Chapter 1291: The cultivator that exploded west cultivator city

“What is that Heaven Domain? Why is there a tunnel?” Ye Mo asked.

Yan Zhenxin quickly replied, “There was no passage before, but later there were a lot of cultivators here so people set up ten passages. If you wanted to go in there, you would have to go in through these passages. All of them charge you a price, the Xi Zhong passage is controlled by the Xi Zhong merchant association. The association leader is called Meng Sha, he’s the truth realisation state cultivator you fought before.”

Su Jingwen suddenly said, “This is like a highway pay station.”

Ye Mo nodded, it was really like that indeed. It seemed Earth’s people weren’t the only ones to think of this method of earning money.

Yan Yan said, “Each time, they charge 100k spirit stones per person. The competition is very high. My brother was harmed by Jin Qilong in that tunnel. Jin Qilong told him to go in and said if he couldn’t get to the 10th domain, he wouldn’t have to pay. If my brother couldn’t pass, he would have to pay another 100k. My brother thought he would be able to go into the 10th domain so he agreed.”

Yan Yan looked unhappily at Yan Zhenxin and continued, “But at the time, someone followed my brother into the Heaven 36 Domains. When my brother reached the 9th domain, he was suddenly ambushed. My brother quickly left the domain and survived, but we’re sure that the person who ambushed my brother was Jin Qilong’s friend. But even with evidence, we don’t dare to do anything.”

She got up and bowed to Ye Mo. “Thank you a lot brother Ye.”

Ye Mo knew she meant getting revenge for Yan Zhenxin, he didn’t mind. The only thing he was worried about was that Su Jingwen’s safety wasn’t assured when he went inside the heaven domain. He almost killed Meng Sha just then, who knew if he would try to get revenge?

Ye Mo thought for a moment and said to Su Jingwen, “Jingwen, how about you go back first? When I come out of the heaven domain, I’ll come find you.”

Tang Mengrao immediately knew what Ye Mo meant and asked, “How about you go first and after you come out, I’ll go?”

Yan Yan knew what Ye Mo meant and quickly said, “The Heaven Domain opens every day, there’re still about six hours till it opens. Jingwen sister doesn’t need to go back, if we go to the Heaven Domain observing hall, no one will dare to do anything.”

“What’s the observing hall?” Ye Mo asked in confusion.

Yan Yan replied, “It’s the place for cultivators to watch others trial at the heaven domain. There’s a huge screen formation. We can’t see the exact situation inside but we can see how many people are at each domain. Then, people will start betting spirit stones. There are luxurious rooms. No one is allowed to start trouble there or they will be killed.

“Okay then, let’s go there and book a luxurious room,” Ye Mo immediately got up and said.

...

After coming here, Ye Mo realized how big this was. There weren’t a lot of cultivators here but there were more than 1000 people. Even so, this huge hall seemed quite empty.

There was a huge projector formation at the top showing 36 rings. There were only a few light spots on the rings ahead.

Yan Yan explained, “Those spots represent cultivators inside. If the spot disappears, it means that they came out or they were killed by the domain. If cultivators don’t want to go to the next domain, they can go back a domain and will be teleported out.”

Ye Mo knew that it was free to watch here but those luxurious rooms were very expensive. The most luxurious room costs 1 million top grade spirit stones, but there was no time limit.

The luxury came second but the top grade one not only had dense spirit chi but also a top grade defense formation.

As soon as Ye Mo and them got up, a pretty girl greeted them. She probably knew what Ye Mo did and was very respectful to Ye Mo and them.

When they went in the luxury room, they realized there was a small projector formation there. They didn't need to look at the projector formation below. Ye Mo set up another few defense formations before feeling assured to leave.

Yan Yan stayed behind with Su Jingwen and Yue Chan. Yan Zhenxin took Ye Mo and Tang Mengrao to the entrance. Because the rooms were only for girls, Yan Zhendong went out to the hall to watch Ye Mo's progress.

...

Perhaps those cultivators here knew of Ye Mo's power and thus, no one dared to come up to them.

When they were about to enter through the Tan Shang entrance, the cultivators only then dared to come greet them. After Yan Zhenxin left, Ye Mo and Tang Mengrao paid 200k spirit stones and entered. Then, they got a good look at the Heaven Domain.

The Heaven Domain was immersed in a grey mist, spirit sense couldn't scan in at all.

When Ye Mo and Tang Mengrao walked into the first domain, Ye Mo immediately understood the meaning of the Heaven Domain. In here, space slowed down and there was a sliver of cultivation essence stirring. If the cultivators who came here couldn't defend against it, they might be killed by it.

If you couldn't get used to here, your body would be torn apart.

Ye Mo could clearly feel the direction of the cultivation essence turning. It was pretty much teaching cultivators how to control the space and air around them with cultivation essence.

This was indeed a trial place. The cultivation essence movement here was at a very low level. There was no domain, it was just a field. But if body condensation states could gradually learn this and the slowing of space, their understanding of domains would deepen.

Ye Mo was certain there would be more powerful spirit sense and cultivation essence simulated domain attacks. He couldn't wait. Ye Mo felt the first domain was completely useless to him.

He didn't disturb Tang Mengrao and went into the second domain. Ye Mo felt this heaven domain was a huge eight trigram disk and if he walked to the centre of the disk, he would be at the 36th domain.

There was no distinct milestone for the first and second domains but Ye Mo could clearly feel the difference between the two. After taking that step, it was the second domain.

Ye Mo exclaimed at the prodigy who built this place. This was absolutely out of this world. Just how much power and how much talent did he have to build this unimaginable cultivation place?

The second domain had more fierce cultivation essence waves and greater space impediments but it still directed cultivators to understand about the formation of fields.

Ye Mo ignored it and just passed through the first nine domains into the tenth.

Coming here, Ye Mo clearly felt the confinement of space, it was very hard to walk even a step. One mistake and that space confinement would crush you. Ye Mo knew this was a real domain, before the space confinement could attack him, he attacked with Zi Xu.

In a cracking sound, Zi Xu cracked the domain and an empty space appeared. Ye Mo could use that to go into the tenth domain but he didn't. He closed his eyes and waited for the domain to seal shut again before hacking out.

With this, Ye Mo nodded. Coming into the 11th domain, Ye Mo understood that his previous understanding of domains was very narrow.

A domain wasn't just a restriction of space around the opponent, it was more importantly to bind the opponent's cultivation essence and even spirit sense. Using a domain didn't necessarily need cultivation essence and spirit sense. Once a cultivator's understanding of domain reached a certain level, his will could form a new domain.

If domain was birthed with will, one could easily master state, then he would be invincible. Perhaps even a disaster transformation state level one would be able to kill a truth realisation state cultivator.

With the use of Three Birth Chant, every time Ye Mo went into another domain he would feel different. He felt his domain was undergoing enormous change. He went into a state of enlightenment. He just kept moving forward and learning, completely forgetting the notion of time.

10th day, Tang Mengrao exited from the 17th domain. She felt this was the furthest she could go. When she reached into the watching stadium, she knew Ye Mo was in the 23rd domain.

On the 12th day, more and more people came as many of them learned someone went into the 25th domain. The last truth realisation state qian bei only reached the 26th domain and came out.

On the 15th day, the huge hall was full. Countless powerful beings and top grade cultivators rushed here.

Some cultivator had reached into the 27th domain. This was a very rare record.

The entire West Cultivator City went crazy now.

Chapter 1292: 27th Domain

The reason entering the 27th domain would cause such a huge commotion was because all the cultivators here knew that every 9 domains were at completely different levels. The 9th and 10th domain were completely different. So was the 18th and 19th domain. You might be fine in the 18th domain but not even be able to last a few seconds in the 19th domain.

