

Strongest As 1321

Chapter 1321: Kill in divine damnation

Fang Yizong's power rose drastically after eating the pill. His power seemed to rise up. Two seconds later, Ye Mo's domain was completely shattered.

Ye Mo suddenly had a bad feeling. At this moment, Fang Yizong's universe ring exploded luminosity many times greater than before and tore apart space smashing at Ye Mo.

Without hesitation, Ye Mo released his octagonal cauldron.

Rumble

A shocking explosion sounded and Ye Mo was smashed hundreds of meters away by the octagonal cauldron. He spat many mouthfuls of blood in the air and was heavily injured.

But Fang Yizong didn't come back and hunt Ye Mo. He took back his grey net and universe ring.

Ye Mo looked at Fang Yizong in confusion. Just when he didn't know what was going on, the sky suddenly darkened. At the same time, everyone realized what Fang Yizong was doing. He was having his immortal ascension divine damnation now.

Rumbling, the force of the divine damnation was shocking before it even came.

Xie Zhengshi and them retreated quickly wanting to go as far as possible. They were scared of being caught in the divine damnation. They were all truth realisation state peak stage cultivators and if they were caught, they would also have to face the immortal ascension divine damnation.

Cultivators could suppress their power and not let the divine damnation sense them to delay the immortal ascension. But some cultivators could purposely increase their power to let the divine damnation sense them. Then, they could quickly achieve immortal ascension. Fang Yizong did so.

No one would dare to go near him during divine damnation. Once he was done, who would be able to do anything to him?

With a rumble, nine fist-sized divine damnation bolts fell down. This was very terrifying to Xie Zhengshi and them, they retreated further away.

Fang Yizong looked coldly at Ye Mo who wasn't far away and released the universe ring and a black flag. He didn't even use this when he fought Ye Mo, clearly it was for saving his life.

Ye Mo also sneered. Other people were scared of the divine damnation but he wasn't. However, he didn't immediately chase up. He was already heavily injured. The divine damnation would still go on for a while, so Ye Mo was in no rush. He sat down and started to eat pills and recover.

Only now did they realize that Fang Yizong didn't even use half of his full power when they fought him.

The rumbling continued; Fang Yizong had survived the fifth wave, 45 bolts of lightning, but Ye Mo was finished recovering.

Fang Yizong saw Ye Mo get up and suddenly had a bad feeling. Indeed, he saw Ye Mo charge at him.

"You're mad..." Fang Yizong looked at the purple ray in disbelief. If Ye Mo wasn't mad, how did he dare to fight someone who was having divine damnation? There has never been someone who dared to fight during a divine damnation because this would be considered to be challenging the divine damnation. The person who attacked would be punished by the divine damnation, the divine damnation would be many times stronger than ordinary divine damnation.

But no matter what, Fang Yizong had to stop this purple beam.

Fang Yizong took back the universe ring that was helping him defend against the divine damnation and used it to block Zi Xu. He knew his grey net wouldn't be able to stop Ye Mo's kitchen knife. He still felt a little scared of the purple kitchen knife.

With a rumble, the universe ring and Zi Xu clashed together and cultivation essence splashed everywhere. At the same time, tens of divine damnation bolts landed and targeted Ye Mo.

Fang Yizong thought he saw wrong so he looked carefully and realized he didn't see wrong. There were indeed tens of divine damnation striking at Ye Mo. Each one was no thinner than his divine damnation. He only had nine each wave and now there were tens hitting at Ye Mo. How could Ye Mo live?

Fang Yizong instantly realized that Ye Mo was dead for sure. As long as Ye Mo was dead, he could kill the rest of the people easily before his immortal ascension.

There were exactly 36 lightning arcs that struck towards Ye Mo. Xie Zhengshi and them couldn't even bear to look at Ye Mo.

Jiao Huanzheng realized it was too late to stop Ye Mo.

But Ye Mo was the only one who didn't fear this, these 36 bolts were far weaker than his disaster transformation state divine damnation. How could it stop him?

Without hesitation, he released 36 Lightning Sword. The black lightning sword struck at the 36 blue lightning arcs. If he wasn't trying to kill Fang Yizong, he would take these lightning arcs head on and try to devour the lightning source.

Crackle.....

Crack...

The two lightnings struck together, bursting into a vibrant show of electricity. The black lightning swords were crippled and the blue lightning kept attacking Ye Mo.

Everyone was shook and so was Ye Mo. He found that he completely underestimated these 36 bolts. There were no weaker than his truth realisation state divine damnation or maybe even stronger.

The 36 lightning bolts landed on Ye Mo and pulverized his armor. His flesh flew around. He spat a few mouthfuls of blood and quickly ate a few pills while releasing his octagonal cauldron.

Seeing this, Xie Zhengshi and them were completely shocked. Luckily Ye Mo was still injured by the lightning bolts. If Ye Mo's Lightning Sword was as strong as the divine damnation, then they wouldn't even need to fight him. His wave of Lightning Sword would force them into hiding.

Fang Yizong was waiting for Ye Mo to be killed, but now he saw Ye Mo was only heavily injured and his face went pale. For the first time, he felt fear. How could there be such an absurd truth realisation state level one cultivator in the world?

The rumbling of the divine damnation pulled his mind back to reality. He just hoped the divine damnation would come faster and not wait till Ye Mo finished recovering.

After the sixth wave passed, Fang Yizong didn't place his attention on the divine damnation but on Ye Mo instead. He was worried Ye Mo would finish recovering at any time and attack him again.

Seeing that after the seventh wave, Ye Mo was still recovering, Fang Yizong breathed easier a little. He still had two more waves, after that, he would ascend into the immortal realm. No matter how powerful Ye Mo was, he wouldn't be able to stop him.

Ye Mo was indeed heavily injured but it wasn't for nothing. He devoured large amounts of blue lightning source. He was not only recovering now but also devouring the lightning source. He was near truth realisation state level one tertiary stage.

When the ninth wave came, Fang Yizong breathed easy. He wanted to attack Ye Mo before he ascended, but thinking about Ye Mo's absurd power, he resisted that urge. Immortal ascension was his greatest dream since beginning of cultivation. It was about to be realized now. how could he let any incidents occur due to such minor things?

Rumble When Fang Yizong's last three lightning bolts fell, Ye Mo suddenly got up.

Fang Yizong's heart shook and he even shivered. Instantly, he knew he was scared of the battle. If he fought Ye Mo with such a mental state, he would be killed for sure.

Realizing this, Fang Yizong wanted to force this thought away. The last three bolts were completely stopped by his black flag and an immortal ascension spirit cloud appeared in the air.

Before it could pull Fang Yizong away, Ye Mo hacked out with Zi Xu.

Illusion Cloud Hua Mountain Strike.

Ye Mo knew he didn't have much time. If Fang Yizong ascended, he would have no opportunity.

The purple beam instantly crossed the distance between the two. When the spirit cloud came above Fang Yizong's head, so did Zi Xu.

Fang Yizong grunted and released his universe ring without hesitation. He wanted to block this strike, but as soon as he did he felt his meridians stumble.

Fang Yizong burned a mouth of essence blood without hesitation and forced out Shadowless.

At the same time, purple sword rays and spirit cloud swept towards Fang Yizong.

Chapter 1322: Return to west cultivator city

Blood splashed out very far, and that instant, Fang Yizong was swept away by the spirit cloud but one arm fell on the sand ground.

He didn't kill Fang Yizong but only left behind one arm. Ye Mo wasn't very disappointed. He took a storage ring from that arm and summoned back shadowless.

There must be quite some good things in the storage ring of such a powerful being. But Ye Mo didn't open it and just threw into his golden page world.

At this moment, the green robed girl had already put on her dress and hide by the side fearfully. She didn't dare to come over nor leave.

"brother Ye, you're so powerful. I knew that Fang bastard was no match for you. If he didn't escape using immortal ascension, he would be dead for sure." Jian Huanzheng came up to congratulate.

Xie Zhengshi and Ji Changtian and them all showed fearful expression to Ye Mo. Fang Yizong can easily beat them combined but Ye Mo almost killed Fang Yizong. This difference made them unable to accept.

Jie Mu who just nodded to Ye Mo came up to him fervently and saluted with his fists "brother Ye, I really didn't expect your power to be this high. I thought you were truth realisation state level one before. My eyes are too bad."

