Chapter 1591: Chaos Blue Reed

“How I did it is my business.” Ye Mo frowned at Zhen Bingyu.

Zhen Bingyu seemed to know what Ye Mo wanted to say next and said, “Don’t worry about me spilling it. I know your heritage isn’t ordinary. If I would spill it, I wouldn’t remind you to be careful about your body refinement cultivation method.”

Ye Mo nodded. He believed Zhen Bingyu, but even so he had decided to leave Feng Ji Heaven immediately and never return to Gong Hua Heaven.

The flying ship flew for about six minutes before Ye Mo suddenly stopped. His spirit sense scanned Feng Timo, but there wasn’t just him.

There were at least three cultivators with him. They all didn’t seem to have their power suppressed.

There was a small lake in front of them but there was an extremely tall mountain in the middle. The mountain was shrouded in mist.

But when Ye Mo’s spirit sense saw clearly, he was struck with a fit of excitement. He almost charged up, as not far from the top of the peak, there was a rock that bulged out. Below it was a blue immortal spirit herb – it was the Chaos Blue Reed.

Luckily, he controlled himself. There were four people over there including Feng Timo. Ye Mo knew that his power wouldn’t be weaker than his despite being suppressed. Those three could have a stand off against Feng Timo – clearly, they weren’t ordinary.

Plus, Feng Timo was definitely called over by one of them. That meant that if he charged up, he would need to face against two Feng Timo’s or the gang of the four of them. No matter how powerful Ye Mo was, he didn’t dare to do this.

Ye Mo changed the direction of the flying ship and ten minutes later, Ye Mo found a small hill full of weeds and landed there.

Seeing Ye Mo land the ship at such a corner again she frowned and asked, "Why did you stop here?"

"Don't worry, I'm not interested in your body, if you want to go then please do," Ye Mo said this again.

Zhen Bingyu shook her head speechlessly, this was all Ye Mo could say. She watched Ye Mo silently as he set up a trap and stealth formation.

"How long are you going to stay in the Chaos Star Realm?" Ye Mo suddenly asked. He wanted her to go immediately but he was also afraid she would leave before him.

Zhen Bingyu looked coldly at him and said, "At least until I reach abstruse immortal peak stage. It might be a few hundred or a thousand years. You don't need to worry about me going out first and exposing the secret on you. Plus I don't know what secret you have, I just know you have a powerful heritage."

Ye Mo didn't mind her seeing through what he thought. He had to ask clearly about this or he wouldn't mind planting some restrictions on her.

"How long will you stay?" Strangely, Zhen Bingyu asked him the same question back. In Ye Mo's impression, she only cared about her cultivation, she never asked him about private things.

Ye Mo fell silent for a moment and said, "Perhaps I will go out after reaching abstruse immortal."

"With your progress, you should be faster than me," Zhen Bingyu's face eased up.

She paused and said, "There are nine levels of the Chaos Star Realm. We're only at the first level, the further you go the harder it is. Rarely can cultivators reach the ninth level, not even great immortals can. It's not that the further you go the better the resources and ease of cultivation. The first level has a lot of resources and cultivation grounds. However, the further you go, the cultivation resources doesn't increase much, but the difficulty dramatically increases."

Ye Mo nodded. "I heard there's another saying, there are 36 levels of the Chaos Star Realm. Which one is correct?"

Zhen Bingyu shook her head and replied, "I don't know which one is correct. My master told me there are entrances to here in the middle and grand heaven domains. Even an immortal emperor wouldn't be able to figure out if the level one we go to at the lower heaven domain would be the same as the middle heaven domain. The Chaos Star Realm is too big. Even for the first level, no one has been able to reach the end."

Ye Mo's spirit sense noticed that Feng Timo fought with one of the people. He was a body refinement immortal but the other person seemed to be able to release magic artifacts. The other two cultivators seemed to be in a standoff and were about to fight.

Ye Mo felt assured that the four didn't take away the Chaos Blue Reed because they weren't on the same grounds.

"These are yours." Ye Mo took out ten Six Winged Purple Radishes and gave them to Zhen Bingyu. He promised these to her, it felt uncomfortable keeping them on him.

"Thank you." Zhen Bingyu took them and said, "After we leave the Extreme Star Swamp, I still want to team up with you for trial, is that okay?"

She had some understanding of Ye Mo. She knew that Ye Mo valued cultivation resources greatly and may intervene in ones that didn't belong to him, however he was very trustworthy, and wouldn't turn on people in danger.

She thought about this for a while. If she teamed up with Ye Mo, she didn't have to worry about backstabbing. Plus, the two pursued the same thing and that was body refinement. She felt she would be able to get more benefits teaming up with Ye Mo. The Six Winged Purple Radishes were a good example.

Ye Mo gave her ten casually without hesitation. If it was some selfish cultivator, she might've been killed already.

“No.” Ye Mo rejected without hesitation.

Zhen Bingyu was useless to him and he had too many secrets. He hadn’t exposed them yet, but Zhen Bingyu knew his heritage was substantial. Plus, she came from a great eternity immortal sect and had a great eternity immortal master. Ye Mo didn’t want to have contact with such a person, at least not now.

Plus, Zhen Bingyu’s dao heart made him feel uncomfortable.

“I can take you from the first level to the fourth level. I know a lot of places here, which places are for body refinement, which places are for spirit sense, which places are for immortal essence and where there will be immortal spirit herbs. I know most of them. Plus, I know there’s an immortal spirit herb mountain at the fourth level. It’s very hidden, my master went there once, tens of thousands of years ago. After all these years, there will definitely be many more immortal spirit herbs there...” Zhen Bingyu knew what Ye Mo thought.

“What level?” Ye Mo immediately asked. He lacked level five and level six immortal spirit herbs the most right now.

Zhen Bingyu immediately said, “From level one to level six, there are more level four to level six. But I must say this first, ordinary people can’t find it at all. My master told me so I can collect some immortal spirit herbs back, you can only take a small part.”

“Then how much is that?” Ye Mo didn’t know how big the mountain was and how much was a small part.

Zhen Bingyu was lost for words. “I don’t know, I think at least a few hundred...”

Ye Mo fell in silence and said, “Let me think about it.”

Then, he got up and said to her, “Stay here and wait for me. I’m going to leave for a while, this formation is a level two immortal formation. If you don’t go out there won’t be any danger.”

Zhen Bingyu was certain that Ye Mo was going to find the Chaos Blue Reed and immediately nodded.
“Okay, I’ll definitely wait for you here.”

Chapter 1592: Two Dogs Strive for a Bone, a Third Runs Away With It

Ye Mo believed in his stealth cultivation method, but against a great immortal like Feng Timo, he didn’t dare to be careless. The difference between a great immortal and heaven immortal wasn’t anything like the difference between golden immortal and abstruse immortal.

Six minutes later, Ye Mo crept near the four. He chose to come at this time because the four had started fighting. Now was the safest time.

“Zhong Bieying, keeping on fighting like this won’t resolve anything. That Chaos Blue Reed isn’t something that one person can take down alone. So what if you and Feng Timo win? Plus, you two can’t kill both me and Tan Tong. I think we should discuss how we can divide it,” one fat man said.

The fat man fought a ferocious looking grey robed man. Hearing this, he said to Feng Timo immediately, “Timo, this Han Weichen is right, we should discuss things and see if we can cooperate better.”

“Cooperate my ass, this fat pig wants us brothers to take charge, and when we divide things we get the least – he’s dreaming.” Feng Timo rejected without hesitation and attacked even more ferociously.

Ye Mo saw that Feng Timo and Zhong Bieying were both body refinement cultivators, both reaching immortal nirvana body. Meanwhile, Han Weichen and Tan Tong seemed to have used a secret technique to be able to use part of their power here.

But one thing was certain, these four were all great immortal power.

“Hmph, Timo, how do you know things won’t work if we don’t discuss? Plus, even if you two win, do you think you two body refinement cultivators can get to the top? Do you dare to go from the bottom of the lake?” Tan Tong sneered. His face was very white.

“If we can’t go up, can you guys go up?” Feng Timo rebutted.

Ye Mo just realized now that it wasn't so easy to get up this peak.

While the four were having fun fighting, Ye Mo quietly got near the other side of the lake. Ye Mo worried too much, these four were busy fighting, but even if they weren't their power was suppressed and it was very hard to find him.

Ye Mo didn't dare to release flying his magic artifact. The ripples in space brought by the flying magic artifact would be caught by these four.

The lake water seemed very cold, but when Ye Mo stepped foot on it, this terrifying temperature almost instantly melted his shoe. This temperature was countless times higher than the void flame.

If he wasn't god state body refinement, he might be heavily injured already. Thinking about that cold pond before, Ye Mo suddenly shivered.

