Chapter 991: A Battle That Shook the Heavens (Part 2)

"To think that not even a trace of demonic qi can be sensed anymore. Those disgusting creatures from the Profound Yin Demon Sect have truly been repelled by you, Young Master. Hahahaha, Lord Luoshui's assessment of you, Young Master, was indeed correct. You truly are the greatest prodigy in the Immortal Realm for hundreds of thousands, even millions of years!"

At this point, the Cyan-forehead Qilin seemed to have thought of something, shaking its head repeatedly, "No, no, no, if Lord Luoshui knew what happened in the Spiritual Crane Immortal Sect right now, he would definitely say you're not just the greatest prodigy in a million years but the greatest of all time, destined to become the number one in the Immortal Realm! Hahahahaha!"

The seventh-grade Little Qilin bounced around ceaselessly in the air as it spoke, and if it weren't for maintaining a bit of decorum, it would probably be rolling on the ground in delight!

The White-forehead Qilin floated beside Lin Xuankong, gazing at the Young Master with eyes full of excitement and joy. Its own Young Master was so powerful, having repelled the Thirty-six Tribulation Demon Lord, renowned for hundreds of thousands of years, it certainly shared in the glory!

At this moment,

The numerous Earth Immortals floating within the Nine-Layered Thousand Cranes Grand Array, along with countless cultivators on the ground, hearing the conversation between Lin Xuankong, the White-forehead Qilin, Guang Ling'Er, and Guang Yu'er, naturally understood the situation in front of them.

Suddenly,

Ninety-nine percent of the cultivators and Earth Immortals revealed expressions of immeasurable joy. Each cultivator and Earth Immortal clenched their fists in excitement, their bodies trembling slightly with vigor.

On this day, the demons and demon soldiers from the Profound Yin Demon Sect, the terrifying Ninth-Grade Demon Artifact Level Demon Generals, the Demon Buddha summoned by the Celestial Demon Array, and the even more powerful and terrifying Thirty-six Tribulation Demon Lord almost induced

immense fear in every cultivator and Earth Immortal within the Spiritual Crane Immortal Sect and Spiritual Crane Immortal City!

After all, even with the layered protection of the Nine-Layered Thousand Cranes Grand Array, many were still stunned by the dreadful might of those Ninth-Grade Demon Artifact Level Demon Generals, and the majority of the cultivators and Earth Immortals were influenced by the powerful demon sound of that terrifying Demon Buddha. And when the Thirty-six Tribulation Demon Lord Purlo wielded the Great Success Realm's Profound Demon Eye, it directly slaughtered hundreds of thousands of cultivators and Earth Immortals through the layers of the Thousand Cranes Grand Array!

These terrifying demons from the Profound Yin Demon Sect brought one horrendous crisis after another to the cultivators and Earth Immortals in the Spiritual Crane Immortal Sect and Spiritual Crane Immortal City...especially, regardless of whether they were Earth Immortals or Ninth Grade of the Mortal Tier cultivators, before the Thirty-six Tribulation Demon Lord Purlo, they were like ants. They not only couldn't resist but merely surviving under the array's protection was immensely daunting!

However,

The Thirty-six Tribulation Demon Lord Purlo that once instilled them with boundless fear,

The Thirty-six Tribulation Demon Lord Purlo renowned across the Immortal Realm for hundreds of thousands of years,

The Thirty-six Tribulation Demon Lord Purlo who even the strongest Immortal Lords found hard to repel,

Was defeated before Lin Xuankong in less than ten breaths, beaten into a hasty retreat!

From then on, every cultivator and Earth Immortal had truly dodged death!

How could they not be astonished, how could they not be excited, how could they not be moved!

At this moment,

In mid-air,

The Sect Leader Li of the Spiritual Crane Immortal Sect suddenly bowed deeply to Lin Xuankong, activating his Immortal Yuan, and shouted:

"Tributor Mu's path of array formation is unparalleled through antiquity, and the path of artifact refining is unique beyond measure. Today, the nearly ten million cultivators and Earth Immortals within the Spiritual Crane Immortal Sect and Spiritual Crane Immortal City owe their survival to Tributor Mu! I bow in gratitude to Tributor Mu for saving our lives, for saving the Spiritual Crane Immortal Sect and the Spiritual Crane Immortal City, and for saving countless cultivators of the Central Divine Dynasty!"

As he shouted, the full-faced, rosy-cheeked Sect Leader of the Spiritual Crane Immortal Sect continuously bowed to Lin Xuankong, stopping only after bowing thrice.

When the voice of Sect Leader Li from the Spiritual Crane Immortal Sect, transmitted through Immortal Yuan, reached the ears of countless cultivators in the Spiritual Crane Immortal Sect and Spiritual Crane Immortal City,

All at once,

The sound of countless cultivators and Earth Immortals resonated throughout the Spiritual Crane Immortal Sect and Spiritual Crane Immortal City,

"We thank Tributor Mu for saving our lives and for saving countless cultivators of the Central Divine Dynasty!"

"We thank Tributor Mu for saving our lives and for saving countless cultivators of the Central Divine Dynasty!"

"We thank Tributor Mu for saving our lives and for saving countless cultivators of the Central Divine Dynasty!"

...accompanied by the cheers of countless cultivators, the nearly ten million cultivators and Earth Immortals simultaneously bowed to Lin Xuankong in thanks, each of them looking at Lin Xuankong with a touch of excitement on their faces.

Being able to face the assault of the Profound Yin Demon Sect's army and still remain in the Western Region of the Central Divine Dynasty, stay within their sects, stay in the Spiritual Crane Immortal Sect, and Spiritual Crane Immortal City, most of these cultivators and Earth Immortals were of a brave and sincere disposition. After all, those timid cultivators and Earth Immortals had long since fled to Little Worlds outside the Western Region of the Central Divine Dynasty.

Such nearly ten million cultivators and Earth Immortals, when confronted with their life-saving benefactor, naturally felt immense heartfelt gratitude, with great sincerity.

Hovering in mid-air, Lin Xuankong looked down at the countless excited, grateful cultivators and Earth Immortals, and a surge of heroic spirit rose within him, along with countless emotions.

From the Great Marsh Prefecture of the Great Xia Dynasty to present day, it's been decades. The path was fraught with twists and challenges, each step I took was like treading on thin ice. Now, decades later, I have finally grasped the power close to the pinnacle of this world, and defeated a Demon Lord who has terrorized the Immortal Realm for hundreds of thousands of years!

Though my Immortal Path realm is not yet at its peak, I now possess a sliver of power for self-preservation, and it's foreseeable that after acquiring the illusion technique from the Guangqing Immortal Sect, combined with my supreme realm Divine Soul, my strength should advance even faster!

I am finally about to stand at the pinnacle of this world, perhaps just a few steps away!

Thinking of this, a wave of heroic spirit surged within him, and he couldn't help but let out a long cry,

"Fellow Daoists, no need for gratitude! Dealing with that Thirty-six Tribulation Demon Lord, I was merely ensuring my own safety, what's more, I'm just a mere Third Grade, how can I deserve such gratitude from esteemed seniors! However, what I can promise you, fellow Daoists, is that if the Profound Yin Demon Sect sends Demon Lords like the Thirty-six Tribulation Demon Lord to our Western Region of the Central Divine Dynasty, I shall, without fail, annihilate them completely, and let those demons of the

Profound Yin Demon Sect know that our human race's Immortal Realm is not a place where demon sect scoundrels can run rampant!"

These words, resonating with Lin Xuankong's Immortal Yuan, swiftly reached the ears of every cultivator present.

In an instant,

The originally excited faces of the cultivators and Earth Immortals couldn't help but cheer.

Even those cultivators and Earth Immortals who had lost comrades beside them couldn't help but reveal a face full of excitement, shouting loudly, filled with both hatred and excitement.

"Tributor Mu's artifact refining technique has never been seen before, and the path of array formation is godly beyond compare. Having such a prodigy as Tributor Mu in our Western Region of the Central Divine Dynasty is indeed a great blessing for countless cultivators of the Central Divine Dynasty. With Tributor Mu overseeing the Spiritual Crane Immortal Sect, no number of demons from the Profound Yin Demon Sect can do anything! Hahahahahaha!"

"The news of today's battle by Tributor Mu will surely cause a huge stir throughout the Immortal Realm and will even intimidate countless scoundrel demons of the Profound Yin Demon Sect!"

"Hahahahahaha, to witness such a rare talent like Tributor Mu firsthand, to experience a spectacular battle unseen for millions of years in the Immortal Realm, my life has no regrets, no regrets indeed! Even if I were to drop dead right now, I'd do so laughing!"

Chapter 992: Name Recorded in the Annals, Thousand Illusion Saint Monarch Hall

At this moment,

the entire Spiritual Crane Immortal Sect and Spiritual Crane Immortal City were filled with cheers and discussions.

Having survived the calamity, numerous cultivators and Earth Immortals naturally spared no words of praise for Lin Xuankong, who saved their lives. At this moment, it's likely that even if the Immortal Lord

Luoshui, Yaan Mingyu, were here in person, Lin Xuankong would still be held in higher esteem and gratitude!

Floating not far from Lin Xuankong was Sect Leader Li of Spiritual Crane Immortal Sect, who suddenly thought of something and immediately gestured downward.

Huang Liutao, the Second-Grade Earth Immortal of Spiritual Crane Immortal Sect who was in charge of overseeing the Steward Hall, quickly floated over upon seeing the Sect Leader's call.

Sect Leader Li cleared his throat, activated Immortal Yuan, and spoke: "Steward Huang, quickly bring our Spiritual Crane Immortal Sect's historical records and carefully document today's events. Our sect's first Tributor single-handedly repelled the Profound Yin Demon Sect today, and it should be recorded as the greatest event in the history of Spiritual Crane Immortal Sect, as well as the greatest event in the history of the Central Divine Dynasty's Western Region, a grand occasion in the Human Race Immortal Realm."

