Chapter 1151: Terrifying Bug

For almost half a minute, the hall was in complete silence. Killing someone above your cultivation level wasn't rare, but what was terrifying was Ye Mo's silent strike.

Some people could tell that Ye Mo used the same strike to kill Tie Baifei and Nan Jinsheng, but it had a completely different effect.

Almost everyone thought Ye Mo was going to lose for sure and he would be killed by Tie Baifei, but instead Ye Mo killed Tie Baifei. Only a few disaster transformation state and higher masters saw that Ye Mo used another attack before using Illusion Cloud Hua Mountain strike. It caused that pause in Tie Baifei's movements.

Yan Guan took a cold breath in, he was thinking about how to explain to Pill City city lord that Ye Mo was killed, but now there was a turn of events and Ye Mo killed hollow spirit state level six Tie Baifei.

Wen Caiyi looked dazedly at Ye Mo and even forgot to be angry. She knew Ye Mo was very powerful. Before Ye Mo fought Nan Jinsheng she thought Ye Mo was nascent soul state tertiary stage but he killed Nan Jinsheng in one move. Clearly, he was hollow spirit state power. Nan Jinsheng said Ye Mo was hollow spirit state level one, she was dubious but she still believed him.

However, Ye Mo killed Tie Baifei now. Tie Baifei was hollow spirit state level six, a hollow spirit state level one wouldn't be able to kill him. Wen Caiyi was a prodigy herself and she was nascent soul state level two. She knew that even if she wanted to kill nascent soul state level six it wouldn't be that easy – maybe even impossible.

Was Ye Mo hollow spirit state tertiary stage? How could that be possible?

She soon thought of when they first met. Ye Mo was only nascent soul state at that time and he killed Lu Jianqian. Yet how long had it been and he was hollow spirit state tertiary stage? Was there really such a genius in the world? If he really was, then the difference between him and other 9-star sect prodigies was too huge.

That smiling youth cultivator wasn't able to react for a long time. He didn't believe that Tie Baifei would be killed by Ye Mo so cleanly.

But after another minute, he finally realized this was reality. Ye Mo really killed Tie Baifei and his body was turned in a bloody mist.

"I'm going to kill you!" that youth cultivator's face snarled, and without hesitation he charged into the middle and released a dark gourd.

Ye Mo knew about the Infinity Sect, they were a sect that focused on sword cultivation but this youth used a black gourd.

"Wujian, come back!" an elder yelled, but that cultivator was filled with rage.

Ye Mo sneered, this Wujian was hollow spirit state level seven, but he wasn't scared at all. He waved and Zi Xu appeared in his hand.

That young cultivator saw Ye Mo's actions and forcefully stopped his impulse of running up. He slowed down and even his face became extremely calm. He then turned around and bowed to Infinity Sect.

That elder saw this and breathed easy. From the bottom of his heart, he didn't want that young cultivator to go up. Ye Mo's performance was too strong, no weaker than any hollow spirit state tertiary stage. Now that this young cultivator calmed down, he wasn't as worried. The only confusion was when Ming Wujian had obtained a gourd magic artifact.

That young cultivator let the black gourd float around him and said coldly to Ye Mo, "You have balls, you dare to kill our Infinity Sect's hollow spirit state core disciple. I'm Infinity Sect's Ming Wujian. Don't worry, I will let you die with my martial brother Tie Baifei. I will take care of that Luo Susu for at least a few years."

Ye Mo's killing intent rose crazily when Ming Wujian talked about Luo Susu. A faint purple mist had already formed around Zi Xu.

Ming Wujian sneered and used a few hand signs. The gourd suddenly made a thunderous rumble and began to expand, becoming two meters long and one meter wide in size. Yet, it still seemed to be expanding.

Ye Mo looked at the dark gourds' mouth and felt a little uneasy. He felt his spirit sense couldn't scan in at all.

Without hesitation, Ye Mo took out his octagonal cauldron and hacked out.

Seeing this, everyone was dazed. It was obvious that the octagonal cauldron was a top grade defense magic artifact. Yet Ye Mo didn't even use when he killed Tie Baifei.

This guy was a madman!

Yang Feicheng's face grew bleaker. He felt more and more that he must kill Ye Mo as early as possible, but he was here with Lu Wuhu today.

Other than attacking together, there was no Infinity Sect cultivator that could single handedly kill Lu Wuhu.

No one recognized this octagonal cauldron, but Wen Caiyi knew it. She saw martial brother Yuan get it in the Truth Fall Palace. She was now even more certain that Ye Mo killed martial brother Yuan.

Ming Wujian saw this and was dazed but ignored it soon. He even didn't care about Ye Mo's purple sword rays. He waved his hand and countless black lines reached out from his gourd.

Those black lines were extremely fast and had an ear piercing and spirit sense hurting screech to them. After the first wave of purple sword rays were blocked, more purple sword rays were swept away.

Ye Mo thought of that Mo Qianli he killed in North Far State. His evil soul strands were similar to this but they had no sound. These ones had screeching sound and were faster.

Ye Mo soon saw that they weren't strands but small bugs. They were all black and not only had wings but also sharp teeth. Strangely, they only had one leg each.

These bugs were extremely fast and dense. Ye Mo could only use the octagonal cauldron to protect himself as the it spun faster and faster.

But the bugs seemed endless and soon doubled in numbers as they clashed against the octagonal cauldron. Ye Mo felt it was harder and harder to control the octagonal cauldron. The octagonal cauldron slowed down and thus, its defenses dropped.

At this rate, if the octagonal cauldron stopped, he would be swept away by these bugs.

He knew that if they all came on him, not even a single bone of him would be left.

Ye Mo was unhappy, he wanted to fight with a cultivator who could take on his Illusion Cloud strikes and fight head on in a clash, but no one was able to satisfy him.

He killed Nan Jinsheng in one strike, Tie Baifei used blood snowflakes, and now this Ming Wujian used countless bugs to attack.

Ye Mo used Illusion Cloud division strike again, but before the purple sword rays formed, they were devoured by those bugs.

Such powerful bugs, they could even devour sword rays! Ye Mo didn't keep using Zi Xu. His spirit sense was barely able to control the octagonal cauldron, much less control Zi Xu. The key to Illusion Cloud was spirit sense, the more powerful the spirit sense, the more powerful the purple sword rays.

Ye Mo had many means and he didn't believe he couldn't deal with these bugs.

He used Mist Lotus Heart Fire the next moment. He didn't have a heaven flame cultivation method but it should be fine to burn these bugs.

The cultivators saw Ye Mo release heaven flame and knew these bugs were done for. Heaven flame could easily burn any bug.

Yet, Ming Wujian just sneered at this.

The Mist Lotus Heart Fire went into the middle of the bugs. Countless bugs fell down, but in a brief moment, more came up.

Ye Mo frowned, he used Mist Lotus Heart Fire and burned and there were indeed some dead, but more weren't dead.

Ye Mo was shocked, what bug was this that even heaven flame couldn't burn? Although the level of the heaven flame was low, he was sure he could even burn a body condensation state peak stage cultivator to death if he let him.

He suddenly thought of a spirit bug that was on Thing and his face turned dark.

Chapter 1152: Not Number One Shadowless Worm

Fire Eating Bug, ranked 7th on the rare spirit bugs ranking. They devoured metals and liked devouring all sorts of flames. They grew in flames.

It could be said that they could devour anything and there was rarely anything that could counter them. Yet, Ming Wujian had so many Fire Eating Bugs. How did he keep them alive? Even though they were the lowest grade, with this many there even a sect wouldn't be able to afford keeping them. This was because they needed to not only devour flames but also large amounts of ores, or else they wouldn't reproduce.

The higher their level, the harder it was to keep them. But Ming Wujian's bugs were the lowest level so they used a lot of resources but they wouldn't be high level.

Even the other sect leader and elders' faces changed when they saw this many Fire Eating Bugs.

They recognized them and knew their terrifying power when they matured.

“They’re actually Fire Eating Bugs?” Even Lu Wuhu was shocked.

Even Yan Guan and other 9-star sect elders were shocked, they thought of the Infinity Sect. The Infinity Sect had such terrifying bugs, if they used the sect’s power to raise them, what other sect could stand up to them?

If all the Fire Eating Bugs were released, they could definitely annihilate a sect immediately. But they knew that it was impossible to fully mature all of them. Even getting 1/100000 mature was extremely hard, but just the name ‘Fire Eating Bug’ was enough to strike fear.

More than 10000 years ago, there was a great evil on Luo Yue continent. He was the Fire Eating Bug demon. This person kept countless mature Fire Eating Bugs. No one could stop him. He annihilated a 9-star sect all by himself just because he liked that location and wanted to use it as his own sect. The 9-star sect rejected him, and in his fury, he annihilated the entire sect.

That Fire Eating Bug demon ravaged for a thousand years before encountering Chu Jiuyu and being killed. Since then, his Fire Eating Bugs disappeared too.

Now, 10000 years later, the Fire Eating Bugs appeared again and they belonged to Infinity Sect.

Yang Feicheng’s face was also bleak. He didn’t know that his sect member had someone that kept Fire Eating Bugs. If he knew this, he wouldn’t let Ming Wujian fight. He would make these Fire Eating Bugs Infinity Sect’s top secret.

