Chapter 1521: Tragic immortal ascension divine damnation

Two days later, Ye Mo recovered by more than half. Only now did he realise how terrifying the tearing wounds were. If it was some other wound he would've fully recovered already.

Ye Mo didn't want to stay in the golden page world anymore. He desperately wanted to know where he was now.

What appeared before Ye Mo was a barren world, there was half soft half sturdy soil. Was this an abandoned wasteland? Ye Mo got on Blue Moon and quickly left here. He wanted to find someone and know where he was.

Five days later, Ye Mo came back to where he left with a bad face. He realized that where he was now had no life, nor plants. There were no spirit beast nor even water. All there was was this earth and light.

Ye Mo was certain this was no cultivation realm or small world.

After searching for half a month, Ye Mo was completely disappointed. Ye Mo suspected that he had gone in a ragged world. this world had been destroyed. The only thing that wasn't earth here was a round pillar in every direction that his spirit sense couldn't scan into. There were five altogether. Ye Mo tried to move it into his golden page world but he couldn't. he couldn't damage the pillars either.

After 20 days of trying, Ye Mo realized that he might've really gone into someone's destroyed world. luckily this world's owner was dead or he would be very vulnerable.

Ye Mo sighed, he really didn't want to tear space again but he had to do it or he wouldn't be able to go out.

Just when Ye Mo was prepared to go into his golden page world at anytime and used all his cultivation essence to tear, he was dazed. He couldn't touch the space here at all.

In his worry, Ye Mo tried many times but the reality made him disappointed. He couldn't even sense the dimensional barrier here much less touch it.

Ye Mo couldn't keep calm anymore. He was certain he had entered a realm higher level than cultivation realm.

In the next month, Ye Mo ran around like crazy here. Every while, he would try tearing but he couldn't tear open any place here. Ye Mo realized that this was a sealed off world, like the sea corner...

Like the sea corner? Ye Mo suddenly remembered that Mu Wuhui said there was a space like the sea corner called the heaven's edge. Was this it?

But soon Ye Mo ended that thought. He could tear open sea corner but he couldn't even touch the space barrier here. This definitely wasn't heaven's edge. Plus if one had to tear the void open to go into heaven's edge no one would know about it.

Three month later, Ye Mo had calmed down. There was no use if he continued.

It was impossible to go find Mu Xiaoyun now. he wouldn't even be able to get back to Mo Yue City.

Luckily, he told them before he left Mo Yue City that he might not go back and just ascend to the immortal realm.

The only thing he could do was was cultivate to truth realisation state peak stage and ascend. If he couldn't even ascend here, he would really have to die of old age here in this barren world.

Thus, Ye Mo went into the golden page world and started setting up spirit gathering formation. He had about 70 immortal crystals. Luckily he was truth realisation state level nine, it wasn't hard to reach truth realisation state peak stage.

He didn't have much immortal crystals left but he still used 7 to activate the time formation disk. Ye Mo left 20 and used the other 40 or so to cultivate.

Cultivation was timeless and soon, Ye Mo forgot he was here once he settled his mind into cultivation.

The only thing that could accompany Ye Mo was shadowless. Shadowless seemed to know Ye Mo was in a tricky situation and didn't dare to stay next to the bitter bamboo. It flew far away and left the bitter bamboo completely to Ye Mo.

With Ye Mo's current power, his full effort cultivation made the spirit chi inside extreme grade spirit range formed spirit mist which was devoured by him. If there weren't the immortal crystals here, no matter how many extreme grade spirit range there were, it wouldn't be enough for Ye Mo's cultivation.

A few extreme grade spirit ranges were quickly used up in a few years. When the immortal crystals on the time formation disk had been used up, Ye Mo was still cultivating. He was truth realisation state level nine tertiary stage, just one step away from truth realisation state peak stage.

The time formation disk stopped and he used up his 40 or so immortal crystals. Ye Mo didn't stop. He just used spirit range to cultivate and didn't use the 20 or so immortal crystals.

Another year later, Ye Mo reached truth realisation state peak stage in the pile of spirit ranges.

Truth realisation state peak stage was something all cultivators pursued but upon reaching truth realisation state peak stage Ye Mo didn't rejoice. He was worried he wouldn't be able to sense divine damnation here. If that was the case, there would really be nothing he could do.

Ye Mo immediately came out of the golden page world. what made him rejoice was that he sensed the divine damnation.

Ye Mo breathed easy, he was so scared he wouldn't be able to sense divine damnation here. The only thing he was a little worried about was that the divine damnation didn't even feel as powerful as his hollow spirit state divine damnation. But regardless, he sensed divine damnation.

Ye Mo threw out four extreme grade spirit range. There were a lot of extreme grade spirit ranges in the golden page world but Ye Mo used them too quickly. He only had 10 left now.

Ye Mo set up spirit gathering formation as quickly as possible and used the Three Birth Chant like crazy. The first wave of divine damnation came quickly.

Rumble. A heavy sound blasted in the air. The colors of the sky didn't change at all. Then, there was a chopstick sized lightning arc that struck Ye Mo.

Ye Mo's heart sunk, he had never such immortal ascension divine damnation. The sound was so terrifying but it was only chopstick sized.

When the second blast sounded and not a single lightning arc fell, Ye Mo knew things weren't good. He quickly packed up the four spirit range and flew to where the divine damnation landed.

When the fifth thud sounded, there were finally three chopstick sized lightning arcs that landed on Ye Mo. Despite its size, it gave Ye Mo quite some benefits.

Ye Mo didn't have the mood to feel it however. There was only one thought in his mind, he had to quickly find where the divine damnation landed and use the immortal ascension divine damnation's power to tear open space. Otherwise, he would never get the chance again.

He guessed that his immortal ascension divine damnation was probably blocked by this space. Luckily the laws of this dimension were incomplete and thus couldn't hide his chi. Otherwise, he might really die of old age here.

Ye Mo was right, he didn't fly very far and the 7th lightning arc fell. These were the last two arcs. If these two disappeared and the space stabilized here again, he would never be able to leave.

If he couldn't convert cultivation essence to immortal essence he wouldn't be able to progress. Even if he cultivated for another ten thousand years, he would still be truth realisation state peak stage.

So, Ye Mo was truly desperate. He burned little less than his essence blood and used five element mobility with full power darting towards where the divine damnation came from.

Rumble rumble rumble.

The sound grew louder but Ye Mo saw the lightning arcs that squeezed in were getting smaller and smaller.

When the 9th wave sounded, Ye Mo flew desperately towards the direction.

As the 9th arc was about to end, Ye Mo ran his cultivation essence like crazy and grabbed at the void barrier here about to tear it.

Chapter 1522: First battle in the immortal realm

This effort didn't disappoint Ye Mo. The space indeed became very unstable here, Ye Mo touched the dimensional barrier. He used all of his cultivation essence and spirit sense to tear as hard as he could on the two sides.

He kept slicing out spirit sense blades too. It didn't matter if it was useful or not, Ye Mo was like a drowning man grabbing a floating board.

The loosened dimensional barrier grew larger and larger and a rainbow spirit cloud seeped in swooping Ye Mo away.

Ye Mo rejoiced, he knew this was immortal ascension spirit cloud. He devoured the immortal spirit chi of the spirit cloud like crazy trying to recover his power. The after effect of burning essence blood was very serious so many cultivators didn't want to burn essence blood. It would not only make it hard to cultivate higher and would also destabilise essence spirit.

Ye Mo rarely burned essence blood but in order to escape from that sealed dimension, he burned essence blood many times. If he didn't quickly use the spirit cloud to recover, it might affect his cultivation in the immortal realm.

...

Thud.

Ye Mo was thrown on the ground like a sand bag. Immortal spirit chi came, Ye Mo's heart shook. He knew he really ascended. He happily devoured the immortal spirit chi to nourish his wounds. He didn't even want to crawl up.

"hmm, an injured earth immortal, he's laying here, he doesn't seem to be dead yet..." a voice sounded. Ye Mo heard it clearly, he knew earth immortal was hollow immortal. He scanned with spirit sense, it was two cultivators, they were both hollow immortal power.

Ye Mo crawled up with difficulty, he saluted with his fists "friends, I was hunted here may I ask where this is?"

"not right." The cultivator who called Ye Mo earth immortal studied Ye Mo.

"you're saying he's not earth immortal, he's a truth realisation state cultivator right? He just ascended here?" the other cultivator added.

The hollow immortal nodded "that's right, he probably just ascended here and didn't go through the immortal ascension palace."

