Chapter 1231: Meeting Someone Familiar outside Yin Hai City

When they arrived at where the two beast cultivators pointed them to, they faced a 100 meter long rock. It was derelict like a small island.

They landed on this rock but couldn't find the entrance.

"How do we get in?" Bian Fengta looked around and asked in confusion.

Ji Ling said, "There should be a formation here, I didn't ask precisely how to get in."

Ye Mo could already tell there was a formation here, but neither he nor Ji Ling found the entrance. Just when he wanted to check carefully, another flying magic artifact came over. It was a low grade cultivation artifact.

As soon as it stopped, an eagle eyed cultivator got off. He was disaster transformation state level six. He landed on the rock and scanned Ye Mo and them without saying anything. Then he waved at his flying magic ship.

Two girls got off, one seemed to be the master and the other seemed to be the maid. The woman behind was carefully helping the woman ahead. The woman being held was cauldron filling state, and thus that was just to show her status.

Ye Mo scanned them and didn't care anymore. He focused his eyes on the eagle eyed male cultivator wanting to know how he would get into the city.

The cultivator glared back coldly at Ye Mo but then scanned Ji Ling and didn't say anything. His expression showed that he didn't consider Ji Ling a threat. He took out a black jade card and swiped in the air above the rock and a door appeared.

Ye Mo's eyes focused – this was a void formation door. He never even realized it before and neither did Ji Ling. This void formation door was much more powerful than the one he saw at All Herb Mountain Range.

"Let's go in," the man turned back and said to the two women.

Just when they wanted to go in, Ye Mo suddenly said, "Wait."

The eagle eyed man's power rose drastically and he stared coldly at Ye Mo. "What? Are you going to stop I, Yin Sha, from going in the city?"

Ye Mo didn't answer him but looked at the other blue dressed girl. "You're Guang Wei?"

The blue dressed girl shook and looked up. Then, she immediately saw Ye Mo. "Ye Mo..."

It was indeed Guang Wei, Ye Mo didn't expect the North Far State Immortal Herb Valley's disciple Guang Wei would be here. He also said in joy, "It really is you, martial sister Guang Wei – how are you here?"

The woman whom Guang Wei held said coldly, "We're going, stop wasting time."

"Yes..." Guang Wei looked down in horror again.

Ye Mo felt this was wrong. It was already strange she appeared here but it also seemed her status was lower than a maid.

Before the two could get in, he stopped them.

"What do you want to do?" The eagle eyed man came up and released his magic artifact, it was a pair of yin yang locks, a top grade cultivation artifact.

Ye Mo couldn't even be bothered talking to him. He took a step forward and pulled over Guang Wei from that cauldron filling state female cultivator and sneered. "If you want to fight, then fight."

Seeing that Ye Mo was about to release Zi Xu, Ji Ling waved his hand at him and Ye Mo thought before stopping.

That cauldron filling state middle stage woman looked at Ye Mo in shock. Ye Mo pulled Guang Wei away from her and yet she couldn't resist at all.

"You're asking to die!" Yin Sha's killing intent rose and his yin yang locks were humming. However, Ye Mo saw that he didn't really intend to attack. It was more that he was trying to make Ye Mo attack first, but he clearly overestimated himself and Ye Mo didn't move at all.

Just then, another cold voice sneered and a skinny man appeared. He scanned them before looking coldly at Yin Sha. "Who dares to fight outside the Yin Hai City?"

The man didn't expect Ye Mo to not even release his magic artifact after he put on an act for so long. He quickly put away his yin yang locks and lowered his power while saluting with his fists. "Law enforcer, these people dare to rob my cultivation woman. I bought this cultivation woman for a huge price at the Yin Hai City and I was planning to use her to reach disaster transformation state tertiary stage."

Ye Mo was shook when he saw this skinny man, he was truth realisation state primary stage and his cultivation method was very eerie. When he heard this man say Guang Wei was his cultivation woman that he planned to use to breakthrough, Ye Mo was furious.

Guang Wei helped him many times in the herb plain, how could he watch while she was taken as a cultivation woman?

Seeing that the man instantly took back his power and talk very respectfully to the law enforcer, Ye Mo knew that the status of the law enforcer was very high. He also realized why the man didn't truly attack him, he was trying to make him attack first and this way, he would be caught by the law enforcer.

Ye Mo felt grateful to Ji Ling.

Seeing the law enforcer look coldly at him, Ye Mo knew that this Yin Sha must be familiar here and they were here for the first time. Of course the law enforcer would help Yin Sha.

Ye Mo immediately saluted with his fists. "Law enforcer, Guang Wei is my martial sister – as for being a cultivation woman, this is bullshit."

Ye Mo was betting that this law enforcer wouldn't care about such trivial matters and so he straight up denied robbing Guang Wei.

Guang Wei also said, "Yes law enforcer, I'm not someone's cultivation woman."

The law enforcer sneered. "I don't care what's going on between you guys if anyone dares to fight here I will kill them. You must solve any conflict more than 100,000 kilometers away from here."

It was so indeed, Ye Mo went up and saluted with his fists. "Yes!"

Seeing this, Yin Sha was furious but he knew that he wouldn't be able to get her back. If he still wanted to fight, he would have to face the law enforcer.

He glared hatefully at Ye Mo and didn't go in the city. Instead he stood on the side waiting for Ye Mo and them while sending a few messages with his communication bead.

If Ye Mo went in he would go in, if Ye Mo left he would follow. It seemed as though he was certain he would be able to take Ye Mo and them on.

The law enforcer acted as though he didn't see this and scanned Ye Mo. "Other than that blue robed woman, it's your first time here?"

Ye Mo heard and knew that the law enforcer knew clearly that Guang Wei was bought by the man but he couldn't be bothered caring.

Ye Mo quickly replied, "Yes law enforcer, we want to go to Yin Hai City but it's our first time here and we don't have the black card so we can't go in."

The law enforcer nodded. "Yes you need to buy the Yin Hai card, from one to 100 spots, which one do you want to buy? For ten and below I have them here, for 10 to 100 you need to buy it at the Yin Hai City."

Ye Mo just realized that this law enforcer wanted to do this so Ye Mo immediately asked, "May I ask law enforcer how many spirit stones are required for ten?"

"10 million spirit stones, useable for ten years," the manager said calmly.

Ye Mo was shocked, it was this expensive, just a entrance card was ten million spirit stones. Just how expensive were the things inside? Plus he didn't even have 10 million spirit stones.

Knowing this, Ye Mo didn't plan to go in anymore.

As though seeing Ye Mo's hesitation, Guang Wei said pitifully, "Martial brother Ye Mo, my master is still in the Yin Hai City like me...."

It seemed that he had to go in now, her master was being auctioned off as cultivation woman too.

Meng Hanan could tell Ye Mo didn't have enough spirit stones so she immediately took out a storage bag and said, "There's 50 million here, you can use it first."

Ye Mo nodded gratefully and gave the law enforcer 10 million.

Ye Mo used the card he got and swiped in the air, that void formation door appeared again.

Ye Mo walked in and Ji Ling and them followed.

Chapter 1232: Yin Hai City is a Small World

Ye Mo thought that needing a void formation door, this city would be a submerged city, without a lot of plants.

But when they came in, he realized he was wrong. They stood at a huge grassy plain and there was a wide stone road. At the end of the road was an ancient city door, there were three words, 'Yin Hai City'.

The dense spirit chi here made Ye Mo feel there was at least an extreme grade spirit range here.

"It's here, my ancestor said there was a grassy plain in here," Ji Ling said.

Ye Mo felt a sense of familiarity but he couldn't tell why. He was sure he had never come here before.

Bian Fengta gasped, "This is the perfect place to hide, but it's a pity that now it's a public city. Everyone knows about this place. If I knew about this place alone I would cultivate and hide here. This spirit chi...."

Ye Mo heard this and finally realized why this place was familiar. When he was in the Ice God forbidden grounds and saw Qing Ru, that big tree was a small world. it was Qing Ru's small world, after Qing Ru went inside, it turned into a blue bead.