Upon hearing this, Second-Grade Earth Immortal Huang Liutao responded with a joyful expression and hastily headed towards the Steward Hall of Spiritual Crane Immortal Sect.

As he flew, Huang Liutao recalled the scene when Lin Xuankong first entered Spiritual Crane Immortal Sect, his heart filled with emotion.

No matter how rich his imagination was, he never expected that Lin Xuankong, who was only at the Ninth Grade of the Mortal Tier then, could grow in just a few years into a prominent figure capable of shaking the entire Immortal Realm — a position akin to that of a strongest Immortal Lord-level powerhouse!

Comparing his own growth over the past few years, Huang Liutao felt that the gap between immortals was indeed far greater than the gap between immortals and dogs!

Those Earth Immortals, Elders, and Sect Leaders from other Immortal Sects, upon witnessing this scene, immediately showed expressions of extreme envy towards Sect Leader Li of Spiritual Crane Immortal Sect.

Everyone was very aware that with a figure like Tributor Mu now in Spiritual Crane Immortal Sect, not to mention the future, the sect is already prestigious enough to be regarded as a top Great Immortal Sect in the Central Divine Dynasty Western Region — even surpassing the top Great Immortal Sects in the Immortal Realm Central State in some aspects. After all, while those top Great Immortal Sects might have more than one strongest Immortal Lord, regardless of their legendary deeds and remarkable talent, they pale greatly in comparison to Tributor Mu's talent!

Even without consulting their sects' records, everyone was certain that even if one gathered the strongest Immortal Lords from the Near Ancient Era, Middle Ages, and Ancient Era, one couldn't find someone capable of defeating a strongest Immortal Lord at the Third Grade Realm!

What's more, Tributor Mu is currently only at the Third Grade Realm, yet already so formidable. If given some time to continue growing, by the time he reaches the Fourth, Fifth, or even Seventh, Eighth, and Ninth Grades, how strong will he be? Perhaps even stronger than the Sect Master of Divine Dynasty Immortal Sect, said to possess a Supreme Divine Soul!

Should they safely pass this Immortal Demon War, with Tributor Mu as a guardian, Spiritual Crane Immortal Sect could become a giant within the Immortal Realm's Human Race, and no one would dare to provoke them!

Moreover, Tributor Mu's mastery in the Path of Artifact Refining is absurdly strong, able to casually produce a pile of Fourth-Grade Immortal Artifacts. Even in the Ancient Era, when rare treasures were abundant, few strongest Immortal Lords could casually produce so many Fourth-Grade Immortal Artifacts! With such an over-the-top Super Refining Master in charge, even offering a bit from the gaps of his fingers could spur rapid development for Spiritual Crane Immortal Sect!

Among the overwhelmingly envious cultivators and Earth Immortals, several Earth Immortals had already floated over to Sect Leader Li of Spiritual Crane Immortal Sect,

Even Chi Liuxia from Wine Immortal Sect floated over, landing beside Sect Leader Li, and said with a chuckle: "Sect Leader Li, I've recently found myself less fond of wine. If I survive this Immortal Demon War by chance, how about joining your Spiritual Crane Immortal Sect? No need for any Elder positions or to be a steward, just let me be a little Earth Immortal, ready for Sect Leader Li's command!"

Having said this, Chi Liuxia glanced at the wine gourd in his hand and casually handed it to the First-Grade Earth Immortal from Wine Immortal Sect beside him, "I'm thinking of quitting drinking, so I'll give you this Immortal Artifact!"

The Earth Immortal looked immediately speechless.

Other Earth Immortals gathered around too, discussing with Sect Leader Li about joining Spiritual Crane Immortal Sect. Some Elders from other Immortal Sects even outright stated that all Earth Immortals and disciples from their small Immortal Sects were willing to join Spiritual Crane Immortal Sect, becoming affiliated sects like Spiritual Crane·Three Brush Affiliated Immortal Sect, Spiritual Crane·Piaomiao Affiliated Immortal Sect, Spiritual Crane·Carefree Affiliated Immortal Sect, and so on.

Surrounded by numerous enthusiastic elders, Sect Leader Li of Spiritual Crane Immortal Sect exuded an aura of calm and composure, but internally felt as refreshed and invigorated as drinking a gulp of ice-cold Spiritual Spring Water on a scorching summer day!

Not far away, the Cyan-forehead Qilin and White-forehead Qilin Bai E, witnessing the scene, couldn't help but shake their heads and laugh.

Chapter 993: Name Recorded in the Classics, Thousand Illusion Saint Monarch's Hall (Part 2)

While Lin Xuankong had a serious expression as he looked at the two true disciples of Guangqing Immortal Sect, Guang Ling'Er and Guang Yu'Er, the praise and flattery before him were not matters that brought joy. Instead, the newly acquired sliver of Celestial Demon Power by Gang Bone constantly kept him wary.

After all, possessing the Tier Nine Celestial Demon Bone himself, he had a bit of understanding about the power of Upper Realm Celestial Demons, Celestial Demons, and Celestial Immortals.

At the very least, with his current strength, even if he could contend with the strongest Immortal Lord level experts, he could never achieve things like those that could be done by various Celestial Demon Bones, such as creating worlds in the void, or the Great Reincarnation Technique that can bring the dead back to life, or the Great Amplification Technique that can instantly increase strength. These demon techniques from Celestial Demon Bones, although not as miraculous as his vigorous in old age gifts, were still not particularly far off!

Especially, these Celestial Demon Techniques, were merely some demon technique imprints carried by the Celestial Demon Bone after the demise of that Five-Clawed Golden Dragon Celestial Demon, and they already contained various unimaginably marvelous demon techniques. Imagine the strength of the demon techniques possessed by the Five-Clawed Golden Dragon when alive?

In comparison, the sliver of Celestial Demon Power acquired by Gang Bone was a sliver of power transmitted from the Upper Realm Celestial Demon still alive to the Lower Realm, probably even more terrifying than the demon imprints carried by the Celestial Demon Bone of the Five-Clawed Golden Dragon!

The current plan is to quickly cultivate some extremely powerful Immortal Techniques to feel slightly at ease!

"Senior Sister Guang Ling'Er, Senior Sister Guang Yu'Er, the matters we agreed on before, and the agreements between your masters and my master, Immortal Lord Luo Shui, should still count, right?" Lin Xuankong looked at the two true disciples of Guangqing Immortal Sect with a hint of anticipation and spoke.

"Of course they count! I have just used the Communication Jade to transmit the matters here to my master! Here, this is the jade scroll recording the Guangqing Illusion Technique of my Guangqing Immortal Sect, as per the bet between Immortal Lord Luo Shui and my master, Immortal Lord Qiaan Yuan."

Facing Lin Xuankong, who had defeated the famed Thirty-six Tribulation Demon Lord Purodo, Guang Ling'Er dared not hesitate at all, and immediately took out a smooth jade token from her bosom and handed it to Lin Xuankong.

Beside her, the true disciple of Guangqing Immortal Sect, Guang Yu'Er, spoke, "Besides the bet between my master and Immortal Lord Luo Shui, my junior sister and I also had an agreement with Mr. Lin, which means Mr. Lin can choose one of my Guangqing Immortal Sect's Nine Great Immortal Techniques. I wonder which Immortal Technique Mr. Lin is interested in!"

At this moment, Lin Xuankong received the jade token recording the Guangqing Illusion Technique, his heart full of joy. Upon hearing Guang Yu'Er say this, he thought of the Guangqing Cold Extreme Skill they had displayed before, his eyes once again showing a hint of anticipation, "Then I will learn the Guangqing Cold Extreme Skill!"

As mentioned before, the Guangqing Cold Extreme Skill is considered the strongest among various attack Immortal Techniques of Guangqing Immortal Sect, and for Lin Xuankong, who already possessed the Guangqing Illusion Technique jade token, of course, he must choose this Immortal Technique!

Although this Guangqing Cold Extreme Skill,

in the hands of the two true disciples of Guangqing Immortal Sect, Guang Ling'Er and Guang Yu'Er, is not particularly powerful,

not even able to harm the Ninth-Grade Demon Artifact Level Demon General who endured a sliver of Celestial Demon Power Metamorphosis,

but for Lin Xuankong, who possesses various talents and numerous Celestial Demon Bones, once this powerful Immortal Technique is in hand and cultivated to a profound realm, the power it can unleash will absolutely be much stronger than that of these two true disciples of Guangqing Immortal Sect!

Upon hearing Lin Xuankong's words, Guang Yu'Er immediately took out a jade scroll from her bosom and then incited the Immortal Yuan to constantly delineate within the jade scroll. After a moment, she handed the jade scroll to Lin Xuankong, speaking with a sense of emotion, "The Guangqing Cold Extreme Skill, as the head of the Nine Great Immortal Techniques of my Guangqing Immortal Sect, has various marvelous and immensely powerful attack capabilities. It's just a shame that my junior sister Guang Ling'Er and I are not talented and have limited strength, hence unable to utilize the true power of this Immortal Technique.

Furthermore, as the head of the Nine Great Immortal Techniques, the Guangqing Cold Extreme Skill of my Guangqing Immortal Sect has never been revealed to outsiders before. Mr. Lin can be considered the first outside Taoist friend to learn this Immortal Technique. However, once this Immortal Technique is in Mr. Mu's hands, I'm sure after several thousand years, when Mr. Mu completes his studies, he will certainly be able to unleash the full power of the Guangqing Cold Extreme Skill!"

