

Strongest As 1581

Chapter 1581: Skeleton at the Bottom of the Well

She didn't have much trouble reaching king state peak stage after this half year of cultivation. She felt that without a good cultivation method, you would be much worse compared to others no matter how hard you tried.

Ye Mo was tortured by the space wind blades and chaos flows before reaching king state, but Zhen Bingyu was much stronger than Ye Mo so she didn't have much trouble reaching king state.

As soon as she left the stone forest she wanted to go find Ye Mo and tell him he couldn't spill this jade slip.

Not long after she left, a figure suddenly dropped from the sky and splatted on the ground.

Zhen Bingyu immediately stopped and released her black sword. She knew that the cultivator fell from the sky due to the Shadowless Vulture ambush.

This was why she admired Ye Mo before, Ye Mo definitely was powerful to be able to hunt Shadowless Vultures here. It was a pity she only saved Ye Mo once and couldn't ask for his cultivation method for this.

Half a moment later, Zhen Bingyu was certain the Shadowless Vulture was gone before looking at the dead cultivator. He was golden immortal tertiary stage and his storage ring was gone. Zhen Bingyu knew that the vulture took it, they were extremely smart.

The dead cultivator also had a messenger flying sword but it wasn't sent out. Zhen Bingyu scanned it and immediately saw the message inside.

"Extreme Star Swamp, a thousand kilometers west: a Chaos Blue Reed appeared, I am being hunted..."

“Chaos Blue Reed?” Zhen Bingyu’s hands shook and almost dropped this flying sword. This was extremely precious, more precious than a level nine immortal spirit herb. If news got out, people would go crazy.

A Chaos Blue Reed could not only allow any immortal to rebuild his body, but the body would be top grade. This was the weakest use of it, if directly consumed it could allow a great eternity immortal to reach an immortal king.

The reason there were so few status immortals in the 33 heavens was because it was too hard to reach. Having immortal crystals and talent alone wasn’t enough.

To her, she was most excited about it because it was the best immortal spirit herb for body refinement nirvana – but it was too extravagant to use it on nirvana. If one could get the Chaos Blue Reed, no one would want to use it for body refinement.

So this meant that when this cultivator found the Chaos Blue Reed, another cultivator found it too. This cultivator tried to notify his friend but was killed to seal off the news.

His body was here, so where was the cultivator who hunted him?

Zhen Bingyu frowned and soon guessed that this cultivator wanted to run and in his desperation could only use his flying magic artifact. That cultivator also chased with flying magic artifact so they were both killed by Shadowless Vulture.

She quickly cast these thoughts aside. She was king state now and even though god state was hard she would be able to reach there in a few years time with Ye Mo’s cultivation method. Then, she would be facing body refinement nirvana.

She must get the Chaos Blue Reed, Zhen Bingyu soon made up her mind.

She had been in here for a few months and still hadn’t gone to the depth because she wanted to get used to this place first.

But now she was and reached king state too. It was time to go to the Extreme Star Swamp. After that she would plan to go to level two for her trial. She would have to delay warning Ye Mo.

She knew about this Extreme Star Swamp.

In the Chaos Star Realm, you couldn't use immortal essence and spirit sense in many places.

But in the Extreme Star Swamp, the spirit sense and immortal essence suppression was almost non-existent. You can only rely on your own body. Of course, magic artifacts that didn't require spirit sense control were also good.

Zhen Bingyu immediately thought of Ye Mo. To him, this swamp was the best place. His body refinement cultivation was much higher than hers, and looking at his sword ray, it was more like sword technique rather than sword art.

But she didn't dare to go call Ye Mo. If there was only one Chaos Blue Reed, she was certain that Ye Mo wouldn't give it to her.

She was grateful that Ye Mo gave her body refinement cultivation method but she still went to the swamp alone without hesitation.

...

After half a year of solitary cultivation, Ye Mo reached golden immortal middle stage and felt the exhaustion of the Hidden Ice Immortal Well.

Another few days later, Ye Mo felt that immortal well had completely disappeared before putting away the time formation disk and his formations.

The cultivation effect of the immortal well was too good, but there was too little.

Ye Mo didn't leave immediately. He felt that since the well came below the pond, he should go down and see.

Who knew what good things could be down there?

When Ye Mo carefully went into the pond, he realized how piercing cold it was. It was on par with the South Peace State's Ice God forbidden grounds. The only difference was that you couldn't feel it until you went inside it.

When Ye Mo dived for tens of kilometers without reaching the bottom, he felt things weren't right. He slowed down and released his octagonal cauldron.

Five minutes later, Ye Mo saw the bottom of the pond, he even suspected this place was more than 100 kilometers deep. This was the first time he had seen such a deep pond.

There was no mud at all at the bottom. Instead, there were flat stone blocks. After walking for about 30 minutes, Ye Mo was getting more and more shocked.

Before he went in, the surface of the pond was only about 10,000 square meters, but now, it seemed more than 1000 times that.

This place seemed like a perfectly flat square, Ye Mo searched for hours and found nothing meaningful.

Just when he wanted to leave, he found an extremely weak stealth restriction. Ye Mo carefully entered it and immediately felt an ancient sensation. Ye Mo released Zi Xu and carefully scanned his spirit sense around.

Moments later, he saw what it was. Tens of meters ahead of him sat an immortal. The ancient sensation came from him, but this immortal was just a skeleton now.

He was definitely an ancient powerful being. Ye Mo exclaimed and carefully walked near this immortal. There was a faint golden color emitting from the skeleton. It was in this cold water for countless years and yet it was completely fine. There was a sliver of black in the front of the bones.

The skeleton only had one hand left. It's only hand grabbed a golden staff, but it had no storage ring.

Ye Mo carefully scanned his spirit sense on the skeleton.

When his spirit sense reached the eyes, a terrifying power seeped out of the eyes. Ye Mo's body shook and his essence spirit loosened up. He couldn't even control his movement and took tens of steps back.

There, Ye Mo stared at the bones in shock. He clearly felt no life – why was there such terrifying killing chi?

“You're alive?” after a while, Ye Mo asked.

Chapter 1582: You Idiot

There was no reply.

Ye Mo breathed easy, just what power level was this guy when he lived? He had been dead for all these years but the remnant chi he had could force a golden immortal middle stage back so many times. This person was definitely countless times stronger than the Freedom King.

Ye Mo's spirit sense fell on that staff. He knew it was definitely a top grade magic artifact. He was an immortal forgery master but still couldn't tell what level it was.

Although Ye Mo knew the golden skeleton was a priceless treasure, he had no interest in this body.

He would take the staff and go. This wasn't a place to stay for long.

Thinking about this, Ye Mo tried to take the staff with his spirit sense.

“You’re not the fated one...”

Another extremely powerful force shook him further away. those words were imprinted in his brain.

“Qian bei’s essence spirit is still alive?” Ye Mo asked with uncertainty. If this person even had just a sliver of essence spirit left, he wouldn’t be able to get up from here.

“Only a status immortal can be fated, come back after you become a status immortal.” That message appeared in his brain.

Ye Mo was certain that the skeleton had sliver of essence spirit left and quickly bowed. “Wan bei was impulsive and broke into qian bei’s solitary cultivation grounds. Wan bei will leave now and promise not to spill this place out.”

“If in the future you can go to Fan Du Heaven’s Nine Fan Immortal Pond and kill Yu Jinxiang for me, I will immediately give you something you really need and another powerful heritage.” A message appeared in his mind again.

Ye Mo sneered, Fan Du Heaven was one of the 11 grand heaven domains – going there to kill someone was suicide. Plus, he already had enough good things. The staff was good, but dying for it was not worth it. Plus, this essence spirit didn’t even force him to make an oath, things clearly weren’t ordinary.

Seeing there was no resistance, Ye Mo accelerated and quickly left from this broken stealth formation. As soon as he came out, he received another message. “Sigh, you don’t even care about the Chaos Blue Reed.”

Ye Mo was shook. As an immortal pill great master, he knew what it was better than anyone.

It was the best body refinement nirvana immortal spirit herb. It’s value wasn’t something ordinary level nine immortal spirit herbs could compare with. Yet this person knew he needed it the most now.

If it was some other immortal who was god state peak stage, he definitely would turn back, but Ye Mo was used to seeing things much better than the Chaos Blue Reed.

