

Strongest As 1241

Chapter 1241: Heaven Flame that Ascended Like Crazy

After going in the Golden Page World, Ye Mo didn't have that feeling of unease anymore. He immediately knew that the feeling was caused by the jade box. If he didn't send that jade box out, perhaps Yin Xu would be at the hotel already.

Ye Mo released the Mist Lotus Heart Fire, and this time he threw the scale in. He thought that Mist Lotus Heart Fire was a heaven flame and red coloured, so it would be able to mold the scale.

But eight minutes later, Ye Mo was disappointed, the scale only melted a little bit. With this speed, he would need a few days to melt it, and that was just the first step. How many days would he need to fuse it with Blue Moon?

Soon, Ye Mo realized that time wasn't even the problem. If his fire melted the scale this slowly, he wouldn't be able to fuse. This was the simplest method in forgery.

Realizing this, the reason he wasn't scared of Yin Xu was because he was a forgery grand master. If he got the Kun scale, he could mold it into his Blue Moon. Once Blue Moon was a half immortal artifact, even truth realisation state cultivators wouldn't be able to catch up to him. However, the reality was that his Mist Lotus Heart Fire wasn't enough to mold the Kun scale.

Ye Mo felt very annoyed, his brain operated rapidly to think of a way out.

If he didn't deal with the city lord, he really wasn't scared of those disaster transformation state cultivator but he was facing truth realisation state cultivators now.

Ye Mo couldn't think of any other way other than upgrading Blue Moon.

In order to do that, he needed to mold the scale, but other than upgrading his heaven flame, there was no other way.

Thinking about the Mist Lotus Heart Fire, Ye Mo remembered he still had a Flame Lotus heart. It was given to him by Lu Wuhu and he hadn't used it.

Ye Mo immediately took it out, and felt its scorching heat. Without the need for Ye Mo to do anything, the Mist Lotus Heart Fire had already swept it away.

Ye Mo looked satisfiedly and believed his heaven flame would be able to reach green color this time.

But Ye Mo was soon disappointed, the Flame Lotus heart was devoured rapidly but his mist Lotus Heart Fire only became a little darker; it was still red.

Ye Mo took out the Kun scale, it melted faster but wasn't enough to upgrade Blue Moon.

Ye Mo put down the Kun scale dejectedly while thinking how he could upgrade Mist Lotus Heart Fire.

He took out all the ores Meng Hanan gave him and put them in front. He was planning to test them all to see which material would be useful for the Mist Lotus Heart Fire.

Soon, Ye Mo was surprised to see his Mist Lotus Heart Fire lean towards a blue ore.

Ye Mo immediately remembered that it was the ore he got from the Qu 18 Disks, it was a little hot and he felt it would benefit him at the time. Now, Ye Mo realized it would benefit the Mist Lotus Heart Fire.

Ye Mo took it over immediately and it was soon swept into the Mist Lotus Heart Fire. The Mist Lotus Heart Fire exploded after devouring that blue ore.

The heat rose drastically. Ye Mo felt the flame getting hotter and hotter.

Ye Mo was shook, he had already spirit controlled Mist Lotus Heart Fire – how could he feel the heat?

Soon, Ye Mo felt that he was slowly losing control of the Mist Lotus Heart Fire, it was as though it was going to fly out of his hands.

Ye Mo knew things weren't good, he quickly burnt some blood and used Three Birth Chant to control the Mist Lotus Heart Fire.

Luckily, bad things didn't happen and the flame gradually calmed down.

Moments later, the Mist Lotus Heart Fire started to show a green color. After another 15 minutes, the flames turned aqua.

15 minutes later, when Ye Mo saw the flame turn into a blue color, he was astonished. He realized what the blue ore did, it could upgrade any rare flame into a blue color.

Such a terrifying ore, this was the rare treasure of the world! Ye Mo was sure that the blue ore was much more valuable than the Kun scale.

Many people thought it was hard getting a rare flame, but it was much harder to upgrade it.

If it was below red color it wasn't too bad, but after red, it would be countless times harder.

Yet this blue ore could upgrade his Mist Lotus Heart Fire to blue color, it was too absurd. Ye Mo couldn't think of an ore that was this powerful. Not even a level 10 ore would be able to do that.

Ye Mo rejoiced that he made the decision to take the ore, it was perfect for him.

Half a day later, the Mist Lotus Heart Fire had calmed down and a water blue flame jumped around on his palm.

Ye Mo was surprised and overjoyed, he could feel the terrifying power of the Mist Lotus Heart Fire. He felt he could even use it to attack a truth realisation state cultivator.

Mist Lotus Heart Fire now gave him endless hope. He admired the flame for 15 minutes before taking out a few materials to test.

They all soon melted into liquid, Ye Mo used very little spirit sense and cultivation essence to control it.

Usually, it would take him a day to forge a low grade cultivation artifact, but now it only took him four hours. Plus, aesthetically speaking, it was much prettier than before.

With the Mist Lotus Heart Fire's upgrade, Ye Mo's forgery skills and pill concoction both improved.

Putting this newly forged low grade cultivation artifact aside, Ye Mo took out the Kun scale and threw it into the flame.

Now, the scale melted rapidly. In just moments, it was done.

Ye Mo quickly took out Blue Moon and molded the scale into it while throwing out hand signs and inscribing formations.

He couldn't completely mold the scale into Blue Moon, but just partially was enough for now.

Three days later, the Kun scale was gone and Blue Moon let out a phoenix-like howl. It seemed a little more alive. Ye Mo was overjoyed. In order to better control Blue Moon, he started to spirit control it again.

A day later, Ye Mo got up. Blue Moon was now a half immortal artifact. He desperately wanted to test its speed.

A big part of his plan had succeeded, he only needed to hide Blue Moon's chi and then leave Yin Hai City.

Chapter 1242: Battle Disaster Transformation State Again

Ye Mo heard that immortal artifact would have divine damnation when completed but he didn't see any divine damnation. It was probably due to the incomplete laws of his world. Second, he didn't completely mold the Kun scale in.

More importantly, his Blue Moon was just barely half immortal artifact, it was still a far way away from immortal artifact. Plus, half immortal artifacts didn't have divine damnation anyways.

Ye Mo's Blue Moon wasn't completely upgraded so it's chi was exposed. Ye Mo couldn't perfect it more for now, but he could inscribe some stealth formations on it to cover its chi.

Then, Ye Mo left the Golden Page World and put away all the restrictions. Ye Mo put the red jade box back into the storage ring before coming out of the room.

He came out and saw Ji Ling and them discussing something. Their faces were very serious.

"What's going on?" Ye Mo asked in confusion.

Ji Ling answered, "Hanan told us about your deal with the city lord. Ye Mo, this was too risky, if we leave the city now, perhaps we'll be followed."

Ye Mo nodded, "Ji qian bei, it's not just probable, it's certain that we'll be followed. There's no way that the city lord won't hunt us. But we should leave now in case anything else coming up."

"Martial brother Ye, are we leaving now?" Guang Wei asked in confusion.

Ye Mo nodded in certainty. "Yes, we must go now as fast as possible." He didn't talk about Blue Moon, he wouldn't say anything about this before going out of Yin Hai City. No matter how confident he was in his formations and restrictions, he wouldn't do such a thing. Who knows if Yin Xu would be able to hear it?

Seeing that Ye Mo had made up his decision, Ji Ling didn't ask and quickly packed away all the formations and restrictions. Moments later, they left the hotel.

At the same time, Ye Mo noticed that there were many people watching them outside the hotel. But Ye Mo was sure they weren't sent by the city lord. Yin Xu didn't need them.

When the seven came to the city gates, Ye Mo saw that Yin Sha was waiting outside the city for him. There were two disaster transformation state cultivators next to him. Ye Mo didn't see that cauldron filling state female cultivator.

Guang Wei looked worriedly at Ye Mo. "Ye Mo, these people seem to have been watching us, what do we do?"

"Ignore them, let's just leave." Ye Mo ignored Yin Sha's murderous eyes and walked out.

As expected, no one stopped them from going out. When they came to that huge grassy plain, Ye Mo swiped with the card and a void formation door appeared.

"Go in quickly," Ye Mo said and went in.

Moments later, the seven appeared on that huge rock again. Ye Mo breathed easy, he felt free here again, not oppressed like in Yin Hai City.

"I feel much more comfortable," Meng Hanan sighed.

Ye Mo didn't ask about her feelings and took out Blue Moon. "Quickly get on, we need to leave."

