

Strongest As 1431

Chapter 1431: Bone river

“immortal demon crystal?” Ling Xiaoshuang called out in shock. She only raised her voice a little but it seemed eerily sharp in the demon prison forbidden grounds.

As though to respond to her call, there was a huge rumbling in the distance as though someone attacking something.

The three quickly came to the place of the sound and found there were a few hundred cultivators gathered here. They surrounded a dried up river bed, there were many bones inside.

Seeing this, Ye Mo immediately knew this might be the bone river.

“rumble...” Ye Mo saw a disaster transformation state shoot out a red flame and with a sharp howl a crystal fell to the ground.

Another immortal demon crystal, Ye Mo had understood, all the people here were waiting to get the crystals. Even their position was decided after some battles.

“Shan qian bei...”

“goddess Ling....”

There were less people who knew Ye Mo and they felt strange when Shan Bingfeng came with Ye Mo.

Some cultivators knew about the Pill City, Infinity Sect and Lightning Cloud Sect things and wanted to come up and greet Ye Mo. However, they were afraid of losing their spots if they left.

Ye Mo just wanted to find someone to ask where Silver moon pill king went when he saw a few cultivators fly over from the side of the bone river. They quickly said “dao friends please help, so many demonic spirits chased over, we’re no match.”

Many cultivators already noticed the demonic spirits chasing over. Unlike the evil spirits, demonic spirits could be found with spirit sense if cultivators knew of the frequency.

Tens of cultivators charged over and there were more than ten demonic spirits, under the attacks of countless flames, they quickly turned into immortal demon crystal.

“don’t stay here, go to that side. That’s demon prison plain, there’s a lot of demonic spirits there. We have too little people.” The saved cultivators said desperately.

Hearing this, all the cultivators left the bone river and followed them into the plain.

Soon, there was only them three left.

“master are we going to the plain too?” Ling Xiaoshuang asked.

Shan Bingfeng looked at Ye Mo wanting to know what he thought.

Ye Mo said uncertainly “Shan qian bei, I don’t feel the demonic spirits here are that simple, they’re too easy to kill. There’s some eeriness about the whole thing.”

Shan Bingfeng fell silent and said after a while “I believe you’ve been to too many dangerous places like the ice god forbidden grounds. It’s indeed very dangerous but theoretically the demon prison forbidden grounds is the number one forbidden grounds, it should be more dangerous than the ice god forbidden grounds. That’s why you have this feeling. This place is indeed dangerous but the blood pool has dried and the bone river doesn’t have that calling. I believe some incident occurred here causing this.”

Even she thought so, Ye Mo didn’t continue explaining.

Seeing this, Shan Bingfeng said “there’s three directions ahead of the bone river to enter the depth of the forbidden grounds. One leads to the plain, another to the three birth bridge, another leads to sand river...”

“sand river?” Ye Mo repeated in shock. West Extreme State had a sand river too and West Extreme State had a demon realm too. There was two ways of getting there, one was from the sand river. If that really was the case, then there were two ways from South Peace State to West Extreme State, one was through the Heartless Sea another through here.

Ye Mo came from earth and knew planets were round. Luo Yue continent was huge but no one knew if it was round or not. Who can be sure it wasn’t?

If Luo Yue continent was a round planet, then things could be explained.

Shan Bingfeng nodded “yes sand river. I’ve heard qian bei mention it, but I’ve never heard of those who went in and came back.”

“since no one has come back, how do they know one path leads ot sand river?” Ling Xiaoshuang asked.

Shan Bingfeng smiled “there would always be someone who knows, there’s no reason for it.”

In a short while, more than 100 cultivators came over where they came from.

“martial uncle Shan...”

“martial sister Qingshuang...”

“brother Ye...”

There were even some people Ye Mo knew.

Seeing Qinghan and Qingyi and them, Ye Mo felt warm at heart. They had gone through hardship together in the Truth Fall Palace so Ye Mo greeted them “why didn’t Qingyue and Youshan come?”

“they’re in solitary cultivation.” Qinghan quickly answered. She exclaimed at heart thinking that although Ye Mo annihilated Lightning Cloud Sect and Infinity Sect, he was still the same Ye Mo.

“how did you guys all come here?” Shan Bingfeng looked at the Clear Dream Mosque nuns and asked in confusion.

“sect leader said that demon prison forbidden grounds opened up and told us to come for a trial.” The nuns said.

Shan Bingfeng nodded. She knew what the sect leader meant, Luo Yue continent was about to descend into chaos, so was South Peace State. if they stayed in the sect and never experienced things, they would always be soft. Only through blood and battle could they grow.

Ye Mo fell silent, was keeping Luo Ying and them in solitary cultivation good or bad then?

“city lord Ye, I’m going to take my disciples to demon prison plain, what about you?” Shan Bingfeng asked. She knew that since the Clear Dream Mosque disciples were here, she couldn’t keep going with Ye Mo.

Ye Mo nodded “okay, Shan qian bei go as you please, I’m going to stay here a while.”

Then, Shan Bingfeng and them left the bone river and headed into the plain. The rest of the cultivators followed too. In the turn of an eye, Ye Mo was the only one left here.

Ye Mo didn’t go because he felt there was something wrong with the bone river. He couldn’t tell exactly what it was.

He was bewildered that with all the countless bodies here no evil spirits formed.

Ye Mo stood by the bone river and scanned in with his spirit sense. even though his spirit sense was extremely powerful, he couldn't find anything inside. He still felt it was strange though.

Thinking about this, Ye Mo released mist lotus heart fire and used Heaven Flame Nine Suns.

A blue sun shone above the bone river. Instantly, a few shadows seeped out. They were very fast.

Ye Mo's face changed, there really were evil spirits here. Ye Mo didn't understand why they didn't attack those cultivators.

Truth realisation state cultivators could use their domain fire to kill evil spirits instantly but if they were possess by evil spirits, then it would be very difficult.

Although Ye Mo could only use one blue sun with Heaven Flame Nine Suns, this sun would even be able to melt top grade spirit artefact much less these evil spirits.

Howls sounded and the evil spirits were immediately melted away.

Before Ye Mo could breath, a figure dashed out of the Heaven Flame Nine Suns rapidly. It had a dark red color.

Without a doubt, it was a very powerful evil spirit or it wouldn't become dark red and ran from the Heaven Flame Nine Suns.

Instantly, Ye Mo chased over not noticing that the evil spirits he killed didn't drop immortal demon crystal.

The dark red evil spirit was very fast and moments later it appeared at the cross road. Without hesitation, it chose one and went in.

Ye Mo looked at the ten meter tall black stone tablet by the side, it had the bloody words demon prison three birth bridge.

Chapter 1432: Walking on the Three Birth bridge

Ye Mo just hesitated a little and the dark red evil spirit disappeared in the bridge.

Ye Mo hesitated for a moment and came to the entrance of the path but the dark red evil spirit was long gone. Ye Mo chased for a few minutes and saw a curved bridge that wasn't big.

It was only about 10 meters long and half a meter wide. With Ye Mo's power, he could cross countless of these bridges in one step. But when Ye Mo saw this bridge, he felt a little dizzy as though something was coming out of the depth of his brain. It was extremely hard to even walk a step forward much less cross the bridge.

So powerful, although the dizziness disappeared after Ye Mo started using the Three Birth Chant, it was still eerie.

Ye Mo paused for a moment and immediately stepped foot on the bridge, he was ready to go in the golden page world at anytime.

The path of cultivation was arduous and if Ye Mo retreated today, then what if he had to go in the bridge next time?

The instant he stepped foot on the bridge, he felt countless dark chi rush into his sea of consciousness. His sea of consciousness rumbled and became very chaotic, Ye Mo actually walked another few steps forward rapidly. The next moment, he felt the bridge crack and countless bones surrounded him.

Ye Mo grunted and his only sliver of conscious left made him immediately go in the golden page world.

The instant he went in, he felt everything around him clear up. The terrifying dark demonic chi and the bones all disappeared.