Yet, this insolent Ming Wujian not only fought but also used Fire Eating Bugs immediately. Even if he killed Ye Mo, other sects wouldn’t allow Infinity Sect to keep the Fire Eating Bugs for themselves.

It was hard to keep them, but as long as you had the method and resources, another Fire Eating Bug demon would appear.

Yet, Chu Jiuyu was someone who didn't appear for 10000 years. If there wasn't someone like Chu Jiuyu around, the Fire Eating Bug demon would be able to do whatever he wanted in the cultivation realm.

Yang Feicheng clearly could see that Ming Wujian wasn't used to controlling these bugs. It was very hard for him. Clearly, he either just got these bugs or someone had just taught him.

...

Ye Mo realized it was no wonder these bugs weren't afraid of his heaven flame. Luckily his heaven flame was red level and could burn some – otherwise, if the flame was still yellow, it might instead feed them.

Ye Mo felt his octagonal cauldron get slower and slower. It was already a bit hard for him to use heaven flame and octagonal cauldron at the same time.

Ye Mo couldn't let this continue. He really wanted to use 11 Lightning Swords. People already knew he killed Tian Aofeng. It was no big deal to use it now.

But just when he wanted to use it, he saw Ming Wujian's face get pale. His each hand sign and spell was barely able to be used.

Ming Wujian didn't keep these bugs, Ye Mo immediately thought. Otherwise, it wouldn't be this hard for him to control.

Thinking about how cunning Ming Wujian was, Ye Mo wasn't sure if he was putting up this act so he sent out an extreme grade spirit artifact flying sword at Ming Wujian.

Even with that, his sea of consciousness rumbled.

Ming Wujian was shocked to see that Ye Mo could still use flying sword. But then, he spat another mouthful of essence blood and more Fire Eating Bugs came out of the black gourd.

But soon, Ye Mo saw that the flying sword he sent was rapidly devoured. He exclaimed, these bugs were too powerful.

But now, Ye Mo no longer intended to use 11 Lightning Swords. Ming Wujian was unable to control the Fire Eating Bugs well, he only needed to summon Shadowless to ambush Ming Wujian.

Ye Mo silently let Shadowless out. He wanted to let Shadowless ambush Ming Wujian, but what he didn't expect was as soon as Shadowless came out, he shrieked in excitement.

What was this? Ye Mo was dazed, if he was going to enter the scene in that high fashioned way, how was he going to ambush? But Ye Mo saw Shadowless didn't listen to him and instead dashed into Ming Wujian's black gourd in a golden beam.

Ye Mo was shocked – what was this? But soon, he felt something was wrong. Those Fire Eating Bugs attacking the octagonal cauldron began to retreat and become chaotic. Some even flew away. Luckily, there was a restriction and they couldn't escape anywhere.

The Fire Eating Bugs blocked by the restriction flew around like flies but most rushed to that black gourd.

Ming Wujian looked at the chaotic fire eating bugs and shivered murmuring, "Not a spirit bug, not an immortal. Not number one Shadowless Worm.... There really is Shadowless Worm..."

Ye Mo wasn't struggling like before. He ate a Spirit Recovery Pill and was about to release Zi Xu. Shadowless didn't go ambush Ming Wujian but instead went into the gourd. That at least helped him.

But soon, he stopped using Zi Xu, not because Ming Wujian was pale faced and shaking, but because the black gourd was beginning to contort as though it was going to explode.

With a rumble, a hot wave swept out. Ye Mo let the octagonal cauldron shield him and quickly went to contact Shadowless. Shadowless was his important helper, he must not be blown dead.

Luckily, he soon felt Shadowless. When Shadowless came out of the explosion, it wobbled around as though it was drunk. The golden body turned grey again. Without much thought, Ye Mo sent Shadowless into a spirit beast ring. He didn't want to show the Golden Page World here.

Even the restrictions were shaking with that explosion. He didn't understand why Shadowless didn't die.

But large amounts of Fire Eating Bugs fell down and died. Some that were still alive rushed at Ye Mo and Ming Wujian like crazy. Ye Mo had the octagonal cauldron but Ming Wujian didn't and was soon devoured into nothingness.

After that, the Fire Eating Bugs flew around and didn't find the black gourd. Then, they all fell to the ground and turned black.

Ye Mo was disgusted and released his heaven flame to burn the black things completely as well as the dead bodies.

After the burning smell, the space seemed to have stabled and an orange flame appeared before Ye Mo.

Li Ming Fire, ranked 9th amongst the flames in the cultivation realm. It was a heaven flame. There was a heaven flame inside Ming Wujian's gourd. But Ye Mo knew that there was no way it was going to be his.

Yang Feicheng's face lit up seeing this, but before he could take it, Ye Mo said to Lu Wuhu, "Brother Lu, you can have this Li Ming Fire."

"Haha, okay, I'll take it." Then, he reached out a cultivation essence giant hand and grabbed the flame.

Ye Mo breathed easy. He knew that with his ability, it would take at least 7 minutes to take the flame. By this time, Yang Feicheng would've already taken it. Now that Lu Wuhu took it, Yang Feicheng wouldn't even dare to ask for it.

Yang Feicheng saw this and his face changed. He saluted with his fists, "Lu qian bei, this Li Ming Fire is my Infinity Sect sect member Ming Wujian's, please give it back."

Chapter 1153: Yang Feicheng's Determination

Lu Wuhu took out a jade box and sealed the Li Ming Fire inside before looking coldly at Yang Feicheng. "Since when in the cultivation realm was it that after a fight, the belongings of the dead would be returned to his sect? How come I heard that the belongings are taken by the victor? The Li Ming Fire has been out for a long time. If I Lu Wuhu wanted to rob it, I would've long taken it. Do I need to wait till now? Just then, brother Ye gave the Li Ming fire to me, everyone heard this. Are your ears defective, sect leader Yang?"

Everyone knew Lu Wuhu's character. He never made a losing deal but never robbed a wan bei's things, no matter how good they were. This was why he could earn the respect of the entire cultivation realm. But if you gave him something, it was impossible to earn it back.

Everyone heard that Ye Mo gave the Li Ming Flame to Lu Wuhu. Yang Feicheng was furious but there was nothing he could do.

He glared coldly at Ye Mo, even the rivers couldn't express his hatred for him. After killing their prodigy Yuan Guannan, he had killed three more Infinity Sect hollow spirit state prodigies in front of his eyes, but there was nothing he could do.

He regretted calling Ming Wujian out. Now the Fire Eating Bugs were dead. He was annoyed at Ming Wujian for hiding this and not reporting it. On top of that, he foolishly showed it to everyone.

But Yang Feicheng wronged Ming Wujian as he had only just got the bugs and didn't know their glorious past.

When he got the black gourd and the jade slip introducing the bugs, he was overjoyed. He immediately destroyed the jade slip and focused on feeding them. He even grew rusty on his sword dao.

But he didn't mind, he used the Fire Eating Bugs in battle a few times, they were invincible. No one knew that he killed a body condensation state level one with Fire Eating Bugs. That's why to him, these bugs were invincible.

But the jade slip he got also introduced something else, Shadowless Worm. If the Fire Eating Bugs encountered Shadowless Worm, they would immediately begin to worry. It also said that the Shadowless Worm wasn't a spirit bug. It usually wouldn't appear in the cultivation realm but he was unlucky and encountered the Shadowless Worm that shouldn't appear in the cultivation realm.

Ye Mo's Shadowless Worm was hidden, but a few people still saw it. They just weren't sure. With Lu Wuhu standing behind Ye Mo, no one dared to ask.

Although many people were guessing what it was that Ye Mo released later and flew into the black gourd, they could only think about it.

Due to Ye Mo's arrival, many sects stopped their prodigy sect members. Ye Mo was too absurd. Only a body condensation state cultivator could surely kill him, but a 60 year old body condensation state cultivator was too rare.

Wang Chuanhe said with a bleak face, "Even if Fei Yu and them are here, they're not allowed to fight. They're no match for Ye Mo. He's not someone who can be killed by a cultivator of the same level."

The two cultivators who came from Lightning Cloud Sect didn't agree, but their sect leader already said this so they could only hide.

Wen Caiyi looked coldly at Ye Mo until Nan Gong Yihui was really annoying her. Then she said calmly, "My husband must be number one but you haven't beaten number one city lord Ye, I can't love you."

Nan Gong Yihui was dazed, he didn't see Wen Caiyi kick him away when he came. Why did she want him to challenge city lord Ye?

He didn't consider Ye Mo a threat before, but now that Ye Mo killed Tie Baifei and Ming Wujian he knew Ye Mo was not weaker than him.

Wen Caiyi sneered and didn't say anything.

Nan Gong Yihui quickly said, "Martial sister Caiyi, that city lord Ye didn't say he was interested in you..." as though feeling his words were inappropriate, he quickly changed to, "That city lord Ye said those who came for you shouldn't challenge him."

Wen Caiyi's face went cold, "But I like him because he's the strongest. If you can beat him I can like you immediately. But if you don't even dare to challenge him, and you say you like me, is it not embarrassing? I, Wen Caiyi, like the number one – I only want the number one. If you're scared you can't beat him, I'm not forcing you to go."

Then, she couldn't be bothered talking to Nan Gong Yihui.

Nan Gong Yihui was dazed. He didn't expect this, but looking at Wen Caiyi, if he didn't go challenge Ye Mo, he would have no chance at all.

