Chapter 1541: Get enmity

Even Yi Teng and Tong Zhu dazed. They didn't expect Ye Mo would dare to say such a thing at such a time. There was worry on their face.

"how dare you, a mere low grade hollow immortal dare to make such request in the exchange hall. If the immortal ship doesn't kick off such trash cultivator then it truly disappoints us." The golden shirt cultivator reproached in fury.

The black dressed female cultivator didn't understand why Ye Mo dared to make such a request but hearing what the golden shirt cultivator said she felt this was what she should be saying why did he say it first?

The manager heard this and there was fury in his eyes, he looked coldly at Ye Mo and got up.

"okay you can have a look." That female cultivator actually agreed to Ye Mo's request and gave the Sha Mei flame to Ye Mo.

The golden shirt cultivator calling out made the female cultivator suspicious. If he didn't do that she wouldn't show the flame to Ye Mo. She was much stronger than Ye Mo but she knew nothing about rare flames.

Seeing that the manager was about to attack Ye Mo she immediately said "I told Ye Mo to help look at it for me, it has nothing to do with him."

The female cultivator felt Ye Mo had no bad will to her and she called him over so she helped Ye Mo. She knew what Ye Mo did just then was too dangerous. If she didn't stand up, no good thing would await him.

Ye Mo was shook, he knew he acted too impulsively. Those 12 lightning orb attracted him too much. If he missed this opportunity Ylmo might never find them again.

Luckily this female cultivator helped him making him very grateful.

Seeing this, the manager glanced at Ye Mo and went back.

Ye Mo looked at the green Sha Mei flame and scanned his spirit sense in.

As soon as he did, he immediately knew his guess was right. This flame was a fake, it was no rare flame but a pill fire. It's also an external flame but it has no growth potential. It can only be used for pill concoction, this pill fire is called Yu Stone fire. It's attributes are extremely similar to Sha Mei flame but it's color will forever be green.

"this isn't Sha Mei flame." Ye Mo looked at the flame and gave it back to the female cultivator.

"bullshit..." the golden shirt pointed at Ye Mo and yelled and then said to the manager "I'm a guest of the immortal ship. How come a servant dares to point fingers at my things? Has the rules here changed?"

'are you certain?' there was sharp rays in the black female cultivator's eyes.

Ye Mo said without hesitation "I'm certain this isn't Sha Mei flame. It's a type of pill flame one that can't be upgraded. It's called Yu Stone fire."

Seeing that golden shirt cultivator was still about to rage the female cultivator sneered and got up "does the rules on board allow the exchange for fake goods? I'm also a guest of the upper grade seat. What right do you have to use a fake to trade with me? now that your fake has been exposed and you dare to be this cocky? Give me back my 12 lightning orbs and take away this shit flame."

The golden shirt cultivator was still about to say something and he heard an abstruse immortal cultivator say "I'll see if it's real or fake."

The black dressed female cultivator gave her flame over immediately "qian bei please have a look."

The abstruse immortal cultivator nodded and scanned his spirit sense in. moments later he gave the flame back to the female cultivator “this isn’t Sha Mei flame indeed. Good eyes little friend, this is Yu Stone fire.”

Hearing this, the black dressed female cultivator looked coldly at the golden shirt cultivator and said “now that it’s certain you used a fake to trade my for 12 lightning orbs. What else do you have to say? Give back my things and piss off.”

The golden shirt cultivator sneered but said calmly “is this your first day here? Do you not know the rules of the ship? As long as both parties agree, you can’t regret. The big manager even reminded you before the exchange and now you forget? You want me to hand out the 12 lightning orbs do you want to break the rules here?”

Hearing such shameless words, everyone was speechless. They’ve really never seen someone this shameless. Before being exposed he acted as though everyone had wrongly accused him. After being exposed, he didn’t show any guilt and instead pridefully used the rules of this immortal ship.

“vile animal.” The female cultivator was furious but there was nothing she could do about the golden shirt cultivator.

The golden shirt cultivator sneered again “you’re to blame yourself for not having enough knowledge. Don’t be a sore loser.”

Even that abstruse immortal couldn’t watch this anymore and scanned him coldly “you’re indeed very vile. I won’t participate exchange socials with people like you.”

“me neither.” Multiple cultivators conformed but most of them said nothing. Of course they wouldn’t trade with this cultivator but they wouldn’t say it. that would be offending him, who knows what background he had.

Golden immortal who could have top grade seat weren’t ordinary golden immortals. Otherwise they wouldn’t even be able to afford the ticket.

The golden shirt cultivator grunted and said no more while the black dressed female cultivator could only suck it up.

The golden shirt cultivator sat down and looked coldly at Ye Mo. Killing intent was pouring out of his eyes.

Everyone saw this and knew Ye Mo would be over after getting off the ship but now one was willing to help Ye Mo.

Even the black dressed female cultivator knew there was nothing she could do. she gave Ye Mo a jade card and said "this is for you. You might be able to use it in the future. Sorry, I brought this on you today."

"thanks, it's fine." Ye Mo was thinking about the golden shirt's lightning orbs not his revenge.

Because of this incident, many people were much more cautious and the quality of things traded were much lower.

After the exchange the manager didn't kick out Ye Mo but he looked at Ye Mo with extremely sinister eyes.

...

"pill master Ye you risked too much today. Everyone who could stay at the top deck are powerful. You offended that golden shirt..." Yi Teng said worriedly. Even he felt the golden shirt's killing intent. Ye Mo ruined his reputation, how could he let Ye Mo go?

Ye Mo smiled "perhaps this isn't a bad thing. When we get to the town you guys go first. That golden shirt cultivator probably won't let me go, he would come down to hunt me."

"then..." Yi Teng felt very bad there was nothing he could do.

Seeing Yi Teng was truly worried about him, Ye Mo said again “brother Yi, if you trust me then go back to the forest first. I would come there in at most a few months. I’ll pay you back that 500 immortal crystals.”

“pill master Ye I value immortal crystals but I don’t mind that 500, I’m worried about your safety...” Yi Teng shook his head.

Ye Mo waved his hand. He was only hollow immortal middle stage but he wasn’t afraid of that golden shirt.

Chapter 1542: Battle golden immortal

At this moment Yi Teng looked at the communication bead and smiled bitterly to Ye Mo “we’re not allowed to take the corner seats from now on anymore.”

“as long as pill master Ye can go to the black weed forest we won’t need to anymore.” Tong Zhu immediately said.

Ye Mo nodded “I’ll definitely go there don’t worry. Don’t mind me when we get off just go to the forest. If the golden shirt cultivator chases to Luan Jiao town I’ll shake him off.”

“that’s the only way I guess I stay at the Black Weed town on the outskirts of the forest.” Yi Teng sighed. He really wanted to help Ye Mo but he could only barely prevent Ye Mo from being kicked off the boat.

“I’m at the black weed town too but I’m at the back end of the town with the least immortal spirit chi.” Tong Zhu immediately said.

Yi Teng nodded “no wonder I’ve never seen you before. you can move to our side from now on. I’m on the west side of town the immortal spirit chi is much better.”

“thank you brother Yi Teng.” Tong Zhu thanked quickly.

"I'll go out first and find out the situation before coming back." Yi Teng got up and said.

...

Half a month passed quickly. Other than Yi Teng who went out once, Ye Mo and Tong Zhu never went out nor did anyone come for them.

With the blast of the horn, they have arrived at Luan Jiao town. The three immediately got out of the corner block and was ready to go out.

Ye Mo saw there were still a lot of cultivators in the corner blocks. Most of them got off at the town here, they might be heading to the Black Weed forest.

Ye Mo let Yi Teng and Tong Zhu go first while he walked out with the rest of the cultivators. He didn't need to scan with his spirit sense to know that the golden shirt cultivator was looking coldly at him and got off as well.

The black female cultivator saw Ye Mo leave and that golden shirt cultivator chase up, she sighed and went back into her room. she just reached golden immortal middle stage while that golden shirt cultivator was clearly stronger than her. He must've been in golden immortal middle stage for a long while. Plus, she knew her power, even if she chased up she wouldn't be able to help Ye Mo and might die herself.

