

Stronger 981

Chapter 981: Is This a Fourth-Grade Immortal Artifact? (Part 2)

In the high heavens,

when the Thirty-Six Tribulation Demon Lord Purlo heard Lin Xuankong speak like this, his originally rapidly spinning eyes immediately ceased their movement, reverting from pure black to a ghastly white.

Since the opponent might possess an immortal secret treasure that protects the divine soul, no matter how he employs spiritual attack secret techniques, it would have no effect and would merely deplete his spirit in vain!

Yet, the nonchalant words of Lin Xuankong were indeed unbearable for this Thirty-Six Tribulation Demon Lord, famous for hundreds of thousands of years, making him feel overwhelmingly humiliated and furious.

Even the strongest Immortal Lord-level powerhouses of the Immortal Realm human race, during face-to-face battles with him, dared not treat him with such disregard! After all, among the strongest Immortal Lords of the Immortal Realm human race, there are few who dare claim to have cultivated longer or possess greater strength than him; yet now, a mere third-grade Earth Immortal of the Human Race dares to treat him with such disrespect!

"Indeed, no wonder you are the one my Saint Heir personally named to capture... Throughout my hundreds of thousands of years of dominance in the Demon Realm and the Immortal Realm, I, Purlo, have never been humiliated like this!

Mu Shiba, today I must see what other tricks you have!"

The ice-cold intent gleamed in the grey-white pupils of the Thirty-Six Tribulation Demon Lord Purlo,

in the next instant,

the thirty-six palms surrounding his enormous demon body suddenly spread open,

and immediately, the thirty-six demon artifacts controlled by those palms emitted a series of strange and shrill howls, and endless demonic qi spread out from the thirty-six demon artifacts, transforming mid-air into as many as thirty-six towering, grotesque black skulls, each skull astonishingly comparable in size to the enormous demon Buddha's head from before!

Not only that,

those thirty-six skulls simultaneously opened their enormous black mouths, spewing black-as-ink yet terrifyingly hot flames onto the light membrane of the Nine-Layered Thousand Cranes Grand Array that protected the Spiritual Crane Immortal Sect!

At the location where the terrifying black flames struck the light membrane, it immediately concaved, clearly enduring an unimaginably fearful impact force, and coupled with the extremely terrifying temperature of the black flames, within less than a breath, thousands of profound array patterns on the outermost layer of the Nine-Layered Thousand Cranes Grand Array's light membrane disintegrated directly!

As the Array Master manipulating the outermost layer of the Nine-Layered Thousand Cranes Grand Array, the Cyan-forehead Qilin's body trembled sharply, its brows furrowed deeply.

Not daring to delay for even a moment, it chanted incantations continuously, constantly mobilizing the thirty-six first-grade immortal artifact array hubs of the outermost Nine-Layered Thousand Cranes Grand Array, striving to withstand the assaults from the Thirty-Six Tribulation Demon Lord's thirty-six demon artifacts!

However, the attack of the Thirty-Six Tribulation Demon Lord Purlo was evidently more horrifying than even the unreasonably vast demon Buddha's attack just moments earlier,

even with the Cyan-forehead Qilin's full control, the array patterns on the Nine-Layered Thousand Cranes Grand Array light membrane continued to disperse and disintegrate, thinning ever further, and during the process, some array patterns even became demonized by the black flames, turning pure black, spreading continuously outwards!

"These are the Demon Tribulation Flames the Thirty-Six Tribulation Demon Lord seized from the Celestial Demon Tribulations across his thirty-six trials, known especially for attacking and demonizing

opponents' immortal artifacts! Reportedly, this Thirty-Six Tribulation Demon Lord Purlo even managed, thousands of years ago, to pollute and demonize the artifacts of two besieging strongest Immortal Lord powerhouses using these terrifying flames!

Cyan-forehead, be exceedingly cautious in controlling the array formation. If array patterns get demonized, dissipate them immediately; otherwise, your outermost layer of the Nine-Layered Thousand Cranes Grand Array's light membrane might not last long at all—possibly even be breached within a few hours if careless!"

Seeing the Thirty-Six Tribulation Demon Lord Purlo's full-force attack, exhibiting such horrifying might of those black flames, the true disciple of Guangqing Immortal Sect, Guang Yu'er, tightened her face, constantly reminding.

Beside her, Guang Ling'Er, with eyes full of intense caution, stared silently at those black flames, reflecting deep in thought. For among those who once besieged the Thirty-Six Tribulation Demon Lord Purlo, one was none other than her master, Kunyuan Daoist!

At that time, Kunyuan Daoist and another strongest Immortal Lord of the Immortal Realm human race joined forces, and although they repelled the Thirty-Six Tribulation Demon Lord Purlo, who had invaded the Immortal Realm during that battle of Immortals and Demons, their confrontation led to six of their artifacts being polluted and demonized by the opponent, nearly breaking them. Only after Kunyuan Daoist expended significant Immortal Yuan were they gradually able to purge the demonic qi contaminating those six artifacts, saving them from destruction!

However, despite the Immortal Realm human race claiming victory was due to the cooperative repelling by the strongest Immortal Lord Kunyuan Daoist and another formidable Immortal Lord, Guang Ling'Er, as a true disciple of Kunyuan Daoist, knew quite well that even with their combined efforts, they hardly gained any advantage. After all, although the Thirty-Six Tribulation Demon Lord Purlo wasn't the strongest among demon lords, its terrifying demon flames—the techniques that polluted and demonized artifacts—were enough to give even the strongest Immortal Lords a headache!

Could this notorious Thirty-Six Tribulation Demon Lord Purlo, whose fearsome reputation spread throughout the Immortal Realm, be displaying such terrifying demon flames once more?

This Thirty-Six Tribulation Demon Lord Purlo, indeed initiated one of his strongest methods geared towards combating the strongest Immortal Lord-level powerhouses right at the start... So then, the

Cyan-forehead Qilin's more than forty layers of the Nine-Layered Thousand Cranes Grand Array, how long could they stand? Would they even have a chance of maintaining for over a hundred days?

This Thirty-Six Tribulation Demon Lord Purlo, it seems, is venting his anger, having been thwarted by the Profound Demon Eye! How vile!

With these thoughts racing, Guang Ling'Er could not help but feel heavy-hearted, casting an uncertainly hopeful gaze at Lin Xuankong.

Could Mr. Lin possess a counter for the Thirty-Six Tribulation Demon Lord Purlo's terrifying Demon Tribulation Fire?

Yet, thinking this, Guang Ling'Er suddenly broke into a wry smile,

internally musing: Even my master, the strongest Immortal Lord Kunyuan Daoist, once had great trouble dealing with this Thirty-Six Tribulation Demon Lord Purlo, facing its bizarre demon flames, let alone Mr. Lin! Although he possesses astonishing artifact refining skills and precision mastery in array formations, those are primarily defensive in nature—attempting to tackle the demon tribulation flames of this Thirty-Six Tribulation Demon Lord is likely beyond reach! This slight hope that stirred in my heart can only be considered a luxurious wish!

At this juncture,

Guang Ling'Er witnessed Lin Xuankong lightly tapping the Golden Patterned Ghost Frog Pouch at his waist,

and instantly, an extremely bright stream of light shot out from the Golden Patterned Ghost Frog Pouch, floating not far in front of Lin Xuankong!

Upon closely discerning the form of that streaming light, and sensing the Immortal Yuan fluctuations radiating from this newly appeared immortal artifact, the wide eyes of this Guangqing Immortal Sect's true disciple, tinged with worry, widened further, and she hesitantly spoke, "This... such condensed, overwhelming Immortal Yuan fluctuations, these profound incised immortal artifact patterns! Illumined

by its radiance, tens of thousands of patterns as if crafted by heavenly handiwork, can this be a fourth-grade immortal artifact?"

Upon speaking, Guang Ling'Er's expression, akin to having witnessed the most unbelievable, impossible occurrence in the world.

Beside her, Guang Qing Immortal Sect's true disciple Guang Yu'er couldn't resist showing an exceedingly complex expression; her fair, delicate face displayed both astonishment and excitement, disbelief and a hint of fervor, "With Immortal Yuan swirling like auspicious clouds, patterns flowing like a celestial river, this, this, this... the appearance of this immortal artifact, its Immortal Yuan, and patterns are entirely consistent with records in my Guangqing Immortal Sect's secret compendium of fourth-grade immortal artifacts!"

Speaking up to this point, she couldn't help but moan, staring fixedly at the fourth-grade immortal artifact Lin Xuankong just activated,

"In the Immortal Realm, it has been hundreds of thousands of years since any fourth-grade immortal artifact has appeared, even with the last occurrence of such an artifact during the Middle Ages being attributed to the strongest Immortal Lord from eons past. It can be said that for millions of years, countless cultivators of the human race in the Immortal Realm have failed to refine any fourth-grade immortal artifacts!

But now... how could this be possible, how could this be possible, Mr. Lin, is this immortal artifact truly a fourth-grade immortal artifact?"

Chapter 982: Impossible, Absolutely Impossible

The Fourth-Grade Immortal Artifact lazily floated, its light dazzling to behold!

The scene left the two true disciples of the Guangqing Immortal Sect, Guang Ling'Er and Guang Yu'er, utterly astounded. Even the white-forehead Qilin and the cyan-forehead Qilin, who prided themselves on having a deep understanding of Lin Xuankong, were stunned.