The Chaos Blue Reed was precious, but since there was life threatening danger he didn't want to stay here. This essence spirit could send messages in his brain so easily. Even though he wasn't afraid of possession, he didn't want to stay here.

Without hesitation, he turned his head back, fleeing with water mobility.

The reason he turned back was to confuse the skeleton. Regardless whether skeleton tried to keep him or not, Ye Mo would leave first out of safety. If that skeleton indeed wanted to attack him trying to get him to go back, perhaps that action might buy a second for him.

Indeed, as soon as Ye Mo used mobility, a powerful spirit sense charged into his octagonal cauldron. Even though Ye Mo had a spirit sense cultivation method, he felt extremely weak and immediately spat blood. This skeleton indeed wanted to harm him.

But that spirit sense could only attack Ye Mo once and couldn't keep hunting him anymore. Ye Mo charged to the side quickly and fell to the ground panting for breath. That was too close, luckily he was golden immortal middle stage and was vigilant and wasn't lured by the Chaos Blue Reed. Otherwise, he wouldn't just be dead.

He was certain that the skeleton used a spirit sense cultivation method, one that was more powerful than his. But Ye Mo didn't understand why the skeleton didn't attack when he first entered the stealth formation and instead attacked after he left.

Ye Mo sat down after a while and found in shock that his spirit sense was extremely weak and couldn't even recover. Now, he realized why the skeleton didn't attack when he first went in. the skeleton could only use it once and he saved it for possession. Seeing that he was going, he got worried.

More than half of his power was related to spirit sense. What would he do if his sea of consciousness was damaged just due to one attack?

This person only had a sliver of essence spirit left and there was such a distance between them and in a rush, yet he could still heavily injure his spirit sense. Just how powerful was this person? This cultivator's spirit sense was so powerful, meaning that he had a powerful spirit sense cultivation method. If he was closer, even a great unity immortal cultivator would be killed.

Ye Mo panted, his body was still very weak and his spirit sense was greatly damaged. Now, he couldn't even gather up his immortal essence.

He slowly got up. Despite knowing that skeleton couldn't come to the surface, Ye Mo didn't want to stay here anymore. If he knew there was such a terrifying skeleton below, he wouldn't dare to cultivate here for half a year.

Luckily he had many Corner Soul Weeds. He couldn't take them out now, but if he recovered a little spirit sense he could. He needed to find a place to recover his spirit sense now.

He couldn't use his spirit sense so he couldn't connect to the Golden Page World and go in.

Ye Mo was very careful. He knew that there was a huge blue rock on the way he came and there was only five minutes distance to it. As long as he got near there he would be able to hide inside, recover some of his sea of consciousness and go into the Golden Page World and use Corner Soul Weeds.

Ye Mo only walked out for less than 15 minutes when a blue figure rapidly came over. There was someone chasing behind the blue figure. The blue figure seemed heavily injured.

Moments later, that figure was in front of Ye Mo. When he saw who that cultivator was, Ye Mo almost cursed.

It was that cold faced Zhen Bingyu. Her hair was messy and blood was all over her body.

When he saw her, she also saw him. There was surprise and joy in her eyes and she quickly said, "Martial brother, Ye please help!"

Ye Mo carefully moved to the side, meaning: keep running, this has nothing to do with me.

But Zhen Bingyu didn't notice at all, she went to Ye Mo's side and stopped. She released her black sword and hacked over at the chasing abstruse immortal with a sword mist.

This was an abstruse immortal middle stage. Zhen Bingyu was no match for him even if she wasn't injured, but now she was heavily injured.

"I'll hold this person here, quickly attack!" Zhen Bingyu thought Ye Mo would immediately attack as Ye Mo gave her the impression that he knew when to take the best opportunity.

She believed that Ye Mo would help no matter what. This person was an abstruse immortal middle stage and if Ye Mo killed him, his storage ring would be a fortune. Plus, she knew Ye Mo.

But what shook her was that Ye Mo didn't even move and yelled instead, "Help my ass, what direction can't you run to? Why do you have to run over here? You only haven't seen me for half a year, do you miss me this much? You idiot!"

Chapter 1583: Zhen Bingyu's State

Ye Mo couldn't not be furious, this was his weakest moment. He was meat on the chopping block, but Zhen Bingyu brought over such a powerful enemy. And since Zhen Bingyu was no match for him, after she was killed, he would be next. But now, he couldn't even use his final means and go into the Golden Page World. How could he not despair?

Zhen Bingyu frowned seeing that Ye Mo didn't attack, but when Ye Mo cursed, she felt something wasn't right.

At this moment, her sword mist had been broken and before she could take her sword back, countless dark rays shot over. A huge black dragon magic artifact roared over. Zhen Bingyu knew that if she was caught by that she would be dead for sure.

She didn't have the time to think and released a rainbow cloud stamp. It blocked the area in front of her. She knew it wasn't enough to stop it but she couldn't care that much anymore.

Thud thud

The black rays shot on the rainbow stamp, but even so it couldn't block the rest.

With a splurge, a dark ray pierced her right rib and another dark ray shot into Ye Mo's chest. His body refinement was powerful, but he hadn't gone through nirvana yet.

Zhen Bingyu immediately realized why Ye Mo called her an idiot, he was heavily injured too, much more serious than her. The cultivator she brought over was going to kill Ye Mo.

Realizing this, Zhen Bingyu spat out essence blood and released a rune.

The sky rattled heavily and the rune brought about a space wind storm as though about to tear the person caught in it to countless pieces. The abstruse immortal middle stage knew the terrifying power of this rune and immediately released a defense magic artifact while retreating. He didn't believe she would be able to get away. So what if she had a rune? Did she have more?

Zhen Bingyu took out another rune however and spat another mouthful of blood of essence blood.

Instant transmission rune. Ye Mo cursed, after she left with that rune he would still have to die. Having a great eternity immortal master was good indeed. She even had a rune that only status immortals could make. But he clearly thought too lowly of Zhen Bingyu; when she activated the rune, Ye Mo felt a faint aroma come over and a soft body took him.

The next moment, there was a feeling of dizziness. Ye Mo relaxed a little, he knew he his life was saved.

...

In an extremely ordinary cave, Zhen Bingyu took Ye Mo inside with a pale face before setting up a few simple low level stealth restrictions before sitting down and panting. At this moment, she had used up almost all of her spirit sense and immortal essence. She was very weak due to repeated burning of essence blood.

"It was my bad before, sorry. When I came I didn't know you were injured," Zhen Bingyu said.

Ye Mo felt a little embarrassed. Not long ago, he called her an idiot but now she saved him again.

Ye Mo coughed and waved his hand. "Never mind, you saved me. How did you offend such a powerful guy? Even if I wasn't injured, I would most likely lose fighting this guy."

As he spoke, Ye Mo pulled the dark ray out from his chest while thinking whether he should ask for some pills from her.

What shook him was that Zhen Bingyu changed her clothes in front of him. That blue dress was quickly taken off. She seemed to be about to take off her inner clothes. Of course Ye Mo wasn't going to look, but Zhen Bingyu didn't seem to intend to avoid him at all.

After the blue dress was gone, there was an extremely thin inner armor made with Heaven Meridian Worm's silk, but that shockingly curvaceous body and silky white skin was revealed. The sturdy two hills in front of her chest were half revealed too.

If this woman wasn't always cold and never flirted, Ye Mo would almost think she was trying to seduce him.

"Wait..." Ye Mo stopped her.

Seeing her turn back, Ye Mo coughed, "Martial sister Bingyu, you don't avoid people when you change clothes?"

Hearing this, Zhen Bingyu frowned and said coldly, "It's just a body, nothing worth avoiding. If you almost succumb to this corporal lust, you will forever be like this. Your body refinement cultivation method is indeed powerful, but your cultivation level is only..."

"Hmm..." Zhen Bingyu stared at Ye Mo in shock. "You reached golden immortal middle stage in half a year, how is that possible?"

Then as though thinking of something, she nodded. "The cultivation method heritage you got is very substantial, if you focus on the pursuit of dao..."

Then she shook her head as though knowing that Ye Mo wouldn't be able to do that. Mu Wushuang was that powerful but he was still ganged up and killed. If he focused on his dao, would this happen?

