Chapter 1271: Xiao Yi's ambush

The earth was still shaking but no one dared to go out now. Ye Mo pulled Su Jingwen next to him and watched the surroundings. He had been to Truth Fall Palace forbidden grounds so he knew how to dodge the space fissures.

He put away the octagonal cauldron as it was of no use against space fissures. If Shan Di didn't want to die then he wouldn't fight him now.

Shan Di indeed didn't want to fight Ye Mo now. Yi Yi was dead, there was no point in fighting now. Ye Mo had a base and family, he wasn't scared of Ye Mo running away.

Shan Di saw the six golden orbs and said to Tang Mengrao, "Martial sister Mengrao, there are still six orbs here, let's take three each."

Tang Mengrao smiled bitterly and looked at Ye Mo. "Sect leader Ye, what is your opinion?"

Shan Di felt extremely uncomfortable hearing this but he didn't say anything. He knew Ye Mo had the ability to take some too. If he didn't agree then it would cause a battle. Shan Di wasn't confident in beating Ye Mo at all.

A mere cauldron filling state cultivator could reach domain initial completion and completely control the rhythm of the battle with him, this cultivator was too scary! Even though he wasn't scared of Ye Mo now, he knew that if Ye Mo reached disaster transformation state, he would be no match for Ye Mo, even if Ye Mo was just disaster transformation state level one.

Even Tang Mengrao thought Ye Mo would ask for two of the orbs but Ye Mo said calmly, "I said I only want one orb. Since I have it, I don't want anything else."

"You don't want it?" Tang Mengrao looked at Ye Mo in shock. She still didn't really believe it.

Shan Di sneered. "Martial sister Mengrao, I'm going for it first."

Then, Shan Di grabbed towards the third ball, clearly he wanted the Truth Carrot Pill.

With a thud, Shan Di's hand clashed with the golden orb. The orb shattered a little but it soon closed back up. However, unlike the cauldron filling state level nine, Shan Di wasn't pushed back.

The next moment, he released 7-star swords and pierced at the golden orb.

With another deep thud, a fist-sized opening appeared and before it could repair, Shan Di grabbed at the Truth Carrot Pill.

But then, his face changed immediately. The bottle of Truth Carrot Pill he got dispersed into cultivation essence. Soon, nothing was left.

Seeing this, everyone realized what was going on. The things in the sixth orb were fake.

Shan Di dazed and there was great disappointment in his eyes. He then opened the rest of the few golden orbs but they were all fake. Nothing was real.

Ye Mo looked at this and laughed. It would be strange if there were good things in there. He wasn't that generous, giving all these good things away for free.

Now, all the cultivators looked at Ye Mo. They all realized why Ye Mo said he didn't want anything else. He already knew that these things were all fake.

The only real thing was probably what was in the seventh orb. People realized why Ye Mo touched all of the orbs, it was to confirm which one was real.

Zhou Yushuang's master and the cauldron filling state level nine had bitter faces. They finally realized why such a powerful cultivator didn't fight over the rest of the orbs with them.

He just casually touched them and knew if it was real or fake, but they wasted so much effort trying to break them but still didn't know anything.

Shan Di looked at Ye Mo with a green face and asked coldly, "The only thing in the real orb was taken by you?"

Ye Mo said calmly, "Yes, do I have to wait for you to come each time I want to take something? Do I need your permission? When I was crossing the Heartless Sea, I also saw an immortal mine. Should I show you everything I got there or should I just give it to you?"

Shan Di's face was very bad. He just realized Ye Mo was someone who could cross the Heartless Sea.

The cultivators here all knew of the Heartless Sea and when they heard Ye Mo crossed the Heartless Sea, they took a breath in.

Crossing the Heartless Sea – that was something truth realisation state did, truth realisation state tertiary stage! Yet, this young guy dared to do that. Just what sort of guy was he?

This hall could be devoured by the ground anytime so Shan Di ignored Ye Mo and looked at Tang Mengrao. "Martial sister Mengrao, there're three immortal crystals. You're also facing a barrier at truth realisation state, I think...."

Tang Mengrao walked to a hollow spirit state and asked some questions. She realized what was going on. Ye Mo took the seventh orb and there were three immortal crystals inside. Anyone would want the immortal crystals, much less Tang Mengrao who was stuck in disaster transformation state.

But that depended on who took the immortal crystals, Tang Mengrao felt a deep threat from Ye Mo. Plus, Ye Mo had saved her life. She didn't want to and wasn't able to take the immortal crystals from Ye Mo.

So before Shan Di finished, she smiled. "Sect leader Ye saved my life. My disciple Qiandie did wrong things to his Mo Yue too, so I don't mind sect leader Ye taking the immortal crystals."

Shan Di felt very uncomfortable. He didn't expect that with their many years of relationship and fighting together, she helped Ye Mo, this stupid youth.

Although Shan Di really wanted to fight with Ye Mo, he knew he wouldn't be able to win and he didn't want to lose his life here.

In that case, Shan Di wanted to go. He knew there were space fissures but he should be able to make it out.

At this moment, Tang Mengrao suddenly looked at Xiao Yi and asked, "What's your name?"

Hearing this, Xiao Yi seemed surprised and said, "Tang qian bei, I'm Xiao Yi. I came in with brother Ye."

Then, Xiao Yi quickly came up to Ye Mo. Her eyes seemed to be saying 'If you're going out, please bring me also,' but her eyes also seemed afraid of Ye Mo's rejection.

Tang Mengrao looked at Ye Mo in confusion. She felt this Xiao Yi was familiar but didn't know where she had seen her before.

At this moment, Yue Chan said, "This sister Xiao Yi really seems like one person – right master, I remember."

But at this moment, Xiao Yi walked to Ye Mo as though wanting to say something. Before she even said anything, Ye Mo released his octagonal cauldron. She was too close to him now, he knew she was cauldron filling state level eight and he had been wary of her. As soon as she neared, Ye Mo released his octagonal cauldron, not because he was scared of her, but because he cared about Su Jingwen.

Rumble A huge explosion sounded in the hall.

At the same time, everyone released their defense magic artifacts. However the hollow spirit state cultivators couldn't react in time.

The huge explosion almost tipped the hall over. Those hollow spirit state cultivators were blasted away by the chi wave.

Chapter 1272: Sensitive Tang Mengrao

After a good while, this explosion calmed down. Other than Ye Mo, Shan Di and Tang Mengrao, there were the two cauldron filling state still alive. Zhou Yushuang also survived under her master's protection.

"Truth explosion bead..." the cauldron filling state level nine said in shock. Although he released his magic artifact in time, he was closer than Ye Mo so he was lightly injured.

Someone who could instantly activate truth explosion bead couldn't be just hollow spirit state. This meant that female cultivator hid her power.

Shan Di's face was calm and felt unsatisfied. That female cultivator used truth explosion bead to ambush Ye Mo at this range but still didn't get him. Ye Mo wasn't simple.

Xiao Yi didn't expect Ye Mo to be wary of her and to release his octagonal cauldron before she activated the truth explosion bead.

Seeing this, Xiao Yi knew she wouldn't be able to get Ye Mo. But the orb had already activated and she couldn't take it back.

"Master, I feel like that Xiao Yi is really like martial sister Qiandie. No, I feel she is martial sister Qiandie," Yue Chan suddenly said. She then asked worriedly, "Master, why is she using the truth explosion orb against Ye Mo? Huh, I know..."

Yue Chan remembered that Ye Mo killed Ao Qiandie's brother Ao Qilong.

Tang Mengrao's face was also very bad now. The moment Xiao Yi attacked, she could tell Xiao Yi was Ao Qiandie. She nodded. "Qiandie used a space transmission rune to get away."

Ye Mo heard their conversation and just realized that it was Ao Qiandie ambushing him. His face went cold. "Sect leader Tang is powerful indeed, you trained a cauldron filling state level eight disciple, I admire your capabilities."

"You're saying Qiandie is cauldron filling state level eight?" She didn't see Ao Qiandie's real power in that moment.

Ye Mo sneered. "Qiandie? You think if your disciple Ao Qiandie is really only around thirty she can reach cauldron filling state level eight? You think there are such prodigies in the world?"

