

Strongest As 1361

Chapter 1361: Instant kill corpse puppets

Ye Mo wasn't even shook, a few formation flags suddenly appeared in his hands and he threw them out.

Shi Taa saw this and sneered "no wonder you were being so sneaky here before. you were setting up a formation. But you're quite capable to hide it from me, but even if you set up...."

As Ye Mo threw out the last formation flag, Shi Taa was dazed. There was extreme shock in his face. He didn't even believe what he saw. How could this mere truth realisation state level two cultivator hide a level nine formation that even he didn't see.

Shi Taa realized that not only did he not recognize this formation, he didn't even know when it was activated.

"you're a level nine formation grand master too...." Shi Taa stared at Ye Mo in shock.

He was certain that Ye Mo was not only a level nine formation grand master but one that was better than him.

When he was setting up his formation, Ye Mo was trapped inside but was very calm. Clearly, he wasn't scared of his formation. Even when he self destructed his formation, Ye Mo wasn't hurt at all. Yet, he didn't even see Ye Mo's formation nor when it was activated.

Shi Taa screamed and threw out a few more formation flags.

Those disorganized corpse puppets became orderly and formed a strange formation. Some corpse puppets released their magic artefacts and charged at Ye Mo.

Ye Mo's face changed. With this many truth realisation state cultivators charging at him, he would be killed for sure. He activated the formation without hesitation.

The instant he did, Ye Mo was ready to self destruct his formation at any time. Ye Mo really couldn't think of another way to stop all these truth realisation state corpse puppets other than detonating his formation.

Countless Illusion Cloud sword ray and sword chi filled the space. The most powerful thing about this formation was that there were countless sword ray and sword chi that was hidden from both the eyes and the spirit sense.

If one was hit by one sword ray, their momentum would be stopped and this momentary stop was enough for countless sword rays to swoop over. How do you dodge something you can't see with your spirit sense nor eyes.

Ye Mo was enlightened of this attack from Ji Zhiyuan's invisible sword chi.

This was also because Ye Mo cultivated the Three Birth Chant, anything he saw he could make into his own if he wanted to.

Shi Taa mobilized 100 corpse puppets to protect him without hesitation. They all released defense magic artefact making the place he was at impenetrable.

But Ye Mo was shook to find that of those few hundred puppets, they didn't all use magic artefact. Most of them just charged at him dazily.

Ye Mo looked back at Shi Taa and immediately knew what was going on. His face was pale and he kept eating pills.

Clearly, he didn't control all of the puppets so his spirit sense and control over the puppets weren't perfect. Realizing this, Ye Mo felt assured.

If he didn't have formation or other means, he really wouldn't be able to escape if he was trapped by these puppets. But he was in his formation and Shi Taa used most of his spirit sense to control 100 puppets to protect himself. The rest weren't a threat to him.

No wonder Shi Taa didn't use these puppets to attack Suo Anshan. If he did, then he would be heavily injured in both spirit sense and cultivation essence even if he killed Suo Anshan. Spirit sense injuries were much harder to treat than meridian or bodily injuries.

Shi Taa was exerting quite some spirit sense controlling these puppets. If he lost control, these puppets might come back to bite him instead.

But soon, Ye Mo found that although these puppets didn't even use one percent of their power they weren't afraid of his sword ray. Whenever the sword ray struck them, it would only make a metal striking sound.

Ye Mo also found that if he was trapped by these puppets, then their aggressive instincts would be activated and they would kill him without Shi Taa's command.

Regardless, Ye Mo knew he must not be trapped by them.

They were fast but this formation was Ye Mo's so instantly, Ye Mo left their surrounding. He raised his hands and tens of lightning sword shot out.

Rumble. These lightning swords were as powerful as truth realisation state divine damnation but Ye Mo found that only one of the ten puppets he struck was turned to dust. The rest only lost an arm or leg, some were completely fine.

This meant that he would need to use hundreds or even a thousand lightning sword to kill all these puppets. Ye Mo took a cold breath in. he would be over himself before he killed all those puppets.

Ye Mo threw tens of lightning swords at Shi Taa but before they reached him, they were blocked by the nearly 100 puppets raising shields.

Thud.

Ye Mo was speechless, luckily Shi Taa couldn't completely control them or he wouldn't be able to stop them for a bit. He couldn't think of any other way of escaping other than self destructing the formation.

Ye Mo was unhappy but he didn't know that Shi Taa was so shocked he was speechless. Ye Mo's performance before was magnificent but now, releasing such terrifying lightning sword, this completely dumbfounded him.

If he wasn't scared of Ye Mo detonating the formation like he did and protected himself with 100 puppets he would've been injured by the lightning swords already.

At this moment, Shi Taa truly began to fear. He had used all his means. If this maniac truth realisation state level two cultivator still had other means, he might really not be able to survive today.

Even if Ye Mo didn't have much means left, he wouldn't be able to last very long. It was exerting his cultivation essence and spirit sense trying to control these puppets.

Ye Mo was planning to get shadowless to help when there was a stalemate but now that shadowless saw Ye Mo had the complete upper hand, he charged out at a puppet instead.

Moments alter, shadowless flew out and charged to another.

Just when Ye Mo didn't know what was going on, those puppets that shadowless flew into fell to the ground.

Without a doubt, shadowless devoured the essence spirit of those puppets.

Seeing them fall, Ye Mo realized. These puppets were powerful but their weakness was also obvious. If there was a way to devour those essence spirit without consciousness, these puppets would turn into rocks.

But just as this moment, Ye Mo suddenly felt cold. There was this unforeseen killing intent surge into his consciousness.

Chapter 1362: Immortal ascension tunnel

“Suo Anshan.” Ye Mo thought of this name instantly and went into his golden page world.

Exposing the golden page world to save his life was worth it.

Rumble... a terrifying explosion sounded. Hundred meter tall explosion waves rose at where Ye Mo was. Nothing existed in that place anymore.

The space wind blades and space fine sands weren't blown away by this explosion. They were all bound in a domain. A black snake head swepted past and they were all devoured by the snake. If Ye Mo didn't go into the golden page world and wanted to dash out, he would also be devoured by the black snake head.

From the formation disk Ye Mo threw out, he could only see the explosion wave and that huge snake head. The instant he came out of the golden page world, Zi Xu brought a purple ray towards at the snake head.

Whimper. The snake head didn't expect there would be someone alive in the space where the burst truth bead exploded. This strike hacked right into its head splashing black blood everywhere.

Suo Anshan in the distance spat blood again and at a piece of green without hesitation. Then he looked at Ye Mo in shock “how did you dodge the burst truth pill? how did you know, how did you disappear?”

The burst truth bead plus the explosion of space was much more powerful than ordinary burst truth pills.

Ye Mo looked coldly at him “Suo, I forgot you had void life force marrow, no wonder you found your life back so quickly. Didn't you say you hate vice city lord Shi the most. Why did you ambush me immediately? Are you farting with your mouth?”

Suo Anshan's face was green. If people dared to say this to him usually, he would've cut that person into pieces.

Soon, Ye Mo knew why Suo Anshan was attacking him. Shi Taa could protect himself now in his formation. He kept throwing out formation flags clearly wanting to set up a defense formation in his space 9 illusion attack formation. But Shi Taa didn't know his formation at all, even if Shi Taa could set up a defense formation, it wouldn't be able to be accomplished quickly.

Shadowless was flying wobbly. There were a few hundred truth realisation state corpse puppets on the ground. Ye Mo knew shadowless was at its limit.

