

Strongest As 1551

Chapter 1551: Friends

Soon cultivators realized something wasn't right. The first day, they only got level one immortal pills not a single level two immortal pill. although many of them were special grade level one immortal pills but they gave out a lot of level two and level three immortal spirit herb. if they only got level one immortal pills they might as well go to the Chun Kou station.

No matter how precious level one immortal pills were they couldn't allow golden immortal cultivators to cultivate. They were mostly hollow immortal tertiary stage power. Level two and level three immortal pills would be the main pills they needed.

Even so, no one dared to ask anything for fearing of offending that immortal pill master. the first day was about to pass and finally one hollow immortal tertiary stage couldn't resist and walked up to Yi Teng "brother Yi, we still haven't gotten a single level two immortal pill..."

Yi Teng's face sunk and said coldly "if you don't trust pill master Ye qian bei I'll immediately return your immortal spirit herb. otherwise sit and wait."

After hesitating for a while, he still saluted with his fists and retreated to the side. Ye Mo said pill concoction for three days, this was only first day. If he still couldn't take out level two immortal pills then people would go up to him. He's powerful but can he beat tens of hollow immortal cultivators?

Luckily the thing everyone was worried about didn't happen. Starting from the second day, level two immortal pills were being sent out. Everyone breathed easy but they realized a strange phenomena.

The cultivators who got called up first had the lesser quality. at the beginning it was just low grade level two pills but later on, the better quality they got. From middle grade to top grade and even special grade came out.

If people didn't know that learning level two immortal pill concoction in a day was impossible they would think this immortal pill master never concocted level two immortal pills before and was just learning. But this was too absurd, no prodigy would be able to learn to concoct level two immortal pill in a day.

But Ye Mo was that sort of person. He had Three Birth Chant and could quickly learn the trick for concocting level two immortal pill, he also had the time formation disk to provide enough time for him.

Realizing that this pill master gave better pills later on, many cultivators hoped their pills would come the third day.

There were indeed pills on the third day, it was level three immortal pills. It also came out from an order of bad to good.

When the third day was about to end many cultivators took out more immortal spirit herb asking Ye Mo for pill concoction. They all took out level three immortal spirit herb and some even took out level four immortal spirit herb.

But they were all rejected by Jiang Jin. She brought Ye Mo's words, pill concoction for three days wasn't going to change.

Those cultivators who took out level three immortal spirit herb early rejoiced at their decision while those careful cultivator who didn't dare to take out level three immortal spirit herb immediately regretted.

Before the third day ended, Ye Mo finished all the pills and left the mansion.

Everyone looked at Ye Mo differently. Before it was fear but now it was fervor and fear.

"everyone three days has passed we're going now. perhaps I might go to Black Weed town in the future. Those friends who wants pill concoction can come find me if I go there."

Then Ye Mo released Blue Moon and let Yi Teng and them get on before disappearing from the Tao Wu valley. They didn't head towards the Black Weed town but changed a direction and entered into the depth of the woods.

Although he didn't fear the Feng Shi Merchant association he didn't have an overwhelming advantage.

He knew from Yi Teng that the association leader was golden immortal middle stage and there was another golden immortal primary stage left.

Seeing Ye Mo leave, everyone felt it was a pity. Ye Mo was such a good pill master and yet he didn't go back. If he came back, people would be saving huge amounts of immortal spirit herb and immortal crystals.

"pity, this pill master qian bei is a generous person, it's a huge loss for us he doesn't go to Black Weed town." Some cultivators sighed.

"he said he would come back, those with immortal spirit herb don't need to worry, everyone has pills now. it's enough for decade or so. You might as well go back and cultivate while waiting for him to return."

"that's right, pill master Ye left due to Feng Shi merchant association. They would be here soon, we should quickly leave too."

Soon, the cultivators started leaving and in a short time, this place was empty again.

A day later, multiple dashing lights arrived. Two golden immortal with more than ten hollow immortal tertiary stage cultivators came. The leader was Feng Shi merchant association association leader but pity there was no one here.

...

Ye Mo's Blue Moon had been flying for four days. He didn't really go fly into the depth of the woods. He was just flying at the border. He knew that with his current power, going into the depth was asking to die.

Even so, they encountered trouble a few times on the way. They even met a level three immortal spirit beast once. Yi Teng was injured due to this. if Blue Moon wasn't fast they would've been eaten by that immortal spirit beast.

“pill master Ye what do we do now?” Yi Teng asked.

He found that more and more immortal spirit beast were starting to appear. If they kept flying like this eventually they would be eaten.

Even Tong Zhu and Jiang Jin looked at Ye Mo.

Ye Mo pointed at a valley and said “we’ll cultivate here, when brother Yi reaches golden immortal we can go.”

“cultivate here? Isn’t this where immortal spirit beast reign?” Tong Zhu asked in confusion.

Uym smiled “it’s fine, I can set up formation.”

Ye Mo believed if he opened a cultivation home in the cave and set up a stealth immortal formation then even level three immortal spirit beast didn’t matter.

“we’ll listen to pill master Ye.” Yi Teng said without hesitation. Then he added in embarrassment “pill master Ye just call me Yi Teng from now on. It feels strange to me being called brother Yi. I know my talent, in the cultivation realm it was average. Reaching golden immortal in a short time, I’m afraid...”

“okay.” Ye Mo really didn’t mind. The division of levels were very strict here, he was an immortal pill master and an immortal formation master as well as someone who could kill golden immortal, of course calling him brother Yi would make him feel weird.

“don’t worry about cultivation. The pills and immortal crystals in this storage ring can allow you to reach golden immortal.” He took out a storage ring and gave it to Yi Teng.

Yi Teng scanned his spirit sense and said in shock “30k top grade immortal crystals? Luo Yin pill? Golden Will pill? this, this...”

Yi Teng's hands were shaking but was a little reluctant to give it back to Ye Mo.

Ye Mo said "Yi Teng you helped me before and I haven't paid you back the immortal crystals. We're friends, this is nothing. If you reach golden immortal earlier we can stay at Black Weed town."

Yi Teng sighed and bowed to Ye Mo "brother Ye, I'm not a ungrateful person. If brother Ye tells me to go east I will never go west, my life is yours."

Yi Teng got Ao Heng's heritage and wanted to give it to Ye Mo a few times but Ye Mo didn't take it. this not only meant that Ye Mo was powerful but also a worthy friend.

He never wanted to take advantage of others. He only paid 3000 top grade immortal crystals and some pills but he got more than ten times in return.

Chapter 1552: The hardship of cultivation

Ye Mo patted Yi Teng's shoulder "you keep your life for yourself I don't want a friend's life."

Then he took out two more storage ring for Jiang Jin and Tong Zhu "the things inside are the same as Yi Teng's but there's a few jade slips that I got from someone else. Yi Teng has his own heritage so he doesn't need it."

The two didn't know what to do. Yi Teng helped Ye Mo so it was right for Ye Mo to help him but they didn't help Ye Mo with anything. Instead, they've been helping Ye Mo.

"I have a lot of these things we can look after each other at the black weed town. This means your power can't fall behind." Ye Mo added.

"thank you brother Ye." Although they were much older than Ye Mo but age wasn't the deciding factor.

The reason Ye Mo gave them help was not out of sympathy but because they deserved him to go help. When Yi Teng was kicked out of town west for taking friends' immortal crystals and pills, such reputation was lethal. Everyone would look down on such person.

However the two didn't abandon Yi Teng due to this and instead brought Yi Teng to their place. this was very hard and this meant that these girls weren't cold people who would do anything for cultivation.

Ye Mo hated those people who were ruthless and used any means necessary. He had his own principles for cultivation. He wouldn't hesitate when he needed to attack but he would always have his bottom line. If a person lost his bottom line in cultivation he might as well turn himself into a emotionless corpse that only knew power.

