Chapter 511: Twelve Consecutive Defeats in Celestial Tribulation, Can Mu Shiba Make It?

Seeing that Guo Yu from the Western Nether Immortal Sect had swallowed the Sixth Celestial Vein Spiritual Object, every cultivator present turned their gaze to this genius disciple of the Western Nether Immortal Sect! Especially the victors, including the Lin Family Seven Tigers and Third Princess Xiaoo Ying'Er, all had the opportunity to obtain a Sixth Celestial Vein Spiritual Object today. Soon, they too would be consuming a Sixth Celestial Vein Spiritual Object, so naturally, they paid particular attention to Guo Yu, who was the first to consume his.

However, everyone was acutely aware of what the Third-Grade Earth Immortals had said: the likelihood of forming the Sixth Celestial Vein after consuming a Sixth Celestial Vein Spiritual Object was only one or two percent. Therefore, the probability was indeed very low. Naturally, Guo Yu's chance of successfully forming the Sixth Celestial Vein was also considered extremely low.

Guo Haishan, the Third-Grade Earth Immortal from the Western Nether Immortal Sect, was at this moment deeply concerned for his True Disciple. He understood just how difficult it was to acquire the invaluable Sixth Celestial Vein Spiritual Object. Attempting to form the Sixth Celestial Vein with the Spiritual Object was even harder, but if successfully formed, his True Disciple would have a great chance of becoming a Fourth-Grade Earth Immortal in the future!

A cultivator in the Fourth-Grade Earth Immortal Realm would be considered a top-tier figure in any Immortal Sect within the Central Divine Dynasty Western Region. After all, in the Central Divine Dynasty Western Region, even the True Sect Leaders of the Beimang Immortal Sect, Fire Spirit Immortal Sect, Spiritual Crane Immortal Sect, and Western Nether Immortal Sect were merely at the Fifth Grade Realm.

At this moment, under the watchful eyes of the crowd, Guo Yu, the genius disciple of the Western Nether Immortal Sect, suddenly had a faint spiritual glow radiate from the surface of his body. This spiritual glow bore some resemblance to the glow from the Sixth Celestial Vein Spiritual Object he had just consumed. Immediately, the spiritual glow shrank abruptly, gathering towards Guo Yu's lower abdomen. Cultivators, whether forming the Sunflower Water Spirit Vein, Wood Spirit Vein, or Thick Earth Spirit Vein, all form them in the Dantian within their lower abdomen. At this moment, all the spiritual glow on Guo Yu's body was converging towards his lower abdomen, clearly indicating a tendency towards forming the Sixth Celestial Vein!

Seeing this, Guo Yu's master, Guo Haishan, gradually revealed a look of earnest anticipation. The Western Nether Immortal Sect had not seen a cultivator with the Sixth Celestial Vein in tens of thousands of years. Although the Sixth Celestial Vein had little impact on Earth Immortals of Fourth Grade and above—such as those of Fifth Grade, Sixth Grade, or Seventh Grade—it could still slightly

increase their chances of surviving a Celestial Tribulation! If Guo Yu could form this Sixth Celestial Vein, it was possible that the Western Nether Immortal Sect could one day produce a powerful Earth Immortal of Fifth Grade, Sixth Grade, or even Seventh Grade—one comparable in strength to a Vice Sect Leader of a Divine Dynasty Immortal Sect in the Central State! With this thought, he fixed his gaze on his True Disciple, Guo Yu, unwilling to blink even once.

The surrounding victors, including the Lin Family Seven Tigers and Third Princess Xiaoo Ying'Er, also focused their gazes on Guo Yu. Since they too would soon consume a Sixth Celestial Vein Spiritual Object, they naturally empathized with his situation and felt somewhat nervous. The disciples of the Spiritual Crane Immortal Sect, along with many Earth Immortals present, also held their breath at this moment.

In the entire Martial Arts Hall of the Spiritual Crane Immortal Sect, only Lin Xuankong sat calmly in his seat, not paying much attention to Guo Yu. He possessed the Life Chart Talent, capable of increasing the condensation probability of a Spiritual Object by sixty times. Therefore, even though the Sixth Celestial Vein Spiritual Object had a mere one or two percent chance of forming the Sixth Celestial Vein, he had absolute confidence. Relying on his Vigorous in Old Age Life Plate, he would directly form the Sixth Celestial Vein! With such a Life Plate, how could he possibly worry about failing to form the Sixth Celestial Vein?

At this moment, everyone stared intently at Guo Yu. His body began to tremble slightly, and his facial muscles twitched, as if he were enduring some unbearable pain.

A few breaths later, Guo Yu, his eyes closed as he guided the Spiritual Object's essence to converge in his Dantian, suddenly trembled violently. He let out a low cry and collapsed directly to the ground. A sharp sound, like flesh being pierced, came from his lower abdomen. Then, a burst of essence, suffused with spiritual light, erupted from his abdominal wound, quickly dissipating into the void!

Guo Haishan, the Third-Grade Earth Immortal from the Western Nether Immortal Sect, whose face had been full of earnest expectation, couldn't help but show his disappointment at this scene. His form flickered, and he appeared beside the collapsed Guo Yu. He looked at the wound on Guo Yu's abdomen and then at Guo Yu's face, etched with utter despair after failing to form the Sixth Celestial Vein. The Third-Grade Earth Immortal sighed and, with one hand, helped Guo Yu up.

"Why be so crestfallen? The condensation chance for a Sixth Celestial Vein Spiritual Object is extremely low to begin with. Your failure to form it is normal. Any other cultivator would not necessarily have succeeded either! Quickly, circulate the True Qi within you and do your best to absorb the remaining essence of the Sixth Celestial Vein Spiritual Object. Although this essence cannot enable your Sixth

Celestial Vein to form, it can greatly improve your physique, at least enhancing your chances of advancing to an Initial Tier Earth Immortal!" advised Guo Haishan, the Third-Grade Earth Immortal.

Guo Yu, clearly devastated by his failure to form the Sixth Celestial Vein using the Spiritual Object, nodded with a pale face. He then closed his eyes, guiding the True Qi within him to absorb the remaining essence of the Sixth Celestial Vein Spiritual Object still in his body. The surrounding victors who were watching shook their heads one by one.

Xiao Yan, the talented disciple of the Five Elements Immortal Sect, then remarked with some emotion, "Alas, trying to form the Sixth Celestial Vein with just a single Sixth Celestial Vein Spiritual Object is truly too difficult!"

Chapter 512: Twelve Consecutive Defeats in Celestial Tribulation, Can Mu Shiba Make It? - Part 2

This time, although all of us had the opportunity to come into contact with the Sixth Celestial Vein Spiritual Object, in the end, once everyone has used up their Sixth Celestial Vein Spiritual Object, it would be an absolute stroke of luck if even one person successfully condenses the Sixth Celestial Vein!

The failure of Fellow Daoist Guo Yu in condensing the Sixth Celestial Vein is actually within normal expectations. There's no need to be too upset about it!

In fact, even without the Sixth Celestial Vein Spiritual Object, there have been Earth Immortal seniors who achieved High-Grade Earth Immortal status. For example, the Sect Leader of the Divine Dynasty Immortal Sect, an Eighth-Grade Earth Immortal, relied on the most ordinary Five Elements Spiritual Veins and condensed an ordinary Earth Immortal Golden Core. Yet, after twenty thousand years, he is now in the Late-stage of Grade Eight, just one step away from becoming the top Ninth-Grade Earth Immortal in the vast domains of the Central Divine Dynasty!

Everyone nodded slightly upon hearing this.

Standing beside the Five Elements Immortal Sect's genius disciple Xiao Yan, Feng Lingling shook her head with a smile.

"Actually, if the Spiritual Crane Immortal Sect had allowed a single cultivator to consume all the Sixth Celestial Vein Spiritual Objects at once, the probability of success would have been much higher! Instead, they decided to split the twenty-one Sixth Celestial Vein Spiritual Objects. As a result, each person faces a mere one or two percent chance. Attempting to successfully condense the Sixth Celestial

Vein under these conditions is extraordinarily difficult. I believe that in the end, not a single cultivator will succeed!"