He took shadowless back. There were still a lot of puppets left but Shi Taa couldn't even protect himself now. he just needed to keep using lightning sword at Shi Taa.

Shi Taa realized this too and his face was scarily pale. He kept eating pills wanting to control the corpse puppets.

Suo Anshan sneered and didn't say anything. He waved and that huge mountain appeared in his hands again. Clearly to him, killing Ye Mo was the most important. He didn't dare to attack Ye Mo first as he knew Ye Mo wasn't easy to mess with. He had great worry towards Ye Mo. If Ye Mo would let him leave now, he would leave without hesitation.

The octagonal cauldron spun above Ye Mo's head. Suo Anshan had recovered his cultivation essence, around 80%.

Just when Ye Mo was about to fight Suo Anshan, Suo Anshan's face changed and he had the look of surprise and joy.

He saw the void open up again, there was suddenly the view of the sky. It was getting closer to them but narrower near them and wider near the black rock city. It's as though someone tore apart the void near black rock city.

With this, it meant that they could leave here. Ye Mo rejoiced and charged over without hesitation. However, he was stopped by a powerful force. Meanwhile, Suo Anshan charged out without any trouble.

Before Ye Mo could react, Shi Taa also looked surprised and joyful. He charged out of the void like Suo Anshan disappearing into the sky. Ye Mo's level nine attack formation couldn't stop them at all.

Immortal ascension. Ye Mo immediately realized and his face looked bad. At this crucial moment, the immortal ascension tunnel opened again. What was the reason?

If it wasn't for this, Suo Anshan and Shi Taa would eventually become his loot. Ye Mo was very unsatisfied. He couldn't leave through that immortal ascension tunnel, only truth realisation state peak stage could leave through there.

Shi Taa left in such a hurry that he didn't even take a single corpse puppet. Now, they were all running around frantically like flies.

Seeing that his formation wasn't able to do anything to these puppets, he just took it away and without the formation binding, they all dashed out into the endless void.

He didn't know puppet control and didn't want to take these puppets that were so cruelly created.

Just when Ye Mo wanted to contact Di Xueming, he charged over and quickly threw out a jade slip at Ye Mo "the reason is in here, I'm going to immortal ascension, brother we'll meet again in the immortal realm..."

Then, Di Xueming instantly disappeared in the cracked open void.

Ye Mo quickly took the jade slip and felt at loss. His friend left and so did his enemies, he was the only one left in this void.

Scanning his spirit sense in, there was Di Xueming's desperate voice "my friend told me that there was internal conflict at Black Rock city. Black Hades isn't in the city and his city lord estate was completely smashed. They found a huge seal there and some extremely precious spirit item was sealed there. When someone broke the seal, they found that the immortal ascension tunnel was opened...."

There was also another map behind the words. Ye Mo could tell it was the tunnel DI Xueming told him about.

Ye Mo fell silent and decided to go see Black Rock city. If all the truth realisation state peak stage cultivators ascended then there was no threat for him at the city.

Thinking about this, Ye Mo dashed quickly towards the city, half way, he heard the rumbling sound in the sky. The immortal ascension tunnel was slowly closing up.

Ye Mo felt strange but he still dashed towards the city.

He was disaster state body refinement now and he flew at full power. In just ten days, he arrived at black rock city.

When he came back here again, he could only feel everything was dead.

Ye Mo scanned with spirit sense, there were bodies everywhere. Clearly, there was a huge battle not long ago.

Seeing that so many truth realisation state cultivators were so close to immortal ascension but died in this battle, Ye Mo sighed.

Suo Anshan couldn't react at the time but he would definitely be able to realise that he had a small world. if he saw Suo Anshan in the immortal realm, he would need to kill him.

Ye Mo walked on the streets alone, all the shops were in shambles.

Those dead cultivators' items were also looted.

Ye Mo didn't search street by street. All the good things wouldn't be on display outside, it would be kept in storage rings.

So the first place he went to was the city lord estate. He wanted to see what spirit item was sealed there.

Chapter 1363: The second bitter bamboo

The walls of the city lord were fallen. There was only a wooden path towards the back yard that was rather complete.

Ye Mo just walked tens of meters on the pathway and was stopped by the fallen wall of a round hall. Only the spirit sense shielding fm was barely there.

There were ruins everywhere. More than ten truth realisation state died here and the ground was covered in blood marks.

The first thing Ye Mo saw in the center of the all was a round crystal ball. He noticed it not because it was pretty but because there was a green plant inside.

“bitter bamboo.” Ye Mo blurted out. His voice echoed in the halls.

“how is this possible?” Ye Mo was shook. He didn’t know why there was a bitter bamboo here. This was something that even the immortals standing at the pinnacle of the immortal realm would want. How can it be in the black rock city?

This was impossible.

Ye Mo knew clearly that bitter bamboo was one of the ten great spirit plants in the world. no matter how many realms there were, there would only be one of it. there was one bitter bamboo in his golden page world so there definitely wouldn’t be one here. Ye Mo was certain, this was impossible.

But the reality was that there was another bitter bamboo in front of him. He didn’t see wrong.

“why is it so?” Ye Mo murmured, giving himself a few spirit cleansing spells to force himself to calm down.

After a long while, Ye Mo calmed down completely and forcefully moved his eyes away from bitter bamboo before studying the surrounding situation.

There were 49 frog like things around the crystal ball. They had mouths bigger than their body and their mouths faced all directions of the city. Inside their mouths was a rather spacious spat with a seating.

Ye Mo looked around and was shook. He realized this was a 49 life locking formation.

There was only one use of this formation and it was devour life force to nourish a spirit item. Clearly, this formation was devouring the life force of the entire city’s cultivator to nourish this bitter bamboo.

Ye Mo was thinking, there was no earth nor sunlight. The only thing the bitter bamboo could depend on was spirit chi and life force. A mature bitter bamboo didn’t need this but this bitter bamboo was clearly not matured yet. So, it needed life force to nourish. However, Ye Mo felt things weren’t right. This bitter bamboo gave him a strange feeling.

49 life locking formation devoured life force but someone was needed to refine the life force and provide it to the bitter bamboo. These seats were for the cultivator refining the life force. However, there’s a special feature of the 49 life locking formation. The cultivator refining the life force also need to supply his own life force and essence blood, otherwise it wouldn’t work.

If this seating was Suo Anshan’s, it meant that he would also need to supply his own essence blood and life force.

But this was also beneficial as if the bitter bamboo was fully mature, he would be able to quickly spirit control the bitter bamboo and get nourished by it.

Ye Mo frowned and looked at this bitter bamboo. He wasn’t sure if the ten great spirit plants need to be spirit controlled as his bitter bamboo recognized him as the master automatically?

Ye Mo took out Thing again and flipped to bitter bamboo.

It said clearly there was only one of each top ten spirit plants.

This means that since he got the bitter bamboo, there wouldn't be anymore in the world. why was there another strange feeling bitter bamboo here?

Ye Mo carefully walked to the seating and picked it up. He saw words below it "bitter bamboo one of the ten great spirit plants in the world. it can be nourished by the 49 life locking formation. Once the number of leaves becomes 9 times 9, the spirit plant would serve the nourisher as its master."

9 times 9, that was 81 leaves. Ye Mo counted, there were already 80 leaves on the bitter bamboo.

Ye Mo finally understood why Suo Anshan said that Shi Taa would be attacking him within the two months regardless. It was for the bitter bamboo.

Shi Taa knew Suo Anshan was nourishing the bitter bamboo with life force and essence blood. He left Suo Anshan do the hard work for him and when the bitter bamboo was about to mature, Shi Taa would kill Suo Anshan and take it for himself.

