Chapter 1511: Truth realisation state like a small chicken

Qi Yirong looked down and didn't talk seeming as though she didn't dare to say anything.

This disaster transformation state level six waved his hand to her and said "you can go I'll hand here."

Ye Mo felt things were getting more wrong she was about to be sect leader wife and that elder Ming yelled her around. Now, this elder didn't respect her much as well.

Before she could go, Ye Mo smiled "Qi Yirong is having a good talk with us, let her stay and chat with her."

The disaster transformation state level six didn't expect Ye Mo to say this. he was at a loss for words. He nodded and said "that's true, come in together then Yirong."

It was supposed to be guest hall but Ye Mo's spirit sense scanned that the place they went to was only a distant far off hall. There was a level eight defense formation outside, it was subtle but Ye Mo saw it immediately.

Then, the disaster transformation state said "where is Erta now?"

"I was really happy to hear martial brother's friends come here." A sharp voice sounded interrupting the disaster transformation state cultivator. Elder Ming and a bald headed truth realisation state level one came in with this voice.

Ye Mo didn't expect there to be truth realisation state cultivator here. That truth realisation state level one looked at him immediately. Ye Mo guessed that elder Ming couldn't see his power so she invited this truth realisation state here.

The sharp voice was Erta's martial brother Yao Shan, he was body condensation state primary stage while Qi Yirong was still only at hollow spirit state.

“Yirong why are you here too?” the sharp voice cultivator said happily.

Qi Yirong got up and said quietly “I came in with Erta’s friends.”

“mhm, I have things to do with you later.”

Then the voice said to the truth realisation state level one cultivator “grand elder please sit first...”

The truth realisation state nodded and said casually to Ye Mo “little friend your stealth cultivation method is indeed powerful, I can’t even see it.”

Ye Mo smiled and said nothing. He hid his power to see what this sect wanted. If this wasn’t Erta’s sect he would just interrogate them.

Seeing Ye Mo not answer the truth realisation state didn’t mind and just went to the top and sat down.

“I’m Erta’s martial brother Yao Shan, Erta’s friends are my friends, what are your names?” Yao Shan said.

He pointed at the disaster transformation state level six “this is my sect’s elder Nan.”

Ye Mo got up and saluted with his fists “I’m Ye Mo, I was passing by Hidden Sword sect but I didn’t expect sect leader Bian to pass away so early. Erta doesn’t know this news yet, if he does he would feel verybad.”

Ye Mo only introduced himself and not the others but Yao Shan clearly didn’t care anyways.

Yao Shan’s mood went gloomy “yea, after Erta left the sect, master had cultivation problems out of anger. In the end, sigh...”

How could Bian Xiangxin be angry? From what Erta said his father wanted him to leave, he didn't seem angry or worried at all.

Yao Shan sighed and barely collected himself "brother Ye where is Erta? The next month is when I take sect leader, this position belongs to martial brother Erta but I can't find where he is. If he can come back I would rather give this position to him."

Ye Mo nodded "I know where Erta is indeed, he's at..."

"don't say it, he wants Erta to come back so he can kill him and take the Hidden Sword sect heritage on him..." Qi Yirong suddenly interrupted.

Ye Mo looked calmly at her, he was waiting for her to tell the truth.

"Yirong, are you crazy? If Erta comes back we can give the sect leader to him and then we can marry. Do you not want Erta to come back, he's my martial brother? The only blood line of our sect." Yao Shan got up and said in confusion.

Qi Yirong sneered and ignored him. She turned to Ye Mo and said "martial brother Ye, you're Erta's friend so I'll call you martial brother. I can tell you for sure, since you came here today you wouldn't be able to leave the sect regardless if you tell them where Erta is. They want Erta's life and the heritage he took."

Ye Mo now realised why this truth realisation state level one came here. They all wanted the heritage of the sect.

But he didn't hear Erta talk about the Hidden Sword sect heritage, did he hide this?

The truth realisation state scanned Qi Yirong coldly and said "take her away."

"yes." Elder Ming quickly bowed and was going to pull Qi Yirong. Yao Shan looked desperate but he didn't dare to talk.

Qi Yirong said again to Ye Mo “martial brother Ye, trust me Erta must not come back. Tell Erta I’ll be going first.”

Then she sneered to Yao Shan “Yao Shan, marry you? I, Qi Yirong, never wanted to marry you. You and Ming Xiangtian killed sect leader Bian and you think no one knows? One day Erta will come back for revenge.”

She walked over to elder Ming without the need for her to drag her. She had no intention to live anymore but she knew suicide was impossible here.

“since you know then don’t go, dying here is the same.” The truth realisation state level one grabbed with cultivation essence giant hand.

“grand elder, don’t kill Yirong, she won’t say anything....” Yao Shan called out desperately.

The truth realisation state glared coldly at Yao Shan. He shivered but didn’t dare to say anything.

Ye Mo didn’t expect the inside story to be revealed this quickly. Bian Xiangxin was harmed by his disciple, the one whom he supported. Yao Shan clearly wasn’t a good person to be able to harm his master. Qi Yirong seemed to have a lot of things she wanted to say but didn’t dare to. Eventually, she didn’t have the opportunity to say it all.

The cultivation essence giant hand dissipated half way. Just when everyone thought the grand elder stopped due to Yao Shan’s plea for mercy, there was extreme shock in the grand elder’s eyes.

Then, everyone saw another cultivation essence giant hand grab the cultivation essence giant hand like a little chicken and threw him into the middle of the hall.

“truth realisation state tertiary stage, domain great completion...” the truth realisation state couldn’t even crawl up. Ye Mo casually sealed his power. Ye Mo would’ve killed this guy if he knew why Bian Xiangxin died.

Everyone was scared dumbfounded by Ye Mo’s means.

A truth realisation state level one couldn't even resist and was thrown like a chicken. Not even a truth realisation state tertiary stage should be able to do this.

But to Ye Mo, truth realisation state level one wasn't much stronger than an insect.

"martial brother Ye, qian bei..." Qi Yirong looked excitedly at Ye Mo. Just when she thought she was going to die, the impossible happened. Ye Mo was this young but he was a truth realisation state tertiary stage master?

Ye Mo nodded "Erta told me about you but in his impression you didn't seem to be like this. tell me more specific detail, no one dares to do anything to you here."

"yes." Qi Yirong nodded quickly in excitement.

Chapter 1512: Forbearing Qi Yirong

Qi Yirong collected her thoughts and said "the sect leader didn't know there was sect heritage. He had this sudden feeling and didn't tell anyone when he came out of solitary cultivation, he went to visit the shrine of the deceased ancestors of the sect. at this moment, he found Ming Xiangtian who snuck in here, at that time this person was disaster transformation state level nine power..."

Truth realisation state level one Ming Xiangtian heard this and his face changed. He finally realized he never found the heritage from Bian Xiangxin. At that time, Bian Xiangxin already noticed him.

Qi Yirong looked coldly at Ming Xiangtian who couldn't move on the ground "sect leader was very confused as the sect leader of the sect had always been one from the Bian family, why was an elder who wasn't of the Bian family at the shrine? The sect leader grew careful and everytime he went into solitary cultivation, he hid at the shrine. After some time, sect leader knew why, there was a top grade cultivation method heritage in the sect."

Ming Xiangtian's face went grew, he knew that things wouldn't end well today. Bian Fengta's friend was truth realisation state tertiary stage. He really couldn't understand why a truth realisation state tertiary stage would be so bored to be friends with a low level cultivator.

“the sect leader was shook and furious, he didn’t expect Xiang Mingtian was hiding this from him. He didn’t know why the past sect leaders didn’t know about this and yet Ming Xiangtian knew. But the sect leader had made up his mind to kill Ming Xiangtian...”

There was contempt in Ming Xiangtian’s eyes. This made Qi Yirong more furious, she said hatefully “but when the sect leader was prepared to kill Ming Xiangtian, he realized the sect wasn’t the same sect as before. he had been focused on solitary cultivation and didn’t notice this.

“what does that mean?” Jie Youkui asked.

Qi Yirong bowed to her and said “sect leader found that elder Li suddenly died in solitary cultivation, elder Feng who went out to travel was also surrounded and killed. The elder Hui died to his enemy, elder Fang went missing when he went to the Heartless Sea...”

“the sect leader Bian is too stupid. There had been so many dead and missing elders, is he dumb? He only remembered them when he needed them?” Jie Youkui said.

