Chapter 1311: Seal flag inside the sand sinkhole

Cha Qizhao continued explaining, "The demon realm entrance is the furthest from here. Even with an extreme grade flying cultivation artifact, it would take half a year to reach it. No one has said to be able to return from the demon realm entrance. The blue sand ditch is at the north of the Sand River. It's an area of about a few hundred square kilometers. The sand there is all blue, even the sky there is blue, no one can go near there. The temperature there is like a furnace. Those cultivators who near there are all burned to death, even truth realisation states can't get near there."

Ye Mo was shook, the blue sand place was this terrifying! Even truth realisation state cultivators couldn't go in.

Cha Qizhao continued, "The sand near there has been baked to stone, it's very tough and it's said that the stones can be used as magic artifacts, with its toughness on the same level with cultivation artifacts."

Ye Mo asked in confusion, "If the temperature there is this high, what is causing it?"

Cha Qizhao shook his head. "I don't know, but it's said that the number one flame of the cultivation realm Blue Like Morning Sky is there, but no one has been inside so no one is certain if the flame there is Blue Like Morning Sky. But I don't think it is, when the Blue Like Morning Sky appears, then entire realm's sky would be azure. How can it appear in a sand ditch only a few hundred kilometers long? Plus, even if the Blue Like Morning Sky appeared, there wouldn't be such a terrifying temperature."

Ye Mo didn't speak but he didn't think so. When the Blue Like Morning Sky appeared, the entire realm turning azure was only a legend. He didn't believe a flame that wasn't in great completion could cause an entire realm to be azure. That was too absurd. The blue sand ditch's phenomena sounded to be the Blue Like Morning Sky. But since other people couldn't go in, it was very hard for him to go in too. He had decided to check it out after he dealt with the seal.

Blue Like Morning Sky was the number ranked flame in the cultivation realm and the number three ranked flame in the universe.

The reason it was ranked third was not because it was weaker than the first and second, but because there was no number one flame. From the second to tenth of heaven flames, no matter which flame devoured Astral Flame Marrow, it could immediately become the number one heaven flame. The heaven flame's name was named according to the user.

Many names were already chosen. If Blue Like Morning Sky devoured Astral Flame Marrow, usually it would be called Astral Blue Flame.

If two top ten heaven flames both devoured the Astral Flame Marrow and encountered each other, they would devour each other. The victorious one would be the number one flame in the universe.

The Astral Flame Marrow was even rarer to get than the heaven flame. It usually appeared in space fissures or the void.

Ye Mo saw Xie Zhengshi's face wasn't too natural when Cha Qizhao spoke of the blue sand ditch.

"What's that sand sinkhole?" Ye Mo asked.

Cha Qizhao nodded. "It's much better than blue sand ditch, it's much smaller too. It's only a few kilometers across. This place is always a sand sinkhole. The sand there formed an eddy, any cultivators who nears there is swept away."

Ye Mo frowned, if the seal flag was in the eddy then it would really be troublesome.

He knew there was no way but he had to go see, immortal ascension also concerned him.

...

They didn't fly slow nor fast as Ye Mo wasn't sure of the exact location of the second flag.

Five days later Ye Mo saw the sand sinkhole. He hoped the seal flag wasn't here, but the final conclusion he got was that the second seal flag was in the sand sinkhole.

Although they were still a few kilometers from the sand sinkhole, they could see the huge whirlpool. It seemed very spectacular but lethal at the same time.

The eddy made a whimpering sound that was very ear blasting even a few kilometers away. This wasn't it but Ye Mo felt a powerful suction force sweeping around his body. It was as though if he loosened his mind a little and the powerful suction would take him into the sand.

"Brother Ye, what should we do if that seal flag is really in the sand sinkhole? We can't get close to it at all." Cha Qizhao said worriedly.

Ye Mo looked at Xie Zhengshi and asked, "City lord Xie, what do you think we should do?"

Xie Zhengshi looked at the sinkhole and frowned. "I don't have a good idea either, but it's not impossible for us to get close to the sinkhole. We can set up a counter rotating formation and reduce the spin of this sinkhole to the lowest, then we can near it. But that's only getting near it, it's not practical to go in and search for the seal flag. And we still need more people to set up this rotation formation."

Cha Qizhao asked in confusion, "City lord Xie, aren't you and brother Ye both formation grandmasters? How come you need more people? Do you not have spirit source? If not, I have a lot of top grade spirit stones and some extreme grade spirit stones."

Xie Zhengshi shook his head. "Brother Cha, that's not the problem. The rotation formation won't be able to run on top grade spirit stones, extreme grade spirit stones are good but you probably don't have that much. The reason it's hard to set up is because there is no level nine formation grandmaster. This formation is a level nine peak formation. I have an extreme grade spirit range for spirit source but I have no way to set up the level nine peak formation."

"What? You need a level nine formation?" Cha Qizhao took in a cold breath. There was only one level nine formation grandmaster in West Extreme State and that was the old mountain lord of the Snow Forest Pond, but he had been in solitary cultivation for more than 100 years.

Ye Mo smiled. "I agree to city lord Xie's idea, it's perfect that city lord Xie has spirit source, but I can set up this counter rotating formation. When it's ready I will go into the formation, just help me guard it city lord."

The other two were dazed for a while before saying at the same time, "You're a level nine formation grandmaster?"

Ye Mo nodded. "That's right, I'm a level nine formation grandmaster."

Xie Zhengshi took a cold breath in and then bowed to Ye Mo. "I thought brother Ye was at most a level eight formation grandmaster like me. Sorry for any offense before, please don't mind."

It was quite hard for him to say this as truth realisation state peak stage and city lord of West Cultivator City. One could see how important immortal crystals were to him.

Cha Qizhao didn't understand why Xie Zhengshi said this, but Ye Mo knew that Xie Zhengshi was apologizing for trying to ambush him before.

Ye Mo waved his hand. "Immortal ascension is very important to me as well. But I don't have enough materials, would you have some materials city lord Xie? I need to make formation flags."

He had more than enough for the flags, but if he could use this opportunity to collect materials from Xie Zhengshi, why not?

Cha Qizhao also took out large sums of materials.

Ye Mo sighed, the West Extreme State cultivators were really wealthy. He took all the materials and then set up a restriction a little further away to make formation flags.

Two days later, Ye Mo came out and saw the two waiting for him.

Ye Mo gave a part of the formation flags to Xie Zhengshi and said, "I'm going to set up the counter rotation formation, release the spirit range first. When I'm done with the formation, I will go into the sinkhole immediately and you can help me control the formation, I will go break the seal flag."

Xie Zhengshi nodded, he didn't have the ability to go in so he had no choice.

He waved and a huge spirit range appeared. Even Ye Mo was a little tempted. This was a perfect extreme grade spirit range, he wondered where Xie Zhengshi got this from. As soon as it landed, the spirit chi around here became abundant.

Chapter 1312: Break the Seal Flag

The extreme grade spirit range landed on the sand and Xie Zhengshi threw out tens of formation flags, pinning it down.

Ye Mo set up a spirit providing formation on the spirit range first and then rapidly flew around the huge sand sinkhole, setting up formation flags.

When Xie Zhengshi saw that Ye Mo placed all the formation flags in the void, his eyes began to flicker. Of course he had heard of void formation flags, they were an extremely difficult means of setting up formations that he couldn't use yet.

It was already very shocking to know that Ye Mo was a level nine formation grandmaster, but he didn't expect Ye Mo to be able to set up void formation flags so smoothly. This formation skill was clearly near level nine peak. He really didn't understand how Ye Mo learned. He even wanted to ask how old Ye Mo was – was he an old monster who had lived millenniums?

Cha Qizhao was dumbfounded. In his eyes, Ye Mo was now almighty. He could easily kill the shadows that he couldn't do anything about and set up level nine formations so casually.

Ye Mo darted above the sand sinkhole and threw out formation flags. Each formation flag seemed to have powerful dimension waves. Although the formation hadn't formed yet, Xie Zhengshi and Cha Qizhao could feel that the space around here changed greatly.

