Chapter 1331: Crush disaster transformation state

Ye Mo sneered. A mere disaster transformation state cultivator dared to attack him like this and pretended to use a truth realisation state cultivation essence giant hand?

Only truth realisation states could condense cultivation essence into a material cultivation essence giant hand. This disaster transformation state level one clearly couldn't do that, but he was using some special cultivation method to extend his hand and grab Ye Mo.

Ye Mo had a strange feeling. It was like watching a monkey put on a show. Ye Mo sighed, power was really everything in the cultivation realm.

The disaster transformation state suddenly stopped his hand and thought of a very important thing. "How did you come in before?"

His formation was barely a level seven defense formation, the female cultivator could force her way in because she was cauldron filling state level seven. Ye Mo was this young, how could he get in? Was he a formation great master?

No matter what, he had to ask this.

Ye Mo ignored him and didn't stop, he walked towards where the disaster transformation state was.

Seeing that Ye Mo dared to ignore him like this, the disaster transformation state was furious. He reached out his hand wanting to grab Ye Mo by the neck and fling him up.

But his face soon turned to terror, he found that his hand couldn't move at all. He instantly knew things weren't good. He was disaster transformation state but he knew what domains were. He knew very clear that he was in Ye Mo's domain, Ye Mo could kill him like a chicken.

He no longer had the expression of a powerful being, there was just terror and worry. He didn't think Ye Mo was using a stealth cultivation method anymore, Ye Mo was a truth realisation state cultivator.

Sweat trickled down his forehead and back uncontrollably.

The female cultivator didn't notice this and said coldly, "Sii let us go and things will be over. Otherwise, after I die, the Chu family will annihilate your soul."

Ye Mo wanted to laugh, was this woman dumb? Would the disaster transformation state let her go due to that? Clearly she had zero experience in the cultivation realm.

But then, she noticed something was wrong, the disaster transformation state cultivator ignored her words and his hands were frozen in mid-air. What was this guy doing? Then, she noticed his face was full of horror and sweat.

Before she could think of why, Ye Mo's real cultivation essence giant hand reached over and easily held him up in the air like a chicken.

The female cultivator and the young girl completely froze.

"You're a truth realisation state qian bei?" the female cultivator subconsciously asked. If it wasn't some truth realisation state qian bei, how could he easily grab a disaster transformation state cultivator using a cultivation essence giant hand?

Ye Mo ignored her and grabbed the disaster transformation state by the neck before throwing him on the ground. "What is the mist in the south mountain market, did you bring it here?"

The disaster transformation state cultivator's bones were shattering but he didn't dare to resist.

The disaster transformation state really didn't understand why there was such a master in Gan Yuan City. He had never heard of truth realisation state masters in North Far State.

He thought he could do whatever he wanted after reaching disaster transformation state in North Far State but now he knew how unlucky he was. He didn't even consolidate his power and had offended a truth realisation state cultivator. He even said he would crush him.

Seeing that he didn't answer him, Ye Mo released a blue flame. "Do you want me to burn your essence spirit with heaven flame?"

Seeing this, the disaster transformation state screamed in terror, "Blue color Mist Lotus Heart Fire..."

He was a disaster transformation state cultivator but he spent almost every living moment in cultivation. Almost all of the Sii family's resources were gathered on him and yet he offended a truth realisation state with heaven flame.

"I'll say it, a few years ago I got a ring in the Long Grave Valley, there was a heaven grade level nine cultivation method and a seed..."

The female cultivator almost exclaimed, a heaven grade level nine cultivation method! The entire cultivation realm might not even have one but he got one.

Ye Mo didn't say anything, a heaven grade level nine cultivation method was indeed one of a kind, but it was trash compared to his Three Birth Chant.

Seeing that Ye Mo's face was calm upon hearing this, the white haired cultivator was shook even more. He thought Ye Mo would show greed after he said it and he might be able to use it live.

He could only continue, "That cultivation method said the essence blood of clean female cultivators is needed to begin cultivation. Essence blood that is tainted by space devouring grey mist is the best. The seed is the starting seed of the space devouring grey mist. If I plant it in a place with many people, ten years later it can be my place of cultivation resource."

Then, Ye Mo asked coldly, "Does that cultivation method have the ability to devour space?"

The Sii cultivator shivered, he didn't know why Ye Mo would know but he quickly said, "Yes, it has that effect..."

Ye Mo said calmly, "Attack me with full power."

"Huh..." the disaster transformation state was overjoyed but he stuttered, "Qian bei, wan bei doesn't dare to."

Ye Mo sneered. "Three seconds, if you don't then you won't need to again."

Hearing this, the disaster transformation state flung himself up from the ground without hesitation.

He raised his two hands and after pulling back he opened his mouth to bite.

It was a small mouth but using this cultivation method, it seemed to turn into a huge mouth.

With a crack, the calm space suddenly started to have ripples as though something was being bitten.

Ye Mo felt a huge suction force pulling him into the disaster transformation state's mouth.

Ye Mo's face sunk, he was certain that what he had encountered before was this space devouring cultivation method. But this disaster transformation state was too weak.

Knowing this, Ye Mo didn't have the mood to keep watching this show. He released his cultivation essence giant hand and easily grabbed the disaster transformation state cultivator. Before he could beg for mercy, Mist Lotus Heart Fire already turned the cultivator into dust.

When the disaster transformation state cultivator had completely disappeared, the female cultivator reacted and looked at Ye Mo in disbelief and shock. She bowed with the young girl. "North Far State Chu family's wan bei Chu Yun and niece Chu Yulan greet qian bei. Please forgive us for offending qian bei before."

The female cultivator was very depressed, there were few high level cultivators in North Far State. Cauldron filling state wasn't that powerful, but it was quite hard to encounter someone stronger than her. Today however, she encountered two and lost an arm.

Chapter 1332: Guardians

Ye Mo ignored her and scanned the hall with his spirit sense. He was certain there was nothing else here. However, the female cultivator said she was from the Chu family.

This reminded him of Chu Xiaoyi at West Extreme State's Heaven Domain, his jade slip said North Far State Chu Xiaoyi.

Thinking about this, Ye Mo suddenly asked, "Your surname is Chu, do you know Chu Xiaoyi?"

Hearing this, the female cultivator bowed again. "So qian bei has heard of ancestor, my ancestor is Chu Xiaoyi."

Ye Mo sighed, she really was a descendant of Chu Xiaoyi. It seemed Chu family loved that they were from North Far State but the spirit chi here wasn't dense. However, he could give his remains to her.

However Chu Yun had killed a lot and was very gruesome. Ye Mo didn't really like her.

Ye Mo just wanted to take out Chu Xiaoyi's coffin when Chu Yun asked respectfully, "Qian bei is from North Far State?"

Ye Mo didn't like her but on her ancestor's account he nodded. "Yes, I'm a cultivator of North Far State."

Hearing this, Chu Yun said joyfully, "We North Far State finally have a second truth realisation state cultivator! This is great, what is your name qian bei?"

Ye Mo frowned and didn't speak. He didn't like her so he didn't want to be connected to her. He would leave the remains to her and go do what he needs to do.

Chu Yun noticed Ye Mo's dislike of her and bowed again. "Qian bei might think I'm too murderous and gruesome, but wan bei had no choice – please understand."

"We the Chu family are the guardian family of North Far State, as long as North Far State exists for one day we will protect North Far State with full power. Our ancestor Chu Xiaoyi's power was heavenly and he wasn't in a rush to attain immortal ascension just so he could protect North Far State. Ever since our ancestor disappeared his descendants didn't give up the protection of North Far State. We came to this city for the south mountain market.

Hearing this, Ye Mo realized why they kept saying North Far State Chu family. So they were the guardians of North Far State. Realizing this, Ye Mo had respect for them.

Seeing Ye Mo's face ease down Chu Yun breathed easy and continued, "Sii family is the scum of the cultivation realm. They slaughtered countless innocent cultivators and used their essence blood to cultivate evil cultivation methods. I came here to annihilate them this time and investigate the south mountain market. I didn't expect that this time a disciple of mine was taken by the Sii family and lost her life in this city.

