Chapter 1531: Entrance to the ruin

This was the first time Ye Mo used Heaven Flame Nine Suns from inside to outside but this was still very good. The red mist was instantly burned away.

Ye Mo didn't know what the red mist was but he estimated that even if he didn't use Heaven Flame Nine Suns it wouldn't be able to do anything to him with his god state body refinement. But Ye Mo didn't dare to bet against it. there were too many uncontrollable things in the immortal realm and his god state was only a cultivation realm state. he didn't know the body refinement states of the immortal realm. who's to say his body refinement can stop that red mist?

After taking Yan Zhuo's storage ring, Ye Mo saw that Gao Yuan was in danger. She had blood everywhere on her body and her hair was messy. She could be killed at anytime.

Ye Mo released Zi Xu without hesitation and charged at the cultivator the siblings were fighting.

The instant that cultivator saw Ye Mo kill Yan Zhuo, he knew things weren't good. Yan Zhuo could take on a few of them and now Ye Mo could even kill Yan Zhuo, if they fought Ye Mo they would be killed. The moment Ye Mo took Yan Zhou's storage ring, that cultivator wanted to run.

But he was too slow, Ye Mo took less than a second to take Yan Zhuo's storage ring and before his dashing light had formed, Zi Xu had completely bound him.

"so powerful..." this hollow immortal spat in despair. He knew that even if he stayed to fight with Ye Mo he could only block a few moves.

Splurge. Blood light flashed as soon as his essence spirit seeped out, it was gulped by shadowless.

The other middle aged man cultivator saw Yan Zhuo and his partner get killed so quickly and was scared soulless. Li Heng was also shook at Ye Mo's terrifying means but Ye Mo was on their side. His opponent tried to run and he took the opportunity to heavily injure him.

Even so, the cultivator still got away. just when Li Heng wanted to chase up he found that cultivator was killed by Ye Mo's strike before even running out by 10 meters.

In less than half a minute Ye Mo killed three of them.

Li Heng and the Gao siblings looked at Ye Mo in shock. They had never expected an ordinary cultivator who just ascended would be this powerful? Yan Zhuo was a dominant overlord in the Lao Xi swamp.

Although no one had seen Yan Zhuo kill a golden immortal but there was such news. If Ye Mo could kill Yan Zhuo didn't meant that his power was on par with ordinary golden immortal primary stage.

"brother Ye I didn't expect you to be this powerful. This time you saved us..." Li Heng said bitterly. To be honest, the reason he took Ye Mo was out of pity but mainly because he looked harmless. But now, it seemed Ye Mo could kill him easily.

He didn't even know he changed his way of calling Ye Mo. If he knew Ye Mo was this powerful, he would be willing to give his 10000 immortal crystals all to Ye Mo at the city gates. With Ye Mo's means no one would dare to mess with them here.

There were many good things in the swamp but they could only go distant places as the places with rich cultivation resource had been taken over by powerful people.

"brother Li you're too polite we're all on the same team we should be helping each other." Ye Mo smiled.

"Ye Mo, I've never seen a hollow immortal cultivator more powerful than you, you really hid a lot of power." Gao Yuan said.

Ye Mo was speechless.

Gao Hu quickly said "sister, don't say that."

He was afraid his sister would anger Ye Mo.

Then, he saluted with his fists “thank you for saving us brother Ye.”

Gao Yuan also reacted and quickly said “Ye Mo, thank you for saving our lives. Yan Zhuo has enmity with us, once he robbed 9 leafless floating Jiao from us. If it wasn’t that there was a lot of people there, we might’ve been killed already.”

Ye Mo sighed, such things were everywhere.

He took out a bottle of pill and said “Sister Yuan, your injuries are heavy. Eat this first, I don’t have anything good it’s all some heaven grade level nine pills from the cultivation realm.”

“thank you.” Gao Yuan took the pill “heaven grade level nine pills are already very extravagant to us.”

Ye Mo clearly felt the distance between them now that he killed Yan Zhuo. Gao Yuan was rather fine but Li Heng and Gao Hu clearly felt uneasy.

Ye Mo knew this was unavoidable so he could only say “brother Li it’s not good to stay here let’s go see that ruin first. If there’s nothing good we need to quickly leave.”

“okay.” Li heng said without hesitation he knew that if Ye Mo wanted to kill him he wouldn’t be able to run.

“I’ll go in first.” Li Heng said and charged into the swamp.

Gao Yuan used the pill and stopped her wounds. She nodded to Ye Mo and went in as well.

Both of them went in but Ye Mo didn’t see any changes to the swamp. He immediately knew that this was indeed a high level stealth formation. Otherwise, he would be able to see through it.

Gao Hu saluted with his fists and went in, Ye Mo followed without hesitation.

As soon as Ye Mo went here, the view changed. He really entered an encaved land.

“brother Ye look, this is it.” Li Heng said.

Ye Mo sighed, why didn’t the guy who set up the formation set up a defense formation? That way Li Heng would never be able to find this place.

This area was only about a few hundred square meters, there was a dried up pond in the center with grey huge stones on the left side. There was clearly an attack formation and trap formation in front of it.

They were just ordinary level two immortal formation and it should be fine for Ye Mo to break such simple ones.

Ye Mo frowned and didn’t move. The stealth formation outside was at least above level five but the formation here was only level two immortal formation. The means were very rough too.

“brother Ye is there something wrong with this formation?” Li Heng asked worriedly.

Ye Mo shook his head “I can break this formation but the difference in level between the formation here and outside is too great. I don’t know why the person would do this.”

Gao Yuan said “would it be that they were set up by different people?”

Ye Mo thought and agreed. Just because this was the same place didn’t mean they were set up by the same person. Ye Mo patted his head.

Seeing this, Gao Yuan’s vigilance towards Ye Mo disappeared. She felt that even if there was something really good here Ye Mo wouldn’t take it all for himself.

Ye Mo didn't even make formation flags and just used his already made ones. He didn't have the ability to set up level two formation but it didn't mean he couldn't break this coarse level two immortal formation.

As Ye Mo sprayed down formation flags, a light piercing sound occurred. That grey stone opened up.

"this huge stone is the door?" Gao Yuan asked in shock.

"yes." Ye Mo answered and as he threw down the last formation flag, a black cave appeared before them. Their spirit sense couldn't even scan inside.

Chapter 1532: Mud lotus

Bi Yi immortal city.

The bodyguard who went out to find Ye Mo had come back. He was standing in front of Ge Yan in guilty.

"you didn't find that cultivator?" Ge Yan looked at her guard in confusion. Bi Yi was big but a great unity immortal couldn't find a hollow immortal?

"yes." The guard said guiltily "I only know his name is Ye Mo and had left the city with three other hollow immortals."

Ge Yan frowned "then you can't find the three cultivators with him as well? That Ye Mo didn't drink wine but the other three drank Wen Feng wine? As long as they drank it then the unique wine chi wouldn't dissipate until five days later. If you find them three you would be able to find Ye Mo."

The great unity immortal said with guilt "I thought so at the time and after leaving the square, I immediately sent people to guard the city gates and not long cultivators who drank to go out but some of them had already gone out. Some of them went to Lao Xi swamp and city lord Zang has sent people there but there's no news of them yet."

“the auction has begun lets get the two corner soul weed first.” Ge Yan fell silent for a moment and said.

...

At this moment in a stealth formation below the Lao Xi swamp, Li Heng saluted with his fists and said “brother Ye why don’t I go in first.”

Ye Mo waved his hand “you can’t scan spirit sense in, clearly there’s more formation. I’ll go in first, after I can confirm there’s no trouble inside we’ll go in together.”

“yes brother Ye you decided.” Li Heng nodded without hesitation. Gao Yuan and Gao Hu were completely fine with it too.

No matter what Li Heng thought Ye Mo wouldn’t care. After exploring this ruin he would leave alone. He had a bad feeling when he saw the golden immortal from the city. If there wasn’t a ruin here he would’ve ran off already.