Then he pointed at Jiao Huanzheng "third brother is your friend, I'm your friend too. From now on, God Beast mountain range is your back garden."

Ye Mo saluted with his fists calmly and didn't show much hospitality. He didn't want to have relations with someone like Jie Mu. When he came, Jiao Huanzheng already introduced him to be his friend. But only now did Jie Mu greet him fervently. This was all due to his power.

Xie Zhengshi was very shocked and Ji Changtian came over to saluted with his fists "brother Ye's powerful is astonishing, sorry for my rudeness before. But brother Ye should be able to stop that red robed cultivator from attacking Xiu Yang, why didn't brother Ye stop him?"

Ji Changtian didn't understand why Ye Mo didn't save Xiu Yang and yet instead helped the idiot third god lord.

Ye Mo looked coldly at him “why should I stop him?”

Ji Changtian was at a loss for words. He didn’t expect Ye Mo to give such a blunt reply but even though Ye Mo did so, he didn’t dare to reproach Ye Mo and could only retreat timidly.

Ye Mo looked at Jiao Huanzheng “brother Jiao, how are you with city lord Xie and them?”

Jiao Huanzheng quickly said. “I met city lord Xie in the sand river and knew about the evil spirit. Then, I receive the messenger flying sword from my second brother so I came here with city lord Xie after finding brother Ji and my second brother. We were very happy to know cultivators can immortal ascension and I wanted to find you first but then region lord Ji received news that a master was here so we came together.”

Then Jiao Huanzheng looked at the place where Fang Yizong left with annoyance “that bastard is so annoying. We used so much effort to break the immortal ascension seal in West Extreme State but that bastard was first to immortal ascension. It’s too easy on him to just take an arm.”

Ye Mo saluted with his fists to Jiao Huanzheng and them “I’m still busy, I’ll be leaving first.”

Jiao Huanzheng quickly asked “brother Ye, are you going back to west cultivator city? You can go back first, I’ll come find you later.”

Jiao Huanzheng knew Ye Mo’s flying magic artefact was very powerful.

Ye Mo smiled “brother Jiao, after I get to west cultivator city I will be leaving soon. So when I came back to West Extreme State, we can have a good talk.

Then Ye Mo released Blue Moon

“okay, then when I’m truth realisation state peak stage too I’ll come bother brother Ye.” Jiao Huanzheng said lively.

Ye Mo nodded “okay, then I’ll be waiting for brother Jiao at South Peace State Mo Yue City.”

Then, Ye Mo disappeared into the horizon in a blur of blue.

Xie ZHengshi looked at Jiao Huanzheng speechlessly. “brother Jiao has a powerful ally now, with brother Ye, who dares to touch you Jiao Huanzheng?”

Jiao Huanzheng laughed but Jie Mu said. “I didn’t expect that Ye Mo is actually from South Peace State.”

Ji Changtian’s face sunk and waved to that green robed woman “come over, tell me about what happened before?”

The green robed girl didn’t dare to hide anything and explained wat happened before. Ji Changtian now realized why Ye Mo didn’t stop. Xiu Yang and this woman dared to rob his spirit range. It was very magnanimous of Ye Mo that he didn’t kill Xiu Yang on the spot.

Thinking about this, Ji Changtian said coldly to that woman “you will leave the Endless Forest immediately. Otherwise, I will kill you.”

“yes...” the woman said shakily.

No noe knew that she thought completely different to what she said. Xiu Yang was nothing to her now. even Ji Changtian was nothing to her. Her next target was Ye Mo. She believed with her beauty and figure as well as her skills in bed, a young guy like Ye Mo was no match for her at all. If she sleeps with him a few times, he would be very obedient to her.

But the woman didn’t know that although Ye Mo felt she was quite pretty when she was naked but actually, she was nothing to Ye Mo.

Ji Changtian sighed. He knew that if he killed this woman, he would forever become enemies with Xiu Yang.

...

Ye Mo washed himself in Blue Moon first and changed a set of clothes. His hair was a little messy due to the divine damnation.

He was planning to go to blue sand ditch to see if that thing was Blue Like Morning Sky.

Blue Moon sped rapidly over the sand river. For him, it would take only 6 days to reach there.

Meanwhile, on the third day flying on Blue Moon. Ye Mo received news from Tang Mengrao that a truth realisation state peak stage came to west cultivator city. He came from the Heartless Sea and as soon as he came, he put image of Ming Xin, Meng Hanan, Ji Ling and them as well as his image on a wanted sign.

He said no matter who found these people, he would give 500 extreme grade spirit stones and another 100 million top grade spirit stones as well as a disaster life pill. they didn't dare to leave the hotel now at all.

Ye Mo's first reaction to this was that Heartless Sea Yin Hai city lord Yin Xu came. But Ye Mo didn't understand how Yin Xu knew he was at West Extreme State? why didn't he think he was at North Far State? Yin Hai city was closer to North Far State.

Knowing this, Ye Mo couldn't go to the blue sand ditch anymore. He put Blue Moon on max speed.

With his huge increase in power, he was many times faster than when he came.

On the third day, Ye Mo appeared outside west cultivator city. During this period, Su Jingwen and Tang Mengrao didn't send anymore news and this made Ye Mo feel a little safe.

Even if Yin Xu came, they had Yue Ming and Wang Xie and them to protect them. It should be fine. Even if something happened, Su Jingwen would have the time to send news to them. Since she didn't send any message, it meant they were safe.

When Ye Mo came in the city, he flew to West Moon hotel without even getting off Blue Moon.

Ye Mo saw Yue Ming immediately and breathed easy.

“pill king Ye, you’re back this quick? I only received news that you left a few days ago.” Yue Ming said.

Then, she said “sister Jingwen is fine, don’t worry but a truth realisation state peak stage cultivator came to the city recently and he knew that you once appeared at west cultivator city and stayed in this hotel. He wanted to force his way in but were stopped by Wang Xie and I.”

Then, Wang Xie appeared. He seemed very excited as well that Ye Mo was back. Clearly, he got news that Ye Mo helped break the seal to immortal ascension.

Ye Mo quickly thanked “thank you city lord Yue, association leader Wang. I will be staying in here for two days. During this time I will be concocting pills for the friends here. Two days later, I will be leaving to go back to South Peace State.”

Chapter 1323: Leave West Extreme State

As soon as Ye Mo came to the door, Su Jingwen and them had come out.

Seeing Ye Mo come back, Su Jingwen was overjoyed. She didn’t have the mood to cultivate ever since Ye Mo went to sand river. Luckily, he was back in less than a month.

Although Ye Mo didn’t care about the green robed woman at all, her hot body still affected him. So as soon as Su Jingwen embraced Ye Mo, she felt her fiery passion. Su Jingwen who missed Ye Mo greatly moved soft but without holding back.

After some passionate time, even though Su Jingwen was nascent soul state tertiary stage, she was a little tired. This had nothing to do with cultivation level. But Ye Mo thought of another thing and said to Su Jingwen “Jingwen, I have a way for you to cultivate faster.”

Ever since Su Jingwen’s hidden ice spirit root was activated, her cultivation speed was very fast but it was a far cry compared to Ye Mo. She wanted to cultivate to Ye Mo’s level and not be deadweight so the next time Ye Mo went out she can help too.

“is it using your time formation disk? Didn’t you say you don’t have immortal crystals. Did you really get the immortal crystals from the seal?” Su Jingwen asked joyfully.

Ye Mo nodded “not now, after two days we’ll leave west cultivator city and you can go in to cultivate.”

Ye Mo thought that ever since he reached truth realisation state, his golden page world can allow people to go inside. So he was going to let Su Jingwen cultivate inside. There was bitter bamboo, extreme grade spirit range and time formation disk inside. Su Jingwen’s talent was much better than his so she would be flying fast cultivating inside.

Letting her out of his arms, the first thing Ye Mo did was to open Fang Yizong’s storage ring.

The restriction on the storage ring was very complicated but for a level nine formation grand master, it wasn’t anything. He didn’t even use a day and he removed all the restrictions.

This was the first time Ye Mo had seen a storage ring this big. It was the size of a small city. Comparatively, the things inside didn’t even take up 1/10000 of the space.