Ye Mo looked at her in confusion. "Since you're attacking the Sii family, why did you bring a hollow spirit state disciple?"

Chu Yun blushed. "Qian bei probably heard of Kong Ye right?"

Ye Mo nodded.

"My ancestor Chu Xiaoyi had two disciples, one was Chu Xian who stayed to protect North Far State, and another, Chu Jiuyu, was taken by my ancestor to South Peace State. Chu Xian left after my ancestor disappeared due to some things and also disappeared. Kong Ye is Chu Xian's personal disciple," Chu Yun said.

Ye Mo finally realized that Chu Jiuyu, whose fame stayed in South Peace State for 10000 years, was Chu Xiaoyi's disciple.

Chun Yun sighed. "Kong ye is my martial ancestor and he's the only truth realisation state cultivator of North Far State. His time is about to be up so he's finding a new cultivator to guard North Far State for him. Thus, he goes around everywhere wanting to find a prodigious cultivator. Years passed and he had no progress until ten years ago, he found a cultivator called Ye Mo."

Hearing this, Ye Mo's face wasn't too natural.

Chu Yun continued, "Kong Ye martial ancestor was just trying his luck and had a 100 year deal with Ye Mo. He thought that if Ye Mo could reach body condensation state in 100 years he would take Ye Mo to be his disciple. However that Ye Mo was extremely absurd, he reached cauldron filling state tertiary stage in 10 years or so. So, martial ancestor changed his mind and arranged 50 years with Ye Mo. He wasted quite some power in the beast tide and his little time left was greatly reduced. He wanted to give Ye Mo some important things when he's about to pass away.

Ye Mo was shook, no wonder Kong Ye didn't dare to fight Chi Xie. He might use up all his life in that battle.

"I wasn't supposed to tell qian bei this but qian bei is the only truth realisation state cultivator of our North Far State. I'm afraid that Kong Ye qian bei doesn't know this so I plead that qian bei would visit Kong Ye ancestor before he passes away," Chu Yun said.

Ye Mo nodded. "I was planning to visit Kong Ye qian bei anyways."

Hearing Ye Mo call Kong Ye 'qian bei', Chu Yun was surprised and joyful. One truth realisation state cultivator calling another truth realisation state cultivator qian bei could only be out of pure respect, no matter the age difference.

She bowed and thanked him, "Thank you qian bei, I don't know your name yet."

Seeing that Ye Mo didn't answer she immediately knew Ye Mo didn't want to say it so she said, "Wan bei was too rude. The reason wan bei brought Yulan and my disciple is to go visit pill king Ye Mo at Pei Hai City. I want my niece to be a disciple of pill king Ye Mo so I brought them out."

Ye Mo felt awkward, he didn't expect this young girl wanted to be his disciple. He was definitely not going to take this disciple. If he did, he would have one extra burden, how could he do that?

Thinking about this, Ye Mo could only say, "Ye Mo isn't at Pei Hai City and he won't take in disciples. You don't need to go."

"Qian bei knows Ye Mo?" Chu Yun asked in excitement.

Ye Mo nodded helplessly. "I've been to Pei Hai City, Ye Mo left as soon as he got there and it's unknown when he will be back. It's said that he's not good at teaching disciples so you guys don't need to go. By the way, you don't need to go check out the mist either, it's very powerful. I will go see it, you guys can go back first."

"Yes qian bei," Chu Yun said.

Ye Mo breathed easy and quickly took out a jade coffin. "Chu Xiaoyi qian bei has unfortunately died. I saw his remains not long ago so I brought them back. Since you're his descendant you can have this."

"Huh..." Chu Yun and Chu Yulan were dazed for a long time. Ye Mo passed the jade slip to her and she realized her ancestor didn't immortal ascension but had instead died.

Moments later, Chu Yun and Chu Yulan both cried over the coffin.

Ye Mo sighed, he knew her feelings. Their utmost sacred belief had collapsed.

His distaste towards her was gone. No matter what, as a guardian family, the Chu family deserved respect.

Chu Yun and Chu Yulan cried for a long time before walking to Ye Mo. This time, she kneeled down. "Thank you, qian bei, for bringing back ancestor's remains."

Ye Mo quickly pulled the two up and changed the subject. "Do you know where Chu Xian went?"

Chu Yun nodded. "Yes, wan bei knows a little. When our ancestor left for a long time, Chu Xian told Kong Ye that he would be going out and come back soon. According martial ancestor Kong Ye, Chu Xian went to enforce a seal but he never came back like ancestor..."

Ye Mo sighed. He was certain that Chu Xian died because the spirit body Xue Youfeng didn't see the next person to take his shift.

Chapter 1333: Half a necklace

Ye Mo thought of the half necklace and took out that white jade box immediately and gave it to Chu Yun. "Your ancestor valued it a lot, take it too. I didn't touch anything inside your ancestor's storage ring. But I used a few immortal crystals. If I get the opportunity I'll give them back, but if I can't get anymore, then sorry."

Ye Mo said this but he didn't feel guilty at all. He found the storage ring, even if he didn't give it back to the Chu family it was his right.

Plus, he sent back Chu Xiaoyi's remains.

The reason he said he would give back immortal crystals to the Chu family was because he really respected someone like Chu Xiaoyi. Chu Xiaoyi's immortal crystals played a deciding factor for him reaching truth realisation state. Otherwise, he was at most disaster transformation state primary stage or not even disaster transformation state.

Hearing immortal crystals, Chu Yun's hands shook but she bowed. "The Chu family is already very grateful that qian bei brought ancestor's remains back. How do we dare to let qian bei give back immortal crystals?"

Ye Mo nodded.

Chu Yun thought Ye Mo didn't really mean it too. They were really had to get, and even if Ye Mo got immortal crystals who would want to give them away?

Ye Mo said casually, "I looked at the jade box, it's half a necklace but it's well kept. It probably means a lot to your ancestor."

Hearing this, Chu Yun's face looked weird and she opened it immediately. When she saw the half necklace she immediately shut the jade box and gave it back to Ye Mo. "Qian bei, this necklace belongs to ancestor, wan bei can't take it."

Seeing this, Ye Mo asked in confusion, "Why? It belongs to your ancestor? You can't take it? Am I supposed to take it?"

Chu Yun's face was awkward. After a while she said, "When ancestor left, ancestor's wife thought ancestor went to find another person so she left a family law. All those who come from the Chu family must kill the woman who wears this half necklace. Ancestor's wife left an image of the necklace and it's the necklace in qian bei's hands. No one in the Chu family dares to go against it so wan bei doesn't dare to bring it back."

Seeing this, Ye Mo realized that Chu Xiaoyi had a wife but had another woman. That woman wasn't on good terms with his wife and their conflict was great.

Realizing this, Ye Mo put away the jade box. It didn't take up much space in his storage ring so he didn't need to make it hard for Chu Yun.

Ye Mo said, "In that case, I'll be going."

Seeing this, Chu Yun quickly said, "Qian bei, Chu family doesn't have a lot of people now and it's hard for us to protect North Far State. Kong Ye ancestor is near his death, qian bei is the only truth realisation state cultivator of North Far State. Please don't forget to go Dang Ling, Kong Ye ancestor is living there alone."

Ye Mo nodded. "Give me a location later, I'll go there but I'm not the only truth realisation state of North Far State. Jade Woman Sect's leader Tang Mengrao also reached truth realisation state. I heard Shan Di also reached truth realisation state but I don't know where he is."

“What? Sect leader Tang reached truth realisation state? How can that be? Shan Di also broke through too?” Chu Yun asked in disbelief.

Ye Mo nodded. “Truth realisation state is nothing, to be able to reach cauldron filling state level seven in North Far State, it’ll just be a matter of time before you reach truth realisation state. Don’t admire others – plus guarding North Far State isn’t only Chu family’s job. I think you should go do what you need to do but if you can’t do it alone, ask for help from fellow North Far State cultivators. No need to take it all on your family.”