"You're saying...?" Tang Mengrao was shook. She knew Ye Mo meant that Ao Qiandie was possessed.

Ye Mo sneered but didn't say anything. However, Yue Chan said, "My master said you're cauldron filling state level seven. How did you reach that?"

Ye Mo said calmly, "Do you think there will be another prodigy like me? Plus, I'm much older than that Ao Qiandie."

Yue Chan was dazed, she didn't expect Ye Mo to just call himself the number one prodigy. How was she so shameless?

"You saw her real power long before, that's why you used octagonal cauldron before she used her orb right?" Tang Mengrao asked after a long while.

If Qiandie was really possessed then she must have been blind for not realizing.

Ye Mo knew Tang Mengrao didn't see Ao Qiandie's real power for sure so he just nodded. "That's right, I saw her hiding her cultivation level. Out of the cauldron filling state cultivators who came in, I'm the only honest one. Everyone else hid their power."

Then, Ye Mo looked at Tang Mengrao. "Cultivators who have possessed a body would have much stronger divine damnations than ordinary divine damnations. Think about it, did that Ao Qiandie ever ask you to protect her from disturbance during her divine damnation?"

Tang Mengrao heard this and thought, it was really so. Ao Qiandie never asked her to protect her during divine damnation. If she still couldn't realise that Ao Qiandie was possessed, she would be too dumb.

Then, she looked at Ye Mo, "Why did she ambush you then? She used the truth explosion orb to attack you. Clearly she didn't plan to take your things. Since she isn't Ao Qiandie, she has no reason to ambush you."

Ye Mo said calmly, "How should I know? If I knew, I would've killed her already."

Zhou Yushuang's master also knew his power was exposed. He could withstand that blast wave before, clearly he was no hollow spirit state cultivator. Ye Mo's words meant that he already knew he was a cauldron filling state cultivator when he came in. It was funny how he thought he had hidden his power.

Realizing this, he showed his power to be cauldron filling state peak stage but Ye Mo's face didn't even change one bit. However, Shan Di frowned a little.

The cauldron filling state level nine smiled bitterly, he thought he was the strongest here but he was actually the weakest.

Shan Di didn't expect that woman who left to be Ao Qiandie. He glanced coldly at Ye Mo and looked back at the sealed exit. He also took out a space transmission rune.

Ye Mo didn't stop him, he couldn't kill Shan Di now as well.

Just when Shan Di was about to activate the space transmission rune, the sounds outside grew even louder.

Ye Mo's face changed and he quickly used the octagonal cauldron to protect himself and Su Jingwen.

The other two cauldron filling state cultivators and Tang Mengrao also took out space transmission runes. Everyone knew that other than this rune, there was no way out. It was too dangerous.

Ye Mo just realized that he was the only one without any preparation, not even one space transmission rune. Ye Mo immediately knew things weren't good. He saw that Tang Mengrao didn't lend him one either, meaning that she only had one.

He thought of Zhou Yushuang, she had a level eight transmission rune before. Her master was here so he probably had more. As soon as he thought of this, the others activated their space transmission runes. Instantly, three white lights flashed in the hall.

Tang Mengrao looked at Ye Mo with a sliver of guilt. Ye Mo saved her before but now she didn't have a space transmission rune. She just wanted to leave here as early as possible so she wouldn't be guilty.

Just when she wanted to activate it, she realized her rune was level nine. It should be fine taking four people. Plus, this was an emergency.

Thinking about this, Tang Mengrao quickly said, "Ye Mo, hurry up and hug me, we can leave together."

Ye Mo was just thinking of robbing that cauldron filling state level nine's storage ring to see if there were any space transmission runes, but hearing this, he came over to Tang Mengrao with Su Jingwen without hesitation. He put his arm around Tang Mengrao's waist.

Tang Mengrao looked very young but she wasn't young. She had always been cultivating and thus never touched male cultivators before. She had never experienced love. Now that Ye Mo held her, her body went a little soft.

That masculine chi made her tremble and she forgot to activate the transmission rune.

Ye Mo had been with Su Jingwen and Song Yangzhu these few days and was familiar with Tang Mengrao's reaction. He really didn't expect her to be like this, she was too sensitive.

Just when Ye Mo was about to remind her, Yue Chan called out desperately, "Master, hurry up..."

However, Ye Mo let go of Tang Mengrao's waist and shook his head. "No need, it's a waste."

Then, Ye Mo heard three thuds. Shan Di, the cauldron filling state level nine, and Zhou Yushuang with her master landed. Clearly, the transmission rune was of no use here.

This meant that space itself here had changed after Ao Qiandie left.

Tang Mengrao just woke up, her face was red like an apple. She really didn't expect her body to react like this, making her lose her mind for a moment.

"Ye Mo, how dare you!" Shan Di reproached.

Chapter 1273: Re-seal

The space transmission rune didn't work and everyone was thinking of a way to leave. So was Ye Mo.

But at this time, Shan Di suddenly said this. Everyone else was dazed and so was Ye Mo.

Su Jingwen smiled and whispered to Ye Mo, "That man is angry because you felt sect leader Tang's waist."

Ye Mo looked back at Su Jingwen helplessly. "Jingwen, I didn't feel her up."

Su Jingwen laughed but didn't answer. She was much more sensitive than Ye Mo and had noticed what was going on.

Shan Di had been targeting Ye Mo and this made Su Jingwen very annoyed. But her power was too low so she intentionally said Ye Mo felt Tang Mengrao's waist to annoy Shan Di. Despite her whispering, everyone heard it.

Shan Di was just going to reproach Ye Mo but now that Su Jingwen said this, he took out his fire rune mirror, clearly about to have a fight with Ye Mo.

Ye Mo knew what Su Jingwen meant and shook his head casually taking out Zi Xu.

“Martial brother Shan what are you doing? What time is it, the space transmission rune is useless and yet you still want to fight here? Tang Mengrao knew Shan Di was going to fight because of her.

Shan Di stared at Ye Mo. “Martial sister Mengrao, this person is too rude. How dare he assault you? He thinks he has some power! I’m going to see what he’s got today.”

Tang Mengrao’s face sunk. “Martial brother Shan, if you want to fight with Ye Mo don’t bring me into it. I let Ye Mo hold me before, it has nothing to do with being rude. I don’t like people using me as an excuse.”

Then, Tang Mengrao pulled Yue Chan and said, “Let’s go to the side.”

Hearing this, Shan Di’s face went green. Tang Mengrao even changed to calling him ‘Ye Mo’ instead of ‘sect leader Ye’. He didn’t talk anymore and released his white mirror.

Ye Mo was also pissed. If it wasn’t that Su Jingwen was here, he would fight with this Shan Di no matter what. But now, he could only put Su Jingwen to the side and then smash over with lightning swords.

The rest of the cultivators saw Ye Mo and Shan Di fight again and didn’t dare to go near them at all.

Ye Mo’s lightning swords as well as Zi Xu sword ray clashed with Shan Di’s 7-star swords.

The white rays never fully formed once. Each time they were about to form, they were hacked open by Zi Xu sword rays.

Lightning flashed in the hall and everyone looked at it in shock. Too powerful, a cauldron filling state level seven cultivator fought with a disaster transformation state level nine and this cauldron filling state level seven was attacking 70% of the time.

Shan Di seemingly was having it tough, he was covered in dirt. However, Ye Mo knew that though he appeared to have the upper hand in the fight, his Lightning Sword couldn't do much to Shan Di. The more the fight progressed the more it wouldn't benefit him.

The Lightning Sword used up too much cultivation essence and spirit sense. Just when Ye Mo wanted to give Shan Di a tough attack and use spirit sense sword and Shadowless, Zi Xu and the 7-star swords clashed together head on.

There was another huge explosion and one side of the wall collapsed.

Everything thought that this hall was surrounded by the mountain bodies but when the wall collapsed, everyone realized that there was a huge space behind the hall.

There was a dim light inside this space.

Just when everyone else was hesitating, Ye Mo suddenly put away the octagonal cauldron and jumped to Su Jingwen, bringing her inside the space.

Everyone noticed this and all copied Ye Mo.

As soon as they left, a piece of the hall disappeared and then without any premonition, another piece disappeared.