She didn't try to persuade Ye Mo anymore and continued to take off her inner clothes. She used a cleansing spell before taking out a new set and changed into it in front of Ye Mo

I know your heritage is very powerful, but what I need to tell you is that you must not spill it or you will be dead for sure."

She finally realized why this woman knew he came out with Feng Chunmo but still acted so calm. To her it was just corporal lust.

It wasn't that she didn't understand the things between men and women, but she didn't care. She knew how to protect herself.

Facing a goddess with such a beautiful face and body, Ye Mo suddenly felt at a loss.

"So this means you would be willing if someone wants to sleep with you?" Ye Mo suddenly really wanted to know if she would agree.

Zhen Bingyu had finished changing her clothes and sneered. "Keep dreaming!"

"I'm not someone as innocent as Feng Chunmo. I would never give my virginity essence chi to someone," Zhen Bingyu looked at Ye Mo in contempt.

"Do you do this often in front of other people? Do you do this out in the open?" Ye Mo asked.

"Would you change your clothes on the streets when you're heavily injured? Idiot, I'm changing here because you're more injured than me and you can't do anything to me!" Zhen Bingyu cursed back.

Ye Mo was completely speechless. This female cultivator seemed extremely cunning and was much more persistent in cultivation than most cultivators.

Was she really an emotionless goddess? Ye Mo felt a little strange, perhaps she thought her perception was correct.

True the body was just flesh and bones, but many cultivators came from being a mortal and couldn't change their perspective. But Ye Mo immediately shook his head, he felt if he really reached Zhen Bingyu's state it would be sad.

He would rather die of old age than be like Zhen Bingyu. Nothing else mattered except for reaching the top of dao.

"Can you lend me some pills?" Ye Mo asked.

Zhen Bingyu nodded and gave a jade bottle to Ye Mo. "When you recover we can do a deal."

Ye Mo ate a few pills and finally recovered some spirit sense. Then he took out his pills without hesitation and ate them in big handfuls. His pills were much better than hers, all top grade or extreme grade.

The power of the Three Birth Chant was shown, Ye Mo felt his immortal essence and sea of consciousness recover rapidly. But Ye Mo felt there was a shadow in his sea of consciousness that gave him an extreme sense of danger.

Then, Ye Mo took out a few formation flags and looked at Zhen Bingyu. "I need to change clothes too but my state isn't as high as yours. I need to set up a stealth formation."

Zhen Bingyu's face was cold and she closed her eyes to cultivate.

Ye Mo didn't care.

Ye Mo threw down tens of formation flags and when his figure disappeared, Zhen Bingyu suddenly got up and murmured, "He's a level two immortal formation master? How is there someone this insane?"

Chapter 1584: Luring the Enemy into Formation

After Ye Mo went in the stealth formation, he immediately took out a jade white Dark Weed and started repairing his spirit sense and sea of consciousness.

Only now did he feel the true power of the Dark Weed. His sea of consciousness was being repaired rapidly, it was many times better than pills.

Ye Mo was shaken, he didn't feel the Corner Soul Weed was anything special when his sea of consciousness was fine, but now that it was injured he realized why it was so precious. If he concocted it into the Dual Spirit Pill, wouldn't the effect be even better?

Dual Spirit Pills were level six immortal pill, Ye Mo had decided to concoct them as soon as he reached level six immortal pill great master.

After more than half of his sea of consciousness was repaired, a black dot appeared in his sea of consciousness. Ye Mo was shaken, he didn't even notice a skeleton who was about to die plant a mark in his sea of consciousness.

If he didn't have Corner Soul Weeds and other pills, it would be countless years before he could repair his sea of consciousness. After that, who knew what would happen? Perhaps this spirit sense mark would've fused with his spirit sense. Would that skeleton know everything he thought by then?

If that was really the case, then if that skeleton revived or possess someone else, he would be caught anywhere.

Thinking about this, Ye Mo was covered in cold sweat. He quickly forced out that dark shadow and sealed it with layers of restrictions before sealing it in a jade box. Then, he carefully sealed the jade box in the Golden Page World. Ye Mo didn't destroy it, he never liked to take such things passively. He would pay this skeleton back in the future.

After this, Ye Mo quickly stripped himself naked and burned everything with Mist Lotus Heart Fire before searching all over his body with it. Only when he was certain there were no more marks left did he feel assured. At the same time, he felt an increasingly desperate need for power.

Just when Ye Mo was about to put on his clothes, Zhen Bingyu suddenly charged in. Ye Mo was dazed but then quickly put on his clothes and stared coldly at Zhen Bingyu. "I know your dao heart is different than mine, but my body isn't just flesh and bones. I've set up a stealth formation, don't you think you should ask before you come in?"

Zhen Bingyu said expressionlessly, "When you reach the great dao you will realise that what I said is true. Body is just flesh and bones, that's it. Plus, I came in for a reason. That abstruse immortal middle stage just passed here not far away."

"How do you know?" Ye Mo asked. His body hadn't fully recovered yet, if that guy caught up, it would be very dangerous.

"I didn't get to take back my Black Sword and Rainbow Stamp. He is using them to sense my location. He didn't notice before, but if he passes here again he will," Zhen Bingyu said calmly.

"Why does he have to kill you?" Ye Mo asked with a frown.

"I will tell you when you recover. This also concerns our future cooperation." Zhen Bingyu nodded.

Ye Mo was helpless and could only continue his recovery. Half an hour later, his wounds had pretty much recovered. Now he breathed easy. Even if that abstruse immortal middle stage came now, he wasn't scared.

He then said to Zhen Bingyu, "I'm going to set up a formation now. When I'm finished, make that trash formation you set at the cave. At least it will allow him to be able to sense you."

"You want to draw that abstruse immortal over and trap him with a formation?" Zhen Bingyu immediately knew what Ye Mo meant and didn't feel unhappy at Ye Mo for calling her formation trash.

Ye Mo laughed. "That's right, I didn't do anything and this bastard hit me. I don't like it, I'm going to get him back."

Hearing this, Zhen Bingyu sighed. "It seems I was correct, my master overestimated you. You're not mature indeed, you're very impetuous, you're still not over something this small. No matter how powerful your heritage is, you won't be able to achieve the great dao."

Small thing? Ye Mo looked speechlessly at this woman. He was almost killed and this was small? There was nothing in common between them.

Ye Mo couldn't be bothered talking to her and started setting up formation flags. She clearly knew something about formations and was surprised looking at the way Ye Mo set them up. This was because she couldn't see them with her spirit sense after Ye Mo set them up.

Half an hour later, Ye Mo finished a stealth attack formation. Now, he just needed to wait for the abstruse immortal to come over and die.

"Which cultivation realm did you ascend from?" There was still no sign of that abstruse immortal so he asked Zhen Bingyu this question.

"I'm not an immortal ascension cultivator, I was with my master at the Extreme Sword Sect ever since I was young," Zhen Bingyu shook her head and said.

Ye Mo was a little confused, even if she was an immortal realm cultivator, there were no female cultivators who had the same perceptions as her.

"You want to ask why I don't care about the things between men and women right?" Zhen Bingyu was very smart.

Seeing Ye Mo not talk, she sneered. "If you want to say I'm shameless be straight forward. You don't understand my dao heart, it's pointless to tell you. Of course, if you can show me your formation jade slip so that I can easily set up a stealth formation, I would do it too."

Ye Mo sneered and couldn't be bothered talking to her. Her wits weren't small either and she wanted to use this opportunity to get his formation jade slip. Who did she think she was?

He gave her the body refinement jade slip because she saved him before. Although she saved him just now, she brought the danger here too.

Seeing Ye Mo ignore her, Zhen Bingyu didn't care. She knew that Ye Mo wouldn't agree anyways, but the body refinement cultivation method Ye Mo gave her was too powerful. If Ye Mo's formation jade slip was this powerful then she would soon become an immortal formation master too.

She didn't really intend to use Ye Mo.

...

The two didn't talk anymore. The silence didn't last for a few minutes before a spirit sense scanned into the cave and a dashing light came.

It was that abstruse immortal middle stage indeed, Zhen Bingyu changed the formation a little and that person sensed the two here.