Now, someone was in the 27th domain, everyone wanted to know if this person could go into the 28th domain. If he did, he would be the number one master in West Cultivator City, or the cultivator with the greatest knowledge of domains.

In the history of the Heaven Domain, no one had passed the 30th domain. If this man could get into the 28th domain, he might be able to challenge the 30th domain.

Because of this, those cultivators flocked to the observing palace.

Those luxurious rooms were filled, even those famous cultivators in the city had to squeeze in one room with some people.

There was one top grade room that no one went to squeeze in, it was said there were four cultivators inside and all female cultivator too. However, no one dared to go in, even the vice city lord Luo Yujian didn't ask to go in. everyone knew that the girls inside were the family of that cultivator.

Who would risk disturbing the family and friends of a cultivator who could go into the Heaven Domain's 27th domain?

There was also news that that this cultivator almost killed Xi Zhong Merchant Association's association leader Meng Sha before he went in. Eventually, the story became that the cultivator didn't even raise his hand and just used his cultivation essence to form a purple cultivation essence sword that heavily injured Meng Sha.

Meng Sha was one of the ten big powerful people in Heaven Domain. Just who was this being who could heavily injure him without moving his hand? This was beyond their imagination.

Su Jingwen began to worry seeing all these cultivators flock here. She thought that even with restrictions, their room wouldn't be able to stop all these powerful cultivators.

Luckily, they worried too much. No one dared to come to their room or even knock.

Tang Mengrao breathed easy.

In North Far State she was one of the big three, but here she couldn't even be ranked.

The two managers from the Xi Zhong Merchant Association were more powerful than her. There were countless cultivators who could kill her here.

She felt ashamed to be called one of the big three in North Far State now.

There were still more and more people coming, everyone wanted to go watch inside.

Eventually, the powerful beings here set up a transfer projection formation and finally eased up the squeeze.

Cultivators had spirit sense and so even if they weren't in the Heaven Domain square, their spirit sense could see the progress on the screen.

There was no projection formation at the square but for Ye Mo, a huge projection formation was set up.

Meng Sha was very worried now, he realized how dumb he was. He had annoyed a powerful cultivator like Ye Mo.

If he had another chance he would rather be a coward than try to show his power. It wasn't really losing face now as it wasn't embarrassing losing to a powerful being who could reach the 27th domain. He was worried that powerful being would come out and look for his trouble. If that was the case, he would have nowhere to hide

He had a few truth realisation state friends but who would be willing to fight against this powerful being for him? Even he wouldn't himself.

He sighed and could only sit down and yield to fate. His foundation was here, he couldn't leave at all.

...

When Ye Mo entered the 27th domain, he immediately felt that the space around him seemed to have turned into a swamp that he had sunk into. There were sharp sword rays everywhere in this swamp. One slight error and he would be ripped and crushed. The space seemed to be constantly contorting and he couldn't capture that rhythm.

His domain quickly broke and shattered in this constantly changing space. That contorting space made Ye Mo feel this was space disposition not domain.

But the next moment, he realized this was definitely no space disposition, this was still a type of domain. Luckily, those sword rays and the swamp didn't mix together so he could struggle. Instantly, he formed his domain again.

He wouldn't have been able to survive here if he didn't gain a new understanding of domain after passing the 26th domain.

As soon as his domain formed, it was crushed again but Ye Mo tried relentlessly.

If it was some other cultivator, he might have retreated into the 26th domain.

In fact Ye Mo knew too that he could use Illusion Cloud Domain Shatter Strike to hack open the domain so he could go into the 28th domain. But that way, he wouldn't be able to learn anything. In here, he had the time to attack, but in the 28th domain, he wouldn't even be able to use an attack.

He also knew that every nine domains represented a completely different level, so the 28th domain would be countless times more powerful than the 27th domain.

Time passed as Ye Mo's domain kept getting crushed and reformed. As time went on, Ye Mo's domain could last longer and longer until it could completely defend against the domain here.

But Ye Mo didn't go into the 28th domain now. He would rather go back to the 26th domain if he didn't have the confidence.

Cultivation was important but so was his life.

So when his domain could completely defend against 27th domain, he started to expand out and attack.

This idea came from the Lightning Sword. He learned his Lightning Sword by attacking the divine damnation with lightning.

The method he used now was to use his own domain to attack the domain in here and feel the cultivation essence motion inside to improve his own domain.

Time went on and he could completely defend against the domain here and walk freely without trouble. However, he still couldn't attack the domain around him.

Ye Mo didn't give up like this, how could he go to the 28th domain if he couldn't fight back against the 27th domain?

When you fought someone, it wasn't enough just to block the opponents domain, you needed to break your opponent's domain. He used Illusion Cloud Domain Shatter Strike to do this before, but now he wanted to use his own domain to tear apart the space around him.

If he learned how to do this, his domain would immediately be near great completion. Even if he fought truth realisation state tertiary stage masters, he might be able to win.

....

There was heated discussion inside and outside the Heaven Domain square because Ye Mo had stayed in the 27th domain for more than three days. According to his past progress, he wouldn't stay in one for more than one day.

Soon, a new round of betting opened up. One side bet Ye Mo could enter the 28th domain, the other side said he would leave from the 27th domain.

Chapter 1293: Real domain

“Master, those people are betting how many domains martial uncle Ye can go into. Should we bet too?”
Yue Chan saw the astonishing odds of going into the 36th domain.

These odds didn’t just include going into 28th domain now. There was the odds of going into 36 domain. The losing odds of going into 28th domain was one to 3, quitting from 27th domain was 1 to 2. Going into 30th domain the odds rose to 1 to 8. The losing odds of going into 36th domain was 1 to 100.

Yan Yan said, “If you want to bet you can bet here, there’s a place next to the projection formation. Just write what you want to bet on and place in your spirit stones. The spirit stones will be teleported away.”

Tang Mengrao nodded. “I’ll give you 1 million spirit stones, you can bet on what you like.”

Su Jingwen woke up and quickly took out a storage ring passing it to Yue Chan. “Help me bet too.”

Yue Chan took the storage ring joyfully and asked, “Sister Jingwen, which one do you want to bet on?”

Su Jingwen’s mind clearly wasn’t on this and said casually, “It doesn’t matter, as long as you’re betting on one that says Ye Mo will win.”

She wanted to give Ye Mo a little support through this indirect way. Seeing this, Yan Yan also placed a bet.

...

This was the 4th day Ye Mo was at the 27th domain. His domain could easily break the space dispositions and squeeze away, but it was still a little bit off from crushing the space domain.

Ye Mo was disappointed, he was just a little bit off.

So, he just sat down and ran the Three Birth Chant. Ye Mo let his domain slowly seep into this mock domain.

Another two days later, Ye Mo felt something was wrong. The key concept of forming domain here was through one's own cultivation essence. This didn't seem wrong, all the cultivators' domains were formed like that, Ye Mo's domain before was formed like that too.

But when Ye Mo used Three Birth Chant, the things he realized was completely different.

Domain wasn't formed through cultivation essence, those domains formed with cultivation essence were called fake domain. Real domains were a will state, a force. When the cultivator's force was formed, the domain would be born through will.

As for using cultivation essence to form the contortions and even spirit sense, it was just a method of attack in your domain. When domain was perfected and the enemy was trapped in the domain, your cultivation essence can turn into a method of attack. Cultivation essence and spirit sense weren't used to form domain, it was a method of attack for the domain.

Realizing this, Ye Mo woke up and suddenly got up. He squeezed away the domain around him and his cultivation essence expanded out. The locked space around him was completely shattered.