Instantly, Ye Mo also understood why Shi Taa gave his woman to Suo Anshan. Xu Qingfei was his woman, they must've dual cultivated together. Xu Qingfei had Shi Taa's chi and essence blood. When Xu Qingfei dual cultivated with Suo Anshan, this chi was transfer to Suo Anshan. Thus, the bitter bamboo would also have Shi Taa's chi.

This way, once Shi Taa annihilated Suo Anshan, the bitter bamboo would still recognize him as master.

Realizing this, Ye Mo suddenly wanted to vomit. This Shi Taa was too disgusting.

Xu Qingfei clearly liked a heroic warrior so Shi Taa intentionally wore flowery robes to make himself seem feminine. Then, with Shi Taa's secret planning, it was not hard for Xu Qingfei to get together with the heroic warrior looking Suo Anshan.

Although Di Xueming was black and skinny, he also seemed like a heroic warrior. No wonder Xu Qingfei liked him. Just as Shi Taa said, she didn't truly like Suo Anshan but Di Xueming. She only got with Suo Anshan because she was disgusted of that feminine Shi Taa.

Looking at this bitter bamboo, Ye Mo suddenly felt very disgusted.

Although he didn't like it, he didn't destroy it. It was a priceless treasure of the world.

But Ye Mo knew that the 49 life locking formation definitely wasn't something Suo Anshan could set up. Since someone else set it up, why was Suo Anshan refining it? Did Suo Anshan not know that the ten great spirit plants couldn't be spirit controlled, they could only willingly serve you as master.

Ye Mo didn't think much. He scanned his spirit sense along the wall and dazed. Instantly, he came to a broken wall.

There were a few huge claw marks, they were very fresh and Ye Mo recognized them.

This was god beast Kun's claw mark.

Perhaps during the riot, Kun also joined but something happened and the fight reached the city lord estate.

Did all those truth realisation state think of the crystal ball as the seal and when Kun came, they joined up against Kun. After all, anything on it was a treasure.

There was a huge battle and countless truth realisation state cultivators died.

As for the immortal ascension tunnel, perhaps Kun tore it open in fury.

If Kun tore open the space, then things would be easy to explain. Due to the tear in space, these cultivators all sense the immortal ascension calling. They all chose to immortal ascension without hesitation.

Old black was quite a good friend to leave a message first. Just how much will was needed to do that when being trapped here from immortal ascension for a few hundred to thousand years.

Chapter 1364: Hunted by ghoul

Ye Mo sighed, old black flew into the immortal realm. although he was truth realisation state level two, he was still far from immortal ascension. Without adequate resources he could be trapped in the same state for a few hundred years.

But this bitter bamboo, Ye Mo looked over. If it was some spirit plant fed with life force, it wouldn't be far from withering without the life force supply.

Wait, Ye Mo was shook. He thought of Kun, these god beasts were the most sensitive to these spirit plants, if it really was bitter bamboo, why didn't it take it away? This was impossible.

Ye Mo thought of those few fake items that Xue Youfeng made in the all herb mountain ranges. Was this bitter bamboo fake too?

How could the ten great spirit plants could life force to survive? Doing this was something against nature, how could it happen on the ten great spirit items?

Realizing this, Ye Mo immediately knew that this bitter bamboo was quite possibly fake. He stood outside the crystal ball and studied this bitter bamboo carefully.

After careful perusal, Ye Mo found that this bitter bamboo was similar to his bitter bamboo but it was gave off completely different feels.

The bitter bamboo leaves gave people a very comfortable look. Even if you didn't grab it in your hands, it had this serene feeling. Meanwhile, this bitter bamboo leaves only had a messy life force chi.

Ye Mo frowned, if this wasn't bitter bamboo what was it? Ye Mo suddenly thought of a possibility. Could it essence blood that the truth realisation state cultivators who came to black rock city were specifically

arranged to do so and supply life force for this fake bitter bamboo? If this was true, then this person would be too scary.

Ye Mo looked at this bitter bamboo, he couldn't guess what it was but that uncomfortable feeling was still there.

No matter what, he would destroy it first. Thinking about this, Ye Mo released formation flags without hesitation. He still had the formation flags for his space nine illusion attack formation. It would take him long to set them up into the right place.

After that, he added a simple trap formation outside. He was scared there was something in here.

Then, Ye Mo released the mist lotus heart fire and was about to destroy the bitter bamboo but suddenly, he heard a bleak voice "rat, you're so evil. I thought you were setting up the formation to take the bitter bamboo but you're going to use a blue heaven flame to burn my ghou's essence spirit."

"who is it?" Ye Mo was shook, he then immediately realized that the voice came from inside the crystal ball.

Then, the bitter bamboo inside the ball disappeared and the crystal ball cracked. A dark bleak figure appeared before Ye Mo, it didn't look like the bitter bamboo at all.

Ye Mo immediately released his octagonal cauldron and looked vigilantly at this bleak shadow "are you a ghou kept here by someone?"

The dark shadow said hatefully "that's right, I'm a ghou but I'm not kept by someone. When I was about to succeed, that bastard broke into the space here making the entire city's cultivators immortal ascension. Now I don't have life force to feed me. I wanted to devour you but I didn't expect a mere truth realisation state level two cultivator can recognize that I'm not bitter bamboo.

Ye Mo was shook, if it wasn't that the real bitter bamboo was in his hands, he would definitely think this is a bitter bamboo. If he did and tried to take it, wouldn't he fall into the hands of this ghou?

Ghouls were the clones of powerful cultivators. Ye Mo had never heard of anyone in the cultivation realm being able to separate out a ghoul clone. This ghoul said he wasn't kept by someone, meaning that he was either born naturally or he had already killed his main body and had his own will.

No matter what he didn't want to mess with it.

"but even so do you think you can escape from me?" the ghoul said and turned into a huge shadow sweeping at Ye Mo.

Before it landed on Ye Mo, Ye Mo felt he couldn't move at all. He was shook.

This ghoul was so powerful, he was much more powerful than Suo Anshan. This domain wasn't something he could fend off against. He definitely was no match for his ghoul. Ye Mo burst his cultivation essence like crazy and just when the ghoul was about to reach him, he broke free.

At the same time he threw out many formation flags and yelled "explode..."

At the same time, Ye Mo went into the golden page world and controlled the golden page world to flew to the life gate of the formation. He then left the golden page world immediately fearing that it would be exposed.

As the huge explosion sounded, it was more devastating than Shi Taa's formation's detonation. Even though this formation was Ye Mo's and he knew where the life gate was, the terrifying power ripped apart all of the armor on his body. His flesh was already messy.

Ye Mo knew that if he didn't reach disaster state body refinement, he wouldn't be able to live at all.

"argh..." a sharp shriek sounded and Ye Mo immediately knew it was the ghoul. His level nine formation detonation didn't even kill this ghoul, his life force was too powerful.

Ye Mo didn't dare to stay here at all, he charged out without hesitation. He didn't even dare to look back.

...

Leaving the Black Rock city, he didn't even dare to look back and charged into the void fissure. He brought his speed to maximum.

He had only heard of ghouls' terrifying power. Its attacks were invisible and it's all too easy for them to possess someone. Usually after possession, they would devour the essence blood and life force of that cultivator and then move on to a new one.

Today, he saw a ghoul that was fed by countless life force. If he didn't detonate his level nine formation, he would be in the hands of that ghoul. The ghoul's domain was beyond that of truth realisation state cultivator.