The many victors, who were originally anxious after seeing the first cultivator fail, furrowed their brows upon hearing Feng Lingling's words.

For a moment, the entire Martial Arts Hall of the Spiritual Crane Immortal Sect fell silent, the atmosphere becoming slightly heavy.

Even Sect Leader Li of the Spiritual Crane Immortal Sect furrowed his brow, while Spiritual Crane Fairy Qu Qiao'Er softly said,

"Our Spiritual Crane Immortal Sect obtained some Sixth Celestial Vein Spiritual Objects this time and had some True Disciples consume them. However, among more than ten True Disciples, none managed to condense the Sixth Celestial Vein! This condensation of the Sixth Celestial Vein is really difficult. Otherwise, the so-called First Golden Core, the Six Paths Golden Core, wouldn't be so rare!"

Sect Leader Li of the Spiritual Crane Immortal Sect said, "According to our sect's records and what some of our Supreme Elders mentioned, the Sixth Celestial Vein appears once every nine thousand years in places with extremely abundant Immortal Yuan in the Central Divine Dynasty. Each time it appears, there are hundreds of Sixth Celestial Vein Spiritual Objects across its four regions. However, even with hundreds of cultivators consuming them each time, it is considered fortunate if merely two or three cultivators form the First Golden Core—the Six Paths Golden Core! The most challenging part, as Fellow Daoist Feng mentioned, is that even concentrating all the Sixth Celestial Vein Spiritual Objects for one person to consume might not yield substantial success. This is because for matters with such incredibly low probability, even if all the opportunities are concentrated on a single cultivator, if they are not meant to condense it, they still won't be able to!"

He sighed slightly. "Fellow Daoist Guo shouldn't be discouraged by the failure. This kind of thing has been the same nine thousand years ago, eighteen thousand years ago, and even twenty-seven thousand years ago. Most cultivators who obtained the Sixth Celestial Vein Spiritual Object were unable to condense the First Golden Core—the Six Paths Golden Core!"

Guo Yu, having finished absorbing the remaining essence of the Sixth Celestial Vein Spiritual Object, nodded slightly and cupped his hands in response, "I will remember the teachings of my master and Sect Leader Li. Don't worry, I am not one to easily break under pressure. This setback is nothing!"

He looked at the other victors, gave a bitter smile, and cupped his hands again. "I had bad luck and may not have a chance to condense the First Golden Core, the Six Paths Golden Core, in this life! I hope you, Fellow Daoists, will have better fortune and succeed in condensing the Sixth Celestial Vein!"

Upon seeing this, Spiritual Crane Fairy Qu Qiao'Er looked at another cultivator in the crowd. With a slight wave of Immortal Yuan in her hand, a Sixth Celestial Vein Spiritual Object flew toward that cultivator. Once the cultivator caught it, Spiritual Crane Fairy Qu Qiao'Er smiled and said, "Fellow Daoist Zhang, you should be from the Beimang Immortal Sect, right? I hope you have better luck and condense the Sixth Celestial Vein!"

The cultivator raised his eyebrows and said, "Thank you, Spiritual Crane Fairy, for your kind words! I have always been lucky, so I should succeed!"

The Third-Grade Earth Immortal of the Beimang Immortal Sect frowned and said, "Daoquan, be mentally prepared. Although your talent is excellent, condensing the Sixth Celestial Vein does not solely depend on talent!"

Zhang Daoquan of the Beimang Immortal Sect cupped his hands and said, "Master, don't worry. I know what to expect. Regardless of success or failure, I can accept it calmly."

With that, he decisively raised his hand and tossed the Sixth Celestial Vein Spiritual Object directly into his mouth!

After dozens of breaths, the genius disciple of the Beimang Immortal Sect climbed up from the ground with a somewhat regretful expression, looking at his master.

The Third-Grade Earth Immortal of the Beimang Immortal Sect shook his head, clearly somewhat unwilling to accept his True Disciple's failure to condense the Sixth Celestial Vein. "Sigh, you managed to hold on for thirty-eight breaths," he lamented. "If only you could have lasted for forty-nine breaths, you would have absorbed all the essence of the Spiritual Object and directly condensed the Sixth Celestial Vein!"

Zhang Daoquan furrowed his brows deeply and said with helplessness, "I thought that lasting thirty-eight breaths would grant success, but... alas. I have disappointed you, Master!"

Chapter 513: Twelve Consecutive Defeats in Celestial Tribulation, Can Mu Shiba Make It?_3

The Third-Grade Earth Immortal of the Beimang Immortal Sect gently patted the shoulder of his True Disciple. "There's no reason to be disappointed, just a bit regretful. But Daoquan, you needn't feel so helpless. Even though I, your master, do not possess a Six Paths Golden Core, I've still cultivated to the Third-Grade Earth Immortal Realm!"

"Hmm!" Zhang Daoquan frowned and nodded, but his eyes were still filled with frustration and helplessness.

Then, one after another, Sixth Celestial Vein Spiritual Objects were distributed by Spiritual Crane Fairy Qu Qiao'Er to the various winners. The Lin Family Seven Tigers and Third Princess Xiaoo Ying'Er also each received one.

However, to everyone's surprise, after the Lin Family Seven Tigers obtained their Sixth Celestial Vein Spiritual Objects, they all, led by Li Xiaohu, walked over to Lin Xuankong one by one and handed all their Sixth Celestial Vein Spiritual Objects to him.

Xiaoo Yan, the genius disciple of the Five Elements Immortal Sect, was somewhat astonished. This Mr. Mu is indeed incredible, to have so many people willing to give him the Sixth Celestial Vein Spiritual Object that appears only once every nine thousand years!

Other winners were also surprised, looking with envy at the Sixth Celestial Vein Spiritual Objects in Lin Xuankong's hands.

Even those Earth Immortals, as well as Sect Leader Li of the Spiritual Crane Immortal Sect and Spiritual Crane Fairy Qu Qiao'Er, were visibly astonished.

Many Cultivators already knew the importance of the Sixth Celestial Vein and further understood the significance of the First Golden Core—the Six Paths Golden Core. In their eyes, the value of these Sixth Celestial Vein Spiritual Objects could likely rival that of an Initial Tier Immortal Artifact!

As a result, this 'Mu Shiba' sat there, and without him even needing to speak, eight Cultivators willingly handed over the Sixth Celestial Vein Spiritual Objects they had fought so desperately to obtain!

Witnessing this firsthand, how could they not be shocked and astounded?

"Mr. Mu is indeed extraordinary! And the magnanimity of those close to him, willing to give up their Sixth Celestial Vein Spiritual Objects, is also truly remarkable!" Sect Leader Li of the Spiritual Crane Immortal Sect couldn't help but exclaim with emotion.

At this moment, as Sect Leader Li of the Spiritual Crane Immortal Sect looked at Lin Xuankong, a hint of apprehension appeared in his eyes. After all, even though he is the esteemed Sect Leader of the Spiritual Crane Immortal Sect and a Fifth-Grade Late Stage Earth Immortal, he couldn't make so many people willingly give up such an incredibly precious Spiritual Object! Yet, what he couldn't do, this Mu Shiba achieved effortlessly. How could he not feel a sense of dread rising in his heart!

Before long, many Cultivators continued to consume the Sixth Celestial Vein Spiritual Objects one after another. Unfortunately, the next eight Cultivators who consumed a Sixth Celestial Vein Spiritual Object all failed to condense the Sixth Celestial Vein.

Even the genius disciple of the Five Elements Immortal Sect, Xiaoo Yan, also failed after consuming a Sixth Celestial Vein Spiritual Object. He only managed to persist for fifty-six breaths before his condensation attempt failed. His body would be improved by the Spiritual Object due to the longer persistence time, increasing his chances of successfully overcoming the Initial Tier Earth Immortal Celestial Tribulation in the future. However, he ultimately did not condense the Sixth Celestial Vein.

