Chapter 1221: Separated Trace Mark

“Dad, look, the white mist is gone, the Lost Soul Ruins is safe. There’s a dried up lake in the centre and there’s a formation to enter it. Sister and I went there – there were two cultivators there, both very powerful. That young looking man saved us.” The two young girls from before and a middle aged man came on the flying magic artifact.

The man nodded but didn’t go into Lost Soul Ruins, he looked at the direction Ye Mo left and frowned.

The green robed girl said, “Dad, someone just left here and his flying magic artifact is very fast.”

“Huh.” The red robed girl murmured, “Then should we go in or chase that person who left?”

Before the middle aged man could talk, a few more people dashed here, all truth realisation state cultivators.

They saw the mist dissipate from the Lost Soul Ruins and were shocked. The leading truth realisation state turned to the middle aged man and saluted with his fists. “So it’s Yin Zhun Island lord, brother Jie Feng. Your news is quite fast.”

The middle aged man smiled. “Dragon Teng king’s news is fast too, you came right after me.”

The people who came were the five truth realisation states from Dragon Teng Palace. No one wanted to give up a level seven pill king so they came together.

Dragon Teng king clearly felt some concern with this island lord Jie and smiled drily before looking back at the Yu Tian Island truth realisation state cultivator. “Brother Qi Rui, what’s going on? Why do I feel he’s in the Lost Soul Ruins?”

Teng Xlong was very shocked that Ye Mo went in, he thought Ye Mo just came to the outskirts.

Lan Qirui was very shocked inside despite looking calm. He felt his spirit sense mark was in Lost Soul Ruins before but was now gradually leaving Lost Soul Ruins.

He didn't know what Teng Xiong meant, did Teng Xiong not know his spirit sense mark was leaving or was there some problem with it? No matter what, he wasn't going to tell Teng Xiong this.

He frowned for a while and said, "I also feel he's in the Lost Soul Ruins. Is he not afraid to die?"

Then he walked up to the middle aged man and saluted with his fists. "Brother Jie, what's going on here, why did the mist disappear? It doesn't seem to affect spirit sense much either?"

The middle aged man smiled. "I just came here and haven't gone in yet, but I want to. What do you guys think?"

Teng Xiong nodded. "Yes, I agree. What do you guys think?"

A sharp chinned cultivator immediately said, "I, Huang Qi, agree too. There was a level nine spirit herb in there before, now is a good time to check."

The balding cultivator next to him also nodded. "I, Gong Zhe, agree too."

Then everyone looked at Lan, who thought for a moment before saying, "This Lost Soul Ruins is very dangerous, I need to think about it. After all, it's not easy reaching truth realisation state. The highest powered people in this region of the Heartless Sea are mostly here, it's not good if something bad happens."

The truth realisation state middle stage next to him heard this and also nodded. "I agree with brother Lan, we need to think about it."

Jie Feng suddenly smiled. "Then you guys think about it, we will go in first."

Then, Jie Feng went in without hesitation. Seeing this, the two girls followed.

Teng Xiong looked at Lan Qirui in confusion. According to his knowledge of him, he was no coward. He was a very adventurous guy. Now that the white mist disappeared, he didn't want to go into the Lost Soul Ruins.

Plus, Ye Mo was in there too. Was Lan Qirui not interested in this level seven pill king at all?

Regardless, Teng Xiong didn't hesitate and went in, so did Huang Qi and Gong Zhe.

Moments later, there was just Lan Qirui and the other truth realisation state cultivator. That cultivator asked, "Brother Lan, did you notice Ye Mo's trail?"

Lan Qirui nodded. "That's right, when we came he was still near Lost Soul Ruins, but now he's a few hundred thousand kilometers away; let's chase up quickly. Level nine spirit herbs aren't as precious as a level seven pill king. If we control him, then so what if Teng Xiong gets all the level nine spirit herbs? He would still need to come to us for help."

"Haha, great insight brother Lan." The truth realisation state middle stage laughed.

"Hai Cai brother, I know your support for me, there will be benefits for you too...." Lan Qirui smiled.

The two sped off.

...

"There's no soul pressure in here indeed, this illusion formation also seems to be lacking spirit power for support," Huang Qi said.

The red robed girl was about to say something but Jie Feng already spoke, "It really is so, we should be the first here otherwise, this illusion formation only needs hollow spirit state power to break it."

The red robed girl was straightforward but she also knew what her father meant and that was to not tell she came here before.

Jie Feng meant that indeed. He wasn't afraid of the three but it was better to be careful. This region was mostly populated by beast cultivators. He was able to take over a dense spirit chi island purely because of his power. Otherwise, the beast cultivators nearby would've devoured him whole.

They passed through a street and Teng Xiong noticed his spirit sense mark. It was in a broken shop on the side of the road, but Teng Xiong didn't search it with his spirit sense. He knew Jie Feng's power, he would notice something immediately.

He just acted normal and kept following Jie Feng. As long as this spirit sense mark didn't leave he wouldn't need to worry. His only worry was that Ye Mo's soul was lost. If so, it was pointless even if he found Ye Mo.

Jie Feng was a formation master and when he came here he frowned. "Someone has been here and changed up the formations here."

The two girls immediately knew it was the young man but they didn't dare to say it.

Soon, the group came to that dried up lake.

"There's a stealth formation here, it's been broken and there's a ruined formation door," Jie Feng said.

The truth realisation state level seven cultivator Gong Zhe said, "We can't scan spirit sense inside that formation door but there's spirit chi seeping out. Clearly, this is the place of the high level spirit herbs. There're six of us here, island lord Jie and Dragon Teng king are the strongest, don't you think we should divide things here before we go in?"

Jie Feng nodded and so did Teng Xiong. "What's your opinion island lord Jie?"

Huang Qi suddenly said, "How about this, we four truth realisation state cultivators each get one share, island lord Jie's two daughters can get one share together? If there're things other than spirit herbs, we can divide it later."

"I agree." Jie Feng nodded.

The rest of the people also agreed.

The group went inside.

"Someone has been here and took one spirit range and most of the spirit herbs," Teng Xiong scanned the area and said heavily.

Chapter 1222: Stopped Again

Everyone else saw this situation as well. There was just a ruined low grade spirit range and low level spirit herbs. The highest level spirit herb was only level six. There were some rare ones but none of them interested these truth realisation state cultivators.

There seemed to be a herb garden next to it but it was empty. Judging by the ruins, some people moved it away not long ago.

Only Jie Feng's two daughters happily went to dig up low level spirit herbs, the rest of the cultivators didn't do anything. There was no way they were going to fight over low level spirit herbs with hollow spirit state cultivators.

"Things were taken away, I'm going to look somewhere else." Teng Xiong saluted with his fists and left this place.

Huang Qi and Gong Zhe glanced at each other and saluted with their fists. "Island lord Jie, we'll be going other places too."

Then, the two left here rapidly and only the middle aged man and his two daughters were left.

Jie Feng frowned and suddenly said, "You Kui, tell me again what you and You Ning saw."

The green robed girl nodded. "When we came in, there was that young man fighting with a female cultivator. He seemed to have the lower hand and we couldn't see his power. When the female cultivator saw us come in, she was about to attack us, but at that moment the guy counterattacked. The female cultivator had to give up attacking us and fight the male. We ran out at that time.

Jie Feng nodded. Cultivators couldn't be judged on looks, he believed Ye Mo was a powerful cultivator who has been cultivating for many years. Otherwise, he wouldn't be able to dissipate the grey mist and come here.

The younger sister also said, "I saw his magic artifact was a purple kitchen knife, it seemed to be very strong."

"It seems that the one who fled when we came here was one of them, dad do you think it was the guy or the female who got away? Should we chase up?" the green robed girl asked.

The middle aged man thought for a moment and said, "From now on, you two won't be allowed to leave the island alone again. If it wasn't for luck, you two would've been dead."

The red robed girl wasn't willing but still agreed.

Jie Feng immediately said, "Regardless of who got away, the high level spirit herbs are with them. If we chase up now, and there's Immortal Curl Flower, that's the only spirit herb useful to your sister. We need to go now, that person's flying magic artifact is an extreme grade cultivation artifact. If we waste more time we won't be able to catch up."

...

Teng Xiong's face was green now, there was just a simple spirit sense barrier formation before him with a spirit sense mark was trapped inside. This was the spirit sense mark he left on Ye Mo.

"I underestimated you, you can even remove truth realisation state cultivator spirit sense marks. It seems you have more secrets than I thought," Teng Xiong said and then took out a top grade flying magic artifact before looking at the direction Lan Qirui disappeared to.

