

Strongest As 1601

Chapter 1601: I Don't Fuss With Dead People

When Ye Mo woke up, he smelled a faint aroma and there was a soft sensation. Immediately, he realized he was laying on Zhen Bingyu's back. Ye Mo knew that Zhen Bingyu didn't kill him and take his things. But then he saw there wasn't just her, there were a few hundred people here.

What was going on? Ye Mo frowned but soon felt a tearing pain all over his body, he quickly took out a few pills and ate them.

As soon as Ye Mo woke up, Zhen Bingyu noticed. She said without turning around, "A lot of Corner Soul Mushroom has been found, some people found a hidden entrance below it."

"I'm heavily injured why did you take me here?" Ye Mo asked in confusion.

Zhen Bingyu fell silent and said, "Because they said this is the heritage ground of Wushuang immortal emperor, so they all came. I didn't want to miss this opportunity so I came over."

Ye Mo knew she didn't save him because she had a good impression of him but since they were still in cooperation.

Ye Mo said no more and threw Shadowless from his clothes into the Golden Page World. Then, he used some time quickly to recover on Zhen Bingyu's back. He was really afraid this martial sister Bingyu would leave him here. Luckily she said nothing and didn't leave him behind.

Five minutes later, Ye Mo recovered some of his power. His immortal nirvana body helped him, even his broken meridians repaired quickly.

"Goddess Bingyu, if there is Wushuang immortal emperor heritage, why don't we work together?" an abstruse immortal middle stage quickly came to Zhen Bingyu and asked softly.

Zhen Bingyu said plainly, "I'm already working with someone else martial brother, go find someone else."

The abstruse immortal middle stage looked at Ye Mo and said, "This friend is your martial brother? Or did he come in with you?"

Zhen Bingyu frowned and said coldly, "No we cooperated after we came in."

The abstruse immortal middle stage suddenly said no more, but sound transmissioned to Zhen Bingyu, "If that's the case, then I suggest you put him down first. Otherwise, if Wushuang immortal emperor's heritage appears, you wouldn't even be able to stay alive much less try to take it. If we work together we can split evenly – plus, I'm abstruse immortal middle stage."

It was a pity spirit sense was suppressed here, so Ye Mo heard it clearly.

Zhen Bingyu looked coldly at the abstruse immortal middle stage and walked forward rapidly.

"Luo Wufa, you don't want to cooperate with Bingyu goddess right? I think you want to dual cultivate with her," another abstruse immortal middle stage said.

Luo Wufa scanned the man and said plainly, "Even if it's dual cultivation, it's not like she's losing out. Would I mistreat an abstruse immortal primary stage goddess?"

"The thing is she would rather carry an golden immortal insect than dual cultivate with you, what can you do?" the man asked.

Luo Wufa said calmly, "She will want to."

...

Six minutes later, the people ahead stopped and so did Zhen Bingyu.

“There seems to be a defense restriction ahead,” someone said.

“Attack together, after a few hundred thousand years, this defense formation won’t be tough,” someone said.

Clearly, everyone agreed and moments later all sorts of magic artifacts smashed onto the defense restriction.

Although spirit sense was suppressed, the restriction quickly broke with this many immortals attacking it.

An ancient black jade door was revealed. After going inside, there was a huge round shaped stadium. The ground was covered in blue warm jade and the surroundings were silky smooth.

“Why is there nothing?” someone asked disappointedly.

There really was nothing here, these ward jades were eternal wealth for ordinary mortals, but they were worth nothing to the immortals here.

In their disappointment many started attacking the walls, but only rocks fell nothing else.

Many people sat down in disappointment, but no one left. They all had a sliver of hope for this stadium. Some formation experts started calculating if there were stealth formations here.

Zhen Bingyu and sat to the side with Ye Mo.

“Thank you,” Ye Mo said. This time he was truly grateful to Zhen Bingyu. This made him feel it was useful to work with someone in the Chaos Star Realm. If he was by himself, he might’ve been killed by Han Weichen already.

