Chapter 1451: Blue Like Morning Sky

The all herb mountain ranges had the terrifying explosion again but there were less cultivators than last time.

...

Long grave hill.

The first place Hong Yixing came to after breaking free was here. He hid something here, the mist lotus heart fire. The main reason was there was a place below here that was suitable for heaven flame growth.

If it wasn't that Chu Xiaoyi hunted him too much, he would've long taken this heaven flame already. However, when Chu Xiaoyi sealed him, he didn't get the chance to take the mist lotus heart fire.

There was no one here on a few hundred km radius. This place was very bleak and seemed very cold even during the day.

At this moment, there was a sharp howl "who, who dares to take my mist lotus heart fire, I'm going to eat you alive..."

Hong Yixing was a rather handsome man but with this scream, his handsome features became distorted and turned very gruesome. Even the veins were popping out of his head.

...

Of course Ye Mo didn't know his mist lotus heart fire belonged to Hong Yixing but even if he did, he wasn't going to give it back.

Ye Mo was still very far from the blue sand ditch, but he already felt the intense searing heat.

What appeared before him was blue sand for tens of miles. There was a huge ditch in the centre of these blue sands. He couldn't scan his spirit sense in at all.

The sand around the ditch had been baked to blue ores. These ores seemed very tough. They would be very good forgery materials for high level forgery masters.

The closer he got to the ditch, the higher the temperature but Ye Mo wouldn't care about that cultivator. He knew that with this temperature, an ordinary cultivator probably wouldn't turned to gas already.

Coming here, he realized why the Blue Like Morning Sky was still here despite so many cultivators guessing it was here. If one didn't reach the master state of body refinement, he would never be able to come here. This was only the outskirts of the blue sand ditch too.

One could imagine the temperature would go up exponentially as one went in. maybe one needed three king states to go in.

Ye Mo sighed, he knew he was lucky to have come now. if it was last time, he would never be able to come in even with the help of the golden page world.

The temperature wasn't on par with the void flame break through it was enough to stop any truth realisation state from coming over.

The blue sand ditch was bluish gray. One couldn't scan spirit sense in at all. Even if one didn't use eyes, it was very eye piercing. If Ye Mo was still three king state body refinement, he really wouldn't dare to jump down. But now that he was god state body refinement, he believed that even if it was Blue Like Morning Sky down, it wouldn't be enough to hurt him without human interference.

Ye Mo jumped in without hesitation.

Ye Mo didn't even reach the bottom and that terrifying heat swept over. Ye Mo used his cultivation essence and god state body refinement. A barrier formed around his body. With such terrifying temperature, he could only feel some temperature.

Even so, Ye Mo was shook at the temperature down here. It was only about ten meters deep and Ye Mo reached the bottom already.

At the bottom, there was a huge blue boulder that was 50 meters in size. A flame like a lotus petal was jumping around in the center. It was blue on the four sides but pale yellow in the center. It was extremely beautiful.

"It really is Blue Like Morning Sky..." Ye Mo called out in shock. He was still extremely shook seeing the Blue Like Morning Sky here despite guessing it might be it.

The value of Blue Like Morning Sky wasn't something ordinary cultivation realm flames could compare, not even mist lotus heart fire nor one purple flame.

One purple flame was ranked second in the entire cultivation realm but only ranked 11th in the entire 108 types of flames. Mist lotus heart fire was even lower, ranked 17th.

But Blue Like Morning Sky was different, it was first in the cultivation realm and third in all 108 types of flames. It was undoubtedly the king of flames.

Plus, it was ranked third not because it's weaker than the first and second but there was no number one. The number one flame was evolved the 2nd to 10th flames devouring things.

So, even if your heaven flame reached purple, it was only just the beginning in the battle of flames. Once a flame reached purple, it had to keep devouring materials or evolve through other means. Otherwise, it would only be able to dominate the cultivation realm but not higher realms.

This Blue Like Morning Sky in front of him was still faint yellow. Clearly, it didn't appear for long.

The reason there was a layer of blue on the outside was because it hadn't been spirit controlled yet. Once it was spirit control, it would return to being pale yellow and evolve based on the change in color.

Ye Mo also knew that if the Blue Like Morning Sky completely blossomed from the blue stone, it would leave and disappear into the void. He came just at the right time, in another few decades, it might've hid itself. As for the blue rock, it was clearly material for breeding for Blue Like Morning Sky. There was a huge ditch here so it was probably an asteroid.

A flame that was newly born had such terrifying temperature, one could see how terrifying the Blue Like Morning Sky.

Ye Mo had great experience in spirit controlling flames and he was god state body refinement. Blue Like Morning Sky was very terrifying for ordinary cultivators but not enough for Ye Mo. Perhaps once it was green or aqua color would it pose a threat to him.

If he wasn't god state body refinement, he would set up formations around it and use a slow method to spirit control it. but now, Ye Mo just grabbed the flame with his hand and enclosed it in his hand.

Blue Like Morning Sky seemed to know it was grabbed and released more terrifying heat but it faced Ye Mo's hand.

Ye Mo just spat a mouth of essence blood on the Blue Like Morning Sky and tried to spirit control it. Ye Mo truly liked this newly born flame. He spirit controlled it with essence blood so it would be easier to communicate with it in the future.

...

The only two 8 star sects of North Far State was Jade Woman sect and Wang Yue sect.

But now, both sects had truth realisation state masters. Tang Mengrao and Shan Di both reached truth realisation state.

Tang Mengrao was in solitary cultivation. She got a lot of pills from Ye Mo and her disciple earned a fortune through the gamble at West Extreme State. she was about to break through to truth realisation state level two but this strnage annoyance made her stop solitary cultivation.

Before she came out, her disciple Yue CHan rushed in.

Tang Mengrao had a bad feeling and asked desperately “did something happen?”

Yue CHan nodded nervously “yes, master, the all herb mountain ranges exploded again. Then, a few sects in the North Far State were annihilated. Some ordinary cultivation cities don’t have a single survivor.”

Tang Mengrao’s head buzzed. She immediately thought of the seal Ye Mo enforced in there. Was the thing let out? Didn’t Ye Mo say the seal could last another century?

Chapter 1452: North Far State disaster

“Wang Yue sect martial uncle Shan Di is here.” Yue CHan quickly said seeing her master still wasn’t recovered from the shock.

Tang Mengrao immediately knew that he probably came here because so many sects were annihilated. She couldn’t even nod and quickly ran out.

When Tang Mengrao saw Shan Di, she couldn’t even believe the person before her was Shan Di. He was covered in wounds and didn’t even have the mood to recover his wounds. He was like a headless fly walking around in the guest hall.

“sect leader Shan, what happened?” Tang Mengrao asked immediately.

“it’s nine headed void devouring bug, I saw it with my own eyes. It already has three heads. My Wang Yue sect is over, over, it was completely devoured by that bastard...” Shan DI said sadly.

“master, other than Wang Yue sect, Lian Qing sect, Blue Sea sect, Luo Tan Sword sect.... were all annihilated for no premonition. Gan Yuan city was also devoured...” Yue CHan whispered quietly to Tang Mengrao.

“what?” Tang Mengrao was completely dumbfounded.

Tang Mengrao looked at Shan Di and was confused. He encountered a tough guy called Yin Xu in the Heartless Sea and ran away. now, he encountered the nine headed void devouring bug but could also get away. it seemed he had quite some secrets.

“sect leader Tang, what do we do now? the nine headed void devouring bug has a master too. I don’t think we’re a match for him.” Shan Di said.

Tang Mengrao had completely calmed down now and glanced at Yue CHan “notify everyone in the sect, we’ll be sealing sect temporarily...”

“martial sister Tang...” Shan Di looked at Tang Mengrao in confusion and said “even if you do, that can’t stop the nine headed void devouring bug. Plus, I suspect the nine headed void devouring bug master is already truth realisation state peak stage. If I was a little closer to him at the time, I wouldn’t even have time to activate my mobility technique. I would’ve died already.”

Tang Mengrao nodded “you’re right but I didn’t seal sect to hide. I have to leave Jade Woman mountain or my sect would be annihilated too. The entire North Far State is in disaster.”