Feng Lingling, also from the Five Elements Immortal Sect, witnessed this and directly gave her own Sixth Celestial Vein Spiritual Object to her Senior Brother!

Yet, even after consuming another Sixth Celestial Vein Spiritual Object, the genius disciple Xiaoo Yan of the Five Elements Immortal Sect still failed.

Although Xiaoo Yan's body would be improved even further from consuming two Sixth Celestial Vein Spiritual Objects, he was still a very, very long way from condensing the Sixth Celestial Vein.

After two consecutive failures, this genius disciple from the Five Elements Immortal Sect had a look of despondency on his face.

Feng Lingling patted his shoulder. "It's alright. Bad luck happens; you just can't compare to me, after all! I, your Junior Sister, successfully condensed my Sixth Celestial Vein using the Spiritual Object gifted by the Sect Leader. From now on, I'll protect you and make sure no one bullies you!"

Xiaoo Yan was speechless. Is this supposed to be comforting? My luck has always been good; it's just that this Sixth Celestial Vein is incredibly difficult to condense! Back then, Junior Sister Feng Lingling also relied on quite a few Sixth Celestial Vein Spiritual Objects to even get a chance to condense her Sixth Celestial Vein. That was all thanks to the foundation the Five Elements Immortal Sect has accumulated over tens of thousands of years!

At this point, aside from Lin Xuankong, the Lin Family Seven Tigers, and Third Princess Xiaoo Ying'Er, all the Sixth Celestial Vein Spiritual Objects acquired by the other winners present had been consumed. Yet, just as Feng Lingling from the Five Elements Immortal Sect had said, not a single other person had successfully condensed the Sixth Celestial Vein!

Many winners wore dejected expressions, while others sighed deeply. But soon, everyone's gaze fell upon Lin Xuankong.

Now, only Lin Xuankong still had nine Sixth Celestial Vein Spiritual Objects in his possession.

Whether any Cultivator could successfully condense the Sixth Celestial Vein today using a Sixth Celestial Vein Spiritual Object now depended entirely on Lin Xuankong's success.

Seeing everyone's gaze turn towards him, Lin Xuankong picked up a Sixth Celestial Vein Spiritual Object. He sensed the rich Spiritual Qi emanating from it, a look of expectation filling his eyes. With nine Sixth Celestial Vein Spiritual Objects in hand and the enhancement from my Vigorous in Old Age Life Plate, I am absolutely confident I can condense the Sixth Celestial Vein in one go! However, his goal was, of course, not merely to condense the Sixth Celestial Vein for himself...

Li Xiaohu, standing behind Lin Xuankong, scratched his head. "Godfather, quickly consume a Sixth Celestial Vein Spiritual Object! With your great fortune, Godfather, one should be absolutely enough to successfully condense the Sixth Celestial Vein immediately!"

Chapter 514: Twelve Consecutive Defeats in Celestial Tribulation, Can Mu Shiba Make It?_4

Lin Xuankong saw Little Hu saying this and couldn't help but smile, nodding slightly. "Then I'll take you up on those auspicious words!"

Just then, Feng Lingling, the talented disciple from the Five Elements Immortal Sect, couldn't help but shake her head. "That's quite an exaggeration! Just one will allow him to condense the Sixth Celestial Vein? Didn't you see everyone else fail? If condensing the Sixth Celestial Vein were that easy, wouldn't every cultivator who obtained a Sixth Celestial Vein Spiritual Object be able to easily advance to an Initial Tier Earth Immortal, or even a First, Second, Third, or Fourth-Grade Earth Immortal? Hah!"

Seeing this ostentatious female cultivator speak so dismissively, Li Xiaohu glared, clearly displeased. "Heh heh heh heh, you disciples from the Immortal Sects..."

He was about to retort, but Lin Xuankong raised his hand slightly, stopping Little Hu from arguing with her.

Whether he could condense the Sixth Celestial Vein after consuming the Sixth Celestial Vein Spiritual Object was his own concern, Lin Xuankong thought. Besides, with so many Earth Immortals and Sect Leader Li of the Spiritual Crane Immortal Sect present, he was in no mood to argue with a young woman.

The cultivators who had just failed after consuming their Sixth Celestial Vein Spiritual Objects all shook their heads slightly.

Having personally experienced the difficulty of condensing the Sixth Celestial Vein, they were naturally skeptical that Lin Xuankong could succeed. In their view, even nine Sixth Celestial Vein Spiritual Objects might not be enough for 'Mu Shiba' to condense the Sixth Celestial Vein, let alone the single one Li Xiaohu mentioned!

However, seeing Lin Xuankong so highly respected by the numerous Earth Immortals and Sect Leader Li of the Spiritual Crane Immortal Sect—to the point where his seat was placed first among all Earth Immortals—no one else voiced their doubts as Feng Lingling had, despite any reservations they might have held.

It was then that Spiritual Crane Fairy Qu Qiao'Er spoke up.

"Mr. Mu, the female cultivator who just spoke is Feng Lingling. She is the direct disciple of the Supreme Elder of the Five Elements Immortal Sect, which is the First Immortal Sect of the Central Divine Dynasty

Western Region. That Grand Elder Feng is a powerful Earth Immortal who reached the Sixth Grade Perfection Realm long ago. Furthermore, this Fellow Daoist Feng is also a True Disciple of the Immortal Sect Leader of the Five Elements Immortal Sect.

Although Fellow Daoist Feng has a straightforward personality, she has always acted with integrity. I hope Mr. Mu will not take offense."

The direct disciple of the Supreme Elder of the First Immortal Sect of the Central Divine Dynasty Western Region... such a prominent background! No wonder she's so arrogant! Li Xiaohu's expression shifted upon hearing this, and he looked at Feng Lingling more carefully.

Noticing his gaze, Feng Lingling immediately glared back at Li Xiaohu, clearly still annoyed that he had been about to argue with her.

Just then, Lin Xuankong raised his right hand, pinched the Sixth Celestial Vein Spiritual Object, and placed it in his mouth.

The Sixth Celestial Vein Spiritual Object melted the instant it entered his mouth, immediately transforming into a warm current that spread throughout Lin Xuankong's entire body.

Sensing the warm currents constantly spreading, and already knowing the guidance method, Lin Xuankong immediately focused his Heart Spirit. He guided the warm currents, formed from the Sixth Celestial Vein Spiritual Object, to converge towards his lower abdomen.

However, the warm currents formed by the Sixth Celestial Vein Spiritual Object manifested as hundreds of distinct strands, continuously coursing through Lin Xuankong's body and meridians.

At this critical juncture, Lin Xuankong's exceptionally powerful Heart Thought immediately played a crucial role. Furthermore, having cultivated the Eight Gates Celestial Eye, he was already accustomed to controlling a large number of red lights and performing Divine Split maneuvering.

These techniques and his prior experience made Lin Xuankong quite adept at managing and guiding the hundreds of warm currents formed by the Spiritual Object.

Soon, one strand of warm current after another was 'captured' by Lin Xuankong's Heart Spirit and True Qi, then guided to the location of his Dantian.

As the warm currents within his Dantian increased, Lin Xuankong's body began to emit a copious amount of misty Spiritual Light.

When other cultivators had consumed a Sixth Celestial Vein Spiritual Object, their body surfaces had also flickered with misty Spiritual Light. However, compared to the Spiritual Light now emanating from Lin Xuankong, theirs had been far, far less intense.

Chapter 515: Can He Really Succeed?

At this moment, in the Martial Arts Hall of the Spiritual Crane Immortal Sect, upon seeing the shimmering Spiritual Light beginning to flicker on Lin Xuankong's body, a multitude of Cultivators, Immortal Sect Disciples of the Spiritual Crane Immortal Sect, Earth Immortals from various Immortal Sects such as the Beimang Immortal Sect and the West Star Immortal Sect, including Sect Leader Li of the Spiritual Crane Immortal Sect, Spiritual Crane Fairy Qu Qiao'Er, and others, all fixed their gazes on Lin Xuankong.