After the cultivation resources were split, the group started digging a cultivation home. They were all hollow immortal power and thus it didn't take much effort.

Three days later, Ye Mo set up a level one peak stealth immortal formation outside the valley and another level one peak attack immortal formation and a level one stealth spirit immortal formation. Eventually he even successfully set up a level two defense immortal formation.

After the four entered the formation, the valley looked like what it was again.

Inside the cultivation home, everyone had their own cultivation room. Ye Mo set up a spirit sense barrier formation outside his room and a restriction as well as surveillance formation disk before entering the golden page world.

He had immortal crystals and pills, he was a level three immortal pill master now. he had all the cultivation resources he needed now.

To him, the only thing he wanted to do now was to improve his power.

As time went on, this place was gradually covered in weed. No one knew there was a cultivation home here.

...

The Feng Shi merchant association was one of the three big merchant associations of the Black Weed town. This was because the association leader was golden immortal middle stage and there was two more golden immortal primary stage masters. Their power was ranked ahead amongst the three.

But some time ago, an unknown immortal pill master killed a few hollow immortal tertiary stage and a golden immortal master. this immediately dropped the merchant association's power to the bottom of the three big merchant association. They sent people to the black weed forest to find that immortal pill master but they found nothing. Even with their power, they didn't dare to search the black weed forest.

The most shocking thing was that immortal pill master was a level three immortal pill master. this was confirmed by tens of hollow immortal cultivators as they all traded pills for immortal spirit herb. most of the pills were top grade and even some special grade. The only pity was that the immortal pill master didn't concoct golden will pill. if he did then many of them could break through to golden immortal.

Of course Ye Mo wouldn't do that, even if he was to it would be after he was golden immortal. If there was a large bunch of golden immortal in the black weed town before he reached golden immortal, then how was he to survive there.

Those ten or so cultivators who doubted Ye Mo were full of regret. They missed out on that pill concoction feast.

Their only hope was that the immortal pill master was telling the truth and would come back after a while.

Those cultivators who got what they wanted from Ye Mo didn't want to send herbs over to Chun Kou station again. Compared to pill master Ye, that Pill master Feng was nothing.

Hearing this, quite a lot of cultivators resisted the urge to go to Chun Kou station.

Of course it was Feng Shi merchant association that wanted Ye Mo to come back even more. even though Jiang Jin and Tong Zhu's residence was annihilated, this didn't appease their anger.

...

Ye Mo had about 400k top grade immortal crystals. These were all from the Feng Shi merchant association golden immortal. With this, he didn't need to save immortal crystals.

He not only used the immortal crystals to set up spirit gathering formation and time formation disk but he didn't hold back on cultivation neither.

Ye Mo knew that the resources he needed to reach from hollow immortal to golden immortal might allow more than ten hollow immortal to reach golden immortal. Cultivation resource would get tougher to find later on. One could see this from how he could only use extreme grade spirit range and immortal crystals to cultivate in the cultivation realm. there was a price to pay for instant killing people of the same cultivation level.

Immortal crystals turned to dust in Ye Mo's hands and pills were gulped down. Ye Mo's power rose rapidly.

This rapid speed was compared to other cultivators but to Ye Mo his power was crawling up slowly.

The time formation disk ran for 3 years and he cultivated for three hundred years. He used up his immortal crystals and the pills as well. His power only crawled from hollow immortal middle stage to hollow immortal peak stage.

Ye Mo stopped cultivation. Only now did he realise the hardship of cultivation. He had immortal formation, bitter bamboo, Three Birth Chant, countless resources and it was this hard to reach hollow immortal peak stage. Just how hard was it for ordinary cultivators to reach golden immortal.

If he searched for resources in the black weed forest and cultivated slowly like this for tens of thousands of years or a hundred thousand years, he might still be hollow immortal middle stage when his life was about to end. Most cultivators were stuck at hollow immortal for their entire life.

Those cultivators who stood at the top were all extremely talented and fortunate with endless cultivation resources.

However Ye Mo didn't give up hope. He had such cultivation conditions and if he still gave up hope he wouldn't deserve to have the golden page world. he packed up his things and left the golden page world. he found the three weren't cultivating but were instead chatting.

Seeing Ye Mo come out they all stood up in surprise and joy.

Ye Mo was shook to find Tong Zhu and Jiang Jin both at hollow immortal tertiary stage. They didn't have time formation disk and it had only been three years then went from hollow immortal middle stage to tertiary stage? This was too fast.

"you're all hollow immortal tertiary stage?" Ye Mo asked.

Jiang Jin answered "yes before we only used low grade immortal crystals and didn't have any good pills nor cultivation method. Now we have top grade immortal crystals and pills so..."

Ye Mo realized they had a solid foundation and this came into use. If they didn't have more better cultivation resources, their cultivation speed would return to normal.

"you're about to have divine damnation?" Ye Mo looked at Yi Teng and asked.

Yi Teng said excitedly "yes, I never expected to be able to have golden immortal divine damnation. Even if I cant pass I'm happy."

Chapter 1553: Golden immortal divine damnation

"then go out and have your divine damnation." Ye Mo nodded. He was planning to have golden immortal divine damnation too. If they both became golden immortal then they would be able to hold their ground in black weed town.

Black Weed town was extremely good for escape. If people wanted to hunt him he could instantly escape to the forest.

Yi Teng and them didn't know that he set up a hidden teleportation formation in his cultivation home. His frequent encounter with danger made him very careful. It wasn't hard for Ye Mo to set up a simple one way teleportation formation.

The four left their cultivation grounds and in just three days then went back to the place they entered the depth of the forest.

Yi teng was about to have divine damnation. Ye Mo didn't dare to let him do it in the depth of the woods. They didn't cause any commotion there during cultivation so no immortal spirit beast came looking for trouble but divine damnation would have a huge commotion. If high level immortal spirit beast came none of them would be able to live.

In fact pretty much hollow immortal who can reach divine damnation stage would be able to pass golden immortal divine damnation. The hardest three divine damnations of immortals were great immortal divine damnation and status immortal divine damnation. As for the third one, no one knew.

Yi Teng's foundation in hollow immortal was solid and now that he was hollow immortal peak stage Ye Mo believed he would be fine. Even so, Ye Mo still gave him a low grade immortal artefact and help set up a formation for him.

Seeing Yi Teng eat the golden will pill and rapidly cultivate inside the spirit gathering formation, the space above him darkened. Everyone knew this was the premonition of the divine damnation.

Ye Mo hadn't seen golden immortal divine damnation but he knew there was only 9 lightning arcs but the power of that wasn't something the cultivation realm lightning could compare with.

A day later with a heavy thud the first lightning bolt fell.

A grown man arm sized blue lightning bolt struck down. Yi Teng released his defense magic artefact and also formed a barrier with hisie.

Crack.

The bolt crackled on the low grade immortal artefact charring Yi Teng's body but Ye Mo knew Yi Teng wasn't injured. Although there was just this bolt, it was many times more powerful than all the bolts he went through for truth realisation state combined.

Three more bolts quickly followed and Yi teng was a little injured but he had plenty of pills. He ate a clear lin pill and had recovered mostly already.

Rumble rumble rumble.

Each bolt was more ferocious than the one before. even Ye Mo frowned a little, this golden immortal divine damnation was more powerful than he had expected.

As the 9th arc fell the low grade immortal artefact was completely destroyed. Yi Teng was also heavily injured. Luckily after the divine damnation was over, there was immortal spirit chi rainbow cloud. Yi Teng sat on the ground devouring the cloud like crazy.