In a blink, he disappeared from Lost Soul Ruins in a white beam.

He realized why the Lost Soul Ruins was safe now and yet Lan Qirui didn't come in. He knew that Ye Mo had left. Although Teng Xiong didn't know why Ye Mo took his spirit sense mark but couldn't take off Lan Qirui's spirit sense mark, he wasn't going to let Ye Mo fall into Lan Qirui's hands.

A level seven pill king was crucial to the Dragon Teng Palace. He might become an overlord of an even greater region due to Ye Mo. His palace was a little stronger than Qi Tian Island, but if Ye Mo is taken away by them, it was no good for him.

Jie Feng took his daughters out of the formation door and saw Teng Xiong leave, he immediately frowned.

The red robed girl said, "Dad, I saw that person leave towards the north, why did Dragon Teng king chase east?"

Jie Feng shook his head. "I don't know, but that Lan Qirui left towards the east as well, it should be something between them. We don't need to worry, let's go north."

Then, Jie Feng took out an extreme grade flying cultivation artifact and left with his daughters. He was thinking about who the person inside the Lost Soul Ruins was, he seemed very important to Teng Xiong and Lan Qirui.

"Why did they leave in the opposite directions?" Huang Qi saw Jie Feng and Teng Xiong leave.

Gong Zhe also frowned but replied, "Ignore Jie Feng, he probably has his own business. We just need to follow Dragon Teng king, he left in the direction Lan Qirui went. I think Teng Xiong lost Ye Mo while Lan Qirui was going in the right direction."

“That’s right, Jie Feng doesn’t know about Ye Mo so he’s not going to chase him for sure,” Huang Qi immediately said.

The two reached an agreement and immediately chased after Teng Xiong.

Soon, the Lost Soul Ruins was desolate again.

...

Ye Mo put eight extreme grade spirit stones in Blue Moon and fled like crazy. Half a day later, he saw no one came so he changed directions.

Five days later, Ye Mo breathed easy. He estimated that no one would be chasing up to him now, but before he could relax, he had the feeling of being watched again. Before he could think, a yellow beam faster than Blue Moon chased up and surpassed Blue Moon.

Ye Mo’s heart sunk. Looking at this, it was clear the yellow beam came for him.

He slowed down and stood in front of Blue Moon, if he couldn’t beat this person he would run into the Heartless Sea and hide in the Golden Page World.

The yellow light stopped and three cultivators got off. When Ye Mo saw the two girls, he immediately knew what was going on.

It was those two girls who suddenly came in that allowed him to see the wave of the female cultivator’s spirit sense cultivation method. From that he learned spirit sense transformation and reached Purple Eye Soul Sever level four. But it was due to him that they survived.

Now, it seems that the two girls brought help and the middle aged man in front of them was truth realisation state peak stage already. He couldn’t even beat an injured truth realisation state level six, much less a truth realisation state peak stage. Ye Mo knew he had no chance at all.

When Jie feng saw Ye Mo, there was a sliver of shock in his eyes. He could tell Ye Mo was young, too young, yet his power was cauldron filling state level two.

But soon he hid his shock and saluted with his fists. "I'm Yin Zhu Island lord Jie Feng, I was a rush to see you but I need to thank you for saving my daughters first."

No wonder the two dared to roam around, clearly their dad was very famous around here.

Ye Mo had a good impression seeing that this truth realisation state peak stage was so polite to him so he saluted with his fists. "Wan bei Ye Mo, island lord Jie you're too polite, it was just an accident, I didn't intentionally save your daughters."

Ye Mo felt uneasy. The two girls saw him fighting with the female cultivator, if they went to Lost Soul Ruins as well, they would know that the spirit herbs in there were in his pockets.

Ye Mo knew what level nine spirit herbs meant to truth realisation states. There was no way of resisting if he wanted to rob him and kill him.

Ye Mo instantly thought of two ways. One was to dodge the first attack and grab one of his daughters as hostage, the second was to dash into Heartless Sea and enter the Golden Page World, testing his luck.

Ye Mo immediately gave up the first idea, it was obviously impossible to grab his daughter in front of him.

He could only try the second method. Even if he had to give up Blue Moon, he would dash into Heartless Sea instantly.

Ye Mo immediately went on full alert watching Jie Feng.

Chapter 1223: Giving Pills

Jie Feng waved his hand and an ore emitting aqua light appeared on his hand. This was blue extreme rock, a level nine material.

This was equivalent to the Huang Star Rock he got. It was very rare but Ye Mo didn't know why Jie Feng took this out.

Jie Feng smiled. "Ye Mo brother, I'm a bit older than you so I'll call you little brother, have you seen this rock before?"

Ye Mo nodded. "If wan bei isn't wrong, it's level nine material Blue Extreme Rock. Very rare."

Jie Feng nodded with approval. "Keen eyes, brother – this is indeed Blue Extreme Rock, but now it's yours."

Then he threw the rock to Ye Mo but his flying ship didn't come near Ye Mo, as though he knew Ye Mo was on alert.

This was a minor detail but Ye Mo noticed it and felt grateful. This was the mannerism of a true respectable qian bei.

Ye Mo took it and a deep bone chilling frost came. Ye Mo immediately knew this was no ordinary Blue Extreme Rock. This was a top quality one. He took it and said in confusion, "Wan bei can't take this for nothing."

Jie Feng stopped Ye Mo from giving it back. "You saved my daughter before so this is a token of appreciation."

Ye Mo wasn't going to take it before he knew why no matter how much he liked it. He wouldn't believe that Jie Feng would chase up just to thank him.

Then, Jie Feng said again, "I heard people say there's Immortal Curl Flower in Lost Soul Ruins, but although people say it's a level nine spirit herb, it's actually beyond level nine. My eldest daughter's spirit roots are damaged and she can't cultivate, her body is also heavily damaged..."

Ye Mo immediately knew what Jie Feng meant, even a truth realisation state peak stage wasn't able to help a damaged body and spirit root damaged to that degree, clearly Immortal Curl Flower was the best choice.

Jie Feng clearly wanted an Immortal Curl Flower, Ye Mo had four and now that the woman took one, he still had three. Ye Mo gave one to Jie Feng without hesitation.

Jie Feng didn't expect to get an Immortal Curl Flower this easily. His hands were shaking with excitement. He cupped the Immortal Curl Flower not knowing how to show his excitement.

Even the two girls behind were very excited.

Half a moment later, the green robed girl pushed him and he came back to his senses, he bowed to Ye Mo. "Thank you brother Ye Mo, I'm very grateful."

Ye Mo quickly waved his hand, "Jie qian bei, you're too polite, it's my honor that one spirit herb can save your daughter."

Jie Feng took out a jade box and carefully put the Immortal Curl Flower in before putting it away. Then he said to Ye Mo, "Brother Ye, you saving my daughter and your talent deserves a bow from me. You're the most genius cultivator I've ever seen. I believe your future is boundless, if you see my two daughters in the future please help them a little."

Ye Mo quickly said again, "Thank you for your words qian bei, if qian bei doesn't have anything else, wan bei will be leaving too."

Ye Mo knew Jie Feng was easy to talk to, but not the guys from Dragon Teng Palace.

"That's fine, three days ago I saw Dragon Teng king and Lan Qirui go east, I don't know what they're doing," Jie Feng nodded and said strangely.

Jie Feng didn't know the exact story between them but from how Ye Mo left Lost Soul Ruins and Teng Xiong and them went in as well as mentioning the person who went in, he reminded Ye Mo just in case.

Jie Feng didn't know his little reminder made Ye Mo very grateful. At the same time, he had a different view on truth realisation state cultivators, there was such distance between them and yet Jie Feng could chase up, who knows if Teng Xiong and them could chase up too?

Jie Feng nodded to Ye Mo. "In that case I won't waste your travel time, do as you please brother Ye."

Ye Mo nodded and suddenly took out two jade bottles. "Island lord Jie, Ye Mo admires your honest character, it's my honor to meet a friend like you, I do need to go immediately. I don't have anything good but I can give these two bottles of pills for the two girls."

Jie Feng nodded and didn't mind.

Seeing this, Ye Mo saluted with his fists and took off in a blue beam.

He couldn't stay indeed as he would bring trouble to Jie Feng. Jie Feng was powerful but he was just by himself.

Seeing this, the green robed girl looked at Jie Feng in confusion. "Dad, you seemed very polite to that cultivator and gave him Blue Extreme Rock to trade the Immortal Curl Flower."