One day passed quickly and the two who were watching Ye Mo set up the formation suddenly felt the earth below them shiver. The two heard a heavy rumble and the extreme grade spirit range exploded a milky white stream of spirit chi out into the sand sinkhole.

Moments later, another crack sounded and a counter rotation formation was formed. The spinning sands slowed.

The two rejoiced seeing the formation was set up. Cha Qizhao was left outside to guard the formation while Xie Zhengshi went inside the formation to guard it for Ye Mo.

At the same time, Ye Mo scanned with spirit sense into the sand sinkhole. It was still spinning rapidly and had a pull on him, but it was far weaker than before. However, he still couldn't scan his spirit sense in. It disappeared immediately.

Xie Zhengshi could see the huge sinkhole, but Ye Mo was gone. He admired Ye Mo, even he didn't dare to go in such a sinkhole. Ye Mo's power was higher than his, but he was at most truth realisation state peak stage – could he be an immortal?

...

When Ye Mo came in, he felt the powerful pulling force trying to pull him away as though taking him to the depths of the earth. There seemed to be a sinkhole within a sinkhole, there were countless layers.

Ye Mo felt an extreme sense of dizziness. In this extreme dizziness, he couldn't even stand properly, much less break the seal flag.

But he wasn't worried now, he wasn't a Mr. Nood Guy. Although he was sure that Xie Zhengshi wouldn't impede him, he still took some precautions.

Ye Mo didn't fully use the power of the counter rotation formation, he spirit treasured up tens of hidden formation flags. He learned these from the Ice God Forbidden Grounds.

The main purpose of this was to set up a counter rotation formation inside the sinkhole. It would use the same spirit source as the formation outside but Xie Zhengshi wouldn't be able to see it. If Xie Zhengshi wanted to see inside the small counter rotation formation inside the sinkhole, he would have to go inside the sinkhole. Ye Mo didn't believe Xie Zhengshi had the guts to do so.

Ye Mo also knew that he needed to set up this counter rotation formation rapidly or he might be swept away by the sinkhole.

In fact, he didn't even need to move and the sinkhole spun him around a few times, faster and faster. It was as though the next moment, Ye Mo would disappear into the ground.

With Ye Mo's power, he could only barely keep his consciousness, but in that time, Ye Mo had already set up the formation. As he threw out the controlling formation flags, the formation would close.

The next moment, Ye Mo slowed down and the spinning sand didn't have much effect on him. He stopped and saw clearly what was around him

This was a huge sand ditch, inside the ditch was sand as well.

There was nothing at the sand in the bottom and Ye Mo knew that even if he went up and down a few times he wouldn't be able to touch anything.

The seal flag was a hidden space seal flag. Even if it was here, he wouldn't be able to see it with his eyes and spirit sense. He had to reveal the seal flag first.

So when the spin slowed down, Ye Mo immediately released Zi Xu and hacked at the space around here.

Zi Xu hacked across a ten meter long area and the cultivation essence was blocked. A light pillar was gradually revealed and there was an 8 trigram disk in the middle. There were thousands of immortal crystals around it and they all seemed very vibrant, but Ye Mo felt there were less immortal crystals than the first ones, and lower quality too. It was the same quality as the ones he got from Chu Xiaoyi.

Ye Mo went in and set up a barrier formation first before hacking out with Zi Xu, he didn't have a way to solve the seal so he couldn't only attack with force.

Tens of hacks later, the spirit chi of the seal flag destabilized and Ye Mo went into the Golden Page World at this moment. Suddenly, a huge explosion sounded.

The two outside felt there was a problem with the sinkhole. There seemed to be intense spirit chi waves but they didn't know what was wrong. The explosion and sounds were blocked out by Ye Mo's barrier formation.

Before the explosion dissipated, Ye Mo appeared beside the seal flag again and he saw black chi seeping out.

It seemed every seal had such demonic chi and Ye Mo never planned to let them leave the sinkhole.

He released Mist Lotus Heart Fire, Heaven Flame Nine Suns.

A red sun appeared above Ye Mo's head and shone clearly in the ditch. The black mist that seeped out dissipated under the sun.

Ye Mo didn't stop attacking however, he released Zi Xu to attack the formation again. He knew that the greater the damage dealt to the seal flag, the quicker the crack would open.

The second explosion sounded and Ye Mo went into his Golden Page World.

Moments later, Ye Mo came out and didn't attack the seal flag again. After two explosions, the period of this flag was probably only one day. He could wait that long.

One day later, Ye Mo went into the pillar like last time. With past experience, he calculated the location of the next seal flag in six seconds. At the same time, he threw out formation flags and sealed the 8 trigram disk. Then, he used his octagonal cauldron to shield 100 immortal crystals before hacking again.

A huge sound came and the 8 trigram disk cracked.

The moment Ye Mo went in the Golden Page World, he knew the second seal flag was broken. This time, it was completely crippled.

Moments later, Ye Mo left the Golden Page World. The 8 trigram disk was protected by formation flags, so it didn't dissipate into the void but remained here.

As for the 100 immortal crystals the octagonal cauldron protected, only 11 remained.

The immortal crystals were indeed much worse in quality, but Ye Mo was already very happy. He sent them into his Golden Page World before taking away the octagonal cauldron and barrier formation flags. He couldn't be bothered taking the counter rotation formation flags.

...

"This fast?" the two exclaimed.

Cha Qizhao asked desperately, "Brother Ye is the seal broken?"

Just when Ye Mo wanted to answer, he felt a tremor below like an earthquake. Suddenly, something seemed to have exploded.

Ye Mo released Blue Moon and said, "The seal flag here is gone, the next one is at the place of the explosion, let's quickly go see."

Ye Mo didn't mention the immortal crystals and the two were embarrassed to ask Ye Mo about them.

Chapter 1313: Disaster transformation state peak stage

Tens of thousands of kilometers were nothing for the three and they arrived quickly.

There was a bottomless ravine before them. Although lots of sand was flowing back in, it wouldn't be filled in a short time.

Cha Qizhao looked at Ye Mo in confusion. "The third seal flag is in there?"

Ye Mo nodded. "That's right, the third seal flag is here, but I don't know why it suddenly exploded..."

Suddenly, they felt more waves of tremor beneath their feet. Then, another explosion sounded.

"The seal flag exploded again? Did you touch something inside the second seal flag?" Xie Zhengshi asked.

Now that Xie Zhengshi asked this, Ye Mo immediately realized what was going on. The seal flags were set up so West Extreme State cultivators couldn't achieve immortal ascension. There were substitute seal flags, but he completely broke the second seal flag and took 11 immortal crystals. Would that affect the third seal flag?

When the powerful being set up the formation, if someone could find the second seal flag and take the contents then he would be able to take all the other seal flags. Thus, he set up this mechanism to destroy all the seal flags.

This way, that person wouldn't be able to get more immortal crystals.

Then, there were a few more explosions. Ye Mo knew that he didn't need to keep finding seal flags.

Cha Qizhao looked at Ye Mo with uncertainty. "Brother Ye, those tremors..."

Ye Mo frowned, "I'm not certain but they probably self destructed. I don't know the reason why."

Of course he knew the reason, he took the immortal crystals but he wasn't going to explain.

He could easily beat Cha Qizhao, but against Xie Zhengshi, he didn't have any confidence. He believed he would probably lose. If he didn't run, he might even die.

Just when they were confused, Xie Zhengshi said in surprise and joy, "I sense the time for immortal ascension, it's within half a year."

Hearing this, Ye Mo immediately realized that this seal really sealed the entire realm. Now, he accidentally broke it.

Cha Qizhao was dazed and immediately rejoiced. "Congratulations city lord Xie, you can finally ascend into the immortal realm."

Then, he took out a messenger flying sword and set it out.

After that, Cha Qizhao looked at Ye Mo. "The messenger flying sword works now, what happened before?"

"It was probably caused by the seal or something. I don't know," Ye Mo said.

He was thinking whether to go back to West Cultivator City first or blue sand ditch.