That pond looked normal, but it was freezing cold inside and he found the skeleton of an ancient being there. There were four Six Winged Purple Radishes outside that one.

Here, the water was extremely hot and there was a Chaos Blue Reed.

Would the two be connected? He thought about when he was running, that skeleton told him he knew where the Chaos Blue Reed was. Was that skeleton talking about here? Did that skeleton not want to possess him but make him get the Chaos Blue Reed for him so he could rebuild his body?

Thinking about this, Ye Mo shivered. He really wanted to dash up into the sky. This searing lake felt like a monster's mouth to him.

But Ye Mo resisted that urge, he just sped up a little. If he flew up now, it would be signalling to those four that someone else was here.

Luckily, Ye Mo wasn't swept in by the lake water.

Ye Mo landed on the peak while the four were still fighting like crazy. It seemed that they were evenly matched.

Ye Mo just wanted to speed up to the mountaintop, but an invisible sword ray hacked over. The higher he went the more dense these sword rays were. On top of that, the higher he went the greater the pressure. It was as though the pressure wanted to push him into the lake water.

Ye Mo cursed, he couldn't release his octagonal cauldron nor Zi Xu to block them. He could only let the sword rays tear his body. Even though he was god state body refinement, he was covered in wounds when he was only halfway up.

Even so, Ye Mo didn't dare to expose himself and gritted his teeth, bearing the cuts on his body as he carefully climbed up. Six minutes later, Ye Mo came before the Chaos Blue Reed bloodied, but he noticed the four had stopped fighting.

Ye Mo carefully ate a few pills, but he didn't dig out the Chaos Blue Reed. He hid on the side waiting.

The four seemed to have started discussing. Ye Mo hoped the four wouldn't come to an agreement. Otherwise, even though he was next to the Chaos Blue Reed he wouldn't be able to take it away.

Luckily, after a while, the four started fighting again. Ye Mo breathed easy.

Ye Mo took away the Chaos Blue Reed extremely quickly and went through the the sword mountain before coming down to the lake.

Ye Mo wasn't scared of the sword mountain, he was scared of this lake. He felt there was some connection to the really cold pond.

Ye Mo darted next to the lake and carefully crept away a few kilometers before quickly releasing Blue Moon and disappearing instantly.

“Not good, the Chaos Blue Reed is gone?” That pale faced Tan Tong was the first to notice. It was clearly there when they stopped fighting, but in a short while it was gone. Clearly someone had stole it.

With it gone, the four no longer had the mood to fight.

“What is going on?” Feng Timo frowned and asked. The Chaos Blue Reed was very important to body refinement cultivators. It wasn’t just used for nirvana, it could also allow him to reach immortal god body.

“There were definitely two people who stole the Chaos Blue Reed, one person can’t get it unless his spirit sense and immortal essence are both intact and he is also a body refinement cultivator. It hasn’t been more than 15 minutes since the Chaos Blue Reed disappeared, the two didn’t get far,” the fat cultivator said.

“Search!” Feng Timo said coldly. It was the first time he was so furious. Someone dared to steal the Chaos Blue Reed in front of him. If he knew who this person was, he would eat him bite by bite.

No matter how smart the fat man was, he wouldn’t know that Ye Mo could release Blue Moon in here and was tens of thousands of kilometers away.

...

Zhen Bingyu was in the stealth formation but she didn’t have the mood to cultivate. She was thinking about where Ye Mo got his heritage from.

She didn’t feel it was strange that Ye Mo became duo cultivation partners with Qin Nianmei. If the heart was connected, duo cultivation could indeed improve one’s power, but using this method made it hard to achieve vindicate dao. Since Ye Mo had such good heritage and a dao partner, he shouldn’t be immersed in something as meaningless as lust. Other than some rare cultivation methods and some demon cultivators, rarely did immortals immerse themselves in lust.

She was certain that Ye Mo’s cultivation method wasn’t that type of cultivation method, but she saw Ye Mo and Feng Chunmo come out the room that day and Feng Chunmo’s clothes were messy. Her face seemed excited too.

Yet, Ye Mo was heartless to Feng Chunmo afterwards, leaving without even saying goodbye. She knew that Ye Mo didn't truly like Feng Chunmo. In that case, why did Feng Chunmo still want to send him off?

She knew Feng Chunmo, she seemed really goofy but her character was strong. She would definitely not chase up on a man after being played.

The only possibility was that there was some sort of deal between them. Feng Chunmo used her virginity essence to trade something with Ye Mo.

Chapter 1593: Forming a Team

Suddenly, Ye Mo charged in, covered in blood. Before Zhen Bingyu could say anything, he quickly put away the formation flags and said, "Get on the flying magic artifact, leave now."

Zhen Bingyu knew things weren't right and she got on Blue Moon without hesitation. Blue Moon quickly disappeared in a blue ray.

"What happened, did you fight with that Feng Timo?" Zhen Bingyu asked.

"No, but if we don't leave quickly then we'll really be fighting when they chase up. You control Blue Moon, we'll go to Chaos Star Realm's second level immediately," Ye Mo said quickly.

They had spent a few days coming in, but now Ye Mo put Blue Moon on max speed and they left the Extreme Star Swamp in half an hour.

There were no cultivators at the outskirts now. These cultivators had all left.

"Okay." Zhen Bingyu was smart and knew that since Ye Mo let her lead the way, it meant Ye Mo agreed to team up with her. She took control of Blue Moon.

Half a month later, Blue Moon was still speeding rapidly. Ye Mo killed quite a few Shadowless Vultures, but Zhen Bingyu said they still weren't at the second floor.

Ye Mo finally couldn't resist and asked, "How far is it from level two?"

"Two more months of flying," Zhen Bingyu answered.

Ye Mo thought with Blue Moon's speed they would arrive in a few days, but now they still had so long to go. Ye Mo looked at her speechlessly. "Why didn't you say so earlier?"

Ye Mo's wounds had recovered. but he needed to change his clothes. Plus, he needed to organize the Six Winged Purple Radishes he found. More importantly, Ye Mo felt Blue Moon was too slow. He wanted to use the Shadowless Vulture's main feather to upgrade it once. He was planning to do this at level two, but now that it was so far away he could only do it now.

"Since it's cooperation, of course I'm going to listen to you. You didn't ask me, I thought you only wanted me to lead the way," Zhen Bingyu said.

Ye Mo was dazed, he didn't agree to the cooperation, he just said he would think about it. He was planning for her to take him to level two and give part of the Chaos Blue Reed to her before separating.

Ye Mo really wanted to go to that immortal herb mountain, but Ye Mo realized that even if he didn't go, he would be able to find a bunch of level five immortal spirit herbs here.

He realized what Zhen Bingyu meant, he didn't say anything so she purposely took it as accepting the cooperation.

Ye Mo thought about it, cooperation was fine. He was only going to be cultivating and collecting immortal spirit herbs. When he cultivated he would set up a formation, Zhen Bingyu wouldn't be able to see through it. Plus, Zhen Bingyu had some secrets, he didn't feel secure letting her leave.

"Find a place to rest first, then we'll go to level two." Ye Mo nodded.

Zhen Bingyu spoke very coldly but she was very nervous inside. She was afraid Ye Mo would reject her on the spot. If Ye Mo rejected, it would really be hard for her to bring this up again. If she used her flying magic artifact it wouldn't take two months, but she didn't remind Ye Mo. She wanted to waste more time, that way it would be harder for Ye Mo to reject.

Now that Ye Mo said this, clearly it meant he agreed.

Half an hour later, Zhen Bingyu found a seclusive valley and flew Blue Moon inside to the depths.

"This place is good, we'll open up a cultivation home here." Ye Mo pointed at a small mountain in the valley.

It was very simple for them. In 15 minutes, the simple cultivation home was set up. Two rooms were opened up in the cultivation home. Ye Mo set up a defense formation and immediately took out the Chaos Blue Reed."

"Chaos Blue Reed, you really got it..." Zhen Bingyu's tone was shaky. Ye Mo really got such rare treasure.

Ye Mo felt unsatisfied to give her half but he didn't say much.

"We'll split it now..." Ye Mo said.

Zhen Bingyu shook her head. "I only need one small branch, I didn't do anything to get this, I just told you the news. If it wasn't that this is too important for me, I wouldn't even take a small branch."

Ye Mo looked at Zhen Bingyu in confusion, since when did this woman become like this? But Ye Mo wasn't going to be polite with her since she asked to have less.

Zhen Bingyu said, "You don't need to give it to me now. The Chaos Blue Reed is different than other things. It's best to use it when you go through nirvana. Cut off a small branch for me when I nirvana."

Ye Mo heard this and thought that if she could only use a small branch, could he as well? That way the Chaos Blue Reed could stay in his Golden Page World.

“It seems I only need a small branch too and the Chaos Blue Reed can be grown.” Ye Mo nodded.