The red robed girl immediately said, "Sister, didn't you hear dad say he's the most prodigious cultivator? Of course dad would take him seriously, but I'm happiest about big sister soon being able to get well."

Jie Feng nodded. "It's indeed due to Ye Mo that we got the Immortal Curl Flower this time, and I'm serious about him being the most prodigious cultivator I've ever seen. He's not even 100 and he's cauldron filling state level two. Have you seen a human cultivator reach cauldron filling state in 100 years? He's the first I've seen."

"Huh.." the two girls were dazed, not expecting this.

“Dad, did you see wrong? If he could kill that at least disaster transformation state female cultivator, how can he be only cauldron filling state and not even 100 years old?” the green robed girl asked in disbelief.

Jie Feng nodded with certainty. “I’m certain he’s not 100 years and perhaps even younger than I imagined.”

The red robed girl said, “Ye Mo is lucky that he met dad, if he met that old monster Dragon Teng king, his bones would be devoured.”

Jie Feng thought for a moment and said, “You Ning, you’re right but you can’t underestimate him. Although we caught up to him, but if we fought we might not be able to keep him.”

Hearing this, the two sisters’ mouth were wide open in shock and they looked at their father in disbelief. How could a mere cauldron filling state level two not be kept by their truth realisation state peak stage father?

Jie Feng was also confused. “He was wary of me but not scared. Clearly he had a way to get away. Otherwise, a cauldron filling state wouldn’t be that calm seeing a truth realisation state cultivator.”

“Didn’t you guys suspect that female cultivator’s power? I can tell you for sure based on your description that her cultivation essence giant hand was truth realisation state level. Ye Mo could escape from her and get spirit herbs, clearly he killed that female cultivator already. Of course, he isn’t able to injure me, but I’m not sure I can keep him.”

“By the way dad, when he left he gave some pills to us, let’s see what they are,” the red robed girl said.

Ye Mo smiled, Ye Mo was just cauldron filling state and was too young. He wouldn’t have many good things. Clearly, they were hollow spirit state level pills he gave to his daughters.

He casually tipped them out and when the two spirit chi emitting pills appeared on his hand, they were all dumbfounded.

Chapter 1224: Giving Back in Gratitude

There were two Break Spirit Pills in Jie Feng's hands, they were heaven grade level five pills. They were the pills hollow spirit state cultivators needed to break through to body condensation state and were special grade. At least a level five pill king was needed to concoct Break Spirit Pill, special grade ones might even need level six pill kings to concoct them.

It was because of this that they were shocked. Jie Feng had Break Spirit Pills but not special grade ones. He got his top grade Break Spirit Pills using many spirit herbs and a huge favor. He got them for his daughters but now Ye Mo gave him two special grade ones.

"This is Break Spirit Pill, and special grade ones!" the green robed girl said in shock. "This Ye Mo is so generous."

"Dad, let's see the other two pills," You Ning, the red robed girl said.

Jie Feng put the two pills away and was shook. Even he was eager to see what the other pills were.

He opened the jade bottle and Youkui and Youning almost shrieked, "Kun Filling pills..."

Even Jie Feng took a cold breath in, he had two top grade Kun Filling pills.

These were heaven grade level seven pills, top grade ones were even harder to get. Even if you had Kun Carrot, you couldn't concoct the Kun Filling Pill. Level seven pill kings were too rare, even if you met one, he might not be willing to help you.

Even 9-star sects had a limited supply of Kun Filling pills and now he had two top grade ones. How could he not be excited?

He thought Ye Mo would be shocked by his generosity with the Blue Extreme Rock. It was rare but he wasn't going to lower himself to take Immortal Curl Flower from Ye Mo for free. After he got the Immortal Curl Flower, he no longer thought that way as Immortal Curl Flower was much more precious than Blue Extreme Rock.

Now that he looked at the four pills, he knew who was truly generous. He felt guilty of what he thought before.

When he gave the Blue Extreme Rock, he might've had a little condescending manner or even a bragging intention. But Ye Mo didn't show off at all as he believed his daughters truly needed these pills.

Jie Feng was embarrassed by Ye Mo's generosity and magnanimity.

At this moment, You Kui and You Ning still hadn't woken up from their shock. Even though their father was in a truth realization state peak stage, it was hard for him to get two top grade Kun Filling pills. With their talent, they would have a 90% chance of reaching cauldron filling state with these two pills.

"Dad, this Ye Mo is too generous, he even gave top grade Kun Filling pills, who is he? He has such high level pills," You Kui said in shock.

Younging nodded and suddenly asked in confusion, "Dad, why is your face a little red?"

Jie Feng smiled awkwardly. "I thought I was being generous, but compared to brother Ye Mo I'm too stingy."

He put away the pills and sighed. "He's truly a genius, I've never seen a genius like him, this is unbelievable, really..."

"Dad, just how long are you going to praise that Ye Mo for? Perhaps he got a large pile of Kun Filling pills in the Lost Soul Ruins," You Ning murmured.

Jie Feng said with a straight face, "I'm saying this because he's not only a formation grand master but also a level seven pill king."

"What? How is that possible?" the two sisters asked simultaneously.

Jie Feng waved the pills in his hand. "These pills were made less than one month ago. Clearly, he didn't get this from some ruin. He made it himself. Plus, I said the formations in the Lost Soul Ruins were tampered with. Ye Mo was the first to go in, so clearly he did it. Obviously, he's a formation grand master and I'm sure he has other means.

The two nodded – if it was really as dad said, then Ye Mo was a prodigy amongst prodigies.

"People like him have a boundless future, luckily we connected with him before and he has a good impression of us or he wouldn't give such pills. If you guys reach higher cultivation states and see him, it would only benefit you," Jie Feng said.

Then he sighed. "If it wasn't that he wasn't interested in you two I also want to chase him up to make him my son in law."

Hearing this, the big sister You Kui looked down in embarrassment but the younger sister You Ning said, "Sister and I can be considered beautiful in this region. Dad, why are your words so crushing? How do you know he isn't into us? Maybe he was but he's too shy to say it."

"So that means you're into him?" Jie Feng asked.

Younging immediately said, "I'm just saying."

Jie Feng patted You Ning's head. "You three sisters are all very beautiful girls and my pride, but as a father I won't lie to you. He looks at you and your sister very calmly. Clearly he's not interested in you two, I won't be wrong about this. If he can stay at Zhu Yin Island for a while, you two might have a chance."

"Dad, then call him to Yin Zhu Island," You Ning didn't think much and said.

Jie Feng knew this didn't mean his daughter was into Ye Mo but he didn't mind and shook his head, "I understand why Ye Mo was running off in a rush."

"Why?" Younging asked.

“He’s hiding from Teng Xiong and them.” Jie Feng sneered, “Lan Qirui said he didn’t want to go into the Lost Soul Ruins, I was suspicious. He’s not someone scared of death, if there was no danger in Lost Soul Ruins, then what could be more important than getting level nine spirit herbs? Now that Ye Mo appeared I understand why. He’s a level seven pill king. He must know Ye Mo is a level seven pill king and that’s why he left to catch Ye Mo. That person they said went in the Lost Soul Ruins must be Ye Mo. But this Ye Mo isn’t simple either, he drew them to the wrong direction. No wonder he’s so young and dares to go into the Lost Soul Ruins. He’s indeed brilliant.”

“Then why didn’t Dragon Teng king go at first?” Youning asked.

Jie Feng shook his head. “I don’t know that very well, but later Dragon Teng king went east, the same direction as Lan Qirui. Now it’s obvious he went for Ye Mo too.”

Jie Feng suddenly said, “We should help Ye Mo, they might come towards our direction if they don’t find Ye Mo in the east. It’s not a big possibility for them to catch Ye Mo but we should still help him.”

“How do we help?” You Ning asked again.

“Leave some traces and draw them to the south east side,” Jie Feng said.

...

Ye Mo didn’t expect his generosity earned Jie Feng’s good impression and such outcomes.

...

Lan Qirui was very annoyed, he chased for half a day and it ended up to be a cultivator’s soul. Even if he didn’t chase it, it would disappear soon. He gave up level nine spirit herbs to chase this soul, he really didn’t understand how Ye Mo took off his spirit sense mark and put it on a soul and led it this far.

Could Ye Mo control souls too?

He thought that he needed to go back and quickly meet up with Teng Xiong, if Ye Mo was in the Lost Soul Ruins he would be losing out big.