Just a day and Ye Mo and them could see a golden circle form about Yi Teng. They knew Yi Teng had officially become a golden immortal cultivator.

As the golden halo retreated, Yi Teng got up in excitement. All his injuries were gone and he desperately walked over to Ye Mo.

"congratulations Yi teng." Ye Mo smiled and said.

"brother Yi, congratulations on reaching golden immortal." Tong Zhu and Jiang Jin said with envy.

"thank you thank you. I never expect I would be able to reach golden immortal one day. Brother Ye thank you..."

Ye Mo waved his hand "no need to say thank you, plus golden immortal is nothing. We're going to reach great immortal and status immortal..."

Even though he knew these were words of encouragement Yi Teng still said with great belief “I believe.”

“I believe too.” The two girls said without hesitation.

Perhaps they didn’t know the difficulty of reaching great immortal and status immortal so they all believed.

If they went outside and knew that even status immortal sect members might not necessarily reach status immortal, they wouldn’t think like this.

After the excitement Ye Mo said “I need to have divine damnation, help watch over.”

“okay, when brother Ye reaches golden immortal no one would dare to mess with us in the black weed town.” Yi Teng clenched his fists and said.

...

Ye Mo’s divine damnation was completely different to Yi Teng. He didn’t set up any defense formation he just set up a spirit gathering immortal formation.

Yi Teng’s divine damnation needed one day to arrive but after Ye Mo ate the golden will pill there were crackling sounds in after 15 minutes.

Rumble rumble rumble.

Three faint golden lightning bolts struck down, each one was much thicker than Yi Teng’s divine damnation.

Ye Mo didn’t dodge it, he let the lightning bolts strike his body. There was a terrifying tearing sensation. The power of god state body refinement and Three Birth Chant showed now. Ye Mo’s armor cracked apart and there was blood gashes on his body but most of the lightning power was devoured by Ye Mo.

Feeling the extremely powerful lightning power, Ye Mo was overjoyed. His power rose up drastically as though there was no limits. At the same time, Ye Mo was shook. Even his god state body refinement was damaged by the lightning. One could see how terrifying it was.

If he didn't reach god state body refinement he would have to block part of it first before devouring it. otherwise, it would be suicide.

It seemed he needed to quickly find a place in the immortal realm for body refinement and use the Three Birth Chant to calculate the latter cultivation method. Otherwise, his future divine damnation wouldn't be so easy.

The three just saw Yi Teng's divine damnation. It was ferocious but reasonable. But now, Ye Mo's divine damnation was completely beyond their comprehension. Ye Mo's divine damnation method was different to Yi Teng, he took it head on.

"why is brother Ye's divine damnation faint gold and not blue? Why does it come down as three and not one by one?"

As they spoke, six even thicker golden lightning bolts rained down.

Ye Mo released Zi Xu this time and hacked two of the bolts, the remaining four landed on him completely.

Seeing that Ye Mo wasn't injured due to that Tong Zhu breathed easy "luckily brother Ye's divine damnation passed."

Before she finished another huge crackle stopped her words. She looked above Ye Mo's head in disbelief.

There were nine more lightning bolts that were even thicker than before.

Why were there 18 bolts? That was abstruse immortal divine damnation.

Chapter 1554: Return to black weed town

Not only Tong Zhu was should but so was Yi Teng and Jiang Jin. Why were there 18 bolts of lightning? That was abstruse immortal divine damnation.

Ye Mo just finished devouring the 6 bolts and then nine more followed. Ye Mo felt he was lacking a little from reaching golden immortal and so the instant they fell, Ye Mo put away Zi Xu and attacked back with lightning sword.

The power of the nine bolts was more than he could handle for now.

Rumble rumble.

Ye Mo's black lightning swords struck with the faint golden lightning arcs creating a huge explosion. There were light crackles of lightning in the explosion.

Black and gold color emanated in the explosion completely flattening the land a kilometer nearby. There were even hundred meter deep ravines.

Ye Mo's black lightning sword were completely devoured by the faint golden lightning. Then, the remaining lightning struck all on Ye Mo's body.

Ye Mo seemed very calm. He wasn't trying to cripple the lightning arcs completely, to him, these divine damnation lightning were the best cultivation resource.

When the divine damnation struck him, blood and flesh flew off.

But Ye Mo was still very calm, he just kept devouring lightning source. These nine bolts of divine damnation were rapidly devoured by him and Ye Mo's power grew rapidly.

Just when Ye Mo was about to break through the golden immortal barrier, another 18 golden rays of lightning struck down. These seemed much stronger than his previous nine.

Ye Mo's face changed. Even if he blocked with lightning sword he would still be killed under such lightning arcs.

Ye Mo was certain that the divine damnation was trying to kill him otherwise there wouldn't be such absurd divine damnation.

Seeing this, the three were completely dazed. This was 36 bolts of lightning. This was great unity immortal divine damnation. How could it appear on Ye Mo.

Even if it was to appear on Ye Mo it should appear in this way. There was no resting time between each wave, who could survive this?

However, there was nothing they could do to help.

Jiang Jin sighed. She guessed that Ye Mo's power was too absurd that it went against the laws of the world.

At this moment, Ye Mo ran his immortal essence like crazy. He couldn't even split his attention to use lightning sword or octagonal cauldron. He didn't even release Zi Xu. He had to reach golden immortal before these last 18 bolts landed on him otherwise he would be dead for certain.

As his power rose rapidly, there was a light crack.

Rumble.

He spat many mouthful of blood and broke through all the restraints and reached golden immortal. At that instant, the 18 bolts of lightning landed on Ye Mo. With his expanded meridians, his speed at devouring lightning source increased more than ten times.

Soon, these lightning arcs all turned into the best nourishment for consolidating his golden immortal power. His wounds repaired rapidly.

At this moment, Ye Mo clearly felt that there seemed to be another 36 bolts about to rain down when it sensed that he wasn't dead but after it sensed he was golden immortal it instantly disappeared.

Ye Mo breathed easy, he knew that if he reached golden immortal even if those 36 bolts rained down it wouldn't take his life. instead it would only be for his benefit.

A golden rainbow immortal spirit chi cloud fell and completely enveloped Ye Mo.

"Brother Yi, brother Ye passed the divine damnation?" Tong Zhu felt that Ye Mo wasn't dead but she still asked worriedly.

Yi Teng nodded "he probably did, brother Ye is too powerful. I knew he was extraordinary but his golden immortal divine damnation was 36 bolts. No one would even believe this. brother Ye is consolidating his power we shouldn't disturb him."

This is too scary, I can't even pass the first three bolts of the divine damnation, I really don't know how he survived." Tong Zhu said.

"I can't pass it as well." Yi Teng shook his head.

Jiang Jin suddenly said "I feel like we shouldn't tell anyone this. if some powerful people knew brother Ye's golden immortal divine damnation was 36 bolts there would be some trouble."

Yi Teng nodded "Jiang Jin is right."

The three finally felt assured now that Ye Mo wasn't dead. With both Ye Mo and Yi Teng being golden immortal power they would be able to hold their ground at Black Weed town. Plus, Ye Mo could kill golden immortal as hollow immortal, now that he was golden immortal ordinary golden immortal was nothing to him.

A day later, Ye Mo changed into a new set of clothes and used a cleaning spell on himself.

Seeing Ye Mo come over, the three went up to congratulate him.

Ye Mo felt great. That blue dressed woman said he would at most reach golden immortal but now he was already golden immortal.

“let’s go back to Black Weed town.” Ye Mo said. He planned to keep gathering cultivation resource at the town and reach abstruse immortal.

...

Two days later, a blue low grade flying immortal artefact landed outside the town. Four cultivators went in, the four were Ye Mo. Ye Mo didn’t have anymore cultivation resources, he needed to go to the town and concoct pills for resources.

