

Strongest As 1341

Chapter 1351: Break Domain and rob the lightning orbs

He finally realized why Ye Mo could survive in the void fissure. Not only was his body refinement in king state but his power was no weaker than him. Ye Mo was only truth realisation state level one and he was this strong.

Thinking about Ye Mo's strike before, Di Xueming was disappointed to realise that if he fought with Ye Mo he probably was no match for him.

Di Xueming didn't know that this wasn't all of his means, at most one third.

Although they could move now, it was impossible to release their magic artefact as the region Ye Mo broke open was too little.

Suo Anshan immediately noticed his domain being opened. The reason he hasn't used a lethal blow was as Ye Mo thought, he wanted Ye Mo alive and then torture him slowly.

Although Ye Mo wasn't able to knock away his domain but just being able to break free from his domain was very substantial.

Just when Suo Anshan wanted to use other means, he suddenly saw a dark green shadow fly past in the dark red space. Just when it was about to leave, it was stopped by a windblade whirlpool and it began to struggle.

"void life force marrow...."

Di Xueming and Suo Anshan called out at the same time.

Void life force marrow could be the most valuable spirit item Ye Mo had seen other than bitter bamboo. But of course comparing bitter bamboo with void life force marrow was lowering bitter bamboo's status. Void life force marrow wasn't worth one billionth of bitter bamboo.

Void life force marrow grew in the void. The deeper the color, the more precious it was. This void life force marrow was green. Its value was immeasurable. Ordinary cultivators who ate void life force marrow could live 100,000 years longer. Of course there was no cultivator dumb enough to eat it straight away. They would usually concoct it into pills.

The other use of it was to truly grow flesh from bones. Most spirit herbs in the world could only save someone with an essence spirit left but the void life force marrow could save someone who didn't have an essence spirit. It could allow someone to grow a new essence spirit and recover his past memories and abilities.

But only void life force marrow that reaches purple color can do this.

Seeing this, Ye Mo immediately thought of Nie Shuangshuang. But Ye Mo also realised that it was impossible for him to get it as Suo Anshan already saw it. he didn't even know if he could escape from Suo Anshan much less rob this void life force marrow.

Seeing the void life force marrow, Suo Anshan's eyes lit up. He thought of his son, if there was this he might be saved. Its quality was a little low but it was better than nothing. Plus, it was such a large piece.

Suo Anshan glanced at Ye Mo and Di Xueming whom he trapped and didn't go up to take the void life force marrow. He shot out tens of faint blue flames surrounding the 12 lightning beads.

This meant that even if Ye Mo and Di Xueming broke free from Suo Anshan's domain and 12 lightning beads, they wouldn't be able to escape the blue flames.

Seeing this, Di Xueming's face looked pale and he murmured "prison of heaven flame, I forgot this bastard had LI Ming flame...."

Ye Mo's eyes narrowed, prison of heaven flame clearly was just a way of using heaven flame trapping someone inside. There was no other way of escape other than charging through the heaven flame. But the heaven flame was blue color that would be suicide.

Of course Ye Mo wasn't afraid of this, he had a way to escape. It was simple, burn open the fire with the more higher calibre mist lotus heart fire.

The heaven flame prison was powerful but it was just a method of using heaven flame, it was much weaker than his Heaven Flame Nine Suns. But he couldn't use the Heaven Flame Nine Suns well enough. If he could release three purple suns, Suo Anshan could only wait to be melted.

Ye Mo rejoiced that his heaven flame was also blue color and much higher ranked than Suo Anshan's flame, otherwise he would be in trouble.

If he was willing, he could also use mist lotus heart fire to trap someone but he felt pity he could only at most take Suo Anshan's 12 lightning orbs after breaking free of his domain. He wouldn't have the time to take Suo Anshan's heaven flame as he would be back already.

"what do we do?" Di Xueming was almost in despair seeing the heaven flame prison.

Ye Mo didn't answer Di Xueming, he didn't want Suo Anshan to be wary of him.

Hearing this, Suo Anshan sneered and left for the void life force marrow without even looking at Ye Mo and Di Xueming.

Ye Mo sound transmissioned to Di Xueming "old black, follow me closely. We'll run now."

Di Xueming really wanted to ask where could they run to in the heaven flame prison but he knew regardless they would die. Instead of being captured and tortured he might as well die to the heaven flame so he smiled bitterly. "let's break free from his domain and the 12 lightning orbs first..."

But Di Xueming stopped, he suddenly felt Ye Mo's power rise and at the same time expanded his domain out that was many times stronger than before.

He didn't expect Ye Mo was this powerful, daring to conserve power in front of Suo Anshan.

At the same time, Ye Mo released Illusion Cloud domain shatter strike again.

The purple ray extended 100 meters long and sliced open a way out.

Crack. They could leave now, Di Xueming rejoiced and took back his seal but at the same time he remembered the 12 lightning beads. They only broke open the first barricade, the simplest one.

But then, he immediately saw Ye Mo charge towards the 12 lightning beads as though he wanted to steal it.

“he’s crazy...” Di Xueming murmured and looked at Ye Mo.

Suo Anshan instantly noticed his domain being broken but he didn’t even look at Ye Mo. He was prepared that Ye Mo was able to break open his domain.

But he believed that no matter how strong Ye Mo was, a mere truth realisation state level one wasn’t able to break free from the 12 lightning orbs.

Chapter 1352: Owning a treasure cove but not knowing

Di Xueming soon found that Ye Mo already grabbed one of the lightning orbs. All of the lightning arcs on the surface instantly went inside Ye Mo’s body. What shook him even more was that it disappeared and Ye Mo was completely fine.

“how does he do it?” Di Xueming murmured to himself.

These lightning orbs have already formed a formation. Each orb was equivalent to a formation flag. These formation flag equivalents were extremely powerful and it wasn’t possible to grab it just with power. Because if you grabbed one, you wouldn’t be just grabbing one lightning orb, you would be attack be all twelve lightning orbs.

No matter how powerful you were, you can't grab one lightning orb and make the other ones not attack you. The only possibility was that the person doing this was a formation grand master, or even higher.

Plus, even a formation grand master wouldn't be able to defend against the lightning source attack from one of the orbs. There was so much lightning circulating the surface of the orbs.

Yet, Ye Mo did it.

Before Di Xueming could react, Ye Mo took away all the other 11 lightning orbs into the golden page world and locked them with a simple restriction.

"how dare you..." Suo Anshan was furious. If it wasn't that he already controlled the void life force marrow, he would be coming over to teach Ye Mo a lesson.

The void life force marrow wasn't so easily controlled, it had its own will and one mistake, it would disappear into the void. So, he didn't dare to leave before completely capturing it.

The main thing was that he believed even if Ye Mo broke free from his domain and took his 12 lightning orbs, he wouldn't be able to escape from the heaven flame prison. Even a powerful cultivator would need a few days or even a month to break free. He only needed about half a minute and he would be able to completely control the void life force marrow and free himself to deal with these insolent brats.

"quickly go, Suo Anshan is about to control the void life force marrow...." Di Xueming suddenly stopped and his face was full of despair.

He forgot about the heaven flame prison due to Ye Mo's magnificent show. He immediately realised that they still weren't able to break free.

Ye Mo was watching Suo Anshan the whole time. Seeing that Suo Anshan didn't come over immediately, Ye Mo sneered "that old thing still needs a few seconds, we have enough time..."

Then, Ye Mo waved out a blue flame with his hands. The flame burned onto the heaven flame that stopped them.

“blue mist lotus heart fire...” Di Xueming looked at this in shock. Ye Mo’s heaven flame clashed with the heaven flame prison creating a sizzling sound. 3 seconds later, they burned a huge crack in the heaven flame prison.

Before Di Xueming could say anything, Ye Mo said “let’s go...”

Di Xueming didn’t need Ye Mo to tell him now, the two sped up and immediately disappeared. Even in the void fissure they raised their speed to the extreme. Even being swooped away by void dangers was better than falling into the hands of Suo Anshan.

The instant the two escape, Suo Anshan knew and he was so angry he almost spat blood.