But at this moment, Xie Zhengshi looked at Ye Mo in shock. "Brother Ye, you – you're only disaster transformation state level seven?"

Ye Mo's heart sunk. He didn't expect that Xie Zhengshi actually saw his real power. He wasn't on alert and Xie Zhengshi sensed the secrets of the world when he felt the immortal ascension and thus saw through his Three Birth Chant.

Ye Mo smiled and saluted with his fists. "I'll be going first, we can talk in the West Cultivator City."

Then, Ye Mo disappeared on Blue Moon. It was better to give an ambiguous answer.

If Xie Zhengshi didn't see his power, he could have stayed, but now that he did, he wasn't going to stay with Xie Zhengshi. Xie Zhengshi was too calculated and he guessed that he took the immortal crystals in the second seal flag.

Who didn't want immortal crystals, especially Xie Zhengshi who was about to ascend?

“Why did brother Ye suddenly leave?” Cha Qizhao looked in Ye Mo’s direction in confusion. “City lord Xie, it’s lucky we have brother Ye, if he wasn’t experienced in formations, this seal flag wouldn’t be broken. By the way, what did you mean that brother Ye was only disaster transformation state tertiary stage? Brother Ye is definitely truth realisation state tertiary stage.”

Xie Zhengshi smiled. “I probably saw wrong. By the way, I also need to get back to prepare for immortal ascension. Let’s say goodbye here.”

Then, Xie Zhengshi got on a top grade flying cultivation artifact and darted off.

Chao Qizhao looked in Xie Zhengshi’s direction and shook his head. He also took out a flying cultivation artifact and left towards the exit.

...

After Xie Zhengshi left Cha Qizhao’s spirit sense range he immediately changed directions and chased in Ye Mo’s direction.

He was certain Ye Mo was only disaster transformation state. No matter how powerful a disaster transformation state was, he would be no match for a truth realisation state peak stage.

He was desperate to find Ye Mo just as Ye Mo guessed.

He didn’t believe Ye Mo didn’t have immortal crystals in his hands.

For a cultivator about to ascend into the immortal realm, the attraction of immortal crystals was unimaginable.

He believed that with his power, there was no problem in catching up to Ye Mo.

But three days later, Xie Zhengshi was completely disappointed. He had completely lost track of Ye Mo. It was as though Ye Mo never appeared in the sands.

...

Ye Mo's Golden Page World had sunk to the bottom of the sands while he was cultivating in it.

He had sunk seven immortal crystals into the time formation disk and the time formation disk spun rapidly while Ye Mo sat above the extreme grade spirit range holding an immortal crystals.

He was planning to get to disaster transformation state peak stage when he got back, but since Xie Zhengshi saw his power level and had bad intentions. Ye Mo changed his mind.

Even though Ye Mo was using low grade immortal crystals, the density of the immortal chi was shocking.

The dense spirit chi swirled above Ye Mo's head with some immortal spirit chi. They were all devoured by Ye Mo, not a single strand was wasted.

Ordinary cultivators would've been burst open by this much spirit chi, but with the Three Birth Chant, the spirit chi quickly turned into cultivation essence.

Two months later, Ye Mo reached disaster transformation state level eight, six months later, Ye Mo reached disaster transformation state level nine. 12 months later, the immortal crystals cracked and turned to dust. Now, Ye Mo was disaster transformation state level nine peak.

12 months of cultivation and one immortal crystal was gone, and this was the immortal crystals being used as a supplement. If he completely used immortal crystals, tens would be gone.

However, the immortal crystals on the time formation disk weren't used up much, only a little bit. 12 months cultivation had passed in the time formation disk but only three or four days passed outside.

Ye Mo knew the power of the Three Birth Chant, as long as he had cultivation resources, he could cultivate very fast. Without it, he was the worse than the worst spirit root.

The higher level spirit chi he used the faster he progressed. Even if he had a bottleneck, a pill would help him get through. But the amount of resources he needed was so terrifying that even a few 9-star sects wouldn't be able to stand it. Which sect could let a sect member use an extreme grade spirit range to cultivate, and more than one at that? And to eat level eight pills like peanuts and use immortal crystals?

Ye Mo still had three more immortal crystals left excluding the ones in the time formation disk. He believed these were enough for him to reach truth realisation state level three. The more he progressed the more spirit chi he would need.

The spirit chi he needed to reach from truth realisation state level one to level two might be ten to a hundred times that of disaster transformation state level eight to level nine.

Chapter 1314: One divine damnation arc

Disaster transformation state peak stage, he didn't need to keep cultivating anymore. But Ye Mo didn't stop the time formation disk, he still needed to concoct pills.

The main thing he needed to concoct now were truth spirit pill and truth carrot pill.

Both were pills to break through to truth realisation state. Ye Mo concocted two cauldrons of truth spirit pill and for the second cauldron, he even concocted 5 special grade truth spirit pills. He also concocted one cauldron of truth carrot pill, three top grade and three special grade.

If he could even concoct special grade truth carrot pills, this meant that he was a solid level nine pill king.

He put away the time formation disk and left the golden page world. Ye Mo appeared in the boundless sands again. He was going to have his truth realisation state divine damnation here.

For cultivators, those who don't become truth realisation state are still insects. Below truth realisation state, all cultivators were insects. The reason Ye Mo could fight with truth realisation state was because his Three Birth Chant was too powerful or perhaps he hasn't encountered a powerful truth realisation state cultivator.

This time, Ye Mo didn't use a large pile of spirit stones and set up spirit gathering formation like before. He just took out a spirit range. Only Ye Mo would use an extreme grade spirit range for divine damnation.

Ye Mo didn't dare to put it at the place of the divine damnation, he placed it outside and setup a spirit attraction formation.

He was certain that his truth realisation state divine damnation would be absurdly ferocious. If the extreme grade spirit range was too close, it would be broken. It could still be used but its effects would be greatly reduced.

After setting up the formation, Ye Mo ate a truth carrot pill and used Three Birth Chant at full power.

The spirit chi of the extreme grade spirit range rushed over to Ye Mo like crazy and instantly formed eight huge spirit chi whirlpools.

Ye Mo found that his disaster transformation state peak stage cultivation essence was still growing and his meridians were still expanding.

As Ye Mo devoured more and more spirit chi, the spirit chi whirlpool grew bigger covering the sky above him completely.

Rumble. The sky suddenly darkened. Ye Mo knew this wasn't his divine damnation as it was about to rain.

He was having truth realisation state divine damnation during a thunderstorm.

In order to reduce the power of the divine damnation, cultivators usually wouldn't chose a rainy day.

But Ye Mo wasn't shocked at all, he hoped his divine damnation would be more powerful. He was instead thinking why didn't he think of having divine damnation in a thunderstorm before.

Lightning crackled and the sky grew darker but Ye Mo just wanted to bring thedd down.

Crackle.

Pea sized rain drops fell and grew bigger and bigger until forming a dense veil of rain but the divine damnation still didn't come.

Ye Mo was very confused, before the divine damnation would come in half an hour to a few hours but now, it has been one day but there was nothing but this heavy rain.

Ye Mo was in no rush but after another six days, Ye Mo felt he was still converting spirit chi to cultivation essence but there was still no divine damnation. He ate another truth carrot pill thinking perhaps one wasn't enough.

With this, more powerful cultivation essence rose up in his dan tian filling up his meridians immediately. That burning sense and the confinement made him want to break free. He knew if he broke free, the heavens would sense it.

The divine damnation was about to come, Ye Mo rejoiced.

But Ye Mo was disappointed that after he broke free a few meridians and was about to sense the divine damnation, it dissipated. His cultivation essence spirit chi was blocked at major meridians and that connection with the heavens was severed.

What was going on? Ye Mo began to worry, he felt things weren't right. He still had more truth carrot pills but only four left. Thinking about this, Ye Mo took a truth spirit pill and ate it. it was similar to the truth carrot pill but the spirit chi wasn't as pure as the truth carrot pill. just like before, it was just a little bit from bringing down the divine damnation.