Ji Ling immediately saw the stealth formations Ye Mo had added. He thought of the Kun scale, did Ye Mo really refine it? He didn't ask Ye Mo about it as now wasn't the time.

When they got on Blue Moon, Yin Sha and them quickly followed. However, they were on a top grade flying cultivation artifact instead of the low grade flying cultivation artifact from before.

When they got on, Ji Ling and them found that Blue Moon wasn't any faster than before but instead a little slower.

Teng Yi also noticed this and said, “Ye Mo increase the speed to max, we need to run.”

Meng Hanan answered for Ye Mo, “We can’t increase to max speed yet. If we do, the nearby truth realisation state cultivators would know that ordinary flying magic artifacts wouldn’t be able to chase up to us and will come after us immediately.”

“Sister Meng is right.” But Ye Mo had another reason, that Yin Sha was too cocky. He would feel uncomfortable if he didn’t teach Yin Sha a lesson. Thus, they couldn’t go too fast.

A few hours later, Ye Mo stopped Blue Moon.

Meng Hanan asked in confusion, “Martial brother Ye we just got 100,000 kilometers away from Yin Hai City, why did you stop?”

Meng Hanan thought now was the time to speed up.

Ye Mo knew what she meant, he pointed at Yin Sha. “I don’t like that guy, I want to teach him a lesson.”

Ye Mo knew that even if the city lord was going to attack him, he wouldn’t do it in front of Yin Sha and them.

Outside the no fighting range, Yin Sha wanted to stop Ye Mo and them but saw Ye Mo stop himself.

Before they said anything, Ye Mo came out of Blue Moon and said to Yin Sha, “If you want to fight hurry up. I don’t have much time.”

Hearing this, Yin Sha and them laughed. A cauldron filling state level six pointed his finger at a disaster transformation state level six telling him to hurry up and fight? Was there something funnier than this in the world?

Only Guang Wei looked worried. She knew Yin Sha was disaster transformation state middle stage while Ye Mo was cauldron filling state. How could he beat Yin Sha? Ming Xin didn't know Yin Sha's power. Meanwhile Meng Hanan and them didn't worry about Ye Mo at all. Ye Mo could kill disaster transformation state middle stage Yong Yan at cauldron filling state level two, he was now cauldron filling state level six. Even if he was no match for Yin Sha, he wouldn't lose by much.

Yin Sha turned around to the two disaster transformation state tertiary stages and saluted with his fists. "Two brothers, watch him and don't let the others run, watch how I teach this kid a lesson."

Yin Sha then released his Yin Yang lock and his power rose drastically. There were explosions in the air due to his pressure.

Ye Mo saluted with his fists at this moment. "Friend, it was my fault that I took Guang Wei away before, but she's my friend..."

Yin Sha and them were dazed, Ye Mo was being very cocky just then as though he didn't fear anyone, but now he was scared?

Yin Sha snarled, "What? Scared now? It's too late! Weren't you very cocky at the trade hall? Destroying someone's dan tian and taking 11 cultivation women – I'll tell you right now, even if I let you go today, you think you can get away? Keep fucking dreaming!"

Ye Mo frowned and took out a red jade box. "This is a blue lightning source bead, it's very precious. I'll give it to you friend, please let me go."

Then, he opened the jade box to show Yin Sha and threw it over at him.

Yin Sha immediately wrapped the box with his cultivation essence and checked it carefully before opening it. It was indeed a blue lightning source bead. He was overjoyed.

This was more precious than seven or eight cultivation women. If it was some lightning spirit root cultivator, this was the best thing for them. It was a priceless treasure for them.

He didn't expect that Ye Mo gave him something this precious before he even attacked. Clearly he had more precious things.

Ye Mo didn't even wait for him to finish and released Zi Xu. Rings of purple ray emanated like a beam from Zi Xu and they covered the heavens as they swooped towards Yin Sha. Instantly, Yin Sha couldn't be seen anymore, there were just purple rays.

Illusion Cloud 7th Strike, Formation Shatter

Ye Mo's strike locked the surrounding space and at the same time, he sent over a few spirit sense transformed blades.

Yin Sha didn't take this cauldron filling state level six cultivator seriously and casually let out his Yin Yang lock. He didn't want to kill Ye Mo, he wanted Ye Mo alive.

But instantly, he felt something was wrong. The space around him froze and it was hard for him to use his magic artifact.

"This is domain, initial completion domain..." Yin Sha was extremely shocked. Even his domain wasn't in initial completion, yet a cauldron filling state cultivator had achieved this.

In his shock, Yin Sha forcefully used his Yin Yang lock. He broke free of Ye Mo's domain instantly and the Yin Yang lock swept towards the purple rays. But at this moment, there were piercing pains in his sea of consciousness.

Chapter 1243: Framed

This was a spirit sense cultivation method, Yin Sha was completely shook. He started burning his essence blood without hesitation and forcefully shattered the spirit sense blade.

Thud thud thud

Yin Sha's Yin Yang lock swirled, clashed with the purple ray, and instantly let off a terrifying cultivation essence explosion. The sea water below was parted by this explosion.

Although the Yin Yang lock broke Ye Mo's domain and blocked most of Ye Mo's purple ray, a small part of the purple ray still slipped through.

A blood light flashed and his arm was taken away by the purple ray. Yin Sha lost an arm because he underestimated Ye Mo and didn't use a defense magic artifact.

Ye Mo didn't feel that well either, the powerful cultivation essence swirl knocked him flying back and he also spat a mouthful of blood. Ye Mo knew that although he wasn't afraid of Yin Sha, the difference in power was too great. Yin Sha was much stronger than that Yong Yan.

"You dare to injure me...." Yin Sha was furious.

But Ye Mo didn't go back to Blue Moon, instead he used two more lightning arcs.

Hearing two thuds, Yin Sha was dazed. The two lightning arcs didn't attack him but his broken arm., which was instantly disintegrated. Yin Sha was so angry he spat blood again. He could reattach the broken arm previously, but how could he do that when it was turned to dust? Without a powerful spirit herb, he would have to stay one-armed forever.

Spirit herbs that could grow back lost limbs were rare even in the cultivation realm. The Immortal Curl Flower could do it, but could he get that? The 9-color Lotus could as well, but he couldn't get that either.

When Ye Mo flew back to Blue Moon, Yin Sha woke up. He indeed only had one arm now. As his fury grew, Blue Moon flew again.

"Chase, I'm going to kill him..." Yin Sha had lost his reason.

But the two other disaster transformation state cultivators he was with were calm and that disaster transformation state peak stage cultivator said, "Brother Yin, you're too impetuous and underestimating, otherwise that cauldron filling state level six wouldn't be able to injure you. Indeed we

need to chase up and kill him, if that cultivator reaches disaster transformation state, ordinary disaster transformation states won't be a match for him."

The disaster transformation state level eight also nodded, "That's right, that cauldron filling state cultivator is too terrifying, he's only cauldron filling state level six but his domain is in initial completion. His lightning style attacks are also too terrifying. Once he's disaster transformation state, no one in disaster transformation state would be able to take him on."

Yin Sha calmed down now too, he realized he was too careless. But any disaster transformation state cultivator wouldn't take things seriously when they fought a cauldron filling state cultivator.

"I must kill this person or my mental state won't be calm," Yin Sha said word by word.

The disaster transformation state peak stage smiled. "Their flying cultivation artifact may be extreme grade, but it's not fast enough. We'll be able to catch up in about half a day."

...

Ming Xin didn't know Yin Sha's power but after Guang Wei told her, she began to worry. Now, Ye Mo had cut off one of Yin Sha's arms with only cauldron filling state power, Ming Xin was very shocked. She had seen too many cultivators fighting people above their cultivation level, but not someone as absurd as Ye Mo.

Everyone else didn't seem surprised at what Ye Mo did. Teng Yi asked again, "Ye Mo, we should hurry up and go now?"

Ye Mo shook his head. "No need, wait another half a day."

Ye Mo didn't know if the city lord estate's people were watching him, but he had a feeling they wouldn't let him go.

Half a day later, when Yin Sha's top grade flying cultivation artifact appeared before them again, Ye Mo said, "We can go now."

Then, Ye Mo put 8 extreme grade spirit stones on the Blue Moon and activated its max speed.

Those three disaster transformation state cultivators thought they were about to catch up to Ye Mo, but before they could make a plan, they saw Ye Mo's flying cultivation artifact suddenly accelerate more than ten times faster than before. It flew away like a Blue Moon, not leaving behind a single mark.

The three were dazed and subconsciously stopped their flying cultivation artifact. How could they chase at this speed? Ye Mo had already disappeared from their sights.

