

## Strongest As 1441

Chapter 1441: I'm level nine pill king

As Ye Mo's second sun was released, the range of the blue sun instantly increased while the red sun shone at places the blue sun didn't shine.

In just a few seconds, the hundreds of cultivators who just came and the countless shadows were all covered by Ye Mo's suns.

The evil spirits quickly melted and dissipated. Even from afar the cultivators could hear the sizzling sound.

The evil spirits who already possessed cultivators were also melted by Ye Mo's suns in a short time. Not a single cultivator was harmed by the blue rays.

The countless evil spirits hunting these few hundred cultivators were all completely annihilated by Ye Mo in less than half a minute. Even Shan Bingfeng who knew Ye Mo's power was quite shaken by this. she had been with Ye Mo since he annihilated Lightning Cloud Sect but she never knew Ye Mo had such means. From this, it was obvious that he had more tricks in his sleeve. Cultivators who experienced annihilation divine damnation were indeed immeasurable.

"brother Ye, your sun is too powerful." Silver moon pill king exclaimed.

The two truth realisation state cultivators were also shook, the rest of the cultivators were more shook. No wonder Ye Mo could annihilate Infinity Sect and Lightning Cloud Sect.

Ye Mo put away the blue sun and just let the red sun hang above their heads. The blue sun was powerful but it was too taxing on spirit sense.

After eating a spirit recovery pill, Ye Mo just wanted to ask silver moon pill king if he found the heaven demon mushroom and he saw Jing Yingmeng run over in surprise and joy "sister, I haven't seen you for a few years. You're already hollow spirit state peak stage."

However, even Ye Mo could see the pride in her eyes. Her cultivation level had always been lower than Jing Yingli but now she finally caught up to her sister and was also hollow spirit state peak stage.

Ye Mo shook his head, Jing Yingmeng's resources were supplied by the sect while Jing Yingli found all her own cultivation resources. The difference was huge. Seeing a disaster transformation state peak stage protect Jing Yingmeng, Ye Mo knew Jing Yingmeng's status was much higher than Jing Yingli.

Ye Mo wanted to laugh, in a few years, you will be far behind Jing Yingmeng.

"you're not bad, you're also hollow spirit state peak stage too." Jing Yingmeng said calmly. She didn't have the joy of sisters reuniting. She knew that in a while, her sister would never be able to catch up to her again.

"you always never care about anything..." Jing Yingmeng murmured and suddenly said "sister you should come back with us to Abstruse Sound sect to break through to body condensation state right?"

Jing Yingli looked at Ye Mo and said "no, I'm planning to go visit Mo Yue City and find an opportunity to break through there."

Jing Yingmeng just seemed to see Ye Mo and quickly came up to him "huh, city lord Ye saved us just then but I didn't even get to thank you and just talked to my sister. Thank you, city lord Ye."

Then she paused and said "city lord Ye, welcome to visit our Abstruse Sound sect. if you go, I will take you everywhere there."

When she spoke, the faint bodily aroma of hers passed to Ye Mo's nose. The tall chest of hers was already below his eyes. Ye Mo suddenly had a strong sense of disgust. This woman really knew how to act. He was clearly in front of her but she made it seem like she put everything aside for her sister.

Jing Yingli smiled and didn't talk, she knew Ye Mo too well. Jing Yingmeng's acts would only make Ye Mo disgusted.

“martial brother Ye, thanks for saving us.” Ling Xiaoshuang came up and said. Qing Han and Qing Yi also came to greet Ye Mo.

Jing Yingmeng frowned, if Ling Xiaoshuang didn't come, she would be talking with Ye Mo. Her tactic had caught Ye Mo's attention.

“wan bei Xiao Fei thank city lord Ye for saving us.” An extremely young hollow spirit state middle stage also saluted with his fists to Ye Mo.

Ye Mo found that this person thanked Ye Mo from his heart, this rendered Ye Mo a good impression of him and he nodded “it's not big deal.”

Xiao Fei was a familiar name but Ye Mo couldn't remember it.

At this moment, a beautiful woman on par with Jing Yingmeng came over and greeted “Xiao Shiyin greet city lord Ye, thank you city lord Ye for saving us. Xiao Fei is my brother, we're all sect members of Golden Sword sect.”

Ye Mo remembered and blurted out “I know, you're ranked fifth of South Peace State ten beauties, Xiao Shiyin, oh your bother is Xiao Fei...”

The surrounding quietened down immediately, Xiao SHiyin's face burst red. Her brother was more famous than her yet Ye Mo remembered her first. This meant that Ye Mo was very lustful and like studying pretty female cultivator. No wonder his two wives were South Peace State ten beauties.

Ling Xiaoshuang looked strangely at Ye Mo. She used to think Ye Mo was lustful but after the misunderstanding was revealed, she knew Ye Mo wasn't lustful.

Ye Mo looked around and knew he said the wrong thing. Xiao Fei was a prodigy too, he was ranked 1st on the golden core state trial tablets until someone else overtook him.

Xiao Fei didn't mind, if Ye Mo didn't know his sister was 5th of South Peace State ten beauties then it would be strange. He thanked Ye Mo and saluted with his fists to Jing Yingli "martial sister Yingli, long time no see."

Jing Yingli nodded and didn't say anything.

Jing Yingmeng quickly came up and said "sister, martial brother Xiao Fei never forgot about you, he always comes to our sect to ask about you."

Xiao Fei blushed and wanted to find an explanation but he couldn't. he proposed to Abstruse Sound Sect many years ago but Jing Yingli said you don't deserve me and he left in shame. He felt he didn't deserve her indeed.

Jing Yingli smiled "mhm, thank you sister, I know and martial brother Xiao is here."

Jing Yingmeng felt boring and wanted to talk to Ye Mo when she saw Ye Mo only nod to Shan Bingfeng and then walk towards Silver Moon pill king so she could only stop there.

Ye Mo's spirit sense noticed Guan Tian pill king's situation. It wasn't good, his essence chi and spirit were all depleted. He instantly sealed his soul when the demonic chi invaded so he was like a living dead now.

"silver moon qian bei, how is Guan Tian pill king?" Ye Mo was worried. Shen Guanqing helped him very much and plus, the use of a level seven pill king was immeasurable to Mo Yue City.

"demonic chi invasion, soul seal, sea of consciousness seal, luckily I found heaven demon mushroom..."

Ye Mo interrupted in surprise and joy "silver moon qian bei, you already found heaven demon mushroom?"

Ye Mo knew that this meant Shen Guanqing was pretty much healed. It could awaken Shen Guanqing and remedy the demonic chi in his soul.

Yue Qichao sighed “although I’m level eight pill king, mushroom dissolve pill is heaven grade level nine pill. I only found one heaven demon mushroom, I’m not sure if I can concoct the pill.”

Hearing this, Ye Mo laughed “silver moon qian bei don’t worry, I’m level nine pill king already. It’s not problem for me.”

“you’re already level nine pill king?” Silver Moon pill king got up abruptly and asked desperately. His voice instantly spread everywhere. At this moment, everyone knew Ye Mo was level nine pill king.

Even those cultivator who heard it already were shocked again. How long has it been since Luo Yue continent had a level nine pill king. Didn’t this mean there would only be more and more truth realisation state cultivators from now on?

At this moment, almost every cultivator was full of respect towards Ye Mo. Ye Mo saved them and now being a level nine pill king, he gave them hope. Many cultivators even dreamed of buying a truth spirit pill at Mo Yue City after reaching disaster transformation state peak stage.

Chapter 1442: I’ll stay behind

Without Ye Mo, the majority of the cultivators wouldn’t be able to escape the hunt of the evil spirits. Only a few rare truth realisation state cultivators or disaster transformation state cultivators with rare flame can escape.