Even an idiot realized that the hall didn't disappear due to space fissure but space devour. Everyone looked at Ye Mo with admiration, if Ye Mo didn't see it earlier and charge into here, no one would be able to stop that space devour.

Shan Di completely lost the intention to fight with Ye Mo. This space devour was too terrifying and he felt greatly threatened by Ye Mo now. He realized that he might really be no match for Ye Mo.

Tang Mengrao walked up to Ye Mo and asked, "Ye Mo, how did you know there was danger in that hall?"

Ye Mo didn't talk. He felt eerie too, he felt there was danger in the hall not because he was powerful but he had experienced that devour before.

In the herb valley, there was a terrifying space devouring thing in the mist. Ye Mo never expected to encounter it again here.

Ye Mo wasn't a timid person but this was something that he completely couldn't defend against.

No one spoke, not knowing how dangerous it was here.

A few people regretted that only Ye Mo got three immortal crystals here. The rest of the people didn't get anything.

After a long while, Ye Mo said to Tang Mengrao, "Sect leader Tang, we can't stay here for long, we need to leave quickly."

Tang Mengrao nodded. "I know, but where can we go? This place is a grey mist. If we go further inside, we know what we'll encounter?"

Just when Ye Mo wanted to talk, another large piece of the hall disappeared. Clearly, it was being devoured by something that was moving towards here.

Ye Mo didn't talk and just took Su Jingwen to fly inside more. A while later, the space devour would be at their place.

Seeing this, the rest of the people all didn't talk and followed Ye Mo.

Everyone saw Ye Mo dodge the truth explosion orb and the space devour, so they felt that Ye Mo had the natural ability to avoid danger. So they all followed Ye Mo inside.

If Ye Mo was just by himself, he could just hide in the Golden Page World, but now Su Jingwen was with him so he couldn't just flee.

He could only bring people in his Golden Page World once he was truth realisation state.

The more they went inside, the narrower it became. Moments later, Ye Mo saw there was no more road ahead. A tall sacrifice stage appeared, next to it was a small temple.

Ye Mo saw this and immediately knew it was a seal. He was a level nine formation grand master.

Seeing this seal, Ye Mo thought of the spirit body immediately. This seal must be for that spirit body, but then he realized he was wrong. This seal was shaky but it wasn't broken, although it seemed to be about to break at any time.

Ye Mo looked behind and suddenly thought, 'Did the space here disappear due to the weakening of the seal?'

The rumbling sound didn't stop, Ye Mo took out a few formation flags and put them into the surroundings of the seal. Regardless, he had to try re-seal this place.

The rest of the people saw this and didn't do anything. Soon, Ye Mo found that after he put the formation flags down, the seal seemed to be shaking more.

Ye Mo looked at the spirit gathering formation around here, the spirit chi seemed arid so he took out 100 extreme grade spirit stones and set up a spirit gathering formation quickly.

Everyone saw this and was shocked. Ye Mo was too wealthy, taking out 100 extreme grade spirit stones so easily.

Chapter 1274: No exit

Ye Mo found that after he set up the spirit gathering formation, the seal indeed was suppressed a lot more. He rejoiced and threw out all sorts of formation flags, suppressing the seal.

15 minutes later, Ye Mo and everyone else found that the rumbling sound grew quieter until it was almost unable to be heard.

That seal seemed still a little wobbly. Ye Mo looked at the ring on the stage and hardened his heart, putting an immortal crystal on it.

After that, the seal immediately quietened down. The formation around the stage seemed to be exerting great power. All the spirit chi rushed over to empower the formation.

“Ye Mo, is that stage a seal?” Tang Mengrao asked.

Ye Mo nodded. “This is indeed a seal, a level 10 seal too. Although I can’t set up a level 10 formation, I can repair it a little.”

Ye Mo scanned everyone and said, “This formation still needs a lot of top grade materials. This seal is what seals the monster that can devour space. I believe everyone knows that if the seal is opened, it won’t just be the disaster of North Far State. We are here, so I want everyone to take out their top grade materials. I will forge new formation flags to reseal this place. I’ve already taken out 100 extreme grade spirit stones and an immortal crystal. If you’re still not willing to take out things, don’t blame me for just leaving here.”

Tang Mengrao knew Ye Mo was a level nine formation grand master but everyone else was extremely wary. Ye Mo was so young yet he was a level nine formation grand master.

However, no one dared to ignore a spirit that could devour space itself. Plus, Ye Mo already took out extreme grade spirit stones and an immortal crystal, so everyone took out their best materials. Even Shan Di didn’t dare to go against Ye Mo now. Ye Mo even collected 100 extreme grade spirit stones again.

Shan Di and Tang Mengrao had the most top grade materials. Despite North Far State being a poor place, the sect leaders of 8-star sects still had quite a lot.

Seeing Ye Mo familiarly make formation flags, Shan Di felt his mouth spasm. This guy was too absurd.

As the formation flags rained down, Ye Mo took out another 100 extreme grade spirit stones and the extreme grade spirit stones other people contributed and put them on.

Ye Mo's formation mainly repaired the spirit gathering formation and perfected the original seal. It wasn't as stable as before but this seal would be able to last another hundred or so years.

Shan Di really wanted Ye Mo to take out the remaining two immortal crystals, but he knew he would be scorned so he held his words.

When Ye Mo closed the formation flags, everyone felt the ground wobble and then moments later, it disappeared. The rumbling sounds also disappeared.

"Martial uncle Ye, since you sealed this place can we go back the original way?" Yue Chan asked.

Ye Mo sighed and looked at her. "I don't need to go back to know that the way here has been sealed. It can't be opened from the outside, if we force our way from the inside, the seal will be broken again."

"Huh?" Yue Chan exclaimed. "Then what do we do? There seems no way out of here, even space transmission runes don't work – aren't we going to be trapped here forever?"

Su Jingwen also looked worriedly at Ye Mo. "Can we go out?"

Ye Mo shook his head. "I don't know, but there's a temple there. We can go check it out."

Now that Ye Mo said this, everyone remembered there was still a small temple.

Ye Mo went in and saw a small futon. There was a jade slip next to it that seemed very new.

Other than that, there was a painting on the back wall. The painting had a mountain and lake but one's spirit sense couldn't penetrate the painting. Ye Mo picked up the painting and he scanned in. Immediately, he heard a roar, "Chu bastard, you told me that if I guarded the seal for 500 years there would be someone to replace me, but now tens of 500 years have passed and I don't see anyone, much

less an Immortal Curl Flower. Chu bastard, you're quite famous and respected too, but you tricked me, Xue Youfeng. Fuck you! In another few hundred years, even my essence spirit will die..."

Hearing this, Ye Mo was shook. It was that spirit body's voice. He thought the soul sealed here was a powerful being or a demonic being but it was actually the person guarding the seal.

"I can't guard the seal anymore, if this sealing formation isn't repaired the first thing that bastard is going to eat once it comes out is me. Five insects came last time and three died. One got away with space transmission rune. And there's a bastard called Ye Mo with the nine fork key. I thought he was replacing me, but his power is weaker than an insect, I can drown him with one spit.

Then I found that bastard wasn't here to replace me, he just wanted to get rich and he's sly like a dog. He tricked away my five element mobility technique and my level 10 material, 9-feather golden Peng's tail feather. I won't let this guy go."

"But that Ye bastard helped me a little. His 9 fork key wasn't completely useful, but it loosened the entrance, giving me a way to go out. Luckily, four more nascent soul state insects came and I used those four idiots to set up a blood devouring formation. Only then could I go out. As for the seal, it's not my problem anymore. I've helped you guard it for so many years but I don't even see the shadow of Immortal Curl Flower, what else do you want me to do?"

"I'm going away anyways, the seal will be broken with a little force from the outside. If you can see this then you do, if not whatever. You didn't keep your words. I'm not going to stay here and wait for death, I'm going...."

"As for the things in the seven orbs, I didn't take them all. I left the three immortal crystals, I believe that should be enough for other people to seal the formation."

Ye Mo speechlessly gave the jade slip to Tang Mengrao who was waiting on the side.

According to Xue Youfeng, the seven orbs were for the next seal keeper.

But the next person didn't come so Xue Youfeng took all those good things in the seven orbs. He was really stingy and only left behind three immortal crystals. Now, he had to use one to seal the formation.