Ye Mo frowned. He thought of his body condensation state divine damnation, although he reached body condensation state but it didn't feel comfortable. It was as though his divine damnation stopped half way. This time, he can't even bring the divine damnation here.

However, the rain grew heavier and rained non stop. But no matter how much rain befell the desert, it disappeared immediately.

Ye Mo didn't stop there. He took out another truth spirit pill. he had 18 pills altogether, he didn't believe that was enough to bring a divine damnation.

Now, there was even wind. The ferocious wind started a sand storm.

Ye Mo didn't move at all and ate the 5th truth spirit pill... then 6th, 7th.... When Ye Mo ate the 8th one, he felt his meridians clear up.

That barrier between the heavens and earth broke and an extreme sense of satisfaction was felt. Ye Mo was shook, he knew his divine damnation was about to come.

Now, it started hailing ice bulbs the size of fists. Ye Mo felt the space around freeze to the bone. It felt like the ice god forbidden grounds and it was getting colder and colder.

The hail mixed with the thunder seemed so incoherent.

Was this winter lightning? Ye Mo knew this was all related to his truth realisation state divine damnation.

He really wanted to know what terrifying divine damnation he was going to have.

The sky above him was completely black now as though splashed with ink.

Crack.

A vibrant lightning dashed across the sky and rained down.

Ye Mo thought there would be at least 36 arcs.

But when this one rained down, Ye Mo knew he was completely wrong. There was just this one arc.

Just one arc but Ye Mo's face was pale. He lost his composure. It was just one arc but it was the size of a bucket. It was pale blue and rained down from the horizon instantly. Before it landed, he felt a lethal threat.

That's right, lethal threat. His Three Birth Chant gave him extreme sixth sense. he knew that if that lightning arc landed on him, he would be immediately killed.

Before he could think, he released two low grade cultivation artefact shields and the octagonal cauldron. Then, he used his cultivation essence to the max and shot out lightning sword.

Crack.

The two low grade cultivation artefact dissipated like paper and didn't even leave some dust. However, the lightning arc's intense killing intent wasn't hindered at all.

Ye Mo cursed.

Rumble.

He shot out tens of lightning sword and combined together, they were bucket sized but they were useless facing against that terrifying blue lightning arc. They were crippled instantly.

Luckily, after that, the lightning arc shouldn't be as powerful as before. Even so, it was still very powerful.

Rumble.

Another huge explosion sounded, the lightning arc struck octagonal cauldron creating a huge vibration before being sent off a few kilometers away.

The lightning arc still wasn't done yet. The remaining blue arc completely fell on Ye Mo.

Chapter 1315: Power of truth realisation state

Crack, Ye Mo's low grade cultivation artefact was instantly ripped apart and his flesh flew off his body.

Ye Mo spat blood many times but didn't use any recovery pills. He used Three Birth Chant to the extreme. He was so heavily beaten but didn't devour any lightning power at all. If he didn't use his time quickly to absorb this lightning power, when the next divine damnation came, he would be dead for sure.

The little remaining lightning power was devoured completely by Ye Mo. This instant, Ye Mo felt his cultivation essence rise drastically. Without hesitation, Ye Mo took out another truth carrot pill and ate it. he devoured the spirit chi of the spirit range like crazy and even took out two immortal crystals to consume.

His power increased again and again.

Ye Mo began to rejoice that he used extreme grade spirit range not spirit stones before or he wouldn't have time to set up spirit gathering formation at all now.

He knew this was a plot by the divine damnation, if he can't reach truth realisation state level one in the shortest time possible, he would be dead.

His power rose again and again but he was just that little bit from truth realisation state level one. Meanwhile, the sky changed color and the blue sky darkened again.

Before the second bolt came, the terrifying pressure and killing intent loomed over Ye Mo's head already. He almost used everything in the first bolt except for Zi Xu.

But now, he calmed down instead. He didn't know how many lightning arcs there were in the second wave but he must survive another one. If he was going to die for certain, he would rather hide into the golden page world.

But he was scared that he would be locked on by the divine damnation and can't even go into the golden page world.

Crackle. Grey lightning shone in the sky. At the same time, Ye Mo released three more low grade cultivation artefact shields and another low grade cultivation artefact armor. He had a lot of low grade cultivation artefact on him now.

Two grey lightning fell down faster than the first one. These two were thicker, faster and more powerful.

Ye Mo believed that if it was another cultivator, he would've lost the will to fight under such power but he was different. He had been cultivating under the bitter bamboo and using immortal spirit chi. The pressure was dominating but he wasn't scared.

If he wasn't prepared, he wouldn't be able to survive the second wave.

Crack, crack...."

Ye Mo's three low grade cultivation artefact shields were completely pulverized.

The two lightning bolts thicker than a bucket didn't stop at all, Ye Mo used lightning sword with full power. More than 50 black lightning sword clashed with the two lightning bolts and disappeared.

Ye Mo's face didn't change at all, he sent up octagonal cauldron and released Zi Xu.

This was the difference between being prepared and not being prepared. Octagonal cauldron clashed with the lightning bolts and was flung off kilometers away again.

Ye Mo spat a mouthful of blood due to the aftershock but his Zi Xu in a purple ray clashed with the two lightning bolts that had been weakened three times.

Crackle.

Purple ray splashed everywhere and before Ye Mo could call back Zi Xu, the remaining two lightning bolts landed on him. His armor was pulverized again and flesh blown apart.

Ye Mo could even hear his bones cracking and shattering but he didn't have the time to recover, he quickly devoured the lightning source on him.

When the sky darkened again, Ye Mo suddenly howled. His cultivation essence had reached a yardstick and with this howl, the two immortal crystals in his hands cracked. A powerful chi rose out from his body.

His howl extended for longer.

Crack, crack, crack.

Countless cracks sounded from Ye Mo's body. His bone was instantly healed and his meridians were completely open now.

That powerful feeling made Ye Mo want to have the next wave come faster. He knew that he had become truth realisation state cultivator after that second wave.

He reached truth realisation state with three lightning bolts but these three bolts were more powerful than all of a cultivator's divine damnation in his life combined. Rumble.

The divine damnation seemed to have felt that Ye Mo was truth realisation state and hummed furiously. Instantly, three black lightning bolts landed.

This time, Ye Mo didn't even use octagonal cauldron. His cultivation essence surged like crazy. He had the impulse to fight the divine damnation with his own power.

The first two waves especially the first wave almost killed him. There was anger and hunger in his eart. He was certain this divine damnation was here to kill him. He would let the divine damnation know that even if he didn't use low grade cultivation artefact shields and octagonal cauldron, he wasn't scared of it now.

He was going to smash this divine damnation. No one can kill him, not even the divine damnation.

Ye Mo could feel the killing intent of the divine damnation. Whether it was someone controlling this or the heaven dao, Ye Mo wasn't so easy to mess with.

The lightning arcs seemed to be infuriated by Ye Mo's cockiness and came down more ferociously. The three divine damnation instantly landed. Each one was thicker than the lightning arcs in the second wave. This was completely beyond the power of cultivation realm divine damnation power.

Seeing this, Ye Mo was expressionless. He jumped up from the ground and extended his two hands. Nearly 100 lightning sword were shot out.

Black divine damnation lightning came down from the heavens while the black lightning sword struck up to the heavens from the earth not willing to retreat a single bit. It was as though they were fated enemies.

Rumble....

Explosions sounded non stop in the air. Ye Mo's lightning sword were countless times more powerful after he reached truth realisation state.

Black lightning ray splashed all over the sky.

Sand and stone flung around like a sandstorm filling up the space. Ye Mo even charged into the range of the clash and instantly, those black lightning that seeped out were devoured by him.

As though feeling Ye Mo's lightning sword were too powerful, the bleak sky exploded again. Three more purple lightning rained down, they were more ferocious and furious than the black lightning before.

It was as though Ye Mo offended its authority and it would devour Ye Mo at all costs to calm its fury.