Sensing this abstruse immortal's ferocious chi, Ye Mo knew that if he didn't use his formation, he wouldn't be a match for this guy if he was still golden immortal primary stage.

But now, he was golden immortal middle stage and had this formation. He believed he would be able to easily kill this abstruse immortal middle stage.

The abstruse immortal came to the cave, but didn't come in immediately. He threw out some formation flags and sealed the space nearby, fearing that Zhen Bingyu would use an instant transmission rune again.

He looked at the cave for a while. That golden immortal primary stage was nothing, but this woman was quite powerful. He had to ensure there was no danger here.

But now Zhen Bingyu was looking at Ye Mo in shock. He controlled his power to be golden immortal primary stage and she couldn't tell at all. That meant if Ye Mo was an abstruse immortal and kept his power at golden immortal primary stage, she still wouldn't be able to tell.

The abstruse immortal checked around and didn't find anything before smirking and coming in. His Black Dragon magic artifact was spinning above his head.

Chapter 1585: Fighting the Enemy Together

The dragon above his head roared.

This wasn't Ye Mo's first time seeing such a magic artifact, it was made with a beast soul. Such magic artifacts had an artifact spirit that couldn't grow, but it was much stronger than ordinary magic artifacts without an artifact spirit.

The sound made by this Black Dragon was heavy and powerful.

"Attack..."

The abstruse immortal cultivator didn't look at Ye Mo anymore and just stared at Zhen Bingyu before roaring. The Black Dragon morphed into black lightning and shot out. It formed a three meter long grinder above Zhen Bingyu. If it wasn't that this cave was too small, it definitely would be bigger.

At the same time, there was a buzzing sound in the abstruse immortal's body. Black rays shot from his body.

Ye Mo sneered, he was injured by this before. Before that dark ray could shoot up, he threw out his formation flag.

The instant the formation closed, the abstruse immortal cultivator felt it. He wasn't good at formations but he could tell he was trapped.

He finally realized why Zhen Bingyu took this small golden immortal primary stage when she ran – he was an immortal formation master. But he didn't care even though he was trapped.

He pushed with his dark rays but soon he noticed something was wrong. They disappeared in the small cave hole.

That huge Black Dragon magic artifact was also stopped by the formation and didn't do any damage to the abstruse immortal female cultivator. Not only that, the Black Dragon wouldn't be able to help him for a while.

The abstruse immortal immediately realized that Ye Mo was an immortal formation master who knew very well how to use formations to fight. He had to kill this golden immortal insect first. Otherwise, he wouldn't be able to do anything while trapped here.

Just when he thought of this, that Black Dragon rattled and smashed over at Ye Mo's formation.

But as soon as it did, the abstruse immortal immediately noticed a powerful killing force coming his way. He didn't even notice this before.

He was very familiar with this killing force, he had fought with Zhen Bingyu more than once. It was another magic artifact that she could control. Each time this woman attacked he could feel it beforehand, but now he only sensed it when it was before him. This must be due to this formation.

He quickly took back his Black Dragon to block Zhen Bingyu's blue flute.

At this moment, this abstruse immortal didn't care about Zhen Bingyu at all. When the Black Dragon blocked Zhen Bingyu, he charged over at Ye Mo like crazy and smashed a rune over.

He felt very embarrassed to use a rune against a golden immortal cultivator, but he knew clearly that if he didn't kill this immortal formation master, it would be hard for him to even stay alive, much less win. This small golden immortal primary stage posed a much greater threat to him than this abstruse immortal primary stage female cultivator.

Rumble

The rune exploded on Ye Mo's formation, rattling the space nearby. The space of the Chaos Star Realm didn't seem as stable as outside.

The abstruse immortal cultivator realized that his rune only rattled Ye Mo's formation a little and did nothing. The golden immortal primary stage wasn't in the blast radius at all. Before he could release his magic artifact, another faint light swept over.

It wasn't that woman, it should be the golden immortal. The abstruse immortal released a low grade immortal artifact and grabbed at the direction the faint light came from.

Ye Mo sneered, a mere abstruse immortal middle stage who was in his formation dared to try and grab him with his hands.

He threw out a few more formation flags and Zi Xu struck the abstruse immortal cultivator's shield.

Crack

The abstruse immortal didn't expect Ye Mo's immortal essence was this strong. His shield was hacked away without him using it at full power. A small crack even ran down the middle.

"You're not golden immortal primary stage..."

As soon as he said this, a blood light flashed and Zi Xu hacked into his chest.

The abstruse immortal was shook, he was heavily injured now and wanted to run without hesitation. From that clash, he could feel that Ye Mo's immortal essence was even a little stronger than abstruse immortal primary stage. He was trapped in a formation and faced two abstruse immortals, this was asking to die.

As soon as the abstruse immortal turned, countless invisible sword rays shot out of the formation and surrounded him.

The abstruse immortal activated the huge Black Dragon like crazy, wanting to use it to charge out of the cultivation home.

However, he wouldn't be able to get out of Ye Mo's trap formation quickly. He knew he shouldn't have come inside. If he wasn't in the formation, he wouldn't fear this immortal formation master.

There was a terrifying pressure coming from the Black Dragon, Ye Mo knew this guy was about to detonate his magic artifact to get out. A magic artifact with an artifact spirit had even more terrifying detonations.

How could Ye Mo let him detonate his magic artifact? He circulated his immortal essence and spirit sense like crazy as Zi Xu burst out.

The purple went from faint to dense in less than half a second and hacked down from the abstruse immortal's head.

The abstruse immortal didn't even have time to release his explosion rune and was cut in half by Zi Xu.

Seeing Ye Mo kill this abstruse immortal middle stage in such a short time with the formation, there was a sliver of shock in Zhen Bingyu's eyes. She knew Ye Mo would win, but didn't expect the win to be this clean. After this abstruse immortal died, his essence spirit seemed to have been devoured by a black shadow. She didn't even see what it was.

From this, it was clear that Ye Mo still had trump cards he didn't use. Zhen Bingyu went up to that cultivator and took her Black Sword.

Ye Mo took the formation flags and easily broke the restrictions on the storage ring. However, Ye Mo was greatly disappointed. There were only about 500 thousand immortal crystals. An abstruse immortal was this poor?

But soon, Ye Mo realized what happened. There were a few bottles of level three immortal pills and quite some level four immortal spirit herbs and materials.

Seeing Zhen Bingyu look at him, he quickly found her Rainbow Stamp and threw it back to her.

Seeing her take it, Ye Mo was about to leave here.

“Wait, I said there was something we can collaborate on – are you willing?” Zhen Bingyu suddenly stopped Ye Mo.

“What is it?” Ye Mo asked plainly.

Zhen Bingyu said, “I know a place with Chaos Blue Reeds, if you’re willing...”

Ye Mo suddenly looked coldly at her. That’s exactly what the skeleton that almost killed him said. What did she mean by saying this now?

Ye Mo was ready to release Zi Xu at any time. If this woman dared to let him go down that pond, he would kill her without hesitation.

Feeling Ye Mo’s killing intent, Zhen Bingyu took two steps back and frowned. She didn’t understand why Ye Mo would have killing intent towards her after he said this.

So she watched – if Ye Mo dared to attack she would protect herself. She was thinking that Ye Mo probably wanted to take it all for himself.

Thus, Zhen Bingyu didn’t want to tell Ye Mo anymore. She couldn’t get it herself, but she hadn’t even said the location and Ye Mo wanted it all for himself. This made her very uncomfortable.

“Never mind, I don’t want to collaborate with you,” Zhen Bingyu said and was about to leave here.

Ye Mo was confused instead. Did he guess wrong? If he did, then this was a missed opportunity.

“Where is it?” Ye Mo couldn’t resist asking.

Chapter 1586: A Secret Everyone Knows

“I thought only I knew about it, but after I went there I realized that wasn’t the case. That abstruse immortal middle stage who tried to kill me was scared of news spreading, so he came to kill me. He had two other abstruse immortal primary stage friends who stayed there,” Zhen Bingyu answered.

Hearing this, he immediately asked, “How do you want to cooperate?”

“Before that I have two conditions,” Zhen Bingyu said upon seeing that Ye Mo’s wariness towards her reduced.

Ye Mo said plainly, “First, the Chaos Blue Reed you mentioned might not exist. Even if it does, we might not get it. Second, you don’t need to tell me your conditions, I won’t agree to it before seeing the Chaos Blue Reed.”