After everyone read this, people realised there was no way out. Even if someone wanted to come in, he would need the 9 fork key.

Zhou Yushuang hesitated and asked, "Brother Ye, did you follow behind me when I came in?"

Ye Mo nodded. "That's right, I was behind."

"Ye Mo, it seems we can only come in but not go out," Tang Mengrao said worriedly.

"But luckily you know formations – otherwise who knows what this terrifying monster is?"

Ye Mo nodded and walked up to the wall, ripping off the painting.

Chapter 1275: Eerie place

Ye Mo knew this painting wasn't ordinary. Otherwise, it wouldn't be blocking spirit sense. He put it away without hesitation. Shan Di saw this but didn't say anything.

Everyone looked at the stone wall, there was nothing there but a sink. Ye Mo saw it, it was another 9 fork key sink.

Tang Mengrao looked at Ye Mo and asked, "Is this the sink that the 9 fork key can be placed in as the jade slip said?"

Ye Mo nodded. "Yes, this place might be for the seal keeper to go out. This small temple is probably a formation, a teleportation formation."

Everyone looked at Ye Mo as only he had the 9 fork key.

Seeing everyone look at him Ye Mo immediately said, "I have the 9 fork key but there's no point in looking at me. Just look at the four corners of this temple. There are four sinks, meaning the temple needs to be powered..."

"Then just used spirit stones," Yue Chan said without thinking.

Ye Mo didn't speak.

Seeing this, Tang Mengrao asked uncertainly, "Ye Mo, do you mean that these sinks need immortal crystals instead of spirit stones?"

Ye Mo nodded. "Look at the sink for the crystal. It's hexagonal. Even extreme grade spirit stones only have four corners. Only immortal crystals have six corners, I'm sure that this place had immortal crystals but they were taken by the guy guarding this place."

Seeing everyone want to talk, Ye Mo said again, "I only have two immortal crystals, it's useless even if I use them."

"Why don't we try with extreme grade spirit stones first, if not we'll think of another way?" Tang Mengrao asked.

Ye Mo said heavily, "We can try, but if there's not enough power, space may be contorted and lives may be lost."

Tang Mengrao thought for a long while and said, "There's clearly no other way out. We'll probably try eventually so we might as well try now."

Tang Mengrao then looked at the others and questioned, "What do you guys think?"

Everyone said they were fine with it.

Ye Mo also knew there was no other way but to try now so he took out four extreme grade spirit stones and put them into the sinks. Then, he took out the 9 key fork, putting it into the slot.

The people in here waited a few breaths, they felt this temple was starting to move. Ye Mo held Su Jingwen close to his side, he didn't want them to be separated again.

The temple spun faster and faster.

10 seconds later, everyone in the temple felt lighter and a faint yellow ray formed. After the ray disappeared, the people in the temple had been teleported away.

Ye Mo felt dizzy and immediately things felt wrong. At the instant of teleportation, most cultivators' spirit sense and conscious were obscured. People wouldn't be able to feel the notion of space until their power reached a certain level.

But now, he clearly felt the teleportation process was dizzy. There was only one explanation and that was the teleportation went wrong. He held Su Jingwen closely but didn't take out his octagonal cauldron. It was too dangerous to take out anything during teleportation. Not only would you lose your thing but it also might cause dispositions in space and start space chaos flows.

Ye Mo just shut his eyes, this situation wasn't something he could deal with. He could only leave it to fate. He really disliked such a feeling, but he had to face it.

After an unknown amount of time, Ye Mo felt solid land. He immediately rejoiced, no matter if the teleportation formation went wrong, he wasn't afraid as long as they were on land.

Ye Mo kicked away large rocks creating a huge cave.

He wasn't injured and soon, Ye Mo flew out from the cave with Su Jingwen.

The next moment, Tang Mengrao and them were all teleported here. Just like Ye Mo, everyone crashed like a crater.

Luckily, all cultivators here were cauldron filling state or above and the weaker people had someone to protect them. No one was injured.

“What is this place?” Yue Chan got out of Tang Mengrao’s arms and asked in shock.

Ye Mo had already started studying their location. They were in a desert, behind it were endless mountains. The peaks soaring into the clouds such that even spirit sense couldn’t see the end of them. There was also a river in front. Behind the river was a forest that spirit sense couldn’t see the ends of.

Ye Mo had never heard of this place but he wasn’t worried. Since they were out, with Shan Di and Tang Mengrao’s knowledge, surely they would know where this place was. Ye Mo wasn’t worried no matter where in North Far State they were. He could get back to Pei Hai City on Blue Moon in a short time.

Seeing Tang Mengrao didn’t speak, Ye Mo asked, “Sect leader Tang, where are we?”

Tang Mengrao looked around with confusion and scanned her spirit sense out. Then she frowned. “Ye Mo, I’ve never been here. I don’t know where is this.”

Then, she looked at Shan Di. “Martial brother Shan, do you know where this is?”

Shan Di looked for a while and shook his head. “I don’t know either.”

Zhou Yushuang’s master spoke, “No matter where it is, it must be on Luo Yue continent. We just need to go out and ask.”

Ye Mo fell silent. “The teleportation process went wrong, probably due to insufficient spirit power. But luckily, space distortion didn’t happen.”

“How do you know it went wrong?” Yue Chan asked in shock.

Ye Mo said heavily, "The teleportation formation is probably a set location teleportation, so we should be teleported to another teleportation formation. But this place not only has no teleportation formation but we also landed irregularly."

Shan Di sneered but didn't attack and said to Tang Mengrao, "Martial sister Mengrao, I'm going first. If I have time I will come visit Jade Woman Mountain."

Then he released a middle grade flying cultivation artifact and disappeared.

The cauldron filling state level nine and Zhou Yushuang's master also saluted with their fists to Ye Mo and Tang Mengrao. "Wan bei will be leaving, thank you brother Ye and sect leader Tang for your magnanimity."

Then, the two took out flying cultivation artifacts and left in different directions.

Seeing this, Tang Mengrao smiled awkwardly. "Ye Mo, I'm going too. If you have time, then you can come to Jade Woman Mountain with your wife. I'm very sorry about Qiandie...."

Ye Mo said hesitantly, "Sect leader Tang, I feel this place is not right, let's leave later."

Hearing this, Tang Mengrao seemed to have thought of something and blushed. She quickly said, "It's fine, as long as it's in North Far State I'm not scared of anything."

Hearing this, Ye Mo didn't say anything and saluted with his fists.

Yue Chan had a better and better impression of Ye Mo. She also said to Su Jingwen, "Sister Jingwen, you can visit Jade Woman Mountain with martial uncle Ye when you're free, you're the second prettiest girl I've seen."

Then, she seemed to have thought of Ao Qiandie and looked sad.

Tang Mengrao sighed and nodded to Ye Mo before disappearing on a low grade flying cultivation artifact.

“Ye Mo what do we do? Why don’t we go with them?” Su Jingwen asked.

Ye Mo looked at the river and forest. “Jingwen, I feel this place is very eerie, here is better but as for the forest and the mountains, I don’t feel they’re a part of North Far State.”

Ye Mo felt a sliver of danger here.

Su Jingwen frowned and nodded. “Yeah, I have this feeling too. The spirit chi here seems much greater than North Far State.”

Ye Mo nodded. “You’re right, I’ve been to South Peace State. The spirit chi here is no less than the average place in South Peace State. It’s even denser than some small sect’s spirit chi. If this place was in North Far State, how could there not be a sect here?”

Su Jingwen just wanted to agree when they heard a terrifying howl of pain.

Chapter 1276: Cultivation speed of immortal crystals

The cauldron filling state level nine dragged an arm, charging over from the mountains. Before he landed, a grey figure chased behind him, spewing out a grey mist. The cauldron filling state level nine cultivator was immediately taken away. Then, the grey figure darted back into the mountains.

Seeing this, Ye Mo took a cold breath in. Even he wouldn’t be so clean killing that cauldron filling state level nine.

Su Jingwen shivered and tightly held Ye Mo’s arm. Those mountains were too terrifying. She asked quietly, “Ye Mo, what was that? A cauldron filling state level nine cultivator was just swept away.”