But before he left, Teng Xiong already appeared before him.

Chapter 1225: Such an Absurd Cultivator

15 days later, when Jie Feng took his two daughters back to Yin Zhu Island, he met Teng Xiong and Lan Qirui who hurried over.

The two saw it was just Jie Feng and his two daughters together and were stunned. They traced along the marks for half a month and didn't see Ye Mo at all.

"Island lord Jie, what a coincidence." Lan Qirui laughed awkwardly.

Teng Xiong said, "Yeah, what a coincidence, island leader Jie is very free now and he wanders around aimlessly. Haha, everyone knows."

Jie Feng immediately knew what Teng Xiong meant. He was saying that he left many marks on his way and led the two here but he pretended he didn't understand what the two were saying. He frowned. "What do you mean Teng Dragon king, is this entire Heartless Sea your Dragon Teng Palace? Can I not take my daughter around for a walk?"

Lan Qirui didn't want the two to argue so he quickly said, "Of course, please continue, we'll be going."

Then, he pulled away Teng Xiong. He knew Jie Feng's power, although Teng Xiong was truth realisation state peak stage and he was truth realisation state level nine, they might really not be a match for Jie Feng even if they attacked together.

Ten Xiong knew there was nothing he could do to Jie Feng so he could only turn away.

Seeing the two leave, Jie Feng sneered. "Let's go, we can go back to the island, you can stay on the island and cultivate, don't run around everywhere."

"Yes," You Kui and You Ning said dejectedly.

After they left for a long while, Teng Xiong sneered. "Brother Lan, don't you feel strange? Since when did Jie Feng have the free time to roam around with his daughters for half a month?"

Lan Qirui said calmly, "So what if you knew he helped Ye Mo get away? Ye Mo isn't here, we can't fight with him for no reason. But we'll go visit that Yin Zhu Island one day."

Teng Xiong nodded showing he knew what Lan Qirui meant. They would go look for trouble with Jie Feng in the future, but now it was urgent to capture Ye Mo first.

Lan Qirui paused and said, "That Ye Mo would go find your son Teng Yi, do you not even know where your son is? Is he not going to go back to your palace?"

Teng Xiong said in annoyance, "It's because he won't be coming back that I'm annoyed, that bastard told his mother he would be going out for an adventure. Who knows where they will be going?"

Lan Qirui nodded. "I think they might go to the three seas, why don't we go there?"

Teng Xiong nodded and the two changed direction. Little did they know they guessed the right direction as Ye Mo was going towards the three seas.

...

Half a months later, Ye Mo had calmed down and took out Ji Ling's essence spirit and woke him up.

Ji Ling saw the Immortal Curl Flower and said in shock, "You really got the Immortal Curl Flower..."

Ji Ling immediately said in gratitude, “Ye Mo, thank you!”

Ye Mo laughed. “I was lucky that I got out whole this time, Ji qian bei, your essence spirit has been exposed for too long, you need to recover your body or the danger is too high.”

Ji Ling answered, “Just give me Immortal Curl Flower and the yellow rock and set up a spirit gathering formation for me. I need two months to rebuild my body.”

Ye Mo asked in shock. “Ji qian bei, is your body hidden in that rock?”

Ji Ling nodded. “Yes after that battle, everyone retreated and no one touched my body so I sealed myself in my own formation. I didn’t tell you as I didn’t want you to be worried.”

Ye Mo knew what Ji Ling meant. If Ye Mo knew Ji Ling’s body was still there, he would find spirit herb to preserve the body. That wouldn’t be easier than finding the Immortal Curl Flower. But now that Ji Ling had the Immortal Curl Flower, after he rebuilt his body his power wouldn’t drop at all and his talent would increase quite a bit.

Ye Mo couldn’t help being angry. Pill City had one truth realisation state cultivator and when he left the Infinity Sect wouldn’t stop him. Yet he didn’t take Ji Ling’s body and preserve it.

Ye Mo felt assured now and gave the two things to Ji Ling. Then he set up a spirit gathering formation and even took out a spirit marrow pond for him.

After this, Ye Mo set up a stealth restriction and defense formation in his room before letting Ji Ling rebuild his body while he manned Blue Moon.

A month later, Ye Mo felt the spirit chi waves inside and knew it was the crucial moment for Ji Ling rebuilding his body and became even more careful.

The second month was about to pass and Ye Mo watched Ji Ling constantly. He was only about one month from the rendezvous point.

A few days passed and Ji Ling still didn't come out. Ye Mo was beginning to worry as Ji Ling said he would take two months at most but now it was two months and three days.

Just when Ye Mo wanted to check on Ji Ling's progress a light flew rapidly towards him.

Ye Mo stopped immediately.

In a blink of an eye, it passed Blue Moon. Ye Mo recognized who it was and then. Immediately it flew back.

Ye Mo's eyes went cold and Zi Xu appeared. Blue Moon had to stop as another light flew over.

The woman who turned back was Meng Hanan.

She was covered in blood and heavily injured.

She didn't expect to meet Ye Mo here and said desperately, "I have no ill will for you, it's so great you're fine. May I ask where my disciple Meng Qi is now?"

Before Ye Mo could reply, the other dashing light stopped in front of Blue Moon, it was a disaster transformation state level four.

The man saw Ye Mo and dazed before laughing in surprise and joy. "It's you, Ye Mo, this is all too easy!"

He gave up Meng Hanan and reached for Ye Mo.

Ye Mo sneered and released Zi Xu, this disaster transformation state level four was from the Tong Hai Cult. He could tell from the clothes.

Instantly, Zi Xu clashed with the giant hand.

Blood shot out and the man backed off with fury and anger. He underestimated Ye Mo and lost two fingers to a body condensation state cultivator.

But then, he saw clearly, Ye Mo who was only body condensation state at the Qu 18 Disks was now cauldron filling state level two.

Ye Mo didn't leave him time to recover, Zi Xu swept over again.

Illusion Cloud Domain Shattering Strike, this was Ye Mo's Illusion Cloud 8th strike. This was the first time he used it after creating it.

Ye Mo didn't dare to hold back against this disaster transformation state master and used all his might.

Meng Hanan looked at Ye Mo in shock, she didn't expect Ye Mo to go from body condensation state level seven to cauldron filling state level two in a few month's time. This was inhuman speed.

She suddenly thought of the words Ye Mo said to Yong Lanyi. She realised that it wasn't Ye Mo sucking up to Yong Lanyi but telling him that he would be back for revenge.

According to this progress, Ye Mo wouldn't need much time to reach truth realisation state at all.

Meng Hanan subconsciously shivered. Ye Mo was only cauldron filling state level two and could take on this disaster transformation state level four hunting her, if he reached truth realisation state, wouldn't Yong Lanyi only be able to wait for death?

'Such an absurd cultivator!' was Meng Hanan's only thought. Not only Ye Mo's cultivation speed but also his battle power was insane.

Chapter 1226: Magnificent Cross Level

That disaster transformation state level four cultivator saw he got injured in his overconfidence but this cauldron filling state level two dared to attack him again. He was immediately furious.

He raised his hand and a dark ring appeared in his hand. Just when Zi Xu hacked over, he released his dark ring.

It immediately expanded in the air into a ten meter long dark ring. Inside, the ring was gloomy dark like the nether world.

Meng Hanan recovered from her shock of seeing Ye Mo's drastic increase in cultivation level and called hurriedly, "That's Abyssal Prison Ring, don't let him catch you inside! It's like hell inside, once you go in you can't go come out..."

Meng Hanan had suffered greatly in this terrifying dark ring. She would've long been caught if she didn't have a few secret techniques.

The disaster transformation state snarled, "Too late, a mere cauldron filling state level two dares to be cocky in front of me!"

In that instant, Ye Mo and that disaster transformation state cultivator disappeared, there was only a huge dark ring floating above the Heartless Sea.

Meng Hanan immediately wanted to go up and help but before she could, she saw a purple beam flash out from the dark mist. At the start there was only one but instantly, the purple rays expanded, turning into a purple sun rising up from the black mist.

Thud

The obscurity of the dark ring disappeared while Ye Mo's figure appeared in the middle of the purple. As the purple expanded, his figure also became clearer.

Meng Hanan was dazed, even though she was disaster transformation state level two, if she was caught by it she wouldn't be able to break free. Ye Mo was only cauldron filling state – how did he break free?

Before she spoke, she heard that Tong Hai cult cultivator say in shock, "Your domain is in early completion and you molded it into your sword technique..."