Ye Mo didn’t go in first, he sent out a few spirit sense blades. They instantly torn open a course spirit sense shielding formation. A not very large cultivation home appeared before Ye Mo. There was a lighting formation inside.

Ye Mo scanned with his spirit sense, there was no attack formation here but there were two bodies in the middle. Ye Mo turned and waved to Li heng and them “there’s no danger everyone come in together.”

Li Heng and them dazed. They thought the reason Ye Mo wanted to go in first was to see if there were very good things. If there was he would take it first.

But Ye Mo just looked at the door and waved to them.

“two dead golden immortals?” Gao Yuan said in shock.

Li Heng shook his head “they’re not golden immortal, the gold color of their bones had faded. They’re clearly abstruse immortals.”

“two abstruse immortals would be killed here?” Gao Yuan asked in shock.

Li heng answered “they weren’t killed, they killed each other. Just look at the direction their magic artefact attacked, both of their storage ring are still here.”

“they indeed killed each other, it’s a male and female.” Ye Mo agreed.

Li Heng picked up the two storage ring and placed it on the side. Ye Mo picked over a pill cauldron. It wasn’t high nor low grade. It was a middle grade immortal artefact.

“I understand why they’re killing each other.” Li heng called out in shock.

“mud lotus...” Gao Yuan blurted out.

Li Heng said drily “yes, it’s a mud lotus inside the pill cauldron...”

Ye Mo didn’t know the use of mud lotus and he subconsciously picked up the dried lotus.

“this is mud lotus?” Ye Mo asked in confusion.

“yes, this is mud lotus, it can be used to make great unity pill. it’s a level four immortal pill that is very important for abstruse immortal to break through to great unity immortal. Li Heng said in excitement.

As though to prove he didn’t have any bad intentions, he added “for the 11 low heaven domains, the hardest isn’t breaking through between great immortal levels but breaking through from heaven immortal to great immortal. Some people are stuck at abstruse immortal for the rest of their lives and could only watch as their life ends. One can imagine how precious great unity pills are.”

Ye Mo nodded. No wonder Li Heng said a mud lotus was enough for ordinary cultivators to have enough cultivation resources for a few hundred years. If it was really this precious even a few thousand years of cultivation resources was enough.

But Li Heng said “great unity pill is precious but there are too little people who can concoct level four immortal pill. at least a level four immortal pill master is needed to concoct it. there aren’t many in the entire Wen Ju heaven.

Ye Mo opened the lotus and saw six lotus seeds inside.

Seeing this Gao Yuan said “I know why they killed each other now.”

Gao Yuan said seeing everyone looked at her “the two of them got the mud lotus together and one of them is a immortal pill master so he planned to concoct the great unity pill. however he failed all his attempts and the other person didn’t allow him to keep wasting the mud lotus and this caused discord.”

“each mud lotus has 12 seeds but there’s only six.” Gao Yuan added.

Li Heng nodded “perhaps one of them knew his life span was about to end so he tried again and again but his pill concoction skills were limited. By the way now that I think about it, that dried pond outside might be where the mud lotus grew...”

Then as though thinking of something, Li Heng subconsciously took a step back.

How could Ye Mo not know that they were scared of him suddenly attacking. Ye Mo shook his head.

Thinking about this, Ye Mo felt a little disappointed, he took out two seeds and said “regardless let’s split this first. There are six seeds I’ll take two.”

“brother and I will have one each. The remaining two can be Li Heng brother’s.” Gao Yuan quickly said.

Li Heng took the last two seeds and said “the seeds can grow out new mud lotus but it takes a long time.”

Ye Mo heard this and thought, he already had 5 colored lotus in his golden page world, he might as well plant another mud lotus. When he had large amounts of immortal crystals, he would be able to use the time formation disk to grow it.

Ye Mo opened the two storage rings. There were two low grade immortal artefact and one middle grade attack immortal artefact. There were also about 50k low grade immortal crystals and 10k middle grade immortal crystals as well as 8k top grade immortal crystals. Then, there were some wrotten immortal spirit herb and pills.

“so wealthy...” Gao Yuan took a cold breath in. she had never seen so many immortal crystals.

Li Heng said “they’re not wealthy. They pretty much used up all their immortal crystals before coming here.”

Ye Mo knew that one of them used large amounts of spirit stones to buy immortal spirit herb but they didn’t preserve it and most of them had wrotten.

Ye Mo picked up a few jade slips and saw it introduced some immortal spirit herb and pill recipes of the immortal realm. he explained to them what they were and said “I’ll take these.”

Chapter 1533: Strange young girl

They didn’t mind Ye Mo taking the pill concoction jade slips.

Li Heng even said generously “since brother Ye likes pill concoction you can have this middle grade immortal artefact pill cauldron.”

Ye Mo took it without hesitation and then took another 5k top grade immortal crystals before saying “this enough for me you guys can have the rest.”

Ye Mo took this much to assure them. If he took too little they would feel scared. Most importantly, Ye Mo felt he needed top grade immortal crystals for cultivation. The time formation disk needed it too.

Li Heng didn't think Ye Mo took much and instead really breathed easy. After all, there were three immortal artefacts here and Ye Mo didn't touch a single one. Ye Mo at most took a quarter of the total value here.

The rest were very happy with what they got. Ye Mo's generosity made Li Heng and them approve of him greatly. The two storage ring were low grade immortal artefact but Ye Mo didn't take it as well.

"brother Ye we're planning to go back to the city for solitary cultivation are you going back too?" Li Heng didn't have any vigilance towards Ye Mo now. if Ye Mo was going to kill them he wouldn't let them come out of the ruin.

If Ye Mo could go back with them and form squad to come here again they wouldn't be afraid of other hollow immortal cultivators.

Ye Mo saluted with his fists "thanks for your help, I don't plan to go back for now. we can meet again in the future."

...

Seeing Ye Mo disappear into the depth of the swamp on Blue Moon, Li Heng sighed "this brother Ye is really a legend, I've never seen someone with such a righteous heart. Brother Ye would definitely become someone we look up to in the future. Yet I cared about a mere 500 low grade immortal crystals..."

Gao Yuan comforted "Li Heng brother you're a righteous person too. I trust your future wouldn't be far from Ye Mo."

"haha..." Li Heng laughed "that's right as long as we keep working hard who knows what level we can reach. Let's go back to the Bi Yi immortal city for solitary cultivation."

Gao siblings knew that Li Heng was going to try to break through to golden immortal. They were going for hollow immortal tertiary stage too.

Moments later the three disappeared here too.

...

Five days later, Ye Mo had changed a direction and left the swamp. He felt that place wasn't a place to stay. He needed to find a safe place to convert all of his cultivation essence to immortal essence but his power was too low and his flying magic artefact was so so. Otherwise, he would've even wanted to leave Wen Ju heaven.

Putting Blue Moon at max speed, Ye Mo was far from Bi Yi immortal city now. only then did he slow down Blue Moon.

He got out of Blue Moon and stopped as he saw a market place. it was very busy and there were all sorts of spirit herb. there were no restriction and not even a sign outside. Clearly this hadn't been around for long.

Ye Mo didn't plan to stay here but when he saw a few soul return fruits he came in without hesitation.

"how much for these soul return fruits?" Ye Mo asked desperately. He had searched countless places for this but had never seen it.

They were the main ingredients for soul nurturing pill. Ye Mo planned to use it to save Nie Shuangshuang.

"500 low grade immortal crystals, you can have it all..." the stall owner knew Ye Mo was desperate and made an exorbitant offer.

Ye Mo knew he was too desperate. He had some immortal crystals but he didn't want to waste it like that. He frowned "it's just a few spirit herbs, why is it so expensive?"