Ye Mo was overjoyed, he didn't expect it to be so simple. He realized now that only now was his domain truly in initial completion. The domain he previously thought was in initial completion wasn't even the beginning. Not just him but probably more than 90% of cultivators weren't even beginners in domain.

However, Ye Mo felt suspicious of this place. Theoretically, this was a trial ground, it shouldn't be misleading cultivators like this. If he didn't have Three Birth Chant, even if he passed the 36th domain, he wouldn't be able to truly understand the notion of domains.

Ye Mo wouldn't believe that the powerful being who set this place up was intentionally trying to mislead people.

One explanation was that powerful cultivator didn't understand domains either, but then Ye Mo shook his head. If the person didn't understand domains, how could he set up this huge Heaven 36 Domains.

Plus, this place was indeed very helpful for cultivating domain. Even a fake domain was better than not understanding domain at all.

Now that Ye Mo could easily break the domain here, he went into the 28th domain.

Immediately, he felt like there were sharp beams pointing at him.

The stir in space here was completely different than the 27th domain. In the 27th domain, space was space and the sword rays were sword rays. They were separate, allowing you to dodge them.

But in the 28th domain, they were fused together, it was as though the place he was at wasn't space but a place formed with countless pin-sized killing chi.

It was present no matter where he went.

The space distortions were more than ten times stronger than the 27th domain. Ye Mo took a cold breath in – this was no trial grounds but a slaughterhouse!

If he didn't truly understand domains, he would be instantly killed the moment he came in here. He wouldn't even have the time to go into the Golden Page World. Even a truth realisation state peak stage cultivator wouldn't be able to survive in the pinpoint space. The domain previously learned was completely useless here. Even if you formed your domain, it wouldn't last a hundredth of a second.

Ye Mo didn't expect the difference to be this huge. Luckily he knew what true domain was and instantly formed his domain.

When the killing chi space pressured him, Ye Mo's cultivation essence wind blades and spirit sense blades also swept out.

With a thud, Ye Mo's domain was crushed, but he also stopped the attack of this space.

Ye Mo didn't continue trying to learn the space domain here, he felt this domain wasn't suitable for him, it wasn't right. But the space attack and mock domain attack was very good for him. He could use this opportunity to refine his newly learned domain.

...

The cultivators watching saw that spot had went into the 28th domain. There were shouts of joy for those who bet Ye Mo was going into 28th domain but sighs from cultivators who lost.

When Su Jingwen saw the dot finally go into the 28th domain, she breathed easy, but then immediately stared at the spot nervously.

...

West Cultivator City, Xin Cultivator Association.

That middle aged man who previously didn't care if Ye Mo joined the Xin Cultivator Association now frowned. After a while he asked, "You said that cultivator left here and went to the Heaven Domain, and is now in the 27th domain?"

The fatter cultivator in front of him just wanted to talk but his communication bead lit up. He scanned with his spirit sense and immediately answered, "Yes, association leader, but the news we just received is that he's in the 28th domain now."

That association leader got up immediately and his face seemed a little strange. He walked a few steps and said, "I'm going there immediately..."

Then he said, "Ji Liang, tell elder Gong to prepare some gifts, if that cultivator comes out, we need to greet him immediately."

"Association leader, what level or gift should we prepare?" Ji Liang asked.

The middle aged man hesitated and said, "For someone like him, he won't take ordinary gifts seriously..."

He hesitated and said, "Bring that low grade immortal artifact, only something like that can touch him."

Ji Liang was dazed. "But association leader, that's the only immortal artifact we have, it's the sect guarding..."

The association leader waved his hand. "We were already rude to him by just sending a green robed messenger, if we do it again, this person will look down on us. A low grade immortal artifact is precious but if we can pull a 28th domain powerful being to join us, it would be very worth it."

"Yes." Ji Liang agreed.

...

Crack

Ye Mo didn't use Zi Xu nor Illusion Cloud Domain Shatter Strike, but his domain had cultivation essence wind blades now. After countless trials, his domain finally shattered the simulated domain.

Ye Mo realized that if he kept moving forward like this, his domain might really reach great completion by the 36th domain.

Chapter 1294: 37th Domain

"He's entered the 29th domain..."

The cultivators inside the observe palace exploded again. That spot went into 28th domain and just stayed for one day before going into the 29th domain.

What shook them even more was that the spot stayed there for one day again and went into the 30th domain.

Ye Mo went into the 30th domain in such a short time. The odds began to fall.

...

At the 30th domain, Ye Mo completely ignored the special pressure and binding that could instantly kill truth realisation state cultivators. He even closed his eyes, after the 28th domain, he completely understood domain binding and attack. He was slowly combining his understanding of state and domain. Once he combined these two, Ye Mo felt this domain would have a skyrocketing increase in power.

The conditions in the 30th domain were many times worse than the 28th domain. If he didn't have a completely different understanding of domain, he would be torn apart instantly even if his original domain was in great completion.

Ye Mo shook his head, after the 27th domain, this place was completely a slaughterhouse. It was impossible to even stay alive, much less learn domains in here. No wonder rarely anyone kept going after the 30th domain.

Ye Mo began to progress faster and faster. On the 23rd day, he went into the 31st domain, on the 24th day, he went into the 32nd domain. The betting completely stopped. Now, the spirit stones betting that Ye Mo would go into the 36th domain were enough to buy half the entire Heaven Domain region. Although the Heaven Domain region really wanted Ye Mo to come out now, there was nothing they could do.

Su Jingwen saw that Ye Mo was faster and faster and finally breathed easy and relaxed.

On the 28th day, Ye Mo went into the 35th domain.

According to Ye Mo's idea, the 35th domain should have even more intense space distortions. He came in here and immediately expanded his domain, but what shook him was there was no movement nor space ripples here. It was just an ordinary place.

Ye Mo reached his spirit sense out and found this place was indeed an empty domain. He shook his head, he just wanted to go into the 36th domain but he felt something was wrong. There seemed to be a stealth formation here.

If he wasn't a level nine formation grand master, he wouldn't be able to see this at all. But even so, there was nothing he could do. The formation heart wasn't here. If he knew where the formation heart was, he would be able to go in.

Ye Mo ignored this irrelevant formation and went into the 36th domain. As soon as he came in, he felt this place was different than the domains before. There were space bindings and space distortions and the killing intent was strong too, but Ye Mo felt this was the real domain.

Feeling the difference and similarities, Ye Mo frowned. Was it that for other cultivators, only the 36th domain was the place they could understand domain?

But only in this place could he truly combine his state and domain.

...

The news of Ye Mo going into the 36th domain spread like wildfire. Some cultivators who weren't in West Cultivator City even got the news.

An absurd cultivator appeared in West Cultivator City, going into the 36th domain in 30 days.

At this moment, cultivators didn't come to watch the projection formation but to see who this cultivator who was first in history to get into the 36th domain was

Su Jingwen got up in joy, she thought Ye Mo would be coming out immediately.

However, it was Yan Yan and Yue Chan who were the happiest.

Tang Mengrao asked casually, "Which one did you bet on?"

Yue Chan said happily, "I bet 1 million that martial uncle Ye would get into the 36th domain. Sister Yan bet 200k as well. Sister Jingwen bet the most, there were 10 million spirit stones in there and I bet them all on the 36th domain."

"What?" Even Su Jingwen was dazed. 10 million on a 1 to 100 odds? She would get 1 billion spirit stones, even Ye Mo never had this many spirit stones.

Just when Su Jingwen wanted to speak, she saw the spot disappear from the screen.

...

With a rumble, a purple ray flashed, this was the first time Ye Mo used Zi Xu since the 28th domain.