Luckily, Ye Mo had been running for his life in the void fissure quite often and he knew where to go to hide his chi.

Five days later, that faint sense of danger was gone. Only then did Ye Mo breathe easy. He knew that only now did he finally escape the threat of the ghoul. He didn't get anything going to the Black Rock city but instead messed with a ghoul.

Ye Mo took out the map old black gave him and immediately changed a direction. No matter what he didn't want to stay in this void fissure anymore. He reached disaster state here and got Suo Anshan's storage ring. What else would he be staying here for?

Ye Mo even suspected that now, there was only him and the ghoul living. That god beast Kun was probably gone.

After running for six days, even his body was covered in wounds.

On the 7th day, he stopped looking dazedly at a dark red void. He couldn't believe that this was the only tunnel.

Old black told him in the jade slip that the tunnel to leaving the void was here. This dark red was the heart of the void flame. Void flame is a type of flame marrow in the void. It has no value and can't be spirit controlled but its temperature could melt anything.

How can he leave? He was still a few kilometers from the void flame but that heat was already unbearable. If he charged in, how could he live?

Ye Mo carefully reached his spirit sense out but before it even neared it, the space flame blades severed his spirit sense and the spirit sense disappeared.

This flame could even melt spirit sense.

"rumble..." there was suddenly a huge explosion and a void flame whirlpool mixed with countless space flame blades spun.

Just when Ye Mo didn't know what to do, that ghoulish appeared in his spirit sense again.

Chapter 1365: Level nine forgery grand master

In just a moment, that ghoulish would reach him. Ye Mo didn't dare to hesitate at all. He threw down a few formation flags and charged into that dark red void flame. Before he even got in, the armor and clothes on him completely vaporized.

Ye Mo didn't dare to use octagonal cauldron, he immediately went into the golden page world. he just hoped that the golden page world would be fine in the void flame.

Inside the golden page world, Ye Mo found that even his skin turned hot red. This void flame was so powerful, Ye Mo took a cold breath in. such terrifying heat, even if one reached god state, it would be hard for the body to not break down.

Ye Mo ate a few pills and started carefully watching the golden page world. after a while, he noticed it was fine so he breathed easy. His golden page world was a primordial artefact birthed along with the universe. If it was so easily burned by the void flame, it wouldn't be deserving of such name.

Then, Ye Mo started watching that ghou. its colored turned dimmer after the formation exploded but it was still extremely fast. That ghou spun outside the void flame a few times. Such terrifying speed.

It spun around a few times and didn't seem to want to give up like this. it tried going into the void flame. Ye Mo was scared, the ghou wouldn't be this powerful right?

But soon, Ye Mo realized his worry was extraneous. He couldn't hear sound outside but that ghou probably made a painful scream. Green mist popped out of the ghou's shadow.

Ye Mo rejoiced, it would be best to burn this guy to death.

The ghou immediately retreated to a safe area but didn't want to leave like this. it still circulated the void flame.

Knowing that the ghou didn't dare to go in here, Ye Mo couldn't be bothered watching him. He threw out a few formation disks, it would disappear immediately but it still allowed him to see the situation. He seemed to be inside a whirlpool tunnel of the void flame, there were countless void flame blades spinning and the golden page world kept falling in this whirlpool endlessly.

Was this the only tunnel out? Ye Mo began to suspect old black's words. First of all, coming to this place wasn't 99.9% chance of dying, it was certain death.

Ye Mo sighed, it seemed he could only rely on himself. Suddenly, Ye Mo thought, if Suo Anshan came here had used hf to set up a barrier, would that be able to stop the void flame?

Thinking about this, Ye Mo even wanted to go out and test with his mist lotus heart fire but what happened to the formation disk made Ye Mo give up the thought. The void flame was too terrifying. If he didn't even have enough time to go into the golden page world, he would be dead for sure?

Ye Mo cleansed himself and changed into a new set of clothes before picking up Suo Anshan's storage ring. His greatest accomplishment in the void was reaching disaster state in body refinement. The second was getting Suo Anshan's storage ring. He had great hopes for this.

The restriction was very complicated on the storage ring but for Ye Mo, it was only a matter of time.

Ye Mo carefully removed the restriction and scanned his spirit sense inside Suo Anshan's storage ring. He was immediately dazed. It wasn't because Suo Anshan's storage ring was much larger than Fang Yizong's but because there were more than 100 extreme grade spirit ranges stacked together like a white dragon.

All sorts of rare ores were stacked in mountains.

What shook Ye Mo the most was that in one corner of the storage ring, there was a stone stool. Ye Mo immediately took it and saw there was the character 'Fire' on it.

Seeing this, Ye Mo was overjoyed. This was one of the 5 element stools he needed. Now, his golden page world only needed one more stone stool.

Clearly, Fang Yizong and Suo Anshan both knew that this stone stool was a rare treasure but didn't know what it was exactly.

Perhaps putting these stone stools in other small worlds could also birth the five elements? Thinking about this, Ye Mo was worried. If that was the case, how could he search for the remaining stone stool? If some cultivator takes it, can he search storage ring by storage ring?

Just how many truth realisation state cultivators' storage ring did Suo Anshan search to find this?

Wait, Suo Anshan has another storage ring. Ye Mo immediately realized he was tricked.

There was no spirit stones nor too many cultivation artefact in this storage ring. There were only a few pills and a few cultivation artefact. Even in Fang Yizong's storage ring, he found 500 million spirit stones. Suo Anshan would only have more. yet, he only found a few spirit stones and a few cultivation artefacts in this.

Little did Ye Mo know that he actually wrong Suo Anshan. With his confidence, why would he have two storage ring? He was just waiting for immortal ascension. Like Ye Mo, only extreme grade spirit ranges had some use to him, in this black rock city, spirit stones were useless.

The reason he didn't have much magic artefact was because they were all in the hands of his son Suo Zhiyue and his wife Xiang Yan's hands. Pity Ye Mo didn't rob Suo Zhiyue's storage ring or he would've gotten more in there.

Although Ye Mo guessed there was more to Suo Anshan's treasure but he didn't care much. He already got a lot.

Ye Mo wanted to check on the ghouls but the formation disk was getting blurry. It was a bit too far away so Ye Mo didn't keep looking.

He had a lot of spirit ranges now so he might as well use 7 to supply power to the time formation disk and start cultivating.

Ye Mo had more materials than spirit herbs. In the west cultivator city, the west cultivator merchant association paid elder Niu Ruyang gave him countless materials to connect with him. Now, he got more from Suo Anshan's storage ring. He had this many extreme grade materials to practice with. No one other than him could be this extravagant.

In the time formation disk, Ye Mo used up level seven, level eight level nine and even extreme grade materials like trash.

With this much practice and blue color mist lotus heart fire, his low grade cultivation artefact was perfected in a month in the time formation disk. Three months later, Ye Mo could easily forge middle grade cultivation artefact. Six months later, Ye Mo was happy with the top grade cultivation artefact he was forging.

A year later, Ye Mo forged his first extremely high quality extreme grade cultivation artefact. Then, he went on a roll. As long as the material grades were enough, all he forged was extreme grade cultivation artefact.

And he used more than half of the material stack.

Looking at the wasted materials, Ye Mo sighed. Using extreme grade spirit ranges to power the time formation disk, using level nine and extreme grade materials for practice. Owning the Three Birth Chant and the mist lotus heart fire, if he still couldn't become a top grade forgery grand master, he can give up.