The stall owner looked at Ye Mo in contempt “spirit herb? that would depend what spirit herb it is. If you can give me a 9 color lotus or Immortal Curl Flower I would give you 1000 immortal crystals. Plus soul return fruit can be used to concoct soul nurturing pill and might save a dying life. is a life worth money?”

Ye Mo knew these three fruits wasn't worth this price but he had no choice as this guy had seen his desperate look.

Sighing, Ye Mo took out 300 immortal crystals and said “deal or no deal?”

“of course deal.” The cultivator took 300 immortal crystals and gave the fruits to Ye Mo in a jade box.

Ye Mo rubbed his nose. He knew he was scammed but even if the guy held the price of 500 immortal crystals he would still probably buy it.

“idiot, you lost big. These fruits are at most worth tens of low grade immortal crystals but you gave him a few hundred.” A crisp voice said behind Ye Mo.

Ye Mo turned back and saw a 16 year old young girl. She had a horse tail braid and seemed very youthful. Her face was ruddy and the two buns in front of her chest didn't seem to be small.

What shook him was that this young girl was stronger than him, hollow immortal tertiary stage.

Ye Mo smiled “thank you martial sister, I'll know for next time.”

Ye Mo was about to leave but the young girl stopped him “don't go yet, did you buy them to concoct the soul nurturing pill?”

Ye Mo nodded “yea a friend died for a few decades trying to save me.”

The girl sneered “idiot, if the soul nurturing pill could save someone who had been dead for a few decades then even if you sold your life you wouldn't be able to afford it.”

Ye Mo dazed and agreed. If it had such effect why was it worth so little?

Seeing Ye Mo in a daze, the girl shook her head “let me tell you. The main effect of the soul nurturing pill is for cultivators who just died and their essence spirit hadn’t dissipated. It can strengthen a cultivator’s essence spirit and revive them. In the cultivation realm this is indeed very powerful but it can only be useful for cultivators below hollow immortal. so I’m saying you got tricked.”

Ye Mo dazed for a while before sighing “thank you for enlightening me martial sister, my friend’s power is low I still want to try.”

The girl put her hands on her waist and said “are you calling me martial sister because I seem very old? ”

Ye Mo was lost for words. He thought who knows how old you are? I can’t tell but I feel you’re not young.

Seeing this the girl said happily “I’ll tell you, if you really have such friend don’t even think about saving him with the soul nurturing pill. but my martial sister can save her, she’s already status immortal.”

Ye Mo shook his head. Of course he wouldn’t believe her words, this young girl was hollow immortal how could her martial sister be status immortal?

Seeing Ye Mo seemingly annoyed she was blocking his way, she suddenly laughed “you can tell my power is much much higher than yours right? Even with my power I’m still weaker than my martial sister so I wouldn’t lie to you.”

Ye Mo smiled, a mere hollow immortal tertiary stage and she thinks she’s much stronger than him? If they fought he would be able to instantly kill her.

Ye Mo ignored the girl and was about to leave on Blue Moon but when his spirit sense scanned this girl again, his eyelids jumped. Her power jumped to great eternity immortal level.

“no way, you can really see my power level?” the girl stared at Ye Mo like he was a ghost.

Chapter 1534: Blue dress status immortal

Hearing this, Ye Mo was even more shook and said “you’re really not hollow immortal tertiary stage?”

Hearing this, the girl looked at Ye Mo in confusion. she couldn’t tell if Ye Mo was telling the truth or not.

Seeing that he tricked her for now, he didn’t want to talk to her and was about to leave on Blue Moon. He felt uncomfortable with her.

Seeing Ye Mo about to fly away ignoring her, she didn’t stop him this time but sneered “I’m right calling you an idiot, if your friend really lost her essence spirit a few decades ago then if you use the soul nurturing pill on her now you’re not saving her. You’re killing her.”

Ye Mo was shook if that really was the case it would be a disaster.

Seeing Ye Mo fall in silence, the young girl threw a jade slip at him “if you don’t believe me look at the soul chapter on the jade slip.

Ye Mo scanned with spirit sense and was overcome with joy. this jade slip was like an encyclopedia. It was countless times more informative than Thing. One chapter, material chapter, spirit herb chapter, immortal spirit herb chapter... there was everything and many types of pill recipes.

Ye Mo found the soul nurturing pill without trouble and realized that the young girl really didn’t trick him.

The pill indeed could possibly wake Nie Shuangshuang up but it wasn’t big. The use of the pill increased in difficulty with time after the essence spirit began dissipating. If the essence spirit was left there it might last longer but if the pill was used and couldn’t recover her, then her essence spirit would immediately cripple.

So this meant that either Nie Shuangshuang was saved or die immediately if he used it now.

Seeing Ye Mo's hesitation she knew that Ye Mo believed her and just when she wanted to say something there was joy on her face" my martial sister is here."

Before Ye Mo could look up a blue figure landed before him silently. Ye Mo was shook, this person arrived with his sense alerting him at all. He subconsciously scanned with his spirit beast and quickly took it back.

It was a middle aged female cultivator. She looked very ordinary but what made Ye Mo worry was that he couldn't see her power at all.

The only possibility was that she was really a status immortal. He didn't expect this young girl was telling the truth.

"martial sister I'll go show you. I'm certain it's what you need." The girl pulled the blue dressed woman towards a direction but after a few steps she thought of Ye Mo and turned back "don't go, I'll come find you in a bit."

Ye Mo knew that even if he wanted to go he wouldn't be able to. There was a status immortal here, even if she was just an immortal king and he left a day earlier, he would still be caught.

Seeing the two go into the market, Ye Mo quickly too out a storage ring and placed Nie Shuangshuang's jade bed inside as well as Luo Yin's jade coffin.

If the girl really wanted to see his friends and he took it from the golden page world, the blue dressed status immortal might see it.

...

Ye Mo didn't wait for long and the two returned.

"hmm, you really didn't go? I thought you would've tried to run, there's not many honest people like you?" the young girl said in shock seeing Ye Mo here.

Ye Mo was speechless, she told him to wait here. He didn't go because he couldn't get away but he also wanted this blue dressed woman to see if she could save Nie Shuangshuang.

Ye Mo quickly saluted with his fists "Ye Mo greet two qian bei."

"you really can see my power." The young girl glared at Ye Mo.

Ye Mo was speechless "I can indeed but I can't see the power of this blue dressed qian bei."

The young girl was going to say something more but the blue dressed status immortal waved her hand "let's go, Yu Xiang."

Clearly she knew what her martial sister was like, she came to play with this newly ascended cultivator.

Ye Mo quickly gave the jade slip back to her and saluted with his fists "qian bei didn't you tell wan bei to stay here and you said this qian bei would save my friend?"

"I was tricking you and you really believed me?" she grabbed the jade slip and said.

She acted as though she was being serious before but now it was just her joke.

Ye Mo frowned, he knew that this young girl could take his life with one slap and although he was furious there was nothing he could do.

The blue dressed status immortal reproached "Yu Xiang do not do this again."

Then she looked at Ye Mo "where is your friend, show me."

Ye Mo dazed, he didn't expect this extremely powerful female cultivator would really look at the friend of a hollow immortal. This wasn't his impression of immortals.

"see I said I would be able to help you. If I didn't say that my martial sister definitely wouldn't help you, you should thank me first." The young girl said and looked gloatingly at Ye Mo.

Ye Mo couldn't be sure what she said was true or false so he ignored her and took out the jade bed "this is my friend qian bei have a look."

"shadowless bug?" the blue dressed female cultivator saw what was in Nie Shuangshuang's hand first.

The next moment, Ye Mo felt his body lighten. He knew he was taken away.

Such power, he couldn't even react to it much less resist. Moments later they landed again but they were now on a distant mountain top. That market place had disappeared from his spirit sense.

The young girl looked at Ye Mo in curiosity.

The blue dressed female cultivator glanced at Ye Mo and just wanted to speak but then called out in shock again "extremely pure wind spirit root?"