Qi Yirong shook her head “it’s not that the sect leader was dumb but he trusted Ming Xiangtian too much. And he wanted to break through to disaster transformation state tertiary stage so he was in solitary cultivation. How could he know what happened? If he didn’t see Ming Xiangtian go to the sect shrine, he wouldn’t even know about this. the remaining elder Nan and elder Ming were both on Ming Xiangtian’s side.”

Qi Yirong sighed “the sect leader didn’t attack Ming Xiangtian and instead tried to find the hidden heritage. Luckily he’s a level six formation great master and had Bian family bloodline. Thus, he found the heritage first. Then, he realized why the sect leader had to be formation great master. If he didn’t know formation, he wouldn’t be able to find the heritage...”

Ming Xiangtian’s face looked bad, he spent all of his time in cultivation why would he investigate formation?

“that’s good.” Jin Qianqing said and felt happy for the sect leader Bian.

Qi Yirong nodded “yes but at this moment the sect leader realized he was already poisoned and the person who poisoned him was his big disciple whom he trusted the most.”

Yao Shan’s eyes narrowed.

Qi Yirong looked coldly at Yao Shan “everytime sect leader comes out of solitary cultivation, he would sit in the quiet room for a few days. Yao Shan took the responsibility of cleaning and burning incense there. He was only a nascent soul state cultivator so he wasn’t able to poison sect leader without him noticing. But, he was told what to do by Ming Xiangtian.”

“Yirong, this really has nothing to do with me. elder Ming told me to help sect leader, I didn’t know it was poison... I, i...” Yao Shan explained.

“you knew.” Qi Yirong said and didn’t explain “sect leader had no one to help him at the time. He didn’t tell Erta as he knew Erta wasn’t mature at the time. If he told him, they would die faster so the sect leader came to me..”

Ye Mo nodded and sighed “so you purposely showed Erta what happened between you and Yao Shan?”

“yes, I was Erta’s fiancé. If the sect leader had a choice, how could he tell me to leave Erta and be with Yao Shan? Plus, Erta didn’t do anything wrong at the time. Erta came to me in fury but I could only harden my heart and ignore him. Then he went to the sect leader but was reproached by the sect leader saying he doesn’t deserve me...” Qi Yirong’s tone went melancholic.

“Erta thought the sect leader thought he didn’t have ambition so he left the sect in fury. Sect leader breathed easy, he wanted Erta to go as far away as possible. He left a mark on Erta, I can feel it. if the sect leader didn’t forbid me, I would’ve went out to find Erta already.”

“do you know when Erta came back?” Ye Mo asked.

Qi Yirong nodded “yes when he came back he was cauldron filling state power and we were both very happy. But the sect leader wanted Erta to leave and not come back.”

“so you asked Yao Shan out and purposely let Erta see. In the end, Erta didn’t come to the sect and left?” Ye Mo asked.

Qi Yirong bowed to Ye Mo “Ye qian bei, you’re indeed very good friends with Erta. If you weren’t, he wouldn’t tell you this. Erta has sect leader’s mark on him. When he reaches disaster transformation state, he would sense the mark.”

Ye Mo nodded “then Erta should know the mark.”

“huh...” Qi Yirong looked at Ye Mo with surprise and joy “Ye qian bei Erta is disaster transformation state?”

Ye Mo smiled “yes, Erta improves rapidly. He’s indeed disaster transformation state, after this you can come with us to see him. But I’m Erta’s friend don’t call me qian bei anymore. Just call me martial brother.”

“yes, martial brother Ye.” Qi Yirong resisted the excitement in her heart. She thought she would never be able to see Erta again.

She couldn’t help asking “martial brother Ye where is martial brother Erta?”

Ye Mo nodded “he’s in South Peace State, I came to East Black State to do some things, after I’m done. I’m going back to South Peace State, as for Hidden Sword sect, just find someone to manage it.”

Then, Ye Mo thought about the heritage. Since it was Erta’s he was planning to take it to him.

Ye Mo asked “where is the heritage now? Erta isn’t here can I bring it to him?”

Qi Yirong knew that she wouldn’t be able to stop it if a qian bei like this wanted Erta’s heritage so she said “not long after Erta left, Ming Xiangtian found the heritage place and realized it was found by the sect leader. He also realized that his things were exposed. Just when Ming Xiangtian was about to attack, the sect leader killed himself.

The sect leader told me to find a time to leave the sect and find Erta. The sect leader didn't tell me but I knew the sect leader had already given the heritage to Erta but Erta doesn't know."

"then why haven't you left?" Jie Youkui asked.

Jin Qianqing replied for her "because she's been kept in custody here. Didn't you see, that elder Ming followed her everywhere."

Qi Yirong nodded "yes, because if I'm here Erta would come back. If I leave, Ming Xiangtian wouldn't be able to find him again."

Ming Xiangtian's face was pale and he didn't say anything. He thought that at truth realisation state level one he was at the peak other than the few truth realisation states in East Black State. but now he realized he was nothing to a real master.

...

Under Ye Mo's domain, Ming Xiangtian and them were all killed. Yao Shan truly loved Qi Yirong and she couldn't do it so Xin Xi killed him.

There were not a single disaster transformation state cultivator left in the sect, Qi Yirong gave the sect leader position to a cauldron filling state tertiary stage cultivator.

One day later, they all left the sect. Qi Yirong came with them.

Chapter 1513: Herb Cauldron Lid

At this moment, at the previous site of Magical Herb sect, Ye Mo and Luo Ying stood here silently. The sect doors had turned into barren wasteland. There were some level one and level two spirit herb scattered around everywhere. They sprouted from seeds of the herb garden.

Luo Ying held Ye Mo's hand and walked into the ruins. Seeing where they used to live, Luo Ying's eyes went red. This was not only the place she and Ye Mo stayed at but also where she lived since she had memory.

"Ye Mo, this is where I concocted pills... this is where you cultivated..." even though this place was in ruins, Luo Ying remembered very clearly.

"Susu..." Ye Mo knew Luo Ying felt very sad and comforted.

"hmm..." Ye Mo said.

"what is it?" Luo Ying looked at Ye Mo in confusion.

Ye Mo pointed at the ruins and said "someone set up restriction here meaning that if we go in, people would immediately know."

"who would set up restriction at this ruin?" Luo Ying asked in confusion. the sect had no spirit chi nor spirit herbs. Those level one and level two spirit herbs were worthless and could be found everywhere.

"I don't believe it would be anyone else but the West Flow sect." Ye Mo said heavily.

Luo Ying fell silent, the sect was annihilated due to her. Now the West Flow sect set up a restriction here to wait for her or Ye Mo to come back.

Ye Mo grabbed her hand "Susu don't feel guilty. The sect was annihilated not due to you, you were just an excuse."

Luo Ying looked at him in confusion. Ye Mo didn't hide it from her "I told you, when I killed Jing Yuzhen at the Truth Fall Palace, there was something I didn't tell you. The reason his father wanted to annihilate Magical Herb Sect was for a herb cauldron."

"herb cauldron?" Luo Ying asked in confusion.

Ye Mo nodded “that’s right, but after they annihilated our Magical Herb sect they didn’t find it. they only found a lid. I knew this from Jing Yuzhen, he wouldn’t dare to lie to me before his death.”

“then they set up this restriction for the herb cauldron?” Luo Ying asked.

Ye Mo said heavily “if I’m not wrong, West Flow sect has such intention but of course the main point for this restriction is to wait for me or you to come back especially you. You were the greatest prodigy of the sect at the time, it would most likely be you who took the herb cauldron. Of course even if it isn’t on you, you would still fall into their hands.”

“so this means if we touch the restriction now, the West Flow sect people would come?” Luo Ying asked Ye Mo.

“theoretically yes but after all these years I’m not if they would come. We don’t need to wait here, we’ll go there now.” Ye Mo looked at the direction of the West Flow sect with killing intent, there was still a Jing Kun waiting to be killed.

Ye Mo had never been there but the Xin brothers knew where it was. Blue Moon arrived there in only half an hour.

As a 5 star sect Ye Mo thought the West Flow sect would be much better than Magical Herb sect but when they came here, they realized it wasn’t much better.

It was a ruin too, they’ve been annihilated for many years.

Ye Mo felt that it was related to that herb cauldron. If it really was, just what sort of herb cauldron was it?