Many started silently counting in their hearts, Ten breaths, fifteen breaths, twenty breaths, thirty breaths...

Sect Leader Li of the Spiritual Crane Immortal Sect stroked his three long strands of beard, an expectant look on his face as he said, "To achieve the Condensation of the Sixth Celestial Vein Spiritual Object, the first step is to gather all the myriad auras of the Spiritual Objects within the Dantian. However, the aura of the Sixth Celestial Vein Spiritual Object is extraordinarily lively and full of Spirituality. Typically, only Heart Thought strength at the Immortal Tier can suppress and guide it. Yet, Cultivators who have become Initial-Tier Earth Immortals can no longer achieve Condensation of the Sixth Celestial Vein. Therefore, it's said that this first step to achieve Condensation of the Sixth Celestial Vein is as difficult as reaching the heavens!

"Next, the aura of the Sixth Celestial Vein Spiritual Object must continuously evolve within the Dantian, gradually achieving Condensation into the Sixth Celestial Vein. This process cannot be influenced by human effort and depends solely on the luck of each Cultivator!"

Beside him, Spiritual Crane Fairy Qu Qiao'Er nodded and remarked, "Senior Brother Sect Leader is right. To achieve Condensation of the Sixth Celestial Vein Spiritual Object, a Cultivator needs not only immense Divine Soul Strength, far surpassing ordinary Cultivators, but also exceptionally good luck. Yet

this luck... it is beyond human control. Even High-Grade Earth Immortals cannot completely alter their fate!"

At this moment, Li Xiaohu was counting silently to himself.

A moment later, his face lit up with increasing joy. "Godfather has already endured for a full seventy-two breaths, and he seems completely at ease. HAHAA, I knew it! Godfather will definitely succeed in utilizing the Sixth Celestial Vein Spiritual Object to achieve Condensation of the Sixth Celestial Vein! Godfather's Talent and fortune are unmatched by ordinary so-called genius Cultivators!"

In his joy, Li Xiaohu couldn't help but glance at Feng Lingling from the Five Elements Immortal Sect; after speaking, he shook his head at her, clearly a bit smug.

Feng Lingling from the Five Elements Immortal Sect, her large, clear black-and-white eyes widening slightly. She had wanted to retort, to say that 'Mu Shiba' definitely won't make it, but seeing that 'Mu Shiba' had persisted for so long, she swallowed her words.

As Feng Lingling watched the shimmering Spiritual Light continuously flicker on 'Mu Shiba', a look of surprise gradually appeared in her eyes. She herself had once ingested the Sixth Celestial Vein Spiritual Object treasured by the Five Elements Immortal Sect for countless years and had even achieved Condensation of her Sixth Celestial Vein using it; she was therefore extremely familiar with the Condensation process of the Sixth Celestial Vein!

Feng Lingling clearly remembered that after ingesting an extremely rare Spirit Fruit called the Nine-Heart Celestial Lotus, her Divine Soul Strength, even before taking the Sixth Celestial Vein Spiritual Object, had already approached that of an Earth Immortal and remained at that level for some time. Consequently, while ingesting dozens of Sixth Celestial Vein Spiritual Objects, her control over their aura grew increasingly adept. She had endured for a full one hundred and twenty breaths, finally managing to gather all the auras of the Spiritual Objects in her Dantian. Ultimately, due to tremendous luck, she had succeeded in forming the Sixth Celestial Vein that everyone envied!

But this 'Mu Shiba'... he clearly hasn't consumed that extremely rare Nine-Heart Celestial Lotus. So how can he control the aura of the Sixth Celestial Vein Spiritual Object within his body without letting even a trace escape? And he seems to have persisted for over eighty breaths already... Just by duration, he's already surpassed every Cultivator present, including my own Senior Brother! Could it be that apart from having more Immortal Artifacts, greater strength, and being more highly regarded by Earth Immortals, this 'Mu Shiba' also possesses an immensely powerful Divine Soul Strength? Could 'Mu

Shiba' really have a chance to endure the time needed to 'capture' all the aura of the Sixth Celestial Vein Spiritual Object?

Thinking of these things, Feng Lingling frowned slightly and stared closely at Lin Xuankong. This young woman, who from the very beginning had adamantly claimed that 'Mu Shiba' could definitely not succeed in achieving Condensation of the Sixth Celestial Vein with just one Spiritual Object, now wavered for the first time!

As the time Lin Xuankong spent with his eyes closed, guiding the aura of the Sixth Celestial Vein Spiritual Object, lengthened, the expressions on the faces of every Cultivator in the entire Martial Arts Arena of the Spiritual Crane Immortal Sect continually changed!

Including Sect Leader Li of the Spiritual Crane Immortal Sect, Spiritual Crane Fairy Qu Qiao'Er, and other Earth Immortals, all stared unblinkingly at Lin Xuankong.

A Third-Grade Earth Immortal from the Beimang Immortal Sect couldn't help but remark, "Mr. Mu has already persisted for a full one hundred and ten breaths after ingesting this Sixth Celestial Vein Spiritual Object, and even now, not a single trace of the Spiritual Object's aura has escaped! This situation... could Mr. Mu really succeed in achieving Condensation of the Sixth Celestial Vein with just one Sixth Celestial Vein Spiritual Object?"

Third-Grade Earth Immortal Guo Haishan from the Western Nether Immortal Sect couldn't help but exclaim, "Mr. Mu's Artifact Refining techniques alone are enough to make any Earth Immortal take notice. If he can also achieve Condensation of the Sixth Celestial Vein and achieve the Six Paths Golden Core in the future... TSK, TSK, his potential will be boundless!"

As everyone marveled, Third Princess Xiaoo Ying'Er gazed at Lin Xuankong before her, and couldn't help but recall the scene in the cave of the Ba Mountain Secret Realm when she first saw Lin Xuankong achieving Condensation of the Wood Spirit Vein!

Back then, he achieved Condensation of the Wood Spirit Vein directly with just one Wood Spirit Object! And I, supposedly the number one genius among the billions of Cultivators in Great Xia, had to use a full eighteen Wood Spirit Objects to achieve Condensation of my Wood Spirit Vein! Back then, I thought he was just lucky. Now it seems that after taking just one Sixth Celestial Vein Spiritual Object, he might directly achieve Condensation of the Sixth Celestial Vein... My husband probably possesses an absolutely extraordinary Talent, perhaps even a powerful Talent I never even imagined! Otherwise, no matter how good one's luck is, how could it be *this* good every single time!

Thinking of this, Third Princess Xiaoo Ying'Er's gaze towards Lin Xuankong filled with even deeper admiration!

Meanwhile, as time passed bit by bit, the expressions on the faces of the numerous Cultivators observing Lin Xuankong grew increasingly complex.

Especially those Cultivators who had failed on the spot after taking a Sixth Celestial Vein Spiritual Object; watching Lin Xuankong, who had already persisted for over one hundred and tens of breaths, their eyes filled with unconcealed envy.

Feng Lingling of the Five Elements Immortal Sect watched Lin Xuankong, a hint of astonishment now in her eyes. This duration... he has clearly passed the first stage! And it seems this isn't particularly difficult for him! Could this 'Mu Shiba' really succeed? No, no, that was just the first stage. The second stage is the most crucial, relying solely on luck. He can't possibly be *that* lucky! Feng Lingling shook her head, a look of defiance returning to her eyes.

Chapter 516: Not Just Mu Shiba Alone, Sect Leader Li Can't Remain Calm

As time continued to pass, Lin Xuankong, who was concentrating on his Dantian, was guiding the aura of the Sixth Celestial Vein Spiritual Object, continuously congealing it within his body.