Ye Mo casually took out 5 golden cards. He knew they were spirit stones cards. They were dimension cards that could store spirit stones. They were very small but each could store 100 million spirit stones.

Ye Mo had a lot of spirit stones right now so he didn’t care about the cards that much. He put them aside. What he noticed was the extreme grade spirit range ahead.

Other than that, there were pills, materials as well as a pile of low grade or middle grade cultivation artefact. There were a few top grade cultivation artefact. As for extreme grade cultivation artefact, it was probably that grey net, universe ring and the flag.

However, Ye Mo quickly took out a stone stool from one corner. He was all too familiar with this. he had two of such and now another appeared here.

Ye Mo didn't even take out his stone stools and he felt the two rumble. Clearly, there was some sort of connection between the three stone stools.

So, Ye Mo put them together. On the surface, nothing happened but Ye Mo could feel the attraction between the three.

"what is this?" Su Jingwen asked in confusion.

Ye Mo shook his head "I don't know either but I feel it has great importance to me. there should be more than three."

"where did you get the other two?" Su Jingwen asked.

"one in the small world, the other in North Far State...." suddenly, Ye Mo paused. He realized something. He got the two stone stools from two different realms. Plus Fang Yizong's one, they were from three different realms.

"there's writing on the stone stools." Su Jingwen noticed.

Ye Mo almost saw it at the same time. When he got the two stone stools, his power was only golden core state and he just left them in the golden page world.

Other than the first word, everything else was the same. The first one wrote "earth, five elements unite, world complete." The second wrote "wood, five elements unite, world complete." The third was metal.

"I understand." Ye Mo said. "there isn't divine damnation in my golden page world because the 5 elements are incomplete. It hasn't formed a real world yet. If it has the 5 elements, it would also form a real world."

"then it would become a planet?" Su Jingwen asked in shock.

Ye Mo nodded "my golden page world is different to other small worlds. It's a real primordial chaos world. it's very hard to form but it indeed can become a world."

Ye Mo said in disappointment "if I can't find the five stone stools I won't be able to complete my world. according to how the three came, the other two should be in different realms. It would be very hard for me to get them."

Su Jingwen was also regretful but she said "then can you let me go into your golden page world?"

Ye Mo nodded "yes, when we get to the Heartless Sea, you can go in the golden page world to cultivate. I'll let you go in now, don't resist with your mind."

Su Jingwen closed her eyes and nodded. She felt her body go lighter and when she opened her eyes, she was in a world she had never seen before.

"this is your world?" Su Jingwen said and then she felt light again before appearing in the room again.

"how did you let me come out?" Su Jingwen looked at Ye Mo in confusion.

Ye Mo frowned "Jingwen, my understanding before is wrong. I didn't let you out, it was my golden page world. you can't stay inside for long. Even if you go in, you would be forced out."

She immediately knew Ye Mo's worry, if his golden page world wasn't completed, she wouldn't be able to stay inside for long.

She grabbed Ye Mo's hand and said "it's fine, we won't go inside, it's no big deal. It's fine as long as you stay with us. Plus, you can let us cultivate with your time formation disk."

Ye Mo thought and agreed. With his current power, even if there was someone who could force him to run it would only be a few. Plus everyone was studying how to immortal ascension, once they knew immortal ascension was possible at West Extreme State, they would all be coming over. Who would look for trouble with him?

As for Yin Xu hidden here, Ye Mo didn't consider him a threat. Although Ye Mo hasn't fought him, he knew that Yin Xu was no match for Fang Yizong. He was a far cry from him.

His only worry was that when he found a way back to earth, he can't bring Qingxue and them.

....

In the next two days, Ye Mo was concocting pills for the truth realisation state cultivators in west cultivator city.

The pills truth realisation state cultivators needed couldn't be concocted by ordinary people. The truth realisation state didn't want to waste this once in a thousand year opportunity so other than truth marrow pill, they also asked Ye Mo to concoct truth meridian pill. It was for truth realisation state to break through small levels. They were both heaven grade level nine pills.

Ye Mo break through two states in West Extreme State so he wasn't too stingy. On their request, he stayed for an extra day and only on the fourth day did he bid everyone farewell. At this moment, Xie ZHengshi and them still haven't even arrived in the west cultivator city.

Yue Ming and them sent Ye Mo all the way to Heartless Sea before turning back.

Ye Mo had some regrets not going to blue sand ditch but he thought that once Blue Moon became low grade immortal artefact, he could come back anytime.

“we can finally go back.” Yue CHan stood above Blue Moon glancing out into the boundless Heartless Sea and called out excitedly.

Ye Mo didn’t know how Yin Xu could stop Blue Moon but he knew that he would be waiting ahead.

Chapter 1324: One vs two

Suddenly, they were stopped. A black flying ship magic artefact stopped before Blue Moon. It was beyond extreme grade cultivation artefact and was just a sliver away from half immortal artefact.

At this moment, Ye Mo realized no wonder Yin Xu was so confident in stopping him. This flying magic artefact wasn’t as good as Blue Moon but wasn’t far off. Controlling it with his truth realisation state peak stage power, it was no wonder it was a little bit faster than Blue Moon.

But he didn’t expect he was truth realisation state power. If Ye Mo wanted to run now, Yin Xu wouldn’t be able to chase up to Ye Mo. But Ye Mo didn’t want to run now at all, he wanted Yin Xu to come.

He already earned big from Fang Yizong’s storage ring. How could he not know that Yin XU might be wealthier than Fang Yizong.

Two cultivators appeared on the boat, one was Yin Xu and the other was the shadow next to him.

Yin Xu was the same as before, long black hair flowed freely behind him, standing on that flying ship, he seemed like an immortal. Te shadow behind him was pale faced as usual.

Ye Mo spoke before Yin Xu could “city lord Yin is really fast. I’ve just gone for a spin at West Extreme State and now we meet again. Is this luck or fate.”

Yin Xu said calmly “I think it’s luck. My luck is pretty good, I can meet pill master Ye again. You’re quite lucky to meet me here too.”

Ye Mo nodded “lucky indeed, but I’m curious, why did city lord Yin come to West Extreme State?”

Yin Xu said calmly “not bad, you’re truth realisation state now. I thought you were only cauldron filling state before. Your stealth means are impressive indeed. I was wondering how you could easily kill Yin Sha. So that’s it.”

Ye Mo’s tone went cold “city lord Yin, you don’t seem to have answered my question yet.”

Yin Xu nodded “I didn’t answer your question indeed. I can tell you now. I have a lot of time so I don’t mind chatting here for a few months so you don’t need to stall. As for why I’m at West Extreme State, it’s because I met a truth realisation state level one cultivator on the way to North Far State called Shan Di. He told me you’re at West Extreme State. but that Shan Di was quite impressive, he actually escaped from me.”

Ye Mo finally understood, Shan Di not only didn’t die but also reached truth realisation state. clearly, he must’ve found some treasure in the West Extreme State.

Suddenly, Yin Xu stared at Ye Mo and asked “you have more Sha fruit right? I believe you have more than ten drops of 10000 year stalagmite marrow.”

Ye Mo nodded “that’s right, I have five or six sha fruit, and half a bucket of 10000 year stalagmite marrow.”

Then Ye Mo added. “I have a few extreme grade spirit ranges too. Oh and I also have ice carrot and truth spirit pill. what can I say, I have too many good things on me. the Kun scale I got from you was quite useful, I’ve put it on my flying magic artefact. Look, it’s half immortal artefact now.”

The more Ye Mo spoke, the more Yin Xu’s eyes lit up. Even someone like him couldn’t resist anymore.

Suddenly, his chi rose and his domain expanded.

"I know you used the Kun scale. I won't go hard on you, give me your storage ring and I will consider letting you go." Yin Xu said excitedly.

Ye Mo said calmly "Kun scale is mine. I can choose however I want to use it. why should I give you my storage ring? Is it because I have a lot of good stuff? Oh by the way, your flying magic artefact is pretty good too. How about you give it to me."

"do you want to die? Those few women behind you will die a pitiful death. The dual cultivation brothels in Yin Hai city would welcome them dearly." Yin Xu's voice went cruel.

Ye Mo reached his hand and Zi Xu appeared in it. he said with more scorn "Yin Xu, what if I tell you you won't have the chance to spirit control that small world, what would you think?"

