Chapter 1491: Revenge is hopeless

Nangong Xu made Xu Tong shut up.

Ye Mo was speechless, he wasn't planning on helping Lin Yiban get back the Nangong village but now that it was uncertain if the village even belonged to them to begin with, the more he couldn't intervene in this.

At this moment, a flying sword suddenly flew in and landed on Xu Tong's hands. Xu Tong looked at it and there was overjoy in her face "Yiban is back, he's in Yu Ou city."

Then, she got up, clearly she couldn't wait to see him.

Ye Mo glanced at Nangong Xu, he was certain that Lin Yiban wasn't back due to the Nangong family. They were testing his bottom line, if he didn't overreact, then Lin Yiban might never come back. There was no way Nangong village could leave an enemy like that growing in the Mo Yue City.

But Ye Mo's reaction was far beyond their anticipation and said multiple times he would annihilate the village, thus, there was news of Lin Yiban so quickly.

Ye Mo suddenly asked "is brother Lin injured or not? If he's injured just a little bit, I will get it back for him."

"no, Yiban says he's very fine, if I go back to Mo Yue City, he would go back immediately too." Xu Tong said.

Ye Mo nodded "it's not far from Yu Ou city here, tell him that we'll come over soon. If he's injured I will come back."

Hearing Ye Mo's threats, the Nangong village cultivators were furious but no one dared to say anything. Anything that Ye Mo did wasn't something the Nangong village could defend against. No matter how

powerful they were, they weren't as powerful as the Pill City and the thousand km of spirit devouring bugs.

Ye Mo got up, he came to bring Ye Zifeng back but now they were basically enemies. Even though he came, Ye Zifeng was still like this meaning he had made up his mind.

Ye Ling was still hesitant but seeing how Ye Zifeng almost forced Cheng Nana to suicide, she got up with Ye Mo without hesitation and left the village.

Ye Mo looked at Nangong Xu and smiled before adding "sect leader Nangong, you better not give me an excuse to annihilate the Nangong village. If I have this excuse, I will annihilate it without hesitation."

Nangong Xu was shaking with anger but there was nothing he could do. power was everything in the cultivation realm. Ye Mo seemed unreasonable but there really weren't much like him.

If it was some other cultivator, he wouldn't need an excuse to annihilate Nangong village.

Ye Mo could indeed annihilate them but he really couldn't do it. there was no enmity between them and this was private matter between Chu and Nangong family, it wasn't good for him to intervene.

He wasn't alone and have some fame in South Peace State now. he finally built up some connections for Mo Yue City. He killed the 11 truth realisation state of Pill City, Lightning Cloud Sect and Infinity Sect because they had great enmity with him. People wouldn't say anything.

If he annihilated Nangong village for no reason, no one would dare to say anything but South Peace State cultivators would look at Mo Yue City with a completely different view. Ye Mo didn't want Mo Yue City to become an overlord. He was Mo Yue City Lord now but he was going to immortal ascension sooner or later. Mo Yue City would still exist. If everyone hated Mo Yue City then no matter how powerful Mo Yue City it wouldn't last very long.

Nangong Xu looked at the people behind and said "you saw what happened today, I just hope you can all remember the insult of today and get revenge for the family one day."

Seeing the three go, Nangong Xiaodai clenched her fists and said “I will definitely kill this arrogant bastard.”

...

Pill City was still much more prosperous than ordinary cultivation cities wasn't on the same level as before.

Outside a luxurious room, five cultivators were discussing something. One man and woman was Jiu Qian and her martial sister Lin. But now, their face was very bad.

“Chang Shun pill king, is Ye Mo really that powerful? He killed 11 Pill City truth realisation state together and annihilated two 9 star sects and even thousand km of spirit devouring bugs? He even quenched the flames of flame sea forbidden grounds?” Jiu Qian's martial sister confirmed with a frown.

Chang Shun pill king nodded “that's absolutely true. My disciple has great enmity with Ye Mo, he would care about his every action. There's crystal ball here.”

Then, Chang Shun pill king took out a crystal ball and an egg sized ore “look at it, this is it.”

The female cultivator didn't look at the crystal ball but grabbed that egg sized ore and exclaimed “this really is extreme flame star gold? There really is such thing in the cultivation realm?”

“that's for certain, look at the crystal ball.” Chang Shun pill king nodded.

It was the quenched flame sea forbidden grounds inside, Hou Lei saw it clearly.

After a while, she exclaimed “there's actually such an unfathomable person in this world..”

She looked at Jiu Qian for a long time and didn't talk.

Jiu Qian's mood was very dejected. He didn't expect that after all the effort he used to bring his martial sister here, she was far weaker than Ye Mo. Seeing her look at him, how could he not know what she meant. He said helplessly "let's go back first, it's impossible to get revenge. Luckily we don't have some big conflict. Worst case scenario, I'll stop pill concoction and focus on immortal cultivation."

"Jiu Qian pill king, revenge isn't for now. Ye Mo's luck is dominant but just because he is cocky here doesn't mean he can be cocky in the immortal realm. My disciple has great enmity with him but as long as you can ascend to the immortal realm, that little enmity means nothing." Chang Shun pill king smiled.

Ye Youshen quickly said "my grandpa has ascended to the immortal realm, even if he ascends to immortal realm he's dead if we find my grandpa."

The old man who hasn't talked at all suddenly said "Youshen is right, Lightning Cloud Sect and Infinity Sect has been passed down for countless years. There are many cultivators who ascended. If we can bring news that Ye Mo annihilated their sect up, he would have nowhere to hide."

Jiu Qian didn't say anything however. He didn't want to kill Ye Mo, he lost his confidence in the pill king tournament and thus his path of pill concoction ended there.

Thus, he wanted to beat Ye Mo in pill concoction, otherwise, it was pointless to kill Ye Mo.

Hou Lei shook her head and gave back the extreme flame star gold "this material is indeed very good."

The old man smiled "I was good friends with your master Nine Fingered pill king Hu Yitan. Sigh, it's been countless years and your master is about to ascend in the Heartless Sea but I'm struggling at truth realisation state level seven."

He pointed at the ore "you can have this ore, I have nothing to give you."

"How can that be? Yi Qian Bei, this is too precious. This person was Pill City grand city lord, level eight pill king Yi Wuheng."

The old man waved his hand "to be honest I need to trouble brother Hu too."

He pointed at Ye Youshen “he can count as a martial descendant of mine, but he has no mind to cultivate in the Pill City. If Ye Mo comes to Pill City, I wouldn’t be able to protect him, I want to ask you to take him to the depth of the Heartless Sea and let him cultivate there.

Chapter 1492: Encounter Fortune Teller Again

Thinking about how large the Heartless Sea islands were so it was fine to bring an extra person there and if her magic artefact had this ore it might become low grade Immortal artefact, she got up and said “city lord Yi, don’t worry, when I leave I will take Ye Youshen with me. I need to go see my sister at Ethereal Immortal Pond now.”

Chang Shun pill king sighed “one of Ye Mo’s wife Ning Qingxue is also from Ethereal Immortal Pond. If you go there, the news might soon reach Ye Mo’s ear. I believe with Ye Mo’s vengeful nature, he wouldn’t let Jiu Qian who caused him so much trouble on the pill king tournament.”

Hou Ling thought and agreed. Jiu Qian martial brother was master’s favourite disciple but if he died in South Peace State, even master wouldn’t be able to get revenge.

Thinking about this she nodded and said “in that case, let’s go now.”

...

Yu Ou city wasn’t a big cultivation city, it was undeveloped.

In a decent spirit rest tower, Ye Mo, Ye Ling, Xu Tong and Lin Yiban sat together.

Ye Mo was asking what happened in this month while Ye Ling’s mood was low.

“I was tricked by Nangong Pingzhen into fighting to death with him. But after we left the city, I realised that. I was cauldron filling state level two and he was only cauldron filling state level three so I wasn’t afraid of him.”

“when I was trapped by a formation, I knew that if I wasn’t at Mo Yue City before I would’ve been dead. The Nangong family saw that my power grew too quickly and thus was set on killing me.”