The ship didn't stay here for long and just let off some passengers and picked up some before disappearing into the sky.

Ye Mo released Blue Moon and quickly left Luan Jiao town. As soon as he left he knew that golden shirt cultivator was following him but he didn't care. He was going faster and faster.

That golden shirt cultivator had a low grade immortal artefact too and was much faster than Blue Moon. If he wasn't waiting for Ye Mo to leave the range of the town he would've chased up to Ye Mo already.

Half a hour later, Ye Mo stopped at a mountain and immediately threw out tens of formation flags. They were hidden into the sky immediately. Ye Mo didn't dare to be careless in battles with golden immortal middle stage. He even let out shadowless and hid him in a formation flag.

At the same time, Ye Mo released his cultivation home magic artefact. A powerful mansion appeared in the wilderness.

Seeing this, the golden shirt cultivator stopped instead. He was confused why Ye Mo would set up a cultivation home here?

Feeling that the golden shirt cultivator stopped Ye Mo quickly used the time to set up formation. He threw out the mansion to make the golden shirt cultivator stop for a moment so he had enough time to set up formation.

In less than 6 minutes, Ye Mo didn't even finish his trap formation and the golden shirt cultivator didn't wait anymore. His dashing light appeared before Ye Mo.

"how did you appear here?" Ye Mo stared at the golden shirt cultivator as though he saw a ghost. There was worry in his eyes while he quickly put away his mansion magic artefact.

The golden shirt cultivator smiled "you tell me? of course I'm here to kill you, do you think I'm here to visit you?"

Hearing this he breathed easy instead. Ye Mo was flying out into the wilderness and he thought Ye Mo found him and led him here because he found help. Thus he was very careful. After seeing Ye Mo take out a cultivation home magic artefact not there was no signs of other cultivators he realized he was too careful.

"little kid you have some knowledge and you want to mind other's business die quickly and move on to the next life. wait, you won't even get a chance to do that." The golden immortal grabbed at Ye Mo.

"my knowledge isn't that good I have a Sha Mei flame and that's how I knew your flame was fake."

Then Ye Mo took out an orange flame.

“it’s really Sha Mei flame...” the golden shirt cultivator called out in shock. There was overjoy in his eyes, he grabbed at the Sha Mei flame without hesitation. He didn’t consider Ye Mo a threat at all.

Ye Mo sneered, he was waiting for this. he gathered almost all of his immortal essence and hacked out the instant the golden shirt cultivator touched the flame.

Illusion Cloud Hua Mountain strike.

Ever since converting his cultivation essence to immortal essence he had never used it at full power.

The purple ray hacked out with petrifying force. The scorching sword ray brought Ye Mo’s relentless killing intent.

The golden shirt cultivator felt this immediately. He didn’t expect a hollow immortal middle stage dared to do this to him. He snarled “do you want to die quickly?”

Then he grabbed at Zi Xu. How could he care about a hollow immortal middle stage like Ye Mo.

But the next moment, a extreme sense of danger came. He felt that the purple sword rays seemed to have a sliver of sword domain making his hand move slower.

The golden immortal frowned and gave up trying to grab Zi Xu. He was about to release his own but what shocked him greatly was that his figure and hand sign were slower than he imagined.

“this really is a sword domain.” the golden shirt cultivator didn’t dare to believe a mere hollow immortal middle stage would have the primal form of sword domain.

He knew it was too late to dodge so he burst out his immortal essence trying to grab Zi Xu.

Ye Mo sneered, even if you're an abstruse immortal you would lose your claws trying to grab his Zi Xu. A mere golden immortal middle stage dared to grab it.

Splurge.

The hand was hacked to pieces. The golden shirt cultivator stopped Zi Xu from cutting his body but he lost half an arm.

golden shirt cultivator retreated tens of meters back and looked dazedly at his broken arm before roaring in fury "if I don't light your soul on fire, I'm an animal.."

then he released a 9 star wheel. Despite being furious he knew that Ye Mo was no ordinary cultivator to be able to hack away his arm in one strike.

Ye Mo panted and threw out a few more formation flags. Then, he released octagonal cauldron.

He knew that although he took out the golden shirt cultivator's arm his actual battle power at most decreased by ten percent.

The 9 star wheel shone at a pale white light before completely looming over Ye Mo. The terrifying temperature ravaged under the wheel reminding Ye Mo of his Heaven Flame Nine Suns.

The wheel covered a hundred meter range around Ye Mo and Ye Mo immediately felt dizziness and slowed.

This white light not only released terrifying temperature but also could bind people and damage the soul.

Good magic artefact Ye Mo was shook. He didn't try to escape from it. he knew that the golden shirt cultivator would have a way to prevent him from doing that.

An ordinary cultivator would've melted already but Ye Mo was god state body refinement and had octagonal cauldron.

"hmm..." the golden shirt cultivator was shook seeing that Ye Mo didn't faint. He noticed Ye Mo's octagonal cauldron too. To him, Ye Mo was able to last this long completely due to octagonal cauldron.

Chapter 1543: Hard battle

The golden shirt cultivator wasn't worried. Ye Mo looked dizzy under the nine star wheel light as though not sure what to do.

If Ye Mo fell down he would bind Ye Mo immediately.

Ye Mo wanted to let shadowless attack many times but he stopped he felt it wasn't the best timing yet.

The golden shirt cultivator used the 9 star wheel with full power and Ye Mo immediately felt more terrifying heat. That hundred meter wide star wheel came crushing down at him.

Ye Mo sighed, facing this golden immortal cultivator he wouldn't even be able to counter attack if he didn't ambush him. Even if he let shadowless attack it would at most make him alert and not do anything.

This was him, if it was some other cultivator he would've been melted ages ago.

When the star wheel came crashing over, Ye Mo felt he was bound. He knew this was the binding of the nine star wheel.

Seeing Ye Mo was completely suppressed and couldn't even counter attack, the golden shirt cultivator sneered. It would be very hard even for a golden immortal to escape much less a hollow immortal.

He didn't worry that Ye Mo would escape at all. He was waiting for Ye Mo to escape with his essence spirit. Then he would immediately bind it and torture Ye Mo slowly.

If he didn't have the golden page world he could also break this space binding with spirit sense blades.

But Ye Mo made up his mind to kill this golden immortal cultivator. Since he had golden page world why not use it? the 9 star wheel was powerful but it wouldn't be able to stop him from going in the golden page world.

Rumble.

There was the terrifying sound of space being crushed. Ye Mo disappeared completely.

The golden shirt cultivator was looking for Ye Mo's essence spirit but suddenly his body went cold. He immediately knew he was ambushed.

The instant he was attacked by shadowless he tried to burst his immortal essence to kick shadowless out. He surrounded shadowless with immortal essence flame. Shadowless didn't even get a chance to continue the attack and could only take steps back.

How could Ye Mo let this golden shirt cultivator attack shadowless with full power. There was no way he was going to waste this opportunity.

The moment he came out of the golden page world, he attacked with full power while expanding his domain. even though he wouldn't be able to bind the golden immortal it would be good enough to slow him.

"not good." The golden immortal cultivator immediately knew that somehow this.

"not good." The golden immortal cultivator immediately knew how the hollow immortal escaped. It was a small world. it was a world more stable than small world.

The small world was precious but he didn't have time to think about it. he didn't dare to take the purple sword rays with his bare hands again. He forcefully took back the 9 star wheel and blocked it in front of him.

Crack.

There was an ear screeching sound.

Ye Mo's immortal essence was no weaker than an ordinary golden immortal and his spirit sense was more powerful than a golden immortal primary stage. This clash immediately took a toll of the golden immortal cultivator.

He spat a mouthful of blood and then a few more before stopping himself.

Before he could release the 9 star wheel again the endless purple sword rays loomed over. Only now did Ye Mo use his true sword art. Before he used sword technique. Countless purple sword rays were activated from Zi Xu.

Illusion Cloud division strike, Illusion Cloud formation kill strike.

Ye Mo knew that if he didn't use battle tactics he wouldn't be able to beat a cultivator this much stronger than him. Even if he won, this guy might get away.

