Chapter 1261: Disjointed Woman

Soon, some cultivators found more spirit herbs blasted out. They were at least level six. The cultivators here were sent into a frenzy.

All the cultivators realized now that what was important weren't the spirit herbs in someone else's hands but to go inside and look for more. All the cultivators rushed in.

But moments later, howls of pain sounded. Those cultivators came back out and those cultivators who didn't make it in time were killed by space wind blades or sucked away by void fissures.

Ye Mo was shook, he knew these weren't naturally formed. This was a space attack formation, after the formation was broken, the wind blades ravaged everywhere. Once these attacks disappeared, he would go in again.

Ye Mo was shook that he came here before but didn't know why space attack formation appeared.

Those cultivators knew there were a lot of good things here but ordinary cultivators couldn't take on space wind blades. After they came out, they didn't dare to go back in again and just scavenged for spirit herbs outside.

Ye Mo didn't know if the sealed ancient being had been released. He knew that if the being came out, there was nothing even he could do.

At this moment, there were two more flying lights landing outside. Ye Mo saw they were two flying magic artifacts, the left one was a middle grade flying cultivation artifact.

Two women got off the left one, Ye Mo knew one of them. It was that Hai Tong, but there was an extremely pretty woman next to her. She was on par with Hai Tong, but her body was more perfect than her face.

He was sure this woman's body was the second most perfect he had seen. The first was Qing Ru he had seen in the Ice God forbidden grounds. Even though Qing Ru was lifeless at that time, he had to admit she was the most perfect woman he had seen.

This woman with Hai Tong, her looks were far cry from Qing Ru. Her looks dragged her whole aesthetics down, but the beauty of her body was disjointed from the beauty of her face. Her face was still very pretty however.

However, Ye Mo noticed this woman because she showed her power to be hollow spirit state peak stage but her actual power was cauldron filling state level eight. She wasn't old and yet she had reached cauldron filling state level eight at such an age.

Ye Mo sighed, even the North Far State was full of crouching tigers and hidden dragons. He looked right, one man and woman got off. The female cultivator was very young but the male cultivator was a bit older. He also knew one person from those two.

He knew that young female cultivator, her name was Zhou Yushuang. He knew her because when he came to the hexagonal hall, there were 4 golden core state cultivators there, Luo Youping wanted to kill the three but Zhou Yushuang used a level eight space transmission rune to get away.

He was sure that Zhou Yushuang wouldn't know him as he left after she did.

What shook him was the man next to her, he was cauldron filling state peak stage but hid his power to hollow spirit state level six.

Ye Mo saw three cauldron filling state cultivators now and they all hid their power.

Only he didn't hide his power, he was cauldron filling state level seven and he showed his power to be cauldron filling state level seven.

Hai Tong saw Ye Mo and Su Jingwen immediately and quickly came over and bowed. "Thank you brother Ye for your forgiveness and persuasion, Hai Tong understands now. I apologise for my extreme rudeness before. Please forgive me."

Ye Mo looked at her in surprise. She could wake up after what he casually said? In his eyes, she was beyond help. He was more scorning her than teaching her.

Since she already said this, Ye Mo wasn't going to put on a stern face and tell her to piss off. He nodded and didn't say anything. To be honest, he really didn't want Yu Ruyu to be with this woman. Who knew if she was only changing for the moment and would go back to who she was after a while?

"Hai Tong, is this your friend? Why don't you introduce him?" The woman with Hai Tong smiled and came over too.

Ye Mo studied this woman and finally realized why she seemed disjointed. She was wearing a top grade stealth magic artifact. This meant this woman not only hid her power but also hid her looks.

Hai Tong quickly said, "Sister Xiao Yi, this is the brother Ye Mo I told you I was going to apologise to. Brother Ye, this is sister Xiao Yi. I met her on the way, she was very nice so she brought me here."

Ye Mo shook his head. This Hai Tong was white like paper, she didn't hide anything she was going to do. No wonder she did all those crazy things. No wonder she didn't have a real friend after all those years.

"Brother Ye, sister Ye..." Xiao Yi said politely.

Ye Mo nodded, he had an extreme sense of discomfort with this Xiao Yi. He couldn't tell the feeling but Three Birth Chant was usually never wrong. He felt this Xiao Yi was no more than 30 years old but Ye Mo felt her eyes were older than Meng Hanan. This was very strange.

Seeing that Ye Mo didn't introduce Su Jingwen, Xiao Yi smiled and didn't mind.

The rumbling in the All Herb Mountain range stopped and those space wind blades and void fissures disappeared. The cultivators slowly wanted to go back in and see again.

Hai Tong suddenly looked at Ye Mo. "Brother Ye, do you want to go in and have a look?"

Ye Mo looked at her then Xiao Yi and suddenly said, "Hai Tong, if you trust me go back to your sect. It's not suitable for you here, at least not now."

"Huh..." Hai Tong blushed. She felt she came to apologise but Ye Mo wasn't being very polite.

But instantly, she felt she shouldn't think like that. She came to apologise, if she cared about that, she would be the same as before.

Thinking about this Hai Tong sighed and said with red eyes, "Thank you brother Ye, perhaps it's really not suitable for me outside. I'm going back, take care brother Ye."

Then, she said to Xiao Yi, "Sister Xiao Yi, I'm going. If you have time you can come play at Dual Heart Valley."

Xiao Yi quickly said, "Don't be in a rush to go, there might be a lot of good things here."

Hai Tong shook her head and took out a top grade flying spirit artifact and then left.

Seeing this, Xiao Yi forced a smile and said, "Hai Tong is very naïve, I can protect her here."

Ye Mo sneered, naïve was a nice way of saying it, the mean way of saying it was that she was an idiot. But you're not simple.

Su Jingwen pulled Ye Mo's hand and said, "Ye Mo would your words be a bit?"

Ye Mo smiled. "No."

Then, the cultivators made another ruckus. Ye Mo scanned with spirit sense and found that the space formation door was gone.

A long stairway appeared before them. Ye Mo was too familiar with it, it was here when he followed Zhou Yushuang and them.

Chapter 1262: Unlocked Seal

The stealth formation was gone, the space formation door was gone, there were just purely stairs. All the cultivators ran onto the stairs.

Ye Mo saw the cauldron filling state level nine also went in.

When Ye Mo wanted to bring Su Jingwen in as well, he heard Zhou Yushuang tell the cauldron filling state peak stage cultivator, "Master, it's this place. The stealth formation was gone last time and we didn't find the space formation door, but now this place blasted out for some reason."

She was only nascent soul state level three so Ye Mo heard everything she said.

The master agreed and said after a while, "Let's go down too."

Ye Mo suddenly realized it was no wonder she had a level eight space transmission rune when she was golden core state. She had a powerful master.

Seeing them two go down, Ye Mo brought Su Jingwen down as well. At this moment, Xiao Yi came and asked softly, "Brother Ye, can I go with you too?"

Ye Mo looked at her and nodded. "Of course, anyone can go down here."

Xiao Yi nodded obediently and carefully followed behind Ye Mo. Ye Mo sneered and protected Su Jingwen. This woman hid her face and power. Regardless of what she wanted, it made Ye Mo feel vigilant.

Going down to the bottom of the stairs, there was still the same door, it was wide open now and many cultivators had gone in.

Ye Mo and Su Jingwen walked to the door but found Zhou Yushuang and her master didn't go in. They were watching on the side.

Ye Mo took Su Jingwen in without hesitation. Zhou Yushuang was probably scared they couldn't come out. Her master didn't go in for some other reason.

No matter what, Ye Mo wouldn't care. This seal was open, all formations were destroyed, there was no way that people wouldn't be able to get out.

Ye Mo went inside the hall and saw four bodies. They were the four cultivators looking for Fei Cijiang, it seemed they died as well.

Their storage rings were all taken by the cultivators who came in first.

Ye Mo looked away and wanted to find if the explosion was related to this place and why there were suddenly so many spirit herbs and ores. However, he felt something was wrong. Even if the four couldn't get out, they wouldn't die.