Zi Xu hacked out and the Illusion Cloud Domain Shatter Strike clashed with the surrounding space, he felt the space binding around him lighten.

Ye Mo wiped some sweat, he thought this was all there was but just when he fending off against the domain pressure, the space binding rapidly changed. The domain attack also changed completely.

In such a short time, Ye Mo wasn't able to form his shattered domain again so he could only hack out with Zi Xu.

However, this strike only cracked open one crevice in the domain. Without that strike, Ye Mo wouldn't even be able to retreat.

He was ambushed by the 36 domains. Ye Mo was shook but he was more joyful. He finally found how to combine domain and state. at the same time, he learned another means of domain.

It was right of him to come here indeed. After Zi Xu brought about that crack, he quickly reformed his domain again.

This time, he was ready. In the battle, Ye Mo learned more and more. The 36th domain was truly the place to learn domain.

Eventually, Ye Mo could control the power of the domain. In his will, the domain changed in size direction.

With a long howl, Ye Mo didn't even need to move his hand and his domain expanded out. The surrounding space cracked again and this moment of enlightenment came into his mind. Ye Mo knew his domain was in great completion.

This was the real domain.

At this moment, Ye Mo controlled the expansion of his domain and the powerful space domain crippled like glass.

Ye Mo was very happy. He didn't know why there would be this misleading thing in here but that wasn't important. He didn't need to stay here anymore. Ye Mo knew in order to leave, he just needed to go back.

Ye Mo turned to the 35th domain but when he was there at the door, he found that the 35th domain completely disappeared. He couldn't feel the 35th domain anymore.

Ye Mo frowned.

There was only one possibility, it was caused by that formation. Ye Mo turned back, the heart of the formation wasn't in the 35th domain, it might be in the 36th domain.

Ye Mo walked for a moment and came to the end of the 36th domain.

Ye Mo didn't find any formation heart but a new formation world appeared before him.

Was there a 37th domain?

Ye Mo didn't understand, but even if there was 37th domain he wasn't scared.

As soon as he came in, he didn't even have time to scan his spirit sense out and he was covered in wounds. This terrifying killing intent wasn't something a cultivator of the cultivation realm could defend against.

He went into his Golden Page World without hesitation. If he hesitated for a moment, he would die.

Chapter 1295: The danger in the heaven domain

As soon as Ye Mo got in the Golden Page World, blood shot out like arrows. Even Shadowless flew over, worriedly buzzing.

Ye Mo ate a few pills before stopping the bleeding.

Four hours later, Ye Mo took off the broken cultivation artifact armor and washed himself. The most serious injury almost sliced his arm off. Ye Mo rejoiced, if it was sliced off he wouldn't be able to get it back for sure.

If he was just ten milliseconds slower, he would be dead. This 37th domain wasn't a domain, it was a place to kill.

Ye Mo was sure that any master from the cultivation realm who came would be dead for sure.

There were some serious problems with this place.

This place seemed to attract high level cultivators here, the more powerful and the more talented cultivators were, the more easily they were killed here. This was because the more powerful you were, the greater understanding you had of domain and thus you could go further.

Thinking about this, Ye Mo shivered. According to this train of thought, Heaven 36 Domain was set up just to kill prodigies.

Why was it so?

One day later, Ye Mo recovered and thought about this place carefully.

The instant he came here, his domain was shattered by the space here and his body was bound by the space. If it wasn't that his domain was in great completion, he would've been dead already.

The brief instant that his domain stopped that binding allowed him to escape. Almost every inch of the space had fierce killing intent that was as powerful as a truth realisation state tertiary stage cultivator's full powered attack.

Who could block this entire space filled with killing intent? Even if Chu Jiuyu was here, he would be dead for sure. Even a cultivator who could rip open space wouldn't be able to get away in such a short time.

Only immortals could escape – but would immortals come here?

The more he thought about it, the greater Ye Mo's fright. Which bastard was this? He was so bleak!

Ye Mo threw out a surveillance formation outside and saw an extremely terrifying space.

Dense killing force hung densely in the air. Ye Mo knew that if any life came here, the killing intent would be triggered.

This killing force existed in the form of light. Just how powerful space attack formation means were needed to set this up? How much spirit power was needed to power this?

But soon, Ye Mo found that these killing force were just the tip of the iceberg. In this space, there were waves of space distortions. They were clearly invisible and an extreme type of space kill formation. Just these space ripples were enough to tear apart any cultivator.

In the past 36 domains, the space distortions, pressure, and pulling weren't completely formed so his domain could stop them, but here, they were all formed.

This was just the killing force he could see, just how much more invisible killing force existed here? Ye Mo didn't dare to imagine.

In order to see more, Ye Mo threw out a few formation surveillance formations. They had no life force and thus weren't attacked.

Ye Mo carefully moved his Golden Page World while throwing out surveillance formation. He really wanted to go back to the 36th domain, but it had also disappeared.

His control of Golden Page World wasn't perfect and thus he couldn't move rapidly.

When the gold spot representing Ye Mo finally disappeared, the square and observer hall exploded. Many people thought Ye Mo was teleported out but moments later, they knew Ye Mo wasn't teleported out.

Thus, there was only one possibility. This cultivator was killed.

Sighs of pity and happiness sounded. It wasn't good news that a cultivator like this died, but it wasn't bad news for some of these power factions here.

The happiest was Meng Sha. He eased up and wiped his sweat. At the same time, he thought of Ye Mo's family and friends.

Cruel glances beamed in his eyes. This man dared to insult him, now that he was dead, how could he let go of the people who came with him?

He has never lost so much face before.

In Su Jingwen's room, she thought that Ye Mo came out after the spot disappeared, but after a long while, she didn't see Ye Mo come for her. She felt something was wrong.

Soon, there was news that Ye Mo died there. Even though Su Jingwen was nascent soul state level seven, she felt dizzy.

Tang Mengrao quickly held her, she wanted to persuade Su Jingwen that Ye Mo might not be in trouble but even she knew that Ye Mo was certainly in trouble.

Seeing this Yan Yan came to comfort her. "Sister Jingwen, why don't we wait for Ye Mo at the entrance of the heaven domain?"

Su Jingwen shook her head. "I agreed to Ye Mo to not leave unless he came. Now that he isn't here, I'm not going to leave. I will wait for him here."

Yan Yan hesitated but Tang Mengrao nodded. "Jingwen is right, we can't leave. This room has no time limit, if we leave here we'll be in danger."

Yan Yan wasn't dumb and almost immediately realized what Tang Mengrao meant.

Everyone fell silent, no one wanted to talk at this moment.

Three days later, the place calmed down again. Those cultivators came and left quickly.

It was of course very significant to reach the 36th domain. But so what if he didn't come out? No one cared about a dead cultivator.

Yue Chan worried about Ye Mo but she was also worried about the spirit stones. No one spoke of the spirit stones and she didn't dare to ask. It was as though they forgot people in here had bet.

It was the sixth day and Yan Yan was talking with Su Jingwen when her face changed. She was about to rush out but Tang Mengrao stopped her. "Don't rush, your brother is in the observing palace, that man won't dare to do anything to him."

At the door to the observing palace, Yan Zhenxin who only had an arm and was covered in blood rushed in. Before he could go upstairs, however, someone stopped him. "The observing palace forbids fighting, but it's not a place for cultivators to avoid danger."

Yan Zhenxin ignored this cultivator and yelled to the second floor, "Don't leave here, Xi Zhong Merchant Association is waiting. They want to capture brother Ye's wife!"

Yan Zhendong who was at the first level quickly held Yan Zhenxin and said with red eyes, "It is the Xi Zhong merchant association."