Hearing this, Yin Xu's eyes opened wide with shock. He didn't want to talk to Ye Mo anymore. He stepped out and 12 white shadows torn apart space looming over at Ye Mo. They were white lines at the start but when they were completely released, they turned into a few hundred meter long veil.

This terrifying sword shadow veil, any living being nearing it would be pulverized.

Sword formation, Ye Mo sneered. He has seen quite a few and their users have all turned to dust.

Yin Xu only spoke with Ye Mo for so long because he was afraid Ye Mo would destroy his ring before his death.

Now that Ye Mo even knew he wanted to spirit control the small world, how could he let Ye Mo live? that was his greatest secret. Even his shadow didn't know.

So, he would rather not have anything but still kill Ye Mo.

Because of this, he used his lethal blow immediately. Another flaming red spear appeared in his hand.

Ye Mo sneered, Yin Xu's power was terrifying and his sword formation was powerful but he was a far cry from Fang Yizong.

Ye Mo stepped out too releasing Zi Xu. Illusion Cloud formation kill strike. He used the sword ray to stop the 12 flying sword formation.

Ye Mo burst out his power and his domain expanded out.

Yin Xu could hear cracks all around him and then, his face changed drastically. He didn't expect his domain to be this useless in Ye Mo's domain. In just a few moments, it cracked.

Thud.

The white veil was swept by Ye Mo's purple sword ray and became messy. It also spun slowly in Ye Mo's domain.

But Ye Mo didn't show any mercy and hacked out with Zi Xu.

It turned into a long beam and smashed with the spear. Rumble, cultivation essence splashed everywhere creating some cracks in the dimension.

This strike made space itself unstable, Yin Xu could no longer hold the worry in his heart. He now realized that Ye Mo wasn't scared of him at all.

Without hesitation, he spat a mouth of essence blood and the space around him flowed again. He regained freedom. At the same time, the 12 flying sword hummed and broke free from Ye Mo's Illusion Cloud formation kill strike. They spun in the air and charged at Ye Mo with glistening sword ray.

That pale cultivator realized that Ye Mo was on the level with his master. He knew he had to help now and he dashed wanting to charge into Blue Moon.

Ye Mo sneered and released octagonal cauldron.

Octagonal cauldron brought along countless shadows clashing with the sword formation. Another huge rattle sounded, the octagonal cauldron stopped the 12 sword formations again.

At this moment, Ye Mo raised his hand and threw tens of lightning sword at Yin Xu. He charged over at the pale faced cultivator in a purple ray.

Yin Xu wanted to stop Ye Mo but he couldn't ignore the infant arm sized lightning swords. He let out a semi circle shield without hesitation and formed a cultivation essence wall to stop the lightning sword.

Meanwhile, Zi Xu tore through space towards the shadow cultivator.

Illusion Cloud Hua Mountain strike, the space tearing purple beam brought about sharp killing intent.

This guy was a mere truth realisation state level six and he dared to attack his magic artefact. Ye Mo was furious. He completely expanded his domain with this attack.

Chapter 1325: The woman who instant killed Yin Xu

The pale faced cultivator was only truth realisation state level six but he was extremely fast. He appeared next to Blue Moon in less than half a second. Blue Moon had a powerful defense formation, but a truth realisation state cultivator could probably break in in less than two seconds.

But then when he arrived in front of Blue Moon, he felt slowed. It was as though he had sunk into a swamp. He immediately knew he fell into Ye Mo's domain. If he couldn't break free immediately, he would die very soon.

Realizing this, he quickly burned mouthfuls of essence blood.

That instant, he completely broke free but then, he saw a purple rainbow coming from the horizon. It was very beautiful but Ye Mo knew it was no rainbow, it was his sword beam.

Terror flashed in his eyes, he immediately released a black stick.

With a thud, the magic artifact was hacked apart by Zi Xu.

Zi Xu paused for a brief moment and exploded in purple rays.

The shadow cultivator quickly activated a rune wanting to break free from the range of the attack.

Splurge

Blood flew up in the air and Zi Xu hacked a long wound on the shadow cultivator's back. An essence spirit seeped out but was instantly killed by Ye Mo's Lightning Sword.

Seeing this, Yin Xu's face looked very bad. He realized that Ye Mo was definitely stronger than him.

He wanted to run, but how could Ye Mo let him run?

Ye Mo didn't even have time to take the storage ring of the shadow and just hacked out at Zi Xu while expanding his domain.

Yin Xu was very regretful now.

But he knew he had to pass this challenge, so when Ye Mo hacked over with Zi Xu, Yin Xu released a frenzy attack with his spear.

The spear released hundreds of spear beams that clashed with Zi Xu's sword beams.

After the explosion, the beams disappeared and there was another ear screeching noise.

Zi Xu clashed head on with the spear. Ye Mo was shook in his mind and felt a little dizzy. He knew Yin Xu's cultivation essence was stronger than his.

The more Yin Xu fought the more he was shocked. He didn't understand why Ye Mo could kill his shadow with one strike. Why couldn't his Ruin Spirit Spear break that kitchen knife? His spear was an ancient relic, something that could evolve.

Ye Mo also felt that the spear was on par with his Zi Xu.

Yin Xu suddenly spat blood again and those 12 flying sword's power drastically rose.

Ye Mo instantly knew things weren't good. He just wanted to call back the octagonal cauldron but there was a terrifying explosion. A black fissure appeared at where octagonal cauldron and the 12 flying sword clashed.

The terrifying cultivation essence swept Ye Mo again, sending him crashing onto Blue Moon before slowing down. The concussion made him spit many mouthfuls of blood.

Ye Mo realized what was going on, Yin Xu self destructed his set of extreme grade cultivation artifact flying sword. This was worth a fortune.

The intention was to run away. When Ye Mo stabilized himself, Yin Xu already activated a space transmission rune.

Ye Mo was annoyed. If he changed tactics and trapped Yin Xu with his domain right at the start and then attack him with Lightning Sword, he might not be able to get away.

This Yin Xu was this strong, he was only a little weaker than Fang Yizong.

Seeing that he successfully activated the space transmission rune, Yin Xu breathed easy. It was impossible for Ye Mo to stop him where he was.

But what Yin Xu and Ye Mo didn't expect was that suddenly a blue sword ray sliced across and the space transmission rune was broken by this blue ray.

Before Yin Xu could react that blue sword ray turned against Yin Xu.

With a splurge, there was the sound of flesh being cut apart. Yin Xu was instantly killed by this blue sword ray. The next moment, a fire rose up and Yin Xu's body and essence spirit disappeared in the flames.

A middle aged woman who wore a pale blue robe appeared in Ye Mo's sight. She grabbed Yin Xu's storage ring. Her actions flowed smoothly, clearly she was a powerful master.

Seeing this, Ye Mo was annoyed. He worked so hard and this was all reaped by someone else.

The reason she killed Yin Xu so easily was not only due to her power but because all of Yin Xu's attention was at Ye Mo's side.

Before the woman could speak, Ye Mo dashed to Yin Xu's flying magic artifact and took it. As soon as he did, a pink flying ship appeared in his spirit sense and stopped next to the middle aged woman.

There were two aboard and Ye Mo knew both of them. It was Mu Feihuan and her disciple Len Ruofei.

"You're very cunning," said the middle aged woman. Her voice was so soft and crisp that it sounded like a young girl.

She looked very young but Ye Mo didn't think she was young. She was as tall as Ye Mo and her hair lay casually on her back, making her seem a little lazy. Her white skin matched with her extremely beautiful eyes made her seem really young.

Ye Mo went back to Blue Moon and looked at her. "If I was cunning, I wouldn't have worked my ass off for someone else.

The beautiful woman suddenly smiled. "You wanted the cultivator's storage ring? Or his red spear? That spear isn't bad, it's on par with a low grade immortal artifact."

Ye Mo didn't speak, he knew that she wouldn't be giving the things to him. Her power seemed very eerie.

She continued, "If I didn't intervene, do you think you could have killed him? Perhaps he would've been long gone."

Ye Mo no longer had the mood to talk and just saluted with his fists. "Since you took them, I won't ask for them. Goodbye."

She was right, he wouldn't be able to kill Yin Xu.