Several thousand years to complete studies?

With the talent of vigorous in old age, it shouldn't take that long for me!

Lin Xuankong, with a bit of anticipation, kept the jade scroll, thinking silently.

.....

Profound Yin Demon Realm, Thousand Illusion Saint Monarch's Grand Hall.

Within the vast grand hall, at the highest seat position, Gang Bone, once a genius Demon King of Ba Xia Race, sat upon it, eyes fixed on the enormous brazier at the center of the grand hall.

On either side of the brazier were thirty-six large seats neatly arranged, though only twenty sat by huge figures with extremely condensed demonic qi in various forms.

Among them, one bull-headed humanoid demon lord was inciting black flames, continuously heating the enormous brazier at the center of the hall. Above the brazier, crossed horizontally were dozens of hundreds of feet long Profound Iron Demon Pattern Forks, each piercing through a Ninth-Grade Earth Immortal's immortal body!

These dozen human race Earth Immortals, though their Immortal Yuan suppressed by the demon patterns on the Profound Iron Demon Forks, unable to move, were evidently still alive.

As that black demon flame continuously roasted them, these dozen human race Ninth-Grade Earth Immortals trembled, their skin gradually cracking, large drops of blood mixed with oil dripping from their immortal bodies, their eyes bulged with corners nearly splitting, mouths letting out screams of utmost pain.

Demon fork piercing body, demon flame roasting—such terrifying torture, even a Ninth-Grade Earth Immortal could not bear!

That bull-headed humanoid demon lord let out bursts of laughter, "Saint Heir, these twelve Ninth-Grade human race Earth Immortals, captured by thirty of my Ninth-Grade Demon Artifact Level Demon Generals in the Central Divine Dynasty Eastern Domain, have cultivated for seventy to eighty thousand years, with Immortal Yuan steeped immortal bodies for seventy to eighty thousand years, definitely exquisitely delicious. I wonder how cooked immortal bodies Saint Heir prefers?"

Hearing this, the other twenty demon lords with immensely condensed demon artifacts laughed aloud, each looking at the agonizing human race Ninth-Grade Earth Immortals with mocking and excited expressions.

Sitting in the high seat, the demon child of Profound Yin Demon Sect, Gang Bone, slightly raised his brow, was about to speak when he suddenly perceived something, looking toward the entrance of the grand hall.

The next moment,

A ripple-like light image appeared, revealing the illusion of the Thirty-Six Tribulation Demon Lord Purlo within the ripple.

Seeing it was Thirty-Six Tribulation Demon Lord Purlo, Gang Bone rose from his seat, his eyes harboring a trace of coldness, and spoke, "Demon Lord Purlo, have you already captured the human race Earth Immortal Mu Shiba? When can he be brought to the Holy Sanctuary, I want all the millions of migrating Ba Xia Race subordinates to personally witness me dealing with that Mu Shiba!"

Other demon lords seated on enormous seats also stood up, looking at the illusion of the Thirty-Six Tribulation Demon Lord Purlo.

Most of these demon lords had cultivated for hundreds of thousands of years, their strength unfathomable, among them several demon lords even more formidable than Purlo, Celestial Punishment, Earth Fiend, Fenghuo Lin. As for that First Demon Lord Fan Yu, he was notoriously able to contend with Sect Masters of Divine Dynasty Immortal Sect all by himself.

However, currently before Gang Bone, newly joined Profound Yin Demon Sect and made a demon child, each was cautiously respectful. After Gang Bone rose, not a single demon lord dared brazenly to sit back on the throne, illustrating the high status of Gang Bone who had merged with a sliver of Celestial Demon Power in the hearts of these scores of demon lords.

Chapter 994: Myriad Demons Invade the Western Region Together

At the entrance of the great hall,

facing the inquiry from Demon Child Gang Bone,

the once-mighty Thirty-Six Tribulation Demon Lord in the Western Region showed a hint of shame on its face,

After considering for a moment, all thirty-six of its arms were raised in salute as it said:

"Reporting to His Highness the Saint Son,

According to the arrangements of His Highness the Saint Son, the three Holy Masters of the Celestial Punishment Earth Fiend Wind Fire Forest attracted the three Holy Masters rushing to the Western Region: Qiaan Yuan Daoist, Kunyuan Daoist, and Immortal Lord Luoshui. I led nearly 20,000 Holy Soldiers and over eighty Ninth-Grade Sacred Artifact Artifact Saint Generals directly towards the Spiritual Crane Immortal Sect. This plan was flawless, and that Mu Shiba would surely have been easily captured.

However... however, this subordinate did not anticipate that Mu Shiba, who was only at the Third-Grade Realm and recently rose in the Central Divine Dynasty Western Region, not only possessed astonishing artifact refining techniques but also had array formation insights nearly on par with the Path of Array Formation of Immortal Lord Luoshui.

During the battle, Mu Shiba deployed a total of 3,600 First-Grade Immortal Artifacts, thirty-six Third-Grade Immortal Artifacts, and thirty-six Fourth-Grade Immortal Artifacts, setting up one after another of the Nine-Layered Thousand Cranes Grand Array, summoning a special Array Spirit that was extremely peculiar and far surpassed ordinary Nine-Layered Array Spirits in strength!

The nearly 20,000 Holy Soldiers I brought were caught off guard and all perished, and nearly sixty of the more than eighty Ninth-Grade Sacred Artifact level Saint Generals were lost! I intended to fight to the death, but alas, I was injured by the Array Spirit set up by Mu Shiba using Fourth-Grade Immortal Artifacts, and now I have to hide at the Lake of Death Resentment, three hundred million miles away from the Spiritual Crane Immortal Sect."

During the report, the Thirty-Six Tribulation Demon Lord Purlo further activated the demonic qi, presenting the scenes of the battle back then with the demonic qi. Although the demonic qi was entirely black, the Thirty-Six Tribulation Demon Lord Purlo clearly had remarkable skills, and the scenes presented were almost identical to the intense battle that had occurred outside the Spiritual Crane Immortal City before!

Listening to the report of the Thirty-Six Tribulation Demon Lord Purlo and watching the scenes presented by the demonic qi at the great hall entrance, the more than twenty deeply unfathomable

Demon Lords within the great hall, as well as Demon Child Gang Bone, all had shifting expressions and furrowed brows.

3,600 First-Grade Immortal Artifacts!

Thirty-six Third-Grade Immortal Artifacts, Thirty-six Fourth-Grade Immortal Artifacts!

The Nine-Layered Thousand Cranes Array Spirit that far surpassed ordinary Array Spirits in strength!

Nearly 20,000 capable Holy Soldiers of the Profound Yin Saint Sect all perished! The Demon Buddha summoned by the Celestial Demon Array was immediately shattered! Nearly sixty Ninth-Grade Sacred Artifact level Saint Generals fell on the spot!

These pieces of news,

these scenes,

were almost unbelievable to the many Demon Lords and Gang Bone.

However, both the more than twenty deeply unfathomable Demon Lords and Demon Child Gang Bone knew clearly that the Thirty-Six Tribulation Demon Lord Purlo absolutely dared not tell a single lie or conceal anything before Gang Bone, let alone exaggerate!

Moreover, facing Demon Child Gang Bone, who had mastered a trace of Celestial Demon Power, wanted to deceive its Demon Child Eye was something no Demon Lord who practiced demon techniques could achieve! The Demon Child Eye with Celestial Demon Power, with its Ninth-Layer Nine Gates Celestial Eye, could even see through the Divine Souls of all those practicing demon techniques.

For a moment,

the entire Thousand Illusion Saint Monarch great hall fell silent, with only the constant cries of the twelve Ninth-Grade Earth Immortals from the Human Race being heard.

"Mu Shiba! Damn it!

No wonder he was completely unafraid when he faced hundreds of Ninth-Grade Top Demon Kings of my Ba Xia Race back then!

Hmph, 3,600 First-Grade Immortal Artifacts, thirty-six Third-Grade Immortal Artifacts, thirty-six Fourth-Grade Immortal Artifacts; the number and quality of the Immortal Artifacts he possesses were truly beyond my expectations!"

At this point, Demon Child Gang Bone's gaze flickered toward the projection of the Thirty-Six Tribulation Demon Lord Purlo,

seeing the flickering gaze of Demon Child Gang Bone, the Thirty-Six Tribulation Demon Lord Purlo, far away millions of miles away, immediately felt a strike in its heart, knelt on one knee, and declared:

"But please rest assured, His Highness the Saint Son, after Purlo recovers from the injuries, I will surely find a way to capture that Mu Shiba! The unexpected situation in this battle was mainly due to knowing too little about Mu Shiba's trump cards. Now this subordinate has roughly understood his various trump cards, and in the future, I will surely be able to easily capture Mu Shiba without giving this Third-Grade Earth Immortal any chance to set up the Nine-Layered Thousand Cranes Grand Array and summon the Grand Array Spirit!"

After hearing its words, Demon Child Gang Bone regarded the Thirty-Six Tribulation Demon Lord Purlo with a somewhat gloomy look, then shook his head slightly,

"Forget it, if it were before this battle, with your various demon techniques cultivated to the Great Success Realm, capturing Mu Shiba by surprise wouldn't have been difficult, but now that you have already attacked the Spiritual Crane Immortal Sect once, you have already alerted the enemy, so finding another chance to sneak attack next is easier said than done!

Besides, after this battle, all the strongest Immortal Lords of the Immortal Realm Human Race will surely get the news swiftly!

Mu Shiba, possessing such a strong Artifact Refining Talent and Array Formation Talent, will undoubtedly become a target for protection by the Immortal Realm Human Race and be under the guard of numerous powerful beings; with you alone, there is absolutely no chance in the short term!"

