Chapter 1421: Dusk of Lightning Cloud Mountain

Ye Mo, Luo Ying and Su Jingwen stood at the top of a mountain outside Mo Yue City watching Mo Yue City from a distance and the two rivers next to it. further beyond was a boundless grassy plain. They enjoyed this precious moment of tranquility.

“the air here is really good.” Su Jingwen stood by Ye Mo and looked at the beautiful blue skies and environment. She felt completely relaxed with the light breeze passing by.

Ye Mo and Luo Ying smiled but didn’t talk. This was the place they lived at now, Ye Mo had been setting this up many years ago. If Ning Qingxue and Song Yangzhu weren’t in solitary cultivation, Ye Mo wanted to call them out as well.

Although Su Jingwen started cultivation last, she had the highest cultivation level. Luo Ying also reached hollow spirit state. only Song Yangzhu and Ning Qingxue were still at nascent soul state. Ye Mo was truth realisation state now and might immortal ascension one day. They knew that their talent was a little worse and so they used all time possible to cultivate. They didn’t want to be still staying at Mo Yue City when Ye Mo immortal ascended.

Now that Mo Yue lake spirit chi was very dense to an extent that even 9 star sect couldn’t hope to compare, no one wanted to stop cultivation.

“this will be our home from now on.” Su Jingwen exclaimed once again. She had never lived so well before.

In Ning Hai, she fell in love with Ye Mo and didn’t know. When she knew, she didn’t dare to say it. when Ye Mo left, she finally realized and crossed countless mountains and rivers just to find Ye Mo and tell him that she really liked him.

Even now, she still remembers the bar where she got drunk after hearing news of Ye Mo getting married. Chi Wanqing took her away that time. Thinking about this, she suddenly wanted to know how was Chi Wanqing, compared to her, she was so much happier.

She found Luo Yue city and the small world, then Luo Yue continent and Jiang CHuan city. Finally she met him on that snowing day.

“don’t think that much.” Luo Ying saw Su Jingwen’s eyes were melancholic and knew what she was thinking as she held her hand.

It was as though every woman who was with him endured countless hardship. Mu Xiaoyun, Song Yangzhu, Ning Qingxue.

Seeing that Luo Ying seemed to be affected by her mood, Su Jingwen suddenly smiled “sister Susu, I actually feel very happy. I’m thinking about happy things. Just like last time, if I wasn’t with sister Susu, I would never expect you to be more crazy than me.”

Hearing this, Ye Mo blushed. Luo Ying was older than Su Jingwen but couldn’t accept such blunt words and also blushed.

Ye Mo suddenly felt a sense of satisfaction. He brought the two into his arms. No one said a thing now, they just enjoyed this moment of tranquility.

The good times after hardship were more precious.

All of them knew that Ye Mo’s power kept increasing through battles and seeking fortunes. If Ye Mo stopped to cultivate, he would perhaps be the weakest. So, they all knew that they could stay and cultivate at Mo Yue City but Ye Mo couldn’t. Ye Mo was more powerful than them but every step he made, he paid countless times the price they did.

It was because of this that every time Ye Mo came back, even someone like Luo Ying would open herself up.

Mo Yue City wasn’t just a city now, it had a new age. It was not only a symbol but also an anticipation.

After the formations were set up, all the people in Luo Yue came to the agreement that they’ll use the Earthly way of recording time. The first year was Mo Yue 2000.

This way of remembering time changed the chaotic and messy notion of time on Luo Yue continent and was soon adopted throughout the entire South Peace State and eventually the entire Luo Yue continent. Ever since now, Luo Yue's calendar united.

Su Jingwen leaned in Ye Mo's arms and really wanted to ask why he named Luo Yue city the same as Luo Yue continent but she resisted that question. She didn't know if Qingxue asked Ye Mo but she didn't ask because she felt it was hard for Ye Mo to answer.

"Susu, Jingwen, I'm going to leave Mo Yue City for quite a while this time but don't worry I'll be fine." Ye Mo didn't want to say this but he knew he had to go see Silver Moon pill king and Guan Tian pill king. He owed these two former city lords a great deal.

"I know, go." Luo Ying knew Ye Mo too well and she really didn't worry about Ye Mo much now. he had golden page world and even truth realisation state peak stage was no match for him. In the entire Luo Yue continent, there weren't many who could threaten him much less South Peace State.

She also knew that Ye Mo wasn't going to gulp down the hatred of Gu Wenqian and them being killed. Before he went to demon prison forbidden grounds he would definitely annihilate Lightning Cloud Sect and Infinity Sect.

Ye Mo indeed thought so, there was another reason he wanted to annihilate these two sects. He didn't know how long he would go for and although Mo Yue City was very safe but there were only two truth realisation state cultivators.

Even if they didn't dare to come to Mo Yue City, they were still a threat.

In fact, Ye Mo wanted the Pill City to come get revenge, that way, he could annihilate Pill City too but they did nothing about losing 11 truth realisation state cultivators.

Thinking about this, Su Jingwen said in confusion "the Pill City is really strange, they still haven't done anything up until now. Ji qian bei said that the Pill City would come for retribution for sure."

Ye Mo smiled “even if the Pill City came, Mo Yue City does not fear them. With Ji qian bei manning the formations, any of you can use formation to control them.”

...

The dusk sun was bloody hanging high above Lightning Cloud mountain seeming pitiful.

Yet under such sun, there was not a single person to be seen outside Lightning Cloud mountain.

Ye Mo dominantly came back to Mo Yue City and killed 11 Pill City truth realisation state cultivators including SHui Ye who had immortal artefact. News of this spread through the entire South Peace State in a day. Even the most distant place cultivators heard of this.

For some low grade cultivators, Ye Mo was level nine pill king didn't shock them too much. After all, it was too far from them. But killing 11 truth realisation state cultivators in a row, everyone knew this.

Outside the Lightning Cloud mountain was dead silent but that didn't mean there were no people at Lightning Cloud Sect. how could they not have heard of the news.

In fact, this wasn't what shocked them the most. It was that after Ye Mo did that, Pill City didn't react at all.

This was the most unbelievable thing. Pill City was a place where truth realisation state were plenty like dogs and disaster transformation state walked all over the streets. Yet this power didn't even say anything. This was too abnormal.

Plus, Ye Mo said cockily that Pill City only had one chance of revenge. But if Pill City went to Mo Yue City, Pill City would be erased from South Peace State.

Because the Pill City was so quiet, Lightning Cloud Sect was more worried because everyone in South Peace State knew that the next place Ye Mo would go was Lightning Cloud Sect and Infinity Sect.

In the meeting hall of Lightning Cloud Sect, the scene was dead silent.

Chapter 1422: Challenge Lightning Cloud Sect

One of the four truth realisation state cultivators of Lightning Cloud Sect was killed by Lu Wuhu and then the demon prison forbidden grounds incident occurred so one went there. Now, the 9 star sect Lightning Cloud Sect only had two truth realisation state cultivators left.

“Tian Ji, you started this, you think of a way.” A truth realisation state level five said coldly. This was Lightning Cloud Sect paid elder Peng Li.

Tian Ji was silent like a dormant beetle. If he knew that Ye Mo could reach such a powerful level in such a short time, he wouldn't do anything even if more Tiao Aofeng were killed. Although he really wanted to argue back that elder Peng was the first to agree to stopping Ye Mo's flying ship, he didn't dare to. His power was too low.

The other truth realisation state level eight knew that it was pointless even if they killed Tian Ji now. he coughed and just wanted to speak when the meeting hall rattled.

The truth realisation state level eight and Peng Li's face changed. They scanned their spirit sense out and saw a young truth realisation state cultivator outside the formation of Lightning Cloud Sect. he had a thick purple kitchen knife in his hands, clearly he was the one attacking the Lightning Cloud Sect formation.

“Ye Mo...” Peng Li said in a shiver and his heart sunk.

“martial brother Ji Ming...” Peng Li looked at the truth realisation state level eight. How could he not fear? Ye Mo killed 11 truth realisation state cultivators from Pill City, there was one truth realisation state level seven and one truth realisation state peak stage with an low grade immortal artefact.

Even with that power, they were slaughtered clean by Ye Mo. When he stopped Ye Mo's flying ship, he even killed a cauldron filling state cultivator.