Having spent over twenty years with Lin Xuankong in the Immortal Carriage Cave Heaven, the white-forehead Qilin and cyan-forehead Qilin were certainly aware of their young master's astonishing artifact refining skills. He had refined a multitude of immortal artifacts for Immortal Lord Luoshui, Yaan Mingyu,

and possessed an unmatched quantity and quality of immortal artifacts throughout the entire Immortal Realm!

But before them was a Fourth-Grade Immortal Artifact!

In the entire Immortal Realm, not a single being possessed such an artifact, with ninety-nine point nine percent of Earth Immortals never having seen one!

Even the esteemed Sect Leader of the Divine Dynasty Immortal Sect among the human race of the Immortal Realm owned only a single Third-Grade Immortal Artifact!

Gazing at this artifact, which shimmered with blinding spiritual light and pulsed with soul-stirring Immortal Yuan fluctuations, the white-forehead Qilin's mouth hung agape, wide enough to fit an entire ox!

The cyan-forehead Qilin couldn't help but drift closer to that Fourth-Grade Immortal Artifact, circling it in awe, exclaiming in wonder.

As for the countless cultivators and Earth Immortals within the Spiritual Crane Immortal Sect and the Spiritual Crane Immortal City, they too stared blankly at the Fourth-Grade Immortal Artifact, which flickered in the sky, all appearing petrified! For several breaths, not a single cultivator or Earth Immortal blinked!

Their reactions were not exaggerated, for the reappearance of a Fourth-Grade Immortal Artifact in the Immortal Realm was too shocking!

Previously, Lin Xuankong had bestowed the cyan-forehead Qilin with a full three thousand six hundred Initial-Grade Immortal Artifacts, naturally also astounding numerous cultivators and Earth Immortals present. Later, Lin Xuankong himself utilized thirty-six Third-Grade Immortal Artifacts, further stunning the countless cultivators and Earth Immortals. Yet, compared to the present Fourth-Grade Immortal Artifact, no matter how many Initial-Grade Immortal Artifacts there are, they pale in comparison. Even three thousand six hundred Initial-Grade Immortal Artifacts, or even thirty-six thousand Initial-Grade Immortal Artifacts, would be effortlessly and comfortably shattered into pieces by the Fourth-Grade Immortal Artifact in a direct confrontation!

Even the thirty-six Third-Grade Immortal Artifacts that once shocked the masses would lose their luster before this Fourth-Grade Immortal Artifact!

For in the entire Immortal Realm, every Earth Immortal and cultivator knows very well that when a normal Earth Immortal encounters a celestial tribulation corresponding to their realm, they need to prepare sufficient treasures to assist in passing through. However, if they find an Immortal Artifact of sufficient realm, the chance of overcoming the celestial tribulation will greatly increase. Unless encountering the kind of heaven-defying celestial tribulation that Lin Xuankong once faced, with a normal celestial tribulation, as long as a corresponding realm Immortal Artifact is prepared, success is almost guaranteed!

In other words, if a Second-Grade Earth Immortal can borrow a Second-Grade Immortal Artifact, they can almost certainly overcome a Second-Grade Celestial Tribulation. Should a Third-Grade Earth Immortal find a Third-Grade Immortal Artifact, they can almost certainly overcome a Third-Grade Realm's celestial tribulation!

Unfortunately, although artifact refining masters are abundant in today's Immortal Realm, with almost every Immortal Sect striving to cultivate artifact refiners to craft immortal artifacts, producing an Initial-Grade Immortal Artifact is a towering task for some small and medium-sized Immortal Sects!

As for First-Grade Immortal Artifacts, they are exceedingly rare, with only a very few medium-sized Immortal Sects having a chance to obtain them! As for Second-Grade Immortal Artifacts, only the top large Immortal Sects in the Immortal Realm Central State can produce one with vast resources accumulated over tens of thousands or even hundreds of thousands of years!

And as for Third-Grade Immortal Artifacts... Due to the continuous consumption by generations of Earth Immortals, most heavenly materials and earthly treasures that can be relatively easily refined into Immortal Artifacts have long been exhausted, resulting in no new Third-Grade Immortal Artifacts appearing for hundreds of thousands of years!

Even the First Immortal Sect of the human race in the Immortal Realm, the Divine Dynasty Immortal Sect, known as the sect of a thousand immortals, ruling over the human race, possesses only one Third-Grade Immortal Artifact and still cannot craft a new one!

As for Fourth-Grade Immortal Artifacts... In the records of the human race in the Immortal Realm, only Earth Immortals from the medieval or ancient times owned them, and they mostly obtained them

through discovering various heavenly materials and earthly treasures and immense fortunate opportunities!

But right before them,

Above their heads,

A Fourth-Grade Immortal Artifact, its Immortal Yuan fluctuations dozens of times stronger than that of a Third-Grade Immortal Artifact, gleaming brightly without harming their eyes, was so effortlessly and naturally activated by Lin Xuankong. How could they not be stunned!

Some cultivators, in their dumbfounded state, were suddenly struck by a thought: since Mr. Lin had already refined three thousand six hundred Initial-Grade Immortal Artifacts, thirty-six Third-Grade Immortal Artifacts, and a Fourth-Grade Immortal Artifact, could he, given time, once again refine one Fourth-Grade Immortal Artifact after another with his extraordinary artifact refining talent?

If that were the case, and the human race in the Immortal Realm acquired several Fourth-Grade Immortal Artifacts...

Having entertained this thought, these cultivators and Earth Immortals, overwhelmed with excitement, even forgot about the threat from the Thirty-six Tribulation Demon Lord Purlo atop the Nine-Layered Thousand Cranes Grand Array, trembling with excitement and fervently bowing towards the Fourth-Grade Immortal Artifact and Lin Xuankong from afar!

Sect Leader Li of the Spiritual Crane Immortal Sect, gazing at Lin Xuankong and the Fourth-Grade Immortal Artifact, excitedly exclaimed repeatedly, "Hahaha, the Fourth-Grade Immortal Artifact is born, the resurgence of the human race is upon us, the resurgence of the human race is upon us!"

Chapter 983: Impossible, Absolutely Impossible (Part 2)

Of course, Sect Leader Li was most delighted not only because a Fourth-Grade Immortal Artifact had emerged to favor the Human Race, but more so excited because the unparalleled genius with the potential to lead the Path of Artifact Refining in the Immortal Realm Human Race was a tributor of his Spiritual Crane Immortal Sect!

At this moment, Sect Leader Li looked at Lin Xuankong, finding himself increasingly excited, increasingly thrilled, and increasingly fond!

At the same time,

The Thirty-Six Tribulation Demon Lord Purlo, high above the sky, looked at the Fourth-Grade Immortal Artifact near Lin Xuankong and displayed an extremely complex expression.

It really couldn't have imagined that the limit of this Mu Shiba wasn't the thirty-six hundred First-Grade Immortal Artifacts, nor were the thirty-six Third-Grade Immortal Artifacts the end; this man, whom Saint Son Ganggu had pointedly wanted to take down, actually had a Fourth-Grade Immortal Artifact, an artifact unseen in the world for a million years!

In a moment of thought,

The eyes of the Thirty-Six Tribulation Demon Lord Purlo suddenly ignited with excitement and thrill, as numerous thoughts swiftly sprang into its mind.

What does an Artifact Refining Super Master of the Human Race who can refine a Fourth-Grade Immortal Artifact signify? It could figure it out with just a thought!

If Mu Shiba could refine a Fourth-Grade Immortal Artifact today, give him a few decades, maybe in a few hundred years, he might be able to refine a second Fourth-Grade Immortal Artifact!

Give him a few thousand to tens of thousands of years, perhaps he could refine dozens of Fourth-Grade Immortal Artifacts, maybe even... With such a heavenly defying talent in artifact refining, Mu Shiba might even refine Fifth, Sixth, or even Seventh-Grade Immortal Artifacts in tens of thousands of years!

If during this Saint Immortal War, the Profound Yin Saint Sect behind it did not fully win; if it could not capture Mu Shiba, and let this situation unfold, perhaps in tens of thousands of years, the number of Fourth, Fifth, Sixth, and Seventh-Grade Earth Immortals within the Immortal Realm Human Race would reach a terrifying amount, tens of thousands, millions, tens of millions?

After all, with the possession of Fourth-Grade Immortal Artifacts, Fifth-Grade Immortal Artifacts, Sixth-Grade Immortal Artifacts, and possibly even higher-grade Immortal Artifacts, the chances of the Earth Immortals in the Immortal Realm Human Race crossing the Celestial Tribulation would mostly rise to nearly one hundred percent!

If that were the case, the Profound Yin Saint Sect could forget about sweeping the Immortal Realm; it would definitely have no chance of even establishing a safe haven in the Profound Yin Sacred Domain!

This child absolutely cannot be left alive!

If this child cannot be taken back to the Profound Yin Sacred Domain for the use of the Saint Sect, he must be destroyed; otherwise, the Profound Yin Saint Sect will be doomed because of this child!

However, if it could capture this child, control him, and use him for the Saint Sect, in tens of thousands of years, without worrying about others, the high-grade Immortal Artifacts he could refine alone would greatly increase its chances of crossing the Celestial Demon Tribulation. Perhaps next time, it might succeed in crossing the tribulation and become an Upper Realm Saint Monarch, whose mere strand of power could upheave the Immortal Realm!

Thinking of these, the Thirty-Six Tribulation Demon Lord became increasingly excited and thrilled,

Without hesitation, it urged the endless demonic qi accumulated over hundreds of thousands of years within its body to the extreme,

The demon artifacts near the palms above its thirty-six arms were immediately urged more fiercely, and the thirty-six enormous black skulls frantically hurled demon flames with terrifying temperatures onto the outermost light membrane of the Nine-Layered Thousand Cranes Grand Array!