After a while she panted and looked at Ye Mo "this female cultivator's soul had sunk into sleep for a few decades and nothing has changed. You placed her in a storage ring?"

She asked a completely irrelevant question? Why didn't Nie Shuangshuang change after a few decades? How could he answer this? expose his golden page world? no way.

Ye Mo knew he couldn't hesitate at all so he said "because I'm an immortal formation master so I know some restriction and formation. Then Ye Mo took out a formation flag and casually set up a soul nourishing formation. He believed this status immortal wouldn't check his storage ring. That would be lowering her status.

She nodded “luckily you placed a yin sha bead next to her. It cant be of any lower quality but without it she’s beyond help no matter what formation you set up.”

Hearing this, Ye Mo asked in joy “qian bei can my friend still be saved?”

She nodded “yes but I’m going to take her. Luckily she’s extreme pure wind spirit root she would make a good disciple.”

Ye Mo’s heart sunk. He didn’t want Nie SHuangshuang to be taken away. as long as she was alive he could bring up her power in a short time.

Seeing Ye Mo’s face change the blue dressed status immortal said “in the middle and lower 22 heaven domains, there wouldn’t be more than ten people who can save her. I happen to be one of them. Plus even if I save her and let her follow you she would have no future. Although you reached hollow immortal at such a young age, you probably got some powerful heritage in the cultivation realm. but no matter how good it is, it’s just a heritage of the cultivation realm. you can never imagine how hard it is to progress in the immortal realm.”

Seeing Ye Mo fall into silence, the blue dressed status immortal asked again “where did you get your shadowless bug?”

Chapter 1535: Use of corner soul weed

Ye Mo didn’t answer her and just bowed “qian bei after you save my friend I will tell this to qian bei. Qian bei, wan bei knows my talent is dumb but I have one request.”

“say it.” the blue dressed status immortal nodded.

Ye Mo knew it was hard to encounter a status immortal who was easy to talk to so he quickly said “wan bei wants to talk to her for a moment when she wakes up...”

“impossible.” The blue dressed status immortal interrupted Ye Mo before he finished. “even I would take some time to save her and I can’t bring you back to where I am so give up that thought.”

“then qian bei please tell wan bei where qian bei lives. Wan bei will come for my friend later.” Ye Mo said. Even if he was going to save Nie Shuangshuang he can’t give her to a person of unknown identity.

the blue dressed status immortal smiled calmly “you know I wouldn’t greed over her shadowless bug. You should know that the shadowless bug only has one master in it’s life time. It’s pointless for me to greed over it.”

after hesitating for a moment she said “the truth may be harsh but I’ll tell you some real things. If I’m not wrong your power will stop at golden immortal. You wouldn’t even be able to reach abstruse immortal. Your friend has very good talent and shadowless. Her future is limitless. She might even go to the top 11 heaven domains. So there wouldn’t be anymore connections between you two. Even if I tell you where I live it would just give you more trouble.”

She shook her head and sighed “what a pity.”

She took out a storage ring and gave it to Ye Mo “you can have this to cultivate golden immortal, this is your fortune.”

Then, the blue dressed status immortal looked at the young girl and said “Yu Xiang let’s go.”

The young girl looked at Ye Mo’s dazed expression and felt some sympathy. She gave the jade slip back to Ye Mo and said “you can have this too, it’s payment for helping my martial sister find a good disciple.”

After she finished two dashing lights disappeared from Ye Mo along with Nie Shuangshuang.

They sent him off like a beggar. He would borrow the things inside this first and repay that woman a hundred times more.

He sighed and picked up the jade slip. He wanted to see what the corner soul weed was. Why was that golden immortal so shook?

...

At this moment the young girl looked at the blue dressed status immortal and asked “martial sister why did you say pity before?”

the blue dressed status immortal sighed “shadowless bugs come in pairs, one is here so the other must be on that hollow immortal. It is a waste for him to keep it.”

“so that’s it, but that guy is a good guy, I don’t mind him.” The young girl sighed “it’s a pity indeed, he’s a mixed spirit root and yet he could ascend to the immortal realm, it must’ve been really tough for him.”

...

Ye Mo’s face was changing he finally knew what the real use of corner soul weed was now.

Corner soul weed could be added to any great immortal break through pill to add 10% chance of break through.

The higher the power level the more crucial spirit sense was to break through. If your immortal essence was enough through the consumption of pills but your spirit sense was too lacking you wouldn’t be able to break through.

Just like the cultivation realm, spirit sense cultivation was the hardest. Many cultivators were trapped in their state not because they didn’t have enough immortal essence but not enough spirit sense.

The jade slip didn’t say but Ye Mo knew it was talking about clear weed.

The corner soul weed had another important aspect and that was it could be used to concoct dual spirit pill. It could repair the soul and spirit sense our high level immortals and was very good for repairing essence spirit.

Seeing this, Ye Mo regretted. Although he got a large pile of corner soul weed, who knew they were this important. He thought that at the immortal realm, they would gradually lose effect like the spirit recovery pill.

But in fact the corner soul weed was still so sturdy.

The jade slip said that the grading for corner soul weed was uncertain. There was the added notes it's very hard for corner soul weed to appear in the cultivation realm. it should be between level one immortal spirit herb and level nine immortal spirit herb.

Seeing this, Ye Mo didn't dare to stay here anymore. He had to get as far away as possible. No matter how valuable this was he didn't dare to sell it anymore. Plus he didn't even have enough for himself after realizing its use.

Ye Mo quickly released Blue Moon and sped off at full power.

...

In the Bi Yi immortal city city lord estate, city lord Zang was sitting at bottom right, Ge Yan could only sit at bottom left. It was a middle aged man sitting at the top, his face was calm. This man was Wen Ju heaven heaven lord Ge Baiwen. Ge Yan's father.

"father, I've already asked. Li Heng and them only just met Ye Mo. Li Heng was warm hearted and helped Ye Mo taking him to Bi Yi immortal city." Ge Yan said.

The man nodded "ignore them and don't tell them anything. Just notify them that if Ye Mo comes back report to us immediately."

Then the man stared at Zang He "warn Rainbow immortal merchant association about the corner soul weed. If they spill half a word..."

"yes heaven lord, Zang He understands." The city lord replied respectfully.

The man nodded "that hollow immortal only has 20% of cultivation essence converted to immortal essence. even if he flies with full power he can't be outside the range of Bi Yi immortal city. Plus he

doesn't know we're looking for him. Ge Huo you and city lord Zang expand out the search from Lao Xi swamp. You should be able to find traces of him."

"yes heaven lord." A guard behind the man and Zang He said in unison.

"father that Ye Mo is just a newly ascended cultivator he's weak. When you find him father please ask him where he got the corner soul weed don't hurt his life." Ge Yan quickly said.

The man smiled "of course I won't hurt him I will reward him."

The bodyguard next to Ge Yan said "pity he didn't drink the Wen Feng wine. If he did, we would've found him already."

"thank you father." Ge Yan got up to thank.

The man nodded "all go do your own business. The faster you find that Ye Mo the better."

After everyone had left the man said to his guard "Ge Hhuo after you catch that Ye Mo use the most direct way to ask him about the corner soul weed. Then search his soul to confirm it. and then..."

Seeing heaven lord's calm face, Ge Huo quickly bowed "I understand."

The man nodded "go quickly I need to know."

...

This was the second month Ye Mo flew for non stop. Ye Mo stopped now. he was certain that he was far beyond the range of Bi Yi immortal city.

Ye Mo was now standing in a barren place with little immortal spirit chi. Compared to the cultivation realm, the immortal realm was much larger and less populated.

Ye Mo chose this place and sunk into the earth until he couldn't go any deeper. Then he went into the golden page world. He only trusted his golden page world, he wouldn't trust any immortal city nor rest tower.