At the same time, he suddenly discovered that the True Qi in his body was rapidly depleting! This situation had occurred before when Lin Xuankong was congealing the Sunflower Water Spirit Vein, Wood Spirit Vein, Thick Earth Spiritual Vein, Geng Metal Spirit Vein, and Li Fire Spirit Vein!

Lin Xuankong was well aware of this process. The so-called Sunflower Water Spiritual Object, Wood Spirit Object, Thick Earth Spiritual Object, Geng Metal Spiritual Object, and Li Fire Spirit Object all relied on special Spiritual Objects to plant a "seed" within his body. The True Qi within a Cultivator's body could then constantly irrigate this "seed." This allowed it to gradually grow into a true Spirit Vein, thereby granting the Cultivator greater strength.

At this moment, as the aura of the Sixth Celestial Vein Spiritual Object fully congealed in the Dantian and the "seed" of the Sixth Celestial Vein appeared, the consumption rate of True Qi surpassed that of any of the previous Five Elements Spiritual Veins. As tens of thousands of points of True Qi were continuously consumed, the "seed" of the Sixth Celestial Vein Spiritual Object finally began to germinate. It started to take shape, intertwining with the other Sunflower Water Spirit Vein, Wood Spirit Vein, Thick Earth Spiritual Vein, Geng Metal Spirit Vein, and Li Fire Spirit Vein.

Within Lin Xuankong's internal vision, the Sunflower Water Spirit Vein was colorless and transparent, and the Wood Spirit Vein was green. The Thick Earth appeared yellow-brown, while the Geng Metal was bright white like silver. The Li Fire Spirit Vein emitted red flames. In contrast, the newly appeared Sixth Celestial Vein was pure white, looking extremely mysterious!

After another cup of tea's time passed, the gradually growing Sixth Celestial Vein finally stopped growing. It became identical in form to the other five veins, like a lively miniature serpent, though slightly smaller due to its new formation.

However, with the appearance of this Sixth Celestial Vein, Lin Xuankong directed True Qi to flow through it, only to discover that the condensation of True Qi improved almost three times! This increase in condensation had occurred when Lin Xuankong formed the Sunflower Water Spirit Vein, Wood Spirit Vein, Thick Earth Spiritual Vein, Geng Metal Spirit Vein, and Li Fire Spirit Vein, but the increase was never as pronounced as now, typically only doubling each time.

Crucially, normal Cultivators, after forming all Five Elements Spiritual Veins, typically had to consume an Immortal Ascension Treasure Pill and pass the Celestial Tribulation. Only then could they continue to condense True Qi, directly enhancing it into Immortal Yuan.

In other words, ordinary Cultivators simply couldn't condense their True Qi to the extent he now could!

This also meant that when Lin Xuankong consumed the Immortal Ascension Treasure Pill and passed the Celestial Tribulation in the future, his condensed Immortal Yuan would be nearly three times more concentrated than that of ordinary Initial Tier Earth Immortals!

As a result, the Six Paths Golden Core Lin Xuankong would condense in the future would be far more formidable. Whether considering the strength of the Golden Core, the potency of his Magic, or the toughness of his Immortal Body, he would naturally surpass ordinary Initial Tier Earth Immortals by several times!

He wouldn't even have to wait for the future. Right now, after forming the Sixth Celestial Vein, once all the True Qi in his body was converted through it, his own strength would directly increase by more than three times!

This enhancement was different from the increases brought by his Beneficial Techniques. Those techniques enhanced the power of Lin Xuankong's Martial Dao, his physical strength, and size by adding to his base level. This time, however, it was a fundamental enhancement. This meant that if Lin Xuankong activated all his Beneficial Techniques now, he would gain a threefold increase from his new, higher base level!

For example, the Beneficial Technique from the Celestial Demon Bone currently amplified his physical attributes and the power of his Martial Dao by forty-eight times. Now, if he activated it, the enhancement would directly reach one hundred forty-two times—an utterly terrifying and powerful increase!

At this thought, a hint of joy appeared involuntarily on Lin Xuankong's face.

At this moment, all the Cultivators in the Spiritual Crane Immortal Sect Martial Arts Arena focused their gaze on Lin Xuankong. Seeing the sudden hint of joy on Lin Xuankong's face, everyone felt a stir in their hearts.

Sect Leader Li of the Spiritual Crane Immortal Sect and Spiritual Crane Fairy Qu Qiao'Er floated over, landing beside Lin Xuankong. After these two Earth Immortals carefully sensed Lin Xuankong's True Qi fluctuations, looks of surprised joy appeared on both their faces. Sect Leader Li of the Spiritual Crane Immortal Sect stroked his three long strands of beard with delight and said, "Congratulations to Tributor Mu, felicitations to Tributor Mu! You have indeed congealed the Sixth Celestial Vein. When you finish nurturing the Sixth Celestial Vein in the future, consume the Immortal Ascension Treasure Pill, and pass the Celestial Tribulation, you will be the first Earth Immortal with the Six Paths Golden Core in our Spiritual Crane Immortal Sect, hahaha!"

Spiritual Crane Fairy Qu Qiao'Er smiled and nodded at Lin Xuankong.

"My senior sister, Medicine Immortal Qu Wan'Er's True Disciple, Lii Xiaolan, is already a genius in Alchemy and is frequently praised by my senior sister. She learns Alchemy Technique at a speed far beyond ordinary people, even faster than my senior sister did during her own studies. My senior sister even said that Lii Xiaolan's future Alchemy Technique will definitely not be inferior to hers!

I thought that producing a talent like my junior niece Lii Xiaolan in the distant Great Xia Dynasty was already a rare occurrence.

It turns out that the Great Xia Dynasty not only produced an Alchemy genius like my junior niece Lii Xiaolan but also an extraordinary Artifact Refining Genius like Tributor Mu! Moreover, Tributor Mu's Cultivation Talent and fortune are so astonishing that he managed to form the Sixth Celestial Vein with merely a single Sixth Celestial Vein Spiritual Object!"

Chapter 517: Not Just Mu Shiba Alone, Sect Leader Li Can't Remain Calm - Part 2

"That Great Xia Dynasty truly seems to be a place where extraordinary talents are born. If I have the opportunity in the future, I must visit the Great Xia Dynasty to see why so many geniuses can emerge from there!"

Not only were Sect Leader Li of the Spiritual Crane Immortal Sect and Spiritual Crane Fairy Qu Qiao'Er pleasantly surprised, but the Earth Immortals from other immortal sects, like the Beimang Immortal Sect and the West Star Immortal Sect, also reacted. Upon sensing the significant change in Lin Xuankong's True Qi fluctuations, they stood up in astonishment and gathered around him.

"Congratulations, Mr. Mu, on achieving the Sixth Celestial Vein! This fortune is truly astonishing!"

"The key is that he achieved the Sixth Celestial Vein merely by consuming a Sixth Celestial Vein Spiritual Object. What a surprise!"

"Hahaha, congratulations, Mr. Mu, on achieving the Sixth Celestial Vein! Congratulations to Sect Leader Li! With this new Tributor Mu, the strength of the Spiritual Crane Immortal Sect will undoubtedly transform dramatically, and it's only a matter of time before it becomes the First Immortal Sect in the Western Region!"

Many Earth Immortals clasped their hands and continuously offered their congratulations.

Those cultivators who had failed to condense the Sixth Celestial Vein had varied expressions.

Their faces showed both disappointment and envy, especially upon seeing those powerful and esteemed Earth Immortals surrounding Lin Xuankong with congratulations. How could the other cultivators not be envious!

The talented disciples Xiaoo Yan and Feng Lingling of the Five Elements Immortal Sect looked rather depressed.

Especially Feng Lingling looked even more frustrated, remembering her repeated declarations and stubborn insistence that 'Mu Shiba' could never condense the Sixth Celestial Vein with just one Sixth Celestial Vein Spiritual Object.