The Thirty-Six Tribulation Demon Lord Purlo, seeing the gloomy expression of Demon Child Gang Bone, suddenly felt its heart race a few beats faster, and immediately clasped his hands repeatedly, "There are still the three Holy Masters from the Celestial Banner Earth Fiend Wind Fire Forest in the Central Divine Dynasty Western Region. I have already contacted the three of them, and in the upcoming operation, with the four of us joining forces, the chances will definitely increase substantially! The various demon techniques of the three Holy Masters from the Celestial Banner Earth Fiend Wind Fire Forest are more exquisite than those of this subordinate, and when they make their move, the chances of success are certainly not small!"

Facing Demon Child Gang Bone, the Thirty-Six Tribulation Demon Lord was obviously unwilling to admit that this mission had completely failed.

Chapter 995: Myriad Demons March Against the Western Region (Part 2)

Demon Child Gang Bone once again shook his head gloomily,

"No need, since this Mu Shiba possesses so many Immortal Artifacts, capturing him is no longer just my personal matter. Acquiring such a quantity of Immortal Artifacts, once demonized, will be immensely beneficial to your plan of ascending to the Upper Realm. It will greatly increase the chances of success for you seventy-two people!"

As he spoke, a few strands of black demon flame flickered in his eyes,

"This time, I will go with these more than twenty Saint Masters to the Central Divine Dynasty Western Region!"

Hearing this, the more than twenty powerful Demon Lords present all showed a change in their expressions and exchanged glances. Among them, the First Demon Lord Fan Yu, positioned at the left hand of Demon Child Gang Bone, cupped his hands and said, "Your Highness the Saint Son, the reason for Purlo's failure this time is mainly because of underestimating the enemy. Although Mu Shiba possesses numerous Immortal Artifacts, he is ultimately only at the Third Grade Realm, hardly worth Your Highness the Saint Son personally campaigning against.

It's better if I take a few Saint Masters and go, we will surely capture Mu Shiba and bring those Immortal Artifacts back to the Holy Sanctuary."

Upon hearing this, Demon Child Gang Bone walked toward the large fire bowl, gazing at the blazing black flame that emitted heat from the fire bowl. His eyes revealed a fervent excitement,

"No, I must go! Possessing thirty-six Fourth-Grade Immortal Artifacts, if we capture them all, it's as significant as leveling the entire Immortal Realm. It's crucial for you seventy-two to overcome the Celestial Demon Tribulation in the future!

Currently, the Thousand Illusion Saint Monarch is leading my Profound Yin Saint Race, competing with the Celestial Demon, Celestial Immortal for the Seventh Heavenly Dao's Source. The battle has reached a critical point. If you seventy-two and I become Celestial Demons and ascend to the Upper Realm, the final victory in this three-race war throughout the Upper Realm will assuredly belong to my Profound Yin Saint Race!

For the Saint Monarch's grand ambition, to obtain the Seventh Heavenly Dao's Source that the Profound Yin Saint Race is destined for, Mu Shiba's numerous Immortal Artifacts must be seized!"

As he spoke, Demon Child Gang Bone slightly raised his right hand, and instantly, twelve ninth-grade Earth Immortals of the Human Race together with twelve Profound Iron Demon Pattern Forks flew toward Gang Bone.

Then,

Demon Child Gang Bone suddenly opened his huge mouth, countless strands of demon qi, like living beings, enveloped the twelve ninth-grade Earth Immortals of the Human Race,

In an instant, the twelve ninth-grade Earth Immortals' Immortal Bodies underwent violent tremors, and each ninth-grade Earth Immortal's face revealed an expression of extreme pain and utter despair!

Within a brief fraction of time, under the rampant assault of the countless strands of demon qi, which even the mighty demon flame took considerable time to destroy, the ninth-grade Earth Immortal Bodies

directly dissolved into numerous light spots, and then were sucked into Demon Child Gang Bone's mouth.

After devouring the essence of these twelve Ninth-Grade Perfect Level Earth Immortals,

Demon Child Gang Bone's tongue emitted a slurping sound, continually sliding along his lips as if savoring the delicious taste of the Human Race's ninth-grade Earth Immortal.

The more than twenty profoundly powerful Demon Lords of the Profound Yin Demon Sect all knelt on one knee,

With the First Demon Lord Fan Yu leading, they shouted, "The Thousand Illusion Saint Monarch shall unify the Upper Realm, Your Highness the Saint Son shall share supreme glory!"

The other more than twenty profoundly powerful Demon Lords of the Profound Yin Demon Sect likewise began to shout, "The Thousand Illusion Saint Monarch shall unify the Upper Realm, Your Highness the Saint Son shall share supreme glory!"

These Demon Lords, who have shaken the Immortal Realm for hundreds of thousands of years and nearly a million years, appeared like fervent believers before Demon Child Gang Bone, chanting slogans with fanaticism.

Demon Child Gang Bone abruptly turned, his eyes filled with fervor, looking toward the seat at the highest position, where numerous white bones had piled into a massive thousand-hand statue, appearing kind and benevolent, yet emitting a decaying and rancid odor that soared skyward!

"The other Saint Masters immediately assemble all Ninth-Grade Sacred Artifact Level Saint Generals, First Saint Master Fan Yu, send messages to all Saint Masters and Ninth-Grade Sacred Artifact Level Saint Generals who are attacking other Great Domains of the Immortal Realm, and from now on, immediately halt the attacks, conceal their whereabouts, and head for the Human Race's Western Region in the Immortal Realm, to jointly assault the Spiritual Crane Immortal Sect and capture Mu Shiba!"

"Yes! We obey the Saint Son's command!"

"We obey the Saint Son's command!"

....

At the border of the Central Divine Dynasty Eastern Domain.

Within the Nine-Layer Sect Protection Array of the Jiuqian Immortal Sect, in mid-air, the strongest Immortal Lord Ling Wuji residing at Jiuqian Immortal Sect suddenly shifted his gaze and looked towards a distant direction. In his view, the surging demon qi covering ten thousand miles suddenly converged, then disappeared without a trace.

Beside the strongest Immortal Lord Ling Wuji, another strongest Immortal Lord Ling Wuming rose up, twin rays of light flickering in his eyes, clearly activating an extraordinarily mystical Pupil Technique.

Among the over two hundred Ninth-Grade Earth Immortals behind the two Immortal Lords, one elderly ninth-grade Earth Immortal with a sallow complexion, looking like half-buried in the ground, couldn't help but speak, "Senior Wuming, the Profound Yin Demon Sect army on this Eastern Domain side just assembled here, we thought a major battle was imminent, why have they instead headed in another direction? Is it because Senior Wuming and Senior Wuji are jointly defending this place that they've decided to seek a weaker point elsewhere in the defense line? Should we quickly notify the Daoist friends at the other defense lines in the Eastern Domain?"

After speaking, this old Earth Immortal respectfully floated to the side, quietly waiting for the strongest Immortal Lord Ling Wuming's orders, while the two hundred plus Ninth-Grade Perfect Level Earth Immortals also showed puzzled expressions, apparently unable to fathom why the Profound Yin Demon Sect army suddenly departed!

The strongest Immortal Lord Ling Wuming did not directly respond to the old ninth-grade Earth Immortal's words but continued to activate that mystical Pupil Technique, the twin rays of light in his eyes continuously flickering, and only after nearly twenty breaths did Ling Wuming withdraw his gaze, his face revealing a hint of confusion.

The severely injured strongest Immortal Lord Ling Wuji beside him asked, "Senior Brother, why the expression? Which line have those Demon Lords and Ninth-Grade Demon Artifact Level Demon Generals of the Profound Yin Demon Sect headed towards?"

The strongest Immortal Lord Ling Wuming shook his head slightly,

"Judging by the direction in which the Hundred Skull Demon Lord and those over seventy Ninth-Grade Demon Artifact Level Demon Generals left, it doesn't seem to be towards other defense lines; rather, it seems they are heading towards our Central Divine Dynasty's Western Region!"

Upon hearing this, the strongest Immortal Lord Ling Wuji as well as the over two hundred Ninth-Grade Perfect Level Earth Immortals all showed a change in their expressions. The old Earth Immortal couldn't help but speak,

"Heading towards our Central Divine Dynasty Western Region? Based on the information received a few days ago from the Western Region of the Central Divine Dynasty, the Western Region is already being invaded by three old and terrifyingly powerful Demon Lords of the Celestial Banner Earth Fiend Wind Fire Forest, and they've brought numerous Ninth-Grade Demon Artifact Level Demon Generals. Immortal Lord Luoshui, Immortal Lord Kunyuan, and Immortal Lord Qiaan Yuan may find it extremely difficult to resist. The Western Region might soon fall. Under such circumstances, why would the Profound Yin Demon Sect send the Hundred Skull Demon Lord and so many Ninth-Grade Demon Artifact Level Demon Generals there!"

Moreover, even though our Central Divine Dynasty's Western Region might be vast, its expanse nearly matches with the Eastern Domain, Southern Domain, and Northern Domain, high-grade mineral veins are quite scarce, the number of middle-high grade Earth Immortals is exceptionally small, and the quantity of cultivators is less than a tenth of the other domains. No matter how you look at it, it's impossible for the Profound Yin Demon Sect to allocate a substantial number of Demon Lords and Ninth-Grade Demon Artifact Level Demon Generals there!"

The strongest Immortal Lord Ling Wuji also slightly nodded, "Indeed, the Profound Yin Demon Sect claims to have dispatched all the Demon Lords of the sect this time, yet the number of Demon Lords appearing at this Immortal Realm side so far is less than fifty. By any means, the Profound Yin Demon Sect would not deploy too much force to the extremely sparse Western Region!"