There were a lot of cultivators with low grade immortal artefact here but very little with low grade flying immortal artefact.

When those cultivators saw Blue Moon and recognized Ye Mo, there was immediately a huge ruckus as he was someone who the Feng Shi merchant association must kill. Those cultivators who asked Ye Mo for pill concoction also came up to greet him, they were very excited.

As news spread out, more cultivators came up. They wanted to know when Ye Mo would start pill concoction again.

“our residence has been stamped.” Tong Shi’s spirit sense scanned to where they lived.

Even though they were hollow immortal tertiary stage they didn’t feel very nice.

“don’t worry, I will return to them multiple times what they did.” Yi Teng said.

“such cocky words, we Feng Shi merchant association are scared shitless. Do you think you’re great unity immortal? Shameless thing, I wiped clean the house of those two bitches, what are you going to do?” a dashing light landed.

“hehe, if he doesn’t say cocky words how would he dare to come back. Now it’s easy for us, we don’t have to hunt them...” another hollow immortal tertiary stage said.

Yi Teng looked at Ye Mo. Ye Mo knew that in order to survive here blood must be shed. Feng Shi merchant association was the perfect target.

“since we’re going to fight don’t hold back.” Ye Mo said coldly.

Yi teng already wanted to fight and now hearing Ye Mo’s words, how could he resist. His space shattering staff was released and instantly covered the 6 cultivators.

“golden immortal cultivator...” one cultivator immediately realized that Yi Teng had reached golden immortal, no wonder he dared to come back.

However Yi Teng didn’t show any mercy at all.

Chapter 1555: Who asserts dominance

The difference between golden immortal and hollow immortal was obvious. In a few seconds, those 6 people had turned into six bodies.

Golden immortal cultivator? The people around looked at Yi Teng in shock. He had some fame in the town, some cultivators knew him because he was trustworthy and often went out to help people concoct pills. He was more famous after taking people’s pills and immortal crystals three years ago.

Three years later, he was golden immortal now. if it was so easy to break through to golden immortal there wouldn’t be so many hollow immortal cultivators here.

In this town, golden immortal was high above everyone else. Those cultivators looked at Yi Teng with some reverence.

Even Yi Teng was happy he so easily killed six hollow immortal who were on par with him before.

Before he could take the storage rings, more than ten dashing lights came.

Ye Mo knew the leading man, he was golden immortal middle stage, the Feng Shi merchant association association leader, Shang Baihe. Yi Teng knew he definitely was no match for Shang Baihe. He retreated back to Ye Mo.

Ye Mo noticed that although a lot of cultivators came, there were two golden immortal cultivators. One was golden immortal middle stage and another was only golden immortal primary stage.

“the middle one is Shang Baihe, golden immortal middle stage.” Yi Teng whispered to Ye Mo.

Ye Mo nodded, he didn’t care at all. He could kill golden immortal middle stage at hollow immortal middle stage, now he was golden immortal primary stage, how could he care about an ordinary golden immortal middle stage like Shang Baihe?

“no wonder you’re so bold now, so you reached golden immortal. Two golden immortal, so powerful, that’s why you dare to kill our Feng Shi merchant association people.” Shang Baihe glanced at the bodies and said coldly.

“association leader I’ll go kill him.” The golden immortal primary stage said.

“no need, I haven’t fought for a long time, probably a lot of people have forgotten about me. I’m going to let them remember that there’s someone called Shang Baihe in the Black Weed town.” Shang Baihe said.

The he walked up and glared at the two “who wants to die first?”

He then glanced at Tong Zhu and Jiang Jin before saying plainly “one of them is ugly but our feng Shi merchant association can take turns with her.”

Hearing this, Yi Teng was furious and about to attack. Ye Mo waved his hand “don’t waste time, I’ll do it.”

Ye Mo knew Yi Teng definitely was no match for Shang Baihe.

“young man, you reached golden immortal, very good. Indeed, there’s only a few golden immortals in this entire town.” Shang Baihe sneered at Ye Mo as though he could kill Ye Mo at anytime.

Ye Mo couldn’t even be bothered talking, he pulled out Zi Xu and rushed his immortal essence.

Illusion Cloud domain kill strike.

Shang Baihe acted as though he didn’t take Ye Mo seriously but he was wary of Ye Mo. Ye Mo could kill golden immortal primary stage, he couldn’t be careless. He was only putting on a show for everyone else to see. Feng Shi merchant association lost a golden immortal cultivator, he desperately needed to assert dominance. Only the blood of golden immortal can make people fear.

He didn’t think Ye Mo just reached golden immortal, he guessed that Ye Mo was already golden immortal when he killed the golden immortal cultivator. He just hid his power to hollow immortal. Now that he saw Ye Mo was golden immortal power, he knew his guess was right.

No matter how powerful the talent, even the number one person of the 33 heavens can’t reach golden immortal from hollow immortal in three years.

When Ye Mo hacked out Zi Xu, there was a huge rune image above his head. He prepared that waiting for Ye Mo to attack. At the same time, he released a metal shattering ring immortal artefact.

The huge rune image turned into countless runes as they flew around protecting Shang Baihe. They were like strange mosquitos making a buzzing sound as some flew towards Ye Mo while his ring also attacked Ye Mo.

Shang Baihe's rune image could not only protect him but attack the opponent's soul.

This was a top grade rune but it could only be used three times. He used it twice already before.

Ye Mo felt a shaking in his sea of consciousness and dimly knew the power of this rune. Without hesitation, he sliced tens of spirit sense blades over.

Ye Mo's spirit sense improved again after reaching golden immortal. His spirit sense blade domain was more perfected and powerful. Shang Baihe immediately felt that the runes power was significantly lowered as though about to break free from his control.

Shang Baihe was shook. When Ye Mo killed a golden immortal he knew Ye Mo was no simple character but he didn't expect Ye Mo to have spirit sense attacking method. If Ye Mo broke his rune image, things might get into a stalemate and he might have the lower hand.

In his desperation Shang Baihe inserted more power into his ring trying to heavily injure Ye Mo while he was using his spirit sense cultivation method. Usually, when cultivators used spirit sense attacks, their control of magic artefact would lower.

But Ye Mo was different, his spirit sense was far beyond golden immortal tertiary stage and was about to reach into the range of abstruse immortal spirit sense. he released Zi Xu that was extremely intimate to him.

"not good." Shang Baihe felt his ring didn't speed up after he inserted his immortal essence and spirit sense into it. instead, it slowed down. Although Ye Mo was golden immortal primary stage, his power was far beyond his.

This was a domain formed by the magic artefact, it's said only great immortals could easily use such means. Ye Mo was a mere golden immortal but he could use it, fighting him was asking for death.

Realizing this, Shang Baihe immediately sweat and quickly called "friend wait, I'm willing..."

But since Ye Mo had killing intent for him, nothing would be able to stop his Illusion Cloud domain kill strike. His immortal essence rushed into Zi Xu making his sword domain fiercer.

Purple ray hacked through the dense runes as blood splashed. A worried essence spirit fled and before it could go far, it was devoured by shadowless.

Ever since devouring the golden shirt's essence spirit Ye Mo felt shadowless' power increased greatly.

Thud.

Shang Baihe's body fell on the ground, the surrounding was dead silent.

No one thought the fight would end up like this. Shang Baihe's force seemed dominant but he didn't even last one round and was killed. Was this pill master Ye an abstruse immortal?

Some people were even suspecting Ye Mo was an abstruse immortal, he just pretended he was golden immortal primary stage.

The other golden immortal of Feng Shi merchant association immediately reacted. There was full of horror and disbelief in his eyes.