Rolling her eyes, Feng Lingling couldn't help but stubbornly retort again, "Hmph, our Five Elements Immortal Sect also has an Earth Immortal who condensed the Sixth Celestial Vein! What's so special about this Mu Shiba achieving the Sixth Celestial Vein!"

Unfortunately, her voice was drowned out by the crowd of Earth Immortals talking. Additionally, the Earth Immortals were busy trying to get closer to Lin Xuankong, the Super Refining Master, and had no time to pay attention to this little girl!

Seeing that no one was paying attention to her, Feng Lingling stomped her foot in frustration and snorted towards Xiaoo Yan, "We've already used the Sixth Celestial Vein Spiritual Object, and there's nothing left to do. Senior Brother, let's head back to our sect, hmph!"

Xiaoo Yan, the talented disciple of the Five Elements Immortal Sect, nodded somewhat gloomily. He was about to bid farewell to Sect Leader Li of the Spiritual Crane Immortal Sect.

Just then, Lin Xuankong, who was surrounded by many Earth Immortals, clasped his hands towards them and smiled. "Mu Shiba thanks all the Earth Immortal seniors for the congratulations. However, I still have eight more Sixth Celestial Vein Spiritual Objects here. They were given to me by my godsons. Now that I have successfully condensed the Sixth Celestial Vein, let's see if they have enough fortune to condense it as well!"

Upon hearing this, the Earth Immortals couldn't help but look at Li Xiaohu and the others behind Lin Xuankong.

Li Xiaohu scratched his head and clasped his hands toward Lin Xuankong. "Godfather, you've succeeded. Isn't there still the Third Princess? Let her try it too; what's our hurry? With you here, how could we possibly fail to become Initial Tier Earth Immortals!"

Hu Shuo, Han Lu, and the others nodded in agreement.

In their view, by staying beside Lin Xuankong, a powerful cultivator who could enable their rebirth, they didn't need to worry about failing to condense the Sixth Celestial Vein. As long as Lin Xuankong could eventually advance to Initial Tier Earth Immortal, they too would have the means and opportunities to obtain the Earth Immortal Body and Earth Immortal Golden Core!

Lin Xuankong naturally understood Li Xiaohu's intentions.

He nodded and used True Qi to wrap a Sixth Celestial Vein Spiritual Object, letting it float before the Third Princess Xiaoo Ying'Er.

At this moment, the Third Princess Xiaoo Ying'Er was also overjoyed at Lin Xuankong's success in condensing the Sixth Celestial Vein.

Seeing Lin Xuankong send her a Sixth Celestial Vein Spiritual Object, she gladly accepted it and nodded vigorously towards him.

Seeing Lin Xuankong give the Sixth Celestial Vein Spiritual Object to the female cultivator named Xiaoo Ying'Er, the gazes of the Earth Immortals naturally fell upon her.

Previously, their focus had been on Lin Xuankong and his group, and they hadn't particularly paid attention to the Third Princess Xiaoo Ying'Er. Now, taking a closer look, the Earth Immortals' eyes twinkled.

Spiritual Crane Fairy Qu Qiao'Er couldn't help but closely examine the Third Princess Xiaoo Ying'Er for a few moments, then praised, "My senior sister, Medicine Immortal Qu Wan'Er's True Disciple, Lii Xiaolan, not only excels in Alchemy Talent but is also strikingly beautiful. Even as a Ninth-Layer Perfection Transcendence Realm cultivator, her figure and appearance surpass those of many Fairies who have achieved immortality!

I thought the Great Xia Dynasty producing such a peerless beauty like Junior Niece Lan was already a marvel of nature. Little did I expect that beside Tributor Mu, there would be another woman whose figure and appearance were equally outstanding!

It truly seems that the distant Great Xia Dynasty is a land of extraordinary people!"

With even Spiritual Crane Fairy Qu Qiao'Er offering such praise, the other Earth Immortals also nodded repeatedly in agreement.

What they didn't know, however, was how extraordinary the talents of the Third Princess Xiaoo Ying'Er were, and the incredible effects of her Profound Phoenix Strange Vein!

The stunning appearances of Third Princess Xiaoo Ying'Er and Lii Xiaolan were also thanks to the Primordial Strange Vein and the Profound Phoenix Strange Vein. Otherwise, while beautiful women typically possess their own unique charms, akin to how spring orchids and autumn chrysanthemums each have their merits, how could a mortal possibly surpass a Fairy in beauty!

Chapter 518: Not Just Mu Shiba Alone, Sect Leader Li Can't Stay Calm_3

Most importantly, if these Earth Immortals were to learn that Third Princess Xiaoo Ying'Er, standing beside Lin Xuankong, possessed a talent allowing any Cultivator to directly break through their bottlenecks, they would undoubtedly be overcome with envy!

Since all the Earth Immortals acknowledged Third Princess Xiaoo Ying'Er's exceptional beauty, when the disciples of the Spiritual Crane Immortal Sect and the victorious Cultivators from the apprentice selection ceremony now gazed closely at her, their faces couldn't help but reveal expressions of awe and admiration. This was especially true for the female disciples of the Spiritual Crane Immortal Sect and the Female Cultivators among the victors. Upon seeing Third Princess Xiaoo Ying'Er's ethereal and transcendent beauty, these Tier Nine Cultivators actually felt a sense of inadequacy.

Among the crowd, Xiaoo Yan, the talented disciple from the Five Elements Immortal Sect, was also looking at Third Princess Xiaoo Ying'Er, his face similarly showing a degree of admiration. The Five Elements Immortal Sect, ranked number one in strength in the Western Region of the Central Divine Dynasty, naturally possessed the most Spirit Peaks and Spirit Mountains, Immortal Artifacts, and Earth Immortals. However, despite being accustomed to seeing even more beautiful Fairies in the Five Elements Immortal Sect than in the Spiritual Crane Immortal Sect, this talented disciple, Xiaoo Yan, also couldn't help but shake his head slightly, his heart filled with endless admiration.

Feng Lingling, who was beside him, saw this and couldn't help but roll her eyes and snort lightly. "Do you really think achieving the Sixth Celestial Vein is that easy? I bet even if this Xiaoo Ying'Er consumes all the Sixth Celestial Vein Spiritual Objects she has, she might not even manage to form the Sixth Celestial Vein! If the Sixth Celestial Vein were so easy to achieve, wouldn't all the Earth Immortals running around

everywhere already possess the Six Paths Golden Core? Good fortune is great if it happens once; how could anyone be lucky repeatedly!"

Unfortunately, at this moment, the attention of all the Cultivators, including the many Earth Immortals, was focused on Third Princess Xiaoo Ying'Er; no one paid Feng Lingling any mind at all!

Of course, the weakest among the Cultivators in the Spiritual Crane Immortal Sect's Martial Arts Arena were all Tier Nine Cultivators, so everyone had actually heard Feng Lingling's muttering. However, no one wanted to refute her at this moment. On one hand, it was because the Five Elements Immortal Sect was indeed formidable. On the other hand, Third Princess Xiaoo Ying'Er was Mu Shiba's cherished confidante. They were unwilling to rebuke Feng Lingling, but it was even more impossible for them to publicly agree with her words! Thus, even though Feng Lingling was grumbling and complaining on the side, everyone acted as if they hadn't heard, and absolutely no one responded to her!

Third Princess Xiaoo Ying'Er heard Feng Lingling's muttering, her brow furrowing slightly as she couldn't help but glance at Lin Xuankong.

Lin Xuankong smiled and said, "Don't worry. I have a feeling you'll need at most two Sixth Celestial Vein Spiritual Objects. Ying'Er, you will definitely be able to condense the Sixth Celestial Vein today!"

Third Princess Xiaoo Ying'Er bit her lip lightly, then nodded with a smile. "Alright, I'll count on your auspicious words, my husband!"

With that, she moved her fair, slender fingers, and the Sixth Celestial Vein Spiritual Object was already in her mouth, swallowed.

