphose into a growth-type Divine Artifact precisely by starting with extended metamorphosis time!"

Beside him, Lin Xuankong's master, Yaan Mingyu, could not help but nod slightly, her exceptionally beautiful face revealing happiness. She mused to herself: her disciple, having been unmatched in the Golden Dragon Immortal Realm, will likely continue being unsurpassed in the Supreme Origin Realm, where everyone is endowed with talent. Yet, she wonders what kind of storm her disciple will stir in the Supreme Origin Realm, and those ancient monsters who have lived for countless eons, what their thoughts might be upon seeing this extraordinary genius!

The rest, including Second Lady Zhao Yufei, Third Lady Xiaoying'er, Fourth Lady Guangyu'er, and adopted son Li Xiaohu, were also filled with joy hearing Lin Xuankong say that these two perfect-level ninth-grade Immortal Artifacts likely started the metamorphosis into growth-type Divine Artifacts!

Guangyu'er couldn't help but openly express her smiles, saying: "It's a pity Master Qiaan Yuan and Master Kunyuan have already sought a quiet place to dive into cultivation,

Chapter 1380: Bodhi Jade (Part 2)

Otherwise, seeing my husband has come to the Supreme Origin Realm and is still so outstanding, still capable of achieving feats that other Initial Tier Celestial Immortals find difficult to attain, still able to obtain treasures that other Initial Tier Celestial Immortals dream of possessing, I'm afraid my master Qiaan Yuan and master Kunyuan will again be filled with astonishment!"

Second Lady Zhao Yufei nodded repeatedly, smiling, "Not only that, let's not even talk about Immortal Lord Qiaan Yuan and Immortal Lord Kunyuan. According to my husband's perspective, if he were to take this growth-type Divine Artifact outside, even the Celestial Immortals, Celestial Demons, and Celestial Buddhas at the Minor Success Realm or Great Success Realm would be envious beyond measure!"

At this point, Zhao Yufei, who was speaking, didn't even know that, let alone the growth-type Divine Artifact, merely a few of the tens of thousands of Perfect-Level Ninth-Grade Immortal Artifacts in Lin Xuankong's possession could make most of the Initial Tier Celestial Immortals envious. After all, those from the Red Water Li Family, such as Li Changming, Li Changsheng, and Li Changshou, all hailed from powerful families and have seldom seen Ninth-Grade Immortal Artifacts, let alone Perfect-Level Ninth-Grade Immortal Artifacts!

As for the Candle Dragon Race, possessing a vast number of high-grade Immortal Artifacts... the entire East Ming Divine Continent holds billions of Celestial Immortals, Celestial Demons, and Celestial Buddhas who ascend from countless Little Worlds, with even more numerous large and small Celestial Immortal

and Celestial Demon clans residing there. Not one of these countless clans can measure up to the Candle Dragon Race, even the barely comparable Thousand Illusion Celestial Demon Race and the Ten Thousand Laws Celestial Demon Race, respected and feared by Celestial Immortals and Celestial Demons alike, are far inferior in terms of the number of Immortal Artifacts compared to the Candle Dragon Race!

Amidst everyone's discussion,

those two Perfect-Level Ninth-Grade Immortal Artifacts undergoing Metamorphosis floating at a distance were continuously changing, with the Buddhist imprints on the sword bodies constantly shifting and increasing, and the shining Buddha's Light was growing ever brighter!

In the end, the Buddha's Light emitted by those two Perfect-Level Ninth-Grade Immortal Artifacts undergoing Metamorphosis became so bright that even these Early-stage Initial Tier Celestial Immortals couldn't help but cover their eyes, unable to withstand the bright Buddha's Light emitted during the artifact's Metamorphosis process! The Buddha's Light generated during the process was so intense that even Celestial Immortal eyes couldn't bear it, proving it was beginning to possess some profound and incredible Divine Power!

When the Buddha's Light diminished, and the vision of Young Lady Lii Xiaolan, Second Lady Zhao Yufei, Third Lady Xiaoo Ying'Er, and others recovered, they immediately looked to the distance.

Over a hundred miles away in midair, where the Perfect-Level Ninth-Grade Immortal Artifacts undergoing Metamorphosis once were, now floated two jade pendants shimmering with gentle Buddha's Light!

Everyone present were Celestial Immortals with naturally sharp Eye Power, and even though those jade pendants appeared only thumb-sized and were over a hundred miles away, they could still clearly discern that both jade pendants bore the Buddhist swastika shape, densely inscribed with tiny figures of Buddhist bhikkhus meditating and praying, the most crucial being that these two growth-type Buddhist Divine Artifact jade pendants seemed to possess some special power! Just a glance left them feeling inwardly clear and emotionally stable, as though they had effortlessly entered a state of comprehension pursued intensely by Buddhist Cultivators, where self and world became as void!

Realizing the far-off growth-type Buddhist Divine Artifacts were indeed so wondrous, everyone showed expressions of astonishment once again,

Young Lady Lii Xiaolan couldn't help but exclaim, "Xuankong, quickly retrieve these two growth-type Buddhist Divine Artifacts. Besides, what special, profound mighty powers do these growth-type Buddhist Divine Artifacts possess to make a mere glance bring such immense calmness and seemingly enable one to enter an accelerated cultivation state?"