"Fuck, this bastard has been playing with us!" the disaster transformation state level eight cursed. He came to help Yin Sha because he was interested in Blue Moon, but now he couldn't see Blue Moon at all.

"It's actually a half-immortal flying artifact, so powerful..." the disaster transformation state peak stage said.

Yin Sha murmured, "So he wasn't afraid of us chasing. Such a calculated cultivator."

"Wait." The disaster transformation state peak stage suddenly stared at Yin Sha.

Yin Sha and the other cultivator subconsciously looked at this disaster transformation state peak stage.

The disaster transformation state peak stage asked coldly, "Brother Yin Sha, he has a half-immortal artifact, can we chase up to him?"

Yin Sha subconsciously shook his head. "Of course not, we only have a top grade flying cultivation artifact."

Suddenly, Yin Sha thought of something and took out that jade box. "You mean..."

The disaster transformation state peak stage nodded. “Yes, if he can get away, why give something as precious as the blue lightning source bead to you? Don’t you feel it’s strange?”

“That cultivator is very decisive, he destroyed your arm after severing it. Do you think someone like that will kindly give you the blue lightning source bead?” the disaster transformation state peak stage asked.

Yin Sha also recounted how cruel and calculated Ye Mo was in the trade hall. He immediately began to sweat.

Just when he was hesitating, two figures flew by and landed in front of them.

The three immediately stopped their discussion and looked at these two with respect.

They were truth realisation state cultivators without any doubt.

The man at the front seemed very charismatic and wore a mask. The cultivator behind him was like a ghost.

The masked cultivator saw the red jade box and his eyes turned frigid. He took the jade box and opened it.

One blue lightning source bead laid in there, the Kun Scale was gone. His spirit sense mark was on the bead.

The masked cultivator’s hands were clearly shaking due to excitement, he stared coldly at Yin Sha and asked, “Where did you get the jade box?”

Yin Sha told everything, not daring to hide anything.

“You’re saying he has a flying half-immortal artifact?” the masked cultivator asked emotionlessly.

The three shivered and just kept nodding. They finally realized why Ye Mo gave them this jade box, it was a huge trap.

The masked cultivator was so furious that he was shaking. He was worried about the Kun scale and came to kill Ye Mo personally, but he still got away.

“Master, we can chase them now. Even without the mark, we might not fail,” the shadow said.

Yin Xu nodded and looked coldly at the three. “Kill them!” He hated these three insects for ruining his plan.

“Yes,” the shadow said and loomed over the three. Even the disaster transformation state peak stage just managed to take out his magic artifact before he was frozen by the shadow’s domain, then they were all crushed to nothing.

“Chase!” Yin Xu said, looking in the direction Yin Sha had pointed at.

Chapter 1244: Flustered Tang Mengrao

“You’ve really successfully upgraded it?” Meng Hanan looked at Blue Moon’s speed in disbelief. This was definitely the speed of a half-immortal artifact.

The rest of the people realized why Ye Mo had such confidence in their escape. He had upgraded the extreme grade flying cultivation artifact to half-immortal artifact. Even truth realisation state cultivators wouldn’t be able to catch up to them unless they also had a half-immortal artifact.

Ye Mo nodded. “Yes, but I don’t know if it’s reached a half-immortal artifact yet. My means are limited so I’ve just simply molded the Kun scale into Blue Moon. I can’t even cover it’s chi, I did it with formation means. Haha, luckily I’m a formation grand master.”

Hearing this, everyone felt assured, this meant that they were safe.

But Ye Mo didn't feel easy, he felt more concerned with Yin Xu after knowing that the Kun scale was this strong. He looked at Ming Xin and Guang Wei asking seriously, "Ming Xin qian bei, did you two ever disclose that you came from North Far State?"

They both shook their head but Ming Xin said worriedly, "When we were captured, those people just wanted to sell us. They didn't care where we came from. But in my storage ring, there's the jade card of the Immortal Herb Valley's sect leader. They were taken away by those beast cultivators."

"Taken away by a few beast cultivators?" Ye Mo frowned but immediately said, "It should be fine, those few beast cultivators would need about a year or so to reach Yin Hai City. During this time, we would have long reached North Far State already. As long as we go back to South Peace State, even if Yin Xu goes there, he won't dare to do anything."

"Ye Mo, you're saying Yin Hai City's city lord would cross the Heartless Sea too?" Teng Yi asked in confusion.

Ye Mo nodded. "It's hard for ordinary people and even ordinary truth realisation state cultivators, but if it's a truth realisation state peak stage cultivator with an extreme grade flying cultivation artifact, then he might only need two years or less."

Ji Ling nodded. "That's right, Lu Wuhu qian bei once crossed the Heartless Sea, he went to the West Store State and only took four years. He wasn't even truth realisation state peak stage at the time, he was only truth realisation state level seven. That time, he almost died in the Heartless Sea. But if it's a truth realisation state peak stage cultivator with an extreme grade flying cultivation artifact, there would be no danger in crossing the Heartless Sea."

Ye Mo nodded. For Yin Xu and his shadow, it would be good if he didn't go out looking for trouble. No one would dare to look for trouble with him.

Imagine, if Yin Xu flew over the three seas or the Dragon Teng Palace, would any of them attack even if they could beat him?

Blue Moon sped across the Heartless Sea at a speed that even Ye Mo felt amazed. Ye Mo was sure that if Blue Moon became an immortal artifact, then it might only take three months to cross the Heartless Sea or even less.

Thinking about that, Ye Mo felt excited. He needed to hurry up and improve his forgery skills.

A week later, Teng Yi and Bian Fengta were enjoying Blue Moon's speed, but Ye Mo saw that Ming Xin was a little worried. He thought about it and realized what was going on. He immediately asked, "Ming Xin qian bei, do you know in which direction the coral island is that Tang Mengrao qian bei is hiding on? We can go see."

Ming Xin said gratefully to Ye Mo, "I don't know as well, I was lost but it's in the direction towards North Far State. We just need to watch out along the way. Perhaps we can see it."

"Okay." Ye Mo didn't have a spirit range to cultivate with so he manned the ship himself.

Two months later, Ming Xin suddenly pointed at a huge island. "I've seen this island before, we flew south from this island for a month and it was Tang Mengrao qian bei's island."

Ye Mo heard this and rejoiced. This meant that they were at most a month away from North Far State. The half-immortal artifact was indeed fast.

Ming Xin said one month, but it only took three days to arrive at that coral island. Ye Mo saw there were marks of a stealth formation.

"We don't need to land, there's no one on the island," Ji Ling said.

Ye Mo nodded. "Ming Xin qian bei, someone has set up a formation here, but that person has gone. There are no marks of battles."

Ming Xin breathed easy. "Tang Mengrao qian bei probably recovered and went back to North Far State. Let's go to North Far State now. With Blue Moon's speed we can probably reach there in one month."

Ye Mo nodded. But he didn't agree that Tang Mengrao had recovered. Ye Mo didn't believe that on this spirit chi deprived island, a disaster transformation state peak stage cultivator would recover this soon without top grade pills.

Blue Moon changed direction and flew towards North Far State rapidly. A few days later, Ye Mo suddenly slowed down and looked at Ji Ling. “Ji qian bei, did you notice the battle to the west?”

Ji Ling nodded. “Yes, one female cultivator is being attacked by two beast cultivators. That female cultivator seems heavily injured.”

“Could it be Tang Mengrao qian bei?” Ming Xin asked worriedly.

Ye Mo smiled. “Ming Xin qian bei don’t worry, it’s just two disaster transformation state primary stage cultivators, we’ll go look at it now.”

Then, in a few breaths, they arrived at the battle. That female cultivator was seriously injured, she was running north as she was fending off the two beast cultivators.

“Ye Mo hurry and go over, it’s Tang Mengrao qian bei!” Ming Xin said.

Ming Xin’s scream caught the attention of the beast cultivators, that injured female cultivator immediately saw Ming Xin and seemed surprised and joyful. She immediately flew over towards Ye Mo and them.

The two beast cultivators saw Ye Mo’s flying magic artifact and were also overjoyed.

Ye Mo opened Blue Moon restriction and let Tang Mengrao onto Blue Moon. Tang Mengrao didn’t see Ji Ling but she saw Ye Mo was only cauldron filling state level six. However, this flying magic artifact was very powerful. Before she could ask Ming Xin how she knew Ye Mo she said desperately, “I’m seriously injured, fly north. Those two beast cultivators won’t be able to chase up.”