Just when Ye Mo was about to leave on Blue Moon, the woman stopped in front of it. "I heard you taught my disciple Feihuan a lesson?"

Hearing this, Ye Mo realized they came for revenge. He released Zi Xu and sneered. "So what?"

Ye Mo knew this woman was strong but no matter how strong she was, she couldn't be stronger than Fang Yizong.

She laughed. "Well, young and brash. Very well, I like you like this. I heard you're a level nine pill king too?"

Ye Mo didn't answer. Her stealth cultivation method was very powerful, she definitely had been hiding on the side from before.

The woman laughed again. "I've just come out of solitary cultivation and I heard a very powerful cultivator came to the West Cultivator City. He's not old but he passed the Heaven 36 Domains and is a level nine pill king. How can I pass by such a young hero? But pity – when I, Quan Ying, got there you'd already left."

She smiled at Ye Mo. "Look, I came out of West Cultivator City just to meet you."

She smiled again seeing that Ye Mo didn't talk. "I heard Feihuan say you're interested in Ruofei. I love matching young prodigies. You're a prodigy and so is our Snow Forest Pond's Ruo Fei. You two are a good match. This storage ring and the red spear can be the meeting gift. Of course, if you come with me to Snow Forest Pond, I will show you better things."

Chapter 1326: Blue sun

At this moment, Su Jingwen was next to Ye Mo. Ye Mo pulled her hand and said to the woman, "Thank you, Ruofei is very good but I have a wife already."

The woman scanned Su Jingwen and said, "Then divorce her, if not you can take her as a concubine."

She said it so naturally that it was the same as 'Then kill her'.

Ye Mo's eyes turned cold. But then he frowned and then put away Zi Xu instead. He put Blue Moon on full throttle and it instantly disappeared from the Heartless Sea sky in a blue blur.

"Grandma, Ye Mo just left like that?" Mu Feihuan asked in confusion. She didn't understand why Ye Mo suddenly left. Even if he didn't agree, he didn't need to just leave without saying anything.

As soon as she asked this, another person appeared. It was a bearded man standing on a metal hammer.

The woman glanced at Mu Feihuan. "Now do you know? He thinks I'm going to attack him together with someone. He overestimates himself. But then again, he's a level nine pill king, he has the right to."

...

The woman guessed right, Ye Mo was indeed scared that she would join forces with someone to attack him. It was a beast cultivator who appeared in his spirit sense, he was a truth realisation state peak stage beast cultivator. He couldn't protect Blue Moon with these two here so he left.

After leaving, Ye Mo set up a formation in Blue Moon and put the time formation disk inside to let Su Jingwen cultivate. He believed she would be able to reach nascent soul state peak stage in a few years with this many pills, spirit stones and Bitter Bamboo.

After Su Jingwen went into solitary cultivation, Tang Mengrao came to Ye Mo. She took out a truth realization grass and two Jue Sheng for Ye Mo.

Ye Mo took them without saying anything and gave her two Truth Spirit pills and one Disaster Will Pill. After some thought, Ye Mo gave her two Truth Meridian pills and two Truth Marrow pills.

With Tang Mengrao's talent, she would be able to reach disaster transformation state peak stage in a short time with the Disaster Will Pill. Perhaps she might even be able to reach truth realisation state before getting back to North Far State.

"Thank you, Ye Mo." Tang Mengrao took the pills in gratitude. Even her truth spirit grass and the two Jue Sheng as well as other spirit herbs were given to her by Yue Ming and them on Ye Mo's account.

The reason Ye Mo gave her all this was first due to staying with her for so long, but more importantly since if he couldn't find Yimo at North Far State this time, he might go back to South Peace State. He was hoping Tang Mengrao would keep searching for him.

On top of that Ling Zhongtian was nowhere to be seen, Shan Di probably wouldn't be doing well either.

In that case, there really wouldn't be anyone in North Far State to protect them. If something happened there or at Mo Yue, Tang Mengrao would be able to help.

Tang Mengrao was disaster transformation state level eight peak and how could she not know what Ye Mo thought? Even if Ye Mo didn't say this, she would help Ye Mo with that.

Tang Mengrao and Su Jingwen went into solitary cultivation, Yue Chan was bored being alone so she went into cultivation too. Soon, it was only Ye Mo still out.

He didn't have a spirit source so it was not much use going into solitary cultivation. Ever since he reached truth realisation state, the amount of spirit chi he needed for cultivation was terrifying. Although he had a few extreme grade spirit ranges, he still wanted to set up a huge spirit gathering formation in Mo Yue City.

Burying a few extreme grade spirit range into Mo Yue City, Ye Mo believed Mo Yue City's spirit chi would become extremely dense.

...

Blue Moon dashed through the Heartless Sea extremely rapidly without a trace. Even if some beast cultivator noticed it, they wouldn't be able to react to it.

Ye Mo spirit control the black boat he got from Yin Xu as well as the low grade immortal artifact sword that Wang Xie gave him.

It wasn't very suitable for him but it was a low grade immortal artifact. With that, it could save his life one day.

Ten days later, after cultivating for nearly three years in the time formation disk, Su Jingwen came out. She was nascent soul state peak stage. Ye Mo stopped Blue Moon on a deserted island, letting Su Jingwen have her hollow spirit state divine damnation.

Three days later, Su Jingwen successfully reached hollow spirit state. However, Tang Mengrao and Yue Chan were still in solitary cultivation.

Su Jingwen continued to cultivate in the time formation disk to catch up to Ye Mo while he stayed out controlling Blue Moon and cultivating Heaven Flame Nine Suns. He felt this was very important to him. He spent most of his time in cultivation so now that he finally had some time, he would study this.

In nearly four months, Ye Mo cultivated level one of Heaven Flame Nine Suns to aqua color. He was just a bit away from blue sun level. Only then did he realise Heaven Flame Nine Suns' true power. If he used Heaven Flame Nine Suns now to attack Fang Yizong's bugs, he was certain that not a single would be able to escape.

At the same time, he knew he could cultivate level two of Heaven Flame Nine Suns, but with his current heaven flame, it wouldn't be much stronger than level one and would instead use up a lot of his spirit sense. In order to fully complete Heaven Flame Nine Suns, he needed to upgrade his Mist Lotus Heart Fire to purple.

For Heaven Flame Nine Suns, the quality and level of the heaven flame was the most crucial part.

...

At this moment, Su Jingwen and Yue Chan came out of solitary cultivation so Ye Mo stopped cultivation too. Su Jingwen stopped because the immortal crystals in the time formation disk had been used up, she was hollow spirit state peak stage now.

She used another three months to reach hollow spirit state peak stage. But in fact, she cultivated six years in the time formation disk.

"You can have your body condensation state divine damnation now," Ye Mo said happily. He regretted there was no more immortal crystals. Otherwise with Su Jingwen's talent, she really would only need a few years to reach truth realisation state.

"What, Jingwen can have body condensation state divine damnation?" Tang Mengrao asked in shock.

Ye Mo didn't answer her but looked at her instead. "Congratulations sect leader Tang, disaster transformation state peak stage, you can have your truth realisation state divine damnation."

Tang Mengrao immediately realized that there were some things Ye Mo didn't want to say. She nodded and said, "Yes, I want to find a place in the Heartless Sea to have divine damnation. With your help, you can set up a good spirit gathering formation for me, I would also have more confidence."

She paused and said, "Jingwen can watch me first, this would give her more experience."

Ye Mo nodded. "I was thinking this too. I'll find a place to set up formation in a moment."

"How long do we need to reach North Far State? The spirit chi is very arid already. I think it's quite close to North Far State right?" Tang Mengrao asked.

Ye Mo nodded. "I think there're at most ten days before we reach North Far State."

...

A day later, Ye Mo stopped at a huge island. He didn't use Tang Mengrao's spirit stones, he just threw out an extreme grade spirit range and a level nine spirit gathering formation.

No matter how strong the formation, it couldn't stop the seeping out of such dense spirit chi with a spirit gathering formation.

With this, the beast cultivators nearby also noticed the change in spirit chi.

Chapter 1327: Battling Chi Xie again

From some degree, Tang Mengrao's talent was on par with Su Jingwen, otherwise, she wouldn't be able to reach disaster transformation state level eight in a place like North Far State.