Those cultivators who thought demon prison forbidden grounds was only so so realized that this place was still the number one forbidden grounds and not a place ordinary people could come after the slaughter that killed nearly 60% of cultivators here. And, there were only at the safest place, the plains, what if it was the three birth bridge or sand river?

But at this moment, in this number one forbidden grounds, there was a very strange scene. One cultivator was in the middle concocting pills while there were 1000 or so cultivators watching.

The pill concocter was Ye Mo of course. Although Mo Yue City wasn’t open to public now, their pills could flow outside. Now that he concocted heaven grade level nine pill king in front of everyone, it

would be propaganda for Mo Yue City. At least, it would let Mo Yue City surpass Pill City in pill concoction and take Pill City's popularity.

Although Ye Mo objected to unison of Pill City and Mo Yue City but he got inspired from this. he could build another city next to Mo Yue City and this would be the place Mo Yue City sold pills and magic artefacts.

This way, it didn't affect the peace of Mo Yue City but also secured the spirit stones income for Mo Yue City. This was compulsory, no matter how powerful Ye Mo was, he couldn't supply the need for an entire city himself and he didn't plan on doing so.

After things settled, the Mo Yue City cultivators could do business at the nearby city and find cultivation resource. Ye Mo believed with all those high level pill kings in Mo Yue City, it wasn't hard for the neighbor city to prosper.

However, all the other cultivators were thinking about was that they could bluff about seeing the concoction of heaven grade level nine pill.

The mist lotus heart fire jumped in the Shen Nong cauldron, the spirit herb in the cauldron melted. Silver moon pill king only had heaven demon mushroom but Ye Mo had too much spirit herb. level eight level nine spirit herbs were ordinary things to him.

Even Yue Qichao who had seen enough high level spirit herbs were flabberghasted seeing all the level nine spirit herbs Ye Mo threw out.

He was worried about Shen Guanqing's injuries and didn't really notice Ye Mo's power but now that he settled, Yue Qichao found that Ye Mo's power had surpassed him already. His cultivation speed was already absurd but even his spirit herbs were this absurd as well. Just where did he go?

In just 15 minutes, people smelled the pill aroma. Ye Mo used a few pill collection signs and brought out 6 milky white pills.

"this fast?" Yue Qichao quickly took the jade bottle. Even he needed 45 minutes to concoct level eight heaven grade pills but Ye Mo only needs 15 minutes for heaven grade level nine pills?

He opened the jade bottle and exclaimed in shock “6 special grade mushroom dissolve pill? you concocted six special grade mushroom dissolve pills in 15 minutes?”

Ye Mo smiled, he couldn’t even keep count of how many level nine pills he made. At the start there were still top grade but now, level nine pill king was like child’s play to him.

“this means you can concoct immortal pills right?” Yue Qichao asked in more shock.

Ye Mo thought, he didn’t have immortal pill recipe. It’s said that immortal pills need top grade level nine spirit herbs or even immortal spirit herbs. He didn’t have these but what if he did? Would he be able to concoct immortal pills?

“silver moon qian bei, save guan tian pill king qian bei first.” Ye Mo pointed at the unconscious Shen Guanqing.

okay.” Yue Qichao remembered the most important thing was to save Shen Guanqing first.

But the cultivators around them started to discuss. Silver moon pill king meant that Ye Mo was beyond level nine pill king and could even concoct immortal pills.

Ordinary cultivators didn’t feel much but the few truth realisation state cultivators were very shocked. Level nine pill king was already very hard. It was very great if a level nine pill king can concoct low grade level nine pills but Ye Mo could concoct special grade pills in 15 minutes. Clearly this meant that his pill concoction skills were beyond level nine pill king. If he had immortal spirit herbs, then he might really be able to concoct immortal pills.

Thus the other few truth realisation state cultivators all came to greet Ye Mo. Compared to their cultivation, face meant nothing.

...

The mushroom dissolve pill was very effective, in just 5 minutes, Shen Guanqing woke up. Hearing that Ye Mo was back and a level nine pill king, he was more happy.

Four hours later, Shen Guanqing recovered 30% of his power and got up.

Seeing he was fine, everyone looked at Ye Mo as only Ye Mo could deal with the evil spirits here, no one dared to leave.

Shan Bingfeng stood out and said “city lord Ye, the demon prison forbidden grounds is filled with evil spirits, what do you think?”

Ye Mo wanted to go sand river to see if it really connects to West Extreme State sand river. If it did, he would really want to go.

There was a blue sand ditch there, Ye Mo suspected that the number one flame of the cultivation realm Blue Like Morning Sky was there.

He suspected that he wasn’t the only one who knew it was there, almost everyone in West Extreme State was suspecting.

However, it was still there meaning that no one could get in.

After seeing Heartless Sea Yu Zizhen he wouldn’t think he is cultivation realm number one. After all these years, Blue Like Morning Sky was still there, this meant that no one could go.

But Ye Mo felt he could go try, even though he might not be the strongest in the cultivation realm, but his body refinement was definitely the top. But clearly, he couldn’t take all these people there.

Thus, Ye Mo said loudly “everyone, this place is filled with evil spirits and you all know that once evil spirits come, demonic spirits would pretty much disappear. There won’t be any more immortal demon crystals. Even if there is so what? if contains immortal spirit chi but almost demonic chi. Oen mistake and you might die instead.”

City lord Ye, just tell us what to do, we will listen to you.” One cultivator said.

With this other cultivators also conformed “city lord Ye you saved us, and only you can deal with the evil spirits here. Tell us what to do.”

Ye Mo knew that many people didn’t mean what they said but this force was built. This meant that in the future, his popularity was on par with silver moon pill king. Thus, Mo Yue City surpassing Pill City was only a matter of time.

Shan Bingfeng and the other few truth realisation state cultivators all agreed.

Ye Mo immediately said “I suggest everyone leave here and I will annihilate all the evil spirits here and then seal the demon prison forbidden grounds.”

“city lord Ye we’re willing to listen to you and go out now but what if your’e not here and those evil spirits chase up again?” oen cultivator asked.

Ye Mo smiled “of course I will accompany you guys out. Don’t worry, since I’m here I won’t let evil spirits kill anyone.”

He was going to send them out anyways so he might as well make his words pretty.

With this everyone clapped. Some meticulous cultivators felt Ye Mo didn’t stay here to annihilate evil spirits but only Ye Mo could survive here so they could only clap with everyone.

Seeing silver moon pill king want to talk, Ye Mo quickly said “silver moon qian bei, I’m not staying here to annihilate evil spirits. I have an important thing to do at sand river, I would be back in about half a year. If it goes on longer I will be fine, please take care of Mo Yue City.”

Ye Mo wouldn’t be dumb enough to stay here and annihilate evil spirits. How big was this place? even if he killed evil spirits non stop for a decade there would still be more left.

Silver moon pill king nodded in assurance.

#### Chapter 1443: The terrifying power at the path

Half a day later, Ye Mo escorted everyone out of the demon prison forbidden grounds. There were already a lot of cultivators gathered here. After exchanging information, everyone thanked Ye Mo and left.

Ye Mo gave Yu Erhu, Lu Xiaozhen and Cheng Nana a storage ring each and asked Yue Qichao and Shen Guanqing to take care of them.

Jing Yingli chose to go with Yue Qichao to Mo Yue City. Jing Yingmeng didn't find an opportunity to talk to Ye Mo and could only follow her sect members and leave. Jing Yingli went to Mo Yue City because she didn't want to go back to her sect but coming to Mo Yue City, she realized just how absurd the spirit chi here was.

...

The three way cross road, Ye Mo stood here again. He sealed the forbidden grounds shut with formation after sending them off.

Ye Mo didn't want the evil spirits escaping so he used another extreme grade spirit range to set up the formation.

When Ye Mo came at this crossroad again, he dazed. The red words demon prison three birth bridge disappeared. That black tablet was nowhere to be seen.