“let’s go.” Luo Ying pulled Ye Mo, she suddenly hated staying here, she wanted to go back to Mo Yue City.

...

Zhao City, the largest cultivation city of East Black State, the teleportation formation to South Peace State was here.

In a spirit rest tower, four truth realisation state states three famous formation grand master and 7 disaster transformation state cultivators were waiting here.

This place gathered the strongest power of the East Black State. there wouldn't be more than 20 truth realisation state cultivators in East Black State altogether. Most of them were hidden cultivators, they didn't come out into the world.

The leading truth realisation state was Mang Hai sect leader, truth realisation state level seven Chi Pei. As the top level cultivator of East Black State, he usually didn't even have the time to come out but he waited at this spirit rest tower for nearly a month.

He was discussing cultivation experience and formation with the others.

One body condensation state cultivator carefully walked to the door and bowed to everyone before saying to the slightly chubby faced middle aged man sitting at the top "Chi qian bei, Chang Qing sect leader Yu Jinan asks to see you."

Chi Pei nodded "let him come in."

Not long after the body condensation state left, Yu Jinan came in and saluted with his fists "Chang Qing sect Yu Jinan greet sect leader Chi, elder Ji, Xi qian bei, He qian bei and friends."

Yu Jinan was disaster transformation state peak stage and 8 star sect leader. Other than the truth realisation states, the other people returned the gesture.

Chi Pei nodded "is there something important for sect leader Yu to come see me in such a rush?"

"yes, please helpd us sect leader Chi..." Yu Jinan seemed extremely wronged.

“what happened?” a truth realisation state level four next to Chi Pei asked in confusion. Chang Qing sect was one of the only three 8 star sects here. Who would dare to do anything to them other than the 9 star sect Dong Liang sect?

Chi Pei frowned and had a bad feeling.

Yu Jinan didn't see Chi Pei's face and said quickly “an unseen truth realisation state killed our sect members and killed our disaster transformation state level three elder Qu Liang without reason. I went with big elder You Mian to reason but this truth realisation state killed big elder without saying anything...”

Yu Jinan's face sunk and said “this person doesn't take our East Black State disaster transformation state cultivators seriously and kills without reason...”

Yu Jinan suddenly stopped as he felt the atmosphere wasn't right. Theoretically someone should be helping him and then the truth realisation state cultivators would get angry and sect leader Chi would order a warrant for that truth realisation state cultivator. However, the room fell silent instead.

The truth realisation states looked at each other and a skinny truth realisation state level five looked at Yu Jinan coldly and asked “how old is that cultivator? Where did he come from? is he from East Black State?”

Yu Jinan's heart shook, he felt things weren't right but he didn't dare to not reply “He qian bei, that truth realisation state definitely isn't from East Black State, I heard he came from Heartless Sea and is extremely young.”

“do you know what his name is?” the skinny truth realisation state said with a colder tone.

Yu Jinan felt more insecure he didn't know what he said wrong and replied carefully “he said he's called Ye Mo...”

Saying that, Yu Jinan immediately felt things weren't right. The truth realisation states looked at him with even colder eyes. The other disaster transformation state cultivators and formation grand master looked at him with a sliver of pity.

Chi Pei sneered and couldn't even be bothered talking. The skinny truth realisation state sneered at Yu Jinnan "you brought this on yourself. Your Chang Qing sect has always been very dominant and I was thinking this day would occur. You want sect leader Chi to help you, I think you should wipe your neck clean."

Yu Jinan fell into an ice cave hearing this. he didn't know where he was wrong. That truth realisation state was powerful but Chi Pei was the number one person in East Black State, how could he be so scared? Chang Qing sect was an East Black State sect, why was it like this?

Yu Jinan finally realized that Ye Mo was no ordinary person. He didn't know who exactly Ye Mo was but he knew if he didn't make remedies now Chang Qing sect would be over.

Chapter 1514: Brought this on yourself

Feeling the pressure from the truth realisation states, Yu Jinan knelt down. He wanted to slap himself a few hundred times. He didn't even find out who Ye Mo was and came here to seek death.

The skinny truth realisation state looked coldly at Yu Jinan and said coldly "are you regretting not finding out Ye qian bei's identity first..."

Hearing this, Yu Jinan almost fell. Even truth realisation state level five He Qumei called that young cultivator qian bei, just who was he? He was crazy to take on someone like that for a dead Qu Liang.

"He qian bei, wan bei, wan bei..." Yu Jinan didn't want to get revenge from Ye Mo at all. He just wanted to go back to the sect and go into solitary cultivation and not come out until he reach truth realisation state. before truth realisation state, he was worse than an insect in front of them. This feeling was intolerable for him, a cultivator who had been at the top for so long.

The skinny cultivator said "Ye qian bei came to East Black State to set up interstate teleportation formation, you offended Ye qian bei, no one can save you."

Then He Wumei shot out a dark ray into Yu Jinan's chest. Yu Jinan couldn't move immediately, He Wumei turned back to a disaster transformation state level seven and said "Shang Fei lock him up first and wait for Ye qian bei's decision."

"yes." A cultivator came up and took Yu Jinan away immediately.

Yu Jinan knew Shang Fei but even if he wasn't sealed he didn't dare to do anything.

He breathed easy after leaving the room, he really couldn't take that pressure inside.

Shang Fei took Yu Jinan to a room and saluted with his fists "sorry sect leader Yu, you can only stay here and wait for Ye qian bei."

Yu Jinan took out a jade bottle to Shang Fei "brother Shang, on the account we know each other can you tell me who that Ye qian bei is?"

Looking at the jade bottle, Shang Fei couldn't resist but take it and say "sect leader Yu I only know some simple things. The teleportation formation from East Black State to South Peace State is seriously damaged, that Ye qian bei is a level nine formation grand master coming to repair it."

Yu Jinan dazed, a level nine formation grand master was indeed very important but not to the degree for He Wumei to call him qian bei.

Shang Fei sighed seeing that Yu Jinan hadn't realized things "sect leader Yu, your sect is 8 star sect but Ye qian bei can probably completely stamp clean your sect in less than 5 minutes. The East Black State teleportation formation is damaged but it can still teleport jade slip. 9 star sect Heaven Demon sect's sect leader Xi Luan are friends with Chi qian bei. This time Xi Luan qian bei went to North Far State. before she went, she sent a jade slip to sect leader Chi and it introduced Ye qian bei's character and power."

Shang Fei shook his head "sect leader Yu, if you knew that the South Peace State disaster was saved by Ye qian bei by himself, if you knew two 9 star sects in South Peace State were easily annihilated by Ye qian bei, if you knew the 10 star power of South Peace State Pill City sent 11 truth realisation state

cultivators to attack Ye qian bei and was killed clean by Ye qian bei and yet Pill City didn't even have the courage to get revenge, you wouldn't look for trouble with Ye qian bei."

"huh..." Yu Jinan was completely dazed. He didn't expect the young cultivator he wanted to look for trouble with was this power. This was completely beyond truth realisation state cultivator. No wonder He Wumei called this person qian bei.

Before Shang Fei left he said "Chi qian bei and them are here waiting for Ye qian bei, they've been waiting for a month or so..."

Yu Jinan completely collapsed. He knew that with one word of Ye qian bei, he would be completely over and so would his sect.

...

The spirit rest tower's happy atmosphere was made sullen by Yu Jinan.

Chi Pei was annoyed, this Yu Jinan was an unlucky charm.

Xi Luan was very close to him. When they first set up the teleportation formation, they two regretted meeting so late. Her jade slip was very detailed and he only told the others some basic things.

Ye Mo could be said to be the number one person in South Peace State now. level nine formation grand master, level nine pill king and he annihilated thousand km spirit devouring bug by himself, killing a few hundred million sand soul beasts. He killed 11 truth realisation states including a truth realisation state level nine with low grade immortal artefact.

Fighting against someone like that is asking for death.

Just when Chi Pei was annoyed, the body condensation state reported again saying desperately "Chi qian bei, qian beis, Ye qian bei is at the teleportation formation studying the teleportation formation..."

“quickly go.” Chi Pei rushed out of the spirit rest tower already. The rest of the cultivators followed. They all wanted to see what sort of person this Ye qian bei was.

...

Ye Mo knew that Luo Ying wanted to go back but Ye Mo wasn't going to fly across the Heartless Sea. he just needed to repair the teleportation formation and go back through there.