“...” Zhen Bingyu realized it was pointless to mention the cultivation method again so she fell into silence. After a while she could only say, “Then how would we divide things if we get the Chaos Blue Reed?”

He knew the chances were slim, but the Chaos Blue Reed was too much of an enticement to Ye Mo. If he found one, he would definitely not want to give it up.

He fell silent for a while and said, “If there’s more than one we can share them evenly, but if there’s only one...”

“Then there’s none for me right?” Zhen Bingyu sneered, but she was angry. This guy hadn’t even got the Chaos Blue Reed and already acted like this. If he got it, then wouldn’t he kill her?

Ye Mo was lost for words. If there was only one he really wouldn't know how to split it.

"I'm already god state peak stage, I'm about to go through nirvana. I need it more desperately than you, so if you help me with this, I will compensate you elsewhere," Ye Mo said helplessly.

Zhen Bingyu knew Ye Mo's greed and sighed. If she didn't work with him there was no way she would get the Chaos Blue Reed, but she felt unsatisfied collaborating with him.

"I'm also king state middle stage; plus, everyone wants something like the Chaos Blue Reed. You don't need an entire one for body refinement. If there's only one, give half to me," Zhen Bingyu said without hesitation.

Ye Mo wasn't surprised she reached king state in half a year. She was powerful and the body refinement places here were really good too.

Seeing that Ye Mo didn't talk, she added, "If there's only one, I want the top part of the Chaos Blue Reed, I can give the bottom half to you.

For something like the Chaos Blue Reed, the lower the part, the more valuable. Ye Mo nodded. "Okay we'll do that. Now where is the Chaos Blue Reed?"

"It's in the Extreme Star Swamp, a thousand kilometers west," Zhen Bingyu said.

Ye Mo released Blue Moon and said to Zhen Bingyu, "Get on, let's hurry."

Ye Mo knew this place too. This was the perfect place for him. One couldn't use spirit sense nor immortal essence here. A body refinement cultivator like him had a natural advantage.

Zhen Bingyu got on Blue Moon without hesitation.

Ye Mo controlled Blue Moon while expanding his spirit sense domain out. Blue Moon darted across the sky in a blue figure. It was many times faster than running on the ground.

Zhen Bingyu's face was still very cold but she envied Ye Mo quite a lot. Even though she came from a great eternity immortal sect, she was like a hillbilly compared to Ye Mo. Other than her more adamant dao heart, her cultivation method and capabilities were all lower.

Just when Zhen Bingyu was thinking, Ye Mo suddenly hacked out with Zi Xu.

A shriek sounded and blood fell. Ye Mo grabbed a beast core and two feathers. Zhen Bingyu saw a Shadowless Vulture quickly disappear.

Zhen Bingyu was shook looking at this. the other parts of the Shadowless Vulture were worth some immortal crystals. This guy was too wasteful.

For the first time, Zhen Bingyu became curious about Ye Mo. She would never be interested in any cultivators but she asked this time, "Are you a cultivator from the cultivation realm?"

"Yes." Ye Mo nodded.

"Then someone like you would have quite some dao partners in the cultivation realm?" Zhen Bingyu asked. She really felt it was a pity that someone this talented couldn't focus on cultivation.

Ye Mo nodded awkwardly, thinking this woman was quite accurate.

Zhen Bingyu knew it was like this and hesitated before saying, "Your fortune must be astounding. My master said before that Nianmei didn't deserve you, now I believe it. With your current situation, if you focus completely on cultivation, I believe you can reach the top of dao..."

Ye Mo waved his hand, he didn't want her to remind him.

Seeing Ye Mo lost the interest to talk, Zhen Bingyu said, "I'm just reminding you, whether you listen or not, it's up to you. I just feel pity for that unparalleled heritage of yours..."

Ye Mo looked at her plainly and said, “Then I’ll remind you too. If you don’t undress yourself in front of a man, you might reach the top of dao. Listen or not up to you, I just feel pity for such an extremely beautiful woman...”

Zhen Bingyu smiled and said no more. Although she didn’t care about her body, this was the only time she undressed herself in front of a male cultivator. This was because she had never teamed up with someone before. Even though she came with Hai Chuanwu she still chose to trial alone.

She was heavily injured this time and Ye Mo was in a worse state. There were people hunting then, she wouldn’t care about exposing her body.

Ye Mo was dazed. Ever since he met this woman, this was the first time he saw her smile. Her smile was many times prettier than her cold face.

Ye Mo sighed. Thinking that such extremely beautiful woman took her clothes off casually in front of other people, and how her body had been seen by countless people, there was a sense of disgust in Ye Mo’s heart.

“You are disgusted by me?” Zhen Bingyu scanned and saw the disgust in Ye Mo’s heart.

“Haha, we’re here.” Ye Mo still needed to collaborate with her, of course he couldn’t admit it.

...

Looking down, the Extreme Star Swamp was shrouded in what seemed like mist or chaos chi.

There were many immortals here, from golden immortal to abstruse immortal. There were constantly more cultivators coming over. In half a day, there would be more than two thousand here.

“This is your private news?” Ye Mo looked at Zhen Bingyu in confusion.

A sliver of awkwardness appeared on Zhen Bingyu's face. "When I left, there was not a single person here. Now that so many came, the Chaos Blue Reed must've been exposed."

Ye Mo got off from Blue Moon and many immortals saw it. They all turned around. There were people flying in here, but it was usually abstruse immortal cultivators with a top grade defense magic artifact.

When they saw it was only a golden immortal primary stage landing, there were shocked. Golden immortal primary stages could fly in here? But then they saw Zhen Bingyu behind him who was an abstruse immortal.

Ye Mo didn't like Zhen Bingyu seeing that he was golden immortal middle stage, so he hid his power back to golden immortal primary stage as many of the cultivators here knew he was golden immortal primary stage.

"I know that golden immortal cultivator, no one wanted to team up with him but in the end he got to the asteroid door himself."

A golden immortal primary stage passed the heaven domain void, are you sure?"

"It's true, I saw it too. He not only crossed it but also killed more than ten thousand level two and level three Three Feet Wolves.

Chapter 1587: Extreme Star Swamp

Everyone discussed and soon determined Ye Mo to be a master who could fight beyond his level. Thus, no cultivators dared to scan Ye Mo with spirit sense.

"Martial sister Bingyu..."

A joyful voice sounded. Ye Mo and Zhen Bingyu looked at Hai Wuchuan at the same time. Seeing Ye Mo next to Zhen Bingyu, Hai Wuchuan's eyes flashed with discomfort. He didn't expect she rejected to go with him and instead went with Ye Mo. But that sliver of discomfort quickly disappeared and he sped up to them.

“Martial sister Bingyu, did you hear there was Chaos Blue Reed here?” Hai Wuchuan asked immediately.

Zhen Bingyu nodded. “Yes, how did you know?”

“I heard that a golden immortal cultivator got his friend’s messenger flying sword and immediately knew his friend was killed due to this. In his fury, he spread this everywhere. I think half of the cultivators here know now. Many more are still coming over,” Hai Wuchuan said.

“Martial sister Bingyu, didn’t you say you were going to trial alone? Why are you with pill master Ye...” Hai Wuchuan felt that Zhen Bingyu wouldn’t be interested in Ye Mo and she said to him that she didn’t want a dao partner, but these few times he saw her, she was with Ye Mo.

Zhen Bingyu said, “I happened to see martial brother Ye here so we came together.”

“Pill master Ye, I didn’t expect you could cross the Heaven Domain Void alone. I wanted to greet you at the time but you left too quickly.” Hai Wuchuan realized that Zhen Bingyu changed from calling Ye Mo ‘pill master Ye’ to ‘martial brother Ye’, but he still smiled.

“So it’s martial brother Hai.” Hai Wuchuan was polite and Ye Mo couldn’t say much.

Seeing Ye Mo not interested in talking, Hai Wuchuan said to Zhen Bingyu again, “I heard that the Chaos Blue Reed is a thousand kilometers west of here. These people are going over in teams. There might be conflict if it’s found. One can’t use spirit sense and immortal essence in the Extreme Star Swamp, why don’t us two find two more abstruse immortal cultivators and go together?”