A cauldron filling state primary stage cultivator might know some little things about domain but he wouldn't be able to control much, but he found that Ye Mo's sword technique not only had a clear control of domain but was also molded together. His abyssal prison ring was also domain control but he couldn't get the upper hand in domain control at all.

At the same time Ye Mo broke this cultivator's domain, he realized that he could only break free but not kill him. The difference in power wasn't something a domain could make up for.

But Ye Mo had made up his mind to kill this disaster transformation state cultivator, he wanted to kill Tong Hai Cult cultivators the most. Even if he couldn't kill Yong Lanyi now, it was good to kill a few of his dogs.

So when Ye Mo broke free from the Abyssal Prison Domain, he called out Shadowless and used Illusion Cloud Formation Kill Strike.

He needed to create an opportunity for Shadowless so he had to trap this cultivator, even if it was just for one second.

Then, Ye Mo followed up with a few spirit sense strikes, but he was disappointed to find that even so, he wasn't able to trap that cultivator for a second. His Abyssal Prison Ring was too powerful; not only did it instantly crush Ye Mo's purple sword rays but also stopped Ye Mo's Formation Kill Strike from forming while blocking his spirit sense blades.

The difference in power was too great, it was really hard to kill this disaster transformation state level four.

Meanwhile, the disaster transformation state cultivator was feeling more and more shocked. He felt Ye Mo had endless means and he noticed his spirit sense hurting, so he used Abyssal Prison Ring to protect himself without hesitation.

A cauldron filling state level two was able to force a stalemate with him. He didn't dare to imagine this, his broken fingers weren't reconnected as he didn't have the time to do so. He didn't underestimate Ye Mo at all now. He knew that if he did, he would be killed here.

The disaster transformation state cultivator released another sword magic artifact, this sword had four blades and was a middle grade cultivation artifact.

Ye Mo felt the pressure from that cultivation artefact and was more desperate. He was scared that Meng Hanan would use this opportunity to go onto Blue Moon. Ji Ling was still rebuilding his body, if he was interrupted the consequences would be dire.

Luckily, this didn't happen. Meng Hanan was also very shocked seeing this stalemate.

She was sure that although she was disaster transformation state level two, she was no match for Ye Mo. Even her domain wasn't in initial completion.

Meng Hanan immediately attacked with a flying sword to help Ye Mo.

This made Ye Mo breathe easier, with her help he could kill this man for sure. He didn't even release his octagonal cauldron like he planned before.

As soon as Meng Hanan came up, the disaster transformation state level four's face changed. Ye Mo saw fear in his eyes, he wanted to run.

How could Ye Mo let him escape? He used Illusion Cloud Hua Mountain Strike.

A long purple ray swept over, even Meng Hanan felt the brilliance of it, but she instantly woke up. This was the perfect opportunity, her flying sword also raised dense sword light sweeping at the disaster transformation state level four.

Seeing this, the Tong Hai Cult cultivator's heart shook. He had a bad feeling and before he could think, he wanted to use the Abyssal Prison Ring to block this magnificent purple ray.

Clank

The purple ray clashed with the ring, activating more purple sword rays. These sword rays didn't span out but instead formed a formation, wanting to trap the disaster transformation state cultivator and his ring.

The disaster transformation state cultivator grunted and before he could leave, Meng Hanan's sword light came over.

He was shook and spat a mouthful of blood before wanting to escape, but how could Ye Mo let him?

He used Purple Eye Soul Sever again while letting Shadowless attack at the same time.

His sword was still blocking Meng Hanan's sword light while the ring was covered by the purple sword rays. He couldn't block Ye Mo's spirit sense strikes anymore.

It wasn't enough to kill him but the spirit sense blades sunk his sea of consciousness into a brief pause. He felt his sea of consciousness ache while Shadowless charged into his meridians.

The disaster transformation state cursed and before he could envelop Shadowless, Ye Mo's purple sword rays hacked out.

Meng Hanan saw this and stopped attacking. That extremely vibrant and flashy purple ray dazed her. She saw the disaster transformation state cultivator in despair and her heart went a little cold.

Although she helped Ye Mo, she knew she only draw a little portion of the cultivator's attention.

The disaster transformation state saw the purple ray come but he couldn't call back his ring.

He was screaming in his heart, 'Just give me one second, even half a second would be good!' However, the purple ray already came down on his head.

The disaster transformation state glared hatefully at Ye Mo and escaped in essence spirit form.

Ye Mo looked at this and didn't move, he knew Shadowless wasn't going to let it go.

Indeed, Shadowless dashed in a black line and devoured the essence spirit clean.

At this moment, a bloody mist exploded above the Heartless Sea and Ye Mo took back the ring and a storage ring before landing on Blue Moon.

Shadowless spun around Ye Mo and disappeared on him.

Meng Hanan looked dazedly at Ye Mo. "You're cauldron filling state primary stage but you killed disaster transformation state middle stage Yong Yan!"

"Oh, he's called Yong Yan?" Ye Mo asked.

Meng Hanan nodded. "Yes, he's Yong Lanyi's niece. If it wasn't that he wanted me alive, I would've been long dead. Even if I die, I wouldn't live with someone like him."

Ye Mo sneered. "Yeah, you status is royal and you can't live with other people. But your disciple has a peasant life and she can marry anyone."

Meng Hanan looked down in guilt. "I owe Qiqi. Whether you believe it or not, I did use you but I didn't use Qiqi. I left the spirit sense mark on because I was worried something would happen to her."

Ye Mo waved his hand in contempt. "I don't want to talk to you, but I won't kill you. Leave."

Chapter 1227: You're Actually a Level Seven Pill King?

Meng Hanan laughed at herself. "Leave? Where can I go? The Sea Cultivator Alliance is about to be named Yong, where can I go? Yong Lanyi will only blame Yong Yan's death on me. Even if I run to South Peace State he won't let me go."

"Sea Cultivator Alliance belongs to Tong Hai Sect now?" Ye Mo asked in confusion.

Meng Hanan said sadly, "The reason I could stand my ground in the Sea Cultivator Alliance was because of the other vice alliance leader, Tie Ha. But this time, there were a lot of spirit herbs on the Feng Qu Island. The Tong Hai Sect got the least and Yong Lanyi was greedy. He didn't dare to start trouble with Cang Hai Palace so he came to the Sea Cultivator Alliance. Wang Cang doesn't have the temperament of an alliance leader at all and is now Yong Lanyi's dog.

Wang Cang knew Tie Ha and I wouldn't agree, so before Tie Ha finished solitary cultivation, he suddenly attacked our power. Tie Ha was killed by their ambush and I was hunted out."

"Meng Qi is my disciple, I left a spirit sense mark on her because I was afraid of something happening to her. The three sea's power factions are complicated, her hollow spirit state power is too low. If she was in danger, I would know at anytime."

Ye Mo sneered. "So that meant marrying her to Yong Wuzi was out of good will too?"

Meng Hanan said in guilt, "Although I agreed to Yong Lanyi's proposal, I never wanted to marry Qiqi to Yong Wuzi but I couldn't resist at the time. I wanted to wait for brother Tie to finish solitary cultivation and let him say that Qiqi was in solitary cultivation."

"So what if she was, if Yong Lanyi is forcefully going to take her away, what are you going to do?" Ye Mo asked her coldly.

Meng Hanan said melancholically, "I can't protect her."

Ye Mo said in derision, "Since you can't protect her, why won't you let her go?"

Meng Hanan looked up and said calmly, “Because she still has a sliver of chance on the island. You think she can live if I let her go? Even if I can’t protect her, she would be able to stay alive if she married to Yong Wuzi. If I let her leave Ling Island and go out into the Heartless Sea, I’m sure she won’t survive for three months. Tragic things will happen to her, you think everyone is as powerful as you?”

Ye Mo was lost for words – he felt Meng Hanan was right. In that situation, there was no other way but to marry her to Yong Wuzi.

As for escaping to South Peace State? Meng Qi didn’t have an extreme grade flying cultivation artifact. Even if she had a low grade flying cultivation artifact, how could she run from the Tong Hai Sect? Even if she got out, would she be able to escape all those spirit beasts?

Thinking about this, his disgust for Meng Hanan lowered a little. As for her tricking him, it was just a deal. He wasn’t close to Meng Hanan, he didn’t need to waste time on that.

Meng Hanan asked again, “Where did Qiqi go?”

Ye Mo replied, “She went back to her home, I sent her off, she’s very safe.”