The Lightning Cloud Sect had sect defense formation but Ye Mo was said to be a level nine formation grand master. He set up the formation of Mo Yue City and in the battle ground, he easily trapped Pill City truth realisation state peak stage Shui Ye.

“let’s go out first.” Ji Ming was clearly more composed than Peng Li.

....

Outside Lightning Cloud Sect, Ye Mo hacked again with Zi Xu. Cultivation essence burst out and Zi Xu brought a piercing ray hacking on the Lightning Cloud Sect defense formation.

Crack. Ye Mo knew he hacked open a crevice of this formation.

To be honest, for a formation grand master like Ye Mo, he didn’t need to attack like a savage but thinking about GU Wenqian being killed, he was furious. Only this way would reduce his anger.

The Lightning Cloud Sect disciples came out and watched Ye Mo attack the defense formation by himself but no one dared to go out. There was even crystal ball recording of Ye Mo slaughtering the 11 truth realisation state cultivators.

“city lord Ye, please stop...” Feng Jiming quickly called. Lightning Cloud Sect sect defense formation was tough but it couldn’t stand Ye Mo’s powerful attacks. Ye Mo was a formation grand master, every attacked targeted the weak spot of the sect defense formation.

Ye Mo didn’t seem to hear it as countless purple sword rays swept out of Zi Xu.

Illusion Cloud division strike.

The formation was already covered in cracks and now that these countless sword rays attacked, the formation completely cracked apart.

Feng Jiming looked bitterly at this crippled sect defense formation. It has always been them who did this to others, only them shattering other people's sect defense formation but today, the same fate landed upon them. They were a 9 star sect and yet no one dared to say anything about their formation being shattered.

There were thousands of Lightning Cloud Sect sect members behind Feng Jiming and Peng Li. Some of them clenched their fists and fury spewed out of their eyes, they were waiting for an order to charge up together and tear Ye Mo apart.

Feng Jiming suddenly thought, where is the sect leader Wang Chuanhe? He subconsciously asked "martial niece Jianou, where is sect leader Wang?"

The vice sect leader Jiang Jianou suddenly woke up and immediately realized what was going on, he said bitterly "sect leader Wang had left for six days, he said he was going to help out at the demon prison forbidden grounds."

6 days? Ye Mo slaughtered the Pill City truth realisation state peak stage 7 days ago and Wang Chuanhe happened to leave 6 days ago. Almost everyone realized what was going on. The sect leader of a 9 star sect abandoned his sect and ran off on his own.

Peng Li's eyes were red, why didn't he think of this?

"city lord Ye, I started this, you killed my disciple Tian Aofeng, of course I'm going to kill you. Since I'm not a match for you, I'm willing to be killed. I hope you can let go of Lightning Cloud Sect and the thousand inner sect members." Unexpectedly, Tian Ji came out to admit his wrongs.

Ye Mo dazed, this Tian Ji seemed to be quite righteous and hot blooded. Even though he knew he was dead for sure but it was quite significant of him saying this.

But then, Ye Mo realized he was wrong. The Lightning Cloud Sect disciples heard this and all released their magic artefact in fury as though if he attacked, these inner sect members would all charge up.

Looking at Tian Ji's glimmering eyes, he immediately realized Tian Ji's intention. He knew he was dead for sure so he spoke out and thus, he would get the sympathy and support of all the inner sect

members. If he really attacked, then the sect members might attack Ye Mo and he would have a chance to escape in the chaos.

“Tian Ji, you’re harming others and yourself. Now you’ve harmed the entire Lightning Cloud Sect. I, Zhong Wu, said before you’re an idiot. Now I really do seem to be right, you want to bring the entire Lightning Cloud Sect inner sect members to fight with you...” another elder spoke out.

Tian Ji interrupted “since you don’t believe me, I will be sacrifice myself for Lightning Cloud Sect first. Even if I die, I don’t want to see someone break the sect doors of Lightning Cloud Sect. since there is no hot blooded disciple I will be the first...”

Seeing Tian Ji release his magic artefact, those hot blooded Lightning Cloud Sect cultivators charged at Ye Mo. Even Tian Ji was surpassed by them.

He was disaster transformation state level one and clearly he shouldn’t be behind them but he was.

Ye Mo sneered and raised his hands. Countless lightning swords rained down and those nascent soul state, hollow spirit state and a few golden core state cultivators were all killed. They all turned to dust.

Tian Ji thought there would be a few hundred to go up but only tens went up. He overestimated his charisma.

Feng Jiming and Peng Li took in a cold breath, they knew the stories were true. With the power his lightning sword and if Ye Mo’s domain was in great completion, he really could kill 11 truth realisation state cultivators.

Feng Jiming was thinking about how to preserve the Lightning Cloud Sect while Peng Li was thinking about running.

Tian Ji dazed and felt cold suddenly. Before he could react, a cultivation essence giant hand grabbed him.

“qian bei, forgive me...” Tian Ji couldn’t help and said this. immediately, the sect members looked at him in contempt.

He only regretted not killing Ye Mo before he grew.

Ye Mo’s cultivation essence giant hand crushed and Tian Ji turned to nothing.

Chapter 1423: Lightning Cloud Sect annihilated

Seeing all the people Ye Mo killed, Feng Jiming was certain he was no match for Ye Mo and could only hold in his fury and say “you’ve already killed Tian Ji and broken our sect formation, it should be fine right.”

Ye Mo sneered “before, Lightning Cloud Sect truth realisation state cultivator stopped Ji Ling qian bei’s flying ship and killed more than ten people, destroying Ji Ling qian bei’s body and killing my Mo Yue pill king Gu Wenqian, as well as a few disaster transformation state and cauldron filling state, sword valley hollow spirit state elder. Do you think that’s it?”

Hearing this, Feng Jiming knew things wouldn’t resolve today so he sneered and released half a sword calling out “even if Lightning Cloud Sect is annihilated, we will maintain the honor of our sect.”

Seeing this, all the cultivators of Lightning Cloud Sect released their magic artefact. Peng Li knew that he would only have a sliver of chance if Ye Mo was trapped.

Just when Peng Li was about to release his magic artefact, he found the space around him was restricted. Peng Li immediately realized that Ye Mo’s domain was really in great completion.

No wonder the Pill City truth realisation state cultivators were killed, this domain was too scary.

Ye Mo had long disliked Peng LI and attacked him first.

Seeing that Ye Mo aimed him first, Peng Li was scared soulless. He ran his cultivation essence like crazy wanting to break free from Ye Mo's domain.

But his power compared to Ye Mo was too weak. Even if Ye Mo didn't use Zi Xu, he wouldn't be able to escape much less Ye Mo used Zi Xu.

Illusion Cloud Hua Mountain strike, the purple ray flashed and Peng Li couldn't even resist as he watched the purple ray cut into his body.

After Peng Li was killed, the countless magic artefact attacked Ye Mo. However, the battle of cultivators couldn't be made up with numbers. When the difference in power was to a certain extent, numbers were useless.

Although there were a lot of magic artefact attacking Ye Mo, they slowed down in his domain. When Zi Xu hacked at Feng Jiming, countless lightning sword flashed out again into the crowd.

Feng Jiming was truth realisation state level eight and broke free the moment Ye Mo killed Peng Li. He released his domain and his magic artefact attacking Ye Mo.

This was just a broken sword tip, Ye Mo didn't care at first but when it was in front of him, it suddenly released a terrifying pressure.

What was this? he saw a magic artefact he didn't understand and immediately released octagonal cauldron.

Rumble.

Zi Xu and the sword tip collided. However, that sword tip actually didn't get destroyed. It brought a sharp howl releasing more dangerous power. However, Feng Jiming spat blood from the cultivation essence backlash.

However Zi Xu was also stopped by the sword tip.

Feng Jiming didn't retreat and instead took a step forward, he slapped on his head many times. It seemed very funny but Ye Mo noticed that with each slap, Feng Jiming's body thinned down a little and an extra level of lightning appeared on the sword tip.

Feeling this was eerie, Ye Mo decided to dodge it first and then kill Feng Jiming. Watching Ye Mo retreat, Feng Jiming showed an sardonic cruel smile.

Ye Mo retreated and immediately felt things were wrong. Feng Jiming didn't use his domain but his body was slowed.