"the immortal ascension palace or many realms can't take immortal ascension cultivators, this can't mean he just ascended right?" the other cultivator asked but there was some fire in his eyes.

The two completely ignored Ye Mo.

Ye Mo shook his head and released his Blue Moon. Since these two guys didn't want to answer, he couldn't be bothered asking.

"hmm, near low grade immortal artefact flying magic artefact? This is good." The first hollow immortal stopped Ye Mo.

Ye Mo frowned and stopped but he didn't talk.

“you’re cultivation essence is far from being converted to immortal essence, you’re an newly ascended cultivator right?” the hollow immortal studied Ye Mo and asked.

Ye Mo didn’t want conflict and nodded “that’s right, I just ascended.”

The two glanced at each other and nodded. Ye Mo had a bad feeling. He ate a few pills and was ready to fight at any time.

“you’re saying you ascended here and not from the immortal ascension palace?” the cultivator’s tone became excited.

“so what?” Ye Mo frowned.

“haha, we’re really lucky...” that hollow immortal laughed and grabbed at Ye Mo.

Ye Mo was shook, he didn’t understand why this cultivator suddenly attacked here. Could one not ascend here?

But Ye Mo didn’t expect that as soon as this hollow immortal reached out his hand, he stopped and struggled to turn back “Xu Yi, you, why...”

Xu Yi pulled out a white spear from the hollow immortal and said coldly “there’s only one pocket world, which one of us will get it?”

Hearing this Ye Mo immediately realized. The two knew he had a small world on him.

How did this guy know? Was it because he ascended in a place other than the immortal ascension palace?

Xu Yi looked coldly at Ye Mo “give me the pocket world, I’ll leave you a complete body.”

Ye Mo sneered but he didn't attack immediately. He asked "I can do that but I really want to know how you know I have small world?"

Hearing this, there was more surprise and joy in Xu Yi's eyes.

He didn't explain to Ye Mo how he knew. His white spear drew a circle and then it flew over at Ye Mo.

Ye Mo didn't feel the binding of domain at all and sneered. This guy didn't even have domain and wanted to kill him. When he released Zi Xu and tried to expand his domain, he was dazed. The domain he could extend in the cultivation realm was only a faint shadow here.

Not good, Ye Mo immediately realized that the laws of the world in the immortal realm was much more stronger than the cultivation realm. he couldn't extend his domain now at all.

The white spear was before Ye Mo.

Ye Mo didn't dare to hesitate. He hacked out Zi Xu with full power.

Rumble.

There was a huge explosion. If this clash was in the cultivation realm, the space nearby would've been shattered already but there wasn't even a ripple in space here.

The terrifying immortal essence of the white spear came, Zi Xu almost flew away and Ye Mo was swept a few hundred meters away. he spat a mouthful of blood before even landing.

Xu Yi didn't take the hit too well. He was hacked tens of meters away before stopping.

Ye Mo cursed. If he was at full power and this guy was underestimating him, he could heavily injure Xu Yi. But his injuries were too heavy and he still hadn't recovered.

“hmm?”

Xu Yi didn't expect that he didn't have much of an upper hand in that clash. But he looked at Ye Mo with more fervent eyes.

Clearly, he thought Ye Mo was this powerful because he had pocket world. he also liked Ye Mo's purple kitchen knife. His white spear was his only low grade immortal artefact and it was rather good quality amongst low grade immortal artefact.

Ye Mo's kitchen knife could clash head on with his spear without being damaged. This meant that the kitchen knife was quite good, at least low grade immortal artefact.

Thinking that if he killed Ye Mo, the pocket world and kitchen knife would be his, XU Yi snarled. He shook his white spear and countless white arrows flew out. They brought howling sounds and surrounded Ye Mo in all directions.

Amidst the white arrow rain, a huge white spear dragon opened his mouth biting at Ye Mo.

Ye Mo released octagonal cauldron without hesitation. He didn't have enough cultivation essence break through his spirit sense was very powerful. He also released tens of lightning sword. They were black lightning.

Xu Yi's eyes lit up even more. Ye Mo had good thing one after another. This octagonal cauldron was also very good. All these good things were in the hands of a truth realisation state insect, this truth realisation state insect was too lucky.

But the next moment, he didn't have the expression of surprise and joy anymore. The lightning sword had completely surrounded the white spear dragon. The spear dragon made a sharp howl.

Xu Yi's face went pale, lightning cultivator? He didn't expect Ye Mo was a lightning cultivator and had such an absurd lightning cultivation essence. his white spear was this powerful because it contained his essence blood and part of his essence spirit. Such magic artefact feared lightning cultivators the most.

Xu Yi knew that even though Ye Mo's power wasn't as strong as him but he was countered. Plus, his octagonal cauldron didn't fear his white arrow rain at all.

Xu Yi retreated quickly. He let out a flying sword rune. He wanted to find help to kill Ye Mo. He wasn't going to let such a wealthy cultivator leave.

Chapter 1523: Convert cultivation essence

As soon as Xu Yi sent off the rune, Zi Xu hacked over.

Illusion Cloud domain kill strike. He couldn't form his own domain but he could use the Zi Xu sword force to form a very small sword domain. even though his range of the domain was reduced, it was still powerful.

Xu Yi didn't plan to keep fighting with Ye Mo. He was ready to release fire ball to burn the body first so others wouldn't be able to tell he did it. but just after he retreated, Zi Xu hacked over.

XU Yi struck back with his white spear without hesitation. He knew Ye Mo's cultivation essence wasn't converted to immortal essence so he wasn't worried.

But immediately, he realized that his white spear didn't go as fast as he had thought. It was stopped by Ye Mo's purple sword chi.

"sword domain..." Xu Yi just said this and Zi Xu completely broke him apart. Yet at this moment, his white spear hadn't even touched Zi Xu.

An essence spirit flew out quickly but shadowless was ready. How could Ye Mo let go of hollow immortal essence spirit. Shadowless quickly ate the essence spirit and Ye Mo picked up two storage ring. Just when Ye Mo wanted to burn the two bodies, there were ripples inspace. Ye Mo immediately knew people came over. He didn't dare to wait at all and disappeared in a dashing light.

He sensed space ripples because he learned it for catching corner soul weed. In the cultivation realm before, no one was enough to make him run so that experience was useless. But now, Ye Mo put it to use.

Ye Mo just left a few seconds and two figures landed here.

“Xu Yi is dead, Mang Rong is killed too...” the latter one said and asked his friend “brother Fan, the cultivator definitely wouldn’t be very far but I’m afraid that person is at least hollow immortal tertiary stage. If we chase...”

The cultivator said without hesitation.

Brother Fan shook his head “Mang Rong wasn’t killed by someone else, he was killed by Xu Yi. Xu Yi was killed by someone else.”

The cultivator looked at brother Fan in confusion “he really was killed by Xu Yi but Mang Rong and Xu Yi are the closest. The two always grouped together why would Xu Yi killed Mang Rong?”

Brother Fan thought for a moment and said “I’m very shocked that Xu Yi killed Mang Rong. There can only be two reasons for this, one both of them found a top grade treasure. Second, there was conflict between the two.”

The other cultivator nodded “brother Fan you’re right. Mang Rong was ambushed by Xu Yi. Was there something good, Xu Yi killed Mang Rong and was caught by someone else?”

Brother Fan nodded “very likely, someone who came later took all the goods.”

“should we chase? It wasn’t long since Xu Yi notified us. That person could kill Xu Yi in such a short time, would he be golden immortal power?” the cultivator asked with uncertainty. Clearly, he was scared he would lose his life chasing that cultivator who killed Xu Yi.

Brother Fan shook his head “impossible, if he was a golden immortal, he wouldn’t leave behind Xu Yi’s magic artefact. Xu Yi’s magic artefact is a low grade immortal artefact, even a golden immortal wouldn’t casually throw it away.

The two looked at each other and nodded. Brother Fan took Xu Yi’s white spear and then flew rapidly towards the direction Ye Mo went.

Ye Mo had experienced too much. He wasn’t able to confirm if the people behind would be able to chase up to him so after dashing some distance, he decisively went underground and then into the golden page world.

A few seconds later, two figures landed.

“the chi disappeared here?” brother Fan frowned and threw out a grey spirit beast. The spirit beast circled around a few times and called.

“what do we do?” the other cultivator asked.

Brother Fan hesitated and said “he probably got away. there wouldn’t be anything good at Weak Wind Hill, there’s no need to waste time here. I heard that goddess Ge Yan would be coming to Bi Yi immortal city to celebrate Bi Yi immortal city’s forgery tournament. She would hold a feast inviting all of the cultivators in the city. We can also go get some free Wen Feng wine. This is a rare opportunity.”