But this time, Ye Mo calmed down instead. He devoured so much lightning power and only stabilized his power at truth realisation state level one primary stage. One could see just how terrifying the amount of spirit chi he needed for truth realisation state cultivation was. He was naïve to think three low grade immortal crystals could let him reach truth realisation state level three.

Ye Mo released 100 lightning swords again.

The moment they clashed, Ye Mo didn't increase the lightning sword power and instead went into the purple lightning.

This time, he felt the tearing power and pressure of the lightning arc as though trying to make him surrender and then tear him apart.

Ye Mo ignored it and didn't even use octagonal cauldron. He just kept devouring the purple lightning.

After a while, Ye Mo felt that feeling was gone. He opened his eyes, the sky was only a little dark but the divine damnation had completely disappeared.

He knew his power would increase many folds after reaching truth realisation state but he was still shook by his truth realisation state power. It was too powerful.

He was covered in blood and his clothes hung to his body like rags but his wounds had completely recovered.

Ye Mo knew the divine damnation was over but he was more confused.

Chapter 1316: The cultivator who tore open space

Ye Mo was confused because there was no rainbow spirit cloud to help him recover and consolidate his state. second, he only had 9 lightning arcs for divine damnation. Even a nascent soul state cultivator divine damnation was 36 lightning arcs.

The thunderstorm calmed and the hail stopped. However, there was still some cold air remnant in the sky. The extreme grade spirit range shrunk down a lot.

Regardless, Ye Mo was truth realisation state now.

The terrifying power of truth realisation state cultivation essence surged, that easy manipulation of cultivation essence made Ye Mo realized how absurd it was that he could fight with truth realisation state as disaster transformation state. this made him realise how naïve he was to think that truth realisation state was just so so.

It wasn't that truth realisation state were weak but that his power and magic were too powerful. He even felt scared about fighting truth realisation state tertiary stage before. If a truth realisation state tertiary stage used all his means to stop him, he might not be able to get away.

He believed that with his truth realisation state level one power, he can easily kill multiple versions of himself at disaster transformation state peak stage. The reason he could easily stop truth realisation state before was due to Three Birth Chant's power but also because he didn't encounter real masters. What if he encountered real powerful truth realisation state masters?

But immediately, Ye Mo's confidence swelled up. No matter what happened before, he was now truth realisation state. with his current power even if he encountered the most powerful truth realisation state, he wouldn't think he was no match.

The only worry he had was cultivation in truth realisation state. usually, after divine damnation, he would be able to reach level two of that state devouring the divine damnation and the spirit cloud.

But now, he could only stabilize his power to truth realisation state level one middle stage. This meant that he was a long way away from truth realisation state level one peak. Each level he progressed, the amount of spirit chi he needed would multiply. When he reached truth realisation state level nine, what would he use to cultivate?

Just when Ye Mo wanted to put away the spirit range and check the blue sand ditch, he felt space ripples. Moments later, a red flying cultivation artefact landed before him.

This was an extreme grade flying cultivation artefact.

One man and woman got off the flying artefact. The man had a square face and distinguished features. He seemed very young seemed powerful but Ye Mo saw he was truth realisation state level four. He definitely wasn't young. The woman was body condensation state level three but what shook Ye Mo was not her power but her beauty. She was definitely the number one beauty he had seen in West Extreme State. she was even prettier than Len Ruofei. It wasn't that her face as better than Len Ruofei but her body was too good.

It was so perfect than an extra centimeter more or less would feel imperfect. This made Ye Mo think of Qing Ru and Ao Qiandie. If it wasn't that her chi was chaotic, she was on par with Ao Qiandie.

"brother Yang, we found an extreme grade spirit range..." the woman scanned Ye Mo's extreme grade spirit range and said excitedly.

The square faced youth nodded "that's right, we're lucky. Yu Er go take it."

The beautiful woman looked at Ye Mo with disgust "brother Yang, this trash is so annoying, he's so shabby and yet his dog eyes are staring at my body."

The man gazed at Ye Mo and said "this man isn't trash, he's at least a truth realisation state cultivator but only level one."

Ye Mo didn't hide his power after reaching truth realization.

Hearing this, the woman was shook. Ye Mo didn't seem very old, even younger than her but how could he be truth realisation state level one?

Ye Mo felt this square faced man's power as soon as he came. That force was formed with long term confidence. It meant that this cultivator was able to kill people beyond his level like him.

They clearly saw his spirit attraction formation and yet said the spirit range was found by them.

Before the woman could take the spirit range, Ye Mo casually sent it inside his golden page world.

The woman saw the empty sands before her and dazed before looking sulkily at the male cultivator.

The man glared coldly at Ye Mo "take out the spirit range and put it here then piss off."

Ye Mo couldn't even be bothered speaking to this arrogant guy. He was ready to fight.

Just when the man was about to attack Ye Mo, a powerful cultivation essence wave came through the air. Both Ye Mo and the man's attention was caught by this.

After that, an extremely vibrant golden ray flashed. A middle aged man stumbled out of the ray. As soon as he did, he released his flying cultivation artefact wanting to leave.

Ye Mo was very familiar with this golden light, it was the space transmission rune, Meng Qi used this when she left. They were very rare and precious.

This meant that the middle aged man came from another realm.

He was truth realisation state level nine and yet he was so beaten. Clearly, he was running with a space transmission rune. Just what being was hunting him.

Before the man could fully activate his flying cultivation artefact, the square faced man stood before him.

Ye Mo was confused, the square faced youth was powerful but he was only truth realisation state level four. He dared to stop a truth realisation state level nine. Was he bold or powerful?

Seeing this, the truth realisation state level nine threw out a golden sword at the square face man.

The man didn't even flinch and just smashed towards the sword with his fist.

Thud.

Cultivation essence splashed everywhere and space rattled. They each took a few steps back. The truth realisation state level nine didn't gain any advantage. His golden sword fell back in his hands but he was dazed. He didn't expect a mere truth realisation state level four could take his blow and not be injured.

The youth looked at his fist in shock, there was a blood gash. He didn't expect this truth realisation state level nine from another realm to be this powerful.

Ye Mo's eyes narrowed. This square faced cultivator was so powerful. His cultivation essence was no par with Xie Zhengshi, maybe even higher. A truth realisation state level four had such power. Ye Mo was certain that if the two fought Xie Zhengshi might not be a match. There was such a powerful master in West Extreme State.

Moments later, in the space where the golden light came, a dark crevice opened up. It was very sudden. Ye Mo scanned with spirit sense inside. It was boundless and full of nothingness.

Ye Mo immediately realized what was going on. This was a dimensional tear.

This meant that a powerful being from another realm tore into the Luo Yue's realm and wants to come here.

Ye Mo has only heard of a Chu Jiuyu who was able to tear the dimension of a realm.

Chapter 1317: Real great completion domain

Ye Mo really didn't understand, he just had a divine damnation and he encountered such powerful cultivators.

Moments later, he realized that the middle aged man used a space transmission rune destabilizing the realm barrier and thus the pursuing cultivator could chase over. If the dimension stabled, he probably wouldn't be able to tear it.

But even so, this was very terrifying. Going from one realm to another meant you had to pass through the void. One mistake and you would die there. This meant two things, first the pursuer is very powerful and second, there was unresolvable feud between the two or he wouldn't risk chasing here.

A flaming red figure appeared before them, it was a truth realisation state peak stage cultivator. He didn't have much hair and looked very young. His skin was very white and there was full of pride in his eyes. It was as though there was only one human in this world and everyone else were insects.

As soon as he landed, Ye Mo felt an astounding pressure from him. Ye Mo immediately knew this person's domain was in great completion.

The middle aged man was shook seeing this red robed cultivator and said coldly "Fang Yizong, you can tear open dimension?"

"tear open dimension?" the truth realisation state level four was also shook and his face changed drastically.

Without hesitation, he shot out a messenger flying sword. Clearly, he didn't feel he was a match for truth realisation state peak stage who could tear open dimensions.

But this Fang Yizong stood above the sand river and had the face of surprise and joy. after a long while, he suddenly laughed “this place allows immortal ascension, it really allows immortal ascension, hahaha....”