He found that this city had the same chi as Qing Ru's small world. Thinking about this, Ye Mo was surprised and cold sweat ran down his back.

If his guess was right and the Yin Hai City was a small world, then if this small world was someone else's, they were under this person's complete control.

If the Yin Hai City had no owner then he was scared, but if it was someone else's small world, should he leave immediately? If he didn't, wouldn't their every action be monitored by someone?

Meng Hanan saw Ye Mo didn't go in and instead frowned. She immediately asked, "Martial brother Ye what's going on? Let's go inside first."

Ye Mo thought there was no point staying here. If it was someone else's small world, they had already come in. Plus, this city had existed for countless years and Ji Ling didn't tell any strange stories.

Regardless whether this small world belonged to someone else, it had nothing to do with him. Thinking about this, Ye Mo breathed easy and laughed, "Yes, let's go in."

Despite this, Ye Mo had made up his mind he would leave here as soon as possible.

After walking out a short distance, Ye Mo saw that Yin Sha also walked in. There was also another disaster transformation state peak stage next to him and a disaster transformation state level eight. It seemed they were keeping an eye on him. Ye Mo sneered, so what if it was disaster transformation state peak stage?

Ye Mo searched around with his spirit sense carefully and after a while, he took it back. He felt he thought too much. This might be a small world but it probably wasn't controlled by someone.

When they came in, the men also followed, but Ye Mo knew they didn't dare to attack in the city at all so he ignored them.

As Ji Ling said, Ye Mo saw a lot of beast cultivators inside and many human cultivators. Ye Mo even saw more than ten ghost cultivators. More absurdly, Ye Mo saw four spirit beast who hadn't morphed yet.

This strange mix made the city seem very busy. Stores and stalls were everywhere as well as hotels, spirit rest towers, and pill shops.

Ye Mo didn't see truth realisation state cultivators walking around but he knew there would be quite some truth realisation state cultivators here.

Ye Mo didn't know how big the city was at all because there were spirit sense barrier formations everywhere. Ye Mo needed to find a quiet place to ask what happened to Guang Wei and why she and her master were caught here.

Guang Wei's master was Ming Xin, Ye Mo remembered her wanting to marry him into the sect and felt sad. How could she be doing well after being captured here?

Ye Mo had respect for Ming Xin. As the sect leader of Immortal Herb Valley, she didn't have any bad intentions towards him after he rejected her. This was very rare.

In the cultivation realm, power was everything and yet Ye Mo was only a foundation establishment state cultivator at the time. Indeed Ming Xin was a little unhappy, but that was it. So regardless, Ye Mo was going to come help.

The second thing was to look out for the Kun scale.

Ye Mo saw the men didn't keep following them after he went in. They just stood at the city door.

Soon, Ye Mo and them found a hotel to stay in.

After getting into a room, Ye Mo set up a sound restriction immediately. Seeing this, Ji Ling nodded. "Ye Mo, you're a natural at formations and restrictions."

Ye Mo smiled but looked at Guang Wei and asked, "Martial sister Guang Wei, tell me what happened at the Immortal Herb Valley. Why are you and your master being sold as cultivation women?"

However, Guang Wei said desperately, "I will tell you about this later okay? When I was bought off three days ago, my master was still in the market. I don't know how she's doing now – can we go see?"

Hearing this, Ye Mo immediately said to the group, "Why don't I go see with martial sister Guang Wei and you guys wait for me here?"

Ji Ling immediately said, "I'll go with you."

Ye Mo shook his head. "No need, fighting isn't allowed here. This can't be solved with numbers. Who else has spirit stones, lend me some?"

Teng Yi was about to take out his spirit stones but Meng Hanan stopped him. "Yours aren't enough, use mine."

Then, Meng Hanan gave Ye Mo a storage ring. "This belongs to my sea treasure tower, Yong Lanyi wanted to capture me greatly because of this. You can use it."

Ye Mo took it and scanned with spirit sense, he then immediately looked at Meng Hanan with shock.

Before Ye Mo could say any words of gratitude, Meng Hanan smiled. "I said I would be following you, this can be my fee."

Ye Mo saluted with his fists to Meng Hanan. "Thank you sister Meng no matter what you did before, from how you helped me out today, I won't betray you."

Meng Hanan pushed Ye Mo and said, "Hurry up and go rescue them. If possible I want to leave here early, I have a bad feeling here."

Ye Mo was a little shaken, Meng Hanan's instincts were too accurate.

Ye Mo also knew now wasn't the time to be wasting time so he pulled Guang Wei out of the hotel and said, "Take me to that market."

Guang Wei quickly brought Ye Mo across a busy street.

Ye Mo was thinking about the storage ring Meng Hanan gave him on the way.

It shook Ye Mo too much. Ye Mo saw more than 500 million top grade spirit stones and a few hundred extreme grade spirit stones. Other than this, there were mountains of spirit herbs, ores, and materials.

There weren't level nine spirit herbs but he saw more than 10 level eight spirit herbs.

As for pills, Ye Mo didn't see any, probably because Meng Hanan knew he was a pill king.

But since Meng Hanan provided him with this many spirit stones when he needed them the most, Ye Mo had planned to provide her with pills.

Ye Mo knew this amount of spirit stones was probably 99% of the Sea Treasure Palace's wealth and yet Meng Hanan gave it all to him.

Chapter 1233: I'll Have this Female Cultivator

Guang Wei took Ye Mo across a few streets before coming to a huge square. There weren't a lot of cultivators here and Guang Wei didn't stay here. She turned and took Ye Mo behind the square into a huge hall.

Ye Mo was certain this was the first time he had seen a hall this big. Even 9-star sect Black Ice Sect's hall wasn't even one percent as big as this. There were all sorts of glamorous stones hanging on the ceiling, shining down on the hall brightly.

There were a lot of people here, almost in every corner.

Ye Mo scanned with spirit sense and there were all sorts of strange things here. He even saw a few ghost cultivators dealing cultivator souls. As for spirit beasts, and golden core or even nascent soul cultivators and essence spirits, they were all too common.

Seeing this Ye Mo sighed, if an ordinary person came here he would be scared into psychosis.

Guang Wei looked around frantically immediately and wasn't able to find the person she looked for for a long time. She looked extremely worried, clearly her master had been bought. That would only result in death.

Ye Mo patted her shoulder. "Don't worry, let's go to where your master was before."

Guang Wei heard this and realized that she had been too worried. She quickly took Ye Mo to the innermost place in the palace.

There was a row of more than ten female cultivators. They were all very beautiful but their faces were numb. Clearly, they knew the fate that beheld them. All of them had restrictions placed on them, if there wasn't someone specific to release them, they wouldn't be able to get away.

Ye Mo saw this and felt very uncomfortable but he knew there was nothing he could do.

Whether it was on earth or in the cultivation realm, such things happened and it was impossible to eradicate. If Ye Mo had enough power, he would kill all of these human traffickers and let all the abducted people go.

But he didn't have enough power. Power was his greatest weakness right now. Even though he was progressing very fast, compared to the powerful beings here, he was still a far cry away.

"Hmm, weren't you a cultivation woman bought only a few days ago? Why did you come back?" a fat seller who was body condensation state level seven saw Guang Wei and asked in disbelief.

Ye Mo sneered. "Fat pig, who did you call a cultivation woman? Keep your mouth clean!"

The fat cultivator shivered and didn't dare to talk.

The status between people who were being marked as for sale was different than the free people here. Even though one appeared here again in different status, it required different treatment.

As for reproaching, even if Ye Mo slapped him a few times he wouldn't dare to do anything. He offended a higher level cultivator as a lower level cultivator. But Ye Mo didn't know the rules here so he didn't hit this fat man.

"Tell me, where is my master?" Guang Wei asked immediately.

The fat man looked at Guang Wei in confusion for a while before asking, “You’re talking about the woman who came with you that day?”