Ling Wuming paused for a moment in thought and then spoke, "Perhaps something has changed in the Western Region of our Central Divine Dynasty!"

At this moment,

A ninth-grade Perfect Level Earth Immortal nearby suddenly floated over. After saluting the strongest Immortal Lord Ling Wuji and Ling Wuming, he presented a Communication Jade, "Senior Wuming, Senior Wuji, Senior Huang Fengtian stationed at the Eastern Domain's southeastern second defense line sent a message saying that three Demon Lords of the Profound Yin Demon Sect, engaged in intense battle with Senior Huang Fengtian and other senior Immortal Lords, suddenly led over a hundred Ninth-Grade Demon Artifact Level Demon Generals in retreat, and seemingly headed towards the direction of our Central Divine Dynasty Western Region!"

Chapter 996: What Really Happened in the Western Region

The fiends from the Profound Yin Demon Sect on the front lines where Immortal Lord Huang Fengtian is stationed have also retreated, and they're heading towards the Western Region?

Upon hearing this, both Strongest Immortal Lord Ling Wuji and Ling Wuming couldn't help but display a deep sense of perplexity in their eyes.

According to what the two understood, the primary goal of the Profound Yin Demon Sect's large-scale invasion of the Five Domains of the Immortal Realm and the Spirit Platform Buddha Realm was to seize the Profound Truth Jade Ore Vein and plunder the resources accumulated over tens of thousands of years in the Immortal Realm. Among these, the main objective of many Demon Lords from the Profound Yin Demon Sect was to massacre vast numbers of Human Race Cultivators and Earth Immortals to refine Demon Artifacts or to enhance the power of their existing Demon Artifacts!

Under such circumstances, the primary targets for the Profound Yin Demon Sect's invasion were the Eastern Domain and Central State within the Five Domains, because in terms of resource wealth and the number of Cultivators and Earth Immortals, Central State and the Eastern Domain far surpassed the other Great Domains. Even the number of cultivators in the Spirit Platform Buddha Realm couldn't compare to the Eastern Domain and Central State!

After all, although the Spirit Platform Buddha Realm had many top-tier powerhouses, the overall number was very small, especially with the presence of Great Success Yu Zhen Bodhisattva and other Great Accomplishment Bodhisattvas overseeing it, making the Spirit Platform Buddha Realm a tough nut to crack.

Among these Great Domains,

the most barren, with the fewest Cultivators and Earth Immortals and the weakest strength, is the Western Region of the Central Divine Dynasty!

The Strongest Immortal Lord Ling Wuji thought for a moment and said:

"As far as I know, in the Western Region of the Central Divine Dynasty in our Immortal Realm, the number of Immortal Sects is quite a few, but most are small Immortal Sects, and some even have only a few Earth Immortals. Even those with a large number of Earth Immortals have only a few dozen. The total number of Cultivators above the Ninth Grade of the Mortal Tier in the entire Western Region of the Central Divine Dynasty is only close to ten million, comparable to one of the top large sects in our Central State!

Even if all ten million cultivators were killed by the experts of the Profound Yin Demon Sect, they could only manage to refine an Initial-Grade Demon Artifact to nearly Second-Grade at most! Moreover, this time, the Profound Yin Demon Sect has deployed many Demon Lord-level powerhouses, and the number of Demon Generals at the Ninth-Grade Demon Artifact Level is also extremely high. Even if they could take down the Western Region of our Central Divine Dynasty, their gains would not be significant! How could they possibly travel billions of miles, spending nearly a year, to move from the Eastern Domain to the Western Region? Perhaps this is a ploy from these Profound Yin Demon Sect fiends to lure the tiger away from the mountain!"

Beside him, the Strongest Immortal Lord Ling Wuming frowned and shook his head slightly, saying, "Regardless of whether it is a ploy by those shameless fiends of the Profound Yin Demon Sect, the sudden retreat of these demon heads from the Profound Yin Demon Sect this time is quite strange! There might be something behind it, perhaps some drastic change occurred in the Western Region of the Central Divine Dynasty, or maybe some astonishing treasure or remarkable relic has appeared in the Western Region of the Central Divine Dynasty?"

"Astonishing treasure? Remarkable relic?" Hearing his senior brother say this, the Strongest Immortal Lord Ling Wuji seemed to think of something, his gaze shifted, and he said, "I heard from Elder Zhen of Guangqing Immortal Sect some time ago; there's news that an incredible Artifact Refining Genius emerged in the Western Region of the Central Divine Dynasty, who astonishingly refined a Third-Grade Immortal Artifact called Mu Shiba!

Did the five Strongest Demon Lords from the Profound Yin Demon Sect, who have retreated from our Eastern Domain, head to the Western Region because of Mu Shiba and that Third-Grade Immortal Artifact?"

"Mu Shiba? Third-Grade Immortal Artifact?"

Our Immortal Realm actually produced such an astonishing Artifact Refining Genius? It's been two to three hundred thousand years since a Third-Grade Immortal Artifact appeared in the entire Immortal Realm! Are you sure this news is true? Is it not a joke from Immortal Zhen of the Guangqing Immortal Sect?"

The Strongest Immortal Lord Ling Wuming shifted his gaze, showing a hint of surprise, and the Immortal Yuan on his body trembled violently.

Clearly, this renowned and highly revered Strongest Immortal Lord in the entire Central Divine Dynasty couldn't help but be moved upon hearing that someone could refine a Third-Grade Immortal Artifact.

"There can't be any mistakes! Although Immortal Zhen likes to joke with me, the old man, I've repeatedly asked several elders of the Guangqing Immortal Sect, and they're very certain. According to those elders of the Guangqing Immortal Sect, if not for the tense wartime situation in the Eastern Domain of the Central Divine Dynasty, those old guys might have already brought abundant resources and headed to the Western Region of the Central Divine Dynasty to have that Artifact Refiner named Mu Shiba refine some Immortal Artifacts for them!

According to Immortal Zhen, even if the chance of Mu Shiba refining a Third-Grade Immortal Artifact is extremely low, and he couldn't refine one in a short period, even if he could refine a few Second-Grade Immortal Artifacts, it would absolutely delight the many Strongest Immortal Lords of the Guangqing Immortal Sect!"

The Strongest Immortal Lord Ling Wuji expressed with a very certain tone.

Seeing this, Ling Wuming couldn't help but sigh softly, "Such an astonishingly talented Artifact Refining Master appeared in the Central Divine Dynasty! What a pity that it happened during chaotic times. In the current Immortal Demon War, our Human Race army of the Immortal Realm is repeatedly thwarted and can only adopt a difficult defensive position! Otherwise, as you said, that Mu Shiba would certainly be welcomed into the sects ruled by the Divine Dynasty Immortal Sect in our Central Province Immortal Realm. Perhaps in the future, he could become a legendary figure known throughout the Immortal Realm, recorded in the annals of countless Immortal Sects!"

Speaking of this,

he looked up into the distance, then slightly shook his head, "Perhaps Mu Shiba, with such a strong Artifact Refining Talent, will become a significant target for the Profound Yin Demon Sect, but over in the Western Region of the Central Divine Dynasty, there are Fellow Daoist Qiaan Yuan and Fellow Daoist Kunyuan standing guard, and there's also Fellow Daoist Yan of Immortal Lord Luo Water protecting them. No matter how many Demon Lords the Profound Yin Demon Sect sends, they will have a hard time capturing Mu Shiba. After all, even if a dozen Demon Lords arrived, and Fellow Daoists Qiaan Yuan, Kunyuan, and Yan couldn't hold them off, with Fellow Daoist Yan's Demon-Suppressing Immortal Carriage there, hiding within would be enough to ensure Mu Shiba's safety!

Chapter 997: What Exactly Happened in the Western Region? (2)

Even calculating like this, even if the Mu Shiba possesses the Third-Grade Immortal Artifact and astonishing Artifact Refining Talent that the demons of the Profound Yin Demon Sect covet, it's still not worth deploying so many Demon Lords!

It must be due to other reasons!"

The Strongest Immortal Lord Ling Wuji raised an eyebrow and said, "Guessing here and there is indeed frustrating, why not this; Brother, you stay here to oversee, and I will secretly use Immortal Technique to follow them and see if those demons of the Profound Yin Demon Sect really intend to head towards the Central Divine Dynasty Western Region or if they have other sinister schemes!"

Upon hearing this, Ling Wuming immediately shook his head repeatedly, "Wuji Junior Brother, don't be impulsive, you're already more than two hundred thousand years old and still so unsteady? Last time you recklessly acted, you fell into the trap of those Ninth-Grade Demon Artifact Extreme Demon Generals from the Profound Yin Demon Sect, struck secretly by the summoned Demon Buddha, if any mishap occurs again this time, that injury of yours might not recover even after tens of thousands of years!"

The Strongest Immortal Lord Ling Wuji heard this and immediately fell silent.

At this time,

A stream of light traveled at remarkable speed from afar, crossed ten thousand miles in the blink of an eye, and fell into this Nine-Layered Array, stopping in front of the Strongest Immortal Lord Ling Wuji and Ling Wuming.

The newcomer was short-statured, somewhat stooped, with an aged appearance and full head of white hair, looking like an old man from the mortal world, with wrinkled skin, dressed in rather ordinary clothes, a brown cloth shirt on top, coarse cloth pants on the bottom, holding a long fishing rod in hand.

Moreover, the aura of this old man appeared rather weak, lacking the imposing presence of a powerful Earth Immortal, not to mention comparing with the Strongest Immortal Lords Ling Wuji and Ling Wuming, even against those Ninth-Grade Perfect Level Earth Immortals within the Nine-Layered Array, he seemed insufficiently powerful by countless times!