That would be the worst thing to happen.

Endless sword rays surrounded him and the golden shirt cultivator was furious. He retreated while activating the 9 star wheel again.

Rumble.

Four thick black lightning struck down on the head of the golden shirt cultivator. He didn't notice this and his hair was burnt.

Ye Mo hacked out with Zi Xu again. His lightning sword and purple sword rays never stopped attacking. Ye Mo breathed a little easier seeing that this golden shirt cultivator wasn't able to counter attack for now.

He knew that what he was using now wasn't enough to kill this golden immortal middle stage but Ye Mo wasn't worried. He didn't order shadowless to attack. He controlled the battle now.

"insect, I'm going to eat you." The golden shirt cultivator fuming being suppressed by a hollow immortal.

Despite so, he wasn't worried he would lose. If he avoided this round of attack and took a breath this hollow immortal wouldn't be able to escape.

Suddenly, he noticed something wasn't right. The path he was retreating wasn't the way he wanted to go. He was being attacked in the weak spot and ushered over that way.

His battle experience was very ample and there were countless golden immortal cultivators who died in his hands.

He knew Ye Mo's cunning and he didn't believe Ye Mo would be so nice to use less sword ray and lightning arcs in the direction he was retreating.

Realizing this, the golden shirt cultivator was going to risk getting injured to counter attack but at this moment, a faint almost unseen sword ray hacked over.

Before it arrived there was a cold and sharp killing intent.

Of course he recognised this strike, it was the strike that took off his arm. Even though he was furious he had to use the 9 star wheel to block it in front of him again.

Crack

A huge explosion sounded. The golden shirt cultivator spat another mouthful of blood and retreated back 40 meters. This time, Ye Mo didn't have it well either. Powerful immortal essence back lashed from Zi Xu making him spit blood and fall back.

Ye Mo forcefully burned his essence blood and stopped his momentum while throwing out a few formation flags.

The reason he used such a cost to stop was to seal the golden shirt cultivator in his temporary formation.

Clearly this golden shirt cultivator was extremely experienced. he immediately knew things weren't good when Ye Mo spat blood to set up formation flag.

He didn't expect Ye Mo was an immortal formation master. He finally realized why Ye Mo wasted time before. it was to set up formation flag and ones that were stealthed.

Realizing his situation, the golden shirt cultivator calmed down but he didn't hesitate at all. The nine star wheel was activated to the most powerful offensive form and smashed at Ye Mo's trap formation.

The trap formation wasn't set up completely but it was enough for Ye Mo. He released his main formation flag and entered the formation launching the final attack on this golden shirt cultivator.

When Ye Mo entered the formation to attack, the golden shirt cultivator wouldnt be able to attack his trap formation and could only use his wheel to fight with Ye Mo.

Purple chi emanated and white light flashed in the formation. Rays of star wheel death ray enveloped Ye Mo. If it was outside Ye Mo would've been heavily injured already but both of them were inside the trap formation.

Even if Ye Mo didn't block the death rays the trap formation would block it. as Ye Mo threw down more formation flags, there were more sword chi in the trap formation. Although they weren't lethal it could let Ye Mo gain the upper hand gradually.

If things persisted this golden immortal would be killed by hollow immortal middle stage Ye Mo.

Chapter 1544: Quick money

“stop I have something to tell you it’s definitely beneficial to you. I found the remains of an immortal king, I’m willing to give it to you...” the golden shirt cultivator was covered in blood. He also knew that if they kept fighting he would be killed for sure.

Thinking about how he was an unrivaled golden immortal in his class and yet he was being suppressed by an insect hollow immortal middle stage and needed to beg for mercy he was furious. He really wanted to crush Ye Mo with immortal essence giant hand but he knew he couldn’t do it.

He had no choice but to tell Ye Mo to stop. Just when he was going to get specific, he saw that Ye Mo’s attack really slowed down. This made him breath easy. Luckily this hollow immortal was too young and really thought there was some immortal king remains.

He slowed down the 9 star wheel and wanted to release a ruin but he felt his meridians slow again.

Not good, the golden shirt cultivator immediately knew that Ye Mo didn’t really stop. Before he could force out shadowless, Zi Xu hacked over with full power.

At this moment Ye Mo gathered almost all of his immortal essence and hacked down.

Illusion Cloud domain kill strike.

The moment the golden shirt cultivator forced out shadowless, the sword chi sliced down from his head. There was a sliver of despair in his eyes. He still could dodge this strike but he used up too much immortal essence and there was domain binding from this strike.

He just doged half an inch and was sliced down. Blood splashed everywhere and the blood soon was melted by the scorching heat and turned into blood vapour.

He died to a hollow immortal insect. the golden shirt cultivator was unsatisfied and wanted to run away with essence spirit but shadowless had been waiting for a long while. It darted up and ate the essence spirit and immediately flew back to Ye Mo.

Ye Mo knew this guy was about to go to sleep again so he sent him into the golden page world.

At this moment, Ye Mo finally breathed easy. Looking at the corpse of the golden shirt cultivator, he reflected on the battle.

This was his first time fighting with golden immortal cultivator. He was certain the golden shirt cultivator was no ordinary golden immortal. His battle experience was rich and he was powerful.

If he wasn't god state body refinement, even if he ambushed successfully he would've been killed by the white light at the start.

Ye Mo picked up the 9 star wheel and the golden shirt cultivator's storage ring. He was very happy. This 9 star wheel was a good thing, it was just a low grade immortal artefact but it seemed to be on par with middle grade immortal artefact. That terrifying white light was like the Heaven Flame Nine Suns. Heaven Flame Nine Suns needed spirit sense and although this magic artefact needed spirit sense too, it was much less taxing.

After burning everything away, Ye Mo put away his stealth formation flag and released before disappearing from here quickly.

He didn't go back to the Luan Jiao town, only an idiot would go back there and take the immortal ship to black weed forest.

Who didn't see the golden shirt cultivator chasing out to kill him. Plus who knows what background this cultivator had?

He killed Tian Aofeng at the Heartless Sea and thus caused the huge trouble. This made Ye Mo wary. He could kill but he needed to clean up the mess.

Now Ye Mo was heavily injured too so he needed to find a place to recovery.

A day later, Ye Mo stopped at the foot of an ordinary mountain. He went into the earth and then into the golden page world and immediately began recovery.

He had a lot of pills and was god state body refinement. With the Three Birth Chant, he had mostly recovered in a little over half a day.

He burned his set of clothes and changed into a new set before feeling assured.

The first thing he was going to do was check the golden shirt cultivator's storage ring. The restrictions on it was no problem was Ye Mo.

After breaking it, Ye Mo tipped everything inside the golden page world. he finally realised what was truly wealthy.

When he killed that powerful Yan ZHuo he only got some ordinary pills and about 400 top grade immortal crystals as well as that flying magic artefact.

the golden shirt cultivator's storage ring made Ye Mo feel that robbery was the way to get rich quick.

There was 300k top grade immortal crystals, not a single low grade immortal crystals. There were about 100k md immortal crystals. When reaching golden immortal level, the use of low grade immortal crystals were very minimal. Of course, ordinary golden immortals would still use low grade immortal crystals to cultivate.

Other than immortal crystals, there were level two immortal pills. Of course Ye Mo was happiest about the 12 lightning orbs.

The only thing he didn't get was that this cultivator clearly wasn't lightning element, so why did he want the 12 lightning sea magical orbs.

Regardless Ye Mo didn't bother thinking anymore.

As for the 9 star wheel, Ye Mo didn't want to use it as his own magic artefact but it was very powerful. He would still spirit control it just in case he needed it.

Other than all this Ye Mo got two blue wind rocks. They were wind element immortal grade level two materials. They were suitable for forging flying magic artefact. Ye Mo could add it to Blue Moon.

His flying magic artefact was already falling behind. Even now, it was still just beyond half immortal artefact. If he brought Blue Moon to low grade immortal artefact he would be able to reach black weed forest in a short time.

He still had two low grade flying immortal artefact but he didn't dare to use both of them. Plus he didn't like them, Blue Moon had been with him the longest and he had some feelings attached to it.