Ye Mo's face grew serious, "Jingwen, we need to find a place to hide. This place is too dangerous. That was a level 10 beast, I suspect that spirit beast found us but for some reason he didn't come over."

"What about sect leader Tang and Yue Chan?" Su Jingwen subconsciously asked.

"We can't even protect ourselves now much less them. That cauldron filling state level nine just went into the mountains and a level 10 spirit beast came chasing him. The spirit beast wasn't morphed into human form yet so they're very ferocious. Even a truth realisation state primary stage cultivator wouldn't be able to do anything to a level 10 peak spirit beast," Ye Mo said.

Su Jingwen asked, "Then where do we hide?"

Ye Mo patted her shoulder. "Don't worry, we still have a half immortal artifact. If worst comes to worst we can escape with that."

"Then let's go now," Su Jingwen said.

Ye Mo shook his head. "Whether it's the forest behind the river or the mountains, my spirit sense can't scan to the ends. If we're surrounded by spirit beasts, then no matter how fast Blue Moon is we're dead for sure."

"But what can we do if we hide?" Su Jingwen asked worriedly

Ye Mo smiled. "Don't worry, I have two immortal crystals. We can hide and cultivate. I believe these two crystals will be enough for me to reach disaster transformation state."

"How long would that take?" Su Jingwen asked immediately. Even if Ye Mo had immortal crystals, that would take time. If they cultivated here for too long, those spirit beasts would notice.

Ye Mo didn't have time to explain the time formation disk to her so he said, "I have a way, I'll tell you later."

Then, Ye Mo took Su Jingwen to leave.

They only flew out 100 kilometers and stopped. Then he used stealth magic to hide Su Jingwen and him. Soon, he saw a level 10 Blue Wind Wolf stand around where they were for a while before leaving.

Su Jingwen didn't dare to release her spirit sense but Ye Mo was shook. This blue wind wolf was level 10 and still hadn't morphed into human form. It wasn't even the same spirit beast that took the cauldron filling state level nine, meaning there were many more level 10 spirit beasts than he had thought.

Tang Mengrao and her disciple were in danger. Zhou Yushuang and her master were probably dead.

The desert was so small and Ye Mo knew he had no way to escape. Ye Mo didn't dare to go into the river as either – who knew what was in there?

Ye Mo took Su Jingwen and used an earth mobility magic, disappearing from where they were.

For ordinary people, even if you went 100 kilometers below the earth, people could scan there with spirit sense.

But Ye Mo didn't face that problem as he was a formation grand master.

He took Su Jingwen down nearly tens of thousands of meters before stopping. He opened up a space like a room and set up a few stealth formations there. Then, he set up a level nine defense formation inside before taking out the spirit marrow pond and saying, "You can cultivate in here."

"You're going to go into that Golden Page World?" Su Jingwen asked.

Ye Mo took out a jade card and said, "My Golden Page World will be in the spirit marrow pond, if you're in trouble just crush the jade card and I'll come out. I can see your cultivation from inside too, so don't worry."

After Ye Mo went in the Golden Page World, Su Jingwen began cultivating with the pills Ye Mo left with her. She knew that even if she reached hollow spirit state, she wouldn't be of much help to Ye Mo, but the higher her power was, the more help she was. If she didn't cultivate, how was she going to wait such a long time?

Ye Mo came onto the extreme grade spirit range. He put it with the herb king spirit range now, next to the Bitter Bamboo. In order to hurry up and increase his power, he couldn't care about wastage.

He set up a spirit gathering formation on the extreme grade spirit range.

Then, Ye Mo took out the immortal crystals. Although they were best left for breaking through to truth realisation state but even if it was a god crystal Ye Mo would use it now. He had to hurry up and cultivate. When he was strong enough, he would take Su Jingwen to leave this place.

Ye Mo split one immortal crystal into seven pieces and put them into the seven sinks. Ye Mo immediately noticed that the formation disk spun much faster than before.

This time, he didn't even use the spirit range to cultivate. He just held the other immortal crystal and start absorbing the chi.

Instantly, Ye Mo felt all his meridians expand out, that indescribable feeling of satisfaction made him feel cultivation was so good.

This was immortal spirit chi, Ye Mo felt deeply the loss of the immortal crystal he used for the seal.

Breaking through was no trouble for the immortal crystal at all. It was like walking on a huge road, he easily came to cauldron filling state level eight.

Ye Mo even wanted to take off the immortal crystals from the time formation disk and use it for cultivation, but thinking about how much the time formation disk wasted extreme grade spirit range, Ye Mo resisted that urge.

Immortal crystals cultivation were good, but using immortal crystals to power the time formation disk was better. There was no waste of spirit chi.

Five months later, Ye Mo was cauldron filling state level nine. Ye Mo quickly stopped cultivation and stopped the time formation disk too. He found that only a quarter of the immortal crystal was gone. Ye Mo rejoiced. This meant that he could use the time formation disk for about a year.

The immortal crystal was too powerful, less than half of the immortal crystal used for cultivation was gone and he reached from cauldron filling state level seven to cauldron filling state level nine peak. The time was also greatly shortened. If he didn't use immortal crystals, he would need at least two years, and that was with the extreme grade spirit range.

But Ye Mo still devoured most of the spirit chi from the extreme grade spirit range. Immortal crystals just made it more convenient for him to break through.

Ye Mo saw through the surveillance formation that Su Jingwen was still cultivating and didn't disturb her. He took out Sha Fruit and a few spirit herbs and started concocting the Disaster Life Pill. He was preparing for disaster transformation state.

The pill was a level eight spirit pill, but Ye Mo was a level eight pill king so it was very easy for him.

Ye Mo's heaven flame had reached blue color already, and after 15 minutes, he had concocted the pills. There were five special grade and one top grade pill.

He put one pill on his hand and the rest back in the jade bottle. He then left the Golden Page World. He had to have his divine damnation outside as the Golden Page World didn't allow for it yet.

"Hmm, you're out this quick?" Su Jingwen asked Ye Mo in confusion.

Chapter 1277: Divine damnation that scared spirit beast into a daze

"How long have I been cultivating?" Ye Mo asked. He estimated that the time ratio would be greater than using the spirit range to power the time formation disk.

"It's only been ten days, what's your power level now?" Su Jingwen asked in confusion.

It was indeed a little faster but very limited. He was one month faster.

Ye Mo explained simply to her, "I have a time formation disk in my small world. I cultivated for a year inside but it's only been a month outside. I'm cauldron filling state peak stage now and about to have my divine damnation."

Su Jingwen looked at Ye Mo in shock and asked in surprise and joy, "Then does that mean we can use the time formation disk for cultivation? I was wondering how you were cultivating so fast, so it's a one to twelve time ratio. I also want to use the time formation disk to cultivate."

Ye Mo looked at her awkwardly. "It needs immortal crystals or an extreme grade spirit range..."

Su Jingwen nodded. "I understand, even with the time formation disk, we won't be able to cultivate unless we have immortal crystals or an extreme grade spirit range."

Su Jingwen didn't think much and stood up, kissing Ye Mo before saying, "Go have your divine damnation and take me out too, I will watch on the side."

Hearing this, Ye Mo said seriously, "Definitely not, I'm going to have my divine damnation in the mountains. If you go I won't be able to protect you and it may affect my divine damnation."

"But there're so many high level spirit beasts there. If you go alone how can I feel safe?" Su Jingwen asked worriedly.

Ye Mo smiled. "You should just wait for me here. After I'm done, I will need to come back to cultivate. Disaster transformation state level one is much stronger than before, but it's not 100% safe here."

Su Jingwen heard this and said, "Okay then, hurry up and reach truth realisation state and show me inside your small world, I want to see if you're hiding pretty women there."

Ye Mo knew Su Jingwen wanted him to relax and have the divine damnation but the words made him awkward. He really was hiding pretty women in the golden page world. There was Luo Yin and Nie Shuangshuang.

Luckily she didn't think much and said, "Go have your divine damnation, don't worry about me. I'll stay here, no matter how long you take I will wait for you here."

"Okay." Ye Mo added an attack formation outside before dashing out to the mountains.

15 minutes later, Ye Mo was at a peak that was dense in spirit chi. As soon as he appeared, his spirit sense saw multiple level nine spirit beasts. There were also two level 10 spirit beasts here. Ye Mo's skin crawled, just what was this place? There were so many powerful spirit beasts here.