Lin Xuankong slightly nodded and beckoned with his hand,

the two growth-type Buddhist Divine Artifacts suddenly flickered and disappeared from where they hovered, only to reappear in his palm.

Being his first encounter with a growth-type Buddhist Divine Artifact, Lin Xuankong was naturally quite curious about what made these Buddhist jade pendant artifacts different from the Buddhist Divine Artifact in the form of a Jade Purification Bottle he had seen with Great Success Yu Zhen Bodhisattva. He channeled a wisp of Buddha Yuan into the two Buddhist jade pendant Artifacts, and instantly, two weak messages followed that wisp of Buddha Yuan back into Lin Xuankong's mind.

Lin Xuankong's eyes lit up, turning to look at the curious Young Lady Lii Xiaolan, and said:

"Sure enough, it's worthy of being a growth-type Divine Artifact. These two growth-type Buddhist Divine Artifacts seem to have already become sentient, meaning I don't have to painstakingly test the effects of these Buddhist Artifacts! Upon my infusion of a strand of Buddha Yuan, two weak Artifact Spirits communicated the effects of these two growth-type Buddhist Divine Artifacts to me!

Both Buddhist Artifacts share the same effect, known as the Bodhi Jade. When fully activated, they can form a micro array in the shape of a Bodhi Tree to protect the owner of the Bodhi Jade. The protective Power of the micro array increases continually with the growth of the growth-type Divine Artifact and can easily resist the full force attacks of cultivators at the Same Tier!

However, this isn't the most potent effectiveness of these two growth-type Buddhist Divine Artifacts Bodhi Jade,

although they possess no profound offensive effects, they hold a special miraculous function known as the Bodhi Bright Mirror, which guards the Divine Soul!

By integrating the Bodhi Jade into the Divine Soul, it becomes an invisible entity providing protection to the Divine Soul! Furthermore, the protective effect on the Divine Soul from the Bodhi Bright Mirror is much stronger than their defensive effect, capable of resisting Divine Soul Attacks from Early Stage Minor Success cultivators, unaffected by techniques like Soul Searching Technique, Soul Shocking Technique, Soul Suppressing Technique, or Illusion Technique, hence not damaging the Divine Soul!

Of course, the effect of the growth-type Buddhist Divine Artifact Bodhi Jade on protecting the Divine Soul grows increasingly powerful as it matures, eventually becoming potent enough to resist part of the soul-type attacks from terrifying experts at the Saint Monarch Level!

Additionally, all Divine Artifacts spontaneously develop a sentient awareness akin to an Artifact Spirit, capable of acting according to the owner's intention, akin to possessing a formidable clone!"

After hearing this, Young Lady Lii Xiaolan couldn't help but nod repeatedly, "It truly is a remarkably potent Buddhist treasure. Now, as you singlehandedly face various crises in the Supreme Origin Realm, having such a growth-type Divine Artifact at your side means you can at least withstand soul attacks from Late Stage of Minor Success or Minor Success Perfection Realm cultivators! But I wonder how these growth-type Divine Artifacts are to be refined and nurtured to fully grow until they can withstand part of the soul-type attacks from terrifying experts at the Saint Monarch Level!"

Lin Xuankong carefully sensed for a while, his expression subtly changing,

the Artifact Spirit of these two growth-type Buddhist Divine Artifacts Bodhi Jade, even though nascent, was well-versed in the growth of the Bodhi Jade,

upon receiving Lin Xuankong's Divine Soul inquiries, one of the Bodhi Jade Artifact Spirits, shaped like a three-inch-high little monk, immediately informed Lin Xuankong that the growth of the growth-type Buddhist Divine Artifact Bodhi Jade shares the same principles as other types of Divine Artifacts. It requires devouring a large number of metamorphosed high-grade Immortal Artifacts, needing at least metamorphosed Sixth-Grade Immortal Artifacts at a minimum. The metamorphosed Ninth-Grade Immortal Artifacts offer a relatively greater enhancement!

Moreover, once the growth-type Divine Artifact reaches Initial Tier Perfection, to break through the realm and transform into a more powerful Minor Success Tier Divine Artifact, similar to the realm-breaking process of Celestial Immortals, Celestial Demons, Celestial Buddhas, and Celestial Demons, it

also requires some Little World Origin, with the difference being that the realm-breaking enhancement of a growth-type Divine Artifact demands slightly less Little World Origin, needing only one kind of Little World Origin!

After hearing the account of the three-inch high little monk Artifact Spirit, Lin Xuankong's brow furrowed involuntarily.

He certainly need not worry about metamorphosed high-grade Immortal Artifacts, as in the entirety of East Ming Divine Continent within the Supreme Origin Realm, probably only the Candle Dragon Race, Thousand Illusion Celestial Demon Race, Ten Thousand Laws Celestial Demon Race, or other top-notch clans possess more metamorphosed high-grade Immortal Artifacts than him! Ordinary clans within the Supreme Origin Realm, like the Red Water Li Family, which is a middling-to-small lineage, even in its heyday with thousands to tens of thousands of Celestial Immortals, can't begin to compare with Lin Xuankong in terms of the number of Immortal Artifacts!

As a result, Lin Xuankong doesn't need to worry about the metamorphosed Immortal Artifacts required for the ordinary growth of his growth-type Divine Artifact!