Ye Mo panted and sat next to the bitter bamboo using the Three Birth Chant to remove the demonic chi in his sea of consciousness. A few seconds later slivers of demonic chi were refined out and floated before his eyes.

Seeing this, Ye Mo was shook. With his cultivation essence and powerful spirit sense, these demonic chi could silently invade his sea of consciousness and almost made him lose himself on this bridge. No wonder Shan Blngfeng said that stepping on this, your three lifetimes would all be gone.

Ye Mo released a ball of flame burning these demonic chi and then threw out a surveillance formation.

Ye Mo saw from it clearly that the bridge was still there, there was no cracks nor endless bones.

Such a powerful illusion and demonic chi, Ye Mo exclaimed. He took a leaf from bitter bamboo and placed it in his mouth before appearing on the bridge again.

Immediately, the countless demonic chi and illusion came over again and the stone bridge beneath him seemed to be cracking again.

This time Ye Mo was prepared, he released mist lotus heart fire while using Three Birth Chant.

As soon as Heaven Flame Nine Suns was released, a blue sun hung in the sky. Instantly, countless shadows appeared under it.

Even Ye Mo had goosebumps watching this. this was the first time he had seen so many evil spirits gathered together. Some were even near his back but he didn't notice due to the disruptions from the demonic chi and illusion.

Ye Mo took a cold breath in. if all these evil spirits left the three birth bridge and even the demon prison forbidden grounds, then...

Ye Mo didn't dare to keep thinking. If that really happened, South Peace State would be over. He even saw a few dark red shadows amongst the evil spirits and frowned. His Heaven Flame Nine Suns didn't seem to have adequate power against them.

But even so, Ye Mo couldn't care that much. No matter how much Heaven Flame Nine Suns used up his spirit sense Ye Mo kept inserting cultivation essence and spirit sense into the mist lotus heart fire.

With this, the blue sun exploded terrifying blue rays covering the entire bridge. Countless evil spirits made a terrifying sharp scream before being disintegrated.

However, Ye Mo felt strange that despite knowing they would die those evil spirits still came flying to the Heaven Flame Nine Suns. Even the dark red evil spirit didn't dare to run away.

Seeing this, Ye Mo breathed easy and used more cultivation essence and spirit sense.

The dark red evil spirit was powerful and fast but if they didn't run in time, they would still be disintegrated under the Heaven Flame Nine Suns.

Just then, Ye Mo noticed that below the bridge was a river of bones, this river was much much bigger than the bone river before.

Ye Mo scanned with spirit sense and soon found there was another branch upper stream. The bone river he saw before was probably the branch and this river beneath the bridge was the main river.

Seeing countless evil spirits getting purged by the Heaven Flame Nine Suns, Ye Mo felt great. He took out two spirit recovery pills and ate it. In all of his moves, Heaven Flame Nine Suns had the greatest toll on spirit sense. Only he could use such cultivation method, other people wouldn't be able to last very long using it. Ye Mo decided to use the spirit nourishing well to nourish his spirit sense. Only when his spirit sense grew more powerful would his power increase too.

As Ye Mo ate the two pills, the Heaven Flame Nine Suns exploded out even deeper blue color.

At this moment, Ye Mo suddenly felt his spirit sense drain up. The Heaven Flame Nine Suns devoured his spirit sense that he just recovered clean and before he could react, he felt the sun emit and glaring blue ray. Moments later, a second sun was born in the blue light.

Ye Mo rejoiced, he didn't cultivate the second sun, Heaven Flame Nine Suns gave birth to it itself. His Heaven Flame Nine Suns upgraded.

According to Ye Mo's understanding, if his mist lotus heart fire didn't reach purple, the power of Heaven Flame Nine Suns won't increase much even if he had two suns. But now that the second sun appeared, he knew he was greatly wrong.

The second sun that appeared itself was much more powerful than the sun he cultivated. Ye Mo quickly ate a few more spirit recovery pills and barely stabilized the two suns with a pale face. One was eye piercing blue and another was dazy red.

When he calmed down, he realized that the countless demonic chi and evil spirits all disappeared. They were completely disintegrated by Heaven Flame Nine Suns.

Ye Mo put away the Heaven Flame Nine Suns sighed. No one dared to step foot on the three birth bridge since antiquity but now, he was standing here unaffected.

The countless bones had disappeared and the evil spirits and demonic chi were also gone.

The three birth bridge was so so.

But other than him, who would have the golden page world, bitter bamboo and Heaven Flame Nine Suns?

The only thing Ye Mo didn't understand was why did these evil spirits not escape and instead came rushing at the Heaven Flame Nine Suns?

The only explanation was that someone set the bridge, not allowing cultivators to pass. Or perhaps the powerful being didn't expect there would be someone like Ye Mo in this world.

Ye Mo walked across the bridge, it was just like an ordinary bridge now.

On the other side, Ye Mo saw a hill that was like a grave. The hill was dark and Ye Mo couldn't scan his spirit sense in.

Ye Mo flung out a lightning casually. The seal was clearly weak and was completely destroyed.

After opening, there was a skeleton inside. Who would be this bored, sealing a skeleton?

After looking at this skeleton, Ye Mo felt his skin crawl. It had been dead for countless years but there was still a rotting smell and there were countless insects crawling around.

Ye Mo stared at the bugs and suddenly felt he had seen the bones somewhere before.

Fire eating bugs? Ye Mo just thought of this name and he heard a laughter.

Ye Mo was shook and retreated a few steps as he found the one laughing was the skeleton.

Chapter 1433: Origin of the skeleton

"hahaha..." the laugh sounded more crazy and didn't even look at Ye Mo "Chu Jiuyu, I, Bug Demon, am still alive, what about you? I don't believe you can still appear before me."

The voice was like leaking wind sounding very ear piercing but Ye Mo heard it clearly.

"bug demon?" Ye Mo looked at the fire eating bugs and asked heavily "you're the fire eating bug demon that dominated Luo Yue continent 10000 years ago? Weren't you killed by Chu Jiuyu qian bei? How are you still alive?"

The fire eating bug demon used mature fire eating bugs and was invincible. He killed countless people. He had no reason to kill, he did so completely based on his mood.

“Chu Jiuyu qian bei? Just because of those words I’m going to kill you today. But before I kill you answer my questions and I can leave you a complete corpse.” The laughed stopped from the skeleton.

“wait, how did you get here?” the skeleton seemed to have remembered where this was.

Ye Mo didn’t answer him and silently let out shadowless “I broke your seal or you would still be laying in that coffin. I don’t expect to repay me with gratitude but before I answer you I want to ask you a few questions.”

“hmm, a mere truth realisation state level three small thing, how dare you. Is my name not fearsome enough?” the skeleton saw Ye Mo wasn’t shocked at all and was confused. His name was enough to make babies cry at night, there were countless cultivators who died to him. There was a large sum of sects he annihilated. Other than that absurd Chu Jiuyu, who didn’t fear him?

Ye Mo asked “you sealed yourself right? You escaped from Chu Jiuyu qian bei and didn’t dare to go out so you hid here. You were afraid of your bones being completely eroded by demonic chi so you sealed yourself.”

“hmm, I underestimated you. You reached truth realisation state at such a young age and you know I sealed myself.” The bug demon studied Ye Mo.

Ye Mo seemed calm on the surface but he was very shocked. He was shocked not because the bug demon was alive but how did he cross the three birth bridge.

Ye Mo said plainly “this means that if I didn’t break your seal you wouldn’t be able to come out at all.”

The bug demon sneered “even if you don’t come, I can break the seal in another hundreds. What I’m confused is, how can you cross the three birth bridge with a mere truth realisation state level three power?”

How could ordinary people cross the three birth bridge? He was forced nowhere to go by Chu Jiuyu. Luckily he had a level 12 fire eating bug. He gave up his past life and future life and rested his present life, his essence spirit in the fire eating bug. The fire eating bug died but he barely survived. The reason he was confident in going out was because he had an ancient space transmission rune.