Plus Blue Moon was the magic artefact he made, it was easier to control for him.

The two blue wind rocks didn't disappoint Ye Mo and his forgery means didn't disappoint him neither. After a few days of work he forcefully fused the rocks into Blue Moon bringing Blue Moon to low grade immortal artefact. This meant that he had successfully become a level one immortal forgery master.

...

Two months later.

An ordinary hollow immortal came to the Black Weed town. He didn't have any armor on him and just walked inside empty handed.

This was Ye Mo. Originally he would need 4 months to get here but now he only used two.

The black weed town was huge and not that much smaller than ordinary immortal cities. However because there was no spirit gathering formation nor immortal spirit range, it was a town and not a city.

There was no spirit sense barrier formation so Ye Mo could scan everything with his spirit sense. most cultivator residence had a simple spirit sense barrier formation.

He scanned here to find Yi Teng and Tong Zhu. However, Ye Mo scanned where Yi Teng said he would be living and there was no one there. He broke in the formation with his spirit sense blades and there were a few cultivators there but not Yi Teng.

Ye Mo knew that by the immortal ship he would be here in at most half a month's time. It had been two months now, they were definitely back. Perhaps they went inside the forest.

Ye Mo came to where Tong Zhu stayed before.

The immortal spirit chi here was very deprived. Ye Mo only knew the approximate location. He stopped a hollow immortal middle stage cultivator.

"may I ask if Tong Zhu lives here?" Ye Mo asked politely.

That cultivator looked at Ye Mo in confusion before pointing even further away at a yard and left.

Chapter 1545: Tong Zhu's sister in law

Ye Mo looked at the direction this hollow immortal pointed in confusion. there was just a solitary yard with formation. The defense formation was a mere level eight spirit formation. It was worse than the defense formation of some sects in the cultivation realm.

Ye Mo's spirit sense easily scanned inside. There was a female cultivator inside, hollow immortal middle stage power. Her face was very pale, a sickly pale. Clearly she was injured. What made Ye Mo feel strange was that although her expression seemed very serious, there was this indescribably seduction emanating from her bone making people want to get close to her.

Such a strange feeling. Ye Mo frowned, his Three Birth Chant was constantly running and that feeling just flashed away. he didn't know if other cultivators who saw her would have a similar feeling.

Ye Mo walked to the door and sent a message through the restriction. After a while, the restriction was opened and a female cultivator with a covered face stood at the door looking at Ye Mo in confusion.

Seeing this, Ye Mo knew that the seduction wasn't something she could control.

"who are you?" she stared at Ye Mo, her voice was a little coarse but was rather soft.

"I'm Tong Zhu's friend. I came to find Tong Zhu may I ask if she's here?" Ye Mo immediately said.

Hearing this she responded after a while "Tong Zhu's friend? What's your name?"

"I'm Ye Mo..."

The female cultivator immediately said in surprise and joy "oh it's pill master Ye qian bei please come in, I'm Tong Zhu's sister in law."

Then the female cultivator quickly let Ye Mo in and set up the restriction again.

"you're Tong Zhu's sister in law?" Ye Mo asked.

"yes, qian bei, wna bei is Tong Zhu's sister in law Jiang Jin. Wan bei heard Zhu talk about qian bei. Qian bei concocted many pills for free for Zhu." The female cultivator bowed to Ye Mo.

Ye Mo waved his hand "you're injured?"

"yes." Jiang Jin's eyes dimmed down and added "due to wan bei's body I can only cover my face."

Ye Mo smiled "it's fine even if you take it off it wouldn't affect me."

“huh...” Jiang Jin dazed. She knew she was a natural seduction body and ever since she got injured she wasn’t able to control the immortal essence in her body. This resulted her seduction fully shown making people think she was very horny but she knew she wasn’t this sort of person. Pity, she couldn’t control it.

Ye Mo just reminded but he didn’t mind if Jiang Jin would listen to him. He took out a pill and gave it to her “eat this pill and tell me where Tong Zhu went.”

“she went to black weed forest with brother Yi...” Jiang Jin suddenly stopped as she stared at the pill in shock “Clear Lin pill? level two immortal pill?”

This was the pill Ye Mo got from the golden shirt cultivator. This was extremely good recovery pill for heaven immortals. It was useful for most injuries and thus was very expensive. A middle grade one would cost a few thousand top grade immortal crystals.

“I can’t eat this pill, it’s too expensive...” jiang Jin pushed the pill back in Ye Mo’s hands shakily.

Ye Mo waved his hand “I’m an immortal pill master, this pill is nothing. Heal your injuries first and tell me where Tong Zhu went.”

Jiang Jin just remembered that Tong Zhu seemed to have told her that Ye Mo was a level three immortal pill master. a mere Clear Lin pill was nothing to a level three immortal pill master indeed.

Jiang Jin then ate the pill. the pill immediately turned into recovery immortal spirit liquid that flowed through her body. In a short time, she felt her internal injuries going.

She had never consumed a level two immortal pill and thus it was very potent.

She took off the black veil on her face and was very grateful.

Ye Mo found in shock that the seduction from her body went away with the recovery of her injuries. Such body was too strange, there really was indeed anything in the vastness of the immortal realm.

Before Ye Mo asked, Jiang Jin said “when brother Yi and Zhu came back, brother Yi let us move to the town west.”

Ye Mo nodded. Hearing her tone they really did move over. In that case why did they come back? The immortal spirit chi here was so deprived. It was hard to progress even with pills.

Jiang Jin sighed “originally we moved over there and cultivation was much better. But soon, something happened to brother Yi.”

Ye Mo frowned “what is the problem?”

“brother Yi went to the Chun Kou station not only for his own pill concoction but others. On top of that he had nearly 5000 top grade immortal crystals. These weren’t his, they were gathered by many cultivators of black weed town asking him to buy things at the town.”

Jiang Jin looked worriedly at Ye Mo “then I heard Zhu tell me that you offended a powerful figure about the ship. In order for you to stay on the ship, brother Yi took out 3000 top grade immortal crystals to a small manager and paid some pills. When brother Yi came back he couldn’t hand back the immortal crystals nor the things. Even the pills weren’t incomplete. He was surrounded and we three were injured. Brother Yi not only lost his magic artefact but was kicked out of town west.”

Hearing this, Ye Mo’s face sunk. He said heavily “did Yi Teng not say that I would pay them back in a few months?”

Jiang Jin answered “brother Yi said it but no one was willing to believe him. They all said he took the immortal crystals and immortal spirit herb for himself.

Ye Mo didn’t expect Yi Teng was this nice. Not only did he pay for his ticket but also bribed the ship manager. No wonder Yi Teng went out that day, he was bribing the small manager. Otherwise, he might be kicked off the ship before landing.

“all of brother Yi’s things were taken over and he had nowhere to go. He could only move over here. But there’s a lot of people spreading rumors here. Many people who didn’t know the truth looked down on

brother Yi. His wounds didn't recover and he went to the forest to look for cultivation resource. Because no one was willing to group with brother Yi, Zhu went despite being injured." Jiang Jin sighed.

Ye Mo knew that Jiang Jin didn't go because her body was special. If her seduction showed and people saw, only a tragic fate awaited her.

No wonder when he asked where Tong Zhu was people looked contemptuous.

Thinking about this, Ye Mo asked Jiang Jin "I'm going to the black weed forest are you coming?"

Jiang Jin said without hesitation "of course, it's always been me who went with Zhu to the forest. If we don't go very deep there won't be much danger."

Ye Mo wanted to take her as he had never been in the forest.

Cultivators nearby gave them weird looks when they came out but Ye Mo didn't care.

This place was where the bottom of the cultivators stayed. Their powers couldn't progress for many years so other than talking about drama they had nothing else to do.

Jiang Jin seemed to care even less and calmly told Ye Mo about the black weed town and the forest.

"pill master Ye qian bei, should we go by flying magic artefact or fly over?" Jiang Jin asked.

Seeing Ye Mo was confused she quickly explained "there's some way to the forest. If we take the flying ship of the town it takes a bit more than a day. The flying ship is low grade immortal artefact."

"no need I have my own." Ye Mo said.