Zhen Bingyu shook her head. “That would work to breakthrough, but if you want to reach higher levels of body refinement, I suggest you use the whole thing...”

Then, Zhen Bingyu sighed. If she didn’t need to achieve nirvana, she really didn’t want to take Ye Mo’s small branch. Using the entire Chaos Blue Reed for nirvana was the best.

But Zhen Bingyu knew that even if she didn’t take the small branch Ye Mo wouldn’t be able to reach that final step. If body refinement could reach divine body, then there wouldn’t be only one person to get to that step in the entire history of the immortal realm. Even for the immortal god body, there were only a few people in the entire immortal realm and some people couldn’t even reach the peak.

Zhen Bingyu’s dao heart was firm, she didn’t do anything to get such rare treasure and she already felt uncomfortable. She couldn’t convince herself to take half.

“Okay then.” Ye Mo nodded and went into his stone room.

...

Ye Mo was scared that she would charge in again so he not only set up stealth and barrier formations but also a defense formation.

Then, Ye Mo went into the Golden Page World and cleansed himself once before changing into a new set of clothes. The first thing Ye Mo did was transplant the Six Winged Radishes and his Chaos Blue Reed into his immortal spirit herb garden.

There were more and more good things in the Golden Page World. Ye Mo satisfied himself by looking at it before taking out Blue Moon and ten pairs of main feathers from the Shadowless Vulture.

He killed 18 on the way, but he only took out ten because Zhen Bingyu said the Shadowless Vultures at the second level were much better and faster.

Half a month later, Ye Mo used up all his forgery materials and successfully changed Blue Moon into a level three flying immortal artifact. The main feathers could be used to forge the lowest level middle grade flying immortal artifact, but Ye Mo's immortal forgery skills were too low and could only bring it to a level three low grade immortal artifact.

Ye Mo spent another half a month using the Corner Soul Weeds to improve his spirit sense before leaving the stone room.

"You didn't cultivate?" Ye Mo saw Zhen Bingyu sitting outside the stone room and asked in confusion.

"No. If we can go, let's go find a body refinement place at level two. You have the Chaos Blue Reed now, so you can go choose a place for nirvana. I need to reach god state too." Zhen Bingyu still had a cold face and tone.

"Okay." Ye Mo nodded.

Since cultivation level was too hard to improve, then he could only reach nirvana body refinement to improve his power. If he was an immortal nirvana body now, he could fight abstruse immortal middle stages head on.

Chapter 1594: Small Pill Concoction Stall in the Star Realm

"Use your flying magic artifact, it's faster," Ye Mo said.

Zhen Bingyu didn't reject and nodded, releasing a rainbow stamp.

"Your flying and defense magic artifact are the same?" Ye Mo asked.

"That's right." Zhen Bingyu nodded and said, "My master used to use this, now she gave it to me."

Rainbow stamp was just a level four flying immortal artifact, but it was still a middle grade flying immortal artifact. However, Ye Mo found that it was only a little faster than the upgraded Blue Moon. One and a half month later, they arrived at the entrance to level two.

What shook Ye Mo was that there was a small marketplace here. There were tens of thousands of cultivators coming to and fro.

Looking at the heavenly priced pills and magic artifact, Ye Mo's fire lit up. He looked apologetically at Zhen Bingyu. "Martial sister Bingyu, sorry. I need to set up a stall for pill concoction here. If you can't wait you can go to level two first."

"I'm not in a rush," Zhen Bingyu replied plainly, clearly planning to follow Ye Mo no matter what.

Ye Mo didn't know what she thought and even suspected she still was interested in his cultivation method. But he was wary, so thinking about this, Ye Mo nodded. "In that case, help me then."

Seeing Ye Mo and Zhen Bingyu come on a flying magic artifact here, many immortals moved over. Those who could fly in the sky weren't ordinary people.

Shadowless Vultures weren't something the simple defense formations on flying magic artifacts could stop. They could easily pierce level one defense immortal formations and high level Shadowless Vultures could penetrate level two and level three defense immortal formations. Most of the flying immortal artifacts were low grade flying immortal artifacts and had at most level nine spirit formations. Even middle grade flying immortal artifacts wouldn't have a defense formation higher than a level two immortal formation.

This was why good flying immortal artifacts were so scarce. Even the best immortal forgery master couldn't allow his forgery skills and formation skills to improve at the same time.

Ye Mo wanted to set up a stall to collect level five and level six immortal spirit herbs. He needed immortal spirit herbs for his trial.

Ye Mo released his extreme grade cultivation artifact mansion and set up a sign saying: 'Pill concoction, can concoct level three and below immortal pills. The quality is definitely top notch. Price is as below: one level four immortal spirit herb for one cauldron of immortal pills, one level five immortal spirit herb for two cauldrons of pills, level six immortal spirit herb price up to negotiation. Will be concocting myself, don't accept immortal crystals, prepare immortal spirit herb yourselves.'

Even in the immortal city where immortal pill masters were very lacking, one level four immortal spirit herb was enough for more than one cauldron of pills level three and below. The price Ye Mo set was very expensive.

But even so, this still caught everyone's attention. In the boundless Chaos Star Realm, level four, level five and even level six herbs could often be found, but pills wouldn't appear out of nowhere.

The immortals in level one were mostly below great immortals. Level three and below pills were very important for them. Instead of putting level four immortal spirit herbs in their storage ring for nothing, they might as well use them for pill concoction.

Plus, this simple market place was set up by passing immortals. The stall owners changed frequently as they were all here for trial too. Level three immortal pill masters were very hard to encounter and there were none here. Even if a powerful immortal pill master came occasionally, he could at most concoct level two immortal pills.

"You can really concoct level three immortal pills?" one abstruse immortal primary stage came over and looked at Zhen Bingyu before asking carefully.

"The sign is very clear."

"You can concoct the Abstruse Essence Pill?"

"Of course..."

Ye Mo's answer was concise but more convincing. If he could barely concoct level three immortal pills he would use a large amount of words to persuade the customer, but Ye Mo valued each word he said.

“Okay I believe you, you’re probably a level three immortal pill master. You want to collect level four immortal spirit herbs to prepare to reach level four immortal pill great master right?” the abstruse immortal primary stage asked.

Ye Mo smiled. “Good eyes friend.”

Zhen Bingyu shook her head speechlessly, anyone would be able to tell this. She really didn’t know that Ye Mo didn’t even want to take level four immortal spirit herbs, but if he didn’t it would expose that he was a level four immortal pill master. Only an idiot would do such a thing.

A level three immortal pill master was precious, but not many people would take notice. So many more people would take note of a level four immortal pill great master.

“I have a level five Two Leaf Poppy. I want to ask you to concoct two cauldrons of Abstruse Essence Pills,” the abstruse immortal said and took out two sets of materials for the Abstruse Essence Pill, but didn’t take out the Two Leaf Poppy.

Ye Mo knew this guy would give it once he saw the pills, but he didn’t mind. He took the ingredients and went inside the mansion.

In just over five minutes, Ye Mo came out and took out two jade bottles. “The pills are done, have a look. If it’s right then give the Two Leaf Poppy to me.”

The abstruse immortal looked at Ye Mo in confusion, he was done with two cauldrons of Abstruse Essence Pills this quickly? Even an immortal pill great master had at most this speed.

Zhen Bingyu looked at Ye Mo in confusion. She had seen Ye Mo concoct this pill in the match with Gongsun Zhiyu, but he took half an hour. How did he become so fast?

“They are all top grade immortal pills?” the abstruse immortal opened the jade bottle and called out in shock.

He gave the Two Leaf Poppy to Ye Mo without hesitation. "Good capabilities friend, you can concoct top grade immortal pills in such a short time. You're too good."

Those immortals waiting for results on the side all took out their immortal spirit herbs, asking Ye Mo for pill concoction. Ye Mo rejoiced, this method always worked. Last time at the Black Weed Forest, he got large sums of immortal spirit herbs and reached level three immortal pill master and then level four immortal pill great master. If he stayed here for a few days, it wouldn't be hard for him to reach level five immortal pill great master.

Zhen Bingyu completely understood now, her master's guess was right. Ye Mo definitely wasn't a level three immortal pill master. He was indeed an immortal pill great master. It was no coincidence that he beat Gongsun Zhiyu with one middle grade immortal pill, it was completely intentional.

Seeing that Ye Mo was too busy, Zhen Bingyu came up to help Ye Mo collect immortal spirit herbs while thinking how she could ask Ye Mo to concoct Great Unity Pills for her. And her 11 Six Winged Purple Radishes needed to be turned into pills as well.

Thinking about this, Zhen Bingyu felt her decision to team up with Ye Mo was very correct.