However, soon she was surprised. Ye Mo didn’t fly Blue Moon, instead, he stopped and smiled at Meng Hanan. “Sister Meng, there’re two disaster transformation state cultivators, I’ll leave the disaster transformation state level one to you and I’ll take on the disaster transformation state level three – how about it?”

Meng Hanan rolled her eyes. "I thought you were going to leave the level three to me."

Ye Mo laughed and charged at the disaster transformation state level three with Zi Xu. Meng Hanan also let out her flying sword and attacked the disaster transformation state level one.

Before Tang Mengrao could ask Ming Xin who Ye Mo was, she looked at Ye Mo in shock. She completely couldn't understand why this cauldron filling state level six dared to fight a disaster transformation state level three.

Ji Ling smiled. "Tang Mengrao, don't worry for Ye Mo, he has many means – but you need some pills."

Then he gave two pills to Tang Mengrao. "Eat these pills and recover first."

Tang Mengrao just saw Ji Ling now and called out in surprise and joy, "You're South Peace State's Ji Ling qian bei, the formation grand master?"

Ji Ling smiled. "That's right, you still remember me. I'm Ji Ling, we met at Pei Hai City before..." He let out a sigh.

"Ming Xin, what's going on? How did you meet Ji Ling qian bei, did you go to South Peace State? How is that possible?" Tang Mengrao asked in shock.

Chapter 1245: Endless Means

"This is a long story, after Ye Mo beats that guy I will tell you." Ming Xin pointed at Ye Mo.

Tang Mengrao just realized there were still people fighting and immediately began watching. She was confused why Ji Ling didn't help, since he was the strongest here.

The disaster transformation state level three saw that Ye Mo dared to stop him and gave his friend to a disaster transformation state level three female cultivator and was dazed. He immediately realized what

was going on, she wanted to let this cauldron filling state cultivator stop him for a while and after the female cultivator killed his friend, then she would help this cauldron filling state.

Realizing this, the disaster transformation state level three sneered. A mere cauldron filling state cultivator dared to stall him. He would soon know that it was only a matter of a few breath for him to kill him.

The disaster transformation state level three wanted to kill Ye Mo quickly so he used a black veil before Ye Mo even let out his magic artifact.

With this, Ye Mo felt the sky darken as though surrounded by countless wretched souls.

Soul Devouring Flag – Ye Mo immediately recognized this magic artifact. He had a 5-color Soul Devouring Flag, but after he reached higher cultivation levels, he never used it again. However, this cultivator's Soul Devouring Flag was hundreds of times more powerful than his.

As soon as it came out, Ye Mo felt there were countless souls calling for him and even his mind became restless. This was definitely Thousand Illusion Soul Devouring Flag, or else it wouldn't have such an effect. It was very hard for Soul Devouring Flags to upgrade. After the 5-color Soul Devouring Flag, there was the 100 Abyss Soul Devouring Flag, then the Thousand Illusion Soul Devouring Flag. Thousand Illusion Soul Devouring Flags not only needed high level materials but also relied on devouring souls and cultivator essence spirits. The more essence spirits and souls it devoured, the more powerful it got. Eventually, it might even become a half-immortal artifact.

In order to reach that level, it would need countless souls and essence spirits, and they must be high level ones or things would be really slow.

The Thousand Illusion Soul Devouring Flag was equivalent to a middle grade cultivation artifact.

Ye Mo's essence spirit was as powerful as disaster transformation state middle stage cultivators and his mind was very firm from cultivating next to the Bitter Bamboo. Even the Thousand Illusion Soul Devouring Flag wasn't able to catch him off guard.

With the use of Three Birth Chant, his mind calmed down as he released Zi Xu.

The disaster transformation state cultivator thought that his Soul Devouring Flag was sure to take the cauldron filling state cultivator's soul, but instead he saw a purple ray sweep over.

It was just one ray at the start but soon it turned to a whole patch. He formed a domain that was Illusion Cloud Division Strike and instantly broke the Thousand Illusion Soul Devouring Flag.

The disaster transformation state cultivator felt space stagnate after Ye Mo used the purple ray. He was shocked, he realized instantly what was going on. This cauldron filling state level six cultivator was using a domain. This meant that he wasn't here to hold him off but he really had the power to fight with him.

This disaster transformation state cultivator underestimated Ye Mo, but not to Yin Sha's extent. Realizing Ye Mo's power, he didn't dare to underestimate Ye Mo at all. He burned essence blood to break free of Ye Mo's domain and then closed his hands, nine skulls appeared out of thin air and shot out tens of dark rays that broke Ye Mo's purple sword rays domain.

Then, the nine skulls spun around Ye Mo, getting faster and faster while making an ear splitting screeching sound. Tens more black rays shot out of the skulls.

Ye Mo didn't expect this disaster transformation state cultivator to react so fast.

His plan of utilizing his opponent's carelessness failed so Ye Mo released the octagonal cauldron.

Even Ji Ling and Tang Mengrao realized this cauldron was no ordinary thing. Meng Hanan just realized that Ye Mo had such a defense magic artifact, he didn't even take it out when he fought Yong Yan.

A piercing sound struck the octagonal cauldron and made it wobble, but even so, the octagonal cauldron still spun rapidly above Ye Mo's head protecting him.

The disaster transformation state found in shock that his nine skull formation didn't affect the cauldron filling state cultivator at all. He had never seen a cauldron filling state cultivator this powerful, forcing a stalemate with a disaster transformation state cultivator.

Tang Mengrao looked at Ye Mo in more disbelief. He realized now why this cauldron filling state level six was fighting the stronger enemy. He was clearly stronger than the disaster transformation state level three female cultivator.

Ye Mo knew that if he didn't use Shadowless to help, he wouldn't be able to kill this disaster transformation state level three by himself. He was much stronger than Yong Yan who was disaster transformation state level four.

When Ye Mo called out Shadowless, he used Lightning Sword.

At this moment, the disaster transformation state cultivator just realized that Ye Mo was actually a lightning cultivator. Immediately, he wanted to retreat. He was a beast cultivator but he used the demon cultivation method. It was in the soul devouring category.

This type of cultivator feared lightning cultivators the most because lightning style naturally countered them.

As soon as Ye Mo used Lightning Sword, this disaster transformation state quickly protected himself with the nine skulls while also releasing a dark blue cultivation artifact flying sword.

Ye Mo immediately knew his lightning was countering this cultivator and used more lightning arcs. His spirit sense was powerful and his lightning arc sword was in initial completion. With his full powered attack he instantly suppressed that disaster transformation state cultivator.

Teng Yi saw this and couldn't resist anymore. During this trip, he never had a chance to fight. His heart was itching to battle. He just released his Golden Dragon Drill and charged up.

That disaster transformation state cultivator was already having huge pressure fighting with Ye Mo and now that Teng Yi came too, he was more worried. Teng Yi was only cauldron filling state level nine, but he was already scared of Ye Mo this maniac. If this Teng Yi was also like Ye Mo, he would be dead for sure.

He couldn't help his partner and swept up his Soul Devouring Flag to shoot rings at Ye Mo and Teng Yi. He was planning to run.

Ye Mo could tell what this disaster transformation state level three was thinking. He shot out a few spirit sense blades over without hesitation and signaled Shadowless to be ready.

Shadowless had been cooperating with Ye Mo for many years and knew what Ye Mo meant. Plus, he was very picky with food now, so he was already drooling for this disaster transformation state level three cultivator.

The disaster transformation state level three knew now was the best time for him to retreat but before he could, he felt his sea of consciousness ache. His control of his magic artifact stagnated for a moment.

The disaster transformation state level three immediately knew things weren't good, this was spirit sense cultivation method.

He didn't expect this cauldron filling state level six to not only know domain but also have a spirit sense cultivation method.

The disaster transformation state level three couldn't keep his Soul Devouring Flag anymore, he burned essence blood without hesitation trying to break free of the spirit sense blade.

As soon as he did, he felt his meridians ache.

Shadowless didn't use much effort to ambush this disaster transformation state level three.

It was now that this disaster transformation state level three realized how bleak the cauldron filling state cultivator he was fighting with was. He had means that were indefensible.

He roared and spat many mouthfuls of blood, and Shadowless was instantly forced out. At the same time a few huge explosions sounded. The nine skulls blocking the Lightning Sword and the Golden Dragon Drill completely shattered.

Chapter 1246: North Far State Number One Beauty

The explosion sent Teng Yi flying more than 1000 meters and his Golden Dragon Drill was also blasted away.

Ye Mo had the octagonal cauldron and was in a better state, but even so, he spat a mouthful of blood from the concussion. That disaster transformation state level three instantly wanted to get away and didn't even have time to take back his Soul Devouring Flag and flying sword. He knew this was his only chance of escape.