With this, Ye Mo knew his guess was right.

Seeing Ye Mo's shock, fire eating bug demon said impatiently "answer a few questions and I'll give you a complete corpse. First, has Chu Jiuyu died? Second the entrance to the demon prison forbidden grounds is sealed how did you come in and how did you cross the three birth bridge?"

Ye Mo got what he wanted and no longer had the patience to talk to this bug demon. He released Zi Xu and hacked over.

Seeing that he didn't even attack and this mere truth realisation state level three dared to attack him, the bug demon was furious. The dense clutter of fire eating bugs charged at Ye Mo.

Thud.

The bug demon used his hand to stop Zi Xu.

Crack.

Fire eating bug demon took a few steps back. He looked at his bones in disbelief. His hand was hacked off a piece by this truth realisation state insect's kitchen knife.

Were all the cultivators this powerful now? a mere truth realisation state level three was this powerful? What if he encountered truth realisation state tertiary stage and truth realisation state peak stage? He must quickly recover his power.

Fire eating bug demon felt his body shaking and before he could react, he felt the slowness around his body.

"domain..." Fire eating bug demon said in shock. Without hesitation, he ran his cultivation essence like crazy and his spirit sense urged the Fire eating bugs to devour Ye Mo.

The Fire eating bug sped up.

Ye Mo let shadowless bid its time on the side. He released Heaven Flame Nine Suns. He was worried the Heaven Flame Nine Suns wouldn't be able to annihilate the bugs. The bugs devoured fire and his heaven flame was also fire.

Seeing Ye Mo release flames, the Fire eating bug demon sneered but didn't talk. If his Fire eating bug were scared of fire, then they wouldn't be called Fire eating bugs.

Crack, Ye Mo's domain had cracked and the Fire eating bug demon expanded out his own domain. He cursed that his power was greatly diminished. Otherwise, how could he be scared of a truth realisation state level three?

At this moment, a blue sun hung in the air and Fire eating bug demon's wind pipe voice sounded "mist lotus heart fire, Heaven Flame Nine Suns... you got the black yellow five element print. Where did you get old man Hong's mist lotus heart fire..."

His Fire eating bug made popping sounds under the Heaven Flame Nine Suns and soon, they turned to dust.

Ye Mo breathed easy. He felt strange, these Fire eating bugs had lived for so long, why were they so weak? But then, he immediately realized what was going on. No matter how powerful they were, they would be starving to death after all these years without nourishment of fire. His Heaven Flame Nine Suns was blue sun now, how could ordinary Fire eating bugs survive under it.

But what was the black yellow five element print? Was it the basic five elements magic he got before?

Seeing all his fire eating bugs being burned by Ye Mo's heaven flame, the fire eating bug demon was very anxious. He didn't expect a random low level cultivator he encountered would be this insane. Even those his bugs had stared for countless years, he could easily annihilate a truth realisation state peak stage.

These bugs were his lifeline, losing one was unacceptable. If he recovered their power, he wouldn't be afraid of Ye Mo's heaven flame and Heaven Flame Nine Suns.

Thinking about this, the fire eating bug demon wanted to run. He didn't want to fight to death with Ye Mo here. This young truth realisation state level three cultivator was too eerie. His cultivation essence and spirit sense were extremely powerful and more scarily, his domain was on par with his. the fire eating bug demon ran his domain like crazy and used his only remaining cultivation essence to support his bugs while secretly preparing the space transmission rune.

Ye Mo noticed that the fire eating bug demon seemed to want to run but he was stopped by the fire eating bugs. They didn't last but there were too many of them and with the support of the fire eating bug demon's cultivation essence, they lasted longer. Heaven Flame Nine Suns was too taxing on his spirit sense so he couldn't free himself up to attack the fire eating bug demon. He immediately called out "bug demon, did you hide a gourd and there's a lot of fire eating bugs inside?"

When he killed Infinity Sect Ming Wujian, he used fire eating bugs. Perhaps they belonged to this old guys.

However, as soon as he said this, the fire eating bug demon went crazy and charged at Ye Mo "insect, I'm going to tear you apart."

Ye Mo guessed right, the gourd belonged to the fire eating bug demon. It was his foundation for rising to the top again. However, Ming Wujian found it and used it against Ye Mo. In the end, they were all annihilated by Ye Mo.

Ye Mo wasn't afraid of the fire eating bug demon charging at him. He was afraid of this skeleton running away.

Ye Mo released Zi Xu again despite not having enough spirit sense. this was an opportunity, even if his spirit sense gets injured, he would kill this old guy. Ye Mo sighed, if he didn't waste too much spirit sense on the three birth bridge, things wouldn't be so hard now.

Chapter 1434: Old demon running away

the fire eating bug demon charged a few steps and stopped. He didn't use his bones to stop Zi Xu. He waved his hand and countless fire eating bugs charged at Ye Mo for him. They formed a semi circle around Ye Mo.

The Heaven Flame Nine Suns was powerful but Ye Mo needed more than ten seconds to burn them all. During that time, the inner layer of bugs were enough to devour him. Although his god state body refinement didn't fear the devouring of the bugs but he felt disgusted thinking about being bitten.

Ye Mo was shook at how much bugs this skeleton had. He didn't dare to keep letting shadowless hide. He signaled and shadowless charged up too.

Zi Xu hacked open the fire eating bug flock and an empty space opened up before Ye Mo. The flock flew around everywhere and body parts splashed around. It was very revolting and just when Ye Mo wanted to give the fire eating bug demon a strike too, he sensed danger.

Before he could retreat, there was a huge sound. Ye Mo wasn't even prepared to go in the golden page world. he was completely surrounded by this explosion, he realized that the fire eating bug demon made the flock surround him and self destruct.

Seeing his plan succeed, the fire eating bug demon rejoiced. He knew that Ye Mo was experienced as he was and thus took the blow. Even an immortal would probably only half a life left after that blast. The only thing was he used up too many fire eating bugs this time.

Just when he was rejoiced, he suddenly felt his bones go cold, his essence spirit was being devoured by something.

Before he could react, another purple ray hacked over.

This truth realisation state level three wasn't dead? He was completely fine too? This time, the fire eating bug demon was truly shocked. His fury before was half fake, he wanted to lower Ye Mo's vigilance.

the fire eating bug demon felt his essence spirit being torn apart, he ran his cultivation essence like crazy wanting to force out the thing devouring his essence spirit.

"shadowless bug..." the fire eating bug demon soon knew what was in his body. He was shaking, he didn't have flesh, if shadowless devoured his essence spirit, he would dying a very painful death.

He even detonated part of his essence spirit and forced shadowless out. At the same time, he activated the space transmission rune without hesitation.

Crack.

Zi Xu hacked on the fire eating bug demon, half of his body split apart.

A dim grey light flashed and the rest of the fire eating bug demon's body disappeared in the grey light. Ye Mo looked at the shoulder of bones he cut off. If the fire eating bug demon's domain was a little weaker, then he wouldn't be able to escape. However, this old thing got away. however, he was going to kill this guy outside no matter what, he was too much of a trouble.

Ye Mo waved his hand and the rest of the bones turned to dust in flames. Then he ate two more spirit recovery pills. Using the Heaven Flame Nine Suns consecutively was quite a toll on him.

Little did Ye Mo know that the fire eating bug demon was more annoyed. He thought he met a truth realisation state level three insect that he could abuse. However this truth realisation state level three insect was too absurd. He not only had heaven flame but also knew Heaven Flame Nine Suns, that powerful domain and shadowless. Even his kitchen knife was that deadly. How was there such a cultivator in this world? even Chu Jiuyu was far weaker than this absurd young cultivator when he was truth realisation state level three.

Not only did he not kill this truth realisation state level three but he lost 90% of his bugs and half of his body. He even lost a fifth of his essence spirit.