“where can we hide...” Shan Di said and then asked “you’re going to Pei Hai city?”

“yes, other than Pei Hai city, there’s no where we can hide from the nine headed void devouring bug, plus a truth realisation state peak stage cultivator.” Tang Mengrao said without hesitation.

Then she added “hiding there is not a solution, only city lord Ye can deal with the nine headed void devouring bug. No one in North Far State can deal with it.”

“you’re going to South Peace State to notify city lord Ye?” Shan Di asked.

Tang Mengrao nodded "I must go, luckily the qian bei in South Peace State are prepared and set up a teleportation formation at Pei Hai city. Although there's some problems with it, it should be enough to transport me to South Peace State."

Shan DI fell silent and nodded "okay, I received the heritage of old man Kong Ye. Even if my sect is annihilated, I need to offer my strength for North Far State. go South Peace State, I will try my best to protect Pei Hai city."

Tang Mengrao nodded "Pei Hai city is different. Even if that cultivator is truth realisation state peak stage and has a nine headed void devouring bug he might not be able to break in. Pei Hai has consecutive level nine defense formation and attack formation. By the time he breaks in, I would be back with Ye Mo from South Peace State."

...

In the West Extreme State sand bitch, Ye Mo kept spirit controlling Blue Like Morning Sky. The temperature outside it gradually lowered and the blue color dimmed. Eventually, there was only the baked stones outside.

The instant he was about to spirit control Blue Like Morning Sky, the blue color he had spirit controlled suddenly exploded forming a vibrant blue around Ye Mo and this blue shot into the sky.

But Ye Mo was completely mesmerized by the Blue Like Morning Sky in his hands, he didn't notice the blue color at all.

Ye Mo reached out his hand and a flower like yellow flame appeared in his hand. This was the Blue Like Morning Sky, it was like a young girl that was about to married and jumped around happily in his hand.

This trip was too worth, Ye Mo exclaimed. If he didn't come here, this Blue Like Morning Sky definitely wouldn't be his. If one wanted results, one had to go try.

His mist lotus heart fire was powerful but compared to some more powerful heaven flame, it was a little lacking. Blue Like Morning Sky was different, it was a truly powerful heaven flame.

...

The instant Ye Mo took control of Blue Like Morning Sky, the blue layer completely shot out but Ye Mo was immersed in his joy that he didn't notice.

All the cultivators in sand river were looking at the blue color in shock. Some experienced cultivators shouted out in shock "Blue Like Morning Sky has come to the world..."

It's said that when Blue Like Morning Sky comes to the world, the entire cultivation realm would be blue. This was a little exaggerated but now, the huge sand river was completely covered in this blue color.

Almost instantly, everyone realized what was going on. There was only one possibility, blue sand ditch.

At that moment, countless cultivators swarmed towards the blue sand ditch. They wouldn't be able to get Blue Like Morning Sky but there was countless blue sand ores around it. that was top grade forgery materials. It was better to collect that than searching for those immortal crystals shards.

"Blue Like Morning Sky..." Xie Zhengshi looked at the direction of the blue sand ditch in shock. He long knew it was Blue Like Morning Sky there but even with his truth realisation state peak stage power he couldn't get near there. Now that the sky was blue, it only meant that someone took Blue Like Morning Sky. Xie Zhengshi charged voer like crazy.

The reason he stayed here and didn't immortal ascension was mostly due to him wanting to take Blue Like Morning Sky.

...

Ye Mo sat outside the blue sand ditch, he even took the meteor that bore the Blue Like Morning Sky. He felt it was no simple thing.

At this moment, the blue color had receded. Ye Mo was pondering if he should get some more spirit herbs from Jiao Huanzhen when multiple dashling lights came.

Ye Mo immediately realized that him taking Blue Like Morning Sky was known by everyone. Although he didn't fear anyone, he didn't want everyone to know about Blue Like Morning Sky. So he released Blue Moon and disappeared.

As soon as Ye Mo left, a few cultivators came around ehre. They immediately knew Blue Like Morning Sky was taken away otherwise the temperature wouldn't be this normal.

But soon, they put that aside and joined the frenzy collecting blue sand ores.

By the time Xie Zheng shi got here, even the sand stones were taken clean.

...

At the entrance to demon lands, Li Changtian didn't leave. Quan Lan, Mu Feihuan and Wei Lanfeng didn't leave as well.

They asked the five cultivators and knew Ye Mo came from the demon lands. As the West Extreme State masters, they really want to know what's going on inside there but no one can go in and come back out alive.

Now that Ye Mo came from inside there, they could only ask Ye Mo. They didn't know where to find Ye Mo so they might as well wait for Ye Mo here.

When the blue light shone over the entire sand river, these people immediately knew that Ye Mo came to take Blue Like Morning Sky.

There was a bitter smile on their face, Blue Like Morning Sky belonged to the West Extreme State but Ye Mo took it away. when they saw Ye Mo later, they wouldn't even be able to ask.

Thus, none of them spoke and acted dumb.

Ye Mo's Blue Moon was astoundingly fast. In one day's time he came back to the demon lands entrance.

"what are you guys doing here?" he was confused. Even if they joined forces, he could easily kill them all.

Chapter 1453: Fly across abyssal river

"brother Ye..." these people were all silent, but LI Changtian said "demon lands is the most terrifying place in West Extreme State. never has a cultivator gone in and come back out. Brother Ye came out from there. I really want to ask about the situation. If we go in, would there be danger?"

So this was it, it was fine telling them about it so Ye Mo nodded "there's a lot of evil spirits and demonic spirits inside. Ordinary cultivators will die for sure inside. I have mist lotus heart fire and it's very high level so I'm not afraid of them. If you don't have high level heaven flame, it's very dangerous to go inside."

"pill king Ye, may I ask where the demon lands lead to?" Mu Feihuan asked the question everyone wanted to know.

Ye Mo nodded "it leads directly to South Peace State demon prison forbidden grounds. It takes me half a month to get to South Peace State from here, maybe even faster. This distance is so much shorter than going by the Heartless Sea. there's a river near this entrance. I guess it might be the abyssal river. I don't know where that leads to."

Ye Mo estimated with his own time. He didn't use the full speed of Blue Moon the whole journey. But if he went back at full speed, he would reach South Peace State in less than ten days.

"abyssal river is indeed below..." Wei Lanfeng blurted out.

Quan Lan suddenly said "I have a guess but I'm not sure. I'll have to know after going down and seeing."

Quan Lan then said politely to Ye Mo “pill king Ye, I thought I was top grade power in the cultivation realm but now I realise I’m a frog at the bottom of a well. In terms of power I’m far weaker than you. However, the demon lands concerns the future of our West Extreme State. we’re all about to immortal ascension, after we do and something happens at the demon lands, there would be nothing West Extreme State can do. so, I want to ask pill king Ye to take us down there to see the danger there and if it would threaten West Extreme State.”

All the other cultivators clearly thought the same too.

Ye Mo didn’t mind “of course, but after I reach the Abyssal river crossroads, I’m going to South Peace State. so I won’t be coming back with you guys.”

Ye Mo’s intention was clear, when you guys went back whether you live or die has nothing to do with me.

Wei Lanfeng long heard Ye Mo was level nine pill king and wanted to connect to him. He quickly went up and saluted with his fists “of course, pill king Ye. You’re level nine pill king so ordinary spirit herbs are useless to you. The endless forest has plentiful of spirit herbs. Here’s some high level spirit herbs, this is our gratitude to you for leading the way.”

He immediately gave a storage ring to Ye Mo. He saw Ye Mo could give up blue sword for spirit herb, he immediately knew that spirit herb were very important to him.

Ye Mo took it since it was given of course. After he scanned with spirit sense, he was shook.

Clearly, Wei Lanfeng selected them meticulously. There were level nine spirit herb Sha fruit and truth spirit grass. These were the main ingredients for disaster life pill and truth spirit pill and there were quite a lot of them.