But how could Ye Mo let him get away? He hacked with Zi Xu and the long ray instantly came before the disaster transformation state cultivator.

His face changed, he didn't expect Ye Mo's octagonal cauldron to be so tough. The self destruction of his nine skulls didn't even force Ye Mo back. Instead, he came at him with such a speed. He didn't even earn half a second for himself. He set up a cultivation essence wall and wanted to take a strike as the price to get away.

But his cultivation essence instantly paused again, Shadowless was only a little bit slower than Ye Mo and also counterattacked.

Crack

Ye Mo's purple ray sliced through this cultivator's armor like tofu and brought about a bloody mist.

That disaster transformation state cultivator looked in disbelief at his body that was hacked open by Ye Mo. He died to a cauldron filling state without that chance to even run. This was a head on attack too, not an ambush. Also he was disaster transformation state level three, he wasn't even afraid of disaster transformation state middle stage and now he was killed by a cauldron filling state cultivator.

An essence spirit seeped out and before it could escape, Shadowless charged over and gulped it down. The essence spirit was completely devoured.

Ye Mo took this cultivator's storage ring and magic artifact and just wanted to take back Shadowless but Shadowless charged towards the essence spirit of the other cultivator.

The disaster transformation state level one didn't expect his comrade to be killed by Ye Mo, and he who already had the lower hand was killed by Meng Hanan in his shock. His essence spirit didn't escape Shadowless either.

Meng Hanan sighed. "You won first indeed."

Ye Mo smiled. "Teng helped me."

Then, Ye Mo looked back at Teng who said first, "Next time, I'm not going to fight a cultivator higher level than me, it's lethal."

Bian Fengta laughed, he knew what Teng Yi thought. Ye Mo also fought with disaster transformation state cultivators and his cultivation level was lower than them. This made Teng Yi's confidence rise, but he forgot he was Teng Yi, not Ye Mo.

Tang Mengrao took a cold breath in, today she witnessed a cauldron filling state level six cultivator kill a disaster transformation state level three in a head on battle. She knew the power of this disaster transformation state level three who had hunted her for a few months. He was equivalent to disaster transformation state middle stage.

If she didn't see this with her own eyes, she would never believe it.

"Ye Mo greets Tang Mengrao qian bei." Ye Mo came back to Blue Moon and saluted with his fists.

"You're Ye Mo? Which Ye Mo? I heard the person who got pill concoction hall of fame number one was also called Ye Mo, he created the Spirit Weaving Pill," Tang Mengrao said.

Ye Mo smiled. "That's me."

"How are you here? Didn't Shan Di say you went to South Peace State?" Tang Mengrao looked at Ye Mo with uncertainty.

Ye Mo could only say, "That's right, wan bei just came back from South Peace State and saw Ming Xin qian bei and martial sister Guang Wei on the way. Then we came to find you qian bei."

"You crossed the Heartless Sea?" Tang Mengrao asked in astonishment. "You're only cauldron filling state, you dare to cross the Heartless Sea?"

Ming Xin quickly came up and told Tang Mengrao what they did.

"So you guys went to that coral island to look for me?" Tang Mengrao asked gratefully.

Ming Xin nodded. "Yes, Ye Mo went to that island to save qian bei but qian bei had already left."

Tang Mengrao said gratefully to Ye Mo, "Thank you Ye Mo, when I heard you got first in the tournament you were only foundation establishment state, but in a few years you're actually cauldron filling state level six. I've seen too many prodigies, but never one as insane as you."

Ye Mo couldn't reply to that. He heard that way too much but he felt his progress was too slow. He wanted to get into truth realisation state as soon as possible.

Tang Mengrao then said, "Half a year ago, I left that island. I didn't have a good flying magic artifact so I could only fly on my flying sword to go back to North Far State. On the way I saw those two beast cultivators, they saw I was heavily injured so they wanted to capture me. I fended them off for a few months but my injuries were getting worse. If I hadn't encountered you guys, I would eventually have died in the Heartless Sea."

Ye Mo saw her chi was in rapid recovery. Clearly Ji Ling had given her some pills. He was hesitating if he should ask her about North Far State now.

Ming Xin looked at Ye Mo and knew what he was thinking. She looked at Tang Mengrao and asked, "Tang qian bei, Ye Mo is very worried about the North Far State. I told him a lot of things but there're some things I don't know."

Tang Mengrao looked at Ye Mo and nodded. "Ye Mo, you're very great, I approve of you more from what I've heard. North Far State still needs your help. I was going to tell you anyways."

Tang Mengrao cleared her thoughts and said, "You guys must feel very strange as to why martial brother Shan, I, and Lin Zhongtian would fight. I didn't explain to Ming Xin because even if she knew there was nothing she could do. To be honest, I owe you – but we can talk about that later."

Tang Mengrao turned to Ye Mo. "Ye Mo you've been to Pei Qi Island right?"

Ye Mo was shook, few people knew he went there. He wore a mask at the time. Tang Mengrao knew clearly because people had investigated him.

He nodded. "That's right. I did go and I bought a Dihua beast core in an auction."

Tang Mengrao nodded. "The island's number one merchant association's leader Ao Jun's son Ao Qilong was also killed by you right?"

Ye Mo smiled. "I wanted to kill that Ao Qilong but he didn't die to me. He was killed by a golden core state level nine cultivator called Mo Qianli."

"Mo Qianli? You mean the one who uses Evil Soul Strand, ranked number 3 on North Far State golden core state's hall of fame?" Tang Mengrao asked in shock.

"Yes, that Ao Qilong chased me but Mo Qianli also followed. Then he killed Ao Qilong, but when he wanted to kill me I killed him," Ye Mo said calmly.

Tang Mengrao said, "The reason I know this is because Ao Jun also has a daughter called Ao Qiandie. She's very talented and is hollow spirit state peak stage in her twenties. Not only that, she's the number one beauty of North Far State."

Ye Mo frowned, he felt Tang Mengrao wouldn't mention a merchant association for no reason.

Tang Mengrao sighed, "Ao Qiandie is my personal disciple."

Chapter 1247: Ao Qiandie's Revenge

"Qiandie had been cultivating in the sect and two years after Ao Qilong was killed, she learned of this. She was furious and immediately went back to the Ao Cheng Merchant Association from the sect, she swore she would get revenge for her brother. So she found out everything about you, at the time, she was only hollow spirit state level four."

Speaking of this, Ye Mo's eyes went cold. If Ao Qiandie was going to attack Mo Yue, she didn't need to ask people to help – her hollow spirit state peak stage power was enough.

Seeing Ye Mo's terrifying glance, even though Tang Mengrao was disaster transformation state tertiary stage, she shivered and said immediately, "Ye Mo sit down first, let me finish."

Ye Mo's eyes calmed down, he knew there was no point in worrying.

Tang Mengrao said guiltily, "I did this wrong, after she found out her brother's death was related to you, she went to look for trouble at Mo Yue. I knew this but I didn't stop her."

Ye Mo's eyes went cold. Although he knew power was everything in the cultivation realm, Tang Mengrao being one of the respected masters in North Far State allowing her disciple to do such a thing made him extremely uncomfortable. Ao Qilong wanted to kill him out of greed and he failed, yet Tang Mengrao let his sister seek revenge on Mo Yue.

Tang Mengrao seemed to know Ye Mo was extremely unhappy and didn't dare to look at Ye Mo's face. She continued, "Everyone knew Mo Yue was protected by Wang Yue Sect and Wang Yue Sect even sent hollow spirit state cultivator Su Jianhu to stay there. Because Qiandie was from our Jade Woman Sect, she also joined forces with Wang Yue Sect to attack Mo Yue. There was no way Mo Yue could stop the only two 8-star sects in North Far State."

Ye Mo's face grew colder and colder. He said coldly, "I had a deal with Wang Yue Sect. They said they would protect Mo Yue and now instead they helped attack it?"

Tang Mengrao looked down and said, “Qiandie’s fiancé is the number one prodigy of Wang Yue Sect Yi Yi. After Qiandie told him about this, he immediately went to Pei Hai City and wanted to help Qiandie annihilate Mo Yue. Su Jianhe wasn’t going to go against the number one prodigy of his sect so he left before they attacked.”

Ye Mo’s face went ice cold, he completely realized that it was hollow to rely on other people at any time.

His three Spirit Recovery Pills weren’t even as useful as one sect member’s word from the Jade Woman Sect.