Hearing this, Chu Yun seemed sad and shook her head. “Thank you qian bei, but wan bei knows I will never be able to reach truth realisation state. If I’m lucky I can reach disaster transformation state.”

“Are you lacking spirit stones or pills?” The Chu family guarded the North Far State for more than 10000 years, if they were lacking on cultivation resources, he was willing to help.

Chu Yun nodded. “Yes qian bei, the Chu family is wealthy but after all these years we don’t have much left. We don’t even have enough spirit stones much less pills. It’s impossible. Plus there is no one in North Far State who can concoct Truth Spirit pills and Disaster Life pills.”

Ye Mo nodded and took out a spirit card and three jade bottles. “Your Chu family did a lot of things for the North Far State, I also benefited from your ancestor. There’re 100 million spirit stones here and a few pills. Go use them, I believe with your talent and these pills you can reach truth realisation state in two to three centuries. As for guarding North Far State, I don’t think there’s a need to.”

100 million spirit stones? Chu Yun’s hand shook and pushed the card back to Ye Mo. “Qian bei, I can’t take that many spirit stones.”

Ye Mo took out a few more speechlessly and said, “I have a lot, just go use them.”

Chu Yun and Chu Yulan’s eyes were spasming, this truth realisation state qian bei was too wealthy. When Chu Yun opened the bottles, she almost dropped them.

She saw the legendary Disaster Transformation Pill, Truth Spirit Pill, and Disaster Will Pill. They were all precious amongst precious pills. They were all heaven grade level eight or level nine pills.

Chu Yun knew these pills were more valuable than the 100 million spirit stones but she couldn't give them up.

Ye Mo knew what she thought and said casually, "Don't worry, I took the immortal crystals of Chu family; I made the pills myself – go use them."

"Qian bei is a level nine pill king?" Chu Yun was more shocked.

Ye Mo smiled. "Yes, I'm going. You don't need to go to Pei Hai City, go back and cultivate. Give me the location of Dan Ling."

"Yes qian bei," Chu Yun answered, but the shock was still in heart. A level nine pill king! She heard Kong Ye ancestor say that there was no level nine pill king in the entire Luo Yue continent.

She didn't know when this qian bei would go to ancestor Kong Ye but she had to go wait there. Their conversation was not to be missed.

If Ye Mo knew what she thought, he would go visit Kong Ye immediately, he would expose himself.

...

When they were about to leave, Chu Yun wanted to ask Ye Mo to take Chu Yulan as disciple many times but she couldn't say it.

Seeing the two leave, Ye Mo got on Blue Moon and headed to the south mountain market.

...

"Aunty, is there a way to repair your arm?" Chu Yulan asked worriedly.

Chu Yun sighed. "Today I realized that even in North Far State there are many powerful people, but they don't come out usually like the Chu family. If it wasn't for that qian bei we would be dead. Fortune and calamity are entwined. I lost an arm but I gained the possibility of reaching truth realisation state."

Chu Yulan nodded but she asked, "Aunty, that truth realisation state qian bei really doesn't look old. How is he so powerful?"

Chapter 1334: Phantom in the grey mist

Chu Yun thought before answering, "Fate is really hard to predict. Just like you, you reached hollow spirit state level four at younger than 30. Kong Ye ancestor said that this was considered to be prodigy amongst prodigies in the entire Luo Yue continent. However, if you didn't eat that 9-color lotus, you wouldn't be where you are now. How do you know that truth realisation state qian bei doesn't have such fortune?"

Chu Yulan asked, "Aunty you mean that qian bei indeed isn't old but he has had fortune like me so he can reach truth realisation state at such a young age?"

Chu Yun shook her head. "I don't know if he's young or not, but to be able to easily take out Disaster Will Pill and Truth Spirit Pill, he clearly has had absurd fortune. Otherwise, no matter how talented he is, he can't become a pill king without spirit herbs for practice, especially a level nine pill king. Since he has that many spirit herbs for practice to reach level nine pill king, then it's normal if he has spirit herbs to improve his spirit root."

She continued, "That truth realisation state qian bei wasn't surprised to see your power. It means either he has seen too many like you or he is such a prodigy himself."

"Aunty should we still go to Pei Hai City?" Chu Yulan asked.

"No, let's go to ancestor Kong Ye. If that truth realisation state qian bei is going there I plan to beg him to take you in as disciple, are you willing?" Chu Yun asked.

"Huh." Chu Yulan asked in surprise, "Didn't ancestor say I can be Ye Mo's disciple? Isn't it bad if I switch now?"

Chu Yun rolled her eyes. "That's if you already are Ye Mo's disciple but Ye Mo doesn't know we're going to Pei Hai City yet. Plus, even if we want to we don't know if he wants to. Just tell me if you're willing. I will tell ancestor about the rest."

"Of course I'm willing!" Chu Yulan said without hesitation.

Who wouldn't want to be the disciple of a truth realisation state who was also a level nine pill king?

...

At this moment, Ye Mo was silently standing outside the south mountain market. A few years ago it was very busy, but now it was so quiet that even the sounds of insects were gone.

There was just grey mist.

Ye Mo looked at this and knew it was the same as the mist in the herb valley.

But Ye Mo felt this mist was much weaker than the other one. His power was also much higher than before, so he didn't fear this mist at all. Shadowless was also much stronger than before and Ye Mo wondered if he was still scared of this mist. Thinking about this Ye Mo threw out Shadowless.

Shadowless clearly knew this mist and flew towards it without hesitation. It opened its mouth and the mist gathered flowing into its mouth.

Ye Mo knew that the mist was powerful but it was only formed not long ago and there wasn't much spirit chi supporting it here.

There were still a few days before full moon but there were fearless cultivators watching on the side.

Ye Mo ignored them and walked into the mist. Those watching were dazed, this was the first time they saw someone walk into the mist not on a full moon.

Coming in, Ye Mo immediately felt the mist wanted to suck his essence blood. He finally understood why those who walked in would turn into bones. Their essence blood and flesh was all being sucked away.

Ye Mo saw Shadowless devouring happily and waved his hand, bringing it over unhappily. He knew that with this speed, half a month wasn't enough to devour it all.

Ye Mo just waved out Mist Lotus Heart Fire and used Heaven Flame Nine Suns.

With this an aqua sun hung in the air above the market.

The mist seemed to begin to worry, but before it could flee, the aqua sun shot out countless beams that covered the entire mist.

Sizzle

The mist seemed to melt like snow.

Those cultivators watching outside looked dazedly as the mist began to clear and that sun hung high in the air. They just realized that the young cultivator who went in wasn't retarded but a powerful being. He didn't come for wealth, he came to annihilate the mist.

Ye Mo breathed easy. He was scared that Heaven Flame Nine Suns wouldn't be able to annihilate it and he would have to waste time letting Shadowless devour it. He had an uncomfortable feeling not removing the mist.

Before he could breathe easy he had an extremely bad sensation. It was silent killing intent.

Without hesitation, Ye Mo extended out his domain and the octagonal cauldron hung above his hand.

There was a hollow feeling and Ye Mo found his domain seemed weakened. Then, that weakened part of his domain disappeared out of thin air.

This was space devour, but this was far weaker than the space devour of the herb valley. This couldn't even devour his domain.

His domain reached out again and Ye Mo let out Zi Xu.

Ye Mo immediately felt that being wanted to keep devouring his domain but couldn't do so anymore. This was the first time Ye Mo saw this phantom. He frowned. It looked too revolting.

It was like a caterpillar but much larger, it was more than ten meters long and there were dense antennae everywhere. It also had nine necks but only one head.

This was because the other eight necks didn't have a head. The only head had two thin triangular eyes that stared at Ye Mo hatefully.

Ye Mo thought of the legendary nine headed bug. If this thing grew out all of its heads, wouldn't it be a nine headed bug?

Without hesitation, Ye Mo slashed out with Zi Xu. A purple beam flashed, the bug looked scared but it couldn't run away.

With a sizzle, the purple beam sliced that head in half. A putrid smell came out, the blood was grey.

A black thing flew out of the bug's body wanting to escape but Ye Mo immediately let out Lightning Sword. Lightning Sword flashed and the black thing was disintegrated.