It was at this moment,

The previously excited and thrilled expression of the Thirty-Six Tribulation Demon Lord Purlo suddenly paused, its eyes widening nearly double in disbelief as it gazed towards Lin Xuankong inside the Nine-Layered Thousand Cranes Grand Array.

Because at this very moment,

This Thirty-Six Tribulation Demon Lord Purlo, whose name shook the entire Immortal Realm, suddenly saw streams of radiant light shooting out rapidly from the Golden Patterned Ghost Frog Pouch at Lin Xuankong's waist!

Each of those radiant streams was extremely dazzling, each carrying a strong fluctuation of Immortal Yuan, completely consistent with the spiritual light and Immortal Yuan fluctuation of the first Fourth-Grade Immortal Artifact....

In a fraction of a breath,

As many as thirty-five streams of radiance shot out from Lin Xuankong's Golden Patterned Ghost Frog Pouch, quickly surrounding him to form a brand new Nine-Layered Thousand Cranes Grand Array!

Even though at this moment, the newly arranged Nine-Layered Thousand Cranes Grand Array by Lin Xuankong had not yet been activated, nor had the new Grand Array's light membrane appeared, merely seeing those thirty-six Fourth-Grade Immortal Artifacts nearly made the eyes of the Thirty-Six Tribulation Demon Lord Purlo pop out of their sockets.

At this moment,

Gazing at those thirty-six Fourth-Grade Immortal Artifacts, the Thirty-Six Tribulation Demon Lord Purlo almost believed itself to be under someone's illusion technique at this moment!

That was not just a single Fourth-Grade Immortal Artifact,

That was as many as thirty-six Fourth-Grade Immortal Artifacts that had not appeared in the entire Immortal Realm for hundreds of thousands of years!

How could someone in this Immortal Realm, in this world, possess so many Fourth-Grade Immortal Artifacts?

According to the records in the Saint Sect's annals, 2.78 million years ago, there was a Supreme Immortal Lord in the Immortal Realm Human Race who, though not exceedingly powerful in Immortal Techniques, Illusion Techniques, or Escape Techniques, managed by various means to seize as many as forty-eight Fourth-Grade Immortal Artifacts, without dispute becoming the number one person in the myriad realms of that Middle Ages era!

That guy had once defeated five Supreme Immortal Lords alone and had oppressed the Profound Yin Saint Sect's six Saint Masters, earning the title of Immortal Lord Duobao and being the only opponent marked as the most terrifying by the Profound Yin Saint Sect over two million years in the annals... Immortal Lord Duobao once forced the First Saint Master Fan Yue, the Sect Leader of the then Profound Yin Saint Sect, to move the entire Saint Sect into the extremely secretive Profound Yin Sacred Pond Secret Realm, remaining hidden for eighty thousand years, not emerging from the secret realm until after that Duobao Immortal Lord had crossed the tribulation to become a Celestial Immortal. The Profound Yin Saint Sect then returned to the Holy Sanctuary!

That was undoubtedly the greatest crisis the Profound Yin Saint Sect had faced in millions of years!

Fortunately, after that Duobao Immortal Lord, with as many as forty-eight Fourth-Grade Immortal Artifacts, crossed the Celestial Tribulation and then ascended to the Upper Realm with those forty-eight Fourth-Grade Immortal Artifacts, the number of surviving Fourth-Grade Immortal Artifacts within the Immortal Realm Human Race dwindled to nearly nothing. This allowed the Profound Yin Saint Sect to rise and repeatedly defeat the Immortal Realm Human Race!

Yet, over two hundred million years later, how could there suddenly be as many as thirty-six Fourth-Grade Immortal Artifacts appearing on the side of the Immortal Realm Human Race?

How on earth did Mu Shiba achieve this? Even if Mu Shiba had an unparalleled talent for artifact refining and an exceptionally strong path of artifact refining, it would be impossible for him to refine so many Fourth-Grade Immortal Artifacts!

Or perhaps Mu Shiba did not refine all these Fourth-Grade Immortal Artifacts himself, but instead obtained some extraordinary fortune, entering the relic of some Supreme Immortal Lord of the Human Race from the Ancient Era, entering some Little World, and acquiring the treasury of some Supreme Immortal Lord from the Ancient Era?

It must be this way!

It must be only during the Ancient Era, when Heavenly Materials and Earthly Treasures were abundant, and every clan had numerous Immortal Artifacts, that it would be conceivable for so many Immortal Artifacts to appear together!

Otherwise, how could so many Fourth-Grade Immortal Artifacts possibly fall into the hands of one person? Even that once awe-inspiring Immortal Lord Duobao from the Middle Ages only managed to gather forty-eight Fourth-Grade Immortal Artifacts after countless years of struggle, claiming to take them to the Upper Realm, and then directly competing for a place there!

It's definitely this reason, it absolutely couldn't be that he refined them himself, absolutely not possible!

In this moment,

This Thirty-Six Tribulation Demon Lord, who had cultivated for hundreds of thousands of years and witnessed countless grand events of the Immortal Realm and the Profound Yin Demon Sect, gazed at those thirty-six dazzling Fourth-Grade Immortal Artifacts, his heart was in turmoil!

The three thousand six hundred Immortal Artifacts were refined by Mu Shiba himself, that much it could barely believe! The thirty-six Third-Grade Immortal Artifacts and that one Fourth-Grade Immortal Artifact were refined by this Mu Shiba, which already was astounding beyond measure! Upon seeing those remaining thirty-five Fourth-Grade Immortal Artifacts, this Thirty-Six Tribulation Demon Lord Purlo had already reached an undeniable conclusion in his mind that these Fourth-Grade Immortal Artifacts were absolutely not refined by Mu Shiba himself! Impossible, absolutely impossible!

Chapter 984 War?

In the blink of an eye,

the Thirty-six Tribulation Demon Lord Purlo, who had cultivated for hundreds of thousands of years, had countless thoughts racing through his mind.

But when he looked carefully at those thirty-six Fourth-Grade Immortal Artifacts, astonished, a hint of dread suddenly appeared in his eyes!

Because he suddenly realized,

that the thirty-six Fourth-Grade Immortal Artifacts, each glowing with spiritual light and floating around Lin Xuankong at this moment, were densely engraved with countless array patterns. These Fourth-Grade Immortal Artifacts had apparently been refined by Lin Xuankong long ago to become the array hubs for setting up grand arrays. Moreover, the array patterns on these Fourth-Grade Immortal Artifacts were exceedingly complex, far surpassing those of the previously mentioned First- and Third-Grade Immortal Artifacts!

In this situation,

once Lin Xuankong activated the Nine-Layered Array before him,

the defensive power of the newly emerged Nine-Layered Thousand Cranes Grand Array, as well as the array spirit it could summon, would undoubtedly be extremely powerful, much more formidable than that mysterious array spirit which had previously destroyed the Celestial Demon Array's Demon Buddha!

After realizing this point, the pale eyes of the Thirty-six Tribulation Demon Lord Purlo quickly darted back and forth as he frantically pondered over a countermeasure!

Meanwhile,

within the Spiritual Crane Immortal Sect and Spiritual Crane Immortal City, there was already much excitement.

The sight of just one unique Fourth-Grade Immortal Artifact was enough to make those cultivators and Earth Immortals incredibly excited and astonished. Imagine what their reaction would be when a total of thirty-six Fourth-Grade Immortal Artifacts appeared before them!

"Heavens, are you certain these are all Fourth-Grade Immortal Artifacts? That's a total of thirty-six! Just moments ago, you mentioned that in the Immortal Realm, only the esteemed Sect Leader of the Divine Dynasty and Tributor Mu each held a Third-Grade Immortal Artifact. Now all of a sudden, thirty-six Fourth-Grade Immortal Artifacts have emerged?"

"They are absolutely Fourth-Grade Immortal Artifacts. I, Li Yudong, swear on the lives of my eleven sworn brothers!

"How can you be so sure these are Fourth-Grade Immortal Artifacts? Have you seen Fourth-Grade Immortal Artifacts before?"

"Why of course, Tributor Mu is hailed as the number one Super Refining Master of the Central Divine Dynasty Western Region! He is certainly capable of crafting not just the sole... but the only thirty-six Fourth-Grade Immortal Artifacts in the Immortal Realm!"

"You couldn't even recognize that these are Fourth-Grade Immortal Artifacts? Just now, those thirty-six Third-Grade Immortal Artifacts, whether in terms of spiritual light, Immortal Yuan fluctuation, array patterns, or the degree of liveliness, could not compare with these thirty-six Immortal Artifacts. If they're not thirty-six Fourth-Grade Immortal Artifacts, could they be thirty-six Three-and-a-Half-Grade Immortal Artifacts?"

"Indeed! Even though I, Chi Liuxia, have never seen a Fourth-Grade Immortal Artifact in this lifetime, the Immortal Yuan fluctuation produced by these thirty-six Immortal Artifacts, even when not fully activated, is enough to make me feel chills even half-drunk! Merely the Immortal Yuan fluctuation of the artifacts being so imposing, these thirty-six artifacts are surely and undoubtedly Fourth-Grade Immortal Artifacts!"

"Ah, Elder Chi, not necessarily! Perhaps these thirty-six Immortal Artifacts are Fifth-Grade Immortal Artifacts!"