Ye Mo’s eyes were so cold that even Meng Hanan was shook. Ye Mo had decided that if Mo Yue had been annihilated, he would slaughter Jade Woman Sect and Wang Yue Sect clean. He wasn’t going to let go of Tang Mengrao either. She would need to take the consequences for her actions.

Ming Xin shivered seeing Ye Mo’s face. She had always seen Ye Mo’s nice side and never killing intent this dense. One could see how important the people in Mo Yue were to him.

How could Tang Mengrao not feel this? Before Ye Mo’s battle with the disaster transformation state level three she wouldn’t care, but now she knew Ye Mo had the power to annihilate the Jade Woman Sect. If he cultivated a few more years, even the three masters of North Far State combined wouldn’t be enough to take on Ye Mo.

She also felt that everyone on this flying magic artifact all followed Ye Mo except for Ming Xin and Guang Wei.

Tang Mengrao cast these thoughts aside and continued, “Mo Yue was protected by formations. Qiandie and Yi Yi were hollow spirit state peak stage and primary stage respectively, and with the few nascent soul state cultivators from Ao Cheng Merchant Association, the level five formation didn’t last long.”

“Where is Qi Ziyu from Pei Hai City?” Ye Mo asked.

Tang Mengrao immediately replied, “Qi Ziyu was said to have persuaded Qiandie but was almost killed by her. Qi Ziyu left and didn’t dare to help anymore.”

Ye Mo was shook, he didn't expect Qi Ziyu to be able to do this. But soon, he realized that Qi Ziyu was just putting in a word for Mo Yue, he wasn't going to really lose anything. Qi Ziyu knew he went to South Peace State and didn't know when he would come back. He was leaving an alternative path for himself.

No matter what, as long as Qi Ziyu didn't attack Ye Mo, he wasn't going to do anything to him.

Without hesitation, that Qiandie was a very arrogant woman, she reminded him of Wen Caiyi. Both were very beautiful and both were extremely cocky.

Tang Mengrao breathed, "At this moment, Ling Zhongtian brought a golden core state level nine cultivator to Mo Yue. When he saw the Ao Cheng Merchant Association and their nascent soul state cultivators, he destroyed their dan tians without saying anything.

Ye Mo rejoiced, he didn't expect Lin Zhongtian to be this helpful. But indeed, no one other than Lin Zhongtian could help Mo Yue at the time.

Tang Mengrao sighed. "Qiandie and YiYi knew Lin Zhongtian. They were shook by his actions. Lin Zhongtian destroyed the five nascent soul state cultivators from her father's Ao Cheng Merchant Association, her second uncle was amongst them. She cursed at Lin Zhongtian, asking him how he dared attack her people. Lin Zhongtian sneered, saying he also dared to attack her."

Tang Mengrao said with greater disappointment, "Hearing Lin Zhongtian's words, Qiandie cursed and cried saying Yi Yi was useless and had watched her get harassed. Yi Yi impulsively killed the golden core state level nine brought by Lin Zhongtian. Lin Zhongtian was furious and cursed, "Bastard, you dare to kill Li Qishan? I will eat you alive..."

Hearing this name, Ye Mo soon remembered who it was. When he stole Chi Hong's storage ring and escaped encountering two cultivators fighting in the sea, one of them was Li Qishan. He was only golden core state level eight at the time.

He helped Li Qishan kill the golden core state level nine. Li Qishan told him to go back to report that the Ao Cheng Merchant Association had conspired with spirit beasts and tricked cultivators to go out and then supply golden core state cultivators' golden cores to them.

Li Qishan was a nice person and he had given him a middle grade spirit artifact. He didn't expect such a heroic hot blooded cultivator was killed by Yi Yi. Ye Mo immediately detested this Yi Yi extremely.

Tang Mengrao sighed, "After Lin Zhongtian caught Yi Yi, he was going to kill him on the spot but Yi Yi said if Lin Zhongtian dared to kill him, his sect leader Shan Di would get revenge. Lin Zhongtian laughed and completely destroyed Yi Yi's dan tian. He then said, "I know you're the number one prodigy of Wang Yue Sect, but today I'm going to destroy this prodigy. I won't kill you, I want to see how Shan Die is going to get revenge. I, Lin Zhongtian, am an upright man, I don't fear someone coming for me."

"Great!" Ye Mo clapped his hands. "Well done, kill that bitch Qiandie as well!"

Tang Mengrao felt a little awkward but continued, "Qiandie saw this and her face changed. Then, she sent a sound transmission to Lin Zhongtian. I don't know what she said, but when Lin Zhongtian heard this, his face changed and he grabbed Qiandie leaving Pei Hai City."

Ye Mo felt this was completely unreasonable, why would Lin Zhongtian do that?

Chapter 1248: Rape of Ao Qiandie

Tang Mengrao nodded. "It indeed happened, ever since he took away Qiandie, there was no more news of them. When Shan Di and I rushed to Pei Hai City, he was furious to know Yi Yi's dan tian was ruined. He was going to fight with Lin Zhongtian with his life. I was worried they would fight so I could only follow behind them."

"Shan Di had a tracing spirit beast, and after nearly four months they found Lin Zhongtian. Shan Di fought with Lin Zhongtian without saying a word. I found my disciple Ao Qiandie, I told her to come to the side and then I tried to break up the fight. But Qiandie came crying to me saying that Lin Zhongtian used her as a cultivation woman and raped her."

Even Ji Ling and Ming Xin didn't believe this, much less Ye Mo. They had all seen Lin Zhongtian before. There was no way he would rape a girl, but it might really be possible that he used her as a cultivation woman. He was disaster transformation state peak stage and Qian Die's talent was absurd, who knew if he would use this girl to break through?

“My head buzzed at the moment but I would never believe that he would do such a thing. Qiandie is my disciple and I know her well – she’s a bit arrogant but she would never lie. I thought Qiandie wanted to use me to help Shan Di teach Lin Zhongtian a lesson, but I felt things were wrong. I asked Lin Zhongtian if he raped her.”

Tang Mengrao’s tone went sad and low. “Lin Zhongtian said nothing. I was furious, Lin Zhongtian was a role model for cultivators in North Far State and yet he did such a thing. A thousand year old cultivator raped a 20 year girl. No matter how much he wanted to reach truth realisation state, he can’t do such a thing. In my fury, I fought Lin Zhongtian as well.”

Ye Mo sighed, he felt there was something strange here but he didn’t know exactly what.

Tang Mengrao continued, “Then you know what happened, we were all heavily injured. Lin Zhongtian fled with Shan Die and when we traced them again, we had no more clues. Then, the beast tide came.”

The beast tide came too coincidentally. There was the possibility that someone deliberately caused conflict between the three cultivators.

But according to Tang Mengrao, this was no accident.

Ye Mo frowned, Ao Qiandie had the greatest suspicion for causing all this. If she didn’t cry she was being harassed, would Yi Yi kill Li Qishan? There was nothing else he could do as his power was too low compared to Lin Zhongtian.

But Ao Qiandie was just an arrogant girl, she was only twenty and spent most of her time cultivating. How could she have such calculations?

Ye Mo frowned, Tang Mengrao thought it was Ye Mo being disgusted with Qiandie. After all, she was indeed planning to annihilate Mo Yue. Tang Mengrao explained, “Actually, casting away Qiandie’s actions towards Mo Yue, you can’t really blame her for the other things. After all, she’s very young and the things Lin Zhongtian did were also overboard. He destroyed the dan tian of the five nascent soul state cultivators without asking anything. One of them was her second uncle.”

Ye Mo sneered. “Tang qian bei, I’m calling you qian bei not because I respect you but because you protected North Far State all these years. To be honest, you don’t deserve to be a qian bei. If it was me instead of Lin qian bei, I would kill them all.”

Looking at her bad face, Ye Mo sneered again. “Then, I would annihilate the entire Ao Cheng Merchant Association. As for Yi Yi, would I destroy his dan tian? Keep dreaming, I would kill him straight away! Lin Zhongtian qian bei is too soft.” He let out a sigh.

Tang Mengrao’s face looked bad, “Someone like Lin Zhongtian deserves to be human? If it’s because of his contributions to North Far State before, than he can indeed be a qian bei, but someone like him raped my 20 year old disciple. Even an animal wouldn’t do that!”

Ye Mo said in contempt, “Rape? Did you hear Lin Zhongtian qian bei say that? If you didn’t, then stop saying bullshit! Plus, even if it was rape – who knows if it was your disciple seducing him?”