“Yes, her! Where is she now?” Guang Wei asked desperately

The fat man dazed and said, “She has an average look so no one wanted her. A dual cultivation hotel has preordered her but just hasn’t taken her away.”

Ye Mo was furious, that was the brothel of the cultivation realm. Anyone would be able to use that cultivation woman for cultivation until she died.

Dual cultivation hotels were many times crueler than brothels.

But Ye Mo was confused, Ming Xin was pretty like a beautiful young woman. Her looks were no lower than Qin Muxin and even prettier than Guang Wei. How could she be average looking?

Guang Wei didn’t realise this and quickly said, “Bring my master out, we’ll buy her.”

The fat man had a sliver of joy but put on a hard face. “But she’s been preordered by the dual cultivation hotel, I can’t regret.”

How could Ye Mo not know what the fat man meant, he sneered. “If she’s still here then don’t waste time. Bring her here – as for spirit stones I have plenty. If she has one hair missing, I will tear down your stall!”

The fat man immediately replied, “Okay, okay, I’ll get her sent over immediately.”

He ignored the last bit of Ye Mo’s sentence. Many cultivators wanted to do this but none of them could – plus this wasn’t his stall, he was just working here.

He took out a communication bead and sent a message.

Ten minutes later, a triangular eyed man brought a middle aged female cultivator over. Ye Mo looked at her and could tell she was indeed Ming Xin.

But her face was ruined, Ye Mo saw, and he realized that she did this herself. The people selling her wouldn't ruin her face.

"Master..." Guang Wei saw Ming Xin and ran over immediately.

The fat man saw this and laughed. The higher Ming Xin's status was, the more he would earn.

Ming Xin saw Guang Wei with Ye Mo and was dazed for a moment before asking, "How are you with Ye Mo? How can he be in a place like this?"

Guang Wei quickly said, "Master, I'll tell you this later. Ye Mo saved me and took me here to save you. Luckily you're still here master, I was so scared..."

Guang Wei couldn't control her sadness and was about to cry.

Ye Mo patted Guang Wei's shoulder signaling her to calm down before saying to Ming Xin, "Ming Xin qian bei, I didn't expect that after the farewell at Broken Leaf City we would meet again in the distant Heartless Sea."

At this moment, she realized that Ye Mo came to save her. She asked shakily in surprise and joy, "Ye Mo, you saved Guang Wei? And now you came to save me?"

Ye Mo nodded. "It was just luck that I saw Guang Wei. She's my friend, so I'm willing to help her. Plus, wan bei respects Ming Xin qian bei's character."

Ming Xin sighed in her heart about fate. In a few years, she not only could see Ye Mo's cultivation level but needed Ye Mo to rescue her. But she thought more about karma. She didn't even give Ye Mo anything but just didn't oppress him and now she had this opportunity of redemption.

For someone like her, she would rather die than dual cultivate with countless cultivators.

Ye Mo said to the fat man, "Tell me, how many spirit stones? Hurry up."

He smiled. "That dual cultivation hotel offered 5 million top grade spirit stones, but since you intervened you can pay 7 million."

Ye Mo sneered and just when he was about to speak, his spirit sense saw the eagle eyed man come over here. Regardless whether he came for him, he needed to finish this deal now.

Thinking about this, Ye Mo threw over a storage bag and said, "This is 7 million, done deal."

The fat cultivator took it in joy, he didn't expect that he made such a high bid and Ye Mo didn't even argue.

But before he could count it, the eagle eyed cultivator's voice sounded, "Wait! I, Yin Sha, will have this female cultivator."

He pointed at Ming Xin.

Chapter 1234: Scam Deal

Guang Wei heard this and began to worry but Ye Mo didn't seem to hear the man talking and said to Guang Wei, "Let's go."

"Wait." Yin Sha stopped the two without hesitation. He then turned to the fat man and said, "Pang Meng, what are you doing with your business? Are you not going to follow the Yin Hai City rules? I clearly saw that your deal hasn't finished, why is she leaving?"

Before the fat cultivator could respond, Ye Mo said coldly, "I already paid spirit stones, with which eye did you see with that the business hasn't finished?"

Yin Sha looked at Ye Mo in contempt. "Both of my eyes saw the deal wasn't finished. Don't speak if you don't know the rules." Then he said to Pang Meng, "Pang Meng, has the sale of this female cultivator finished?"

The fat cultivator subconsciously shivered. "No it hasn't, I haven't gotten the time to talk about the second part with this friend when you came."

He then looked worriedly at Ye Mo and said, "Friend, the sale of cultivation here is indeed a two part process. We just done the first part of the deal."

Pang Meng had a clear mind and after seeing the buyer of Guang Wei come and seemingly have great enmity with Ye Mo, how could he not know what happened.

Ye Mo frowned, it was his first time here and he didn't know that much. Peng Meng explained, "The first step is to use spirit chi just to reach an agreement and give me the spirit stones, the second part is I need to remove the cultivation woman's restrictions and you need to pay again for that."

Ye Mo finally realized how this Pang Meng was planning to scam him. The first step for 7 million was just the beginning, then he needed him to remove the restriction and thus he could ask for whatever price he wanted. Usually, one needed the person who set the restriction to remove it. It was very hard for others to do so.

Even so, it would require the power of the cultivator to be much higher than the one who placed the restriction. Otherwise, just one mistake and the restricted person would die. If the person who placed the restriction was truth realisation state, then it would be very hard for another truth realisation state to remove it.

Ye Mo sneered, "Fat man, so you're saying I need to give you more spirit stones to finish the second part of the deal?"

Pang Meng smiled. "You're right friend, it's indeed so. But the second part of the deal won't be much more expensive than the first part..."

Ye Mo was furious – won't be more than the first part, this was clearly a huge scam! Without a doubt, if he didn't agree to the second part, he wouldn't get his money back for the first part.

Yin Sha suddenly said, "No matter how much spirit stones he pays I will pay one million more. I'll have this female cultivator."

Pang Meng looked happy and gave the spirit stones back to Ye Mo, seemingly helplessly. "Sorry, someone is bidding a higher price."

Ye Mo couldn't control his fury anymore and sent a spirit sense sword over. Pang Meng spat a mouthful of blood suddenly and then looked at Ye Mo with a pale face.

He pointed at Ye Mo. "You, you dare to attack in this business hall..."

Then he pressed the alarm button like crazy. Moments later, two cauldron filling state tertiary stage cultivators came.

"You pressed the alarm button?" the cauldron filling state glanced coldly at Pang Meng.

Pang Meng nodded his head like a chicken. "Yes, two law enforcers, this person is making a deal here but not only does he disobey the rules, he also attacked me."

He then pointed the blood on the ground and was furious.

"You dare to attack him here?" the cauldron filling state's tones went icy cold while his partner blocked off Ye Mo's exit.

Seeing this, everyone stopped what they were doing to watch the show.

If it was somewhere else, he would kill these two cauldron filling state cultivators and this Pang Meng, but he knew he would be dead for sure if he did that here.

Ye Mo immediately went up. "Law enforcers, this fat man is lying in front of you. He said I attacked him but there're surveillance formations here and many people saw. I didn't even move my hand, how did I attack him?"

That cauldron filling state cultivator heard this and left, moments later he came back and said to the other cauldron filling state, "He didn't attack indeed."

"Wait, he attacked me, I spat blood because of that!" Pang Meng shrieked.

The cauldron filling state who checked the surveillance said, "Do you have evidence? If you have evidence that he attacked you we will take him away immediately, but if you have no evidence and you dare to question us then don't blame us!"

Pang Meng's heart went cold, he knew Ye Mo used a spirit sense attack. Spirit sense attack didn't have any cultivation essence waves, how was he going to find evidence? He also knew the two law enforcers knew this but they had no evidence.

Ye Mo sneered. "Perhaps you felt your blood wasn't fresh and wanted to spit or maybe you're sick. Who knows?"

The cultivators around laughed, a body condensation state cultivator getting sick? Was that possible?