"Fifth-Grade Immortal Artifacts, my heavens! Just moments ago, upon witnessing those thirty-six Third-Grade Immortal Artifacts, I felt that my life was complete, even if I were to perish on the spot, I would be satisfied! Sect Leader Ma, you actually claim these are thirty-six Fifth-Grade Immortal Artifacts! Hahaha, if that were true, no Immortal in the past million years has seen artifacts as extraordinary as those we've encountered!"

"The Human Race will surely thrive, the Human Race will surely thrive, the Human Race will surely thrive!"

I thought our Beimang Immortal Sect was doomed to perish in this Immortal Demon War, yet unexpectedly, the heavens delivered such an unparalleled talent like Tributor Mu! With these thirty-six Fourth-Grade Immortal Artifacts in hand, how could the Human Race fear the endless demons of the Profound Yin Demon Sect in the future! We need only wait for Immortal Lord Luoshui and Elder Qiaan Yuan and Elder Kunyuan to each return, borrowing one Fourth-Grade Immortal Artifact from Tributor Mu, then Demon Lords like the Thirty-six Tribulation Demon Lord Purlo would surely be no match for Immortal Lord Luo Shu and his peers!"

"Hey, Sect Leader Li, do you know if Tributor Mu has a dao companion?"

"Fellow Daoist Huang, what are you thinking? You are over two thousand years old, how could Tributor Mu be a high branch you, a Fourth-Grade Earth Immortal, can aspire to!"

"Hey, what are you thinking! I'm just curious... A legendary figure like Immortal Mu, his dao companion must certainly be an absolutely graceful and peerless person. I wonder what kind of fairy would be worthy to match a looming legend over the entire Immortal Realm such as Immortal Lin!"

"Look, that Thirty-six Tribulation Demon Lord Purlo has already stopped attacking, hahaha! Immortal Mu is indeed our savior of the Central Divine Dynasty Western Region, hahaha, this old demon must have been astounded by the unprecedented appearance of these thirty-six Fourth-Grade Immortal Artifacts!"

"Let me tell you, the first time I met Immortal Mu at the border of the Western Region, Immortal Mu was still at the Ninth Grade of the Mortal Tier, but at that time, I could perceive that Immortal Mu was surrounded by purple aura, indescribably noble, and was destined to be a peerless figure in the Immortal Realm! Moreover, back then, Immortal Mu detested evil and assisted the Little Bodhisattva from the Spirit Platform Buddhism to repel the demons of the Profound Yin Demon Sect! Now, it seems I, Chi Liuxia, truly did not misjudge; Immortal Mu indeed became an incredible legend in the Immortal Realm!"

"That's naturally the case. Today, if the news of these thirty-six Fourth-Grade Immortal Artifacts spreads, then waiting for the end of the Immortal Demon War, not merely the entire Central Divine Dynasty Western Region, but all the Immortal Realm, Profound Yin Demon Realm, Boundaryless Mountain Range, Spirit Platform Buddha Realm plus countless Little Worlds, people will certainly flock to Spiritual Crane Immortal Sect to witness the appearance of Fourth-Grade Immortal Artifacts unseen for a million years and to pay respects to the Immortal Lin, a master refinisher worthy of the highest commendation of the past million years!"

Chapter 985 Battle? (Part 2)

....Countless cultivators and Earth Immortals, gazing at Lin Xuankong and the thirty-six Fourth-Grade Immortal Artifacts in the sky, felt as if they were dreaming.

If not for everyone seeing those thirty-six Fourth-Grade Immortal Artifacts, if not for everyone's fervent discussions about those thirty-six Fourth-Grade Immortal Artifacts, at least ninety percent of the cultivators and Earth Immortals might think they had fallen under the illusion technique of the Thirty-six Tribulation Demon Lord Purlo, seeing nothing but illusions!

Originally faced with the overwhelming presence of the Thirty-six Tribulation Demon Lord Purlo, countless cultivators and Earth Immortals present were all on edge, fearing that the forty-plus layers of nine-fold Grand Arrays imposed by the Cyan-forehead Qilin wouldn't withstand the attacks of this famed old demon of hundreds of thousands of years. But now, looking at those thirty-six dazzling Fourth-Grade Immortal Artifacts, amidst the fluctuations of Immortal Yuan, everyone felt their hearts filled with hope, as if they could already see the glimmer of victory in this battle, envisioning the hope of victory in the current fight, and more importantly, seeing the hope of victory for the Human Race in this Immortal-Demon War!

Yet, how could these cultivators and Earth Immortals within the Spiritual Crane Immortal Sect and Spiritual Crane Immortal City know that what Lin Xuankong possesses now is far more than just thirty-six Fourth-Grade Immortal Artifacts? In the few years after returning from the Boundaryless Mountain Range, alongside his cultivation, he collaborated with the artifact refining genius Xiao Xiuyi to craft an endless array of immortal artifacts!

The number of Fourth-Grade Immortal Artifacts had already reached several thousand, even the Fifth, Sixth, and Seventh-Grade Immortal Artifacts were abundantly plentiful! And Xiao Xiuyi's refining target had long shifted to crafting Eighth and Ninth-Grade Immortal Artifacts, so in recent years, he had been exploring the crafting of Eighth and Ninth-Grade Immortal Artifacts. Although he hadn't succeeded yet, some promising aspects had emerged. Were it not for this, the Fifth, Sixth, and Seventh-Grade Immortal Artifacts Lin Xuankong possessed would already be countless!

Moreover, in Lin Xuankong's view at this moment, with the defense from dozens of layers of the Nine-Layered Thousand Cranes Grand Array, he has no need to entirely use all the trump cards he owns... which means that the power displayed by the Thirty-six Tribulation Demon Lord Purlo, seemingly an extinction demon to everyone, is not yet enough to force Lin Xuankong to go all out....

In the sky,

Guang Ling'Er and Guang Yu'Er, two true disciples of the Guangqing Immortal Sect, stared blankly at the thirty-six Fourth-Grade Immortal Artifacts around them, feeling as if in a dream.

However, as true disciples of the Guangqing Immortal Sect and Earth Immortals of the Ninth-Grade Perfection realm, after their Heart Spirits lost control for a moment, they gradually regained their composure.

Guang Yu'Er glanced at the composed Lin Xuankong beside her and then at the thirty-six Tribulation Demon Lord with a massive Demon Body and overwhelming Demonic Qi high in the sky. Her eyes suddenly revealed a flash of excitement and anticipation.

Mr. Lin has already utilized thirty-six Fourth-Grade Immortal Artifacts. If there were a strongest Immortal Lord-level powerhouse present, relying on these Fourth-Grade Immortal Artifacts would surely defeat the Thirty-six Tribulation Demon Lord Purlo effortlessly. But can Mr. Lin himself defeat the Thirty-six Tribulation Demon Lord Purlo with these thirty-six Fourth-Grade Immortal Artifacts?

If Mr. Lin can defeat the Thirty-six Tribulation Demon Lord Purlo with these thirty-six Fourth-Grade Immortal Artifacts, then he would be the only Earth Immortal of the Human Race in countless eras to defeat a strongest Immortal Lord-level powerhouse at the Third-Grade Realm!

If that's truly the case, she could witness firsthand this unprecedented achievement!

Thinking of this, Guang Yu'Er's heart began to pound, her eyes filled with excitement and anticipation, even her hands couldn't help but clench into small fists, slightly shaking.

Beside her, Lin Xuankong was unaware that the true disciple of the Guangqing Immortal Sect next to him was anticipating a battle of unparalleled magnificence,

He looked up at the Thirty-six Tribulation Demon Lord who had halted his attack in the sky above, with a touch of battle intent gradually surfacing in his eyes. Then, he gently raised his right hand, and instantly, the thirty-six Fourth-Grade Immortal Artifacts emitted an even brighter spiritual light, a layer of light membrane covered with countless array patterns, appeared outside the other Nine-Layered Thousand Cranes Grand Array's light membrane.

Seeing this,

The Thirty-six Tribulation Demon Lord Purlo, who had eyes full of fear and greed, immediately had his red vertical pupil in his gaze narrow.

Before it could react further,

A resonating long cry echoed across the sky above the Nine-Layered Thousand Cranes Grand Array set up by Lin Xuankong with thirty-six Fourth-Grade Immortal Artifacts,

At the same time, a Spiritual Crane with an Immortal Body and pure white feathers, measuring over twenty thousand feet, appeared. This array spirit formed by the Nine-Layered Thousand Cranes Grand Array arranged with thirty-six Fourth-Grade Immortal Artifacts was not only similar in size to the array spirit of the previous Annihilation Demon Buddha's Nine-Layered Thousand Cranes Grand Array but also extremely refined in its Immortal Body, emitting fluctuations extremely intense, far stronger than the Immortal Yuan fluctuation emitted by the previous array spirit!

The Immortal Body and fluctuation of this Spiritual Crane over twenty thousand feet, almost a match for the Thirty-six Tribulation Demon Lord Purlo! One must know, the Thirty-six Tribulation Demon Lord Purlo is genuinely a strongest Immortal Lord-level powerhouse, a famed expert with countless years of cultivation, and one of the elites among the seventy-two Demon Lords of the Profound Yin Demon Sect!

Normally, the array spirit summoned by the Nine-Layered Grand Array would be akin to an Earth Immortal or Demon General of the Ninth-Layer Perfection, vastly inferior to an Immortal Lord-level powerhouse! Yet the power of the Grand Array is often closely related to the hub used, and Lin Xuankong's newly arranged Nine-Layered Thousand Cranes Grand Array was constructed with Fourth-Grade Immortal Artifacts as hubs, naturally distinct from other Immortal Sects whose hubs are formed with magical artifacts, markedly different from arrays set up with First-Grade Immortal Artifacts, and equally distinct from arrays formed with Third-Grade Immortal Artifacts!