Chapter 1546: My sword isn't bad too

There was a lot of cultivators outside Black Weed town. After Ye Mo released Blue Moon people saw it immediately. When they saw that a hollow immortal middle stage cultivator had a low grade flying immortal artefact, they all showed glances of envy.

Ye Mo knew that robbing and murdering was everywhere. No one was willing to give the opportunity of pursuing dao to someone else. For cultivation, many cultivators had no bottom line. Now that he released Blue Moon and many people saw it was hard to guarantee people wouldn't have any bad intentions.

But Ye Mo didn't mind. If he was hollow immortal primary stage and hadn't converted his cultivation essence yet he might use extreme grade cultivation artefact but now he was hollow immortal middle stage. He had even killed golden immortal.

Even if a hollow immortal cultivator had any bad intentions he could casually kill him. Even if an abstruse immortal cultivator saw Blue Moon he wouldn't think much, which abstruse immortal didn't have low grade flying immortal artefact?

With enough power he didn't need to keep a low profile.

Plus he was planning to cultivate to hollow immortal peak stage or even golden immortal before leaving here. His flying magic artefact would be exposed sooner or later.

Seeing this there was surprise and joy in Jiang Jin's eyes but then she looked worriedly at Ye Mo "pill master Ye qian bei, taking out low grade immortal artefact here, I'm afraid..."

Ye Mo smiled "got on first. Just call me pill master Ye like brother Yi I'm not a qian bei."

"yes..." Jiang Jin hesitated for a moment before getting on the Blue Moon. She thought of what Yi Teng said. A golden immortal cultivator went to hunt pill master Ye but pill master Ye was still here. Didn't that mean he could get away from golden immortal? Then that would mean pill master Ye should be able to get away from people who caught them.

When Blue Moon picked up speed, Jiang Jin found that it was even faster than the Black Weed town immortal ship. In just a day, the two had arrived outside the Black Weed forest.

Ye Mo got off Blue Moon, what entered his eyes was a loosely scattered brush. Some squads who just came out of the forest saw the two and was a little confused. Usually, squads were made up of four to five people. Two people squads were very rare.

“when I came in with Zhu there were often people looking at us like this but we’re always on the outskirts. We never go in.” Jiang Jin explained.

Ye Mo scanned his spirit sense in and found that the outskirts were indeed very wide. Even his spirit sense couldn’t scan to the end. There were quite some cultivators at the outskirts too. He could see about a few hundred cultivators within his spirit sense. with this many cultivators searching at the outskirts, it would be strange if they could find any immortal spirit herb. no wonder Tong Zhu said they would only go for pill concoction every few years.

Cultivation was indeed not easy, there were countless cultivators but which few can break through and reach the peak? If he didn’t have the golden page world, would he be able to reach where he is now? perhaps he would still be in the cultivation realm.

“I’m afraid they went into the depth of the forest.” Jiang Jin said worriedly.

Ye Mo nodded “in this case lets go in.”

Ye Mo activated Blue Moon darting into the depth of the forest in a blue light.

“pill master Ye be careful there are a lot of immortal beasts here. There’s not many at the outskirts but there are some powerful ones...”

Before Jiang Jin finished, Zi Xu brought up a purple ray and a level 11 Xi Eagle was sliced to pieces. Blue Moon once again sped off.

Jiang Jin looked at Ye Mo in shock, Xi Eagle was extremely fast and it's because of that it was able to keep up after Ye Mo slowed Blue Moon down. However Ye Mo casually killed it with one strike.

Even she needed some time to kill one. This Ye Mo seemed to have the same cultivation level as her but he acted so swiftly. Only now did she realized that this pill master Ye seemed to be truly powerful.

As Blue Moon went deeper, the brushes got denser and the terrain became more complicated. Two days later Jiang Jin pointed at an extremely thick region of trees and said, that forest is the depth of the forest. I've never been there so I don't know where they went."

Ye Mo got off Blue Moon. Even though he was confident he didn't dare to fly however he wanted in the depth of the black weed forest.

"wait pill master Ye. I know someone who just came out. I'll ask them if they had seen Zhu." Jiang Jin pointed at a few people and said.

Before they went over the four cultivators saw the two and stopped. Ye Mo noticed that one was hollow immortal peak stage and three were hollow immortal tertiary stage.

"brother He..." Jiang Jin bowed to the leading cultivator.

"it's you? Jiang Jin why would you come here. It's the depth of the forest beyond here." The cultivator looked at Jiang Jin in confusion and asked.

Jiang Jin quickly said "brother He I came here to find my sister Tong Zhu, did you see her?"

The He cultivator shook his head "she should be hollow immortal middle stage, how can she go into the depth?"

Then as though thinking of something he smiled to the three cultivators next to him "brother Chen, Jiang Jin is my friend, let's not today."

The hollow immortal peak stage cultivator said calmly "He Xugu I never said I was going to do anything."

Jiang Jin realized something was wrong too. Other than the cultivator she knew the other three seemingly blocked off their exit. She looked worriedly at He cultivator and said "brother He we'll be going first."

'of course you can but your flying magic artefact is good." The Chen man said.

The He cultivator had a bad face but didn't dare to say anything.

This Chen guy was asking to die. His squad's Chen cultivator knew Jiang Jin yet he still wanted to rob them. Ye Mo wasn't going to show mercy for such person.

"my sword is not bad too." Ye Mo took out Zi Xu and said.

Seeing Ye Mo take out another low grade immortal artefact, there was light in the Chen man's eyes "indeed it's good, give it to me."

He walked up as he spoke and released a low grade immortal artefact but before he could activate Ye Mo hacked over with Zi Xu.

"you're asking to die..."

This his peak stage didn't expect the hollow immortal middle stage Ye Mo dared to attack first.

Seeing this Jiang Jin's face changed. Just when she wanted to talk the Chen cultivator's face also changed. There was extreme shock in his eyes.

His eyes went red as though crazily inserting his immortal essence into his magic artefact.

Yet no matter how he tried he was a far cry from Ye Mo. Illusion Cloud domain kill strike.

Crack.

The blue sword hadn't fully activated yet and the sword chi was split apart.

"stop, I'm sorry."

The Chen cultivator saw that his blue sword couldn't even stop the sword chi from Ye Mo.

But Ye Mo didn't have any intentions of showing mercy. A door sized purple ray hacked apart the hollow immortal cultivator's body. Blood mist sprayed.

One move, and this hollow immortal was killed.

Ye Mo picked up the blue sword and the storage ring before looking at the other two and said "do you guys think my flying immortal artefact is very good?"

The other two dazed and quickly waved their hands "no, no, qian bei, we don't, we never said that."

"then piss off." Ye Mo yelled and the two hollow immortal tertiary stage ran off.

The He cultivator reacted and shakily saluted with his fists to Ye Mo "qian bei, wan beiw ill be going too."

Then he didn't even dare to wait for Ye Mo's response and quickly left with the other two.

Chapter 1547: Tao Wu valley

Jiang Jin reacted now and looked at Ye Mo in disbelief. She had seen many fights here but she had never seen a hollow immortal middle stage could instantly kill a hollow immortal peak stage cultivator.

She thought of that golden immortal who hunted pill master Ye, was he killed too? This was completely possible because even a golden immortal wouldn't be able to kill hollow immortal peak stage so effortlessly like pill master Ye.

Ye Mo gave the low grade immortal artefact blue sword to Jiang Jin "you can use this."

"this, this..." Jiang Jin took it and hesitated before giving it back "pill master Ye I can't take it, it's too valuable."

Ye Mo waved his hand "I have plenty of these it's pointless to me."

Ye Mo was telling the truth, he had seven or eight low grade immortal artefact in his storage ring. He was a level one forgery master too now. if he had good materials he could make low grade immortal artefact whenever he wanted.

Her original magic artefact was only a half immortal artefact.

Jiang Jin knew Ye Mo was being genuine. With Ye Mo's power and how he killed a golden immortal how could he care about an ordinary low grade immortal artefact. Thinking about this, she took it.

...

After entering the depth for a while, Jiang Jin wasn't as worried as before. they should be fine with Ye Mo's power.