Seeing that they were going to leave, Pang Meng pointed at Ye Mo. "This man didn't finish his deal with me and was going to take away a cultivation woman. He won't even let someone else bid, that is breaking the rules here."

The cauldron filling state was unhappy that he wasn't able to catch Ye Mo when he clearly attacked the fat man. Now that there was something else that involved Ye Mo, his face immediately sunk.

"You're quite bold but you won't even get a chance to regret if you think this is your place." The cauldron filling state took out spirit artifact hand cuffs.

Yin Sha smirked, he knew this cultivator would be dead if the law enforcers took him.

Ye Mo understood the rules approximately here. Even if the law enforcers wanted to help Pang Meng, they needed to get things clear publicly.

How could he let the two take him away? He would be truly be done for then.

Ye Mo said, "Law enforcers, are you just going to listen to one side of the story and you can take people away? If that's the case then I need to report to the city lord."

The other cauldron filling state stopped his partner from cuffing Ye Mo and said coldly, "When did you see us listen to one side of the story? You didn't follow our rules, we can't take you away?"

Ye Mo laughed. "Many people saw what happened and there's surveillance formations. You two never asked my side? You just listened to the fat man and said I disobeyed the rules? Is this the rules of Yin Hai City? If Yin Hai City is really like this, then count me unlucky."

"Hmph." A cultivator came and said, "Since when did Yin Hai City become a place that only listens to one side of the story? Anyone who comes here is equal – even we are equal!"

This was a disaster transformation state tertiary stage cultivator.

Ye Mo sneered, equal my asshole, yet he said it so seriously.

The two cauldron filling state saw this disaster transformation state cultivator and their faces changed immediately and bowed. "Manager!"

The disaster transformation state ignored the two and looked coldly at Ye Mo. "If you don't give me your reason, I will kill you on the spot."

Ye Mo was contemptuous, kill him on the spot? A mere disaster transformation state level seven dared to make such bold statement. He killed a disaster transformation state level four when he was cauldron filling state level two. Now, he was cauldron filling state level six.

But Ye Mo still answered, "Manager, my deal with Pang Meng clearly finished but he said it didn't. Instead he wants to sell the female cultivator I bought to someone else. Is this a domineering act? If everyone does what he does, who dares to make deals here?"

Pang Meng quickly bowed and said, "Manager, this cultivator is bullshitting, the deal clearly isn't finished. There's not only surveillance formations here but also many eyewitnesses. He's lying on the spot."

Yin Sha also said, "Yes manager, I indeed saw the deal wasn't finished but he was forcefully saying it was."

The disaster transformation state cultivator looked coldly at Ye Mo. "Is that so?"

Chapter 1235: Tough Foreign Cultivator

Ye Mo said in no rush, "Manager, please let me ask this fat man a few questions."

The manager said indifferently, "Ask."

Ye Mo looked at Pang Meng and said coldly, "You said that your cultivation women are two step deals right?"

"That's right, we've only done the first part of the deal not the second part," Pang Meng immediately said.

"Okay, then did we finish the first part? Did you get my spirit stones?" Ye Mo asked with scorn.

Pang Meng didn't know what Ye Mo meant but he nodded. "Yes, the first part of the deal is over. You gave me spirit stones and I gave you the cultivation woman."

Ye Mo suddenly raised his voice and questioned, "So that means she's mine now? What right do you have to let someone who is mine be involved in another deal? Are my spirit stones fake or is this something you always do?"

Pang Meng was dazed and couldn't react. Those cultivators who came here had to do the second part of the deal, as if they didn't, even if they got their cultivation woman, they wouldn't be able to use her. She would die very soon.

He thought and immediately knew what Ye Mo meant, he said loudly, "You're right, but if you want to do the second part of the deal and I disagree, then the cultivation woman you buy will die for sure. If you're going to do the second part of the deal with me, then the deal isn't over. The first part I can regret at any time and I can refund your spirit stones, you must give her back to me."

Ye Mo calmed his tone and said, "So you're saying that after the first part of the deal, you must agree for the second part to proceed? Am I not allowed to disagree? Or do I have to make the second part of the deal? Is this coercion?"

Pang Meng said coldly, "It's up to you if you want to do the second part of the deal. You can disagree, I'm not forcing you to agree – but if you agree, then I get to decide your cultivation woman again."

Pang Meng sneered because he knew that Ye Mo needed him for the second part of the deal. Otherwise, the cultivation woman would die for sure. He bought this cultivation woman with his spirit stones and he knew her. There was no way he was willing to let her die.

Ye Mo ignored this fat man and saluted with his fists to the manager. "Manager, from the start to the end, I've never asked to do the second part of the deal but this man is forcing me to do the second part of the deal and wants to take back my cultivation woman. If you don't believe me you can check the surveillance formation or ask people around here. I want to ask, just then this fat man said the second part of the deal is up to me. Since he knows this, why is he forcing me to do the second part of the deal?"

The manager suddenly glared coldly at Pang Meng. "Is that the case?"

Pang Meng shivered, he thought that Ye Mo would definitely do the second part of the deal but instead he didn't mention it at all.

If Ye Mo would rather let the cultivation woman die and lose 7 million than agree to the second part of the deal, then he would've dug a hole for himself.

He couldn't deny what he did so he could only nod. "Yes, but manager he must...."

Ye Mo sneered again. "I get to decide what to do with this cultivation woman, why should I do the second part of the deal? I never wanted to do it."

Pang Meng's heart sunk, this cultivator's heart was so cruel and tough. The reality was in front of him and he couldn't make an excuse for himself. He could only bow to Ye Mo. "I didn't know you didn't intend to do the second part of the deal friend. It's my fault, I apologise..."

Ye Mo ignored him and saluted with his fists to the manager. "Manager if you didn't come over, I would've been taken away because I didn't want to do the second part of the deal. And the cultivation woman I bought would be taken away for no reason. I believe in Yin Hai City, I believe the city will give me justice."

A sliver of a glare flashed across this disaster transformation state cultivator's eyes, he scanned Ye Mo and said, "I understand the specific situation now. The city will deal with the two law enforcers, as for this person who forced you to do the second part of the deal, you can make two requests that don't hurt his life."

Ye Mo immediately said, "Yes, thank you manager, you indeed do things with justice. I came to the right city."

Then, Ye Mo looked coldly at Pang Meng. "My first request is compensation. The 11 cultivation women here are a little lacking, but it's barely enough. I want them whole."

Pang Meng heard this and looked fearfully at the manager.

The manager said expressionlessly, "Yes, remove their restrictions immediately and give them to this customer."

Before Pang Meng could reply, another cultivator outside the circle came in and bowed. "Yes manager, Mo Quan will do this immediately."

It was a disaster transformation state peak stage cultivator.

He removed the 11 cultivation women's restrictions and brought them to Ye Mo. "Friend, how about I remove the restriction of the cultivation woman you bought before and complete the deal."

Ye Mo sneered, he dared to play such little tricks. Ye Mo waved his hand. "No need, I can do whatever I want with the cultivation woman I bought. Outsiders don't need to intervene."

He grasped the reason of the forced second part of the deal, if he agreed now, his reason would be no more.

Killing intent flashed across his eyes but the middle stage peak stage didn't say anything and left.

The manager nodded and asked, "What's your second request?"

Ye Mo said, "Thank you manager, my second request is to slap this Pang Meng who dared to scam me."

The manager nodded without care. "Without the order of the city lord, no one is allowed to kill, you understand this right?"

Ye Mo quickly said, "Yes manager, I won't kill. I'm a foreign cultivator, I don't dare to kill in Yin Hai City. I'm just slapping him, at most making him spit blood. If he didn't scam me so hard before I wouldn't make such a request."

Some people already began to feel sorry for Pang Meng, just from how he got 11 cultivation women back instead, this slap wouldn't be simple.

Pang Meng broke into a cold sweat, looking at the disaster transformation state peak stage seeking help, but the disaster transformation state peak stage didn't seem to see this.

"Hurry up and slap him," the manager said.

Ye Mo heard this and went up without hesitation, slapping Pang Meng's chest.