The other cultivator heard this and gulped down some saliva before nodding “it’s said that Wen Feng wine is very delicious and can stabilize essence spirit. I wonder if it’s true. I’ve never drank it before.”

“neither have I, let’s go.” Brother Fan agreed and the two quickly left here.

...

In the golden page world, Ye Mo didn’t even want to come out and check. He was heavily injured right now and recovery was the most important thing.

He opened the two storage ring and wasn't very excited. They two even wanted his Blue Moon, clearly they weren't wealthy.

Ye Mo was right, the immortal crystals combined were only about a thousand. There were a few immortal crystals that looked better than the rest. Ye Mo guessed they were middle grade immortal crystals. As for pills, Ye Mo only found two lowest level immortal pills. The rest were heaven grade level nine pills.

These 1000 immortal crystals weren't much for others but it was a huge fortune for Ye Mo. Ye Mo put 7 immortal crystals into the time formation disk and started recovery and cultivation.

Originally, 7 immortal crystals could last a month and it would be about 9 years inside the time formation disk.

But when Ye Mo used Three Birth Chant at full power, the immortal crystals were being used up rapidly. In a short three days, the immortal crystals were used up completely and it had only been a year or so inside the time formation disk.

If this was some other place Ye Mo's wounds would've healed and he wouldn't keep using time formation disk to cultivate but this was the immortal realm. he was noticed that he didn't come from immortal ascension palace and thus was almost killed because his cultivation essence wasn't converted to immortal essence.

If Xu Yi worked with his friend, Ye Mo would've had it rough.

He knew nothing about the immortal realm, he had no sect heritage nor powerful master. All his achievements were through his own hard work.

He still didn't know why his immortal ascension would expose his small world.

After thinking for a moment, Ye Mo put 7 middle grade immortal crystals into the time formation disk. He had to quickly convert his cultivation essence to immortal essence and stabilize his hollow immortal primary stage. Otherwise, if he went out again he would be caught.

Crack.

When the last immortal crystals in Ye Mo's hands turned to dust he found that in a short time he had used 1000 or so immortal crystals. The 7 middle grade immortal crystals on the time formation disk were beginning to get dim. Ye Mo estimated they would only last about 3 to 5 days.

Ye Mo calculated, he had cultivated about 6 years inside the time formation disk. This meant that 7 middle grade immortal crystals could only last about 20 or so days. It seemed he needed to find top grade immortal crystals for cultivation.

After running his cultivation essence, Ye Mo sighed. He had converted 20% of it to immortal essence. he wouldn't be counted as a cultivator who just ascended.

Then, Ye Mo started searching for jade slips inside their storage ring. They just introduced some ordinary places. He didn't have time to look at it before but now he couldn't cultivate so he took it out.

From that he knew he was at the outskirts of a place called Bi Yi immortal city. It was a middle caliber immortal city. It was one of countless immortal cities of Wen Ju Heaven.

Other than the Bi Yi immortal city, it talked about a place called Lao Xi swamp the most. It was a place that low cultivators frequently went.

Putting it away, Ye Mo came out of his golden page world.

He wanted to check out Bi Yi immortal city. He knew too little information. He needed to know where Yue Heng heaven was and some basic things of the immortal realm.

Chapter 1524: Join Squad

It was a small hill area around him. Now, Ye Mo realized he didn't know where Bi Yi immortal city was at all.

Just when Ye Mo was hesitating which way to go, three figures appeared in his spirit sense. they all used extreme grade flying cultivation artefact.

Thinking that he had converted some of his cultivation essence to immortal essence, Ye Mo guessed that these people wouldn't think he was just newly ascended. He released an extreme grade flying cultivation artefact and rapidly chased over. Ye Mo didn't want to take out Blue Moon again.

The three saw Ye Mo with their spirit sense and stopped.

Ye Mo saluted with his fists "friends, I'm Ye Mo, I haven't ascended for long and just came out of immortal ascension palace. I want to go out and find some cultivation resource but I got lost. May I ask what place this is?"

There were two men and one woman. They were all hollow immortal. The strongest was the short haired man, he was hollow immortal tertiary stage. The female cultivator was hollow immortal middle stage and the other skinny man was hollow immortal middle stage. Ye Mo was only hollow immortal primary stage.

"you came from the immortal ascension palace?" the female cultivator asked in shock clearly wondering how Ye Mo came here.

Ye Mo didn't know how far immortal ascension palace was from here so he could only say "yes I came from immortal ascension palace. I've ascended for 19 years but I've been wasting these years on searching for a way and finding cultivation realm, my power didn't grow at all."

The skinny female cultivator said "the nearest immortal ascension palace in Wen Ju heaven is at Yi immortal city. Even if you don't rest on your extreme grade cultivation artefact, it would take more than 3 decades to fly here..."

Then she stared at Ye Mo clearly thinking he was lying.

Ye Mo didn't expect the nearest immortal ascension palace from here was this far. He could only show Blue Moon "I have a half immortal artefact. That's why I can get here so quick."

Hearing this, the wariness in the female cultivator's eyes went away. she smiled "no wonder you got here so fast. This means you're not that fast."

Ye Mo breathed easy and asked in confusion "are there more than one immortal ascension palace?"

The female cultivator nodded "yes, there are ten in Wen Ju heaven. Usually cultivators wouldn't go out of there, they would learn about the immortal realm first. It's very dangerous to go out rashly like you. The newly ascended cultivators are protected in the immortal city of the immortal ascension palace. They can join some powers but it's not allowed to coerce newly ascended cultivators.

Ye Mo sighed "I saw people go out of the city to look for cultivation resource so I wanted to go test my luck too. I got lost and flew all the way here."

The female cultivator smiled "there are very little cultivators who get lost but there are some. Usually cultivators would spend a few decades or even 100 years in their immortal ascension city to completely convert cultivation essence to immortal essence before leaving. You're really bold."

Ye Mo had a great impression of this female cultivator seeing her attitude was so nice. He quickly asked "may I ask how far is it from here to Bi Yi immortal city? I asked a friend before but he was busy and just told me this place wasn't far from Bi Yi."

"we're going to Bi Yi immortal city, you can come with us." The skinny cultivator said.

The female cultivator said "we just came back from Lao Xi swamp. If you need to go out and find cultivation resource, Lao Xi swamp is the best. It's not very dangerous but you can find a lot. We wouldn't be coming back so quickly if it wasn't that Ge Yan goddess is coming to Bi Yi city."

Ye Mo pretended to say awkwardly "last time I went to find cultivation resource, I got lost until now. I've decided to cultivate at Bi Yi city for a while first. Otherwise, I might get lost again."

The female cultivator smiled "you won't, it's a very simple direct rout from Bi Yi immortal city to Lao Xi swamp. But if you're going it's best to go in a group. It's very dangerous for you to go alone.

The female cultivator looked at the short haired man and said “Li Heng brother, Ye Mo just ascended. Let’s have him join our squad. We endured the hardship like this before, I think we should help if we can.”

Li Heng smiled “of course.”

Li Heng saluted with his fists to Ye Mo “I’m Li Heng, if you want to join we can go out to find cultivation resource together. We need five people for our squad and we’re missing two. You can join but if you don’t want to you can still come with us to Bi Yi immortal city.”

“then thank you brother Li Heng.” Ye Mo was troubled he didn’t have cultivation resource and didn’t know anything here as well. Now that someone invited him to join, of course he would join without hesitation.

Seeing this, the female cultivator smiled “I’m Gao Yuan, that’s my brother Gao Hu.”

She pointed at the skinny cultivator.

Ye Mo didn’t expect the two were siblings. They were quite capable to be able to find each other after immortal ascension at only hollow immortal power.

The four spoke and everyone got to know each other quickly. Gao Yuan was warm hearted and talkative. Gao hu didn’t talk much. Li Heng was very mature and humble. The three gave Ye Mo the impression they weren’t bad people and this was why Ye Mo was willing to join.

Ye Mo finally couldn’t resist his urge and asked “brother Li Heng do all the cultivators of cultivation realm must go through immortal ascension palace to come to immortal realm?”

Li Heng nodded “I heard some heaven domain’s immortal ascension laws are broken. Immortal ascension cultivators might not come from immortal ascension palace but the cultivators of Wen Ju heaven all must come through immortal ascension palace.”

‘so that’s it.” Ye Mo answered not getting the answer he wanted.

Luckily Gao Yuan added “I heard people say that if you have your own pocket world and have the divine damnation inside you won’t appear in the immortal ascension palace. But pocket world is different to small world. pocket world is much higher level than small world. only a world with the complete five elements can have divine damnation or divine damnation wouldn’t be able to reach inside.”