To him now, the most important thing was finding a place to recover. He swore that if he didn't recover to his prime, he would hide as far away as he could when he saw that young truth realisation state level three.

...

"black yellowfive element print?" Ye Mo picked up that painting and didn't find anything strange about it, it was just still an ordinary painting of mountain and river.

Ye Mo shook his head and put the painting away. if it really was something good he wouldn't be able to get it. why didn't someone like Xue Youfeng not take the painting.

Ye Mo continued to go further in.

Ye Mo noticed that the earth and rocks around him were all black. He couldn't see any marks of formation but his spirit sense could only scan a few kilometers.

The reason Ye Mo kept going in was because he felt there was space seal in here. The seal flags were definitely on this side of the bridge.

No one other than him could come here, this was the safest place to put the seal flags.

Ye Mo didn't go very far along the black broken road. In less than 6 minutes, Ye Mo saw a black mountain. There was the words, demon prison peak on it. the peak was empty and there weren't any plants nor even rubbles on it.

There was a road paved with blue rocks below it. it extended into the distance where Ye Mo's spirit sense couldn't scan. The blue road seemed quite outstanding in this background of black.

Ye Mo stopped, his sixth sense was impeccable. He was also a level nine formation grand master so he immediately felt there was something with this peak. It didn't seem like a peak, it was more like a formation.

Ye Mo released Zi Xu and hacked at the peak.

Rumble.

After a huge thud, Ye Mo felt he hacked in mid air instead of a peak.

Purple ray splashed and the black peak disappeared. A huge light pillar appeared before Ye Mo and there was a huge eight trigram disk inside.

“space seal seal flag?” Ye Mo called out shakily.

He was shaking not because he found a way to let South Peace State cultivators immortal ascend but there were nearly a thousand immortal crystals inside.

There was less than sand river but if Ye Mo could get all of it, he didn’t need to worry about reaching truth realisation state peak stage at all.

Even though he was truth realisation state level three, if he didn’t have immortal crystals, then he might be still be truth realisation state when Qingxue and them immortal ascended.

Ye Mo would rather ascend himself first and create a safe environment for Qingxue and them to meet up.

Ye Mo calmed down, since he found immortal crystals, he couldn’t miss out on this. otherwise, who knows when he would find the next one.

The two times before, the flags escaped under his attacks. How should he keep the flag this time?

Ye Mo subconsciously looked around and thought, if he set up a space seal formation, would he be able to stop the seal flag?

Thinking about this, Ye Mo knew this was the only way he had despite not being sure if he could stop it.

This way, he would either get nothing or everything.

Ye Mo hesitated and decided to try.

Ye Mo started forging formation flags.

He didn't hold back on materials, he used all of the high level materials to make formation flags. They were worth nothing compared to 1000 immortal crystals

Chapter 1435: Take seal flag

Ye Mo used four days and set up a space lock formation around the seal flag. This was level nine peak. This was the limit of his formation due to skills and materials.

He knew that if he didn't do it right, the seal flag might explode instead. If it did, the power would be huge. If he couldn't get in golden page world at the right time, he might be seriously injured even with his god state body refinement.

He was going to make the seal flag automatically hide into space and then get blocked by his space lock formation.

The most important thing wasn't to stop the seal flag but dragging it into his golden page world. otherwise, it was impossible to keep all the immortal crystals in the seal flag. If the seal flag went into his golden page world it would be completely under his control.

So when Ye Mo set up the space lock formation, he also set up a transmission formation. He wasn't sure if his power was enough to move the seal flag into the golden page world.

After everything was ready, Ye Mo hacked open the light pillar. Before Ye Mo even went in, immortal spirit chi seeped out.

After Ye Mo went in, he threw tens of formation flags there before the crevice could seal. Then he started taking immortal crystals from inside.

The instant Ye Mo tried to do that, the space hiding mechanism was activated. Ye Mo was swept out by the seal flag in a rumble.

However, Ye Mo jumped in the air instead and threw out tens more formation flags.

The formation flags inside the seal flag resonated with the flags outside. Ye Mo threw down the main formation flag. The stealthed disk and few thousand Immortal crystals were revealed. However, this disk was about to charge out of Ye Mo's space lock formation.

Ye Mo was shook, he immediately knew his space lock formation couldn't stop this seal flag, it would at most slow it down. If he didn't add another slowing formation before, it would've broken free already.

Ye Mo quickly released golden page world and released the transmission formation.

Before, he could even move the entire sect mountain of Lightning Cloud Sect and Infinity Sect but now, Ye Mo's actions only slowed down the seal flag. It was still escaping towards outside.

Ye Mo was worried. If he continued, he definitely wouldn't be able to take the formation flag and his efforts would've been for nothing.

In his desperation, Ye Mo released his domain. The seal flag seemed to slow down a little more but it was impossible to take into his golden page world. there seemed to be an invisible force drawing the seal flag away.

Ye Mo burned his essence blood like crazy while using spirit sense blades one after another. He wanted to hack away the power drawing the flag away.

What made Ye Mo rejoiced was that his spirit sense blades didn't miss, there seemed to be tens of fine strands of power that his spirit sense blades cut.

Finally, Ye Mo couldn't resist spitting blood due to spirit sense exhaustion.

However, he rejoiced instead as the flag was completely stopped. When he drew the seal flag again, it was taken into the golden page world after the combined effort of his spirit sense and the formation.

But in the process, the seal flag shook and ten immortal crystals fell from it landing on the floor.

Ye Mo panted and ate a few pills with an exhausted face. He just wanted to pick up the immortal crystals when he felt a rumble beneath him.

Such a familiar rustle. Ye Mo immediately thought of when he broke the second seal flag in West Extreme State. Ye Mo immediately knew that the immortal ascension restriction of South Peace State was removed.

Ye Mo panted. He didn't need other people to thank him, the seal flag was more important to him.

After recovering his spirit sense, Ye Mo picked up the immortal crystals. On contact, Ye Mo immediately felt that familiar immortal spirit chi. He even admired himself a little now.

He needed to find a place to recover first and then count just how many immortal crystals he got.

Thinking about this, a few dashing lights suddenly came at him and instantly landed nearby him.

"Jing Yingli?" Ye Mo saw it was Jing Yingli whom he collaborated with before. in a few years, she was hollow spirit state peak stage, just one step away from body condensation state. but how could she be so fast? Then, Ye Mo immediately saw the rune tied to her leg.

It was actually two truth realisation state behind her, it was the two Heartless Sea truth realisation state cultivators he saw before.

This was the first time he had seen two truth realisation state cultivators chase a hollow spirit state cultivator.

Seeing Ye Mo, there was surprise and joy in her eyes "Ye Mo, you're here indeed, help me...."

The two heard this and laughed. They thought she used a top grade mobility rune to run away but instead she came looking for the help of this truth realisation state level three. They had seen this truth realisation state level three before.

“how do you know I’m here?” Ye Mo asked in confusion.

Before she could talk, the two truth realisation states looked at Ye Mo’s hand in shock “immortal crystals...”

‘it’s actually really immortal crystals...” the truth realisation state level six said.

Ye Mo put them away and said to Jing Yingli “come to my side first, you can tell me what happened later.”

“you’re injured?” Jing Yingli saw Ye Mo’s pale face.

Ye Mo smiled “even though I’m injured, two mere truth realisation states are no threat to me.”

Seeing Ye Mo put away the crystals, even if Ye Mo didn’t say anything they weren’t going to let Ye Mo go.

The truth realisation state level six sneered “a mere truth realisation state level three and you think you’re great. Your cultivation speed it quite fast. Let me see how you’re outstanding.”

Then, the truth realisation state level six released his black mace. There were countless spikes that shot towards Ye Mo.

Jing Yingli could only see the spikes but not Ye Mo at all. The killing intent made her keep retreating.