The cultivator ignored Yan Zhendong and said to Yan Zhenxin again, "Please leave, no fighting cultivators are allowed in here."

Chapter 1296: Dried bones

"Let him in, we have the most luxurious room here, why can't he come in? Is there some limit on the number of people who can come in?" Su Jingwen walked out asking coldly.

That guard looked at Su Jingwen and then the luxurious room behind her and thought for a while before moving aside.

Seeing this, Yan Zhendong quickly helped his brother up.

The two pursuers of Yan Zhenxin looked coldly at him and then Su Jingwen and Tang Mengrao before sending news with their communication beads.

Those cultivators outside just saw Su Jingwen and exclaimed, that cultivator's wife was so pretty.

“Zhenxin, who did it? Is it Xi Zhong Merchant Association?” Yan Yan looked at the broken arm and asked angrily.

Before Yan Zhenxin said anything, a cultivator outside the hall doors said coldly, “You’re right, it is the Xi Zhong Merchant Association. How can those who offended us roam freely?”

Then, Yan Yan saw the cultivator at the door, it was Meng Sha.

Meng Sha saw Su Jingwen who wasn’t in the room and suddenly grabbed at her. But his attack was immediately dispersed by another cultivation essence giant hand.

Meng Sha saw a cultivator walk out of a room and saluted with his fists. “Luo vice city lord, why are you doing this? They’re just a few insects without backing.”

Luo Yujian was truth realisation state level two, a little lower than Meng Sha.

Luo Yujian smiled calmly. “I admire the cultivator who went into the 36th domain, plus this is the observing palace. Do you not know people can’t fight here?”

Meng Sha’s face looked bad. “Even the palace lord didn’t come out to stop me, yet you do. It’s very astounding that you stayed here till now.”

Luo Yujian said slowly, “You can ask the palace lord. If he allows fighting here then pretend I said nothing and you can do what you want.”

Meng Sha’s tone calmed down. “In that case, I’ll give you some face but I wonder how long you can stay here for?”

Su Jingwen knew now wasn’t the time to stay outside so she quickly ran inside the room. Even a cultivation essence giant hand wouldn’t be able to reach in, she thanked Luo Yujian and went inside before sealing the formation.”

Luo Yujian saw this and said, "I'm going now, but are you going to attack the room? If you do, I won't intervene."

Then, Luo Yujian walked out and disappeared.

Meng Sha glared coldly at Su Jingwen's room but didn't keep attacking. He said something to the two pursuers of Yan Zhenxin and left.

The two stayed at the door and didn't leave.

....

Ye Mo stopped now, he saw a skeleton in the surveillance formation. The skeleton sat by a dried up pond. There seemed to be some formation marks in the pond. The means were extremely advanced but they weren't purposely hidden. Ye Mo saw that the endless killing chi here was caused by the space kill formation.

After watching carefully, Ye Mo saw that there wasn't just one formation inside the pond. They were all very high level space kill formations. Ye Mo knew he didn't have the ability to set up such formations yet.

Soon, Ye Mo saw that there were two extreme grade spirit range supplying the spirit power. These two supplies were separate and they were part of an exchanging formation. The power supply would switch to another spirit range after a period of time.

This way, the spirit range could digest more spirit chi and thus, even after countless years, the space kill formation wouldn't be ineffective due to lack of spirit chi.

But there was a flaw in this, the instant during the rotation of power supply, the space kill formation would pause momentarily. It was very brief but very hard to grasp. That person had to be at least a top grade formation grandmaster and be watching here constantly.

Ye Mo knew if he could grasp this time, he could damage the unprotected formation heart instantly.

Ye Mo started to calculate the period of spirit range rotation. The time he calculated scared him. It was 49 years for every rotation, did he have to wait for 49 years here?

He calculated more and got the result that the last rotation was 40 years ago. This meant he needed 9 years. He couldn't even wait for 9 months.

In this formation, he could only stay in the Golden Page World. He wasn't able to break it. Ye Mo turned his eyes to the skeleton beside the pond.

The head was looking down. Even in the Golden Page World, Ye Mo could feel the power and loneliness of this skeleton.

Ye Mo sighed, perhaps this person came to the 36 Domains like him. He didn't have the Golden Page World and was a very significant cultivator to be able to reach here. It was a pity he wasn't able to leave.

Ye Mo felt sympathy for this person.

Ye Mo collected his feelings and then saw a jade slip next to the skeleton. Ye Mo moved the Golden Page World over and used a whole day before he took off the jade slip and the storage ring.

Ye Mo scanned with spirit sense and saw there were just a few words. North Far State's Chu Xiaoyi was tricked at Heaven Domain, this domain is a trap.... Chu Xiaoyi from North Far State? Ye Mo had never heard of this name but Ye Mo knew since this cultivator could come here, this person must be very powerful, perhaps even more powerful than Chu Jiuyu – but this person wasn't famous. One could see there were powerful people all over the ancient cultivation realm.

After removing the restrictions in the storage ring, Ye Mo saw at first glance that there were seven immortal crystals. They were exactly the same as the ones he got in the All Herb Mountain Range. Seeing this, Ye Mo took them immediately without noticing the 9 chipped key next to them.

What time difference would be created using these seven immortal crystals?

Ye Mo made a timer with sand in a glass and put it outside the time formation disk. Then he put the seven immortal crystals into the time formation disk without hesitation.

They fit perfectly inside.

The instant the time formation disk was activated, it ran crazy fast. Ye Mo couldn't feel the time formation disk inside it. He quickly closed his eyes and started cultivation.

Chapter 1297: Disaster transformation state tertiary stage

Ye Mo felt slivers of immortal chi seeping out mixed with the spirit chi from the extreme grade spirit range. It was extremely comfortable and he felt his power was increasing rapidly.

When Ye Mo felt the cultivation essence in his body rumble and the meridians broaden even more, he couldn't help letting out a howl.

He was disaster transformation state level seven, Ye Mo rejoiced feeling the powerful and rolling thunder-like cultivation essence in his body.

Ye Mo forgot he was just testing the time formation disk and was shook. He forgot about time in cultivation.

Thinking about this, Ye Mo quickly stopped the time formation disk and left.

He had been inside the time formation disk for three months, but the one day timer still had some sand inside. The ratio was around 100 to 1. This was far greater than 12 to 1 using extreme grade spirit range.

Ye Mo quickly checked the seven immortal crystals. It was a pity that the immortal crystals dimmed down around after just using them for three months time.

If he used these immortal crystals for cultivation, then he would be able to reach truth realisation state middle stage for sure with Truth Carrot Pill. But Ye Mo knew that he had to use them, he just hoped there would still be some left after using them in the time formation disk for nine years.

If he didn't have concerns, he would really want to cultivate here for nine years, but Su Jingwen and them were waiting for him in the observing palace.

Ye Mo controlled the Golden Page World to come to near the formation heart and threw in the time formation disk. The time formation disk landed perfectly and then Ye Mo activated the time formation disk with formation flags.

After the formation was activated, Ye Mo couldn't see the time formation disk anymore. He saw the time formation disk blur.

According to his calculations, since the ratio was 1 to 100, he would need to wait about 32 days outside before the power supply would change. He would stop on the 31st day in case he missed the rotation.

Seeing so much immortal chi being wasted, Ye Mo's heart was aching, but he knew this was the only way out.

The time formation disk kept running but Ye Mo picked up Chu Xiaoyi's storage ring and looked at the 9 chip key.

It was exactly the same as the one he got before. The only difference was it was in much better shape. It was a pity he used the other one or he would be able to compare the two.