He immediately took out a transmission rune but how could Ye Mo let him go? He waved Zi Xu and Illusion Cloud domain kill strike was used again.

The golden immortal primary stage tried his best to activate the rune but he couldn't even break free of the binding with Ye Mo's domain kill strike came and was slaughtered.

Chapter 1556: Black Weed pill tower

Two storage rings landed in Ye Mo's hands and no one dared to speak.

In less than 15 seconds, the two golden immortals of Feng Shi merchant association were annihilated.

Ye Mo's dominance immediately brought its benefits. The two other merchant association of Black Weed town came up to greet him. Even though they were a little stronger than Feng Shi merchant association but this was nothing compared to Ye Mo.

Ye Mo didn't want to dominate the entire Black Weed town so of course he wouldn't reject the good will of the other two merchant association. He greeted the two association leaders nicely before saying to the expectant cultivators "three months later I will be starting pill concoction, because I can't do this all myself I need some help. If there are pill kings you can come find me."

This caused even more ruckus. Pill master Ye said this clearly meaning that he would be taking in a few pill kings as disciples. If a pill king reached immortal pill master then his status increased more than 100 times. Even a level one immortal pill master wouldn't have to worry about any cultivation resources here.

As Ye Mo and them went into the town, this news spread like the wind. Even the nearby towns heard this.

...

Feng Shi merchant association was annihilated by Ye Mo so their place became the four's new home. But Ye Mo didn't like this dark themed buildings so he took it all down and built it according to Mo Yue City's style.

Of course he just took out the blue print and let Yi Teng and them do the work. Ye Mo was flicking through Shang Baihe's storage ring.

He thought he earned quite a lot getting that golden shirt's storage ring but the golden shirt and the other Feng Shi merchant association's golden immortal's things combined wasn't even ten percent of what Shang Baihe had. Ye Mo found 3 million top grade immortal crystals and there were also large amounts of immortal materials and immortal spirit herbs.

There were tens of level four immortal spirit herb and one middle grade attack immortal artefact.

This guy dominated the town for so many years, he had quite some collections indeed. But Ye Mo knew that although there seemed to be a lot here he used up cultivation resources very rapidly. So, he still needed to do pill concoction. But it wasn't going to be one or two years to reach abstruse immortal from golden immortal primary stage.

Even an ordinary golden immortal had tens or even a hundred thousand top grade immortal crystals but that blue dressed female cultivator only gave him 10000 immortal crystals. They really waved him off like a beggar.

He just wanted to save Nie Shuangshuang now so he couldn't be bothered slapping her face but if she was mistreated there then don't blame him.

...

A month later, the Black weed pill tower was completed. Ye Mo set up multiple defense and attack formations outside. Other than Yi teng and them he didn't hire anyone else. He even just gave it an ordinary name. this was only his temporary staying place. once his power was slightly higher, he wasn't going to stay here.

Black weed pill tower became the most popular place here. Ye Mo only spent a month each year for pill concoction, the other times he was focused on solitary cultivation. He gave Yi Teng and them the authority to manage the pill tower. Of course they would hire other cultivators to help and use time for cultivation. Being with Ye Mo, they never lacked cultivation resource.

Ye Mo rarely came out but everyone knew his name in the town. The main thing was that this pill tower was the only place that sold immortal pill and second was that the construction had the best immortal spirit chi in the town.

Only they had a immortal spirit chi gathering formation. There were little hollow immortal cultivators who could set up such formation and even if they could they didn't have the immortal crystals for it.

The only pity was that the pills of the pill tower had a limited supply. Pill master Ye only concocted a month each year. This was far from satisfying the needs of the town, plus the nearby towns needed pills to.

The pill tower was filled almost everyday but most of them left with empty hands. He didn't even dare to release golden will pill or the doors would squeezed broken.

Ye Mo didn't come here to serve everyone, he came here to cultivate.

Later on, Ye Mo just let the pill tower only open for one month every year. During this time, anyone could come to him for pill concoction and the extra pills were sold here. But even so, it was immediately bought by people with immortal crystals or immortal spirit herb.

The cultivators of the town almost went crazy when they released their new opening times but even so no one dared to go start trouble.

They had an immortal pill master who could instantly kill golden immortal middle stage and if you annoyed him, he would just leave. People wouldn't even have this one month left anymore.

So every year when it was Ye Mo's pill concoction month, the black weed town would be the most populous. Cultivators from everywhere would line up for pill concoction.

Even the two other big merchant associations of the town didn't dare to say anything. Otherwise, just the countless cultivators here for pill concoction would tear them apart.

...

Time flew by quickly and this was Ye Mo's second year here. His golden immortal primary stage power had been consolidated. His immortal essence and spirit sense were more powerful. Other than a level three immortal pill master, he was also a level two immortal formation master and a primary stage immortal forgery master. the low grade immortal artefacts he made were top quality amongst low grade immortal artefacts.

Today, Ye Mo just finished pill concoction and Jiang Jin came to collect the pills "brother Ye, there's two level nine pill kings here to visit. They said they wanted to join the pill tower and be your disciple."

Hearing this, he dazed. He said this and a lot of people came but no one could satisfy his requirements. These people either wanted to learn and leave or didn't have enough skill.

Ye Mo felt strange that people still came after two years but he was indeed sick of pill concoction. Even though he was half way level four immortal pill master but he still felt it was very boring. Ye Mo needed people to help.

"let them come in." Ye Mo said.

"okay." Jiang Jin left.

If it wasn't that Jiang Jin really didn't have the talent, Ye Mo would even want to teach her pill concoction. Jiang Jin was very smart and also good with people. She was more meticulous and cunning than Yi Teng and Tong Zhu.

Moments later, Jiang Jin brought a man and woman into Ye Mo's pill concoction room.

As soon as they came in, Ye Mo felt a faint killing chi. Ye Mo knew this wasn't targeted at him it was because these two had experienced too much slaughter.

The man seemed skinny and had a well educated temperament but he couldn't hide his ferocity from Ye Mo. The female cultivator was very quiet and pretty but she also had a tense body.

"Liu Zhongyan greet pill master Ye." The male said.

Then he pointed at the female cultivator "this is my wife Liu Man."

Chapter 1557: Familiar person

Ye Mo frowned and didn't talk.

Although this immortal pill master didn't seem to welcome them, Liu Zhongyan still saluted with his fists "both of us are level nine pill king so we wish to join pill master Ye. I believe I would be able to concoct level one immortal pill soon. Of course, if pill master Ye feel we don't belong here then we'll leave immediately."

If it was some ordinary cultivator, Ye Mo would've waved them off already but Ye Mo felt this male cultivator was familiar.

He didn't have contact with many people in the immortal realm, but even he couldn't remember where he saw this person from.

Seeing Ye Mo still not talk, there was a sliver of disappointment in the man's eyes and he saluted with his fists. Just when he was about to leave Ye Mo suddenly said "do you genuinely want to join the black weed pill tower?"

Hearing this, Liu Zhongyan quickly responded "yes, pill master Ye, I swear that both of us truly want to join here. I heard you were taking in pill king disciples so we came here from the distant Hong Qiang town."

Ye Mo said "since you truly want to join us why do you hide your golden immortal power to hollow immortal power?"

Ye Mo could tell Liu Zhongyan was golden immortal tertiary stage and Liu Man was golden immortal middle stage. There was something strange about this no matter what.

Both of their faces changed, they didn't expect their stealth cultivation method was seen by Ye Mo. Even great immortals wouldn't be able to see through it how was Ye Mo able to do it?

Liu Zhongyan almost subconsciously took out his magic artefact but seeing Ye Mo's calm face, he immediately remembered that Ye Mo could instantly kill golden immortal middle stage.