He had seen that spirit body. He sounded like he was very powerful but Ye Mo knew if the people in the hall ignored him, there was nothing he could do to the cultivators in the hall. Then, how did the four nascent soul state cultivators die?

Ye Mo looked at the four cultivators again and found in shock that their positions were very eerie, happening to form a Four Abyss Blood Devouring formation.

This was a demonic formation that used cultivator's essence blood as a lead and extreme grade spirit herb as supplements. The only purpose of the formation was to use the cultivators' essence blood and spirit herbs to build a body. Usually, only essence spirits or souls would use such formation. It had a similar effect to Immortal Curl Flower but way weaker.

The body made with Immortal Curl Flower was much stronger.

Ye Mo looked at this and thought of the soul in the hall. He used these four nascent soul state cultivators to set up the formation and then built his body before leaving here.

But then Ye Mo shook his head, the seal here hadn't been touched. Even if he could set up the formation, he wouldn't be able to leave here.

Ye Mo looked around and didn't see any abnormalities, meaning that the spirit herbs didn't come from here.

The four nascent soul state cultivators were really idiots, a soul that couldn't come out tricked them into setting up this demonic formation. Ye Mo was speechless.

There were more and more people here. Ye Mo knew that without his 9 forked key, these people wouldn't be able to open the seal, but there was no way he was taking the key out.

Thinking about this, Ye Mo subconsciously looked at the key ring.

It had turned dark red and he was dazed again. He could clearly tell the dark red color was due to blood.

The people started to complain seeing there was nothing they could take away. Ye Mo turned around and looked at the positions of the nascent soul state bodies again and he began to sweat.

He saw wrong, this wasn't a Four Abyss Devouring Blood formation, it was Four Elements Break Position formation. It was similar to the previous one and was the blood sacrifice formation Luo Youping had set up. Clearly, this wasn't to build a body but to break the seal...

Thinking that the terrifying guy here might've already unlocked the seal and left, Ye Mo felt shivers down his spine. If this guy found him, he would be dead.

If that soul really left here, it might be due to him helping him. He loosened this seal with the key and thus the break position formation was useful.

“What are you thinking?” Su Jingwen shook Ye Mo’s arms and asked.

Just when he wanted to reply, he heard a loud explosion. A hollow spirit state was attacking the ring.

The other cultivators all attacked it too.

Ye Mo didn’t know if the ring still had defensive capabilities after the seal was broken but then there was a loud explosion and the key ring was completely shattered.

A dark abyssal door appeared before everyone. The cultivators were dazed and immediately rejoiced. They thought they had broken into the secret vault.

A few nascent soul state cultivators charged in but instantly they flew back out. When they came out, they were filled with thousands of holes.

Those cultivators who wanted to go in all stopped in their steps, but the attacks didn’t stop because of that. Countless wind blades and sword chi flew out, covering the entire hexagonal hall.

Ye Mo immediately released his octagonal cauldron to protect him and Su Jingwen. Countless cultivators were torn apart by the wind blades and sword chi. Screams filled the hall.

Some lucky cultivators charged out of the hall but some unlucky ones were annihilated.

Fortunately this didn’t last long, and 8 minutes later, they all disappeared.

The hall wasn’t full anymore, there were just about 30 to 40 cultivators left. Most of them were injured. In that short time, 200 or so cultivators had been killed.

Those weaker nascent soul state cultivators immediately charged out of the hall upon seeing that the wind blades and sword chi had disappeared. Even some hollow spirit state primary stage cultivators left, the ruin was good but they needed to be alive to enjoy it.

Chapter 1263: Shocking Treasure

Ye Mo looked at the cultivators still inside the hall, most were hollow spirit state middle stage or tertiary stage. The cauldron filling state level nine just used an ordinary defense magic artifact and Zhou Yushuang's master only used a simple barrier. Xiao Yi used a leaf-like magic artifact.

These wind blades posed no threat to cauldron filling state cultivators at all.

Ye Mo scanned his spirit sense into the dark door but found he could only scan about ten meters into it.

There must be a spirit sense barrier formation there. Ye Mo was sure that the soul had long left the seal. Ye Mo was worried about that guy but he knew that at least for a short while he wouldn't be looking for trouble with him. The first thing he would be doing after getting free was finding a body to possess or rebuilding a body.

"Who wants to team up with me?" that hollow spirit state middle stage scanned the tunnel and asked.

As soon as he said that, another three hollow spirit state cultivators came out and the four formed a group. Then they released their magic artifacts and went into the tunnel.

The people outside scanned their spirit sense in and saw more space wind blades and sword chi arose but it didn't cause them much damage.

Soon, they disappeared from everyone's spirit sense, but there was no sound as well.

With them succeeding, the rest of the hollow spirit state cultivators all formed groups. Ye Mo saw that cauldron filling state level nine also found a group and went in.

Zhou Yushuang's master looked for a team with Zhou Yushuang but no one wanted to group up with them. He only showed hollow spirit state middle stage power and he brought along a useless Zhou Yushuang.

As for Ye Mo, no one dared to make a team with him. Everyone knew he was the strongest here. He was body condensation state, who dared to team up with him?

Zhou Yushuang's master couldn't be bothered finding a team so he just took Zhou Yushuang in. This made some hollow spirit state primary stage and even nascent soul state tertiary stage cultivators keen to try. If Zhou Yushuang, a nascent soul state primary stage cultivator, and a hollow spirit state cultivator could go in, they could too.

But soon, they found they were wrong. Four nascent soul state tertiary stage cultivators formed a group and they only walked less than ten meters before they were torn apart.

"Brother Ye, can I form a group with you?" Xiao Yi asked shyly.

Ye Mo smiled. "I would but I won't be able to protect you, I need to protect my wife."

Xiao Yi quickly said, "I don't need you to protect me, I'm hollow spirit state peak stage. I can pass this myself."

Ye Mo frowned. "If you can pass yourself, then why do you want to team up with me?"

Xiao Yi smiled awkwardly. "That's true, I thought the same as them. It seems I really don't need a group, I'll go first then brother Ye."

Then, Xiao Yi walked into that dark tunnel.

"Ye Mo I feel that something is wrong with that woman but I can't tell exactly," Su Jingwen said.

Ye Mo sound transmissioned, "Jingwen, you're right, she's very powerful. She's already cauldron filling state level eight. She's using a stealth cultivation method and is wearing a mask too. I don't know what she wants to do."

Almost all the cultivators had left in the hall, Ye Mo also took Su Jingwen to go into that tunnel too.

The space wind blades and sword chi shot onto the octagonal cauldron and didn't affect them at all. Soon, they walked into an even bigger hall.

There was nothing inside, but at the very end, there was a gray barrier. Spirit sense couldn't scan inside. The people who came in before didn't move and just looked at it.

There were 13 hollow spirit state cultivators here and the cauldron filling state cultivators as well as Ye Mo and Su Jingwen.

The only person who didn't hide his power was Ye Mo. He showed cauldron filling state level seven, but only those three cauldron filling state could see his power level.

One hollow spirit state tertiary stage saluted with his fists to Ye Mo. "Qian bei, there's a gray barrier here, it's probably a defense formation. We can open it now, if there're good things inside, qian bei can get 50% and we'll split up the remaining half. Would qian bei be happy with that?"

Ye Mo finally realized why the hollow spirit state cultivators who came in before didn't do anything, they were worried about him.

Ye Mo liked cultivators who knew their place so he nodded. "That's perfect, I'll take half. It's not something I can care about if you guys can split the remaining half evenly."

Hearing this, the cauldron filling state level nine and Zhou Yushuang's master smirked. Only Xiao Yi looked the same as before.

Zhou Yushuang looked at Ye Mo and shook her head. She considered Ye Mo dead already. She knew that whatever her master wanted, no one could take away. This young person might be body condensation state, but 50% was too much for him to handle. Her master didn't tell her Ye Mo's power.

The hollow spirit state tertiary stage heard this and immediately looked happy. "Wan bei is very happy with qian bei's words. We'll split everything else based on our power, I believe no one will be unhappy."

“Let’s attack.” The hollow spirit state tertiary stage waved out his magic artifact.