The two walked for another two days and encountered some level one immortal beast but they were all easily killed by Ye Mo.

Three days later Ye Mo had decided to change a direction. He believed with Yi Teng's power they wouldn't be able to go deeper. At this moment Jiang Jin received a message. She looked at her communication bead and immediately said to Ye Mo in surprise and joy "Zhu messaged me. she told us to go back immediately, they would come out quickly."

Ye Mo frowned, since they were here why go back immediately.

“ask them where they are now.” Ye Mo said.

Before Jiang Jin could talk a dashing light came charging over, it seemed to be an injured hollow immortal tertiary stage cultivator.

Ye Mo stopped him without hesitation. Seeing this, the hollow immortal smashed his magic artefact over at Ye Mo while Ye Mo released Zi Xu.

Crack, the magic artefact was sliced in half. The next moment, Ye Mo’s sword ray had trapped this hollow immortal cultivator. If Ye Mo didn’t show mercy this cultivator would’ve been killed already.

“qian bei have mercy...” the cultivator begged.

“it’s you?” Jiang Jin called out in shock.

Ye Mo looked at her “you know this person?”

Jiang Jin nodded “yes he lived with brother Yi. When brother Yi was forced out he was a part of it but he didn’t attack.”

“so it’s a heartless guy.” Ye Mo sneered and was about to kill him.

“qian bei don’t attack I didn’t do anything to brother Yi, brother Yi is in danger right now. he’s in the Tao Wu valley 30000 km north from here.” The hollow immortal spoke rapidly. He didn’t understand how Ye Mo was this powerful when he was only hollow immortal middle stage.

“Tao Wu valley?” Ye Mo repeated.

"I know Tao Wu valley, it's an abandoned ancient ruin sit in the black weed forest. It's said to be Ao Hen's previous cultivation home. Ao Hen is a descendant of the 11 top heaven domain's Teng Sheng Heaven lord. He committed a great sin in Teng Sheng heaven so he was cast out of the top 11 heaven domains and came here." Jiang Jin said.

Ye Mo nodded and looked at this hollow immortal cultivator and asked "why are you running?"

The cultivator gritted his teeth and said "because I killed someone from the Black Weed town Feng Shi merchant association so I must leave her eimy. And the Feng Shi merchant association people are going to kill Yi Teng. If you're Yi Teng's friend we have a common enemy."

"piss off." Ye Mo didn't have the mood to ask anything else and released Blue Moon darting towards the Tao Wu valley. He believed that hollow immortal didn't lie. He needed to go see how Yi Teng was.

Seeing this the hollow immortal wiped the sweat from his forehead and murmured "since when did Yi Teng have such a powerful friend?"

...

30000km was a short distance for Blue Moon.

Tao Wu valley was a large area of rocks. There was not a single grass within a few thousand km range.

Ye Mo's spirit sense soon scanned into a broken stealth restriction. This restriction broke itself after existing for so long. Even so ordinary people wouldn't be able to see it. Ye Mo was an immortal formation master so he could immediately see it.

There were many foot prints outside the restriction. Ye Mo and Jiang Jin soon entered the restriction and were dazed when they saw the scene inside.

This was a small valley and it was lush green everywhere but they were trampled in some places.

Nearly a hundred cultivators were searching for something in this messy valley and at the entrance to the restriction there were four people guarding something. There were more than ten bodies not far ahead of them and they didn't seem to have died long ago.

Ye Mo and Jiang Jin immediately saw Yi Teng and Tong Zhu not at the border of the hill. They weren't searching for immortal spirit herb like the others but stood with a grim face.

Everyone saw Ye Mo and Jiang Jin enter here. The cultivator at the door was golden immortal primary stage and frowned after seeing Ye Mo.

"pill master Ye how are you here?" Yi Teng said.

"what happened to you?" Ye Mo frowned seeing Yi Teng was covered in wounds.

"haha there's two more of yous here what else can you say?" a hollow immortal tertiary stage scorned at Yi Teng.

Yi Teng's face was pale "the two just came from outside and touched nothing what does this have to do with them?"

The cultivator said in content "they have nothing to do with this but if you have balls try walking out without handing it over."

"you..." Yi Teng was furious and Tong Zhu quickly pulled him before waving to Ye Mo.

Ye Mo asked heavily "brother Yi what's going on?"

"pill master Ye let's talk on the side." Tong Zhu added.

Yi Teng nodded the four left the entrance of the restriction and walked to the side. The cultivators guarding just sneered and didn't stop them.

After coming to a far corner, Yi Teng stopped and sighed “pill master Ye I brought this trouble on you today. The four cultivators guarding the entrance is from the Feng Shi merchant association. They said they found this place and all cultivators here need to hand a part of the immortal spirit herb they find here. I was the first to object so they not only want us to hand over our immortal spirit herb but also wants to check our storage ring.”

“they’re this nice? They found this place and notified other cultivators?” Ye Mo asked in confusion.

“they didn’t find it, a level one immortal formation master was the first to point it out. He found a broken restriction and before he could go in, a cultivator of the Feng Shi merchant association went in first. So they say they found it first and all cultivators need to hand up a part of the immortal spirit herb they find. The Feng Shi merchant association is too powerful and many cultivators didn’t want to have conflict with them so they did it and left.” Tong Zhu quickly said.

Yi Teng said heavily “I’m afraid that even if he hand it over we can’t go out. Some cultivators went out but they were clearly being followed by them.”

Yi Teng then pointed at the cultivators on the hill “the immortal spirit herbs had all been collected and these people stayed here just to wait for a chaotic time to leave. No one wants to hand over the high level immortal spirit herb they found to them for free but no one dares to lead. They don’t dare to fight. The Feng Shi merchant association is waiting for back up too.”

“high level immortal spirit herb?” Ye Mo asked.

Yi Teng nodded “yes people found level four immortal spirit herb here and I heard them say that this valley was Ao Heng’s cultivation home before.”

Chapter 1548: Kill

Ye Mo subconsciously looked at the trampled hill and his heart went on fire. Just how many immortal spirit herb would be at such large area? If he get this large amount of immortal spirit herb he would soon be able to reach immortal pill great master.

An immortal pill great master would have countless cultivation realm anywhere. That blue dressed status immortal said his greatest achievement would be golden immortal. This made Ye Mo very contemptuous. Ye Mo never thought he would stop at golden immortal. Even if she was immortal king power that wasn't his final target.

"you've handed over part of your immortal spirit herb?" Ye Mo immediately asked.

Yi Teng shook his head "no, all of it. we gave everything we had and yet they still want to check our storage ring."

Jiang Jin asked in confusion "brother Yi since you and Zhu gave the immortal spirit herb already why do they still want you to hand over storage ring? Plus without the immortal spirit herb it's fine to let them check the storage ring..."

Yi Teng looked carefully at the guards and whispered "because I got Ao Heng qian bei's heritage, so I can't hand over my storage ring..."

"huh...." Jiang Jin was shook and immediately covered her mouth.

Yi Teng sighed, when he said this he was already planning to hand it over. Otherwise he wouldn't want to admit it even in front of Ye Mo and them. There was a golden immortal and more than ten hollow immortal tertiary stage here.

Thinking about golden immortal, Yi Teng immediately thought of the golden shirt who hunted Ye Mo and immediately asked "pill master Ye at the Luan Jiao town..."

Ye Mo waved his hand "that thing is over, since there's no more immortal spirit herb here let's go out first."

Yi Teng sighed "I guess we can only do that I'll give the storage ring to them."

Ye Mo smiled "no need keep Ao Heng's heritage. As for immortal spirit herb I'll get it back from them."

“pill master Ye...” Yi Teng looked at Ye Mo with uncertainty.

Tong Zhu also added “pill master Ye the Feng Shi merchant association has more than ten cultivators here and one of them is a golden immortal master. I heard that including the association leader the merchant association has three golden immortal master.”

“Zhu listen to pill master Ye, we’ll do what he tells us to do.” Jiang Jin knew of Ye Mo’s power.

Yi teng and Tong Zhu looked at Jiang Jin and nodded. Yi Teng didn’t know what way Ye Mo was going to use but since he said this he definitely had his way.