However,

This array spirit is only in its initial form!

Lin Xuankong has yet to unleash the various talents of his Vigorous in Old Age Life Plate. If unleashed, even if the refinement level of the Immortal Body and Immortal Yuan fluctuation of this Nine-Layered Thousand Cranes Grand Array Array Spirit doesn't change much, the power it can exert in attacks and self-detonation would certainly be terrifying to the extreme!

"Purlo, will you come forth for a battle?"

This spirit is named the Nine-Layered Thousand Cranes Grand Array Spirit, capable of a fight with you!"

After summoning this Nine-Layered Thousand Cranes Grand Array Spirit and speaking, Lin Xuankong's eyes flickered with vibrant brilliance.

In recent years, he has invested almost all his time in studying the path of arrays, artifact refining, and cultivation. Ever since he engraved the array patterns onto many immortal artifacts, he has yet to unleash the power of an array spirit summoned by a grand array formed with Fourth-Grade Immortal Artifacts!

Because Lin Xuankong doesn't need to test to be absolutely certain that a Nine-Layered Thousand Cranes Grand Array constructed with Fourth-Grade Immortal Artifacts as hubs is something no ordinary Ninth-Grade Earth Immortal can withstand. As a disciple of Immortal Lord Luoshui Yaan Mingyu, it wouldn't make sense to challenge his own master, having his master Immortal Lord Luoshui test the power of his own array. Thus, Lin Xuankong has always been unaware of the power of his Fourth-Grade Immortal Artifacts and Nine-Layered Thousand Cranes Grand Array Spirit!

The Thirty-six Tribulation Demon Lord Purlo before him is undoubtedly the most formidable opponent Lin Xuankong has encountered thus far and the best subject to test the power of the Fourth-Grade Immortal Artifacts and Nine-Layered Thousand Cranes Grand Array Spirit!

Upon hearing Lin Xuankong's words,

The entire Spiritual Crane Immortal Sect and Spiritual Crane Immortal City suddenly quieted down; everyone held their breath, intensely gazing at the Thirty-six Tribulation Demon Lord Purlo in the sky.

Even the Cyan-forehead Qilin, typically fond of clamoring, quieted down, with its huge eyes filled with excitement and hope, looking at Lin Xuankong, and then somewhat enviously at the Nine-Layered Thousand Cranes Grand Array Spirit!

Meanwhile, the two true disciples of the Guangqing Immortal Sect, Guang Ling'Er and Guang Yu'Er, stopped channeling their Immortal Yuan and equally raised their heads in excitement and anticipation. Both knew that if this battle before them erupted, they would be utterly unable to participate or influence it as Earth Immortals of the Ninth-Grade Perfection Level!

Chapter 986: Resentful Soul of the Profound Saint

Under the gaze of countless cultivators within the Spiritual Crane Immortal City and Spiritual Crane Immortal Sect,

the thirty-six Tribulation Demon Lord Purlo, who had been renowned for hundreds of thousands of years, gradually grew ferocious, finally opening a massive maw enough to swallow a mountain peak, and coldly said:

"I have been famed for 420,000 years, since achieving the Saint Master Realm, having faced the strongest Immortal Lord level experts of the Immortal Realm Human Race more than twenty times. Apart from the Sect Leader of the Divine Dynasty and Yu Zhen, that bald donkey, no other strongest Immortal Lord dared claim they could surpass me, Purlo!

Even the Celestial Demon Tribulation, capable of obliterating multiple Saint Masters, I have evaded a full thirty-six times!

And now, to be challenged by you, a mere Third-Grade Earth Immortal... Setting aside other reasons, just this courage alone is enough to make your name famous throughout the Immortal Realm!

But if you think the true strength of a Saint Master is similar to that summoned by the Celestial Saint Array's Saint Buddha, you're mistaken!"

Before the words finished,

the renowned thirty-six Tribulation Demon Lord became engulfed in Demonic Qi, which continuously spread outward, transforming into hundreds of thousands of resentful souls, incessantly hovering around it, wailing!

These are hundreds of thousands of resentful souls, and each soul, passing through the Demon Artifacts on the thirty-six arms of the Tribulation Demon Lord, would immediately grow explosively, even if not reaching the Initial Grade Earth Immortal Realm, they're not far off. Among them, many resentful souls have already reached the First, Second, and Third-Grade Earth Immortal Realms!

These resentful souls are clearly the ghost creatures crafted and dominated by this Tribulation Demon Lord after slaying countless Immortal Realm Human Race over hundreds of thousands of years!

To gather such a number of resentful souls, countless Immortal Realm Human Race cultivators must have been brutally killed... Among them, those souls nearing the First, Second, Third-Grade Earth Immortal Realms require the death of Human Earth Immortals for successful refining!

Hundred Thousand Earth Immortals,

Millions of Ninth Grades,

This formation,

described as obstructing the sky and covering the earth would not be too much!

Though there are millions of cultivators and Earth Immortals within the Spiritual Crane Immortal Sect and Spiritual Crane Immortal City, it pales in comparison to the formation summoned by the Tribulation Demon Lord when deploying Demon Techniques!

Moreover, as those resentful souls rapidly swirl, they continuously fuse, instantly forming a massive, exceptionally strange eye shape!

Most terrifying of all,

this enormous eye, not only lifelike as if taken from the eye socket of the thirty-six Tribulation Demon Lord Prode, but massive, just one eyeball exceeding several times the worldly shock caused by the Demon Buddha summoned by the Celestial Demon Array!

Within the Nine-Layered Thousand Cranes Grand Array,

two True Disciples of Guangqing Immortal Sect, Guang Ling'Er and Guang Yu'Er, witnessing the change, were dumbfounded,

then Guang Yu'Er showed an extremely panicked expression, urgently activating all her Immortal Yuan, and screamed: "It's the Great Success Profound Demon Eye of Fenghuo Lin, and this thirty-six Tribulation Demon Lord Purlo has already cultivated the Celestial Demon Eye, created by Fenghuo Lin Demon Lord, to Great Success Realm! Fellow Daoists, quickly shut your five senses, do not listen, do not see, do not touch, do not smell, or else the Profound Demon Illusion will instantly destroy any Divine Soul below seventh grade, and even the seventh, eighth, ninth-grade Divine Souls will suffer severe damage, unable to cultivate for centuries!"

At this moment, this True Disciple from Guangqing Immortal Sect was full of panic as she warned every cultivator in Spiritual Crane Immortal Sect and Spiritual Crane Immortal City. Without hesitation, she, together with Guang Ling'Er, activated Immortal Yuan, shielding every orifice, completely not daring to hear nor see....

The countless cultivators within Spiritual Crane Immortal Sect and Spiritual Crane Immortal City, initially trembling upon seeing the bizarre and gigantic eyeball, after Guang Yu'Er warned, did not hesitate for a moment. Instantly every one of them activated their True Qi and Immortal Yuan, shutting their five senses!

At that moment,

the entirety of Spiritual Crane Immortal Sect and Spiritual Crane Immortal City became immensely quiet, with hardly anyone daring to open their eyes, hardly anyone daring to speak, hardly anyone daring to make any movement!

Even the usually carefree Cyan-forehead Qilin, witnessing the gigantic eyeball, immediately shut its eyes and held its breath.

At this point,

within the Spiritual Crane Immortal Sect and Spiritual Crane Immortal City, only Lin Xuankong remained, looking up toward the gigantic eyeball, completely ignoring Guang Yu'Er's warning.

In the high sky, the thirty-six Tribulation Demon Lord Purlo showed a slight cold smile at the corner of his lips, the crimson pupil of that enormous eyeball instantly locked onto Lin Xuankong. Lin Xuankong, without hesitation, immediately activated the Nine-Layered Thousand Cranes Array Spirit, flying towards the eye in the high sky, attempting to interrupt the activation of the opponent's Demon Techniques before the gigantic eye initiated its attack!

Unfortunately,

despite the Nine-Layered Thousand Cranes Array Spirit's speed, how could it compare to the speed of the Spiritual Attack Secret Technique!

The former Fenghuo Lin Demon Lord could instantly deploy the Spiritual Attack Secret Technique from billions of miles away!

In the next moment,

Lin Xuankong only felt that the pupil position of the eyeball high above suddenly emitted an intangible, formless wave, filled with an indescribable evil.

That wave was so swift, it instantly spread throughout the entire Spiritual Crane Immortal Sect and Spiritual Crane Immortal City, enveloping Lin Xuankong, every cultivator, and Earth Immortal within.

Chapter 987: Resentful Soul of the Profound Saint (2)

Within the Spiritual Crane Immortal Sect and Spiritual Crane Immortal City, nearly every conscious cultivator and Earth Immortal had already sealed off their five senses, thus avoiding the dreadful ripple that could harm their divine soul for the time being. However, the demon Buddha summoned by the Celestial Demon Array earlier had long injured the divine souls of over a hundred thousand cultivators with its demon sound. These cultivators suffered soul damage, making it extremely difficult to mobilize their True Qi and Immortal Yuan, leaving them no time to seal off their five senses!

In an instant,

those over a hundred thousand cultivators with damaged divine souls trembled simultaneously, as if caught by an invisible giant hand, their bodies twisting, their facial expressions chaotic—mixed with extreme joy, extreme pain, extreme anger, extreme greed, extreme sorrow... their expressions changing continuously, utterly chaotic!