"sorry, pill master Ye my wife and I hid our powers indeed. We're not intentionally trying to trick you, it's because our enemies are too strong. We have to hide everywhere. In this region, hollow immortals are the most common so we're just trying to avoid attention." Liu Zhongyan genuinely.

Then, he saluted with his fists and was about to leave. He realized why this pill master Ye ignored him.

Ye Mo smiled “don’t worry, because I feel you’re a little familiar..”

Ye Mo’s face changed he remembered who this person was. The two’s face changed and Liu Zhongyan released his magic artefact without hesitation looking warily at Ye Mo.

Ye Mo waved his hand and said “don’t worry if I wanted to kill you I wouldn’t even need to get up here.”

This was his pill concoction place, there were all sorts of attack formations.

Liu Zhongyan realized this and frowned. Although he didn’t put away his magic artefact but he took two steps back protecting his wife “I believe you’re right, I came from Yue Heng heaven. You probably saw many wanted signs in the immortal cities there, one of them is me.”

Ye Mo dazed. The reason he remembers Liu Zhongyan was because when the nine headed void devouring bug was ravaging North Far State, many sects went to Pei hai city for asylum. Ming Xin brought her sect too.

He went to their temporary meeting hall and saw an image. That image was Liu Zhongyan.

Seeing Liu Zhongyan being so nervous Ye Mo smiled “don’t worry I have no ill will. I saw an image that looked exactly like you in North Far State Immortal Herb valley.

“what?” Liu Zhongyan’s face went red with excitement “you’re a cultivator from Luo Yue continent? You’ve been to Immortal Herb valley? How is it now?”

Seeing this, Ye Mo knew that painting was probably Liu Zhongyan. Perhaps this person was the founding father of the Immortal Herb valley.

“have a seat first.” Ye Mo pointed at a chair and then he took out a few cups pouring a cup of ten thousand year stalagmite wine for everyone.

“good wine.” Hearing Ye Mo talk about Immortal Herb valley, the vigilance in Liu Zhongyan’s eyes were gone.

After he calmed down, Liu Zhongyan asked “pill master Ye I created Immortal Herb valley myself. How is it now? ever since I reached immortal realm I haven’t seen any more sect members ascend, what is going on?”

Ye Mo sighed “I don’t know if there were cultivators after you who ascended but I need to tell you, within these few hundred years don’t expect anyone to ascend. Even if there is, it would only be one.”

He was talking about Qin Muxin. She was cultivating in South Peace State and had the potential to ascend.

“what is going on? Pill master Ye please enlighten me, thank you.” Liu Zhongyan saluted with his fists.

Ye Mo nodded “I don’t know how long brother Liu had ascended but right now the spirit chi in North Far State is very deprived. Immortal Herb valley is only a 5 star sect, the strongest is only hollow spirit state.”

“what?” Liu Zhongyan was completely dazed. A hundred thousand years ago, the Immortal Herb valley flourished in his hands. How did a 9 star sect fall to 5 star sect?

Liu Man comforted on the side, Ye Mo could only say “not only Immortal Herb valley, the biggest sects in North Far State are only two 8 star sects, there wasn’t even a single truth realisation state cultivator.”

“North Far State fell to such extent...” Liu Zhongyan murmured “no wonder there was no more disciples ascending after me.”

In Liu Man’s comfort he recovered a little and asked “pill master Ye I didn’t expect you to be Luo Yue continent North Far State cultivator. The 33 heavens of immortal realm are boundless and it’s fat that

we could meet. However, I offended someone tough in Yue Heng Heaven and I could only flee to Wen Ju heaven.”

Liu Zhongyan sighed “after I ascended, I was at Yue Heng heaven. Cultivation was hard but I was a level nine pill king and so I didn’t lack cultivation resources in Yue Heng heaven. Level nine pills aren’t useful for golden immortal cultivators but they are useful to most hollow immortal cultivators. I lived a better than average life because of this.

When I just ascended to the immortal realm I thought all the cultivators here were immortals and would be more generous than the people in the cultivation realm but I was too naïve. I got a heaven flame, Blue End flame...”

“ranked 10th in the cultivation realm?” Ye Mo said.

Liu Zhongyan nodded “yes but I didn’t expect I was fine to have it in the cultivation realm but get into trouble because of it in the immortal realm. my flame was seen by a cultivator called Han Wei. My flame was blue at the time and he immediately wanted my flame. He offered my 5000 top grade immortal crystals.”

Ye Mo sneered, this Han Wei was too dominant to make such a price.

Liu Zhongyan said “I rejected immediately, 5000 immortal crystals was a huge fortune for me at the time but even if he gave me 100 times more I wasn’t going to sell it to him.”

“he robbed it?” Ye Mo asked.

Liu Zhongyan shook his head “his origin is big but he didn’t dare to rob in the Feng Gang immortal city. He didn’t say much but I felt things weren’t good. I didn’t go and waited nearly two years before carefully leaving. However two years later he still wanted my flame and chased me.”

Chapter 1558: Extremely powerful immortal

Liu Zhongyan held his wife's hand and said "if it wasn't for my wife, I would've died to him already. He suddenly attacked me a few million km away from the city. I used a tattered rune I got at the market place to counter attack and injured him a little. At the time he was hollow immortal tertiary stage and I was only a hollow immortal primary stage.

When I was ready to die I met my wife. She was hollow immortal tertiary stage at the time and she had bought pills from me before. she knew Han wei and knew he was a bad person. So she helped me and ambushed Han Wei. After we killed him, we fled out of Yue Heng heaven to avoid being hunted by Lu Zhengqun.

"Lu Zhengqun?" Ye Mo didn't expect Liu Zhongyan would bring this name up.

Liu Zhongyan nodded "it's Lu Zhengqun, he's the heaven lord of Yue Heng heaven. That Han Wei had some power but he was someone who couldn't be more insignificant to Lu Zhengqun. I don't know why Lu Zhengqun would sent an order to hunt me for that. I was almost caught many times in Yue Heng heaven. Luckily we met a good person who took us out of Yue Heng heaven. Then, we went across a few more heaven domains and came to here. Lu Zhengqun was powerful but he wouldn't be able to find us here."

Ye Mo didn't expect Liu Zhongyan to not only come from the same place as him but also have the same enemy. But he wouldn't say he had enmity with Lu Zhengqun.

"my wife changed her surname to mine and concocts pills with me as well. However, although I was the top pill king in the cultivation realm I couldn't break through to immortal pill master here. My wife is the same too." Liu Zhongyan sighed.

Hearing this, Ye Mo realized how lucky he was. Liu Zhongyan used more than a hundred thousand years but was only golden immortal tertiary stage. He had only cultivated a few years and reached golden immortal primary stage. He also used just a few days to reach immortal pill master from level nine pill king.

From this, one could see the power of the Three Birth Chant. No wonder the divine damnation was so harsh on him. He had bad talent and was this absurd using the Three Birth Chant, what if a talented cultivator used Three Birth Chant? Just how terrifying would that be?

But Ye Mo knew that someone with 8 spirit roots was very rare.

Ye Mo had decided to help the couple now.

He felt uncomfortable thinking about that Lu Zhengqun and asked “do you know what power is that Lu Zhengqun?”

“a hundred thousand years ago, I heard he was great eternity immortal. I don’t know if he is immortal king now but I guess he probably did. He’s the heaven lord, it should be very easy for him to get cultivation resources.” Liu Zhongyan frowned.

Liu Man added “I heard it’s very hard to reach status immortal in the lower 11 heaven domains.”

Ye Mo sighed. He had golden page world and Three Birth Chant, with time he didn’t believe he couldn’t take out a great eternity immortal.