With a rumble, his mountain seal struck the gray barrier and made it wobble.

Seeing this, everyone else took out their magic artifacts and attacked the barrier, causing ripples to form on it.

Ye Mo didn’t do anything. Since everyone treated him as the number one master, he needed to act like one. The most powerful qian bei here didn’t need to do such small things.

With so many cultivators attacking, the barrier only lasted 8 minutes before cracking and disappearing.

Once it disappeared, seven golden balls appeared. When Ye Mo scanned his spirit sense inside, he took a cold breath in. What seal was this? How were there such good things?

The first orb had three extreme grade cultivation artifacts, three heaven grade level seven cultivation methods. The second orb had two extreme grade cultivation artifacts, one heaven grade level eight cultivation method and one armor. The third orb had a pill bottle with the words ‘Truth Carrot Pill’ as well as a heaven grade level nine cultivation method.

As for the fourth orb, an orange flame floated above the cauldron, which was obviously an extreme grade cultivation artifact. The flame was Truth Mei Flame, it was ranked 8th amongst the heaven flames.

The fifth orb was only a cultivation method, but when he saw it, even Ye Mo sighed. It was an immortal grade level one cultivation method.

The sixth orb was a low grade defense immortal artifact, Worm Scale Shield.

The seventh orb only had three crystals, but when Ye Mo saw them, his eyes almost popped out. They had a spirit attribute circulating through them. They were more precious than extreme grade spirit stones. He had never seen them, but he guessed they were either extreme grade crystals or low grade immortal crystals.

Even Ye Mo couldn't control himself, much less the other people here. One hollow spirit state primary stage forgot he was the weakest here and charged up to the first orb, wanting to grab it.

Before he touched it, a huge power flicked him back, causing him to crash into the wall. He spat mouthfuls of blood. Then he remembered that he might not even be able to touch a part of these things.

Chapter 1264: Fake, Fake, Fake

No one cared about this hollow spirit state who was flicked away by the light orb. Everyone just stared inside the seven transparent yellow light orbs. If they just got one of the light orbs, it would be a huge fortune. Even truth realisation state cultivators would drool over such things.

Hearing the heavy panting, Ye Mo knew that bloodshed was to follow.

That hollow spirit state tertiary stage woke up and said, "Friends, we have a qian bei here – we'll let him choose any of the first three and then choose half from the fourth. Then we can split the rest, does everyone agree?"

No one replied.

Clearly no one agreed to this. Ye Mo's power was high but he was at most a body condensation state cultivator. There were more than ten hollow spirit state cultivators here. If they joined up, he might not be a match for them. The main thing was that the things inside the orbs were too shocking. Who would be willing to give it away?

Almost all the cultivators left Ye Mo now and looked at him in warily. They stood together in case Ye Mo tried to kill them one by one.

Ye Mo smiled and didn't move at all. The three cauldron filling state also showed frenzied eyes. They didn't move either. They'd seen all too much, why would they move before someone else? Three cauldron filling state tertiary stage and 13 hollow spirit state cultivators – Ye Mo really wasn't afraid of them attacking him altogether. He was just scared that if he didn't take care of Su Jingwen, it wouldn't be good.

“Hahaha....” a coarse voice sounded. “I’ll take five of the seven orbs.”

That voice said this and was about to grab the orbs.

Everyone saw it was a hollow spirit state tertiary stage cultivator, a few hollow spirit state cultivators wanted to get near him and stop him.

But that hollow spirit state tertiary stage didn’t even use his magic artifact and just used a few hand signs and those cultivators were stopped.

Soon, those hollow spirit state cultivators were thrown away onto the rock wall. However, their necks were twisted and they had stopped breathing.

The cultivators saw this and all took a cold breath in. They all realized that this hollow spirit state tertiary stage definitely hid his power. Clearly, he was body condensation state or cauldron filling state to be able to kill these few hollow spirit state cultivators so easily.

Everyone looked at Ye Mo as he was the strongest here. But now, there was another cultivator hiding his power. Clearly, the fight would happen between these two first.

Those excited hollow spirit state cultivators all calmed down. The things here were good but it was questionable if they were going to be able to take them. There were two cultivators above body condensation state here.

Ye Mo saw that Xiao Yi and Zhou Yushuang’s master didn’t move either, clearly, they could tell this cultivator was hiding his power too.

This hollow spirit state tertiary stage stopped hiding his power and soon showed he was cauldron filling state level nine. No matter what, he was going to get all these powerful treasures.

Other than Ye Mo who had a calm look, Zhou Yushuang’s master and Xiao Yi all showed surprise and seriousness. They didn’t expect someone was hiding their power like him.

That cauldron filling state level nine walked up to Ye Mo and saluted with his fists. “Friend, you’re cauldron filling state level seven, that’s cauldron filling state tertiary stage. There’re seven orbs here – I’ll only take five and you can have two, how is that?”

Ye Mo sneered – a mere cauldron filling state level nine, he could kill him easily and yet he asked shamelessly for five orbs.

However Ye Mo knew now wasn’t the time to divide up the orbs, so he said calmly, “If you want the orbs then go for it, don’t ask me.”

Hearing this, he looked satisfied. Clearly, to him, Ye Mo knew he was cauldron filling state level nine and backed down.

He nodded. “Very well.”

He walked to the fifth orb. Clearly, he wanted that immortal grade level one cultivation method. Ye Mo saw Zhou Yushuang’s master slowly gather up cultivation essence as that cauldron filling state level nine walked to the fifth orb.

To be honest, this immortal grade level one cultivation method had no enticement to Ye Mo at all. He wanted the seventh orb the most, with the three crystals.

That cauldron filling state cultivator grabbed the yellow orb and his cultivation essence clashed with the defense of the orb.

The cauldron filling state level nine grunted and moved a few steps back. Seeing this, Zhou Yushuang’s master stopped his decision to attack.

But Ye Mo ignored the cauldron filling state cultivator and just looked at the orb in shock. Then, he was speechless.

When that cauldron filling state grabbed the orb, the orb cracked. Ye Mo's spirit sense could transform and his spirit sense reached inside the crack instantly and saw that cultivation method was just an illusion.

Ye Mo looked from the first to the last orb and saw that only the three crystals were real. The rest seemed fake.

"So powerful!" The cauldron filling state took a few steps back and looked at these orbs.

Then he looked at Ye Mo clearly wanting to join forces with Ye Mo to attack these orbs.

Ye Mo laughed. "Let me see."

Ye Mo walked to the first orb and grabbed it. No one knew he just wanted to reach his spirit sense inside the orb. He didn't really want to grab what was inside.

There was a thud. It was just a light sound and he wasn't flicked away by the orb. Soon, everyone realized that Ye Mo's cultivation essence was weaker than the first cultivator so the sound was much quieter.

His spirit sense reached inside and saw the three extreme grade cultivation artifacts. They were fake – three heaven grade level seven cultivation methods, fake.

Ye Mo frowned and walked to the second orb grabbing it like before. He found they were all fake.

Seeing Ye Mo touch all the orbs, no one knew what he was doing.

The cauldron filling state level nine frowned and saluted with his fists. "Friend, this won't work. The orbs won't open, I think we should attack together. If we can open them, I'm willing to give you an extra orb – how about it?"

Ye Mo shook his head, although they were just all hollow spirit state cultivators on the side, the cauldron filling state level nine's words were taboo. He thought they were nothing and wanted everything for himself.

Ye Mo looked at the cauldron filling state cultivator and said, "I'll try again, if it doesn't work then we'll see."

Then, as Ye Mo grabbed onto the last orb, there was a thud. Ye Mo's spirit sense reached inside and instantly, Ye Mo was shook to find that those crystals were all real. They were definitely not spirit crystals.

His spirit sense felt an extreme sense of comfort just scanning them. Ye Mo suppressed his joy and walked to the side, saluting his fist to the cauldron filling state level nine. "I tested and found these few balls are very sturdy. Only the last one I feel I have some hope of taking, so I'll just take the last orb. I feel I won't be able to open the other orbs."