People saw Pang Meng didn't seem to move but his eyes became more dazed. The manager looked at Ye Mo and thought this cultivator was so vile. A foreign cultivator dared to do things to this extreme. He was this young and powerful, clearly he had no simple origin.

Then the manager said to the two cauldron filling state, "Go receive your punishment in the Law Enforcer Hall."

The two shivered and replied, "Yes manager!"

The manager glanced coldly at Ye Mo before disappearing.

At this moment Pang Meng woke up from his daze and pointed at Ye Mo shakily, "You, you destroyed my dan tian..."

Then Pang Meng spat blood again as he fell to the ground in a spasm. Pang Meng was done for, this was worse than killing him.

Some cultivators looked at Ye Mo fearfully. A foreign cultivator dared to use such extreme means. He greatly offended the manager.

Yin Sha looked at Ye Mo coldly but he was shocked. He didn't expect Ye Mo to be this cruel, but clearly, he had offended the manager.

How could Ye Mo not know this but he didn't care, he was about to leave immediately.

Chapter 1236: Cause for the Incident

Ye Mo took Guang Wei and the 11 female cultivators and left the hall. When they came outside, Ye Mo stopped and looked at the 11 cultivation women. "You all have nascent soul state or hollow spirit state power, I can't take you guys away now so I'll give you guys a few flying magic artifacts and you can run yourself."

"Qian bei, you're not going to use us as cultivation women?" one pink dressed hollow spirit state primary stage heard Ye Mo's words and asked shakily.

Ye Mo smiled. "Do you think I'm someone who needs cultivation women? I can't bring you guys with me in Yin Hai City, as for whether you can live or not, it's up to your fortune."

The 11 cultivation women didn't believe this was real at all. After Ye Mo and Guang Wei and Ming Xin disappeared, they realized that they didn't even thank Ye Mo. When they wanted to chase up, Ye Mo was already gone.

The pink female cultivator first reacted and asked an older yellow robed female cultivator, "Sister Xinyu, what should we do now?"

She bowed in Ye Mo's direction first before saying, "If we leave Yin Hai City now we'll be dead for sure, but if we stay here it's very safe. I heard this city often holds a exchange social so we'll wait for one to come and when it ends, we'll leave with those who came here. Then I can send a message to my sect and ask for help."

The rest of the girls also agreed.

...

Ye Mo was helpless, that was indeed all he could do. He couldn't allow these female cultivator to be ruined in the dual cultivation hotel. He also hoped that if one of his friends or family fell in such a situation, there would be someone to help them like that.

He helped Meng Qi thinking the same thing. He hoped that if Yimo was in trouble, there would be a cultivator to help like him.

Ye Mo and Guang Wei brought Ming Xin back to the hotel and introduced them to everyone else. Teng Yi and Bian Fengta weren't at the hotel. Meng Hanan said they were adamant on searching for news about the Kun scale so they went out.

After the people had a talk, Ye Mo set up a few more restrictions before letting everyone sit down.

"Martial brother Ye, what do we do about the restriction on my master?" Guang Wei asked.

Ming Xin waved her hand and said shakily, "Ye Mo, thank you, if you and Guang Wei didn't come, I don't even know what would have happened. I'm not afraid of the restriction, I'm afraid that I won't even be able to die when I want to."

Ye Mo signaled Ming Xin to sit down, he wasn't afraid of even truth realisation state restrictions. His Three Birth Chant could even give birth to cultivation methods, much less restrictions. Plus, Ye Mo knew her restriction was just placed by a disaster transformation state cultivator.

"Ming Xin qian bei, if you trust me I can help you remove the restriction," Ye Mo said.

Ming Xin said firmly, "Help me, I trust you."

Ye Mo held Ming Xin's hand and checked her meridians. He immediately had an understanding of this restriction.

In less than eight minutes, Ye Mo completely removed her restriction and let her recover her power.

Feeling cultivation essence come back to her body again, Ming Xin immediately got up and thanked Ye Mo excitedly. Other than gratitude, she felt more shock. It was very hard to remove a restriction you didn't place and yet Ye Mo removed hers easily.

She didn't even have any hope to remove it, but Ye Mo actually easily allowed her to recover.

Ye Mo took out some storage rings, giving one to Ming Xin and another to Guang Wei while saying, "Go get a change of clothes and then we can talk."

Ming Xin nodded and took the storage ring before getting up with Guang Wei. Ye Mo then said, "There're two Face Preserving pills as well."

"Face Preserving pills?" Guang Wei and Ming Xin looked at Ye Mo in shock. Meng Hanan also said this and looked at Ming Xin and Guang Wei in envy.

Face Preserving Pill – which woman didn't want to keep her youthful look forever? A woman valued her looks more than her life.

Ye Mo nodded. "Yes, but it was made by me twenty years ago so it doesn't look very good."

Guang Wei held the storage ring excitedly and wanted to go try immediately. Ming Xin looked gratefully at Ye Mo again and didn't say anything. She took Guang Wei inside to shower and change.

Ye Mo looked back at Meng Hanan and also took out a jade bottle. "There's one more here, it's yours."

Meng Hanan took the bottle from Ye Mo and quickly said, "Perfect, I've been looking for one for decades but now I really got one. Thank you Ye Mo!"

Ye Mo smiled. "Sister Meng helped me so much, I haven't thanked you yet, a mere Face Preserving Pill is nothing."

Ji Ling looked at Ye Mo and shook his head. "You have so many good things on you, when you were at the pill king tournament, I even wanted to ask for a rare flame for you from Lu qian bei, but it seems I underestimated you."

Ye Mo smiled. "Ji qian bei, do you want one too?"

Unexpectedly, Ji Ling nodded. “Yes, I’ll have one, my granddaughter must be really worried about me this time. I can give one to her. I don’t need one for myself.”

Ye Mo took out a prepared storage ring and gave it to Ji Ling. “Ji qian bei, here are some things I’ve prepared and some of my formation experience, it’s yours now qian bei.”

Ji Ling nodded and took it, he knew Ye Mo was wealthy and he didn’t need to be too polite with Ye Mo.

Soon, Ming Xin and Guang Wei came out. Ming Xin’s face hadn’t recovered yet, clearly she hadn’t eaten the pill yet.

Ye Mo asked, “Ming Xin qian bei, what happened? And before you came to Heartless Sea, do you know about Pei Hai City’s Mo Yue?”

Ming Xin thought and said, “You probably know who the number one solo cultivator in North Far State is right?”

Ye Mo nodded. “Yes, Ling Zhongtian, disaster transformation state peak stage power, it’s said he’s the strongest in North Far State.”

Ming Xin nodded. “That’s right, there’re three great disaster transformation state cultivators in North Far State, Wang Yue Sect’s Shan Fei, Jade Woman Sect’s Tang Mengrao, and then Ling Zhongtian. They’re all disaster transformation state but Ling Zhongtian is the strongest. I heard he’s near truth realisation state cultivator and he can fight people at higher levels than him. Even truth realisation state primary stage cultivators won’t be able to beat him.”

Ye Mo had a pretty good impression of Ling Zhongtian, whether it was seeing his temperament at the herb plain or due to Xu Changji’s relationship with him.

Ming Xin said, “I have a disciple called Qin Muxin – you know, right?”

Ye Mo quickly said, "Yes, I know martial sister Muxin, I saw her at South Peace State. She's now South Peace State's 8-star sect Heartless Valley's core disciple."

Chapter 1237: North Far State Internal Conflict

"Huh, you saw Muxin at South Peace State?" Ming Xin got up excitedly and so did Guang Wei.

Ye Mo let the two sit down before saying, "Yes, Ming Xin qian bei, she's doing very well now and is a level one pill king, you don't need to worry for her."

"That's good, that's good, it's so good to join 8 star sect," Ming Xin said and then sunk down in her chair. "She wasn't fortunate enough to be your wife..."

Ye Mo felt awkward and didn't know what to say but luckily Ming Xin thought of something and said in shock, "That's right, I heard you went to South Peace State...."