He got the 9 chip key and suddenly thought of that Xue Youfeng. He cursed Chu for not keeping the promise, that person was probably Chu Xiaoyi.

He thought that it was Chu Jiuyu but now it seemed he was wrong.

If the person who sealed the formation was really Chu Xiaoyi then it was easy to explain why he never went back.

Chu Xiaoyi sealed that space devouring monster, clearly he was a cultivator with morals. Yet someone like that died here, it made Ye Mo feel sad.

In his death, Chu Xiaoyi realized that this place was a trap. It tricked prodigies in here to kill them. Ye Mo realized that his feeling wasn't wrong before, this place indeed intentionally misled the cultivators here.

Even if it wasn't a prodigy and he left before the 28th domain, he wouldn't be able to get a real understanding of domain.

This place for killing human prodigies clearly wasn't set up by human cultivators.

Ye Mo shook his head and placed the 9 chip fork on the side before looking at the other things in the storage ring.

There were very few spirit stones but there were some spirit crystals, they were all high level. However, all the pills and spirit herbs had turned grey. There were some cultivation artifacts. Chu Xiaoyi had so many immortal crystals and used them to seal another terrifying being, yet he really didn't have much in his storage ring.

There was a pure white jade box on the side, Ye Mo saw half a necklace. It was just a low grade spirit artifact but it was the best kept.

Ye Mo immediately knew that this necklace must've had a special meaning to Chu Xiaoyi. Ye Mo didn't touch it and sealed the jade box. Ye Mo had decided to bring back Chu Xiaoyi's remains when he came out back to the North Far State.

Chu Xiaoyi's last words put North Far State at the front. Clearly, he wanted to go back there.

There was such a powerful cultivator in the history of North Far State but he had never heard of him.

Ye Mo shook his head and carefully put away Chu Xiaoyi's storage ring. He didn't touch anything else inside. He took the seven immortal crystals to save his life, but as for other things, Ye Mo wasn't going to

take them even if there were immortal crystals. He took Chu Xiaoyi's remains and put the storage ring back on his finger again.

Ye Mo had a deep respect for Chu Xiaoyi who sealed off the space devouring demon.

In the remaining time, Ye Mo didn't cultivate but watched the time carefully.

A month passed quickly in cultivation but it was passing very slowly watching the timer. No matter how slow, Ye Mo didn't dare to get distracted at all.

He only had one chance.

At the beginning of the 31st day, Ye Mo took out formation flags watching the surveillance formation constantly. He would stop the time formation disk immediately on the 31st day.

Just when it was time, Ye Mo suddenly paused. He found that his time formation disk stopped running. He didn't even throw out his formation flags. What was going on? The next moment, Ye Mo saw the seven immortal crystals in the time formation disk turn to dust.

The immortal crystals were gone, Ye Mo's mouth was bitter. Seven immortal crystals, he wasted them all on the time formation disk which he didn't even use to cultivate. Ye Mo hated the guy who set this domain up. He would kill that bastard if he could.

Ye Mo didn't even dare to calculate how much time was left as he was scared that the time would pass the moment he was calculating.

Ye Mo didn't even blink his eyes and looked at the space kill formation. He was holding tens of formation flags tightly in one hand while his other hand held Zi Xu.

One day passed but nothing moved. Two days, three days.... 11 days, still nothing.

On the 12th day, Ye Mo's eyes were sore. Not blinking and staring at one place for 12 days, that was uncomfortable even for disaster transformation state cultivators.

Just when Ye Mo was considering whether he should calculate the time, he saw the space kill formation seem to pause for a moment. Without hesitation, Ye Mo dashed out of the Golden Page World.

Chapter 1298: Smash into pieces

Ye Mo dashed out immediately, he was ready to go back to the Golden Page World instantly if he was going to get killed. Getting injured was better than losing his life.

The moment Ye Mo dashed out, he knew he succeeded. There were no space attacks, other than the space binding and pressure, the terrifying death beams didn't move.

It meant his judgement was right, the greatest threat, the space kill formation, didn't move during the exchange of spirit power.

For Ye Mo, it was fine as long as the space kill formation didn't move. His domain was in great completion so the space pressure and distortion didn't stop him at all. He expanded his domain out and they all dissipated like clouds.

Ye Mo instantly threw out tens of formation flags when he left the Golden Page World and released Zi Xu. A purple shadow sliced across the air into the formation heart. At the same time, tens of lightning swords hit the same place. He threw out formation flags to delay the space kill formation. The goal was to buy him some extra time.

Rumble

Rumble rumble rumble

Zi Xu hacked the formation heart and there was a huge explosion. Before the crack could self repair, the arm-sized lightning swords landed on the formation heart.

Before the rumbling sound died down, Ye Mo rained down tens more lightning swords. Soon, the formation heart turned to dust.

Hearing a crack, Ye Mo knew the spirit power supply had finished rotating – but so what? He had already broken the formation heart of the space kill formation.

There were just simulated space distortions here while the space death rays and ripples started to dissipate.

Ye Mo wiped the sweat from his head. He didn't expect the formation heart to be this tough even without defenses. If he didn't use the Lightning Sword for assurance, the power supply exchange would've finished before he broke the formation heart. If this was really the case, then he would have to run back to the Golden Page World.

Luckily he was very careful and completely disintegrated the formation heart to dust.

However, there were still many formation hearts in the bottom of the pond including formation binding, domain simulation. Ye Mo didn't touch the attack formations from 28th to 36th domain.

He took out a jade box and put Chu Xiaoyi's remains inside and left it in the Golden Page World.

After doing this, Ye Mo saw a broken shard below Chu Xiaoyi. He probably used this to block the space kill formation before but now it was torn to pieces.

Ye Mo stood at the pond and looked coldly at all the formation hearts inside. With his formation skills, he could completely remove them all but Ye Mo didn't do this. He wanted to do it the most satisfying way, using Lightning Sword.

Rumble rumble rumble

Black lightning landed inside the pond nonstop. Moments later, the air above the pond was covered in black lightning swords, the more lightning swords Ye Mo used the more he felt satisfied.

The most respectful way for a formation grand master to break another formation grand master's formation was to use his own formation skills without damaging the formation. The most coarse way was to damage it with attacking means making the formation unable to work.

The most insulting way was to smash the formation to pieces.

Ye Mo was doing this the most insulting way, he didn't look at the formation heart and just sent Lightning Sword down. He even let out a recording crystal, recording the whole process.

He knew it was hard to meet the guy who set the formations up but if he did, he would show him this crystal ball.

As he smashed the formation at the bottom of the pond to pieces, the space distortions and domain also disappeared.

Eventually, this area of space turned into an ordinary place. But even so, Ye Mo kept using Lightning Sword until he blasted the bottom of the pond to pieces, there wasn't even half a formation flag left before Ye Mo stopped to breathe.

Now, the first 27 domains weren't damaged but starting from 28th domain, there was nothing left.

Even so, Ye Mo didn't stop here. He shot out tens of formation flags and 15 minutes later, Ye Mo pulled out a huge spirit range from under the ground. This was an extreme grade spirit range. Another 15 minutes later, he pulled out another spirit range.

After putting two extreme grade spirit range into his Golden Page World, Ye Mo finally felt comfortable. Now, he stopped that recording crystal.

Just thinking about how angry this cultivator would be when he saw the crystal ball, Ye Mo felt very good.

Ye Mo went back to the intersection between 36th and 37th domain. The 36th domain appeared again but Ye Mo wasn't teleported out. He came to the 35th domain.

This place became an ordinary place. Ye Mo knew he had to go back to the 27th domain to be teleported out. Ye Mo lost the interest to find the first 27 domains' space formations. It misled cultivators but was still a trial place. He didn't need to damage it.