Seeing the four discuss for a long while and all walked towards the entrance of the restriction, the four guards sneered. Did they think they could run from here?

Even the other cultivators looked over. Most of them were living at the black weed town, no one wanted trouble with the Feng Shi merchant association.

“sigh pity, I found two golden tongue flower. Pill master Ye could’ve made two cauldrons of golden will pills for us.” Tong Zhu sighed.

“golden tongue flower?” Ye Mo was overjoyed and immediately asked. It was a level two immortal spirit herb used to make golden will pill. this pill allowed hollow immortal to break through to golden immortal. He had a lot of cultivation resources now, if he went into solitary cultivation he would soon be able to reach hollow immortal peak stage. Then, he would need the golden will pill.

Yi Teng sighed “yes because I found that and I desperately wanted to leave here I was the first to disagree. Otherwise, I would be watching the show like other cultivators and still keep my things, sigh...”

Ye Mo smiled “don’t worry, it’s all still here.”

“have you made up your minds, don’t play any tricks. If we find anything less in your storage ring you’re asking to die.” One hollow immortal sneered.

"I'm afraid that no matter if we give everything or not you would still say we hid something and kill us right?" Ye Mo answered in contempt.

"hurry up and hand the storage ring over." One hollow immortal tertiary stage snarled. There was nearly 100 cultivators here even if they want to kill Yi Teng they needed a good excuse.

"here..." Ye Mo said and hacked out with Zi Xu.

This hollow immortal tertiary stage didn't expect Ye Mo dared to kill him. Before his snarl even faded he was hacked open by the sword chi.

Ye Mo picked up the storage ring and twisted with sword chi. That terrified essence spirit didn't even get a chance to run away.

Even after that the body still didn't fall.

Ye Mo's sudden actions dazed the cultivators here. They had never seen a cultivator ferocious enough to kill people from the Feng Shi merchant association. He didn't even explain anything and just attacked without hesitation.

Yi Teng dazed. If he knew this was Ye Mo's method, he would rather hadn the storage ring. Ye Mo was a hollow immortal middle stage, he ambushed a hollow immortal tertiary stage but there was still a golden immortal.

"die..." the Golden immortal was furious that people dared to challenge the overlord.

A milky white figure with icy mist was released.

Ice soul spear, low grade immortal artefact. The temperature here rapidly dropped before it was fully activated.

Yi Teng and them quickly retreated, this terrifying frigidness expanded but they were too slow and shivered in the cold.

The onlooking hollow immortal cultivators were more scared. They were thinking that if it wasn't for the Feng Shi merchant association's name even a golden immortal wouldn't be able to stop this many cultivators but now they realized they were wrong. If this coldness fully expanded ordinary hollow immortal cultivators wouldn't even be able to counter attack.

At this moment, the icy mist formed an ocean of ice. As the spear moved there was screeching sounds.

Ordinary cultivators wouldn't even be able to retreat now. this icy mist was hard and anyone who was surrounded by it wouldn't be able to move. This wasn't domain but it was like one.

Ye Mo knew this golden immortal primary stage's ice soul spear was powerful but he was a far cry from the golden shirt golden immortal.

Ye Mo immediately released Heaven Flame Nine Suns.

Because Ye Mo released Heaven Flame Nine Suns slower, he was surrounded by the icy mist first. However, two purple fire balls still aros above them.

The purple rays shone down and the icy mist melted rapidly. As the purple grew in heat there was boiling sounds in the icy mist.

Yi Teng and them used this opportunity to get as far away as possible.

Ye Mo instantly broke free and his Zi Xu didn't stop for a bit.

There was shock in the eyes of the golden immortal primary stage when he saw Ye Mo use Heaven Flame Nine Suns and inserted even more immortal essence into the ice soul spear.

He didn't expect this hollow immortal middle stage cultivator to be this troublesome.

Chapter 1549: Slay golden immortal again

He had never seen such an absurd hollow immortal middle stage cultivator. Those two fire balls in the air seemed like two suns making his level three frost chi disappear. This was unimaginable.

Crack.

Zi Xu and ice soul spear didn't even clash together yet and the frost spikes formed a dense net looming out at Ye Mo.

Ye Mo's face was calm, Zi Xu also released countless purple sword rays. The sword rays seemed to be alive and stopped the frosty spikes.

Illusion Cloud exert will strike.

Crack.

Some sword rays were pulverized but some spikes were shattered.

Finally Zi Xu and the spear clashed together cracking the air nearby.

A powerful immortal essence power shot Ye Mo back but Ye Mo didn't stop. While he was flying back he released Zi Xu again.

Illusion Cloud domain kill strike.

Endless sharp purple killing chi and Ye Mo's powerful immortal essence and spirit sense formed multiple hundred meter long and door width sized sword rays. They loomed over the two hollow immortal cultivators of the Feng Shi merchant association who retreated to the side.

Before they could react why a hollow immortal middle stage could fight with a golden immortal master, the sword chi swept over already.

Splur.ge

Two blood lights flashed in the icy mist air. The two hollow immortal tertiary stage couldn't even react and were sliced into four parts. Their essence spirit quickly melted under the Heaven Flame Nine Suns.

Seeing Ye Mo use the opportunity to kill the other two hollow immortal tertiary stage, the golden immortal cultivator was furious. He was struck flying as well and it was impossible to save the two. He realized that Ye Mo's immortal essence was even more powerful than his. He almost spat blood but Ye Mo was completely fine.

The two landed at the same time. Ye Mo was happy with his strike killing two hollow immortal tertiary stage cultivators.

The cultivators watching took a cold breath in. Yi Teng and Tong Zhu looked at Ye Mo in disbelief.

Even though Jiang Jin guessed that Ye Mo might've killed the golden immortal hunting him she was still shocked.

Ye Mo easily killed a hollow immortal peak stage before but hollow immortal peak stage was still hollow immortal, the difference to golden immortal was too great. The reason the hundred cultivators here didn't rebel but instead prepared immortal spirit herbs to buy their way out was partly due to the golden immortal cultivator guarding here.

Even the worst golden immortal can easily kill hollow immortal.

There were some legends of hollow immortals killing golden immortal but those were legends. Even if there was such hollow immortal cultivator he would top grade master amongst hollow immortal or used his magic artefact to win. Yet now, they saw Ye Mo blast away a golden immortal primary stage in face to face battle with only hollow immortal middle stage power.

“pill master Ye qian bei is this strong...” Tong Zhu exclaimed.

Yi Teng sighed “I really didn’t expect this, it seems that golden shirt...”

But then he immediately stopped as Ye Mo said this didn’t need to be brought up again.

Ye Mo walked up slowly and took the rest of the two storage ring and then looked calmly at the golden immortal cultivator. He put away the two purple suns. Heaven Flame Nine Suns was too taxing on his spirit sense and the ice was melted. He didn’t need to use it.

Ye Mo used Heaven Flame Nine Suns to protect Yi Teng and them as the other two hollow immortal tried to attack them.

“die,” the golden immortal felt insulted that a hollow immortal insect dared to be so cocky with him. He howled and released his ice soul spear with full power.

The spear shot through the air with rolling white frost. This frost chi was more terrifying than what he released before.

He was waiting for Ye Mo to use Heaven Flame Nine Suns. He could tell that the two suns were taxing on Ye Mo’s spirit sense.

But Ye Mo didn’t intend to do so at all. He didn’t even use octagonal cauldron to block the rolling frost. Instead, he charged in and hacked.

Against such golden immortal, Ye Mo liked to be straight forward. He didn’t like prolonging the battle with magic arts. Many magic arts seemed powerful and overwhelming but to Ye Mo it was like thunder but no lightning.

Seeing Ye Mo charge in, the golden immortal cultivator was overjoyed. This hollow immortal was indeed powerful but his experience was too shit. Even a golden immortal would be killed coming into this frosty ray. A mere hollow immortal dared to go in.

“rumble...”

Zi Xu and the spear clashed together again. What shook the golden immortal extremely was that Ye Mo was completely fine in the frosty ray. He could feel Ye Mo’s immortal essence in his ice ray. It even seemed a little stronger than him.