Especially in terms of attire, the Ninth-Grade Perfect Level Earth Immortals present were all clothed in Dharma Robes with Micro-Defense Arrays and held Immortal Artifacts that glittered brightly, while the old man's fishing rod seemed ordinary, no better than the most common fishing rod, and appeared of poor quality, as if it would break if it caught a fish weighing a few pounds!

However,

Both Strongest Immortal Lords Ling Wuji and Ling Wuming saw the newcomer yet their expressions immediately became solemn,

Behind these two Strongest Immortal Level experts, all the Ninth-Grade Perfect Level Earth Immortals knelt on one knee, faces full of respect and awe, respectfully raised hands, unanimously calling out, "Welcome Elder Qiu."

Whereas the Strongest Immortal Lords Ling Wuji and Ling Wuming respectfully raised hands towards the shabby old man, saying, "Master."

The newcomer was none other than the master of the Strongest Immortal Lords Ling Wuji and Ling Wuming, the First Grand Elder of the Divine Dynasty Immortal Sect, Elder Qiu, ranked second among billions of cultivators in the entire Immortal Realm, second only to the Sect Leader of the Divine Dynasty Immortal Sect, a formidable force!

This Elder Qiu, with the appearance of a rickety old man, waved his hand casually, "Stand up!"

After everyone stood up following the greeting, the Strongest Immortal Lord Ling Wuming looked at Elder Qiu with some confusion, "Master, weren't you guarding the One-Line Heaven frontline in the Eastern Domain opposing the Second Demon Lord Fan Lai of the Profound Yin Demon Sect? What makes you come here? If there's anything my Wuji Junior Brother and I need to do, you could have simply sent messages through a few Junior Sisters and Junior Brothers, no need to come personally!"

Beside him, Ling Wuji looked at his master, but instead of his previous heroic spirit to rush out of the array to pursue the demons of the Profound Yin Demon Sect, he stood respectfully, showing reverence for Elder Qiu.

The renowned Strongest Immortal Lord Ling Wuji in the entire Immortal Realm Central State is in such manner, it indicates that this seemingly insignificant old man, Elder Qiu's prowess is extraordinarily supreme with a dominating presence!

Elder Qiu then glanced outside the array, then opened his wind-leaking mouth with several missing teeth, and said:

"It seems the Profound Yin Demon Sect army on your side has already fully retreated, moving towards the Central Divine Dynasty Western Region!"

The Strongest Immortal Lords Ling Wuji and Ling Wuming somewhat surprisingly exchanged glances, Ling Wuming knitted his brows and asked: "Did the Second Demon Lord Fan Lai of the Profound Yin Demon Sect on your guarding front also lead their army to retreat towards the Central Divine Dynasty Western Region?"

Elder Qiu withdrew his gaze, nodded lightly while fiddling with his broken fishing rod, and after a moment of silence, spoke:

"Not only on my side, according to the transmissions from the numerous Strongest Immortal Lords at the Eastern Domain and Central State borders, the twelve armies of the Profound Yin Demon Sect attacking the remaining Immortal Domain of the Eastern Domain and Central State borders have all retreated collectively towards the Central Divine Dynasty Western Region."

"What? Such a matter!"

The Strongest Immortal Lords Ling Wuji and Ling Wuming were extremely surprised upon hearing their master's words.

To these two Strongest Immortal Lords, the retreat of their side's Profound Yin Demon Sect army and the retreat of the Profound Yin Demon Sect army on Huang Fengtian Immortal Lord's side heading towards the Central Divine Dynasty Western Region was already very strange, yet their master revealed that now the entire armies attacked by the Profound Yin Demon Sect in all of the Immortal Realm have inexplicably retreated towards the Central Divine Dynasty Western Region, this is extremely peculiar!

"Not only are there twelve armies of the Profound Yin Demon Sect in Central State,

before coming to your side, the Great Success Jade Pearl Bodhisattva of Spirit Platform Buddha Realm also sent a message, saying that the twenty Demon Lords surrounding the Ten Thousand Laws Spirit Mountain of Spirit Platform Buddha Realm have also left the realm of the Spirit Mountain under the leadership of the Third Demon Lord Fan Yuu, seemingly heading towards the Central Divine Dynasty Western Region!

If everyone's information is correct,

currently progressing towards the Central Divine Dynasty Western Region, should include a total of forty-nine Demon Lords from the Profound Yin Demon Sect, along with four thousand eight hundred plus Ninth-Grade Demon Artifact Level Demon Generals and nearly ten million Demon Soldiers and demons of the Profound Yin Demon Sect!"

Saying so, this First Elder of the entire Immortal Realm Central State's First Immortal Sect, also had a hint of doubt in his eyes.

"Forty-nine Demon Lords of the Profound Yin Demon Sect, bringing along all the Ninth-Grade Demon Artifact Level Demon Generals and Demon Soldiers and demons of Profound Yin Demon Sect, proceeding completely towards our Central Divine Dynasty Western Region?"

Even the rather steady-tempered Strongest Immortal Lord Ling Wuming couldn't help but call out.

Beside him, the Strongest Immortal Lord Ling Wuji couldn't hold back after hearing,

"This is indeed too bizarre, according to the records, from the Ancient Era, through the Remote Ancient Era, Ancient Times, Middle Ages, Near Ancient Era, across countless ages, every Immortal Demon War initiated by the Profound Yin Demon Realm never targets anything but Spirit Platform Buddha Realm and Immortal Realm Central State, never deviating from targeting the bodies and Life Souls of countless cultivators across the Eastern Domain, Spirit Platform Buddha Realm, Immortal Realm Central State! Across three hundred seventy-two Immortal Demon Wars of varied scales, the Profound Yin Demon Sect never once considered our Central Divine Dynasty Western Region as the primary target!

Have the Demon Lords, Demon Generals, Demon Soldiers, and demons of the Profound Yin Demon Sect gone mad this time? Could it be they're collectively heading towards our Central Divine Dynasty Western Region? That region is extremely resource-poor, as far as I know, it doesn't even have a single Sixth Grade Earth Immortal, the number of cultivators is very low, needless to say compared to Central State, it doesn't even compare to one-tenth of the quantity of cultivators and Earth Immortals compared to the Eastern Domain!

This...It can't be possible that the countless Demon Lords and demons of the Profound Yin Demon Sect only want one Third-Grade Immortal Artifact, only for one Mu Shiba? Impossible, definitely impossible, unless the First Demon Lord Fan Yu of the Profound Yin Demon Sect and the Demon Child Gang Bone have lost their minds!"

Chapter 998 Ling'Er Must Be Severely Punished

At this moment, the two Supreme Immortal Masters, Ling Wuji and Ling Wuming, were obviously in disbelief,

that the reason for tens of Demon Lords of the Xuan Yin Demon Sect, a large number of Ninth-Grade Demon Artifact-level Demon Generals, and countless Demons and Demon Soldiers all heading to the Central Divine Dynasty Western Region was because of Lin Xuankong and his Third-Grade Immortal Artifact.

But how could these two Supreme Immortal Masters know of the incredible things Lin Xuankong demonstrated in the battle at the Spiritual Crane Immortal Sect, with his Immortal Artifact, the Path of Artifact Refining, and the Path of Array Formation? And this still wasn't the true extent of Lin Xuankong's hidden cards!

While the two Supreme Immortal Masters were puzzled, Elder Qiu seemingly sensed something, reached into his arms, took out a Communication Jade, glanced at it, and then opened his wind-leaking mouth full of yellow teeth, and said with a frown:

"The Sect Master has sent an order, instructing me to dispatch some scouts to follow behind the twelve Xuan Yin Demon Sect armies to ascertain their true destination. If those twelve Xuan Yin Demon Sect armies have indeed crossed the Realm Abyss, leaving the Eastern Domain and heading for the Western Region, then immediately take fourteen Supreme Immortal Masters and six thousand Earth Immortals on the Eastern Domain defenses to the Central Divine Dynasty Western Region.

It seems the Sect Master has already received some information!"

Upon hearing this, Ling Wuji and Ling Wuming halted their expressions,

Supreme Immortal Master Ling Wuji couldn't help but speak: "The Sect Master wants Master to take fourteen Supreme Immortal Masters and six thousand Earth Immortals to the Central Divine Dynasty's Western Region all at once? If so, there will be only four Supreme Immortal Masters and three thousand Earth Immortals left on the Eastern Domain front line. Are we not to care about the Eastern Domain's defenses?"

Upon hearing this, Elder Qiu immediately widened his somewhat yellow old eyes,

"The Sect Master's order is for me to first send scouts to observe! Besides, since it is the Sect Master's command, even if we were asked to abandon the entire Eastern Domain, would you dare disobey, brat!"

Upon seeing Elder Qiu glaring, Supreme Immortal Master Ling Wuji immediately shut his mouth, looked at his nose, and then his heart, not daring to question any further.

This Supreme Immortal Master, renowned throughout the entire Central Divine Dynasty Immortal Realm, was still highly respectful when faced with this seemingly feeble, shaky elder, Elder Qiu, who could not be subdued by the sudden attack of dozens of Ninth-Grade Demon Artifact-level Demon Generals.

Tall and lofty Supreme Immortal Master, being scolded as a brat, yet dared not retaliate...

However, seeing this scene, those Ninth Grade Perfection-level Earth Immortals in the distance had an entirely justified demeanor, as if Elder Qiu, ranked second among the twenty-eight Supreme Immortal Masters in the entire Immortal Realm, scolded Supreme Immortal Master Ling Wuji was perfectly natural and not at all surprising.

Upon seeing his disciple, Supreme Immortal Master Ling Wuji, no longer questioning, Elder Qiu nodded slightly and said: "The Sect Master's order must be executed immediately; Little Ji and Little Ming, follow the Xuan Yin Demon Sect forces here and carefully observe their movements. Also, remember not to let them discover you!"