At this moment, the market started to show slowly.

The busy shops and prosperous streets were now ruins and filled with bones.

Ye Mo took back his heaven flame.

Ye Mo scanned out his spirit sense and there was nothing else but ruins. Ye Mo shook his head and looked at the disgusting bug.

Ye Mo found that he didn't know this thing at all. At this moment, an extremely fast figure appeared in his spirit sense.

It flew towards Ye Mo but he didn't move. He knew this person.

"This is Nine Headed Void Devouring Bug, also called Void Devouring Yan. It also has saliva that is one of the most poisonous things in the cultivation realm. If you were touched by it, it would be almost impossible to save you," a familiar voice sounded.

Ye Mo saluted with his fists. "I didn't expect to meet sect leader Tang here, what a coincidence."

Tang Mengrao smiled and shook her head. "I came to find you."

Chapter 1335: Nine headed void devouring bug

"what do you need me for sect leader Tang?" Ye Mo asked in confusion.

Tang Mengrao said dejectedly "I heard of Qiandie's whereabouts, I was going to find her. I think I should tell you about it."

Ye Mo frowned "where is she?"

Ao Qiandie wanted to ambush him and annihilate Mo Yue. If he finds her he wouldn't let her off.

"she's probably in 5 star sect dual heart valley." Tang Mengrao said dejectedly. Ao Qiandie had been in her sect for twenty or so years. There were some feelings. She wanted to know if she was possessed before or after she came into her sect.

“how do you know?” Ye Mo asked in confusion but Tang Mengrao just sighed and didn’t answer.

Ye Mo knew this was something private so he didn’t ask “things here are done, I’ll go with sect leader Tang to dual heart valley.”

Tang Mengrao nodded.

“by the way, sect leader Tang you know this thing?” Ye Mo pointed at the grey body.

Tang Mengrao immediately replied “that’s right, I know it. it’s the most terrifying bug in the cultivation realm called nine headed void devouring bug. On the rare spirit bug ranking some people rank it as first but some rank another spirit bug as first. There’s this saying “not a spirit bug not an immortal, not number one shadowless worm. Not a spirit bug but an immortal, nine headed void devouring bug won’t be number two.”

Ye Mo dazed, he heard of the first part. It was talking about his shadowless? Did Tang Mengrao know of shadowless’ origin. She saw shadowless attack once. Does she know he had it. then he looked at her expression but she didn’t seem to know he had shadowless. Ye Mo thought and felt it was natural, shadowless attacked quickly each time. Before she could lock on with her spirit sense shadowless was taken back.

Ye Mo asked again. “sect leader Tang what does the saying mean?”

Tang Mengrao explained “there’s this most powerful thing in the cultivation realm. it’s like a bug but not a bug. It’s called shadowless devouring worm. The place it came from is very mysterious, no one knows. It’s not even the immortal realm. but the shadowless worm can’t be born in the cultivation realm. however, it can dominate the cultivation realm. it’s said that shadowless worms appear in the mortal realms that doesn’t support cultivation. It is born in pairs of eggs. Only very powerful beings can put shadowless worm eggs into the mortal realm to hatch.

This appeared in the cultivation realm and was very powerful. Cultivation realm cultivators thought this was a new breed of spirit bug but then they found that even the most powerful spirit bug had a huge difference to shadowless devouring worm so they didn’t list shadowless on there. ”

Ye Mo nodded, Ye Mo even suspected that Chu Jiuyu brought shadowless to Earth but it was unverifiable.

Tang Mengrao pointed at the dead bug body “this bug is very scary. It’s the number one powerful bug of the cultivation realm. even immature shadowless bug fears this thing. It’s said this bug came from the immortal realm. even in the immortal realm, high level nine headed void devouring bug are very scary.

But soon, people found that nine headed void devouring bug was countless times stronger than spirit bugs ranked after it. they weren’t even comparable. Meanwhile, shadowless took a long time to mature and was far from a match for nine headed void devouring bug before maturing. Thus came the second part of the saying. The nine headed void devouring bug wasn’t treated as a spirit bug too.

Tang Mengrao took out a jade slip and said “I knew from this jade slip. Strictly speaking, nine headed void devouring bug isn’t a spirit bug. It formed with a human soul attached to it.”

Hearing this, he believed it. he had long been suspecting this spirit mist and space devouring things were created by cultivators.

Reading the jade slip, Ye Mo noticed it introduced things like the Thing but Thing was more focused on spirit herb and ores while this jade slip was focused on spirit bugs and spirit beast.

Soon, Ye Mo found nine headed void devouring bug.

Nine headed void devouring bug also called void devouring yan, is a bug fed with cultivator soul. It can devour space and it’s saliva can corrode everything.

The cultivator breeding this bug need to separate his soul into ten or more pieces depending on the strength of his soul. One piece would be the main body and the other would be the cloned soul bodies. Each cloned soul would control a nine headed void devouring bug to grow up. When they all mature, the main body would bring the nine nine headed void devouring bug together.

He would place the 9 soul clones together and they would merge automatically becoming a true nine headed void devouring bug. If there were more than 9 clones, then the extra ones would be devoured.

When the nine headed void devouring bug fused together nine souls, it would have nine heads and become invincible in the cultivation realm.

Even the lowest grade nine headed void devouring bug can devour space and spit saliva that no cultivator can block. Even low level immortals would have to run much less truth realisation state peak stage cultivators. If nine headed void devouring bug reached higher levels, even golden immortals or high would be dead.

The first time to breeding nine headed void devouring bug is very hard because many soul clones may be annihilated before maturing. If too many clones are annihilated the nine headed void devouring bug would be greatly weakened so they are usually bred at a place with no people or place with no powerful beings.

Ye Mo took a cold breath in, this nine headed void devouring bug was too scary. When it first matures, even a low level immortal crystals was no match for it. but he finally understood why it was being bred in the cultivation realm.

It needed to devour the essence blood of cultivators and if people dared to do this in the immortal realm, the soul clone would long be annihilated.

“so powerful.” Ye Mo exclaimed. He had decided to annihilate the body in all herb mountain ranges no matter what. just one was already that powerful, if that bred cultivator controlled all nine how was he supposed to fight?

Wait, why didn’t Chu Xiaoyi annihilate the one in all her mountain ranges? He sealed it instead. If it was something he could annihilate how would Chu Xiaoyi not be able to?

Thinking about this, Ye Mo shook. He finally realized what Chu Xiaoyi sealed. It wasn’t a soul clone but the breeder of the nine headed void devouring bug.

Tang Mengrao sighed “the nine headed void devouring bug is indeed terrifying.”

Ye Mo didn't explain to her. Luckily he disintegrated that black thing or it might start growing in another place.

"let's go dual heart valley." Ye Mo had decided to annihilate Ao Qiandie first. He probably wasn't strong enough to take on the thing in All herb mountain ranges.

Seeing Ye Mo and Tang Mengrao leave, those low level cultivators on the side rushed into the market.

Chapter 1336: Old friends aren't here

Dual heart valley being a 5 star sect has very good location. In North Far State 5 star sect was considered high level sect.

"what are they doing?" Tang Mengrao looked at the cultivators outside dual heart valley.

Ye Mo saw there were two groups of cultivators having a stand off as though they were about to fight at anytime.

"elder Wen, do you think you're the only body condensation state in North Far State? just because you reached body condensation state, you dare to bring your sect members to destroy our sects defense formation." A sharp voice sounded.

"hahaha..." a bleak laughter sounded. "Le Peng, I, Wen Fuqi, am a body condensation state, what can you do? I am going to attack your sect formation, what are you going to do?"

Ye Mo noticed that Le Peng was a white faced middle aged man who looked ordinary and was at hollow spirit state level seven. He had two hollow spirit state next to him, one hollow spirit state level four old man who was very tall, another hollow spirit state level two middle aged female cultivator. Ye Mo looked at her and knew she might be Hai Tong's mother.

"this person is so dominerring." Tang Mengrao said unhappily.