Li Heng smiled “Gao Yuan you can really think, even only a few of the powerful beings in the immortal realm would have pocket world. how could the cultivation realm have such thing?”

Ye Mo realized. He had his divine damnation in a pocket world and he didn’t appear in the immortal ascension palace. Thus Xu Yi guessed he had a pocket world but little did he know Ye Mo had the golden page world. it was on a completely different level to a pocket world.

Ye Mo guessed that the five pillars were the five elements.

“Ye Mo you’re really lucky. This time Ge Yan goddess is coming to Bi Yi immortal city. It’s said she would use Wen Feng wine to treat all the cultivators earth immortal and above. you can make it. Wen feng wine is very hard to buy, it’s price is absurd too.” Gao Yuan said.

The group kept talking and soon they were outside the city.

Ye Mo’s Mo Yue City was the grandest city on the entire Luo Yue continent but when he saw Bi Yi immortal city, he realized what was truly grand.

It soared so high into the clouds that one couldn’t see the top. There were four golden words flashing in the clouds, Bi Yi immortal city.

Yet, this Bi Yi immortal city was only an ordinary immortal city in Wen Ju heaven. He heard Li Heng and them say Wen Ju heaven was low ranked heaven domain.

Chapter 1525: Favor of Ge Yan goddess

The two city guards at the gates were actually golden immortal tertiary stage. But they seemed really amicable and looked at Li Heng and their jade card and let them in.

Ye Mo just realized he didn't have a jade card so he couldn't go in.

Gao Yuan realized that Ye Mo didn't have one so she quickly said "Ye Mo it's your first time here. You need to apply for a jade card. You can do it with the immortal guards. It's 500 low grade immortal crystals for one year and 2000 for ten years. If you have immortal crystals ten years is rather reasonable."

Ye Mo dazed and after a moment he said "but I only have 21 immortal crystals..."

They were the ones he didn't use in his golden page world.

Hearing this, the three glanced at each other. They really didn't expect Ye Mo was this poor. Even the worst hollow immortal would have more than 21 immortal crystals after ascending for more than ten years. Even the two immortal guards were speechless.

21 immortal crystals wasn't much but 500 wasn't small. Even Li Heng and them were troubled. They saw Ye Mo for the first time and had quite a good convo but it was hard for them to lend 500 low grade immortal crystals to someone they met for the first time.

Ye Mo instantly realized this and didn't like to trouble others. He saluted with his fists "I know the position of Bi Yi immortal city so I won't go in for now. I'll come meet up with you guys once I have enough immortal crystals."

Gao Yuan just wanted to lend Ye Mo 500 low grade immortal crystals when they saw a vibrant rainbow dashing light land at the city gates.

Ye Mo could tell that this was at least a top grade immortal artefact.

That top grade flying immortal artefact just landed and two female cultivator walked out of it. They were both extremely pretty. The one walking ahead weaved her hair into a butterfly shape. She wore a yellow

flowery dress showing her extremely slim figure with a royal look. The female cultivator next to her wore a pink dress and was extremely aesthetically pleasing but her status was probably lower.

The pink dressed girl was already golden immortal power and Ye Mo guessed that the flowery dressed female cultivator was beyond golden immortal.

The two city guards immediately saw the two and came up to bow "greet Ge Yan goddess."

Ge Yan goddess nodded and then another two flying magic artefact landed. Ye Mo couldn't see their power level at all.

Ye Mo knew this wasn't because he wasn't able to but he didn't completely understand the cultivation system of the immortal realm. but he guessed they were probably her bodyguards.

Li Heng and them were clearly worried. Gao Yuan pulled Ye Mo and said "I'll lend you 500 low grade immortal crystals, get a jade card and let's quickly go..."

"Yuan Yuan wait, the two immortal guards haven't come over yet." Gao Hu was scared his sister would offend the city guards.

"what's going on?" the pink dressed female cultivator looked at the four in confusion. usually people would move aside to let Ge Yan goddess go in.

The two immortal guards were a little worried. Then, they saw a few cultivators come out from the city, they were clearly here to greet Ge Yan goddess. If they messed things up they would lose their jobs.

One immortal guard said desperately "one of the four can't go in because he doesn't have jade card. He only has 21 low grade immortal crystals so he can't afford a jade card. He was about to leave but Ge Yan goddess arrived, we'll lead them away immediately."

Ge Yan nodded and looked at Ye Mo. Clearly he was a newly ascended cultivator. His cultivation essence wasn't even completely converted yet. She smiled and took out five top grade immortal crystals and gave it to the guards "I'll pay for his jade card for him."

Before Ye Mo could thank her, Ge Yan took her two guards and red dressed female cultivator into the city. The two guards stood there dazily uncertain as to why Ge Yan goddess would help a newly ascended cultivator pay.

“Bi Yi immortal city Xiang Xingxian greet Ge Yan goddess..”

“He Congyin greet...”

As Ge Yan goddess went into the immortal city, the immortals who came to greet her had come to the city door.

Tens of Bi Yi immortal city powerful figures hustled around Ge Yan goddess as she went into the city. Ye Mo didn't even get an opportunity to thank her.

“you're really lucky you could get Ge Yan goddess to help you...” the immortal guard took out a jade card and asked “what's your name?”

“Ye Mo.” Ye Mo knew he was really lucky indeed.

The immortal guard soon gave the inscribed jade card to Ye Mo “go inside, remember to thank her.”

Ye Mo took the jade card speechlessly. To be honest, he really didn't want to owe her a favor. He would rather ask Gao Yuan to borrow 500. But this was nothing to Ge Yan goddess. Ye Mo felt this favor was hard to return. It would be a miracle he would be able to see Ge Yan goddess for 500 low grade immortal crystals.

The group went inside the city and Ye Mo cast those thoughts aside. The immortal spirit chi here was more than ten times better than outside the city. He felt that with the immortal spirit chi here 500 immortal crystals a year really wasn't much.

“Ye Mo you're really lucky. Even Ge Yan goddess helped you pay. If there was a lot of people at the city gates, you would be famous.” Gao Yuan joked.

Ye Mo could only laugh.

Bi Yi immortal city was enormous. Even the largest cultivation city in the South Peace State South Peace City was a far cry from here.

As they walked more towards the border, the immortal spirit chi lessened. Ye Mo just realized now that there were only certain places with good immortal spirit chi.

Half an hour later they came to a place with even less immortal spirit chi. Li Heng pointed at the row of short cultivation homes and said "you can rent the cultivation home here. D 23 to 27 is where we rent. It's Mi Qin who lived at 23 but he died two months ago in the Lao Xi swamp. You can stay in his place for now."

Li Heng took out a jade card and gave it to Ye Mo "this is the jade card to open the cultivation home. We're going to rest first you should too. There's still a few days before she would invite the cultivators of the entire city. We'll come tell you."

"thank you brother Li." Ye Mo thanked. He knew that he didn't have to pay immortal crystals for the place he stayed but he should still give some immortal crystals to them later. Plus Li Heng didn't say he could live for free as well.

Ye Mo realized that although the city looked very grand on the outside, there were still slums here too.

The room Ye Mo had only had slightly better immortal spirit chi than outside. The cultivation home was very simple too, there was only a main cultivation room and a side room. this room was probably for pill concoction and feeding spirit beasts.

Ye Mo didn't cultivate here, cultivating here was a torture. He was just a hollow immortal but the immortal spirit chi he needed was on a different level.

Ye Mo didn't know the later cultivation states too so he left the cultivation home and went out around.

Although his Three Birth Chant would automatically create the next level of cultivation method for him after he reaches hollow immortal peak stage, he still wanted to know.

He needed to know that at what power level would cultivators have some specific traits or immortal essence signatures. Otherwise the next time he encounters an opponent he wouldn't even know their cultivation state.

Little did Ye Mo knew that a normal immortal ascension cultivator would automatically know the cultivation states of the immortal realm after ascending to the immortal realm but Ye Mo didn't have that imprinted in his brain.

Chapter 1526: Careless exposure

Ye Mo saw a simple market not far from his cultivation home. The things here were very low level. Most of the cultivators trading here were hollow immortals.

Ye Mo not only wanted to buy a few jade slips but also understand Bi Yi immortal city as well as the situation of the 33 heavens. He went directly to the heart of the city.

The immortal spirit chi was very dense in the city center making Ye Mo want to find a quiet place and cultivate but he knew that was impossible.

If the immortal city permitted this there would be cultivators sitting all over the ground.