“then why did you go with Nangong Pingzhen?” Xu Tong reproached “if city lord didn’t go to Nangong family, you would’ve been killed this time. Nangong Xu is testing the bottom line of the city lord. If city lord didn’t get angry do you think you could’ve come out?”

Seeing Lin Yiban about to thank him again, Ye Mo waved his hand “Brother Lin no need to say thank you, when you decided to come with me at Pill City, we’re together. But I need to remind you, if one of you don’t reach truth realisation state peak stage, I suggest you don’t touch the Nangong Village.”

Hearing this, Lin Yiban asked in shock “why?”

He thought he could take back Nangong Village at any time when he reached truth realisation state.

Ye Mo said heavily “because they’re not an 8 star sect but a 9 star sect. I don’t know how many truth realisation states there are but I know Nangong Xu is truth realisation state level four.”

“what?” Lin Yiban exclaimed and then fell quiet. He knew Ye Mo wouldn’t be lying.

Nangong Xu definitely wasn’t the most powerful person there. He was truth realisation state level four, what about the elders there?

After a while, Xu Tong said in shock “then why don’t they say it, why do they stay as 8 star sect?”

Ye Mo said heavily “that I don’t know but I feel the village is very strange. There’s a strange chi there that even I can’t see through. And, the formation levels are very high.”

Lin Yiban saluted with his fists “city lord I know what you mean, I won’t act impulsively. If I don’t have the power to get back the Nangong village I will ascend to the immortal realm and tell this to ancestor Jiuyu.”

Ye Mo nodded. Chu Jiuyu was an immortal formation master in the cultivation realm but Chu Xiaoyi was Chu Jiuyu's master and yet he was not at that level. This meant that Chu Jiuyu probably learned his formation skills from Nangong Zaitian. Thus, the formations at the Nangong family are very high level.

He asked again "why did Nana find her way to Yu Ou city?"

"Nana said Ye Zifeng can't cultivate so with his personality, he would use all means necessary to cultivate. He was an ordinary person so he couldn't go to a cultivation city, Yu Ou city was a semi cultivation city so there were a lot of mortals there. The chances of finding him there would be greater. But as soon as she came, she found Ye Zifeng and Nangong Xiaodai." Xu Tong answered.

Ye Mo thought "It seems they were waiting there for you. Ye Zifeng clearly knew we were at Mo Yue City."

Ye Ling suddenly said "big brother, if second brother offends you in the future, can you spare his life and not kill him?"

Ye Mo frowned, I can't promise you, I can only say that if he's only disrespecting me I won't mind too much but if he dares to touch anyone next to me I won't let him live an extra minute."

Ye Ling sighed and didn't say anything, big brother was showing a lot of mercy like this. Ye Ling still doesn't understand why Ye Zifeng would turn out this way.

"Ye Ling don't' think too much. He has capabilities to be able to connect to the Nangong family." Ye Mo said calmly.

How could Ye Ling not hear Ye Mo's implied meaning. The Nangong family was this forbearing, if Ye Zifeng thought he could use them, he would be devoured clean.

Ye Mo thought so indeed, he didn't know why Ye Zifeng had to stay there and create conflict between them. Would the resources of Mo Yue City be less than Nangong Village? Was there level nine pill king there?

Xu Tong suddenly said “city lord should we restrict Nangong Village from participating in Flowing Snake auctions?”

Ye Mo shook his head “no need, if they really want the truth spirit pill here, we wouldn’t be able to stop them. They can find someone else to buy it for them.”

Suddenly, Ye Mo’s face changed and waved his hand “wait...”

Ye Mo stepped out of the spirit rest tower but the next moment, the figure he was searching for was gone.

Ye Mo rubbed his eyes, he clearly saw an old man. It was the Tian Ze master he met in the small world. he just saw him walking on the streets but how was he gone?

Ye Mo reached out his spirit sense but even at max range, he couldn’t find the fortune teller Tian Ze.

Instantly disappearing from his spirit sense, what was this power? Ye Mo began to sweat cold. This old man was too strange, he came from the small world teleportation formation or did he come through another rmean?

Ye Mo walked to the place where the old man sat and looked carefully. There was nothing extraordinary. He looked at the merchant selling low level spirit herb and asked “was there a fortune teller here?”

The merchant glanced at Ye Mo and said “yes, he was a fortune teller and he predicted my fate. He said that I can’t set up a stall today and told me to pack up early. He also said that if I speak with someone who has one missing of the five elements, my head will be broken. He’s full of shit, and I told him to go away...”

As soon as he said this, a ferocious woman came with a stick and smashed it at the merchant’s head “how dare you steal my spirit herb, I’m going to smack you shameless bastard, is it easy for me to grow those spirit herbs...”

The stick landed on his forehead and before he could react, blood fell down. However he didn't wipe the blood and just kept murmuring "he's a god...."

Ye Mo clearly didn't have the mood to care about this. missing one element, the old man was talking about him. His golden page world had four seats and needed one more.

To him, golden page world was his biggest secret. No one knew except those few closest to him. This Tian Ze knew he was missing one element. Does this mean he knew he had the golden page world? Ye Mo's mood turned shit.

Chapter 1493: Cross the Heartless Sea again

It's been one month since Ye Mo had gone back to Mo Yue City. Ye Ling started solitary cultivation as though completely forgetting about Ye Zifeng. But Ye Mo knew that it hurt Ye Ling and Cheng Nana greatly. Knowing Nangong Village's power, Lin Yiban worked very hard to cultivate.

After concocting pills for the people at Flowing Snake city, Ye Mo went into solitary cultivation too. He felt his power didn't have much of an advantage over hollow immortal. Of course more importantly it was because of that Tian Ze. He seemed to be everywhere. If he used some other means to come to Luo Yue continent, then he would be the scariest.

He seemed to be able to predict fate very accurately, he knew that Mu Xiaoyun would be his wife and that he was missing one of the five elements. Ye Mo wondered if he knew about the golden page world and everything that was inside. Despite knowing that Tian Ze didn't seem to have any ill will towards him, Ye Mo felt a sense of danger. No matter who Tian Ze was, Ye Mo felt increasing his power was the most important thing. Only when he had a certain level of power could he take control of things.

Ye Mo didn't hope Tian Ze predicted he had chaos world. He wouldn't care if it was a small world as they were rare but not unique. Chaos world was something every cultivator wanted. If this news was leaked, he would be hunted forever.

At Ye Mo's residence in Mo Yue lake, he surrounded himself with all sorts of restrictions. Ye Mo was in his golden page world.

He had spirit controlled the spear and samsara bottle he got from that Hollow immortal. They were both low grade immortal artefact, the golden brick he hacked open was a half immortal artefact. Ye Mo didn't touch the stone table Lu Zhengqun set up. He didn't feel he could control something that a powerful being of the immortal realm placed down.

He tried to spirit control the soft ore from the flame sea forbidden grounds but it was of no use.

...

One month later, Ye Mo came out of solitary cultivation. He got news that Tang Mengrao would be leaving. Ye Mo was going to accompany her for a while.

What Ye Mo didn't expect was that when he came out, there was not only Tang Mengrao but Qian Wei and Shan Bingfeng who also came. Other than them, Mo Ming, Xi Luan and Jing Fengji from God Wind Valley, Heaven Demon sect were here and Abstruse Sound sect here too.

This meant all the 9 star sect people were here. Mo Ming, Xi Luan and Jing Fengji clearly felt a little awkward seeing Ye Mo. They were prepared to leave South Peace State but then they got news that Ye Mo quenched the flame sea forbidden grounds and annihilated the spirit devouring bugs.

Then, Ye Mo concocted pills for the cultivators who stayed behind. This news soon spread through South Peace State. the sects and solo cultivator who stayed were all famous now. two five star sects due to Ye Mo's favour had advantage in the sect member intake process.

The most embarrassing was God Wind Valley. Mo Ming left South Peace State already in order to get a spot in the Heartless Sea quickly but before his flying ship went into the Heartless Sea, he got news to come back. Some cultivators even recorded this into a crystal ball and spread it around.