At this degree, Ye Mo knew there was no point in continuing practice. One grade above would be immortal artefact. Even if he found the materials for it, he wouldn't be able to do it in his golden page world.

There were divine damnation for immortal artefact in the cultivation realm. the golden page world was incomplete so there wouldn't be divine damnation.

Ye Mo put away the time formation disk and got up. He was pondering, a level nine pill king, level nine formation grand master and level nine forgery grand master, was this something a cultivator could achieve?

"perhaps I should start learning rune making." Ye Mo shook his head. Of course, he wasn't really going to do that. His side cultivation means all reached the peak yet his cultivation level was still truth realisation state primary stage and his body refinement wasn't even at god state yet.

He had been in the golden page world for a month, Ye Mo threw out a few more formation disks out wanting to know where the golden page world was at.

Chapter 1366: Reach god state

This time, Ye Mo found it was better than before. he could look through it a little longer. The golden page world had stopped and the space around it was still dark red but there wasn't anymore void flame blades and whirlpools.

Ye Mo carefully moved the golden page world into some places and found that the temperature here was much milder than outside.

Just in case, Ye Mo watched for a long time and confirmed that the temperature here was indeed as he thought. It was much lower. There was dark red everywhere and no exit.

Ye Mo knew if he didn't leave the golden page world, he wouldn't be able to find an exit for sure.

Thinking about this, Ye Mo took the golden page world to the place where the formation disk lasted the longest, drank half of the kun blood before gritting his teeth and leaving the golden page world.

The instant that he left, he felt the explosive power of the kun blood. Before he ate drop by drop by now he ate more than ten at once.

Ye Mo was about to use octagonal cauldron or mist lotus heart fire for a barrier first.

However, Ye Mo felt that the temperature was much lower than above and the rustling Kun blood spirit power made him want the void flame to burn his body.

Ye Mo used the Three Birth Chant and three god body refinement chant to strengthen his meridians body. Meanwhile, he was thinking of an article he saw in a university library. It said that the inner flame has the lowest temperature and the outer flame has the highest temperature. Outside the void flame he wouldn't even be able to survive for a second but here, he could defend against the power using the Kun blood.

Time passed second by second and Ye Mo went from being tortured to defending against the void flame.

He once again sunk into a state of zero self awareness. His skin, meridians and bones were being torn, strengthened, reorganized again and again.

Ye Mo even felt that the essence of the Kun blood completely turned into nourishment for his body.

He reached disaster state middle stage without trouble, disaster state tertiary stage, disaster state peak...

Ye Mo just realized that body refinement had nothing to do with power. The reason he relied on power before was because practicing body refinement in a place that was tougher than his body by tens of times, he might easily be ripped apart. But now, he was completely just refining his body and setting his cultivation level aside.

Ye Mo suddenly woke up at disaster state peak. He felt that the pressure on him seem to be reduced. It could only burn his skin. Now, Ye Mo realized that only those who reached god state body refinement was a true king.

Thus, Ye Mo's eyes flashed with certainty as he drank all of the remaining Kun blood without hesitation.

If he didn't enter god state, he wouldn't be able to go around here easily nor find a real exit.

The Kun blood ravaged inside his body again but this time, Ye Mo was prepared. He rose up slowly. He even felt that this place was the perfect place to reach god state.

His skin and meridians were being torn and rebuilt again and again. If he wasn't disaster state peak, he wouldn't be able to endure this inhuman torture.

But Ye Mo didn't retreat at all, he knew clearly that body refinement was a process of sadistically torturing his body. Compared to others, he had all sorts of pills and the best body refinement cultivation method.

If he still couldn't reach god state in the heart of the void flame, Ye Mo felt he would be stuck in disaster state forever unless he ascended into the immortal realm. this was because he wouldn't be able to find a place like this again. So what if his power reached truth realisation state peak stage? Would he be able to find a place like this again?

Crack, Ye Mo was happy when he heard this cracking sound. Before, his bones only broke a little but didn't break on a large scale. Large scale breaking meant his bones were being rebuilt.

Indeed, the three god body refinement chant made his bones heal in a very short time.

Crack, Ye Mo suddenly felt comfortable. The terrifying void flame didn't feel as scorching as before. when it flew past his body, it was like tepid water.

Ye Mo suddenly got up and checked his bones and skin.

His meridians were very distinct and cultivation essence flew in the wide but solid meridians. The broken bones had formed again emitting a faint golden color. Ye Mo reached out his hand, it was flawless and his skin was smooth like silk but very white.

Ye Mo was speechless, he didn't like being too white. His body was too perfect, he didn't expect reaching god state had such benefits.

Now, he was more certain that no one could reach god state in the Black Rock city. Even Suo Anshan's god state was fake. Only his god state was real. Now, Ye Mo knew how terrifying god state body refinement was. If Suo Anshan reached god state, he wouldn't sustain such heavy injuries in the level nine formation detonation.

He said he was god state to fear the cultivators of the city.

Ye Mo didn't go up to feel the temperature above. although he was god state body refinement now and would be able to survive, he still didn't want to do this.

He didn't need to go up anymore.

Ye Mo changed into a new set of clothes and started searching for an exit at the bottom.

A few days later, Ye Mo felt hardship. He had completely searched this place over. It was as old black said, a place to leave to the void but Ye Mo found he had to tear open the dimension to leave.

Ye Mo tested and found that this place was indeed the weakest part of the void. He wasn't afraid that he couldn't tear open space. Even if he couldn't now, he had this many spirit range and if he reached truth realisation state middle stage in the golden page world, he would be able to tear open the dimension by burning essence blood.

What troubled him was there were many directions of tearing open space. If he didn't tear a dimension opening to Luo Yue and went to some other realm instead, how would he get back to Luo Yue?

Ye Mo thought for a few days and decided to increase his power first.

In the golden page world, Ye Mo sat in the spirit gathering formation made with extreme grade spirit range and devoured spirit chi like crazy in the time formation disk.

The spirit chi was so dense that it was raining down. The spirit herbs grew rapidly.

This time, Ye Mo's cultivation motion was too huge. Such terrifying spirit chi whirlpool, even shadowless was woken up.

Shadowless changed colors again. This time it didn't turn gold but faint blue. It was many times faster than before.

It flew up and spun around Ye Mo before landing on the bitter bamboo.

After cultivating in the time formation disk for a year, Ye Mo stopped. He came out and barely reached truth realisation state level three. With this speed, he would need more than a decade to reach truth realisation state middle stage.

Chapter 1367: Tear open dimension

Ye Mo felt he was used to using immortal crystals. He wasn't used to using immortal crystals anymore, it wasn't very effective for him. Truth realisation state level three was this hard to reach, reaching truth realisation state middle stage and above would be ten times harder, truth realisation state tertiary stage would even worse.

If he didn't have immortal crystals, Ye Mo estimated that even if these 100 extreme grade spirit range could let him reach truth realisation state peak stage, it would take a hundred or even a few hundred years.

Ye Mo sighed, he just wanted immortal crystals to power the time formation disk.

But he knew this was something that an entire cultivation realm couldn't satisfy. Immortal crystals was something of the immortal realm. if it was everywhere in the cultivation realm, it wouldn't be called immortal crystals.

Ye Mo regretted the most that he didn't get more immortal crystals from the sand river. If he could get a few hundred, he wouldn't be troubled like this.

Truth realisation state level three, Ye Mo knew that he might stay at this cultivation level for a long time. He came out of the golden page world. he had to make a decision now.

He went around the bottom for a long while before choosing two directions. He felt both were fine. After thinking again and again, he chose the one closer to him.