What he saw next shocked him even more. He saw a large patch of level six spirit herbs, a few hundred Purple Back Blue Carrots. Not far ahead were three level seven spirit herbs, Tiger Blood Zhi.

Ye Mo took a cold breath in. There were so many spirit herbs here yet no one touched them.

As soon as Ye Mo looked there, a few level eight spirit beasts saw Ye Mo and their eyes looked frenzied as they charged over at Ye Mo.

Ye Mo ignored those spirit herbs and took out formation flags, setting up a spirit gathering formation. He threw down 100 extreme grade spirit stones and a large bunch of spirit crystals before eating the Disaster Life Pill. Then, he started circulating the Three Birth Chant.

Those few level eight spirit beasts neared Ye Mo soon but before they even came here, Ye Mo threw out a few lightning swords.

With a rumble, the black lightning swords flashed and all those level eight spirit beasts died without a chance to ran.

Seeing this power, the other spirit beasts all stopped, but soon a few level nine spirit beasts came and they didn't have any concerns at all.

Ye Mo threw out a few more lightning swords, the leading level nine Red Back Horned Wolf flipped a few times before standing up. Its back was black – clearly, it was heavily injured.

Seeing this, those few level nine spirit beasts stopped and looked at Ye Mo with concern.

Ye Mo ignored them and ran the Three Birth Chant like crazy. He wanted to attract the divine damnation. The spirit beast knew Ye Mo's lightning swords were powerful and didn't charge up but they didn't leave either.

The level nine spirit beast saw Ye Mo just cultivate and cruelty beamed out of its eyes. It howled and the sound soon echoed in the mountains.

Ye Mo ignored it and devoured an immortal crystal to drastically improve his power.

Eight minutes later, the sky above his head darkened. Black clouds formed and the sky grew heavy.

At this moment, these spirit beasts realized that the human cultivator was going to have divine damnation and he dared to do it at the Magic Beast Mountain Range.

They'd all had divine damnation before after reaching level eight and knew that people were at their weakest when they had divine damnation. Usually cultivators or spirit beasts would have someone to protect them, but this human cultivator dared to have his divine damnation here.

A sharp howl sounded and two level 10 spirit beasts arrived. Seeing this, all the other spirit beasts moved aside and the two level 10 spirit beast saw the black clouds and were dazed. But soon, one level 10 Horned Dragon charged at Ye Mo.

Before he even reached Ye Mo, 48 thick lightning arcs rained down. They were thick and black too. The level 10 spirit beast was dazed, what divine damnation was this? Even the spirit beast transformation divine damnation wasn't one percent as powerful as this.

The instant the lightning arcs rained down, the level 10 spirit beast knew things weren't good and wanted to run, but he was already in Ye Mo's divine damnation. It was considered something to be killed by the divine damnation. A small part of the lightning arcs flew towards the dragon.

With this, horror filled the dragon's eyes.

Rumble rumble

Ye Mo didn't even use a defense magic artifact. To him, divine damnation was a huge nutrition supplement. How could he waste it using a defense magic artifact?

At the same time, Ye Mo also shot out tens of lightning swords. This was his old tactic – to hit lightning with lightning. This seemed to anger the divine damnation and thus more lightning arcs would rain down.

This was probably the only cultivator ever to have divine damnation like this.

Ye Mo's Lightning Sword clashed with the divine damnation, making horrifying sounds. Black lightning dispersed everywhere and those spirit beast all retreated.

A few thick lightning arcs landed on Ye Mo's body and easily pulverized his low grade cultivation artifact armor. Blood flew out, but Ye Mo didn't care. He had a lot of armors.

After Ye Mo digested all these lightning arcs, he felt a feeling of satisfaction. His meridians were smoother and wider after being washed by the black lightning.

Ye Mo saw the dragon, it was like a punctured soccer ball, panting for life on the side.

Ye Mo sneered. "Just with your power you dare to stop my divine damnation? Don't embarrass yourself!"

Ye Mo walked to the dragon and kicked it flying a few hundred meters away. The dragon's eyes showed embarrassment. He was a level 10 spirit beast and could talk. How could he not understand Ye Mo's words? He just really didn't understand how come he almost died to 5 lightning arcs but this human took more than 40 and was only lightly injured.

Since when was there such an absurd human cultivator? Was he challenging the Magic Beast Mountain Range by having his divine damnation here?

Ye Mo didn't know what the beast thought, but he really wanted a level 10 beast core. He knew it would fetch a heavenly price if he sold it, but he felt that wasn't a wise move to do here.

There were so many high level spirit beasts here, if he dared to overtly collect beast cores they would all hunt him. He still had Su Jingwen with him.

Rumble

36 more lightning arcs rained down but Ye Mo just used 18 lightning swords and split them up into 36.

The Lightning Sword couldn't stop the power of the lightning bolts but it could mitigate part of the power.

Chapter 1278: Go crazy with Ye Mo

Ye Mo rejoiced and soon found that this way of devouring the divine damnation didn't waste anything nor injure him.

The weakened lightning arcs were refined by Ye Mo and he felt his meridians continuously strengthen, expand, and purify. When he completely refined the 36 bolts, Ye Mo felt his meridians were cracking as though realigning. His power also grew rapidly.

Powerful cultivation essence and spirit sense filled his senses. Ye Mo knew that after the second wave of divine damnation, he had reached disaster transformation state power. The third wave rained down now and it was also 36 bolts as well.

Now, Ye Mo didn't even use Lightning Sword, he just took the lightning arcs with his body.

The lightning arcs crackled on Ye Mo's body, spewing lightning sparks everywhere. However, Ye Mo wasn't scared at all.

The spirit beasts watching this were utterly astonished, they had never seen such an absurd divine damnation. This wasn't divine damnation, this was eating lightning arcs.

After the third wave, Ye Mo had some wounds. His skin was charred but Ye Mo felt this was much more beneficial to him than the lightning arcs he blocked with Lightning Sword. As the fourth wave ended, Ye Mo still didn't use his Lightning Sword despite the lightning arcs getting stronger and stronger.

Thick and terrifying lightning arcs rained down nonstop, Ye Mo's flesh and bones were crippled but they were repaired again and broken again. His power also kept rising. When the 172nd lightning arc rained on him and was devoured, the divine damnation clouds disappeared.

Ye Mo breathed with satisfaction, he was disaster transformation state level two now. This divine damnation was much more comfortable than his body condensation state divine damnation.

A purple spirit cloud floated above Ye Mo and Ye Mo felt spirit chi that was more curative than immortal crystals. Moments later, his injuries disappeared, but this spirit chi cloud didn't dissipate. It started to wash his meridians. Ye Mo wasn't going to waste this opportunity. He used Three Birth Chant at full speed and reached disaster transformation state level three in a short while.

Ye Mo used a few clear water spells and changed a set of clothes. He suddenly laughed, those spirit beast saw Ye Mo laugh hysterically and all retreated. Suddenly, the other level 10 spirit beast howled and charged at Ye Mo.

The space the spirit beast went past condensed, Ye Mo knew it was the spirit beast's domain.

If he was in cauldron filling state, Ye Mo would turn away immediately, but now Ye Mo threw out a few lightning swords without hesitation. The lightning arcs Ye Mo used now were as thick as grown men's arms. It was on par with his divine damnation.

These few lightning arcs crashed through the spirit beast's domain like tofu. The space returned to as it was before. The spirit beast was surprised to see that Ye Mo wasn't affected by his domain at all and instead broke it. Then, he immediately saw Ye Mo's lightning arcs.

Rumble

The level 10 Blue Wind Wolf spat out tens of wind blades. These wind blades swept the nearby space. However, Ye Mo's lightning arcs seemed to know the weak points of the wind blades and easily crippled them. The rest of the lightning arcs all landed on the Blue Wind Wolf.

The wolf howled and rolled around tens of times. When it got up again, it was charred and covered in wounds.

It looked at Ye Mo in shock and terror. It probably never expected there would be a disaster transformation state cultivator this strong. He had just reached disaster transformation state and beat a level 10 spirit beast without any trouble.