Ye Mo frowned, seeing the increasingly dense lightning at the sword tip, Ye Mo felt uneasy. Thus, he stopped retreating and hacked at the sword tip with Zi Xu again.

At this moment, Feng Jiming was extremely bony. He yelled again seeing Ye Mo attack the sword tip.

With this, he completely exploded. The cultivators nearby him were all disintegrated. Even the vice sect leader Jiang Jianou didn't escape this fate.

At the same time, a faint glow charged out of his body and into the sword tip. With this, the sword tip suddenly expanded and then completely exploded.

Rumble.

A huge explosion sounded, Ye Mo felt a huge force strike his octagonal cauldron and countless sword tip shards split out. However, the instantly formed a lightning dragon.

The roar of the dragon sounded quite similar to Feng Jiming's voice.

Rumble.

The lightning dragon rammed the octagonal cauldron with more force than the self-destruct before.

Even Ye Mo couldn't take this terrifying ram. The octagonal cauldron was smashed flying but the lightning dragon turned into sparks and most of them hit Ye Mo.

Ye Mo almost spat some blood but his powerful god state body refinement allowed him to calm his body in two seconds. Then, he took back his octagonal cauldron. The sword tip had turned into nothing, it made Ye Mo a little messy but it didn't injure him.

If Feng Jiming was alive, he would never believe Ye Mo was completely fine but he couldn't see this anymore.

Ye Mo frowned, he really didn't understand. The difference between him and Feng Jiming was huge. Even if a few Feng Jiming attacked him together, he could kill them but what was the broken sword?

Ye Mo didn't keep thinking and looked outside, two figures appeared before Ye Mo.

"are you bewildered that Feng Jiming's is far from a match to you but his self destruction almost injured you?" a crisp voice sounded.

"Ye Mo greet Shan qian bei, martial sister Lin. Wan bei don't understand indeed, please enlighten me Shan qian bei." Ye Mo saluted with his fists it was Clear Dream Mosque's Shan Bingfeng and her disciple Ling Xiaoshuang.

In such a short time, Ling Xiaoshuang was hollow spirit state level one, her cultivation speed was faster than Ning Qingxue and just below Luo Ying.

"Ye Mo I saw right indeed, the Soar Into Sky tablet and the annihilation divine damnation, now, you can challenge a 9 star sect by yourself. Sigh, you've indeed grown so quickly." Shan Bingfeng exclaimed.

"wan bei thank qian bei for helping." Ye Mo said politely. If it wasn't for her, he wouldn't go to the ice god forbidden grounds and would lose out on some fortune.

Shan Bingfeng smiled "it's your great fortune and perseverance, I just helped a little."

Then, Shan Bingfeng said “city lord Ye, on my account can you let go of the rest of the people?”

Ye Mo already knew she probably came here for this. Ye Mo didn’t mind. With his lightning sword attacks and Feng Jiming’s self destruction, there were only about two three hundred people left.

Seeing that all cultivators cauldron filling state and above were killed, Ye Mo didn’t want to disagree with her so he nodded “sure, but the Lightning Cloud Sect must be disbanded from now on.”

Chapter 1424: Ancient forbidden artefact

Shan Bingfeng nodded with approval and said to Ye Mo “then why don’t you say it yourself.”

Ye Mo knew what she meant, she wanted the Lightning Cloud Sect disciples to know that Ye Mo let them go not her.

Ye Mo didn’t reject this and said to the Lightning Cloud Sect sect members “I won’t speak about the conflicts between Lightning Cloud Sect and me. I believe you know that from today, Lightning Cloud Sect will be erased from South Peace State. those who want to leave Lightning Cloud Sect and leave, those who don’t can stay.”

Then, Ye Mo opened his trap formation. This meant that those who weren’t Lightning Cloud Sect sect members anymore could leave and those who didn’t want to would be killed.

With this, almost all Lightning Cloud Sect sect members quickly scurried off. A few cultivators hesitated and also retreated. More cultivators knew that their sect leader had already ran off. It was dumb of them to still stay here to die.

When almost everyone left, Ye Mo found one person stayed. Just when Ye Mo was about to kill him, that cultivator came up to Shan Bingfeng and bowed “Fang Zhongshi thank Shan qian bei for saving my life, greet martial sister Xiaoshuang.”

Ling Xiaoshuang also greeted “you’re too polite martial brother Fang.”

Ye Mo knew of this person and he did seem very charismatic. Even though his sect was annihilated he seemed very calm but how powerful was Ye Mo's spirit sense. he could feel the extreme anger in his heart.

Shan Bingfeng nodded "martial niece Fang is a dragon amongst men, now that Lightning Cloud Sect is no more, take care of yourself."

Fang ZHongshi bowed to her again and then saluted with his fists before disappearing.

Ye Mo knew what he meant, he would come back for revenge but Ye Mo wasn't scared of him. However, he didn't like trouble either, if he didn't agree to Shan Bingfeng, he would've killed this Fang Zhongshi.

Shan Bingfeng seem to know what Ye Mo thought and smiled "Fang ZHongshi is talented but compared to city lord Ye, he's still a little lacking..."

Ye Mo smiled plainly and didn't answer. Even if Fang Zhongshi came for revenge, he wouldn't care.

Ling Xiaoshuang saw Ye Mo's plain smile and was a little angry. Thinking about what happened at the Truth Fall city, she immediately said "martial brother Fang is extremely talented but he went into the wrong sect. the Lightning Cloud Sect isn't suited to his survival. Now that he left the Lightning Cloud Sect, it 's a good thing for him. I look favourably to him, he's mature and not arrogant, he's also very polite. In time, I believe he might be on par with city lord Ye."

"Xiaoshuang..." Shan Bingfeng reproached.

"master I know what you mean, city lord Ye is extremely excellent but I believe he's a little lacking compared to martial brother Fang on maturity.

It sounded as though she was much more powerful than Ye Mo and talking to him in the tone of a qian bei.

Ye Mo knew she was still annoyed at him tricking her. But would a truth realisation state cultivator compare himself with a mere hollow spirit state cultivator? So he completely ignored Ling Xiaoshuang's words.

"Xiaoshuang don't say that. City lord Ye is truth realisation state power and a city lord, how could Fang ZHongshi compare with him in maturity. You must not say this again, city lord Ye is magnanimous and would care about it." she felt her disciple was behaving strangely today. It seemed like she was reproaching Ling Xiaoshuang but was instead trying to excuse her.

Ling Xiaoshuang wasn't like this and was very soft but when she saw Ye Mo's careless attitude, she didn't know why she was annoyed and said again "I know master, maybe my view is wrong. Perhaps it's to do with the words city lord Ye said when I first saw him. I'll try to change my view."

Shan Bingfeng looked at her disciple in confusion "what words?"

She immediately mimicked Ye Mo's voice "such a pretty nun.... You're so pretty, sister, I'm Ning Xiaoma. Oh, you like this material, it's fine, I'll buy it for you... sister don't be in a rush, let's go to dao discussion meeting together..."

But then she paused "but even now I don't see him buying that material for me."

Shan Bingfeng regretted letting her disciple say these words, this didn't match city lord Ye's great image. This wasn't the city lord Ye that slaughtered the 11 truth realisation states of Pill City and then annihilated Lightning Cloud Sect. this was more like a lewd.

Then Ling Xiaoshuang bowed to Ye Mo "I really don't dare to believe that Ning Xiaoma is city lord Ye. Later did I know city lord Ye has a wife. Sigh, the first impression really ruins it."

Shan Bingfeng didn't know what to say but Ye Mo smiled plainly and didn't just ignore Ling Xiaoshuang. He said to Shan Bingfeng "Shan qian bei, please move back a little."

Shan Bingfeng didn't know what Ye Mo was doing and pulled her disciple to the side.

Ye Mo flew up above Lightning Cloud Sect and threw down formation flags, after a few thousand formation flags, Ye Mo weaved hand signs. There was a rumbling sound that grew increasingly louder until it could be heard a few hundred kilometers away.

Suddenly, the main peak of Lightning Cloud Mountain moved, with a rumble, it disappeared. Then, the 9 huge peaks of Lightning Cloud Mountain were swept away.