Everyone looked at him in confusion.

But Ye Mo knew that the realm this Fang Yizong came from probably couldn’t ascend too.

“Meng Zhen, I really need to thank you. If you didn’t use space transmission rune, I really can’t tear open the dimension. If I can’t, then I wouldn’t know this place allows immortal ascension. Hahahahaha.....” Fang Yizong laughed hysterically.

Meng Zhen’s face looked bad, he didn’t expect him to have helped his enemy.

Then Fang Yizong scanned the people here and his eyes focused on the green robed woman “such a beautiful woman, if you didn’t sleep with so many men you would be a gem.”

The square faced youth’s face changed and said coldly “friend please be respectful.”

“respectful?” Fang Yizong laughed and looked at Meng Zhen “Meng Zhen, seeing that you gave me your own woman and grant me the chance of immortal ascension, I’ll kill you last. I’ll kill these two insects first. As for this woman, I still need to enjoy her.”

Meng Zhen’s face sunk and didn’t talk.

The square faced youth couldn’t hold in his anger and waved his hand. A yellow string was released. It formed a vibrant yellow beam and shot at Fang Yizong.

Ye Mo saw this and applauded, this youth was a sword cultivator and his sword technique was very fierce.

Ye Mo could tell that this youth can easily kill Mu Feihuan.

Fang Yizong saw this and seemed surprised.

In that instant, he released a hoop. It was the same color as his clothes and formed a red circle encompassing the youth.

There was the sound of teeth rubbing and the yellow sword ray cracked and disappeared.

The red robed cultivator sneered and released the hoop again. This time, it changed into a huge red hammer smashing at the head of the youth.

The youth was shook and released a black umbrella magic artefact. The hammer landed on the umbrella and made a deep thud.

Crack. There was a deep mark on the black umbrella magic artefact. The square faced youth was smashed a few hundred meters away spitting blood on the ground like crazy.

“hmm, the truth realisation state cultivators here are this powerful?” the red robed cultivator saw that his second attack only made the truth realisation state level four spit blood instead of taking his life.

When he was about to attack, four people flew over.

Ye Mo knew two of them, third god lord and Xie Zhengshi. Of the other two, one seemed feeble almost feminine like, the other one was a bronze skinned bulky man.

They were all truth realisation state peak stage except Jiao Huanzheng.

“you’re already truth realisation state?” Xie Zhengshi exclaimed in shock.

Even though he was certain he didn’t see wrong before, he began to doubt now. he would never believe that Ye Mo reached truth realisation state level one from disaster transformation state level seven in

half a month. The only possibility was that he saw wrong. Thinking about this, he began to rejoice that he didn't attack Ye Mo or the consequence wouldn't be so simple.

Jiao Huanzheng was the happiest to see him. He walked up to Ye Mo and said "brother Ye I didn't expect to meet you here. Cha Qizhao told me everything, thank you so much, thank you!"

Then, the feeble cultivator came up and said "I'm Jie Mu, second god lord of God Beast Mountain Range."

Then he pointed at the bulky man "he's Heartless Forest South region lord Ji Changtian. You know city lord Xie so I won't introduce."

Ji Changtian and Jie Mu nodded politely to Ye Mo. They could tell Ye Mo's power was a little low but he was a formation grand master.

Ye Mo just nodded to them as well.

"you attack Xiu Yang?" Ji Changtian glared at the red robed cultivator.

The red robed cultivator looked at Ji Changtian contemptuously "who do you think you are, do I need to let you know when I, Fang Yizong, attack someone?"

Then, before Ji Changtian could release his magic artefact, his hoop smashed at Ji Changtian while he charged at the square faced youth.

Seeing that Fang Yizong was so condescending towards him, Ji Changtian was furious. He released a black branch. As soon as it came out, it turned into countless sky scraping trees looming at the hoop. He also jumped up wanting to stop the red robed cultivator.

"hahaha..." the red robed cultivator laughed and his chi rose again. A ripple visible to the eye formed around him.

Before Ji Changtian even neared it, he felt his body paused. There was extreme shock in his eyes, he spat mouthfuls of blood before forcefully retreating.

That red robed cultivator ignored Ji Changtian and came to the square faced youth, punching with his fist.

Seeing this, the youth wanted to dodge but he was bound like Ji Changtian.

The youth knew he fell into domain. This was the first time he had seen such terrifying domain. This meant that Fang Yizong didn't even try before.

Xiu Yang wanted to burn essence blood to escape but he reacted too slow. The punch landed on his head smashing half of his face away.

Then, red robe kicked into Yang Xiu's chest and that bone cracking sound came. Everyone heard it clearly.

Ye Mo didn't move but he knew his conjecture before was right. This red robed cultivator's domain was very powerful, this was true great completion domain.

Chapter 1318: Ye Mo's intervention

Xiu Yang was kicked flying and splashing blood in the air. Luckily, he had a top grade cultivation artefact and wasn't kicked into pieces.

Ji Changtian saw this and his eyes went red with fury. He leaped up and caught Xiu Yang who was about to die and threw in tens of pills into his mouth.

Putting him aside, he turned back and said to Xie Zhengshi and second god lord "city lord Xie, god lord Jie. This person hurts my Zhi south domain young lord so arrogantly. Please help me in fighting this man."

The two glanced at each other and nodded in agreement.

Even third god lord who wasn't invited released his magic artefact.

Xie Zhengshi and Jiao HUanzheng looked at Ye Mo.

But Ye Mo didn't even move his finger clearly not intending to fight.

Of course Ye Mo wasn't going to fight. If he was, he would've stopped this red robed cultivator before Xiu Yang was heavily injured.

Seeing this, Xie Zhengshi and third god lord didn't ask.

Xie Zhengshi's magic artefact was a red flaming bird. Jle Mu's magic artefact was a nine ringed sword. Ye Mo immediately knew it was a extreme grade cultivation artefact when he saw it. Jiao Huanzheng seeing that Ye Mo didn't attack and Ji Changtian didn't ask him to attack so he didn't activate the magic artefact in his hands.

However, Ji Changtian and them's magic artefact already loomed over Fang Yizong.

The place where he was instantly darked into a dark forest, amongst the trees were half red and half white.

The flame and sword ray seemed to be completely devouring Fang Yizong and indeed, Fang Yizong was nowhere to be seen.

However, Ye Mo took notice of that Meng Zhen. Theoretically, now was the best time to run, why didn't he move.

Immediately, Ye Mo noticed that the red flaming bird and the sword paused.

The reason they paused was because the domains of the three combined were completely crushed by Fang Yizong. They were defeated in a few seconds.

Before Ye Mo could see the exact situation, he heard a rumble..." huge explosions came from underneath the trees.

A red golden hoop rose out from below and instantly crippled the flaming bird, black forest and white sword ray.

Xie Zhengshi couldn't even take his red bird back and released a shield. Even so, the hoop struck the shield and Xie Zhengshi spat mouthfuls of blood and was heavily injured.

Jie Mu's 9 ringed sword wasn't struck away but his face was pale and he spat blood in the air after retreating a few hundred meters.

Ji Changtian suffered the most. The instant his forest shadow crippled, he was heavily targeted by Fang Yizong's hoop. That hoop struck on his chest, there was sound of bones cracking. Ji Changtian was smashed away spitting blood.

That branch landed below Ye Mo. Ye Mo felt it was extraordinary and picked it up. An ancient sensation rose up into his chest. It was extraordinary indeed.

Ji Changtian immediately ate a few pills and waved his hand and the branch flew out of Ye Mo's hands.

Ye Mo could've kept it but that wasn't his character. That was robbing.

Xie Zhengshi and Jie Mu looked at this red robed cultivator in shock. His power was this terrifying, they were all about to ascend into the immortal realm. Yet in their combined attack, they were beaten in one go.

What power was this? was he an immortal? But to them, Fang Yizong was clearly just truth realisation state peak stage.