Zhen Bingyu said plainly, “No need, you only need to not treat me as a useless person.”

Then she took out a grey mushroom and passed it to Ye Mo. "This is a Corner Soul Mushroom. Many people found them and I collected a few too."

Ye Mo took it and looked at it but suddenly his face changed greatly. He put the mushroom away and didn't give it back to her. Instead he asked, "How many did you get?"

"Three," Zhen Bingyu said coldly.

"Give them all to me," Ye Mo said without hesitation.

Zhen Bingyu frowned, Corner Soul Mushrooms were level two immortal spirit herbs, but they could repair spirit sense. This was sometimes more valuable than level four immortal spirit herbs and even ordinary level five immortal spirit herbs. She kept two for herself and one for Ye Mo from how Ye Mo divided loot.

But Zhen Bingyu didn't reject and gave the remaining two to Ye Mo. "They're all here, take them."

Then, Ye Mo heard a scolding voice. "Parasite, you're living on a woman, shameful thing!"

The voice was loud and everyone in the stadium heard it. Even those few formation masters looked at Ye Mo. Ye Mo was only golden immortal primary stage. If it wasn't for that extremely beautiful abstruse immortal goddess, he wouldn't even be able to come in and yet he was so demanding to her.

Yet Zhen Bingyu still obediently listened to Ye Mo, making everyone feel her following Ye Mo was such a waste.

Zhen Bingyu heard it too, but she didn't care at all.

Ye Mo smiled and said weakly, "Qian bei, this Corner Soul Mushroom can indeed repair spirit sense. I feel it's very good so I kept it."

Seeing this, more people were contemptuous. Immortals always respected the strong, people had no sympathy for the weak.

Luo Wufa saw this and laughed, he walked up to Ye Mo and said, "I want your three Corner Soul Mushrooms, I'll give you ten immortal crystals. Give them to me."

Then he added, "Oh, by the way, I only have low grade immortal crystals, nothing else."

Ye Mo laughed. "Since qian bei wants it then take it, I don't dare to ask for immortal crystals."

Then, Ye Mo gave the three Corner Soul Mushroom to this abstruse immortal middle stage without hesitation.

"Haha..." Luo Wufa laughed. Not just him but all the cultivators in the stadium laughed as well. They looked down on Ye Mo's cowardice. He dared to come here and try to get Wushuang immortal emperor's heritage with such guts?

Zhen Bingyu frowned but didn't say anything. She knew Ye Mo very well, he wasn't someone to lose out. He even dared to rob a great unity immortal and kill him, much less this abstruse immortal middle stage.

Ye Mo patted his clothes and got up. "Martial sister Bingyu, I've recovered – let's go. There are too many qian beis here, even if Wushuang immortal emperor's heritage comes, there's not a share for us."

Even Zhen Bingyu couldn't take it this time and said coldly, "This chance is one in a million years, if you want to go out you go out. I'll stay here. Plus, I thought you didn't fear anything? You don't dare to talk to a mere abstruse immortal middle stage?"

Zhen Bingyu was still unhappy the mushrooms were taken.

"I don't fuss with dead people." Just when Ye Mo said this, he heard a joyful voice, "This stadium is indeed a formation, there are eight formation doors."

Ye Mo and Zhen Bingyu looked up and eight hidden formation doors appeared on the stone pillars.

Chapter 1602: Sudden Change at Corner Soul Domain

The few hundred immortals in the stadium rustled, wanting to go in immediately.

At this moment, one abstruse immortal tertiary stage got up and said, "Everyone calm down. There are eight formation doors: some are real and some are fake, or they might all be real or all be fake. I think we should divide into eight groups and each group should attack a formation door. Then, everyone go in and try their luck."

"Okay."

"Agreed."

"This is the best solution..."

Many people agreed and soon the few hundred immortals formed eight groups of about equal size.