Ye Mo frowned, he charged into sand river. No matter what went on in there, Ye Mo didn't want to go back in there. He trusted his sixth sense, the danger in there wasn't something he could deal with now.

Ye Mo was very fast but what he didn't expect was despite using mobility magic like crazy, he was slow like a snail. It was the familiar feeling on landing in someone else's domain.

Ye Mo was shook, he had never encountered this after reaching truth realisation state. he used five element mobility like crazy wanting to break free of this binding.

Crack. Ye Mo even heard his bone was cracking. He realized all he did was for nothing, he only moved half a meter.

Ye Mo calmed down, he knew if he continued like this, even if he died of fatigue he wouldn't be able to break free.

Suddenly, Ye Mo felt a powerful force. In just a moment, he was like a small leaf in a ravaging wave.

The instant he was taken away, Ye Mo didn't dare to keep thinking and went into the golden page world while throwing out a surveillance formation.

Everything calmed down. Ye Mo didn't even have the mood to check the seal flag, he was thinking what took him away so easily.

Looking through the surveillance formation, he saw that the golden page world was at the bottom of a river. There was nothing around him, he could occasionally see a few fractured magic artefacts.

This was the bone river, Ye Mo saw this and immediately knew he was at the bottom of the bone river.

Ye Mo looked around carefully and couldn't see anyone nor evil spirits. The power that swooped him down was nowhere to be seen.

Ye Mo sighed, he didn't know what power dragged him down but if he wasn't god state body refinement and had golden page world, that would be enough to shatter him.

Ye Mo suspected that the bones and the bone river were dragged down like this.

Ye Mo didn't go out immediately seeing there was nothing here. He walked near that seal flag. It laid calmly in the golden page world.

The rows of immortal crystals dazzled Ye Mo's eyes. Ye Mo sighed, no matter what, his purpose of coming here was fulfilled. With all these immortal crystals, he could reach truth realisation state peak stage without a problem.

Ye Mo counted roughly, there were 937 immortal crystals altogether. He gave 10 to Jing Yingli so there were 927 here.

There were some empty spots in the seal flag, clearly they were used up immortal crystals.

Ye Mo collected them all and stacked them next to the bitter bamboo before studying this eight trigram disk.

It was made very proficiently. Ye Mo had a casual glance and knew the maker was far superior than him in forgery.

Ye Mo seeped his spirit sense in and in no time, he found a faint spirit sense mark. He immediately knew this was what could make the seal flag resonate with other flags and let it escape too.

Ye Mo didn't destroy the mark. He sealed the spirit sense mark. If one day he met the guy who made the trigram disk, he would be able to recognize through spirit sense mark.

If it was before, Ye Mo would think of a way to try and go up but now he had a thousand immortal crystals and the time formation disk. Ye Mo decided to improve his power first.

...

In an extremely grandiloquent palace in the depth of the Heartless Sea, an extremely beautiful middle aged woman sat on the head seat. There were more than ten cultivators sitting on the two sides.

This palace was at the bottom of the sea but there was huge water seclusion formation and spirit gathering formation here.

There was an equally beautiful young girl sitting next to the woman. She didn't look very old.

The woman suddenly looked at the cultivators and said "I suddenly felt the calling of immortal ascension, I think Luo Ying cultivators can immortal ascension again?"

"palace lord, you have this feeling too? So do I, I just wanted to say it." one cultivator quickly got up and said.

The palace lord frowned and suddenly smoothed her expression "elder Wen is truth realisation state peak stage like me. it seems the immortal ascension tunnel of Luo Yue continent has really opened."

"if palace lord and first elder immortal ascends what about the Ice God palace?" one cultivator quickly said.

The palace lord smiled "I had the premonition that I was going to leave the ICE God Palace so I've set Dai Yun as the next palace lord early on. I was really confused before but now, it seems it's immortal ascension. Even if I leave, it's fine. Dai Yun will need your help. When you all immortal ascension to the immortal realm, I will celebrate with you all."

She meant that if anyone harms the Ice God Palace and ascends to the immortal realm, she wouldn't let them go.

"yes, we will help young palace lord at all costs." Those few truth realisation state elders said.

"but palace lord, third young master..." one truth realisation state level six said with a little hesitation.

The palace lord smiled "don't worry, now that they all left, they would accomplish something. Even if first elder and I leave, you guys can decided based on their accomplishments."

Before the elders could answer, a pretty maid ran in worriedly.

“what’s the rush about?” on elder reproached with annoyance.

“palace lord, young master Yue’s soul card shattered...” the maid was almost about to cry.

Chapter 1444: Truth realisation state tertiary stage

Slam! The palace lord smashed the jade table and got up roaring coldly “who did it?”

The jade table split apart and turned into a pile of dust.

But then, the palace lord realized this maid wouldn’t know.

“when was this?” the first elder frowned and asked.

The maid said shakily “just then, I, i....” she wanted to explain things but she couldn’t say a complete sentence.

The palace lord calmed down now and glanced at the shaky maid “clean up and join young master Yue.”

The maid’s face went pale immediately and wanted to say something but she couldn’t say anything.

“did you not hear me?” the palace lord’s voice went colder.

“yes, yes....” The maid said shakily.

Then, the pretty young girl suddenly said “master, this maid is just guarding the soul guard, young master Yue’s occurrence has nothing to do with her. I’m thinking, I’m thinking if it’s possible to let her...”

Everyone fell silent, the young palace lord hasn’t even fulfilled her position yet and dared to break the rules of the Ice God palace begging for mercy for a maid.

The palace lord's eyes grew even colder. She looked at the young girl expressionlessly "Dai Yun, remember, this is the first time and the last. If you dare to say something that breaks the rules again, then you can join the young master too."

"yes..." the young girl answered shakily.

There was despair in the maid's eyes as she left slowly.

The palace lord's icy expression and her extremely beautiful face seemed very eerie. She glanced at the cultivators and tried to calm herself down "who knows where young master Yue went?"

One truth realisation state level six got up and bowed "before he left, he researched some information at our library. It's all about the origin and past of our Ice God palace, I think he perhaps went...."

"you're saying he went to South Peace State to research the ruins of Ice God palace?" the palace lord interrupted the elder and asked.

The truth realisation state level six elder nodded "I believe so, young master Yue didn't want to fall behind and works hard in cultivation. Plus, he's deeply in love with Dai Yun palace lord so I believe he really went to South Peace State."

"atrocious, South Peace State's cultivation level is the head of the Luo Yue four states, there are countless masters there how can you let him go there?" the palace lord reproached.

The truth realisation state level six knew the palace lord's reproach was unreasonable but he still bowed "yes, this is Liu Xizhu's negligence."

"who went with him?" palace lord calmed and knew it was pointless to yell at these truth realisation state elders.

Liu Xizhu quickly answered "he went with Lang Wei, Lang Wei just broke through to disaster transformation state level two."

Palace lord sneered “able to kill disaster transformation state level two Lang Wei, it seems he’s at least disaster transformation state middle stage. I’m going to go South Peace State and see who dares to kill our Ice God palace people. Do they think that just because we’re hidden in the Heartless Sea, we can be abused.”

The palace lord said “elder Wen Wen, during the time I’m away, you will assist Dai Yun in handling matters. The immortal ascension can wait a little. Dai Yun I hope you won’t make the same mistake as today.”

“yes master.” The girl replied anxiously.

Truth realisation state peak stage elder Wen Wen got up and said “palace lord, how about I go...”

“no need, I’ll go personally, if I don’t kill this person myself, I won’t feel assured. Liu Xizhu can come with me. the rest can stay here, perhaps our Ice God Palace needs to return to South Peace State, this can wait till after I’m back.”

“yes, palace lord.” The rest of the cultivators quickly answered.