Less than one percent of a breath later,

over a hundred thousand cultivators bled profusely from their eyes, ears, mouths, and noses, then collapsed to the ground lifelessly!

The profound void demon eye of the Great Success Realm is terrifying to this extent; silently and invisibly, it claimed the lives of over a hundred thousand cultivators and Earth Immortals. If it weren't for the well-informed true disciple of the Guangqing Immortal Sect, Guang Yu'er, warning everyone in advance, the death count would not have just been over a hundred thousand!

And now,

the array spirit of the Nine Layers of Thousand Cranes Formation, driven by Lin Xuankong, had crossed a vast distance, racing toward the enormous eyeball in the sky!

However,

even though the array spirit was summoned by the Nine Layers of Thousand Cranes Formation composed of thirty-six Fourth-Grade Immortal Artifacts, possessing terrifyingly destructive power, when it charged at the large eyeball, it didn't cause any commotion, just passed silently through the pupil of the enormous eyeball, and emerged from its rear as if nothing happened!

The massive eyeball composed of countless resentful souls was undamaged, continuing to emit bizarre, invisible waves that scanned over every cultivator and Earth Immortal within the Spiritual Crane Immortal City and Immortal Sect!

"These resentful souls refined through the Profound Saint Technique are formless, nearly illusions; unless they reveal their true form and actively initiate an attack, even Ninth-Grade Immortal Artifacts can't harm them! Unless you, as a Third-Grade Earth Immortal, possess these Sacred Artifacts of my Profound Yin Saint Sect, otherwise exhausting your entire Immortal Yuan, even the Immortal Yuan of this array spirit, won't allow you to touch them!"

Thirty-six Tribulation Demon Lord Purlo spoke coldly, gazing at Lin Xuankong from afar.

It scrutinized Lin Xuankong from head to toe, frowning slightly, "Yet I find it strange that you, a Third-Grade Human Race Earth Immortal, are unaffected by the spiritual assault of the profound void demon eye of the Great Success Realm! Truly a peculiar character, no wonder my house's Holy Son Gang Bone dispatched such a luxurious assembly just to capture you, this Third-Grade Earth Immortal!

Even Immortal Lord-level Human Race Earth Immortals, with divine soul realm nearing perfection, must seal off at least three senses to relatively easily withstand the spiritual attacks of the profound void demon eye!

Indeed it seems you possess the heart-protecting immortal artifact from Spirit Charm Compassion Voyage of the Middle Ages!

Mu Shiba, oh Mu Shiba, how many more secrets do you have on your body? How many more treasures?"

Speaking thus, this renowned Thirty-six Tribulation Demon Lord, glancing at Lin Xuankong, eyes continuously assessing, as if Lin Xuankong wasn't a Third-Grade Earth Immortal of the Human Race, but an astonishing treasure trove!

At this moment, Lin Xuankong, having futilely attacked the immense eyeball back and forth with the array spirit of the Nine Layers of Thousand Cranes Formation dozens of times, had no choice but to desist, his gaze falling on Thirty-six Tribulation Demon Lord Prode.

A moment later,

the Spiritual Crane, covered in snowy feathers, transformed into a stream of light, flying towards Thirty-six Tribulation Demon Lord Purlo.

Failing to ward off the profound void demon eye, let's capture the leader first, directly confronting Thirty-six Tribulation Demon Lord Purlo who wields the profound void demon eye!

As the array spirit of the Nine Layers of Thousand Cranes Formation, composed of Fourth-Grade Immortal Artifacts, its flying speed was naturally astoundingly fast; within a millisecond, this array spirit had already flown before Thirty-six Tribulation Demon Lord Purlo.

However, as a demon lord who cultivated for hundreds of thousands of years, Thirty-six Tribulation Demon Lord's strength far surpassed that of the demon Buddha summoned by the Celestial Demon Array earlier. Facing the swift array spirit of the Nine Layers of Thousand Cranes Formation, Purlo's thirty-six arms swiftly guarded its front, forming an impenetrable barrier!

The array spirit of the Nine Layers of Thousand Cranes Formation dashed left and right before Thirty-six Tribulation Demon Lord Purlo, yet was continually struck out by its powerful demon artifact swings, seemingly unable to breach this Thirty-six Tribulation Demon Lord's defense, and even appearing to be slowly losing ground!

"Hahaha, the array spirit summoned by Fourth-Grade Immortal Artifacts does indeed possess some mysteries; if not for my cultivation over hundreds of thousands of years, were it those fellows who ascended to Saint Master level tens of thousands of years ago, they would have had to exhaustively contend with your role as a ravager!

But Mu Shiba, Mu Shiba, Saint Master-level powerhouses are united with Holy Qi, attaining perfection, having already reached this world's highest speed and greatest might. The remaining eons of cultivation allow Saint Master-level powerhouses to master various Holy Techniques to the Great Success Realm, making it impossible for any cultivators not yet at Saint Master Realm to stand against them!

With your Nine Layers of Thousand Cranes Formation's destructive ability, breaking my defense would take hundreds of years of battle, draining my ocean-deep Holy Qi! Yet, based on your Third-Grade Realm strength, how much Immortal Yuan accumulation can you have? In the span of a few hours at most, wouldn't your Immortal Yuan be spent?"

Between bursts of laughter, Thirty-six Tribulation Demon Lord spoke with arrogance, still without a shred of complacency; its gray-white eyes remained locked on the immortal body of the array spirit of the Nine Layers of Thousand Cranes Formation, without a hint of relaxation!

Being an ancient demon head cultivating for hundreds of thousands of years,

its previous words, appearing to provoke Lin Xuankong, were merely a ploy to disrupt Lin Xuankong's heart spirit.

Moreover,

amidst the battle,

this renowned Thirty-six Tribulation Demon Lord activated that enormous eyeball, gradually pressing it against the light membrane of the Nine Layers of Thousand Cranes Formation until it was tightly adhered to it.

In an instant,

within the Spiritual Crane Immortal Sect and Spiritual Crane Immortal City,

at least tens of thousands of cultivators began to tremble.

These cultivators were clearly obstructed because they had merely reached the Ninth Grade of the Mortal Tier, and their True Qi's closure of their senses wasn't strict enough, gradually being infiltrated by the dreadful ripple of the profound void demon eye.

Should this continue,

in merely three more breaths, these tens of thousands of cultivators would meet the same fate as those thousand whose divine souls shattered, being directly infiltrated by the profound void demon eye through their senses and perishing on the spot!

At this sight,

initially intending to reserve some trump cards, Lin Xuankong hesitated no further,

the four large characters "Vigorous in Old Age" flashing continuously in purple and gold within his mind, the light suddenly brightening.

At the same time,

the array spirit of the Nine Layers of Thousand Cranes Formation orbiting Thirty-six Tribulation Demon Lord Prolo suddenly accelerated by several degrees, astonishingly matching the attack and defense speed of Thirty-six Tribulation Demon Lord Prolo!

The array spirit of the Nine Layers of Thousand Cranes Formation suddenly sped up!

Even with the immensely rich combat experience of the renowned Thirty-six Tribulation Demon Lord Prolo for hundreds of thousands of years, how could it anticipate an array spirit summoned by the Nine Layers of Thousand Cranes Formation to achieve the terrifying speed of the strongest Immortal Lord or Demon Lord!

Impossible!

The array spirit of the Nine Layers Formation, even laid with Ninth-Grade Immortal Artifacts, merely approaches the strongest Immortal Lord-level powerhouses; how can it equate with Saint Master-level powerhouses!

Faced with the array spirit of the Nine Layers of Thousand Cranes Formation breaking through the defense formed by its thirty-six arms, Thirty-six Tribulation Demon Lord's enormous eyes revealed a completely incredulous expression; a strong sense of danger surged in its heart!

Chapter 988: Where Are the Thirty-Six Tribulation Demon Lords?

In the instant of sensing mortal peril,

Purlo, the thirty-six Tribulation Demon Lord who had survived countless battles, condensed his nearly endless demonic energy in front of himself in a split second.

At the same time,

the Nine-Layered Thousand Cranes Array Spirit, suddenly accelerating,

each feather emitted an exceptionally bright light,

a massive force,

exploded directly from the core of this Nine-Layered Thousand Cranes Array Spirit!

Strangely and terrifyingly,

this time the self-destruction of the Nine-Layered Thousand Cranes Array Spirit made no sound, emitted no intense waves, and lacked the fierce shockwaves typically caused by such self-destroying events!

This time, the self-destruction of the Nine-Layered Thousand Cranes Array Spirit directly used its Immortal Body as the core, annihilating everything within a radius of three hundred miles... Within that vast range, sound, light, air, dust, Immortal Yuan, Demonic Qi—everything vanished within the terrible, silent explosion!

Purlo's Demon Body was incredibly powerful,

as a standout among the seventy-two Demon Lords of the Profound Yin Demon Sect, surviving thirty-six Celestial Tribulations, and though he couldn't withstand the final attack of the Celestial Demon Tribulation, he endured and lived through it thanks to his Demon Body and talent! Now, purely speaking of the strength of his Demon Body, even compared to seasoned Demon Lords like those from the Celestial Banner Earth Fiend Wind Fire Forest, who have lived for seventy to eighty million years, he was slightly superior!

After all, the three Demon Lords of the Celestial Banner Earth Fiend Wind Fire Forest excel in their Ghostly Demon Technique and Spiritual Attack Secret Technique compared to the thirty-six Tribulation Demon Lords, but they faced only a few Celestial Demon Tribulations, making their Demon Body refinement inferior to Purlo's!