Ye Mo didn't care however, this was too ordinary in the cultivation realm. there was no point in saying who was right or wrong. What he was worried about was that was there something else now that they all came here again?

"city lord Ye, it's indeed a big mistake of the God Wind valley, I came to apologise..." Mo Ming said.

Ye Mo waved his hand “no need to bring up the past, did something happen again in the South Peace State for you all to come here?”

Qian Wei quickly said “city lord Ye don’t misunderstand, there’s nothing at the South Peace State. this time, we came one to thank city lord Ye and another to accompany sect leader Tang to leave South Peace State.”

Ye Mo was confused, Tang Mengrao was famous but she was nothing compared to them here, why would they come to send her back?

Qian Wei seemed awkward.

Shan Bingfeng came to explain “the teleportation formation of South Peace State was about to be destroyed. City lord Ye repaired it and now it can still be used. News came from North Far State that they were unaffected by the great calamity. This time, we plan to go see North Far State with sect leader Tang. The excellent disciples of North Far State are all cultivating in South Peace State, if something happens to North Far State they wouldn’t want to see it.”

Ye Mo nodded “that’s a good thing.” Ye Mo was implying that there was no need to come and tell me this.

Luan Xi continued “this is good indeed but the teleportation formation of East Black State was completely destroyed. There’s still no news from there. Martial sister Shan and sect leader Qian Wei thinks, sect leader Jing and I should go to East Black State but we’re not good at formation...”

Ye Mo realized “so you guys want me to go East Black State too?”

Qian Wei said awkwardly “that’s what we mean indeed. We know city lord Ye is very busy and hadn’t even gotten a good rest after coming back.”

Ye Mo nodded “it’s fine, I’m actually planning to go East Black State anyway.”

“then this is perfect.” Sect leader Qian Wei nodded.

Ye Mo smiled “I believe I would be fine to go East Black State alone, you guys know my power. I believe I should be fine going there. Plus I know a quick way there.”

“this is perfect, since city lord Ye wants to go alone then we’ll go check out North Far State. West Extreme State is powerful so they should be able to solve their own problems but North Far State and East Black State needs our help.” Qian Wei said.

“city lord Ye I heard Nangong Village is actually 9 star village but they hide themselves as 8 star sect?” Jing Fengji suddenly said.

Ye Mo dazed, he didn’t spill this out but then he immediately realized that probably Lin Yiban or Xu Tong said. This was drawing enmity to Nangong Village. Ye Mo agreed “that’s right, they are indeed 9 star sect, sect leader Nangong XU is truth realisation state level four.”

The few 9 star sect leader fell in silence and no one said anything. After a while, Shan Bingfeng broke the silence “let’s go do what we should do first. As for Nangong Village, hiding their power is their own business. With city lord Ye in South Peace State, I don’t believe they would be able to cause any trouble.”

...

Ye Mo personally sent Tang Mengrao and Shan Bingfeng and them out of Mo Yue City.

Then, Ye Mo prepared to go through demon prison forbidden grounds to East Black State. Ye Mo didn’t like the place but it could save a lot of time.

He didn’t want to go with others to East Black State because he wanted to take Luo Ying there. They both came from East Black State.

“Susu, why are you out of solitary cultivation?” Ye Mo looked at Luo Ying who was already waiting for him and Jie Youkui next to her.

Luo Ying smiled "I was long finished. I heard Qian Wei sect leader invite you to go East Black State so i..."

The two glanced at each other and smiled.

"why is Youkui here too?" Ye Mo asked.

Jie Youkui quickly said "qian bei, there's still no news of my sisters and aunty Yi. They definitely didn't arrive at South Peace State so I'm afraid something happened to them at Heartless Sea. thus, I want to ask qian bei..."

Chapter 1494: Sea Corner

Ye Mo nodded "I'm planning to go with Susu to East Black State, we can go to your place to check. But Heartless Sea is this big, it's really too hard, don't have too much hope. Plus don't call me qian bei anymore, I'm friends with your father and we're similar in age, just call me big brother."

"yes, thank you brother Ye. I know it's very hard to find them but if I don't go once, I wouldn't be able to rest my mind my entire life." Jie Youlue said gratefully.

Ye Mo nodded, he knew what she meant. He was planning to go demon prison forbidden grounds but now, he would just go via Heartless Sea. Yu Zizhen attacking Jie Feng was rather related to him.

After leaving Qingxue and them, Ye Mo left Mo Yue City matters to Tang Beiwei and Xu Ping and then took Luo Ying and Jie Youkui into the Heartless Sea.

...

Ye Mo followed Jie Youkui's guide and Blue Moon didn't reach the top speed in the Heartless Sea.

At the start, she knew what she was talking about but as time went on, she gradually lost a sense of direction herself.

Ye Mo had to use the compass to help again but soon, he felt something was wrong. Blue Moon went into a region of the sea that was covered in mist. The compass was completely useless.

Ye Mo didn't know how big the Heartless Sea was but he knew that even with Blue Moon's speed it wasn't easy to circulate the Heartless Sea a few times.

Ye Mo was certain they had entered an area where no cultivators had come before. It was getting darker and darker as they went in.

"We seem to be lost." Luo Ying whispered to Ye Mo.

Ye Mo nodded "yes, we're indeed lost, spirit sense is also greatly affected here. My spirit sense is only one fifth of its original range."

"Brother Ye, I, I'm sorry." Jie Youkui apologized.

Ye Mo turned back and smiled "it's fine, it's not the first time I got lost. When I got lost in the void I still found my way back. The Heartless Sea is this big, it's not strange there are peculiar places. Don't worry, I'll bring you guys out for sure."

"Brother Ye you've been to the void?" Jie Youkui asked.

Just when Ye Mo wanted to answer, a black figure as fast as Blue Moon appeared in his spirit sense and it came charging right at them.

Before Ye Mo could think, he moved Blue Moon to the side a little. The black figure dashed past Blue Moon and disappeared in Ye Mo's spirit sense.

"What is it?" Jie Youkui and Luo Ying both saw the black figure. If it rammed into Blue Moon with such speed, even a low grade immortal artefact would be breaking apart.

“don’t know, be careful, this place is strange. I’ll find a way out quickly.” Ye Mo just said this and another black figure dashed over. This time, he couldn’t even dodge in time but luckily, it only brushed past Blue Moon.

Ye Mo’s face finally changed, he took out an extreme grade cultivation artefact and gave it to Jie Youkui “Susu has defense magic artefact, spirit control this and put it in front of you constantly.”

Then, Ye Mo said to Luo Ying “Susu, take out your defense magic artefact and stand behind me.”

“mhm.” Luo Ying took out the white silk scarf Ye Mo made for her. It was an extreme grade defense magic artefact. Shadowless created limited amounts of silk and thus Ye Mo only make two. One was at Luo Ying and one was with Yimo.

Jie Youkui’s face was pale and she quickly took the defense magic artefact and started spirit controlling it.

Ye Mo carefully maneuvered Blue Moon while his spirit sense carefully monitored the nearby few hundred km.

Luo Ying stuck closely to Ye Mo. She was afraid Ye Mo would be focusing too much on the distance that he would miss the situation nearby.

Blue Moon slowed down and there was no black shadow coming over for a long time. Now, Luo Ying asked “did we enter a formation?”

Ye Mo shook his head “probably not, if this was a formation, it’s level would be too high. I think we’ve mistakenly entered an unknown region of the Heartless Sea. look, we can’t even see the sky now. visibility is getting lower and lower. If we don’t find a way out quickly, we might be trapped here.”

Then, another two black figures shot over brushing past Blue Moon.

Blue Moon spun many circles before stopping.

The black figures started to congregate and finally one crashed into Blue Moon's tail. Blue Moon was immediately injured but the black figure seemed to be fine.

Ye Mo put away Blue Moon and released octagonal cauldron and said to the two "Blue Moon is too big, stand next to me, it's easier to dodge with octagonal cauldron."

There were more and more black figures now but since octagonal cauldron was much smaller, they were only hit twice despite passing through dense regions. Ye Mo received some backlash but Luo Ying and Jie Youkui were fine.