Two days later, Ye Mo's pill concoction business was getting better and better. Ye Mo's speed was getting faster and faster, but he didn't dare to overdo it. He didn't dare to concoct a single special grade pill. Otherwise, it would mean that he was a pill concoction great master.

"I haven't seen such a powerful immortal pill master for so many times. I've been here for a few decades, a few years ago, this Yan level three immortal pill master had such a level, but I feel this immortal pill master is much better than that Yan."

"I know that pill master too, he went to level two. He's indeed very good, but his pill concoction isn't as fast as this immortal pill master and his quality isn't as good either."

Ye Mo heard these people discussing when he just came out.

He had concocted pills for seven days here, collecting quite some level four and level five immortal spirit herbs. He didn't collect any level six immortal spirit herbs, but Ye Mo was certain these level five

immortal spirit herbs were enough for him to reach level five immortal pill great master. Then he would be able to concoct Snow Wing Pills.

“What’s the full name of that Yan pill master?” Ye Mo suddenly asked.

The two people on the side quickly said, “He seemed to be called Yan Tantaos, but he only concocted pills for a few days and went to level two.”

Chapter 1595: Lu Zhengqun’s Actions

It was him indeed. Ye Mo nodded and saluted with his fists. “Everyone, I will be going to level two. The pill concoction ends now.”

Reluctant voices sounded around. Ye Mo’s pill concoction quality was top notch. Despite knowing he would eventually leave, people still felt reluctant.

“Martial sister Bingyu, why are you here? Are you here to undergo trial too?” A crisp voice sounded and a pretty woman walked over, there was a man next to her who was abstruse immortal primary stage. That woman was only golden immortal peak stage.

“Yes, martial sister Shangwan should be here for the same too, right?” Zhen Bingyu nodded. She didn’t show surprise and joy, but the coldness on her face melted a little.

“Yes, yes, I really didn’t expect to be able to see martial sister Bingyu here. You’re already abstruse immortal now and I’m still golden immortal peak stage. Sigh...” Shangwan said dejectedly.

But soon, the dejection was gone and she said happily, “Martial sister Bingyu, it’s so good to see you! We can trial together. By the way, let me introduce you – this is my martial brother Liao Nanchong. Martial brother, this is martial sister Bingyu I often talk about, she’s from Gong Hua Heaven’s great eternity immortal sect, Extreme Sword Sect. He is? Hmm?”

Shangwan just wanted to ask who Ye Mo was and saw the sign that Ye Mo hadn’t put away yet and asked, “This martial brother is an immortal pill master?”

She called Ye Mo 'martial brother' completely due to Zhen Bingyu. Ye Mo's power was lower than hers and Zhen Bingyu never stayed with male cultivators. Now that she did, there must be something going on.

"Yes, he's Ye Mo, a solo cultivator and also a level three immortal pill master." Zhen Bingyu nodded.

"Great, if we trial together we can ask martial brother Ye to help with pill concoction." Shangwan clearly didn't have many calculations and said things straightforwardly.

"I've long heard of goddess Bingyu's fame. Now that I see you, it's indeed true," Liao Nanchong greeted her.

Zhen Bingyu was cold but she didn't ignore people, she greeted back.

But Zhen Bingyu didn't introduce Shangwan to Ye Mo. Ye Mo didn't ask as well, it had nothing to do with him.

"Martial sister Bingyu, let's go to level two together. I will get to abstruse immortal before coming out," Shangwan repeated.

Hearing this, Ye Mo immediately knew she was simple minded.

She will reach abstruse immortal? Didn't that mean she had the level three immortal pill Abstruse Will Pill? If she went out alone, just with what she said there would be many golden immortals waiting for her at level two.

Abstruse Will Pill was a pill that could allow golden immortal peak stages to reach abstruse immortal. It was one of the most sought after pills by golden immortals.

Before Zhen Bingyu could reject, Shangwan came up to Ye Mo and said, "Martial brother Ye, I'm Shangwan. I come from Yue Heng Heaven..."

Hearing this, Ye Mo was shook. He was very sensitive to Yue Heng Heaven.

Ye Mo immediately smiled. "I come from Gong Hua Heaven, but I'm just a solo cultivator."

"My sect is the great extreme immortal sect Cloud River Sect. If you and martial sister Bingyu go to Yue Heng Heaven, you must come."

"I heard that Yue Heng Heaven is very big and that the heaven lord there is a status immortal."

"No, who did you hear that from? He's still great eternity immortal peak stage, but it probably won't be long for heaven lord Lu to reach status immortal. He's inviting all the immortals in the heaven domains who are good at fortune telling, it's said he wants to calculate the fortune of Yue Heng Heaven."

Hearing this, Ye Mo was shook. Calculate? This guy definitely wanted to find him. Thinking about this, he quickly asked, "What are the results?"

"They're just starting now, it's said that this calculation will take decades or even centuries," Shangwan said.

Zhen Bingyu and Liao Nanchong didn't expect Ye Mo and Shangwan would talk so much after meeting for the first time.

Zhen Bingyu immediately reacted, Ye Mo had this passion, he seemed to like pretty immortal girls. Didn't he do this at the Extreme Sword Sect? No wonder Feng Chunmo was so reluctant to let him go. Just look at the gentle way he spoke to Shangwan.

Liao Nanchong frowned and looked displeased. He wanted to talk some more to Zhen Bingyu, but she didn't have the mood to do that and instead looked at Ye Mo as though waiting for Ye Mo to talk to her.

After a long while, she saw they were still talking so she could only interrupt, "Are we going to level two now?"

“Yes of course.” Ye Mo came back to his senses realizing that Zhen Bingyu was getting suspicious.

“Okay, martial sister Bingyu let’s go together. I enjoy talking to martial brother Ye,” Shangwan quickly said.

Seeing that Ye Mo didn’t object, Zhen Bingyu could only nod and the four walked towards level two together.

Ye Mo wasn’t going to actually trial with them together, but they could walk together for a while, he still had some questions to ask Shangwan.

...

There was a barrier between level one and level two and it was very simple, any golden immortal would be able to tear it open.

After going in, Ye Mo didn’t feel it was much different than level one other than the gravity increasing by quite a bit.

Seeing Ye Mo still ask Shangwan all sorts of questions nonstop, Zhen Bingyu was really speechless. She would’ve already left if she didn’t want to trial with Ye Mo.

Not just Zhen Bingyu and Liao Nanchong, even Shangwan noticed something wasn’t right. Ye Mo seemed to be getting too close to her and clearly finding nonsense questions to ask. For example, which immortal city did Lu Zhengqun live in? How many years has Lu Zhengqun been cultivating? Which were the biggest sects in Yue Heng Heaven, would these sects listen to the heaven lord...

At least to Shangwan, it seemed like Ye Mo was finding ways to talk to her. Shangwan didn’t object against this. Ye Mo was not only an immortal pill master but he also seemed very amicable. He didn’t seem arrogant due to being an immortal pill master at all and knew how to respect people.

So despite knowing that Ye Mo was sucking up to her, she still enjoyed talking.

“Wan, come over.” Liao Nanchong couldn’t take it anymore and didn’t even call her ‘martial sister’.

“What is it martial brother, I’m talking to martial brother Ye.” Shangwan didn’t even look back and kept introducing all the rules of the number one immortal city Feng Gang Immortal City in Yue Heng Heaven and where the heaven lord’s estate was in the city.

“Martial brother Ye, do you really like Yue Heng Heaven?” Shangwan laughed.

Ye Mo was shook, he knew he was being too desperate. If he kept asking, she might notice that he cared about Lu Zhengqun. Ye Mo quickly smiled. “No, I want to know about every heaven domain. By the way, where is your Cloud River Sect? Is there a big immortal city nearby? Can you tell me about it...”

Ye Mo quickly asked some other questions. Just when Ye Mo thought he asked enough, Zhen Bingyu couldn’t take it anymore and asked, “Ye Mo do you still want to go undergo trial?”

“Right, I’m going to other places to trial. Martial sister Shangwan, we’ll meet again,” Ye Mo quickly said.

“Martial sister Bingyu aren’t we going to undergo trial together?” Shangwan looked at Zhen Bingyu in confusion.

Zhen Bingyu frowned. “Martial sister Shangwan, I still have some other business with martial brother Ye, we can’t go with you guys for now. We’ll be off first, we’ll meet again.”

“Oh.” Shangwan looked at Ye Mo reluctantly. She felt she could really get along with martial brother Ye. No matter what she said, martial brother Ye was a very good listener and asked a few questions sometimes for her to explain. This satisfied her pride greatly.

She wanted to undergo trial with Ye Mo, but martial sister Bingyu seemed to be getting jealous. But she thought too much, she at most had a good impression towards martial brother Ye.

Seeing the two leave, Liao Nanchong breathed easy. That pill master Ye was too shameless, he had a goddess like Zhen Bingyu with him but still tried to chat up his martial sister.