“I’m going to tear you apart...” Suo Anshan put away the void life force marrow but wasn’t happy at all. He was angry to the extreme. The two insects ran and that truth realisation state level one insect took his 12 lightning orbs.

Suo Anshan put away his heaven flame but there was no sign of Ye Mo and Di Xueming in his spirit sense. the void fissure limited spirit sense greatly and even without the limit, he wouldn’t be able to sense them after this long.

But looking at the direction they ran, Suo Anshan sneered. These two were too inexperienced, he had already marked the 12 lightning orbs with his spirit sense. no matter how far they were, he could sense Ye Mo’s direction based on it.

No one could remove his spirit sense mark in such a short time. Even the most powerful cultivator would need at least a day so he wasn’t worried that Ye Mo got away at all.

But when he extended his will his face changed dramatically. He found that he couldn’t sense the direction of his 12 lightning orbs at all.

...

While running Di Xueming was still shook at Ye Mo's endless means and his bravery to steal the 12 lightning orbs. Just how much balls did Ye Mo have?

After a few thousand kilometres, Di Xueming said desperately to Ye Mo "Ye Mo quickly throw those 12 lightning orbs away. I know it's good but it's marked with Suo Anshan's print. He might be able to chase up to us based on that."

Ye Mo smiled "even if he comes I won't throw it away. If brother DI is worried, you can leave first."

Di Xueming's face sunk "who do you think I am, even you don't fear that Suo Anshan. I'm a immortal ascension cultivator, how can I be afraid."

Ye Mo didn't expose Di Xueming but regardless he was good enough to be a friend.

What shook Di Xueming was that they had been running for nearly ten days but there was still no sign of Suo Anshan.

"this isn't right." Di Xueming murmured to himself and then he said "Ye Mo where did you put the lightning orbs at? There's no reason that Suo Anshan didn't chase up, take it out and see."

Of course Ye Mo wasn't going to take it out. If he took it out now, it was telling Suo Anshan where they were. So he shook his head without hesitation.

Seeing this, Di Xueming didn't say anything. After all, they just met for a short time.

"where is this place?" Ye Mo looked at the densely clustered space ripples and lines.

"is this where I practise body refinement before, the center of a void storm is ahead. I've tried breaking through to disaster state before but I failed many times." Di Xueming pointed at this place and said.

Then Di Xueming sighed "without high level supplementary spirit herb, I'm probably stuck in monarch state. I've used up the spirit herb I had before, I don't even have a level one spirit herb now."

“supplementary spirit herb?” Ye Mo asked in confusion, he had never used some spirit herb from 1st to 6th state.

Seeing this, Di Xueming asked with more confusion “body refinement needs large amounts of supplementary spirit herb. did you reach king state without using spirit herb? if so, you probably would’ve died countless times.”

Ye Mo didn’t suspect Di Xueming’s words, the reason he recovered perfectly each time after sustaining such injuries was due to the Three Birth Chant.

“I took some pills.” Ye Mo could only say.

Di Xueming nodded “body refinement is actually completely different to cultivation. If possible, just use spirit herb pills directly. It’s much better than using pills. Xu Magic artefact, Sword grass, blue blood are all great body refinement herbs. Of course, the best is high level spirit beast blood. If there’s a level 11 untransformed spirit beast, its blood would be the best.”

Ye Mo thought, what about the tens of drops of Kun blood he got?

Thinking about this Ye Mo immediately asked. “what about God Beast blood?”

Di Xueming laughed “God Beast, haha, that’s of the legends. If you really have it, I’ll only need one drop, no half a drop and I can reach disaster state and you can reach monarch state without any problems.”

Chapter 1353: Reaching three god states

Then, Di Xueming looked at the jade bottle that suddenly appeared in Ye Mo’s hands. “don’t tell me you have God Beast blood in the jade bottle.”

Ye Mo smiled and took out a smaller bottle dripping one drop inside and gave it to Di Xueming “you guessed it, this is God Beast Kun’s blood I’ll give you one drop for you to reach disaster state.”

After dazing for a long time, Di Xueming took the bottle and sniffed it. then, he looked at Ye Mo in shock “It really is God Beast Kun’s blood. You, how can you get the blood of such a royal God beast?”

Ye Mo smiled “I’ll be honest with you, that god beast Kun is inside here too. Even Suo Anshan is probably not enough for a few casual claws from him. You need to be careful using its blood for body refinement.”

Di Xueming took a cold breath in “I find that the longer I stay with you the more I don’t get you. You can even get god beast Kun’s blood and steal 12 lightning orbs from Suo Anshan. I really don’t know what you don’t dare to do.”

Ye Mo smiled “go practice body refinement, I will do so as well. We’ll talk later, then you take me to the tunnel that can leave this place.”

Ye Mo threw Di Xueming a communication bead.

Di Xueming took it and nodded seriously “okay, after you reach three god states I will take you over.”

He knew that Ye Mo wasn’t going to give up no matter what so he might spirit artefact well go help him.

Then he said “the God Beast blood should be used based on power. With our power we should only use half a drop, using more is a waste. But if you digest the blood, there won’t be any marks. Even if God Beast Kun stood before you, he wouldn’t know.”

“okay, thank you.” Ye Mo saluted with his fists and turned into the endless space lines.

Seeing this, Di Xueming murmured “there’s actually such person in the word, he can even get Kun’s blood but give it out casually.”

Di Xueming changed a direction and disappeared. He wanted to break through into disaster state immediately.

...

Ye Mo was very fast and left this place. he came next to a space wind blade whirlpool. He didn't jump in immediately.

He came here not to body refinement but to spirit control the 12 lightning orbs. He needed to go into the golden page world to do that and it wasn't convenient to stay with Di Xueming.

Ye Mo just into the space wind blade whirlpool and went straight into the golden page world. in the golden page world, Ye Mo picked up the 12 lightning beads.

The 12 lightning orbs were quickly thrown into the golden page world and they still had lightning circulating around them.

In order to quickly spirit control these 12 orbs, Ye Mo spat out essence blood. After the orbs were immersed in Ye Mo's essence blood, they were quickly spirit controlled.

As Ye Mo kept spirit controlling more lightning orbs, the lightning arcs gradually disappeared from the surface of the lightning orbs. The 12 lightning orbs returned to longan sized and their colour went from a dull blue to an aqua color. The 12 beads were very pretty.

After spirit controlling them, Ye Mo realised that they weren't called lightning orbs but Lightning Sea Magical Orbs. There were supposed to be 36 orbs all together and Suo Anshan only got 12. If there were 24 orbs, its power would increase countless folds and when all 36 were gathered, there would be heaven shattering power.

"this is a good thing indeed." Ye Mo sighed after spirit controlling these 12 orbs. He put the Lightning Sea Magical Orbs away. No matter if he could find the remaining 24, he was planning to give these 12 to Yimo as a present.

As soon as Ye Mo was done, Suo Anshan who was still searching for Ye Mo and Di Xueming sapt blood in the air.

This was because he was so angry that Ye Mo actually spirit controlled his 12 lsm. How could he tolerate such insult but he had to.

Ye Mo wasn't going to care about what Suo Anshan felt. That had nothing to do with him. He came out of the golden page world now and left this windblade whirlpool.

It could help him reach king state but it wasn't enough for him to reach monarch state. Ye Mo wanted to go to the center of the space storm, he wanted to test if the Kun blood really had that much benefit for body refinement.

In the void fissure, there were countless space storms. The smaller ones were space string whirlpools, the larger ones were space sand and line whirlpools mixed together. There were some space sand, wind blades, chaos flow and fissures mixed together. Ordinary cultivators wouldn't even be able to last long even if they were truth realisation state peak stage there.

Ye Mo found a middle grade space storm and took out a drop of Kun blade and ate it. he had a lot of it so he didn't need to listen to Di Xueming. He. Just ate one and had decided that he would go into this golden page world immediately if there was any danger.

As soon as he drank it, Ye Mo felt his organs were going to be torn apart. Moments later, his skin went red. Ye Mo wanted to cut himself with a sword right now.