They just arrived for a while and Chi Pei brought everyone over.

“East Black State Chi Pei greet grand master Ye...” Chi Pei wanted to call Ye Mo qian bei but Ye Mo was much younger than him and only a level higher than him in cultivation level. He knew he would probably be instantly killed by Ye Mo but he was too embarrassed to call Ye Mo qian bei.

Ye Mo heard of Chi Pei, Luan Xi told him it was her good friend.

Even if he wasn't Luan Xi's friend, Ye Mo would give some face to him for being East Black State truth realisation state so he politely greeted everyone including the disaster transformation state level formation grand masters.

After that greeting, they realized sometimes stories weren't true. Luan Xi said Ye Mo was very powerful and they must not offend Ye Mo. This made them think Ye Mo was a cold master.

But Ye Mo treated Chi Pei with the same attitude he treated body condensation states.

Chi Pei breathed easy and then spoke about Yu Jinan. Without hesitation, he knew it was Yu Jinan's wrong. Qu Liang he knew was very lustful.

Ye Mo's wife was an extreme beauty in this world. Qu Liang wasn't going to let her go after seeing her.

Hearing this, Ye Mo's face immediately sunk. He just realized that he let Yu Jinan but this guy instead wanted to find people to kill him.

Seeing this, Chi Pei immediately realized what to do without the need for Ye Mo to say anything. He said to the truth realisation state level two behind him “sect leader Yu has made a huge mistake, he must die, the Chang Qing sect can change elders.”

“yes, sect leader.” The truth realisation state turned to leave.

Ye Mo didn’t expect Chi Pei to be this decisive. Ye Mo wasn’t going to let go someone like that.

“Ye qian bei how should we set up this formation please tell us, we can do the work.” This was the only level nine formation grand master of East Black State.

Ye Mo nodded ” I’ll set up this formation, the spirit chi here is too bad, the formation materials are too low quality too, I will switch it all.”

Then Ye Mo said to Luo Ying “Susu, go with Qianqing and them and stay at the spirit rest tower for a few days. I need about five to six days for this formation.”

Ye Mo was level one immortal formation master, he had no problems for this teleportation formation and he had plenty of materials in his storage ring. He was willing to do this for East Black State. he wanted that after he set up the teleportation formation, any cultivator could use it to get to South Peace State and not be limited like before.

“mhm. ” Luo Ying nodded.

Seeing Ye Mo take out an extreme grade spirit range and put into the formation, even Chi Pei was dazed. Even his sect didn’t have it and yet easily took one out to set up the teleportation formation. This wasn’t just wealthy.

The few formation grand masters saw Ye Mo make formation flags on the spot and knew Ye Mo wasn’t repairing formation, he was setting up a completely new teleportation formation.

Chapter 1515: First step to fighting

Five days later, Ye Mo finished setting up the teleportation formation. He didn't leave immediately and asked Chi Pei to help him find Chi Wanqing.

A month later, Ye Mo didn't get any news of her. He was disappointed and left East Black State with Luo Ying and them.

Returning to South Peace State, Jin Qianqing also bid farewell and left.

The Blue Moon came to Mo Yue City, both Xin brothers and Qi Yirong were astounded by the dense spirit chi in Mo Yue City. The Xin brothers rejoiced at their decision.

For someone who stayed at the sea corner for a few decades, any place in South Peace State would make them very happy much less Mo Yue City. They could imagine how rapid they would be cultivating here.

Ye Mo thought Erta would ignore Qi Yirong but what they didn't expect was that he saw her and immediately rushed over grabbing her hand.

"Erta..." Qi Yirong was excited seeing him after a few decades again and didn't know what to say.

"did something happen to my dad?" Bian Fengta had a bad feeling and said in a shaky tone.

Qi Yirong's eyes went red and she said in surprise "you already know?"

Bian Fengta took out a jade disk and nodded "after I reached disaster transformation state I found this heritage disk. I... know everything. Sorry, Yirong, I shouldn't misunderstood you."

They knew the two had a lot to talk so they left.

...

After all the huge events, South Peace State completely calmed down and so were the three other states in Luo Yue continent.

Ye Mo repaired the few teleportation formations and set up the teleportation formation from Pei Hai city to Mo Yue City and then went into solitary cultivation.

The benefits of corner soul weed to his spirit sense was unimaginable. Ye Mo got a lot of corner soul weed but he used them up quick and needed to leave some for the people with him.

Ye Mo didn't use time formation disk to cultivate spirit sense, he didn't have much immortal crystals left.

Three years later, Ye Mo's spirit sense doubled. His spirit sense improved like crazy using corner soul weed and pure spirit nourishing well.

If he went to annihilate those spirit devouring bugs, he wouldn't almost collapse in exhaustion.

Ye Mo had reached level five of five element mobility. He could use two purple suns for Heaven Flame Nine Suns now.

The only pity was that he didn't have a better spirit sense cultivation method. His purple eye soul sever was too low, if he had better spirit sense cultivation method, Ye Mo believed he would be able to reach Heaven Flame Nine Suns level three.

Su Jingwen finished her divine damnation and reached cauldron filling state. Luo Ying reached body condensation state level seven, Tang Beiwei reached hollow spirit state level four and even XU Ping and Shi Tie were nascent soul state.

Only Ye Mo didn't dare to cultivate, he was afraid he wouldn't be able to control his power and ascended early. What annoyed Ye Mo was that when he cultivated, his cultivation wasn't fast when he used time formation disk and immortal crystals. But when he cultivated spirit sense, in a few short years he reached truth realisation state level eight peak. If he used immortal crystals, he would've reached truth realisation state level nine in a short time already.

Ye Mo knew he couldn't keep waiting. If he kept waiting he might not have a chance to go back to the small world. knowing that Mu Xiaoyun went missing at Liang Ji valley in the small world. Ye Mo wanted to go down already.

Now that Mo Yue City was going in the right tracks and everyone was cultivating fast, if he still didn't go to the small world, people would be immortal ascending. He wanted to immortal ascend first. Mo Yue City was the safest place in South Peace State, no one dared to mess with them. This was a place countless people respected so Ye Mo felt very safe leaving everyone here.

From Jin Jinlin's jade slip, he knew that immortal realm was countless times bigger than Luo Yue continent. The 33 heavens of immortal realm, if each heaven was an ocean, Luo Yue continent wouldn't even splash a wave up if thrown inside.

...

At Mo Yue City lake, Ye Mo, Luo Ying, Ning Qingxue, Su Jingwen, Song Yangzhu and them were sitting together. They knew Ye Mo was going to the small world but no one stopped him. No one felt unhappy too.

Ye Mo would do this for any one of them, if Ye Mo wasn't like this how could they fall in love with him?

"how are you planning to go?" Ning Qingxue bit her lips. She was body condensation state level four and many times she wanted to give birth to a child for Ye Mo but seeing everyone cultivating and out of fear she would fall behind too much, she delayed this plan to after immortal ascension.

Ye Mo was planning to go Nangong village first. That place was too mysterious, it was where Chu Jiuyu lived too. Chu Jiuyu immortal ascended in the small world, perhaps he could find something there. If not, he would forcefully tear open the voice. But Ye Mo didn't dare to say this he was afraid they would go there if he went for too long.

Nangong village was not a good place. he warned everyone in Mo Yue City to never go there unless reaching truth realisation state peak stage.

"I'm planning to tear open the void, I can do that with my power now. I reached god state body refinement there so there's no danger. Even if I can't find the small world, I can come back." Ye Mo said casually.

"then you need to come back earlier." Su Jingwen said.

Ye Mo nodded "no matter if I find Xiaoyun or not I will try to come back as early as possible. If Xiaoyun is there too, we'll be all united."

Then, Ye Mo said heavily "there's no direction in the void so I don't know if I will go directly to the small world. so, I need to tell you guys some things."

The group focused seeing that Ye Mo's tone was serious.

"no matter how long cultivators live in the cultivation realm, it's at most about ten thousand years. Those older than that are very rare. We will be together forever so we can only ascend to immortal realm. I want us to be able to be together forever in the immortal realm. then, we can sit in my magic artefact and roam the 33 heavens... so, ascending to the immortal realm is our first fighting step."