At this moment the hollow spirit state level two female cultivator said coldly “Wen Fuqi, we dual heart valley can’t do anything to you but we’re also a 5 star sect. even if we fight and dual heart valley gets annihilated so what. your ghost immortal sect has always been very domineering. It’s not the first time you’re going to annihilate sects. The four star sect Li Water sect was annihilated by you. Four star sect Zheng Yuan sword sect was also annihilated by you. You didn’t even let three star sect Pill Herb sect go.”

The female cultivator sneered “now that your Ghost Immortal Sect reached 6 stars and so you want to find an excuse to annihilate us. No matter what, we dual heart valley will fight to the death.”

Ye Mo already had past conflict with Ghost Immortal sect but after his power grew so much he lost interest in revenge. But now, he encountered them again and they did things just the way they did in the past.

At this moment, a hollow spirit state level five cultivator from ghost immortal sect said “elder Hai, we’re not trying to trouble you, as long as you hand over the person we will leave immediately.”

Ye Mo’s face suddenly changed, he remembered Herb Pill sect. that was Mu Yiqing’s sect. he joined the pill concoction hall of fame tournament through their sect and he said he said he would go visit them. How could he resist hearing that the sect was annihilated.

He dashed forward.

The female cultivator was just about to speak but saw a young cultivator suddenly charge in. no one saw how he came so she ate her words.

Ye Mo looked coldly at Wen Fuqi “Herb Pill sect was annihilated by your sect?”

Seeing a young cultivator charge up to his face and ask him so rudely, Wen Fuqi was furious but when he saw he couldn’t see through Ye Mo’s power, he stopped his temper and studied Ye Mo instead.

“that’s right, the Herb Pill sect was annihilated Ghost Immortal Sect. specifically speaking Wen Qifu did it personally. The sect leader of Herb Pill sect Mu Yiqing offended Ghost Immortal sect. it’s said he offended a cultivator called Ji Zhiyuan. Wen Qifu is Ji Zhiyuan’s master so he annihilated Herb Pill sect.” the female cultivator seemed to realized who Ye Mo was and quickly said.

Wen Qifu's face changed greatly. He also seemed to have realized who Ye Mo but before he could talk Ye Mo had bound him completely with his domain.

Ye Mo's face was extremely cold "I killed Ji Zhiyuan. I didn't go annihilate your sect but you dare to go annihilate Herb Pill sect."

Wen Qifu was sweating, he heard Ye Mo was very powerful but now it seemed Ye Mo was countless times more powerful than what he heard. Ye Mo didn't even move and he couldn't move at all. None of the ghost immortal sect members behind him could move too.

Seeing this power, the Dual Heart valley cultivators were shook. The sect leader and elders all came to greet Ye Mo.

Ye Mo didn't seem to see them and just stared coldly at Wen Qifu.

"qian, qian bei..." Wen Qifu's tone was shaky.

He was using his power to dominate the cultivators of Dual Heart valley but immediately, he got a taste of his own medicine.

"speak, where are the Herb Pill sect people?" Ye Mo didn't think Ghost Immortal sect would do this. this had completely nothing to do with Herb Pill sect.

"qian bei, I, only killed Mu Yiqing. The rest all left.." Wen Qifu said shakily.

Hearing that Mu Yiqing died due to him, Ye Mo's killing intent exploded. He regret not taking the Herb Pill sect people to PeiHai.

The ghost immortal sect members immediately felt an extreme pressure. After this pressure, there was an extreme squeezing force from the air around them.

Thud, blood mist sprayed and these cultivators all turned to bloody mist.

Wen Qifu's eyes went red but he couldn't move at all. Just when he wanted to speak, a huge lightning sword struck him and he turned to dust.

Ye Mo breathed, if he wasn't going to find Ao Qiandie he would immediately go Ghost Immortal Sect and annihilate them. But now that he was here, he would find Ao Qiandie first.

The Dual Heart valley cultivators were dazed, what power was this? a body condensation state was killed with one lightning sword? The other cultivators were dead without needing to do anything.

Luckily Tang Mengrao came over now and all the cultivators knew Tang Mengrao.

Ye Mo looked at Ye Mo and then said to Le Peng. "I came with Ye Mo here to go see your Dual Heart lake, would that be convenient?"

How could Le Peng dare to say no "of course, wan bei will accompany qian bei to there immediately."

The female cultivator said "i'll go with the two qian beis."

Hearing this, Le Peng quickly said "okay, okay, that's where Hai Tong lives. It's perfect that she goes with two qian beis."

...

Dual Heart lake wasn't the place with densest spirit chi in the sect but it was the most beautiful place. there was spirit sense barrier formation but it couldn't stop Ye Mo's spirit sense.

Ye Mo was unhappy so he said nothing on the way.

The three walked in and Ye Mo casually scanned with spirit sense. Ao Qlandie wasn't here, it was just Hai Tong sitting by the lake dazing.

"Xiao Tong, what are you doing?" the female cultivator frowned.

Hai Tong immediately saw Ye Mo and Tang Mengrao and flew over "brother Ye did you come to see me?"

The female cultivator's face changed drastically and quickly said "Xiao Tong don't be so rude, this is Ye Mo qian bei and sect leader Tang of Jade Woman sect."

Hai Tong just recognized Tang Mengrao only now and quickly greeted her.

Tang Mengrao smiled and nodded "Hai Tong, where is the girl staying with you?"

Hai Tong quickly said. "sect leader Tang are you asking about sister Xiao Yi? She just left, I told her to stay a few days but she won't listen."

Ye Mo was disappointed but then he frowned, why did Xiao Yi seem so familiar.

Chapter 1337: Ao Qiandie's motive

"Where did she go?" Tang Mengrao asked. She wanted to see Ao Qiandie. It was lucky she could find her here, if she was gone it would be hard to see her again.

Hai Tong shook her head. "I don't know. Sister Xiao Yi didn't say; she only said she was busy."

Ye Mo asked heavily, "Why did Xiao Yi come here? How long did she stay here, was there anything strange about her?"

No matter how innocent Hai Tong was, she realized Ye Mo didn't come here for her but to investigate that Xiao Yi. She didn't dare to hide anything, "Sister Xiao Yi seemed to be heavily injured. She stayed here for a month or so and left two days ago. As for strange things...."

Hai Tong thought for a while and said, "She often dazes off alone and is always murmuring something to herself. Every time I asked her, she always says she's thinking. By the way, she seems to be very powerful but the necklace she wore was very low grade. It was only a spirit artifact and was broken in half. I gave her a better one but she didn't wear it."

Hearing this, Ye Mo finally realized why the name felt strange. Xiao Yi was the last two words of Chu Xiaoyi. She had the half necklace, clearly meaning she was related to Chu Xiaoyi.

Thinking about this, Ye Mo took out the jade box and took out half a necklace. "Is it like this?"

Hai Tong saw this and said in shock, "Yes, it's that, how, how is it... brother Ye, you guys are..."

Hai Tong seemed to have understood something and gave the necklace back to Ye Mo after a long while.

It was her indeed.

Although Tang Mengrao was certain there was nothing between Ye Mo and Ao Qiandie, seeing this, she still thought a little much. But she couldn't ask Ye Mo about this.

Ye Mo fell silent and no one spoke.

Ye Mo was thinking, since Ao Qiandie was Chu Xiaoyi's other woman, why was she trying to destroy North Far State, conspiring with spirit beasts and starting trouble between the three disaster transformation state cultivators of North Far State? If he didn't come back to North Far State that time, North Far State might really be taken over by spirit beasts.

Chu Xiaoyi was the guardian of North Far State, Ao Qiandie shouldn't be acting against Chu Xiaoyi.

Everything that happened at Mo Yue was planned by her. She went to seek revenge at Mo Yue at the perfect time right when Ling Zhongtian went and invited Yi Yi of Wang Yue Sect.

She probably calculated Yi Yi's personality when she met him. This woman was too scary. She wanted to kill him because he ruined her plans but another reason was because she possessed Ao Qiandie so she would help her brother get revenge.