Ye Mo breathed easy, believing Ye Mo. She fell silent for a while before saying, “Ye Mo, I know you’re no ordinary person. You were able to escape through Qu 18 Disks meaning you’re at least a level eight formation grand master. I saw you wrongly before. I’ll make a deal with you, I’ll come with you to search for the Immortal Curl Flower regardless of life and death. I just want you to take me to leave Heartless Sea.”

She looked at Ye Mo’s extreme grade flying cultivation artifact, clearly hoping it would take her to leave Heartless Sea. Without it, even with her disaster transformation state power, she might die in the Heartless Sea. Not everyone was as lucky as Bian Fengta.

Ye Mo smiled faintly, he really didn’t like this Meng Hanan’s character and he already got Immortal Curl Flower, he didn’t need her.

Meng Hanan continued, "I didn't tell you clearly before, the place with Immortal Curl Flower is Lost Soul Ruins. I didn't go in when I went there because it was too dangerous but now that I have nowhere to go, if you're willing to take me to any state, I can help you."

Ye Mo realized that the reason she said this was because she didn't know how dangerous the Lost Soul Ruins was at all.

But from another perspective, she indeed had nowhere to go. Ye Mo thought and wanted to point her to South Peace State. If she was careful she would be able to reach there.

"Haha...." Just when Ye Mo wanted to talk, he heard a loud laugh. Ye Mo rejoiced, he immediately knew Ji Ling had finished reconstructing his body. He turned around and saw Ji Ling walk out happily.

"Ji qian bei, you've succeeded!" Ye Mo called out in surprise and joy.

Ji Ling laughed. "Brother Ye Mo, I owe you big time. I thought my cultivation level would stop at disaster transformation state in this life, but now because of your Immortal Curl Flower, I can progress one step, haha..."

Ye Mo said, "If it wasn't for me, how could you be in that state?"

"Hmm, alliance leader Meng, why are you here?" Ji Ling saw Meng Hanan and asked.

Meng Hanan said in surprise and joy, "It really is you, Ji qian bei, how are you?"

If Ji Ling was here, why didn't he appear when Ye Mo was fighting that disaster transformation state level four?

Ji Ling said, "Come, come here, why you standing outside?"

Meng Hanan glanced at Ye Mo and before she said anything, Ye Mo quickly said, "Alliance leader Meng, please get on."

Ji Ling didn't know the story between the two but clearly he was happy to see Meng Hanan. Ji Ling asked immediately, "How is brother Lu lately?"

Meng Hanan bowed and said sadly, "Brother Lu is gone, it's Wang Cang who controls the Sea Cultivator Alliance now and he joined the Tong Hai Cult. I have nowhere to go now, I wanted to find a big state to go but I didn't expect to meet qian bei here."

"How is that possible? Brother Lu is very powerful, how can he suddenly die?" Ji Ling asked.

Meng Hanan replied, "He died 100 years ago, he was ambushed in the Heartless Sea and wasn't able to make it out. After that, Wang Cang became alliance leader, Tie Ha and I became vice alliance leaders."

Ji Ling sighed.

Moments later, Ji Ling continued, "Alliance leader Meng, when I came to Ling Island, you and brother Lu were very welcoming. So you don't need to be too polite here. Don't worry, if you have nowhere to go, you can come with us. Brother Ye Mo is very nice, don't worry."

Meng Hanan breathed easy, "Thank you Ji qian bei." Then she said to Ye Mo, "Thank you martial brother Ye, please don't mind what I did on Qiqi's account."

Since Ji Ling agreed, Ye Mo wasn't going to make him lose face so he quickly said, "Sister Meng, you're too polite. It's my honor you can come aboard Blue Moon."

But then she thought of what Ji Ling said and looked at him in shock, "Ji qian bei, you said martial brother Ye got you Immortal Curl Flower? He went to the Lost Soul Ruins and came back out alive?"

Ji Ling nodded. "If it wasn't for brother Ye my life would be long gone. It's my luck that I was able to meet brother Ye Mo. You're right he got the Immortal Curl Flower from the Lost Soul Ruins. I wanted to ask about it as well."

Ye Mo recounted what he saw inside the Lost Soul Ruins simply.

Hearing the story of Feng Chun and Miao Huizhen, the two were speechless.

Ye Mo didn't want to keep talking about this, he looked at Ji Ling. "Ji qian bei, I heard that you can reach higher cultivation levels after using the Immortal Curl Flower, is that true?"

Ji Ling nodded. "That's right, I'm disaster transformation state peak stage peak now. If I have Truth Spirit Pill or Truth Carrot Pill I can reach truth realisation state."

Before Ye Mo replied, he laughed. "I'm not worried about that, you're level seven pill king, it won't take more than a few years for you to be able to concoct the Truth Spirit Pill."

Meng Hanan heard this and looked at Ye Mo in shock before saying in a daze, "You – you're a level seven pill king?"

Chapter 1228: Brushing Past

Ji Ling looked at Meng Hanan and asked, "You know Ye Mo but you don't know he's a level seven pill king?"

Ye Mo quickly told how he knew Meng Hanan. Meng Hanan listened while thinking, not even the three seas had a level seven pill king. The highest was a level five pill king.

Meng Hanan was very smart and knew how to talk. Plus, she wanted to follow Ye Mo so she cared more about what she said. After talking for a while, Ye Mo's view of her changed a little again.

The more Meng Hanan knew about Ye Mo the more she was shocked, she just knew that Ye Mo got first place in the highest caliber pill king tournament in South Peace State and dared to go against the 9-star sects Lightning Cloud Sect and Infinity Sect. He even set up Mo Yue City and what shook her more was that there were level seven or above pill kings there. One of them was a level eight pill king.

At this moment, she realized Yong Lanyi was really nothing compared to Ye Mo. The Tong Hai Sect only had three truth realisation state cultivators, at most a comparable to a middle class 9-star sect. Ye Mo

wasn't even afraid of top class 9-star sects, much less a Tong Hai Sect. Yong Lanyi was only in the Heartless Sea, if he went to South Peace State, he wouldn't dare to challenge Mo Yue City.

Knowing that Ye Mo was going to North Far State, Meng Hanan had made up her mind that she was going to go with Ye Mo no matter what. Such a young level seven pill king – clearly, he could reach higher levels in the future. It was already quite something that Ji Ling looked at Ye Mo so favorably. Plus, there was a level eight pill king in Mo Yue City. If she didn't grasp this opportunity, she would be an idiot.

Meng Hanan was experienced in life and although she hadn't been with Ye Mo for long, she could tell Ye Mo took relationships and emotions seriously or he wouldn't help Meng Qi get away. Although she didn't know how Meng Qi got away, Ye Mo was a formation grand master so clearly there were means she couldn't imagine.

It was because she knew Ye Mo's character that she was certain as long as she didn't betray Ye Mo and helped him wholeheartedly, she would get his recognition one day.

"Ji qian bei, are you going back to South Peace State or North Far State now?" Ye Mo asked without considering what Meng Hanan thought.

If Ji Ling was to go back to South Peace State, great – let him take Meng Hanan away. If he was going to North Far State it was also good as they could discuss formations together. With a disaster transformation state peak stage cultivator, he was much safer on the way.

Ji Ling smiled. "I was troubled that we didn't have time to discuss formations. I didn't expect your formation skills to have reached that of a level nine grand master, we can talk about it on the way so I'll go North Far State as well."

Ye Mo was also very happy hearing this.

However, Meng Hanan was the happiest hearing this. How could she not know Ye Mo didn't really like her – if Ji Ling was going to South Peace State she would have to follow. Then she wouldn't be able to stay with Ye Mo.

...

Two days later, Ji Ling who was discussing formations with Ye Mo suddenly looked north and said, "There's another middle grade flying cultivation artifact with two people on it. They seem to be going the same direction. Ye Mo are those your friends?"

Ye Mo's spirit sense was powerful but not as powerful as Ji Ling's, so he couldn't see.

However, he was almost certain it was Bian Fengta and Teng Yi. He immediately controlled Blue Moon to chase up and indeed, he saw the two.

The two also noticed Ye Mo and moved their flying cultivation artifact over.

The three were very happy to see each other. Ye Mo then introduced Ji Ling and Meng Hanan. The five soon got to know each other well.

Blue Moon changed directions to fly towards North Far State.

When Bian Fengta and Teng Yi learned that Ye Mo got Immortal Curl Flower from the Lost Soul Ruins and cured Ji Ling, they were also shocked. It seemed to them that there was nothing Ye Mo couldn't do.