Supreme Immortal Masters Ling Wuji and Ling Wuming both nodded, Ling Wuming spoke, "Master, rest assured, if it comes to concealing movements, if Junior Brother Wuji can't do it, there's still Nameless here!"

At these words, Ling Wuji was momentarily stunned, looking wordlessly at his senior brother.

A moment later,

the two Supreme Immortal Masters, Ling Wuji and Ling Wuming, left the Grand Array, turning into two faint spiritual lights, heading in the direction of the Xuan Yin Demon Sect army's withdrawal.

Above the Grand Array, the old man holding a broken fishing rod, Elder Qiu, thoughtfully looked at the Communication Jade in his hand, questioning in his mind, akin to the eminent and long-established Supreme Immortal Master, second only to the Sect Leader of the Divine Dynasty Immortal Sect, suppressing countless cultivators in the Immortal Realm.

Just what exactly happened in the Central Divine Dynasty's Western Region?

Why were countless demons from Xuan Yin Demon Sect heading there together?

....

In the Western Region of the Central Divine Dynasty,

above a Nine-Layered Grand Array with flickering lights and complex array patterns, three extremely tall forms, almost touching the sky, floated high up in the air, were welcoming the three Demon Lords of Celestial Banner, Earth Fiend Wind Fire Forest, Qiaan Yuan Daoist, Kunyuan Daoist, and Immortal Lord Luoshui Yan Mingyu.

Among them,

the powerful Immortal Lords, Qiaan Yuan and Kunyuan, though their bodies were enveloped in an intense fluctuation of Immortal Yuan, appearing immensely formidable, both wore somewhat pale expressions, and a trace of fatigue showed in their eyes.

Especially their magic robes, the Daoist Robes on these two Supreme Immortal Masters, are Immortal Artifact-level Magic Robes passed down from the predecessors of Guangqing Immortal Sect. Although these are just Initial Grade Immortal Artifact Robes, they are renowned Immortal Artifact Robes throughout the Immortal Realm. After all, throughout the Immortal Realm, while many offensive Immortal Artifacts from the Ancient Era are passed down, defensive robe-type Immortal Artifacts are rare, with only eighteen in total, of which Guangqing Immortal Sect owns three, two of which are worn by Qiaan Yuan Daoist and Kunyuan Daoist.

Moreover,

these renowned Qiaan Yuan Robe and Kunyuan Robe in the Immortal Realm now appeared somewhat damaged. Though due to them being Immortal Artifacts, the damaged areas were quickly recovering under the massive Immortal Yuan support of Qiaan Yuan Daoist and Kunyuan Daoist. But judging solely by the damage to the Immortal Artifact Robes worn by these two Supreme Immortal Lord-level powerhouses, one could imagine how fierce the battle here had been just recently, to the point that even Immortal Artifacts sustained damage!

"Indeed, worthy of being the three Demon Lords most skilled at Spiritual Attack Techniques, if it weren't for Fellow Daoist Yan's timely intervention, I fear the robe that my Junior Brother Kunyuan and I wear would have been destroyed by the Celestial Banner, Earth Fiend Wind Fire Forest, in particular. Thanks to Fellow Daoist Yan for his assistance here!"

Chapter 999 Ling'Er Must Be Severely Punished (Part 2)

Qiaan Yuan Daoist gazed at the retreating Profound Yin Demon Sect army in the distance, a glint of relief mixed with a trace of anger in his eyes.

After all, he was wearing one of the very few Immortal Artifact-level robes in the entire Immortal Realm, a Sect's Guardian Immortal Artifact passed down through countless generations of Guangqing Immortal Sect. If it were to be damaged in his hands, not only would Guangqing Immortal Sect lose face, but he wouldn't know how to face his Sect Leader Senior Brother in the future, nor how to face the tablets of Guangqing Immortal Sect's many ancestors!

Immortal Lord Luoshui Yaan Mingyu, with a look of doubt on her exquisite face, gazed into the far distance where the Profound Yin Demon Sect army was located, slightly shaking her head as she spoke, "You two fellow Daoists regard my Immortal Technique skills as average, hence assigned me to operate the array from within!

You two front the opposition against the three Demon Lords of Profound Yin Demon Sect, and I assist from behind, naturally, I should give it my all, there's no need for formal thank-yous!

However, the retreat of the three Demon Lords of Celestial Banner Earth Fiend Wind Fire Forest seems odd, as it was far from time to determine the victor!"

Qiaan Yuan Daoist also wore a puzzled expression beside her. He strained his eye power to observe for a long while, just about to speak, when Kunyuan Daoist suddenly raised his voice in surprise, exclaiming: "Impossible, Ling'Er, that mischievous girl, can't be sending messages randomly to tease her master! The things mentioned in these dozens of messages are simply too incredible!"

Qiaan Yuan Daoist and Immortal Lord Luoshui Yaan Mingyu both looked towards Kunyuan Daoist with some confusion upon hearing this. Qiaan Yuan Daoist frowned and said, "Even if that girl Ling'Er has been spoiled by you, she would never dare to send messages randomly to disturb you at a time like when we're facing three Demon Lords of Profound Yin Demon Sect! If there are messages, they must be true. But Senior Brother, what do you mean by incredible, has something happened on the side of Spiritual Crane Immortal Sect?"

Hearing this, Immortal Lord Luoshui Yaan Mingyu's heart skipped a beat, a distinct look of anxiety appeared on her delicate face,

For in the Spiritual Crane Immortal Sect are two young demon kings of the Qilin race whom I greatly value, especially the only true disciple of great talent that I regard most highly, Lin Xuankong.

"Nothing should have happened! There's the Nine-Layered Sect Protection Array there, and I specially left the Demon-Suppressing Immortal Carriage there. Even if Ninth-Grade Demon Artifact-level Demon Generals were besieging it, they would find it difficult to break the array, and even if they did, they could never threaten the Demon-Suppressing Immortal Carriage! That Demon-Suppressing Immortal Carriage was arranged by the Sect Founder of Luo Water Immortal Sect, and the power of the great array contained within is endless, absolutely not something a Ninth-Grade Demon Artifact-level Demon General can break!" Immortal Lord Luoshui Yaan Mingyu continuously affirmed.

But even though her tone was resolute, the anxiety in her eyes did not diminish.

Kunyu Daoist looked at the Communication Jade in his hand, shaking his head repeatedly, "Over at Spiritual Crane Immortal Sect, there are not only Ninth-Grade Demon Artifact-level Demon Generals, according to the messages sent by Ling'Er, about twenty thousand Demons and Demon Soldiers of Profound Yin Demon Sect are there, along with over eighty Ninth-Grade Demon Artifact-level Demon Generals, and even a renowned Thirty-six Tribulation Demon Lord Purlo whose strength is almost on par with Celestial Banner Earth Fiend Wind Fire Forest."

"What?" Qiaan Yuan Daoist's complexion changed involuntarily, "Impossible, although there are three Demon Lords attacking us here, the number of Ninth-Grade Demon Artifact-level Demon Generals is only twelve, and there are only two thousand Demons and Demon Soldiers! Why would the Profound Yin Demon Sect send such a powerful force to attack the Spiritual Crane Immortal Sect?"

Even more intense anxiety flashed in Immortal Lord Luoshui Yaan Mingyu's eyes, "What else did Nephew Lin'Er's messages say? That Thirty-six Tribulation Demon Lord Purlo has quite mysterious and powerful methods, over eighty Ninth-Grade Demon Artifact-level Demon Generals could set up a Celestial Demon Array to summon a powerful Demon Buddha capable of attacking the Divine Soul! How is the Sect Protection Array of Spiritual Crane Immortal Sect holding up? And how about my true disciple Lin Xuankong and Qing and Bai now?"

Kunyu Daoist saw Immortal Lord Luoshui Yaan Mingyu's nervousness, wearing a peculiar expression, shaking his head:

"Rest assured, Fellow Daoist Yan, if the messages from Ling'Er are correct, the array at Spiritual Crane Immortal Sect has certainly not been broken! As for Fellow Daoist Yan's true disciple and the two young geniuses of the Qilin race, they are also safe, moreover, the cultivators and Earth Immortals within Spiritual Crane Immortal Sect and Spiritual Crane Immortal City are all safe and sound."

Immortal Lord Luoshui Yaan Mingyu slightly relaxed upon hearing this, but after seeing the peculiar expression on Kunyuan Daoist's face, she couldn't help but slightly raise her eyebrows, and inquire:

"If indeed nearly twenty thousand Demons and Demon Soldiers of Profound Yin Demon Sect, over eighty Ninth-Grade Demon Artifact-level Demon Generals and Thirty-six Tribulation Demon Lord Purlo were there, then even if the Nine-Layered Array at Spiritual Crane Immortal Sect could withstand it, what about the opposition's spiritual attack secret techniques? Especially if they summoned a Demon Buddha with the Celestial Demon Array, Spiritual Crane Immortal Sect might have already lost a large portion of its cultivators, how could they be safe and sound?"

Kunyuan Daoist, flipping through the Communication Jade in his hand, thought for a moment, the expression on his face becoming increasingly peculiar,

"Fellow Daoist Yan, not only are they safe and sound! According to the messages sent by Ling'Er, your true disciple Lin Xuankong has already killed nearly twenty thousand Demons and Demon Soldiers of Profound Yin Demon Sect, and over fifty Ninth-Grade Demon Artifact-level Demon Generals!

Even the Demon Buddha summoned by those over eighty Ninth-Grade Demon Artifact-level Demon Generals was defeated by your true disciple Lin Xuankong,

Even the Thirty-six Tribulation Demon Lord Purlo, renowned throughout the Immortal Realm for tens of millennia, was defeated at the hands of your true disciple Lin Xuankong, forced to flee in defeat!"