Ye Mo scanned the terrified level seven and level eight spirit beasts and suddenly raised his hand. Tens of thin lightning arcs spread out.

They charred all these spirit beasts, without a single exception.

Even though a few level nine spirit beasts tried to dodge them, the space around them had already bound them.

The spirit beasts planning to divide Ye Mo up after his divine damnation all rolled around on the ground.

Seeing this, Ye Mo roared, "This is a warning, next time if you appear and surround me, I will kill you all. Piss off!"

Hearing this, the spirit beasts got up and ran with their tail between their tails. Even the most heavily injured level 10 spirit beast ran and didn't dare to look back at Ye Mo.

Seeing them run off, Ye Mo felt satisfied but also regretful. They were all materials and beast cores in his eyes.

But his instinct told him that he couldn't slaughter spirit beasts here. There were so many high level spirit herbs and spirit beasts here, there must be more powerful leaders here.

Seeing this mess, Ye Mo knew it wasn't good to stay here so he flashed away and disappeared.

Less than seven minutes later, a level 10 peak Ice Leopard appeared, but there was a square-faced blue haired man sitting on it.

He didn't get off and just looked around and saw two level eight spirit beasts' bodies and frowned before leaving.

...

When Ye Mo got back to Su Jingwen, she was already very worried. Seeing Ye Mo, she got up in surprise and joy and asked, "You've become a disaster transformation state cultivator?"

Ye Mo nodded. "Yes, I'm a disaster transformation state cultivator now."

"Should we go now?" Su Jingwen was happier than Ye Mo upon seeing him break through.

Ye Mo smiled. "Jingwen, we'll be rich. You know what's inside the mountain range? There're spirit herbs everywhere but those spirit beasts seem blind. They didn't touch them at all. If we sweep it clean, don't you think we'll be rich?"

Hearing this, she was dazed and asked, "But this is the land of the spirit beasts. How can they let us collect spirit herbs?"

Ye Mo smiled. "Don't worry, I dominated the spirit beasts with my Lightning Sword. When I increase my power a little more, then we can get rich. As long as we don't meet a truth realisation state beast cultivator or level 11 spirit beast, we'll be fine. Even if we meet a truth realisation state beast cultivator, I'm not afraid. We can run away, no problem."

"Okay." Su Jingwen also rejoiced. She was no longer the girl from Earth anymore. She knew what cultivation resources meant. In order to stay with Ye Mo forever, she also cared a lot about cultivation too. Plus, she felt very excited going crazy with Ye Mo, stealing spirit herbs from spirit beast territory.

Seeing Su Jingwen's red face, Ye Mo whispered a few words in her ears. Su Jingwen's face turned even redder. Ye Mo laughed and went into the Golden Page World again. He had to reach disaster transformation state middle stage before he went back to the mountains.

After a long while, Su Jingwen's face recovered.

When Ye Mo first concocted a cauldron of Disaster Will Pill, the main spirit herb Cao Jue was given to him by Bian Fengta. They benefited Ye Mo greatly now. Ye Mo didn't expect to reach disaster transformation state in such a short time.

After eating a Disaster Will Pill, Ye Mo activated the time formation disk again. He still had a third of an immortal crystal in his hands. Once he used that up, he would leave and take Su Jingwen away from here.

Chapter 1279: Heaven Flame Nine Suns

The spirit chi of the extreme grade spirit range mixed with the spirit chi of the immortal crystals provided an endless power that cleansed Ye Mo's meridians. Meanwhile, the Disaster Will Pill provided more power for this flow.

A huge spirit chi whirlpool swirled above Ye Mo's head that was so dense it was about to liquify. However, Ye Mo kept drawing the spirit chi away.

Disaster transformation state level three's barrier was overcome with the charge of such powerful spirit chi without pause.

Two months later, Ye Mo broke through to disaster transformation state level four. Four months later, Ye Mo reached disaster transformation state level five. Just when he did, his immortal crystals cracked and turned into nothing. However, Ye Mo continued to eat Disaster Will Pill and sit on the extreme grade spirit range to devour spirit chi.

Nine months later, he reached disaster transformation state level six... Ye Mo sighed and stopped. Just one more level and he would be disaster transformation state tertiary stage.

However, he didn't have any more immortal crystals. The difference in using immortal crystals and not using them for cultivation was huge. Before, he could break through a level in two months and just use one Disaster Will Pill, but later, he ate three extra pills.

Ye Mo looked outside and saw Su Jingwen was working hard in cultivation and was about to break through to nascent soul state level seven. Ye Mo wanted to go out but saw Su Jingwen was about to break through and stopped his urge to do so. Nascent soul state level seven was nascent soul state tertiary stage. It was still very weak but her power had improved a lot.

He looked again at the time formation disk and saw there were still parts of the immortal crystals left. They should be able to last nearly a month.

Ye Mo didn't continue cultivation. He wouldn't be able to break through to disaster transformation state tertiary stage in a short time. He took out that painting.

Ye Mo felt this painting wasn't ordinary. He couldn't even scan his spirit sense into it. When he took the painting again, Shan Di had a problem with it but he didn't dare to ask for it. Tang Mengrao also wanted it but she couldn't bring herself to ask.

Ye Mo found there was one level from one corner of the painting.

Ye Mo then took out a thin paper that said 'basic five element magic'.

Ye Mo was dazed, five element magic was the simplest magic. It could be said to be the most basic magic in the cultivation realm. Fireball, water ball, earth mobility. He learned these during chi gathering state. Why would such simple magic be hidden in a painting?

Ye Mo immediately felt things were wrong. These weren't basic magics. He saw the five element mobility later on. It was what the spirit body gave him. It was a heaven grade cultivation method, so how was it basic magic?

Ye Mo started looking again from the beginning. The extreme nature of metal destroys all. How can a weapon be used to measure its ferocity?

The more Ye Mo looked, the more he was shook. This was no basic five element magic, this was extremely high level five element magic. In water and earth element, Ye Mo didn't see any water ball magic or stone casting magic, there was just magic to move mountains and rivers.

Ye Mo took a cold breath in – compared to these five element magics, the magic he learnt before was child's play.

Ye Mo focused his gaze on the fire element magics. His Mist Lotus Heart Fire was in great competition. It was blue colored and he desperately needed a magic that could utilize the Mist Lotus Heart Fire.

“The essence of fire, the ferocity of Yang. It does not fear autumn and dominates the frost. It does not fear the winter and dominates the snow. Melting metal and all things, expunging the evil in the world. This art is called Heaven Flame Nine Suns.”

It was the use of fire element magic and flame. Ye Mo finished looking at it and realized this was a fire cultivation method called Heaven Flame Nine Suns.

It was best for the cultivator of this to have a basic rare flame. Heaven flame was the best. If not, one could use their own cultivation fire.

At the highest level of use, the Heaven Flame Nine Suns could allow one's own flame to turn into nine suns to attack the opponent. Usually, entry level cultivation was cultivating a sliver of faint sun. After

you cultivated a red sun, only then would that be level initial completion. If the heaven flame's level was blue, then the first sun would be blue color. It would melt everything.

Using the heaven flame now wasn't like Ye Mo used it before, spraying it chaotically. Against a weak opponent one could easily win, but if it was against a master, then this would just be a waste of spirit sense and cultivation essence.

Heaven Flame Nine Suns was very well described and with Ye Mo's great learning ability, in just a month, he was near initial completion for level one. The first sun was faint blue color.

Ye Mo really wanted to find an opponent to test his Heaven Flame Nine Suns on but he knew he couldn't now. The immortal crystals on the time formation disk were completely used up. Ye Mo also saw Su Jingwen just reach nascent soul state level seven so he dashed out of the Golden Page World.

....

In the mountains behind the desert, there was one man and woman joyfully collecting spirit herbs everywhere. These two were Ye Mo and Su Jingwen.

After Ye Mo reached disaster transformation state level six, his Heaven Flame Nine Suns level one was also near initial completion. At this moment, he didn't have any concerns coming back to this place filled with spirit beasts.

The more the two went in, the higher level the spirit herbs. Su Jingwen was very excited and even forgot this place was the place with a stack of high level spirit beasts.

Soon, some spirit beasts started coming over. At the beginning they were level seven spirit beast but they realized Ye Mo didn't seem easy to mess with so level eight and level nine spirit beasts came. Eventually, there were even a few level 10 spirit beasts.