A day later, Ye Mo and them stopped on an barren island. Ye Mo put away the octagonal cauldron and saw there were no shadows coming here. Ye Mo's spirit sense couldn't even scan to the end of this place. despite his spirit sense being limited, it still meant that this place was huge.

"there's no black figures here, wait for me. I'm going to see what they are..." before Ye Mo finished, he stopped as he saw there were people on this island. Two cultivators were charging over at him.

"haha, there's more fresh spirit source, I saw it first." The leading man said. He was disaster transformation state level four and the cultivator behind him was disaster transformation state level five.

Luo Ying was hollow spirit state level seven, Jie Youkui was hollow spirit state. the two cultivators stared at the three like hungry demons. The two girls subconsciously hid behind Ye Mo and released their magic artefact.

The two came up to them quickly but seeing Ye Mo's calm face, they didn't attack.

"where is this place?" Ye Mo asked.

The sunken eyed cultivator said "you're at the Heartless Sea sea corner and yet you ask where this is?"

Jie Youkui suddenly shrieked "I know where this is."

Ye Mo nodded and said “just say it, we can get out for sure.”

“haha...” the disaster transformation state level four laughed and pointed at Ye Mo “he still wants to go out after coming to the sea corner. Is he crazy? We can have one woman each and split the belongings. See, we’re too lucky today...”

The disaster transformation state level four said excitedly.

However, the sunken eyed cultivator frowned. He felt something was wrong and didn’t answer the disaster transformation state level four.

Ye Mo was long impatient already and grabbed the disaster transformation state level four with cultivation essence giant hand “you’re quite lucky indeed.”

“truth realisation state qian bei...” the disaster transformation state level four didn’t expect this young cultivator to be truth realisation state qian bei.

“mercy...” yet he was crushed by Ye Mo’s cultivation essence giant hand.

The sunken eyed cultivator’s face immediately went pale and he knelt down without hesitation “wan bei Mu Wuhui greet truth realisation state qian bei, please have mercy.”

Ye Mo ignored him and said to Jie Youkui “Youkei, keep talking.”

Chapter 1495: Corner Soul Weed and Sea Corner City

Jie Youkui knew Ye Mo’s powers and wasn’t afraid but she still said “my dad said that the scariest place in the Heartless Sea was the sea corner. No one had seen this place as all who went in had disappeared. It can also appear in different places of the Heartless Sea...”

‘Heartless Sea sea corner?’ Ye Mo frowned and asked. He was truth realisation state cultivator but he had never heard of such place.

“yes, my dad said those who see it wouldn’t be able to come back out.” Jie Youkui said with certainty.

“qian bei, wan bei knows...” Mu Wuhui quickly said. His back was drenched in sweat. It was no different to being dead here but who would want to die if they could live?

“get up and talk, if your information satisfies me you can live.” Ye Mo nodded.

“yes qian bei.” Mu Wuhui immediately got up and said “this is indeed the Heartless Sea sea corner, it’s also true that no one has been able to get out after coming in. once you come in here, you would never be able to ascend to the immortal realm again. Just like heaven border of Luo Yue continent, Heartless Sea sea corner would appear at random places in random times.”

Ye Mo asked again “there’s a lot of people on the island? They’re all cultivators caught in here?”

Mu Wuhui quickly said “yes, this island is called sea corner island, there’s about 100000 people on here. More people died before getting to the island. Because spirit chi is arid and it’s very hard to cultivate, some people can only die when their lifespan are at their end. There’s no other places to stay except the island. In other places, you would immediately be killed by the corner soul weed.”

“those black figures are corner soul weed?” Ye Mo asked in confusion. the spirit chi here was indeed very scarce, it was worse than spirit chi arid places in North Far State.

“yes, those black figures are corner soul weed. Corner soul weed is very precious, it’s called weed but it’s actually a type of ore. If you catch it and use it for cultivation you can improve your spirit sense very quickly without side effect. Apparently, if used with spirit nourishing well, it can increase spirit sense many times but both are very rare.” Mu Wuhui answered.

Jie Youkui asked “there’s a lot of corner soul weed here, how is it rare?”

Mu Wuhui said respectfully “there are a lot of corner soul weed but they’re unable to be caught. Even on the island, there is very few cultivators who can catch them. They can occasionally catch one if they’re lucky. Plus, there are two types of corner soul weed. One is clear weed and one is dark weed.

Dark weed can't be caught with spirit sense and is faster than clear weed. However, it's effects are more potent than clear weed."

Ye Mo nodded, it seemed there were too many things in the cultivation realm that he didn't know. This corner soul weed seemed to be the perfect thing for him. His spirit sense was powerful but he felt it was his weakest.

If he didn't get spirit nourishing well, it would be much harder for him to annihilate the spirit devouring bugs. The more he got better at Heaven Flame Nine Suns, the more requirement it had on his spirit sense.

Corner soul weed was fast but Ye Mo wasn't worried he wouldn't be able to catch them. But that unseen dark weed would be a little troublesome.

When they came in, there were corner soul weed everywhere but even Ye Mo didn't dare to catch one. If he divided his attention, then he might be rammed by another. If he was by himself, he would have no pressure but he brought Luo Ying and Jie Youkui.

But now there was this island, it was much easier for Ye Mo.

Ye Mo saw the dull gray mist outside the island and knew it wasn't good to go out now. he might as well get to the island and understand the situation.

"lead the way to the island." Ye Mo said.

Mu WUhui saw that Ye Mo had no intentions of killing him and breathed easy. He quickly said "okay, please come with me qian bei."

Then, Mu Wuhui kept explaining "there's a city in the centre of the island, it's called sea corner island. It was set up by qian beis who came before. the most powerful two people in there are truth realisation state level nine so qian bei needs to be a little careful..."

Ye Mo said calmly "lead the way, I know the rest."

“yes.” Mu Wuhui thought in shock, where did Ye Mo get this confidence from.

Sea corner island was big but with their speed, they soon reached the centre of the island. There were no defense formations here nor city guards. Clearly, they knew no cultivators nor spirit beast would come unless it was cultivators who mistakenly got caught in here.

There was a simple city in the centre, it wasn't big and much smaller than Ning Hai city on earth.

The city walls looked simple but inside, the cultivation grounds were very well built. There were defense formations and good planning. The city streets were also well divided.

The only thing was that he didn't see any bars nor spirit rest tower. There was only a moderate sized market.

Seeing Mu Wuhui bring three in, many people threw over admiring glances. Some people also looked over with confusion. theoretically, cultivators would kill newcomers or take their things and leave.

If you brought new cultivators here, that meant you took their things and other cultivators would turn their attention to you.

“Mu Wuhui give me this female cultivator, I'll give you 1000 top grade spirit stones.” One disaster transformation state level seven cultivator walked over and pointed at Ye Mo.

Luo Ying frowned but before she talked, Ye Mo waved in the air and a cultivation essence giant hand slapped the face of this disaster transformation state level seven. He was sent flying and so was half of his face.

Ye Mo's slap had another wave of cultivation essence that would turn the cultivator into a bloody mist when he landed

Before Mu Wuhui could warn this cultivator, the disaster transformation state level seven slapped away but before he landed, he was caught by another cultivation essence giant hand. This cultivation essence

giant hand expelled the second wave of cultivation essence and put a pill in the disaster transformation state's mouth.

The disaster transformation state level seven was scared soulless, how could he not know he offended a truth realisation state cultivator. He quickly sat down to recover.

The truth realisation state then walked up to Ye Mo and sneered "you're only truth realisation state level eight, do you think you're the strongest now. you're so cruel, wanting to kill as soon as you come to my sea corner city. I want to see how powerful you are."

Then he casually glanced at Luo Ying and Jie Youkui, there was a sliver of fire that others didn't see.

But Ye Mo saw this and his killing intent rose. He immediately knew that if he didn't come, Luo Ying and Jie Youkui would be gone.

This guy was only truth realisation state level nine, a bit far from truth realisation state peak stage too.

"Mu Wuhui, you brought these three in?" the truth realisation state glanced coldly at Mu Wuhui.