Blue Moon went faster and faster and the five people got closer. Ye Mo didn't expect when he left South Peace State alone that he would have a five man squad in less than a year.

...

At this moment, on the island Ye Mo and Bian Fengta arranged to meet, there were five truth realisation state cultivators. If Ye Mo was here, he would recognize them to be the five from the Dragon Teng Palace.

If Ye Mo didn't meet Bian Fengta and them on the way, they would've ran right into their hands. Sometimes, the difference between life and death was just that fine a line apart.

The reason they came here was because they found marks of Ye Mo's formation.

They were going to the three seas so they passed here and came down to check.

Teng Yi was no formation master, but he could tell the remnants here made by the same person as the ones he saw in the Lost Soul Ruins. The other people could tell as well.

"It seems Ye Mo did indeed come from the three seas, but will he go back?" Lan Qirui asked.

Teng Xiong nodded. "Indeed, if I'm not wrong, Ye Mo will go back to the three seas. Perhaps he is behind us, I think we should send two people to guard here and the remaining three should go to the three seas. If Ye Mo goes to the three seas, he will have to pass by here. No matter who finds Ye Mo, we must control him together."

The people all agreed and eventually Gong Zhe and Huang Qi stayed behind.

...

South Peace State Pill City.

Pill City was still the same Pill City but it wasn't as prosperous as before. But as the only 10-star city, there were still lots of cultivators gathered here.

At one pill king estate, there was a youth who was only nascent soul state level two and a grey robed cultivator sitting opposite each other. It was Mo Youshen and Zhao Shuntian.

Ye Mo had conflict with the Pill City and wasn't going to come back, so Changshun pill king brought Mo Youshen back here.

Zhao Shuntian sighed. "Even this didn't do anything to that Ye Mo, don't go out walking around anymore. He's a level seven pill king and has Yue Qichao and Shen Guanqing helping him. He's getting

stronger and stronger. If you want revenge you need to hurry up and get stronger. I heard that Ye Mo is already body condensation state. The difference between you two is too great.”

Mo Youshen nodded hatefully. “Master, I know. If it wasn’t for you this time, I would’ve been killed by him but my power is too low right now. I can’t get revenge, from today onwards I will cultivate very hard.”

Zhao Shuntian nodded. “Your surname is also Ye and you look very similar to him. I even suspect that you two might be related.”

Mo Youshen said, “So what if he’s related to me, I will kill him for sure! I have enmity deep as the sea with him, if I can’t kill him my dao heart can’t be fulfilled, master...”

Zhao Shuntian nodded. “I’m only going to help one of you, even if that Ye Mo is Ye Cai’s descendant, it’s the same. I haven’t seen your father Ye Cai but since I agreed with your grandpa Ye Wusuo, you don’t need to worry. I will treat any of his descendant who comes to me with the authenticating object as my own kin....”

Mo Youshen said, “I’ve never seen my father as well, I heard my mother say he left when I was very young to look for grandpa.”

“Master, I’ve heard that Ye Mo came from North Far State, does he have family there?”

Chapter 1229: Magical Beast Named Kun

Zhao Shuntian looked at Mo Youshen and said plainly, “I know what you mean but regardless, don’t think of using the teleportation formation to North Far State. Without an appropriate reason, even the grand city lord of Pill City wouldn’t be able to use that to get there.”

As though feeling his tone was too serious, he said, “Your only mission now is to cultivate. Perhaps your grandpa Ye Wusuo has ascended to the immortal realm. Even if you can’t kill Ye Mo in the cultivation realm, as long as you can ascend to immortal realm, you can kill him there. Plus, you’re in the Pill City, do you not know the power of the Pill City? Your cultivation resources will only be better than Ye Mo’s.

“Yes master.” Mo Youshen agreed, though still wanting to say something.

Zhao Shuntian waved his hand. “You don’t need to say it, I know what you mean, don’t think about that Xiao Shiyin now. when your power is high it’s not a problem at all.

...

In the air above the deep region of the Heartless Sea, Blue Moon dashed past rapidly. This was the fifth month they had met, and during this time, Ye Mo was always in solitary cultivation. Other than Bian Fengta and Teng Yi who discussed their cultivation experiences, Ji Ling also started solitary cultivation to consolidate his power. As for Meng Hanan, she often went into solitary cultivation after Ye Mo. She would come out and talk with Bian Fengta and Teng Yi occasionally.

In the Golden Page World, Ye Mo was cauldron filling state level four peak now. He stopped cultivation for now and started on forgery and pill concoction. Ye Mo knew his time was short even with the time formation disk.

The reason he was concocting pills was because he wanted to reach level nine pill king as quickly as possible to concoct the Truth Spirit Pill for Ji Ling. As for forgery, it was because he got large amounts of forgery materials on Ling Island. Time went by quickly and two months later, Ye Mo still didn’t ease up. When he used up the ordinary level seven and level eight spirit herbs as well as those forgery materials, he began cultivation again.

After the 11th month, Ye Mo broke through to cauldron filling state level six and stopped his cultivation. He had to stop as the extreme grade spirit range he got from the Qu 18 Disks had disappeared after he and the time formation disk devoured it like crazy.

Other than this, Ye Mo still had a half extreme grade spirit range and the herb king spirit range as well as the extreme grade spirit range from Ice God forbidden grounds. Ye Mo buried the low grade spirit range below the Golden Page World as it wasn’t much use to Ye Mo now.

The longer he used the time formation disk, the higher the amount of spirit chi he used up also multiplied, but he couldn’t stop mid cultivation.

Ye Mo also found that if he used an extreme grade spirit range to provide spirit chi for the time formation disk, it would waste up to 90% of the spirit chi. No matter how well he set up his direct spirit chi formation, it was useless. This meant that the best thing to power the time formation disk were spirit stones or higher spirit sources. They had to be put directly into the time formation disk. Otherwise, using a formation to redirect it would cause waste.

Ye Mo left the Golden Page World and sighed. If he couldn't find more extreme grade spirit ranges, it would be hard for him to progress into disaster transformation state rapidly. He couldn't touch any of the spirit ranges he had now. That half extreme grade spirit range would at most let him reach cauldron filling state level seven, he might as well bury it under Mo Yue City.

As soon as Ye Mo came out, Meng Hanan came out too. She and the rest of the people saw Ye Mo was already cauldron filling state level six and were speechless. In just a year, Ye Mo went from cauldron filling state level two to level six – what speed was this?

“Ye Mo, you broke through again? How are we going to live?” Teng Yi felt his confidence was struck.

Bian Fengta smiled. “Ye Mo already gave us so many Cauldron Essence pills, are you scared you can't reach disaster transformation state? I'm already cauldron filling state level eight peak. I've never cultivated so fast before!”

Ye Mo told them with a sigh, “My cultivation speed will be slowing down now.”

The three thought Ye Mo was being humble and didn't mind.

Blue Moon sped away while the four discussed about cultivation and benefited each other quite a lot. The other three didn't care much about some of Ye Mo's cultivation experience at first, but as questions were being brought up, they were shocked to realise that no matter what question it was, Ye Mo could easily provide an answer, despite him having the lowest cultivation level of them.

Luckily, they were used to Ye Mo's absurd talent and began to accept this fast. They would ask Ye Mo about things they didn't know and he answered them all. This was the power of the Three Birth Chant.

Soon, three days passed again.

Just when they were talking about forgery, Bian Fengta took out his middle grade flying cultivation artifact to show off. The difference between low grade and middle grade was hundreds of times in price.

Teng Yi said sourly, "Ye Mo has extreme grade flying cultivation artifact but I don't see him showing off. You only have a middle grade flying cultivation artifact."

However, he was the only one with a low grade flying cultivation artifact.

Bian Fengta smiled. "Hehe, let's not compare with Ye Mo, he's not normal. But Teng, don't be jealous. Do you know how hard it was for me to get this? I searched more than a hundred years just for the materials and used half of that time to ask this very famous level eight forgery grand master to forge it for me. Teng, I must say, there aren't a lot of forgery masters amongst beast cultivators. You've probably never even seen a level eight forgery grand master."

Teng Yi was lost for words but he couldn't argue.

Ye Mo knew that Bian Fengta had the right to brag, his middle grade flying cultivation artifact was the top notch in middle grade.

Meng Hanan looked at Bian Fengta and suddenly smiled at Ye Mo. "Martial brother Ye, you're probably going to become a forgery grand master soon right?"

Meng Hanan knew Ye Mo was a level nine forgery great master, but there was a huge gap between forgery great master and forgery grand master.