Luo Wufa walked to Zhen Bingyu and scanned Ye Mo contemptuously before saluting with his fists. "Goddess Bingyu, let's go together. I know a little about formations, I won't let you lose out."

Zhen Bingyu didn't look at him and stared at Ye Mo for a long while before asking coldly, "You really don't want to go in and test your luck?"

Ye Mo smiled plainly. "There are so many masters here, it's not something I can get. I'm going, but if martial sister Bingyu wants to go to the place you spoke about, then you had best come with me."

Then, Ye Mo walked out rapidly. Seeing Ye Mo's speed, Zhen Bingyu clenched her teeth and chased up to Ye Mo. "I'll listen to you once."

Ye Mo ignored Zhen Bingyu and just went even faster. At this moment, another skinny young golden immortal peak stage chased up to Ye Mo and left the stadium with Ye Mo. All the immortals were attacking the formation door wanting to get Wushuang immortal's heritage. The three went out and some people saw, but no one cared.

Seeing another person come out, Ye Mo looked at that golden immortal with confusion and killing intent. He didn't understand how someone could resist the temptation of Wushuang immortal emperor's heritage.

"Qian bei, wan bei is Cha Qiong, a solo cultivator of the Ji Feng (Extreme Wind) heaven domain," the skinny golden immortal quickly said.

Ye Mo looked at him and said, "Brother Cha I'm only a golden immortal primary stage, why are you calling me 'qian bei'?"

But Ye Mo didn't slow down at all and instead went even faster.

Cha Qiong saluted with his fists. "I saw qian bei at the asteroid door, so I know qian bei is definitely not someone who is scared of death nor that abstruse immortal. With your courage to cross the heaven domain void alone, how can you be scared at the heritage grounds?"

Ye Mo nodded. "You're very smart, if you don't want to die then leave with me."

"Thank you qian bei." Cha Qiong saluted with his fists in joy.

Before Zhen Bingyu could say anything Ye Mo said heavily, "Quickly release your flying magic artifact and let me control it."

"Okay." Zhen Bingyu didn't argue at all.

Ye Mo used the rainbow stamp at full power and it dashed towards the exit of Corner Soul Domain rapidly.

Seeing this, Cha Qiong was shocked. He knew his guess was right, this qian bei's spirit sense wasn't depleted at all here, how could he be afraid of that abstruse immortal middle stage? He could easily annihilate that abstruse immortal middle stage with such spirit sense, but why didn't he kill that guy and instead gave the Corner Soul Mushroom to him?

Just when Cha Qiong wanted to ask Ye Mo asked him, "Brother Cha, do you have a Corner Soul Mushroom on you?"

"Wan bei picked one," Cha Qiong quickly took one out and said.

"Throw it away," Ye Mo said.

"Yes, qian bei." Cha Qiong threw it away without any doubt.

Ye Mo sped up the rainbow stamp even more. Cha Qiong's mind was clear and Ye Mo didn't sense any ill will from him, that's why he decided to help.

Ye Mo felt this person was worth helping and not someone to betray someone who helped him.

"Brother Cha once you leave today, do not mention anything about Corner Soul Domain or you won't escape death. Don't even mention that I can use part of my spirit sense," Ye Mo reminded him.

"Yes, Cha will remember qian bei's words..."

Before he even finished, he felt the space around here rattle as though it was about to collapse.

Ye Mo's face changed greatly and he sped up the rainbow stamp even more, but the rattling of space was getting greater and greater. The rainbow stamp seemed to be getting slower and slower.

Even Zhen Bingyu noticed things weren't right. Her face was cold but she approved of Ye Mo. She really couldn't comprehend how Ye Mo knew something was wrong and how it was related to Corner Soul Mushroom.

Cha Qiong was shook even more. He felt that since Ye Mo dared to cross the heaven domain void alone when he was golden immortal primary stage, he was definitely someone extremely talented and wouldn't make a mistake in such a situation. Now, it seemed his decision was right, something scary was about to happen at the Corner Soul Domain.