Ye Mo replied, "Yes qian bei, I came from South Peace State and I'm planning to cross the Heartless Sea, I met martial sister Guang Wei on the way."

"You're really crossing the Heartless Sea..." Ming Xin murmured and then stared at Ye Mo. "What's your cultivation level?"

Ye Mo was scared about talking about his cultivation as his progress was too abnormal, ordinary people couldn't comprehend it. But now that Ming Xin asked he could only reply, "I'm cauldron filling state level six."

Ming Xin heard this and after a long while, she sighed, "Ye Mo, I knew you were a prodigy before but you've far exceeded what I expected. Cauldron filling state level six, this is rare in the entire North Far State and yet you're so young. I feel like I've been wasting my life compared to you."

Ming Xin paused and said, "Ye Mo, don't call me qian bei anymore, your power is much higher than mine. Just call me Ming Xin or sister Ming Xin."

Ye Mo smiled. "I call Mu Xin and Guang Wei martial sister, if I called you sister things would be messy. I'll still call you qian bei. Plus, I have a different view than others, just because power is higher doesn't mean you're a qian bei."

Guang Wei was shocked even more. When she first saw Ye Mo, he was only foundation establishment state and she even saw when he formed his golden core. Ye Mo's golden core was above the nine grades and her big martial sister said Ye Mo's future was boundless, now it really did seem so.

Ming Xin hesitated and nodded. "Okay then."

Ye Mo saw that she didn't ask about other things so he asked, "Ming Xin qian bei, you talked about the three disaster transformation state cultivators and Muxin martial sister, what happened?"

Ming Xin answered, "The reason Ming Xin could go to South Peace State is because of 8-star sect Jade Woman Sect's Tang Mengrao's recommendation. Tang qian bei saw Muxin and believed she was a pill concoction prodigy, it was such a waste for her to stay at North Far State so she recommended her to go South Peace State."

Then, Ming Xin sighed, "In the North Far State, the three disaster transformation states were the foundation pillars but the usually united three disaster transformation states one day fought with each other..."

"Why?" Ye Mo heard this and asked in shock.

Ming Xin shook her head. "I don't know specifically, but it was over a woman. Tang Mengrao qian bei and Shan Fei qian bei fought with Ling ZHongtian qian bei. It's said that the battle was so intense that a few mountains were destroyed. That battle went on for a few days and eventually, both sides were injured. It's said that Ling Zhongtian qian bei took a woman and she was from the Jade Woman Sect. My status was too low and I didn't dare to ask who it was."

Ye Mo frowned and said, "Ming Xin qian bei, tell me first what happened afterwards."

Ming Xin continued, "After Ling Zhongtian qian bei left, he disappeared and no one heard from him again. But soon after, things happened in North Far State. the beast tide appeared not only at Broken

Leaf City but also Pei Hai City. Usually they come and go, but this time they didn't go and had more numbers and powers. Ling Zhongtian wasn't there and those solo cultivator couldn't unite to fend off the spirit beasts. Shan Fei qian bei and Tang Mengrao qian bei went separately to Broken Leaf City and Pei Hai City despite their heavy injuries."

Ye Mo's heart sunk, Jingwen and them were all at Pei Hai City.

He asked desperately, "Ming Xin qian bei, Pei Hai City was also attacked?"

Ming Xin nodded. "Yes, Tang Mengrao qian bei went to Pei Hai City. We followed her there to help her but there were disaster transformation state beast cultivators in that beast tide and more than ten level nine spirit beasts. Although many North Far State cultivators went to help, there were too many."

"Was Pei Hai City broken in?" Ye Mo asked anxiously.

Ming Xin shook her head. "When I left, it wasn't. A powerful cultivator came and stopped the beast tide. I didn't see clearly but that powerful cultivator seemed on par with Tang Mengrao qian bei."

Ye Mo breathed easy and then asked, "You left?"

Ming Xin replied, "Yes, although Tang Mengrao qian bei was heavily injured, she was in the middle of the battle constantly. Her injuries got worse and worse. A lot of cultivators from Jade Woman Sect died. There were only me and two disciples following Tang qian bei and a few solo cultivators. Seeing that she was about to die, we wanted to take her to escape. During our escape, my sect's Liu Yuetang also disappeared. Eventually, we had nowhere to go so we went into the Heartless Sea."

Ming Xin sighed, "Although Guang Wei and I got away, we were heavily injured. We could only find an island to recover. We stayed a few months on that island with arid spirit chi before recovering. Then, we went to find Tang qian bei but we lost our direction. We just wandered around for another three years but we still didn't find our direction. We decided to stop by an island and cultivate while we thought of a way."

Ye Mo sighed, Ming Xin was only hollow spirit state tertiary stage and Guang Wei was worse, golden core state level nine. It was extremely fortunate that nothing happened to them in those years in the Heartless Sea.

Ming Xin said, "Before we could find an island to stay on, we were captured by beast cultivators. They wanted to rape us, but when they saw we were both virgins and our talent was good, they changed their mind. They knew they would get much better profit by selling us."

Guang Wei looked down in embarrassment when Ming Xin said this.

"Then you and martial sister Guang Wei were brought to Yin Hai City?" Ye Mo asked.

Ming Xin nodded. "They spent about half a year to reach Yin Hai City. Then you know what happened."

Chapter 1238: The Formation at City Lord Estate

Ye Mo's face went bad, he had a good impression of Ling Zhongtian and the Wang Yue Sect's Shan Fei. He was recommended to South Peace State by Shan Fei. Although he gave them the Spirit Recovery Pill, Shan Fei also protected Mo Yue and set a hollow spirit state cultivator there.

However, it didn't matter to him why they fought. He was worried about Mo Yue, Song Yangzhu, Ye Ling, Song Yangzhu, and the rest.

Meng Hanan suddenly asked, "Sister Ming Xin said that the three most powerful people in North Far State all got injured and then the spirit beast attacked. Could there be some shenanigans there?"

Ye Mo also felt this thing was very dodgy but he hadn't gone back to North Far State and couldn't be sure if someone plotted this.

Ming Xin wanted to comfort Ye Mo upon seeing his worried face but Ye Mo suddenly asked, "Ming Xin qian bei, that means when you left Pei Hai City, it was about four or five years ago?"

Ming Xin nodded. "Yes, it's indeed been almost five years."

Ye Mo was at a loss. Five years – so much could happen in five years.

He set up a teleportation formation at Mo Yue and could only hope that if Pei Hai City was really broken into, they would be able to leave through that.

Ming Xin said again, "Ye Mo, don't worry. When I left, a powerful being came and humans gradually had the upper hand. As soon as they got the upper hand, countless cultivators would flock to help."

Ye Mo sighed, he could only think like that.

Ming Xin said gratefully again, "Ye Mo, thank you for giving me this many pills."

Ye Mo nodded. "Ming Xin qian bei, if you don't want to stay in North Far State, you can come back with us to South Peace State this time."

Ming Xin heard this and didn't say anything. After a long while, she responded, "I can't go, I have Immortal Herb Valley, if you can take someone away then take Guang Wei. Her talent is really good, it's a waste for her to stay in North Far State."

Guang Wei's eyes went red and just wanted to say something when Ye Mo got up and opened the restriction of the room.

Teng Yi and Bian Fengta came back looking excited.

Ye Mo looked at the two and asked, "You two seem very happy?"

Teng Yi laughed. "It's because we heard about the Kun scale. It's really here but it's in the city lord estate, each year it would be taken out for show but it's not for sale."

Bian Fengta said, "Every year, the city lord estate would hold a cultivation resource trade social. Before the social, the city lord would show the Kun scale to everyone. There're about three months till the social, we can stay here for three months."

Ye Mo was thinking about Pei Hai City but even without it, he wasn't going to stay here for three months. He felt very uncomfortable here.

"We can't stay here for three months," Meng Hanan suddenly said.

She also felt very uncomfortable here.

Ye Mo nodded. "Indeed, we must leave here immediately."