Thinking about this, Nan Gong Yihui nodded, "Okay, I will challenge city lord Ye, I will make the person who likes you be number one."

Wen Caiyi showed a smile and said softly, "Then be careful, that purple ray of his is very strong."

"I know." Nan Gong Yihui's heart was overjoyed hearing these words from Wen Caiyi.

Ye Mo wanted to go back to his seat but saw Nan Gong Yihui quickly stop him.

But before Nan Gong Yihui could speak, an elder from Nan Gong village yelled, "Yihui, come back first."

Nan Gong Yihui smiled to Ye Mo. "City lord Ye, just wait a bit. I'll come fight with you soon. Don't worry, I'm not here for goddess Susu, I'm here for Caiyi."

Ye Mo smiled, he could tell that Nan Gong Yihui was an idiot and was being used by Wen Caiyi to fight with him.

Indeed, Nan Gong Yihui only went back a while and that elder said to Ye Mo, “Yihui is injured, he won’t be able to fight today, please forgive us city lord Ye.”

Ye Mo also saluted with his fists, “Brother Nan Gong is hollow spirit state level seven and won more than ten matches in a row, even Ye Mo is no match for him.”

Then, Ye Mo went back to his seat.

That elder was very happy with Ye Mo’s answer. He didn’t let Nan Gong Yihui fight not because he was scared of Ye Mo, but just didn’t want him to be used by that Wen Caiyi.

Seeing no one else challenging Ye Mo, Yan Guan got up and said, “All sorts of prodigies showed up today, and although some were injured, that was unavoidable. Luckily, we have successfully come to an end, city lord Ye is able to leave with his loved one, our core disciple Susu...”

Susu got up and bowed to Yan Guan here. “Susu thanks sect leader and thanks master.”

Yan Guan smiled but Fan Lianzhu’s face was bleak.

Then, Yan Guan continued, “Infinity Sect goddess Wen...”

That elder who spoke with Ye Mo intervened, “Thank you sect leader Yan, our sect will propose to Infinity Sect...”

Yan Guan breathed easy. After this Nan Gong Village elder said this, he didn’t even greet Infinity Sect – clearly, they didn’t intend to propose at all. Luckily this elder said this, or he really wouldn’t know what to say. From Wen Caiyi’s expression, everyone could tell she wasn’t interested in Nan Gong Yihui at all. Neither was the Infinity Sect interested in Nan Gong Village. No one was interested except that Nan Gong Yihui.

“Then okay, the competition will end here today. Black Ice Sect is grateful for all the sect leaders and elders who showed up. If you have time, you may stay here for however long you want. You will be our VIP.”

A round of applause sounded. Everyone knew these were just polite words, the Black Ice Sect wanted them to leave as early as possible.

Black Ice Sect and Infinity Sect invited everyone here for the South Alliance, but now after the competition, Yan Guan didn't mention this at all. Clearly he felt this matter wasn't good.

Yang Feicheng and the Infinity Sect elders didn't say anything about it as well. Even the Black Ice Sect didn't support this, clearly this South Alliance wasn't plausible.

This was all because of that Ye Mo! All Yang Feicheng could think about now was how to kill Ye Mo. Even though Ye Mo had Lu Wuhu, if he used all of Infinity Sect's power, he would have a chance to kill Ye Mo.

Infinity Sect had 5 truth realisation states and if they worked with Lightning Cloud Sect to trap Lu Wuhu first and then kill Ye Mo, it wouldn't be hard. They'd already brought the conflict to the surface so they might as well be quick and fast. He didn't believe Pill City would fight two 9-star sects to the death for a dead Ye Mo.

Chapter 1154: The Power of Level Seven Pill King

Ye Mo scanned casually, Yang Feicheng's face was icy cold. Ye Mo subconsciously shivered, he estimated that this Yang Feicheng probably wouldn't rest until he killed him. Even with Lu Wuhu, Yang Feicheng might calculate him into part of his schemes too.

No he couldn't continue like this or he would be at an absolute disadvantage. He wasn't worried about going from Black Ice Sect to Pill City but of how to get to Mo Yue City after Pill City.

Thinking about this, Ye Mo got up and saluted with his fists to some cultivators. "Sect leaders and elders, it's my honour to be able to gather with you guys here today. When I go back to Pill City I will be staying there for a month. After that, I will go back to Mo Yue City. In order to thank everyone's support, one month later, those friends who can come with me to Mo Yue City and are above cauldron filling state, I will concoct for them a cauldron of pills for free. The pill has to be below heaven grade level seven."

Almost all the cultivators stopped their feet and looked at Ye Mo fervently.

One cauldron of heaven grade level seven pills! Even truth realisation state or disaster transformation states would find it hard for other people to concoct for them, much less cauldron filling state.

Pill City city lords could help people concoct heaven grade level seven pills, but were they willing? Even if they were willing, would you be able to pay the price? Many cultivators were thousands of years old and had a large store of spirit herbs. However, the trouble was they didn't have someone to concoct pills for them. Now that Ye Mo gave this promise, it was like gold raining from the heavens.

Le Yao nodded. This was Ye Mo using his natural advantage. There was almost no cauldron filling state cultivator who wouldn't want this.

Before the excitement ended, Ye Mo dropped another bombshell, "Everyone knows this and I've said it before – I believe I can reach level nine pill king in ten years, so I'll promise here again that those friends coming with me to Mo Yue City one month later, if they're disaster transformation state within 100 years, I can make a cauldron of heaven grade level nine pills for them. If a truth realisation state friend comes with me to Mo Yue City then after I reach level nine pill king, I will make ten cauldrons for them."

He even wanted to pull truth realisation state cultivators to Mo Yue City, Ye Mo's words immediately let people realize what was going on.

He was trying to get some bodyguards. Despite this, there were quite some people wanting to go with Ye Mo. As long as they went with him to Mo Yue City, they could get a free cauldron from a level seven pill king. Who wouldn't want this?

"City lord Ye, then we'll go with you to Pill City now and stay in Pill City for a month before going with you to Mo Yue City. How about it?" Le Yao smiled.

Ye Mo knew Le Yao was helping him and immediately saluted with his fists. "I would love that, thank you sister Yao."

"City lord Ye, your mouth is really sweet." Le Yao smiled, "Perhaps me and my sect's truth realisation state elder will go with city lord Ye."

Ye Mo was overjoyed.

With Le Yao's words, many sects had decided to send an elder to Pill City. Infinity Sect's Yang Feicheng's face was very cold. He knew he had miscalculated one thing, and that was Ye Mo's pill king identity.

Ye Mo's level seven pill king power was fully showcased here. It was their gathering to pull allies, but now it became a place for Ye Mo to rally support. Yang Feicheng was so angry he was about to spit blood but there was nothing he could do.

He had gotten so many masters to support him here, and if he went to Pill City and called out, there would be a few more truth realisation states as well.

But the Infinity Sect suffered so greatly at Ye Mo's hands, there was no way he would let Ye Mo go. He also knew that since Infinity Sect annihilated Sword Valley, the feud between them was unable to be resolved.

Wang Chuanhe fell silent now. Ye Mo was just hollow spirit state power and easily dissipated the South Alliance. At the same time, he got so much support. Lightning Cloud Sect only lost one Tian Aofeng, should they keep fighting with Ye Mo?

Infinity Sect fought with Ye Mo and lost four prodigy sect members already and Ye Mo was only hollow spirit state level one, but he was almost invincible in hollow spirit state. What if he reached body condensation state or cauldron filling state?

Wang Chuanhe who was adamant on killing Ye Mo felt his thought wavering.

Ye Mo didn't reject any sect who wanted to connect with him. He welcomed all those who wanted to go with him to Mo Yue City.

Luo Ying knew that Ye Mo was going to take them away immediately so she brought Beiwei to Fan Lianzhu and bowed. She felt that Ye Mo didn't seem to be friendly to her master but her master was really nice to her.

Fan Lianzhu sighed, "Cultivate hard, for you, cultivation is the most important."

"Yes master!" Luo Ying was happy that she was able to be with Ye Mo but she couldn't rebuke her master's words.

Fan Lianzhu gave a rainbow handkerchief to Luo Ying and another pair of cloud boots to Tang Beiwei before saying, "Master doesn't have anything good, I got these two cultivation artifacts in my earlier years. Now I'll give them to you."

Luo Ying and Tang Beiwei took these things and thought, without their master, they wouldn't be in a good situation and felt quite sentimental about leaving Black Ice Sect.

Fan Lianzhu smiled. "When your cultivation levels are high, you can come back and visit master. Especially Susu, if your husband wasn't Pill City city lord and a level seven pill king, master would never let you leave Black Ice Mountain."

Yan Guan saw this and breathed easy. He brought a disaster transformation state elder to Ye Mo and said, "City lord Ye, Yan congratulates you on your reunion with Susu. Elder Shi is our disaster transformation state elder and my martial brother. In order to celebrate your return to Mo Yue City, he will come with you, I hope you don't mind."

Ye Mo laughed. Of course he wouldn't mind, the more masters who went with him the better. Even though he knew they came for the cauldron of pills, he was grateful.

...

Many days later, in Pill City.

Those who came with Ye Mo to Pill City and wanted to go to Mo Yue City were arranged to stay at VIP places in Pill City.