In such a short time, the Lightning Cloud Mountain that was a few hundred kilometers of area was moved away using formation by Ye Mo.

Ling Xiaoshuang and Shan Bingfeng looked at this with their mouths wide open. Moving mountains and seas, just how much power was needed. Ye Mo reached this level?

With even the mountain been taken by Ye Mo, Lightning Cloud Sect completely disappeared from South Peace State.

Mo Yue 2000, may 17th Lightning Cloud Sect annihilated.

....

Ye Mo put the main peak and the 9 side peaks in his golden page world before coming back to Shan Bingfeng and saluted with his fists "wan bei will leave now, qian bei can go to Mo Yue City when you're free."

Shan Bingfeng reacted and sighed "no wonder the 11 truth realisation state cultivators of Pill City including elder Shui Ye were annihilated by city lord Ye. City lord Ye's power reached such an extent."

Seeing that Ye Mo didn't want to stay, Shan Bingfeng suddenly said "city lord Ye, weren't you wondering why Feng Jiming's sword tip was that powerful?"

Now that she brought it up, Ye Mo immediately asked "please enlighten me Shan qian bei."

Shan Bingfeng nodded “actually I see city lord Ye surviving that explosion unscathed, I suspect city lord Ye to be a body refinement cultivator and has reached an extremely high state, even the three god states...”

“how is that possible?” Ling Xiaoshuang said in shock.

Shan Bingfeng nodded “I believe this is impossible too because even in the disaster state, you can’t be unscathed in the explosion of ancient forbidden artefacts unless you’re god state. but I know that’s more impossible. No one on Luo Yue continent can reach god state, plus city lord Ye is so young....”

Ye Mo said in shock “ancient forbidden artefact?”

Chapter 1425: Nan Chan Tian

Shan Bingfeng answered “that’s right, Feng Jiming detonated an ancient forbidden artefact. The detonation requires oneself’s essence blood and essence spirit. No matter how powerful your defense magic artefact is, it would be blasted much less city lord Ye not using any magic artefact. Of course, this is due to him only detonating a small sword tip, if it was a complete top grade forbidden artefact, even hollow immortal would be heavily injured.”

Then Shan Bingfeng looked at Ye Mo in confusion clearly not understanding how he avoided the detonation. She didn’t believe that Ye Mo was god state so she thought Ye Mo had some secret technique or extreme grade armors.

Ye Mo didn’t explain it.

Seeing this, Shan Bingfeng could only say “ancient forbidden artefacts as the magic artefact of ancient powerful beings. These magic artefacts are at least extreme grade cultivation artefact or some half immortal artefact or low grade immortal artefact. Before these powerful beings died, they would insert a sliver of their soul forcefully into their magic artefact. Usually, there are very few cultivators who can use that to possess and rebirth. The magic artefact with this sliver of soul forms a violent will in time. The longer the time, the more violent it is. This is forbidden artefact. The cultivators who acquire such magic artefact can use their essence blood and essence spirit to activate this violence to blast the enemy. Rarely can anyone survive this.

So this was it, Ye Mo didn't care that much after realizing what it was.

Seeing that Ye Mo wanted to go again, Shan Bingfeng suddenly asked "city lord Ye are you going to Infinity Sect?"

Ye Mo nodded "that's right, after that I'm going to demon prison forbidden grounds."

Shan Bingfeng nodded "okay, I'm planning to take Ling Xiaoshuang to demon prison forbidden grounds, since city lord Ye wants to go then lets go together."

Ye Mo frowned, he was hesitant. Clearly Shan Bingfeng didn't like what he was going to do at Infinity Sect. if she went again, would he have to give face to her. He let go of the Lightning Cloud Sect disciples because the sect was annihilated and they were of no threat but Infinity Sect was different. Infinity Sect was more powerful than Lightning Cloud Sect.

Seeing this, Shan Bingfeng said "if I'm not wrong, the moment you annihilated Lightning Cloud Sect, Infinity Sect has already gotten the news. Although they're more powerful than Lightning Cloud Sect, I believe they have abandoned sect already."

Ye Mo's heart sunk, he forgot to think about Shan Bingfeng. If she didn't come, he would've annihilated all the Lightning Cloud Sect sect members and then go Infinity Sect. even if someone tried to send out news it would be stopped by his formation. But because she came and he let go of a lot of Lightning Cloud Sect sect members, the Infinity Sect would've long got the news.

Ye Mo's face looked very bad and Shan Bingfeng said apologetically "Ye Mo, there is disaster everywhere in South Peace State. the demon prison forbidden grounds is just a start, if we keep fighting amongst ourselves, South Peace State will never have peace. You've already annihilated Lightning Cloud Sect and the Infinity Sect is more powerful. If they are annihilated too, there would be less cultivators to fight for the South Peace State. when the disaster falls, the South Peace State would be in danger."

Ye Mo sighed, he stood different grounds to Shan Bingfeng. She was very selfless like old man Kong Ye.

Although Ye Mo was really annoyed with Shan Bingfeng not minding her own business, he could only let it go. If he saw those truth realisation states, he would go kill them one by one especially that Yang Feicheng and He Lin.

Even if Infinity Sect moved away or dissembled he was going to go check. Seeing Ye Mo still head towards Infinity Sect, Shan Bingfeng sighed. She knew Ye Mo had a some discomfort towards her now.

When the three reached Infinity Sect, one night had passed and it was slightly day time.

Just as Shan Bingfeng guessed, other than the few thousand outer sect members and a few inner sect members, everyone left. There was only the empty sect and the two powerful words at the gate, Infinity Sect.

“this was left behind by the first sect leader of Infinity Sect, Jiu Infinity. After he immortal ascension, these words became symbolic of Infinity Sect.” Shan Bingfeng said.

Ye Mo knew that Shan Bingfeng knew he would definitely erase the Infinity Sect mountains so she said that. She knew there was no way Infinity Sect would be able to keep their sect mountain.

Ye Mo didn't have the mood to kill the remaining sect members, he wasn't a murderous demon. He just announced Infinity Sect was erased and started setting up formation to take the mountains and spirit range.

The huge peak with the words Infinity Sect was completely pulverized, rubbles splashed everywhere. Ye Mo knew that the Infinity Sect didn't move their sect mountain so they could come back in the future.

A sect without their own sect mountain is in fact dead. Even if it wasn't, it would only be a matter of time before they dissipated in the river of time.

Mo Yue 2000, may 18th, South Peace State 9 star sect Infinity Sect was annihilated.

....

The instant he annihilated their mountain, Ye Mo's mind opened up. Even if he didn't kill Yang Feichen and He Lin so what? if he sees them in the future, he can kill them at anytime. Even if he doesn't, there would be Gan Liang from sword valley. His talent was very absurd, although he wasn't hollow spirit state but he doesn't fear hollow spirit state level one cultivators.

The Infinity Sect annihilated sword valley, when Gan Liang becomes powerful, he won't let Yang Feichen go.

Seeing that he couldn't leave behind the two, Ye Mo just invited them into Blue Moon. The demon prisoide forbidden grounds wasn't close, it would waste a few days if they went Shan Bingfeng's way.

The extreme velocity o fbm even shocked Shan Bingfeng. Ye Mo's flying magic artefact was the fastest she had seen.

The biggest state on Luo Yue was West Extreme State with the least amount of cultivators, the second biggest was South Peace State. it wasn't much than West Extreme State however.

The largest area in South Peace State was Nan Chan tian, it was boundless and no different to the Heartless Sea to ordinary cultivators. However to Ye Mo, Nan CHan Tian won't even splash a drop if thrown in the Heartless Sea.

However it was indeed very big, just small relative to the Heartless Sea.

This place was always bleak, there were not only forests lakes and even small seas. There were also deserts, mountains and swamps. It could be said to be a complete word. However most places in this world, sun light would never be able to shine in.

Many cultivators would come here in search of fortune, most of the high level spirit herb of South Peace State came from here.

There was abundant resources in Nan Chan Tian but it was more dangerous than Heartless Sea. this place was always covered in mist, spirit beast ravaged the place. there were all sorts of natural illusion and attack formations.

Many low level cultivators formed teams to go in.

The demon prison forbidden grounds was in the depth of Nan Chan Tian, in the Nan Chan desert.