Mu Wuhui immediately began to shake, he didn't expect Ye Mo to offend the vice city lord immediately. He said shakily "yes, yes, Xie Man and I saw them at the island and this qian bei told me to bring him here..."

"where is Xie Man?" the vice city lord probably guessed that Xie Man was killed by Ye Mo but he still asked.

Mu Wuhui shivered. He didn't know if he said it that Ye Mo would be furious again.

Before he made a decision, Ye Mo said coldly "I killed him."

Chapter 1496: Kill and take bow

The truth realisation state level nine sneered and suddenly released a metal umbrella. He said to the two disaster transformation state behind him “take the two female cultivators back.”

Then, he heavy explosion sounded from his metal umbrella. The black cloth on the umbrella surface turned into a huge dark net and disappeared. Then, the umbrella opened up and nearly a thousand white rays blinked. They shot out and divided into countless silver needles.

The umbrella handle didn’t attack, clearly he felt he didn’t need to use it.

Space began to condense as the truth realisation state level nine attacked.

A black net that was almost 100 meters in diameter was above Ye Mo’s head and sealed the space around Ye Mo.

Under this situation, even if one could escape the terrifying silver rays he would be caught by the black net. Even if he wasn’t caught by the net, there was a black umbrella handle spear that was waiting to devour you.

The two disaster transformation state saw the vice city lord had attacked and avoided the battle center charging at Luo Ying and Jie Youkui.

Ye Mo sneered, while the silver rays were still dividing, he released Zi Xu. He didn’t even look at where the beams were, he just hacked out a strike.

A purple beam flashed and the white beams were swept.

Crack, the umbrella bones were shattered and the silver rays disappeared. However, the purple ray didn’t stop, it suddenly divided mid air in half.

Splurge, splurge

Two blood rays flew, the two disaster transformation state cultivators turned to bloody mist and even their essence spirits were melted by the purple ray.

The vice city lord's face changed greatly. He didn't dare to hold back and pierced out with the umbrella handle while the net loomed down quickly.

Ye Mo's power was far beyond his expectation. Just one purple ray and it destroyed his silver beam space and even destroyed the umbrella bone.

The umbrella handle pierced bringing out a dark ray. At the same time, a huge explosion sounded in the centre of the ray.

Ye Mo reached out with his hand and actually grabbed at the centre of the explosion. Meanwhile, Zi Xu didn't stop and hacked down again.

The truth realisation state level nine rejoiced seeing that Ye Mo dared to grab his umbrella handle.

Thud, the explosion was caught by Ye Mo's hand while Zi Xu shredded the dark net.

The truth realisation state level nine was completely dumbfounded. He didn't dare to believe his eyes, someone could grab his umbrella bone explosion with his barehand? Only now did he realise how great the difference between them were. He didn't even have the time to beg for mercy as he gritted his teeth and a red bow appeared in his hand. At the same time, a thick red arrow appeared on it.

He spat many mouthfuls of blood and the arrow shot out. It tore through the air and a red arrow that was thicker than a bucket shot out sealing the space nearby immediately.

This was the first time Ye Mo showed a serious look. The cultivator's power was average but this bow was very powerful. He put away Zi Xu and brought up his two hands. Space around him immediately began to slow down.

Crack crack. The truth realisation state level nine felt his domain crack and the red arrow began to slow down.

The truth realisation state level nine realized that Ye Mo didn't even try before and he quickly called out in shock "friend stop, I admit defeat..."

Ye Mo sneered and grabbed at the red arrow with his cultivation essence giant hand.

The truth realisation state level nine immediately knew that Ye Mo was determined to kill him, he cursed and wanted to self destruct but soon he found he couldn't even do that. Ye Mo's domain was too powerful and it was getting stronger too.

"friend, city lord Feng has admitted defeat, please stop..." another figure came over.

Ye Mo didn't seem to hear it, hollow immortal cultivation essence giant hand grabbed at the slowed arrow. Despite being confined by his domain, Ye Mo's cultivation essence giant hand still crippled when he grabbed this arrow. Without hesitation, Ye Mo grabbed with his hand and grabbed the arrow before punching out.

"good arrow and good bow but pity you're so weak you can't even draw the bow and you want to use it to kill someone?" a cultivation essence fist reached the truth realisation state level nine's dan tian.

This was the last words he heard in his life, never had he thought he would be killed by a cultivation essence giant hand.

Thud.

Blood mist splashed out and the red bow and his storage ring fell into Ye Mo's hands.

That figure who told Ye Mo to stop looked dazily at the bloody mist and couldn't say anything for a long time.

It had only been two seconds since he spoke and in this time Ye Mo already killed the truth realisation state level nine vice city lord.

Ye Mo played around with the red bow and arrow and felt it was no ordinary thing. After a long while, he slowly put it away.

The cultivators around here were all scared to talk. The vice city lord was someone that no one even dared to speak loudly in front of. If he wanted anything, you would have to give it to him if he gave it an extra glance. If he liked any female cultivator she would have to go sleep with him.

Sea corner city was a dead city, there was no hope of immortal ascension nor spirit chi for cultivation. Even women were limited in the city. If the woman was slightly good looking, she wouldn't be able to escape the vice city lord or his men.

If it was some other place, no one would be mesmerized by lust but in this place, women were their only entertainment.

Mu Wuhui was shaking, he rejoiced he didn't offend this tough guy. From now on, this guy would be the number one here.

"you're the city lord?" Ye Mo asked. This cultivator was also truth realisation state level nine. He had been watching on the side and only came out when he was about to kill the vice city lord.

The truth realisation state level nine quickly saluted with his fists "yes, I'm the city lord here Wang Jing, did friend just come here?"

He sounded very polite as though Ye Mo didn't kill the vice city lord just then but was a new guest.

But everyone knew Wang Jing was scared of Ye Mo.

"that's right I just came to corner island and splatted a few annoying flies." Ye Mo said calmly.

Wang Jing smiled awkwardly "that's right, Feng Xian has been abusing low level cultivators with his power and let his men abuse their authorities too. If it wasn't that there's nowhere to go, all the cultivators here would be gone."

Ye Mo didn't show any expression and so Wang Jing could only continue "now that friend killed him, you've given the island some peace. Friend is now the city lord, I'm willing to hand over the position and be vice. What's your name friend?"

Chapter 1497: Sea Corner, No Exit

Ye Mo knew what Wang Jing thought, he was scared that he wanted the city lord position and would kill him. But how could Ye Mo stay here and be city lord? He would rather tear open void and go into void fissure than stay here and die.

Ye Mo stopped him "I'm Ye Mo, city lord Wang I won't stay here and be city lord. I just want to ask one thing, has there been any clues of leaving here after all these years?"

Wang Jing smiled bitterly "brother Ye, I don't know if the qian beis before me thought about going out but I've tried many times and each time I almost died to the corner soul weed especially the dark weeds. Later on, I gradually gave up the thought. Each year, there would be many cultivators trying to leave here but none of them came back. I don't know if they found a way out or died in here. There's no exit in the sea corner."

Ye Mo frowned, he didn't expect the city lord to have no clues after searching for all these years.

"brother Ye now that Feng Xian isn't here, his home is very luxurious, that place belongs to brother Ye now..." Wang Jing said.

Ye Mo interrupted and said "no need, I have my own place, than you city lord Wang."

Ye Mo didn't have any good impression of this Wang Jing, plus there were many places to stay in the city.

Then, Ye Mo took Luo Ying and Jie Youkui to an empty ground and released a house shaped magic artefact. Instantly, it turned into a mansion that was a few hundred meter squared area. It was a house cultivation artefact.

All the cultivators were dazed, even Jie Youkui looked at Ye Mo in a daze, who would spend money to buy such a cultivation artefact? It was extreme grade cultivation artefact too, did he not have a place to spend spirit stones?

Only Luo Ying knew that Ye Mo made this house cultivation artefact himself, there was everything inside.

Ye Mo took the two inside. He didn't worry there would be danger outside, this was a space cultivation artefact and he set up a level nine defense formation. Even truth realisation state cultivator wouldn't be able to break it quickly.