Ye Mo sat on the rainbow stamp with his brows locked tightly. Lu Zhengqun was using immortals to calculate where he was. From this, it was certain that this bastard was trying to search for Luo Yue continent. What if he went there?

At this moment, Ye Mo felt he was so tiny. He knew where his enemies were but he didn't have the power to touch them.

Chapter 1596: Fire Forest Nirvana

Seeing Ye Mo frown and not talk, Zhen Bingyu sighed helplessly. "Martial brother Ye, you just got the Chaos Blue Reed and have such a good heritage. I don't feel you should put your mind on such things."

Ye Mo couldn't be bothered explaining so he said, "I like lust, mind your own business. Just take me to the body refinement place, I'm preparing for nirvana."

Zhen Bingyu shook her head and couldn't be bothered persuading him.

A month later, Ye Mo killed eight more Shadowless Vultures before coming to a dark red forest.

"Where is this place?" Ye Mo asked in confusion. There was nothing in his jade slip about the second level of the Chaos Star Realm. Feng Chunmo's brother only went to trial at the first level.

"This is the Star Realm Fire Forest, the deeper inside the higher the temperature. At the center of the forest, even immortal spirit body immortals won't be able to handle it. There are also fire beams in the depth, they can't be seen and with one mistake you would be heavily injured. If you want to achieve nirvana, this is the best place," Zhen Bingyu said.

Ye Mo nodded, it seemed teaming up with Zhen Bingyu had its benefits. At least he was very happy with this place for nirvana. Nirvana came from the ancient phoenix clan. The ancestor of the phoenix race had the first nirvana in the flames.

Zhen Bingyu continued, "If I was to come here alone, I would need a few years. You can't fly in the air at level two either, but there's also danger walking on the ground. There's a lethal force called whirlpool void. If cultivators accidentally go in, they will be swept to some unknown space and disappear. There's no sign to tell when it will appear. It might just be below you and you won't even know."

Ye Mo sighed, "Okay, thanks. Without you leading the way I wouldn't be able to find this place. Let's go in."

Zhen Bingyu slowed down the rainbow stamp and charged into the fire forest. A day later Zhen Bingyu put the flying immortal artifact away as they landed on the dark red earth.

This temperature was intolerable to ordinary immortals. If Zhen Bingyu wasn't king state and abstruse immortal she wouldn't be able to bear it too. After walking a while, Zhen Bingyu couldn't take it anymore. She was covered in sweat and her clothes stuck to her body outlining her beautiful curves.

Seeing Ye Mo look at her, Zhen Bingyu said plainly, "No need to look at me and you don't need to say what you said to Shangwan to me, I won't do those sort of things with you."

Ye Mo replied plainly as well, "Didn't you say your body was just flesh and bones? You didn't mind before, since it's so hot here why don't you take off the clothes on your flesh and bones?"

"This isn't something that can be solved by taking clothes off? Plus, I feel you're right. Even if it's just flesh and bones, one still needs to consider embarrassment. So, don't even think about me taking off clothes in front of you again," Zhen Bingyu said coldly.

"Since when did I say that?" Ye Mo dazed.

Zhen Bingyu sneered and said no more. She was greatly disappointed in Ye Mo's cultivation will.

After walking for another half an hour, Zhen Bingyu stopped and announced, "I'll practice body refinement here, you can go in further."

Ye Mo nodded and kept walking deeper.

After another 15 minutes, Ye Mo stopped at a space made up of four huge grey trees. The trees surrounding this area had fire rays that zoomed past from time to time.

When Ye Mo stopped, the scorching heat turned all his clothes and armor to air.

Ye Mo knew this was his limit, this would be where he reached nirvana.

Invisible scorching flames surrounded Ye Mo, even all his hair turned to dust now.

The fire burned Ye Mo's body, making sizzling sounds.

Ye Mo didn't care at all and just ran his body refinement cultivation method, trying to reach nirvana.

As Ye Mo used his body refinement cultivation method, more invisible flames swept over.

Even the invisible flames here had developed some consciousness after countless years. Ye Mo was having nirvana here so he needed to gather immortal spirit chi, which in turn caused more fire rays to come.

Countless fire rays struck him and Ye Mo's god state body refinement defense started to cripple. A blood arrow shot out, but it soon turned to nothing.

Ye Mo kept using his body refinement cultivation method, controlling the refinement of his body from his blood to his bones...

When Ye Mo felt that his body couldn't take that terrifying laceration, he cut off a rather large branch from the Chaos Blue Reed and immediately fused the entire Chaos Blue Reed into his flesh.

The dried up blood and flesh revitalized with boundless life force. Blood, flesh, and essence blood was born again and refined.

Eventually, Ye Mo's essence spirit and flesh fused together again like a new life. His hair started to grow slowly without being destroyed in the flame.

At this moment, Ye Mo was completely asleep. His body floated up between the four trees. Ye Mo didn't know he would sleep during nirvana or he would set up a defense formation no matter what.

Eventually, Ye Mo didn't even need to consciously use the body refinement cultivation method as it ran itself.

An invisible powerful chi started to emanate from Ye Mo's body and slowly cover him. Eventually, it formed a plain mist on Ye Mo's body while more scorching heat rushed over from the fire forest. The mist didn't dissipate no matter what and kept circulating Ye Mo.

One month, two months, half a year...

Ye Mo didn't seem to wake up at all while the mist around him was weakening.

...

Zhen Bingyu walked a few steps in joy. In half a year she had reached god state. She was planning to spend about ten years to reach god state and use a few more decades to bring it to god state peak stage and then reach nirvana here. Yet she reached god state in half a year, the body refinement cultivation method of Ye Mo was too absurd.

She was certain that not even the 11 grand heaven domains had such absurd body refinement cultivation methods.

Looking at her smoother and silkier skin, Zhen Bingyu didn't care. She didn't care if her skin looked good or not. If reaching god state meant her skin would turn dry, she would still choose it.

However, she knew that body refinement would only make one's body more and more perfect.

“Did he succeed with nirvana?” Zhen Bingyu muttered and took out a set of clothes.

She felt she seemed to have been affected by Ye Mo. Even though it was just flesh and bones, it was her privacy.

Zhen Bingyu’s cultivation level was higher than Ye Mo and she had reached god state body refinement, so she could barely match Ye Mo’s god state tertiary stage. She walked for about 15 minutes and saw Ye Mo hanging between four trees.

There was a faint mist around Ye Mo and immortal spirit chi circulating around his body. Clearly he hadn’t finished nirvana yet.

“Nirvana causes sleep?” Zhen Bingyu asked herself in confusion and walked a few steps closer. As soon as she did, more terrifying flames instantly turned her clothes to ash.

Looking at Ye Mo hanging in the air naked and looking at herself, she felt very strange.

Chapter 1597: Breakthrough to Immortal Nirvana Body

Ye Mo was not only lustful but also a madman. If he wasn’t a madman he wouldn’t cross the heaven domain void alone. If he wasn’t a madman he wouldn’t steal the Chaos Blue Reed from those great immortals.

Zhen Bingyu thought of this and subconsciously quickly moving away. When she was at a place where she was unaffected she quickly changed into a set of clothes and continued body refinement on the side, waiting for Ye Mo to wake up.

Three days later, Ye Mo felt a coolness in his sea of consciousness. He suddenly opened his eyes and a powerful and free feeling surged up his mind. It was as though his body and soul fused together, his spirit sense and immortal essence greatly improved.

His nirvana was successful, Ye Mo flipped up in surprise and joy. Looking at his perfectly shaped body, Ye Mo felt a deep sense of satisfaction.

What surprised him more was that not only did he successfully nirvana, but his spirit sense and immortal essence were greatly increased. He was golden immortal middle stage peak, just one step away from golden immortal tertiary stage.

So he hadn't reached this level before because his body wasn't strong enough. Immortal nirvana body was indeed hugely different from god state. This indescribable feeling made Ye Mo very satisfied.

The terrifying temperature here and the dense fire rays were like nothing to him now.

This powerful feeling was good indeed.

Ye Mo howled, releasing the excitement in his heart. Even if he fought with that abstruse immortal middle stage again, he could kill him with formations.

Ye Mo howled, wanting to find someone to share his joy. Nirvana was as important to him as reaching great immortal. He knew that using the Chaos Blue Reed to achieve nirvana, his body refinement future would be very smooth.

By the way, Zhen Bingyu was here, how was she now? At least she could share the joy of his nirvana.

Thinking about this, Ye Mo used a few cleansing spells and changed into a new set of clothes and walked out of the four trees. But then he turned back and wrote the words 'Ye Mo reached nirvana here'.

He finally shared some of the joy in his heart before leaving slowly.

Ye Mo didn't go very far and saw Zhen Bingyu standing not far away. Ye Mo was in a great mood, even Zhen Bingyu didn't seem as annoying as before.