“Ye Mo, sorry.” Seeing Ye Mo recover his mood, Shan Bingfeng apologized again.

Ye Mo smiled “Shan qian bei has helped me, plus I know what qian bei means. No need to say sorry again. The people I want to kill I can still kill even if they leave Infinity Sect.”

Shan Bingfeng sighed “Ye Mo don’t mention it. although I directed you to go ice god forbidden grounds, the spirit marrow you gave Ling Xiaoshuang was extremely high quality. it’s definitely not the place I pointed you to go.”

Chapter 1426: Immortal demon crystal

Ye Mo just wanted to speak when his face sunk. He sped up Blue Moon instantly and in the blink of an eye, Blue Moon appeared next to three cultivators who were fighting.

The three cultivators just saw a blue light flash and a flying magic artefact appeared before them.

“Gu Wei what is going on?” Gu Wei went with him to the Truth Fall Palace, he was a cultivator of the Han Liang empire. he gave Gu Wei the pill for him to reach nascent soul state.

Gu Wei served at Mo Yue City in order to thank Ye Mo. He was a helpful assistant of Mo Yue City. This time, he was taken to the demon prison forbidden grounds by the Silver Moon pill king. Why was he here and being hunted.

Gu Wei was already nascent soul state tertiary stage, but his talent was very average. What was going on?

“City lord Ye, it’s you... you’re back...” Gu Wei immediately recognized Ye Mo and was overjoyed. It seemed now that not only was his life secured but his mission was also complete.

Ye Mo took out a pill and gave to Gu Wei “recover first, you can tell me slowly.”

The two cultivators hunting Gu Wei saw Ye Mo and them come and immediately knew things were over. They haven’t seen Ye Mo but they’ve heard of his name. they were only nascent soul state tertiary stages. With City lord Ye’s power of slaughtering hollow spirit state easily and even matching body condensation state, they were nothing for him.

Seeing those two about to go, Ye Mo said coldly “do you think you two can go?”

The two shivered and didn’t dare to move.

Gu Wei recovered and gave a jade slip to Ye Mo “silver moon pill king qian bei told me to give this to city lord Ning.”

Ye Mo nodded and took the jade slip but didn’t look.

“what’s with these two?” Ye Mo scanned the two pale nascent soul state cultivators.

“they know I have a lot of immortal demon crystals so they want to kill me and rob it.” Gu Wei said.

Ye Mo frowned, he has heard of immortal crystals and demon crystals but never immortal demon crystals. Even Shan Bingfeng looked at Gu Wei in confusion.

Gu Wei explained “after guan tian pill king was infected by demon chi, silver moon pill king was very worried. He gave Mo Yue City matters over to elder Lin and then silver moon pill king took me and another elder and rushed here.”

“when we went demon prison forbidden grounds, there wasn’t teleportation formation outside Nan Chan Tian. Now, there is a teleportation formation from demon prison forbidden grounds and outside Nan Chan Tian. I came from the teleportation formation.”

Ye Mo knew elder Lin, he was a truth realisation state qian bei loyal to Silver Moon pill king and Mo Yue City. He was the only truth realisation state elder who didn't agree to Wuming 6 strikes. Ye Mo even gave him some pills and this elder was in solitary cultivation trying to reach truth realisation state tertiary stage.

"there's teleportation formation outside Nan CHan Tian?" Shan Bingfeng asked in confusion.

"yes, it was just built all because of the appearance of immortal demon crystals." Gu Wei hadn't seen Shan Bingfeng but he recognised Ling Xiaoshuang.

"what is immortal demon crystals?" Ling Xiaoshuang asked.

Gu Wei took out 7 jade boxes and passed it to Ye Mo "these are immortal demon crystals, silver moon pill king told me to bring it to the two city lord wives. Because we've found means to deal with the demonic spirits there, many people got some demon crystals. These demon crystals can be made into pills. The pills made with these crystals are much better. Some cultivators wanted more demon crystals so they went further inside the forbidden grounds. In there, they found a demon well. If they killed the demonic spirits they would get these immortal demon crystals.

Those cultivators soon found that these immortal demon crystals contained immortal spirit chi. It's much better than extreme grade spirit stones for cultivation. Many cultivators broke through their bottle neck with the immortal demon crystals. One disaster transformation state peak stage even used it to break through to truth realisation state."

Ye Mo was shook and immediately asked "the reason your power grew so much is because of these immortal demon crystals?"

Gu Wei nodded "yes, Silver Moon pill king qian bei gave two to me. I reached nascent soul state level seven from nascent soul state level three. The qian bei told me to bring these 7 back to Mo Yue City. They knew I have it so they followed me from the forbidden grounds to here wanting to rob it from me."

Ye Mo sneered and threw over two balls of flame and the two nascent soul state cultivators were completely disintegrated.

Gu Wei knew Ye Mo was powerful but only today did he have a direct view.

Ye Mo picked a crystal up and checked it with his cultivation essence “you’re foundation is good and thus you could reach nascent soul state level seven fast but you can’t give up your foundation. Using this method of speeding up cultivation has its drawbacks.”

If one only cared about cultivation speed, his mind state wouldn’t be able to keep up. Eventually he might die due to heart demon. Ye Mo had the bitter bamboo so he didn’t have to problem.

Gu Wei quickly nodded “yes city lord, silver moon pill king told me this too.”

Ye Mo didn’t speak but he was very shook. This wasn’t some immortal demon crystal, it was an ordinary demonic crystal containing a sliver of immortal spirit chi.

There could only be one explanation for this, those demonic spirits have been staying at a place with immortal crystals and thus the immortal spirit chi was sucked into their demon crystal.

Realizing this, Ye Mo immediately thought of the space seal in West Extreme State sand river. Was demon prison forbidden grounds, the seal of immortal ascension for South Peace State cultivators?

Thinking about this, Ye Mo almost screamed with excitement. If he found another space seal with all those immortal crystals, he would definitely get more than 10 immortal crystals unlike last time.

Even if he just found one seal flag, he would take all the immortal crystals from it. without immortal crystals it was too hard for him to break through now.

Seeing Ye Mo not talk, Gu Wei said again “there aren’t a lot of demonic spirits inside as compared to the entrance to the forbidden grounds. Guan Tian pill king was poisoned by demonic chi. Silver moon pill king and other cultivators went into the depth of the forbidden grounds. Silver moon pill king said he would search for heaven demon mushroom, only that could save Guan Tian pill king.”

Ye Mo nodded, he knew the heaven demon mushroom, it grew in a place with extremely dense demon chi. It was very rare level nine spirit herb.

Then, Ye Mo scanned with spirit sense on the jade slip Yue Qichao gave him.

“Ye Mo, I got news from my Pill City friends that Mo Yue city lord Liu wants to form an alliance with Pill City. Mo Yue City must not form alliance with Pill City. I’m going to save Shen Guanqing so I can’t make it back. If elder Wuming insists on the alliance, city lord Ning can tell elder Lin to protect Mo Yue lake. Wuming spoils his disciple but he’s not a bad person. He won’t touch Mo Yue City. We can decide the rest of the things when we come back. Immortal demon crystals have immortal spirit chi, cultivation is extremely fast with it. but that would also cause unstable foundation, be careful when using it, Yue Qichao.”

So Yue Qichao knew but he couldn’t make it back on time due to Shen Guanqing.

“Gu Wei, are you going back to Mo Yue City or coming with me.” Ye Mo asked.

GU Wei answered “I’ve already cultivated too fast. I need to go back to consolidate my state, I won’t go.” Ye Mo gave a few pills to him and a top grade flying cultivation artefact before bidding him farewell.

Chapter 1427: Forbidden grounds entrance

On the outskirts of Nan CHan Tian, Ye Mo indeed saw a teleportation formation. There were two cauldron filling state cultivators guarding it. they recognized Shan Bingfeng, and seeing her come with Ling Xiaoshuang, they immediately greeted. When the two knew Ye Mo was city lord of Mo Yue City, they were very hospital. From how they called him, Ye Mo knew they cared more about his pill king status. Clearly, news of him killing truth realisation states at Mo Yue City and annihilating two 9 star sects didn’t reach here yet.

Just when they were about to go on teleportation formation, another two dashing lights came. Two figures landed, one of them was truth realisation state level three just like Ye Mo and another was truth realisation state level six.