This was a huge gift. Ye Mo took the storage ring and thought for a moment and gave him two jade bottles “thanks, your spirit herbs is very useful to me, I have some pills for you too.”

Mo Yue City lacks spirit herbs for development, these high level spirit herbs were very rare how could Ye Mo not take them.

“disaster life pill, truth realization pill...” Wei Lanfeng called out in shock. Spirit herbs didn’t equal to pills. Without a level nine pill king, these level nine spirit herbs could only be eaten raw. The effects would be greatly diminished. Pills were much more precious than spirit herbs. He really didn’t to receive such return after giving out some spirit herbs.

Li Changtian and Quan Lan couldn’t bear to watch anymore. They quickly took out the spirit herbs they had on them and traded with Ye Mo. Ye Mo accepted all.

The pills could increase the power of West Extreme State while the spirit herb would also be able to increase the power of South Peace State.

After this round of exchange, everyone was happy. Ye Mo got large sums of level nine spirit herbs while the West Extreme State people got the pills they wanted.

...

After Quan Lan and them followed Ye Mo into the demon lands, they realized why Ye Mo wasn’t afraid of the evil spirits in here at all.

With Ye Mo’s Heaven Flame Nine Suns, evil spirits couldn’t even get close. All they did was run away.

Due to this, everyone saw just how much evil spirits there was. They were like a black mist.

Wei Lanfeng immediately stopped and saluted with his fists “I won’t go, without a doubt, there would only be more of those things the further inside we go. I don’t have pill king Ye’s rare flame cultivation method, on the way back I won’t be able to get away.”

Everyone realized this too. Ye Mo could dominate here because he had Heaven Flame Nine Suns, if Ye Mo left what would they rely on staying alive?

Seeing everyone look at him, Ye Mo understood what they wanted. He nodded “okay in that case, I’ll send you guys out.”

One was because they didn't go very far and second was because Ye Mo got large sums of high level spirit herbs from them.

When they were back at the entrance again, Quan Lan said "pill king Ye, thank you for sending us out despite the past conflicts. I suspect that the two sides of the abyssal river leads to East Black State and North Far State. but I'm too weak to go inside, if pill king Ye has spare time, you can go in and try. Perhaps it would be just as quick to go to the other states as South Peace State."

Quan Lan really wanted to go to East Black State once before she ascended but flying across the Heartless Sea wasted too much time.

...

This was the second time Ye Mo stood at the Abyssal river.

It was calm just like when he came before and the countless evil spirits were gone.

He hesitated if he should go along here to visit North Far State. his arrangement with silver moon pill king was half a year or longer. Now was still very early.

Ye Mo thought for a while and couldn't resist going north along the Abyssal river. If it was similar distance as here to South Peace State, then he should arrive in five or six days if he went full speed.

The main thing was that Yimo was in North Far State and he hadn't been able to find her.

The abyssal river water was calm but it was very dark. Even Ye Mo's spirit sense couldn't scan very deep.

Ye Mo was desperate to go back to North Far State and so despite knowing that the abyssal river wasn't simple. So, Ye Mo flew faster and faster above the abyssal river.

At the started, there were some fine sands and black rocks on the two sides but after flying for a day, it was just mist. It was very obscure even scanning with spirit sense. the only thing was that this river got wider and wider. From the initial 100 meters to now almost one kilometer wide.

Ye Mo had the premonition that he would reach North Far State in three to five days.

It's only been half of the third day and Blue Moon suddenly sunk. There was a huge suction force from the abyssal river. Blue Moon was sucked to the surface and suddenly, there was a huge 100 meter tall black wave that wanted to drown Blue Moon.

Chapter 1454: River bed hollow immortal

Ye Mo had been through so much that these sudden attacks weren't very strange to him. The instant Blue Moon touched the river surface, Ye Mo hacked over with spirit sense blades.

At the same time, he felt Blue Moon been relieved and stabilized at the top of the huge wave.

Suddenly, the river calmed down, he almost would've thought he was hallucinating if he didn't see the ripples in the water.

Ye Mo put away Blue Moon and released Zi Xu. He didn't suffer from the ambush but it made him extremely unhappy.

His spirit sense couldn't scan into the river but Ye Mo used Illusion Cloud formation kill strike.

A huge purple sword rays sliced out a sword veil that was 300 meter long and 100 meter wide that shot into the river.

Rumble.

There was a terrifying explosion above the river. It seemed the river just lost a box of water. The water splashed out and Ye Mo realized that the water wasn't black, it was dark grey.

Because Ye Mo hacked so fast, water didn't have time to refill back into the river and thus the river appeared to have a huge ditch in its surface.

Rumble....

The water splashed back.

Ye Mo stood above in the air and didn't keep attacking.

Just then, he clearly saw a huge stone platform below the river. It seemed ancient as though it had been through countless ages but Ye Mo could only see one corner of that platform.

Ye Mo stood for a moment and then took out formation flags setting up a formation here. That stone platform was eerie. Ye Mo really wanted to know what it was for. Plus, the power that ambushed him came from the stone platform.

A day later, a level nine water separation formation was set up. As Ye Mo threw out the main formation flag, the calm surface suddenly split in the middle as though being cut in half. This time, the water didn't come back and quickly retreated to the two sides.

The rumbling continued for 15 minutes until the river was forcefully parted by Ye Mo.

Some evil spirits wanted to interfere but were instantly vaporized by Heaven Flame Nine Suns.

After the rumbling sound, the abyssal river was separated of an area, 10 km long and 1km wide. This section of the abyssal river completely exposed in front of Ye Mo.

There was the familiar sense of chaos that Ye Mo felt. Ye Mo had the golden page world and it was a chaos object. Ye Mo had an instinctive feeling that there was a chaos item here.

An ancient stone platform that was 100 meters in radius was completely exposed before Ye Mo. In the middle was a huge 8 trigram disk.

“seal flag disk?” Ye Mo called out in shock.

“you know quite a lot, this is indeed a seal flag...” a sound suddenly appeared by Ye Mo’s ear.

Ye Mo was shook and octagonal cauldron appeared above his head. He asked heavily “who is it?”

Ye Mo looked calm but he was actually extremely shook. With his power and spirit sense, he couldn’t find where this person was.

His spirit sense scanned out but before he could completely search this place, a figure suddenly appeared before Ye Mo.

It was an extremely skinny middle aged man. He stared coldly at Ye Mo.

He said coldly again “breaking the West Extreme State and South Peace State seal flag making the chi of Luo Yue continent spill and you even took one of my 8 trigram seal flag disk. On top of that, you killed countless sand soul beasts and setting up a level nine water separation formation to reveal the platform.”

He grunted and said again “you’re a prodigy I’ve never seen before. even in the countless magnificent cultivators in the immortal realm, I’ve never seen one who can match you. I believe you must have a lot of secrets on you. Otherwise, you wouldn’t reach such absurd extent.”

Ye Mo didn’t speak, he was still in shock. He could see the power level of this cultivator, he was far beyond truth realisation state peak stage. Meaning that he was a level higher than truth realisation state peak stage.

There were countless questions in his head. Those sand soul beasts were kept by this person? In that case, why didn’t he stop him when he killed them.

Judging by his words, he was also responsible for suppressing immortal ascension from Luo Yue continent. Why did he do this? since he did, why was he still at the bottom of this river? He also seemed to know everything he did, just what power level was he?

“you’re not truth realisation state cultivator.” Ye Mo suddenly said.

The skinny man looked at Ye Mo in shock “you can see my power level?”

“you’re indeed not truth realisation state cultivator.” Ye Mo panted. It was probably this guy who ambushed him.

Seeing that this man had no intentions of attacking, Ye Mo asked again “your power is beyond truth realisation state, why can you still stay in the cultivation realm?”

Ye Mo knew that truth realisation state cultivators can’t stay in the cultivation realm for long after reaching immortal ascension state. this was the law of the universe. When your power was beyond what was permitted by this law, you wouldn’t be able to stay under the law unless you controlled the law.

But controlling the laws of the heavens and earth, that was a joke, at least to Ye Mo it was.

However, this man replied calmly “when you’re at my power level and at my place, you will know that you can’t immortal ascension as well.”