Ye Mo sighed. He knew that the three were no match for Fang Yizong but they weren't so weak as to being crippled in one strike. They all made the same mistake, thinking that truth realisation state all had domain. They thought that their domain combined together would be at least on par or stronger with Fang Yizong.

In fact, they thought right. Domains added together would greatly increase its power but their domains combined were a far cry from Fang Yizong. This was because they cultivated fake domains, Fang Yizong had real domain that was in great completion.

Without a doubt, their fake domain was due to the heaven 36 domains. But after their battle with Fang Yizong, if they don't die they would soon realize the problem with their domain and fix it slowly. It's not impossible that they eventually reach Fang Yizong's level.

Meanwhile, the green robed woman retreated in horror. She wanted to release her magic artefact and run away.

But Fang Yizong suddenly smiled at her and reached out cultivation essence giant hand pulling her. The armor on her was torn away like paper.

Only a red cloth blocked her pair of perfect chest. The clean and white skin coupled with the red band around her chest brought about stunning enticement to this barren place.

"if you dare to go again, I will take away the last thing left on your body." Fang Yizong smiled. His tone was very soft.

Even Ye Mo applauded this woman's seductive figure. She was naturally born to seduce men. If it wasn't that his mind was countless times stronger than ordinary cultivators, even he would be into her.

Only then did the green robed woman realise her clothes were gone. She screamed and covered her chest.

It could be said that Ye Mo was the only person who could see her right now.

Xie Zhengshi and them were busy recovering. Xiu Yang was half dead.

Third god lord was completely uninterested in the woman and just looked at Fang Yizong in shock.

Ye Mo just scanned a few times and lost interest. No matter how seductive she was he wasn't interested. Her tainted chi made him lose all interest.

Fang Yizong glanced at Ye Mo and Jiao Huanzheng and said "don't worry, I will kill all those who saw you. Stay with me obediently, I don't mind you having slept with so many men but I will kill them all."

Then he laughed and stared at Jiao Huanzheng "are you going to do it yourself or should I?"

Jiao Huanzheng was shook not understanding why the man picked him first.

Clearly, it was impossible for him to kill himself. He was about to release his magic artefact.

But at this moment, Ye Mo suddenly appeared next to him and stopped him "brother Jiao, you're no match for this trash, let me teach him a lesson."

Seeing this, Jiao Huanzheng said with surprise and joy "thank you brother Ye, be careful." Then he retreated a few hundred meters.

Xie Zhengshi saw that Fang Yizong easily crippled them but Ye Mo still dared to go up and felt even more fear. Ye Mo dared to go up meaning he was confident. He even dared to fight Fang Yizong, if he dared to look for Ye Mo's trouble before, how could things end well?

Even Ji Changtian and Jie Mu looked at Ye Mo in confusion. so was Meng Zhen.

Even the green robed woman looked at Ye Mo in shock, this was suicide.

Fang Yizong was dazed by Ye Mo's action and stared at him for a long time before laughing.

Chapter 1319: So he's the strongest

Jiao Huanzheng is a good person, he was of huge help for breaking through to truth realisation state. if Fang Yizong didn't try to attack him and Jiao Huanzheng, Ye Mo wasn't going to intervene. But Fang Yizong attacked Jiao Huanzheng. With how cruel Fang Yizong was, Jiao Huanzheng probably wouldn't even be able to escape with essence spirit.

"I wanted to leave you to last but since you don't want to live, don't blame me then." Fang Yizong's chi exploded on the last word and loomed over Ye Mo.

The universe ring spun above his head while his domain exerted out. He was going to bind Ye Mo into his domain and insult him before killing him. A mere truth realisation state level one thought he was number one in the world.

Ye Mo didn't move and let Fang Yizong's domain completely bind him. He wanted to feel the difference between Fang Yizong and his domain. He wouldn't be able to feel it if he didn't go into it.

Seeing that Ye Mo was bound by his domain without resistance, Fang Yizong didn't attack Ye Mo and instead scorned. "young man, you just reached truth realisation state and your power sky rocketed, therefore you think you're number one in the world? what a pity, this number one is so short lived."

Ye Mo used Three Birth Chant in Fang Yizong's domain and instantly realized that Fang Yizong's domain was completely different to his. It was still a real domain. Ye Mo knew that domain wasn't set, every cultivator could form their unique domain based on their talents and abilities.

Power, will, state, all could form domain. Even the fake domain emulated with cultivation essence that Xie Zhengshi and them had could become real domain.

Understanding Fang Yizong's domain, Ye Mo didn't have anymore concerns and looked at him coldly "you're right. After I reached truth realisation state, although I don't feel I'm invincible but trash like you pose no threat to me anymore."

Then, Ye Mo's power also rose drastically and he completely released his domain. His domain was the combination temperament and will state. If opponents fell into his domain, he would be able to see their weakness clearly. This was state domain.

Fang Yizong just wanted to fling Ye Mo but his face suddenly changed and immediately threw out his universe ring.

In that instant, he felt Ye Mo wasn't in his domain at all. At the same time, he felt his domain was crippling. That cracking sound told him that his domain was starting to break, it was slow but still breaking. If his domain completely cracked, he would be in Ye Mo's domain. Even though he wasn't scared of that, he would be at the complete lower hand.

His domain completely dominated the three before. But now, Ye Mo was by himself and attacked his domain had completely formed. Even so, his domain couldn't stop Ye Mo's domain at all. Thus, it was obvious this young person was no truth realisation state level one, he was an truth realisation state peak stage old monster.

Fang Yizong's pride has been in his domain. He had never encountered a cultivator who's domain could defend against his in the same cultivation state. Now, Ye Mo's domain easily crippled his domain.

So, Fang Yizong repaired his domain while attacking.

Meng Zhen knew Fang Yizong quite well. When he saw Ye Mo being trapped in Fang Yizong's domain, he knew Fang Yizong would mock Ye Mo for a while but instead, Fang Yizong used the universe ring.

At the same time, Ye Mo released Zi Xu. A purple ray sliced across the sky releasing countless purple sword rays.

Illusion Cloud formation kill strike.

Fang Yizong's universe ring formed a huge ring in the air emitting sharp red killing rays. But before the ring completely landed, it was swept by Ye Mo's countless purple sword rays.

Crack.

The ring instantly broke free from the purple sword rays but before it could land, more purple sword rays rushed out like crazy.

Illusion Cloud division strike.

Feeling the endless purple sword rays, Fang Yizong was impatient. He grunted and raised both hands. That universe ring suddenly divided into countless red halos. They instantly broke free from the Illusion Cloud formation kill sword ray and smashed at Ye Mo.

Ye Mo's eyes narrowed, such a powerful magic artefact. Without hesitation, octagonal cauldron appeared above his head and he sliced out with tens of metamorphic spirit sense blades.

Ye Mo knew his power was a little weaker than Fang Yizong. If Fang Yizong completely recovered, he might really not be a match. So now, while Fang Yizong's domain is broken, he would use this opportunity to heavily injure him.

If he heavily injured Fang Yizong, even if he recovered his sense, he wouldn't be afraid of him.

Fang Yizong also wanted to heavily injure Ye Mo first and slowly deal with him. But at this important moment, his spirit sense ached.

Fang Yizong immediately knew things weren't good, Ye Mo had spirit sense cultivation method, a rather strong one.

But Fang Yizong was no ordinary truth realisation state state. he instantly forced out the metamorphic spirit sense blades from his sea of consciousness and waved his hand. A gust of black chi seeped out his hand.

Ye Mo also applauded Fang Yizong. Ever since he reached truth realisation state, his metamorphic spirit sense blades were many times stronger than before and yet Fang Yizong forced them out in less than

two seconds. Seeing Fang Yizong summon the black chi, Ye Mo immediately fell vigilant and summoned out shadowless.

Due to the spirit sense blades, the universe ring only rung the octagonal cauldron. The difference in power was huge, originally, it would've been able to make Ye Mo spit blood.

The two clashed and the cultivators on the side could barely see it. they were very shocked.