Shan Bingfeng looked at the two wondering since when were there so many truth realisation state cultivators in South Peace State.

The two didn't care seeing that both Ye Mo and Shan Bingfeng were truth realisation state but they were a little surprised seeing Ye Mo was this young and a truth realisation state. the truth realisation state level three said to the two cauldron filling states "open the teleportation formation, we're going to demon prison forbidden grounds."

"yes qian bei." One quickly replied and opened the teleportation formation.

The two went in first. Ye Mo and Shan Bingfeng didn't mind but Ling Xiaoshuang frowned "master why don't the two know you?"

Ling Xiaoshuang thought that although her master was truth realisation state primary stage, she was renowned in the world.

"these two are probably not from South Peace State." Shan Bingfeng said.

Shan Bingfeng looked at Ye Mo and asked "Ye Mo can you tell who these two are?"

Ling Xiaoshuang said that out of politeness. Ye Mo was powerful but he was too young. a cultivator whom even she didn't know, Ye Mo probably wouldn't know either.

However, Ye Mo smiled "they aren't from South Peace State indeed, they're from the Heartless Sea."

Ye Mo was thinking something else. If even the Heartless Sea cultivators got news of this, who knows how many more cultivators would be coming.

"huh, how do you know?" Ling Xiaoshuang asked.

Ye Mo smiled but didn't answer. He just went on the teleportation formation. He had dominated the Heartless Sea, the Heartless Sea cultivators all had a dense sea chi. Other people can't feel it but he immediately noticed.

Seeing Ye Mo ignore him, Ling Xiaoshuang didn't feel happy but could only go on the teleportation formation.

....

"such a huge barren desert..." Ling Xiaoshuang exclaimed.

It was boundless, there was not a person to be seen here. Even the two truth realisation state cultivators who just came disappeared.

Ye Mo felt completely different. Compared to the sand river of West Extreme State, this was heaven. There was a bleak sensation entering sand river as though it was filled with unseen bones and killing intent.

It was dark here and even the rocks were grey but Ye Mo felt it wasn't as shocking and filled with killing intent. But Ye Mo also knew that it was only the Nan Chan desert here, there was still some distance to the demon prison forbidden grounds.

The visibility range was very low, even spirit sense was greatly affected.

This place was also lifeless and monotone.

Despite knowing there was no danger here and she was hollow spirit state, Ling Xiaoshuang still subconsciously moved closer to Shan Bingfeng.

Shan Bingfeng had a calm expression, this place couldn't startle her and Ye Mo could immediately tell that she had been to quite a lot of dangerous places herself.

This teleportation formation was built on the border of Nan Chan desert, there was still tens of thousands of miles from the forbidden grounds. This distance wasn't far for them but they didn't go very fast. Ye Mo even slowed down as he wanted to see if there were those spirits in here two. Even so, four hours later, they were at the outskirts of the demon prison forbidden grounds. They didn't encounter any danger on the way.

This was the first time Ye Mo saw the entrance to the forbidden grounds. The desert was already grey and dim but here Ye Mo realized the condition in the desert was much better than here. This place was truly dark. Without spirit sense, the eyes would only be able to see a dark hole.

Even though Ye Mo's eyes were much better than others, he could only see a blurry shadow.

"so black..." Ling Xiaoshuang said and Ye Mo suddenly shot out a fireball.

After a scream, the darkness returned to being silent. Ye Mo picked up a crystal, it was very bright, hard to imagine it was in that black shadow.

"this is demon spirit..." Ling Xiaoshuang said in a shiver. She didn't see nothing with her eyes nor spirit sense and Ye Mo already killed a demon spirit. If these demonic spirits could really infect the minds of cultivators, wouldn't she have fallen just then?

Shan Bingfeng nodded "that's right, if Ye Mo didn't kill that demonic spirit you would've been possess already."

Shan Bingfeng said that but she didn't really mean it as her spirit sense scanned that demonic spirit too.

Ye Mo breathed easy instead. This place wasn't as dangerous as Lin Zhishen said to be. The demonic spirit here was far weaker compared to the evil spirits of sand river. They weren't on the same level. Even if Ling Xiaoshuang was careful, she would be able to annihilate it with hollow spirit state inner fire.

He also realized what was going on here, the demon spirits just hid in the darkness.

"there's a formation around here, probably to stop the demonic spirits from going out." Ye Mo suddenly said. If all the demonic spirits were really on this caliber, they were of no threat. Perhaps even the sun could melt them.

Shan Bingfeng also noticed the formation and nodded "yes, perhaps I'm thinking too much. Although there's demonic chi spilling but it doesn't seem to be too serious."

Ye Mo frowned, demon prison forbidden grounds, the most dangerous forbidden grounds of South Peace State, if this was it then it didn't deserve that title.

"master, do we go in now?" Ling Xiaoshuang asked.

Shan Bingfeng looked at Ye Mo and asked "what do you think?"

Ye Mo thought for a moment and said "I'm going to set up another formation outside. I don't feel this formation is enough. If something happens it would be too late."

No matter what, Ye Mo didn't want something to happen to South Peace State. Mo Yue City was at South Peace State too. Since he felt there was something wrong with this forbidden grounds, Ye Mo felt he needed to set up another trap and kill formation.

"you're saying things aren't as simple as they seem?" Shan Bingfeng immediately realized Ye Mo's intention.

"it's probably so." Ye Mo nodded.

Chapter 1428: Story time in a small city

Seeing Ye Mo throw down an extreme grade spirit range for formation, even Shan Bingfeng was at a loss for words. Ye Mo was wealthy and this willing to give. Even a 9 star sect might not have extreme grade spirit range in South Peace State. her Clear Dream Mosque only had one extreme grade spirit range for the entire sect and that was left behind by qian bei.

The reason Ye Mo was this generous was one because his golden page world was filled with extreme grade spirit range, second, top grade spirit range were trash to Suo Anshan so he had less of that.

Another reason was that Ye Mo was scared of the evil spirits coming out of the forbidden grounds. He knew all too well the power of those evil spirits. Truth realisation state cultivators cant even see them

with their spirit sense, even if they could, they wouldn't be able to kill those evil spirits. Who knew if there were evil spirits here.

Ye Mo might not have her noble intention but he did things more materialistically than her. If evil spirits were in here, this shabby formation wouldn't be enough to stop them from coming out. If these things went out of Nan Chan Tian into South Peace State, it would be a disaster.

If the entire South Peace State has fallen, how could Mo Yue City exist alone?

Ye Mo knew that chance was very rare, even in the West Extreme State, those evil spirits could only exist in sand river meaning those demonic spirits probably couldn't leave here. But it was better to be safe than sorry.

Shan Bingfeng's view of Ye Mo changed again. Before she said that Ye Mo was either the root of chaos in the cultivation realm or the savior of the cultivation realm. so many times, she tried to help Ye Mo and urge Clear Dream Mosque to help Ye Mo.

She was good at seeing what others thought. When she first saw Ye Mo, Ye Mo was a little weaker at that time and his mind had flaws. She immediately saw what Ye Mo thought. She was unhappy that Ye Mo had those dirty thoughts the first time he saw her but after that she couldn't see Ye Mo's mind again.

Seeing Ye Mo take out extreme grade spirit range for formation she realized she knew far too little about Ye Mo.

This wasn't a simple formation, only on the third day did this level nine trap and attack formation slowly show.

More and more cultivators came here, some cultivators who knew Shan Bingfeng and Ling Xiaoshuang only greeted them and just went straight in.

On the fourth day, Ye Mo's formation completely closed and with a crack, the spirit chi that was seeping out completely disappeared. There was actually a sliver of light in the darkness of the demon prison forbidden grounds. In the center of the light, a pitch black entrance appeared before them.

“martial brother Ye, you used extreme grade spirit range to set the formation here. What if the people who came here found out and tried to take it.” Ling Xiaoshuang asked.

Ye Mo smiled “they won’t.”

Ye Mo really wasn’t worried at all. Even five or six truth realisation state cultivators won’t necessarily be able to break this formation. Those lower than truth realisation state would be instantly killed.