Then, Ye Mo used all the cultivation essence in his body and ripped at the space in front of him.

The powerful cultivation essence caused the dimension to destabilise. But this didn't have any effect, he didn't rip open the void. There was no place to exert this cultivation essence and it came back at him making him spit blood.

Ye Mo was shook, he realized with his current power he wouldn't be able to open up this void.

Even in the weakest place in the entire void fissure, his power was still too low.

The void was stronger than he had thought but Ye Mo didn't give up. He had another way, that was to self destruct level nine formation. He felt he was really influenced by Shi Taa. This was the only way he could think of now.

This time, Ye Mo set up a level nine trap formation. After the trap formation detonated, the explosive power would be gathered in one spot. this would help him greatly in tearing open space.

As a level nine forgery grand master and level nine formation grand master, Ye Mo used three days to set up a top grade level nine trap formation without holding back on the materials he used. In order to make the explosion more powerful, Ye Mo even threw in half an extreme grade spirit range.

Half an extreme grade spirit range, not even an ordinary 9 star sect might have this in Luo Yue continent but Ye Mo just threw it out like that.

After getting ready, Ye Mo spat some essence blood at the life gate and detonated the formation he just set up.

Ye Mo didn't even go into the golden page world in order to find the weakest part in the void dimension.

Rumble... terrifying explosion sounded at the bottom of the void flame. The entire void flame seemed like an annoyed beehive and burst out.

Streams of void flame shot everywhere and the ghoul who was still around here didn't expect this terrifying event would happen. Even though it left in time, it was still splashed by countless void flames.

The ghoul grew dimmer and dimmer not daring to stay around here anymore. It shrieked and ran into the endless void.

The flame marrow also splashed out and immediately smashed on Ye Mo's body bringing up large pieces of skin and flesh.

Ye Mo once again felt a tearing sensation. He was about to faint. He was certain that if he wasn't god state, he would turn into dust immediately.

Ye Mo however instead charged towards the centre of the explosion. He burned many mouths of essence blood and once again tore with all his power in the weakest part.

Screech. Ye Mo felt his hands lighten and a dark space appeared before him.

Ye Mo didn't care what this dark space was and just charged inside.

As soon as he did, the void fissure healed up. This was less than a second. If Ye Mo went into the golden page world the moment the formation detonated, he wouldn't be able to make it out in time.

What Ye Mo saw was a dark night sky. He could only charge into the golden page world before falling unconscious again. The damage of the formation and the burning of his cultivation essence used up all of his power.

The golden page world seemed like a golden dot in the starry night sky flying everywhere in the air currents.

A meteor smashed into the golden page world taking it with it as it shot into the atmosphere.

...

"shooting star, I saw a shooting star fall into the sea." by the beach, a young girl screamed.

"don't lie, shooting stars come out at night. Even if there were shooting stars in the day, why would it fall into the sea?" the young woman reproached.

The girl said stubbornly "mum I really saw shooting star. It really fell into the sea."

"okay, you're not allowed to watch tv tonight, sleep earlier." The woman said unhappily.

...

When Ye Mo woke up, he immediately ate a pill and threw out a formation disk. He saw the large amount of sea water and immediately rejoiced. This meant that he wasn't in the void anymore, he was on land.

There was no earth, water nor mountains in the void fissure.

Although Ye Mo's injuries were serious, it was nothing compared to the torture he went through reaching god state. in a short time, he had completely recovered. Ye Mo gave himself a few clear water spells and changed into a new set of clothes.

At the same time he left the golden page world, he formed a cultivation essence barrier on the surface of his body so the sea water wouldn't drench his clothes.

Ye Mo couldn't wait to see where he was. As soon as he went out of the ocean, he scanned his spirit sense out.

Moments later, Ye Mo was dazed on the beach. He took back his spirit sense, he knew he was back but no on Luo Yue but back on Earth.

Ye Mo frowned but he soon calmed down. He was happy. He could go back and check on things.

If he got the fish tail from the Fish Jump Through Dragon Gate he could go back to Luo Yue at anytime or he could use the teleportation formation at Duan Heng mountain ranges and go to the small world. then he would go to Luo Yue from there.

The only pity was that Su Jingwen and Ning Qingxue didn't come with him. They missed Earth much more than him.

Ye Mo sighed, if he could cultivate to a point where he could tear open the space between Earth and Luo Yue easily, then it would be so great.

When Ye Mo came back to his senses, he saw a little girl standing not far from him. She looked at him with big bright eyes.

“big brother, your clothes are really strange? Is this your filming costume?” the girl asked but then she asked again “no, you’re not an actor, I just saw you come out of the sea. how come your clothes aren’t wet, are you an immortal?”

Thinking about his cultivator robes, Ye Mo quickly changed the subject “why are you here alone? Where’s your parents?”

Chapter 1368: Misunderstanding

“my mum is over there.” The little girl pointed at a row of houses near the beach and said “I saw a shooting star fall into the sea during the day. Mum said I lied to her. She said that when you see a shooting star you can make a wish, I came to make a wish.”

Ye Mo was speechless. Her parents were too irresponsible, they didn’t even know that the kid came out of the house. Seeing there seemed to be lights flashing at where the girl pointed. He immediately knew someone was looking for her so he said “quickly go back, I need to go.”

The girl didn’t go and asked instead “I haven’t made a wish yet. By the way big brother, are you that shooting star? I saw you come over from the direction of the shooting star.”

This little girl was very cute but Ye Mo didn’t have the mood to talk with her. Just when he wanted to leave, his spirit sense scanned that there were two men with their face covered hiding in the kitchen.

Ye Mo saw there was a small red bag in the room with the words “Ning Feifei.

“you’re name is Feifei?” Ye Mo asked.

The little girl nodded “yes, I’m Ning Feifei.”

This girl was so young that she didn’t think about why Ye Mo knew her name. she thought it was natural that everyone called her Feifei.

Ye Mo changed his mind. He quickly took off his cultivator robes and changed into earthly clothes. But before he could put his shirt on, a torch flashed over already.

“Feifei...”

A desperate voice sounded. Ye Mo saw this person was familiar, he immediately recognized who she was. It was Ning Qingxue’s niece Ning Xuyan.

Ye Mo frowned, he really didn’t like this girl, he even hated her. When he first saw her, she was not even twenty but now, she was in her thirties.

He only saw her once at the Ning family when he went to find Ning Fuzhen.

She was named the second beauty of the Ning family.

Now, she was on a completely different level to Ning Qingxue. Ning Qingxue was getting younger and younger while Ning Xuyan although well preserved, still couldn’t stop the marks of time.

The two masked men were targeting her Ye Mo immediately realized. If it was just Ning Xuyan he really couldn’t be bothered but Ning Feifei was very cute. He had a daughter too.

“pedophile...” the young girl behind Ye Mo saw the scene and was about to call the police.

“wait...” Ning Xuyan charged up to Ning Feifei and pulled her to her side before stopping the girl. She whispered “Feifei is fine and the police won’t arrive anytime soon, if we anger him...”

Realizing this, the young girl immediately was worried but didn’t keep calling the police.

Ning Xuyan looked vigilantly at Ye Mo. She couldn’t see Ye Mo’s face clearly without the moon.

The young girl also pointed at Ye Mo "Feifei is so young and you dare to do that? Are you still a human? There are so many night clubs outside, if you don't have money I'll give you some. Why do this to a little girl, you, you..."

Ye Mo was shook at these words, this girl was really imaginative. She probably didn't say worse things for fearing he would attack.