Ye Mo shook his head, he didn't understand why Ao Qiandie had such aggression towards North Far State human cultivators. Was it because Chu Xiaoyi mistreated her and she wanted to use this as revenge? This didn't make sense, how could this get revenge on Chu Xiaoyi?

Even if she annihilated North Far State, Chu Xiaoyi was still Chu Xiaoyi, he would at most achieve immortal ascension.

Immortal ascension?

A spark shone in Ye Mo's brain, he began to realise why Ao Qiandie did this.

Chu Xiaoyi was the guardian of North Far State, Chu Yun said that for one day North Far State existed for one day the Chu family would guard it.

But what if human cultivators of North Far State were annihilated, would the Chu family guard spirit beasts? Impossible, the powerful beings of Chu family would leave North Far State and achieve immortal ascension when they reach the level.

Ao Qiandie wanted to force Chu Xiaoyi into immortal ascension through this? In order to be with Chu Xiaoyi she couldn't achieve immortal ascension too so she could only use such means.

Ye Mo shook his head, this idea was too crazy, Ao Qiandie wouldn't be this crazy right?

Chu Xiaoyi already died at West Extreme State. he wouldn't come out no matter what.

Ye Mo suddenly thought of another possibility. Chu Xiaoyi was dead but Ao Qiandie didn't know. Perhaps she was using this to force out Chu Xiaoyi.

No matter what, Ye Mo felt the situation to be tricky due to Chu Xiaoyi's relationship with Ao Qiandie.

Should he kill her? He wanted to, but if he did, he would owe Chu Xiaoyi too much.

Ye Mo suddenly asked, "Sect leader Tang have you heard of Chu Xiaoyi?"

Tang Mengrao shook her head. "No, what's wrong with him?"

"Can a truth realisation state peak stage cultivator live for more than 10000 years?" Ye Mo asked again.

Tang Mengrao thought of a long while before answering, "I don't know clearly if they can live for more than 10000 years, but even if they could live for that long they wouldn't be able to stay in the cultivation realm because they have to achieve immortal ascension."

Ye Mo nodded, so how was Ao Qiandie so sure Chu Xiaoyi wasn't dead and could live till now even without achieving immortal ascension?

If there was an extremely rare herb then that was possible. The 7-color Pan Peach was the same level spirit fruit as Immortal Curl Flower. Eating that would grant 10000 years of life to a cultivator. This was rarer than Immortal Curl Flower because it was usually eaten by spirit beasts before maturing.

Increasing life was possible but not ascending was hard. Ye Mo didn't keep thinking; perhaps they had their own ways.

"Ye Mo, let's leave if there's nothing else." Tang Mengrao could tell there was a lot on Ye Mo's mind.

Ye Mo nodded and left Dual Heart Valley with Tang Mengrao. The elders and sect leader sent them all the way until they couldn't see them before daring to leave.

“Are you going to Ghost Immortal Sect?” Tang Mengrao asked.

“I will go see Herb Pill Sect first. I was able to go to the herb plain due to their help. I have to get revenge for their sect leader who was killed due to me. The sect leader has a disciple and a daughter I want to see if they’re there. If they are, I will take them away.” Ye Mo was dejected.

Tang Mengrao sighed, “Are you leaving North Far State after this?”

Ye Mo nodded but didn’t say anything.

Tang Mengrao quickly said, “Don’t worry about Yimo, I will keep searching for her. Don’t worry about Mo Yue either, I will help look out for it.”

”

“Thank you sect leader Tang.” Ye Mo saluted with his fists. “Farewell, we’ll meet again.”

Then, Ye Mo released Blue Moon and disappeared.

She looked at the direction Ye Mo disappeared and stood there for a long time before sighing. She thought of that day when Ye Mo hugged her and the feeling she had.

After 15 minutes, Tang Mengrao shook her head and cast the thoughts aside. She released her flying cultivation artifact and flew in the opposite direction. She knew she lived in a different world than Ye Mo. Unless she could find Yimo, they would never see each other again.

...

Four hours later, Ye Mo appeared at a mountain range that had a decent spirit range. This was the Herb Pill Sect. This place was more ruined than the south mountain market.

Seeing this, Ye Mo's fury was uncontrollable. He also felt regret, if it wasn't for him, Herb Pill Sect wouldn't be famous and the Ghost Immortal Sect wouldn't blame this on them.

He scanned his spirit sense out, there were no cultivators here, only a few low level spirit beasts.

Ye Mo couldn't resist anymore and released Blue Moon, he was going to tear the mountain range of Ghost Immortal Sect apart.

Chapter 1338: Meet Kong Ye again

When Ye Mo arrived at Ghost Immortal Sect, he found that the cultivators there already all left and there was just an empty sect.

Its location was better than dual heart valley and there was an incomplete low grade spirit range. This was top level cultivation environment in the North Far State.

Ye Mo didn't have the intention to hunt the rest of the sect members, the main culprit Wen Fuqi was dead.

With his truth realisation state power, he easily stamped the sect grounds and those extremely tall peaks were destroyed.

15 minutes later, Ye Mo left the ghost immortal sect. the once very famous Ghost Immortal Sect was a stamped to the ground due to annihilating a 3 star sect.

The ghost immortal sect members escaped but no one dared to say he came from Ghost Immortal Sect.

...

After annihilating the Ghost Immortal sect Ye Mo kept searching for Yimo and started looking for Mu He and Lu Ming.

Half a month later, Ye Mo found nothing. When he was extremely disappointed, he arrived at Kong Ye's place. he now knew that Kong Ye lived at the highest peak in North Far State.

At the top there were the words, Hui Dang Ling Peak.

Looking at these words, Ye Mo knew Kong Ye didn't write it. he can't imagine Chu Xiaoyi writing this but other than, there was no one who Ye Mo knew could leave this behind.

Ye Mo stood before the words for a long time and just when he wanted to go top the peak, another flying ray came over.

Ye Mo immediately recognized who it was. It was Shan Di. He was able to escape Yin Xu.

"it's you?" Shan Di neared and recognized Ye Mo. When he saw that Ye Mo was truth realisation state level one, he couldn't hide the shock in his eyes anymore.

After a long while, he asked "you're already truth realisation state?"

Ye Mo glanced at him coldly and didn't reply. Clearly he was invited here by Kong Ye too.

Shan Di was joyful when he saw Ye Mo because he long wanted to teach him a lesson but now he was hesitant. Ye Mo reached truth realisation state in such a short time. It was eerie but not impossible. It was because Ye Mo got three low grade immortal crystals. He didn't know the cultivation effect of lw immortal crystals.

And, when Ye Mo was cauldron filling state, he didn't fear his disaster transformation state level nine. If Ye Mo really reached truth realisation state, then he probably was no match for Ye Mo despite being truth realisation state.

Realizing this, Shan Di granted and wanted to go up.

But Ye Mo suddenly stopped in front of him and said calmly “sect leader Shan, why are you leaving when you see me? aren’t you going to get revenge for your disciple Yi Yi?”

“what are you going to do?” Seeing this, Shan Di’s heart sunk. He immediately knew Ye Mo was really truth realisation state and he was certain he was no match for Ye Mo.

Shan Di quickly said again “Ye Mo, my disciple Yi Yi offended your Mo Yue and you’ve killed him, I didn’t go get revenge what else do you want?”

Shan Di was backing down but Ye Mo said calmly “sect leader Shan, what did I tell you when I left Pei Hai? You took my spirit recovery pill but you didn’t do anything. Instead you help people attack my Mo Yue. What do you think I want to do?”

Shan Di’s heart sunk and he knew things wouldn’t be settled easily today. He took out his fire rune mirror and said “Ye Mo, Yi Yi is my disciple but how can I know everything that he does? Plus, if it wasn’t for my sect protecting Mo Yue, it would’ve long been annihilated by the black and white pill king or the ghost immortal sect cultivators. Why don’t you mention that?”

Before Ye Mo could speak he heard Kong Ye’s voice “haha, Ye Mo you’re here, sect leader so are you. Come up together then.”

Hearing this, Shan Di put away the mirror and went up instead.

Ye Mo wanted to teach Shan Di a lesson but it wasn’t convenient here. plus Shan Di wasn’t completely wrong too.