Tang Mengrao heard this and got up saying coldly, “You, Ye Mo – you’re crossing the line. Qiandie’s actions were a bit over the top but she didn’t do any harm to Mo Yue. Why say such things? You had a bad opinion of her but you don’t need to attack a young girl. Lin Zhongtian didn’t deny it, how can it be fake? As for killing Yi Yi, you don’t need to kill me. If you have the power go say it to Shan Di.”

Then, she moved to go outside. “I can’t afford to sit in your high level flying magic artifact, I’ll go myself. Your kin are people but not mine.”

Ye Mo sat and didn’t move. If Tang Mengrao was going to leave, he would open the restriction immediately. He wasn’t going to keep such a woman.

Ming Xin pulled Tang Mengrao’s hands. “Tang qian bei, Ye Mo isn’t such a person. You must have a misunderstanding. Sit down first – Blue Moon is a half-immortal artifact. It’s very smart. It can reach North Far State in half a month.”

Tang Mengrao was dazed, she didn’t expect Blue Moon was a half-immortal artifact, but she didn’t keep leaving anymore.

Seeing this, Ming Xin breathed easy and looked carefully at Ye Mo. "Ye Mo I know you wouldn't say such words without reason, tell us your reasoning."

Ye Mo sneered. "It's simple, Ao Cheng Merchant Association conspired with spirit beasts to trick golden core state cultivators out into the deep sea and harvest their golden cores. Those cultivators not only need golden core but also the cultivators' essence blood. I don't know if nascent soul state cultivators have been traded..."

"What?" Tang Mengrao looked at Ye Mo in disbelief. Who dared to do that? Was the Ao Cheng Merchant Association crazy?

Moments later she calmed down and looked at Ye Mo. "Ye Mo, what right do you have to say this -you went to South Peace State so how would you know?"

Ye Mo said coldly, "Because I saw it with my own eyes, I was collecting herbs on the Heartless Sea and I saw Ao Cheng Merchant Association's huge ship. Their elder Hao was reaching nascent soul state so the ship was parked and two golden core state cultivators saw my flying spirit artifact. They wanted to invite me on board but I rejected. There were hundreds of golden core state cultivators on there, all gathered by the Ao Cheng Merchant Association."

"A few months later, I saw two cultivators fighting on the way back. One of them was a golden core state level eight brought to the deep sea by the Ao Cheng Merchant Association. The other was a golden core state level eight from Ao Cheng Merchant Association. They were fighting because the golden core state level eight escaped. He ran from the hundred cultivators traded to the spirit beasts."

"What?" Tang Mengrao knew Ye Mo wouldn't be lying but she was shocked again.

Ye Mo continued, "After the golden core state level eight escaped, he was going to bring the news back to North Far State. but he was hunted and had nowhere to go. He met me and wanted me to bring the news back. I'm a lazy person so I killed the Ao Cheng Merchant Association's person and told him to bring the news himself.

Ye Mo stared at Tang Mengrao and said word by word, "That cultivator is called Li Qishan, the one killed by the number one prodigy of Wang Yue Sect. You tell me if I would kill him when I see him? This scum

killed Li Qishan who risked his life to bring back the news. Yet Lin Zhongtian qian bei just destroyed his dan tian, he went too easy on him.”

Tang Mengrao heard this and stood up dazedly murmuring, “Wrong, we were all wrong!”

Chapter 1249: Biggest Suspect

At this moment, Tang Mengrao realized that regardless of whether Lin Zhongtian raped Ao Qiandie or not, it wasn't important anymore. They were all schemed against.

Ao Cheng Merchant Association dared to sell golden core state cultivators to spirit beasts, they had become enemies of humanity. Lin Zhongtian could only destroy the five cultivators' dan tian in such a situation, he was already being very lenient.

If it was her, she would kill those five nascent soul state cultivators without hesitation and destroy Ao Cheng Merchant Association completely.

No wonder Ye Mo said he would kill Yi Yi straight away, the heroic righteous cultivator Li Qishan was killed by Yi Yi under the provocation of a woman. How could he not be furious?

Still, Tang Mengrao felt something was wrong. Did Yi Yi really kill Li Qishan under Qiandie's provocation? Then, this would make Lin Zhongtian kill Yi Yi resulting in her and Shan Di attacking Lin Zhongtian?

Shandie was only in her twenties, how could she have such schemes? This was impossible. When Shan Di was fighting Lin Zhongtian, she said she was raped by him. Then, she would fight Lin Zhongtian as well. If this was really calculated, then it was all chained together.

Tang Mengrao shook her head, she wouldn't believe this was all a coincidence. The only thing Ye Mo didn't understand was why Lin Zhongtian didn't defend himself when Ao Qiandie said he raped her. Why did he take her away at the last moment?

There was no way a disaster transformation state peak stage cultivator couldn't even control something as insignificant as lust. But he wasn't too sure about the cultivation woman part as he didn't know Lin Zhongtian that well. Who knew if he went crazy for once to reach truth realisation state?

Ye Mo suddenly asked, "Sect leader Tang, when did the marriage between Yi Yi and Ao Qiandie get proposed? Who brought it up?"

Hearing Ye Mo call her 'sect leader Tang', she felt a little sad but replied immediately, "Ten years ago, I went to Wang Yue Sect to find martial brother Shan Di. Qiandie wanted to go with me no matter what. After we came back, martial brother Shan Di brought Yi Yi over to propose. I asked Qiandie and she was fine with it."

"How old was she ten years ago?" Ye Mo asked.

Tang Mengrao answered, "She was 22."

This meant that she reached hollow spirit state peak stage at 27. She was indeed a prodigy.

"Is Yi Yi very handsome?" Ye Mo asked.

Tang Mengrao shook her head. "No, Yi Yi is very average looking, with a square face and thin eyes. But he's indeed the prodigy of North Far State."

Ye Mo sneered. "Sect leader Tang also knows of the matters between men and women, you know what young girls and boys love."

Tang Mengrao heard this and blushed, she never actually experienced it. She spent most of her time in cultivation, she really didn't know what young girls and boys thought.

Ye Mo sneered. "Ao Qiandie is said to be number one beauty in North Far State. It's very normal that Yi Yi came to propose but I don't believe a 22 year girl wouldn't like a pretty boy. Maybe a few decades later it would be different, but a 22 year old girl wouldn't care about talent first."

Ye Mo stared at Tang Mengrao. "So it doesn't make sense she would agree to the proposal from an average looking man. I'll ask you another thing, when Ao Qiandie is at Jade Woman Sect, does she go home a lot?"

Tang Mengrao subconsciously shook her head. "How can you be sure all young girls like pretty boys? Perhaps Qiandie isn't like that, she has been cultivating with me and although she's a bit arrogant, she's very mature. She uses most of her time to cultivate, of course she doesn't have time to go home."

Ye Mo said plainly, "She's mature, but Tang qian bei, you aren't. There's no way that she wouldn't miss home at such a young age. She doesn't have much contact with home, her brother died for a few years and she wasn't furious. Why did she become furious after a few years? Of course we can understand that as she didn't know at the time. But she's a hollow spirit state peak stage and Jade Woman Sect is an 8-star sect, so she could easily find a few hollow spirit state cultivators to go with her. Why did she call up Yi Yi?"

Ye Mo waved his hand seeing Tang Mengrao was about to say something. "Don't tell me that Mo Yue had Wang Yue Sect's cultivators guarding – even if she didn't invite Yi Yi, do you think the Wang Yue Sect cultivators would help Mo Yue?"

Tang Mengrao shook her head. "No."

Tang Mengrao knew Ye Mo was suspicious of Qiandie but she couldn't help but try to explain, "She was only 22 ten years ago, if she could get along well with Yi Yi, why couldn't it have been due to something other than looks? Plus, when they went to get revenge against Mo Yue – Qiandie isn't a god, how would she know that Lin Zhongtian would go to Pei Hai City at this time? You overestimate her. She's only a girl in her twenties and she's only in her thirties now."

Ye Mo said calmly, "I didn't say it's definitely her but she is the most suspicious. She's not a god but after she annihilated Mo Yue she could have stayed there and waited for Lin Zhongtian. As long as Lin Zhongtian went to Pei Hai City and saw her, I think she would have a way to agitate Lin Zhongtian to kill Yi Yi."

This time, Tang Mengrao didn't rebuke him. She knew Ye Mo was very reasonable with that.

Thinking about this, Tang Mengrao actually began to believe Ye Mo's words. But the innocent Ao Qiandie was said to be a very calculated person by Ye Mo. Tang Mengrao not only didn't believe this but also revoked the notion.