The space rattled more with a sliver of a soul enchanting sound, as though the sound was telling them to stay.

Even Zhen Bingyu felt her mind was shaking and subconsciously looked at Ye Mo. She found that Ye Mo bit his lips but the rainbow stamp didn't slow down at all.

There was a rattle and the rainbow stamp shook.

She wanted to ask Ye Mo, but seeing his sunken face, she ate the words.

About 15 minutes later, space shook even more and it began to distort.

But then, Zhen Bingyu saw Ye Mo's face finally easy. Before she could ask, she felt her sea of consciousness loosen up and her spirit sense recover.

They were out of the Corner Soul Domain. Just when Zhen Bingyu wanted to talk, she found that Ye Mo didn't slow down at all.

As though knowing what she wanted to say, Ye Mo said coldly, "Use your spirit sense to scan the Corner Soul Domain and you will know. Quickly helped me control rainbow stamp, I need to kill Shadowless Vultures."

Cha Qiong looked back at the disappeared Corner Soul Domain and his face was pale. Zhen Bingyu saw what happened and her face went pale too.

She finally understood what Ye Mo meant. The Corner Soul Domain was shrinking and those few immortals standing at the border were swept in. Instantly, the shrinking Corner Soul Domain disappeared from their spirit sense.

For three days, Ye Mo just killed Shadowless Vultures and Zhen Bingyu just controlled the stamp.

Three days later, Ye Mo said, "Brother Cha, it's safe now but I suggest you go to level one or level three for trial. Even if you stay at level two, don't stay near here."

Cha Qiong knew the two were about to leave so he got up and saluted with his fists. "Qian bei, wan bei's life was saved by qian bei. If qian bei needs my help in the future, just send a message to Extreme Wind Heaven's Luo Mo Immortal City's Cha family. I swear I will never mention anything about qian bei, if I go against my oath, the heavens and earth will annihilate me, I will die to divine damnation."

Ye Mo smiled. "This is a coincidence, if I go to Luo Mo Immortal City in the future, I will definitely come visit." Ye Mo was quite happy with Cha Qiong making the oath proactively.

Cha Qiong nodded and left the rainbow stamp.

Now, Zhen Bingyu asked, "Where do we go?"

"Level three, you go find a place for nirvana, I have to reach abstruse immortal. Otherwise, my power is too weak," Ye Mo said.

Zhen Bingyu was speechless. Cultivate to abstruse immortal, such words made people want to puke blood.

Chapter 1603: Shadowless' Origin

Zhen Bingyu didn't ask much and just took out a storage ring and gave it to Ye Mo. "This is that great unity immortal's storage ring. I didn't touch it, you can take it."

Ye Mo took it and looked at Zhen Bingyu in confusion. “Okay, I happen to need it – but don’t worry, I won’t let you lose out.”

After these few days, Zhen Bingyu knew that Ye Mo was more prideful than her. It looked like he didn’t care but he definitely wouldn’t take advantage of someone. But if he didn’t agree, no one could secretly take advantage of him. He would definitely get it back if he lost out on something.

“Was it the Shadowless Worm that helped you devour the great unity immortal essence spirit?” Zhen Bingyu asked.

“You know of Shadowless Worm?” Ye Mo asked instead. He knew he couldn’t hide this from her and she seemed to know a lot too. Now that she asked this, Ye Mo immediately wanted to ask if she knew of Shadowless’ origin.

Zhen Bingyu nodded. “That’s right, I indeed know its origin. Almost everyone knows of it, but rarely does anyone know what it is exactly. It’s not a spirit bug nor immortal spirit bug, it’s a type of god beast.”

“You’re saying my bug is a god beast?” Ye Mo looked dazily at Zhen Bingyu. Shadowless was only the size of a pea, it had nothing to do with a god beast.