Then, he said again, "I want to visit the city lord of Yin Hai City, regardless if I can get the scale, I must try."

"You want to visit the city lord?" Teng Yi immediately waved his hand. "You don't need to go, you won't be able to see him at all. It's said he's very powerful and doesn't see guests, how can you see him?"

"How would I know if I don't try? If I really can't, we'll leave the city immediately," Ye Mo said.

Meng Hanan suddenly said, "Martial brother Ye, I'll come with you."

Ye Mo nodded. "Let's go now then."

...

As soon as they walked out, Meng Hanan said, "Ye Mo if you have Immortal Curl Flower, you might really be able to get the Kun scale."

Ye Mo shook his head, he only had one last Immortal Curl Flower, he wasn't going to swap it. Perhaps this was the last one in the entire cultivation realm.

Meng Hanan sighed, she knew it was probably impossible to get the Kun scale without something like the Immortal Curl Flower.

The city lord estate was right in the middle of the city. It was grand and luxurious, there was a huge square in front of it. The square was covered in blue spirit bricks, filling the place with spirit chi while making it seem royal.

Ye Mo thought of Bright Moon City when he saw this city.

When they came to the border of the square, they were stopped by two body condensation state cultivators. "Stop, this is the city lord estate, no one is allowed to come near, otherwise we have orders to kill."

Meng Hanan thought Ye Mo would make the two body condensation state go report and then go in but Ye Mo just took out a jade slip and gave it to the body condensation state. "Give this jade slip to the city lord, it's very important to him. Of course, you can choose to not give it, but if you can be responsible for that you can do it."

Then, Ye Mo came to the border of the square and didn't wait for the two to respond.

Meng Hanan looked at Ye Mo in confusion. "Ye Mo, are you sure just a jade slip is fine? What should we do? Should we leave now..."

Ye Mo proposed, "Let's go to the spirit rest tower ahead for two hours. If he still doesn't come then we'll leave immediately."

...

The two guards looked at each other.

After a while, the body condensation state said, “What should we do? Should we chase up and give it back to him?”

The other cultivator shook his head. “Even if we give it to him, if it’s something the city lord needs we won’t get away with it.”

“But we don’t have the power to give it to the city lord.” The cultivators were so desperate they were about to cry.

At this moment, a cold voice sounded, “Bring the jade slip in.”

The two heard this voice and were shaken but they quickly reacted and bowed. “We greet city lord!”

Then, the two quickly passed the square and went into the city lord estate.

...

Ye Mo and Meng Hanan quickly came to the spirit rest tower and opened a room. They went in and didn’t talk.

Meng Hanan glanced at Ye Mo and didn’t say anything. She felt Ye Mo seemed more troubled after he left the square.

Her guess was right, Ye Mo was a level nine formation grand master, he wasn’t a top level nine formation grand master but it was impossible for ordinary formations to trick his eyes.

Knowing this, he still saw a huge formation outside the city lord estate. It wasn’t a spirit gathering formation nor defense one. It was a refining formation.

Ye Mo felt that Yin Hai City was like a small world and now he saw a refining formation, he immediately knew that someone was trying to spirit control the small world.

Chapter 1239: The Deal with the City Lord

If the Yin Hai City was really a small world and if it was spirit controlled, then even a single grass' fate would be controlled. Thinking about this, Ye Mo broke out in a cold sweat. What if the city lord invited all the powerful people in the four states to the city and closed off the small world?

Thinking about this, Ye Mo felt it was very possible. The city lord held the social every year, who knew if he would have a big one after he spirit controlled the small world?

To other cultivators, Yin Hai City was indeed very safe and fair.

With this, if they held a huge social, how many cultivators would come? Ye Mo didn't dare to imagine.

Ye Mo understood now why the Yin Hai City had such a good reputation. It was intentional.

If this was the case, then this city lord was too scary – but why did he not spirit control this place even after a few thousand years?

Ye Mo knew he couldn't discuss this with Meng Hanan. They had to leave first.

Ye Mo and Meng Hanan didn't wait very long, after they just drank their first cup of spirit tea, a middle aged cultivator came with a pale faced man following behind him. He seemed like a ghost behind him.

The middle aged man set up a restriction before looking at Ye Mo calmly. "You went to the city lord estate to find me? Do you know the consequences if your jade slip contains lies?"

Ye Mo felt a powerful pressure as soon as this man came, this man definitely was the city lord Yin Xu, but Ye Mo didn't expect him to be such a handsome man, he seemed only about in his thirties. His black hair casually landed on his shoulder, his body had good ratios too. He seemed like the perfect man.

Even Meng Hanan was amazed by his looks.

But what put Ye Mo on alert was that Yin Xu was truth realisation state level nine and his power was no weaker than Lu Wuhu.

Ye Mo got up and saluted with his fists. “Wan bei knows city lord is very busy, I don’t dare to trick you at all. City lord, please have a seat, and you too.”

The middle aged man saw that Ye Mo called himself wan bei but didn’t seem to act like one at all and was a little surprised but he nodded and sat down. However, that ghost-like person behind him remained standing.

Meng Hanan helped Yin Xu pour two cups of spirit tea and also bowed. “Wan bei Meng Hanan greets city lord and this master.”

Yin Xu looked at Meng Hanan and nodded before looking at Ye Mo again.

“Ye Mo took out a jade bottle and gave it to Yin Xu, saying, “City lord please have a look, this is the thing I mentioned in the jade slip. I know this thing is very precious but I don’t dare to guess how precious it is.”

Yin Xu took the jade bottled and opened it, his face changed immediately. He sniffed it before covering it in shock and looked at Ye Mo in disbelief. “This really is ten thousand year stalagmite marrow, a level 10 spirit medicine, and there’re ten drops here! Where did you get this?”

Yin Xu rejoiced that he had come, everyone knew about it but it was too rare in the cultivation realm.

It could not only repair spirit sense and soul but also give birth to spirit roots. Those who couldn’t cultivate could develop spirit roots by using it.

Meng Hanan also looked at Ye Mo in disbelief, she thought the most precious thing on Ye Mo was Immortal Curl Flower but there was this too. She really couldn’t distinguish which was more valuable.

“You wouldn’t show this to me for no reason, tell me – what do you want?” Yin Xu frowned but didn’t give back the stalagmite marrow.

Ye Mo immediately saluted with his fists. "City lord, the thing wan bei wants is only owned by you."

"Tell me." Yin Xu frowned, he felt that the thing Ye Mo wanted wouldn't be simple or he wouldn't take out the 1000 year stalagmite marrow.

Ye Mo nodded. "Wan bei heard city lord has a Kun scale so I want it, would you be able to give it to me?"

Hearing this, Yin Xu's eyes flashed with a sliver of bleakness. He stared coldly at Ye Mo and asked, "Do you think ten drops of the stalagmite marrow can trade for the Kun scale? Plus, even if I give it to you you think you can keep it?"

Meng Hanan's heart sunk, she believed the ten drops were very precious and it wasn't impossible to trade for the Kun scale. The city lord said this, clearly meaning that he didn't want to trade with Ye Mo.

Ye Mo immediately showed a horrified look and saluted with his fists. "Wan bei doesn't know the value of the Kun scale. I thought ten drops of the stalagmite marrow would be able to trade for it. Wan bei was too ignorant, please forgive me city lord. Luckily this is the Yin Hai City, or else wan bei's actions would be too outrageous."

Hearing this, the city lord's face eased up a little. "No matter, you didn't trick me on your jade slip after all. Although Yin Hai City doesn't dare to compare power with South Peace State's Pill City, it's the number one fair place."

Ye Mo immediately said, "Thank you city lord, wan bei won't waste your time anymore."

Before the city lord could nod, Ye Mo went to grab the stalagmite marrow while smirking inside. Ten drops couldn't trade for a Kun scale? Who was this guy tricking? Of course if that Kun scale belonged to a mature Kun, then even thousands of drops wouldn't be as valuable as it.

But Meng Hanan said the Kun was a newborn and was only a level seven spirit beast.