Seeing the three go in, Wang Jing shook his head. This cultivator was too wealthy, extreme grade cultivation artefact house, this was luxury amongst luxury. It was completely just for the looks, only an idiot would spend large amounts of spirit stones on that.

"brother Ye you have such good thing? My dad said extreme grade cultivation artefacts are very expensive.." as though remembering Ye Mo gave her an extreme grade cultivation artefact, she quickly took it out and gave it to Ye Mo "brother Ye, you lent this to me, I don't need it now."

Ye Mo pushed it back to her and said "I have a lot of these, you can keep it."

"huh..." this was the first time she had heard someone say he had a lot of extreme grade cultivation artefact. Even a top grade forgery grand master wouldn't have a lot of that.

Luo Ying smiled "Ye Mo indeed has a lot of it, just take it."

Ye Mo was a top grade forgery grand master and got a lot of materials from Suo Anshan. His things were all top grade and he also collected a lot of materials himself in the void fissure. In terms of materials and spirit herb, it was hard to find someone wealthier than Ye Mo.

Hearing this, Jie Youkui accepted it.

“brother Ye what do we do now?” Jie Youkui was very happy getting an extreme grade cultivation artefact but being trapped on this island was very depressing.

Luo Ying wasn’t worried at all, her face was very calm. She believed Ye Mo would have a way out.

“don’t worry, Wang Jing was rubbed of his edges by time and just wants to live. but there are still many relentless cultivators here who would want to go out. Even if they find a way out, they wouldn’t tell anyone. We just need to set up a sign saying that cultivators who want to go out and know some clues can collaborate with us.” Ye Mo said.

...

The island wasn’t small but the city wasn’t big so news spread quickly.

In half a day, the news that a top grade master who killed the vice city lord in less than ten seconds spread out. Those cultivators who had enmity with Feng Xian rejoiced.

News of them staying in an extreme grade cultivation artefact house spread even faster so when Ye Mo was searching for collaborators to leave here, news spread out to everyone.

Wang Jing was constantly watching Ye Mo’s news and when he heard about this, he shook his head in contempt. Countless people had wanted to leave here in history but who could do it? how many people were trapped in the sea corner, who didn’t want to come to the island? But which few lucky ones could come to the island? They were at the island now, they should be rejoicing, not finding a way out and killing yourself in the process.

“don’t worry about him, after a while, he would know there’s no way out and he would settle down and come back to the island.” Wang Jing waved his hand to his men.

Almost everyone was discussing about Ye Mo.

“that Ye Mo actually wants to collaborate with people to leave the island, do you think there would be idiots to go join him? A few bored body condensation state cultivators were discussing in the market. An extremely tall man said in contempt.

“would you go cooperate?” someone asked.

“am I an idiot? Would I go do it when I know it leads to death?” the tall male cultivator rebuked unhappily.

“pity..” one cultivator said.

“pity what?”

“pity those two female cultivator, especially the yellow robed one, it’s definitely the prettiest female cultivator I’ve seen in my life. would they be able to live if they go with Ye Mo?”

“do not want to live?” Shi Xiuwu dared to pay 1000 spirit stones to buy her and he was almost slapped to death by Ye qian bei. Feng Xi backed him up and was killed. City lord Wang Jing killed Shi Xiuwu in order to suck up to Ye qian bei, how dare you discuss that female cultivator...”

“can you be quiet? No one would know here, are you going to dob me in. where did Xin Xi go? He wouldn’t dob me in right?”

“he’s not that type of person but it’s possible he might be willing to collaborate with Ye qian bei.”

...

In a simple room, a skinny black man and a square faced robust man sat opposite each other. The skinny black man was Xin Xi. He couldn’t sit anymore hearing that Ye Mo was looking for ways to leave the island.

“you’re saying we should collaborate with that Ye Mo who just came?” the square faced man replied heavily. He was Xin Xi’s brother Xin Yi. A few decades ago, they got caught in here chasing a spirit beast.

“yes, brother, do you not want to go home? We’re both body condensation state if we waste more time here he would die.” Xin Xi said.

Xin Yi shook his head “you know I’ve been wanting to find a way out, how do I not want to go home? If I don’t want to leave why do I go out everyday searching for a way out. But that Ye Mo’s too powerful and very decisive in killing. If we accidentally offend him we would be dying here.”

Xin Xi immediately answered “Ye qian bei is very powerful indeed or he wouldn’t kill Feng Xian so easily but the stronger he is the better. It’s our opportunity, otherwise, even if we have some clues we wouldn’t be able to leave. Plus we’re men, so what if we die, it’s better than doing nothing and living here? Sister in law has been waiting for you for a few decades, do you not miss her?”

Xin Yi sighed “but we’re only body condensation state and he’s a truth realisation state qian bei, what right do we have to cooperate with him?”

“We have decades of experience of searching the sea corner and some knowledge of getting out. If we don’t grasp this chance, we won’t ever get an opportunity.” Xin Xi said.

Xin Yi fell silent for a while and suddenly got up “but we need watch for a while and see what sort of person that Ye qian bei is.”

Chapter 1498: The person catching corner soul weed in the sea corner

At the border of the island, Ye Mo appeared here alone. He left Luo Ying and Jie Youkui back at the city.

This was a dead island and Ye Mo believed no one would dare to do anything to them plus, he set up level nine attack and defense formation. Without Luo Ying’s permission no one would be able to get close.

There was very little corner soul weed near the border of the island. Ye Mo stood in the air and left the island. As he slowly entered places with more corner soul weed, he let out his spirit sense carefully.

A black figure flew over and Ye Mo side stepped while hacking out with Zi Xu.

Thud. The corner soul weed changed direction and completely disappeared. Meanwhile, another powerful force came smashing at Ye Mo. He moved to the side, almost being smashed by another black figure.

Ye Mo was sweating. With such speed, even with his god state body refinement it was hard to say he wouldn't be injured. It seemed they were quite lucky to be able to find the island so quickly from the sea corner.

Ye Mo set his mind and saw another black figure flying over. This time, he released Zi Xu and burst out his cultivation essence. purple ray hacked out rapidly and smashed into the black figure.

Rumble, Ye Mo attacked with full power this time.

The black figure paused but before Ye Mo could rejoice, he saw the black figure suddenly explode into countless sparkles.

Ye Mo dazed.

"nice power..." Ye Mo's spirit sense saw another figure and heard his voice.

Seeing someone stay in here, Ye Mo rejoiced but before he could say anything, that person said again "friend, you can hack apart corner soul weed, you're very powerful. Ordinary people can't do this."

Then, the person raised his thumb at Ye Mo.

Ye Mo smiled "you're not bad too for being able to stay here for so long."

This cultivator was truth realisation state level four. However, he shook his head “I’m different to you, I’ve stayed here for a few centuries, I know these corner soul weed all too well, both clear and dark weed. You hacked away corner soul weed just then but you used the wrong method. That way induces concussion, look at me...”

The truth realisation state level four released a spear and pointed at a black figure coming at him.

Ye Mo was shook, this truth realisation state level four was so casual. With corner soul weed’s toughness and speed, how could they be flicked away like that?

But what shook Ye Mo was that the truth realisation state level four pointed the spear on the corner soul weed and it changed direction and flew off.

“you used a transfer technique?” Ye Mo realized. This man only changed the direction of the corner soul weed through redirection.

The truth realisation state level four nodded “yes, this way you can dodge corner soul weed with extremely little cultivation essence but it’s impossible to catch them. You have to use another way.”

A black figure came, Ye Mo flung Zi Xu and it quickly changed direction.

“hmm, you know after looking at it once?” the truth realisation state level four stared at Ye Mo in shock.

Ye Mo smiled “your move is nice I’m Ye Mo I just came here.”

The cultivator admired Ye Mo greatly and said without hesitation “I’m Gu Hezhou, I’ve been here for more than two hundred years.”

“you’ve been living in the sea corner? Why don’t you go to the city?” Ye Mo asked.