“there’s something wrong with this dimension?” Ye Mo immediately asked.

The skinny man said calmly “no, the laws of the heavens and earth has been changed. Anyone below hollow immortal can’t immortal ascension. Not only can you not immortal ascension but you also can’t leave through abyssal river, you will know in the future.”

“you’re hollow immortal power indeed. This means you’ve been to the immortal realm right?” Ye Mo asked in shock. He actually encountered an immortal who couldn’t leave at the bottom of the Abyssal river.

“that’s right, I’ve been to the immortal realm, in a few hundred years, I would be able to return there but because of you, I might never be able to return. Tell me, how should I repay you...” the middle aged man stared coldly at Ye Mo.

Ye Mo regained his composure. This was too eerie, but it also seemed that this man didn’t stay here of his own accord. He was probably bound here by someone else. Who did it? what was the purpose of binding a hollow immortal here?

“when I was passing by, you purposely attacked and drew me down here, right?” Ye Mo asked.

The man said expressionlessly “that’s right, since you destroyed my path, I’m going to keep you here to make up for your sins. I’m going to mark your soul and you will do things for me and then come back.”

Ye Mo suddenly thought of the ancient chaos chi. He could still feel it now.

“you’re guarding something here right?” Ye Mo said and suddenly realized. Chaos items were more precious than the ten great spirit items.

The reason he locked the immortal ascension tunnel here was because he didn’t want to spill the chaos chi bringing over powerful beings in the immortal realm.

Chapter 1455: Is there something wrong with this oath

The middle aged man stared at Ye Mo in shock “you’re indeed smart, you can guess that I’m guarding something here.”

But Ye Mo still asked in confusion “you know I killed those sand soul beasts but you’re guarding something here, why are you still keeping them? After you finish your mission are you not going to ascend to the immortal realm but instead dominate Luo Yue continent?”

The middle aged man seemed to think Ye Mo couldn’t escape from him and said after some silence “I didn’t keep those sand soul beasts and evil spirits. My mission is just to stay and guard the platform, everything else has nothing to do with me.

“do you think that many sand soul beasts are needed to dominate Luo Yue continent?” the middle aged man said coldly seeing Ye Mo starting to contemplate again.

Ye Mo agreed to this. with that many sand soul beasts it was enough to annihilate the entire Luo Yue continent a few times.

Annihilate all Luo Yue continent cultivators? Ye Mo was scared by this crazy idea but then he immediately realized his idea was not impossible. If all those sand soul beasts left the forbidden grounds, how could the cultivators of Luo Yue continent not be slaughtered clean?

Thinking about this, Ye Mo’s mind cleared up. A powerful being in the immortal realm sealed a chaos treasure here. As for why he didn’t take it to the immortal realm, he was probably scared of being caught with it.

This powerful being knew that if the chi spilled, everyone would go crazy for it. thus, he sealed it in the cultivation realm and sealed the immortal ascension tunnel. As for those sand soul beasts, it was really probably to slaughter all of the cultivators on Luo Yue continent.

After all, if the space seal disappeared, then the Luo Yue continent cultivators would be able to ascend to the immortal realm. then, the fact that they couldn’t immortal ascension would be brought up and the immortal realm might send people down here to check. Then, they might find this chaos item.

So, after the powerful being takes the item, he might really annihilate the entire Luo Yue continent. Ye Mo was scared by his conjecture. This was too absurd but it wasn’t impossible.

“you ruined most of master’s plan, stay and help master finish the rest and you may be spared.” The middle aged man continued.

Ye Mo sneered, there was no way he was going to do that.

“it’s probably your master who stopped the immortal ascension here right? You want me to reseal it right? Those sand soul beasts are to annihilate the entire Luo Yue continent right?”

The middle aged man stared at Ye Mo in shock “no wonder you can reach truth realisation state level seven at such a young age. You’re much smarter than ordinary people but my master didn’t seal the immortal ascension here. My master just set up seal flags that blocked the calling of immortal ascension. Now that you damaged the seal flags, the cultivators can sense the calling of immortal ascension.”

Seeing that Ye Mo was dubious, the man continued “plus, it’s not just Luo Yue continent that can’t immortal ascension, the nearby cultivation realms also can’t.”

Ye Mo thought of Fang Yizong, the Black Rock city cultivators. They didn’t come from Luo Yue continent but they also couldn’t immortal ascension.

“then how come people can immortal ascension after I broke the seal flag.” Ye Mo definitely didn’t believe those flags just blocked the immortal ascension calling. He was a level nine formation grand master. He knew clearly that it stopped cultivators from immortal ascension.

The middle aged man also frowned and said after a moment “it’s probably because the immortal ascension tunnel was opened by someone else. Thus, when you damaged the seal flag, the cultivators sense immortal ascension calling.”

The middle aged man seemed to be very patient talking with Ye Mo probably because he hadn’t spoken to anyone for a long time.

After he answered all those questions, the middle aged man said “I’ve let you know what you should. Now, open your soul and let me make a mark. Then do as I tell you and seal those seal flags. I believe if you do these, master will let you go.”

Ye Mo looked at the man pitifully “to be honest, I’m not scared of you. The reason I’m speaking with you is because I feel you’re very pitiful. I can tell you for sure that the seal flags didn’t just seal the calling to immortal ascension, it also stopped immortal ascension itself. Believe it or not up to you. Your master used all means necessary to stop Luo Yue cultivators from immortal ascension and is even willing to slaughter the entire continent. Do you think he would let you go in the future? You’re naïve like a fool.”

The middle aged man heard this and dazed. After a while, he murmured “impossible, this is impossible. He swore to me, cultivators can’t just make oath casually.”

“he swore?” Ye Mo was confused. Cultivators couldn’t just make simple oaths. Unless it was some extremely powerful cultivator, ordinary cultivators would go through heart demon crisis if they didn’t follow their oath.

Seeing Ye Mo daze, the middle aged man sneered “you wanted to alienate me and master.”

Ye Mo sneered “I would have the time to do that? Don’t think of yourself too highly.”

The man suddenly grabbed at Ye Mo “since you don’t want to open up your soul then I’ll force a mark on you.”

The middle aged man just grabbed casually but Ye Mo felt all the space nearby squeeze at him.

This wasn’t domain. Ye Mo was shook, this the pressure of spirit chi. Hollow immortal cultivator was this powerful?

Ye Mo hacked out with Zi Xu using Illusion Cloud Hua Mountain strike at full power.

Thud.

Sword and palm struck each other rattling the space here. Some purple sword rays even sliced out black crevices.

At the same time of the collision, Ye Mo felt a powerful concussion. He really wanted to stop himself but he still flew back smashing into the level nine water separation formation.

His dan tian rustled and Ye Mo almost spat a mouthful of blood. The next moment, Ye Mo immediately flew up. He knew he was no match for this person.

But then, Ye Mo immediately felt a powerful pressure. He was sealed in this space. He set up this water separation formation but he couldn't go out. Ye Mo realized, when he came into the river, he was already under this man's control. No wonder he wasn't scared that he would get away.

He intentionally let him set up the formation or he wouldn't be able to do it at all. Ye Mo knew that hollow immortal must be a huge level above truth realisation state but he didn't expect the gap to be this huge.

He couldn't get away so Ye Mo stopped. Even if he had to fight with his life, it didn't mean he would lose to this guy. He had so many means he hadn't used yet.

This hollow immortal was more shocked than Ye Mo. He knew Ye Mo was powerful or he wouldn't be able to slaughter a few hundred million sand soul beasts. That kitchen knife of his is very extraordinary, he didn't expect to be injured by it.

He looked at his bloodied hand. He suddenly felt much more sober. He had stayed here for countless years unable to cultivate. He could only just sit here.

The thing he didn't want to think of the most was why he stayed here.

Ye Mo saw this hollow immortal just look at his palm and have no intention of fighting so he stopped. He was thinking of how he could kill this hollow immortal.

The hollow immortal cultivator suddenly looked at Ye Mo "do you know my power level?"