"if we ascend to immortal realm, would we be able to live forever and be together forever?" Song Yangzhu's eyes were teary. She was the weakest, she was scared she would fall behind too much and stay here alone. She couldn't resist being alone...

Ye Mo shook his head "I don't know, I only know immortals' lifespan is countless times that of cultivation realm cultivators. I don't know if it's eternal lifespan but I have a feeling that even in the immortal realm, you probably can't attain eternal life."

He knew what Song Yangzhu thought, she worked hard but due to spirit root limitations, she was the weakest. Ye Mo got up and pulled her hand "no matter what, I'll be satisfied that we can stay together in the immortal realm for countless years. Yangzhu don't worry, although your spirit root isn't as good as Jingwen and Qingxue and them but you can immortal ascension too, trust me."

Song Yangzhu nodded.

Seeing them all a little reluctant to let him go Ye Mo said again “I’m certain I can come back but there’s no direction in the void, I don’t know how long it will be till I come back.”

Chapter 1516: Enter Nangong village again

“so before I leave, I need to tell you what I know about the immortal realm so we can all meet up after immortal ascension. The immortal realm is different to Luo Yue continent, if we don’t make arrangements we’ll never find each other.” Ye Mo said seriously.

“tell us, after you leave I will tell this to Yimo and Beiwei and them.” Luo Ying nodded.

Ye Mo said “according to what I know there are 33 heavens in the immortal realm, there are division between them but I don’t know specifically. I think the divisions are either based on power or immortal spirit chi density. Yue Heng Heaven heaven lord Lu Zhengqun has enmity with me so we must not go there. We can’t even say we’re from Luo Yue continent, just say we’re from Shen Qiong cultivation realm.”

Ye Mo was worried about Lu Zhengqun the most, Ye Mo didn’t know how powerful this guy was but Jin Jinlin said he was extremely powerful. Shen Qiong cultivation realm was the cultivation realm of Meng Qi, it could avoid some trouble.

“then where should we meet?” Su Jingwen asked.

Ye Mo said “when we first immortal ascend, we’re too weak, we wouldn’t be able to cross heavens. We wouldn’t be able to afford the teleportation formation fees. I’m thinking we can cultivate ourselves or join a sect. after we have enough power, we’ll go meet up in Gong Hua heaven.”

Jin Jinlin told his descendants to go there, it must be very far from the Yue Heng heaven and a rather safe place.

“Gong Hua heaven? Is it really far from Yue Heng heaven?” Song Yangzhu asked.

Ye Mo nodded “theoretically yes, I got this news from Jin Qianqing’s ancestor. She was an immortal formation master and was thrown onto Luo Yue to set up formation and he was killed by Lu Zhengqun. He definitely would want his descendants to be safe from Lu Zhengqun so he probably chose a reliable place.

If you get to the immortal realm and find it’s very hard to get to Gong Hua heaven or it’s not safe to go we don’t have to meet there. All in all, cultivation and safety matters first. So what if we wait tens of thousands of years? As long as we have enough power we will meet again.”

Ye Mo took out communication beads and gave everyone one and the extras to Luo Yue “these are communication beads I made with extreme flame star gold. You can use it contact each other and sense each other on Luo Yue. I don’t know how far we will be in the immortal realm but this is better than nothing.”

Seeing them not talk, Ye Mo felt sad too. Sometimes, he really wanted to just grow old with them at Mo Yue City but he kept feeling this calling and that was he must keep cultivating. He must stand at the highest point. He knew that even if he didn’t cultivate, staying at Mo Yue City will result him reaching truth realisation state peak stage sooner or later.

Other than this, he had a sense of desperation. Even if he stayed at Luo Yue and didn’t grow in power, who knows if Lu Zhengqun can send other people down.

Casting these thoughts aside Ye Mo said again “no matter how long it takes for me to come back, if you need to immortal ascend then do it immediately. I feel that even when I don’t cultivate my power is increasing, I afraid I’ll ascend before coming back to Mo Yue City. As for the cultivation methods I gave you guys don’t worry about the latter parts. They came from Three Birth Chant, the latter parts will be born itself. So you must not reveal this cultivation method, tell Yimo and them.”

This wasn’t the first time Ye Mo said this, everyone knew Ye Mo’s cultivation method was very precious. It would have a different set of cultivation method based on the person’s own learnings.

Their current magics and techniques were gathered by Ye Mo but in the immortal realm Ye Mo didn’t even have his own. They would have to find their own.

Ye Mo was about to leave Mo Yue City so they just stopped cultivation and played together for a month. A month later, Ye Mo left Mo Yue City quietly.

...

Nangong Village, Ye Mo came in here and no one was able to notice. Ye Mo was certain that there was a level one immortal formation here. Before he wouldn't be able to come in under the radar.

From the outside, the Nangong village didn't seem very big but after coming in, he realized it was many times bigger than he had imagined. This was all because Chu Jiuyu set up formation here.

It was very quiet inside and one could occasionally see a few disciples walking past.

As soon as Ye Mo entered a defense formation in the back yard, a powerful spirit sense swept over. It stayed at where Ye Mo was for a long time before disappearing.

Ye Mo was shook, he knew that Nangong village was very powerful but he didn't expect it was this powerful. That spirit sense was at least truth realisation state level nine. Just what were they doing hiding all this power?

Luckily he only entered the formation and didn't break it. if he broke it, that spirit sense would've found him already. He wasn't afraid of trouble but he didn't want everyone to know Mo Yue City city lord snuck into Nan Gong village, this damaged Mo Yue City's reputation.

Ye Mo just wanted to find if there was some teleportation tunnel here. He knew the chances were slim but he felt uncomfortable if he didn't try. Ye Mo was more curious after seeing how powerful this place was.

After that spirit sense disappeared, Ye Mo was more careful in here. 15 minutes later, he found that the backyard wasn't the end. There were three doors and they were all blocked by restriction. The middle door was the largest and the ones on the two side were smaller.

Ye Mo couldn't scan his spirit sense in any of them so he chose to go into the largest.

Just when Ye Mo was about to move, a figure dashed over. Ye Mo quickly stopped himself, it was Ye Zifeng.

Ye Zifeng's face was numb. He went into the left passage. Ye Mo immediately knew he must have some jade card to be able to enter so easily.

What confused Ye Mo was that Ye Zifeng was only hollow spirit state when he last saw him but in a few short years, he was body condensation state level two.

Ye Mo changed his mind, he went into the left door. These restrictions were level nine but it was nothing for an immortal formation master.

After entering the door, the environment changed. It was a spirit herb garden, there were quite some level seven and level eight spirit herbs here.

This was definitely considered top grade spirit herb garden. Even though he left most of the spirit herbs at Mo Yue City his golden page world spirit herb garden was much higher level than this.

At the border of the garden was a 9 curved hallway, reminding Ye Mo of the same hallway at ice god forbidden grounds.

Ye Zifeng had disappeared. Ye Mo followed the hallway and after a few hundred meters, a level nine defense formation appeared before them.

Ye Mo didn't go straight in. he had a feeling that no matter how careful he was, he would be found.

Chapter 1517: Nangong Zifeng

Ye Mo's purple eye soul sever was at level six now. his spirit sense blades were invisible and he gathered his own spirit sense spike. Spirit sense spike and soul spike was different. The soul spike attacked spirit sense while the spirit sense spike was not for attack. It was for dealing with formation and restrictions that spirit sense couldn't scan in.

Before, he could use spirit sense blades for that too but there was two drawbacks. One was that it used too much spirit sense and second it caused too much commotion. If it was a formation someone was guarding, it would be easily noticed. Spirit sense spike didn't have this limitation.

Of course in order to stay stealthed when piercing formation with spirit sense spike, his own spirit sense had to be very powerful and he also need to be experienced in formation.

At this moment, Ye Mo's spirit sense spike easily penetrated this level nine formation and went inside the room.

When Ye Mo came inside expressionlessly, Ye Mo guessed this wasn't a place he cultivated at. Now, his spirit sense showed that he was right.

This room was simple, it was only a stone room that was 20 square meters. There was nothing else in the room but a cushion seat. A male cultivator sat on the cushion, his head was very big but his body was small.

Ye Zifeng stood before the man and looked very respectful.

The male cultivator studied Ye Zifeng for a long while before nodding happily "not bad, your cultivation speed has been fast recently. I hope you can become the number one person of the Nangong family even Luo Yue continent number one."