“Martial sister Bingyu, since you can come here, you must’ve reached god state right. Congratulations!” Ye Mo saluted with his fists and smiled.

Zhen Bingyu coldly said, “You want to congratulate yourself, if I’m not wrong you probably successfully went through nirvana.”

“That’s right, thanks for the news of Chaos Blue Reed you provided. Otherwise, even if I reached nirvana, it wouldn’t be this perfect,” Ye Mo answered.

“By the way, did you long reach god state?” Ye Mo asked.

Zhen Bingyu was indeed happy for Ye Mo in her heart. She had seen Ye Mo’s efforts. Although he had a bad hobby, his pursuit for dao and cultivation was no weaker than hers.

Going through the heaven domain void, coming back bloodied for the Chaos Blue Reed, he must’ve gone through a lot...

But she didn’t like to show expressions and emotions. Her tone was still cold as she said, “Thank you for your body refinement cultivation method, I indeed have long reached god state, I still want to see...”

Suddenly she stopped.

Ye Mo frowned, he was naked in body refinement cultivation. Plus, she wasn’t at god state before and spirit sense couldn’t expand in the forest, so he didn’t worry. Now that she was god state she could get to him. Didn’t that mean she saw everything?

Thinking about this, Ye Mo was a little uncomfortable. He glanced at her and said, “You looked at me when I was sleeping in nirvana?”

“No,” Zhen Bingyu said and blushed for the first time in her memory.

She wasn’t embarrassed for seeing Ye Mo naked. It was her first time lying and she wasn’t used to it.

“No?” Ye Mo sneered. “Did you know your face gets red when you lie? Or do you not know your face is red?”

Zhen Bingyu was lost for words. Of course she knew she blushed, but she didn’t understand. She was an abstruse immortal and a god state body refinement, how come she couldn’t control her blushing?

“I’ve already warned you that my body isn’t just flesh and bones to me. Our dao heart is different. If you’re still going to be like this, we can only split up,” Ye Mo said.

This time, Zhen Bingyu was truly angry. If it wasn’t for her great dao she would’ve left already.

“There’s nothing to see, you saw my flesh and bones too. If you want to see it, I’ll show you again.” Zhen Bingyu spoke coldly but added uncomfortably, “No matter how firm your cultivation will is, your dao heart predestines you won’t be able to reach very high.”

Ye Mo couldn’t be bothered to talk to her anymore.

Although Zhen Bingyu really wanted to cultivate till nirvana before leaving, Ye Mo was planning to leave so she could only follow.

She knew the benefits of staying with Ye Mo, so no matter how much Ye Mo raged she would follow him. She wouldn’t mind as long as it would speed up her cultivation speed.

Ye Mo needed Zhen Bingyu too, she knew this place much better than him. If he wanted good trial grounds in here, he would need her to lead the way.

“Where do you want to go next?” Zhen Bingyu asked seeing that Ye Mo ignored her.

“Is there a place to cultivate spirit sense?” Ye Mo knew cultivation state took a long while to improve and spirit sense was very important to him, so he had to improve that quickly.

“You have a spirit sense cultivation method as well?” Zhen Bingyu called out in shock. She had long suspected Ye Mo of this.

Ye Mo shook his head. “No, can one not cultivate spirit sense without it?”

Ye Mo wasn’t going to reveal it to Zhen Bingyu.

Zhen Bingyu sighed but was still suspicious. “Not really, but without a spirit sense cultivation method, it’s extremely hard to cultivate spirit sense. There are many places here to cultivate spirit sense. The most famous place is the Corner Soul Domain, in the Corner Soul Domain...”

“Corner Soul Domain?” Ye Mo suddenly interrupted her. He thought of Corner Soul Weeds, why did the two sound the same?

Ye Mo looked at Ye Mo in confusion and nodded. “That’s right, Corner Soul Domain, what about it?”

‘I’m an immortal pill master you know. I’ve seen a jade slip about an immortal spirit herb that can repair soul and spirit sense. It’s called Corner Soul Weed, have you heard about it?’ Ye Mo asked casually.

Zhen Bingyu nodded. “Of course I have. In the immortal realm, it’s the highest level item for cultivating spirit sense. Clear weed can be used to concoct Dual Spirit Pills. It’s a level six immortal pill and the best pill to repair spirit sense for those below status immortal. Dark weed is very hard to get, but it can be concocted into the level nine immortal pill, Emperor Spirit Pill. Even status immortals have great difficulty getting it, it’s extremely precious.”

“I heard that Corner Soul Weed’s appearance is related to the Corner Soul Domain. But I don’t know if it’s true or not because no one knows where there is Corner Soul Weed,” Zhen Bingyu continued.

Hearing this, Ye Mo’s heart rustled. Other people didn’t know but he did. He had large amounts of Corner Soul Weeds too.

Chapter 1598: Wushuang Immortal Emperor

“Talk about the Corner Sea Domain, why is it related to Corner Soul Weed?” Ye Mo asked.

Zhen Bingyu agreed. “It’s said that in the ancient immortal realm, there was an unparalleled powerful being, a person called Mu Wushuang. He was solitary and didn’t like to start trouble, but he liked the thing between men and women just like you.”

Ye Mo sneered. “Since he liked that, then he shouldn’t have been able to become a powerful being. How did he become one then? ”

Zhen Bingyu didn’t seem to realise Ye Mo’s scorn and continued, “It’s because of this flaw that he didn’t become the pinnacle powerful being and his end was tragic.”

“Mu Wushuang had 18 concubines and every one of them was extremely beautiful. He loved them all until one day he was invited by the heaven lord of the number one heaven domain in the 33 heavens, Qing Wei heaven’s Wei Feng immortal emperor. Wei Feng immortal emperor was the number one immortal emperor of the 33 heavens. Although he wasn’t necessarily the strongest, Mu Wushuang had to show him face so he brought his 18 wives with him.

Other than Mu Wushuang, he also invited the other ten heaven lords of the 11 grand heaven domains. They were all immortal emperors. This immortal fruit party was supposed to be very good but there are some things that even immortal emperors can’t control. Just when the party was about to end, something happened.”

Ye Mo asked, “What happened?”

“After the part, Wei Feng immortal emperor brought the guests to enjoy the view in his garden, but the problem happened there. Mu Wushuang saw the woman that he couldn’t forget the most there. That was the person he loved the most before he reached great immortal. Then, that female immortal disappeared and he had never been able to find her. However, that woman was in Wei Feng immortal emperor’s garden and was his concubine. Mu Wushuang was emotional and just charged at that female immortal and grabbed her, asking ‘Why’?”

Zhen Bingyu sighed and shook her head.

Ye Mo knew that Wushuang immortal emperor's actions were indeed too agitated.

But then Ye Mo asked himself – if that was him, would he be able to calm down? If he saw Mu Xiaoyun at some immortal emperor's place, would he be able to calm down? Ye Mo shivered, he knew he wouldn't even if he knew the consequences.

"Then they fought?" Ye Mo sighed.

Zhen Bingyu nodded "they didn't fight on the spot but Wei Feng immortal emperor was furious. The other few immortal emperors there persuaded him and finally calmed his anger, but Wushuang immortal emperor needed to compensate him.

Originally, if he compensated this would be over. However, Wushuang immortal emperor didn't care and was still going to take Wei Feng immortal emperor's concubine. He said he needed to ask her face to face why this would be. Wei Feng immortal emperor was furious and said Wushuang had to leave all his 18 concubines behind or this wouldn't be over. The end result was that they all fought."

Ye Mo sneered. "Wei Feng immortal emperor and the other immortal emperors didn't know that woman was Wushuang immortal emperor's woman before? Since they did and they still let them accidentally meet each other, I don't think things are so simple?"

Zhen Bingyu looked coldly at Ye Mo and said, "If you dare to say this in front of someone else, I can promise you won't live for more than three years."

Ye Mo knew Zhen Bingyu said this out of goodwill so he didn't argue.

Seeing this, Zhen Bingyu breathed easy and said, "Because reason was on Wei Feng immortal emperor's side, when the two fought, the other ten immortal emperors all helped Wei Feng immortal emperor.

Ye Mo was shook, this meant that Wushuang immortal emperor was just too powerful. Otherwise, even if he was wrong, the other immortal emperors didn't need to gang up on him.

“That battle was heaven shaking and earth rattling. They fought from Qing Wei Heaven to the void, then the void to middle heaven domains, and then to low heaven domains. Even countless planets in the cosmos were destroyed. If they weren’t fighting in the void, perhaps even heaven domains would be destroyed. Wushuang immortal emperor hadn’t attained the dao, but his power was indeed unparalleled. More than ten people attacked him but he killed nine immortal emperors and escaped into the Chaos Star Realm, heavily injured.”