In the next moment, a vast amount of swirling Spiritual Light suddenly erupted from Third Princess Xiaoo Ying'Er's exquisite body! She was already exceptionally beautiful. Now, as this swirling Spiritual Light emanated from her, she seemed even more like a celestial being, her beauty not of this mortal realm!

The eyes of all the Earth Immortals, including the disciples of the Spiritual Crane Immortal Sect, lit up, their faces revealing expressions of amazement at the sight of Xiaoo Ying'Er before them. Li Xiaohu, Hu Shuo, Han Lu, Yang Mountain, and the others all stared intently at Third Princess Xiaoo Ying'Er, silently hoping in their hearts that she would succeed in condensing the Sixth Celestial Vein in one go!

The Martial Arts Hall of the Spiritual Crane Immortal Sect fell silent once again. Everyone wore different expressions. Some were filled with amazement at Third Princess Xiaoo Ying'Er's beauty. Other Cultivators, doubting she could immediately condense the Sixth Celestial Vein like Lin Xuankong, shook their heads slightly. And some disciples of the Spiritual Crane Immortal Sect hoped for another miracle to occur. After all, Third Princess Xiaoo Ying'Er originally had no sect affiliation; now that she had joined the Spiritual Crane Immortal Sect, she was one of their own. If she could condense the Sixth Celestial Vein, these Spiritual Crane Immortal Sect disciples would naturally share in the glory!

After more than a hundred breaths of time had passed, from the crowd, the Third-Grade Earth Immortal from the Beimang Immortal Sect couldn't help but exclaim in surprise, "'Hmm? The aura of the Spiritual Object emanating from Fellow Daoist Xiaoo's body has completely receded! This indicates that, just like Tributor Mu, she has safely passed the first stage of condensing the Sixth Celestial Vein!'"

A hint of joy touched Spiritual Crane Fairy Qu Qiao'Er's face. She couldn't help but look towards Sect Leader Li of the Spiritual Crane Immortal Sect. She saw that Sect Leader Li was currently staring intently at Third Princess Xiaoo Ying'Er with a solemn expression, his hand continuously stroking his three strands of long beard, clearly betraying a touch of nervousness.

Seeing her Sect Leader so deeply concerned, Spiritual Crane Fairy Qu Qiao'Er couldn't help but smile. She naturally understood the reason for Sect Leader Li's concern: if Third Princess Xiaoo Ying'Er could condense the Sixth Celestial Vein like Tributor Mu, it would mean that the Spiritual Crane Immortal Sect would, from then on, gain two more Earth Immortal 'seeds' with an extremely high chance of becoming Fourth-Grade Earth Immortals!

Even among the more than thirty Earth Immortals of the Spiritual Crane Immortal Sect, Fourth-Grade Earth Immortals were an absolutely pivotal force. After all, in the entire Spiritual Crane Immortal Sect, besides Sect Leader Li, there were only two Late Stage Fifth-Grade Earth Immortals and four Late Stage Fourth-Grade Earth Immortals. The majority of the remaining Earth Immortals were First Grade, Second Grade, or Third Grade!

Chapter 519: Not Just Mu Shiba Alone, Sect Leader Li Can't Stay Calm_4

It wasn't that these numerous Earth Immortals were unwilling to enhance their strength. The primary reason was that the Celestial Tribulations were simply too terrifying. This was particularly true for the Earth Immortal Celestial Tribulations that occurred after the Initial Tier Earth Immortal stage, as these often caused Earth Immortals to perish. However, disciples who had condensed the Sixth Celestial Vein could all advance to Fourth Grade with relative ease. This referred to a Fourth-Grade Earth Immortal! For the Spiritual Crane Immortal Sect, such an individual was no less important than acquiring several more Immortal Artifacts!

Everyone was engrossed in their own thoughts, and time passed bit by bit. Finally, after the time it took to drink several cups of tea had passed, Third Princess Xiaoo Ying'Er, who was silently guiding the aura of the Spiritual Object, felt the long lashes above her tightly closed eyelids quiver slightly. Then, she opened her eyes.

Her eyes, now open, held a touch of pleasant surprise as she looked at Lin Xuankong.

Lin Xuankong offered a slight nod and smiled, "Have you successfully condensed the Sixth Celestial Vein?"

"MHM!" Third Princess Xiaoo Ying'Er nodded vigorously. After she finished speaking, the True Qi throughout her body began to circulate, instantly emitting fluctuations that were far more condensed and potent than her True Qi had shown previously!

"HAHAHAHAHA!"

A burst of extremely joyous laughter echoed.

Before Lin Xuankong could speak, Sect Leader Li of the Spiritual Crane Immortal Sect was already laughing heartily, his face alight with joy.

With visible excitement on his face, he looked outside the Martial Arts Hall of the Spiritual Crane Immortal Sect, then bowed distantly towards the main gate where the Spiritual Crane Immortal Sect was located.

"May the Founding Master bless us! My Spiritual Crane Immortal Sect has experienced three joyous events today. Not only did we gather some extraordinarily talented disciples through the grand disciple recruitment ceremony, but we also had a Super Refining Master like Tributor Mu join our ranks. More importantly, two supreme talents who condensed the Sixth Celestial Vein appeared in a single day! HAHAHAHA! As the Sect Leader of the Spiritual Crane Immortal Sect, I finally have something to report to the Founding Master and to my revered Master who perished in the Boundaryless Mountain! HAHAHAHA!"

For a moment, Sect Leader Li of the Spiritual Crane Immortal Sect, who always maintained a solemn expression and considerable dignity befitting his position, was overcome with such overwhelming joy that he couldn't control himself, laughing uproariously again and again.

Spiritual Crane Fairy Qu Qiao'Er was also beaming with delight. She quickly walked over to Third Princess Xiaoo Ying'Er, took her hand with a smile, and said, "Congratulations, Fellow Daoist Xiaoo! My heartiest congratulations! I never imagined that after Tributor Mu, you, Fellow Daoist Xiaoo, would also successfully condense the Sixth Celestial Vein! If you are willing, Fellow Daoist Xiaoo, how about coming to my Spiritual Crane Peak to cultivate after you are formally inducted? The scenery there is picturesque, and it's rich in Immortal Yuan. Among the Thirty-Six Immortal Mountains in our Spiritual Crane Immortal Sect, it ranks in the top three for Immortal Yuan abundance!"

Hearing Spiritual Crane Fairy Qu Qiao'Er's words, Second-Grade Earth Immortal Huang Liutao of the Spiritual Crane Immortal Sect couldn't help but feel somewhat dejected. He had just witnessed Third Princess Xiaoo Ying'Er condense the Sixth Celestial Vein and had been planning to invite this prodigy to join his Nine Elements Peak. Unfortunately, Qu Qiao'Er had beaten him to it!

Such a pity, such a fine disciple... How did Senior Sister Qu manage to snatch her away?!

Third Princess Xiaoo Ying'Er, her hand held by Qu Qiao'Er who was extending such a warm invitation, couldn't help a flicker of helplessness crossing her face. She glanced at Lin Xuankong, only to see him give a slight nod.

Seeing this, she withdrew her gaze, nodded towards Spiritual Crane Fairy Qu Qiao'Er, and said, "With Master Qu above, then this disciple will henceforth be a disciple of Spiritual Crane Peak!"

"Excellent, excellent, excellent!" Spiritual Crane Fairy Qu Qiao'Er's face immediately lit up with joy. She took a Jade Box from within her robes and placed it directly into Third Princess Xiaoo Ying'Er's hand. "This is an Immortal Ascension Treasure Pill I obtained years ago from Senior Sister Qu Wan'Er, the Medicine Immortal. I have treasured it for hundreds of years! Since you've agreed to join my Spiritual Crane Peak, consider this Immortal Ascension Treasure Pill my welcoming gift to you!"

An Immortal Ascension Treasure Pill? Surprise flickered across Third Princess Xiaoo Ying'Er's face.