Ye Zifeng bowed respectfully "I, Nangong Zifeng's, life was saved master. Zifeng would never disappoint master nor the Nangong family."

Hearing this, Ye Mo dazed. Ye Zifeng even changed his last name to Nangong. If Ye Beirong heard this, he might get crazy of anger.

The big headed cultivator nodded "very well, you're indeed the supporting pillar talent of our family. Nangong Xiaodai is the most prominent family member. She has nourishing wood spirit root, you need to treat her well. Without her, you wouldn't be at where you are today.."

Ye Mo heard this and sighed. Nourishing wood element is like Su Jingwen's hidden spirit root. Before activation, one couldn't cultivate but after activation, the cultivation speed would be extremely fast.

Nourishing wood spirit root was very rare. Any nourishing spirit root of the five elements were very rare. It's cultivation speed wasn't as good as hidden spirit root but was on par with pure spirit root. It also had an important attribute, it could help someone who doesn't have spirit root nurture a spirit root.

Of course, this was unconditional. The person without spirit root must eat the top grade spirit item of the five elements. If he ate a water element spirit item, he would need a water nourishing spirit root. So this was extremely hard.

Nangong Xiaodai was wood nourishing spirit root. The reason Ye Zifeng could cultivate so fast without spirit root was clearly because he consumed top grade wood element spirit item.

He finally understood why Ye Zifeng didn't leave Nangong Xiaodai. Ye Mo sighed, he knew that the spirit root nurtured with nourishing wood spirit root was not only good but suitable for possession.

Did this big headed guy want to take over Ye Zifeng's body? Otherwise, why would he go help someone like Ye Zifeng? Why did he use Nangong Xiaodai and even top grade wood element spirit item.

Ye Mo's spirit sense carefully searched this cultivator, he immediately noticed that he almost didn't have a body. He was probably poisoned by a very powerful poison. After a while, his body would completely disappear.

This guy was indeed preparing Ye Zifeng for possession. Ye Mo sighed, although he knew the truth of things he didn't plan to intervene.

He didn't kill Ye Zifeng on Ye Ling's account but he wasn't going to help Ye Zifeng. He abandoned Cheng Nana and undermined her innocence and brought him into it as well.

Ye Mo didn't know why Ye Zifeng became such a person but he could guess that he probably suffered a lot trying to survive in South Peace State alone. But to Ye Mo, that wasn't an excuse at all.

No matter how hard it was, he was an adult. There were many people on Luo Yue who couldn't cultivate. Could he have had life harder than when he was young? he had no parents and had to find food everywhere? When he was taken by the old Daoist of Magical Herb sect he had gone through his hardest moments.

"yes, master, Daidai is my life, even if I die I wouldn't let her get injured." Ye Zifeng said with great certainty.

The big headed cultivator nodded "mhm, very well, very well."

The big headed cultivator fell silent. After a while, he opened his eyes and said "Zifeng, come here the middle of next month. I have a small dimension magic artefact I'm planning to give you. Sigh, I'm probably about to ascend to the immortal realm. it's a waste to take it to the immortal realm..."

Ye Mo sneered. The middle of next month was the ghost festival, essence spirit was loose and it was the perfect time for possession. The big headed cultivator was planning to wait a while but perhaps seeing Ye Zifeng progress too fast, he didn't dare to keep waiting.

His body was about to die and his essence spirit wasn't very stable. If Ye Zifeng cultivated a little longer he wouldn't be able to possess him.

Ye Zifeng looked joyful and said "Zifeng thank master."

The big headed cultivator waved his hand "Zifeng don't be so polite with master, I can even give Xiaodai to you, others is nothing. Just remember you are the Nangong family member and you're I, Nangong Fei's, disciple. otherwise even if you ascend to the immortal realm, I won't let you go."

"yes, Zifeng will remember." There was a sliver of fear on Ye Zifeng's face.

"don't worry just remember you're a member of the Nangong family. Okay, you can go now." the cultivator waved his hand.

“yes, master, I will leave now.” Ye Zifeng bowed respectfully and was about to leave.

Nangong Fei suddenly thought of something and stopped him “Zifeng, has there been much news about Mo Yue City Ye Mo?”

Ye Zifeng quickly said “not much, I went to Flowing Snake city once with Xiao Dai. I heard that Ye Mo is studying runes. I don’t know why he is doing that so I went to find out and I realized that he could make level 11 runes after a mere three years. I really wonder what his head is made of. He’s level nine pill king as well.”

Ye Mo was dazed. The highest level rune in the cultivation realm was level 12, since when could he make level 11 runes? He could barely make level seven rune. He never even studied rune making.

“oh?” Nangong Fei frowned as though thinking why Ye Mo would make runes. As a pill master, he had endless spirit stones. Would he need to waste time to make runes?

Ye Zifeng said affirmatively “yes, master. Xiao Dai felt this was strange too. She took me to an auction there and he bought a rune like this. I was planning to go see sect leader but master called me so I came over.”

Nangong Fei nodded “show me that level 11 rune first.”

“yes master.” Ye Zifeng carefully took out a pale yellow rune and said “master, look, this...”

Suddenly, Ye Zifeng palmed over the rune. The rune brought out a yellow light and instantly stuck to Nangong Fei.

“what are you doing?” Nangong Fei was furious, not expecting the obedient Ye Zifeng to suddenly do this.

Ye Zifeng sneered “what am I doing? Nangong fei, do I need to tell you what I want to do?”

Chapter 1518: How are you going to kill Ye Mo

As he spoke, the rune turned into a veil completely binding Nangong Fei's essence spirit. Then, Ye Zifeng released his magic artefact and smashed at Nangong Fei.

Ye Mo thought and entered the formation without hesitation recording with a crystal ball. When Nangong Fei was there he didn't dare to go in as that Nangong Fei was too powerful and that formation was connected to his mind. Ye Zifeng didn't have that power. Ye Mo was certain Ye Zifeng wouldn't be able to know he came in.

Nangong Fei couldn't even care about himself now, how could he care that someone came into his formation.

Nangong Fei really didn't understand why Ye Zifeng who was very respectful to him would suddenly attack. He taught Ye Zifeng cultivation very devotedly and married Nangong Xiaodai to him.

He knew Ye Mo's origin very clearly. He was Ye Mo's brother and came from a world that couldn't cultivate at all. This tame disciple who didn't even dare to speak loudly in front of him now suddenly attacked him.

Plus, Ye Zifeng was about to leave but he called him back. If he was going to attack why didn't he do it earlier. Did he know he would call him back.

Crack.

Ye Zifeng's magic artefact smashed on Nangong Fei's body completely breaking it apart. Nangong Fei wasn't injured much though. However, he roared with fury "Ye Zifeng are you crazy, you dare to use level 11 spirit binding rune against me you bastard..."

Seeing Ye Zifeng attack without hesitation, Nangong Fei knew it was pointless to be angry. He suddenly calmed down and looked coldly at him "why are you killing me? I saved your life and married Xiaodai to you. If you have no reason you will be distraught with heart demon forever."

Ye Mo took out two more runes and put it on Nangong Fei's essence spirit. They were level 10 only.

Then, Ye Zifeng sneered "if I don't kill you, the middle of next month would be when I die. You old fart are really disgusting. Nangong Xiaodai is your descendant yet you want to take my body. Are you going to shamelessly marry your great great granddaughter?"

"how did you know?" Nangong Fei asked in shock. He didn't expect a clueless idiot like Ye Zifeng would know.

Ye Mo was also confused too.

"I don't know." Ye Zifeng said coldly "but I've gone through too many things, I was a family lord do you know? I was a city lord, do you know? I have also knelt down and begged for food like a dog? When I was fighting for food like a dog, I realized something. No matter when I was family lord, city lord or a dog, something would never change."

"what is it?" Nangong Fei asked subconsciously.

Ye Zifeng seemed to be talking to himself "when I was family lord, they were just using my force. I was allowed to be city lord because I wouldn't betray that city and I would work whole heartedly for that place. just like fighting for food like a dog, that was an opportunity I had to fight for. From that day, I knew there is no free food in the world. brotherhood? Husband and wife? Pfft, these are the most disgusting excuses."