The main streets were very busy and even the market stalls were very luxurious much less those grandiose merchant towers.

Ye Mo walked around, there were too many shops here. He didn't know how many cultivators were here and how they were so wealthy. Most shops had many cultivators walking inside.

Ye Mo knew that on Luo Yue he was a wealthy man but in the immortal realm he was broke. He had only mere 21 low grade immortal crystals. He wouldn't feel self conscious about this but he knew that going there with this little immortal crystals was asking for trouble.

So, Ye Mo chose to go to a smaller merchant shop.

Going inside, Ye Mo felt an even denser Immortal spirit chi than outside. Ye Mo couldn't help taking a deep breath while sighing, cultivation was all about cultivation resource. Without it, no matter how hard you worked you wouldn't be able to reach higher cultivation states.

There were neatly organized rows of light orb restrictions. Each restriction had pills, herbs and magic artefacts. This shop wasn't big and only had one level.

When Ye Mo came in, there were already a few people looking inside the light orbs carefully.

Ye Mo didn't look at those light orb restrictions. He knew that with his low grade immortal crystals he wouldn't be able to buy anything. He walked to a golden immortal cultivator at the front desk. He got up politely and asked "what do you need friend?"

"is there cultivation method and details about 33 heavens?" Ye Mo quickly asked.

Hearing that Ye Mo was here to buy cultivation method the golden immortal's smile immediately lit up. He quickly said "you came to the right place, I have from heaven grade to immortal grade cultivation method. The highest is immortal grade level four. As for 33 heaven information I can give it to you for free if you buy cultivation method."

"then how much is the price for immortal grade level one cultivation method?" Ye Mo thought he had a lot of materials and extreme grade cultivation artefact. He might be able to trade for some immortal crystals.

Hearing this, the golden immortal's eyes smiled till it could be barely seen "there are many types look at which type you want. The price is about 10000 top grade immortal crystals and 30000 top grade immortal crystals..."

'this expensive?' Ye Mo took a cold breath in. if an immortal grade level one cultivation method was this expensive how Li Heng and them cultivate?

Hearing this, the golden immortal's fervor reduced by quite a bit but he still smiled "the cultivation method I have here are all high level cultivation method. It's completely different to the cultivation method that low level solo cultivator spread amongst each other."

Ye Mo knew this golden immortal was bluffing but he didn't care. At least now he realised where Li Heng and them's cultivation method came from. there were copied around by low level cultivators. This way it would cost very little immortal crystals. When they were strong enough they could switch cultivation method.

"in that case I don't want cultivation method yet give me the details about the 33 heaven domains." Ye Mo said.

There was disappointment in his eyes. This was a huge difference.

But he still took out a jade slip and said "100 low grade immortal crystals, non negotiable."

Ye Mo still hasn't gotten out of the mentality that in the cultivation realm immortal crystals were very expensive. He thought one jade slip would at most cost around ten immortal crystals. After all, it could be copied everywhere.

"um, I only have 21 immortal crystals, i..."

Ye Mo didn't even get to say he could trade in things for immortal crystals and the golden immortal took the jade slip back. He was good tempered but even he couldn't deal with a cultivator who couldn't even take out 100 low grade immortal crystals. Plus this cultivator was much weaker than him.

"I have extreme grade cultivation artefact here, do you guys take it?" Ye Mo felt awkward.

"no." clearly the golden immortal didn't want to talk to Ye Mo anymore.

"haha, friend I'll take your extreme grade cultivation artefact." Another fatter cultivator walked over and said genuinely.

Ye Mo scanned this person and could tell he was golden immortal too. He could tell that the shoes he was wearing was at least low grade immortal artefact. His clothes and bracelet were all defense immortal artefact.

With Ye Mo's experience he could tell that this cultivator wanted to help him. Usually, he wouldn't be this desperate but now he desperately needed to know where Yue Heng heaven and Gong Hua heaven were.

Thinking about this, Ye Mo thanked and took out an extreme grade flying cultivation artefact he made and showed it to the fat cultivator "what do you think?"

"hmm, it's a flying magic artefact, good thing." The fat cultivator indeed wanted to help Ye Mo but he was a little shook when Ye Mo took out this. how could Ye Mo have extreme grade flying cultivation artefact if he couldn't afford 100 low grade immortal crystals?

Extreme grade cultivation artefact wasn't worth money in the immortal realm indeed but there was still a market for extreme grade flying cultivation artefact.

"I'll give you 500 immortal crystals." The fat cultivator took out 500 low grade immortal crystals and gave it to Ye Mo.

Ye Mo didn't know the prices in the immortal realm but he knew it wouldn't be very high.

Ye Mo took it and then took out two corner soul weed and gave it to the cultivator "I got this occasionally, thanks for helping friend you can keep it."

"corner soul weed..." the golden immortal who didn't want to talk to Ye Mo sprung up in shock.

The fat cultivator didn't really mind but upon hearing corner soul weed there was surprise and joy in his eyes.

Ye Mo dazed, the corner soul weed came from the cultivation realm. there were plenty in the sea corner, how could a golden immortal know? He only took out clear weed.

“friend, do you have more corner soul weed? I’m willing to pay 500 no 1000 top grade immortal crystals to buy your corner soul weed...” the golden immortal said desperately.

Ye Mo was shook, he didn’t expect the corner soul weed was this precious.

Ye Mo didn’t feel good, he was worried. How could he not know the cruelty of cultivation by now? although this was a prosperous city and everyone smiled at you but if there was conflict of interest these people wouldn’t hesitate to release their magic artefact at you and kill you.

The fat cultivator was overjoyed but hearing the bid of the golden immortal his heart sunk. 1000 top grade immortal crystals was 100,000 low grade immortal crystals. This definitely wasn’t the bottom price of corner soul weed. He helped Ye Mo with 500 low grade immortal crystals but Ye Mo gave him an extreme grade flying cultivation artefact. If he was going to pay Ye Mo immortal crystals it would be too much. He was wealthy but he couldn’t spend it like that.

The fat golden immortal gave the two corner soul weed back to Ye Mo “friend, this is too precious, I, Yan Hongzhong, can’t take this.”

Ye Mo pushed it back to him “I only have these two, I bought it from a market. To me, although it has some use for spirit sense but it’s too little. Since I gave it out I don’t intend to get it back.”

Then, Ye Mo saluted with his fists to the merchant tower golden immortal “sorry I only have these two and I’ve given it away.”

Ye Mo didn’t expect the corner soul weed was this precious in the immortal realm too. It wasn’t wise to take it out. He didn’t intend to buy jade slips anymore and turned to leave.

Yan Hongzhong stopped Ye Mo “friend since I got something so precious from you, I have two jade slips here. Have a look.”

Chapter 1527: Upgrade Zi Xu

Ye Mo grabbed the jade slip and turned to leave without even saying thank you. When the golden immortal chased out, Ye Mo's figure was already gone. Unlike outside, one couldn't scan his spirit sense very far in the city.

The golden immortal immediately looked back and saluted with his fists to Yan Hongzhong "friend, would you be able to sell these two corner soul weed to our merchant tower. The price is negotiable. Name a price, if you're willing to sell we won't let you lose out."

The golden immortal regretted extremely. If he spoke to the cultivator more, perhaps he would've got the two corner soul weed already.

After this he had decided to talk to a customer more no matter what power level he was at.

...

Ye Mo left very rapidly as the corner soul weed was too precious. He knew that was more suspicious but even so he didn't want to be followed.

He quickly got back to his cultivation home and knew he wasn't being followed. He immediately set up a barrier formation and a few more restrictions.

Ye Mo breathed easy and then took out the two jade slips Yan Hongzhong gave him. When Ye Mo's spirit sense scanned inside the first one, he immediately knew Yan Hongzhong was a good person. It was an immortal grade level three cultivation method. It described the levels and characteristics of cultivation very precisely. There were even some cultivation experience and notes. From this, Ye Mo knew that Yan Hongzhong had a similar personality to him, they didn't like to take things for free.

The cultivators of the immortal realm were divided into three big grades, heaven immortal, great immortal and status immortal.

Hollow immortal, golden immortal and abstruse immortal were heaven immortal grade. Beyond abstruse immortal was great immortal grade. Great immortals were great unity immortal, great extreme immortal and great eternity immortal. When you reach the extreme of great eternity immortal, it would be status immortals. The lowest is immortal king, then immortal monarch. The pinnacle of immortal realm cultivation is immortal emperor.

From hollow immortal to immortal emperor, there was primary stage, middle stage and tertiary stage. Each step was stacked up through countless cultivation resource and time. There was no fast way there.