Chapter 1536: Finding a job

After going in the golden page world, the first thing Ye Mo did was to take out the storage ring the blue status immortal gave him. There was 10k top grade immortal crystals and some level one and level two immortal pills.

Ye Mo needed these things the most. As for those pills, Ye Mo decided to bring his power up to his tertiary stage with the time formation disk first.

He placed the 7 top grade immortal crystals into the time formation disk and with this the time formation disk ran much faster than low grade immortal crystals.

Top grade immortal crystals had extremely dense immortal spirit chi and was very easy to digest.

Of course Ye Mo didn't know that the Wen Ju heaven lord was searching for him like crazy. He had went into a solitary cultivation state. The immortal crystals turned to dust one by one in his hands and he ate the immortal pills like snacks. As for pill poison Ye Mo wasn't concerned at all. When he reached hollow immortal tertiary stage with these resources, he would be able to go find a job at some old immortal city.

In order to make sure the time formation disk kept running Ye Mo even set up an automatic supply formation so he wouldn't have to add the immortal crystals himself.

Ye Mo didn't know how much time passed in the time formation disk and slowly converted his cultivation essence to immortal essence. Then, his immortal essence kept increasing and charging for the next stage.

When the immortal crystals cracked again in his hand and Ye Mo reached out and grabbed nothing, he realised he had used up all his pills and immortal crystals.

Feeling his power, Ye Mo was greatly disappointed. Ideal and reality was different. He didn't reach hollow immortal tertiary stage he only barely entered hollow immortal middle stage.

Ye Mo knew he used up terrifying amounts of cultivation realm but he didn't expect it to be this bad. All those immortal pills and immortal crystals only allowed him to barely reach from hollow immortal primary stage to middle stage.

If it was some other cultivator, he might even be able to reach golden immortal with these resources. Ye Mo knew that the cultivation resources he needed would multiply from middle stage to tertiary stage.

"it seems I need to go find a job somewhere." Ye Mo got up and said. He looked at the counting formation. The time formation disk had run for a year meaning that he had cultivated for nearly 100 years.

...

Chun Kou station was a small station. Cultivators looking for resources outside would come here to wait for the immortal boat.

There was no city nor town here but due to the station, a market place formed here. There were some simple hotels and spirit rest towers as well as some decent merchant towers.

An ordinary hollow immortal cultivator got off his flying magic artefact and walked. This was Ye Mo who had flown for nearly another month.

He was not a noob anymore and knew what this station meant. It was sort of like the train stations on Erath. This was a station that people waiting for large scale flying magic artefacts that flew from one immortal city to another.

When Ye Mo arrived here, he saw that the middle of the station was this huge spacious square, there were two gigantic ferocious looking flying magic artefact parked there. There were many cultivators going and from on the front deck.

“the immortal station isn’t as busy as the immortal city but to Ye Mo who had just spent 100 years in solitary cultivation, there was too many people here. As soon as Ye Mo came in there was this fat hollow immortal cultivator who came up to greet him.

Before Ye Mo said anything, he saluted with his fists “friend do you want to ride the immortal ship? May I ask where you want to go?”

Ye Mo dazed, he didn’t know where to go he just wanted to get as far away from Bi Yicity as possible.

The fat cultivator could easily tell Ye Mo didn’t have a set location so he smiled “friend, if you go to Yi immortal city, that would be the cheapest. It costs only 10000 immortal crystals, if you want to go to Bing Qiong immortal city, it would cost 30000 immortal crystals if it’s black weed forest...”

Ye Mo was shook and quickly asked “are you talking about 10000 top grade immortal crystals?”

The cultivator looked at Ye Mo in confusion and his tone turned cold “of course it’s top grade immortal crystals...”

Ye Mo said awkwardly “I won’t take the ship, I don’t have that much immortal crystals.”

The fat cultivator studied Ye Mo again before shaking his head and leaving. He saw Ye Mo’s flying magic artefact was quite nice and thought Ye Mo had some immortal crystals but instead he was this poor and asked if it was top grade immortal crystals.

Seeing this, Ye Mo couldn’t help but sigh. He didn’t have a single top grade immortal crystals, the only 200 immortal crystals were from selling his magic artefact and they were low grade immortal crystals. This wasn’t even enough for him to stay on the ship for 15 minutes.

Ye Mo shook his head and decided to fly himself while finding cultivation resource on the way. If it wasn’t for the corner soul weed incident he might find an immortal city to go but now he wouldn’t go an immortal city no matter what if it was in Wen Ju heaven.

Corner soul weed is this important, it's going to reach Ge Yan goddess' ear sooner or later. If she knew it came from him it wouldn't be good. The power behind her was not simple.

"brother Feng, I'm willing to offer four cauldrons of materials I just want one cauldron of pills." One desperate voice sounded by Ye Mo's ear.

Ye Mo immediately noticed the two cultivators who came here. They were both hollow immortal tertiary stage. The one at the front had a goatie and slightly dark face, the one behind was a bulky man. For some reason, Ye Mo hated goatie beards and wanted to turn to leave.

"if you add some more immortal crystals I'll try help you do this. to be honest, if I haven't been doing business with you for a while I really don't want to take this job. I really can't earn anything." The goatie said in annoyance.

The bulky man's face lit up and said with a smile "brother Feng you know I really don't have much immortal crystals, only..."

The goatie interrupted "in that case don't blame me for not helping you."

Then, he left with faster speed and disappeared.

The man dazed for a moment and was immediately about to chase up. He just wanted to bargain a little but that pill master Feng just ignored him.

Ye Mo thought and quickly stopped that man. He saluted with his fists "friend hello."

The man dazed and seeing Ye Mo was only hollow immortal middle stage he asked "what do you want?"

Ye Mo said "I saw you wanted to find pill master Feng for pill concoction."

"so what?" the man frowned.

Ye Mo smiled “don’t think too much I came to you in good will. I’m an immortal pill master too. What level immortal pill do you want? Perhaps I can help you.”

Ye Mo was still a little nervous. During his solitary cultivation, he had completely studied the jade slips he found.

The reason he was nervous was because he hasn’t actually concocted any yet, not even level one immortal pill.

“you’re an immortal pill master?” the man studied Ye Mo dubiously for a long while. Ye Mo wasn’t old he didn’t dare to believe he was an immortal pill master at this age.

Chapter 1537: Concoct level one immortal pill

“indeed I’m a pill master but I haven’t concocted a lot of pills that’s why I need to ask what pill you want. If I’ve concocted them before I can help you. If not then I can’t.” Ye Mo nodded heavily.

“I want to concoct earth essence pill, it’s just level one immortal pill, can you concoct that?” the bulky man said Ye Mo saying without hesitation and believed him a little.

“this.... of course I can. The simplest earth essence pill to rapidly recover the immortal essence of hollow immortal cultivators without any side effects. It’s just a mere level one immortal pill.” Ye Mo replied rapidly.

“you really can concoct earth essence pill?” the man repeated in joy. it was level one immortal pill but it was middle top grade of level one immortal pills.

Ye Mo showed an unhappy face “I just don’t like how that Feng dude is acting. That’s why I offered to help since you don’t believe me then never mind. I’m an imp and I have to beg a hollow immortal cultivator, what is this logic.”

Then, Ye Mo was about to go but the man quickly run up to Ye Mo giving him an apologetic smile “immortal pill master Yi Teng offended you just then please forgive me.”

“qian bei, you’re really an imp?” another voice of surprise and joy interrupted Yi Teng.

Ye Mo and Yi Teng looked at this cultivator at the same time. It was a dark skinny female cultivator. She was hollow immortal middle stage too.

“that’s right I’m an imp what do you need?” Ye Mo asked.

“yes, yes I want to ask immortal pill master qian bei to help concoct two cauldrons of Up Hollow pill but I... but I don’t have a lot of materials...” she clearly felt that she couldn’t pay Ye Mo enough.