Ye Mo was shook and jump into the storm. He finally realised why Di Xueming told him to use half. This terrifying explosive power would've torn his organs apart if he wasn't king state body refinement.

One could see that the Kun beast would be fine as long as he didn't get caught in the scariest space disposition.

Ye Mo's armor and clothes were instantly torn apart when he came into. The storm. The countless wind blades, sand and lines ravaged on his body. Ye Mo felt that the instant his skin was torn, they grew back out again rapidly.

Ye Mo finally understood the use of the Kun blood and didn't dare to waste time at all. He used the Three Birth Chant and three god body refinement chant together. In a short while, he reached a state of self unawareness.

With the help of the Kun blood, his skin and every part of his bone and muscle were being reorganised.

Three days later, there was gurgling sounds when his cultivation essence flowed. A week later, Ye Mo's cultivation essence stored to a breaking point and finally exploded in his body.

Then in a heavy thud, the rustling sound broke the stopping barrier and cultivation essence flowed freely. Ye Mo felt easy and that instant the scorching and tearing sensation disappeared. The space storm was like a tickle to him now.

Ye Mo howled. He knew that he not only reached the monarch state of the three god states and he also break through to truth realisation state level two.

This was the first time he broke through without using time formation disk.

Truth realisation state level two and monarch state body refinement. Ye Mo knew that even in the Black Rock city, his power was ranked ahead.

After changing a set of clothes, Ye Mo casually walked around the center of the space storm. In a short time, he walked everywhere in this storm that would've easily killed him before. now, Ye Mo felt his power. He exclaimed, this void fissure was indeed an extremely good place for body refinement.

Ye Mo was still in disbelief at the power of the Kun blood. Making him reach monarch state in ten days.

Ye Mo didn't contact Di Xueming, he didn't know if he reached disaster state now but he needed to reach that state. the tunnel of escape Di Xueming told him about was extremely dangerous, he had to bring his body refinement to the extreme.

Black Rock city.

There were tens of truth realisation state peak stage cultivators at the door. Suo Anshan's face was sullen. The two beautiful women next to him were sobbing. Clearly the void life force marrow wasn't high level enough and thus was useless.

"where is vice city lord Shi?" Suo Anshan asked coldly.

Chapter 1354: Black Rock city vice city lord

The younger beautiful woman behind Suo Anshan bowed and said in a sad and soft voice "Shi Taa went into the void fissure alone to get revenge for Chuan."

Suo Anshan sneered but said to the tens of truth realisation state peak stage cultivators here "even if I flip over this void region, I'm going to find that insect."

...

Ye Mo appeared in an even more violent space storm center. He wanted to reach disaster state here but he knew that it wouldn't be so easy. He wasn't sure how much time he would need but he wasn't sure if someone would come over while he was cultivating.

In order to avoid being ambushed, Ye Mo spent a day to set up a level nine space nine illusions attack formation. This formation was based on his understanding of the space seal at sand river and his Illusion Cloud. Other than him, no formation grand master would be able to see through it quickly.

This attack formation was hidden into the void, he learnt this from the Ice God forbidden grounds. Ye Mo believed that there wouldn't be a lot of formation grand master who knew this. the only problem was spirit source but this was the center of the space storm. There was very dense spirit chi. Ye Mo set up tens of extreme grade spirit stones and then the formation was erected.

However, after reaching monarch state, Ye Mo found that he could defend against the space storm easily.

Was he already developing resistance? Ye Mo was speechless, he only used one drop of Kun blood and now there was resistance. So when one drop didn't work he immediately ate a second drop.

After four drops, Ye Mo felt he was still at the tertiary stage of monarch state.

Being used to the speed of cultivation, Ye Mo couldn't tolerate such slow speed so he ate 10 drops at once.

With this, Ye Mo immediately felt that terrifying scorching heat in his body. Strange spirit power ran rampant in his body. It was as though next moment, he would turn to dust.

It was useful. Ye Mo was happy and used Three Birth Chant as well as three god body refinement chant. At the same time, he started moving towards the center of the whirlpool. As he used his cultivation method, the scorching sensation was weakening and his skin was repairing faster.

The meridians were being reorganized again and again. Even his blood started to change. It flowed very fast and even after loss of blood, his wounds would immediately heal instantly without the use of pills or cultivation method.

The space storm now was like a soft breathe on his body. It couldn't bring about anymore gashes on his body. Ye Mo knew that he barely reached disaster state primary stage now.

But he also knew that even if he used up all his Kun blood, he wouldn't be able to reach god state. he might have a chance if we went into space disposition river but Ye Mo wasn't going to do this. he can risk his life for cultivation but he won't go suicide.

In those places, he might not even get the chance to enter the golden page world.

Unless he was truth realisation state peak stage, then he would try.

It was time to look for Di Xueming and let him take him to the tunnel that he could leave through.

As soon as Ye Mo got out of the space whirlpool, he saw there was a man waiting outside. He was extremely handsome, seeming very heroic and brave. Just with his looks, he would have countless women fall for him.

If this person cared a little more about the way he dressed, he would definitely get more attention. This man had such a heroic and manly look but he wore a red flowery robe. Thus, his good looks were turned wrong with this incoherent dress.

Ye Mo wasn't shook at this person's looks but how he stayed outside for so long. He only noticed when he came out. This person was also truth realisation state peak stage. If this person ambushed him when he came up, he would be injured. But of course, this was if he didn't set up the attack formation.

Thinking about this, Ye Mo rejoiced for setting up the attack formation. He wasn't afraid at all if this person attack.

He really couldn't think he was in a place no one could find. He had only been here for a short while, while some cultivators were here for a few thousand years. The places he thought were obscure probably weren't to those cultivators.

Seeing Ye Mo come out of the space storm safely, this cultivator was a little shook but nodded. "although you're truth realisation state level one, your body refinement is at disaster state. this is very amazing. And you escaped from Suo Anshan and took his 12 lightning orbs. Outstanding."

Ye Mo looked calm but he wasn't calm on the inside. Who was this person? How did he know? He didn't think Suo Anshan would tell everyone he lost his 12 lightning orbs. Either this person was very close to Suo Anshan or he was watching Suo Anshan's every move.

Seeing that Ye Mo was calm but wary, the handsome man smiled "don't worry, I have no ill will. My name is Yang Feijing, of course I have another name Shi Taa."

Ye Mo was shook, he knew Shi Taa, the vice city lord of Black Rock city.

Seeing Ye Mo's bewildered expression, he laughed at himself. "do you think it's strange I have two names? But if you stayed at Black Rock city for a long time perhaps you would know. It was probably Di Xueming who told you my name right? Perhaps he would say I'm being cheated on right?"

Ye Mo didn't expect this Shi Taa to be this blatant about this.

But Ye Mo didn't know what Shi Taa meant. Clearly, he had conflict with Suo Anshan so he saluted with his fists. "I'm Ye Mo, greet city lord Shi, how do you know I'm here?"

Shi Taa laughed "I don't know you're here but I know Di Xueming would escape here because this is the place he thinks is the safest. I've known what he thought 100 years ago. After I knew you left with DI Xueming I came here to wait for you."

Hearing this, Ye Mo's heart sunk. If Shi Taa knew Di Xueming would come here, what about Suo Anshan? Ye Mo scanned with spirit sense immediately.

Shi Taa smiled again "brother Ye don't worry, only I know DI Xueming is here. I care about those friends kicked out of the Black Rock city by Suo Anshan, so I care about Di Xueming too. Other people wouldn't care about it."

Ye Mo immediately knew what Shi Taa meant.

Shi Taa's words showed that one day he wanted to join up with Di Xueming and them. So, he knew a lot about Di Xueming but Di Xueming didn't know it at all. Shi Taa also meant that he might be asking to form an alliance. He and Di Xueming wouldn't be able to reject it because they wouldn't be able to escape based on his knowledge of Di Xueming.

Ye Mo sneered in his heart, even though it was good to attack Suo Anshan together, he didn't like being threatened like this.

Shi Taa said "Di Xueming is a good man. That bitch tried to seduce him but he ignored her."