They thought Ye Mo would be instantly killed but now, it was clear that Ye Mo had a slight upper hand. Xie Zhengshi didn't expect this at all. Neither did Jiao Huanzheng.

He was planning to help if Ye Mo was in a slight trouble. But now, he realized that he didn't have the opportunity to help at all. Didn't this mean that if Ji Changtian, Xie ZHengshi and Jie Mu attacked together, they would be no match for Ye Mo.

Realizing this, Jiao Huanzheng rejoiced for being friends with Ye Mo.

Meng Zhen also dazed, he didn't really expect that the person to stop Fang Yizong would be this weakest truth realisation state level one cultivator.

He knew Fang Yizong's power all too well, he might not be invincible in truth realisation state but there wouldn't be more than ten people who can beat Fang Yizong. Yet, this truth realisation state level one was evenly matched with Fang Yizong. What logic was this?

Was it that in this realm, the lower cultivation level you were, the more powerful you were?

Meng Zhen immediately realized that now was the best time to run. He didn't run before because he knew it was pointless. But now that Ye Mo was holding off Fang Yizong, he would be an idiot to not run.

Meng Zhen instantly released his flying cultivation artefact and disappeared. Fang Yizong didn't do anything and thus Meng Zhen knew he succeeded.

Fang Yizong watched Meng Zhen run away but he couldn't chase him and felt furious. The black mist started to expand after releasing it but he felt it was too slow. He immediately spat a mouthful of essence blood onto it.

The black mist immediately started to expand rapidly and made humming sounds.

Chapter 1320: Battle with Fang Yizong

Moments later, the humming sound was revealed to be countless sesame seed sized bugs. Some were pale black some were grey and some were silver. They were all very small but they all had a mouth and no antennae.

Suddenly, Ye Mo felt his spirit sense go black. It was as though his vision suddenly stopped. And the spirit sense he lost was completely gone.

Ye Mo immediately knew things weren't good. He knew what bugs they were. But before he could react, Zi Xu fell down due to his spirit sense being blocked out. The purple sword rays became messy and dissipated after his universe ring swung.

The universe ring then darted at Ye Mo like lightning. Ye Mo didn't have time to think much and forcefully used tens of spirit sense blades while barely controlling octagonal cauldron.

Rumble.

Ye Mo was smashed out one kilometer with octagonal cauldron. He spat a few mouthfuls of blood in the air before barely be able to stand up. He quickly ate two spirit recovery pills and released mist lotus heart fire.

Jiao Huanzheng couldn't even react fast enough to help Ye Mo.

Fang Yizong already considered Ye Mo very dangerous and chased over immediately.

He released the universe ring again as well as countless small bugs. This wasn't it, a huge grey net also loomed over at Ye Mo.

Ye Mo grunted. He recognized these bugs and already suffered due to it once, how could he let that happen again. Mist lotus heart fire emitted a faint red beam and that redness turned into a sun releasing countless red beams at the bugs.

Heaven Flame Nine Suns, it was just at level one but Ye Mo felt it was enough to suppress these bugs. These bugs were god devouring bugs, ranked 6th on the rare bugs ranking. They were more powerful than the fire eating bugs as well as the spirit devouring bugs.

Those fire eating bugs he encountered were just babies. As for spirit devouring bugs, if Ye Mo didn't happen to find an exit, the consequences would be unknown. Yet, spirit devouring bugs were only ranked 11th.

God devouring bugs were one of few bugs who could devour spirit sense in the cultivation realm. When they're newly born, they're black but once they began to mature, they would begin to get lighter in colour. When they became colourless, they would be invincible.

Many of Fang Yizong's god devouring bugs were turning grey but they were still a long way away from colourless.

If he didn't have Heaven Flame Nine Suns, Ye Mo would have to run away as far as possible.

Ye Mo could use lightning sword if it was some ordinary cultivator controlling them but for Fang Yizong, lightning sword wasn't enough to completely kill the god devouring bugs. This was because before lightning sword could kill the bugs, he would've been killed or subjugated already.

When Fang Yizong saw mist lotus heart fire, there was greed and overjoy in his eyes. He recognised it immediately, the number 3 ranked rare flame in the cultivation realm, ranked 17th in the entire universe.

He had to get such flame. This flame could annihilate god devouring bugs easily but it needed some time. He believed he would be able to capture Ye Mo in such time.

But his face changed drastically. Ye Mo's mist lotus heart fire didn't attack the bugs immediately. Instead, it formed a red sun that shot out countless red beams.

Those dark bugs instantly turned to dust under such rays. Those lighter coloured ones lost their energy and began to struggle.

Fang Yizong's face was very bad, he didn't expect Ye Mo to have such magic, using heaven flame to morph into a sun. he believed this was only the primary stage of this magic otherwise, he wouldn't even have a chance to attack.

Realising this, Fang Yizong's face snarled and he spat a few mouthfuls of essence blood. Universe ring and the grey net grew even more powerful and loomed over at Ye Mo.

Ye Mo ate two spirit recovery pills but his spirit sense had been greatly exerted. His face was pale. Without the spirit recovery pill, he wouldn't dare to stay and fight Fang Yizong even with Heaven Flame Nine Suns.

Ye Mo also burned a mouth of essence blood and released Illusion Cloud division and formation kill strike again.

When countless purple sword rays trapped Fang Yizong's universe ring again, Ye Mo took back Zi Xu and hacked out the third strike.

Illusion Cloud domain shatter strike.

His domain was stronger than Fang Yizong's domain and with time his domain could slowly cripple Fang Yizong's domain but he felt it was too slow. He needed to finish the battle fast.

Zi Xu shone like a luminous pearl in the darkness and instantly, tens of cracks appeared in Fang Yizong's domain.

Only now did the net collide with octagonal cauldron. This time, octagonal cauldron was trapped by the net.

Ye Mo wasn't scared, his octagonal cauldron had the lower hand not because it was a bad magic artefact but his cultivation essence and spirit sense was much weaker than Fang Yizong.

Now, he put more cultivation essence and spirit sense into Zi Xu, he was going to shatter this domain.

Crack.

Fang Yizong heard this and was scared soulless.

Ye Mo knew that if he gave Fang Yizong tens of metamorphic spirit sense blades, he would be instantly defeated but he couldn't. he couldn't even use lightning sword anymore.

Fang Yizong completely realized now that no matter in means or power level, there was nothing he could do to Ye Mo. He was certain now that Ye Mo was just a truth realisation state level one but there was nothing he could do.

Fang Yizong wasn't thinking about how to kill Ye Mo anymore, he was thinking about how to escape.

He had a feeling that something strange was staring at him bidding its opportunity but his spirit sense couldn't find it.

Plus, there were a few truth realisation state peak stage staring at him on the side, he felt this wasn't good.

Fang Yizong called back the god devouring bugs immediately. They were dying under Ye Mo's Heaven Flame Nine Suns. If this continued, he would lose all of it. if they fully matured, he would be able to dominate anywhere he went. How could he let all of it die.

The instant they were pulled away, the universe ring trapped by Illusion Cloud formation kill strike exploded and formed countless red rings smashing at Ye Mo.

As soon as Fang Yizong pulled away the bugs, Ye Mo felt easiness. They couldn't keep devouring his spirit sense but controlling Heaven Flame Nine Suns was no easy matter. He ignored the universe ring and burst his cultivation essence flicking away the net with octagonal cauldron.

The instant he took back his octagonal cauldron, Ye Mo's domain expanded out. He was going to trap Fang Yizong first and kill him with lightning sword and Zi Xu.

Fang Yizong didn't expect Ye Mo's domain to trap him this quickly as soon as his domain shattered. He couldn't retreat at all. His face immediately changed. He knew he did at least two things wrong. Although his bugs didn't have any direct effect, he shouldn't have pulled them back. Second, he shouldn't have let the octagonal cauldron escape from his net.

Seeing Xie Zhengshi and them close in on him, Fang Yizong finally couldn't calm down anymore. He knows that if he can't break free of Ye Mo's domain quickly, he would be dead.

Fang Yizong flung his hand and ate a pill.