When Ye Mo reached the peak, the restriction was open. The building made Ye Mo feel very strange. This was where Chu Xiaoyi lived, he thought there would be some moderate buildings but there was just a simple bamboo room and in front of it was an empty space with a stone table and chair.

Ye Mo was sitting on a stone chair and he smiled “sect leader Shan, Ye Mo please have a seat.”

As soon as he sat down, Ye Mo felt awkward. The people carrying tea out were Chu Yun and Chu Yulan. His lie was exposed.

When Chu Yun put the tea on the table, she walked up to Ye Mo and bowed. “wan bei didn’t know qian bei was Ye Mo, sorry.”

Then, she went to greet Ye Mo. Clearly, Ye Mo had much higher status in her heart than Ye Mo.

But when Chu Yulan realized Ye Mo was the qian bei they met, she dazed and realized to greet him after a long while.

Ye Mo nodded.

Kong Ye laughed. “great, great, I didn’t think before my death both of you can reach truth realisation state, this is great.”

The two girls just realized that Shan Di also reached truth realisation state and were very shocked.

Shan Di got up and saluted with his fists “Kong Ye qian bei, only after reaching truth realisation state did I know there was qian bei protecting North Far State otherwise, we would’ve long disappeared.”

Kong Ye nodded “I didn’t expect that after you sect leader Tang also reached truth realisation state, North Far State is safe.”

Shan Di asked in shock. “Kong Ye qian bei, martial sister Tang also reached truth realisation state?”

Kong Ye smiled “Ye Mo brought this news, I guessed that the qian bei in Chu Yun’s words was Ye Mo and it is him indeed now, haha.”

Kong Ye looked at Ye Mo “Ye Mo, did you kill Heartless Sea Chi Xie?”

Ye Mo immediately answered “yes, when I came back to North Far State, I saw him so I killed him.”

Kong Ye nodded “he’s truth realisation state level two and you can kill him. Clearly your cultivation method is quite powerful.”

Shan Di was full of shock. Ye Mo just reached truth realisation state and he could kill truth realisation state level two beast cultivator. Wouldn’t it be even easier to kill him?

After a long while, Kong Ye asked. “Ye Mo, where did you get martial ancestor’s remains from?”

Ye Mo replied “in West Extreme State heaven domains.”

Kong Ye nodded and said to the two “with sect leader Tang, you three are the strongest in North Far State. Chi Xie is dead and North Far State should be safe for a few hundred years. It’s perfect that Ye Mo came today, I will be leaving North Far State soon.”

“I have a small world, I want to give it to one of you before I leave. I hope the person who takes it will offer some power to North Far State before immortal ascension.”

Hearing this, Ye Mo was fine but Shan Di seemed very aspiring.

Chu Yun’s heart was shaking hearing this wondering why the martial ancestor didn’t give it to her?

Ye Mo didn’t understand why Kong Ye was giving this to someone else instead of the Chu family but he said “Kong Ye qian bei, wan bei will be leaving North Far State sooner or later. I can’t take it.”

With this, even Kong Ye looked at him in shock. There was a truth realisation state cultivator who could reject small world, this was incomprehensible.

Chapter 1339: No More guardian

Ye Mo had golden page world he wouldn't care about this small world but Shan Di does. He quickly got up and said "Kong Ye qian bei, no matter what, as long as wan bei is in North Far State for one day I will guard it for one day."

Kong Ye looked at Ye Mo and then Shan Di and nodded "okay."

Then, he asked Ye Mo "Ye Mo, I heard you say that guardians were unnecessary?"

Ye Mo didn't answer and instead asked "kong Ye qian bei, as the guardian family of North Far State, the Chu family, are you the strongest. Or other than you, Chu Yun?"

Kong Ye said sadly "indeed, the Chu family has declined, it's very hard that they're being this guardian."

Ye Mo smiled "existence is reason. It's good that there's a guarding for this world but this isn't what the world needs. Plus, Kong Ye qian bei you still have some people willing to listen to you but after you leave, who would listen to Chu Yun?"

Kong Ye nodded "that's right you're very right. The guardian indeed no longer needs to exist. "

He knew that Ye Mo meant that regardless if North Far State was dominated by human cultivators or beast cultivator, it was unavoidable. It wasn't something that one man's power could change. Even if someone could change it for 100 years can he changed it for thousands or ten thousands years?

Shan Di asked in shock "Kong Ye qian bei, so the North Far State guardians really exist? Kong Ye qian bei is a guardian?"

Kong Ye nodded sadly "yes, so many years and now I'm about to die. This guardian doesn't live up to its name. So, Shan Di I will give the small world to you. When you leave North Far State give it to another person. North Far State doesn't need guardian but it can't not have a leader."

Ye Mo finally realized why Kong Ye didn't give the small world to Chu Yun. He had long wanted Chu family to break free from this guardian title. Let the guardian be the strongest of each generation or the one with the greatest calling. Shan Di was the best choice without hesitation.

Shan Di realized what Kong Ye meant and got up “Shan Di will not betray qian bei’s will. No matter what I will offer my power to North Far State.”

Ye Mo looked down on Shan Di’s character but he probably spoke the truth. He used a lot of effort for the beast tide all these years.

Kong Ye took out a storage ring and gave to Shan Di “this storage ring is a small world, you can spirit control it.”

“yes.” Shan Di took the small world excitedly. If he wasn’t here, he would want to spirit control it immediately.

Kong Ye nodded “the Chu family has guarded North Far State for more than ten thousand years, even if they’re to no longer be guardians, the entire North Far State cultivators need to be notified. You can do this.”

Shan Di quickly said “wan bei knows.”

Even if Kong Ye didn’t say this, Shan Di would do this. as one this could unite the hearts of North Far State and also bring up his status. After all, he was the successor of Kong Ye.

Chu Yun finally realised why martial ancestor Kong Ye didn’t give the small world to them. It was to let the Chu family break free and perhaps only so would the people of Chu family be able to pursue their own dao.

Thinking that martial ancestor Kong Ye didn’t have long to live, Chu Yun felt sad.

Ye Mo sighed, Kong Ye’s chi was weak, he clearly can’t even last 50 years. It was useless even if he had top grade 60 year pills for him. Unless there was 7 colored pan peach, there was no other way to help Kong Ye.

Kong Ye said to Shan Di “sect leader Shan, go arrange with sect leader Tang to do this.”

Shan Di wanted to leave as soon as possible now. he felt uncomfortable staying with Ye Mo. Now that Kong Ye said this, he quickly got up and said “yes, Shan Di will go, qian bei take care.”

After Shan Di left, Kong Ye said. “I’m going to West Extreme State to find out why martial ancestor went there. We might never meet again after this, there isn’t a lot of people left in the Chu family and the direct line only has a few people left. Yulan’s talent is quite good, if possible I want you to take her to South Peace State. if she can immortal ascension, I won’t feel guilty to the Chu family ancestors.”

Chu Yulan said very obediently now “martial uncle Ye, please take me as your disciple.”

Her tone wasn’t cold like when she first saw Ye Mo, she looked hopefully at Ye Mo as though fearing Ye Mo would say no.

Ye Mo’s head ached, he thought for a long while before saying “I can take you in as a disciple but I have my things. Can you stay at the Chu family to cultivate? I believe there are good hidden places with great formation in the Chu family right?”

Seeing her in a daze, Ye Mo could only add “if one day you reach truth realisation state, you can come find me at Pei Hai city.”

Chu Yun said dazily after a while “how can Yulan reach truth realisation state here?”

Ye Mo smiled “she can with these.”

Then, he took out a storage ring and gave it to Chu Yun. He needed to find Yimo, he didn’t want to take Chu Yulan everywhere. Plus, he didn’t have the effort to teach a disciple. the Chu family cultivation method is definitely really good, he just needed to supply her with some cultivation resources.

Seeing Ye Mo’s rejection, Chu Yun didn’t have the mood to check the storage ring. She still wanted to say something but Kong Ye said “it’s fine, staying here to cultivate is not a bad thing.”