The growls woke Su Jingwen up and made her realize that they weren't at home.

The reason they didn't charge up because one of the level 10 spirit beast Blue Wind Wolf and some level nine and level eight spirit beast that had suffered at Ye Mo's hands.

Those spirit beasts who didn't know Ye Mo's power charged up and were smashed down by Ye Mo's lightning. Even a level 10 spirit beast was charred and couldn't crawl up for a long while.

They grew smart this time, they didn't come up together but closely followed Ye Mo and them. In no time, a hundred more spirit beasts arrived.

Ye Mo frowned. He wanted to send away these spirit beasts, there were so many spirit herbs here, he didn't want to give them up like that. But before Ye Mo did anything, the spirit beasts under the lead of a few level 10 spirit beast charged down.

This time, Ye Mo didn't hold back and lightning rained over them. The entire valley with filled with the roar of thunder.

Countless low level spirit beasts died to Lightning Sword. Those few level 10 spirit beasts were smashed into deep pits and more low level spirit beasts ran around frantically.

This was Ye Mo holding back. If he didn't, they would all be dead. Soon, this place was a mess, hundreds of low level spirit beast bodies lay here.

The remaining spirit beast didn't dare to come up anymore. Still, they didn't want to give up on the two and they followed everywhere the two went.

Seeing this, Ye Mo was very annoyed. He threw out some lightning swords on the nearby rocks and said coldly, "I know you guys understand me, if you still stay behind me I will kill you all."

Hearing this, the spirit beasts immediately ran off.

Chapter 1280: All piss off

In the depths of the mountain ranges, there was a huge peak hidden by a formation. From the bottom to the top, there were rows of extremely luxurious cultivation homes. At the very top, there was a grandiose blue palace.

Inside the palace, a square-faced blue haired man frowned as he listened to a beast cultivator reporting to him. He sat on the right chair of the top three chairs. The middle and left chair were empty. According to his position, he was ranked third in this palace.

Behind him were two beast cultivators, one seductive woman and one with a long beard.

Hearing the report, the blue haired man said, "You're saying level 10 spirit beasts can't even last one move in front of him?"

"Yes, but he seems to have controlled his attack and didn't kill everyone. But in the end, he seemed to have gotten angry and thus killed tens of low level beast cultivators. However, he did say that if anyone dares to followed him or stop him from finding spirit herbs, then he wouldn't be so easy," the beast cultivator said.

"Mhm." The man nodded and knocked on the chair handle. After a while, he suddenly asked, "Mei Niang, Su Feng, what do you two think?"

"Third God Lord." The woman called and said in a sweet voice, "That man can defeat level 10 spirit beasts in one move, clearly he's a truth realisation state cultivator and he just had his divine damnation. He's truth realisation state primary stage power. This means his power would be only a little bit weaker than Third God Lord."

This man's face didn't seem so natural as he knew that this woman exaggerated. He didn't have the ability to defeat level 10 spirit beasts in one move.

The woman continued, "Plus, he didn't slaughter nor take beast cores. He knows his position, he's giving us face. Plus, he loves the low level spirit herb, clearly he hasn't seen much of the world. Since Big God Lord and Second God Lord aren't here, I think..."

The blue haired man frowned. "What's there to hesitate about, tell me – you spoke very well just then."

Hearing this, the woman quickly said, “Yes, third god lord, I think we might as well let him do what he wants. He came from outside, he will just collect some spirit herbs and leave. If we coerce him and he joins the river side to attack us, it wouldn’t be good.”

“Mhm.” The blue haired man nodded and looked at the long beard. “Su Fong, what’s your opinion?”

The man nodded. “I agree with Mei Niang, Big and Second God Lord aren’t here. We should be careful. Plus, they’re just collecting some irrelevant low level spirit herbs. It’s far from our area of restriction. I don’t think we need to care too much. Plus, recently, there have been quite a few human cultivators here, I wonder if they’re together.”

The blue haired man waved his hand. “We’ll do that, who cares if they’re together or not? As long as they don’t touch our area of restriction we don’t have to mess with them. We can decide things when big and second brother are back.”

“Yes, Third God Lord,” the reporter beast cultivator said respectfully and left.

...

“Ye Mo, what is this place? I can even see level eight spirit herbs?” Su Jingwen was more and more shocked.

Ye Mo nodded. “I also want to know where this is, but there still isn’t a beast cultivator here now. This probably isn’t some important place. Wait, I’ll call a spirit beast over to ask.”

Ye Mo spirit sense suddenly saw a rainbow rise into the sky with a huge cultivation essence wave.

Ye Mo saw that rainbow rope and knew it was Tang Mengrao’s magic artifact. She was about 10 kilometers from them, Ye Mo didn’t expect her to be still alive.

Seeing Ye Mo not move, Su Jingwen asked, “Ye Mo, what are you looking at?”

Ye Mo smiled. "I didn't expect sect leader to be still alive. She's in a valley ten kilometers from here, she's fighting. I suspect she's been trapped by spirit beasts. Should we go help?"

"Do you need to ask? Let's hurry up and go," Su Jingwen quickly said.

Ye Mo nodded. "Okay, let's go see."

Su Jingwen knew what Ye Mo meant and smiled. "Are you still angry about Ao Qiandie? You were probably just an insect in sect leader Tang's eyes before – so what if you died?"

"Then why do you still want me to help?" Ye Mo looked at her in confusion.

Su Jingwen held his arms and said, "There're two reasons I want you to help. First, when the beast tide came, if it wasn't for her, Pei Hai City would've fallen and you wouldn't have been able to see me and Yangzhu. Second, at the palace, sect leader Tang told us to leave with her. We should help her. People aren't gods, how can they not make mistakes? Plus, one was her beloved disciple, the other was a stranger."

Ye Mo wiped her face. "You're really kind hearted but you're right. After we go out, I will make up to you. Mhm, the thing I told you about before."

"Hmph." Su Jingwen's blushed and didn't dare to say anything.

At this moment, Tang Mengrao's face was full of fatigue. She was covered in injuries. Next to her was her disciple, Zhou Yushuang, and her master. There was also another man and woman, they were also covered in injuries and took turns to defend against the spirit beasts' attacks.

The six were relying on a level eight defense formation and this formation clearly wasn't set up by Tang Mengrao and them. A young woman was repairing the formation. The other five protected her and fended off the spirit beasts.

Her formation skills were quite decent.

When Su Jingwen walked over with Ye Mo, the woman and Tang Mengrao first saw them.

Tang Mengrao immediately yelled, "Ye Mo, come here quickly..."

But Tang Mengrao stopped, Ye Mo came over indeed but he wasn't running, instead he came over slowly.

What shook them more was when the spirit beasts saw Ye Mo and Su Jingwen they all moved away. No one dared to attack them, even the leading level 10 spirit beasts.

What was this?

The spirit beasts stopped the attacks on the formation as though waiting for them to pass before attacking again.

Ye Mo and Su Jingwen didn't go in, he called from outside, "Sect leader Tang, come out, let's collect some spirit herbs and we can go."

"What?" Tang Mengrao thought she heard wrong. How could she not know there was a lot of spirit herbs here?

A few days ago, she wanted to pass these mountains with Yue Chan but she didn't go very far and was stopped by spirit beasts. If she didn't see these two siblings relying on the defense formation, she would've died. As for Zhou Yushuang and her master, they also came here before her or they would be dead too.

Ye Mo looked at the fearful spirit beasts and yelled, "Did you forget what I said before? These people are my friends, what are you staying here for? Piss off!"

The next thing that happened made them unable to close their mouths.

These spirit beasts, although not willing, still left.

“Ye Mo, what’s going on?” Tang Mengrao had so many questions and she suddenly realized she couldn’t see Ye Mo’s power level.

Ye Mo intentionally hid his power level. He didn’t want the high level spirit beasts here to see his power level.

He smiled. “Sect leader Tang, recover first and change a set of clothes, then we’ll talk.”

Tang Mengrao looked at her injuries and nodded.

Zhou Yushuang and her master also thanked Ye Mo before going to the side to recover.

But the young man walked up to Ye Mo and studied him before saying, “You’re the young God Lord master?”