Meng Hanan said, "Sister Tang, I feel martial brother Ye has some reason to his words. Many girls' schemes aren't based on age. Sometimes, young girls can also be very calculated. Ao Qiandie's actions have holes in them. If she really cared about her family, she wouldn't know of her brother's death only a few years later. Even if she didn't know, there was no way her father wouldn't tell her. Is it very hard to send news into the Jade Woman Sect? If not, this is very suspicious."

Tang Mengrao heard this and was shook, it was all too easy for the Ao Cheng Merchant Association to send news into the Jade Woman Sect. Plus, Qiandie was the prodigy of the sect, who would dare to hide news of her family from her?

Meng Hanan said again, "If Ao Qiandie really caused this, I suspect that the news of Li Qishan finding Lin Zhongtian qian bei already fell in her ears, so she went to Pei Hai City first."

Tang Mengrao felt more uncomfortable hearing this. If this was all true, then they were the culprits for the attack on Pei Hai City and Broken Leaf City.

Ye Mo asked, "Sect leader Tang, a few years ago during the beast tide, you left with a heavy injury and a powerful being came to Pei Hai City. Did that powerful being stop the spirit beast attack? Who is he and what's his power level?"

Tang Mengrao replied, "Yes, that cultivator is also a disaster transformation state cultivator. His power is on par with mine. On the surface, there're only three disaster transformation state tertiary stage cultivators in North Far State, but there are some that hiding in cultivation. Even during the beast tides, they usually don't come out."

"Do you think that cultivator would be able to protect Pei Hai City?" Ye Mo asked.

Tang Mengrao shook her head. "I don't know, I also was thinking about this. I think he probably can."

Ye Mo knew there was no point in asking further and could only speed Blue Moon up as much as possible.

Chapter 1250: Broken Pei Hai City

Ming Xin could see the worry in Ye Mo's eyes and she suddenly said, "With Blue Moon's speed we can reach North Far State in half a month."

Ye Mo immediately got up. "I'm going to cultivate for half a month, hopefully I can reach cauldron filling state tertiary stage."

Seeing this, Tang Mengrao and Ming Xin and Guang Wei looked at each other. Reaching cauldron filling state tertiary stage from cauldron filling state level six in half a month? This was too absurd, but the other people didn't seem surprised.

After a long while, Tang Mengrao looked at Ji Ling in confusion. "Ji qian bei, Ye Mo's talent has indeed never seen before, but breaking through to cauldron filling state tertiary stage in half a month – this, this seems..."

Ji Ling laughed. "I won't believe other people, but I wouldn't doubt anything happening to brother Ye Mo. Even if he says he can break through to disaster transformation state in half a month I don't believe that's impossible."

Hearing this, Tang Mengrao and them were speechless.

Ye Mo thought he might need to face high level spirit beasts or Shan Di after he reached North Far State. He might be no match for Shan Di even if he reached cauldron filling state tertiary stage, but it was better for him the more powerful he was.

After going into the Golden Page World, Ye Mo was prepared to use the extreme grade spirit range. He could use extreme grade spirit stones but it wouldn't make the time formation disk run that fast. This meant the time formation disk wouldn't reach 12 times speed on extreme grade spirit stones.

13 days passed quickly and Ye Mo stopped cultivation. In four months or so, he used large amounts of Cauldron Essence pills and Stalagmite Benefit pills and barely reached cauldron filling state level seven.

Reaching cauldron filling state tertiary stage, Ye Mo felt a drastic increase in cultivation essence. his spirit sense increased and his understanding of domains also deepened.

The reason Ye Mo stopped was because he wasted too many things. If these things were given to someone else, they might even be able to reach disaster transformation state from chi gathering, but he wasted that in four months.

Coming out of the Golden Page World, Ye Mo felt Blue Moon slow. He came to the front.

Tang Mengrao looked at Ye Mo in shock. "You really just used two weeks to reach cauldron filling state level seven?"

Ye Mo nodded and looked at the island outside in shock. "We're already at Pei Qi Island, why is it like this?"

Ye Mo had been here once before, this was a rather prosperous place and he bought the Dihua beast core here. But now, this place was in shambles and ruins. There were no human cultivators and hardly any spirit beasts either.

"This is North Far State, after this island is Pei Hai City. This island was swept clean in the beast tide. There're no cultivators here anymore. In the past, the island would have been rebuilt soon after the beast tide, but now this still hasn't been rebuilt meaning the beast tide isn't over," Ming Xin replied.

Ye Mo sped up Blue Moon and in just 15 minutes, Pei Hai City appeared before them.

A bloody smell lingered in the air. The formations around Pei Hai City were tattered but not shattered. Ye Mo could tell by the marks that there were masters repairing them.

Ye Mo and the others' spirit senses couldn't reach inside due to the formations and restrictions. There were a lot of spirit beasts surrounding the city but they didn't attack. The city door was covered in blood and broken magic artifacts, but there were no bodies.

Ye Mo breathed easy. At least the city wasn't broken now. He was a level nine formation grand master, he could tell that the Pei Hai City had lasted a few years. Even if they didn't come, the city could last another half a year, but it was hard to say beyond that.

"Martial brother Ye Mo, this city hasn't been broken in yet!" Guang Wei exclaimed. She knew Ye Mo was worried about the city.

Ming Xin nodded. "It's more ruined than before, if we didn't come, it might not last more than a few months."

Ye Mo agreed and scanned his spirit sense out. There were a lot of spirit beasts here but not a lot of high level ones. There were only two disaster transformation state middle stage beast cultivators and more than ten cauldron filling states who were level nine beasts. The rest were below level nine.

There was a difference between spirit beasts and beast cultivators. Other than rare powerful spirit beasts, most spirit beasts would have a divine damnation to morph into humans at level nine peak to become beast cultivators. Spirit beasts that cultivated to level 11 and 12 but still retained their spirit beast bodies were more powerful than beast cultivators of the same level.

With the power of this beast tide, it wasn't even enough to take on an 8-star sect in South Peace State, but in the North Far State, it was enough to take on more than half the state.

Ye Mo felt a little easier, but seeing the Sky Lock Formation outside the city, his mood worsened.

The Sky Lock Formation could lock the nearby space, making teleportation formation useless. The spirit beasts and beast cultivators set this up to stop Pei Hai City's cultivators from escaping. Ye Mo left a safe passage for Mo Yue's people and that was the teleportation formation. Now that the space was locked, the teleportation formation would be useless.

Blue Moon came outside the city immediately and those spirit beast noticed Blue Moon's arrival. The two disaster transformation state beast cultivators signaled the spirit beasts to keep attacking the city while they flew towards Blue Moon.

The Pei Hai City cultivators released their magic artifacts and used formations to defend against the attack. Explosions sounded all over the city again and blood flew through the air. Every time cultivators or spirit beasts were killed, more would take their place.

Ye Mo's spirit sense immediately scanned to Li Jingwen. He was nascent soul state level three now and fended off spirit beasts in one corner with a few cultivators wearing Mo Yue's uniform. Then, he noticed Ye Ling and Zhen Xiaoshan behind him. He felt a little warm.

Ye Ling wasn't as timid and soft as before. She was decisive in killing and was golden core state power. Their use of cultivation essence and spirit sense was very fluent.

Ye Mo sighed, trouble made people grow. Ye Ling would be fine roaming North Far State herself now.

Seeing the two disaster transformation state beast cultivators come, Ye Mo glanced at Tang Mengrao. "Sect leader Tang, I'll leave one of them to you?"

Tang Mengrao nodded. "Ji qian bei's pills are very good, my wounds are completely healed."

Ji Ling nodded. "I'll take the remaining one."

Meng Hanan looked at Ye Mo. "What about me?"

Ye Mo pointed at those level nine spirit beasts. "You can take on those with Er Taa, Teng, and Ming Xin and also man the ship."

Teng Yi immediately felt unhappy. "Ye Mo, are you not letting me fight because I'm beast cultivator? I kill spirit beasts everyday in the Heartless Sea, how can I watch? Er Taa, let's fight, otherwise we'll have nothing left if Ye Mo goes in."

Then, Teng Yi released his Golden Dragon Drill and charged into the spirit beast crowd. Bian Fengta followed too.

The two disaster transformation state beast cultivators saw Ji Ling's disaster transformation state peak stage power and were shocked. Who other than Lin Zhongtian and Shan Di in North Far State had such power? As for Tang Mengrao, they had also recognized her. They immediately realized this was Tang Mengrao's helper.

With the help of such masters, numbers were pointless. But before they could order the beast tide to retreat, Ji Ling and Tang Mengrao released their magic artifacts.