"yes, you're a hollow immortal cultivator." Ye Mo was confused why this guy asked something irrelevant.

The middle aged man nodded "that's right, I'm a hollow immortal cultivator but I, Cheng Shen, am no ordinary hollow immortal cultivator. I rarely have a match in the same cultivation level. You can injure me with one strike meaning that with your power, you can kill ordinary hollow immortal. So, I know there's no need for you to alienate me."

He paused and said again “master told me like this at the time “if Cheng Sheng can keep his oath and stay in the cultivation realm for 12000 years guarding all of the Abyssal river stone platform, I, Lu Zhengqun will never harm him at all. If I disobey this oath, I will be struck by lightning and lose my soul under the divine damnation, never to have a second chance again.”

He then stared at Ye Mo and asked “do you think there’s a problem with this oath?”

Chapter 1456: Chaos item

Ye Mo heard this and immediately sneered “you’re really an idiot. There’s a few problems with the oath and only you would believe it.”

“what problem?” the cultivator’s face changed he clearly realized there was a problem with this oath but he didn’t know where the problem was.

Speaking with Cheng Sheng for so long, Ye Mo knew this guy was no evil person and was even too honest. But indeed, that powerful being wouldn’t pick a dodgy person to guard this priceless treasure.

Ye Mo didn’t answer directly and instead asked “the thing you’re guarding is very significant right? Or perhaps only after 12000 years could it be taken from here?”

Cheng Sheng nodded “that’s right, so I need to wait till 12000 later, ma... he would come and take it, then I can return to the immortal realm.”

Ye Mo said in contempt “what if you left after 11999 years?”

Cheng Sheng rebuked “impossible, I would never leave before 12000 years. If I don’t leave no one can force me.”

“oh, were you sealed here by yourself?” Ye Mo asked again.

“no.” Cheng Sheng shook his head.

“then what if the sealing dimension binding you here disappears, what would happen to you?”

“ascend immediately...”

“what if before 12000 years, this seal suddenly disappeared. Can you still stay here?”

“I can’t...” Cheng Sheng’s face seemed extremely bad. But he still said “he wouldn’t be like this, he made an oath...”

Ye Mo sneered “someone who can annihilate the cultivators of an entire cultivation realm would do this? are you cheating yourself? Plus, he doesn’t even need to add the time frame of 12000 years. He just needs to say that you will guard this thing for him and when he comes your mission would be over.”

Cheng Sheng’s face grew more pale, Ye Mo then said coldly “there’s another loophole to this oath. Even if you stuck to the 12000 th year you would still be dead for sure.” (Boxno vel. co m)

He looked at Ye Mo and didn’t have the mood to care about the second loophole. Since that person intentionally left loophole, it meant he wanted him dead.

“that person swore, he, Lu ZHengqun, wouldn’t harm you at all but what if someone else came and harmed you?”

Hearing this, Cheng Sheng completely realized, he was used for more than 10000 years.

“Lu Zhengqun, you’re such a high up figure but you trick someone with no fame like me, I hate you...”
Cheng Sheng gritted his teeth.

Ye Mo looked at him in confusion “what are you hating about? I’m a level nine formation grand master. I’m going to go out. After I break the binding space you can leave? When you reach the immortal realm, you can find a place to cultivate and bid your time to get revenge?”

Cheng Sheng clutched his head painfully “you don’t understand, I don’t have a chance for revenge. I’m certain that if I immortal ascension, I would be controlled immediately. You haven’t been to the immortal realm, you don’t know how powerful he is. And, I would bring trouble to my sect.”

He fell into a long silence before looking up at Ye Mo “friend, I want you to help me. I’m dead for sure, I can’t leave here at all and I can’t ascend into the immortal realm. so, one day when you ascend into the immortal realm, please bring a message for me to Extreme Wind Heaven, Void Lake sect...”

Then, he shook his head “never mind, even if I tell the sect it would just bring trouble. Plus, you would never be able to leave here.”

Ye Mo shook his head, this Cheng Sheng was so hesitant and indecisive. No wonder he would be schemed. But Ye Mo didn’t believe that there was no chance he could leave here. He even left the void fissure, how could this space binding confine him?

“I’m definitely not going to let Lu Zhengqun take this. I’m going to self destruct now. I can only say sorry to you. Although I shouldn’t have tricked you down here but even if I don’t self destruct, you still won’t be able to leave. When Lu Zhengqun comes, you would be dead for sure.” Cheng Sheng said.

Ye Mo waved his hand “wait, I’m going to take the thing you’re guarding first. Plus, I haven’t found a way out yet.”

There was no way Ye Mo could help him, he might as well get the chaos item away first.

Cheng Sheng shook his hand “you don’t need to look for an exit, even if you try countless years here you won’t be able to leave. Do you know the power of Lu Zhengqun? Perhaps if you cultivate for another few hundred thousand years you might reach one tenth of his power level. As for that thing, don’t even think about it. even if you can go out, you would die for sure having that thing. Even if Lu Zhengqun doesn’t kill you others will. Even with Lu Zhengqun’s terrifying power and status, he doesn’t dare to keep that thing by his side.”

Ye Mo still wanted to persuade Cheng Sheng but his power completely burst out. The entire river bed space was shaking with this.

The power of hollow immortal self destruct was very powerful indeed. Ye Mo knew it was impossible to stop the self destruct with his current power. He cursed this Cheng Sheng for being an idiot. He could die himself but he wouldn't even let him take the chaos item. What a bastard. He couldn't even take his storage ring.

Space went chaotic. Ye Mo knew that if he stayed here he would be asking to die.

Ye Mo went into the golden page world without hesitation.

Cheng Sheng saw Ye Mo suddenly completely disappear before him. He dazed but before he could understand, his body completely exploded apart.

Rumble. A terrifying explosion sounded. The stone platform was blasted apart. Even though Cheng Sheng stayed at the cultivation realm for countless years, his immortal essence was still very powerful. Ye Mo's level nine formation tore apart like paper.

A hollow immortal self destruction probably wouldn't cause a ripple in space in the immortal realm but in the cultivation realm, it was truly astonishing.

Water filled the place immediately.

Ye Mo threw out a surveillance formation. The explosion disappeared and only a splite apart stone platform remained. There was still not a drop of water around there.

Ye Mo immediately knew that the space below it was probably sealed too.

Ye Mo appeared on the platform, Cheng Sheng was gone but Ye Mo found in surprise that the space started to loosen.

This meant that he could go out. This also proved his guess was right. This space sealing would definitely loosen before 12000 years.

But pity, that chaos item was destroyed by the self destruction. Ye Mo shook his head and wanted to leave but suddenly, he saw a semi circle transparent restriction below the platform. There was an inch tall sapling.

Was this the thing that emitted chaos chi? Ye Mo looked at this sapling. It was more like a sprouted herb.

Ye Mo really couldn't connect this herb to a chaos treasure but it emitted the chaos chi.

No matter what he would take it first. The restriction was tough but after Cheng Sheng's self destruction and Ye Mo's expertise in formation and restriction, it was removed quickly.

Ye Mo dug out the earth near the sapling and sent it all to the golden page world.

Other people couldn't have this but he could. Golden page world was a chaos item itself. Other than him, no one could send his spirit sense inside.

Ye Mo immediately felt the chaos chi here disappear. Then, he hacked with Zi Xu and the space binding was dissipated. River water splashed back in filling the place.

At this moment, Ye Mo stood above the river but didn't leave immediately. He started to take his formation flags.

After all that, Ye Mo released Blue Moon and disappeared.

Chapter 1457: The origin of the young palace lord

In the depth of the ice god palace, a blue dressed young girl scurried along a pebble stone path to a room on the right.

Before she got to the door, the door opened. A yellow robed girl waved to her at the door signaling the blue dressed girl to hurry.

When the blue dressed girl went in, the yellow robed girl hurriedly used a few formation flags and asked worriedly “what happened Ting Ting, why did I hear that the palace lord almost killed you today?”

“sister Qi, keep your voice low.” The blue robed girl said worriedly.

“It’s fine, this is the restriction formation disk my master gave me, no one would be able to hear it. just what happened, I’m so worried.” Qi Qi said again.