Ye Mo thought and immediately realized what was going on. Their touch probably flashed on him when he wasn't wearing his shirt.

"Sishuang, let's go back first." Ning Xuyan quickly said as though not wanting to offend Ye Mo.

The young girl nodded and didn't dare to say anything. After all, this was by the sea in the middle of the night.

Ye Mo was shook, he saw how cocky Ning Xuyan was before. she was going to push Yimo's friend Ning Lan out of the Ning family mansion and was going to slap her.

Yet after these years, she changed so much.

"Feifei, let's go back first." The young girl said.

"mhm." Feifei nodded and said to Ye Mo "immortal big brother, come with us. We live next to the sea, it's very pretty."

The young girl immediately began to frustrate hearing this and quickly whispered to Feifei's ears "Feifei, this person isn't a good person. He tricked you here so he can sell you. Luckily me and your mother came."

Ning Feifei immediately rebuked "aunty you're lying, big brother is an immortal, he transformed from that shooting star in the day, how can he be bad? If you keep saying that I'm not going to like you."

Ning Xuyan and Sishuang frowned. The young girl was scared of Ye Mo but still said coldly to him “is there a point to trick little kids like this? don’t think you have us for sure, I’ll call the police immediately.”

“Sishuang, stop, let’s go.” Ning Xuyan stopped the girl.

Ye Mo was speechless, he wasn’t planning to go to Ning Feifei’s place. there were two masked guys there but he had countless ways to take them away. He still wanted to ask Ning Fuzhen if he got that fish tail back.

Ye Mo hesitated for a long time before giving a defense bracelet to Ning Feifei “this is for you, I’m going.”

Ye Mo thought even if the thing is somewhere else it is all too easy for his spirit sense to find Ning Xuyan. With his spirit sense, he can scan anywhere on Earth. Finding someone was much easier than finding the fish tail. Ye Mo only had to scan roughly with his spirit sense to find someone but in order to find the fish tail he would have to scan every corner. That would use up a lot of spirit sense. even Ye Mo didn’t want to do that.

The worst quality thing on Ye Mo was a top grade spirit artefact bracelet.

“thank you immortal big brother, you must go to my place. you can see the sea from the window, it’s really really pretty.” Ning Feifei already put the bracelet on her wrist.

Even Ning Xuyan and the young girl realized that they probably wronged Ye Mo. Clearly Ye Mo wasn’t the type of person they thought him to be, otherwise how can he be so calm now?

Realizing this the young girl said to Feifei quietly “Feifei, how did you come here?”

Ning Feifei raised her lips “I said I saw a shooting star in the day and you guys didn’t believe me. I came to make a wish and I saw immortal big brother come out of the sea. he must be that shooting star.”

Realising what happened, the two felt quite awkward. The young girl apologized to Ye Mo “sorry, big brother we misunderstood you before. thanks for taking care of Feifei. That bracelet is too precious, Feifei can’t take it.”

Then, the girl was going to take it off.

Ye Mo waved his hand and smiled “it’s fine, I just needed some fresh air so I came out for a walk. Then I met Feifei, I feel we’re quite fated so I gave her a bracelet.”

Ning Xuyan also apologized “thanks for taking care of Feifei, we live in the sea view house over there, do you want to come in for a cup of water.”

Ning Xuyan was just being polite but Ye Mo immediately nodded “okay, I’m a bit thirsty too.”

Hearing this, the two dazed. They thought Ye Mo would reject for sure.

The two looked at each other and showed some vigilance. But they already invited Ye Mo and he agreed, they can’t just say we don’t want you over anymore, leave.

Chapter 1369: The sudden extra sister in law

Ning Xuyan forced a smile and said “let’s go.”

How could Ye Mo not know what she thought but he pretended he didn’t know and came with them to Ning Xuyan’s place. it was a holiday resort but wasn’t open to public. It was only open to people with status.

Ning Xuyan calmed down instead now. regardless, Ye Mo had come in.

As for Sishuang who intentionally left the door open, Ye Mo ignored that.

He had two purpose here, one to take away those two masked guys and another to ask about the fish tails.

“I’ll help you get some water...” Ning Xuyan just wanted Ye Mo to leave after drinking water so she said desperately.

She didn’t even dare to look at Ye Mo and hurried to get water.

Meanwhile, the young girl was dazed after seeing Ye Mo’s face in the light. She had never seen a man with such aesthetics. The edges on his face was very distinct, perhaps he wasn’t the most handsome but he was the most perfectly shaped. The only thing was his skin was a little too white. What shook him was that this man was filled with this immortal temperament. This made her want to get close to this man.

In fact, cultivators do have a faint spiritual temperament. Any cultivator had this. cultivators saw it everyday so they were used to it but this girl saw it for the first time.

Most cultivators were very promiscuous and just slept with whoever they liked. Those cultivators would have lesser spiritual temperament and more of a mixed chi.

Ye Mo’s life was very strict. Other than his wives he never touched another woman. Plus he has been cultivating beside the bitter bamboo so comparatively, Ye Mo had much greater immortal temperament.

Ning Xuyan was just about to pass the cup of water to Ye Mo but the moment she saw Ye Mo, she was extremely shook. Her hands shook and the cup fell out of her hands. No matter how perfect Ye Mo’s body was, his looks were still there. It looked exactly the same as before but with more temperament.

Ye Mo smiled and didn’t move and that cup was somehow in his hands.

Ning Xuyan said dazily after a long while “you, you’re Ye Mo....”

Ye Mo put the cup down and smiled “that’s right, I’m Ye Mo.”

Ning Xuyan heard this and her eyes went red as she knelt down in front of Ye Mo. Tears covered her face.

Ye Mo frowned and pulled her up “if there’s something just say it, no need to be like this.”

Meanwhile, the young girl screamed at Ye Mo in surprise and joy “you’re Ye Mo? My brother in law?”

Ye Mo looked at this young girl, she did look a little like Ning Qingxue. She wasn’t as pretty as her but she had this youthful energy.

Was this Ning Qingxue’s sister? But Ye Mo knew Ning Qingxue didn’t have a sister.

The young girl said again “brother in law, I’m Ning Sishuang, my sister is Ning Qingxue. Where are you living with my sister? Where is she? Did she come back, I’ve never seen my sister.”

Ye Mo looked at this girl who was 16 and suddenly realised. He had left Earth for so many years. Ning ZHoufei and Lan Yu had another child.

Ning Xuyan calmed down and wiped her face “ever since Qingxue left, Sishuang’s parents have been thinking of her a lot, then they had Sishuang. The name means, keen to see frost as when frost came Xue would here. “(Xue means snow)

Ye Mo exclaimed, time really flew by. Ning Xuyan’s sister was even 16 now.

“yes, brother in law, is my sister alright?” Ning Sishuang said again “XUyan and I saw you not wearing clothes before and we thought you were a bad person.”

Then Ning Xuyan poked out her tongue and quickly closed the door and added locked it.

Ye Mo wanted laugh, putting that lock on only meant they couldn’t escape but Ye Mo felt warm at heart. Ning Sishuang clearly considered him as family.

But Ye Mo knew that Ning Xuyan's family and Ning Zhongfei's family had great conflict. Why were the two together now and seemed very close? But Ye Mo wasn't interested in asking.

"by the way, brother in law, why are you still so young? Is my sister as young as you?" Ning Sishuang asked.

Ye Mo waved his hand "Xuyan what did you want to say? If I can help you I will."