Tang Mengrao was very prepared for divine damnation so after eating the Truth Spirit Pill, the divine damnation came in half a day.

Truth realisation state divine damnation, the first wave of nine bolts were far weaker than Ye Mo's divine damnation but still very powerful.

Just looking at how Tang Mengrao blocked the first wave, Ye Mo knew she would be fine passing the truth realisation state divine damnation.

The sky was very clear before her divine damnation but now, it was covered in dark clouds and thunder.

With all this ruckus, there was no way powerful beast cultivators nearby wouldn't notice.

A red haired beast cultivator came above the Heartless Sea and said in confusion, "Who is having divine damnation?"

When he saw the first wave come down, his face changed drastically. "Truth realisation state divine damnation? There's a beast cultivator in Heartless Sea reaching truth realisation state? Who?"

...

Tang Mengrao was at her fourth wave but there was a huge laugh. "I was thinking who had the power to have truth realisation state divine damnation in Heartless Sea! So it's the little girl from Jade Woman Sect. Hahahaha....."

After this hysterical laughter the red haired beast cultivator said excitedly, "If Kong Ye old man knew you were having divine damnation in the Heartless Sea, he would be regretting so much..."

Tang Mengrao wasn't shook at all. If she was by herself she wouldn't dare to do this at all. But Ye Mo was here, Ye Mo wasn't even scared of truth realisation state peak stage much less this red haired cultivator. Plus, she had seen this cultivator before and Ye Mo fought with him once outside Pei Hai City.

However, Ye Mo's power was on a completely different level from before.

The beast cultivator's attention was completely on Tang Mengrao. He considered everyone else around as insects. He thought that once he came, even if Tang Mengrao didn't die in her divine damnation she would be lost in the heart demon tribulation. Even if she was fine for both, she would die at his hands.

But now he was surprised. Even if Tang Mengrao could pass the divine damnation, how could she run away from him? Why did she seem so calm? Although he was truth realisation state primary stage, that was still more powerful than her.

He laughed. "You're quite calm, you probably know that it's no use worrying."

At this moment, Ye Mo said calmly, "She never considered you alive."

Yue Chan laughed out loud at this.

Only then did the beast cultivator notice there was Ye Mo and them. He knew they were there before but he wasn't interested in even looking at them. But now that he did, he immediately noticed Ye Mo and was dazed.

Then, he laughed. "It's actually you, great, great...."

He pointed at Ye Mo. "I wanted to kill you last time and now I meet you in the Heartless Sea again. I told you not to let me see you again. You killed so many of my Heartless Sea spirit beasts."

Then, the beast cultivator's chi rose drastically and he charged at Ye Mo. Ye Mo was the person he wanted to kill the most.

Before he got to Ye Mo's side, his domain expanded and at the same time he released his Li light dual blades. He scorned, "A mere cauldron filling state dares to copy the power of truth realisation state. I'll let you understand what I meant last time by saying 'don't let me see you again'."

To him, Ye Mo's truth realisation state couldn't be more fake.

The difference between cauldron filling state and truth realisation state couldn't be filled up in a short time.

Ye Mo didn't seem to see the Li light dual blades and just grabbed with his hand. Zi Xu appeared and he copied Chi Xie. "Last time I thought so too, 'don't let me see you again'."

Before Chi Xie could react, his Zi Xu brought out a magnificent arc.

Chi Xie sneered, he knew this kitchen knife was a little eerie and even broke his domain and Ye Mo could also see the weakness of his domain. But this was nothing to him, the difference in power wasn't so easily overcome.

Li light dual blades brought two faint red rays of intense killing intent and hacked at Zi Xu. Clearly, Chi Xie wanted to smash Zi Xu away and use that momentum to hack Ye Mo into two pieces.

But after only flying half the distance, Chi Xie noticed something wrong. His swords weren't getting faster but slowing down instead.

Suddenly, he felt the domain he expanded out also slow down. Moments later, it started cracking and his body sunk into a swamp. He couldn't move forward in this space at all.

Chi Xie immediately knew that he landed in Ye Mo's domain. His face changed immediately. "Domain, great completion domain, you're really a truth realisation state cultivator, last time, last time...."

Before Chi Xie could say Ye Mo was putting on an act, Zi Xu and his dual blades collided.

Crack

The dual blades were easily knocked away but Zi Xu was unaffected. The purple ray sliced across space and came above Chi Xie's head.

Chi Xie was still stuck in Ye Mo's domain and seeing this purple ray, there was despair in his eyes.

With a splurge, blood sprayed out. This overlord of the seas didn't even last one move in Ye Mo's hands. Even in his death he couldn't believe that Ye Mo became this strong in such a short time.

Rumble

Tang Mengrao just had her sixth wave of divine damnation. Nine baby arm sized lightning bolts fell.

Ye Mo picked up Chi Xie's storage ring before watching Tang Mengrao's divine damnation. This was weaker than his cauldron filling state divine damnation, he believed Tang Mengrao would be fine.

Indeed, Tang Mengrao was only lightly injured and passed the sixth wave. The next two waves only made her injuries a little heavier. The ninth wave completely shattered her armor and showed her bloodied white skin. Even so, Tang Mengrao still lived.

Ye Mo stopped watching as her clothes were torn.

Tang Mengrao knew this happened but she didn't care, this was nothing compared to reaching truth realisation state. Plus, she was entering heart demon tribulation.

A day later, Tang Mengrao howled and changed into a new set of clothes. She had passed her heart demon tribulation and became a truth realisation state cultivator.

Su Jingwen and Yue Chan immediately came to congratulate.

Tang Mengrao nodded with excitement. "Mhm, thank you, thank you."

In the past, the only thing she did was cultivate and cultivate. Now that she finally reached truth realisation state, she would even reach truth realisation state peak stage in time.

Yue Chan whispered to her master, "Master, when you were having divine damnation, your clothes were torn and martial uncle Ye left after seeing it."

Tang Mengrao smiled didn't answer. That didn't matter much to her, her life was saved by Ye Mo and this was something accidental.

She said to Su Jingwen, "Sister Jingwen, the spirit chi here is dense. Why don't you start divine damnation too?"

Su Jingwen nodded and Ye Mo came out of Blue Moon. He congratulated Tang Mengrao first before setting up the formation for Su Jingwen. He even set up a few lightning attraction formations just in case.

But he underestimated Su Jingwen. She wasn't the Su Jingwen who just came from earth.

Three days later, Su Jingwen successfully reached body condensation state and the lightning attraction formations weren't put to use at all.

Chapter 1328: South Mountain old friend

6 days later, Blue Moon went into North Far State without resistance. Not a spirit beast nor beast cultivator dared to stop them.

Tang Mengrao took Yue Chan and bid farewell. Two days later, Ye Mo and Su Jingwen appeared outside Pei Hai city.

Although Ye Mo only spent a few months searching for Yimo, Song Yangzhu and them were already anxious. They were notified as soon as Ye Mo and Su Jingwen came outside Pei Hai city.

Seeing each other, everyone rejoiced.

Ye Mo heard that the formation forgery sect elder Li Yifeng still didn't leave Pei Hai and had been discussing formation with Ji Ling. Thus, he set a disaster life pill and one truth spirit pill. he wanted to give two pills to him when he was repairing the Pei hai city formation in the beast tide but Ye Mo wasn't level nine pill king yet.

Getting this, Li Yifeng finally understood why Ye Mo told him to come see him before he left. He was very grateful. With these two pills, he would be able to reach truth realisation state if he cultivated well.

Hearing that Ye Mo got the truth spirit pill, Ji Ling was preparing for divine damnation.

Ye Mo had extreme grade spirit range and Ji Ling was a formation grand master himself. Setting up a spirit gathering formation and some divine damnation defense formations were very easy.

Ji Ling's cultivation talent was much weaker than Tang Mengrao. The reason he was able to reach disaster transformation state peak stage was because he was at South Peace State and the sect leader of an 8 star sect. if Ji Ling was in North Far State, it would be quite amazing if he reached body condensation state.

Luckily, Ye Mo had a lot of truth spirit pills. Ji Ling used three to successfully reach truth realisation state.

Feeling this power, Ji Ling sighed. If it wasn't for Ye Mo, he would never be able to reach truth realisation state his entire life. who could afford to eat three truth spirit pills?