Ye Mo knew that Kong Ye told him to come here for the small world. now that this was resolved, Kong Ye probably didn't have anything else to do. He got up to say goodbye.

...

After Ye Mo left, Chu Yun asked in confusion "martial ancestor, didn't you want Yulan to be Ye Mo's disciple last time? Now that Ye Mo came..."

Ye Mo smiled "what's the purpose of Yulan being his disciple?"

"of course the hope to reach truth realisation state and ascend into the immortal realm and find the ancestors of Chu family." Chu Yun said.

"then look at what Ye Mo gave?" Kong Ye said.

Chu Yun scanned the storage ring with her spirit sense and opened her mouth in shock.

...

Half a month later, Ye Mo went back to Pei Hai city unhappily. He had searched the entire North Far State but didn't find anything about Yimo.

Seeing Ye Mo's sadness, Song Yangzhu came to comfort her.

They stayed at Pei Hai for another half a month before leaving. Ye Mo left with Su Jingwen, Song Yangzhu Ye Ling, Li Yuqian, Ji Ling Teng Yi, Bian Fengta and Meng Hanan and them.

Other than the Mo Yue people, the Pei Hai city lord and them also came to send them off. People from the Jade woman sect, Immortal Herb valley as well as the sect leaders of most big sects came. Even Shan Di sent people over.

After bidding farewell, Blue Moon disappeared into the Heartless Sea in a blue blur.

Chapter 1340: Heartless Sea beast cultivator blocking the road

Blue Moon being a half immortal artefact was faster than a comet on the Heartless Sea. a month later, Blue Moon had gone nearly 1/3 of the way. If it was some extreme grade cultivation artefact, this 1/3 would take 7 or 8 months.

Meng Hanan stood aboard Blue Moon and sighed “with Blue Moon, even a foundation establishment state might dare to cross Heartless Sea. who can catch up with this speed.”

Meng Hanan exaggerated a little but this was true. However, foundation establishment state wouldn't be able to have that speed.

With this speed, everyone didn't want to cultivate and just watched the sea view. After all, not any cultivator can cross the Heartless Sea. who knows when they would be crossing the Heartless Sea next.

Today, Meng Hanan, Su Jingwen and Ye Ling were chatting freely and Ye Mo was discussing formation with Ji Lng but Blue Moon suddenly shook violently.

This was the first time this happened.

Ye Mo scanned his spirit sense out and his face changed immediately.

“it's seaquake.” Meng Hanan said first.

Seaquake was different to earthquake, not only did the huge waves roar but even the space tens of kilometers above is very shaky.

The space vibrations may even kickstart space fissures and space tears. If flying magic artefact encounters space tears, it would be ripped apart no matter how good it is. Cultivators would be ripped apart no matter how strong they were.

Hearing this, everyone's face changed except for Su Jingwen and them.

Ji Ling also got up. As the seaquake space, they might be swept away by the violent space fissures or space dispositions at anytime. This power wasn't something human cultivators could defend against. Ji Ling had gone through a lot and was very calm now. with Blue Moon's speed, they can charge out before being affected.

He immediately said "don't worry, Blue Moon's speed is enough to charge out of the range. We just need to speed up Blue Moon."

As soon as Ji Ling said this, waves were already ten meter high.

Blue Moon descended rapidly until it was only one kilometer from the sea level. Ye Mo who was planning to speed up Blue Moon stopped instead and sneered "this isn't seaquake, it's a formation of the beast cultivator. A very powerful space disruption formation."

Ye Mo already saw some beast cultivators now. two of them were truth realisation state level seven and one was truth realisation state peak stage. The rest were disaster transformation state or cauldron filling state.

Even Ji Ling recognized this was a formation but before he could say anything he also saw a beast cultivator come over.

"haha..." a truth realisation state level seven beast cultivator laughed "keen eyes, you even know a little about my Shallow Sea palace's level 10 formation Tear Sea formation."

Hearing this, Meng Hanan's face changed and was even more scared than before. She said shakily "Shallow Sea Palace people."

Su Jingwen knew Ye Mo's power and wasn't so worried. She subconsciously asked "sister An, you know about the Shallow Sea Palace?"

Meng Hanan calmed down and nodded "Shallow Sea Palace is one of the strongest powers in the Heartless Sea. they're at the place where the spirit chi is the densest in the Heartless Sea."

"how are they compared to the Sea cultivator alliance?" Ye Ling asked.

Meng Hanan smiled bitterly "it's not easy to compare. The sea cultivator alliance is only a power in the border sea. they're a far cry from the overlord of the Heartless Sea."

"level 10 formation?" Ji Ling heard this and his face changed. He searched carefully with his spirit sense. level 10 formation was equivalent to the lowest level immortal formation. This wasn't something ordinary level nine formation grand master can set up. Only immortal formation masters can set this up.

Ye Mo waved his hand to Ji Ling "Ji Ling qian bei don't worry, this is indeed a level 10 formation disk. This is the second highest level formation disk I've seen but the formation isn't a level 10 formation."

"insolent brats, two mere truth realisation state primary stage cultivators dare to point fingers at our Tear Sea formation. How is this not level 10 formation? Where did you see a higher level formation than this? full of shit." The truth realisation state level seven said.

The beast cultivator sneered "your words made me unhappy. I was just going to keep your flying magic artefact and the women but now, you can all stay behind."

The other beast cultivator sealed off Blue Moon's exit path. The disaster transformation state tertiary stage left behind a formation flag and the shaky space stabled down.

Ye Mo sneered "a mere level 10 formation disk already made the formation half a grade lower. With this trash formation master, the formation disk's power is lowered again. If it wasn't that I wanted to stay do you think this trash formation can stop me?"

Ye Mo was telling the truth. Level 10 formation disk was weaker than level 10 formation and with only a level seven formation grand master controlling this, the formation disk's power was much weaker.

He really could leave out at anytime but there was two reasons he stayed. One was that although they were interested in his Blue Moon, he was also interested in the level 10 formation. The second was that he was interested in the extreme grade spirit range powering the level 10 formation disk.

The truth realisation state level seven heard this and laughed, releasing a flaming red axe about to attack. That truth realisation state peak stage stopped him and looked at Ye Mo in confusion.

Ye Mo had a lot of cultivators on his flying but there was only two truth realisation state level one cultivators and one disaster transformation state. the rest were much weaker. He really didn't understand why Ye Mo was so confident. But he really didn't see any fear from Ye Mo's face.

The truth realisation state level seven looked at the truth realisation state peak stage in confusion. it was clear he was wondering why he wasn't allowed to go.

The truth realisation state peak stage looked carefully again and didn't find anyone else on Ye Mo's ship. He nodded to the truth realisation state level seven "Ku Cang, go, be careful."

Ye Mo didn't want to fight on Blue Moon and said to Ji Ling "brother help me control Blue Moon and protect the formation."

"you have balls." The truth realisation state level seven saw Ye Mo dared to come out and challenge him.

Ye Mo didn't say anything and released Zi Xu while expanding his domain.

The red flaming axe hacked towards Ye Mo in a red arc. The area 100 meters around it were completely enveloped in this red arc.

Countless flames curled out of the arc. The flame had a terrifying heat. Clearly it was a rare flame.

Ye Mo was surprised, this was the first time he saw another rare flame cultivation method. However, this beast cultivator used the rare flame cultivation method through his axe.

This move was similar to his Illusion Cloud formation kill strike. Countless flames separated from the arc.

The beast cultivator said he didn't take Ye Mo seriously but he used a powerful move as soon as he came. Clearly he didn't really mean it.

Crack. The beast cultivator's face changed and he found that his domain was about to break. What was going on? This was a mere truth realisation state level one cultivator.

As he used more cultivation essence, his domain was about to be repaired but Ye Mo's domain was always stronger than his. His domain kept breaking and before it completely shattered, his axe wasn't affected at all.

Rumble...

Zi Xu's purple sword rays clashed with the red flaming axe. Flames and purple splashed everywhere rattling the space.

However, all those flames were swooped by Ye Mo's purple sword rays. None could escape.