Hearing this, Ye Mo was shook and immediately asked, “You’re saying Mu Wushuang is in the Chaos Star Realm?”

“Yes, he had nowhere to go so he came here, but those immortal emperors chasing him were also heavily injured. They knew Wushuang immortal emperor was dead for sure and didn’t want to go in and die with him. The Chaos Star Realm at the time was different to now. Those who went in would die for sure,” Zhen Bingyu said.

“Then Wushuang immortal emperor is certainly dead?” Ye Mo asked again.

Zhen Bingyu nodded. “Probably, because a few hundred thousand years ago, a few more immortal emperors went in here together and saw the corpse of Wushuang immortal emperor at level two. The Corner Soul Domain is a small world of Wushuang immortal emperor. It’s said there is Wushuang immortal emperor’s heritage in the Corner Soul Domain. Over the years, countless people have gone there in search of Wushuang immortal emperor’s heritage, but no one has ever been able to find it.

“Then how did the Corner Soul Weed appear?”

“At the beginning, people found Corner Soul Weeds at the Corner Soul Domain, but as more and more people went, there were less that could be found. Eventually people couldn’t find any. It was too easy to die in the Corner Soul Domain, so few people went. Tens of thousands of years later, people from the cultivation realm brought Corner Soul Weeds here.”

“It’s really easy to die in the Corner Soul Domain?”

“Yes, at the beginning, there was less than a 50% chance of dying, and when the Corner Soul Weed was found, the chances were even greater. Later on the chances decreased, but people could only refine their spirit sense there so few people went.”

“Does Wushuang immortal emperor have something very important?”

“Wushuang immortal emperor had multiple small worlds and it’s said he also had a true spirit world. When he went into the Chaos Star Realm, his true spirit world disappeared.”

“How could Wushuang immortal emperor fight so many immortal emperors at the same time?”

“It’s because he has the best spirit sense cultivation method, an immortal emperor who had the same cultivation level as him wouldn’t be able to survive at all due to his spirit sense cultivation method.”

“So that’s it.” Ye Mo nodded. He realized why he would be ambushed.

A true spirit world wasn’t as good as a chaos world, but it was countless times better than a small world. The truth spirit world could allow up to truth realisation state cultivators to stay in.

That Wei Feng immortal emperor was definitely a sinister person.

“Is Wei Feng immortal emperor still alive?” Ye Mo disliked this Wei Feng immortal emperor. This guy was a harm to the world.

Zhen Bingyu looked speechlessly at Ye Mo. “The most authoritative figure in the 33 heavens is Wei Feng immortal emperor, you tell me if he’s alive. 100,000 years ago, he personally went to the Corner Soul Domain to check and learned that Wushuang immortal emperor was indeed dead. The 18 imprisoned concubines all disappeared too. Some say they committed suicide, while some say they ran away.”

“Then what about the woman who started the trouble?”

“How would I know?” Zhen Bingyu rolled her eyes and continued, “When you were at the Far Star Castle, did you see a few thousand Ji Feng heaven domain’s immortals?”

“I did, what’s wrong?” Ye Mo nodded.

“They’re going to Corner Soul Domain to trial. I heard the conversation between two of them at level one, they want to go find Wushuang immortal emperor’s heritage there,” Zhen Bingyu said.

Ye Mo asked in confusion, “Didn’t you say that in these few hundred thousand years, no one has been able to find it?”

Zhen Bingyu frowned. “I thought so too, but for some reason Ji Feng Heaven is doing this. I was planning to go see too, but I met you and body refined until now. If you go in the Corner Soul Domain, your spirit sense will be limited. So, immortals will try to extend their spirit sense, if they really did then it meant your spirit sense was improving.”

Ye Mo said without hesitation, “Let’s go there now.”

Chapter 1599: Eerie Corner Soul Domain

Ever since the death rate of the Corner Soul Domain dropped, a little less than half the immortals at level two went there.

Although spirit sense cultivation methods were very rare, every cultivator knew about the importance of spirit sense.

Ten days later, Zhen Bingyu’s rainbow stamp landed outside some rubble.

“This is the Corner Soul Domain?” Ye Mo looked at this endless ruin and asked. At this place he thought of the Heartless Sea’s Lost Soul Ruins. This place gave him a very eerie feeling. It didn’t seem like a place for refining spirit sense.

Ye Mo didn’t expect that there had been a city here but it was destroyed.

“Yes, this is Corner Soul Domain. Some people say it’s Wushuang immortal emperor’s small world and some say it’s his true spirit world, but a long time ago, people indeed found some good things here.

There were high level immortal spirit herbs and top grade cultivation methods, but more importantly, this was the best place to refine spirit sense,” Zhen Bingyu explained.

There were some immortals here who hadn’t gone in. Seeing Ye Mo and Zhen Bingyu come down from the sky, they were all amazed.

The Shadowless Vulture at level two was so much more powerful than at level one. Although many people were curious, none came up to ask. Ye Mo looked like he was golden immortal primary stage, but his ferocious chi was denser than ordinary abstruse immortals, Zhen Bingyu was extremely beautiful, even immortals would take a few extra glances.

Ye Mo didn’t know what others thought, he just went through nirvana and couldn’t hide his ferocious chi.

“Friend, are you not afraid of the Shadowless Vulture?” An extremely bulky looking golden immortal peak stage walked up to Ye Mo and saluted with his fists.

Ye Mo didn’t mind and answered, “My flying magic artifact can sense the Shadowless Vulture, so with preparation you can kill Shadowless Vulture as soon as they attack.

“So that means you’ve killed quite a lot of Shadowless Vultures?” the golden immortal peak stage asked desperately.

Ye Mo nodded. “Not much, just eight.”

“Friend, I have many immortal spirit herbs and forgery materials. Can I exchange some for some Shadowless Vulture cores and main feathers?” Then the golden immortal peak stage showed a few immortal spirit herbs and pulled out a pile of materials.

Seeing these materials, Ye Mo was immediately interested. He couldn’t forge a middle grade immortal artifact yet, but there were some level four immortal grade materials here.

“How much do you want to trade?” Ye Mo asked.

“How about five pairs, no, just four pairs of main feathers and four beast cores...” the golden immortal peak stage asked desperately.

Ye Mo thought for a moment. The value of these things were far higher than Shadowless Vulture main feathers, but it was hard to hunt Shadowless Vultures and the value wasn't easy to evaluate.

“Three pairs plus three beast cores...” Ye Mo said.

“Deal.” The golden immortal peak stage gave his things all to Ye Mo.

Seeing this, people all came over wanting to trade with Ye Mo. Seeing Ye Mo was willing to take forgery materials, people all used forgery materials to trade. After all, immortal spirit herbs were far more useful for cultivation.

In a short while, all of the left over Shadowless Vulture main feathers were traded away. As for the Shadowless Vultures he hunted at level two, Ye Mo didn't plan to trade them for the moment.

The longer Zhen Bingyu stayed with Ye Mo the more she felt she didn't understand him. She knew Ye Mo might be an immortal pill great master and was a level two immortal formation master. He was at least golden immortal middle stage and was an immortal nirvana body body refinement cultivator. Now she began to suspect Ye Mo of being an immortal forgery master, an immortal forgery great master.

But she didn't ask this as she knew Ye Mo wouldn't say anything.

After the exchange, even some abstruse immortal looked at Ye Mo with respectful glances. Ye Mo used genuine Shadowless Vulture materials to trade. This meant that he could hunt Shadowless Vultures whenever he wanted. How could someone like that be simple?

Ye Mo walked to the bulky golden immortal peak stage and saluted with his fists. “Friend, may I ask if you're going to Corner Soul Domain for trial?”

“Of course.” The golden immortal peak stage was happy with Ye Mo and said, “I come from Ji Feng Heaven’s great extreme immortal sect Golden Light Sect. This is a trial and tournament for all the sects in Ji Feng Heaven.”

“How does it work?” Ye Mo asked.

“People can’t extend spirit sense out in the Corner Soul Domain, but immortal essence remains unaffected. Whoever can find the most Corner Soul Mushrooms is the winner,” the golden immortal peak stage answered.

“Corner Soul Mushroom?” Ye Mo frowned and looked Zhen Bingyu. Zhen Bingyu shook her head.

The golden immortal peak stage smiled. “It’s nothing strange that you guys don’t know. Corner Soul Mushroom haven’t appeared in the Corner Soul Domain for long, at most a few years. It’s because they appeared that we’re having this tournament.”

“What’s the use of the Corner Soul Mushrooms?” Ye Mo asked.

“They can be used to concoct spirit sense recovery pills, level two immortal pills. It has little use for great immortals but are rather good for abstruse immortal and below. It can also be directly consumed and one can even learn the use of spirit sense from it,” the golden immortal answered.