Not everyone could learn domain, sometimes using cultivation essence to form domain wasn't necessarily bad.

...

In the observer palace, Su Jingwen had cried a few times already. Ye Mo had disappeared for nearly two months. If she couldn't wait for Ye Mo to appear, she would rather die here than be in the hands of Xi Zhong Merchant Association.

Su Jingwen was planning to wait a full year but in just two months, the observer palace told Su Jingwen and them that they had to leave. The reason was simple, in case someone else was to reach 28th domain, there were too few rooms so they needed to reorganize and build more rooms.

Their rooms need to be rebuilt so they had to leave here.

"Impossible!" Hearing this news Yan Yan was furious. "Observer palace has been here for a few hundred years but it has never been replanned. How come we've just come here for three months and it's being replanned? It must be due to the Xi Zhong Merchant Association!"

Tang Mengrao frowned. "The observer palace clearly isn't weaker than Xi Zhong Merchant Association, why would they be afraid of them?"

Su Jingwen had calmed down from her sadness of Ye Mo's disappearance. She hadn't been in the cultivation realm for long but in Ning Hai City, she was managing a big corporation and knew of the battles.

She felt the observer palace didn't need to ruin their reputation for the Xi Zhong Merchant Association. She thought for a moment and asked, "Was it the observer palace who hosted the betting?"

Chapter 1299: What do you dare to do

Yan Yan still didn't react but hearing Su Jingwen ask this, she subconsciously answered, "Yes, these big stakes are usually held by the observer palace itself..."

Yan Yan immediately said in shock, "Sister Jingwen, you're saying we won too many spirit stones from them and thus they..."

Su Jingwen nodded. "It should be right, when Ye Mo was at the 27th domain, the stakes were one to one hundred for Ye Mo getting into the 36th domain. I'm sure we're the only people who bet Ye Mo would be able to get in. Did they lower the odds when Ye Mo went into the 28th domain?"

Yue Chan quickly said, "Yes, sister Jingwen, as soon as martial uncle Ye went into the 28th domain, the odds dropped to 1 to 8."

Su Jingwen nodded. "We bet the one to one hundred and I bet 10 million top grade spirit stones. If they paid us, they would have to pay 1 billion spirit stones. No matter how big the merchant association, it would hurt them greatly. This would be half or even more of their assets."

Tang Mengrao nodded. "That should be it, if we leave the observer palace, the Xi Zhong Merchant Association wouldn't let us go and Jingwen won't be able to live to see another day. There is no way the observer palace will pay us the spirit stones. No reputation is worth 1 billion spirit stones."

"Then what should we do?" Yue Chan held the two betting cards. These two cards had never left her hand.

Su Jingwen frowned. It was death to go out but they had to do so. That city lord Luo Yujian just casually helped them. He couldn't be helping all the time. They could only rely on themselves now.

Suddenly, there was a wave of laughter outside the palace. "Palace Lord Yu wants to rebuild the observer palace, the Xi Zhong Merchant Association decides to support with 3 million spirit stones. The girl in the first room is not bad, hahaha...."

There was a soft voice, “Thank you association leader Meng, the rest of the things has nothing to do with the observer palace. We need to rearrange this place, it has nothing to do with you. Association leader Meng, I won’t be staying for long.”

“No problem, haha...” Meng Sha didn’t seem annoyed at all.

...

When Ye Mo came to the 27th domain, he felt his body become lighter. He looked up and he was already at the place he came in the domains from.

“The girl who stayed at the observer palace is in trouble now. there’s no way association leader Meng will let her go...” one body condensation state didn’t even finish his sentence and he stopped because he saw Ye Mo who suddenly appeared.

Then, he stuttered, “Qian – qian bei, you’re fine...”

Ye Mo frowned and said coldly, “Don’t give me bullshit, what did you mean?”

The other body condensation state was also shocked but smarter. He quickly bowed and said, “Qian bei, after you went into the 36th domain, your dot disappeared. Then, people outside said you died so that Meng Sha is going to look for trouble with your wife. He tried but was stopped by vice city lord Luo. Now, the observer palace is going to be reorganized so they requested your family and friends to leave within a time or they would be kicked out...”

Before he finished, Ye Mo had disappeared.

This body condensation state wiped his head before looking around carefully. “Xi Zhong Merchant Association is finished, Meng Sha is done for, observer palace...”

The first body condensation state reacted quicker this time and quickly pulled the other body condensation state cultivator. “Let’s go quickly and watch the truth realisation state battle...”

Then, he ran off first.

...

In the observer palace, Palace Lord Yu stood at the door and said to Su Jingwen and them coldly, "The observer palace is going to be reorganized. Everyone else has left, you have half an hour. If you don't leave I will forcefully send you away."

"What right do you have to tell us to go? I paid spirit stones, this room has no time restriction," Su Jingwen said coldly.

Palace Lord Yu said in contempt, "There are no more cultivators in the Heaven Domains. You're staying here to hide from your enemies, do we have to wait for you to be done with hiding before we reorganize our palace? You have to leave no matter what. I, Yu Zhongtong, don't have time to talk with irrelevant people, you have 15 minutes left."

This time, before Su Jingwen could speak, an icy cold voice sounded, "What if I don't want to go, what do you dare to do?"

Yu Zhongtong turned around to see the cold faced Ye Mo. He had never seen Ye Mo before but Ye Mo came here silently without him noticing at all.

But Meng Sha was dazed and asked in shock, "You, you're not dead?"

He felt his mind go blank, Ye Mo wasn't dead, what was going on? If Ye Mo wasn't dead it meant he had to die. He brought this on himself, the first time Ye Mo didn't kill him but yet he had to cause trouble again.

"Ye Mo..."

Su Jingwen flew into Ye Mo's arms as soon as she saw him. The helplessness disappeared.

“Wuwu, I knew you were fine, I knew it....” tears flew out of her eyes uncontrollably. If possible, she really didn’t want Ye Mo to go those dangerous places but Su Jingwen knew that it was impossible. Only powerful people could talk and survive in the cultivation realm.”

Ye Mo thought of the moment when Su Jingwen first invited him to dinner. At that time, he had never thought Su Jingwen would cry. But ever since she came with him, this wasn’t the first time he saw her like this.

It was that time that Su Jingwen said to him, “I’m older than you, you can call me sister Jingwen.”

“Sister Jingwen!” Ye Mo called out feeling warm in his heart.

Su Jingwen was dazed and immediately thought of the same memory.

Ye Mo knew how she was feeling and patted her back staring and then stared coldly at Meng Sha who tried to leave. “You want to go?”

Meng Sha shivered and quickly saluted with his fists. “Ye qian bei, it was a misunderstanding I was coming back to explain to you.”

“You knew I would come out?” Ye Mo’s voice grew colder.

Su Jingwen felt Ye Mo’s killing intent and came out of his arms silently walking behind him. She detested this Meng Sha from the bottom of her heart.

“Brother Ye!” Yan Zhengxin and them walked out of the room too. They knew they were saved now that Ye Mo was here.

Ye Mo looked at Yan Zhengxin’s shoulder and asked, “What’s this?”

Meng Sha said before Yan Zhengxin could, "My Xi Zhong Merchant Association's people had a conflict with him. They accidentally hurt his shoulder, I came to apologise. I didn't expect Ye qian bei is fortunate to be fine, this is great."

Su Jingwen looked at Meng Sha in contempt and said, "Ye Mo, kill him."

Su Jingwen rarely had any killing intent and would never ask Ye Mo to kill someone. But Meng Sha insulted her. She knew if Ye Mo didn't come out, she would be in a situation worth than death at his hands.