"What?" Immortal Lord Luoshui Yaan Mingyu was stunned, her bright eyes widened as if hearing the most impossible news in the world, comparing it to an ant killing an Earth Immortal!

"Impossible, absolutely impossible!"

Qiaan Yuan Daoist was even more adamant.

This Strongest Immortal Lord of Guangqing Immortal Sect swung the Immortal Artifact duster in his hand,

"Junior Brother Kunyuan, you've spoiled Nephew Lin Ling'Er too much, how could she dare to send such absurd news? Moreover, in the midst of our battle with the three Demon Lords of Celestial Banner Earth Fiend Wind Fire Forest, this is simply too ridiculous, too ridiculous!

From my perspective, if the three Demon Lords of Celestial Banner Earth Fiend Wind Fire Forest and those Demons of Profound Yin Demon Sect have indeed withdrawn from here, once you return to Spiritual Crane Immortal Sect, you absolutely must discipline Ling'Er, you can't let her be so outrageous any longer!"

Immortal Lord Luoshui Yaan Mingyu remained silent for a few moments, then shook her head slightly, she took out her Communication Jade from her bosom, intending to personally send a message, to inquire about Lin Xuankong and Cyan-forehead Qilin and White-forehead Qilin Bai E.

At this moment,

Kunyuan Daoist glanced at Qiaan Yuan Daoist and Immortal Lord Luoshui Yaan Mingyu, then said with a peculiar expression:

"Tsk tsk, I also feel that Ling'Er is being ridiculous! Because this girl didn't just report saying Nephew Lin Lin Xuankong defeated twenty thousand Demons, over eighty Ninth-Grade Demon Artifact-level Demon Generals and Thirty-six Tribulation Demon Lord Purlo, Ling'Er also said that Nephew Lin Xuankong directly used three thousand six hundred First-Grade Immortal Artifacts, thirty-six Third-Grade Immortal Artifacts and no less than thirty-six Fourth-Grade Immortal Artifacts!

Sigh, seeing the earlier messages already felt like this girl Ling'Er was being absurd, seeing the latter, I now feel itchy-handed, I can't wait to return to Spiritual Crane Immortal Sect immediately, and make this girl kneel for ten thousand years, then meditate in seclusion for fifty thousand years! Truly outrageous, too outrageous!

I won't even mention the thirty-six Third-Grade Immortal Artifacts that absolutely shouldn't appear, and the thirty-six even more impossible to exist Fourth-Grade Immortal Artifacts!

Three thousand six hundred First-Grade Immortal Artifacts, hehe, has this girl gone mad? How many First-Grade Immortal Artifacts are even in the whole Immortal Realm now! Ridiculous, too ridiculous!"

Chapter 1000 One Becomes Immortal, All Rise to Heaven

Qiaan Yuan Daoist and Immortal Lord Luoshui, Yaan Mingyu, were also taken aback after hearing Kunyuan Daoist's words.

Qiaan Yuan Daoist frowned and said, "Ling'er Junior Niece mentioned that Junior Nephew Lin Xuankong used 3,600 First-Grade Immortal Artifacts? Alas, Junior Brother, you are indeed pampering your genius apprentice too much!"

At this point, Qiaan Yuan Daoist had clearly filtered out the matters of the thirty-six Third-Grade Immortal Artifacts and the thirty-six Fourth-Grade Immortal Artifacts!

After all, in the eyes of this Strongest Immortal Lord who has cultivated for hundreds of thousands of years, the fact that Lin Xuankong possesses a Third-Grade Immortal Artifact is already quite absurd, making people marvel at his artifact refining skills. Thirty-six Third-Grade Immortal Artifacts and thirty-six Fourth-Grade Immortal Artifacts are simply fantastical talk!

Indeed, that Ling'er Junior Niece of mine has gone a bit too far!

Thinking of this, Qiaan Yuan Daoist looked at Immortal Lord Luoshui, Yaan Mingyu, who was not far beside him, "Fellow Daoist Yan, what do you make of this matter?"

Upon hearing this, Immortal Lord Luoshui, Yaan Mingyu, fell into silence.

She certainly admired Lin Xuankong's artifact refining skills. After all, within just two decades in the Demon-Suppressing Immortal Carriage, this true disciple had sent her hundreds of First-Grade Immortal Artifacts! Immortal Lord Luoshui, Yaan Mingyu, even praised him as the number one genius in artifact refining in the Immortal Realm for hundreds of thousands of years when she first met him!

But a genius is one thing; 3,600 First-Grade Immortal Artifacts is a bit too much!

Immortal Lord Luoshui, Yaan Mingyu, after a moment of silence, spoke, "Now that the demons from the Profound Yin Demon Sect have withdrawn, we three can guard this place for a few more days. If the demons from the Profound Yin Demon Sect do not return, we can return to the Spiritual Crane Immortal Sect, and by then, we shall see for ourselves, and the truth will naturally be revealed!

As for the matter of the 3,600 First-Grade Immortal Artifacts, whether it's true or not,

I truly hope it is real. If our Immortal Realm Human Race has thousands more First-Grade Immortal Artifacts, our power will surely surge, and the chances of winning this ongoing Immortal Demon War will greatly increase!"

Qiaan Yuan Daoist and Kunyuan Daoist were slightly thoughtful when they heard this and both nodded slightly.

Qiaan Yuan Daoist shook the Duster Immortal Artifact in his hand, sighing as he spoke, "If Fellow Daoist Yan's true disciple Lin Xuankong really refined 3,600 First-Grade Immortal Artifacts, then in this Immortal Demon War, he will undoubtedly be the greatest hero, the first savior of our Immortal Realm Human Race. Let's hope it's true!"

After saying this,

Qiaan Yuan Daoist activated the Guangqing Qi Observation Skill, gazing into the distance, carefully observing the movements of the three Demon Lords of the Celestial Banner Earth Fiend Wind Fire Forest who were retreating.

...

Ten days later.

Three streams of light suddenly flew over from the sky, thousands of miles away from the Spiritual Crane Immortal Sect.

In the blink of an eye, these three streams of light traversed thousands of miles, reaching the high sky above the Spiritual Crane Immortal Sect and the Spiritual Crane Immortal City.

After stopping,

Immortal Lord Luoshui, Yaan Mingyu, Kunyuan Daoist, and Qiaan Yuan Daoist, looked at the Spiritual Crane Immortal Sect below, a look of astonishment in their eyes.

Because in front of these Strongest Immortal Lords, the Spiritual Crane Immortal Sect, once only protected by a single Nine-Layered Array light membrane, now had as many as over forty layers of Nine-Layered Thousand Cranes Grand Array light membranes, with countless complex array patterns flashing over each layer.

"This... is actually forty-eight layers of the Nine-Layered Thousand Cranes Grand Array!

Moreover, the hub of these forty-eight layers of the Nine-Layered Thousand Cranes Grand Array seems to be formed by immortal artifacts!

There... there are over a thousand First-Grade Immortal Artifacts here!"

Kunyuan Daoist, looking at the spectacle before him, couldn't help but grip the First-Grade Immortal Artifact White Jade Duster in his hand tightly. At this moment, looking at the over a thousand First-Grade Immortal Artifacts within the Nine-Layered Thousand Cranes Grand Array, Kunyuan Daoist suddenly felt that the First-Grade Immortal Artifact White Jade Duster, which he had cherished for countless years, suddenly seemed less appealing.

Qiaan Yuan Daoist shook his head repeatedly, sighing, "Junior Brother Kunyuan! It seems we both misunderstood your good disciple. Perhaps the information she conveyed to you is true! It seems this time, Junior Niece Ling'er doesn't need to face the wall to reflect anymore!"

Upon hearing this, Kunyuan Daoist's expression stiffened, then he couldn't help but shake his head and say:

"Whether Ling'er faces the wall is a minor issue!

Who would have thought, who would have thought, that I, Kunyuan, would live to see such a spectacle with over a thousand genuine First-Grade Immortal Artifacts before my eyes! Tsk tsk, such a spectacle, perhaps even in the Ancient Era, rich with Heavenly Materials and Earthly Treasures, was rare to see!"

Speaking thus, Kunyuan Daoist turned to look at Immortal Lord Luoshui, Yaan Mingyu, beside him, sighing:

"Fellow Daoist Yan, your true disciple is indeed an extraordinary genius! I suddenly find myself somewhat envious of you, not knowing what great fortune you encountered to have such an amazingly gifted disciple!"

At these words from Kunyuan Daoist, Immortal Lord Luoshui, Yaan Mingyu, couldn't help but smile,

her bright eyes showing intense delight.

Beside them, Qiaan Yuan Daoist suddenly thought of something, couldn't help but say, "If what Junior Niece Ling'er said is true, then the matter of thirty-six Third-Grade Immortal Artifacts and thirty-six Fourth-Grade Immortal Artifacts, could be true as well?"

Hearing this, Kunyuan Daoist's eyes immediately brightened,

As a Strongest Immortal Lord Level existing, he knew all too well how much the middle-high grade immortal artifacts could enhance the strength of a Strongest Immortal Lord!

Just the ability of speed boost provided by Third-Grade Immortal Artifacts alone is extremely frightening! Because even a Third-Grade Immortal Artifact can make a Strongest Immortal Lord cross the Immortal Realm in a day with its immense power! Additionally, Third-Grade Immortal Artifacts are nearly indestructible, attributes impossible to break or easily resist even by Demon Lord level experts...

such treasures could make the twenty-eight Strongest Immortal Lord Level experts of the Immortal Realm Human Race an extremely formidable force!