"Really?" the cauldron filling state reached for the last orb too but he was flicked away like before.

He frowned and said coldly, "Didn't you say the last one is easier?"

Chapter 1265: Tearing the Orb

Ye Mo said calmly, "I have an extremely powerful truth explosion orb."

"If I use my full power, I might be able to break one. The three spirit crystals are good, I'll have them."

"Truth explosion orb?" the cauldron filling state level nine repeated in shock. This was a one time use magic artifact that truth realisation state cultivators could create.

If Ye Mo used truth explosion orb against him, he might be seriously injured if he was caught off guard. He thought Ye Mo would be no match for him, but if Ye Mo had a truth explosion orb it would be completely different.

This cauldron filling state level nine's face changed and after a while he sighed. "I didn't expect you to have such a powerful one time use magic artifact. I have no objections to you using one to open an orb. But the rest of the orbs...."

Ye Mo waved his hand. "I won't have any of them. I promise I just want the seventh one. Plus, after I open it, I won't have the ability to open any more."

"Okay then, I have no objections, go open it. But the truth explosion orb might destroy the contents of the orb," the cauldron filling state answered.

Although Ye Mo said he only had one truth explosion orb, who knew how many he really had? He didn't believe Ye Mo would use the only one he had here. If he was in Ye Mo's position, he wouldn't use it to open the orb. He would use it to hurt the strongest person here first.

Ye Mo smiled. "I only want the seventh orb. If I accidentally break the contents inside, then I won't pursue any other orbs."

The cauldron filling state rejoiced, he was waiting for Ye Mo to say that. Just when he thought Ye Mo was going to open it, Ye Mo turned around and looked at the hollow spirit state cultivators. "I only want the seventh orb, is that fine with everyone?"

How could the hollow spirit states object? When he looked at Xiao Yi, she smiled. "I would love for brother Ye to have one of the orbs, how can I disagree?"

Ye Mo smiled. "Great."

Then Ye Mo asked Zhou Yushuang's master and the man stared closely at Ye Mo as though wanting to see why Ye Mo asked him. However, Ye Mo's tone was the same to everyone, nothing special.

The cauldron filling state level nine shook his head, he thought that Ye Mo was a cauldron filling state level seven, if he wanted an orb who would dare to object? This was just so extra.

But even so, he frowned and didn't object. After all, asking didn't take much time. He wanted Ye Mo to help him open the other orbs after he took something from the seventh orb. He even planned to give Ye Mo something so Ye Mo would help him.

Seeing Ye Mo ask him, Zhou Yushuang's master said calmly, "Even if you take all the orbs I won't have a problem."

Ye Mo's tone suddenly became cold and he stared coldly at Zhou Yushuang's master. "Just say whether you have a problem or not. If I find someone trying to harm me when I take something from the orb, I will eliminate that threat now."

Ye Mo didn't want people disturbing him when he broke open the orb, that's why he asked one by one. He was mainly asking the two cauldron filling state cultivators. If Zhou Yushuang's master acted up, he would attack immediately.

He believed that if he was to take on Zhou Yushuang's master, the other two cauldron filling state wouldn't intervene. Plus even if they did, he wasn't afraid.

Hearing Ye Mo's cold words, Zhou Yushuang's master's eyes dilated. He was sure Ye Mo saw through his power. Otherwise, why would he waste time on a hollow spirit state cultivator?

Ye Mo's words meant that if he dared to say no now, he would attack immediately.

Zhou Yushuang's master was planning to attack Ye Mo when he was opening the seventh orb, but now that Ye Mo asked him, he felt he was seen through.

Seeing Ye Mo's eyes grow cold, Zhou Yushuang's masters nodded. "I have no objections, there're seven orbs here. But qian bei, you only want one..."

Ye Mo knew what he meant and said coldly, "You're right, qian bei will only take one."

He was clearly scorning Zhou Yushuang's master.

Zhou Yushuang's master nodded. If it was just Ye Mo here, he would've attacked already, he could tell Ye Mo's sarcasm.

Now, Ye Mo just wanted the seventh orb. There were just three crystals there, it wasn't the most precious thing.

More importantly, his greatest enemy was the cauldron filling state level nine. If he fought with Ye Mo, that cauldron filling state level nine would help Ye Mo for sure. He was cauldron filling state peak stage but he wasn't confident to win over a cauldron filling state level nine and cauldron filling state level seven. Plus, this cauldron filling state level seven said he had a truth explosion orb.

Even he didn't dare to face it head on.

Seeing the main opponents agree, Ye Mo took Su Jingwen to the seventh orb. Although they all agreed, he still had to be wary of the others attacking Su Jingwen as he took the orb.

The cauldron filling state level nine saw Ye Mo walk to the seventh orb and just stared at Ye Mo. The truth explosion orb's power was huge. If he went over now, it might affect him.

As for the rest of the hollow spirit state cultivators here, he already considered them dead. Before he got the orbs, he would kill anyone who dared to leave.

Zhou Yushuang's master stared at the cauldron filling state level nine, he was preparing to ambush him when he opened an orb. As long as he injured him, the rest of the orbs would be his. It didn't matter to him if Ye Mo just took an orb with spirit crystals.

Xiao Yi just stared at Ye Mo and Su Jingwen, no one could tell what she was thinking.

Ye Mo walked to the seventh orb and didn't take out the truth explosion orb like everyone expected. He instead took out a few formation flags and set up a formation before releasing a kitchen knife magic artifact and hacking at the orb.

With a thud, the orb was opened by Zi Xu, creating a very small opening. Other cultivators thought the opening would slowly close but instead it didn't, it instead got bigger until it was enough for his hand to reach in.

Ye Mo's face was getting more and more pale. No one knew he was using his full power. He made the agreement with the three cauldron filling state cultivators as he was the weakest now. His spirit sense was used to the max, the opening wasn't opened by his cultivation essence but spirit sense.

He had tested cultivation essence before, it was useless against such barrier. The more powerful the cultivation essence, the more powerful the concussion. Only spirit sense could open it.

If these three cauldron filling state cultivators attacked him now, all he had done would be for nothing and he would be heavily injured.

He was already planning to kill Zhou Yushuang's master when he was hesitating. It wasn't hard for him to kill cauldron filling state peak stage, but he didn't want to kill for no reason.

Luckily, Zhou Yushuang's master agreed, fearing he would collaborate with the cauldron filling state level nine.

The crack grew wider. Zhou Yushuang's master and Xiao Yi were dazed too. They thought Ye Mo would be opening it with truth explosion orb but Ye Mo could tear it apart instead.

The cauldron filling state level nine's eyes flickered. He was hesitating whether he should ambush Ye Mo. If it wasn't for the truth explosion orb Ye Mo talked about, he might really do it.

Before he could make up his mind, Ye Mo grabbed the three crystals. Their spirit chi that was comfortable to the extreme almost made him moan. He put the three crystals in his Golden Page World as quickly as he could.

When Ye Mo pulled his hand out, the orb instantly closed. Without hesitation, Ye Mo ate a Spirit Recovery Pill.

The cauldron filling state level nine saw this and sneered.

Chapter 1266: Shan Di's Killing Intent

He looked at Ye Mo and asked gloomily, "Why didn't I see you use the truth explosion orb? Did I hear wrong?"

Ye Mo recovered a part of his spirit sense and removed the formation casually. He looked coldly at this cauldron filling state level nine and said, "Why would I use it? You're so weird."

Ye Mo was planning to go now that he got what he wanted. If this cauldron filling state level nine dared to talk he would teach him a lesson.

The cauldron filling state level nine didn't expect this cauldron filling state level seven to become so rude after he got what he wanted. He was dazed and asked angrily, "Didn't you say you have a truth explosion orb, or did I hear and everyone here hear wrong?"

If Ye Mo wasn't cauldron filling state level seven, he would've attacked already.

Ye Mo said calmly, "Then you're deaf. I just said I had the orb – when did I say I was going to use it? Are you a pig brain? The orb can even kill disaster transformation state cultivators, would I use it on a few spirit crystals? Would you do it?"

"You..."