Those cultivators who can reach truth realisation state weren’t idiots. Ye Mo didn’t believe they couldn’t see the use of this formation. It didn’t block cultivators going in at all and only trapped those demonic spirits without a physical body. If there really was some truth realisation state cultivator who tried to break the formation, Ye Mo would know. He left a spirit sense mark on this formation. He would come out and kill them.

More and more cultivators came, there were even 7 star and 6 star cultivators here as well as many solo cultivator.

Ye Mo didn’t use stealth means for his formation so many people saw Ye Mo set up the trap and attack formation. But they all knew the formation probably wasn’t for show so no one touched it.

At this moment, the three also went into the forbidden grounds through the entrance.

...

Ouqiao city, this was a very small city in South Peace State. it was mostly inhabited by mortals. There were some cultivators but they were very low level.

In a restaurant, some cultivators were chatting away.

“did you know? Mo Yue City city lord come back to the city dominantly. The Pill City truth realisation state cultivators were showing off there, 20 to 30 truth realisation state cultivators trapped Ye Mo. Guess what happened?” a drunk skinny male cultivator chatted.

This news was very shocking and many other cultivators immediately stopped talking. Someone even asked desperately what happened.

This skinny cultivator drank the entire bottle of wine and then said “that city lord Ye is extremely powerful, it’s said that a few of the Pill City elders even had a few low grade immortal artefact but in the eyes of city lord Ye, there were clowns. City lord Ye didn’t even use magic artefact and he crushed all the truth realisation state peak stage using low grade immortal artefact. Hehe, that power...”

“this, isn’t possible, truth realisation state peak stage can be crushed with cultivation essence giant hand? One that was low grade immortal artefact? Even if the Pill City has that many truth realisation state peak stage qian bei, they wouldn’t be able to have that many low immortal artefact.” Someone asked.

The male cultivator realized he was caught out and quickly slammed the table “waiter, bring some more wine.”

Then he said to that cultivator “hehe, impossible, that’s because you don’t know the power of cultivation essence giant hand, can you use cultivation essence giant hand?...”

That cultivator’s face burst red but he still argued “Pill City cultivators were also truth realisation state, they also have cultivation essence giant hand.”

The male cultivator said in contempt “so what if they do? can their cultivation essence giant hand compare with city lord Ye? City lord is also a pill king, I heard he’s level 10 pill king...”

“the highest level of pill king is level nine?” someone else asked quietly.

The man said nonchalantly “then level nine, I can’t remember too clearly. At the time, I only saw sword chi ravaging the dimensional fabric. That battle was heavenly shocking...”

Another green robed beautiful female cultivator sitting in one corner showed surprise and joy hearing this. just when she wanted to ask more, another old man said “this friend is telling the truth but it’s too

exaggerated. According to what I've heard, the Pill City truth realisation state elders wanted to combine with Mo Yue City but city lord Ye happened to get back before then."

"then what happened?" the green robed girl asked. She felt this old man was more reliable.

The old man nodded "the Pill City had 10 truth realisation state cultivators and they threatened city lord Ye. In his anger, city lord Ye crushed a truth realisation state level one with cultivation essence giant hand."

There were exclams of shock everywhere.

The old man continued "then, one Pill City elder sent a distress signal and the nearby Pill City elder Shui Ye qian bei came too. The Pill City truth realisation state thought they had won for sure but even Shui Ye with low grade immortal artefact was no match for Ye Mo. At this moment, Pill City truth realisation state wanted to grab city lord Ye's family and threaten him, due to this city lord Ye was completely furious."

The green robed woman's fists were clenched pale and her face was very worried.

"city lord Ye trapped Shui Ye with formation and then used lightning element magic to kill the remaining 9 truth realisation states. The force of that lightning, everyone who saw it were all astounded. When SHui Ye broke free, he was also killed. Then, the original vice city lord Liu Oulan and his master Wuming 6 strikes left Mo Yue City. City lord Ye didn't kill the two on silver moon pill king's account."

Hearing this, the green robed female cultivator felt assured.

Chapter 1429: A man should live like this

Someone else asked quietly "then the Lightning Cloud Sect and Infinity Sect all have enmity with city lord Ye. Would they seal sects again now?"

"seal sect, they probably don't have a chance to seal sect." another sneer sounded.

The old man nodded “indeed.”

“what’s going on?” the skinner man asked. If he knows this, he can exaggerate it somewhere else.

The old man said “because after city lord Ye rebuilt Mo Yue City formation, he immediately went to Lightning Cloud Sect. even the Lightning Cloud mountain was removed. On the next day, city lord Ye stamped the Infinity Sect. hehe, there won’t be Lightning Cloud Sect and Infinity Sect in the South Peace State from now on.”

“a man should live like this...” the man sneering before said. He clearly knew this but after the old man finished, he still slammed the table and drank his cup clean.

“city lord Ye killed 11 Pill City truth realisation state elders, did the Pill City not get revenge?” one foundation establishment state primary stage female cultivator asked.

The cultivator sitting on the same table with her asked “do you think the Pill City is same Pill City as before? at its peak, it had even 100 truth realisation state cultivators, after multiple events and now silver moon and guan tian pill king leaving Pill City, the Pill City truth realisation state qian bei have split off. They would be lucky if there were 20 left behind. This time, city lord Ye just killed 11, hehe...”

The sneering man continued “the Pill City is lucky if city lord Ye didn’t go find trouble with him. How would they dare to go to Mo Yue City? I also heard that city lord Ye said if the Pill City didn’t behave, he would erase them...”

The blood of the cultivators boiled, as though if they worked hard on cultivation, they would be able to catch up to Ye Mo’s level one day.

“hero, he’s a hero, if I, Li Xidao, gets to see the face of such hero, I would be very satisfied.” The male cultivator sighed.

The old man smiled “friend, it’s not hard for you to see city lord Ye.”

‘you have a way?’ the male cultivator clearly admired Ye Mo greatly and asked in surprise and joy.

The old man nodded “the demon prison forbidden grounds demon chi have spilled, Mo Yue City Guan Tian pill king went to help Snow Demon pill but was infect by the demonic chi instead. Silver Moon pill king went to help him and thus the incident at Mo Yue City occurred. After city lord Ye annihilated Infinity Sect, he immediately went towards demonic prison forbidden grounds. It’s said that there’s immortal demon crystals there and many cultivators went there in serach of that. If you go there now friend, you might be able to see city lord Ye.”

“what is immortal demon crystals?” someone asked immediately.

Suddenly, there was some rustling downstairs and moments later, one male and female cultivator charged up the second floor.

The green robed woman saw the two and looked joyful. She got up but before she could talk, another golden core state level seven charged up to second floor and instantly stopped the two.

“two foundation establishment state insects dare to escape from me...” then, he reached out with his hand wanting to grab both of them.

The two foundation establishment state knew there was nothing they could do against golden core state cultivators so they closed their eyes and awaited death.

Golden core state was the highest level in this small restaurant. No one dared to say a thing to stop this golden core state. someone even recognized who the golden core state was.

At this moment, sword light flashed and splurge blood splashed out.

Half an arm fell onto the ground.

No one expected someone to help at this moment.

The golden core state held his broken arm with a pale face and ate a few pills. She stared at the green robed female cultivator and asked “qian bei why did you cut my arm? I don’t know you...”

The green robed female cultivator said coldly “you dare to kill my big brother’s disciple, I can’t cut your arm? Piss off, if you dare to stay I will cut your head...”

The golden core state grunted and picked up his arm flying out of the restaurant. Clearly this green robed female cultivator was nascent soul state.

“it’s you...” the two looked at the green robed cultivator and said with a complex expression.

The female cultivator nodded “it’s me, Erhu, Xiaozhen, I really didn’t expect to see you guys here. Let’s chat over here, big brother would be very happy to know you guys are safe.

The two were taught cultivation method by Ye Mo so they didn’t suffer too much here. They just hanged with low level cultivators searching for resources everyday.

Yu Erhu’s expression was complicated because he knew this woman. It was his master’s brother’s wife Dongfang Nana. They didn’t expect her to be this strong. Yu Erhu even thought that his master might not be a match for her.

The restaurant quietended down a lot. This green robed woman easily cut off the arm of a golden core state tertiary stage cultivator. Clearly, she was no simple person. Being noisy in front of a nascent soul state qian bei was asking for death.