Luo Ying, Ning Qingxue, Tang Beiwei, Luo Fei and them reunited again and were very happy. They caught up and were very emotional. When they came to South Peace State they went around everywhere. Luckily Susu's master arranged places for them or they wouldn't dare to think about their predicament.

Only Yun Ziyi was lost. Luo Ying and them knew that Ye Ling and Song Yangzhu as well as Su Jingwen were still in North Far State. Ye Mo said he would go bring there to Mo Yue City after they returned to Mo Yue City.

They knew how hard it was to bring this many people over but everyone believed in Ye Mo. He came to Luo Yue later but was far ahead of them.

It had been two or three years and he needed to bring them back.

He wanted to find Lu Wuhu to see if he could make a top grade flying magic artifact for him to fly back.

Ye Mo was going to find Lu Wuhu but Lu Wuhu was more desperate to find Lu Wuhu. There were too many people on the road and Ye Mo was with his Susu. He didn't even get an opportunity to speak. Now, he had to ask Ye Mo.

Ye Mo was pulled inside the house before he even walked in.

When Ye Mo actually went inside the inner room, he was dazed. There was another small dimension here. It was spacious and luxurious. The spirit chi was so dense that he didn't dare to imagine, there was at least a low grade spirit range here.

"Stop acting shocked, you have much better things than me. I only have this spirit range, you probably don't even consider it valuable. Heaven flame, earth flame, that pill cauldron, and that octagonal cauldron. Hehe, especially that kitchen knife..." Lu Wuhu smiled.

"Do you have something important that you called me over so desperately?" Ye Mo quickly changed the topic. If this old guy wanted to take his things by force, there really was nothing he could do.

Lu Wuhu glared at him. "How can I be interested in your things?"

“That’s good, that’s good, my things aren’t worth money,” Ye Mo quickly said.

Lu Wuhu said in contempt, “Not worth money? The thing you annihilated the Fire Eating Bugs is Shadowless Worm right? Other people can’t tell, but I can.”

Lu Wuhu got up and waited excitedly for Ye Mo to reply.

Chapter 1155: Extreme Caliber Flying Magic Artifact

Ye Mo nodded, he had to admit it. It was because he had long since known that his little pet was Shadowless Worm.

But Ye Mo didn’t know anything about it, Thing didn’t it introduce either.

“It really is Shadowless Worm...” Lu Wuhu became excited. He clapped his hand and walked excitedly in circles but then shook his head, “Pity, pity, such a legendary thing is being wasted by you. I would rather you waste a few more South Peace State ten beauties than...”

Seeing that Ye Mo’s face looked bad, Lu Wuhu rubbed his hands and smiled, “I’m joking, I’m joking.”

Ye Mo ignored him, he had quite a few things that were legendary things but he still got them. There were too many legendary things. Jiu Qian’s One Purple Flare was also legendary. Even the Fire Eating Bugs he annihilated weren’t seen everywhere.

Lu Wuhu rubbed his hand and said, “Once the Shadowless Worm approves of a master, it will never change it, so don’t worry, I won’t scheme for it. But the Shadowless Worm has a specialty and that is each time it evolves, it envelops itself in silk. Have you seen this?”

Ye Mo remembered that and thus took out a ball of white silk and asked, “Are you talking about this?”

“That’s right, that’s right...” Lu Wuhu took it from Ye Mo’s hand and said, “Yes, yes it’s this!”

This was the second time Ye Mo saw Lu Wuhu so excited. The first time was when he took out the Bitter Bamboo leaf.

“Such a good thing – forgery treasure, treasure!” Lu Wuhu exclaimed.

Ye Mo said plainly, “Brother Lu, I know it’s forgery treasure but after you’re done looking at it can you give it back?”

Lu Wuhu looked at Ye Mo with some awkwardness but didn’t give it back. Seeing that Ye Mo didn’t talk for a while, he said embarrassedly, “How about I help you concoct something or attack for you three times and owe you...”

“Stop.” Ye Mo waved his hand. “You still owe me from last time and now here we go again.”

Lu Wuhu felt more awkward but didn’t want to let go of the silk strand.

Suddenly he seemed to have thought of something. He took out three jade boxes and opened them in front of Ye Mo, “Have a look yourself, take it if you like.”

After seeing these things, Ye Mo took a cold breath in. He thought he had a lot of good things but now seeing the things Lu Wuhu took out casually, he immediately realized that he was a beggar compared to Lu Wuhu.

There was level eight material Dark Ice Marrow, level eight spirit herb Illusion Magic Flower and even One Flame Lotus Heart.

Kong Ye gave him one before and now Lu Wuhu had one too. Luckily he hid his Mist Lotus Heart Fire in the Golden Page World as soon as he came to Pill City or else it would’ve been found out by this guy.

Ye Mo knew that the Flame Lotus Heart was a top grade item. It might not be very good for forgery, but it was very useful to him. Yet Lu Wuhu was willing to take this out. This could let his Mist Lotus Heart Fire upgrade. This guy knew he had the Mist Lotus Heart Fire and didn’t take it out last time.

Yet this was just his casual offer, one could see how many good things he has stored away. Ye Mo suddenly regretted giving him the Bitter Bamboo leaf for just a few times of helping him.

What was Shadowless Worm? How could Lu Wuhu take the silk it made so seriously? Suddenly, Ye Mo even wanted to learn forgery himself. What if this silk was a very good thing? Then wouldn't he lose greatly?

Putting that aside, Ye Mo looked at these things. He wanted all of them.

But before he could speak, Lu Wuhu said, "Brother Ye, since you know the use of the Shadowless Worm silk, you should know that it's first silk has the lowest value. You can only choose one."

Ye Mo was dumbfounded. He didn't know shit. Ye Mo knew that he could only get more things out of Lu Wuhu if he said he knew the value.

Now that Lu Wuhu said this, didn't that mean he could only choose one? Suddenly, Ye Mo felt things weren't right. If the silk could only swap with one item, Lu Wuhu wouldn't take out this many. He only needed to take out the Flame Lotus Heart. He would take it for sure.

Since he took out Flame Lotus Heart as well as many other things, it meant he was so desperate for it so he took out something that was equivalent in value to the silk. The last sentence might be Lu Wuhu testing him. Thinking about this Ye Mo said calmly, "Brother Lu don't try to scam me please, I'm a level seven pill king. I don't need to say the value of the Shadowless Worm silk."

Then, Ye Mo said, "I'll take all of it." He then moved those jade boxes close to him.

Lu Wuhu saw this and didn't get angry, "Okay, but you must agree that the next time your worm makes silk you need to give it to me, at least three times."

Ye Mo quickly said, "That's fine that you have a proposal, but so do I, and that is that you let me study your forgery manual."

“You want to learn forgery as well?” Lu Wuhu looked at Ye Mo in disbelief. “You’re a pill king and a formation great master, now you want to learn forgery?”

Ye Mo scratched his head and said in embarrassment, “It’s a bit troublesome to ask you every time.”

“Okay, okay, you can be my disciple.” Lu Wuhu rubbed his hands and grew excited.

Ye Mo suddenly stared at Lu Wuhu and asked, “Brother Lu, how many level nine forgery grand masters are there in South Peace State?”

“Around 7 or 8,” Lu Wuhu said.

“Then what about pill kings above level seven?” Ye Mo asked.

“About four or five...” Lu Wuhu suddenly felt that Ye Mo had bad intentions.

“Then you want me, a level seven pill king who is rarer than forgery grand masters, to be your disciple? What do you think the old pill kings in Pill City would think?” Ye Mo took the jade boxes and asked calmly.

Lu Wuhu smiled, “I’m joking, I’m joking. Here, this is a forgery manual.” Lu Wuhu threw a jade slip to Ye Mo.

Ye Mo saw that Lu Wuhu wanted to send him off but he said slowly, “Brother Lu, you told me last time you would help me forge and I haven’t had time to find you. I came today just for that. Of course, if it’s beyond a cultivation artifact I would love it even more.”

Lu Wuhu said unhappily, “I knew it. Tell me, what do you want?”

Ye Mo said, “I want an extreme grade flying magic artifact that can fly from South Peace State to North Far State...”

“What?” Lu Wuhu interrupted before Ye Mo finished. “Are you dreaming? Even if you have that, you can fly from South Peace State to North Far State yourself? The ancient beings in the Heartless Sea would’ve devoured you countless times. Even I need to use a lot of effort to go from South Peace State to North Far State without taking the teleportation formation.”

Ye Mo asked again, “Just tell me – can you do it or not?”

Lu Wuhu smiled. “Even if I can make it, do you have the materials? It needs special flying materials, even I can’t gather them all.”

Ye Mo took out a few materials and asked, “What about these things?”

Lu Wuhu saw these things and his eyes were unable to move anymore. “9-Feather Golden Eagle’s tail feather, a level 10 material. Huang Star Rock, a level nine material. Half extreme grade Star Sand, a level nine material...”

He stared at Ye Mo. “Where did you get all this from? Huang Star Rock and the tail feather are the most suitable materials to concoct flying magic artifacts. Did you long want to concoct a flying magic artifact, that’s why you were searching around everywhere?”

“That’s right brother Lu, can you tell me if it can be made?” Ye Mo said helplessly, that was all he had.