No sect would give three truth spirit pills to one person to reach trss.

...

Everyone seemed happy but Song Yangzhu was still worried. Ye Mo knew she was worried about Yimo and sighed “this time I accidentally went to West Extreme State, when you guys settle, I’ll go out and go around the entire North Far State. I’ll go visit Kong Ye qian bei too. If I still can’t find Yimo, I can only ask sect leader Tang to help with this.”

Ye Mo was also worried. He didn’t stay long with Yimo and they were separated for this long ago.

He was truth realisation state power now, it wasn’t hard to search the entire North Far State.

As for seeing Kong Ye, it was already arranged. Kong Ye said to go see him after 50 years but Ye Mo’s understanding of that was 50 years so his power reached a certain level. He was now truth realisation state power, he would be fine roaming the entire Luo Yue continent.

Song Yangzhu wanted Ye Mo to be faster on the search so she resisted the urge to go out.

...

Ye Mo left Pei Hai city again just to search for Yimo. With his current spirit sense, it might not cover a planet like Earth but it was enough to cover a city or a country.

One month later, Ye Mo travelled half of North Far State but still didn’t find Yimo. He did see a few people from the small world but they weren’t familiar so Ye Mo didn’t ask much.

Today, Ye Mo came to Gan Yuan city. He came to the south mountain market here. His second stone stool came from here. He didn’t dare to ask before but now he wanted to ask how the stone stool came to be.

Gan Yuan city wasn’t very prosperous but it wasn’t a small cultivation city.

But when Ye Mo came here today, it was very tattered.

It wasn't completely in ruins but there was less than half of the cultivators before. Those cultivators who appeared on the streets seemed worried. Most of them stayed cultivating in their cultivation home.

Ye Mo felt strange, even if a cultivation city was to fall it wouldn't be in just a few years. Just what happened here.

There was a quite good level six spirit gathering formation here. This was quite attractive to low level cultivators.

Ye Mo stopped a golden core state who wanted to go out and saluted with his fists "friend I came here ten years ago and this place wasn't like this. what happened?"

The golden core state showed an annoyed face and just wanted to reject but he immediately found that he couldn't see through Ye Mo's power so he saluted with his fists "friend, 5 years ago, there was this sudden grey mist in the centre of the city. The mist expanded and all the cultivators in the city all disappeared."

Ye Mo frowned "did no one go investigate?"

The golden core state immediately said "how can there not be? There are people still searching. The white mist is very strange, it just covered the entire south mountain market and didn't expand. Later on, cultivators barricaded the entire market with walls in case people went in and lost their lives"

Ye Mo asked in confusion "you said there were people still grouping up to go in, how could they lose their lives?"

The golden core state shook his head "the mist covers the entire market but on the third night of the full moon, it would be the weakest. Many cultivators would prepare defense magic artefact and go in to search for the storage ring of the dead cultivators. In fact, many cultivators succeeded and brought out many materials and storage ring. Some even found level seven spirit herbs."

"due to this, more and more people went inside but not many people came out. Many cultivators feared they wouldn't be able to resist the temptations so they left."

Ye Mo immediately thought of that valley in the herb valley, the space devouring spirit and the seal in the all herb mountain ranges.

Ye Mo subconsciously shivered, what if it was the space devouring spirit living in the market?

“friend, I’m business I need to go, bye.” The golden core state said seeing that Ye Mo was frowning.

Ye Mo nodded. He just wanted to go check out the market now. just when he wanted to turn he heard a familiar voice “brother Wan, we can go to the market but my brother is heavily injured. If brother Wan has truth recovery pill please lend one to me. when my brother is healed we will go together. Or you can lend me some spirit stones and I will go buy it myself.”

Ye Mo thought and remembered who this was. It was the sister Xia Pinger he met when he first came from the small world to North Far State.

A bleak voice sounded “Xia Pinger, we already paid quite some spirit stones for your brother’s injuries, what else do you want? Plus, we already agreed that you siblings will be going ahead to scout. If your brother can’t go you can do it as well.”

Ye Mo immediately thought of that timid girl, her brother was probably Xia Zhongfei. His spirit root was quite good, wind and earth duo spirit root. He was taken by the golden core state elder Han of Zheng Yuan sword sect as disciple, what are they doing here.

“brother Fang you can’t say that, my brother was injured for the team. Plus I never said that the team should pay for his injuries I’m just borrowing.” Xia Pinger said.

Ye Mo saw Xia Pinger already, her power didn’t increase much, she was only foundation establishment state level six. Her brother probably wouldn’t be that much stronger.

Chapter 1329: Trap

Xia Pinger's voice suddenly went numb "sorry, brother Wan, if my brother's wounds don't heal I won't go to South Mountain market. If something happens to me, who would take care of my brother?"

Brother Wan's face sunk and he suddenly said coldly "Xia Pinger, it's not up to you now. what did you and your brother say. We helped you so you help us scout ahead. What? you want to regret on your words?"

Xia Pinger's face looked bad and after a long time "brother Wan, sister Huangping wasn't saved and my brother was heavily injured what do you want?"

Ye Mo looked at this brother Wan, he was in his 40's and foundation establishment state peak stage. There was a man and woman next to him, they were all ferocious looking and full of killing intent. Clearly, they didn't kill just one or two people. The other two were both foundation establishment state peak stage.

Ye Mo suddenly walked out to Xia Pinger "sister Pinger, what are you doing here? What happened to your brother?"

Brother Wan gulped down the words he was about to say and started to study Ye Mo.

Xia Pinger looked at Ye Mo in confusion for a long while before she said in surprise and joy "you're brother Ye, is sister Yangzhu and Ling fine?"

Ye Mo nodded "they're fine I'm passing by here, I didn't expect to meet you. What happened to your brother, show me."

Hearing this, Xia Pinger's face saddened "my brother was beaten heavily a month ago and he still can't even use chi to recover himself."

Brother Wan was a little scared seeing that he couldn't judge Ye Mo's power level at all but hearing Xia Pinger's words, clearly they were friends in the past. With Xia Pinger's power, what powerful friends could she connect with?

Plus, if Ye Mo was really powerful, would he talk to low level cultivators like Xia Pinger?

Thinking about this, Wan said to Ye Mo “friend, Xia Pinger has some business with us now. if you want to find her, come a few days later.”

Ye Mo glanced coldly at this foundation establishment state man and ignored him. He asked Xia Pinger “sister Pinger, what is going on?”

Xia Pinger thought Ye Mo was golden core state cultivator and quickly said “some things happened in the sects so brother, sister Huangping and I left there. We came to Gan Yuan city. As soon as we got to the gates, we saw a notice saying that they need 10 foundation establishment state cultivators to go search an ancient ruin. It didn’t say which ancient ruin but it said the participants will not regret it.”

Xia Pinger’s eyes went red “many people saw the notice but no one said anything. Sister Ping said it might be a scam, if it was real, it wouldn’t be written out. However, those words offended someone.”

Ye Mo said “that’s very true.”

Xia Pinger said “yes, we thought it was fine but immediately, people said that she can not go but she can’t undermine their notice in front of other cultivators. We apologized immediately but that person told sister Huang Ping to go inside to apologise. After she went inside, she never came out again. Later on, brother and I found out that all those who said bad things about the notice were locked inside a prison. When we were discussing to rescue her, Wan Zhi said they could help and they’ve helped more than once.”

Ye Mo scanned the three and asked “how did they say they were going to rescue?”

Xia Pinger pointed at brother Wan “he said thye had a squad in Gan Yuan city and usually, people would give them some face. If he took his squad and we brought 10k spirit stones, she can be saved.”

Xia Pinger’s tone grew agitated here “my brother and I gathered the spirit stones and went with them to find sister Ping. They took our spirit stones and said it wasn’t enough. Someone in the squad went to argue and they attacked. My brother was heavily injured.”

Hearing this, Ye Mo sneered “was it only your brother who got injured in the squad?”

Xia Pinger nodded and said “yes, I think....”

She didn’t say it but Ye Mo knew she began to suspect but she was by herself and didn’t dare to say it out.

Ye Mo turned around and sneered “nice trap, you left Xia Pinger healthy because she still has some use right?”

Brother Wan frowned “I don’t know what you’re talking about.”