However,

at this moment,

when the self-destructive might of the Nine-Layered Thousand Cranes Array Spirit began to obliterate all surrounding material,

even Purlo's refined Demon Body, tempered through thirty-six Celestial Demon Tribulations, could not withstand it!

His colossal Demon Body began to collapse and annihilate in a ten-thousandth fraction of a second under the annihilating force of the Nine-Layered Thousand Cranes Array Spirit's self-destruction. The first to vanish were the thirty-six Demon Artifacts refined through thirty-six Celestial Demon Tribulations, then his massive thirty-six arms, followed by his mighty Demon Body...

His seemingly endless demonic energy could not halt the swift annihilation under such terrifying self-destruction might!

The strength of the array spirit summoned by the Nine-Layered Thousand Cranes Array arranged by Initial-Grade Immortal Artifacts is already comparable to the Ninth Grade Perfection Earth Immortal, let alone the array spirit summoned by this Four-Grade Immortal Artifact arranged Nine-Layered Thousand Cranes Array, which is approaching the Strongest Immortal Lord-level existence!

Especially with the boost from Lin Xuankong's Vigorous in Old Age Life Plate, the explosive power of this Nine-Layered Thousand Cranes Array Spirit has long equaled the self-destructive might of a true Strongest Immortal Lord-level powerhouse, reaching the limit bearable by this world, matching the utmost limit of non-spiritual attack that top-tier powerhouses of this world can launch!

No wonder, mainly because Purlo, the thirty-six Tribulation Demon Lord, was just too 'old'!

Under [bullying the old and weak] talent boost, any attack by Lin Xuankong was terrifying, even to those thousands of years old—even forty thousand years. This dreadful boost has raised the self-destructive might of the Nine-Layered Thousand Cranes Array Spirit prompted by Lin Xuankong to an exponential level!

Not to mention Lin Xuankong's other talent [Piercing the Mountain and Hitting the Ox], which ignores any defense. This talent allowed the self-destruction might of the Nine-Layered Thousand Cranes Array Spirit to ignore the nearly endless demonic energy defense of Purlo!

If a Strongest Immortal Lord-level human race from the Immortal Realm were here, launching thousands, tens of thousands, or even hundreds of millions of attacks, they would be hard-pressed to ignore the endless demonic energy defense of Purlo. After all, with tens of thousands of years of accumulation, the concentration of demonic energy from Purlo's thirty-six Tribulations, even with the support from Lin Xuankong through the Celestial Demon Bone Secret Realm, couldn't catch up!

Of course, this refers to the human race's Strongest Immortal Lord, launching Immortal Technique attacks on Purlo!

If the self-destroyer were a Strongest Immortal Lord-level human race from the Immortal Realm now,

their self-destructive might would be like that of the Nine-Layered Thousand Cranes Array Spirit's self-destruction, still able to annihilate Purlo's Demon Body!

Because the self-destructive power that a Strongest Immortal Lord-level entity can unleash is exponentially greater than the Immortal Technique attacks they can launch!

Yet,

in this world,

how could there possibly be a Strongest Immortal Lord-level powerhouse using self-destruction to deal with an enemy?

From the Ancient Era until now, there may be few Strongest Immortal Lord-level powerhouses, Demon Lords, Great Success Purlo, or Demon Kings using self-destruction strategy against foes!

Because without exception, they possess near-endless lifespans, even if their lifespan approaches exhaustion, they would search every avenue to prolong their lives, possibly employing Immortal Technique, Demon Technique to induce slumber, hoping successors would find treasures to extend their lifespans!

Moreover, without exception, they had already reached the peak of this world, mere steps away from ascending to the Upper Realm! Such existence, how could they use a self-destructive attack manner to annihilate foes together!

Chapter 989 Where Is the Thirty-Six Tribulation Demon Lord? (2)

However, this Thirty-Six Tribulation Demon Lord Purlo, was rather unfortunate...

An unprecedented self-explosion attack by the strongest Immortal Lord-level powerhouse in this world, and it encountered it!

Thus,

This Demon Lord, who had terrorized the Immortal Realm for hundreds of thousands of years, silently perished...

Its thirty-six demon artifacts, condensed during the Celestial Demon Tribulation, vanished in an instant. Its immensely large thirty-six arms disappeared in a split second, and its incredibly formidable demon body was annihilated in no time!

When time had passed for a ten-thousandth of a breath,

The position where the Nine-Layered Thousand Cranes Array Spirit and Thirty-Six Tribulation Demon Lord Purlo stood had turned into an empty, absolutely dark, absolutely void space. Within this three-hundred-mile diameter area, everything was gone—there was no sound, no light, no Immortal Yuan, no Demonic Qi, no fluctuation, not even the chaotic airflow that usually appears after space shatters. The self-destruction of the Nine-Layered Thousand Cranes Array Spirit had even obliterated the chaos of this world!

Moreover, under normal circumstances,

If powerhouses battled, the resulting immense power would often cause large-scale destruction to the surrounding space, resulting in shattered space with a lot of chaotic airflow. Then, because of this world's rules' influence, the originally shattered space would quickly mend and return to normal!

After the self-destruction of the Nine-Layered Thousand Cranes Array Spirit before us, due to the destruction of the most basic chaos of that world piece, the shattered space could not mend for a long time, leaving only pure void!

Within the light membrane of the Nine-Layered Thousand Cranes Array,

The other cultivators were still with their five senses sealed, naturally unaware that such a frightening explosion had occurred outside the Nine-Layered Thousand Cranes Array! Yet, thousands of miles away, those remaining demon heads, demon soldiers, and the over twenty Ninth-Grade Demon Artifact Level demon generals of the Profound Yin Demon Sect all witnessed this seemingly silent, yet unspeakably terrifying explosion!

Every demon head, demon soldier, and demon general of the Profound Yin Demon Sect felt intense tightness all over, their Demonic Qi trembled, and their pupils shrank,

Every demon head, demon soldier, and demon general of the Profound Yin Demon Sect knew for certain that if the terrifying self-destruction of the Nine-Layered Thousand Cranes Array Spirit had occurred nearby, with their power, the only outcome would be complete obliteration, not a trace of Demonic Qi left!

Among them, a rather tall Ninth-Grade Demon Artifact Level demon general stepped back nervously several steps before speaking hesitantly, "Saint... Saint Lord, its... its Holy Body is gone, and it seems no ripple appears. Could the Thirty-Six Tribulation Saint Lord... be..."

As the words reached here, its voice trembled with fear, unable to continue!

The other demon heads, demon soldiers, and demon generals of the Profound Yin Demon Sect quickly retreated with the Ninth-Grade Demon Artifact Level demon general, regardless of their disbelief, they had to admit that they could not sense the presence of Thirty-Six Tribulation Demon Lord Purlo at all!

From afar, within the light membrane of the Nine-Layered Thousand Cranes Array,

Lin Xuankong gazed at the three-hundred-mile diameter black void hole, furrowing his brow slightly, seemingly somewhat unsatisfied, "Really perished?"

In this moment, even Lin Xuankong was uncertain, after all that was a formidable existence that had terrorized the entire Immortal Realm for hundreds of thousands of years, having fought countless times against the strongest Immortal Lord-level powerhouses, not to mention having mastered an unknown number of demon techniques!

To be so easily defeated by a 'mere Third-Grade Earth Immortal' like himself, indeed felt rather bizarre!

Just then,

Among the Profound Yin Demon Sect demon heads, demon soldiers, and demon generals retreating towards the distance, the previously speaking Ninth-Grade Demon Artifact Level demon general suddenly began trembling all over, its Demonic Qi violently surged. Its expression became immensely pained, constantly clawing at its own scalp with its large hands, until eventually, it began to howl incessantly, as if something terrifying was constantly churning within its head!

Seeing this, the surrounding demon heads, demon soldiers, and Ninth-Grade Demon Artifact Level demon generals changed their expressions and stepped back.

A tenth of a breath later,

This Ninth-Grade Demon Artifact Level demon general suddenly convulsed, ceased struggling and howling, yet its body and face twisted continuously, gradually transforming into the guise of Thirty-Six Tribulation Demon Lord Purlo, and thirty-six arms extended out from both sides of its body.

Then,

It turned its ash-gray eyes towards Lin Xuankong from afar, its pupils filled with endless bitterness,

"Mu Shiba, today you destroyed my thirty-six demon artifacts, someday I, Purlo, will reclaim them from you a hundred, a thousand, ten thousand times over!"

Before the words fell,

This Demon Lord, who used some bizarre demon technique to transfer its Divine Soul to the body of the Ninth-Grade Demon Artifact Level demon general, suddenly shuddered with Demonic Qi all over, then its whole body transformed into a strand of condensed yet tiny Demonic Qi, shooting westwards at an extremely terrifying speed, disappearing over the horizon in the blink of an eye!

Its speed was akin to the red light released when Lin Xuankong deployed the Nine Gates Celestial Eye, amid its severely wounded Immortal Yuan, Thirty-Six Tribulation Demon Lord Purlo had indeed activated another terrifying demon technique, uttering a menacing vow before fleeing directly!

This Thirty-Six Tribulation Demon Lord was so decisive during its escape, disregarding the nearby Ninth-Grade Demon Artifact Level demon generals and those demon heads and demon soldiers altogether!

Witnessing Thirty-Six Tribulation Demon Lord Purlo escaped, the remaining demon heads, demon soldiers, and demon generals of the Profound Yin Demon Sect immediately displayed horrified expressions, no longer hesitating, they all activated demon techniques, transforming into strands of Demonic Qi, fleeing into the distance.