“the palace lord left and gave over management to me and the big elder. Sister Qi Qi what do we do?” Ting Ting patted her chest and said.

Qi Qi frowned “Ting Ting, tell me first why did the palace lord want to kill you?”

Ting Ting collected her thoughts before saying “the maid Xiao Ji who guarded the soul cards so second young master Lang Yue’s soul card shatter...”

“what? Lang Yue is dead?” Qi Qi asked in shock.

Ting Ting nodded “yes, palace lord wants to kill Xiao Ji. I begged for mercy and I almost angered the palace lord...”

Qi Qi said angrily “they don’t treat weaker cultivators here like human, they have no human rights at all.”

“sister Qiqi keep quiet, if people hear us, we’re over. I heard that palace lord said she and big elder might immortal ascension. After they left I will be the palace lord, I’m definitely going to change this rule.” Ting Ting added.

“is this real?” Qi Qi asked happily.

Ting Ting nodded “the palace lord told the other elders to help me so don’t get too happy. My authority will be limited.”

Qiqi said in contempt “you’re really dumb, those truth realisation state elders aren’t interested in the Ice God Palace authority at all. They just care about cultivation and resource. We’re young but where do we come from? the birth place of political fighting. Simply put, draw close, separate them and strike them individually... but most importantly, we have to improve our own power.”

“what do you mean?” Ting Ting asked.

“you’re really... draw close to those powerful cultivators, open up cultivation resource. Don’t be stingy with that. These cultivators don’t refer to the truth realisation state elders but the middle class. You must be respectful to those truth realisation state elders before your power reach a certain level. Meanwhile, find opportunities to make the truth realisation state elders have bad impressions of the two sons. Meanwhile, create conflict between the two sons and the people loyal to them. Then, use the opportunities to strike some weaker cultivators who support those two.” QiQi said.

Ting Ting looked at Qiqi in shock “sister Qiqi, you’ve really changed a lot.”

Qi Qi sighed “this is all forced. If I don’t change I die. I don’t have brother Lin’s power, otherwise, once you become palace lord you can do what you want.”

“sigh, brother Lin is even weaker than us here. He cultivates ancient martial arts, we are immortal cultivators.” Ting Ting sighed “I just want to find my mum but I still don’t know how she is, I’m really worried.”

Clearly, these two girls were from earth. Ting Ting was Yun Bing’s daughter and Qiqi was An Ning’s sister An Zhiqi. They were rather lucky, as soon as they came to South Peace State, they were chosen by Ice God Palace. However, Yun Bing didn’t come with them.

Ting Ting’s talent was very absurd and with her beauty, she was favoured by the palace lord and became the young palace lord.

Qiqi sneered “what is there to worry about. palace lord Yin controls all the power. Her two other useless sons might not come back too like the second son. I’m just golden core state and you’re just nascent soul state. we’re too weak. When our power is up, we can decide whatever.”

...

Ye Mo flew rapidly on the way. This time he didn’t encounter anything at the abyssal river. In a short two days, the abyssal river ended.

Ye Mo landed. He didn’t know if this was North Far State but he didn’t see the sand stairway like in the South Peace State and West Extreme State.

Ye Mo searched carefully nearby with his spirit sense.

Half an hour later, Ye Mo finally found a stealth formation. He was certain that even if Quan Lan came she wouldn’t be able to find this stealth formation unless the person was a level nine formation grand master like him.

There was a exit seal in the stealth formation but Ye Mo didn’t break it. he didn’t need to break it to go out. He just threw down a few formation flags and easily left.

Water flowed in from all directions and Ye Mo separated the water from him with cultivation essence. he knew he appeared below water again.

The water here didn’t seem to very deep. When he submerged out, he was dazed. He was familiar with this place, he had been here before.

It was Dual Heart valley Dual Heart lake, the place where Hai Tong stayed, it was the most beautiful location in the Dual Heart valley. Ye Mo didn’t expect this place would lead to the abyssal river.

Thinking about Hai Tong, he thought of Ao Qiandie.

"I wonder what happened to that woman." Ye Mo said and then had decided to check on Hai Tong first before seeing if he could annihilate the thing sealed at the All Her Mountain ranges.

Ye Mo believed his current power would only be higher than Chu Xiaoyi. With his expertise in formation and seals, he had to try no matter what.

His Mo Yue and Yimo were all in North Far State, he couldn't feel secure having a disaster that could break loose at anytime.

But when Ye Mo released his spirit sense, he dazed. Hai Tong's residence was demolished, the entire Valley was demolished.

Ye Mo immediately realised that Dual Heart valley was annihilated. Not a single cultivator remained. Who had the power to do this?

He and Tang Mengrao came here before and this would be advertised out by the sect.

Now that they were still annihilated, it meant that the culprits didn't fear him and Tang Mengrao. Who was it? even if he wasn't here, did they not fear the jade woman sect? it's an 8 star sect.

Ye Mo was certain that Wang Yue sect wouldn't do this, purely because Shan Di didn't dare to.

Ye Mo flew into the air and felt the strangeness of space here.

It didn't seem to flow smoothly, it was as though it was broken and then filled.

Ye Mo immediately thought of the nine headed void devouring bug. Only it had the gift of devouring space. Only an extremely powerful cultivator would notice devoured space and Ye Mo was that cultivator.

"how can there be that here?" Ye Mo released Blue Moon and disappeared.

Ye Mo immediately flew to the All Herb mountain ranges. If no one touched the seal, it should remain intact for a hundred years.

The tunnel was still shut but when Ye Mo saw his spirit sense could scan into the hexagonal hall without resistance, his face changed.

Chapter 1458: This I really know

Ye Mo's face was really bad as he stood inside the collapsed hexagonal hall. The marks were fresh.

Ye Mo scanned around and saw half of a necklace. Ye Mo picked it up, it was half of the necklace Chu Xiaoyi left behind.

It was exactly the same and Ye Mo thought of Ao Qandie immediately. Hai Tong said this was very important to Ao Qandie. This meant that Ao Qandie came here and something happened.

Ye Mo picked up this half of the necklace and flung his hand out. The blocked tunnel were opened.

The hall with the fake orbs were still there. Ye Mo passed it and saw the space behind, it looked very ordinary now.

Ye Mo instantly came to the sealing sacrificial platform, the seal was indeed broken.

The thing that was sealed had left. Ye Mo thought of the necklace and immediately knew that it definitely had something to do with Ao Qandie. She was a mad woman, she could bring a beast tide to attack North Far State, what else couldn't she do?

She was not only crazy but also dumb. She didn't even know what was sealed here. If she was devoured by the nine headed void devouring bug then it served her right.

"hello, little thing, long time no see. I knew you were no ordinary thing before and now indeed you came here..." a voice suddenly appeared behind Ye Mo.

Ye Mo turned around and looked at this young cultivator “Xue Youfeng, long time no see, you found yourself a good looking body.” (Boxno vel. co m)

“you’re truth realisation state tertiary stage. How, how is that possible...” Xue Youfeng said bitterly.

Xue Youfeng’s face burst red, and replied “even if I’m cauldron filling state, I won’t be weaker than you. If I abandon this body I can still kill you.”

“oh...” Ye Mo said casually and suddenly rose his power. Space immediately condensed with this.

This was his domain, he didn’t use cultivation essence, it was his will.

Xue Youfeng dazed and before he could react, Ye Mo’s cultivation essence giant hand grabbed over and flung him up like a chicken. Then, he said calmly “Xue Youfeng I really want to know how you are going to kill me by giving up your body.”

“you...” Xue Youfeng’s face burst red but he couldn’t say a thing.

Ye Mo casually threw him down and said slowly “I would’ve killed you long time ago if it you didn’t guard this seal for so many years.”

Xue Youfeng stared at Ye Mo in shock “your power has surpassed Chu Xiaoyi, how is that possible?”

Ye Mo just asked “did you break the seal?”

Xue Youfeng immediately cried out “god knows which bastard did it? I’ve guarded the seal for so many years, how can I do that? If I wanted to do this I wouldn’t wait till now. for this seal, I was stressed everyday...”