Ye Zifeng stared at Nangong Fei and sneered "you saved me because I accidentally at wood element spirit item but you didn't tell me I did that. You just said you liked my persistence and took me back to the Nangong village. You even intentionally let Nangong Xiaodai get close to me and fall in love with me. then you made her nurture spirit root for me and take me in as disciple. you taught me cultivation method and cultivation. Nangong Fei, the moment I was abandoned, I knew there wouldn't be anything that was free in this world. yet you wanted me to believe there was, do you think I will?"

Seeing Nangong Fei's bleak face, Ye Zifeng said in contempt "in order to find the side effect of nurtured spirit root I went to many markets and looked through countless jade slips. Finally, in a small stall I found a jade slip. It said that nurtured spirit roots were very suitable for possession. Nangong Fei the more you

cultivate the smaller your body grows? You can ascend with your body? Can it pass divine damnation? If I'm not wrong, you just want to possess me."

"what if you guess wrong?" Nangong Fei said numbly.

Ye Zifeng laughed "so what if I guess wrong, I'm just killing a Nangong Fei, so what?"

Nangong Fei wasn't angry this time and said calmly "these few years you've been finding an opportunity to ambush me right?"

"you're right but pity you haven't given me an opportunity. Even today, I almost didn't get the opportunity." Nangong Fei seemed unhappy that he only got to ambush Nangong Fei now.

"you're evil indeed. If I didn't call you back today would you still come back?" Nangong Fei asked emotionlessly.

Ye Zifeng nodded "you're right I indeed only have one chance and you have to create it for me. otherwise, faced against an old monster like you I wouldn't die many times already. Luckily you gave me this opportunity today. If I didn't succeed I would find an opportunity before middle of next month. But you gave me the opportunity today, so, I need to thank you."

"if I knew I would die to a minor figure like you I might as well fight with Ye Mo head on and die in his hands." Nangong Fei sighed.

Ye Zifeng sneered "fight with Ye Mo? Don't overestimate yourself. Ye Mo killed 11 truth realisation state cultivators of Pill City including a truth realisation state peak stage with low grade immortal artefact. You need to know he was only truth realisation state primary stage at that time. Now, he's truth realisation state peak stage. Even if all of Nangong family went they would get slaughtered much less just you."

Seeing Nangong Fei not talk, Ye Zifeng continued "I don't know what exactly the secret of the Nangong family is but I know that Nangong family isn't as simple as this. I will find the secret slowly."

"you..." Nangong Fei was agitated this time.

Ye Zifeng waved his hand “you don’t need to get angry, it’s good that the Nangong family resources are given to me. I will help you kill that Ye Mo.”

‘haha...” Nangong Fei suddenly laughed “so what if you killed me? your wife was still fucked by your big brother.”

However, Ye Zifeng sneered “you’re wrong. I’m going to kill Ye Mo not because he took my wife. Cheng Nana is not bad looking but Ye Mo wouldn’t be interested in her and nor would she think that way.”

Seeing Nangong Fei look at him in disbelief, Ye Zifeng said coldly “I’m going to kill him because there’s a huge secret on him. I will stand at the top so I must take his secret.”

“you’re cruel indeed. This way even if you kill Ye Mo no one would say anything.” Nangong Fei looked at Ye Zifeng like an idiot.

Kill Ye Mo, who did this guy think he was? If Ye Mo was that easily killed he would died countless times. Ye Mo reached truth realisation state in a few years, who doesn’t know there are secrets on him? But why does no one dare to touch him? Because all those who tried are dead.

Ye Zifeng didn’t explain, he knew Nangong Fei didn’t believe him but he had his way.

He turned to Nangong Fei and said “you know why I haven’t killed you yet? I know you really do have a dimensional magic artefact. Give that to me and I promise I won’t annihilate the Nangong family.”

Nangong Fei said calmly “I do have it and I can give it to you but I really want to know how are you going to kill Ye Mo?”

Ye Mo heard this and realized immediately that Nangong Fei was asking this for him. He probably knew by now he was here.

Ye Zifeng smiled “I have Nangong Xiaodai, I heard he really like women who are in love with him and the South Peace State ten beauties...”

Chapter 1519: The secret of the Nangong village

Nangong Fei suddenly yelled.

Rumble.

An explosion sounded. Ye Zifeng barely released his defense magic artefact but was blasted away.

He looked at the dissipated Nangong Fei in shock and realized that even with a body and his essence spirit was bound, a truth realisation state cultivator wasn't someone a body condensation state could threaten.

Ye Zifeng's face changed a few times before having to accept the reality. He cleared the body inside the room and left.

Ye Mo didn't expect Ye Zifeng's person had twisted to this extent. He would do anything necessary to reach his target. Looking at Ye Zifeng leave quickly, Ye Mo shook his head in contempt. Even if he didn't know this, it was impossible to ambush him with Nangong Xiaodai.

Was Ye Zifeng dumb or arrogant. Just as Nangong Fei said, if he was so easily ambushed, he would've died countless times already.

Ye Mo walked to the only cushion in this room. Ye Zifeng opened it and saw nothing. Ye Zifeng was body condensation state but he was still used to looking with his eyes. This wasn't a habit that one could easily change. Ye Mo was much more experienced than Ye Zifeng and scanned with his spirit sense. he saw there was a stealth formation there.

From this, Ye Mo could tell that Nangong Fei was at least a level nine formation grand master. Ye Mo wasn't surprised, Chu Jiuyu's formation heritage came from the Nangong family.

Other people might never get in but Ye Mo just spent a few minutes and got in.

Inside, he was in this tunnel. There were some formation flags hanging in the air. They looked very plain but Ye Mo knew if he wanted to go down he would have to use them.

If one just stepped foot or used the wrong formation flag, it would immediately trigger a level nine attack formation. It didn't affect Ye Mo much but if some other cultivator triggered it he would have to await death, even if it was a truth realisation state level nine.

There was some distance to this tunnel and although there was spirit sense barrier formation Ye Mo's spirit sense could still reach the bottom of the tunnel. There was a layer of black rocks and there was more formation blocking. This was the most secret place Ye Mo had seen. Even Chu Xiaoyi's seal wasn't this heavily fortified.

With Nangong Fei guarding here personally, Ye Mo felt perhaps the secret that Nangong family cultivators could cultivate so fast was here.

But when he saw what was here, was dazed. Even if he saw a level four immortal formation or a seal flag he wouldn't be this shook.

When he came to the bottom and broke the trap formation, there was about tens of square km of spirit pond. This wasn't where cultivators cultivated, the spirit ponds were in layers and each layer had countless eggs.

Ye Mo knew most of the eggs here, there was not only spirit devouring bug but also fire eating bug and even some soul devouring bug.

Nangong family was a bug cultivation family? Ye Mo was truly shook, where did they get all these ferocious bugs?

Chu Jiuyu annihilated the fire eating bug demon. Although he got away eventually but Ye Mo knew clearly the hatred between the two. Yet at where Chu Jiuyu lived, there were fire eating bugs. Even Ye Mo couldn't understand what was going on.

There were so many layers and spirit ponds here. Just how many spirit ranges and spirit items were need to sustain this? what was the spirit liquid at the bottom of the spirit pond? How could it feed so may spirit bugs? If all these spirit bugs lived how many would there be? It woldn't just be thousand km, it would be many thousands or even ten thousand.

Ye Mo didn't even dare to keep thinking. Unless his Heaven Flame Nine Suns reached three or more suns, or he wouldn't be able to completely annihilate them. If the spirit bugs were commanded, he wouldn't be able to annihilate them all even if he had three suns.

Ye Mo suddenly thought of the spirit devouring bugs. He realized they didn't come out for no reason, it was probably related to Nangong Fei. No wonder he cared so much about him and asked what he was doing. His Heaven Flame Nine Suns was a big counter to Nangong Fei.

Seeing all the squirming eggs, Ye Mo felt disgusted. There was countless sticky liquids everywhere.

If all these went out, it would be more catastrophic than the last disaster. Ye Mo released Heaven Flame Nine Suns without hesitation. Two purple suns instantly loomed over these spirit ponds.

Countless eggs turned to dust. Eventually, all the spirit liquid were roasted dry. Ye Mo knew the things inside the pond weren't ordinary but he wasn't interested in checking.

The only thing Ye Mo didn't get was if Nangong Fei let out the spirit devouring bugs, why didn't he go as well? Why did he choose such a coincidental timing too?

After all the spirit bugs and ponds were destroyed, scorched rocks were shown. Ye Mo scanned his spirit sense around here and immediately found a place that wasn't quite right. He found an incomplete formation.