Ye Mo frowned. He wasn't interested in this drama so he said coldly. "city lord Shi, if there's something you want to say then say it. I'm busy I don't have time to waste here."

Shi Taa wasn't angry at all. He smiled "I admire you greatly for being able to escape Suo Anshan. Since you've fought with him I supposed you know that you have no opportunity facing him. My purpose for finding you is simple, I want to join forces with you."

Ye Mo sneered "city lord Shi, I'm a mere truth realisation state primary stage cultivator. It was lucky that I escaped from Suo Anshan. You wouldn't think I can fight him head on right?"

Shi Taa smiled "of course I don't but you're the most powerful truth realisation state primary stage I've ever seen. If we join forces I only want half of the things inside his storage ring."

"by the way, do you know how many good things there are in Suo Anshan's storage ring? Half of the immortal ascension cultivators' things are in his possession. With all the rare ores he had found all these years, you wouldn't even dare to imagine how wealthy he is."

Chapter 1355: Forbearing person

Ye Mo had really never thought of this and now that Shi Taa said this he thought. Clearly, those cultivators in the void fissure were all truth realisation state cultivators and were the elite of each cultivation realm. they clearly had the best things. If only ten percent fell into Suo Anshan's hands and he took half of that, it would be as wealthy as a state, much less half.

Seeing that Ye Mo was interested, Shi Taa said "plus, you think Suo Anshan really can't capture you? There are countless truth realisation state cultivators in the city. If they were really going to search this entire place, one day you and Di Xueming would be caught.

Ye Mo didn't argue with this he knew Shi Taa was right so he asked coldly "I really want to know, how did you know my location and how did you find me so accurately?"

Shi Taa smiled and suddenly waved his hand. An ore fell into his hand and he threw it to Ye Mo "because I have this."

As soon as Ye Mo got it, he saw a surveillance formation inside. This formation restriction is very hidden and if he didn't look closely, he wouldn't be able to see it at all. The ore was so low level, who would go check it in the void fissure.

As soon as he got here, there was a surveillance formation? Ye Mo thought about how Shi Taa knew he took Suo Anshan's 12 lightning orbs and was immediately shook, he didn't....

Seeing Ye Mo's shocked face, Shi Taa smiled "you're right, in these few centuries, I've set up countless surveillance ores in this void fissure. They let me know anything that happens in this void. Only I can pick it up and see the formation inside. Anyone else who picks it up, the ore will turn into an ordinary ore. So no matter where you and Di Xueming escape to I can find you."

Then, there was pride in his eyes "because no one knows that I'm actually a level nine formation grand master."

Ye Mo took a cold breath in, this Shi Taa was really bleak. In a few hundred years, he did nothing but mark down formations. Clearly, he only had one goal and that was to kill Suo Anshan.

Such a forbearing guy, Ye Mo subconsciously looked at Shi Taa. He couldn't tell that he really hated Suo Anshan, why did he do this?

Ye Mo really wanted to annihilate Suo Anshan so that after he left, old black would be safer but he didn't lose his mind. He knew Suo Anshan's power. He's definitely the most powerful cultivator he had ever seen.

Shi Taa wasn't in a rush and was waiting for Ye Mo's answer.

Ye Mo fell silent for a while before looking at him "I'm only a truth realisation state level two cultivator, old black is not bad but he's only an ordinary truth realisation state peak stage. There are too many like him in the city why did you come to me."

Shi Taa nodded "good question, because you're the only one in the entire city who can help me. I'm a wood element cultivator, if Suo Anshan doesn't have the Li Ming fire I wouldn't be scared of him but his heaven flame counters me, my magic is useless in front of him."

Then, Ye Mo looked at Shi Taa in disbelief. “this means that if Suo Anshan doesn’t have Li Ming flame, you can be evenly matched with him?”

Shi Taa smiled pridefully “even if we can’t be evenly matched he wouldn’t be able to do anything to me. with my formation and your help, I believe that I can kill him.”

Although Ye Mo was beginning to believe him, he still asked “city lord Shi, since you have formation means against Suo Anshan, then no matter how powerful his heaven flame is he wouldn’t be able to do anything to you. Why did you wait till today?”

Shi Taa said heavily “I can fight him and trap him with formation but I don’t dare to take that risk. I only have this chance, if I lose it I won’t be able to rest in peace.”

Shi Taa’s tone became agitated. He clenched his fists and said shakily “I, Yang Feijing, have to change my name to Shi Taa and not dare to use my name outside. I have to dress like a woman and not dare to do anything to my woman who cheats on me with Suo Anshan.... All for today, I will kill Suo Anshan myself. I hate him, I hate him so much.... I only have one chance so I definitely can’t lose it...”

Ye Mo looked at the agitated Shi Taa and felt sympathy. He even felt that this Shi Taa was more trustworthy. But considering how forbearing he was, Ye Mo would rather mess with Suo Anshan than Shi Taa.

Shi Taa calmed down after a long while and said “apologies for the emotions, what do you think brother Ye?”

Ye Mo had a sudden feeling that it was all a show. Otherwise, how can he calm his emotions so easily. If this guy really acted that out, Ye Mo was sure he was better than an Oscar winner.

Ye Mo agreed in his heart already. Because for him, if he didn’t kill Suo Anshan, Suo Anshan wouldn’t let him go anyways.

Shi Taa suddenly said again “Suo Anshan sent out more than 100 truth realisation state cultivators searching for you and used two level 10 spirit hounds to find you.”

Ye Mo knew Shi Taa said the truth so he nodded “okay, I agree, I’ll contact Di Xueming. As for how to set up the trap, you can do it.”

Shi Taa nodded. “okay, we will set up here. You’ve cultivated here for half a month, I’m certain that he can find here. He will first confirm how long you were cultivating here for. If he is certain that you’ve cultivated here for half a month he won’t suspect you. You just need to leave a little accidental clue and I’m sure they would be able to find here in three days.

Shi Taa continued “during these three days, I will set up a level nine trap formation and a level nine attack formation.”

Then, Shi Taa hesitated and asked “by the way, how’s your formation skills?”

Ye Mo nodded “it’s not bad, I’m not level six but I’m a level five formation great master. If you tell me about your level nine formation I can help you control it.”

Shi Taa nodded “sure.”

Then, Ye Mo contacted Di Xueming but he didn’t get a reply. Seeing this, Shi Taa said calmly “I really only need you. Otherwise it’s no use how many more come as they wouldn’t be able to stop Suo Anshan’s heaven flame.”

Ye Mo was shook. Shi Taa had such confidence, he didn’t think he was bluffing.

When Shi Taa was setting up formation, Ye Mo was watching on the side. Shi Taa didn’t mind. Seeing the formation flags Shi Taa threw out, they were all made with extreme grade materials. Clearly, Shi Taa had been preparing for them for a long time.

Seeing this, Ye Mo exclaimed, masters were really everywhere. Shi Taa’s formation skills were on par with him. He didn’t have the ability to hide the formation flags in the void but he could use the space whirlpools and wind blades to hide them.

A day later, a hidden trap formation 6 cauldron formation and an. Attack formation, Ringed Immortal Slaughter formation was set up. If Ye Mo didn't see it with his own eyes, he wouldn't be able to sense it in a short time.

They weren't very rare formations but there can be countless variations depending on the people controlling it.

If he wasn't a level nine formation grand master and didn't set up the 9 illusion attack formation, he wouldn't join forces with Shi Taa. Because going in the formation meant that his life would be controlled by Shi Taa. Ye Mo would never let someone else control his life.

Then, Shi Taa said to Ye Mo "I can't come too closer or Suo Anshan would notice. Don't worry, as soon as he comes I will help you."

Ye Mo felt there was some questionable things about this Shi Taa but he still nodded. "okay, I'll lure Suo Anshan here."

He wasn't scared of Shi Taa, he had his own formations.

Chapter 1356: Infuriated Suo Anshan

Ye Mo wasn't afraid of Shi Taa because his formation flags were hidden in the void. It was a level nine formation he created himself too. Even if Shi Taa was watching here, he might not be able to find it.