The status immortals in the immortal realm were the pinnacle of immortals. Even an immortal king was very honourable.

Ye Mo simply scanned the jade slip and knew the direction of immortal realm cultivation method. He lost interest in the jade slip.

Ye Mo's spirit sense scanned the second one. This was indeed what he wanted to buy, the information about the 33 heavens. It wasn't very detailed but it had everything Ye Mo wanted.

The 33 heaven domains were divided into 11 low heaven domain, 11 middle heaven domain and 11 grand heaven domains. Ye Mo panted, his guess was right, the 33 heavens weren't equal.

After countless years, there was strict division between low middle and grand heaven domains. You may be a heaven lord at a low heaven domain but when you get to middle heaven domain your status is greatly diminished. Usually, there's no teleportation formation from low heaven domain to middle heaven domain. it wasn't easy for cultivators to go from low heaven domain to middle heaven domain. only if you're extremely wealthy or extremely powerful would you be able to enter higher heaven domain.

If you're wealthy and have a lot of immortal crystals, you can take the long distance flying ships that travels between heaven domains. If you're very powerful, you can fly across heaven domains yourself. Of course there are some lucky cultivators who get taken in by the sects of high heaven domains when they come down. This way you would also be taken away.

As for the levels of the sects, it's completely different to the 9 star system in the cultivation realm. it's based on the power of a sect. if a cultivator in the sect reaches great extreme immortal, then the sect would be great extreme immortal sect. if a cultivator reached immortal emperor in the sect, then the

sect would be emperor sect. a sect without a great immortal wouldn't be accepted. Even the weakest sect must have one great immortal to be established.

Ye Mo also looked at the 33 heaven division. The low heaven domains were, Huang Zeng, Yu Wan, He Tong, Ping Yu, Wen Ju, Mo Yi, Yue Heng, Meng Fei, He Yang, Gong Hua and Ji Feng heaven.

The 11 middle heaven domains were, Huang Jia, Tang Yao, Duan Jing, Ji Yao, Kong Sheng, Huang Ya, Xiao Mang, Zong Piao, Wen Chong, Jiang You, Yuan Le heaven.

The 11 grand heaven domains were, Xian Shi, Xiao Du, Yuan Dong, Miao Cheng, Jin Shang, Chang Rong, Teng Sheng, Fan Du, Great Red, Yu Yu and Qing Wei heaven.

Ye Mo didn't expect both Yue Heng and Gong Hua were low grade heaven domains. He wondered what power that Lu Zhengqun was, great immortal or status immortal?

From Yan Hongzhong's jade slip, Ye Mo could tell that in the 11 low grade heaven domains, status immortal were extremely rare. Each was a heaven lord.

The jade slips didn't talk about the middle grade and grand heaven domains. However, Ye Mo could guess that Wen Jue wasn't very far from Yue Heng. Meanwhile, Gong Hua was the furthest and very far from Yue Heng.

From the jade slip Ye Mo knew that it was extremely hard to reach status immortal in the low heaven domains. One must be in middle heaven domain but the jade slip didn't explain why.

Ye Mo sighed and put the jade slip away. he knew that if he wanted to stand at the peak of the immortal realm like on Luo Yue continent, it would be countless times harder.

If Ye Mo didn't have golden page world, Three Birth Chant, time formation disk, bitter bamboo and so forth he wouldn't even dare to imagine standing at the top. He wouldn't even dare to fight with Lu Zhengqun.

But now, he had to want to. He ascended to immortal realm alone, Lu Zhengqun wouldn't be able to find him but if a lot of people ascended from Luo Yue continent then he would be exposed. There were countless people at Mo Yue City, what if they were attacked by Lu Zhengqun?

After thinking for a long while, Ye Mo had decided to go out with Li Heng and them. He would never come back. The Bi Yiyi was safe but this wasn't what he wanted. He didn't need safety he needed large amounts of cultivation realm and rapid improvement.

After deciding his path Ye Mo took out his extreme flame star gold and started to upgrade his Zi Xu.

But now matter what he didn't dare to go into the golden page world here. Who knew how many powerful beings were in the immortal realm. perhaps their spirit sense was looking through the formation and you didn't even know.

The exposure of the corner soul weed didn't seem like a big deal but Ye Mo had a subtle sense of unease. He really wanted to go now but he knew that he had to keep calm. If he left alone he wouldn't be able to explain things.

Ye Mo started to use mist lotus heart fire to forge the extreme flame star gold.

After melting it, Ye Mo added it to Zi Xu. What shook him was that before he did anything, Zi Xu started to devour it on its own. Afterwards, Zi Xu emitted a purple red light.

Ye Mo could only see Zi Xu rolling around in it while its appearance started to distort.

Ye Mo rejoiced, Zi Xu was really a magic that could upgrade itself.

Three whole days and Zi Xu finally calmed down. The rays disappeared too. When it was completely gone an ordinary single edged long sword appeared before Ye Mo. There were very fine cloud eddy marks.

"good sword." Ye Mo couldn't help saying. He could feel that this sword was now a low grade immortal artefact.

Ye Mo grabbed Zi Xu and the more he looked at it the happier he was. There was a darkish red in the purple and Ye Mo could feel it's powerful killing force. He sliced out and the defense formation and restrictions he set up disappeared.

This was terrifying. Ye Mo was exclaiming when a red communication room landed outside his restriction. Ye Mo took it and realized that the forgery competition was about to begin. Li Heng wanted Ye Mo to go over.

Without hesitation, Ye Mo packed his things and left. He wasn't going to come back anymore. After the feast, even if Li Heng and them didn't leave he would leave with other cultivators and never come back.

Chapter 1528: Wen Feng wine

Ye Mo left with Li Heng and them and came to the Bi Yi immortal city square. Now he realized what was truly shocking, he had seen big tournaments in Pill City and seen countless cultivators gather on one square. There were a few hundred thousand cultivators gathered before. but now at the endless Bi Yi immortal city square, there were at least a few million.

"the forgery competition hasn't even started and there are so many people here. Wouldn't there be even more later on?" Ye Mo exclaimed.

Li Heng smiled "you're wrong, when the tournament begins, more than half of the people would go."

Li Heng explained "there are very little golden immortals here, it's all below golden immortal. They want the same thing as us, drink the Wen Feng wine Ge Yan goddess is treating us. After that they would leave. We're the same as well, we just here to see what's going on, there's no need to actually waste our time here. After drinking we will be going to the Lao Xi swamp too."

Hearing this, Ye Mo liked it. his spirit sense scanned the cultivators on the square, more than 90% were below golden immortal. Some were even disaster transformation state and truth realisation state cultivators. But those were rare most of the people here were hollow immortal.

There were so many cultivators here and even if everyone only drinks one cup how much wine would be consumed? Just how wealthy was this Ge Yan goddess?

Suddenly, a rainbow cloud landed in the middle of the stage.

After the rainbow cloud disappeared, Ge Yan and her maid appeared. Then, tens of cultivators beyond golden immortal power appeared on the stage.

Ge Yan's arrival received a round of applause.

Ge Yan pressed down with her hand and after the applause ended she said with a crisp voice "Bi Yi immortal city has always been the famous city forgery in Wen Ju heaven. This forgery tournament is the place where all the high level forgery masters of Wen Ju heaven will be showing their skills. I hope this tournament there will be more excellent forgery grand masters showing up bringing back our glory."

There was another round of applause.

Ge Yan nodded and continued "in order to thank all the friends who support our Wen Ju heaven domain forgery tournament, the heaven lord has authorized me to come and support this event while bringing the most famous wine of our heaven, Wen Feng wine..."

The applauded grew even louder, clearly most cultivators cared about this.

Ge Yan smiled and bowed "because there are so many people here we can only supply the lowest level Wen Feng wine..."

There was no disappointment, instead the cultivators said "it's fine we know, thank you Ge Yan goddess, thank you heaven lord Ge..."

Ge Yan smiled "now, everyone please enjoy Wen Feng wine."

Then the two cultivators behind her walked over each carrying a huge bucket. It was large but everyone knew it was a pocket dimension magic artefact.

Ye Mo saw the power of these two, they were both great unity immortal. Ge Yan was only abstruse immortal level.

In the fiery eyes of countless people, the two buckets were unsealed. An intense wine aroma spread out across the entire square. Some people even closed their eyes and started inhaling intensely. Some cultivators even murmured “so aromatic, good wine...”

Ye Mo smelled this wine and thought. He had this wine and although it didn’t smell this good Ye Mo was certain it was made from ten thousand year stalagmite marrow. This wine manufacturing method winter’s arrival much better than his and they added special immortal herbs too.