Ye Mo said “brother Liu, I have some connections with your Immortal Herb valley. If you’re willing then stay at Black Weed pill tower...”

“of course we’re willing.” Liu Zhongyan got up in surprise and joy. he then wanted to pull his wife to be Ye Mo’s disciple.

Ye Mo knew what Liu Zhongyan meant and quickly waved his hand “brother Liu don’t worry, you’re stronger than me. plus, you’re much older than me. we’re establish equal relationship. There’s no need to be my disciple.”

“how can that be?” Liu Zhongyan quickly said. He wanted to study pill concoction so he needed to serve Ye Mo as master. he started a sect, he cared a lot about this.

Ye Mo smiled “let’s not fuss about that, concoct a cauldron of pills and show me first.”

Hearing this, Liu Zhongyan couldn't really persist. He estimated that Ye Mo didn't ascend for long at most 50000 years. But he couldn't really ask Ye Mo. If he knew Ye Mo only ascended for 5 years he would probably go crazy.

Anyone would go crazy hearing about this.

Liu Zhongyan immediately released Blue End flame and took out a set up immortal spirit herbs, planning to concoct earth essence pill in front of him.

Seeing Liu Zhongyan melt the immortal spirit herb, gather spirit, condense pill, separate pill, pull pill and then it failed.

Ye Mo sighed, he knew that Liu Zhongyan made the same mistake as him and much more serious. Other than gathering spirit, he didn't keep the immortal vibe of the immortal pill. he would forever remain a level nine pill king like this.

It's not that his talent was bad but he just needed to break through that thin layer.

But ever since coming to the immortal realm he had been running around and had no one to teach him.

If he really sat down and studied it for a few hundred years he might realize it himself.

"pill master Ye, was there something wrong with his pill concoction method that prevents us from concocting immortal pills." Liu Man saw the pitiful look in Ye Mo's eyes and released that this pill master Ye knew what their problem was.

Ye Mo nodded and took out an empty jade slip and wrote some of his pill concoction experience and gave it to Liu Zhongyan "look at this and in your next cauldron you should be able to concoct immortal pills."

"huh..." Liu Zhongyan thought Ye Mo was joking with him.

However, he still quickly looked at Ye Mo's jade slip. Moments later he said shakily "it's that simple?"

"it's that simple." Ye Mo said affirmatively.

Liu Man looked at the jade slip took, she had the same disbelief and excitement in Liu Zhongyan's eyes. It was something this simple that held them back for a hundred thousand years?

Ye Mo said "it's not that you couldn't get it yourself but you didn't take the time to think about it."

Liu Man thought about things and agreed.

At this moment, desperately took out another set of immortal spirit herb and threw it into the cauldron. In less than 15 minutes a cauldron of earth essence pill appeared in his hands.

"I did it..." it was just a batch of low grade earth essence pills but Liu Zhongyan couldn't contain his excitement. One could see how desperate he was to concoct immortal pills.

When the two woke up from their excitement Ye Mo rejected Liu Zhongyan again for being his disciple. he knew by leading Liu Zhongyan into the front door, this cultivator who created his own sect would definitely achieve something big.

Liu Zhongyan calmed down and said to Ye Mo "pill master Ye, you're my savior. Even if I create the Immortal Herb valley again you will be my master."

...

With their addition, Ye Mo could finally free up. He didn't need to do pill concoction as soon as he came out of solitary cultivation. He could even walk around the town now.

However he didn't enjoy this free time for long. In less than half a month, Jiang Jin came to his place.

“another person wants to join us?” ymlooked at Jiang Jin.

Jiang Jin said quietly “brother Ye it’s an extremely powerful immortal this time. Do you think it’s dangerous?”

“extremely powerful immortal?” Ye Mo got up and looked at Jiang Jin in confusion.

Jiang Jin nodded “yes brother Yi says he can’t see his cultivation level.”

Chapter 1559: Free dual cultivation partner

If Yi Teng with his golden immortal power couldn’t see this person’s cultivation level it meant that this person was at least abstruse immortal. Ye Mo frowned. Abstruse immortal was fine but if it was great unity immortal, he wouldn’t even have the opportunity to teleport away.

“it’s a very pretty female cultivator. I arranged her to stay at the guest hall.” Jiang Jin added.

Ye Mo nodded and said “I’ll go have a look, don’t worry.”

...

Ye Mo didn’t scan his spirit sense into the guest hall. He knew that high level immortals detested this. some people with strange tempers would kill for this.

A blue dressed woman sat in the guest room. her brow was perfect, she was extremely pretty. She was on par with Wen Caiyi. Her long dark hair formed two braids behind her while a few strands fell on her white collar.

When he saw this female cultivator’s power, he breathed easy. She was golden immortal peak stage. Yi Teng couldn’t see her power because she hid it like the Liu Zhongyan couple.

Seeing Ye Mo come in, she didn't get up nor speak. She just studied Ye Mo.

"what does qian bei need me for?" Ye Mo saluted with his fists and asked. Since this person was going to hide her power, he would pretend he didn't know.

The female cultivator studied Ye Mo and frowned even more murmuring to herself "pity your power is too weak."

Ye Mo sneered, a mere golden immortal peak stage dared to say his power was too weak. In his view, she was no match for him.

Then she looked at Ye Mo "have a seat, let me introduce myself, I'm Qin Nianmei, I'm from Gong Hua heaven..."

Seeing her act as though she was the owner of this place, Ye Mo was annoyed but hearing the words Gong Hua heaven, he suppressed his annoyance. That's where he arranged to meet up with Susu and them. He was planning to go there after reaching abstruse immortal.

Seeing Ye Mo not talk, she nodded "I'm passing by Black Weed forest and I heard you were a level three immortal pill master and golden immortal."

Ye Mo said calmly "goddess Qin, if you have anything to say be straight forward."

Qin Nianmei looked at Ye Mo with surprise. Theoretically, she was much more powerful than this person and he should be careful when speaking to her. This was the first time she saw someone talk like that. He also changed her title from qian bei to goddess. Was he not afraid she would kill him?

She nodded. She needed someone like Ye Mo, if it was someone scared and timid, she came here for nothing.

"I want you to be by dual cultivation partner." Qin Nianmei said.

Ye Mo dazed, he thought of many possibilities. She might be here for pill concoction or immortal spirit herb or even scam some of his immortal crystals. But he never expected this pretty woman to come be his dual cultivation partner.

“so that means we need to be husband and wife.” Qin Nianmei looked at the dazed Ye Mo and added. She was also a little satisfied seeing Ye Mo’s expression. Any male cultivator would feel it was unbelievable.

Although Ye Mo didn’t know why she said this but he knew things weren’t right. Even if it was real he didn’t plan on being her dual cultivation partner.

His perception was strong, as soon as he saw this female cultivator, it reminded him of Wen Caiyi. They were the same type of person, self centered and dominant.

“as long as you agree to my request, I will...” Qin Nianmei continued.

But this time Ye Mo stopped her “sorry, I can’t help you. I have a wife, if there’s nothing else please leave.”

Qin Nianmei never expected Ye Mo to reject. Although she was about to say it was temporary but she couldn’t take the fact that Ye Mo rejected without her saying it.

She felt extremely dissatisfied and grunted “I believe you misunderstood me. I’m not low enough to find a random person and be his wife. I’m doing a deal. You pretend to be my lover and we put on a show, that’s all.”

Ye Mo smiled “goddess Qin, I don’t even have enough time for cultivation I don’t have time to play games with you sorry.”

Then he got up and was about to leave.

“do you believe if you leave here I would immediately erase your black weed pill tower?” seeing that a mere golden immortal primary stage dared to ignore her and leave she immediately roared.

Ye Mo turned back coldly "I don't."