Lu Wuhu nodded. “Of course it can, but it’s missing a main material. I happen to have a top grade 10000 year Liu Wood Heart, I’ll give it to you as well. I’ll even add a bit of that Bitter Bamboo leaf, but even with this top grade flying magic artifact, your power is a bit...”

Ye Mo knew that his power was too low.

Chapter 1156: Ye Mo’s Woman

“What sort of flying magic artifact do you want?” Lu Wuhu asked.

Ye Mo thought and said, "One that is stealthy but also fast."

"Okay, come pick it up half a month later, hmm..." Lu Wuhu picked up those jade boxes.

"What?" Ye Mo asked in confusion.

Lu Wuhu took out a small black rock from the jade box containing the Huang Star Rock and looked at it excitedly. "World Rock, there really is World Rock... there really is World Mountain, there really is..."

He suddenly looked up at Ye Mo and said, "You not only have Bitter Bamboo but also World Rock. How do you have so many other worldly things?"

Ye Mo cursed. He found this piece from the ruin of Yu Baisheng. He found that there was a material he didn't know once he got the jade box containing the Huang Star Rock. When he came to World Mountain, he realized that it was World Mountain Rock. But he already got a huge block of world rock from the World Mountain. He didn't care about this little piece so he didn't even do anything about it.

But now, Lu Wuhu saw it today and this was really lethal.

Seeing Lu Wuhu stare at him, Ye Mo could only say, "I found this small rock and the Bitter Bamboo leaf at the bottom of that big lightning mountain in Truth Fall Palace forbidden grounds. I didn't know it was World Rock, if you need it then take it. It really has no use for me."

Lu Wuhu looked at Ye Mo dubiously for a long while before saying, "Your luck is too absurd."

Luckily, Lu Wuhu didn't delve deep into it, he took out that small piece of World Rock and said, "The mass of the World Rock increase ten times for every time it's volume doubles. No one can explain why it is so because this is an utmost pinnacle forgery material. You really have a lot of good things."

"Go back first, don't worry. I'll add some extra materials for your Dark Cloud Pike since I got your World Rock." Lu Wuhu knew Ye Mo was lying but he couldn't do anything about it.

He didn't suspect that Ye Mo had more World Rock or Bitter Bamboo leaves as those things were too rare. Even getting a little bit required insane luck.

Ye Mo breathed easy and quickly left Lu Wuhu's shop. To be honest, he was really scared that Lu Wuhu would keep asking. Luckily Lu Wuhu knew that he was lying and still didn't keep asking. This was a rather qian bei quality.

Although Ye Mo really wanted to ask what the main purpose of World Rock was, he was scared that Lu Wuhu would think he had more World Rock.

...

After leaving Lu Wuhu's shop, Ye Mo completely delved into forgery. He gave Lin Yiban tens of millions of spirit stones to buy all sorts of materials in the Pill City.

With Ye Mo's wealth and his identity it was all too easy to buy things in the Pill City.

Half a month later, could already forge low grade spirit artifacts. They didn't look very good but Ye Mo was very happy. This speed was very astounding.

Although Ye Mo got Lu Wuhu's forgery manual, that was just a nice way of calling it. It was only introductory forgery and explained some materials and flames.

As for materials, Ye Mo knew a lot from Thing.

If it was given to someone else, it wouldn't be of much use, but to Ye Mo it was enough. He just needed a rough introduction.

Three Birth Chant's main purpose was to form its own system. As long as he had the start, Ye Mo would be able to complete it. But Ye Mo knew this was because his cultivation level was too low, if he was more powerful, then he wouldn't need this to form his own forgery system.

Ye Mo believed if he worked hard, he would be able to make top grade spirit artifacts in about a year or so, or even extreme grade spirit artifacts.

Other than forgery, Ye Mo stayed with Ning Qingxue and Luo Ying and them all day long. These days, he had been going everywhere to reach higher cultivation levels and rarely spent time with them. Now that they were finally together, he wanted to stay with them more as well.

It seemed a little crowded with so many people living in this small yard. Plus, Ning Qingxue and Luo Ying were both golden core state peak stage now. Ye Mo didn't plan for them to form their nascent soul in the Pill City. It would be when they went back to their own place. He would change their cultivation methods after they reached nascent soul state.

Today, he was chatting with Luo Ying and Qingxue when he received Lu Wuhu's message. The flying magic artifact was finished.

Ye Mo just want to go to Lu Wuhu when Ning Qingxue suddenly asked, "Husband, do you have another wife called Xiaoyun?"

Ye Mo immediately fell into awkwardness. He knew that Qingxue and Luo Ying knew about this but he didn't know how to mention it to them.

They were from earth. It was already absurd that he married Ning Qingxue and Luo Ying, but now there was Xiaoyun. They also knew about Song Yangzhu and Su Jingwen.

Seeing this Luo Ying smiled and walked up to Ye Mo and grabbed his hand. "For you to like Xiaoyun, she must be a very good woman, where is she now?"

Ye Mo's eyes flashed with some sadness. He often thought about Mu Xiaoyun as well, but there had been no news of her. Even for Yimo and Zifeng he at least got some news of them, but there was nothing for Xiaoyun. Ye Mo even suspected whether she had come to Luo Yue continent or wasn't alive anymore.

Ning Qingxue walked to Ye Mo's other side and grabbed his hand as well. "Husband, we're not telling you off. We know Xiaoyun is a very good girl. We often heard Ziyi talk about her. Now that we're together everyday, I think it would be great if everyone could be here like this everyday."

Ye Mo grabbed their hands and said, "Sorry I didn't tell you about this before, but I really didn't know where to begin. Xiaoyun is a good woman, I miss her a lot. Don't worry, from now on there won't be anyone else."

He married Song Yangzhu because there was Yimo. Meanwhile, Mu Xiaoyun was a girl Ye Mo couldn't bear to abandon. If he abandoned her, her fate would be miserable. Mu Xiaoyun was a very understanding and loving woman, Ye Mo was indeed into her. Almost all the good characteristics of a woman could be found in her.

As for Su Jingwen, Ye Mo had been hesitant in sleeping with her. Of course part of it was due to her not reaching foundation establishment state, but after she reached foundation establishment state, Ye Mo still didn't do that. It wasn't that he didn't like Su Jingwen but he wanted to find Qingxue and Luo Ying first before he got with her. That was not only paying respect to them but also a promise to Su Jingwen.

Su Jingwen chased after him from Ning Hai to Luo Ying, then to the small world, then to South Peace State. If he hadn't seen her bracelet, she would've died in a foreign world. No one knew about it, he was truly touched by her love.

On that snowing street, Su Jingwen stood there silently in front of him like a snow woman as she watched him. That scene was forever etched in Ye Mo's brain. At that moment, he accepted Su Jingwen.

He could even imagine how lonely Su Jingwen was after Yimo was taken away. It was already hugely fortunate that she was able to survive in the cultivation realm.

"We know husband, don't think too much. Go to Lu qian bei, he probably called you just now. After Xiaoyun, Jingwen and Yangzhu come to Mo Yue City, we will never separate."

Song Yangzhu felt Ye Mo's sadness. She called Ye Mo 'husband' again. It was a term learned from Earth; it was common but could express her intense feelings. Luo Ying found herself gradually liking this term.

Chapter 1157: Assassinate Ye Mo

Lu Wuhu looked satisfiedly at the flying magic artifact in his hands. Seeing Ye Mo come over, he quickly waved his hand to Ye Mo and gave it to him. "What do you think? Black Cloud Pike, made just as you wanted. An extreme grade cultivation artifact. If it wasn't that the level nine materials were a little lacking, I might have made into a half immortal artifact."

Although he said it was a pity, Lu Wuhu was clearly very happy with his creation.

"It's actually an extreme grade cultivation artifact?" Ye Mo picked up the pale blue Black Cloud Pike joyfully. The Dark Cloud Pike felt like a feather. He loved the appearance. He thought it would be very good if a half extreme grade cultivation artifact was made, but Lu Wuhu forged an extreme grade cultivation artifact.

The reason Ye Mo chose Dark Cloud Pike was because it was good at stealth. It was usually very hard to find.

Ye Mo felt the Dark Cloud Pike and loved it the more he looked at it. Lu Wuhu was indeed a forgery grand master.

"After you spirit control it, the inside area is nearly 6 meters. You can put the decorations inside yourself. In order to increase speed and defensive capabilities, I've shrunk the area. There's a stealth formation inside," Lu Wuhu said pridefully. Clearly he had seen Ye Mo's astonished face.

Ye Mo immediately got up and bowed to Lu Wuhu. "Brother Lu, I'm really grateful to you this time. I owe you this time, I wanted to ask you to come to Mo Yue City with me and then return the favour you owed me, but now I'm embarrassed to ask that."

"Haha..." Lu Wuhu laughed. "Very well, I like you owing me. At the end of the month I will go to Mo Yue City as well."

Then Lu Wuhu said again, "I quite like you, I was planning to bear the pain of giving you a half extreme grade attack cultivation artifact, but your kitchen knife is better than all of mine so I thought never mind."

How could Ye Mo not know that Lu Wuhu wanted to see his Zi Xu? He took it out and gave it to Lu Wuhu. "Brother Lu, what do you think of it?"

"Good means, it's really good forgery method..." Lu Wuhu felt Zi Xu and exclaimed, "This is definitely an ancient treasure!"