...

In the bottom of the bone river, a subtle grey bead was amongst the mud and dirt. This was Ye Mo’s golden page world, his golden page world went from golden at golden core state to faint gold and then now grey.

There were tens of extreme grade s in the middle and the time formation disk was operating rapidly. Ye Mo ate pills lavishly while cultivating with immortal crystals in his hands. On top of that, there was a spirit nourishing well next to the time formation disk.

It could be said that in the cultivation realm, no one could afford such lavish cultivation.

Dense immortal spirit chi spread out and even shadowless who couldn't be bothered watching Ye Mo cultivate ran over like a sycophant wanting to take part of the immortal spirit chi feast.

Crack, the immortal crystals in his hands broke and Ye Mo knew he reached truth realisation state level five. Truth realisation state middle stage cultivation essence was so much more powerful than truth realisation state primary stage. His spirit sense had huge improvements. This was him without using spirit sense cultivation method. If he had a spirit sense cultivation method, his progress would be even greater.

Just when Ye Mo wanted to change a immortal crystals for cultivation, he felt the time formation disk stopped.

What was going on? He knew he probably didn't cultivate for five years yet. The time ratio of using immortal crystals was one to one hundred. 7 immortal crystals could supply the time formation disk for a month meaning he could cultivate for eight years in sped up time.

Was it that the more powerful you were the faster immortal crystals were used?

He took out another seven immortal crystals and put them on the time formation disk. Two years later when Ye Mo was truth realisation state level six peak stage, the immortal crystals were used up again.

Ye Mo sighed, it had only been a week outside and the immortal crystals were used up. When he was disaster transformation state, 7 immortal crystals could last him a month in real time.

The immortal crystals were being used up quicker as his power increased but luckily the time ratio was still the same.

Cultivating in the golden page world for a month, Ye Mo reached truth realisation state level six peak stage.

Ye Mo didn't keep cultivating, he had plenty of immortal crystals but he was afraid he cultivated too fast resulting him to ascend into the immortal realm first. He had to wait for Luo Ying and them's cultivation once he got back to Mo Yue City.

Ye Mo counted the remaining immortal crystals he had. He thought he would use at most 50 but he was shook at the figures. He used 178 immortal crystals.

Soon, Ye Mo shook his head. He thought before that if he had ten more immortal crystals he would be able to reach truth realisation state middle stage, what a joke that was. It wouldn't even be enough to support the operation of the time formation disk.

He used 178 immortal crystals plus staying inside extreme grade spirit range as well as all those heaven grade level nine pills to reach truth realisation state level six. Otherwise, he might use up two or three hundred immortal crystals.

Luckily he got this many immortal crystals this time, otherwise, how was he to reach truth realisation state peak stage?

Realizing how hard it was for him to break through, Ye Mo didn't worry about cultivating too fast. Instead he took out 7 more immortal crystals and began cultivating again.

When Ye Mo reached truth realisation state level seven, he stopped cultivation. He checked, when he stopped cultivation, the time formation disk immortal crystals usage went back to normal.

This wasn't too absurd then.

Ye Mo put away the time formation disk and released the mist lotus heart fire. He had decided to see if the rare flame purple marrow could break through his heaven flame. If not he had to leave now, he had wasted a month time at the bottom of this river.

Immediately, he felt mist lotus heart fire's intense desire to devour the rare flame purple marrow. The blue flame swept it in.

Chapter 1445: Dense clutter of spirit beasts

An explosion sounded in the mist lotus heart fire, shadowless completely couldn't take this heat and fled to the side.

Seeing this, Ye Mo quickly stopped the heat of mist lotus heart fire expanding. In a few seconds, Ye Mo saw that mist lotus heart fire started to change color, it grew to a deep blue and then pale purple.

When it was pale purple, the terrifying heat finally eased up a little and the purple ore was gone.

This really was material for upgrading heaven flame Ye Mo looked joyfully at the dancing purple flame in his hands. He knew his mist lotus heart fire was at the peak of the cultivation realm. pale purple was some distance from deep purple but Ye Mo could already feel the power of the purple heaven flame.

This meant that his Heaven Flame Nine Suns could break through too.

Truth realisation state level seven, purple heaven flame. Ye Mo's confidence grew greatly. He got out of the golden page world and stood on the bone river.

The demon prison forbidden grounds was silent like a dead world.

His spirit sense increased greatly too, when he was truth realisation state level three, his spirit sense could only see within 20 km but now he could see up to 300 km.

Ye Mo released Zi Xu, if he encountered that binding force at the sand river path, he could break it open with force.

Ye Mo carefully came to the entrance of the sand river again. Indeed that powerful binding force swept him again. Ye Mo hacked out with Zi Xu, Illusion Cloud domain shatter strike.

Crack, something in the air seemed to be hacked open by Zi Xu. Ye Mo felt his surroundings ease up and he easily broke free from that binding. Standing at the entrance to the sand river, he wasn't swept in again. At this moment, Ye Mo felt the difference between his truth realisation state primary stage and tertiary stage. Before, he couldn't even release Zi Xu and was swept in the river but now, he easily broke free of that binding.

Ye Mo believed if he encountered Yu Zizhen again, he could easily kill her.

Ye Mo put away Zi Xu and looked at the entrance. It was chaos, he couldn't scan his spirit sense in nor could he see.

This was a formation, Ye Mo was certain this was a formation to stop cultivators from going in the sand river. This formation bound and threw cultivators in the bone river in the form of domain.

This formation was extremely ingenious. Even he couldn't find the formation heart and could only break free with brute force.

One could imagine what awaited ordinary cultivators in the bone river, the countless evil spirits.

Ye Mo looked around and didn't find any marks. He knew there was nothing he could do. he even suspected that no one could pass through this formation, not even Suo Anshan.

This formation seemed easy to break free but there was only one chance. Missing that chance meant being thrown in the bone river, even if you didn't die for the devour of the evil spirits, the force of the drop was enough to kill you.

Ye Mo had interest in here. Was no one ever able to pass through here? What was the point of using such a powerful formation to block the entrance of sand river?

Perhaps there was some other secrets here, Ye Mo had suddenly had some anticipation for this road to sand river.

The find sands extended to very far, it was boundless. Ye Mo stopped, the tunnel to sand river was boundless, which direction should he go towards?

If this place really led to West Extreme State sand river, perhaps he only needed to go straight. Thinking about this, Ye Mo released Blue Moon and just when he wanted to full speed ahead, two faint shadows appeared in his spirit sense.

Evil spirits again, without hesitation, Ye Mo threw two flames there and the two disappeared in a sharp shriek.

Ye Mo didn't care but the shriek caused a deep growl.

In a few seconds, more than ten dark grey spirit beasts charged at Ye Mo.

They didn't have skin and seemed to be made up of fine sand. It seemed disgusting but what was more disgusting was that their mouth was very big. Their mouth was larger than their body. Opening their mouth revealed a dark black throat that was all made up of sand. There was not a single tooth.

Theoretically, their head was big and body was small, they should be slow in moving but they were extremely rapid.

They were pretty much all level seven spirit beasts or above, some were even level 10 and level 11.

Ye Mo frowned, not because there were level 11 amongst them but he felt his essence spirit loosen up as though it was going to jump out and get devoured by these spirit beast.

This was too strange of a feeling. Ye Mo believed or ordinary cultivator would've already lost his essence spirit.

Just when Ye Mo wanted to release lightning sword, a few dark shadows came. Evil spirits again.

But before Ye Mo could attack those spirit beasts charged up and ate the evil spirits. Ye Mo clearly saw a level eight peak spirit beast immediately grow in power to near level nine after devouring the evil spirits.

Ye Mo looked back at the formation in shock and realized. This formation not only stopped cultivators from coming in but also let evil spirits in to feed these spirit beasts. If this was all set up by someone, how many spirit beasts were kept here?