Ye Mo asked, “Then have you found them?”

The cultivator shook his head. “It’s very hard to find them, I haven’t even seen one yet.”

Then he passed a picture to Ye Mo. “Look, this is Corner Soul Mushroom.”

Ye Mo looked at the dull gray mushroom and saluted with his fists. “Thank you friend, we’re going inside to refine spirit sense, farewell.”

Then Ye Mo followed Zhen Bingyu into the ruins. As soon as they came in, he felt his spirit sense was suppressed to a meter, but he wasn't worried. With the experience in the Extreme Star Canopy, he would use his Three Birth Chant and see if it could recover. Even if he couldn't he wasn't scared now that he was an immortal nirvana body cultivator. But the only thing he worried about was that when he came in here, the eerie feeling grew more intense.

Zhen Bingyu went with Ye Mo for a while before saying, "Martial brother Ye, my master had come in here a few times and our sect leader has too, but they've never heard about some Corner Soul Mushroom. I feel this is very strange. If they could repair spirit sense then it would be very precious no matter what level they are, how can there be no news of them?"

Ye Mo nodded. "This is strange indeed, but we haven't found one yet so we don't know what's strange about it. We'll know after we find one."

Three days later, Ye Mo and Zhen Bingyu came to the depths of the Corner Soul Domain. In a broken down house Ye Mo set up a stealth restriction and said to Zhen Bingyu, "I'm going to see if I can recover my spirit sense."

Zhen Bingyu nodded and just sat on the side, waiting for Ye Mo.

After a day of trying, Ye Mo found his spirit sense extended over two meters but it was harder to go any further.

Ye Mo took out a clear weed and started using it while trying to extend his spirit sense. What shook Ye Mo was when he used Corner Soul Weed, his spirit sense extended rapidly. After one was used up, his spirit sense could extend to a distance over 100 kilometers away.

A day later, Ye Mo's spirit sense had completely recovered. He realized that this place could refine spirit sense for other cultivators, but not him. If his spirit sense could recover anywhere, then no place would be good for him.

Chapter 1600: Fighting a Great Unity Immortal

Just when Ye Mo wanted to leave, his spirit sense scanned that Zhen Bingyu was fighting with a fatty. Zhen Bingyu wasn't inside the house anymore, but clearly she was no match for that fatty. If that fatty wasn't toying with her, she would've been killed already.

Ye Mo sneered and put away the formation flag. Zhen Bingyu was struck by the fatty and spat blood in the air before flying back towards Ye Mo.

"So you have an intrigant, no wonder you didn't want to leave here." The fat man saw Ye Mo come back.

Ye Mo caught Zhen Bingyu and gave her a pill. "Rest for a while. I know this fat man, you're no match for him."

Zhen Bingyu knew Ye Mo's power and nodded while retreating.

What Ye Mo didn't expect was that when the fat man heard his words, there was shocking fury in his eyes. He said coldly, "So it's you two!"

Ye Mo frowned and didn't talk but the fat man asked, "Did you steal the Chaos Blue Reed?"

This shocked Ye Mo, did one still have remnant chi of the Chaos Blue Reed after using it for body refinement? He didn't feel it at all.

Zhen Bingyu was shook, she didn't expect Ye Mo stole the Chaos Blue Reed from this fat man. Ye Mo had such guts, this fat man was at least a golden immortal and had part of his spirit sense left.

Zhen Bingyu quickly said, "This person has spirit sense equivalent to a hollow immortal."

Ye Mo knew this fat man was called Han Weichen, a great unity immortal. If this wasn't the Corner Soul Domain, he would run as far away as he can. No matter how absurd a golden immortal middle stage was, there was no way he would be a match for a great unity immortal.

What he was confused about was how this fat man knew he stole the Chaos Blue Reed.

Then, Ye Mo realized he shouldn't have said he knew this fat man. The fat man never saw him before so he immediately thought of the Extreme Star Canopy.

"Tell me, is it you?" the fat man yelled, clearly not very sure but his tone was shaky. He hoped it was Ye Mo who stole it. If it was, then he wouldn't need to split it with the rest of the three. He would get it and run away as far as possible and go into solitary cultivation.

"You really talk too much." Ye Mo hacked over.

Han Weichen stopped talking. His killing intent exploded, the volatile immortal essence shook the space around him. He used all his power as a great unity immortal against Ye Mo. Even though he could only control his spirit sense to about hollow immortal through his secret technique, it wasn't something Ye Mo could stop.

There was seriousness in Ye Mo's eyes, he used Illusion Cloud Formation Kill Strike immediately. This was his cultivation realm sword ability, but as his power increased, it was far from what it was before.

Ye Mo hacked out the endless sword rays while Han Weichen's red tower smashed down too. Ye Mo breathed easy however – if Han Weichen didn't use magic and just fought with him head on, he would have to dodge, but magic was limited by spirit sense. He was an immortal nirvana body so he could take a blow from hollow immortal spirit sense despite his powerful immortal essence.

So Ye Mo ignored the tower and instead used Illusion Cloud Domain Kill Strike next.

He also released tens of dark lightning bolts and Shadowless.

Han Weichen's red tower grew bigger and bigger, but it didn't land. The faint red rays had shone upon Ye Mo already.

A tearing pain came and Ye Mo was shocked. He didn't expect his immortal nirvana body would be damaged by such red light. But Ye Mo didn't have time to change his tactics anymore, he could only use more immortal essence and spirit sense on activating Zi Xu.

"Immortal nirvana body? It's you indeed, die..." Han Weichen knew he guessed right seeing Ye Mo was a body refinement cultivator.

But the next moment when tens of lightning bolts landed on him, he called out in shock, "Your spirit sense isn't reduced at all, how did you do it?"

Ye Mo wasn't going to reply, black Lightning Sword followed wave after wave. He also cut out tens of spirit sense blades.

The red tower smashed towards Ye Mo like a meteor while Ye Mo's spirit sense had cut the border of this fatty's sea of consciousness.

Immediately, Han Weichen's spirit sense withered and his sea of consciousness was heavily injured. At the same time, he spat a mouthful of blood.

The red tower that lost control smashed onto Ye Mo's body, making him spit a mouthful of blood, but it also fell on the ground losing its vibrance.

"Spirit sense cultivation method!" Han Weichen called out in shock. At the same time, he smashed his fist at Ye Mo. He couldn't use any more magic artifacts as his sea of consciousness was damaged.

Ye Mo's Zi Xu also hacked towards Han Weichen, spraying out mists of blood.

Even though a great unity immortal only used his fist, the force was dominating. The fist locked the nearby space immediately. Even if Ye Mo wanted to run, he would be able to break away from the immortal essence fist wind.

Ye Mo was shocked, he didn't expect the immortal essence binding of a great unity immortal punch to be the same as a powerful domain. There was no choice but to take it head on.

In his shock, Ye Mo could only run his immortal essence like crazy while trying to use Zi Xu to block it. At the same time, he urged Shadowless to attack.

The difference in cultivation level was too huge. Even though Ye Mo had spirit sense, he couldn't take the upper hand in the battle. If it was in the Extreme Star Canopy, he might be able to win as Han Weichen's immortal essence would be bound too.

Seeing the big fist smash over, Ye Mo wanted to use Zi Xu to block it, but he was missing just that one bit.

Just when Ye Mo was extremely desperate, Han Weichen's fist slowed down. Ye Mo was overjoyed, Shadowless must've succeeded. He wasn't going to waste this opportunity.

Zi Xu came before the fist and hacked down, Illusion Cloud Hua Mountain Strike.

"Such a cunning bastard..." there was madness in Han Weichen's eyes as he punched, disregarding Zi Xu.

Splurge

Zi Xu hacked in the middle of the fist, splitting it in half, but it didn't slow down at all and punched Ye Mo.

Ye Mo spat many mouthfuls of blood. He felt he was sucked up by the fist and the crazy immortal essence on the fist kept passing over. A sliver of despair flashed in Ye Mo's eyes, he didn't expect a great immortal without spirit sense to still be this powerful. Even though he had Shadowless to help, he was still no match. If he didn't have an immortal nirvana body, he might be dead now.

The endless immortal essence charged into Ye Mo's body. Ye Mo couldn't run away, but he knew when Shadowless was forced out of Han Weichen's body, that would be when he would be killed.

Crack

There was a light sound, but Ye Mo knew his meridians cracked. But what made Ye Mo rejoice was that the ravaging immortal essence suddenly disappeared.

Ye Mo fell down, and before he went unconscious, he saw Han Weichen's head fly out while Shadowless chased up to Han Weichen's essence spirit and devoured it. Zhen Bingyu held a black sword and grabbed Han Weichen's storage ring.

Ye Mo breathed easy before he fell unconscious, he knew Zhen Bingyu wasn't a dark hearted person.