Ye Mo smiled and waved his hand. The countless spikes seemed to have slowed down and then gathered in the middle. Jing Yingli panted and stopped. She looked at Ye Mo with complication. The first time she saw Ye Mo, her cultivation level was higher than Ye Mo. She was a prodigy and reach hollow

spirit state peak stage in a few years but when she heard of Ye Mo's news again, he already killed 9 truth realisation state qian beis.

The truth realisation state level six was shook a little and used more cultivation essence wanting to envelope Ye Mo with the spikes. However, the next moent, he was dumbfounded. He found it was hard to even move his body.

A truth realisation state level three bound him was domain? What was this? just when he wanted to escape, he saw a purple ray hack open from his head.

A vibrant red exploded amidst the purple beam.

Chapter 1436: Level 11 material

Seeing the truth realisation state level six not even last one move to Ye Mo, the truth realisation state primary stage was dumbfounded. He didn't dare to believe his eyes, how could there be such a truth realisation state level three cultivator? Even a truth realisation state peak stage wouldn't be able to kill a truth realisation state level six in one move?

When he realized this was reality, Zi Xu had already hacked out again. In his desperation, he wanted to use blood mobility but then he realized he was too slow. When he felt he was bound by Ye Mo's powerful domain, he realized why his friend didn't even last one move. They couldn't even more in there.

After the sword light, this truth realisation state primary stage perished too.

Jing Yingli looked at Ye Mo in extreme shock. She knew Ye Mo's power. She thought that it was after a battle that Ye Mo killed 11 truth realisation state cultivators but now, Ye Mo killed two truth realisation state cultivators in seconds and they couldn't even resist. Ye Mo's power was far beyond her imagination. This was when he was injured, what if he wasn't? who could injure Ye Mo?

Ye Mo put away Zi Xu and ate another spirit recovery pill. he felt his spirit sense was powerful but not enough for him anymore. He had to improve his spirit sense quickly.

“Ye Mo...” Jing Yingli sighed “I didn’t expect you’ve reached this level. Compared to you, I’m too trash.”

Ye Mo smiled “don’t be like that, you’re talent is on par with that Yuan Guannan but you’re just more low key.”

Not everyone had time formation disk, Three Birth Chant, bitter bamboo and immortal crystals. His cultivation speed had nothing to do with his talent.

Jing Yingli laughed, she knew Ye Mo wasn’t comforting her. She felt bad, luckily Ye Mo wasn’t a South Peace State ten beauty or she would feel worse. She was ugly but she was very competitive. She has even never been self conscious of her looks.

“how did you know I’m here?” Ye Mo asked again.

Those who went on the three birth bridge would die for sure. How did Jing Yingli dare to go on?

Jing Yingli smiled “when I charged on the bridge, I never planned to live, but I guessed right.”

She explained “now that the forbidden grounds opened, countless cultivators rushed in. most of them, went to the plains and there were indeed many demonic spirits there. Many cultivators formed squads to find immortal demon crystal, so did i. I heard from someone that you didn’t go in the plains and was still at bone river. I left the squad to come find you...”

Jing Yingli quickly explained “I’m about to reach body condensation state, I need some pills. You promised me before.”

Ye Mo nodded “so that’s it, but why were you chased by two truth realisation state cultivators?”

Jing Yingli smiled “when I got back to the bone river, I saw all the bones had disappeared and I found a storage ring there. Inside, I found this ore...”

Then, she took out a purple ore and gave it to Ye Mo “I don’t know what it is, but it’s searing hot.”

Seeing this ore, Ye Mo's eyes went red. This was the exact same one as the ore he got from the Qu 18 disks. The one he got was faint blue and he used that to bring mist lotus heart fire to blue. This ore was purple, didn't that mean it could upgrade his mist lotus heart fire to purple?

The higher level, the harder it was to upgrade rare flames. If he didn't get the blue ore, his heaven flame would still be red. Ever since it became blue, he couldn't upgrade it no matter what.

Jing Yingli had a smart mind and looking at Ye Mo's expression she knew that the ore was very important to Ye Mo. She put it in his hand without hesitation "this ore has no use to me, you can have it."

Ye Mo could tell that Jing Yingli knew what he wanted and he said awkwardly "did the two truth realisation states see the ore and thus they chased you?"

Jing Yingli nodded "yes, one of them said level 11 rare flame purple marrow..." I immediately knew things weren't good but luckily I had a level nine mobility rune. I immediately activated it but despite so, I was almost caught..."

If Jing Yingli didn't seem him, she wouldn't be able to get away even with mobility rune. Ye Mo admired her quick reaction. Ordinary cultivators would think that handing over the ore, they would be able to survive but Jing Yingli knew that she would still die even if she handed over. How could two truth realisation states let out news that they robbed hollow spirit state cultivator.

"level 11 ore rare flame purple marrow?" Ye Mo repeated. He knew that level 11 ores in the cultivation realm were nearly immortal grade.

Jing Yingli continued "I knew that no matter which way I ran it would result in death so the only place I could choose was three birth bridge. However, I was actually fine going on it. seeing I was fine, the two chased over too. Luckily I met you and escaped."

She explained "to be honest since you weren't at the plain nor the bone river, I knew you probably came to the three birth bridge. You would definitely go a place others didn't dare to go. Even if you were to go the sand river, it would be after the three birth bridge."

Ye Mo sweated, he just realized that Jing Yingli knew him much better than most people despite not staying with her for long. She was too smart.

Ye Mo took the ore and said “this is indeed very useful to me because it can upgrade heaven flame. Thank you.”

Jing Yingli smiled “you’ve helped me a lot too, you don’t need to thank me for this. plus, if I didn’t meet you today I would’ve been killed.”

Ye Mo said seriously “martial sister Yingli, you helped me more to be honest. Without your help I wouldn’t be able to reach this level so I need to thank you more.”

Then, Ye Mo took out a few more jade bottles and said “these are pills for your future cultivation. I’m afraid sometimes you won’t be able to find me so I’ve prepared it all for you.”

If it wasn’t for her, he wouldn’t be able to escape Truth Fall Palace, nor would he know about going to Pill City and meeting Lu Wuhu. Then, he wouldn’t be able to find the herb king spirit range and not get the time formation disk. Without the time formation disk, he would at most be a hollow spirit state cultivator now.

Seeing Ye Mo call her martial sister now, Jing Yingli also smiled “martial brother Ye, I only need one break spirit pill, you gave me so much I probably won’t need it all.”

Chapter 1437: Evil spirit appears, nightmare begins

Then, Jing Yingli opened a bottle. When she saw the pill, she called out in shock “kun filling pill...”

She seemed to have realized something and opened all the other bottles. She was shocked completely “break spirit pill was the lowest here, the rest were expensive just by looking at the names, dew condensation pill, cauldron essence pill, disaster will pill, truth carrot pill...

She couldn’t even recognized stalagmite benefit pill.

“this is too much...” Jing Yingli said.

Ye Mo waved his hand “I know you’ve been finding cultivation resources yourself. Otherwise with your talent, you would be body condensation state now. these pills can save you large amounts of time. If I’m not wrong, South Peace State cultivators can immortal ascend now. so work hard and reach truth realisation state.”

South Peace State can immortal ascension now? what did Ye Mo mean? She quickly thought and connected the dots. Ye Mo was injured, the loud bang. Was the immortal ascension also related to Ye Mo? But she didn’t ask. Ye Mo didn’t say anything.

Ye Mo took out another 10 immortal crystals and gave it to her “you can have these.”

Jing Yingli was shook and quickly rejected “martial brother Ye, I can’t have them.”

Immortal crystals were something even truth realisation state wanted, how could she take it? Ye Mo was too generous? Luckily she knew Ye Mo was not romantically interested in her at all or she would even think Ye Mo was into her.

Ye Mo just placed the immortal crystals on her hand and said “remember only when your power is high enough you can help others. Perhaps if you’re powerful one day you can help me.”

Jing Yingli dazed and didn’t reject this time. She took the immortal crystals and thanked “thank you martial brother Ye.”

The dense immortal spirit chi made her almost moan out of joy. she was certain that with these things her cultivation path would be a different story.