Plus, Shi Taa set up his formation normally meaning that Shi Taa didn't notice his formation or didn't take it into consideration at all.

After Shi Taa left, Ye Mo went into the storm centre for body refinement again. At the same time, he told Di Xueming to not look for him. He was afraid that Di Xueming would crash into Suo Anshan when he came.

Shi Taa told him to leave some marks and Suo Anshan would be able to find here in at most three days. But before the end of the second day, Suo Anshan's people found where Ye Mo was.

It was three truth realisation state cultivators, they immediately surrounded the storm center and sent out a message.

In less than a day, Suo Anshan brought ten truth realisation state cultivators over here. In order to not let Suo Anshan know that he reached disaster state, he intentionally covered himself in wounds.

“Suo Anshan...” Ye Mo didn’t need to act and just immediately let out his power.

Suo Anshan looked at Ye Mo coldly before trying to make himself sound calm “you have balls, you stole my 12 lightning orbs and still dare to practice body refinement like nothing happened, very well.”

Ye Mo could tell that Suo Anshan was trying to make himself calm but he couldn’t so Ye Mo added oil to fire “before I did this, I killed your son.”

Suo Anshan’s eyes were about to spew out flames. He stared at Ye Mo and after a few seconds he waved to the other truth realisation state cultivators “I’m going to shred him alive. This rat is very cunning, seal off any space he can escape from. I won’t allow him to escape from me again.”

“yes.” The 13 truth realisation state cultivators agreed. With them here, not even a fine sand could escape this place.

But as soon as they said this, Suo Anshan’s face changed. He immediately crushed a communication bead.

He looked coldly at the 13 cultivators “HUo Cong and Wu Tian stay, the rest of you gather my men and return to the city. I will capture this rat and come back immediately. All those who are involved in the coup must be killed.”

Other than the two cultivators who came first, the remaining 11 agreed and turned to leave.

Seeing this, Ye Mo knew it was caused by Shi Taa. Clearly, he set up the coup. Just how long has this guy been waiting for this day?

He was clearly used by Shi Taa but he had to use his full power. Ye Mo knew that even without him, Suo Anshan wouldn't be able to beat Shi Taa today.

Theoretically with Shi Taa's power, he should've long found an opportunity to attack Suo Anshan. Why did he drag it on till today? Ye Mo definitely wouldn't believe it was purely because of this Li Ming fire.

As soon as the 11 cultivators left, Suo Anshan's power rose drastically and even the space wind blades and sands were forced off by his power. Moments later, Ye Mo who was more than ten meters away from Suo Anshan found difficulty breathing.

Such a powerful force, Ye Mo was shook. He just realized that Suo Anshan didn't even use half his power last time.

"rat, if I still let you escape from me today, I'm not Suo Anshan." Suo Anshan said word by word as his force kept increasing. A cultivation essence forcefield whirlpool formed around him. It was as though being swooped in would result in defeat.

A dark snake like figure rose up next to him that grew larger and larger as it circulated around him.

Ye Mo released octagonal cauldron without hesitation.

Seeing this, Suo Anshan was surprised and said "great, great, you robbed quite some good things indeed. Not only do you have blue mist lotus heart fire but also this extreme grade defense magic artefact. It's not a waste for me to hunt you personally for a month."

Ye Mo was at a loss for words, Suo Anshan was right, he really did rob the octagonal cauldron.

"hahah...." Just when Suo Anshan was about to attack a laughter sounded "city lord Suo, who made you so angry?"

"it's you? Shi Taa?" Suo Anshan stopped and looked coldly at him "since when did vice city lord Shi have the courage to laugh in front of me. did your balls get bigger after your daughter died?"

Shi Taa said calmly "I have no daughter but I heard city lord Suo's daughter was killed so I came to help."

Suo Anshan sneered "vice city lord Shi, such a big heart, you don't even want your daughter."

Shi Taa said calmly "ever since I began cultivation I severed off my genitals. How can I have a daughter? I didn't lie to you, I don't have a daughter."

"hmph." Suo Anshan sneered "then Shi Yuchuan isn't your daughter..."

Suo Anshan's face suddenly changed and he pointed at Shi Taa saying shakily "you're saying, you, you're saying.... Shi Yuchuan is my...."

Shi Taa laughed "Shi Yuchuan's last name is Shi but there's so many people in the world with that surname just like Suo. This isn't strange, why does she have to be my daughter? If she changes to Suo Yuchuan then wouldn't she be city lord Suo's daughter? I also heard that princess CHuan sleeps with young master Suo every night."

Suo Anshan could no longer resist the horror and fury in his heart. He splat blood on the spat and his power roared "I'm going to eat you alive, Yang Feijing."

The person he hated the most now wasn't Ye Mo but this vice city lord Shi.

Shi Taa threw out a few formation flags and smiled "city lord Suo still remembers my name, I'm quite honored..."

Before Suo Anshan could even expand his domain, a truth realisation state cultivator suddenly pulled out a 15 cultivation method black sword. But it flew towards Suo Anshan. This was the truth realisation state cultivator Suo Anshan kept to help stop Ye Mo.

The other truth realisation state cultivator dazed. He clearly didn't expect his pal would ambush city lord Suo. Before he could react, the black sword had pierced Suo Anshan's armor injuring him.

Suo Anshan yelled and grabbed behind him. That truth realisation state cultivator couldn't even resist and was grabbed at the head by Suo Anshan. He spat multiple streams of blood and even his essence spirit was crushed by the furious Suo Anshan.

Suo Anshan threw and that body turned into a bloody mist.

Suo Anshan's eyes were red and said coldly to the other cultivator "Huo Cong, Wu Tian ambushed me just then, did you want to ambush me too, speak."

The other truth realisation state peak stage cultivator said with a pale face "city lord, I've been with him the whole time but I've never wanted to ambush city lord. I swear, if I want to ambush..."

Cold beam shot out of Suo Anshan's eyes "I only trust dead people..."

Then, the black snake materialized forming a ten meter long black snake. It ate the other truth realisation state without hesitation.

Chapter 1357: The threat Shi Taa

Shi Taa didn't move and neither did Ye Mo. Suo Anshan calmed down after killing the two and waved his hand. He held the snake in his hand. Only now did Ye Mo see clearly that it wasn't some black snake but a magic artefact. A snake headed wand.

This was the first time Ye Mo saw a magic artefact that could devour people.

Suo Anshan looked coldly at Shi Taa and didn't move nor talk.

Ye Mo was feeling threatened, not by Suo Anshan but Shi Taa. This person was too scary. Without hesitation, Huo Cong and Wu Tian could find here because Shi Taa told Wu Tian.

It wasn't hard to put a traitor next to Suo Anshan nor make the traitor willing to die for him. The hardest was that he could predict Suo Anshan would keep Wu Tian. What calculations and means was this. Ye Mo's heart was cold, what would happen if he offended Shi Taa?

Ye Mo soon got the answer, he would kill Shi Taa at all costs or he wouldn't be able to sleep.

"you set up the coup in the city?" Suo Anshan asked calmly.

"yes." Shi Taa didn't seem satisfied at all.

"you know Xu Qingfei has been sleeping with me? did you not have the ability to stop it or not dare to?" Suo Anshan asked calmly.

Shi Taa shook his head this time "I won't answer that now, I will have to wait a bit first."

Suo Anshan looked coldly at Shi Taa and said calmly "you think these arrangements can kill me for sure?"

Shi Taa smiled and threw out two more formation flags. Suddenly, the surroundings changed and they were completely secluded from the outside.

Shi Taa then released a dark grey magic artefact and said "with these yes."

"level nine trap formation..." Suo Anshan frowned.

Shi Taa added "you're not completely correct because there's also another level nine attack formation."

Suo Anshan's face changed, he finally understood why Shi Taa was so certain he would kill him.

Ye Mo noticed the spear in Shi Taa's hand. He had seen this before, Yin Xu used this one. It had the same chi and style.

The only difference was the color, one was flaming red and one was dull grey.