Meng Sha shivered and pulled out the crescent blade. He knew that it was impossible to escape from Ye Mo.

Finally, Yu Zhongtong realized that this young man was the person he was trying to kick away, the cultivator who went into the 36th domain. His face began to spasm when he saw he couldn't see Ye Mo's power level at all.

He began to regret now, he shouldn't have cooperated with Meng Sha.

At this time, Meng Sha suddenly said, "Palace Lord Yu, we're on the same side now. If I die, you won't be doing very well either. The best thing is to join forces."

Chapter 1300: Kill truth realisation state

Yu Zhongtong thought, he was truth realisation state level six and Meng Sha was truth realisation state level three. If they joined forces, Ye Mo might really have some concern. However, he immediately saw the scorn in Ye Mo's eyes and was shook.

He felt Ye Mo heard the sound transmission between the two. So Yu Zhongtong didn't dare to move. This young cultivator definitely was a truth realisation state peak stage being to be able to hear truth realisation state sound transmission.

In fact, Ye Mo would be quite concerned if Meng Sha and Yu Zhongtong joined forces. He wasn't by himself. Even if he was, there would be quite some pressure to face a truth realisation state primary stage and middle stage cultivator.

While Yu Zhongtong was hesitating, Ye Mo hacked out with Zi Xu and Illusion Cloud Formation Kill Strike without hesitation.

Meng Sha knew Ye Mo's power and took things seriously, before Ye Mo even attacked, he used crescent blade to send over a dense clutter of red killing rays towards Ye Mo.

With Meng Sha's full powered attack, the force of the crescent blade seemed dominating. The red killing rays came in waves. Even Yu Zhongtong was shook, he was prepared that if Meng Sha could hold on, he would attack Ye Mo as well, but if Meng Sha couldn't stand off at all, he wouldn't move at all.

Meng Sha also used a low grade cultivation artifact shield on the side. He thought that even if Ye Mo was truth realisation state peak stage, the killing ray of the crescent blade would make Ye Mo concerned or retreat a little. Then, during that time, he would risk getting injured to capture Su Jingwen.

If he had no hostage, he would be killed by Ye Mo for sure.

But soon, Meng Sha felt something was wrong. He released his shield but it floated slow like a feather in the sky.

The next moment, he felt his domain crumple and when he could react, he was completely in Ye Mo's domain. He seemed to be swallowed by a swamp and couldn't move much.

That heaven covering purple ray swept over and Meng Sha was shook. If this continued, he would be instantly disintegrated.

Meng Sha burned his essence blood like crazy wanting to escape from Ye Mo's domain. He was certain he had never seen a domain this powerful. This wasn't great completion, this was beyond it.

Thud thud thud

Yu Zhongtong just realized that Meng Sha's crescent blade and the red beams clashed on an octagonal cauldron that appeared above Ye Mo's head. It couldn't hurt Ye Mo at all.

The first time Ye Mo fought Meng Sha, Ye Mo didn't even use the octagonal cauldron and completely defeated Meng Sha. Now that he was disaster transformation state tertiary stage and his domain was in great completion, he used the octagonal cauldron instead.

This wasn't to say he grew weaker but this fight was completely different. Last time, Meng Sha didn't take Ye Mo seriously at all and didn't use his full power. It was normal he was almost killed by Ye Mo. This time, Meng Sha treated Ye Mo as someone more powerful than him and that used his full power.

Ye Mo still chose to use the octagonal cauldron against a full powered truth realisation state level three.

The difference between a disaster transformation state and truth realisation state was huge, only an absurd cultivator like Ye Mo could ignore the difference.

Meng Sha barely broke free from Ye Mo's domain and but was swept away by countless purple sword rays.

The shield was smacked away by the purple ray.

Illusion Cloud formation Kill Strike had formed. No matter how powerful Meng Sha was, there was no going back. With a splurge, blood arrows shot into the air.

Meng Sha watched his body get devoured by the killing rays and when it ravaged his body, he suddenly realized and looked at Ye Mo with extreme shock. "You, you're disaster..."

How could Ye Mo let him say disaster transformation state? Zi Xu spun and Meng Sha's essence spirit was killed.

Ye Mo waved and a storage ring disappeared into his hands. This was the first time he killed a truth realisation state cultivator head on. Even if he wasn't a truth realisation state cultivator, he was at the peak of Luo Yue cultivation world now.

Yu Zhongtong looked dazedly at the bloody mist Meng Sha had become. Meng Sha had never been afraid of anyone in the Heaven Domains. He was on good terms with the Xing Cultivator Association Leader, so even the vice city lord paid his respects to him. Yet this guy was killed in a few moves. This was too scary!

This absurdly young cultivator killed Meng Sha so easily, just who was he?

Ye Mo looked at Yu Zhongtong calmly and said, "Palace lord Yu, the big hotel abuses the clients. I seemed to see that your extreme grade luxury room has no time limit, how come I just went out for a spin and you're kicking people away? Are you full of shit or is the observer palace full of shit?"

Yu Zhongtong shivered and remembered that he also offended Ye Mo. With Ye Mo's display of power, he was done for if no one helped him.

Yu Zhongtong couldn't control himself sweating, why did he offend someone like this? If someone else dared to say he was bullshitting, he would've crushed that person to pulp, but he didn't even dare to argue back to Ye Mo.

However, he knew he had to answer back to Ye Mo so he saluted with his fists respectfully and said, "Ye qian bei, wan bei was too rude to chose this time to reorganize the observer palace. But it was due to qian bei being too amazing before, you went into the 36th domain. This squeezed up the observer palace, it's my bad this time, please forgive me. The observer palace is willing to compensate Ye qian bei's losses."

Ye Mo was furious but he didn't plan on killing Yu Zhongtong.

Even if he killed Yu Zhongtong now, it wouldn't change the fact that the cultivation realm was survival of the fittest.

Plus, Yu Zhongtong was a truth realisation state middle stage master, this was very rare no matter where. He killed Meng Sha already, if he killed Yu Zhongtong, it might make the West Cultivator City unhappy.

Just when Ye Mo was planning to make Yu Zhongtong compensate, Yue Chan suddenly said, "Martial uncle Ye, the observer palace owed us more than 1 billion spirit stones but they still haven't given them to us now. I suspect that they want to kick us out so they can keep the spirit stones and let the Xi Zhong Merchant Association annihilate us."

Yu Zhongtong's face looked bad upon hearing this, he knew that he had successfully aroused the killing intent of Ye Mo.

Yue Chan explained, "Sister Jingwen bet 10 million spirit stones on you getting into the 36th domain when the odds were 1 to 100. Now, not only did they not pay us what we won, we didn't even get our original money back."

"Is that so?" Ye Mo's killing intent surged again. Yu Zhongtong felt he was like a shaky boat in a blizzard under such intense killing intent.

"Qian bei please calm down, wan bei didn't intend to take the spirit stones, wan bei was planning to give them the spirit stones after they came out," Yu Zhongtong quickly said seeing that Ye Mo was about to attack.

He knew that if Ye Mo attacked, it would be fast like lightning and never ending like rain.

Ye Mo knew Yu Zhongtong was lying so he sneered and released Zi Xu.

"Ye qian bei please hold up, West Cultivator City's Luo Jianyu greets Ye qian bei." Someone quickly dashed here.

He wasn't tall and looked a little scholarly.

Seeing this, Ye Mo didn't dare to be rude and also saluted with his fists. "City lord Luo, I don't dare to be called qian bei, just call me Ye Mo."

Ye Mo was very grateful to this Luo Yujian. He heard that this Luo Yujian saved Su Jingwen and them the first time.