Then, Ye Mo kept walking. Qin Nianmei was desperate and she spat "I can give you anything you want."

This guy was a level three immortal pill master and had a bad tempere, this was her perfect choice.

Ye Mo sneered, give him anything he wanted? She really knew how to talk big.

"look." Qin Nianmei waved her hand and a large bunch of things landed on the table before her. There was everything.

Ye Mo thought she was going to use force but instead she used things to lure him. Ye Mo scanned his spirit sense over.

He had to admit she was wealthy. There was not a single immortal crystals but the things were good. There was even level five immortal runes, all sorts of pills, materials and even a middle grade flying immortal artefact.

This made Ye Mo realized she had no simple identity. The price of a middle grade flying immortal artefact was no lower than a top grade attack immortal artefact.

Even so, Ye Mo didn't take it seriously.

Seeing Ye Mo was still going to go out, Qin Nianmei immediately knew Ye Mo wasn't someone to take threats. She quickly said "I take back what I said. I apologise."

Ye Mo was at the door but he didn't stop hearing the apology. He just said "in that case please leave, this is my place."

Qin Nianmei quickly said “pill master Ye I’ll show you some more things if you still don’t want to cooperate then I’ll leave immediately. I believe as a businessman, you wouldn’t not have the patience to not even listen to what I have to say right? Plus perhaps one day you might come to Gong Hua heaven.”

Hearing this, Ye Mo stopped. He wasn’t afraid of her threats but if she was really someone powerful from Gong Hua heaven it wasn’t good to offend her like this.

Seeing Ye Mo come back, Qin Nianmei rejoiced. She took out more items and said “look at these things, if there’s anything you like we can discuss or you can bring up your own conditions.”

Qin Nianmei didn’t believe Ye Mo wouldn’t deal with her. Ye Mo was an immortal pill master and he definitely had a rare flame. She had a wonder flame purple marrow. This could allow any rare flame to evolve to purple color.

Ye Mo laughed to himself. Clearly this Qin Nianmei had no business experience, she revealed all her cards at the start of the negotiation but because of this Ye Mo had some good impression of her instead.

Ye Mo saw it. if it was in the cultivation realm he would be overjoyed but now he wasn’t that happy. Even if a flame reached purple in the immortal realm, it was still the lowest grade of flame. His mist lotus heart fire was deep purple. Even if he used it on Blue Like Morning Sky it would only be shallow purple. It was no rush.

Of course he would be willing to get it but Qin Nianmei’s condition was too great. He would rather not have it.

Chapter 1560: The fifth stone stool

Ye Mo knew how hard it was for flames to upgrade in the immortal realm. a mere wonder flame purple marrow would only start the flame of. He knew that the number one flame of the immortal realm must devour the space flame marrow but it wasn’t very specific. He had looked at the jade slip the great eternity immortal young girl gave him. Even with the space star marrow, not any flame could devour it.

There was a simple sentence describing the levels of flames in the immortal realm “purple reincarnation is three, beyond reincarnation is immortal, the extreme of immortal, god flame is unparalleled.”

Any flame that can evolve could devour another material or the same type of flame after reaching purple color. Then when it could it would go under reincarnation.

After reincarnation, the flame would have a flame spirit, a flame that was alive. At this moment the purple flame would form a faint golden circle. This was purple reincarnation level one flame.

When it evolved again, it would form a second golden circle, this was level two purple reincarnation flame. When it evolved again and formed the third golden circle, it would become level three purple reincarnation flame.

If it formed the fourth golden ring, it wasn't a flame anymore, it was an immortal flame. Five rings, six rings were level five and level six immortal flame.

The height a flame can reach is related to which material it devours and it's reincarnation. The first reincarnation was very important as it concerned if a flame could reach higher levels in the future. Of course, according to record it's almost all heaven flame that could reach immortal flame. Rarely could earth flame reach immortal flame level.

So the higher the grade of the heaven flame, the higher altitude it can reach. In the immortal realm, it's always the top ten heaven flames that becomes immortal flame.

Once a flame becomes level six immortal flame it would reach an extreme if it evolved again. At this moment, the fire spirit had reached great completion and is about to form god flame. In the immortal realm, god flame is the highest level flame.

Only once does a flame become god flame could it possibly become the number one flame of the immortal realm as only god flame can devour star flame marrow. Then, it would immediately become the number one flame of the immortal realm.

If two flames devoured the star flame marrow, then these flames would devour each other on contact and the victor would be the number one flame of the immortal realm.

The reason that it's said only the second to the tenth heaven flame could become the number one flame was because no flames other than them could reach god flame.

Ye Mo thought of that soft tofu he found in the flame sea forbidden grounds, he wondered if that was star flame marrow.

...

Blue Like Morning Sky was indeed higher ranked than mist lotus heart fire but the thing was that mist lotus heart fire was enough to use for now. he knew mist lotus heart fire wouldn't be able to reach god flame but he didn't worry. God flame was too far fetched for him.

Of course, if he could use some other means to get the wonder flame purple marrow he would do it without hesitation.

Ye Mo looked through the other things she left behind mindlessly as though trying to find a way to keep the wonder flame purple marrow.

Qin Nianmei resisted the urge to talk seeing that Ye Mo was looking.

"hmm..." Ye Mo found a crystal orb amongst this pile. The reason he took it was that on the surface of it there was a hidden stone stool, it looked very similar to his four stools in the golden page world.

Ye Mo's heart began to throb. If there was something he needed the most, the fifth stone stool was obviously it.

Seeing this, Qin Nianmei quickly said "i recorded the auction of a stone stool during one auction. Because the stone stool made the record price I recorded it. my father said there should be five of them that are exactly the same. If one day I can find one I would be rich."

Ye Mo's heart sunk. Record high price, no matter who bought it it wasn't someone he could take on now.

Qin Nianmei suddenly said “that stone stool was sold for 1.8 billion top grade immortal crystals and another top grade immortal range.”

Ye Mo took a cold breath in.

Before she said anything else, Ye Mo scanned his spirit sense in.

A crystal clear stone stool appeared in Ye Mo’s spirit sense. it was exactly the same as the other four in his golden page world. the words were written clearly, “water, five elements gather, world complete.”

He was missing the water element stone stool. If he found that one, his golden page world would be complete. Then that would be he had his own true world.

Ye Mo’s heart was throbbing with excitement. If he could control a world it meant he could set up cultivation grounds inside the golden page world and live in an utopia with the people he liked.

Qin Nianmei glanced at Ye Mo with a strange look, Ye Mo’s heart went cold. His excitement was poured over with ice. Would this woman suspect him if she saw he was so interested in the stone stool?

Thinking about this, he almost wanted to kill her.

Just when he was still thinking, Qin Nianmei suddenly said “have you made up your mind, if there’s anything you like here just take it. even that crystal ball, I can make a copy for you.”

Ye Mo smiled awkwardly “there’s such a valuable item I was thinking if I happened to get it I don’t need to concoct pills anymore.”

Qin Nianmei laughed out loud and pointed at Ye Mo “you shouldn’t dream that high. I thought the same but do you know how many people recorded the auction? Everyone there did but no one found a second stone stool anymore. So, don’t think about it.”

Ye Mo pretended to put down the crystal ball awkwardly and shook his head “I know I was think fantasizing.”

Then Ye Mo asked casually “by the way, who has the wealth to spend all that much for a stone stool?”

Qin Nianmei’s face suddenly went cold and put away everything on the table “since you’re not interested in my things then never mind I’m going.”

Then she got up and was about to leave.

This time, Ye Mo was desperate. If she leaves, where would he go find that stone stool?

But Ye Mo had to pretend like he didn’t even care. He even suspected that Qin Nianmei noticed he was desperate for the whereabouts of the stone stool.