At this moment, the two great extreme immortal guards waved the wine bucket and countless wine mist sprayed down like rain. In the blink of an eye, everyone had a fist sized drop of wine in front of them.

Ye Mo had one too. He scanned his spirit sense inside and sniffed. This was indeed made with ten thousand year stalagmite wine. There was much less stalagmite marrow used than the wines he made. Ye Mo lost interest in this wine but he was shook by the two guard’s spirit sense. they were just two great unity immortal but they could control more than a million drops of wine floating in the air without any trouble. Just how powerful were status immortals?

There was also a drop floating before Ge Yan goddess. Everyone knew she did this to show equality to everyone or respect. She didn’t waste time and smiled “there’s no wine cups, apologies, everyone cheers...”

Then she drank the drop in front of her. Everyone else copied and drank the wine. Everyone was savouring the taste of the alcohol.

“good wine, good wine indeed. No wonder it’s said that this wine can remedy pill poison. It’s indeed extraordinary.” Li Heng drank it and sighed.

Ye Mo suddenly said “brother LI, I still have a drop here, you can have it.”

Li Heng opened up his eyes and dazed “even the lowest grade Wen Feng wine is not something we can afford, yet you don’t even want to drink it?”

Ye Mo laughed “I don’t really like this taste...”

Li Heng looked strangely at Ye Mo and murmured “strange person.” Then he took the wine to his mouth and drank it.

“hmm...” what happened between the two immediately caught the notice of a great unity immortal. He controlled all of the drops with his spirit sense. Ye Mo didn’t drink it but gave it to someone else. Then, he saw Ye Mo was the hollow immortal that the young mistress helped at the city gates.

Just when he wanted to tell this to Ge Yan, Ge Yan said loudly “I hereby announce the commencement of the Wen Ju heaven forgery tournament. The main judges will be BI YI immortal city city lord and me....”

The contestants, judges and guests all came to the stage.

At this moment, many low level cultivators started to leave and left the space to the cultivators golden immortal and above.

Li Heng and them weren’t interested in watching the tournament either and all left. Ye Mo wanted to leave as soon as possible. He quickly followed Li Heng and them and left the city.

The guard watching Ye Mo just suddenly realized that they had disappeared.

...

“City lord Zang, you’re saying there was corner soul weed in Bi Yi city lord?” Ge Yan asked in shock.

“yes I just got news. It would be sold at Rainbow immortal merchant association. Two would be sold.” A middle aged man said. He was the city lord Zang He.

Ge Yan’s face went serious and said to one of her great unity immortal bodyguards “Mu Zhi go investigate how it appeared and notify the heaven lord.”

Zang He said “Ge Yan goddess, no need. A hollow immortal who just ascended took it out. He went to a small merchant tower to buy cultivation method and information about the 33 heavens but he only had 21 low grade immortal crystals. But a golden immortal called Yan Hongzhong bought his extreme grade flying cultivation artefact. That hollow immortal felt he took advantage of Yan Hongzhong so he gave two corner soul weed to him.”

“it’s him?” Ge Yan thought of the young cultivator who couldn’t afford 500 low grade immortal crystals.

“it’s him?” clearly the other bodyguard knew about it too.

“you guys know this person?” Zang He asked in confusion.

The bodyguard said seriously “young mistress, this person is probably the cultivator you helped pay the 500 immortal crystals for. He just came here but he didn’t drink Wen Feng wine, he gave it to someone else.

“oh.” Ge Yan frowned. Theoretically, Wen Feng wine would be top grade wine for a hollow immortal. Yet he gave it to someone else?

“find that person immediately.” Ge Yan said.

Chapter 1529: Swamp ruin

“that Yan Hongzhong knew he wouldn’t be able to keep two corner soul weed so he sold it to the merchant tower and the merchant tower sold it to Rainbow Immortal merchant association.” Zang He continued

Ge Yan frowned and said to the other bodyguard “prepare immortal crystals, we must get the two corner soul weed tomorrow at the auction.”

...

Ye Mo breathed easy. He was at the Lao Xi swamp now. the way there wasn't complicated indeed but it wasn't close neither.

Ye Mo offered to use his Blue Moon and the four used just a day to get there.

Ye Mo thought this place would be like a swamp but when he got here, he realized he was greatly wrong. Usually, swamps would have plantation and some floating woods or water ditches. But this swamp was just full of rotting mud.

There was no water nor herb. the mud was dull grey and there were some bubbles.

There was cultivation resource at this sort of place? Ye Mo looked dazily at this place and couldn't comprehend. Were they going dive inside and look for cultivation resource?

Seeing this, Gao Yuan laughed “Ye Mo you wouldn't think we're going inside to find cultivation resource right?”

Ye Mo laughed awkwardly. He really thought so.

Seeing this Gao Yuan laughed “you thought right, although not everyone would do this, some still would. However you need to choose the right place, if you dare to go down here you will never come back up.”

Li heng explained “there are a huge amount of immortal items in here. They're all valuable. If you can find a mud lotus, then you would have cultivation resource for a few hundred years. But in all these years, there had only been three mud lotus. Of course, most places are very dangerous. If you go down you would be devoured forever. Other than inside, there are also large amounts of floating jiao on the surface. These are valuable too. Each one is worth two three hundred low grade immortal crystals.”

Ye Mo dazed, he realized he made a big mistake. At the Bi Yi immortal city, he didn't buy that immortal herb jade slip. Thing had a lot of immortal herbs inside too but it was mainly targeted at the cultivation realm.

"I haven't heard of this as well." Ye Mo smiled awkwardly.

Gao Yuan took out a jade slip and gave it to Ye Mo "this is an menu of frequently seen immortal herbs and materials have a look."

Ye Mo took the jade slip gratefully and didn't mention immortal crystals. He could tell that Gao Yuan was much more generous than Li Heng.

Li Heng said to Ye Mo "this is Lao Xi swamp outskirts, there's nothing much we just need to fly in half a day more."

Ye Mo just wanted to reply and his face changed. His spirit sense was much more powerful than hollow immortal tertiary stage Li Heng. He saw two cultivators flying over here, one of them was golden immortal power already.

Li Heng said that more than 90% of cultivators here were hollow immortal, only occasionally would there be golden immortal.

Ye Mo's face changed not because the person was golden immortal but because he had seen this golden immortal. When the attendant at the merchant tower called out corner soul weed, everyone heard it and everyone was watching him. This golden immortal was one of them.

Ye Mo didn't believe in such coincidence that as soon as he came here that golden immortal came.

Thinking about this Ye Mo set up tens of stealth formation flags.

"hmm, Ye Mo you're an immortal formation master?" Li Heng asked in shock.

Ye Mo laughed “I’m just a low level immortal formation master. I can set up some simple immortal formations. The formation flags I set down are to hide our tracks. I’m scared someone will chase us.”

Gao Yuan raised her thumb to Ye Mo “Ye Mo you just ascended but you do things very carefully. No wonder you can ascend to the immortal realm at such a young age. You’re probably some famous person in the cultivation realm right?”

Ye Mo laughed but didn’t answer.

Gao Yuan didn’t expect Ye Mo to say anything but she looked at Li Heng.

Ye Mo’s spirit sense was watching them both. They were all fighting at the bottom of immortal realm society and the they weren’t that close. Ye Mo had a good impression of them but it didn’t mean he wasn’t wary.

Li heng nodded at Gao Yuan but didn’t talk. They sped up. Ye Mo saw this and didn’t show any expression. Even if three hollow immortals attacked him he wouldn’t mind. Plus they had no reason to attack him.

Seeing that golden immortal roam around for a while before changing direction Ye Mo breathed easy.

The Lao Xi swamp was huge. Even golden immortal spirit sense wouldn’t be able to see the end.

Li Heng sped up obviously and half a day later, Li Heng stopped. Seeing Li Heng look at him, Ye Mo immediately knew something was about to happen.

Li Heng saluted with his fists to Ye Mo “Ye Mo I can tell you’re no evil person and you’ve been with us for a few days. I believe you can tell we’re not evil too.”

Ye Mo smiled “of course I trust brother Li and sister Yuan that’s why I came with you guys to get rich here.”

Gao Yuan laughed “Ye Mo you’re really straight forward, get rich, haha, that’s right, we’re here to get rich.”

Li Heng nodded. He thought that Ye Mo meant he was only hollow immortal primary stage, if he didn’t trust them he wouldn’t come with them.

But he still asked out of caution. Now that Ye Mo gave a certain answer, Li Heng was more assured and said “Ye Mo I see your formation is good so I have a big business deal, would you dare to do it?”