Jing Yingli was very talented and educated, no one could teach her. When the golden core state hall of fame number two Xiao Fei proposed to her, she said you don’t’ desert me and this made Xiao Fei leave in shame. But today, she was truly thankful to Ye Mo. She knew Ye Mo was different to those big sect members. He fought out every step of the way himself. He had no support. His teaching was from his own experience and it made her feel the value of it.

Ye Mo had thousands of immortal crystals and so he didn't mind giving ten to her. Her talent was absurd and she was very smart. Now that he helped her, one day she might be able to help him too.

"let me see which way this path leads to..." Ye Mo nodded and suddenly looked dazedly at the grey area ahead.

"what's wrong martial brother Ye?" Jing Yingli asked in confusion.

Ye Mo frowned and didn't speak. He clearly saw a blue rock road here before, it was gone now.

"when you came here, did you see a road?" Ye Mo asked her.

Jing Yingli said in astonishment "no, when I came you were the only one here. Hmm, where is a dull grey space?"

Ye Mo had a subtle sense of danger reminding him that this wasn't the place to stay.

Ye Mo put away his formation flag and said to Jing Yingli "let's go, something's not right here."

Jing Yingli looked at Ye Mo in confusion, Ye Mo never feared danger, why was he like this?

Seeing this, Ye Mo didn't explain and just took her to retreat. When they left the three birth bridge, Ye Mo started setting up formation. He set up a level nine trap formation, sealing the way to here.

Ye Mo's sixth was very accurate. The three birth bridge gave him a sense of danger but it wasn't lethal. However, the disappeared blue road gave him an extreme sense of danger.

"I'm going to the plain to find silver moon pill king, are you going with me or going back for solitary cultivation?" Ye Mo asked.

Jing Yingli got this many pills and immortal crystals, theoretically she should go to solitary cultivation.

But she said without hesitation “I’ll go with you, I don’t feel safe going out here alone.”

Ye Mo nodded “indeed, I don’t feel the forbidden grounds is as peaceful as we see it. the other side of the bridge gave me a very eerie feeling.”

“by the way, martial brother Ye. Why don’t I feel the three birth bridge is as scary as the legends?” Jing Yingli knew it was probably to do with Ye Mo but she still couldn’t help asking.

Ye Mo smiled “because I crossed it first. Otherwise, you can the two truth realisation state won’t be able to appear on the other side.”

Just when she wanted to speak, she saw a cultivator run out from the plains crazily while shouting “let go of me, let go of me....”

It was a body condensation state cultivator and in a second, the cultivator turned into a pile of bones. The terrifying thing was his skin and hair were still there but his flesh completely disappeared.

Even Jing Yingli was scared retreating a few steps behind Ye Mo.

Ye Mo frowned, and threw out a flame. A faint shadow screamed and disappeared.

Jing Yingli also saw the gnarly shadow amongst the flame. Jing Yingli asked in shock “demonic spirit, can’t they be scanned by spirit sense?”

“this isn’t demonic spirit.” Ye Mo shook his head. He realised, what was to come will eventually come. The demon prison forbidden grounds will become the nightmare of South Peace State cultivators. Immortal demon crystals were good but nevertheless, this wasn’t a place ordinary cultivators could come.

“then what is it?” Jing Yingli couldn’t resist asking.

Ye Mo said heavily “this is evil spirit, the lowest level evil spirit.”

“even the lowest level can easily kill body condensation state?” Jing Yingli asked in shock.

“that’s right, the high level ones are dark grey, even higher ones are faint red. If it’s dark red, then it can easily kill truth realisation state cultivators. You can’t see it with spirit sense but I can.” Ye Mo answered.

Jing Yingli asked “how do you know? You’ve seen them before?”

Ye Mo nodded “that’s right, when I crossed the three birth bridge, I almost died there. The illusion formation of the bridge works with the evil spirits. I encountered more than 10000 evil spirits and tens of them were dark red ones...”

“huh...” Jing Yingli looked at Ye Mo in disbelief. If she didn’t know that Ye Mo disliked bluffing and wanted to speak smaller of things, she would think Ye Mo was lying.

But she knew Ye Mo was telling the truth, otherwise, it wouldn’t be so peaceful for her crossing the three birth bridge.

Ye Mo smiled “the reason I can kill ten thousand evil spirits is not because I can kill ten thousand truth realisation state cultivators. It’s hard to compare. Evil spirits fear flames, I have heaven flame. Plus, the evil spirits there were very strange. I was killing them but they charged up to let me kill. Otherwise, I can’t kill that many. However these evil spirits are different to the ones I’ve seen before. they can instantly devour the flesh of a cultivator.”

“they probably didn’t rush up to get killed by you, they probably wanted to kill you to protect something. They didn’t expect you were that stronger however. ” Jing Yingli said.

Ye Mo nodded “you’re very smart, they’re probably protecting something...”

Ye Mo stopped, he thought of a problem. What were they protecting? Was it the flag he wanted to take away? that wasn't right, the seal flag definitely wasn't as old as the demon prison forbidden grounds itself.

What were the evil spirits protecting then? Thinking about this, Ye Mo even wanted to go back there and check.

Chapter 1438: What thing is Ye Mo

"never mind, I should quickly find silver moon pill king qian bei, he must not be in danger." Ye Mo decided to find Yue Qichao first. He might not be able to protect himself.

After going into the demon plains, the two realized how bad the situation was. There were bones and skins everywhere. Storage ring, magic artefact everywhere.

"so many people are dead..." Jing Yingli took a cold breath in. if she was here too, she would've been dead.

Ye Mo accelerated and expanded his spirit sense out. Despite his spirit sense being compressed to the extreme, he could still see everything with a ten km radius.

There were more and more bodies on the way, there were constantly howls of pain. Every howl meant another cultivator dead. The two also encountered some evil spirits but they all disintegrated by Ye Mo's fire ball.

"this belongs to my Abstruse Sound Sect..." Jing Yingli pointed at a pile of bones and said.

Ye Mo's heart was skipping, Abstruse sound sect was 9 star sect, they would definitely have truth realisation state coming. If even people from that sect died, what about Yue Qichao who went in even earlier? He hoped Yue Qichao would be able to use rare flames against the evil spirits.

...

In a place 100km from Ye Mo, there were near 1000 cultivators squeezed together. There was a fire circle in front of them and the cultivators were in this circle. However, this circle was a little small. Some cultivators were at the border of the fire circle.

There were full of skeletons outside the flaming circle. Those were cultivators who were devoured before they could get in. there were a few cultivators who saw this and wanted to charge over but none of them could come in. staying too long outside meant getting devoured by the invisible shadow.

The cultivators inside were all worried. If they could regret they would never come here. That invisible thing was too powerful. Who said they could find demonic spirits with spirit sense? those things attacking them were invisible.

The cultivators at the border could even see some faint shadows. The shadows seemed to know there were a lot of cultivators inside the circle and didn't want to leave. But they were also afraid of the flames and didn't dare to get near. The cultivators at the border were more scared, fearing they would be dragged out.

The li fire formation was only that big, unavoidably, people were near the border of the formation. In order to prevent people fighting over land and causing chaos, the two truth realisation state cultivators said that anyone who dares to rob space would be thrown out.

With this, everyone circled their own land. This way, those who came in first got more space and was further away from the border.

"everyone take out their spirit stones and let Lin qian bei use them. The Li fire formation needs large sums of spirit stones. Without spirit stones, the formation would collapse and we would all die." One truth realisation state cultivator said.

With this, many cultivators took out their spirit stones and soon there was a pile of spirit stones next to an old man with formation flags.

"Xiaozhen and I don't have spirit stones..." a man said worriedly. This cultivator was Yu Erhu. The evil spirit incident occurred and they followed the place where most people were going. Because of Cheng Nana's extreme grade flying spirit artefact, they were the first to enter the formation.