He sneaked a glance at Ye Mo. Seeing that Ye Mo still didn't talk, Xue Youfeng didn't dare to keep bullshitting and smiled "you know, I treated you quite well. I gave you the tail feather of the golden perch and the five element mobility..."

Ye Mo sneered "why don't you say you gave me a bottle of heaven glory pill?"

Before he didn't know if there was a problem with the pill but now that he was truth realisation state and level nine pill king, he immediately knew the problem with it. there was a spirit sense inside and if he ate it, the spirit sense chi would stick to him.

Xue Youfeng smiled awkwardly "look, I like your personality and I was scared I wouldn't be able to see you again. Plus, it's just a spirit sense chi, you can remove it in a second with your current power."

Ye Mo asked again "what are you doing back here? Quite coincidental, as soon as the seal broke you came back here."

Xue Youfeng quickly explained again "this really has nothing to do with me. you know the jade slip I left behind.... I wanted to take something I forgot to take before seeing that the seal is broken."

"what is it?" Ye Mo knew that this guy was probably here for the painting but he still asked.

"it's just a painting, I left in a rush and forgot to take it. this time I happened to come by, so i..." Xue Youfeng explained.

"oh." Ye Mo said "go take it, I still have a few questions for you."

Xue Youfeng quickly said "no need no need, I suddenly feel that I know all the five element magic inside. I'm very free right now ask me whatever you like. "

His spirit sense already saw that the painting was gone, how could he not know that Ye Mo took it.

Xue Youfeng's face went awkward, he didn't know the first question Ye Mo asked so he guessed "I think it's either Chu Jiuyu or Chu Xian."

Ye Mo changed a question knowing this guy was so bad at lying "do you know what's sealed inside?"

"this I really know..." but then, his face looked more awkward as it showed his previous answer was a guess.

Seeing that Ye Mo wasn't angry, Xue Youfeng breathed easy and said "it seals Hong Yixing that monster. He has a nine headed void devouring bug, it's very terrifying. It's an ancient bug that can devour space. With the help of that bug, even Chu Xiaoyi is no match for Hong Yixing. I don't know how he tricked Hong Yixing here and sealed him. But I owed him, I promised to guard this place for him for 500 years and he could give me an Immortal Curl Flower. But I waited countless 500 years but I still didn't see him. Thus, I had no choice but to possess someone."

Ye Mo nodded "Chu Xiaoyi qian bei didn't intentionally trick you because he already died at West Extreme State. he arranged for Chu Xian to deal with you but he also disappeared too."

"what?" Ye Mo didn't expect that Xue Youfeng's eyes actually went red for this. after a long while, he said in disbelief "who can kill him? His power is pretty much Luo Yue continent number one...."

Ye Mo thought that without the golden page world, Chu Xiaoyi went to the formation heart of the 37th domain. he was indeed invincible. Chu Jiuyu was his disciple, he probably didn't even reach truth realisation state at the time of Chu Xiaoyi's death.

"who killed him? I need to visit his grave." Xue Youfeng completely forgot his life was in Ye Mo's hands. Although he cursed Chu Xiaoyi for not being trust worthy but Chu Xiaoyi meant quite a lot to him.

He explained "brother Xiaoyi is the only person I respect, his character is unparalleled."

Ye Mo hadn't seen Chu Xiaoyi before but from how he devoted his entire life to North Far State, he also respected Chu Xiaoyi. Ye Mo hesitated for a moment and said "I'm guessing Chu qian bei was harmed by people from above."

Chapter 1459: Encounter Hong Yixing

Ye Mo asked directly “do you know where Hong Yixing took that disgusting bug to?”

Xue Youfeng quickly answered “I know he went to Long Grave hill and roared for a while and then annihilated Wang Yue sect before heading south.”

“Wang Yue sect is annihilated too?” Ye Mo was shook and immediately thought of Pei Hai city. This guy didn’t go there right.

Just when Ye Mo wanted to leave, Xue Youfeng said “yes, I’ve been keeping watch of him. He said at Long Grave hill, he was going to eat alive whoever dared to take his mist lotus heart fire...”

“Hong Yixing put the mist lotus heart fire there?” Ye Mo asked in surprise. When he took the mist lotus heart fire, he guessed someone had put it there. He realized what the fire eating bug demon meant when he said old man Hong, it was Hong Yixing.

With this, Xue Youfeng immediately knew that Ye Mo took it.

Ye Mo was very desperate thinking about Pei Hai city. He released Blue Moon and just wanted to head there when he suddenly asked “is Hong Yixing a guy who wears a grey robe and has a pale face?”

Xue Youfeng’s spirit sense also scanned Hong Yixing who was a few thousand km away and immediately said “that’s right, it’s him.”

Hong Yixing seemed to be hunting a cultivator. That cultivator’s speed was on par with Hong Yixing. Ye Mo released Blue Moon and headed over without hesitation. He also felt strange, there was actually someone who could escape from Hong Yixing in North Far State.

Seeing Ye Mo chase over, Xue Youfeng licked his lips “there’s a good show to watch...”

...

After Ye Mo refined Blue Moon again, it's speed had surpassed half immortal artefact. Ye Mo quickly pulled close to them.

Both Hong Yixing and the one being chased felt Ye Mo's presence and scanned their spirit sense over.

Hong Yixing was furious. It had always been him who chased people who dared to chase him. He didn't believe Ye Mo was a friend, he never had friends, only enemies.

If it was some ordinary person, he would've sent his nine headed void devouring bug to finish things up but Ye Mo's speed was extremely fast and he was truth realisation state tertiary stage. He didn't want his nine headed void devouring bug to risk it.

But seeing Ye Mo's magic artefact to be beyond half immortal artefact, he was immediately touched.

He gave up chasing that cultivator and stopped to wait for Ye Mo. Seeing this, the cultivator didn't keep running and watched here too.

Not running from this cruel Hong Yixing, Ye Mo approved of this cultivator. However, this cultivator saw he was standing off with Hong Yixing and came closer instead.

Xue Youfeng who followed also came here. He called out from a distance "old demon Hong, long time nos ee."

"Xue Youfeng, I was troubled not being able to find you. You've got balls to appear before me. do you think Chu Xiaoyi would still be here?" Hong Yixing said furiously.

He really wasn't afraid of Chu Xiaoyi appearing here. He was only sealed because he was not careful before.

Xue Youfeng sneered "I sealed you for 10000 years, how can I be scared of a guy who relies on his bug pft!"

“haha, so you sealed this bastard, satisfying.” The cultivator who was chased before sneered too.

Hong Yixing was extremely furious “sealed by you? Do you have a face or not? A petty bastard barely surviving with his essence spirit for countless years in a small temple has the face to say he sealed me. I’ll let you be pet food for nine nine...”

Then, Hong Yixing waved and a three headed nine headed void devouring bug instantly appeared by his side.

Xue Youfeng knew he was a far cry from Hong Yixing so he retreated again now that Hong Yixing attacked.

“die...” Hong Yixing punched his fist at Ye Mo, he didn’t even use his nine headed void devouring bug.

This was the first time Ye Mo had seen someone attack him with a fist. It was normal sized when Hong Yixing first punched but in the blink of an eye, it was the size of a bucket. When it was above Ye Mo’s head, it was a huge metal hammer that was 10 meters wide.

Xue Youfeng and that cultivator retreated quickly.

Hong Yixing was on par with Chu Xiaoyi, Ye Mo wasn’t scared of him but wouldn’t underestimate him. His cultivation essence burst out into Zi Xu forming a purple ray hacking at Hong Yixing’s fist.

Crack, this sound made Ye Mo think Zi Xu didn’t hack a fist but a magic artefact tougher than his Zi Xu.

Hong Yixing and Ye Mo flew back at the same time. Ye Mo’s cultivation essence rustled, he was shook, Hong Yixing’s cultivation essence was on par with him.

But Hong Yixing was more shocked than Ye Mo. With his dense cultivation essence, he wasn’t even scared of a hollow immortal. The only thing was that his cultivation essence couldn’t compare with immortal essence. he didn’t expect the invincible cultivation essence he had from a lucky fortune didn’t get any advantage with Ye Mo. He even suffered a little.