Ye Mo sneered “do I need you to understand?”

Then he flung over a wind blade.

Seeing this, brother Wan almost laughed out. He thought Ye Mo was a golden core state cultivator but now he was clearly a trash cultivator.

But moments later, he couldn’t laugh anymore. He felt he couldn’t move at all and could only watch the wind blade slice him from head down.

Blood splashed out, and Wan fell down in disbelief.

The other two and Xia Pinger were dazed. After a long while Xia Pinger stuttered “Ye, brother Ye you killed him?”

The other two woke up and didn’t dare to ask anything and tried to retreat.

Ye Mo didn't answer Xia Pinger and looked coldly at the two "if you dare to retreat one more step I'll kill both of you. I believe Xia Pinger would know where Huang Ping is locked. Do you want to explain things to me and take me there or keep retreating and wait for my wind blade?"

Ye Mo realized why there were less and less cultivators in this city, other than the mist, scam organisations like this could exist publicly.

The middle aged man shivered "qian bei, wan bei will say everything."

"Hu Shu, you don't want to live...." the female cultivator said but suddenly felt her head go cold.

Ye Mo didn't say anything and just looked at the middle aged man.

The man didn't dare to hide anything and said shakily "it has nothing to do with us, the Gan Yuan city Si family wants us to do this. they told us to do this to cultivators who come here. We don't know why but they want clean foundation establishment state female cultivator to be sent to the Wan estate and let them eat a few pills. Then we will send them to the mist at the full moon and let out their essence blood in the mist."

Ye Mo sneered "I was thinking how three insects got extreme grade spirit artefact armor. So this means you have quite some blood in your hands?"

The middle aged man quickly waved his hand "no, qian bei, I rarely kill. It's all Wan Zhi and Cha Xuefei. I'm just responsible for removing the mist."

Ye Mo scanned his spirit sense inside this man's body. There were grey mist inside. In some time, this man's meridians would be crippled. Ye Mo sneered but didn't tell him and asked coldly "where is Huang Ping?"

Xia Pinger's face went pale "so the pills you gave us were those pills, you want to take us to the mist too in a few days right?"

Hu Shu nodded timidly “yes, yes, Huang Ping is still in the Si family. When we leave, we will take her from the Si family.”

Ye Mo turned to Xia Pinger “your brother is fine, let’s go Si family first.

Ye Mo said coldly at Hu Shu “lead the way.”

The biggest family here was the Sii family. Soon, they arrived at the door but the scene made even Ye Mo’s skin crawl.

Chapter 1330: The disaster transformation state cultivator of the Sii family

In front of them were mutilated cultivators, the scene was so bloody and unsightly. Even if Ye Mo was going to annihilate the Sii family it wouldn’t be this bloody. He would at most turn them into dust with a few lightning swords.

Most of the bodies had the word Sii on it.

This wasn’t it, the hall of the Sii family was completely destroyed, it was just a pile of rubble. Ye Mo scanned with spirit sense and there were dead people everywhere. Only did he reach the innermost yard was his spirit sense blocked by formation.

“This is the Sii family?” Ye Mo asked coldly.

Hu Shu dazed for a long time before answering with a pale face, “Yes, yes qian bei, this is the Sii family.”

Ye Mo said to Xia Pinger, “Let’s go in and see.”

Xia Pinger nodded and carefully followed Ye Mo into the broken door.

Hu Shu didn't follow them and after Ye Mo and Xia Pinger disappeared in the estate, he quickly left. Only two years later did he realize why Ye Mo left him alone. He was corroded by the grey mist and turned to dust.

...

"Would sister Huang Ping have already been taken away?" Xia Pinger asked nervously.

Ye Mo shook his head. "No, Sii family can find plenty of female cultivator who aren't very high talented. If the Sii family enemy is here, they wouldn't take away Huang Ping."

Ye Mo walked to the defense formation at the backyard and casually threw out two formation flags. One secret door appeared and Ye Mo just walked in.

"Hmm!" There was a surprised exclamation when Ye Mo and Xia Pinger came in. Ye Mo also saw the person inside immediately.

There were two women, the older one was cauldron filling state level seven, the younger one was hollow spirit state level four.

Both of them were very pretty but the hollow spirit state girl was even better.

This made Ye Mo think of the green robed girl in West Extreme State, she was also extremely beautiful. The difference was that this young girl had a faint coldness and killing chi.

"Your formation skills and stealth cultivation method are quite nice, I believe you're the sect members of a big sect here?" the cauldron filling state level seven scanned Ye Mo and then Xia Pinger and asked.

Ye Mo felt the killing chi on them and knew that they were responsible for the slaughter outside.

They killed people but did so in such a gruesome manner, clearly they didn't think of others as living beings.

Xia Pinger cowered behind Ye Mo.

Ye Mo didn't answer her words, he scanned another place with a spirit sense barrier. He threw a metamorphic spirit sense blade over and immediately broke inside. He saw three pale faced female cultivators including Huang Ping inside.

"Where is Jiang Yi?" Ye Mo subconsciously asked Xia Pinger.

Xia Pinger said, "Martial brother Jiang Yi lost his life in a mission trying to protect sister Huang Ping. She met us on the way so we left together."

Ye Mo sighed, Jiang Yi was too devoted to this Huang Ping. He lost an arm for her before and now he lost his life.

Seeing Ye Mo ignoring her, the cauldron filling state female cultivator's face sunk and she sneered as though she was about to attack Ye Mo. But at this time, a shocking explosion sounded in the depth of the back yard. She quickly pulled the young girl and darted over.

Ye Mo ignored the two and took Xia Pinger to the restriction and waved his hand. Immediately the restriction was gone.

"Sister Ping..." Xia Pinger saw the dazed Huang Ping, the other two foundation establishment state female cultivators were also very dazed.

Hearing Xia Pinger's voice, Huang Ping reacted and looked worried. "Pinger, why are you here too?"

Xia Pinger pointed at Ye Mo. "I met brother Ye at Gan Yuan City and he came with me to save you."

At this moment, Huang Ping finally recognized Ye Mo and wanted to get up and thank him.

Ye Mo waved his hand, he scanned with spirit sense and knew there was poison in her body.

Ye Mo took out three pills and let the three have them. After that, the other two thanked him greatly and left, but Ye Mo gave a storage ring to Xia Pinger. "There're pills for your brother inside and some foundation establishment state cultivation pills. Save your brother and split the things inside and leave this city."

Xia Pinger subconsciously asked, "What about you brother Ye?"

"I have some things to do, it's not convenient to bring you guys. If you guys have nowhere to go, you can go to Pei Hai City. Pei Hai Mo Yue is my business. Go with my jade card." Ye Mo gave a jade card to Xia Pinger.

He still needed to find Yimo and go to the south mountain market.

"Then brother Ye, we'll be leaving first." Xia Pinger knew Ye Mo had his own business.

Ye Mo nodded and said, "Your brother will recover immediately after eating that pill, leave Gan Yue City immediately. This isn't a good place."

Ye Mo felt this city was strange.

"Yes brother Ye." The two agreed and left.

Then, Ye Mo chased over to the two female cultivators from before. Seconds later, Ye Mo appeared before a defense formation. He threw out two formation flags and walked in. This was a huge hall and he saw the two girls from before.

The only thing was that the cauldron filling state level seven female cultivator had already lost an arm.

The hollow spirit state girl held the cauldron filling state female cultivator with a pale face but stared closely at a sacrificial stage.

There was a white haired and white bearded man. He looked very young but seemed very old.

He was disaster transformation state level one but his chi wasn't too stable. Clearly, he only reached this state less than a month ago. Judging from his messy and blood chi, he probably cultivated a cruel cultivation method.

The white haired man seemed a little bewildered that he couldn't see Ye Mo's power.

He just scanned Ye Mo and looked at the female cultivator. "Very well, you arrived perfectly. If it wasn't for your arm it would be very hard for me to finish cultivation. I thank you."

Then, he licked his lips. "The reason I could reach disaster transformation state is because of the girl who came with you guys. Mhm, the fresh and clean taste, I've been longing for that for a month. Today I can finally taste it again."

"You annihilated my Sii family and now you will offer yourself, it's a worthy deal. I'll kill this insect first."

Then he grabbed over at Ye Mo.