Zhen Bingyu said apologetically to Hai Wuchuan, “Sorry martial brother Wu, I’m grouped with martial brother Ye.”

Hai Wuchuan looked at Ye Mo in confusion and then said to Zhen Bingyu, “But martial sister Bingyu, pill master Ye is only golden immortal power. If ...”

Zhen Bingyu's face was getting colder and colder. She didn't like talking about the same thing again and again.

Hai Wuchuan clearly knew her character, and seeing her annoyance he immediately stopped and said again, "Then I'll join your team, teams are usually four to six people..."

Before he finished, he was interrupted by Zhen Bingyu again, "Martial brother Wu, just brother Ye and I are fine. You can find someone else to team up with, we'll be going inside first."

Ye Mo didn't care about what Hai Wuchuan said. He knew that Zhen Bingyu would definitely not team up with Hai Wuchuan. He noticed that a lot of immortals were making magic artifacts. Just when he didn't know why they were doing so, Zhen Bingyu had gone in already.

Seeing this, Ye Mo immediately followed.

There were water ditches and weeds everywhere as well as some small hills.

Ye Mo immediately felt the suppression of spirit sense and immortal essence when he came here. This wasn't a complete suppression, an extremely small amount of immortal essence could be used and spirit sense could only see around ten meters. One might as well use their eyes.

But this little immortal essence was like nothing. They didn't even have chi gathering level five power. One could only use magic artifacts at such a power level.

Ye Mo realized why body refinement cultivators here had the advantage. In such places, golden immortal could definitely challenge great immortals. He also realized why people were making magic artifacts – it was to fly.

Despite this, no one really used magic artifact to fly, it was just for backup. There were few Shadowless Vultures here, but it didn't mean there were none.

A thousand kilometers wasn't far. Despite being suppressed to chi gathering middle stage, they were still very fast. Plus, it was just suppression, it didn't mean that the rest of their immortal essence was gone. Cultivators could run like this for a few years without tiring at all.

Ye Mo wasn't going to run, he released his top grade flying magic artifact and said to Zhen Bingyu, "Get on."

Zhen Bingyu realized now the benefit of cooperating with Ye Mo. Everyone else had to run but they could fly.

Many cultivators saw Ye Mo dared to use his flying magic artifact and all looked contemptuous, but Ye Mo didn't care; he sped up the flying magic artifact.

Ye Mo didn't waste time on the ship. He used the Three Birth Chant to see if he could release some of his suppressed immortal essence.

Ye Mo was just testing, but what shocked him was that his immortal essence immediately started to be released. Even his spirit sense started to recover slowly.

Ye Mo was overwhelmed with shock. The Three Birth Chant was too insane. In a place where even immortal emperors, couldn't resolve the problem of suppression, he could recover some of his immortal essence. Who would be able to beat him here?

"What happened to you?" Zhen Bingyu's power was suppressed but it didn't lower her senses.

Ye Mo smiled. "I'm still a little injured, I'm going to slow the ship down."

"Okay, but watch out for Shadowless Vultures." Zhen Bingyu nodded.

"How about this – let's stop at a quiet place, and once I recover, we'll go?" Ye Mo asked. He didn't want Zhen Bingyu to see that he could recover his power.

But he couldn't give this flying magic artifact to Zhen Bingyu. After all, Shadowless Vultures here wouldn't be suppressed.

Zhen Bingyu frowned but still agreed. Ye Mo clearly said he had pretty much recovered, so why did he need to recover now?

Ye Mo changed the direction the ship went and found some brush to sit in. He threw down a few stealth formations and a few defense formations disks.

Zhen Bingyu could only watch Ye Mo do this. Seeing that Ye Mo still used stealth formation disk, she felt very contemptuous.

Ye Mo immediately used Three Birth Chant at full power inside the stealth formation disk. His immortal essence and spirit sense grew rapidly. Soon, he was foundation establishment state. Five minutes later, he was body condensation state power.

Fifteen minutes later, Ye Mo's power recovered to golden immortal primary stage. Half an hour later, Ye Mo completely recovered his power.

Ye Mo got out in joy.

"Can we go now?" Zhen Bingyu asked plainly.

"Of course, I'm fully recovered, let's go." Ye Mo really wanted to show off and release Blue Moon, but he knew if he did, he would die for sure. Unless he could kill whoever saw him on Blue Moon, the powerful beings of the 11 grand heaven domains might come for him.

This time, Ye Mo released a middle grade flying magic artifact. Seeing Ye Mo use a worse one, Zhen Bingyu looked strangely at Ye Mo but still said nothing.

Fifteen minutes later, they arrived a thousand kilometers west of Extreme Star Swamp. After getting off, he saw that this place was filled.

Seeing nearly two thousand cultivators look for the Chaos Blue Reed, Ye Mo knew the hopes were slim.

Chapter 1588: Mirage

With this many immortals searching here, even a needle would be found.

Ye Mo didn't scan with his spirit sense. The Chaos Blue Reed wasn't a needle and he wasn't blind. There were so many people here; if someone found the Chaos Blue Reed, it would be very obvious.

There was only endless water ditches here and some small hills. At an ordinary place like this, even low level immortal spirit herbs would be hard to find, much less the Chaos Blue Reed.

"I think we've been tricked, how can there be a Chaos Blue Reed here? There's no immortal spirit chi here. Everyone think about it, what sort of thing is the Chaos Blue Reed? Can it appear at the outskirts of the Extreme Star Swamp?" some cultivators asked.

"There's Chaos Blue Reed here, my friend definitely wouldn't lie. If he lied, he wouldn't have been killed," One golden immortal peak stage immediately said.

Only now did everyone realise that this person spread the news. If he spread fake news, he wouldn't be coming here himself.

"Did you remember wrong? We didn't find anything."

"No, my friend remembered clearly that there was a huge water ditch a thousand kilometers west of Extreme Star Swamp. See, there's a huge water ditch here. My friend said the Chaos Blue Reed was to the side of or inside the water ditch."

Then, almost everyone looked at the huge water ditch. Was the Chaos Blue Reed really in here?

Splash Someone had already jumped in, wanting to check if it was in there.

Seeing the water ripples, Ye Mo suddenly thought of something. He realized what happened.

He had been to deserts and knew there would be mirages there. Was the Chaos Blue Reed that cultivator saw a mirage too?

This meant that there was definitely a Chaos Blue Reed, but it wasn't here. There might be some sudden light that reflected the Chaos Blue Reed here.

Ye Mo knew the actual place might be really far from here.

Thinking about this, Ye Mo was planning to leave.

Just as that immortal said, there was no way Chaos Blue Reed would be here. The Extreme Star Swamp was boundless, but he had recovered his power, he had some hope of finding it.

Ye Mo said to Zhen Bingyu "since there's no Chaos Blue Reed here I'm going other places here for a spin. Martial sister Bingyu, let's split off here. Good luck martial sister Bingyu."

However, when he turned around, Zhen Bingyu followed him.

"There's definitely no Chaos Blue Reed here, why are you still following me?" Ye Mo asked in confusion.

Before Zhen Bingyu could reply, a voice sounded, "I know what's going on, it's definitely a mirage. That's right, mirage..."

"Yeah, how come I didn't think of it?" Some cultivators clapped.

Now, most cultivators here realized what was going on.

Ye Mo felt his nose. As soon as he thought of it, someone else did too. Now, Zhen Bingyu probably thought he wanted to do it alone.

Indeed, Zhen Bingyu looked coldly at Ye Mo, “You knew this was a mirage so you wanted to avoid me right?”

“Yes, indeed. But now that you know, then let’s go if you still want to team up with me.” Ye Mo admitted it.

Zhen Bingyu said nothing and followed Ye Mo without hesitation. She knew that in here, Ye Mo was much more powerful than her. This was the Chaos Blue Reed, so she wasn’t going to go alone.

Realizing this was a mirage, many immortals started going around searching.

“Where do we go?” Zhen Bingyu looked at Ye Mo and asked.

“Where there is dense immortal spirit chi.”

...

Ye Mo flew even faster. When he left the crowded place, he changed to a top grade flying magic artifact and brought the speed to max.