The cauldron filling state level nine spread out his power and a black magic artifact appeared in his hand, this was a top grade cultivation artifact Yin Yang Fan. He clearly didn't like Ye Mo's attitude and was about to attack.

"It seems you toughened up now that you got what you want? Are you going to fight over the other orbs?" the cauldron filling state level nine asked with dense killing intent.

Ye Mo sneered and didn't even bring out a magic artifact, he said coldly, "I always live up to my words, I'll only take one orb. If you want to fight then fight, I don't have much patience."

The cauldron filling state level nine looked at Ye Mo with uncertainty. Would a cauldron filling state level seven be so tough to him if he didn't have something like the truth explosion orb?

Zhou Yushuang's master hoped Ye Mo and the cauldron filling state level nine would fight, then he could ambush them. As long as he killed one, he would be undefeated.

However, just when everyone thought they were going to fight, the cauldron filling state level nine said calmly, "Since you don't want the rest of the things, we have no conflict, I don't need to fight with you."

Seeing this, Ye Mo was a little surprised too. He was thinking how many strikes it would take to kill this cauldron filling state level nine, but instead he retreated. Thinking about this, Ye Mo knew he was probably scared of his truth explosion orb.

He wasn't a murderous person. If he was, he would've killed everyone here beforehand, but Ye Mo didn't do that. He wanted to teach this cocky cauldron filling state level nine a lesson but he backed down. Ye Mo didn't want to have this pointless fight.

Zhou Yushuang's master seemed a little disappointed.

"Brother Ye, are you going?" Xiao Yi saw Ye Mo seemed to want to leave here and seemed unwilling.

Ye Mo knew she was problematic but no matter what was wrong with her it had nothing to do with him. Plus, the only real orb was taken by him, so what was the point of staying here?

Ye Mo glanced at her and said calmly, "Yes, I'm someone with self knowledge. I am very happy with just one orb. As for the rest, you guys can have it. I'll be going off first."

Xiao Yi heard this and suddenly called, "Brother Ye can you go later? If you go, I'll be scared being by myself here."

Hearing this, Ye Mo frowned. He really didn't like this woman, Ye Mo said coldly, "If you're scared then let's go together, why are you staying here?"

Xiao Yi looked at the six orbs and said, "If I can get one of the six orbs I would be very satisfied. Sigh, I'd be willing to give my life for something like that..."

There was a strong sense of seduction in her words, those hollow spirit state cultivators couldn't even keep their eyes off her and gulped their saliva.

Ye Mo sneered, Su Jingwen was right next to him and she dared to do this.

But no matter what tricks she used, it wouldn't affect him. He had cultivated next to the Bitter Bamboo and his dao heart was very firm.

Seeing this seductive Xiao Yi, Su Jingwen was unhappy and leaned closer to Ye Mo and said, "Ye Mo, let's go."

Just when Ye Mo wanted to talk, he heard a cold voice say, "No one can leave now, I've sealed this place. No one can come in either."

Ye Mo was shaken. After he heard the voice, he looked at this man. Clearly, he was much stronger than him.

Two cultivators came in. One was hollow spirit state primary stage with a square face and thin eyes. Ye Mo felt this cultivator was very familiar. The other cultivator was a middle aged man, his power made Ye Mo's eyes spasm. This middle aged man was disaster transformation state level nine.

Soon, Ye Mo remembered why this square faced man seemed familiar to him. When Tang Mengrao told him about Yi Yi, she said he had a square face and thin eyes. With this disaster transformation state level nine next to him, it wasn't hard to guess who he was.

This middle aged man was Wang Yue Sect's Shan Di and the young cultivator was Yi Yi. Realizing this, disgust rose up Ye Mo's heart. This guy killed Li Qishan and he had said he would get revenge for Li Qishan. Now that was here, he couldn't be blamed for what was to come.

Shan Di had some capability, Yi Yi's dan tian was destroyed by Lin Zhongtian but he could still find spirit herbs to repair it. Wang Yue Sect was quite rich. He didn't know how the two were related, but Shan Di took him so seriously and brought him around.

Shan Di scanned around and his pressure swept across the hall. Those few cauldron filling state cultivators were shaking.

"Sect leader Shan...."

"Shan qian bei."

....

The cultivators greeted Shan Di with respect and carefulness.

When Yi Yi came inside, his eyes never left Su Jingwen and Xiao Yi. He looked at Su Jingwen again and again, making Ye Mo very annoyed. If it weren't for Shan Di, he would've already attacked.

But Ye Mo knew that although Yi Yi must be killed, he needed to ensure Su Jingwen was safe.

Shan Di nodded and then looked at the cauldron filling state level nine for a while until he was sweating before looking at Ye Mo.

Ye Mo and the woman next to him were the only two who didn't salute to him. This made him annoyed.

He looked at Ye Mo for a while but didn't say anything. He then looked at the dead hollow spirit state cultivators and asked coldly, "Who killed them? Did someone kill innocent people because he thought

he was strong? There aren't many high level cultivators in North Far State already, if they are killed like this who can be depended on in the next beast tide? Just me?"

Then, he looked at Ye Mo, clearly thinking he had done it as Ye Mo didn't greet him when he came in. He thought Ye Mo was a cocky guy.

Ye Mo saw this and sneered. How could he not know Shan Di wanted trouble with him? However, he wasn't scared at all.

Just when Shan Di wanted to keep asking, he saw what was inside the seven crystal balls and there was extreme disbelief and joy in his eyes.

Chapter 1267: Immortal Crystal

Extreme grade cultivation artifact and heaven grade cultivation method, the Truth Carrot Pill that made him unable to breathe, heaven flame, immortal artifact...

What ruin was this? He started panting heavily. He was sure that all the things in North Far State combined weren't even worth 10% of what was here. Yet he somehow came across something like this. The things here were more and more precious than the next.

When he saw the seventh orb, he was dazed. According to this, the seventh orb should be the most precious – why was it empty?

When he subconsciously looked around wanting to ask someone. He saw everyone look at him, immediately knew his outlook wasn't too good. He coughed and acted calm. "Why is the seventh orb empty?"

Shan Di calmed down as he knew that since he had come, everything here belonged to him. No one could take it. No one would dare to take things in front of him in the North Far State.

The cauldron filling state level nine immediately got up and pointed at Ye Mo. “Shan qian bei, he took the seventh orb, there were three crystals inside. The spirit chi is denser than extreme grade spirit stones, they might even be immortal crystals...”

The cauldron filling state cultivator didn't like Ye Mo already and didn't want him to have it easy. He wanted to exaggerate things and make Shan Di attack, but when he spoke of immortal crystals, he paused for a moment.

No matter how dumb he was, he realized the last orb had immortal crystals. The orbs before had low grade immortal artifacts, so how could the last orb be worse than the one before. Yet, like all other cultivators, he didn't think of this earlier.

After all, immortal crystals couldn't appear in the cultivation realm. Three immortal crystals might not even be able to buy a corner of a low grade immortal artifact, but in the cultivation realm it was different. Immortal crystals were definitely more precious than immortal artifacts. A powerful forgery grand master would be able to forge a low grade immortal artifact with the right materials.

But immortal crystals were different, since they would never appear in the spirit chi arid cultivation realm. Immortal crystals were the best pills for cultivators, they had no pill poison, just pure and clean immortal chi.

Realizing Ye Mo might have taken immortal crystals, the cultivator's eyes showed extreme regret. Why didn't he think of it? If he did, he would get one if he could. It was just a cauldron filling state level seven cultivator, he wouldn't mind fighting over an immortal crystal for him. Plus it wasn't even certain if he really had the truth explosion orb.

Not only this but Zhou Yushuang's master and Xiao Yi also realized that the three crystals Ye Mo took were immortal crystals. Even if they were low grade immortal crystals, it was something the cultivation realm didn't have. Their eyes were full of regret.

Ye Mo wasn't too sure if these crystals were the legendary immortal crystals but now that this cauldron filling state level nine said this, he was very sure they were low grade immortal crystals.

Hearing this, Shan Di looked at Ye Mo again and had eyes that showed he must have them.