Soon, countless sand spirit beasts swarmed up at him. The weakest were level three but the strongest was level 11 peak.

They were all coming at Ye Mo. Ye Mo shot out a few lightning sword, the spirit beasts struck immediately turned into a pile of fine sand. There was no beast core nor blood.

In these few seconds, more and more spirit beasts came and surrounded Ye Mo.

Some powerful spirit beasts opened their big mouths in the air wanting to devour Ye Mo.

Ye Mo didn't keep using lightning sword. Even with his powerful spirit sense, he wouldn't be able to use lightning sword to kill all of them.

It seemed that the growl they made could call on more friends over. Ye Mo knew that if this continued, he wouldn't even have breathing room.

Without hesitation, Ye Mo expanded his domain and released Zi Xu.

Illusion Cloud division strike, countless purple sword rays flew out slaughtering these sand spirit beasts.

Every strike took out a few hundred to a thousand low level spirit beasts. Even the level 11 spirit beast couldn't come into Ye Mo's domain.

Their method of attack was simple, just devouring essence spirit. This might be lethal to other cultivators but not to him. He was only not used to it at the start but it didn't affect him at all now.

The first strike was still dividing but the second strike had activated already. There were more and more spirit beasts but the purple sword rays were increasing as well.

There were so many purple sword rays that the space here had turned faint purple. Even level 11 spirit beast couldn't last long after being slice again and again.

## Chapter 1446: Illusion Cloud 8th strike

One could imagine how exhaustive on cultivation essence and spirit sense using Illusion Cloud division strike like this was. Ye Mo didn't experience truth realisation state middle stage and rose straight to truth realisation state tertiary stage. He wasn't used to the sudden burst in spirit sense and cultivation essence. as he used more and more sword ray, his cultivation essence and spirit sense was depleted rapidly but it let him get used to his current power.

Ye Mo gradually immersed himself in this slaughter, he seemed to have returned to the time where he was attacked by countless earth scorpions in the herb valley. The sand spirit beasts heer were countless times stronger and more numerous but comparatively, Ye Mo had an easier time now. he was truth realisation state tertiary stage and his domain was very powerful, even level 11 sand spirit beast couldn't threaten him.

In order to decrease power usage, Ye Mo shrunk his domain to a smaller size. Ye Mo's domain was born from his force and will. It was much less costing on spirit sense and cultivation essence than ordinary cultivators.

Despite knowing not being able to charge open Ye Mo's domain, those sand spirit beast still charged towards Ye Mo like crazy. In the distance, there were more sand spirit beasts coming.

The division sword rays were powerful and low level spirit beasts died from a touch, it wasn't enough to deal with this many crazy sand spirit beasts. Eventually, some high level ones became smart and hid away waiting for wounds to heal after being sliced once.

For those level 10 and level 11 spirit beast, tens of sword rays were needed to kill one. The high level spirit beast couldn't break into Ye Mo's domain but they found a way to not get killed. Ye Mo was getting into a worse and worse situation.

Ye Mo suddenly, thought of his battle with Yu Zizhen, he wondered how she would deal with this situation.

Thinking about this, Ye Mo was shook. If that woman could give her cultivation essence to her magic artefact and form a domain of her magic artefact, why couldn't he? Perhaps he could do it better, forming a magic artefact domain with Zi Xu's own killing force.

His creative and understanding ability was so much better than ordinary cultivators due to the Three Birth Chant. His will moved and Zi Xu suddenly changed. In turned into a huge sized and just sliced over.

The sword will and force expanded, even places Ye Mo's domain didn't cover were enveloped by this purple crazy killing intent. It was an ordinary strike but after that, all the spirit beasts around him cleared.

Only a few level 11 spirit beasts were still outside, all the rest were completely annihilated.

Ye Mo suddenly opened his eyes and laughed. He finally understood what was going on. The next moment, he didn't even use his own domain and Zi Xu just jacked around.

Purple sword rays didn't fly around, it was just ordinary sword shadows and it only seemed ten meter long but with one slice, spirit beasts 100 meters were killed too.

With a few strikes, the spirit beast crowd that Illusion Cloud division strike couldn't kill before were cleared. Ye Mo could even see the terrified look in their eyes but even so, they still charged over like crazy.

Ye Mo wasn't scared, he sliced Zi Xu around and his range kept increasing. Not a single sand spirit beast could live under such terrifying strike.

There were countless spirit beasts attacking above Ye Mo's head before but now, there was not a single spirit beast above Ye Mo. If Ye Mo wanted to leave here he could leave easily but he didn't. Zi Xu flew around harvesting the lives of these sand spirit beasts.

They seemed to have gone crazy. Despite being harvested by Ye Mo, they still kept coming over from afar.

Ye Mo didn't want to leave here, he guessed that the spirit beasts here were kept by someone and the evil spirits and demonic spirits were their food. Those spirits couldn't leave certain areas but these spirit beasts were endless and could survive under the un.

He could slaughter them but if these level 11 sand spirit beasts left the forbidden grounds, ordinary truth realisation state cultivators were no match for them at all.

How many truth realisation state cultivators were there in South Peace State? Ye Mo estimated that at most around a thousand perhaps less. But how many level 11 spirit beasts were here? Ye Mo guessed he had probably killed a thousand already.

Without a level nine pill king, how many truth realisation state cultivators could there be. Even now the truth realisation state cultivators of South Peace State were a result of the foundation of 9 star sects. Otherwise, it might be like North Far State, it would be hard for there to even be ten. Even if all the truth realisation state attacked these sand spirit beasts it was useless.

So Ye Mo had decided to concoct large amounts of truth realisation state pills, just to increase the number of South Peace State truth realisation state. he had to do this. South Peace State being powerful was not a bad thing to Mo Yue City. Otherwise, these sand spirit beast can easily annihilate the entire South Peace State. without him, South Peace State would be annihilated if these sand spirit beast came out of the forbidden grounds.

Thus, Ye Mo charged into the spirit beast crowd instead.

But there were too many sand spirit beasts here, each strike of Ye Mo took away thousands of them but immediately there would be countless more charging up.

Three days later, when there were no more sand spirit beasts coming over, Ye Mo sat down on the ground with a pale face. Even he couldn't take it anymore. He wasn't sure how many sand spirit beasts he had killed but behind him was an endless mountain range, made up with sand spirit beast bodies.

Ye Mo made a rough estimate, he killed at least a few hundred million sand spirit beasts here. There were more than ten thousand level 11 spirit beasts.

He didn't dare to stay outside and went into the golden page world immediately. He shakily ate a few pills. Even in the life and death situations he had been in before, he had never completely depleted his cultivation essence and spirit sense like today.

Ye Mo felt his hands and legs were shaky. If he didn't have the golden page world, an ordinary truth realisation state cultivator could kill him.

A day later, Ye Mo let go of the immortal crystals and got up. He completely recovered with the help of immortal spirit chi in a day.

What made him joyful was that his cultivation essence and spirit sense grew some after completely depleting them and recovering.

Ye Mo knew how hard it was to increase cultivation essence and spirit sense without increasing cultivation level at his level.

Ye Mo left the golden page world and appeared on the desert again. He thought that perhaps this was a good way to improve cultivation essence and spirit sense. however, on this black desert, there was not a single spirit beast nor evil spirits.

These few million sand spirit beasts could easily annihilate South Peace State but they were slaughtered clean by Ye Mo. They charged up to their death like the evil spirits on three birth bridge.

"this is good however." Ye Mo murmured. If it wasn't like that, he wouldn't be able to kill them all. He wondered what the owner of the spirit beasts would think after seeing this.

Ye Mo flicked Zi Xu a few times, if he didn't learn a new move, he could only hide in the golden page world against this many terrifying sand spirit beasts.