Zhen Bingyu didn’t feel it was funny and kept saying, “It’s not only a god beast but it’s also a part of the dragon race. I don’t know exactly which branch, but it’s extremely small and hard for it to progress. Thus, they couldn’t stay in the dragon race and was considered a difference race. They were cast out of the dragon race because they were too weak and couldn’t survive at other places. Just when they were about to be annihilated, a member of the dragon race secretly sent down the last tens of pairs of Shadowless Worm eggs to the mortal realm.”

“You’re saying that when the tens of pairs of Shadowless Worms in the mortal realm disappear, then the Shadowless Bug would be extinct?” Ye Mo asked.

“That’s right, a few pairs of Shadowless Worms have been brought to the cultivation realm from the mortal realm. Although it can dominate the cultivation realm and no spirit bug is a match for it, in the immortal realm it’s completely ordinary because no one can pay the price for Shadowless Worms to evolve,” Zhen Bingyu said.

“Do you know what level my Shadowless bug is?” Ye Mo quickly asked.

Zhen Bingyu shook her head. “If I’m not wrong, it’s still at the infant stage, it hasn’t evolved yet.”

“What?” Ye Mo looked at Zhen Bingyu in shock. He had been giving Shadowless extreme grade spirit stones and extreme grade spirit ranges, essence spirit and evil spirits, all he could eat. It even slept near the Bitter Bamboo. Even in the immortal realm, it had great conditions. How come it still hadn’t evolved yet? He clearly saw Shadowless change colors a few times.

“But since yours can hold out against a great unity immortal, it clearly has been living well. Shadowless Worms can devour everything. It’s said a mature one can devour an entire realm,” Zhen Bingyu said.

“Then if it’s that strong, why was it kicked out of dragon race?” Ye Mo asked.

“Because that’s only in theory. In fact, no Shadowless Worm has ever reached such a level and it’s impossible for it to reach such a level. Shadowless Worms have five levels: before evolving they’re called spirit worms, that’s level one. When it reaches level two it’s called heaven tao. Level three is immortal tao, level four is god tao. The dragon race is a god beast, but not all dragon race descendants can be god beasts. If Shadowless worm can reach god tao it would belong amongst the god beasts.”

“Level five is divine tao, it can devour anything. By then, even divine body immortals wouldn’t be able to suppress it,” Zhen Bingyu answered.

“Thank you.” Ye Mo finally understand what the saying ‘Not spirit bug, not immortal’ meant.

Ye Mo had decided to think of a way to let Shadowless reach god tao. Then, he would take him to the dragon race and slap their face. But if Shadowless didn’t work hard himself, then never mind.

“Thank you for saving me once,” Zhen Bingyu said.

“It’s nothing, if you didn’t believe I wouldn’t drag you out. I can only say you saved yourself. Plus your flying magic artifact is faster than mine, we could come out partially due to you.” Ye Mo waved his hand.

Zhen Bingyu asked, "What happened at the Corner Soul Domain? How did you know? Why can't you take that Corner Soul Mushroom?"

Hearing this, Ye Mo's face went serious. He fell into silence for a moment and said, "If I'm not wrong, that Corner Soul Domain is probably Wushuang immortal emperor's sea of consciousness..."

"What?" Zhen Bingyu was astonished and asked, "How do you know?"

Ye Mo shook his head but didn't answer. How did he know? Of course from the Corner Soul Mushroom.

It contained an intense desire and spirit sense dao will. That spirit sense dao will demanded Ye Mo to refine it. Ye Mo noticed it immediately and had a bad feeling.

When he checked the mushroom again, he had a new feeling and that was it was born from a sea of consciousness. It existed so that one day when it was ripe, they could be used to repair sea of consciousness with the essence blood of the cultivator who refined it.

Originally, Ye Mo thought that palace was the sea of consciousness, but when he left it he immediately felt that the entire Corner Soul Domain was probably the sea of consciousness. The reason he had such an intense feeling was because the owner of the sea of consciousness, like him, also used large amounts of Corner Soul Weeds to refine his spirit sense. That feeling was crystal clear but Ye Mo felt he couldn't explain it to Zhen Bingyu.