“The three crystals you took were immortal crystals?” seeing Ye Mo not have the intention to talk, Shan Di asked.

Ye Mo said calmly, “I don’t know, I didn’t look at them.”

“Oh.” Shan Di was unhappy. A wan bei like Ye Mo should have the initiative to take them out and show him, but Ye Mo didn’t do anything.

Shan Di waited a long while but Ye Mo still had no intentions of showing him.

Shan Di frowned, it was so obvious what he meant but this cauldron filling state still didn’t show him. He grunted and said, “Show me those three crystals. I’ll check if they’re really immortal crystals.”

Ye Mo sneered but said calmly, “No need, no matter if they are immortal crystals I won’t mind.”

“Insolence!” Shan Di yelled. “There are so many people here and you’re the only one who took something. You also killed low level cultivators, do you think you can do whatever you want just because you have some extra power?”

How could Ye Mo not know Shan Di was using an excuse to attack him? But to be honest, he really wasn’t scared of Shan Di after his recent enlightenment. He could even fight truth realisation state beast cultivators, so how could he be scared of a mere disaster transformation state level nine Shan Di?

As soon as Shan Di said this, Ye Mo laughed. “This is really funny – it’s mine, why should I show you? Plus, this many cultivators all agreed to me taking the seventh orb. Even they don’t mind, but you who came later instead interrogate me – do you think you can do whatever you want just because your power is high?”

Sending back exactly what Shan Di said to him, Shan Di was at a loss for words. He stared coldly at Ye Mo and then scanned the cultivators. He wanted to ask if they really all agreed. But then he stopped, he couldn’t ask that. He was about to take the remaining six orbs, was he going to ask the rest of the cultivators too?

But at this moment, a crisp voice sounded, “Shan qian bei, he didn’t ask me when he took it, maybe because my power is too low.”

Ye Mo wasn’t afraid of Shan Di but this made him very annoyed. He looked at Zhou Yushuang, not expecting her to act against him. He didn’t ask her firstly because she was the weakest, and secondly because he already asked her master.

“Such a sneaky wan bei, I want to see how you can act so tough.” Shan Di was about to attack.

But before he could another voice sounded, “Martial brother Shan, why is your temper so big? You sealed the outside off too? It took me so much effort to get in.”

Hearing this voice, Shan Di immediately stopped and said politely, “Martial sister Mengrao, I heard you were fine and wanted to visit you, I didn’t expect something to happen to All Herb Mountain Range so I came to check it out.”

Ye Mo’s spirit sense already scanned Tang Mengrao while all Shan Di was thinking about were the immortal crystals. Tang Mengrao also had a young girl next to her. It was probably her disciple. Did these powerful people all like to roam around with their disciples?

Teng Mengrao saw Ye Mo and looked surprised and joyful. “Sect leader Ye, you’re here too?”

Although she was disaster transformation state tertiary stage, she didn’t dare to act big in front of Ye Mo at all. She knew Ye Mo’s power, this was a guy who could easily kill disaster transformation state primary stage cultivators and fight with truth realisation state cultivators.

Even she and Ji Ling might not be able to take a few blows in front of that truth realisation state level two, but Ye Mo could and only spat a little blood. Thus, even Tang Mengrao wasn’t certain she could beat Ye Mo.

When she saw Ye Mo, she considered him a cultivator of her level. Just when she wanted to introduce her disciple to Ye Mo, her spirit sense also scanned the six orbs and she was dazed.

“Extreme grade cultivation artifact, Truth Carrot Pill, immortal grade cultivation method, immortal artifact...” Tang Mengrao rubbed her eyes, “Am I seeing this right?”

As soon as she came, Shan Di knew he had to split half with Tang Mengrao but he didn’t mind that much. There were too many good things here, he didn’t need all of them.

Shan Di nodded. “Yes, martial sister Mengrao, I was in disbelief when I came here too – what ruin is this? All these things are here, but the immortal crystals of the seventh orb have been taken away...”

“Immortal crystals?” Teng Mengrao interrupted in shock.

Shan Di nodded. “Yes, it’s taken by that cauldron filling state level seven cultivator. He not only took it but also killed a few hollow spirit state cultivators who disrespected him.” He pointed at the dead hollow spirit state cultivators and said, “I’m ashamed there are such cultivators in North Far State, I was planning to teach him a lesson.”

Chapter 1268: Attack

Tang Mengrao heard this and looked at Ye Mo in shock. She thought Ye Mo wasn’t someone who would kill innocent people. She hadn’t been with Ye Mo for long but she knew he wasn’t a murderous person.

The young girl next to Tang Mengrao heard this and immediately looked disgusted. She then came up to Shan Di and bowed. “Yue Chan greets Shan qian bei.”

Shan Di nodded but Tang Mengrao said, “Yue Chan, this is Ye Mo, the sect leader you wanted to thank. He saved your master, you should call him martial uncle, greet him.”

“He’s Ye Mo?” That young girl looked at Ye Mo in shock but didn’t really call Ye Mo martial uncle.

Tang Mengrao’s face didn’t look so good seeing her disciple was rude. Just when she wanted to speak, Shan Di said in surprise, “You’re Ye Mo? The one who caused my disciple Yi Yi’s dan tian to get destroyed?”

Ye Mo smirked in contempt, this Shan Di really knew how to connect the dots. His disciple wanted to annihilate Mo Yue in Pei Hai City but he blamed him for harming his disciple, this bastard really knew how to bullshit.

Shan Di took out a fire rune mirror and said coldly, “Even if you’re Ye Mo, on Mengrao’s account I’ll let you go for what you did to Yi Yi, but I won’t let you go for killing innocents. Release your magic artifact.”

Ye Mo sneered. “Which one of your dog eyes saw me kill someone? If you want to fight then fight, stop pretending and finding an excuse.”

Then, Ye Mo took out Zi Xu.

Seeing this, Tang Mengrao quickly stopped Shan Di. “Martial brother Shan, let’s clear things up first. Perhaps those few hollow spirit state offended Ye Mo first.”

Tang Mengrao knew that Shan Di was disaster transformation state level nine but he really might not be able to beat Ye Mo. Ye Mo killed a disaster transformation state middle stage cultivator when he wasn’t cauldron filling state tertiary stage before and now he was cauldron filling state tertiary stage, even truth realisation state’s domains were useless against him.

Seeing this, Shan Di frowned. “Martial sister Mengrao, you want to help this murderous cultivator?”

Tang Mengrao saw Ye Mo’s face full of killing intent and sighed. Even if she did stop Shan Di, Ye Mo would still fight him as Yi Yi had come today.

However, Zhou Yushuang suddenly said, “Ye Mo didn’t kill those hollow spirit state cultivators – it was this person.”

Then Zhou Yushuang pointed at the pale-looking cauldron filling state level nine.

Instantly, everyone looked at him. Shan Di only needed to look around at the eyes of the cultivators to know she was right.

Shan Di looked back annoyedly at this cauldron filling state level nine. He didn't really want to help those dead cultivators get justice. He just wanted to find an excuse to kill Ye Mo and take his storage ring.

Seeing this, the cauldron filling state level nine explained with a pale face, "Shan qian bei, those few hollow spirit state cultivators ambushed me, that's why I killed them."

"So that's it." Shan Di frowned and said, "Don't kill people so easily if it's not a big deal. North Far State is weakened already."

The cauldron filling state level nine quickly nodded his head. "Yes, wan bei knows. Wan bei will remember qian bei's teachings."

Ye Mo sneered. "Stop acting cool, you just want my three immortal crystals, but I won't give them to you, what are you going to do?"

The girl next to Tang Mengrao almost laughed out.

Shan Di's face went cold. "You think I won't kill you just because sect leader Tang is here? Wan bei, I can kill you like a chicken."

Ye Mo laughed and flicked Zi Xu until it rang before saying coldly, "Shan Di, you don't need to be in a rush to kill me, I'll let you do that in a while. When I left Pei Hai City, I made three Spirit Recovery pills for you. I supplied the herbs, I don't know who it saved."