He looked at Ye Mo and said, "You've spirit controlled this kitchen knife so you should probably know that it's only a sword fetus right?"

Before Ye Mo could nod he said again, "You should know that this fetus can add materials in to upgrade the magic artifact. The first time you add materials, it will keep the same appearance forever."

Ye Mo nodded.

Lu Wuhu said seriously, "You must not casually add in materials to upgrade it. If the level of the materials isn't high enough, it will greatly weaken your sword. Second, your forgery skills aren't good enough and that will also affect this treasure."

Ye Mo knew this of course, or else he would've long since upgraded Zi Xu already. He wasn't going to use level five or level six materials to upgrade Zi Xu.

Seeing this, Lu Wuhu gave Zi Xu back to Ye Mo. "When you have enough materials, come find me and I'll help you."

Ye Mo smiled and put Zi Xu away. He had already started forgery himself. When he found enough materials he wouldn't need to ask Lu Wuhu for help. He knew that Lu Wuhu must have a lot of top grade materials, when his forgery skills were high enough, he might be able to find materials from him.

After leaving Lu Wuhu, Ye Mo spirit controlled the Dark Cloud Pike at his place. He found that there were about 30 square meters of area and two rooms. Ye Mo was very happy with this area. This was enough for him.

There were spirit stones sinks at the front and back of the Dark Cloud Pike. It could not only run on spirit stones but also on spirit chi. Ye Mo looked at the tens of formations and knew that Lu Wuhu was also a formation grand master. He couldn't help admire him. But Ye Mo also knew that most forgery masters were also formation masters.

"I'll call you Blue Moon from now on," Ye Mo said.

...

Wang Chuanhe, who had returned to Lightning Cloud Sect, had a man facing him who was waiting for his reply.

It was Yang Feicheng, he came to Lightning Cloud Sect for cooperation.

The reason Wang Chuanhe didn't reply was that the sect was heavily divided on what to do with Ye Mo. Some elders believed that they must kill Ye Mo no matter what to preserve the authority of the Lightning Cloud Sect. The other elders believed that Ye Mo had established his grounds and it would cause the sect trouble if they killed him.

Yang Feicheng wanted to attack Ye Mo while he went from Pill City to Mo Yue City. But Wang Chuanhe was planning to give up after knowing Ye Mo invited so many masters.

After all, the Infinity Sect had the greatest conflict with Ye Mo. Lightning Cloud Sect only lost Tian Aofeng.

"Brother Yang, Ye Mo has built his foundation and he invited many helpers this time. There's no way for us to kill him on his path. Instead, we would overtly offend the Pill City." Wang Chuanhe sighed, "I want to kill this guy immediately like brother Yang, but the situation is such that we can't."

Yang Feicheng said calmly, "Brother Wang, I'm sure that if we don't kill Ye Mo this time, after he goes into Mo Yue City we'll never have an opportunity to kill him. Do we dare to attack Mo Yue City? With Ji Ling's relationship to Ye Mo, he would set up the top grade defense formation for Mo Yue City. Perhaps before we even attack Mo Yue City, Pill City would find an excuse to attack out sect."

He paused and got up. "Out of the people going with Ye Mo to Mo Yue City, there's only one truth realisation state from the Pill City besides Lu Wuhu. There would be at most three or four from other sects. We don't have to consider those below truth realisation state. As long as we stop those few truth realisation state cultivators, we can instantly kill Ye Mo."

Wang Chuanhe looked at Yang Feicheng in confusion, "How do you know there's only one truth realisation state cultivator from the Pill City?"

Yang Feicheng smiled. "Half a month ago, Yue Qichao and Shen Guanqing left Pill City to an unknown place. Without Yue Qichao's help, do you think this Ye Mo would have a truth realisation state to send him off? Having one was already unexpected. My sect has 5 truth realisation state cultivators while yours has four. We have 9 truth realisation state cultivators in total, if we add more than ten disaster transformation state cultivators...."

Yang Feicheng stopped and looked at Wang Chuanhe.

Wang Chuanhe asked in shock, "Brother Yang, you're saying to send out all of our truth realisation state cultivators and more than ten disaster transformation state cultivators just to kill Ye Mo?"

Yang Feicheng nodded. "That's right, we stop those few truth realisation state cultivators and as long as we have one spare truth realisation state, we can instantly kill Ye Mo. If Ye Mo is dead, even if the Pill City knows we killed Ye Mo, what can they do to us when the impending disaster of South Peace State is coming? Even if the disaster isn't to come, do you think the Pill City would annihilate two 9-star sects for a dead pill king?"

Yang Feicheng sneered. "The Pill City isn't that powerful and they won't do that. We annihilated the Sword Valley, do you see the Pill City doing anything?"

"It really is so," Wang Chuanhe murmured.

After a beat, he nodded firmly. "Okay, just this time, if we still aren't able to kill Ye Mo, we won't be involved anymore."

Yang Feicheng nodded. "Of course it's just this time. If it doesn't work, we won't do things so casually as well."

But he sneered in his head. "If I'm going to let your sect completely break free from this, I would be too dumb."

...

Meanwhile, in Pill City.

Ye Mo, Luo Ying, Qingxue and Beiwei sat together.

There was no disagreement about going back to the Mo Yue City. The Pill City was safe, but this wasn't their place. Even for cultivation, Ye Mo didn't dare to go into Golden Page World. He was renowned as city lord but his power was limited, it wasn't much more than an elder.

"Brother we have 3 truth realisation state cultivators including Lu qian bei, and 6 disaster transformation state qian beis as well as 9 cauldron filling state qian beis. With this many masters, what power can stop us?" Tang Beiwei asked.

Ye Mo shook his head. "Yang Feicheng would risk everything for sure to give me a heavy blow this time. If city lord Yue was still here I could ask him for help, but he's going out for at least a year or two. I can't wait that long. Although we have 3 truth realisation states, that's far from enough. Infinity Sect has five and Lightning Cloud Sect has four, if they all come, they can instantly kill us."

"Do they have the guts to do that?" Ning Qingxue knew Ye Mo's status in the Pill City and asked in disbelief.

Chapter 1158: Truth Realisation Battle

Ye Mo shook his head. "I don't know, but I have to be careful. What if they really dare to do that? Pill City won't protect you guys for a dead pill king. And I think it's 90% likely that they will attack."

Ye Mo has experienced enough to know that when a person is still alive, the connections are still there. If something happened to him, no matter how much the Pill City city lord approved of him, Luo Ying and Qingxue would meet a tragic fate. Whether it was for him or the people with him, he felt it wasn't wrong to be careful. Plus, he was almost certain that those people would attack.

The city lords of Pill City happened to leave right when he was going to leave. This was quite coincidental. If they didn't really have business, then it meant that someone drew them away.

When they heard Ye Mo say the word 'dead', they immediately became nervous and grabbed Ye Mo's hands tightly. They had been hoping to find Ye Mo and stay together forever. Now they were just together for a month and there was potential death already.

Seeing their worry, Ye Mo smiled and said, "Don't worry, I have already made arrangements. I've decided for us to go first."

"What? Brother, didn't you say that even if we go together with Lu qian bei we can't guarantee our safety? If we go first ourselves, how can we escape from the hunt of the Infinity Sect?" Tang Beiwei asked.

Ye Mo said calmly, "The ship heading to Mo Yue City belongs to Ji Ling qian bei. I've asked Ji Ling qian bei to help set up a teleportation formation on the ship. When the ship starts, we'll take the teleportation formation to leave first. Then I can take you to Mo Yue City. As long as we get to Mo Yue City, they won't dare to attack the city."

Ye Mo had decided to do this after careful consideration. He had Blood Moon and after he left the teleportation formation, he could take them towards Mo Yue City rapidly. As long as he left, even if the Infinity Sect's and Lightning Cloud Sect's power was greater than his protection squad, they wouldn't dare to kill anyone.

The other people didn't know if it would work but they all felt that was all they could do.

...

In Pill City.

A huge ship stopped outside the pill association. Almost all the pill kings and Pill City elders came to send them off.

Three truth realisation state cultivators, 6 disaster transformation state cultivators and 9 cauldron filling state cultivators all went on the ship.

Amidst the applause, the ship rose into the sky and disappeared from above Pill City.

"I'm going to activate the teleportation formation, only two people need to stay here," Ye Mo looked up and said.

"I will stay," Gu Wenqian said without hesitation. He was hollow spirit state middle stage power.

"I'll stay too," Mi Zhenjie said.

Ye Mo nodded. "In that case, the rest of the people can leave with us through the teleportation formation."

Other than Ye Mo, Ning Qingxue, Luo Ying, Xin Zhida and Luo Fei, there were Miao Wuren, Huang Lanlan and Gan Liang from Sword Valley as well as the couple Lin Yiban and Xu Tong.

...

Ji Ling's ship was flying very fast and it had been more than a day since they Pill City. Ji Ling was talking with Lu Wuhu and the other two truth realisation state cultivators when at this time, Lu Wuhu suddenly got up.

The rest of the people all got up seeing this.

Even the disaster transformation state and cauldron filling state cultivators came out. An even larger ship had stopped Ji Ling's ship. More than ten unfamiliar faces walked out but before they attacked, their powerful force sweeping over.