Ye Mo opened it and found a huge formation heart. There were countless formation flags arranged inside. They were all made with top grade materials.

Ye Mo took a cold breath in. this was a level one immortal formation. This Nangong Fei wasn't a level nine formation grand master but a level one immortal formation master.

The main thing was that formation disk in the immortal formation was definitely not from the cultivation realm. Ye Mo guessed that even that Jin Jinlin wouldn't be able to make it.

An incomplete level one immortal formation was just to stabilize this formation disk. Ye Mo felt it was definitely not good if it was stabilized. He even suspected that this was a backup measure for Lu Zhengqun to come down.

Without hesitation, Ye Mo took the formation disk and the incomplete immortal formation. He just threw them all in the golden page world and sealed it.

But Ye Mo wasn't happy, if Lu Zhengqun could have a second way of coming down, he might have a third.

Ye Mo's guess was right, this formation disk was indeed a back up measure for Lu Zhengqun to come down.

But Ye Mo didn't know that even though Lu Zhengqun had cultivated countless years in the immortal realm, he only got two of these runes to travel from immortal realm to cultivation realm and this was because he was lucky.

After Ye Mo put away the formation disk, he looked around everywhere and didn't find anything else. Then he left the village in a worried mood.

He didn't even have any mood to check anywhere else in the Nangong village. He desperately wanted to ascend to the immortal realm and cultivate until he kill Lu Zhengqun. Otherwise, he wouldn't be able to rest easy. Even if he ascends, Mo Yue City was still on Luo Yue continent. If Lu Zhengqun comes down there was nothing he could do to protect Mo Yue City.

Ye Mo believed with his time formation disk, he would be able to cultivate very fast if he had resources in the immortal realm.

Chapter 1520: Shatter the void again

At this moment, Ye Mo trusted his instinct more and more. he guessed that the village probably didn't have a teleportation formation to the small world before but his instinct told him he must come here.

Ye Mo quickly left the village, if he wanted to tear open space he would have to go Heartless Sea. otherwise, he didn't know if destabilizing space here would affect South Peace State. as for Ye Zifeng, after knowing his target was him he didn't worry about Mo Yue City.

He wouldn't give Ye Zifeng a second chance. No matter what, if Ye Zifeng dared to attack him again he would kill him without hesitation.

...

Blue Moon rose rapidly in speed. In just five days, Ye Mo entered the depth of the Heartless Sea. Ye Mo was planning on going deeper before tearing open space but a cultivator having divine damnation caught his attention. When Ye Mo saw this cultivator, his divine damnation was near the end. He was covered in black but he had passed the divine damnation.

The cultivator saw Ye Mo come over and just changed outfits while waiting.

"brother Ye..." this cultivator saluted with his fists to Ye Mo politely.

Ye Mo nodded, it was Meng Zhen who was chased over to this cultivation realm by Fang Yizong.

Ye Mo had some good impression of Meng Zhen mainly because he saved Ling Zhongtian. From this, it was clear he was a good hearted person or he wouldn't save Ling Zhongtian for no reason.

"brother Meng, I heard you brought the heavily injured Ling qian bei back, Ye Mo thank you." Ye Mo saluted with his fists.

"you know dao friend Ling?" Meng Zhen asked in confusion while being shocked that Ye Mo called Ling Zhongtian qian bei despite being so much more powerful than him.

Ye Mo smiled “Ling Zhongtian is the supporting pillar of North Far State and someone I admire. Ye Mo is very grateful that brother Meng saved brother Lin.”

Meng Zhen didn’t ask anymore, just when he was about to bid Ye Mo farewell and ascend to the immortal realm, Ye Mo said again “congratulations on immortal ascension brother Meng.”

Meng Zhen smiled “it’s an opportunity of a lifetime for me but it’s very easy for brother Ye.”

“last time at West Extreme State, Meng Zhen thank brother Ye for helping me. I need to tell you brother Ye after you ascend, you need to be careful of that Fang Yizong. His sect is a big sect with a long history. It’s called Demon Lin sect. they definitely have heritage in the immortal realm, be careful.”

Ye Mo nodded. He didn’t worry. He didn’t even ascend to the immortal realm and he already offended so many people. But he said “thank you brother Meng, did you find the person you were looking for?”

Meng Zhen released his chi and the immortal ascension spirit cloud came over. He shook his head “no, I was planning to go to South Peace State to look but I accidentally sensed the immortal ascension divine damnation on the way. I think I wouldn’t be able to find Qi er even if I go South Peace State so I decided to immortal ascension.”

The spirit cloud brought Meng Zhen up, Meng Zhen waved his hand “brother Ye, we’ll meet again in the immortal realm.”

Seeing this, Ye Mo had some sudden enlightenment. He sat down where Meng Zhen ascended.

...

A day later, Ye Mo got up. He didn’t even cultivate but he was truth realisation state level nine now. Ye Mo shook his head. He was very speechless but this was his Three Birth Chant, later on, even if he didn’t cultivate, it would run itself. It wasn’t much to begin with the more powerful his spirit sense became the more powerful the self cultivation of Three Birth Chant was.

Ye Mo also knew he reached truth realisation state level nine partially because of Meng Zhen's immortal ascension spirit cloud.

Now that Ye Mo had decided to ascend to the immortal realm, he didn't mind his powers increasing. He stepped foot in mid air and burst out his cultivation essence. he didn't even tear the space but space had begun to distort.

Ye Mo knew tearing open space was very hard so he didn't hold back. He used all of his cultivation essence and ripped in the air. Ever since reaching truth realisation state tertiary stage, he rarely used all of his cultivation essence.

Ye Mo had some experience in tearing open space. He grabbed the dimension barrier immediately.

The rattling space started to distort, space within a thousand km radius started to destabilise and this was expanding.

This was almost on par with the sea quake before. Ye Mo rejoiced that he didn't do this at South Peace State.

As all of Ye Mo's cultivation essence and spirit sense exploded, there was a fissure between his hands but it instantly healed up again.

Ye Mo thought his power should be much higher than Chu Jiuyu and since Chu Jiuyu could tear open space, he should be fine. But now, he realized he was completely wrong.

Ye Mo wasn't going to stop half way. He burned a mouthful of essence blood and ripped with all his might.

Space rattled again, the distortion scared away spirit beast within a ten thousand km radius. An extremely small crack was opened again but Ye Mo didn't stop there this time. He used cultivation essence even more.

The crack grew larger and larger as it made a ear screeching sound. Ye Mo dashed inside quickly.

Ye Mo didn't expect tearing open the void was this hard. It seemed the sea corner was really a sealed off dimension and not the void. Ye Mo admired the guy who made break space runes, how did he make such an absurd rune?

Ye Mo was thinking of going into the void first and then find a way out from there.

But when Ye Mo flew into the void he tore open he immediately noticed something was wrong. An extremely dangerous tearing force came charging at his side. Ye Mo twisted and dodged this force without hesitation. But the next moment, two more extremely terrifying power charged at him. If he was smashed by such power, he would be killed for certain and even torn to pieces.

This definitely wasn't void fissure.

Without hesitation, Ye Mo wanted to go into the golden page world but as soon as this thought came up, that power smashed into him.

A tearing sensation came and Ye Mo was blasted away by this power splashing blood everywhere.

He felt extremely weak and just when he was about to enter the golden page world again, there was a piercing light.

Ye Mo immediately knew he he come to another realm.

After eating a few pills, Ye Mo went into the golden page world to heal. He was certain his method was wrong. Void wasn't torn open like this, he didn't believe Chu Jiuyu was more powerful than him.

With his god state body refinement, he was almost killed and couldn't go into golden page world. how could Chu Jiuyu dodge that?

Chu Jiuyu definitely used another way to tear open the void and get to Earth.

Ye Mo went into the golden page world and felt scared. After tearing open the dimension barrier, he didn't go into the void fissure nor another realm directly. He flew in a terrifying tearing force for a while.

If he didn't have god state body refinement, he would've been killed already. Ignorance was really lethal.

Ye Mo had the small sapling in the golden page world but he didn't want to use it. Last time the sapling healed him, it was a little withered. If he used the sapling now he would recover quickly but it wasn't good for the sapling. It was too small, Ye Mo felt the sapling would benefit him greatly in the future.

Luckily Ye Mo had some immortal crystals and many top grade recovery pills.