Thinking about when people found Corner Soul Weeds here, Ye Mo was certain that these Corner Soul Weeds were left behind by the owner of the sea of consciousness to use for repair. However because they were taken away, the owner could only use Corner Soul Mushrooms and the essence blood of immortals to repair his sea of consciousness.

Only people who had used Corner Soul Weeds for a long time could sense that the Corner Soul Domain was a sea of consciousness and Ye Mo was one such person.

But of course that was just his guess, when he left the Corner Soul Domain and saw it shrink, he knew his guess was right.

That Wushuang immortal emperor might still exist and his sea of consciousness was still under repair. Even if he wanted revenge against Wei Feng immortal emperor, he would probably need countless years. However, Ye Mo didn't plan to spill this.

What happened here would draw a lot of powerful beings over. It was best to leave as far as possible.

...

Ye Mo opened the great unity immortal storage ring. There were five million top grade immortal crystals and quite some level three immortal pills. There weren't many level four immortal pills but there were quite some level four and level five immortal spirit herbs and a large pile of forgery materials.

Ye Mo took half of the immortal crystals immortal spirit herbs and materials. He didn't take any of the rest and gave the storage ring to Zhen Bingyu.

Chapter 1604: Ice Extreme Solitary Cultivation

"You're giving all this to me?" Zhen Bingyu took the storage ring and scanned her spirit sense in, finding all the things left. Ye Mo didn't even take a single one of the magic artifacts, not even that tower.

"That's right, it's all yours. If it wasn't for you I would be losing quite a bit." Ye Mo nodded and added, "I suggest you secretly auction off those magic artifacts, who knows where that guy is from?"

"Thank you." Zhen Bingyu took the storage ring without hesitation.

Because Zhen Bingyu didn't know how far level three was, the two could only fly on the rainbow stamp. Ye Mo couldn't rest, the formations on here couldn't stop the Shadowless Vulture at all, he had to sit at the front to ensure safety.

Half a year later, Ye Mo found his cultivation level didn't increase but his spirit sense increased instead. It seemed one didn't need to go to a certain place to cultivate spirit sense.

Two months later, the rainbow stamp stopped at a barrier like place. The only difference from level one was that there was no cultivators here nor any markets.

"It's very far indeed." Ye Mo breathed easy after arriving here. He had the feeling that some powerful being had entered level 2 already.

Zhen Bingyu argued and said, "We spent a very short time because you don't fear Shadowless Vultures. My master took 400 years to reach level three from level two when she came. Although she spent most of the time cultivating, this distance isn't short. There isn't just this one entrance from level two to level three, this one is rather far off but it's suitable for us."

After tearing open the entrance, Ye Mo felt he was in a bluish world.

"There aren't only space whirlpools on the ground but also in the air at level three. And, the Shadowless Vultures here have reached level three immortal beasts, we need to be careful. When my master came here, she was great unity immortal tertiary stage already," Zhen Bingyu reminded him.

Ye Mo's spirit sense had already seen this and he scanned her. "You spoke of that immortal spirit herb mountain because you knew I couldn't go right?"

Zhen Bingyu said, "Of course I will take you there, but if you can't go then it's not my fault."

Ye Mo smiled. "Don't worry, I will definitely go."

According to her plan, she was going to spend a few hundred years cultivating at level one and level two before coming to level three, but with Ye Mo she only spent a few years and was already at level three.

"I'm going to break through to abstruse immortal, you go choose a place for nirvana." Ye Mo was annoyed that he wasted a year's time on the journey. His time was very precious, one year equaled 100 years of cultivation for him.

...

Ice Extreme Floating Mountain.

This was where Zhen Bingyu chose. She originally planned to reach nirvana at the Flame Forest, but now that Ye Mo wanted to come to level three, she could only choose this place.