"this is Illusion Cloud 8thstrike, Illusion Cloud domain kill strike." Then Ye Mo howled in joy.

He put away Zi Xu and released Blue Moon disappearing into the depth of the sand river.

Chapter 1447: The most terrifying person in demon lands

West Extreme State sand river, ever since news of immortal ascension seal being removed, it seemed that the sand river was a lot less dangerous.

There were countless treasures in the sand river. Lucky cultivators could find a few ancient ruins of the storage ring of deceased cultivators.

Even if they didn't find that, they would benefit immeasurably from one or two top grade material or spirit sand crystal. Spirit sand crystal was more valuable than extreme grade spirit stones. It was nurtured after tens of thousands of years in the sand river. It could be used to cultivate or trade.

So when news that sand river danger was lowered, countless cultivators and beast cultivator rushed into the sand river.

Teams were necessary and so was the clear benefit pill. it was just a level nine spirit pill and wasn't too absurdly expensive. There were little pill kings in West Extreme State but some level nine spirit pill master.

Teams were necessary, the sand river was barren. If you didn't have a team, no matter how many clear benefit pill you had you would go mad due to the anxiety and loneliness.

There were tens times more cultivators in the sand river than before.

From foundation establishment state to truth realisation state, none seemed to want to fall behind. The only reason was that there was a terrifying explosion near the demon lands.

According to one disaster transformation state eye witness, the explosion tore open the dimension, a radius of a few thousand km was enveloped in this explosion. A huge ditched formed in the sand river but as wind blew, half of it was covered by sand again.

There was no strange thing that explosions happened in a place like sand river but the explosion brought out countless immortal crystals. Some were blasted to small pieces forming thumb sized pieces or even sesame sized.

But even one sesame sized immortal crystals shard was enough for a foundation establishment state to break through.

Because of this, the sand river was filled. All cultivators came here for the immortal crystals.

But after going inside, they realized that the sand river was still the sand river, one could still lose their mind. Immortal crystals and treasures were good but it's only good if you had the life to enjoy it. thus, after the first rush, many cultivators calmed down and went back to cultivation.

But even so, there were still many cultivators in here.

No one knew why the explosion occurred but Cha Qizhao and Xie Zhengshi knew. They had seen immortal crystals explode out when Ye Mo removed a seal flag. They were certain that a seal flag self destructed.

Xie ZHengshi thought. The first time he saw Ye Mo, he definitely wasn't truth realisation state. the reason he could reach truth realisation state was perhaps because he got some immortal crystals from the second seal flag. That's why he was that fast.

But despite knowing this, there was nothing he could do. he was no match for Ye Mo. Luckily he was about to ascend into the immortal realm. if he didn't forcefully hide his power, he would've caught the immortal ascension divine damnation already.

When the seal flag self destructed again, how could they miss this opportunity.

...

Two days flying in the Blue Moon, Ye Mo found that the black sand had disappeared and it was black rocks instead. There were a few spirit herb growing on them.

Half a month later, Ye Mo stopped, he saw two ways again.

One way was a place of sands and another was a river. It was a river with water.

The crossroads was the end of the river and this river extended into the distance.

“Abyssal river...” Ye Mo blurted out.

When Yan Yan told him about the Abyssal Passage river she said no one knew where it led to. Some say it was to the demon lands but now, he knew. It was indeed to the demon lands or perhaps demon prison forbidden grounds.

Ye Mo subconsciously looked at the other side of the cross road and found in shock that Abyssal River indeed stopped here but after this road, it appeared again on the other side. Ye Mo’ spirit sense could chase to where the river led to. It seemed this place wasn’t the final destination of the Abyssal River.

If he had no business, he would even head down here to see where it led but Ye Mo knew he didn’t have that much time.

Ye Mo put away the Blue Moon and wanted to go into the demon prison forbidden grounds through the cross road but as soon as he stepped foot, a few shadows charged at him.

They were evil spirits.

At the same time they came, Ye Mo released Heaven Flame Nine Suns.

The blue sun hung in the sky and those few hundred shadows were all instantly vaporized.

Seeing this, the rest of the evil spirits retreated in horror. Some charged into the demon prison forbidden grounds, some went into the abyssal river. In the blink of an eye, there was not a single evil spirit left around.

Ye Mo felt boring. These evil spirits seemed much smarter than the ones of the three birth bridge.

In such terrifying Abyssal river and the demon lands, Ye Mo found he was unmatched.

Ever since enter the demon lands domain, Ye Mo just released his red sun. as he went, those evil spirits swept in by the Heaven Flame Nine Suns were all disintegrated. Only some faint red or dark red ones could escape. For these ones, Ye Mo threw a ball of flame and they also perished.

Two hours later, Ye Mo saw a fist sized level nine material Huang Strand rock and realized there were actually good things inside here.

This was a top grade forgery material, it was worth more to demon cultivators. Some demon cultivators were even willing to go bankrupt for one.

How could Ye Mo pass on such good things. As he walked he collected more than a hundred Huang Strand rocks.

In the demon lands that struck fear amongst cultivators, Ye Mo walked around while picking up Huang Strand rocks. The evil spirits and demonic spirits saw Ye Mo come and hid away quickly.

Almost all evil spirits with self conscious hoped this terrifying cultivator would leave quickly.

Chapter 1448: Nice move on being a coward

There were too many evil spirits and demonic spirits here in the demon lands, they probably couldn't survive on the surface so Ye Mo couldn't be bothered killing them if they didn't get close.

Half a day later, Ye Mo came to a sand stairway like the entrance to the South Peace State demon prison forbidden grounds. Ye Mo knew that going up here was probably West Extreme State sand river.

Ye Mo didn't keep collecting Huang Strand rocks, he had too many precious things. He felt it wasn't worth it to waste time collecting them.

When he sped up from the sand stairways he found another seal at the exit. But Ye Mo could tell it was only to stop evil spirits coming out.

As soon as he walked out of the seal, he heard a sharp scream.

There were 5 cultivators before him, three men and two women. One of the female cultivator screamed.

“you, you came out from the demon lands...” one man stared at Ye Mo in shock. If it wasn’t that Ye Mo had a shadow, he would’ve thought Ye Mo was some demonic spirit.

But if he wasn’t an evil spirit, how could he walk out of the demon lands alive? It’s said no cultivator could survive going inside.

Ye Mo was confused, there were people here at the entrance. He remembered before that no one is West Extreme State dared to come here before. plus, the strongest cultivator here was only body condensation state.

Just then, Ye Mo suddenly thought of an important thing. If the evil spirits in South Peace State forbidden grounds were to feed the sand spirit beasts, then what about the ones here?

But Ye Mo remembered that the place he came was filled with black stones. There were no place for sand spirit beasts to survive.

Was it the Abyssal river? Ye Mo was shook. If there was something like the sand spirit beast in the Abyssal river, wouldn’t it also be a ticking time bomb?

The five cultivators couldn’t see Ye Mo’s power and seeing that Ye Mo frowned, no one dared to talk nor leave.

Ye Mo scanned his spirit sense out and found that there was an immortal crystal a few km away beneath the sand.

Ye Mo took a step and brought that immortal crystal to his hand.

“immortal crystal...” the five cultivators looked at Ye Mo in shock. There was greed in their eyes, if they could see Ye Mo’s power or if it wasn’t that Ye Mo came from the demon lands, they would’ve gone up to rob him.

He casually found an immortal crystal? Ye Mo was extremely shook, was the sand river this wealthy now? immortal crystals were everywhere.

He studied it and found it missing a corner. Ye Mo didn’t put it away and looked at the five cultivator “what are you guys doing here? Are you trying to find immortal crystals?”

“yes, qian bei.” The female cultivator quickly reacted and bowed.

Ye Mo asked in confusion “how do you guys know there are immortal crystals here? Last time I came from West Extreme State, there weren’t immortal crystals in sand river?”