She was Dongfang Nana but she’s called Cheng Nana now. her talent is very good, pure wood spirit root. With the large amount of resources at Mo Yue City, she was nascent soul state when she finished solitary cultivation.

She knew that Ye Mo left Mo Yue City to find Song Yangzhu and Ye Ling and she also missed Ye Zifeng. So she left Mo Yue City to search for Ye Zifeng. She had been searching for him in this city as he disappeared from here. However, she had asked countless people and still wasn’t able to find any news of him.

Even so, she reached nascent soul state level five. One could see how good her talent was.

Once the three sat down, Cheng Nana saw Yu Erhu give her a wary look so she could only say “Erhu, I came with Zifeng to South Peace State and then we got separated. Big brother found me and took me to Mo Yue City. I’m actually not from the Dongfang family I’m called Cheng Nana now. I really didn’t expect to see you two here. This city is where Zifeng went missing. I’ve searched here for a few years but I still haven’t found Zifeng.”

“martial uncle Zifeng went missing?” Yu Erhu asked in shock.

Cheng Nana nodded in sadness “let’s not talk about this, why are you guys here?”

Yu Erhu asked desperately instead “aunty Cheng you’re saying my master found you, he’s in Mo Yue City?”

Cheng Nana nodded “yes, the city lord of Mo Yue City is big brother, he built Mo Yue City.”

Hearing this, Yu Erhu’s eyes went red. He thought he would never be able to find his master again and yet in such a place, he got news of his master. The big name of Mo Yue City, he had heard of it many times and knew the city lord was city lord Ye but he never expected the city lord to be his master.

Lu Xiaozhen held Yu Erhu’s shaky hands.

“I’m going to Mo Yue City now to find master.” Yu Erhu got up immediately.

Cheng Nana nodded “big brother isn’t at Mo Yue City right now, you won’t be able to see him even if you go back now. if you want to see big brother, you can only go to demon prison forbidden grounds. I just heard people say he went there.”

“then let’s go there.” Yu Erhu said without hesitation.

Chapter 1430: Three birth bridge

“but I’ve heard that demon prison is the most dangerous of the South Peace State four forbidden grounds. With our power, we’ll die if we go.” Lu Xiaozhen said worriedly.

Cheng Nana nodded “it’s very dangerous indeed, I’ve never been but I’ve heard from others. The forbidden grounds is in the Nan Chan Tian desert, ordinary cultivators wouldn’t even be able to make it to the desert much less the forbidden grounds.”

Then Cheng Nana suddenly waved to the old man “friend come over.”

The old man was only foundation establishment state level seven and he didn’t dare to hesitate as he came over “qian bei, what do you need of me?”

“you said that many people went to demon prison forbidden grounds, according to what I know it’s the most dangerous forbidden grounds of South Peace State, how do ordinary cultivators go?” Cheng Nana asked.

The old man replied “qian bei, it’s because of the appearance of immortal demon crystals. It can allow cultivators to break through and rapidly increase their power. It’s even more effective than pills. One disaster transformation state peak stage cultivator used the crystal and reached truth realisation state on the spot...”

Everyone was listening in intently because of this, some of the cultivators couldn’t even breathe.

Cheng Nana frowned “I ask you how ordinary cultivators got inside, not what’s the use of the immortal demon crystals.”

The old man quickly answered “qian bei don’t worry, it’s because of these crystals that some big merchant association set up a teleportation formation outside Nan Chan Tian. From South Peace city, Feng city and a few other cities all have teleportation formation to Nan Chan Tian. A qian bei even set up teleportation formation from Nan Chan Tian to Nan Chan desert. So cultivators can go straight to Nan Chan desert and enter the demon prison forbidden grounds.”

Cheng Nana said in confusion “even if they can go there so what? demon prison forbidden grounds is the most dangerous forbidden grounds, low level cultivators going there is seeking death?”

The old man said “it’s because many powerful cultivators have gone in already. The demonic spirits have all been annihilated by them. So, the outskirts is very safe. Low level cultivators would form teams and try their luck at the outskirts. If they came find low level demonic spirit they might be lucky to get a few demonic crystals. If they were luckier they might get one containing immortal demon crystal.

Plus, it’s said there’s a trap attack formation outside the forbidden grounds. If you encounter powerful demonic spirit you only have to run out of the forbidden grounds and you would be safe. There’s even quite a lot of chi gathering cultivators there.”

Cheng Nana suddenly asked coldly “you’re a mere foundation establishment state cultivator, how would you know so much?”

The old man quickly said “it’s because wan bei is from Fei Ling merchant association. We set up the teleportation formation from Feng city to Nan CHan Tian.”

Cheng Nana realized and then asked “so you came to advertise for them to send people to demon prison forbidden grounds?”

The old man quickly said “yes, our merchant association would have flying ship going past here. Those who wants to use Feng city teleportation formation, we can give 50% discount.”

Cheng Nana waved his hand. This old man was just here to sell things. No wonder he knew so much, he was purposely bringing the topic to the immortal demon crystals.

As soon as the old man left, many cultivators went up to ask him about the teleportation formation and immortal demon crystals.

“aunty Cheng are we going Feng city too?” Yu Erhu asked desperately. Clearly he was convinced by the old man.

Cheng Nana said awkwardly “Erhu, just call me Nana, I’m younger than you guys.”

Yu Erhu still wanted to say something but Cheng Nana said “that’s settled. Since even chi gathering cultivators can go in, then let’s go check it out too.”

Seeing this, Yu Erhu asked “when do we go?”

“let’s go now, I have flying ship.” Then Cheng Nana got up.

...

The entrance to the forbidden grounds was bleak, the stairs were completely made up of fine sand. Ye Mo and them weren’t very fast, 15 minutes later, they were still on the steps.

Ye Mo started to speed up, after 7 minutes, the finally got off the stairs and came to a dark lava pool. The pool was dry and filled with hard lava rocks.

However, this place started to light up a little instead. Despite having spirit sense, everyone’s first instinct was to look with eyes. Cultivators were of no exception.

So this place is called demon prison blood pool. I heard a qian bei talk about it, but it’s dry now.” Shan Bingfeng said.

Ye Mo didn’t care much at first but hearing Shan Bingfeng say this, he felt the solidified lava did seem strange. It was as though if you looked at it, there was a strange attraction that made you want to jump in at all cost.

Ye Mo shook his head.

The three walked 5 hours from the pool and didn’t see a single demonic spirit. They didn’t see any cultivators neither.

“master, I feel uncomfortable in here.” Ling Xiaoshuang finally said.

Shan Bingfeng nodded "I heard that before people can't even avoid the blood pool. They would all jump in, it's normal that you have such feeling. We're about to reach the bone river. We didn't encounter any danger on the way, clearly huge changes have occurred here."

"bone river?" Ye Mo asked in confusion.

Shan Bingfeng nodded "yes, the bone river is like the blood pool, those cultivators who see it wouldn't be able to resist jumping in. countless people have died in there over the years...."

Ye Mo frowned "there's blood pool and bone river, isn't it like the fabled hell? Would there be Nai He bridge and Meng Po soup?"

He was thinking since there was bone river, would the demonic spirit fuse with the hatred in the bone river and form evil spirits? They were nothing to him but lethal to ordinary cultivators.

Shan Bingfeng nodded "I haven't heard of Meng Po soup but there really is Nai He bridge. It's called three birth bridge in here. The demon prison forbidden grounds is extremely huge and there's unimaginable treasures here. Despite all the dangers here, there would always be cultivators coming inside. However, no cultivators would go to three birth bridge."

'why?' Ling Xiaoshuang asked.

Shan Bingfeng's face looked serious "those who go to demon prison three birth bridge will die for sure, there has been no exceptions. There's a saying, seeing the three birth bridge, your present life is no longer, stepping foot on the three birth bridge, your past life has turned to dust, walking on the three birth bridge, your next life has faded."

Suddenly, Shan Bingfeng waved a fire ball over and there was a sharp howl. Then, a flashy crystal landed on the floor. It was exactly the same as the immortal demon crystals Gu Wei gave him.

Hearing this name, Ye Mo felt strange, the demon prison three birth bridge, his Three Birth Chant.

Even though he knew the meaning was different, he still wanted to see this three birth bridge.