Yi Teng didn’t dare to show his temper as he already had a bad impression in front of this immortal pill master. If he annoyed Ye Mo again he would have to go to that Feng scrooge.

Ye Mo heard this and rejoiced. Up hollow pill was a pill for hollow immortal cultivation. Used together with immortal crystals, cultivation progress would be very rapid.

More importantly, it was also a level one immortal pill but was much easier than earth essence pill. for his first pill concoction he should choose a simpler pill.

Before she finished, Ye Mo waved his hand and said “that’s fine, I will do it.”

She didn’t expect Ye Mo to agree without asking for remuneration. There was surprise and joy in her eyes. Clearly she thought Ye Mo was angry with Yi Teng and let her take the advantage.

Without hesitation, she took out a storage bag and passed it to Ye Mo “there’s five sets of Up hollow pill materials. I just need two cauldron of pills, immortal pill master qian bei...”

She looked timidly at Ye Mo. Her request for low level pills were rather over the line. Usually, 7 or 8 sets of materials could get her two cauldrons but she only took out five sets.

Ye Mo didn't know the industry standard here but even if he knew he would still do it. he needed it for practice.

Yi Teng went up and said carefully "immortal pill master qian bei, I have four sets of earth essence pill ingredients, can you..."

Ye Mo purposely frowned and said "okay I'm in a good mood today I'll help you do it. I'll take four sets and give you one cauldron."

'yes, thank you, thank you, how may I refer to you immortal pill master qian bei?" Yi Teng quickly took out his ingredients and said.

"I'm Ye Mo." Ye Mo said.

"pill master Ye where do we go to wait for the pills." Yi Teng said awkwardly. After all he didn't know Ye Mo, what if Ye Mo just took the ingredients and ran off. But he didn't want to offend Ye Mo again.

The black skinny female cultivator looked at Ye Mo nervously clearly thinking the same.

Ye Mo frowned and just when Yi Teng was worried Ye Mo said "it's really not easy to find a place for pill concoction. I'm a passerby I can't do it out in the open."

Yi Teng heard this and quickly said "pill master Ye I often stay here so I know some people at the station. If you're willing I can find a temporary place here."

"great, lead the way then." Ye Mo didn't reject.

Yi Teng breathed easy. He was scared that Ye Mo would tell him to wait here and he would come after he was done. If that happened, he really wouldn't know what to do.

Seeing Ye Mo go in the station with Yi Teng, the female cultivator quickly followed too.

Pill master Feng was wondering why Yi Teng didn't chase up to him but he saw Yi Teng bring Ye Mo and a female cultivator into a rest tower. He paused and thought Yi Teng probably saw someone he knew and would come find him later.

Those cultivators who came over here specifically usually came to him for pill concoction. They wouldn't go to immortal city as the costs of pill concoction was too high there and people needed to pay to enter the city. He was the only immortal pill master here a level two immortal pill master too so Yi Teng would definitely come back to him.

Yi Teng proactively paid for the room in the spirit rest tower while he waited for Ye Mo with the dark female cultivator.

This was his first time concocting immortal pill but he had simulated countless times with Three Birth Chant.

The reason this station could attract a lot of cultivators to come was because it was safer than other places. In order to attract more people, powerful masters would be stationed here and robbing was definitely not allowed. If he failed pill concoction and couldn't pay compensation, that was robbing.

He released Shen Nong cauldron and mist lotus heart fire. He simulated one more time and made sure everything was right before taking out the first set of Up Hollow pill materials and threw it into the cauldron.

The immortal spirit herb rapidly melted into herbal liquid. Ye Mo used his spirit sense to shoot inside pill chants while carefully monitoring every batch of herb liquid.

Half an hour later, a faint herb aroma came out of the cauldron. Ye Mo still carefully separated the pill liquids with his spirit sense. Another half an hour later, the herb liquid seemed to have completely gathered. There was nothing wrong but Ye Mo felt something wasn't right.

However, he started pulling pill without hesitation.

12 figures darted in an arc and Ye Mo collected 12 faint yellow up hollow pills into a jade bottle. However, Ye Mo wasn't happy and frowned in contemplation instead.

The concoction process was very successful but Ye Mo knew he failed.

They were made into pills but it didn't have the immortal spirit chi of the ones he had eaten before. that means, these pills were only heaven grade level nine pills not immortal pills.

Ye Mo repeated pondered upon his pill concoction process trying to find where he went wrong. Perhaps if he tried a few more times the problem would show but he knew he didn't have that much immortal spirit herb for practice

Chapter 1538: Become immortal pill master

Another half a day had passed but Ye Mo was still revising his pill concoction process.

Ever since he became pill king he had never used so much time to think about pill concoction process except that time at Pill City tournament. Usually he would try again immediately if he made a mistake. Through practice he would be able to quickly find out the problem.

But now his herbs didn't belong to him. He would have to pay compensation if he wasted it. he didn't have anything to pay with.

Just when he was revising the spirit gathering process, he was shook and realized.

The immortal pills were immortal pills because they had immortal force. Spirit pills needed pill master to gather spirit but immortal pills needed to be formed based on the characteristics of the immortal spirit herb. using the same type of immortal spirit herb, high level pill masters would have different means and pill chants. Yet, he used the spirit gathering method for concocting heaven grade pills. It would be strange if he could concoct immortal pills that way.

If it wasn't that his pill concoction method and flame was too powerful, that cauldron of pills might not even be heaven grade level nine.

Suddenly, he thought of the jade slip the great eternity immortal young girl gave him. The pill concoction section had a sentence “pill dao, the dao of eeriness. More than thousands of concocters yet hard for one to attain pill dao.”

Without a flexible mind and creativity, one could never become a top grade pill master. He would at most become a pill concoction machine for low grade pills.

This was why many pill master have little success rates for pill concoction.

Realizing what the problem was, Ye Mo set his mind down and started concocting the second cauldron of pills. Half an hour later, there was a burnt crisp smell. Ye Mo knew the second attempt failed but instead, he wasn't worried anymore.

This was intentional as he wanted to test something. He needed to verify his guess and his pill separation technique. Reality proved that he was completely correct.

...

In the hall, Yi Teng and the girl had waited for nearly a day. At the start they were unfazed because an ordinary immortal pill master would need more than half a day to concoct three cauldrons.

But it has been a day now. even if Ye Mo was a little worse he should've been finished. Both of them seemed a little worried especially that dark faced female cultivator.

“do you think that pill master Ye finished concocting all nine sets of immortal spirit herb?” she finally couldn't help asking Yi Teng.

Yi Teng knew the girl was desperate too. If it wasn't that one could only leave through the main hall he would've thought Ye Mo had left the spirit rest tower.

Just when he wanted to speak, he saw Ye Mo walk out of the room and wave his hands to them “come up.”

Hearing this, they sprung up immediately and darted to Ye Mo's room.

Ye Mo closed the room and put on restrictions before taking out two bottles of pills to the female cultivator "this is your up hollow pill are you happy?"

Then he gave another bottle to the excited Yi Teng.

The female cultivator shakily tipped the pills to her hand.

"top grade up hollow pill..." she stared at Ye Mo in shock. She didn't expect she would be able to get top grade pills. Only level three immortal pill master could concoct top grade up hollow pills.

"top grade earth essence pill?" Yi Teng called out in shock too.

The pills he got from pill master Feng had always been middle grade and sometimes low grade but no matter what he had to take it. but now, he got an entire bottle of top grade pills. Didn't this mean that this pill master Ye was at least level three immortal pill master?"

Ye Mo made six cauldron's of pills altogether, he failed twice for the up hollow pill and the last three times he made two batches of top grade and one batch of special grade up hollow pill.

As for earth essence pill, he made two batches of top grade and the last batch was spirit range. He failed the first time.

He was planning to give them some special grade pills if they weren't satisfied but now it didn't seem necessary.