Hearing this, their hearts skipped. Ye Mo’s words meant that he didn’t come from West Extreme State and came from somewhere else. Who else other than truth realisation state cultivator could do that?

Plus, they just saw Ye Mo come out from the demon lands. They immediately gave up their desire for immortal crystal. The female cultivator quickly said “qian bei might’ve just come to sand river. A month ago, a huge explosion sounded at the entrance to the demon lands. That explosion covered nearly 1000 km and even the void was torn open. Ever since then, many people found immortal crystal shards.”

“yes because of this many West Extreme State cultivators came to the sand river to search for them. There’s even a teleportation formation direct to west cultivator city outside the sand river.

Hearing this, Ye Mo immediately knew what happened. A seal flag here probably self destructed.

This seal flag probably resonated to the seal flag in South Peace State.

In Ye Mo's spirit sense two more cultivators flew over, they were both disaster transformation state. before the two even got close they saw the immortal crystal in Ye Mo's hands and one called out in joy "immortal crystals..."

Then, he sped up over at Ye Mo and grabbed "such good things should be used by me. you haven't even grown your hair out, it would be a waste for you to use immortal crystals..."

Ye Mo looked at him plainly and couldn't even be bothered using domain. He just grabbed with cultivation essence giant hand.

"truth realisation state..." that disaster transformation state middle stage said in shock and was crushed by cultivation essence giant hand.

There was a little heaven flame in his cultivation essence giant hand and so this disaster transformation state cultivator was completely disintegrated.

The other disaster transformation state stopped and looked at Ye Mo in shock before speaking in a stutter "truth realisation state qian bei..."

The other five cultivators were scared to even speak. Luckily they didn't do anything stupid before.

"piss off..." Ye Mo yelled. He didn't want to kill people so easily.

Hearing this, the disaster transformation state saluted with his fists and wanted to quickly retreat.

"what's going on?" before he could leave, another two dashing lights came.

The disaster transformation state saw this person and his face lit up "Chang Tian domain lord, I came here with manager Shi to find immortal crystal shards. We found one and was robbed by him. Then he killed manager Shi."

The disaster transformation state cultivator thought that their endless forest's domain lord was here and this cultivator wouldn't be able to escape. He gets to make up the story.

Hearing this, Ye Mo sighed. He was planning to let this guy live but he was straight up lying in his face. He was asking to die.

The two cultivators here were both truth realisation state peak stage and he knew one of them. The big man was the domain lord of the endless forest, Li Changtian. But Ye Mo didn't care, even if Suo Anshan was here he would still kill these disaster transformation state.

"brother Ye, why did you rob a wan bei's things and kill our endless forest's cultivator?" Li Changtian knew Ye Mo's power and asked peacefully.

The truth realisation state peak stage with Li Changtian looked at him in confusion and then Ye Mo. He really didn't understand, with Li Changtian's temper, he would've attacked already when someone killed his men.

Ye Mo smiled "not only did I kill that person, I'm going to kill the person next to you..."

Ye Mo's cultivation essence giant hand grabbed out and quickly grabbed the disaster transformation state cultivator. During this process, Li Changtian could only watch, he found he didn't even have the opportunity to rescue him.

"domain lord, save...." The disaster transformation state was shook. He didn't expect this young man to be this cocky in front of a truth realisation state peak stage cultivator.

"Ye..." Li Changtian just said one word and the disaster transformation state was crushed into bloody mist. Ye Mo couldn't even be bothered using heaven flame.

Li Changtian's face changed and stared at Ye Mo "brother Ye, what's the meaning of this?"

"hahaha, the domineering and prideful endless forest domain lord Li Changtian really opened my eyes today. Nice move on being a coward...." A crisp girl's voice sounded as she came before these people.

Chapter 1449: West Extreme State number one master

Li Changtian sneered but ignored this cultivator.

The truth realisation state peak stage who came with Li Changtian however saluted with his fists to the female cultivator “Wei Lanfeng greet big sister Quan.”

This female cultivator just nodded and didn’t seem to be very polite.

Ye Mo had recognized who this person was, it was snow forest pond Quan Luan. This woman took advantage of him at the Heartless Sea before. when he beat Yin Xu, she took the chance to kill Yin Xu and take his spear.

There was a female cultivator behind her, it was Mu Feihuan. When he first saw this woman, she was truth realisation state level seven, now she was truth realisation state level eight.

Quan Luan didn’t keep scorning Li Changtian and just stared at Ye Mo and sneered “Ye Mo, people really meet again everywhere. You ran away at the Heartless Sea before, today you can come with me to snow forest pond. I need your help.”

Ye Mo said calmly “sorry, I’m not interested.”

When he was truth realisation state primary stage, he wasn’t afraid of her, he was injured and with Su Jingwen and them, thus he didn’t fight her. Yet, this woman thought he was afraid of her and dared to look for his trouble.

Quan Luan said in contempt “that’s not up to you.”

Seeing the conflict break out between the two, Li CHangtian didn’t keep talking. He wanted the two to fight. When Fang Yizong fought them three, the three of them were at an disadvantage immediately but Ye Mo could beat Fang Yizong himself and not fear his divine damnation. Eventually, he forced Fang Yizong to immortal ascension. Even so, Fang Yizong still lost an arm.

He was certain that two of them combined was no match for Ye Mo but Quan Luan was different. He really wanted to see the two beat each other so he could take advantage of things.

Then, Quan Luan flung her hand and a blue shadow came out. It had a sword chi that instantly sealed the space around Ye Mo. Clearly, she was scared of Ye Mo running again.

Feeling her domain, Ye Mo shook his head. She was much stronger than Li Changtian but her domain was far weaker than Yu Zizhen. When he was truth realisation state level three, he could beat Yu Zizhen fleeing and spitting blood. Now that he was truth realisation state level seven, he didn't feel any sense of challenge fighting someone weaker than Yu Zizhen.

She then released another net shaped magic artefact. She wanted to capture Ye Mo alive. To her, Ye Mo was a goat waiting to be scaped.

She knew Ye Mo's value very well, his power was secondary but he was a level nine pill king.

But when the net shaped magic artefact just left her hand, Quan Lan felt things were wrong. Her blue sword didn't trap Ye Mo as she willed. It slowed down immediately as soon as she released it. her net magic artefact couldn't even leave her hand.

This was domain many times stronger than hers, Quan Lan instantly realized this. only a cultivator much stronger than her could instantly bind her with domain.

Knowing that she was bound, Quan Lan's face changed greatly. She burst her cultivation essence and wanted to break free while burning essence blood.

Mu Feihuan had seen Ye Mo's power, when she fought with Ye Mo, she knew the terrifying power of Ye Mo's domain. now that grandma fought Ye Mo, her face went pale and was burning essence blood as soon as the fight begun.

Even Mu Feihuan knew that grandma was far weaker than Ye Mo.

Without hesitation, Mu Feihuan used her Clear Moon Dual blades wanting to help Quan Lan block a strike from Ye Mo but as soon as she went into Ye Mo's domain, she was also bound. The only thing she helped Quan Lan with was to reduce the time it took for her to break free.

The purple sword rays came and Quan Lan was scared soulless. She was a truth realisation state cultivator about to immortal ascension and was invincible in the West Extreme State. yet, she couldn't even last a single move with Ye Mo.

Luckily when the purple sword rays came, she already broke free from Ye Mo's domain and without hesitation, she retreated.

Splurge, blood splashed and Quan Lan fell on the sand. A gash was across her stomach, if she didn't retreat fast, she wouldn't been cut in half from waist down.

"grandma..." Mu Feihuan rushed to Quan Lan and helped her up while eating a few pills.