The stalagmite marrow was Ye Mo's and the city lord couldn't stop Ye Mo from taking back his own thing so he could only put it down awkwardly on the table and let Ye Mo take it.

Meng Hanan suddenly understood why Ye Mo saw the city lord here. It was a public place, even if the city lord wanted it, he couldn't rob it or the reputation of justice and fairness the city had set up for countless years would disappear.

Meng Hanan admired Ye Mo greatly now, if they really went into the city lord estate then even if they never came back out it wouldn't cause much drama.

The city lord suddenly said, "How long do you plan to stay in the city? Three months later there will be a huge social and there will be many precious things there. Although they might not be as precious as the Kun scale, they will be very rare."

Ye Mo laughed in self mockery. "I probably can't stay here for three months, I'm actually a level nine spirit pill master. I'm planning to go back to the hotel and concoct the stalagmite marrow into Spirit Root Purifying Pill and then sell it before I leave."

Hearing this, Yin Xu's face changed immediately. He didn't expect Ye Mo to waste it like that. A level nine spirit pill master dared to use it for pill concoction?

"Wait!" Seeing that Ye Mo was going to leave, Yin Xu called him back. He didn't trade but that didn't mean he didn't want the stalagmite marrow. If this idiot used it for pill concoction, how could he get it?

Chapter 1240: Bringing About the Calamity of Death

Ye Mo sneered, he knew the value of the stalagmite marrow wasn't cheaper than the Kun scale.

This guy asked how long he was planning to stay in here so he would attack once he left the city. But Ye Mo wasn't going to do things according to his will, he said he was going to waste it. He didn't believe Yin Xu would be able to hold his temper. If he could do even that, Ye Mo could only stay in the city and not dare to go out.

Because if he went out, he would die.

Ye Mo had a very clear sixth sense from cultivating the Three Birth Chant. He saw there was no luck here when he saw Yin Xu, he either succeeded or died here.

Now that Yin Xu stopped him, Ye Mo quickly saluted with his fists. "Qian bei, do you have any other orders?"

Yin Xu nodded. "Yes, it's too much of a waste to use the 10000 year stalagmite marrow to concoct level nine spirit pills. It's not as valuable as the Kun scale, but it's very rare..."

Even Meng Hanan could tell that Yin Xu wanted to trade for the 10000 year stalagmite marrow but couldn't find an excuse. The city lord had to trade it with Ye Mo now since he knew Ye Mo was going to waste it as soon as he got back.

Ye Mo took out another Sha fruit and said, "City lord, I suddenly remembered I have a level nine spirit fruit, if I use both of them to trade would you be willing to?"

"It's actually level nine spirit fruit Sha fruit?" Yin Xu looked at Ye Mo in shock again, just how many good things did this young cultivator have?

Meng Hanan was more speechless. Everytime, Ye Mo took out something, it was something she didn't expect. Even if he was going to give Yin Xu a way to trade, he didn't need to give something this precious.

"Great, we can trade now. The Kun scale is very precious but what you give me is more important." Yin Xu took out a red jade box and gave it to Ye Mo.

Ye Mo gave the Sha fruit and stalagmite marrow over without hesitation. The Sha fruit wasn't completely mature but it was still a level nine spirit fruit. Ye Mo did this so Yin Xu would have no other excuses.

Ye Mo took the jade box excitedly and saluted with his fists to Yin Xu. "Thank you city lord, wan bei will be leaving now."

He didn't even open the jade box and took Meng Hanan to leave immediately.

"There's a restriction on the jade box, how do you know it's the Kun scale inside?" Meng Hanan immediately asked.

Ye Mo said heavily, "I was sure it is as soon as I got it. Plus, he won't be cheating me on this, it doesn't suit his identity."

Meng Hanan nodded and said worriedly, "But I think that city lord..."

Ye Mo waved to her. "Let's talk when we get back."

How could he not know that the city lord wanted to kill him? It was so obvious, whether it was for the 10000 year stalagmite marrow or the level nine spirit herb. Plus, he now had the Kun scale.

Ye Mo was certain that Yin Xu wouldn't let him leave Yin Hai City with the Kun scale. He needed it to attract all sorts of cultivators to come here and settle or trade.

But for Ye Mo, it was fine as long as he had the Kun scale.

...

As soon as Ye Mo left, Yin Xu looked at the jade bottle and the fruit for a long while before saying coldly, "I didn't expect a mere cauldron filling state cultivator would have this many good things. Just how many more secrets does he have to be able to reach cauldron filling state in 100 years?"

The shadow-like figure behind him suddenly said, "Master, why trade with him? We can just find an excuse to kick him out of the city and I'll go kill them, simple."

Yin Xu shook his head. "If we kick away a cultivator for no reason, it would cause drama. Plus, I'm only lending it to him for a few days, my spirit sense mark is on there. If he touches it, I will know."

"That cultivator definitely has a lot of secrets. He might leave the city, keep a close eye on him. If he leaves then follow immediately. Even if we send two truth realisation states, I want you to bring his secrets back to Yin Hai City."

"Yes master," the shadow answered.

...

As soon as Ye Mo and Meng Hanan came back, the rest of the people came up.

"How was it? Did the city lord show you the Kun scale?" Teng Yi asked.

Ye Mo nodded. "I'll let sister Meng tell you. Ji qian bei, I need to go into solitary cultivation now. Set up restrictions on this hotel, don't allow any spirit sense to come in. Before I come out, don't leave the hotel. As soon as I come out, we'll leave immediately."

Hearing this, everyone agreed.

...

Ye Mo went inside his room and set up a few restrictions before going into the Golden Page World.

It was dangerous to go in the Golden Page World here, but he couldn't care about it. After coming back from the square, he knew that the city lord hadn't completely spirit controlled the Yin Hai City. With Ji Ling qian bei and his restrictions, it would be enough to stop the spirit sense or a truth realisation state peak stage cultivator.

As soon as Ye Mo went into the Golden Page World, he suddenly felt uneasy, but he shook his head as he couldn't find the problem.

He took out the red box immediately and saw the hidden spirit sense mark on there. Ye Mo carefully opened it and saw a palm-sized scale. It was faint blue.

This was indeed the Kun scale.

The next moment, Ye Mo took out Blue Moon. Although he was just a level three forgery grand master, and could only forge low grade cultivation artifacts, he didn't plan to completely integrate the scale into Blue Moon. He only needed it to upgrade Blue Moon's quality.

Ye Mo didn't hope for immortal artifact, but a half immortal artifact should be fine.

He would fully integrate the scale into Blue Moon when he was a level seven forgery grand master or later. Ye Mo also planned to add in a few Bitter Bamboo leaves.

Then, Ye Mo released the Mist Lotus Heart Fire, but before he started to melt the Kun scale, he felt something was wrong and put away the Mist Lotus Heart Fire.

Moments later, he spotted a very small spirit sense mark. He was shocked, if he clumsily molded the scale into Blue Moon and didn't find this spirit sense mark, it would mean that Yin Xu would know wherever he went.

There was a restriction covering the spirit sense mark, if he touched the scale then Yin Xu would immediately know. Thinking about this, Ye Mo came out of the Golden Page World immediately and wiped the sweat from his head.

If Yin Xu couldn't sense his spirit sense mark, would he come to this hotel immediately? That was highly possible, he couldn't risk that.

Luckily, he was a level nine formation grand master. He carefully peeled off that restriction and then put the spirit sense mark and the restriction into the blue lightning source bead he got from Tian Aofeng.

Then, he put the bead back into the red box and breathed easy.

He checked the scale many times over and made sure there was no spirit sense mark before going into his Golden Page World. Meanwhile, he left that jade box in his room.

Ye Mo didn't know that when he went into the Golden Page World, Yin Xu immediately felt his spirit sense mark disappear. He frowned and was about to do something, but he noticed the spirit sense mark again.

Yin Xu sat down but wanted to catch Ye Mo, this insect cultivator, even more. He wanted to know all of Ye Mo's secrets.