Five days later, Zhen Bingyu finally couldn’t resist it anymore and said, “We can’t keep going in. My power has been suppressed to almost nothing. I can only use my own bodily power, I’m weaker than an ordinary martial artist.”

“There are martial artists in immortal realm?” Ye Mo asked.

“Did you think the lowest in the immortal realm are all hollow immortal?” Zhen Bingyu asked coldly.

“No, I’ve seen some disaster transformation state and truth realisation states. I just didn’t expect there were martial artists.”

“There are not only martial artists, but if they cultivate to the extreme, they are no weaker than status immortals. It’s just that we haven’t touched their world yet. In here, martial artists are the most suited. Their power wouldn’t be suppressed at all.”

“Why do no martial artists come?”

“Because powerful martial artists don’t care about it and low level martial artists can’t make it here.”

Ye Mo nodded and said slowly, “I’m going to search further in, if martial sister Bingyu doesn’t want to team up with me I can give you my magic artifact. I have some spirit stones here, you can have them too. This way, you can still leave here.”

“You want me to die?” Zhen Bingyu’s tone grew cold. Ye Mo had killed three Shadowless Vultures on the way here. Telling her to go back was telling her to die.

“Then stop talking. Since we’re a team, you go where I go,” Ye Mo said.

Zhen Bingyu’s face was ice cold but she couldn’t be bothered saying anything to Ye Mo.

...

The two didn’t talk but Ye Mo’s flying magic artifact was getting faster and faster. Eventually, he even changed to an extreme grade magic artifact.

Zhen Bingyu felt her power was being suppressed more and more, but she said nothing. She was suspicious of Ye Mo. Theoretically, the further they went the more they would be suppressed and the flying magic artifact should be slower, but Ye Mo was getting faster and faster. He even changed his top grade magic artifact to an extreme grade magic artifact.

Seeing the top grade spirit stones attached in the extreme grade flying magic artifact, she realized what was going on. People could forge extreme grade magic artifacts here, but where would they get top

grade spirit stones? Other than a rare few immortals, most immortals wouldn't prepare spirit stones. The worst they had were low grade immortal crystals. But in here, spirit stones were useful.

Two days later, Ye Mo suddenly stopped. He looked at the purple in front of him and fire popped out of his eyes.

"Six Winged Purple Radish..." Zhen Bingyu called out in shock. She fought with two abstruse immortals over four before, but now there were a hundred.

She even heard Ye Mo gulp. She looked back at Ye Mo and shook her head. This pill master Ye was too lacking in maturity. The Six Winged Purple Radish was indeed very valuable, but as an immortal, he was about to drool when seeing good things. He didn't have the mannerism of an immortal at all. It was no wonder he couldn't control himself.

"What do we do with these?" Zhen Bingyu asked.

"One to nine. I take 90%, you take 10 %," Ye Mo said without hesitation.

Chapter 1589: Did I Ask You to Save Me?

Ye Mo thought Zhen Bingyu wouldn't agree, but unexpectedly she agreed without hesitation. "Okay, I agree."

Ye Mo was dazed but he immediately realized Zhen Bingyu couldn't do anything here. Even if he gave her nothing, she could only succumb to fate. Despite realizing this, Ye Mo didn't change his mind. He wasn't going to change his promise.

"I'll go collect them." Zhen Bingyu was very proactive. She knew she pretty much got these for free while doing nothing.

As soon as she took two steps forward, Ye Mo pulled her and she fell back. If Ye Mo didn't move back she would be in Ye Mo's arms.

“What are you doing?” Zhen Bingyu asked coldly.

She wasn't afraid of Ye Mo insulting her body but scared that Ye Mo would take her virginity essence. That way, her cultivation would be greatly compromised. Virginity essence was good for cultivation. Plus, her heritage cultivation method had a strict requirement on this.

Ye Mo wasn't going to be interested in such a boring woman. He said coldly, “Can't you see what I'm doing?”

Without a need for Ye Mo to say anything, Zhen Bingyu saw that there were tens of level two immortal spirit beasts and one level three around the immortal spirit herbs.

“Swamp Tiger Crocodile...” Zhen Bingyu called out in shock.

These were immortal spirit beasts in the depths of the swamp. They couldn't fly but they were extremely fast. Their hide was tough and had immeasurable strength. Their beast essence power wouldn't be limited by the swamp and were much more powerful than ordinary immortal spirit beasts.

Even a golden immortal peak stage might not be a match for a level two Swamp Tiger Crocodile, much less tens of level two Swamp Tiger Crocodiles and one level three.

Even though they couldn't fly, cultivators with flying magic artifacts might not be able to get away from them. They could jump ten meters high and could join up to form space bindings.

Ye Mo knew the value of Swamp Tiger Crocodiles. They didn't have beast cores, but they had beast essence crystals. They were worth much more than beast cores. High level beast essence cores could be used to concoct some special pills as well as high level runes. They could even help immortal spirit beast pets breakthrough.

The Swamp Tiger Crocodile's skin and bones were top grade forgery materials.

These Swamp Tiger Crocodiles had dispersed, surrounding them.

“What do we do?” Zhen Bingyu looked worriedly at Ye Mo. She had used her only instant transmission rune.

Ye Mo frowned. He wasn’t afraid of them, but if he fought his power would be exposed and Zhen Bingyu was here. But he really couldn’t kill her to keep his secret.

The Swamp Tiger Crocodiles roared. They were slow, but they didn’t stop, probably because they didn’t know the two’s power yet.

“What are you thinking about at this moment?” Zhen Bingyu suddenly asked.

Ye Mo knew he wasn’t going to die so of course he thought of nothing. But now that she asked, he thought of Susu, Qingxue, Jingwen and them. Yimo’s face also appeared in his mind.

“I’m thinking, if I don’t die here today, perhaps I might accomplish master’s wish and become a status immortal one day,” Zhen Bingyu murmured seeing that Ye Mo didn’t answer her.

Ye Mo sneered. “You won’t die today, but if you want to become a status immortal you should wake up.”

His dao heart was completely different to Zhen Bingyu. He felt the dao meant experiencing all facets of life. He definitely didn’t believe that someone who thought their body was just flesh and bones would reach the top of dao.

Just when Ye Mo was about to attack, laughter sounded. That speed was countless times faster than his extreme grade flying magic artifact.

“Good, good, these Swamp Tiger Crocodiles are trash but these hundred Six Winged Purple Radishes are good. My, Feng Timo’s, luck is indeed the best.” A grey robed man appeared. Ye Mo didn’t scan him, but from his ferocious chi Ye Mo knew that this man’s cultivation level might be much higher than his.

A level two Swamp Tiger Crocodile heard this and charged over with a roar. That man didn’t care at all and punched.

Seeing this punch, Ye Mo's eyes narrowed. He clearly saw that space itself was about to condense under this punch.

Thud

Blood flew and this level two Swamp Tiger Crocodile was punched to a bloody mist by this man. There was no beast essence core nor bones.

Ye Mo took in a cold breath, he knew he definitely wouldn't be able to do this.

"Immortal nirvana body immortal..." Zhen Bingyu called out in shock.

"Hmm." That Feng Timo looked at Zhen Bingyu and suddenly said, "Such an exquisite immortal. Good eyes, you can tell that I have an immortal nirvana body."

He then scanned Ye Mo and shook his head. "What a waste, he doesn't deserve you. You should be my concubine."

Zhen Bingyu's face was calm. She didn't seem unhappy at all, instead with this man's arrival she might be saved.

Ye Mo's face was calm too but he was shaken that this man was immortal nirvana body.

He could tell this man wasn't immortal nirvana body primary stage. On top of that, this man was at least great immortal level.

A great immortal with immortal nirvana body body refinement – even if he was a great unity immortal, he could run away from a great eternity immortal.

The Swamp Tiger Crocodiles realized the power of this man but didn't want to just retreat like that.

Seeing this, the man howled and attacked the Swamp Tiger Crocodiles.

Thud thud

Blood mist sprayed in the air. The ferocious Swamp Tiger Crocodiles turned into nothing under this man's punches. That level three Swamp Tiger Crocodile was very smart and ran away.

The rest of the Swamp Tiger Crocodiles followed. The man didn't chase but looked back at Ye Mo and Zhen Bingyu.

Ye Mo was feeling that those beast essence crystals would be worth some money.