Gu Hezhou nodded “yes but this isn’t a dangerous part of the sea corner. It’s at most the safest place in the sea corner. It’s mostly clear weed, if you go to the most dangerous place there would be dark weed

everywhere. Even I wouldn't be able to survive for long. I have a place at the city but I don't like that vice city lord and I can't beat him so I spend most of my time here catching corner soul weed. I would only go back when I need to go to the market."

Ye Mo was going to say he killed Feng Xian but hearing this he immediately asked "how do you catch corner soul weed?"

Gu Hezhou shook his head "it's very hard. I can occasionally can one and sell it to sea corner city. Each one can exchange for large sums of spirit stones. In the city, there really aren't many cultivators wealthier than me, hehe."

Ye Mo suddenly asked "can you sell one to me?"

"yes but the price is very high, I need 8000 top grade spirit stones for one but I feel like you're a good person I can give it to you for cheaper. 5000 is enough." Gu Hezhou said.

Ye Mo was dazed, this was a very high price? 8000 top grade spirit stones, he would sometimes reward city guards more than this.

"if you don't have enough spirit stones you can owe me. you're more powerful than me and much smarter than me. I believe you can catch more than me." Gu Hezhou added seeing Ye Mo didn't talk.

Then, he casually took out a dark grey ore and put it in Ye Mo's hand. Ye Mo looked at it. when he held it, there was a sense of comfort coming from the depth of his soul. Ye Mo didn't even cultivate and felt his essence spirit grow bigger and his spirit sense grew a little too. They were not only very useful for spirit sense but also stabilized soul and essence spirit/

"this is good." Ye Mo couldn't help saying.

Gu Hezhou smiled "this is just the lowest grade corner soul weed, if you see higher level ones you'll know what is truly good. As for those dark weed, they're very rare high level product but I've never caught one. You need to go to the depth of the sea corner and I don't have that power currently."

Hearing this, Ye Mo knew he had to grab a pile of corner soul weed before he left or it would be a waste coming here.

After a while, Ye Mo put it away and gave Gu Hezhou a storage ring “thank you, you can have these spirit stones. If you have a better way of catching corner soul weed teach me too.”

Gu Hezhou dazed seeing Ye Mo gave him spirit stones with storage ring but he quickly took it and said “it’s fine, it’s quite boring catching corner soul weed here alone, huh...”

Gu Hezhou’s face was red with excitement and he said in disbelief “this, this is too much, one million spirit stones, I, how can I use that much...”

However, Gu Hezhou wasn’t keen on giving the storage ring back to Ye Mo. There was no resource nor spirit stones on this island. Corner soul weed was good but it cultivated spirit sense. spirit stones was the most valuable resource on the island, it was unsustainable resource.

Ye Mo smiled and waved his hand “these spirit stones are useless to me, take it. when I’ve collected enough corner soul weed if you don’t mind then come find a way out with me I trust there’s a way out.

Gu Hezhou thanked Ye Mo and was going to give more corner soul weed to Ye Mo but Ye Mo rejected. He didn’t need one or two he needed large sums.

Seeing this, Gu Hezhou’s impression of Ye Mo grew even better. He said “brother Ye it’s definitely fine catching corner soul weed with your power here but I suggest brother Ye give up the thought of leaving here perhaps one day if we reach truth realisation state peak stage we can leave through immortal ascension. Otherwise, this isn’t a place people can leave with their own power.

Ye Mo dazed, he thought Gu Hezhou would want to leave here since he was catching corner soul weed for a few hundred years. But clearly, he was rubbed of his edges by time.

Ye Mo pitied this experienced person couldn’t work with him but he still respected Gu Hezhou’s thoughts.

Gu Hezhou felt embarrassed and took out a net shaped magic artefact “this is the way I collect corner soul weed, I’ll show you.”

Gu Hezhou released his net magic artefact and waited on the side, after a while, a black figure shot by rapidly. Gu Hezhou suddenly released his spear and the black figure changed direction immediately. Gu Hezhou clearly couldn’t control the direction and it only brushed past the net.

Chapter 1499: Collect like crazy

Gu Hezhou said in embarrassment “these corner soul weed have different speed and power. It’s hard to control and my success rate isn’t high. If I catch them with my net I can follow them and slowly capture them.”

Ye Mo nodded, he realized Gu Hezhou’s method. He would set the net and wait for corner soul weed to come. Then, he would change direction and make it fall into his net. There was a fine golden strand in his hands and it was like a fishing line.

This way could catch corner soul weed but it wasn’t what Ye Mo wanted. He saluted with his fists to Gu Hezhou “thanks for your teaching brother GU, I’ve going first.”

Gu Hezhou thought Ye Mo was going to Sea corner city and quickly said “brother Ye if you want to go you must not spill your spirit stones, otherwise that vice city lord Feng Xian won’t let you go. This person is extremely shameless and lustful.”

Ye Mo smiled calmly “don’t worry, I already killed that Feng Xian. I’m going, if we have time we can catch up in the city.”

Then , Ye Mo disappeared. He needed to catch corner soul weed and clearly dark weed was more enticing to him. Just the lower level clear weed made him feel so good, just how powerful should the dark weed be?

“what, you killed Feng Xian?” Gu Hezhou asked in shock. Then, he realized that Ye Mo had left already and was more shocked as he found that Ye Mo was heading towards the depth of sea corner. Clearly, he wanted to hunt higher level corner soul weed, even dark weed.

“crazy, he’s really crazy...” Gu Hezhou murmured.

He knew that Ye Mo quite possibly might never come back again.

...

The dark weed was scary but Ye Mo wasn’t worried, he had the experience of dodging space chaos flow and space wind blades in the Truth Fall Palace. He just needed to set up a cultivation essence force field and when unseen things enter it, the cultivation essence force field would change.

But now, if Ye Mo expanded out his domain, he would be able to know when the dark weed came. However, there was also great danger as the dark weed was too fast. Even if he knew he might not be able to dodge it.

This was why other cultivators didn’t dare to try, if you couldn’t dodge it you would be smashed to death.

Multiple dark figures came, Ye Mo didn’t dare to keep going in more. there was enough corner soul weed here. He used Gu Hezhou’s way, Zi Xu spat sword ray and easily changed the direction of those corner soul weed flying at him. However, domain was limited in use against corner soul weed.

The divided sword ray each had some of Ye Mo’s spirit sense and could accurately change the direction of the corner soul weed. If other people couldn’t put spirit sense on their sword ray, they wouldn’t be able to do this.

Thud. A wave faster than clear weed charged into Ye Mo’s domain. before Ye Mo could even react, the power smashed into his chest.

Ye Mo’s cultivation essence rustled and almost spat blood. That power changed a direction after knocking him over and disappeared. Domain had a little use on the clear weed but couldn’t slow the dark weed at all.

“so this is dark weed, so powerful.” Ye Mo ate a pill and was shook. This was him, if it was some other person, that strike would either kill or heavily injure the person.

Ye Mo calmed down and tried thinking of a better way.

A day later, Ye Mo entered the golden page world to rest. After a day, he had some familiarity with the corner soul weed. He was attacked by dark weed a few times but they didn't hit him.

However, his spirit sense and cultivation essence was very exhausted. Ye Mo used that corner soul weed Gu Hezhou gave him to recover spirit sense.

Ye Mo rejoiced to find that with his spirit sense being extremely fatigued and he used corner soul weed to recover and then use purple eye soul sever cultivation method, his spirit sense improved multiple times the speed normally.

In a short time, his spirit sense fully recovered and grew stronger.

The corner soul weed was very good indeed. He had impure soul nourishing well and knew it wasn't as good as the corner soul weed.

The spirit refining pearl was countless times better than corner soul weed but it was slow to form the soul nourishing liquid, he would get at most three drops each year and that was with adequate spirit chi. He hadn't used the pure soul nourishing liquid yet, he was planning to save up and use bottle by bottle.

Ye Mo came out into the sea corner again. After another day he used countless methods, domain, cultivation essence giant hand, octagonal cauldron...

None of them could truly stop a group of corner soul weed. They either escaped or was smashed apart.

Eventually, even Ye Mo was planning to forge a net and use the stupid method of catching them. Gu Hezhou's method was stupid but useful. However, it was also dangerous. After catching the corner soul weed you would be dragged by it for a while and during this time who knows if another corner soul weed would come attack you?