Ye Mo smiled “there’s no business I don’t dare to do.”

“great, I like this answer.” Li Heng nodded in approval.

Before Ye Mo could reply he said “Ye Mo I won’t hide it from you. A decade ago, we found a ruin here...”

“ruin?” Ye Mo was completely broke, as soon as he heard the word ruin, his eyes lit up.

Li Heng was happy with Ye Mo’s expression and continued “that ruin is very obscure. I’m certain that without guidance you wouldn’t be able to find it for ten thousand years.”

“then why did you guys wait till today?” Ye Mo asked in confusion.

Gao Yuan quickly said “there’s a formation there. None of us know formation, if we tried to break it open by force it would startle everyone in the swamp. By then our team wouldn’t be able to get anything. Thus, we haven’t touched it till now.”

Ye Mo realized and said “no problem brother LI lead the way, let’s go see.”

Li Heng nodded immediately and flew faster.

Half a day later, Ye Mo finally found signs of cultivators. Many of them were searching for something in this endless swamp. At this moment, a cultivator suddenly put away his flying magic artefact and dug his head into the grey mud.

People really did this?

“someone probably found something good.” Gao Hu said.

Chapter 1530: This is hollow immortal?

Li Heng nodded “Gao Hu is right, there are many good things inside but rarely do people go in. it’s just too dangerous inside, there’s definitely something really good for that person to go in.”

Then he added “no matter what it has nothing to do with us. Let’s leave earlier, there would be more and more cultivators coming here.

Li Heng was right, in a short time 8 cultivators came. They stopped, clearly they came to see the cultivator who just went into the swamp.

The three turned to leave and no one cared but Ye Mo felt he was being tracked. However he used his spirit sense to scan behind many times and didn’t find anything.

Half a day later, that feeling was still there. Just when he wanted to say his feeling, Li Heng said “we’re here.”

Then he pointed at a plain region of swamp “look at the mud here, it looks the same as other places but there are actually subtle differences.”

Ye Mo’s attention was caught by Li Heng’s words and he checked with spirit sense. soon, he noticed that the bubbles here had a special feature. They were all the same size.

Ye Mo looked at Li Heng in shock, he even forgot that there was someone behind him. This region was only a 3 meter radius and one had to look very closely to see it. how did Li Heng know?

“Ye Mo are you wondering how I knew this?” Li Heng saw Ye Mo’s face and smiled.

Ye Mo asked “yea did you find this place by searching for spirit herbs?”

Li Heng said “I found this place on an occasion but not far finding spirit items. Once you’ve been in this place for long enough you’ll know it’s a dead swamp. No cultivators would go in as rarely any of them would survive. The place we saw a cultivator jump in before was live swamp. You won’t necessarily die if you jump in.

When we were being hunted we knew we would die for sure so we had no choice but to come here. However, we were very lucky. This place isn’t a swamp, it’s a stealth formation. If you go in you will go into a formation dimension. That’s how we survived.

Ye Mo was awkward, he said he was an immortal formation master but when they took him here he looked at it for a long while and didn’t recognise it was a stealth formation.

“yes, as long as you go in from here you will find yourself to be in caved in area. There’s an ancient cultivation home there. There’s some restriction and we have come here a few times but we weren’t able to open it. not long ago, Mi Qin was too desperate to go in and was killed by the formation...” Gao Yuan said sadly.

“haha...” a laughter sounded and a flying magic artefact appeared. There were three cultivators on there all hollow immortal peak.

“I was wondering why you three gave up seeing the good show. So you’re here to find the ancient ruin.” A red robed cultivator said. His face was dark but his hands were very long.

Ye Mo sighed, no wonder he felt he was being followed but couldn’t see anything. It was this flying ship magic artefact. It was definitely a good thing. Even his spirit sense couldn’t find it.

“it’s you, Yan Zhuo...” Li Heng’s face changed.

The red robed cultivator sneered “that’s right it’s me. I saw you before and was planning to teach you a lesson but you ran off.”

Then, the red robed cultivator said to the hollow immortal next to him “Wen Xiong, you guessed right haha, ancient cultivation home, we’re rich...”

Gao Yuan put away her smile and stared coldly at the red robed cultivator and said “Yan Zhuo, there’s indeed a ruin here. We can give it to you, from now on we don’t intervene with each other.”

Ye Mo looked at Gao Yuan in shock. They were three hollow immortal peak stage but the Gao Yuan siblings were hollow immortal middle stage, Li heng was hollow immortal tertiary stage and there was him too. Why would the be afraid?”

But soon Ye Mo realized, none of them considered him, a cultivator who only had 20% of cultivation essence converted to immortal essence.

Ye Mo received Gao Yuan’s sound transmission “Ye Mo, that Yan Zhuo is very powerful. He can even kill ordinary golden immortal cultivators. We must ran away, remember you must not be caught by his red mist...”

“hehe, don’t intervene with each other...” red robed cultivator sneered. “ran away? do you think you have that chance in front of me?”

Clearly, he caught Gao Yuan’s sound transmission.

Ye Mo said straight up “I’ll deal with this Yan Zhuo, you three hold the other two there. After I kill Yan ZHuo I’ll come help.”

Then before the three could reply, Ye Mo released Zi Xu and charged at Yan ZHuo. He wanted to annihilate them all just like what Yan ZHuo thought.

Seeing Ye Mo charge towards Yan Zhuo in suicide, Li Heng and them's face changed. They immediately realized that Ye Mo dominated the cultivation realm too much that he didn't change his mindset here. He thought the immortal realm cultivators were as easy to deal with as the cultivation realm cultivators.

"what do we do?" Gao Yuan's face changed and asked Li Heng desperately.

Before he could respond, Yan ZHuo's two partners charged at them. Li Heng could only rush to say "you and Gao Hu take on that short fat one, I'll take on the other."

Everyone released their magic artefact and immortal essence roamed around this place.

Yan Zhuo saw that a mere hollow immortal who didn't even convert all of his cultivation essence dared to fight him, he was furious. A crescent spade appeared in his hand.

Screech. Zi Xu hacked down with a painful sound. It was just a simple purple ray.

Yan Zhuo suddenly frowned. He felt something was wrong. This strike made his mind shake. This had never happened before. an ordinary strike without the support of any magic, how could it shake his mind?

He didn't think more and released his crescent spade. Countless shadows emitted from it and completely enveloped Ye Mo and his Zi Xu sword ray.

Just looking at the shadows, he knew that Yan Zhuo had fused his offense and defense. Perhaps Yan ZHuo thought he wouldn't be able to escape under such attack.

Seeing how he easily covered Ye Mo with his spade shadows, Yan Zhuo breathed easy. He knew Ye Mo was over. By the time the shadows disappeared, they would've been killed by either the spade shadow or the red mist.

Yan Zhuo knew that heart shake was him being too careful.

When a red smoke started to emit from the spade shadow Ye Mo realized this was Yan ZHuo's lethal blow.

"break."

Ye Mo yelled and purple sword rays charged out of the spade shadow as they instantly melted.

However the red mist didn't go away and surrounded at Ye Mo.

Ye Mo didn't mind and hacked out with Zi Xu again, Illusion Cloud Hua Mountain strike.

The red mist completely surrounded Ye Mo layer by layer and even made a sizzling sound.

Gao Yuan happened to see this and screamed but losing her focus for a brief moment resulted in an ice prick slicing past her ribs.

Gao Hu's eyes were about to burst out and attacked like crazy.

The purple ray of Illusion Cloud Hua Mountain strike locked onto the shocked Yan ZHuo and hacked over. This strike didn't have its vibrant rays anymore. It was just an extremely ordinary purple sword rays with a subtle scorching red light inside. It was the ray of extreme flame star gold.

Yan Zhuo looked dazily at this and completely forgot to dodge. He was locked by Ye Mo's sword domain and couldn't dodge. He didn't understand why Ye Mo was still fine after being enveloped by his red mist.

Splurge.

Sword ray hacked down from Yan ZHuo's head. His essence spirit seeped out in horror as he saw purple flames radiating from Ye Mo's body. The red mist were completely dissipated by his flame.

“purple heaven flame...” Yan Zhuo realized why the sizzling sound was. It was Ye Mo’s fire burning his mist not his mist erode his body.

He had never seen such a powerful hollow immortal and this was a hollow immortal who didn’t convert his cultivation essence yet. This was more fucking golden immortal than golden immortal. Even golden immortal wouldn’t be able to easily break his red mist.

A black shadow dashed out and Yan Zhuo’s essence spirit was gulped by it.