"An abstruse immortal primary stage and a golden immortal primary stage dare to come here," the man said coldly.

"If qian bei has no other thing then we'll go first," Zhen Bingyu saw that Ye Mo didn't talk so she spoke. She knew that the Six Winged Purple Radish wouldn't be theirs.

The man waved his hand. "You're just going to leave like that after I saved your lives?"

"Then what does qian bei want?" Zhen Bingyu didn't know why Ye Mo said nothing.

Ye Mo was thinking what his chances of victory would be if he ambushed this man.

"You stay. On your account, he can go." The man nodded. "You're very good, good looking and calm. I like such concubines."

"Sorry, I won't be your concubine. My dao heart is firm, no one can stop me from pursuing the great dao," Zhen Bingyu said coldly.

“You want me to kill you? How can you cultivate without a life? I never force anyone to be my concubine, but I saved you just then. If you don’t be my wife, you need to die again.” The man sneered.

Ye Mo sneered back. “Did I ask you to save me? if I say those Swamp Tiger Crocodiles were my beast essence crystals and you just destroyed them all and I want you to compensate, what are you going to do?”

Zhen Bingyu looked at Ye Mo with a face full of shock, not understanding why Ye Mo was aggravating this man.

Chapter 1590: You Have Guts

“Haha... interesting.” Feng Timo laughed but didn’t get angry.

He studied Ye Mo. “A golden immortal dares to come here and dares to say you didn’t ask me to save you, you indeed have balls. But you’re right, I did come save you on my own accord.”

“Then thank you qian bei.” Ye Mo saluted with his fists. “Since qian bei doesn’t mind, we’ll go collect the Six Winged Purple Radish and leave.”

Hearing this, Zhen Bingyu was even more worried. Ye Mo seemed very cunning, did he have no awareness of the situation? This Feng Timo was a rather clean person. Since he didn’t plan to kill them, they should hurry up and leave. Why did Ye Mo still want the Six Winged Purple Radish?

“You still want the Six Winged Purple Radish?” Feng Timo also looked at Ye Mo with disbelief. It was as though he heard the funniest joke in the world. A golden immortal primary stage dared to talk back to him and mention the Six Winged Purple Radish in front of him. Did he really not fear death?

Ye Mo smiled. “Look at your words qian bei, we found the Six Winged Purple Radish first. We were planning to harvest them and you came. Do I have to throw down my own things? What logic is that?”

“You have balls!” After a long while, Feng Timo spat out these three words.

He thought that Ye Mo saw through what character he was so he dared to say such words. He wasn't very annoyed. He was proud of himself for being a clean character. Now that it was approved by Ye Mo, how could he not continue to feel good about himself? If it was some ordinary immortal spirit herb he might really give it up, but he really didn't want to give up the Six Winged Purple Radish.

Little did he know that Ye Mo didn't see through his character but that he wasn't afraid of him. Ye Mo had calculated that even if this was an immortal spirit body great unity immortal, he didn't fear a fight here.

Zhen Bingyu sighed. She was prepared to help Ye Mo if Ye Mo wanted to fight Feng Timo. They were still in a team and she didn't want to go against her promise. But with her current ability, there was no difference whether she helped or not.

Just when Feng Timo looked at the flying sword, there was joy on his face. He turned to leave, but after he walked a few meters he turned back and said, "You both owe me a life. This small golden immortal can use Six Winged Purple Radish to pay me back. As for this goddess, you can be my concubine – otherwise you can only give that life back to me."

Before Zhen Bingyu could react, Ye Mo said plainly, "Qian bei you're wrong. You owe me ten tiger crocodiles, I don't feel I owe you anything."

Feng Timo, who was a few hundred meters away, almost fell over hearing this but he didn't stop. He sped off faster.

Seeing Feng Timo leave, Zhen Bingyu took a long sigh of relief. She even felt she was sweating cold. She then looked coldly at Ye Mo. "Did you know you almost made me die with you?"

"At most I would die, he would still want you to be his concubine. He probably wouldn't kill you," Ye Mo said and then he went to harvest the Six Winged Purple Radish.

"Be his concubine? I'm not that low. My life pursuit is the great dao, not anything else," Zhen Bingyu added coldly.

Then, she looked at Ye Mo and said, “You don’t seem dumb, why are you seeking death? If we stay in a team, I don’t want you to be like this next time.”

“Sorry, if Feng Timo comes back I would still do the same thing. If you don’t want to team up with me, then go where you please.” Ye Mo collected the Six Winged Purple Radish.

Zhen Bingyu shook his head and said no more. she really didn’t understand why Qin Nianmei and Feng Chunmo would like such a person.

She didn’t even consider that Hai Wuchuan who followed her everywhere and sucked up to her, but compared to this Ye Mo, he was ten times better.

“But today that Feng Timo is a rather good person, next time I see him I will help him.” Ye Mo praised Feng Timo. But if they really fought, he would kill this person.

Zhen Bingyu shook her head speechlessly. Feng Timo was not only great immortal but also immortal nirvana body. Who would be helping who? Yet a golden immortal dared to say he would help a great immortal.

“Wait,” Ye Mo suddenly thought something and said.

“What’s wrong?” Zhen Bingyu asked.

Ye Mo said calmly, “That Feng Timo could’ve taken the Six Winged Purple Radishes, but why didn’t he? Why did he leave in such a hurry? Why did he tell me to use Six Winged Purple Radishes to pay him back?”

“Feng Timo is great immortal power, why is he here?” Ye Mo asked.

Zhen Bingyu was very smart and now that Ye Mo asked she immediately realized, “You’re saying he came for the Chaos Blue Reed?”

"If I'm not wrong he probably is. What else would be more precious than 100 Six Winged Purple Radishes in here?" Ye Mo asked.

"You're saying that the messenger flying sword he got was about the Chaos Blue Reed?" Zhen Bingyu immediately asked.

Ye Mo released his extreme grade flying magic artifact and said, "Get on quickly, let's go look."

Zhen Bingyu got up but asked worriedly, "It's not too good for us to go like that right? We can't beat that Feng Timo..."

Ye Mo said coldly, "If you don't want to go I'll give you this flying magic artefact and I'll go alone."

Zhen Bingyu put on a cold face and ignored Ye Mo.

She had no choice but to follow Ye Mo, she had quite a high possibility of dying here if she left alone.

Before the ship could fly very far, a black figure charged over. There were a few more figures behind them.

"Swamp Tiger Crocodile..." Zhen Bingyu didn't expect them to be this cunning. As soon as that immortal nirvana body immortal left, they came back for revenge.

Before Zhen Bingyu could feel despair, Ye Mo released Zi Xu.

Illusion Cloud Domain Kill Strike.

The purple sword ray swiped across the dull sky with a faint purple ray.

Blood splashed and those few crocodiles were killed. Only that level three crocodile barely dodged Ye Mo's purple sword ray.

The level three crocodile immediately realized that this guy who seemed to be waiting for death before wasn't easy to mess with and immediately turned to run away.

Since Ye Mo exposed his power, how could he let this crocodile go? He flew out from the flying ship and hacked out again.

Multiple purple rays blocked off the crocodile's escape path. At this moment this crocodile was truly worried and in his roar shot out tens of sword chi.

There was the screeching sound of space, if those sword chi landed, even Ye Mo would be injured.

But Ye Mo wanted to desperately kill this guy, so even if he got injured he would have to kill it quickly.

Ye Mo didn't dodge the sword chi at all and released Zi Xu as well as multiple rays of lightning.

When the crocodile was struck by the thick lightning, it couldn't keep attacking Ye Mo and spat a few more sword chi before running away.

Ye Mo almost spat blood when the sword chi hit him. There was a huge hole in his armor, a blood arrow shot out.

Meanwhile, the crocodile was also hacked open into a bloody mist.

Ye Mo threw the bodies in his storage ring and got back on the ship and flew rapidly towards where Feng Timo went.

Zhen Bingyu just realized and looked at Ye Mo in shock. "Your power isn't bound? How did you do it? You're a lightning spirit root cultivator too?"

She finally understood what Ye Mo meant before. Ye Mo's power wasn't bound and with his ability to kill those high cultivation level than him, he really didn't fear that Feng Timo. If the two fought, Ye Mo might be able to kill that Feng Timo.