Hong Yixing looked at the blood gash on his fist and suddenly released a grey bead. He used multiple spells and this bead like his fist instantly expanded.

Rumble...

Countless grey mist spurred out instantly covering the surround area.

Xue YOufeng and the other cultivator retreated quickly. Even a truth realisation state cultivator was dead for certain against such terrifying corrosive mist. The two looked at each other and clearly were ready to run. They would run as soon as Hong Yixing killed Ye Mo.

“who is this guy, he seems very powerful but why did he get devoured by that grey mist immediately? Even I can’t get away from that mist, he’s dead for sure.” The running cultivator asked Xue Youfeng.

Xue Youfeng sighed “a cocky guy, I thought he was powerful and scared me quite a lot. But he doesn’t seem to be able to withstand a hit.”

Then, he looked at the cultivator and said “brother you’re not bad too, you were hunted by old demon Hong for so long and yet you decided to stay and watch the show like me.”

Seeing Xue Youfeng patronize him, the cultivator sneered “if it wasn’t for that bastard’s nine headed void devouring bug how can I be afraid of him?”

“don’t bull shit.” Xue Youfeng said in contempt “can you stop his bead? Lil brother, get ready to run.”

XUe Youfeng took out a transmission rune.

There were the subtle screams of countless souls in the grey mist. These grey mists not only had the powerful effect of devouring essence spirit but had a greater corrosive effect.

But Ye Mo wasn't scared, his essence spirit was very stable, he didn't even fear the demon prison three birth bridge, how could he be scared of this? as for the corrosion, he had already shielded himself with his powerful domain. even if he didn't, it wouldn't be able to do anything to him.

He was a god state body refinement cultivator. Ye Mo called out shadowless without hesitation.

These things were top grade nourishment for shadowless, he couldn't waste it.

Seeing Ye Mo get devoured by the mist, Hong Yixing sneered "cocky wan bei, letting you die like that is too easy on you, devour...."

Nine headed void devouring bug was tired of waiting and charged at Ye Mo like crazy with Hong Yixing's order.

Chapter 1460: Endless lightning sword

He felt space was missing, Ye Mo knew this was the nine headed void devouring bug's gift, devouring space. If it was nine headed, Ye Mo would run as far away as possible but he wasn't scared of a mere three head.

When he expanded his domain, he also let out the defensive power of god state around him.

Crack... the three mouths bit onto Ye Mo's domain at the same time. However, this time, space wasn't devoured, it just rattled.

This was just his natural ability, it didn't mean he was more powerful than beings who could tear open dimensions. Facing against Ye Mo's powerful domain, it was immediately limited.

Before Hong Yixing could be shocked with Ye Mo's domain, he stared at shadowless in shock "shadowless bug..."

More than half of his grey mist had been devoured. Shadowless was like a mist sucking machine.

But at this moment, shadowless stopped and screamed. There was an intense desire to devour from shadowless. It dashed to Ye Mo and stared at the nine headed void devouring bug that was countless times bigger than him.

It seemed very funny that a pea sized thing stared at something ten thousand times bigger than it and wanted to devour it.

But this wasn't funny at all. Void devouring bug already saw shadowless and released the space he couldn't devour. He started to retreat and there was fear in his eyes.

The nine headed void devouring bug was fearful, shadowless hadn't grown but so wasn't he. It could devour space but shadowless could devour it. even if it devoured shadowless first, shadowless could devour it from the inside.

Seeing shadowless about to devour the nine headed void devouring bug, Ye Mo felt disgusted and quickly called "go back to devouring the grey mist. If you eat that disgusting thin you don't need to stay with me anymore. He had never seen something more disgusting than the nine headed void devouring bug and yet shadowless wanted to devour the nine headed void devouring bug.

(Boxno vel. co m) There was a sliver of dissatisfaction in shadowless's eyes and it didn't want to retreat.

Seeing this, Ye Mo expanded his domain and Zi Xu brought a vibrant purple ray hacking at nine headed void devouring bug.

Instead of letting shadowless eat this bug, he might as well kill it.

Although the nine headed void devouring bug had three heads, it was countless times weaker than nine headed.

Crack, the nine headed void devouring bug reacted a little slow and one of its head was sliced off. Before it could leave, Ye Mo burned with fire.

The head instantly turned to dust and so did the essence spirit on it's head.

The nine headed void devouring bug screamed and spat a grey blood mist.

"nine nine..." Hong Yixing saw this and called out in shock. He was immediately going to bring nine headed void devouring bug back. The nine headed void devouring bug had his essence spirit shards. Even he felt dizzy after Ye Mo destroyed a head.

"mist lotus heart fire..." Hong Yixing looked hatefully at Ye Mo and said word by word "so you stole the mist lotus heart fire I left at Long Grave hill. I said I'm going to eat you..."

Ye Mo stopped him in contempt "Hong, stop bluffing, I already cut a head off your disgusting bug. I want to see how many more heads I can cut off. By the way, the nine headed void devouring bug soul at South Mountain market also belongs to you right? I killed it too, I've cut two heads off your bug already. I want to see how many more I can cut."

Then, Ye Mo yelled at shadowless "hurry up and finish eating, stop wasting time..."

Hong Yixing only knew now that Ye Mo killed another of his essence spirit shards. He was furious and couldn't even be bothered talking this time. He slapped himself in the forehead and a crack opened up.

Black rays emitted from his forehead. They were rapid like lightning and instantly covered this entire space.

Ye Mo had seen this before, when he killed Mo Qianli, he used the evil soul strands.

Hong Yixing's ones were countless times stronger than Mo Qianli, the strands seemed to have its own soul.

At this moment, shadowless finished devouring the grey mist and even ate the bead. However, it didn't charge up at the evil soul strands, it couldn't devour that yet.

Those strands charged at Ye Mo and shadowless.

Xue Youfeng and the other cultivator saw shadowless had finished devouring the mist.

“powerful indeed....” Xue YOufeng said and quietly put away the transmission rune in his hands but as soon as he did, Hong Yixing released the evil soul strands.

“evil soul strands...” the two exclaimed at the same time.

They had never encountered this but they knew its power. Cultivating this needed countless tortured souls. It was an extremely hard demonic cultivation method. The higher the level, the higher the requirement on the soul was. Where could this young cultivator go now?

Xue YOufeng put that transmission back in his hands quietly.

Ye Mo didn't let shadowless charge up. These old monsters who had lived for countless years were indeed powerful.

Against an opponent of the same level, Ye Mo had no habit of using defensive means. He waved his hand and lightning swords were released.

Rumble.

Thunder cracked in the sky, Hong Yixing heard this and looked up into the distance in shock.

Before he could react, countless lightning swords fell. Ye Mo's spirit sense was more powerful now and the lightning swords rained densely like rain.

Countless lightning sword struck the evil soul strands.

Terrified screams sounded from the evil soul strands and they twisted and contorted before turning to dust in the black lightning swords.

it was this weak?

Ye Mo dazed and realized, his lightning sword had reached a very high level. Those evil soul strands were formed from tortured souls, they naturally feared lightning.

“lightning element....” Hong Yixing’s face changed. He didn’t expect Ye Mo was lightning spirit root and such absurd attack.

For the first time, Hong Yixing felt a little cold. He had only been out for a few days and didn’t encounter some Chu Xiaoyi but he encountered a young cultivator more absurd than Chu Xiaoyi. At this moment, he wanted to leave. Staying here would only mean he would keep getting countered by Ye Mo. If he didn’t leave quickly, he might even be killed.

“he’s actually a lightning element cultivator...” Xue YOufeng and the cultivator called out in shock.

How could Ye Mo let Hong Yixing run. He knew lightning sword countered the evil sul strands and released even more.

With this, Hong Yixing’s face looked worse. He knew that if he didn’t use his trump card, he wouldn’t get the chance to. He raised his hand and a half grey dagger appeared in his hand. He sliced through the air at Ye Mo with this.