"I'm fine." Quan Lan said with a coarse voice. She ate a few pills and finally stabilized herself. She looked at Ye Mo in shock, she didn't expect she couldn't even last a single move with Ye Mo. His power was too astounding, was he even matched on Luo Yue continent with such power?

Ye Mo didn't pursue her when she got injured. If Ye Mo did, there was no way for her to escape other than using a forbidden magic.

Just one move and she was heavily injured, her magic artefact was also in Ye Mo's hands. She finally understood why someone as cocky as Li Changtian was actually like a coward in front of him. A cultivator who passed the heaven 36 domains was this terrifying?

Like Quan Lan, Wei Lanfeng was also extremely shook. He thought that with Quan Lan attacking, Ye Mo this young cocky cultivator was dead for sure. However, Quan Lan only lasted one move and was almost killed. This was probably Ye Mo not even trying to kill her.

Since when was there someone like this in the West Extreme State? how come Li CHangtian knew his power but he didn't? what was going on?

Li Changtian sweated cold seeing Ye Mo heavily injured Quan Lan in one move. He originally wanted to ask Wei Lanfeng to fight with Ye Mo but now seeing the battle here, he knew Ye Mo was many times stronger than when he fought Fang Yizong.

Before, Ye Mo showed his power to be truth realisation state level one, now he was truth realisation state level seven.

“you’re powerful to this extent...” Quan Lan said in disbelief and hesitated before saying “I admit defeat...”

Li Changtian and Wei Lanfeng glanced at each other in shock, they knew this Quan Lan too well. She was stubborn like a rock but there was one day where she admitted defeat.

Ye Mo said calmly “last time at Heartless Sea...”

Before he finished, Quan Lan took out a storage ring and gave it to Ye Mo “that person’s things are here I didn’t touch it.”

Ye Mo scanned his spirit sense and saw that red ruin spirit spear was still there. Ye Mo didn’t keep looking and just threw it into his storage ring. He was planning to leave here.

The five low level cultivators were completely dumbfounded. Whether it was Quan Lan or Li Changtian, Wei Lanfeng and even Mu Feihuan, they were all very famous and each of them stood at the peak of West Extreme State.

Yet this young man who crossed from the demon lands not only made Li Changtian act like a coward but even the number one master of West Extreme State couldn’t even last a move to him. This was too shocking. If they didn’t see this with their own eyes, they would’ve thought this was a joke.

Ye Mo looked at Li Changtian and asked plainly “domain lord Li, do you have anything to say? If not, I’m going to go.”

Li Changtian quickly saluted with his fists “no, no, the two wan beis who offended brother Ye deserve to die. If brother Ye is willing to be a guest at the endless forest, I will welcome you greatly.”

“no need for that, I’m busy, goodbye.” Then Ye Mo was about to leave.

Mu Feihuan walked up to Ye Mo and said respectfully “martial brother Ye, that blue sword is a heritage item of our snow forest pond, please...”

Chapter 1450: Seal break

Ye Mo glanced at her and didn’t talk. There was no way he was going to give the sword back for no reason. He didn’t care about this sword but this was his battle loot.

Seeing this, Mu Feihuan immediately realized what was going on “this is a little gift from us.”

Ye Mo took it and saw it was filled with piles of level eight and level nine spirit herbs. These were things he needed desperately. He immediately took the storage ring and gave the sword back to her “since this is an important thing to you then take it, I won’t be unreasonable.”

Mu Feihuan took the sword and breathed easy. She was scared Ye Mo wasn’t willing to give it back.

Ye Mo suddenly felt he did something wrong, he didn’t even ask Li CHangtian for some spirit herb. they must have countless.

...

North Far State All herb mountain ranges.

After the terrifying explosion many years ago, there were less and less cultivators coming here to search for spirit herbs. Those few who came here only stayed at the outskirts.

At this moment, an extremely beautiful woman went into the depth of the mountain ranges alone. If Ye Mo was here, he would see that the place she was trying to open was the seal that was covered by the explosion. He could also recognize that this female cultivator was the female cultivator Ao Qandie.

She completely dug open the blue stairway and reappeared in the hexagonal hall.

There were piles of bones underneath her foot.

There were some ants crawling around on them making this underground hall seem even more eerie.

“Chu Xiaoyi, the thing you want to do, I’m not going to let you succeed...” Ao Qandie said to herself coldly as her voice echoed in the hall.

Then, Ao Qandie charged back into the tunnel filled with space wind blades. She even released defense magic artefact to block it. However, for some reason, she wasn’t attacked once by the time she walked to the end of the tunnel.

Moments later, she came into entrance to the hall that was filled with fake light balls. However, the hall had collapsed so she couldn’t go in.

She took out tens of runes and put them at the entrance before going back the way she came in.

With her countless years of age, how could she not tell it was a seal here. She was certain it was sealed by Chu Xiaoyi. If this seal wasn’t damaged she wouldn’t be able to do anything but it had been damaged countless times. She was certain she could break it completely with one move.

Ao Qandie stood at the hall and sneered “Chu Xiaoyi, I’m going to break your seal, I want to see how long you can hide for.”

Then, she released a huge round magic artefact and used tens of hand signs.

As she used the hand signs, the space around her began to explode. Suddenly, there was a terrifying explosion at where she placed the runes.

She immediately hid under her magic artefact.

The explosion sounded wave by wave without stop. Eventually, even she spat a few mouthfuls of blood under her magic artefact due to the shock. She was also wondering how her runes could cause this non stop explosion? It only broke open that hall.

The explosions sounded for 7 minutes before calming down. The entrance she could go in before was completely collapsed.

She put away her defense magic artefact and stood in the middle of this hall. He found that one face of the hexagonal hall was blown away.

“the seal shouldn’t be this easily broken...” Ao Qiandie murmured to herself. She thought that the break to the seal should be in that hall not this tunnel.

She wouldn’t care what the consequence of breaking the seal was. Even if all of the people in North Far State died, she wouldn’t care.

Ao Qiandie frowned. It seemed she failed. Just when she didn’t want to keep looking and was about to leave, there was an ear piercing laughter.

Ao Qiandie thought, was this the person who was sealed? Perhaps she could work with him to kill that Ye bastard, that guy forced her to have nowhere to hide...

Suddenly, the space before her was devoured.

“space devour....” Ao Qiandie’s face changed and she immediately ran. She finally knew what was sealed here by Chu Xiaoyi. It was nine headed void devouring bug. If she knew this place sealed the nine headed void devouring bug, she would never do this.

She believed with her capabilities and persuasion she could persuade any sealed old monster to work with her, but there was nothing she could do about a nine headed void devouring bug at all.

But when she looked back, she couldn't find the way she came in from. before she could leave from the fallen wall, she felt space around her collapse again.

There was despair in her eyes, a bone devouring pain. Ao Qiandie pulled the clothes on her body but even so, the terrifying pain was still there. The next moment, she disappeared with her surroundings.

At the same time, a greyish yellow bug covered in a sticky liquid appeared in the hall. There was still saliva drooling out of its mouth but it didn't fall on the ground. The bug was 3 meters long and it had nine necks. Three of the necks had heads but the rest seemed to have been cut off and there was just a layer of red.

More disgustingly, there were countless red tentacles under its face.

The three headed bug didn't leave. Moments later a grey shadow landed next to the bug. The grey shadow looked around and laughed "Chu Xiaoyi, Chu Xiaoyi, so what if you sealed me Hong Yixing for ten thousand years. I still came out. When I find my things, it will be the moment you lose your head. I hope you're still alive..."

Suddenly, he frowned and said again "how can I feel the call of immortal ascension? No I need to quickly find the few other heads.... Hmm, you've eaten one already?"

Then, he sat on the disgusting bug and patted its head "go out."

The nine headed void devouring bug suddenly flew up towards the broken wall and after another rumble, the nine headed void devouring bug flew out with the grey robed cultivator.