Ji Ling and the cultivators behind them were all shocked. They thought that this was a casual run to Mo Yue City that would get them a free cauldron of pills from Ye Mo, but there were such powerful foes waiting for them. There were more than ten cultivators and half of them were in truth realisation state.

Nine truth realisation state cultivators! Just these nine were enough to kill everyone here. Plus, they had nine disaster transformation state cultivators.

Some people began to regret going on Ye Mo's ship and being stopped. Those people wore masks but clearly didn't care about getting recognized. So what if everyone knew they were Infinity Sect and Lightning Cloud Sect's truth realisation state cultivators?

Lu Wuhu laughed and his chi exploded. "Covering your ears to steal the bell, you think no one knows who you are just because you wear a mask? You're enough to rob me."

"Brother Lu, I admire you, we're all truth realisation state cultivator but brother Lu is a qian bei. We don't want to be your enemies so please move aside, we just want to kill Ye Mo. Everyone else has nothing to do with us," a truth realisation state tertiary stage cultivator walked up and said.

Lu Wuhu sneered, "What if I don't agree?"

"Then don't blame me," the cultivator said and waved his hand. A black rainbow fell on his hand.

Before it was even released, it was suffocating the people present with pressure.

Such a powerful magic artifact, this person hadn't even attacked but his magic artifact was this powerful. How terrifying would it be if it was in action?

Lu Wuhu saw this and his face changed drastically. "Infinity Sect is really willing to use a lot to kill Ye Mo. You've even taken out your sect treasure, the low grade immortal artifact Shapeless Black Rainbow."

Lu Wuhu and the rest fell silent, they'd even taken out their sect treasure, clearly they were adamant on killing Ye Mo.

That cultivator said deeply, "Friends, I won't say the reasons but I can guarantee you that if you don't attack we won't attack. We just want to kill one person and that is Ye Mo. If you want to stop us you will be our enemy. We will kill our enemies without hesitation."

Lu Wuhu saw everyone fall silent and sighed. He thought Infinity Sect didn't dare to stop them but they did and sent out all of their elites. Luckily that kid was cunning like a fox, otherwise even he wouldn't be able to protect him.

Even so, Lu Wuhu wasn't someone anyone could abuse. He flipped his hand and an equally powerful magic artifact appeared in his hand.

"Low grade immortal artifact Truth Hack Axe?" Everyone knew Lu Wuhu had a low grade immortal artifact, but it was still shocking to see it.

"Brother Lu, are you really going to fight us to the death for a irrelevant cultivator?" that truth realisation state tertiary stage asked.

Lu Wuhu smiled. "Fight to the death with you? Just wait for the anger of the Pill City. Wait till the city lords come back."

That cultivator didn't say anything after hearing this, no one knew what he was thinking.

His eyes grew colder and colder, and after staring at Lu Wuhu for two seconds, he suddenly said coldly, "Attack!"

Immediately, the shapeless black rainbow was hacked out. Heavenly covering black rays swept out.

A strong feeling of dimensional collapse came. Some cauldron filling state charged out of the battle field without hesitation, they were scared to be swooped away by that dimensional collapse.

Lu Wuhu sneered and was fearless. He released his axe and a materialized axe shadow hacked towards the black rays.

Rumble

A huge explosion sounded and a dark hole appeared, everyone knew that space itself had been torn by their fight.

Lu Wuhu grunted and retreated a few miles out, that cultivator using the black rainbow spat a mouthful of blood and retreated tens of kilometers.

When they took back their magic artifacts, the collapsed space started to recover and those cauldron filling state cultivators looked at this in terror. No one spoke. Such a level of battle wasn't something they could fathom. They thought cauldron filling state were the top cultivators, but compared to the battle of truth realisation states, they were nothing.

The other truth realisation state cultivators had charged over, Ji Ling was slapped a few kilometers away by a truth realisation state cultivator.

Chapter 1159: Nowhere to go

Hundreds of thousands of kilometers away, Ye Mo and them came out of the teleportation formation. Ye Mo quickly packed away the teleportation formation material. Ye Mo was very happy with this teleportation formation, it was very stealthy and the distance was far.

In a short time, Ye Mo's Blood Moon disappeared amongst the clouds.

...

Lu Wuhu was surrounded by four truth realisation state cultivators. Even though he had a low grade immortal artifact, he spat out a few mouthfuls of blood after being attacked by two truth realisation

state level nines and one truth realisation state peak stage as well as one truth realisation state middle stage cultivator.

With Lu Wuhu's temper, even though Ye Mo was gone, he wouldn't allow people to search the ship in front of him. However, although he was strong, he couldn't stop four truth realisation state cultivators at the same time. Plus, there was one using a low grade immortal artifact just like him.

In this battle, he couldn't split his attention to take care of other cultivators. Ji Ling's ship had long been destroyed by the attacks of other truth realisation state and disaster transformation state cultivators.

The battleground was a mess. Although most cultivators didn't fight, some were still caught out. One cauldron filling state didn't even go into the battle circle but was still swept away by the dark ray.

Lu Wuhu stopped the Shapeless Black Rainbow's attack again, and while he hacked the truth realisation state middle stage cultivator into pieces, a green sword light also pierced his chest. He was instantly heavily injured.

Lu Wuhu ate a pill and didn't dare to fight anymore. He knew that if it continued, he would die for sure. There were too many truth realisation state cultivators. The Pill City truth realisation state cultivator was stopped by one person. Heaven Demon Sect's Le Yao was heavily injured and taken away by the sects' truth realisation state elder. They left immediately.

Lu Wuhu also felt his cultivation essence began to weaken after that sword light hit him. He didn't dare to hesitate and darted away in a red beam of light.

There were 12 truth realisation state cultivator participating in the battle, 17 disaster transformation state and 9 cauldron filling states. This could be said to be the largest scale battle in the last 500 years.

One truth realisation state cultivator was killed by Lu Wuhu, but Lu Wuhu was also heavily injured and it was unknown where he went. Three cauldron filling states died protecting Ye Mo, they were from Heaven Star Sect and Golden Sword Sect. Three disaster transformation states died, one was from Black Ice Sect, one was formation grand master Ji Ling, and the last one wore a mask.

Other than this, Ye Mo's disciple Gu Wenqian and Sword Valley's elder Mi Zhenjie were killed.

This battle shook the entire South Peace State cultivation realm, but after so many masters died, Ye Mo and the people around him had all disappeared.

Yet even after this, the Pill City didn't say anything. Everyone knew it was the Infinity Sect and Lightning Cloud Sect behind this, but the Pill City said nothing. This wasn't like them.

With this, no one dared to say anything. Black Ice Sect lost a disaster transformation state elder but didn't say anything. Ji Ling was a formation grand master, but All Formation Sect was only an 8-star sect – they weren't scared of an attack but they didn't dare to seek revenge.

This was because they had the strongest defense and attack formation in the South Peace State cultivation realm. No sect could attack All Formation Sect, but formations couldn't be carried by your side.

...

Blood Moon was extremely fast and this made Ye Mo feel very good. With this speed, it should be fine even if he crossed the Heartless Sea.

"Brother, what is Mo Yue City like?" Tang Beiwei squeezed next to Ye Mo and sat down. These few days, her brother had been with his wives and she rarely had an opportunity to have a conversation with him.

Ye Mo smiled. "You will be very happy. That place is like Luo Yue city but prettier..."

"Are Lu qian bei and Ji qian bei fine?" Luo Ying asked.

Ye Mo shook his head. "There's no way something would happen to them. Even if they were stopped, as long as Lu Wuhu and Ji Ling qian bei moved aside and let them search the ship, the Infinity Sect and Lightning Cloud Sect would leave after not finding us. After Ji Ling qian bei comes to Mo Yue City and helps us set up extreme grade defense formations, even if the Infinity Sect and Lightning Cloud Sect want to kill me, they wouldn't dare to attack."

Luo Ying suddenly shook her head. “Lu qian bei is a master, how can he let someone check his ship – that’s impossible.”

Ye Mo heard this and suddenly got up. He broke out in a cold sweat, he had calculated everything except Lu Wuhu’s status.

Lu Wuhu didn’t mind small things, but letting these wan beis search his ship was impossible. If something like this happened, Lu Wuhu would be ridiculed.

If Lu Wuhu didn’t agree to the ship search, what would happen?

Bloody battle, there was no other possibility!

Understanding this, Ye Mo instantly regretted. If he knew this, he wouldn’t have asked Lu Wuhu to come.

“Stop!” Ye Mo immediately told Lin Yiban who was controlling the ship. “Change directions, we can’t go towards Mo Yue City.”

Lin Yiban changed direction without hesitation.

“What’s going on?” Tang Beiwei asked strangely.

Ye Mo’s face was very bad. “I’m afraid they’ve begun fighting. Susu is right, a master like Lu Wuhu would never let Infinity Sect cultivators search the ship.”

“Huh, then what do we do?” Tang Beiwei began to worry.

Before Ye Mo could reply, a messenger flying sword landed in his hand. Ye Mo just scanned it simply before his face changed drastically.

“What happened?” The people gathered around.

Ye Mo put away the messenger flying sword and clenched his fists said coldly, “Infinity Sect and Lightning Cloud Sect stopped our ship. Lu qian bei was heavily injured and fled. Ji Ling qian bei, Black Ice Sect’s Shi qian bei, Heaven Star Sect’s and Golden Sword Sect’s three cauldron filling state qian beis as well as Sword Valley’s Mi Zhenjie qian bei, and Hu Wen pill king were all killed. Heaven Demon sect’s Le Yao qian bei is heavily injured..”