Ning Xuyan nodded and sniffed "because there was no outstanding talent in the Ning family and the great grandpa knows this, so he gradually changed the focus of the family to business. Because we still have quite a solid foundation, in a few years we're a world renowned family corporation."

Ning Sishuang nodded "yes, Xuyan like my sister is a business prodigy. there wasn't anyone skillful in the Ning family so grandpa gave the Ning family's business authority to sister Xuyan. Under her management, in a few years the Ning family light energy electronic products swept the world becoming the second biggest in the industry after Luo Yue."

Then, Ning Sishuang looked carefully at Ye Mo "my grandpa wanted to settle at Luo Yue city but city lord Huang didn't dare to agree saying that he didn't have your order. Eventually, my grandpa passed away unhappily but put more than 80% of the Ning family's assets under Xuyan's name."

Ning Xuyan intervened "great grandpa said "think about calamity and live, live peacefully and die. He said more than once that the reason the Ning family didn't have someone like was that they lived too peacefully. So, great grandpa wanted everyone to go out and fight. As for putting the assets under my name, it's just for me to manage. But, but I upset great grandpa's expectations..."

Ning Xuyan sniffed and couldn't even speak anymore.

With Ye Mo's experience, how could he not know that business went wrong under her management?

Ning Xuyan said again after calming down a little "I was managing grandpa's business so it was fine. At the prime of our Ning family electronic business, I met Fang Chong, he came back from Cambridge university, he was much better at managing business than me. he eventually became my assistant and

took the Ning family electronics to a higher level. I wasn't planning to marry soon but Fang Chong was too nice to me and I can't leave him. We married and had Feifei."

"mum, Fang Chong is my dad right?" Ning Feifei asked.

Ning Xuyan quickly said to Feifei "Feifei, go watch TV first."

Feifei was obedient and went to watch TV.

Ning Xuyan continued "Fang Chong agreed to everything I said but after having Feifei, he wanted Feifei to have the Ning last name and let the second child have the Fang last name."

Chapter 1370: Ning family's decline

Perhaps this was a long time ago and Ning Xuyan calmed down "then there was news from Luo Yue that light power electronics were gradually being replaced by bio-electronics and Luo Yue's bio-electronics were mature. Even the world renowned electronic corporations were beginning to research bio-electronics. Once the technology became mature, light electronics would be soon replaced. Fang Chong was very worried and we were planning to invest large sums of money to research bio-electronics."

"bio-electronics?" Ye Mo frowned. He could understand light electronics but this bio-electronics was something he didn't understand at all.

Ning Xuyan nodded "light electronics need light to work. At night, it wouldn't work so it would need light storage devices to kick start. Light storage was inconvenient and more costly than electricity. Meanwhile, bio-electronics can work at anytime. It can even use the physical particles in the air to work.

Ye Mo frowned, he definitely wouldn't believe that technology had this huge of a leap in a decade or so. This was an era defining evolution.

Ye Mo immediately said "you believed that? No matter how fast technology advances, it can't be this fast."

Ning Xuyan nodded “I didn’t believe it but Fang Chong’s friend stole out a bio-electronic rice cooker from this bio-electric company. It didn’t have any light storage device or other energy sources but could work non stop no matter where. It could cook rice anywhere. Even all the engineers in the company confirmed that it was indeed bio-electronics.”

“there’s such thing?” Ye Mo asked in disbelief.

Ning Sishuang said “yes, brother in law, this bio-electric rice cooker was broadcasted on news too.”

Ning Xuyan sniffed but she continued “after that, everyone was discussing the bio-electric rice cooker. Although bio-electric products haven’t come out yet, the sales of light electronic products have reduced greatly. Everyone was waiting for the arrival of bio-electric products. I was very worried as our Ning family’s main source of profit was light electronic products. If bio-electronic products were invented and other companies sold it then our Ning family business would collapse if we didn’t have the technology too.”

“so you agreed to Fang Chong’s request to invest in bio-electronic research?” Ye Mo asked.

Ning Xuyan nodded “yes, Fang Chong told me to invest less at the start but I was desperate and didn’t listen to him. We invested more and more and just when I didn’t dare to invest more, Fang Chong suddenly told me that the bio-electronic research was complete.”

“but at this moment things happened. We were sued by the company who made the rice cooker. They said that our Ning family stole their model and their research product. They requested that we compensate for their loss and hand over all bio-electric research results.” Ning Xuyan said.

“because bio-electronics was a new technology, the compensation they asked was astronomical. Even if we sold everything, we would barely be able to pay it. Fang Chong felt he owed me as he caused this. if he didn’t find his friend to steal that, this wouldn’t happen. He left behind his last words and took all the blame saying this had nothing to do with the Ning family electronics and then he suicided...” Ning Xuyan sniffed again.

Ning Sishuang picked up some tissue and comforted Ning Xuyan.

Ye Mo had never seen Fang Chong and didn't know what sort of person he was but his meticulous habit in the cultivation realm made him realise at least two holes in her words.

First, how discrete was bio-electronic product research, how could Fang Chong's friend steal it? plus, it has been stolen for that long and the rice cooker even went on TV, the Ning family also completed the technology research and then that company reacted? Second, if the technology was so developed, why hasn't mature products gone on market yet?

Ye Mo asked "are those bio-electric products on sale in the market yet?"

Ning Xuyan shook her head "not yet, that company wanted to but due to the court case with our Ning family, the police announced that only when the copy right to the technology was distinct could these products go on markets. So all the critics help that company as everyone wants this to end so the products would go on the market.

Ning Sishuang said "I saw Xuyan being very confused so I came with her and Feifei to the sea side to loosen up. In a few days when all the Ning family assets are gone, I'm planning to let Xuyan come with me to Luo Yue city."

"how's Luo Yue city?" Ye Mo asked casually.

Ning Sishuang nodded "it's very good, it's very pretty and city lord Huang is very nice. He often visits my parents."

Ye Mo nodded, Huang Yinian didn't forget his roots.

Ning Xuyan looked worriedly at Ye Mo "when all of the Ning family assets are gone, I have nowhere to go, Sishuang said for me to go Luo Yue..."

Ning Xuyan sighed "Luo Yue city belongs to everyone now, go if you want. I don't really have an opinion about it anyways."

"thank you..." Ning Xuyan said.

Ye Mo didn't mind "just call me Ye Mo, I just came back today. I haven't been back to Luo Yue yet. I also have something to ask you."

Suddenly, Ye Mo asked "where is that rice cooker?"

"it's been taken by the police, it's evidence, it wouldn't be kept here." Ning Xuyan said sadly.

"all our research products have been locked up by the police, before this is over, we can't take it out."

Although Ye Mo knew this was very suspicious but he had no intentions of helping. He would go visit Su Jingwen's mother and then go back to Luo Yue.

But then since the person behind all this already got the Ning family assets, why send people here? Were the two masked men related to this?

Ning Xuyan suddenly asked "Ye... what did you want to ask me before?"

Ye Mo nodded and said to the kitchen "you two can come out."

Before the two realized what Ye Mo meant, two masked men came out from the kitchen, one of them had a knife.

Ning Sishuang screamed, she didn't expect there were two people hiding there. Ning Xuyan's face changed drastically and ran up to Feifei, protecting her.

But then, the two's eyes were full of shock as though they didn't dare to believe.

When Ye Mo told them to come out, they weren't planning to listen to Ye Mo but their bodies moved out on their own. They can't move at all other than walk.

The two girls looked dazily as the two masked men walk up to Ye Mo and kneel on the ground pulling down their masks obediently.

“what are you guys doing here?” Ye Mo asked calmly.