“even if you trap me with formation what can you do to me?” Suo Anshan said and his wand turned into a 50 meter long snake charging towards Shi Taa. At the same time, he waved his hand and a palm sized mountain appeared above them.

Moments later, it turned into a 300 meter tall mountain.

This was the first time Ye Mo saw someone turn a magic artefact into 300 meter sized. That snake and mountain wasn't targeting him but he was finding it difficult to breathe.

Almost instantly, Ye Mo felt the clashed between the two's domains. He was like a wavy boat amidst huge waves. When Ye Mo extended his domain, he knew that Shi Taa didn't lie, he really had the power to fight Suo Anshan head on.

Shi Taa looked at Ye Mo in surprise seeing that Ye Mo didn't need him to take care of to survive. But then he took his eyes back and threw out a few formation flags. Meanwhile, his long speared pierced over like a comet.

A huge explosion sounded that included the subtle whimpering of animals when the two magic artefact clashed together. Grey cultivation essence and black shadows splashed everywhere.

Even though Ye Mo was disaster state, he felt pain when the cultivation essence splashed on his body. Even so, Ye Mo didn't completely use his domain to block the splashing cultivation essences.

At this moment, Suo Anshan's mountain smashed down and had sealed the space around Ye Mo and Shi Taa before it even landed. Ye Mo couldn't even turn his body and his domain shattered under such terrifying weight immediately.

Ye Mo sneered and with the use of his cultivation essence, his domain expanded out again. It seemed a little stronger than before and Ye Mo regained freedom.

Suo Anshan didn't say anything, he had seen Ye Mo's domain and knew he was preserving power. He attacked Shi Taa without hesitation.

Of course Ye Mo was hiding his strength, this Shi Taa was too scary. He would rather fighter Suo Anshan than join up with Shi Taa in this situation.

Shi Taa didn't mind. He didn't urge Ye Mo to attack, Ye Mo was only truth realisation state level two and being able to hold on under Suo Anshan's terrifying domain was quite substantial.

Although he had seen Ye Mo's power, he wouldn't think that Ye Mo could fight with Suo Anshan.

He even set the time he wanted Ye Mo to help. He just needed Ye Mo to help him for half a minute and he can heavily injure Suo Anshan. Even if Ye Mo didn't help he wasn't afraid of Suo Anshan. If he used all his means, Li Ming fire was a joke to him.

Shi Taa raised his two hands and countless vines birthed out of nowhere. They had all sorts of colors and thorns. When they first grew out, they were only the size of a thumb but by the time the mountain collapsed these vines were already the size of garbage bins.

Seeing this, Ye Mo took a cold breath in. he was certain he was no match for Suo Anshan, even if he reached truth realisation state level four, he would at most be able to escape from Suo Anshan. Yet, Shi Merchant association was evenly matched with him but still forbore to this day before making his move.

Ye Mo knew he didn't have this forbearance of Shi Taa. He even suspected that the reason Shi Taa waited till this day wasn't due to the Li Ming flame but something else.

Suo Anshan dazed and sneered "Yang Feijing you're really good at forbearance, you have such means but you've waited till this day."

Then, Suo Anshan spat out a blue light. When it reached to the peak of the mountain, it turned into an acre sized blue fire cloud. When the fire reached the vines there was a sizzling sound.

There was a putrid smell and the countless vines melted rapidly.

“Ye Mo hurry up and attack.” Shi Taa yelled. He didn’t know why Ye Mo took so long. He thought Ye Mo would use heaven flame as soon as Suo Anshan used Li Ming flame. But now, his vines were about to be burned out and Ye Mo still didn’t use heaven flame.

“huh, okay.” Ye Mo agreed and released mist lotus heart fire. It turned into a blue fire cloud and clashed with the Li Ming flame releasing a heavenly shattering sound.

Suo Anshan’s face changed, when the mist lotus heart fire really stopped his fire he was shook. When Ye Mo ran before, he only used the mist lotus heart fire to burn a crack in the Li Ming flame. He thought Ye Mo’s spirit sense wasn’t enough to take on Li Ming flame.

The mountain was still falling but it slowed down and the vines regrew rapidly.

Seeing the power of the mist lotus heart fire, Shi Taa was shook and annoyed that Ye Mo reacted so slow. Otherwise, he didn’t need to waste so much cultivation essence to grow more vines.

Chapter 1358: Self destruct of level nine formation

Ye Mo seemed to not know what Shi Taa thought and barely used mist lotus heart fire to stop the Li Ming flame. However, sometimes he ran out of cultivation essence and spirit sense creating some holes. Then, the Li Ming flame would soon burn a part of the vines and Shi Taa would have to keep using his cultivation essence to regrow the vines to stop the huge mountain.

Shi Taa was extremely furious. He didn’t know if Ye Mo was doing this intentionally or really running out of cultivation essence. But seeing that Ye Mo kept eating pills, he believed Ye Mo was really running out of juice. After all, he was only a truth realisation state level two cultivator. He may be lucky to get the mist lotus heart fire but his cultivation essence stores were far weaker than a truth realisation state peak stage cultivator.

Shi Taa wasn’t expecting Ye Mo to be really able to stop the Li Ming Flame. If Ye Mo could stop it for half a minute, he would be able to heavily injure Suo Anshan.

So the instant Ye Mo stopped the Li Ming flame, Shi Taa threw out a few more formation flags. Instantly, the grey space lit up but soon, they knew it wasn't light but sword rays.

Shi Taa activated his level nine attack formation, Ringed Immortal Slaughter formation. If a cultivator was hit by one of the sword rays or sword chi, the rest would follow like crazy.

But Ye Mo knew this wasn't the most powerful part to this formation, the most powerful part was that if you didn't understand formation you would eventually reach the center of the formation while dodging the attacks. There would be countless sword ray and sword chi hidden there. If someone goes in, they would instantly explode.

Suo Anshan did know something about formation and his face sunk seeing the activated sword ray and sword chi. At the same time he was trapped by them, the snake head wand suddenly made a terrifying scream like an awakened snake.

As the snake opened its mouth, it shot out countless fine lines. They soon weaved together and formed a big net.

After some cracking sounds, Shi Taa found that the first wave of sword chi were completely blocked by this huge net.

Slice. The net also became broken after stopping the first wave of sword chi, but Suo Anshan immediately spat some essence blood and the snake spat out more lines and a faster pace.

"you can cultivate space cracks...." Shi Taa's face changed but before he could react, the huge snake wand grew again into 100 meters long. The tail of the snake started waving.

Rumble...

The tail flicked away the grew spear out. At the same time, Shi Taa spat blood in the air.

Ye Mo felt that his domain was shattering piece by piece and knew his cultivation essence wouldn't be able to stop this flick of the tail. Before it reached him, he flew up and landed on the side. Because he wasn't attacking with full power, he didn't have any difficulty in leaving.

Shi Taa's eyes burst red at the same time and threw out tens of formation flags like crazy.

Ye Mo didn't go up now, he had never been using his full power. He felt Shi Taa was scarier than Suo Anshan

Shi Taa seemed to have lost his marbles throwing out this many formation flags. How could Ye Mo not know what he was doing. He wanted to self destruct the Ringed immortal Slaughter formation. If that happened, not only would Suo Anshan be injured but so would he.

Suo Anshan couldn't tell that Shi Taa was going to self destruct the formation but he noticed something was wrong.

Before he could react, Shi Taa released that grey spear again. It sliced across the air and pierced at Suo Anshan.

The grey beam grew faster and faster until it birthed countless spear shadows.

Suo Anshan sneered and released his snake wand but instantly, his face changed "you're going to self destruct your ruin spirit spear? It's a magic artefact that can grow itself but you're going to self destruct it?"

Although Ye Mo knew Shi Taa wasn't going to do that but he was shocked by Suo Anshan's words. Magic artefact that can grow itself? Was it something like his Zi Xu?

Shi Taa sneered and didn't answer Suo Anshan. He knew he had tried to overestimate Suo Anshan but he still ended up underestimating him. But luckily, he was carefully enough and set up two formations.