"pill master Ye Yi Teng didn't expect you were a level three immortal pill master..." Yi Teng said shakily. Clearly he was very excited to know a level three immortal pill master. Not only were his pills better than Feng his price was much lower too.

Ye Mo smiled. Of course he wasn't going to admit he was only a level one immortal pill master. Plus he believed it would only be a matter of time for him to reach level three immortal pill master if he had the immortal spirit herb. he might be able to reach that in a month if he had the herbs.

Seeing Ye Mo remain calm, Yi Teng respected him even more. he got up and bowed to Ye Mo "I came from the Black Lu forest wanting to ask pill master Feng for pill concoction. Every few months I would come over. Pill master Ye your skills are far superior than pill master Feng and your price is much lower than his. I'm thinking in the future..."

Ye Mo knew what he meant and quickly waved his hand "wait, I'm going to leave here soon so that probably won't do."

The female cultivator also bowed to Ye Mo "pill master Ye thank you for concocting two up hollow pills with such low price. I wanted to come to pill master Feng for pill concoction too but I can only get very little immortal spirit herb each year. I can only come for pill concoction every three to five years. I'm think if you go somewhere can you tell me and I will go find you..."

Ye Mo thought in the cultivation realm it was already very high price to take 50% for pill concoction but that pill master Feng wanted to take 75% from Yi Teng and add more immortal crystals. This price was absurd. If he stayed here for pill concoction he would become wealthy soon.

But immediately Ye Mo gave up on the thought. He didn't dare to stay here for pill concoction and even if he did people would sooner or later smash his business. Pill master Feng can concoct pills here definitely because there was someone to back him up. Otherwise, he was only a mere hollow immortal tertiary stage, he wouldn't be able to do this so freely here.

Realizing this, Ye Mo saluted with his fists "sorry I won't stay here for pill concoction I'm really just passing by. As for where to go, I haven't thought of it yet."

Hearing this, Yi Teng got up and said genuinely "pill master Ye if you don't have a good place to go you can come with me to black weed forest. It's very big and there are countless immortal spirit herb and ores there. Many cultivators like me go there to find immortal spirit herb and leave for a while to find a pill master. With pill master Ye's prowess if you go there you would have endless business."

“yea, I came from there too. If Ye qian bei you go there many of my friends would come to you for pill concoction.” The female cultivator nodded.

Ye Mo asked in suspicion “you came all the way from Black Weed forest just for a cauldron of earth essence pills?”

Yi Teng said “I’ve been here for many days and I’ve already asked him to concoct a lot of pills for me but he asks too highly for this earth essence pill so I haven’t made up my mind yet. Then I met you pill master ye qian bei.”

Ye Mo waved his hand “just call me pill master Ye, don’t call me qian bei. My power is lower than yours.”

“yes pill master Ye.” Yi Teng changed immediately.

Ye Mo nodded “I heard that it costs tens of thousands of top grade immortal crystals to go to Black Weed forest from here. The pills you ask to get concocted isn’t even worth a small amount of the ticket right?”

Chapter 1539: Can only stay in the corner

Hearing this Yi Teng dazed and smiled “pill master Ye you must’ve been tricked by that fat man. There’s no immortal ship direct to the Black Weed forest you can only go to Wan Jiao town and then take another immortal ship to Black Weed forest.”

“but even so the immortal crystals price wouldn’t be too low right?” Ye Mo asked in confusion.

Yi Teng said “the price the fatty is talking about is the low grade seatings...”

Ye Mo was shook, low grade seating was this expensive then what about middle grade and top grade?

Yi Teng continued “there are some random small spaces on the immortal ship. You can’t enjoy the view outside and there are no immortal spirit chi there. Those forgery grand master would leave some empty space to put formation flags and other things. These places are also for putting public materials used by the boat. Thus the price is very cheap but you need connections to get it. these seatings are called corner seats.”

“I came by corner seats too.” The black skinny female cultivator nodded.

“then how many immortal crystals?” Ye Mo asked immediately.

Yi Teng replied “500 to 1000 top grade immortal crystals but you don’t use that buy the ticket you just subtly give it to the people at the immortal station. These corner spots aren’t allowed to be sold but it has always been sold.”

Ye Mo nodded, it seemed these things were everywhere.

Yi Teng added “but if there are large scale feasts or auctions and socials, the people are the corner seats need to go help out for free.”

Ye Mo fell silent this price wasn’t high but he didn’t even have 500 top grade immortal crystals. As for the pills he didn’t want to sell it as he needed to cultivate.

He had a few immortal artefact but he didn’t dare to sell a single one. Ye Mo definitely didn’t dare to sell the green flame spear he took from the demon prison forbidden grounds. Ye Mo didn’t dare to sell the magic artefact he got from Yan Zhuo and them. Otherwise just that flying ship was more than 1000 top grade immortal crystals.

Seeing Ye Mo remaining silent Yi Teng was desperate with anxiety. If Ye Mo went to Black Weed forest, it would be pure benefit for them. If Ye Mo left then he would need to come back to that scrooge Feng.

Thinking about this he added “pill master Ye, the forest is near Bing Qiong immortal city and that city is near He Tong heaven domain. if pill master Ye wants to leave Wen Ju heaven one day to He Tong heaven domain it’s not very far. There are less immortal pill master in He Tong than Wen Ju.”

Hearing this, Ye Mo had immediately decided to go. He wanted to leave Wen Ju heaven.

“okay I that case I’ll go to Black Weed forest but I don’t have enough immortal crystals now. I’ll use pills to make up for it.” Ye Mo got up and said.

Hearing this both Yi Teng and the skinny female cultivator was overjoyed.

“pill master Ye it’s not easy to get 500 to 1000 top grade immortal crystals for us hollow immortal cultivators. I came to help everyone get pills so the price is paid by everyone together. But I still have some extras I’m willing to lend 500 immortal crystals to you.” Yi Teng quickly said.

Hearing this, Ye Mo had a different view of Yi Teng. Yi Teng and Li Heng were both hollow immortal tertiary stage but when he went to Bi Yi immortal city Li Heng didn’t even want to lend him 500 low grade immortal crystals. Yet this Yi Teng lent him 500 top grade immortal crystals without hesitation. The difference was huge.

Despite knowing that Yi Teng was willing to do this mainly to convenience their pill concoction Ye Mo’s views of him still changed.

...

Yi Teng really had his way. A day later, the three were sitting on the immortal ship to Wan Jiao town. The three of them were in the corner seats. Ye Mo didn’t mind, the ship only flew for 20 or so days.

After getting familiar Ye Mo knew the female cultivator was called Tong Zhu. She was looking for things to do in the forest. She was in a squad with her sister in law but because both of them were only hollow immortal middle stage they didn’t get a lot of cultivation resources. Even this 5 sets of up hollow pills took a long time to gather. Luckily she brought some materials for pill concoction for others so she didn’t have to pay the way here herself.

After discussion Ye Mo felt both of them were nice people and concocted the rest of the level one immortal pills for free. Due to this, they didn’t have any immortal spirit herb left.

The two were very grateful for Ye Mo's generosity. They answer almost anything Ye Mo asked. Ye Mo mainly wanted to know about the forest. He estimated that he would be staying there for a long time.

There was not only Wen JU heaven cultivators at the forest but also He Tong cultivators. The forest was boundless and there were all sorts of immortal spirit herbs there. It was possible to even find level nine immortal spirit herbs there.

But the black weed forest was a rather famous dangerous land. Low level cultivators usually wouldn't go deep. They would only look for low level immortal spirit herb at the outside. There were not only powerful immortal beasts but also all sorts of natural attack formations.

Other than this squads often had conflicts with each other. If good things were found two squads would immediately fight. It was completely the law of the jungle there. Yi Teng's squad was stronger so they could go deeper but Tong Zhu and her sister in law were weak so they only stayed at the outskirts.