Less than an hour ago,

The once fearsome Profound Yin Demon Sect army which had terrorized countless cultivators and Earth Immortals,

Now was reduced to only a few remnants and stragglers, their escape resembling homeless dogs fleeing in panic!

Seeing this scene,

Lin Xuankong gazed towards the direction where Thirty-Six Tribulation Demon Lord fled, furrowing his brow and slightly shaking his head, thinking secretly to himself,

"It seems relying solely on the Path of Array to kill a Demon Lord with bizarre demon techniques is indeed somewhat difficult. This Path of Array is strong but ultimately leans towards assisting and defense; its attack power relies mainly on the Array Spirit, which is too singular!

If I wish to capture such a Demon Lord with bizarre demon techniques, I'm afraid I have to rely on illusion techniques and various Immortal Techniques!

And the most important thing is, this Thirty-Six Tribulation Demon Lord is not even the strongest Demon Lord within the Profound Yin Demon Sect; above many Demon Lords, there's one called the Demon Child Gang Bone, said to grasp a trace of Celestial Demon Power. These opponents should not be underestimated. After receiving news of this battle, they surely won't spare me, who possesses numerous Immortal Artifacts!

For now, the plan must be to quickly master more attack methods, and simultaneously imprint array patterns on all the Immortal Artifacts in my possession, to prepare for potentially stronger opponents and possibly more dangerous battles!

As for learning illusion techniques that can attack the opponent's Divine Soul, and various powerful Immortal Techniques..."

Thinking this way, Lin Xuankong turned towards the nearby Guangqing Immortal Sect true disciples Guang Ling'Er and Guang Yu'Er,

Raising his right hand, the light membrane of the Nine-Layered Thousand Cranes Array in the sky started to vibrate constantly, sending out gentle and continuous waves spreading around Guang Ling'Er, Guang Yu'Er, Cyan-forehead Qilin, White-forehead Qilin, and those Earth Immortals!

A few breaths later,

Guang Ling'Er, Guang Yu'Er, Cyan-forehead Qilin, White-forehead Qilin, and others who had long sealed their five senses trembled slightly, slowly opening their eyes, looking towards Lin Xuankong.

Cyan-forehead Qilin was the first to react. It looked at Lin Xuankong curiously, then glanced into the distance. Seeing the position where Thirty-Six Tribulation Demon Lord used to hover now turned into a huge pure black void hole, it couldn't help pausing its expression, "Young Master, what... what's the situation? That Immortal Yuan fluctuation from earlier should have been released by you, allowing us to unseal our five senses, right! But where's Thirty-Six Tribulation Demon Lord Purlo, and those demon heads, demon soldiers, and demon generals of the Profound Yin Demon Sect?"

Guang Ling'Er, Guang Yu'Er, White-forehead Qilin, Spiritual Crane Immortal Sect Sect Leader Li, Chi Liuxia from the Wine Immortal Sect, and other Earth Immortals also looked into the distance. When they saw the now demonic Qi-dissipated, clear, and vast sky, and that huge void hole, they all paused their expressions, showing surprise, confusion, and immense curiosity.

Chapter 990: A Battle That Shakes the Heavens

At this moment,

within the Spiritual Crane Immortal Sect and Spiritual Crane Immortal City,

all the cultivators and Earth Immortals have opened their eyes under the influence of Lin Xuankong's Immortal Yuan.

Aside from some cultivators and Earth Immortals feeling saddened due to the loss of fellow cultivators, more than ninety percent of them looked at the immense void above with expressions of surprise, doubt, and curiosity.

No wonder these cultivators and Earth Immortals are so puzzled. After all, in their hearts, the Thirty-Six Tribulation Demon Lord Purlo is a terrifying existence that has dominated the Immortal Realm for hundreds of thousands of years. If not for the protection of the Great Array, the millions of cultivators present would have long fallen under the dreadful demon techniques of the Thirty-Six Tribulation Demon Lord Purlo. A few Demon Generals would suffice to create an overwhelming scene of destruction!

However,

when they looked up now,

the once omnipresent Thirty-Six Tribulation Demon Lord Purlo was nowhere to be seen. The twenty-some Ninth-Grade Demon Artifact Level Demon Generals and the remaining demons and demon soldiers from the Profound Yin Demon Sect had vanished as well, leaving only an eerie black void. How could they not be astonished, not be exceedingly puzzled, not be extremely curious!

Many cultivators and Earth Immortals, after witnessing the immense void, turned their gaze upon Lin Xuankong,

the question posed by the Cyan-forehead Qilin was the same curiosity and puzzlement in the hearts of countless cultivators and Earth Immortals present---where are those demons and demon soldiers of the Profound Yin Demon Sect? Where are those twenty-some powerful Ninth-Grade Demon Artifact Level Demon Generals? Where is that Thirty-Six Tribulation Demon Lord who has dominated the Immortal Realm for hundreds of thousands of years?

At this moment, Lin Xuankong, hovering in mid-air, stared silently toward the west for a moment, then glanced at the Cyan-forehead Qilin beside him, whose face was filled with curiosity and doubt, and spoke somewhat regretfully: "It's a bit of a pity, let the Thirty-Six Tribulation Demon Lord escape! This Thirty-Six Tribulation Demon Lord Purlo is indeed strong. After being wounded by my Ninefold Thousand Crane Formation, he fled using an unusual escape technique, transformed into a wisp of demonic qi and escaped thousands of miles in an instant. It's very hard to catch! Hmm, ultimately, my strength isn't strong enough!"

"What?"

Upon hearing Lin Xuankong say this, the Cyan-forehead Qilin couldn't help but widen his qilin eyes and shouted in some disbelief.

"What?"

"What?"

"What?"

Beside him, the White-forehead Qilin, along with the True Disciples Guang Ling'er and Guang Yu'er of the Guangqing Immortal Sect, also shouted in unison.

Especially the True Disciples Guang Ling'er and Guang Yu'er of the Guangqing Immortal Sect, they glanced up at the immense void in the sky, looked at the clear and azure far away, and then at Lin Xuankong right in front of them, feeling as if they were in a dream.

Guang Ling'er and Guang Yu'er, as True Disciples of the Strongest Immortal Lords Kunyuan Daoist and Qiaan Yuan Daoist, naturally understand the power and strength of the Strongest Immortal Lord Level. Even though Lin Xuankong used a Fourth-Grade Immortal Artifact to arrange an unprecedented Nine-Layered Array in the entire Immortal Realm, these two True Disciples of the Guangqing Immortal Sect just had a little hope that Lin Xuankong could withstand the attack from the Thirty-Six Tribulation Demon Lord!

As for Lin Xuankong defeating the Thirty-Six Tribulation Demon Lord using the Ninefold Thousand Crane Formation... Guang Ling'er and Guang Yu'er had hardly any hope!

But the situation in front of them was, merely a few breaths of time had passed, and that famous Thirty-Six Tribulation Demon Lord, who had dominated the Immortal Realm for hundreds of thousands of years, had unexpectedly disappeared without a trace, had been repelled by Lin Xuankong...

Merely a few breaths of time!

Defeat a Demon Lord, and it's one who has been renowned for hundreds of thousands of years!

Guang Ling'er and Guang Yu'er groaned inwardly.

This kind of terrifying achievement was completely beyond the expectations of the two!

Especially since, in front of that Thirty-Six Tribulation Demon Lord, they couldn't even withstand his Profound Demon Eye and could only rely on the protection of the Ninefold Thousand Crane Formation, and close their five senses to avoid severe soul injuries. It can be said that they were like little kittens and puppies that could be easily crushed in front of the Thirty-Six Tribulation Demon Lord, yet Lin Xuankong, right before their eyes, had wounded the Thirty-Six Tribulation Demon Lord within a few breaths and forced the Thirty-Six Tribulation Demon Lord to flee in madness using powerful demon techniques!

If it weren't for the clear evidence in front of them showing that Lin Xuankong wasn't boasting, Guang Ling'er and Guang Yu'er might have thought that this Third-Grade Earth Immortal was blowing a huge, boastful statement!

The thing these two charming female Daoists of the Guangqing Immortal Sect couldn't bear is that,

At this moment, Lin Xuankong, talking about defeating the Thirty-Six Tribulation Demon Lord, actually showed a rather regretful expression, as if injuring the Thirty-Six Tribulation Demon Lord and forcing him to flee in madness wasn't satisfying to him!

If it weren't for being repeatedly awed by Lin Xuankong's terrifying displayed strength, Guang Yu'er would have been unable to resist teasing him... Please, you are just a Third-Grade Earth Immortal, even in Spiritual Crane Immortal City and Spiritual Crane Immortal Sect there are hundreds of Earth Immortals with higher realms than you, yet you, at Third-Grade Realm, consider defeating a terrifying Demon Lord renowned for hundreds of thousands of years as a deeply regrettable matter!

Is this guy pretending!

This guy must be pretending!

Guang Yu'er's pretty face was full of strange expressions.

At this moment, the Cyan-forehead Qilin wasn't thinking so far, upon hearing that the Thirty-Six Tribulation Demon Lord and those demons from the Profound Yin Demon Sect had been repelled, this Seventh-Grade Little Demon King of the Qilin Race immediately mobilized Immortal Yuan, flying toward the layers of light membranes of the Ninefold Thousand Crane Formation. As it hovered beyond the light membranes, sensed the fluctuations outside for several breaths, it immediately displayed an extremely excited expression,