Yu Erhu and Lu Xiaozhen didn't have a lot of spirit stones and even if they did, they were useless low grade spirit stones and middle grade spirit stones. If Cheng Nana didn't take them, they wouldn't even have spirit stones for teleportation formation. They were the poorest of the cultivators here.

Before Cheng Nana said anything, a cultivator sneered "what are you staying here for when you don't have spirit stones. Piss off. Two mere cauldron filling state dare to come to demon prison forbidden grounds."

The three came early and took over a big piece of land. The cultivators next to them didn't get as much land as Cheng Nana. They were closer to the border so if Lu Xiaozhen and Yu Erhu went out, they would have more space.

"what do you mean? I'll pay their spirit stones." Cheng Nana sneered and took out a few thousand more top grade spirit stones.

The cultivator sneered "who said you can do that? We all took out all of our spirit stones for the formation, yet you have more to pay for someone else?"

Cheng Nana's face sunk "are you starting trouble? I don't believe you took out all your spirit stones."

However, there was nothing she could do, they were clearly hollow spirit state or above.

"friends, these two foundation establishment state clearly have storage devices but don't even want to take out a single spirit stones. Although qian bei has set up this formation, the formation needs everyone's efforts. If everyone is like them how can we stop the demonic spirits?" the hollow spirit state saluted with his fists and said loudly.

However, he was looking at the two truth realisation state cultivators. The two truth realisation state didn't seem to hear this and just looked outside.

No one wanted to speak out for this. no one would care if two foundation establishment state died but no one wanted to push them out at this time. It was a terrible death and the two only had storage bags, clearly they were extremely poor. Some cultivators felt pity.

“since everyone agrees, then I will attack.” The hollow spirit state saluted with his fists and was about to grab Yu Erhu.

Lu Xiaozhu took out ten middle grade spirit stones “I have some middle grade spirit stones here....”

The hollow spirit state said “now you take them out too late...”

“stop...” Cheng Nana said coldly “do you know who he is? He is Mo Yue City city lord’s disciple, if you dare to touch him, what happened to Lightning Cloud Sect and Infinity Sect will happen to you.”

The hollow spirit state dazed and laughed “so this means, you’re from Mo Yue City too?”

That’s right “I’m city lord Ye’s sister in law.”

No one believed Cheng Nana’s words. Yu Erhu was Ye Mo’s disciple? how wealthy was Ye Mo, and he was city lord. How could he have a disciple that couldn’t even take a top grade spirit stones? This was too much of a joke.

Plus, no one has heard that city lord Ye had a brother. But speaking of Ye Mo’s name, even the two truth realisation state cultivators looked at Cheng Nana in shock wanting to confirm if her words were true.

What everyone didn’t expect was, the hollow spirit state cultivator laughed “what is Mo Yue City? What thing is city lord Ye?”

To him, if his sect qian beis were here, he wouldn’t even care about the two truth realisation states here.

Most cultivators looked at this cultivator in shock, was his sect more powerful than Infinity Sect and even Pill City?

Some cultivators already realized that this hollow spirit state probably didn’t come from South Peace State. a South Peace State would definitely know Mo Yue City and never dare to say what thing is Ye Mo.

Chapter 1439: The blue sun of demon prison plain

“let go of Erhu, we’ll go out ourselves.” Cheng Nana said coldly. Then she pulled the two and said “Erhu, let’s go.”

There was despair in Yu Erhu’s eyes. He had a lighter view on life and death after this many years of unable to break through. But he was about to see his master and now he was going to die. Erhu shook his head “I’ll go out with Xiaozhen, you can stay here. If we all go out, who will tell master to get revenge for us?”

“If you keep stalling I’m going to attack.” The hollow spirit state added.

“Nana...” Lu Xiaozhen said worriedly.

Cheng Nana shook her head “don’t worry, I have a way to escape.”

She did have a way. She also had a fire element magic artefact, a low grade cultivation artefact li fire tent. She got it when she was at Liu Qiao city searching for Ye Zifeng. But it didn’t match with her element so she rarely used it.

...

“hmm, there’s a li fire formation ahead, and nearly a thousand cultivators. These people are smart, but no matter how powerful Li fire formation is, it can only last so long.” Ye Mo said.

Then Ye Mo said in shock “Nana is here? Why don’t she go in the formation, why is she using a fire tent magic artefact?”

“who is Nana?” Jing Yingli asked in confusion.

But Ye Mo's face changed and he sped up. He found there were three people inside including Erhu and Xiaozhen. If Cheng Nana was hollow spirit state or body condensation state, she might be able to use it to escape the forbidden grounds but she was only nascent soul state middle stage. She clearly didn't have even power to protect the three. She couldn't even move.

Cheng Nana's face was pale as she inserted her spirit sense and cultivation essence into the magic artefact. She knew she wouldn't be able to last a day. Yu Erhu and Lu Xiaozhen were desperate but there was nothing they could do to help.

At this moment, they felt their surroundings light up as though becoming an ocean of blue.

Jing Yingli saw Ye Mo use Heaven Flame Nine Suns and completely understood how Ye Mo annihilated the 10000 evil spirits.

"blue sun..." Yu Erhu saw the blue color and subconsciously looked in the sky. Then, he saw countless evil spirits turn into dust and disappear.

"master..." Yu Erhu immediately saw Ye Mo and called out in joy. even though he was a man, his eyes grew wet.

"big brother..." Cheng Nana rejoiced and also eased up.

When she did, she spat blood immediately on the faint li fire tent.

"Nana, how are you with Erhu and Xiaozhen." Ye Mo asked.

Lu Xiaozhen quickly said seeing that Cheng Nana was too tired to talk and Erhu was too excited to talk "Nana was searching for Zifeng near Liu Qiao city and we were there. Then we heard you were at demon prison forbidden grounds. Erhu wanted to see you desperately so Nana took us here."

Yu Erhu calmed down a little and added "yes master I saw a lot of chi gathering cultivators come. We are foundation establishment state peak stage so we thought we could come here too."

Lu Xiaozhen looked at Jing Yingli in confusion. Jing Yingli was even a little ugly when she first looked at her but when she looked again, she found this woman had the greatest temperament of all woman she had seen. But she didn't dare to ask what the relationship between the two were.

Cheng Nana nodded with a pale face "it's so indeed."

Ye Mo gave a pill to her "eat the pill first."

Then she looked at the li fire formation and asked "you can go into the li fire formation, why don't you go in? the formation won't last very long but it's much better than the li fire tent, plus..."

Jing Yingli knew what Ye Mo meant and added "if it wasn't that your li fire tent is low grade cultivation artefact and takes time to spirit control, those people would be robbing it already."

Cheng Nana was shook and subconsciously looked at Jing Yingli thinking this woman was so acute in her observation.

Seeing Ye Mo waiting for a reply Cheng Nana said without hesitation "it's not that we didn't want to stay inside but people inside didn't want Erhu and Xiaozhen to stay so I could only come out with them..."

Hearing this, Ye Mo's face sunk, Yu Erhu and Lu Xiaozhen weren't the only foundation establishment states, why weren't they allowed to stay.

...

When Ye Mo released Heaven Flame Nine Suns, people inside the formation saw it. when they saw countless evil spirits turn to dust and dissipate then immediately knew that this blue sun was the kryptonite to those demonic spirits.

"Ye Mo is here."

"it's city lord Ye..."

“that woman was telling the truth, she really is from Mo Yue City. City lord Ye gave her a pill....”

In that instant, the cultivators inside the formation made out the situation and all stood far away from the cultivator who forced the three out. Some bold cultivators even stepped out and soon, they found they were fine.

With this, more cultivators stepped out. All cultivators who went out bowed to Ye Mo or greeted him with respect. They knew that if Ye Mo didn't release the blue sun they wouldn't last very long in the formation.

Son, the hollow spirit state found that the space around him was empty, only his pals were with him.

He heard the discussion about city lord Ye of course. And seeing Ye Mo easily melt the shadows with the blue sun, his heart skipped. There was no way he didn't regret.