Ye Mo thought that although many spirit beasts couldn't transform in the cultivation realm but would all morph into beast cultivators in the immortal realm but from Yi Teng he knew that there were countless immortal beast that would never morph. These immortal beast were more powerful they higher they cultivated. Same level beast cultivators were not necessarily a match for them.

The two just treated Ye Mo as an immortal pill master but as they discussed cultivation method they found in shock that Ye Mo's understanding was much better than theirs.

No matter what they didn't understand they would easily find an answer from Ye Mo. They even felt that their bottleneck loosened up due to this.

They two didn't know why Ye Mo was so weak but had such an understanding. However they knew that it was only a matter of time before Ye Mo reached higher.

Ten days passed quickly. At this moment Yi Teng suddenly received a message and got up "pill master Ye, there's going to be a social on the ship we need to go help."

"we usually carry some spirit fruit or pass items between cultivators. Afterwards, the ship would also give us some reward."

Tong Zhu hesitated before saying “brother Yi how about just us two go. Pill master Ye qian bei has a different identity...”

Ye Mo got up and smiled “it’s fine I want to see those masters exchanging treasures. Plus, I have no special identity.”

Ye Mo really didn’t mind. He knew that most of the immortals here were golden immortal and some abstruse immortal.

...

When they came to the top deck Ye Mo just realized that this ship was an extremely large middle grade flying immortal artefact. There were many cultivators chatting there.

“Yi Teng you three follow me.” a hollow immortal tertiary stage cultivator waved to them.

Chapter 1540: Reckless cultivator

Ye Mo followed this hollow immortal into the very left room. from the outside it seemed like an ordinary room but after going in, they realized how large this room was.

It was more like a huge palace instead of a room. the settings were extremely luxurious, below the shiny crystal formation sat about 100 cultivators waiting to trade.

At this moment Ye Mo realized why the ship didn’t have enough people. Nearly every one of the cultivator sitting had someone behind him. They were brought here to stand behind a cultivator too.

Indeed as soon as Ye Mo came here, the hollow immortal who brought them here said to them “when a customer calls you over stand behind them first. If they want to trade things you can help them pass things.”

Yi Teng nodded. Ye Mo knew that the reason for this extra move was just to show off the wealthy guests' important status.

Soon, Yi Teng and Tong Zhu were called away by two golden immortal cultivators. Just when Ye Mo wanted to check with his spirit sense which one was the strongest here a crisp voice sounded by his ear "come here."

Ye Mo looked at this cultivator, it was a dark dressed female cultivator wearing a face cover. He scanned her, although she hid her power level she was only golden immortal middle stage.

"what's your name?" the female cultivator asked casually.

"Mo Ying." Ye Mo said heavily.

"mhm." The female cultivator responded.

Ye Mo carefully scanned around with his spirit sense he found that all the cultivators here were at least hollow immortal peak stage. Most were golden immortal and 6 were abstruse immortal. There was none above abstruse immortal.

"friends I won't speak too much. It's not your first time here so I hope everyone on board will have a happy cooperation. I will repeat again that after both parties agrees to the exchange there must be no regrets so please consider carefully before agreeing. Now, the exchange begins." An abstruse immortal sitting at the top said.

"I'll go first, I brought a middle grade attack immortal artefact..." it was a golden immortal tertiary stage speaking. There was quite a ruckus when he said this.

Middle grade immortal artefact were extremely hard to get for cultivators below great immortals. Clearly people didn't expect it to be in a small social like this.

“but this immortal artefact is a bit broken...” the golden immortal said and then the entire palace realized why he took it out. A broken middle grade immortal artefact is worse than a low grade immortal artefact.

Eventually, this broken middle grade immortal artefact wasn't traded. Finding a forgery master to repair this would cost half the immortal artefact itself. Clearly, the cultivator came to find an idiot to scam but he didn't get to.

The second cultivator was also a golden immortal tertiary stage. He took out three jade boxes and said “I have three Mo Jin flowers here. I want to trade wood element forgery material or wood element immortal artefact.”

“Mu Jin flower is level three immortal spirit herb. It can be used to make Mo Abstruse pill to allow abstruse immortal cultivators to break through small bottle necks. It's a rather good immortal spirit herb. soon, this cultivator traded a low grade wood element immortal artefact from an abstruse immortal cultivator.

The social continued in orderly fashion. Ye Mo found there was nothing special here. Other than some immortal spirit herb below level four there were some ordinary low grade immortal artefact and ordinary ores. There was nothing Ye Mo found interesting.

At this moment it was the masked female cultivator's turn. She said crisply “I want to trade 12 lightning orbs. I got them in the cultivation realm, they're half immortal artefact. I'm not a lightning element cultivator so I haven't spirit controlled it. if a lightning element cultivator gets them it would be as powerful as low grade immortal artefact...”

Ye Mo saw them and immediately he couldn't keep calm anymore. They were the lightning sea magical orbs. He got 12 and gave it to Ye Mo but now he found another 12.

Ye Mo knew the entire set was 36, if they were brought together it would be far beyond ordinary immortal artefacts.

He was going to get it no matter what.

“half immortal artefact of cultivation realm and she wants to trade for low grade immortal artefact, she’s crazy...” someone scorned.

The female cultivator didn’t mind it and continued “I will only trade rare flames, earth flames and heaven flames are both fine. If it’s heaven flame, I would add in some immortal crystals or other things.”

Hearing this, people couldn’t even be bothered scorning at her.

Rare flames were rare in both the cultivation realm and immortal realm. heaven flame was even rarer.

Who would be dumb enough to use rare flame to trade for such thing.

But Ye Mo really wanted to trade. He had two rare flames, dragon heart flame and Sha Mei flame. He could trade both. Of course there was no way he would trade mist lotus heart fire or Blue Like Morning Sky. Mist lotus heart fire was his lifelin right now. Blue Like Morning Sky was the number one heaven flame of the cultivation realm. it was ranked top three in the immortal realm too.

Ye Mo was desperate to trade it but he knew he had no right to trade here. He could only hope she couldn’t exchange it and he would find an opportunity to trade it with her.

If he dared to exchange now, he’d be lucky if he only got kicked out. If unlucky he might even be killed. Plusym didn’t dare to expose his flame.

“since no one wants to trade, next.” Some cultivators couldn’t be bothered waiting.

“Wait...” a golden shirted cultivator said.

Hearing this, Ye Mo’s heart sunk. If the trade was successful it would cost him more than a rare flame to get it back.

“I have a Sha Mei flame here and it’s green already. If you want it I can trade with you.” The cultivator opened a jade box showing a green flame.

“of course...” without hesitation she waved to Ye Mo “Mo Ying bring the 12 lightning orbs over and bring that Sha Mei flame over.”

Ye Mo sighed, it seems there was no chance for him. He also had Sha Mei flame but the level was lower. Only an idiot would trade with him.

Ye Mo walked towards the golden shirt cultivator while thinking how he would get it back from him.

He brought the Sha Mei flame back to the female cultivator.

She took it and looked at it and said “that’s right it’s what I want. I’m willing to trade.”

The golden shirt cultivator also looked joyful and surprised “I’m willing to exchange too.”

A deal was made. Everyone shook their heads that golden shirt was an idiot to trade green Sha Mei flame for 12 lightning orbs from the cultivation realm.

But only Ye Mo knew that the female cultivator was the one who took the bad side of the deal.

Ye Mo scanned his spirit sense in the jade box in dejection. When his spirit sense connected to it he was shook.

Ye Mo had been in contact with the flame many times and knew that the flame in her hands was similar to Sha Mei flame but definitely wasn’t.

Just when she was about to put it away carefully Ye Mo quickly walked up to her and saluted with his fists “qian bei may I have a look at your flame?”

Ye Mo was desperate the 12 lightning orbs belonged to Yimo, if the golden shirt took it away how could he get it for Yimo?

The hall suddenly fell silent. A mere hollow immortal middle stage who was a waiter dared to make such demands.