But then, Ye Mo raised his voice, "But Shan bastard, what was our deal? Your sect sent a hollow spirit state to protect Mo Yue, but what you do you old bastard? You let the little bastard and a little witch attack Mo Yue. Not only did you not help Mo Yue, instead you attacked it. If it wasn't for Ling Zhongtian qian bei, Mo Yue would be gone now. Is your face a asshole? Your words are like shit!"

Finally, the girl next to Tang Mengrao couldn't hold her laughter. This was like slapping sect leader Shan in the face a few times.

Shan Di's face burst red and he took out his magic artifact again. This was nothing to Shan Di, but a mere wan bei dared to say this was a deal with Wang Yue Sect.

"Wan bei, I will kill you." Shan Di took out the fire rune mirror.

Ye Mo sneered. "Don't be in a rush, I need to kill someone here first. It's that trash called Yi Yi behind you. He killed my friend Li Qishan and dared to attack Mo Yue. I was planning to go over to Wang Yue Sect to kill that bastard, but since that bastard came today. I won't need to go to Wang Yue Sect in case I ruin the pretty flowers and scare the beautiful wives there."

Shan Di was so angry he almost spat blood. His cultivation essence burst into the fire rune mirror. He was going to let Ye Mo realise in his death what it meant when a cauldron filling state level eight fought with a disaster transformation state level nine.

Tang Mengrao sighed but didn't stop Ye Mo. She knew that there was no way she could stop this battle.

"Master..." Yue Chan had a bad impression of Ye Mo but after knowing he didn't kill those hollow spirit state cultivators, she was worried for him instead.

Tang Mengrao pulled her to the side and said, "Don't worry, stand behind master and don't get caught in the crossfire."

Yue Chan looked at her master in confusion, Shan Di might get her caught in the crossfire if he wanted to kill that man? Wasn't it just a matter of one palm?

The rest of the cultivators looked at Ye Mo with pity, Ye Mo probably couldn't even last ten seconds with Shan Di.

The cauldron filling state level nine saw this and his eyes flashed with excitement. He had long wanted to attack Ye Mo.

As soon as Shan Di's fire rune mirror was released, the temperature in the hall rose up drastically. Everyone moved to the side, Ye Mo casually sent Su Jingwen to one corner and hacked out with Zi Xu. Su Jingwen wasn't worried at all.

The mirror grew bigger and bigger until it loomed over Ye Mo like the midday sun. Shan Di really didn't take this level of a cultivator seriously. He used his mirror because he wanted to burn Ye Mo to death straight away. He could get revenge and assert dominance this way.

But he wasn't facing an ordinary cauldron filling state level seven, he was facing Ye Mo, a cauldron filling state cultivator who dared to fight with truth realisation state cultivators.

If Shan Di saw Ye Mo's fight with the truth realisation state, he would never underestimate Ye Mo nor even fight with him.

Ye Mo instantly found the weakness of fire rune mirror and Ye Mo felt contemptuous at heart. Shan Di had so much fame but his domain wasn't even in initial completion.

The reason Ye Mo had such a feeling was firstly because Shan Di had just recovered after coming back from the war, and secondly since his strongest magic artifact was broken by Lin Zhongtian and it still hadn't been repaired yet. His domain was indeed in initial completion and that was quite significant for disaster transformation state cultivators, but his domain needed that magic artifact to show greater power.

Chapter 1269: Person to kill, Yi Yi

The fire rune mirror shone brighter until eventually, all other cultivators except Ye Mo could only see a scorching ray of white. Even spirit sense couldn't scan inside as it would be turned into nothing.

Moments later, the scorching ray formed ring-like waves that spread out from the mirror towards Ye Mo.

Almost all the cultivators were waiting for Ye Mo to get melted completely.

But soon, people were surprised. Ye Mo's Zi Xu hacked out after the mirror came out, and the purple ray outshone the terrifying ray of Shan Di's mirror.

When the purple ray clashed with the white rings, the white rings were forced away and dispersed.

The scorching ray was dissipated and a floating huge fire rune mirror was revealed.

Shan Di was dazed seeing that Ye Mo broke away his white ray with one slash. Before he could do anything, Ye Mo hacked with Zi Xu again, Illusion Cloud Division Strike.

"How dare you!" he roared. He didn't expect Ye Mo to be completely fine under the attack and instead used the opportunity to counterattack.

He used fire rune mirror again, but this time, the white ray was more than twice as strong as before. Everyone could tell Shan Di wasn't using his full power before. But even so, Ye Mo, a mere cauldron filling state level seven, could survive unscathed – this was quite substantial.

Ye Mo sneered, he knew he would have to retreat in the wake of this white ray if he was cauldron filling state middle stage, but now Ye Mo didn't need to do that at all. Before Illusion Cloud Division Strike finished, he used Illusion Cloud Exert Will Strike as well as Illusion Cloud Formation Kill Strike.

The white ray grew more luminous and the temperature rose higher too, but Ye Mo's purple sword rays also multiplied rapidly. The endless purple sword rays formed a trap formation, blocking the white rays and shrinking.

Shan Di's eye spasmed, he finally realized that Ye Mo really had the power to talk back to him. Since when was there such an absurd cauldron filling state cultivator? He had never even heard of this before.

He was attacking with full power but he didn't even have the slightest upper hand.

Seeing the endless purple sword rays trap the fire rune mirror, the cultivators around were also astonished. Even the cauldron filling state level nine and Zhou Yushuang's master were shook. They didn't expect Ye Mo was this powerful.

If they had to deal with Shan Di's attack, they would've long been dead.

Only Shan Di knew what was going on. It wasn't that Ye Mo's cultivation essence or spirit sense was stronger than his but that Ye Mo's domain was more complete than his.

The main thing was, Shan Di was shocked to find that Ye Mo knew the exact weaknesses of his domain and mirror. Each time Ye Mo attacked, it was based on the weakness.

This couldn't continue. If it did, although he wouldn't lose, he would lose face if he had the lower hand.

Thinking about this, Shan Di was about to use his 7-star sword but he suddenly found that his spirit sense paused. He cursed and then the white ray dispersed.

He just realized that Ye Mo had a spirit sense cultivation method too. He just cast away Ye Mo's spirit sense attack when he saw the purple sword rays swarm up again. A basic trap formation was formed and more purple sword rays sprayed out of the kitchen knife repairing the trap formation.

Not good, Ye Mo wanted to trap him! Shan Di realized this and howled, seven dark blue swords flew out and formed a 7-star killing force.

Ye Mo sneered, he knew Shan Di had other means. It wasn't that simple for him to kill a disaster transformation state tertiary stage.

So, Ye Mo used his Lightning Sword at the same time.

Rumble rumble rumble

More than ten lightning swords rained down, they were all infant arm-sized and some were even thicker.

Seeing this, some of the cultivators who had seen Ye Mo's Lightning Sword before realized that Ye Mo didn't even use a tenth of his power when he killed the black and white half pill king.

The cauldron filling state level nine shivered, he realized now how dumb he was. With Ye Mo's means, it was all too easy for Ye Mo to kill him and yet he stupidly thought he had him.

The only thing he didn't understand was – why did Ye Mo only want one orb when there were seven here?

Zhou Yushuang's master was also very shocked, he looked dazedly at Ye Mo's endless means and realized that if he didn't agree to Ye Mo taking the seventh orb, he might be dead now.

Just what sort of maniac was he?

He carefully wiped the sweat from his forehead and made up his mind – even if he met cultivators weaker than him, he wouldn't treat them with the same mentality as before. If he met an absurd cauldron filling state cultivator like Ye Mo again, it would be too scary.

Zhou Yushuang was completely dazed now. She didn't dare to believe her eyes. She had long heard of Shan Di's power and yet a young cultivator like Ye Mo could fight with him and not be losing out at all. This was way beyond her comprehension.

Xiao Yi also looked at Ye Mo in shock, not expecting this at all.

Shan Di was sweating cold, he didn't expect Ye Mo was a lightning cultivator too. His lightning magic was also so absurd. He had to defend against those lightning swords with all his power. The 7-star swords he was going to kill Ye Mo with took a defensive stance instead and he took out another shield too.