“you’re a body refinement cultivator, god state...” the golden immortal said in astonishment but Ye Mo ignored him. Instead he severed over with spirit sense blades.

“spirit sense cultivation method?” the golden immortal was shook again. His spirit sense was in excruciating pain as though his spirit sense would disappear the next minute.

Golden immortal knew that if his spirit sense disappeared or his soul was damaged he could only await death.

“ice soul, detonate...” the ice soul spear suddenly exploded.

Vibrant spear shards with piercing sounds flew at Ye Mo like crazy. No matter how much sword rays Ye Mo could divide he wouldn’t be able to stop so many spear shards.

Ye Mo released octagonal cauldron without hesitation. Ye Mo knew the howls were made by the spear spirit. The spirit was forcefully torn apart by its master and he would transfer this hate to the opponent that caused his master to tear them apart.

Thud thud. Countless shards struck octagonal cauldron. Ye Mo felt his immortal essence weaken and even his soul was a little wobbly.

Without hesitation, he released lightning sword. Tens of lightning swords rained down on the ice soul spear spirit shards.

Seeing his lethal blow being pulverized by Ye Mo so easily and the countless means that Ye Mo seemed to have, this golden immortal cultivator was scared. He didn’t even have an offensive magic artefact now, how did he dare to stay. He was about to turn to leave.

How could Ye Mo let him go? Zi Xu hacked out again, Illusion Cloud domain kill strike.

The golden immortal felt the powerful binding of the domain kill strike. His face went pale. He released an extreme grade cultivation artefact shield. Crack, the shield only blocked Zi Xu for half a second and shattered.

Splurge.

Half of the golden immortal's hand was hacked away. before he could beg for mercy, the purple sword rays was fully activated and these spinning purple sword rays instantly annihilated the golden immortal cultivator.

Moments later, a golden storage ring appeared in Ye Mo's hands.

Chapter 1550: I'm immortal pill master

Ye Mo ate a clear lin pill immediately. It was precious but he couldn't retain the injuries now. he was injured a little killing that golden immortal primary stage.

Seeing Ye Mo really kill a golden immortal cultivator, the cultivators here couldn't keep calm anymore. Some nervously released their magic artefact. They were scared that Ye Mo was too greedy and would kill all the cultivators here.

A few cultivators who were from the Feng Shi merchant association didn't dare to speak a word.

"pill master Ye you really killed that golden immortal cultivator?" Yi Teng hurried over still not daring to believe it.

Ye Mo smiled to him "I said these guys wouldn't be able to get away, they'll have to spit out what they ate."

“what do we do now?” Tong Zhu was very excited.

“don’t worry.” Ye Mo then looked at the hundred cultivators on the hill and said “everyone I’m an immortal pill master. I believe everyone got a lot of immortal spirit herb here. After you go out I will be concocting pills outside the Tao Wu valley. As for payment, it’s two sets of herbs for one cauldron of pills...”

Before Ye Mo finished, the cultivators rumbled. They were all planning how many cauldrons of pills they could get from Ye Mo.

Two sets of immortal spirit herb for one cauldron, even the cheapest immortal pill master wouldn’t name such price. Although some people were still dubious, most people were prepared to let Ye Mo concoct pills. Even if they were tricked they would at most lose two sets of immortal spirit herb. there were so many cultivators here Ye Mo wouldn’t be lying. Otherwise, no one would come to him for pill concoction again.

Ye Mo wanted to improve his pill concoction skills and there were so many immortal spirit herb for him to practice, how could he pass up on such opportunity.

“since everyone agrees, I’ll be waiting outside for everyone. I will only be doing this for three days, after three days I will be leaving. The opportunity is rare, miss it at your own cost.” Ye Mo felt he was like a salesman on Earth.

Seeing Ye Mo and them leave, everyone reacted. So Ye Mo really didn’t plan to take some fee. This meant that this pill master Ye might really be an immortal pill master. no cultivators wanted to wait anymore and all left.

When everyone came out, Ye Mo had set up his mansion magic artefact as well as formation around it.

“brother Yi, you and sister Tong will be responsible for taking herbs, Jiang Jin bring the herbs to me and give out the pills.” Ye Mo said.

Nearly 100 cultivators came out, only those ten or so cultivators who doubted Ye Mo and a few Feng Shi merchant association people left. Most people didn’t leave as Ye Mo’s conditions were too good.

No matter how much immortal spirit herb they got, it would be useless unless they turned it into immortal pills. Most cultivators at the black weed town would go to Chun Kou station for pill concoction but the price there was too great. One cauldron would cost three to four sets of immortal spirit herbs. On top of that, the ship ticket was a huge expense. Thus, cultivators could only gather together and send one to get pills concocted for everyone. There would be no privacy in this at all.

For cultivators, privacy was very important but for pill concoction, there was nothing they could do.

“pill master Ye since we’re staying here for three days, what if the Feng Shi merchant association people...” Yi Teng asked worriedly.

Ye Mo waved his hand and smiled “don’t worry, I’ve calculated things. Even if they get the news now it would take them nearly four days to come here. We’ll be gone after three days.”

The pill concoction platform had been set up but no one came up for pill concoction. Clearly everyone wanted to see if this was true before making a decision.

“I’ll go up first then.” A red robed female cultivator walked up and took out two sets of immortal spirit herb for earth essence pill.

With this, everyone gathered around. They all wanted to see if Ye Mo was a liar.

In less than 5 minutes, Jiang Jin sent out a cauldron of earth essence pill from the mansion.

“it’s done already?” the female cultivator called out in surprise and joy.

Even Yi Teng and Tong Zhu were shook. The first time they saw Ye Mo he took an entire day and only finished three bottles. But now, Ye Mo finished one so fast.

Ye Mo’s pill concoction speed got progressively faster. Now he would be able to do a few bottles of heaven grade level nine pills.

“open it quickly.” The cultivators around her asked.

The female cultivator tipped the pill into her hands.

12 still warm earth essence pills fell into her hands.

“top grade earth essence pills...” one hollow immortal tertiary stage called out in shock. Everyone heard his voice but they saw it too themselves.

They had seen top grade pills but finishing a bottle of top grade pills in less than 5 minutes was too shocking.

Ye Mo could concoct special grade pills but it would cost too much time. He lacked time right now. even though he wasn't afraid of the Feng Shi merchant association people he would leave her three days later. He would only come back once he brings his power to a certain level.

“I want pill concoction too...”

“me too...”

All the cultivators rushed up and squeezed over.

“wait I found pill master Ye first line up.” The red robed female cultivator took out more than ten sets of immortal spirit herb.

“you've already had a cauldron, give other people a chance.” Someone argued immediately.

Yi Teng woke up from the shock and quickly said “everyone calm down and line up. Those who cut in line will not be served. There's only 70 or so people here everyone will get a chance.”

Hearing this, those people squeezing immediately woke up and quickly lined up. The red robed female cultivator was still at the front. She took out immortal spirit herb for level one, level two and level three pills.

“brother Yi, we were brothers who lived together can you help and let me come first?” a white faced hollow immortal tertiary stage came up and smiled to Yi Teng.

Yi Teng’s face went cold “when I was kicked out of town west there is no brothers anymore. Go line up, if you anger Zhu and she doesn’t let you get served you don’t even need to line up.”

Hearing this, he quickly went to the last and lined up.

“everyone please hand up the immortal spirit herb and the pills you want to here and wait on the side. We will start from level one immortal pill. if your level one immortal pills are done and level two immortal pill hasn’t been called yet don’t worry, just wait a little.” Jiang Jin said.

This was Ye Mo’s request of course. He had never concocted level two immortal pills, he said this to familiarize level one immortal pills first before starting level two.

The first few level two immortal pill would be wasted for sure but he could get it from others.

A few cultivators hid their level three immortal spirit herb but most took out their immortal spirit herb and the pills they wanted.

Immortal spirit herb flowed into Ye Mo’s pill concoction mansion non stop and bottles of level one immortal pills were being sent out. The cultivators found in surprise and joy that special grade pills started to appear. They had really never seen special grade pills.