Just as Ye Mo thought, he was going to self destruct the attack formation. He believed that no matter how powerful Suo Anshan was, he wouldn't be able to survive that unscathed. He would be injured too

but Shi Taa believed he would be injured the least. As for Ye Mo, it was just a nice guy who came to deliver him the mist lotus heart fire. He just wanted Ye Mo to be a bait to lure Suo Anshan over.

Rumble.

The wand and the spear clashed together splashing cultivation essence everywhere and sending shockwaves in the void space.

Suo Anshan noticed that the spear was fine while the space around him was getting volatile.

That instant, he realized what was going on. He pointed at Shi Taa and yelled furiously “you’re crazy, you dare to self destruct formation....”

Shi Taa spat a few mouthfuls of blood without hesitation.

The entire space shook violently. Ye Mo sighed and almost instantly, he took back mist lotus heart fire and went into the space storm center.

Seeing this, Shi Taa sneered. It was useless where you went when his level nine formation self destructed. But he had no use for this insect now. with his formation, he would be able to find Ye Mo’s storage ring and take the mist lotus heart fire.

Suo Anshan released three extreme grade cultivation artefact shields. At the same time, his snake wand formed a huge shadow and enveloped him. This wasn’t it, he also used LI Ming fire to form a fire barrier to protect him.

Rumble, rumble....

This formation was Shi Taa’s after all so although he was in the center of the explosion, he was in a much better state than Suo Anshan.

Ye Mo instantly went into the golden page world in the center of the storm. The only reason he came here was to hide in the golden page world.

The surveillance formations Ye Mo threw out were instantly destroyed, one could see how terrifying this level nine formation was.

A few seconds later, Ye Mo saw from the formation disks he threw out that the explosion eased up. He then went out of the golden page world and went invisible. If possible, he wanted to ambush Shi Taa. He knew Shi Taa wouldn't be killed by his own formation. He wouldn't even be heavily injured.

As soon as Ye Mo came out of the golden page world, the terrifying explosive force came. This instantly left countless sword chi marks on him but they couldn't do much to him, there was only a few wounds.

The space storm also became messy due to the explosion of the formation.

Suo Anshan sat up shakily. His snake head wand was broken and the three extreme grade cultivation artefact shields were gone.

Ye Mo knew Suo Anshan was over. Even though he wasn't dead, it would take him about half a year to a year to recover cultivation essence. Shi Taa wasn't going to give him this opportunity.

Shi Taa spat some blood and waved the spear in his hands saying coldly "you asked me before why I didn't stop Xu Qingfei sleeping with you? Now I can answer, she can sleep with you because I set everything up but that bitch doesn't even know herself.

Chapter 1359: Alliance becomes enemies

Hearing this, Ye Mo was confused. Was the anger and excitement Shi Taa showing before fake? Now, he realized why Shi Taa didn't answer Suo Anshan's question because if he did, then he would be suspicious of Shi Taa's emotions before. If he was suspicious of Shi Taa, he wouldn't help him fight Suo Anshan.

"who is it?" Shi Taa suddenly looked at Ye Mo's direction.

Ye Mo was shook, he just showed a little emotions and Shi Taa noticed it.

“who can it be? It’s me of course vice city lord Shi.” Ye Mo didn’t need to hide himself anymore.

At the same time, Ye Mo threw out shadowless just in case.

“you’re fine?” Shi Taa looked at Ye Mo in shock stating the obvious. Ye Mo knew this was because this was too shocking too Shi Taa that he was completely fine.

Ye Mo looked at Shi Taa in surprise “did vice city lord Shi want something to happen to me?”

Then, Ye Mo blamed “vice city lord Shi, you’re really not nice. I at least helped you quite a bit but you didn’t even notice me when you let the fireworks out. I was so scared I almost forgot to block my ears.”

Shi Taa looked at Ye Mo for a long time with uncertainty but didn’t answer anything. How could he not know that Ye Mo was being sardonic to him. He wasn’t afraid of Ye Mo but Suo Anshan wasn’t dead and if he fought with Ye Mo even for a few seconds who knows what would happen?

Now, he no longer dared to underestimate Ye Mo. He was only truth realisation state level two but he was a disaster state body refinement master. He could not only escape from Suo Anshan’s trap but also from his level nine formation self destruction.

“that was in a rush and I didn’t get to notify brother Ye. Luckily brother Ye is powerful and fine.” Shi Taa realized Ye Mo’s threat and immediately said politely as though it was really all just an accident.

Suo Anshan also looked at Ye Mo with surprise. He suddenly said “Ye, if you trust Shi Taa what happens to me will happen to you. I’m exhausted of cultivation essence now and all my meridians are broken. That Shi Taa didn’t have it easy too, if I were you I would attack him.”

“brother Ye I’m injured but it’s not serious. Brother Ye don’t listen to him, you killed his daughter and son how can he let that go? Plus, we were in an alliance before.” Shi Taa said slowly.

Ye Mo smiled, of course he knew that Shi Taa really wasn't seriously injured. So before he fought with Shi Taa he had to get his payment.

He then looked at Suo Anshan and nodded "Suo, you're right. I was invited by Shi Taa to fight you not completely because you were hunting me. Hehe, I'm not scared of being hunted because I'm used to it. I came to find you because I heard you have a lot of good things in your storage ring. I think if you give your storage ring to me I won't attack you."

What Ye Mo didn't expect was that as soon as he said this Suo Anshan took off his storage ring and gave it to Ye Mo "Ye, although you killed me son I trust you more. if a trash can give his own woman to someone else to sleep that trash does not deserve to talk to me nor does he deserve to own my things. Even if you kill me, I will let Shi Taa this bastard die before me."

Ye Mo took it and laughed "Suo, you've been talking bull shit the entire time but you've finally said something noteworthy. You're right, if a trash can give his own woman to someone else, then working with that trash is asking for trouble."

Then, Ye Mo released octagonal cauldron and Zi Xu.

Shi Taa said calmly to Ye Mo "brother Ye, we agreed that we would have half each. How come I don't see you taking out that other half. Do you want to have it all to yourself? Or do you think just because I'm injured you can do whatever you want?"

Ye Mo looked at Shi Taa speechlessly. This guy also had such a thick face. Ye Mo sighed after a long while "sigh, vice city lord Shi, although I don't want to admit it but I must say you guessed it. I like to abuse the injured and weak, I saw that you're injured so I want to have it all to myself..."

Before Ye Mo finished, he expanded out his domain and Zi Xu brought out a purple sword rays.

Illusion Cloud formation kill strike.

Shi Taa had seen Ye Mo in action before and he knew that this strike was completely different to the domain shattering strike he saw before. the previous strike was the combination of cultivation essence and spirit sense but this strike seemed to be alive.

He had never seen someone who can control every sword ray he released and use it to form a formation to trap the opponent.

Shi Taa regained his composure moments later. He didn't even need to wave his hand and countless vines birthed out of the void. They looked very disgusting.

But these vines also seemed to have their own will just like Ye Mo's sword rays. It formed a huge net shape enclosing all of Ye Mo's purple sword rays.

Shi Taa thought that even though he was heavily injured, his vines would be able to deplete Ye Mo's purple sword rays quickly and then trap him.

But when the two clashed together, he immediately knew he was wrong.

Crack, Shi Taa found that if he didn't keep inserting cultivation essence and spirit sense into the vines, they would be no match for Ye Mo's purple sword rays. Thining that Ye Mo didn't even use his heaven flame yet, Shi Taa felt htings weren't good. He began to sweat cold. Ye Mo's cultivation essence and spirit sense were far beyond his expectations. He did have other trump cards but it wasn't time to use it yet.

Another wave of cracks sounded and Shi Taa's face finally changed. He realized that his domain couldn't match with Ye Mo's domain. This meant that Ye Mo was only truth realisation state level two but his domain was more powerful and perfect than his. Although this was due to him being injured but he really didn't want to believe that.

"you hid your power before? you intentionally let Suo Anshan's flame burn my vines and then use your heaven flame right? Then you intentionally left holes in your flames too?" Shi Taa couldn't resist reproaching.