Ye Mo's Lightning Sword was pretty much the same as divine damnation. It was powerful and could bind cultivation essence. Shan Di knew that if he was just a little careless, he might be killed here.

Since when was there such an absurd cultivator? He had the complete upper hand fighting a disaster transformation state level nine as a cauldron filling state level seven. Shan Di cursed, if he knew Ye Mo was this absurd he would never had looked for trouble with Ye Mo.

Ye Mo knew that although Shan Di was having trouble defending, it was hard to kill him. He couldn't rain down this level of Lightning Sword nonstop. If his cultivation essence and spirit sense ran low, it would be time for Shan Di's retaliation.

But Ye Mo wasn't afraid. He still didn't use his octagonal cauldron or Shadowless, not even Purple Eye Soul Sever.

Ye Mo knew he wouldn't be able to trap Shan Di for long and now he took back Zi Xu.

Just when everyone didn't know why Ye Mo took back his main attack magic artifact, Ye Mo hacked out with Zi Xu again.

A long purple ray sprouted from Zi Xu and sliced through the air. The beauty made everyone unable to breathe.

Illusion Cloud Hua Mountain strike.

The cultivators only noticed its beauty but when the suffocating pressure came, they shivered. This wasn't a beautiful morning ray, this was a bloodthirsty sword ray.

Yi Yi looked up at the purple ray with mesmerisation. He felt this ray was so pretty.

Tang Mengrao shook her head, it was already set that Ye Mo was going to kill Yi Yi. No one can stop him.

Chapter 1270: If you want to fight then fight

Shan Di just had things a little easier when saw the vibrant purple ray hack towards Yi Yi. He was furious to the extreme but he didn't have the time to say anything. If he hesitated at all, Yi Yi would die.

Shan Di immediately burned his essence blood and took out a low grade cultivation artifact shield, instantly blocking Yi Yi.

Yi Yi just woke up now, the purple ray was going to kill him. He sweated cold and also took out a low grade cultivation artifact.

The purple ray's momentum reached the max, that pitiful feeling of no regret could be felt by all. He couldn't help taking a few more steps back and was shocked at Ye Mo's power. It was a strike that was relentless until it did what it wanted.

However, this strike also had a flaw and that was it was hard to take it back. If the strike didn't hurt the enemy, it might hurt oneself.

Ye Mo knew this, yet he was still adamant on killing Yi Yi.

Crack

Two cracks sounded, the low grade cultivation artifact Shan Di used cracked like a biscuit. Cultivation essence splashed everywhere and the air itself was exploding. At the same time, the purple ray dimmed down.

However, Ye Mo grunted and burned a mouthful of essence blood. His cultivation essence and spirit sense rose drastically and were inserted into Zi Xu. That dimmed purple ray lit up once again.

Crack

Another crack sounded, this shield didn't stop the purple ray for even half a second and was hacked open.

The purple ray now was more vibrant than before, so bright that people couldn't even open their eyes, but the people around didn't want to close their eyes. That vibrance was too beautiful.

Splurge

A rose seemed to have blossomed amidst the purple ray, making this scene beautiful to the extreme. But soon, the rose withered.

Moments later, the purple ray completely disappeared. It came and left fast. Yi Yi laid on the ground lifelessly. A bloody mark stretched across his forehead.

The hall was in complete silence. There was no sound, no movement. The place was dead silent. Everyone realized what the red blossom in the purple ray was.

Shan Di was stunned, the Lightning Sword and purple sword ray formation attacking him was gone.

Shan Di looked at Ye Mo in disbelief. "You killed Yi Er, you dare to kill Yi Er..."

He spat blood out and suddenly roared, "I'm going to kill you...."

Ye Mo glared coldly at Shan Di and sneered. "Quit bluffing, you said you were going to kill me before and I'm still standing here fine. Stop barking, if you want to fight, then fight."

Ye Mo waved his hand and the octagonal cauldron floated above his head.

The cultivators here just realized that Ye Mo didn't even use his defense magic artifact before. Yet it was this cauldron filling state who killed a disaster transformation state level nine cultivator's disciple while fighting him.

No one would believe this if they didn't see with their own eyes, it was too absurd.

Shan Di wiped the blood from his mouth. He calmed down instead. Bleak killing intent flashed across his eyes, he stared at Ye Mo. "Very well, you have the power to act up with me. You didn't even release

your defense magic artifact up until now. I underestimated you. If I don't kill you for revenge, I swear I'm not a human. Let me see what sort of a prodigy North Far State has birthed."

With this, the mirror above his head buzzed and the seven short swords emitted shocking killing intent.

"Master..." Tang Mengrao's disciple watched Ye Mo with extreme shock. She didn't expect a young cultivator like Ye Mo to be able to suppress Shan Di.

"Martial brother Shan, I don't think this is the place to fight. Place, martial nephew Yi Yi killed Ye Mo's friend Li Qishan in Pei Hai City..." Tang Mengrao persuaded.

"Hahaha..." Shan Di laughed. He pointed at Ye Mo. "A mere cauldron filling state insect killed my disciple, if I don't get revenge for Yi Er, I don't need to come out anymore. What thing is Li Qishan, how can he compare with my disciple?"

Ye Mo sneered. "I just killed a trash, why do you need to act like your dad died? Oh, is that Yi Yi your illegitimate child?"

Shan Di didn't say anything and his seven swords spun rapidly. Then, the sword circle gradually expanded.

"Sword domain?" Tang Mengrao saw this and asked in shock. She didn't expect Shan Di to have this after not seeing him for a few years.

Sword domain was much harder to form than cultivation essence domain. One's sword dao needs to reach a certain level for this. Usually, it was used with one sword, but Shan Di used seven. It could only mean his progress was too huge.

Ye Mo saw this and didn't mind at all. He didn't even use Zi Xu and just took out a clean white cloth instead.

No one knew why Ye Mo did this, his opponent even used sword domain but he didn't seem worried at all. Tang Mengrao admired Ye Mo's courage.

Shan Di didn't know why Ye Mo did this either but Ye Mo raised the cloth and said, "If you want to fight I'll fight with you, but you need to wait."

Then, Ye Mo took the cloth and wiped his kitchen knife. Then, he burned the white cloth before raising Zi Xu and looking at it. "I killed a trash just then, it dirtied my sword. It took me quite a while to clean it. Okay, now we can fight."

Everyone was at a loss for words, they just realized Ye Mo still wanted to insult Shan Di first.

Everyone saw the knife didn't even touch Yi Yi at all, it was the sword ray that killed Yi Yi.

Shan Qi's face was green, he knew that in a mocking competition, he would never beat Ye Mo so he just didn't talk. His cultivation essence burst into the mirror and 7-star swords.

The rest of the cultivators all retreated seeing the two about to fight again.

At this moment, a wave of rumbling sounded. The earth below them started to vibrate as though this place was about to collapse.

Earth shatter? All the cultivators thought of these two words. If the earth shattered then it meant they might get devoured by the earth. Even cauldron filling state cultivators might lose their life if they were trapped deep down the earth.

Ordinary deep earth shatter didn't just bury a cultivator down below but it also had space fissures and space typhoons. There was nothing you could do but await death if you were swooped into a space fissure. Plus, if you were buried a few thousand kilometers below the earth, it was very hard to get back out. You might die there.

So when this sounded, even Shan Di who was desperate to kill Ye Mo put away his magic artifact. He needed to get the things inside the six orbs before he ran out of here.

Two hollow spirit state cultivators knew it was hopeless to stay here so they charged towards the door. As soon as they did, space wind blades that were tens of times stronger than before tore them apart.

Even Tang Mengrao and Shan Di had a serious face.

The third hollow spirit state at the door immediately wanted to retreat but the foot he reached out with disappeared for no reason.

“Space fissure...”

One could possibly dodge space wind blades, but if it was space fissure, then it was certain death unless you were strong enough to rip apart space. However, such masters did not belong in the cultivation realm. In the entire Luo Yue continent, there was just one Chu Jiuyu.