More and more cultivators came out. Ye Mo had heard Cheng Nana's story and with some cultivators sucking up to Ye Mo, they exaggerated the deeds of that hollow spirit state cultivator.

The two truth realisation state cultivators walked out and saluted with his fists awkwardly “thank you city lord Ye, only now do we realise the difference between you and us.”

Admitting the difference in front of Ye Mo would be enough to satisfy Ye Mo's ego.

“piss off.” Ye Mo yelled coldly.

They went up to greet Ye Mo but they were yelled to piss off. They stood at the peak of the cultivation realm and being embarrassed in front of some many they lost their face.

But even so, the two hesitated and retreated to the side. They wanted to go now but thinking of the terrifying shadows they hesitated.

The hollow spirit state also noticed something wrong and signaled to his friend to leave.

But tens of steps later he found he couldn't move. Before he could talk, Ye Mo's voice sounded "you forced my Mo Yue City people out of the formation?"

Seeing Ye Mo tell two truth realisation states to piss off and they didn't dare to resist at all, he realized this city lord Ye was a little strange.

The older cultivator next to him saluted with his fists "city lord Ye this is a misunderstanding. We didn't know they were from Mo Yue City if we did we wouldn't dare to do this..."

"really? How come I heard you say what is Mo Yue City, what thing is city lord Ye?" someone sneered.

Ye Mo felt strange, a disaster transformation state primary stage cultivator and a hollow spirit state cultivator dared to say what was Mo Yue City? Was there a sect more powerful than Pill City? He didn't believe that news hasn't gone out yet.

Chapter 1440: Ice God palace

No matter what power they were from, Ye Mo didn't intend to ask who they were for killing Cheng Nana and them for no reason.

Suddenly the blue sun emitted a piercing blue ray. The hollow spirit state couldn't even talk and melted under the sun.

Seeing the hollow spirit state cultivator melt and his body unable to take the searing heat, the disaster transformation state yelled in terror "city lord Ye stop, we're from Heartless Sea Ice God palace..."

Hearing this, Ye Mo really stopped. The hollow spirit state already disappeared but the disaster transformation state was very withered.

The cultivators under the sun just realised that the blue sun was like Ye Mo's domain, he could kill whomever he wanted. In that instant, the scene fell silent. A few cultivators quickly retreated from below the sun and fled out with their magic artefact. The two truth realisation state cultivators saw this and left the range of the blue sun immediately.

But Ye Mo didn't seem to see this, they can leave if they want.

Only some cultivators left most didn't leave. They knew that if Ye Mo wanted to kill them, he wouldn't wait till this moment.

Then, the disaster transformation state called out "you killed young master Lang Yue..."

Ye Mo was contemptuous and said "where is the Ice God palace?"

"you killed young master Lang Yue, you're dead for sure, you're dead for sure... I can't live anyways..." then, the disaster transformation state rose his chi and was about to self destruct.

How could Ye Mo let a disaster transformation state primary stage do that in front of him. His cultivation essence giant hand patted over and that disaster transformation state was carried over like a chicken. The hand covered the cultivator's head and searched his soul.

It was absurd for a truth realisation state cultivator to soul search a disaster transformation state primary stage cultivator. The memories of the disaster transformation state cultivator flowing into the truth realisation state sea of consciousness would be enough for the truth realisation state to go crazy. Even soul searching a hollow spirit state would be quite tough.

So seeing this, all the cultivators looked on in disbelief. They weren't at truth realisation state but it didn't mean they knew nothing.

Ye Mo wasn't afraid of that of course. It was a little troublesome for him but it wouldn't injure him. He cultivated next to the bitter bamboo and had spirit sense blades, even if some chaotic things got in his brain he could sever them.

But normally, Ye Mo wouldn't soul search. It wasn't a bright mean and it wasn't good for oneself if used too much.

Tens of seconds later, Ye Mo turned this disaster transformation state to dust and severed out the useless information from his brain before breathing.

As he expected, the Ice God palace he couldn't find was really related to this Ice God palace. The hollow spirit state cultivator he killed was Lang Yue, the disaster transformation state was Lang Wei. Lang Wei was Lang Yue's bodyguard and was a family servant of Lang Yue.

Ice God palace was in the depth of the Heartless Sea, it was a sect that never showed itself. It was sort of like the hidden sects on earth. However it was powerful. 8 truth realisation state cultivators, three were truth realisation state level nine and the palace lord Lang Yin was immeasurably powerful.

The palace lord have always been women and must be extremely beautiful and talented. But the palace lord wouldn't be the daughter of the previous palace lord, they would be carefully selected and cultivated to be palace lord.

There would be about ten girls and one would be picked amongst them.

This palace lord Lang Yin chose a woman called Dai Yun very early. Her talent and looks were all extreme level. According to the rules of the Ice God palace, the husband of the present palace lord would be the son of the previous palace lord.

That was fine but the current palace Lang Yin has three sons. Lang Yue was the second son but all three sons wanted Dai Yun, or they all wanted to be palace lord husband. This was a sticky situation.

So, the current palace lord told her three sons that she would give everyone ten year's time. If anyone could accomplish something that pleased her, he would be the husband of the next palace lord.

Because of this, the three sons tried all sorts of means. Lang Yue came to South Peace State due to this. he just came to South Peace State and heard about the immortal demon crystals here and lost his life.

In the ancient times of South Peace State, there was an extremely big sect called Ice God palace. They were very powerful but they offended a more powerful sect. the two sects clashed and Ice God palace dissipated. The remaining people fled to the Heartless Sea and rebuilt the sect.

After countless years, the Ice God formed the habit of not going out.

Lang Yue came to find the ruins of the past Ice God palace and thus he came to South Peace State. if he could find it or get a few relics, he would have overwhelming advantage over his two brothers.

When he saw there was even chi gathering cultivators going into demon prison forbidden grounds, he immediately felt contemptuous towards South Peace State thinking South Peace State cultivation level was far weaker than ice god palace.

It was because of this that he said what was Mo Yue City and was burned by Ye Mo's heaven flame.

While Ye Mo was digesting this information, Yu Erhu and Lu Xiaozhen were shook. They didn't expect Ye Mo was powerful to this extent. A cultivator more powerful than Nana can't even last a second in his hands. Ye Mo told two truth realisation states to piss off and they really didn't dare to say anything.

Thinking that he would have cultivation method for higher states, Erhu was very excited. No matter what he wanted to cultivate to a degree like master. Lu Xiaozhen knew what Yu Erhu thought and grabbed his hand. She knew that the reason Erhu couldn't keep cultivating wasn't because his talent was bad. It was because he didn't want to change his cultivation method. He said that his master taught him his cultivation method so he couldn't change no matter what.

If it was Ye Mo, he wouldn't think like Yu Erhu, he would definitely change a cultivation method to continue cultivation.

But even if he did he might not be able to reach golden core state. it wasn't easy for an solo cultivator to reach golden core state without good fortune.

Ye Mo saluted with his fists to the cultivators who haven't left yet "I just came here, I want to ask where did Mo Yue City silver moon pill king go?"

“I know, I saw silver moon pill king go west with Guan Tian pill king...” a cultivator said.

Suddenly, the two truth realisation state cultivators who left rushed back ehre.

Ye Mo didn’t need to ask, he saw silver moon pill king with a few hundred cultivators rushing over here.

“Ye Mo quickly run it’s not demonic spirits here, it’s evil spirits...” Silver Moon pill king saw Ye Mo and called out.

Shan Bingfeng and them also flew over with magic artefact. Since Silver Moon pill king knows about evil spirits, he clearly knows to use rare flames against them.

Ye Mo wanted to ask why they were running but when he saw the countless black figures chase over, he knew this was too many for them. Plus they couldn’t see them with their spirit sense at all.

At the same time, Ye Mo released the second sun of Heaven Flame Nine Suns. His red sun wasn’t that powerful but he didn’t dare to ease up against this many evil spirits.