Gu Hezhou knew it was a dangerous method so he used it near the border of the island.

A few more dark figures came and a dark weed came too. Ye Mo's spirit sense could see it but after a day, he found some rules. Dark weed was very fast and domain couldn't stop it but if it came, there would be weak ripples in his domain. at this time, he would have to dodge or he would be hit.

Luckily, there weren't a lot of dark weed here. Ye Mo controlled purple sword rays to hack away the dark figures and suddenly thought of a problem.

If there were so many corner soul weed flying around why does none of them collide into each other.

The more Ye Mo thought the more he was confused. He would've almost thought they were self conscious if he didn't get a corner soul weed.

The only possibility was that they could sense each other.

Ye Mo thought of this and when another black figure came he used spirit sense blades and severed everything around it.

Ye Mo was rejoiced to find that the corner soul weed actually slowed down and was tamely caught by Ye Mo.

A perfect good looking corner soul weed laid peacefully on his hands. With how it nourished his essence spirit, Ye Mo immediately knew it was many times better than the one Gu Hezhou gave him.

So this was it, Ye Mo held down the excitement in his heart. He should've long thought of using this method but he only wasted a day.

Then, things were easy for Ye Mo. Ye Mo went into a frenzy of catching corner soul weed. When a power that his spirit sense could see entered his domain, Ye Mo knew it was another dark weed. Without hesitation, he used multiple spirit sense blades on it and that force seemed to have lost its power and slowed down before landing on Ye Mo's hand.

This was Ye Mo's first time seeing it, it was white like a snow flower and seemed very cute. It was much better for spirit sense than even the good quality clear weed.

With this, Ye Mo no longer had the mood to collect clear weed. He charged into the depth with faster speed to collect dark weed.

Chapter 1500: Power of the level nine attack formation

Luo Ying was still calm in the sea corner city but Jie Youkui was worried again. She couldn't cultivate, she held Luo Ying's hand and asked worriedly "sister Susu, brother Ye had been out for six days he's still not back, would he be okay?"

Luo Ying smiled "don't worry, just cultivate, he will definitely come back in these few days."

"okay then." Jie Youkui nodded.

Before, no one dared to go around where they were but these two days, there were more and more cultivators there. There were even some cauldron filling state cultivators looking over.

"city lord, that Ye Mo had been out for six days, theoretically he should've died at the sea corner right. There are many cultivators spinning around those two girls, should we take..." a disaster transformation state cultivator reported to Wang Jing.

"idiot." Wang Jing reproached.

Seeing that his subordinate didn't understand, Wang Jing said coldly "you can be certain that he's dead with just 6 days? Gu Hezhou stays there catching corner soul weed for a century, did he die?"

"he's at the border of the island..." the disaster transformation state explained but seeing a more contemptuous look from the city lord, he knew that since Gu Hezhou was at the border who knows if Ye Mo would go deep?

Just when the disaster transformation state cultivator was about to go, another cauldron filling state came and reported “city lord, GU Hezhou came back to the city. He didn’t leave immediately and doesn’t seem to intend to. He brought back a news too, that Ye Mo learned of the benefits of the corner soul weed and went into the depth of the sea corner to hunt corner soul weed.”

“what, Gu Hezhou said Ye Mo went to the depth of the sea corner?” Wang Jing couldn’t help getting up.

“yes, Gu Hezhou said this indeed, he said went to the depth of the sea corner and he couldn’t stop him.” The cultivator quickly replied.

The disaster transformation state seemed to want to change the city lord’s impression of him and quickly said “city lord, now that Ye Mo isn’t here, we...”

Wang Jing waved his hand “you’ve reached disaster transformation state can you use your brain to think? We don’t know if Ye Mo is dead or not but so what if he’s dead? So what if we let the two female cultivator stay for a decade or so?”

“but there are some cultivators walking around their residence, I’m scared someone else would take them first” the disaster transformation state said.

Wang Jing was speechless at this disaster transformation state, if this guy wasn’t so loyal to him, he would’ve kicked him away already.

“you two go out, don’t bother me with such small things.” Wang Jing said.

The disaster transformation state came out and looked at the cauldron filling state in confusion “city lord doesn’t seem to worry at all. Sigh, there are so many cultivators walking around there...”

Cauldron filling state shook his head “manager Wan, you think too much, if anyone dares to touch those two female cultivator, city lord would kick those cultivators away and then protect the two, he can even bring them back to the city lord estate to protect them...”

Disaster transformation state dazed, he finally realized that the city lord wasn't afraid there would be cultivators trying to take them. He was scared there wouldn't be fcts trying to touch them. If there were, the city lord could rightfully protect them. Even if Ye Mo's not dead, he would only thank the city lord after coming.

...

Gu Hezhou only told about Ye Mo after other people asked it break through after he said it, he realized that Ye Mo left two extremely pretty girls here. This made him regret immediately.

Seeing so many cultivators walking around their place, he immediately knew his words weren't good for them. Gu Hezhou had a great impression of Ye Mo. Ye Mo was generous and very powerful. If Ye Mo didn't go to the depth of the sea corner impulsively, he believed he would become very good friends with Ye Mo.

But now because he leaked the potential death of Ye Mo, this caused so many cultivators to be watching those two female cultivator. He wanted to protect them but he knew that he couldn't, his power was good but he wasn't the strongest here.

City lord was truth realisation state level nine, there were two truth realisation state level seven and 6 from truth realisation state level four to level six.

At this moment, Gu Hezhuo heard a yell from the extreme grade cultivation artefact home "move away, if you step in within 100 meters, don't blame me then."

Seeing the female cultivator he finally realized why so many cultivators were coming over. The most precious thing here wasn't corner soul weed but women. This pale yellow dressed female cultivator would be first grade beauty even in Luo Yue continent much less here, the female cultivator next to her was also extremely beautiful.

It was a disaster transformation state level two walking here, he of course heard the news of Ye Mo too. If he attacked too late, such a woman would belong to someone else. Since that Ye Mo was dead, he should move quickly. By then, even if a more powerful person wants her, he would've enjoyed her enough and could use her to bargain.

“don’t be in a rush to attack, this is the sea corner city, I didn’t go in your house, am I not allowed to walk on the road nearby here...” the disaster transformation state level two just said this and saw the yellow robed female cultivator throw down a formation flag.

He dazed and before he could react, his surroundings changed. He couldn’t see the female cultivator nor the cultivation home anymore, it was just a white grey mist around him.

Not good, he was in formation, the cultivator realized and then countless sword rays loomed over him. Level nine attack formation, one that was set up by Ye Mo. It was impracticable for a disaster transformation state level two to escape.

In that short time, the disaster transformation state level two was turned to a bloody mist in the attack formation.

Seeing this, all the other cultivators retreated in fear.

Finally, they realized why Ye Mo could leave. This was a level nine peak formation, if someone controlled it, even ordinary truth realisation state cultivators would be killed much less disaster transformation state cultivators.

Gu Hezhou breathed easy, it seemed Ye Mo was no ordinary person to leave such a powerful attack formation behind. He quietly went back to his place, with so many spirit stones he could cultivate now.

After that, no truth realisation state cultivator came. Everyone knew that it wasn’t that they weren’t attractive enough but the truth realisation state cultivators weren’t in a rush. They could wait.

They had been living on here for a few hundred to few thousand years.

Of course, what made them wait was Ye Mo’s dominance. Ye Mo came and killed Feng Xian and his cloneys immediately. Ordinary truth realisation state cultivators weren’t enough to take one punch from Ye Mo.

...

Ye Mo sighed. He felt he collected enough corner soul weed, in this past ten days he had been going to places with dense clusters of corner soul weed.

At the beginning, he collected corner soul weed one by one but later on when he got familiar with things, he could collect more than ten at once.

Even the dark weed that other people couldn't see with spirit sense, his spirit sense could sense them now.

Seeing the two large piles of clear and dark weed, Ye Mo knew it was time for him to go back. He could stay here to keep collecting corner soul weed but he felt it wasn't good to stay in sea corner for too long.