Ye Mo looked at Shi Taa in shock "I heard vice city lord Shi say you didn't fear Suo Anshan so I didn't dare to use full power. Aren't powerful people usually very prideful? If I used my full power and then that wouldn't showcase vice city lord Shi's power, that would be a great offense. I didn't expect vice city lord Shi was smart enough to see it."

“great, great....” Shi Taa calmed down again “a mere truth realisation state level two dare to trick me.”

Then, he waved his hand and the ruin spirit spear immediately brought about endless void killing intent piercing over.

Half way, it separated into 9 black spears. They were like a huge 9 fingered claw looming over Ye Mo.

The purple sword rays also sizzled and disappeared in the wake of the 9 spears.

Hearing this, Ye Mo’s heart sunk. He knew his domain had shattered. Before he could react, the 9 spears were in front of him.

There was a putrid smell. Ye Mo knew these 9 shadows were no ordinary things. Before he could think, he inserted all of his cultivation essence into the octagonal cauldron and the octagonal cauldron spun rapidly.

Thud.

There was a huge clash and Ye Mo felt his meridians going chaotic. He spat blood out as he was sent flying with his octagonal cauldron. He didn’t even have time to use his heaven flame.

Chapter 1360: Shi Taa’s killing blow

Seeing the power of Ye Mo’s Zi Xu, Suo Anshan was also shook himself. He didn’t expect a truth realisation state level two would have such powerful sword technique. But he only wanted Ye Mo to be stronger and stronger. Even if Ye Mo kills him in the end, as long as he can see Shi Taa die first he would be satisfied. Plus, he had void life force marrow. As long as Ye Mo and Shi Taa can fight for a while, he would be able to recover 80 percent.

The reason he gave his storage ring to Ye Mo without hesitation was because he didn’t want Ye Mo to remember he still had voice life force marrow. No one knew that the instant the explosion occurred, he took out the void life force marrow from the storage ring.

But Shi Taa's power was far beyond his expectation. He was injured in the explosion of the level nine formation but he was still able to send Ye Mo flying in one move. There was disappointment in his eyes. His hatred towards Shi Taa was inexplicable. This person knew princess Chuan was his daughter but still let her sleep with his son.

Comparatively, Ye Mo only killed his son and therefore the hatred wasn't that big. Unfortunately, Ye Mo had some power but he was still far too weak. Shi Taa wasn't going to let him go.

Thinking about this, Shi Taa indeed charged at Ye Mo again. His hands sprayed out countless seeds.

These seeds instantly budded in the air and countless buds sprouted. They turned into countless vines

If these vines joined together, Ye Mo wouldn't have the opportunity to attack again. Shi Taa would only need to watch Ye Mo being killed by these vines or keep spraying out seeds when the vines were being burned by the heaven flame.

Seeing this, Ye Mo was furious. This Shi Taa didn't take him seriously at all.

"brother Ye why do this? we agreed to cooperate but you want to rob my thing, sigh..."

Shi Taa said calmly while forming the 9 spear shadows again.

Seeing this, Ye Mo sneered and hacked Zi Xu at the ruin spirit spear while releasing mist lotus heart fire.

Seeing this Shi Taa sneered, Suo Anshan's heaven flame was ranked lower than Ye Mo's but the difference wasn't huge. And Suo Anshan was truth realisation state peak stage, if he wasn't afraid of Suo Anshan's heaven flame why would he be afraid of Ye Mo's heaven flame? Even if heaven flame can really counter his vines, he still had other means to easily kill Ye Mo.

What shook Shi Taa was that Ye Mo didn't form a fire cloud with the heaven flame. Instead, the heaven flame formed into a huge blue sun that hung mid air.

The sun emitted countless blue rays that instantly covered this entire space. Moments later, this area turned into a blue world.

If they didn't see Ye Mo release this sun they would've thought they went back to solid land, back to the cultivation realm.

Seeing this, Suo Anshan's eyes narrowed. He was already the peak of the cultivation realm. how could he not know that this was Ye Mo's heaven flame cultivation method? This was a true method of using heaven flame.

He had been searching for countless years and couldn't find a heaven flame cultivation method. Yet today, he saw this on a young truth realisation state cultivator. This made Suo Anshan sigh, just how many good things did this cultivator have?

The terrifying blue rays didn't give him time to think anymore. He barely released his Li Ming flame forming a heaven flame barrier to block the blue rays.

But Shi Taa didn't have it so easy now. Ye Mo didn't even need to use the fire cloud to burn his vines, just releasing this sun put him at the complete lower hand of the battle.

Sizzle... the putrid stench grew and the endless vines were all turned to dust under the Heaven Flame Nine Suns.

Shi Taa was shook, he didn't expect the pawn he found to be able to use the heaven flame better than the original opponent.

Rumble.

Zi Xu and ruin spirit spear clashed together. The 9 spear shadows were scattered.

Ye Mo flew back more than ten meters back into the storm center before. Ye Mo knew there was still a huge difference between him and Shi Taa in terms of cultivation essence and spirit sense. Both of their powers were beyond truth realisation state peak stage, one could call them a fake immortal.

Shi Taa wasn't happy at all striking Ye Mo away. He knew that he was stronger than Ye Mo in cultivation essence but because of his injuries and over exertion of cultivation essence, he might not be able to finish Ye Mo off quickly.

He really didn't understand why Ye Mo was fine when he self destructed his level nine formation.

Shi Taa didn't understand but he didn't have time to think about that. He looked coldly at Ye Mo and said "you forced me, I will let you know true despair."

He waved his hand again and countless shadows appeared in the air. Then, he spat many mouthfuls of essence blood into it. Then, the shadows started to move.

When Ye Mo saw them, he was shook "corpse puppets, truth realisation state corpse puppets.

Corpse puppet was an extremely cruel cultivation method. The practitioner would capture other cultivators alive and bind their essence spirit. Then he would sink the cultivator into a special fluid for 100 years. But the cultivator wouldn't die and his body would become extremely tough. At this time, the cultivator would pull the puppet out and burn him with his own cultivation essence fire for a 100 years.

During this time, the puppet would be conscious. He would have to endure inhumane torture and endless horror. 200 years later, their conscious would be devoured by the puppet master but their essence spirit would be kept.

At this moment, they would just be a puppet but they would be stronger than they were alive.

Their levels are based on their cultivation level when they were alive. These corpse puppets were clearly made with truth realisation state cultivators.

Seeing this, Suo Anshan pointed at Shi Taa in shock “you, so all those missing cultivators were turned into corpse puppets by you, you, you...”

Shi Taa’s face was pale too and he looked coldly at Suo Anshan “you will be my 931st truth realisation state corpse puppet.”

Then he looked coldly at Ye Mo “forcing my to use this, you will be my weakest corpse puppet.”

Ye Mo had annihilated all the vines and didn’t want to waste his spirit sense so he took away the mist lotus heart fire and ate a few spirit recovery pills. Then he looked at Shi Taa and said coldly “Shi, you have such power but you waited till today to attack and asked me to help. I don’t think you’re afraid of the Li Ming fire. And, your acting skills are quite good, I almost thought it was real.”

Shi Taa ate a few pills and looked snarly at Ye Mo “I wasn’t acting, I’m really furious. I did give her away but am I not allowed to be angry?”

He then said coldly “do you know why I haven’t turned Di Xueming into a corpse puppet yet? Because she’s the only woman I’ve ever loved. Before I turn her into a corpse puppet, I will satisfy her wish. I know Xue Qingfei doesn’t really like Suo Anshan but I know she really did fall in love with Di Xueming. I will turn her into a corpse puppet with Di Xueming. Pity, it’s too early to show my corpse puppets today...”

Shi Taa calmed down.

“psychopath.” Ye Mo sneered. Both of them were recovering their spirit sense and cultivation essence.

“I know why you waited till now to attack, you didn’t wait for Ye to stop my Li Ming fire. Even if he didn’t appear you were planning to attack in these two months because you’re waiting for...”

Shi Taa suddenly roared “shut up.”

Then, Shi Taa waved his ruin spirit spear and those few hundred corpse puppets rushed at Ye Mo.