Ye Mo smiled. "That's right, I've just reached forgery grand master, I can only forge some low quality low grade cultivation artifacts."

In his 11 years of solitary cultivation (in the time formation disk), he used all the forgery materials he had and now his storage ring was filled with extreme grade spirit artifacts and low grade cultivation artifacts.

Some low grade cultivation artifacts even reached level three.

Ye Mo didn't expect that with this, everyone would look at him like he was some monster.

Teng Yi looked at Ye Mo speechlessly. "Is there something you don't know? You're probably a grand master level rune maker right?"

Ye Mo smiled. "I can only make low level runes, not even middle level, so you guessed wrong."

There was another laugh and Ji Ling came out of solitary cultivation after consolidating his power. He sighed. "Many years ago, my master told me that the greatest prodigy would be able to be an expert in more than two side cultivations: pill concoction, forgery, formations, rune making, and so forth. Ye Mo brother you're an exception. I've never seen a cultivator more prodigious than you. I'm sure if you studied rune making, you would soon become a grand master too."

Ye Mo quickly got up. "Ji Ling qian bei, you've finished consolidating your power?"

Ji Ling nodded and sat down, joining their conversation.

Ye Mo said, "With Blue Moon, it will be about a year until we reach North Far State. This is just as I expected."

Ji Ling said, "We've been lucky and had no trouble along the way. We didn't meet any powerful beast cultivators. Plus, your extreme grade cultivation artifact is too fast, many beast cultivators can't be bothered chasing up. If we encounter a truth realisation state beast cultivator who isn't scared of trouble, we won't be enough."

Ye Mo nodded. "Ji Ling qian bei is right. If my Blue Moon was a half immortal artifact, then we might've already reached North Far State."

Meng Hanan suddenly asked, "Martial brother Ye, have you heard of the magical beast Kun?"

Chapter 1230: Yin Hai City

Ye Mo nodded, of course he knew about Kun. In one ancient record it said, "In the deep north there's a fish, it's name is Kun. Kun's size is thousands of kilometers, it can transform into a bird named Peng. Peng's back is thousands of kilometers. It flies in anger, it's wings like clouds dripping from the sky.... "

This meant that Peng was transformed from Kun and Peng's speed was extremely fast, there was nothing that could compare.

His Blue Moon had the tail feather of the 9-feather Golden Peng. That was a level 10 material. It was said that 9-feather Golden Peng only had very little of the magical beast Peng's bloodline.

Meng Hanan nodded. "I heard that Kun once appeared in the Heartless Sea, it was just one small Kun egg. I don't know where the egg fell from but the it hatched and was already level seven. Almost everyone came wanting to get it, even if they couldn't get the beast, getting a scale or a drop of blood was also very good."

Teng Yi immediately nodded. "That's right, I've heard of it too. The big states were too far away but almost all the sea region powers were all out. Even the peak truth realisation state cultivators of the big states came later on."

Meng Hanan said, "That Kun disappeared, it's unknown if someone captured it or it escaped itself. However, this Kun was injured many times and left behind three scales. One of them is the backward scale."

Ye Mo seemed to understand what Meng Hanan wanted to say. Kun scale itself was beyond level 10 material.

Meng Hanan nodded. "Yes, the Kun scale, the backward scale was taken by a truth realisation state peak stage of the Heartless Sea and one of the scales landed in the public city of the Heartless Sea, Yin Hai City. The last one is gone."

Ji Ling suddenly said, "Hanan, you mean that with Blue Moon's speed if it has one Kun scale, it would immediately become a half immortal artifact right?"

Meng Hanan smiled. "Yes, I heard martial brother Ye say Blue Moon is too slow and I thought of this. If one day martial brother Ye goes to Yin Hai City, he might be able to buy it. The backward scale is a top grade defense magic artifact material, but the forward scale is a top grade flying magic artifact material.

Ji Ling said seriously, "If Ye Mo's Blue Moon gets the forward scale it would definitely be more than a half immortal artifact, it would be an immortal artifact for sure."

Ye Mo looked at Ji Ling in confusion. "Ji qian bei, how can you be so sure?"

Ji Ling smiled. "Because Lu qian bei told me that your Blue Moon already used the 9-feather Golden Peng's tail feather. It's still a part of the Peng bloodline, if it has Kun's scale, it would really become the Kun Peng."

Ye Mo was interested, he had offended too many people and if his Blue Moon became an immortal artefact, then he could run if he couldn't beat them.

And now, Ye Mo knew the power of truth realisation state cultivators. His flying cultivation artifact was much better than Jie Feng's but he was still able to catch up to him after he left a long while earlier. This meant that with his current power, he couldn't escape from truth realisation state cultivators.

But soon Ye Mo calmed down. He knew that was impossible. He didn't know what that city was and even if he did, how could he get it? If that scale was so easily attained, then it would've long been taken away by truth realisation state cultivator.

Meng Hanan saw Ye Mo look at her and she shook her head. "You don't need to look at me, I don't know Yin Hai City either. I've just heard people talk about it."

Ye Mo smiled. "I learned something today, if I can really go to the Yin Hai City one day, I might be able to find it there. But now, we should hurry up and get a move on.

Ji Ling suddenly said, "I actually know that Yin Hai City, my ancestor went there once when crossing the Heartless Sea. So, I have the sea markings for it but it's said to be in the deepest part of the Heartless

Sea. It's a neutral city, there are spirit beasts, beast cultivators, human cultivators, and even ghost cultivators, but they can coexist in harmony."

"Then Ji qian bei, try using your compass and see how far it is from here. We can help Ye Mo see, what if we can really buy it? I still have a few million spirit stones," Teng Yi quickly said.

Meng Hanan laughed. "Teng, if it's really on sale there, you might only need tens of thousands of extreme grade spirit stones."

Teng Yi blushed. "I have top grade spirit stones, not extreme grade grade."

Er Taa patted Teng Yi. "Teng, sister Meng is joking with you, can't you tell? If the scale is really there, even a few hundred million top grade spirit stones wouldn't be enough."

Ji Ling said seriously, "If it's really a Kun scale, then a few hundred million is indeed not enough."

He then looked at Ye Mo and asked, "Brother Ye, if you want to go Yin Hai City, I can help you find the approximate location. But, I can tell you for sure that even if there is Kun scale, it's impossible for us to buy it. Even if we buy it, we can't take it away."

Ye Mo thought for a long while before saying, "Ji qian bei, would there be danger in that city? It's in the depth of the Heartless Sea and most of them are beast cultivators..."

Ji Ling agreed. "I don't know the current Yin Hai City, but a few thousand years ago, it was said that all cultivators lived in harmony. However, harmony is established on power – without it, it's impossible."

Ye Mo said without hesitation, "Ji qian bei, although I don't have enough spirit stones to buy the Kun scale, I still want to go see it. Even if we don't go in, I can know an approximate location."

Before he found his daughter Yimo who was still in North Far State, he wouldn't stop travelling between South Peace State and North Far State.

It was impossible to set up a teleportation formation as it took an entire state to set that up, he wasn't as wealthy as an entire state.

Ji Ling heard this and said immediately, "Who has a compass?"

Meng Hanan took out the highest grade compass so Ji Ling used it. After calculating for a long while, he told Ye Mo to take Blue Moon a little west.

Another another ten days, Ji Ling told him to go north west. Just like this, they kept on changing until one month later, Ji Ling finally told Ye Mo to stop. He pointed at the big sea region. "It's around here. I don't know the exact location as I haven't been here."

"What do we do?" Teng Yi asked.

Ye Mo just wanted to say "Find a nearby beast cultivator and ask" when he saw two lights dash across his spirit sense. He immediately flew over with Blue Moon.

Blue Moon was so much faster than the two beams travelling and caught up instantly.

It was two cauldron filling state cultivators, both primary stage. They immediately took out their magic artifacts, waiting anxiously.

Ye Mo didn't talk and signalled Teng Yi. Teng Yi immediately knew what Ye Mo meant. He was the only beast cultivator here.

Teng Yi saluted with his fists. "Brothers, we're just coming past here, we want to ask where the Yin Hai City is. Can you please tell us?"

The two heard this and breathed easy, the red haired beast cultivator saluted with his fists. "We just came from there, just go west about 60,000 kilometers from here and you'll arrive."

"Thank you, please go as you wish," Teng Yi said happily.

This distance was really just a moment for Blue Moon.

Ye Mo saw the two leave with glimmering eyes. He felt that the beast cultivator seemed to be hiding something.