Chapter 520: Entry Level Grand Ceremony, Supreme Elder Makes an Appearance

Third Princess Xiaoo Ying'Er was naturally well aware of the preciousness of the Immortal Ascension Treasure Pill.

Even though Young Lady Lii Xiaolan was the direct disciple of Medicine Immortal Qu Wan'Er, she had been at the Spiritual Crane Immortal Sect for so long and had still not received an Immortal Ascension Treasure Pill. This included Galin Bodhisattva of Spirit Platform Buddhism; she had come to the Spiritual Crane Immortal Sect this time not only to participate in the disciple selection ceremony but also because her disciple, Little Bodhisattva Yikong, had reached the point where he could cross the Celestial Tribulation, yet he did not have an Immortal Ascension Treasure Pill.

Even Spirit Platform Buddhism needed to obtain the Immortal Ascension Treasure Pill from Medicine Immortal Qu Wan'Er of the Spiritual Crane Immortal Sect. It was evident just how precious this Immortal Elixir was. At the very least, Spirit Platform Buddhism likely did not have any Bodhisattvas who could refine an Immortal Ascension Treasure Pill. If this were not the case, why would Galin Bodhisattva's disciple, Yikong, have to wait until he came to the Spiritual Crane Immortal Sect to cross his tribulation? If this were not the case, why would Young Lady Lii Xiaolan have to painstakingly research alchemy techniques in hopes of refining a batch for Lin Xuankong herself?

Perhaps in the Central Divine Dynasty's Western Region, Medicine Immortal Qu Wan'Er was not the only one capable of refining the Immortal Ascension Treasure Pill, but there certainly wouldn't be many Earth Immortals who could refine such pills.

Yet now, merely because Third Princess Xiaoo Ying'Er agreed to join Spiritual Crane Peak, Spiritual Crane Fairy Qu Qiao'Er directly gifted her an Immortal Ascension Treasure Pill!

It was evident how highly a Cultivator with the Sixth Celestial Vein was valued.

At this moment, the disciples of the Spiritual Crane Immortal Sect present all looked at the Jade Box in Third Princess Xiaoo Ying'Er's hands, their faces full of envy.

The Spiritual Crane Immortal Sect had so many Tier Nine Cultivators, so many disciples at Ninth-Layer Perfection who had not yet advanced to the Initial Tier Earth Immortal Realm. On one hand, it was because they were not prepared with various Treasures to cross the Celestial Tribulation. On the other hand, it was because the Immortal Ascension Treasure Pill was so rare that even the disciples of the Spiritual Crane Immortal Sect had to take turns, needing to complete certain sect contributions to obtain it. It wasn't something anyone could easily get.

By now, only the Earth Immortals present, including talented disciples from other Immortal Sects, managed to remain relatively composed. The other Tier Nine Cultivators gazed at the Jade Box in Third Princess Xiaoo Ying'Er's hands, their eyes filled with an envy that was hardly less than what they had shown when they first saw the Sixth Celestial Vein Spiritual Object.

After receiving the Jade Box, Third Princess Xiaoo Ying'Er was stunned for quite a while before she reacted. She then bowed slightly to Spiritual Crane Fairy Qu Qiao'Er and said, "Disciple thanks Master. This Immortal Ascension Treasure Pill is extremely rare, and yet Master gifted it to Ying'Er. Ying'Er will surely remember this great kindness!"

Spiritual Crane Fairy Qu Qiao'Er nodded, her face full of joy. "If you can diligently cultivate in the future and advance to Initial Tier Earth Immortal as soon as possible, I will not have given you the Immortal Ascension Treasure Pill in vain!"

Saying this, she couldn't help but glance at her Sect Leader, Senior Brother Li, who was still smiling broadly. "Senior Brother Li, why are you still laughing? Show some composure!"

"Composure? What composure? I can't stay calm! HAHAAH!" Sect Leader Li of the Spiritual Crane Immortal Sect kept stroking his long, three-strand beard. He looked at Third Princess Xiaoo Ying'Er and then at Lin Xuankong, his heart brimming with joy, his eyes full of affection.

The other Earth Immortals present were all full of envy. Guo Haishan, a Third-Grade Earth Immortal from the Western Nether Immortal Sect, couldn't help but sigh, "Spiritual Crane Fairy, it's no wonder Sect Leader Li is so jubilant! If our Western Nether Immortal Sect could attract two geniuses who condensed the Sixth Celestial Vein, I might be even more overwhelmed with joy than Sect Leader Li! Besides, one of these geniuses is a Super Refining Master like Tributor Mu! TSK TSK, given time, when I, Guo Haishan, visit the Spiritual Crane Immortal Sect again, the Sect will probably be among the top Major Sects of the Central Divine Dynasty!"

"Indeed!" a Third-Grade Earth Immortal from the West Star Immortal Sect spoke with a chuckle.

"Spiritual Crane Fairy, Sect Leader Li, having recruited two geniuses who condensed the Sixth Celestial Vein is remarkable. Most importantly, Mr. Mu has also agreed to become your Sect's Tributor! Such a great event would warrant a grand feast lasting for weeks on end in our West Star Immortal Sect! Sect Leader Li, you wouldn't be so stingy as not to hold a feast and prepare the finest Spirit Wine for us distant friends, would you?"

The Third-Grade Earth Immortal from the Western Nether Immortal Sect added with a laugh, "More than just a grand feast lasting for weeks on end, such a monumental event warrants celebration by the entire Spiritual Crane Immortal Sect for a year or so!"

Upon hearing this, Sect Leader Li of the Spiritual Crane Immortal Sect laughed heartily again. He nodded repeatedly and said, "Of course, we will hold a grand feast! Not only that, I will personally visit our First Spirit Peak and invite our Sect's Supreme Elders to preside over this grand feast, to show our respect for Tributor Mu and Fellow Daoist Xiaoo!"

He then looked at the other Earth Immortals from the various Sects before smiling somewhat smugly. "Hmph, you're so eager for me to prepare a feast, even suggesting it should last a year or so? I see you old fellows are planning to hang around our Spiritual Crane Immortal Sect for a while, hoping Tributor Mu will refine Initial Tier Immortal Artifacts for you! Let me tell you, whether Tributor Mu will help you refine Initial Tier Immortal Artifacts is beyond my control as Sect Leader of the Spiritual Crane Immortal Sect. It all depends on whether Tributor Mu is willing!"

The many Earth Immortals laughed at his words.

Lin Xuankong looked at the seven remaining Sixth Celestial Vein Spiritual Objects in his hand and then looked up at Li Xiaohu and the others. Seeing this, Li Xiaohu and Hu Shuo immediately understood his meaning.

Li Xiaohu was the first to speak, "Foster Father, Godmother Lan, Godmother Zhao, and the others haven't used a Sixth Celestial Vein Spiritual Object yet. We are not in a hurry. As long as Foster Father becomes strong, will we still need to fear not becoming Initial Tier Earth Immortals? Don't worry about us. We're just excited to use the Immortal Artifacts during this disciple selection ceremony and have a match with these geniuses from various places!"

Hu Shuo and the others also nodded repeatedly, indicating they were definitely not in a rush to use the Sixth Celestial Vein Spiritual Objects.

Upon hearing this, Lin Xuankong couldn't help but frown slightly. Sect Leader Li of the Spiritual Crane Immortal Sect observed this. His eyes flickered a few times, and his expression gradually became resolute.

He swung the Duster in his hand and decisively said, "If Tributor Mu has crucial close ones who need Sixth Celestial Vein Spiritual Objects, our Spiritual Crane Immortal Sect actually has three more in reserve. I originally entrusted them to a few Supreme Elders. If Tributor Mu needs them, I can request those Supreme Elders to retrieve those three Spiritual Objects we had set aside for treasuring!"

At this point, to win over Lin Xuankong, Sect Leader Li of the Spiritual Crane Immortal Sect didn't hesitate to reveal all the Sect's hidden reserves. This truly showed how much Sect Leader Li valued Lin Xuankong.