“Huh...” Luo Fei shook. The only hollow spirit state elder of Sword Valley was killed. Xin Zhida cried on the spot. Ye Mo didn’t have time to teach her, she was taught completely by Gu Wenqian. Yet, this master and martial brother of hers was killed.

Everyone fell silent, even Ji Ling was killed. Clearly Infinity Sect and Lightning Cloud Sect didn’t care anymore.

Ning Qingxue got up and held Ye Mo’s hand trying to make him relax.

After a long while, Ye Mo said coarsely, “I did this to them, if I had waited till the city lords of Pill City were back before leaving, these things wouldn’t have happened.” Although Ye Mo knew that if the Infinity Sect and Lightning Cloud Sect were onto him, it would be the same even if he waited in the Pill City for a few years.

Plus, he needed to desperately increase his power, how could he waste time in the Pill City? Pill City was safe but firstly he couldn’t go into the Golden Page World to cultivate, and secondly he couldn’t go find the spirit marrow place.

“The messenger flying sword is from the Pill City’s truth realisation state elder. He told me I can’t go back to Mo Yue City now.”

Then, Ye Mo said to Lin Yiban, “We can’t go back to Mo Yue City indeed. Without Ji Ling qian bei to set up the formation, it’s useless if we go. They won’t do anything to Mo Yue City as long as we don’t go there. Plus, the city lords of Pill City will eventually come back. As long as I’m not dead they will have some concerns.”

“Turn south, we’ll head that way,” Ye Mo suddenly said. Without power, no matter how good you were at other things, you would need to borrow other people’s power. If the city lord could be drawn away once, they could be drawn away twice.

At this moment, Ye Mo decided that if he didn’t gain a certain level of power he would never come back and fight those 9-star sects. Pill City’s pill king – it sounded good but once you left the Pill City, people would only be nice to you if they wanted to ask you for pill concoction; if they wanted to kill you, you were nothing.

“Extreme south? That’s Ice God forbidden grounds,” Lin Yiban said.

Ye Mo nodded. “That’s right, we’re going there. Only that place would be safe. Only there would we find the things we need.”

The map Shan Bingfeng gave him was of the Ice God forbidden grounds.

Chapter 1160: Inhumane

Lightning Cloud Sect.

Wang Chuanhe sat in the main palace with a bleak face. They didn’t kill Ye Mo and Ye Mo didn’t go back to Mo Yue City. It would just give Pill City a reason to start a war if they annihilated Mo Yue City. Plus, he was not interested in killing a few mortals.

The reason he had a bleak face was because he now completely understood why Infinity Sect’s Yang Feicheng had to kill Ye Mo – to Infinity Sect, Ye Mo absolutely must die.

Ye Mo was this young and already a level seven pill king. He could kill hollow spirit state level seven prodigies from Infinity Sect as a hollow spirit state level one. He could even annihilate Fire Eating Bugs. He was absurd to the extreme. If there was any hollow spirit state cultivator who was as insane as Ye Mo, it could only be Chu Jiuyu. Even he wasn’t absurd to this extent.

If a cultivator like Ye Mo couldn't be connected with, then one must not have enmity with him. If you had enmity, you must kill him at all costs. Otherwise once he became powerful, how could he let go of those who tried to harm him in the past?

Yang Feicheng knew that they already had deathly enmity with Ye Mo and that's why they risked everything. They'd mobilized all the truth realisation state cultivators in their sect and even took out their sect treasure because they knew that if Ye Mo became powerful, Infinity Sect would be dead for sure.

Before, they might've hated Ye Mo but Ye Mo wasn't so hateful of them. But the Infinity Sect annihilated Sword Valley and then tried to scheme for Luo Susu. Plus Ye Mo killed many of Infinity Sect's core disciples, thus the Infinity Sect's hatred for Ye Mo was insane.

His sect didn't really do much. Even after Tian Aofeng died, they didn't have a head on conflict with Ye Mo or didn't have the time to yet.

So, the conflict between Infinity Sect and Ye Mo was one of life and death, but not between them and Ye Mo. But that was only before – after ambushing Ye Mo's ship, they were also in a life and death conflict now and also offended the Pill City.

At this moment Wang Chuanhe completely understood Yang Feicheng's bleak intentions. As long as he agreed, he wouldn't be able to retreat from this. Plus, they lost a truth realisation state cultivator.

If he had to choose between a truth realisation state cultivator and Tian Aofeng, he would choose the truth realisation state cultivator without hesitation.

But it was too late to regret. Now, he couldn't even have conflict with Infinity Sect, only an alliance with Infinity Sect and protect them now.

Tian Ji didn't dare to say anything at all now. The conflict between the sect and Ye Mo was mainly started by him because Tian Aofeng was his disciple.

If they killed Ye Mo it was fine, but Ye Mo wasn't dead and they instead offended the Pill City, Black Ice sect, Heaven Demon sect, Heaven Star sect, Golden Sword sect, All Formation Sect and a land forgery god.

Even if forgery god yelled, there would be many people helping him, much less Ye Mo.

It had been three months since the battle and South Peace State calmed down instead. The Pill City didn't look for Infinity Sect and Lightning Cloud Sect for trouble. Neither did Black Ice Sect as well as the other sects. Lu Wuhu seemed to have disappeared. Ye Mo's Mo Yue City was still the same.

At the same time, that level seven pill king city lord Ye also disappeared.

...

In the extreme south lands of South Peace State, there was a blue flying ship flying rapidly. It had been flying for more than three months but still hadn't arrived at its destination.

This was Ye Mo's Blood Moon. Ye Mo knew about the Ice God forbidden grounds from Shan Bingfeng's map but he didn't know it was actually one of the four forbidden grounds of South Peace State.

Lin Yiban told him this.

The four forbidden grounds of South Peace State were Demon Prison forbidden grounds, Flame Sea forbidden grounds, Ice God forbidden grounds, and Truth Fall forbidden grounds, in decreasing order of danger.

The Ice God forbidden grounds was ranked above the Truth Fall Palace forbidden grounds, Ye Mo knew how dangerous it would be even before going.

The more Blood Moon flew south the slower it got. Even the people on the Blood Moon felt the bone chilling cold. Luckily Ye Mo was a formation great master and set up multiple cold defense formations that finally stopped the weak cultivation level people from shivering.

Ye Mo even suspected that if he wasn't sitting on an extreme grade cultivation artifact, it would've frozen and cracked.

Would there be spirit marrow here? Ye Mo found it hard to imagine but he knew that Shan Bingfeng probably wouldn't lie to him.

Another month later, it was even harder to go forward. Ye Mo scanned his spirit sense out and found even his spirit sense was about to get frozen here.

Ye Mo didn't dare to be careless, although Blood Moon was an extreme grade cultivation artifact, who knew if it would crack.

Ye Mo released his octagonal cauldron and went outside the inner room. He walked to the front of Blood Moon. Although he had the octagonal cauldron, he still shivered. The octagonal cauldron made cracking sounds as though it was getting hit by countless ice shards. But Ye Mo knew they weren't ice shards, it was true terrifying coldness.

Ye Mo threw a few formation flags out, but before he could set up the defense forbidden grounds, they completely cracked.

Helplessly, Ye Mo could only activate Blue Moon's own defence formation.

Luo Ying and Qingxue stood at the door wanting see Ye Mo as they were worried for him.

Ye Mo signaled the two to go in and then took out Winter's Arrival from the Golden Page World.

Ever since his power and Shadowless got stronger, he rarely used Winter's Arrival. This was the first time he took it out.

He wanted to see if Winter's Arrival could absorb the extreme cold here. What Ye Mo didn't expect was that as soon as Winter's Arrival came out, it immediately attached to one side of Blue Moon and a faint white stream of chi was being sucked up by Winter's Arrival. That white grew faster and faster until it almost materialized.

Ye Mo rejoiced, Winter's Arrival could indeed absorb the intense cold here.

As soon as the frost was devoured by winter's arrival, Blue Moon sped up. Soon, it was flying at normal speed.

Ye Mo breathed easy.

"How can it be this fast?" Lin Yiban looked outside in shock. He felt that extreme speed. "I heard people say that once you're at the outskirts of Ice God forbidden grounds, even half immortal artifacts would be slowed down."

Ye Mo truly felt how powerful the Shadowless worm was. Not only was it covered in treasure but even the Winter's Arrival that came with its birth was this powerful. Just what was Shadowless?

Pity that day he pretended he knew things and didn't ask Lu Wuhu. But now, Ye Mo had made up his mind and decided to ask clearly when he got out of this Ice God forbidden grounds.

Blue Moon wasn't as cold as before due to Winter's Arrival so the people inside came out to enjoy the scenery.

"We're at the outskirts now!" Lin Yiban suddenly exclaimed.

Ye Mo also saw it, he was shook. There were not only ice mountains here but also ice figures. There were a few hundred of them.

Almost all of them were extremely beautiful women, they seemed alive but were frozen.

"So pitiful..." Tang Beiwei said in shock. These women were clearly instantly frozen to death.

What powerful being was this cruel and inhumane?