It was an obscure shade of blue outside the floating mountain and one couldn't scan spirit sense in at all. When Ye Mo and Zhen Bingyu went in they saw that this place was full of ice mountains floating in the air with dull white rays of light. Between the mountains was icy mist that had almost frozen.

Before the two went into the depths of the place, the bone chilling frigidness came over. Ye Mo subconsciously shivered.

This was indeed a good body refinement place, Ye Mo nodded. With Zhen Bingyu's character, it might be better to reach nirvana here than at the Fire Forest.

Ye Mo was an immortal nirvana body so of course he didn't fear the cold here, despite the cold being able to instantly turn metal into nothing. Zhen Bingyu was god state primary stage so she felt no pressure here at all.

As the two went deeper, the place grew colder. Three days later, Zhen Bingyu couldn't handle it anymore; her clothes froze and turned to nothing. All that covered her body was that thin layer of Heaven Meridian Worm silk armor. Ye Mo saw her naked body again.

"I'll reach nirvana here." Zhen Bingyu stopped and took out a communication bead for Ye Mo. "If there's anything we'll use this to communicate."

Ye Mo scanned her almost naked body while thinking whether he should let Susu and them practice body refinement when they came up to the immortal realm. Zhen Bingyu was only god state primary stage, but her figure was perfect to such an extent.

"If you've seen enough, then please go." Zhen Bingyu's tone grew colder. If possible, she didn't want Ye Mo to see her naked anymore. Just as Ye Mo said, flesh and bones were still her flesh and bones.

Ye Mo felt his nose and took the communication bead before taking out a storage ring and giving it to her. "There's a small branch of Chaos Blue Reed in here. When I cultivate I'm going to set up a formation, don't come to me so easily. If there's anything we can use the communication bead."

To be honest, he also felt a little weird talking to the almost naked Zhen Bingyu.

"Thank you." Zhen Bingyu took the storage ring and said no more.

Ye Mo knew this was her signaling him to leave, he didn't stay here and quickly went into the depths.

Ye Mo didn't plan to practice body refinement here, he was planning to go into solitary cultivation and reach abstruse immortal. He didn't go very far. After about six minutes, he stopped and found an icy mountain that was on the ground and went inside. Ye Mo then set up a stealth formation and a sensory formation and placed the communication bead on the sensory formation before going into the Golden Page World.

He didn't know how long he had to go into solitary cultivation for. If Zhen Bingyu finished early, she probably wouldn't be able to find him. By placing the communication bead on the formation, he would be able to receive her message even inside the Golden Page World.

...

Inside the Golden Page World, Ye Mo setup a spirit gathering formation with immortal crystals next to the Bitter Bamboo and then set up the time formation disk. Then, Ye Mo didn't go into cultivation immediately. He needed to concoct the Snow Wing Pill before that. He knew his talent, if he didn't have large sums of pills, it would be very hard for him to progress.

If he used too many pills and didn't have Snow Wing Pills to mediate the pill poison, his power would stop growing.

Ye Mo spent only a few years in the time formation disk and concocted the Snow Wing Pill successfully.

A month later, Ye Mo concocted ten cauldrons of Snow Winged Pills and prepared large amounts of abstruse essence pills before going into solitary cultivation. He had used up all the level four and level five immortal spirit herbs on him except for some Six Winged Purple Radishes.

This was his most prepared solitary cultivation ever and the solitary cultivation with the most abundant time.

As he used the Three Birth Chant, large amounts of immortal spirit chi in the immortal crystals were devoured by Ye Mo. They soon formed an immortal spirit chi mist around the Bitter Bamboo. Even the Bitter Bamboo seemed extra lush inside this mist and the small sapling far away also seemed more joyful due to this.

Shadowless hid inside a Bitter Bamboo leaf, sleeping with his feet in the air.

Cultivation was really timeless, in this lifeless mountain range, everything was stagnant except for time.

As the top grade immortal crystals were being used, Ye Mo's power also rose slowly.

When he used up the last top grade immortal crystal, the time formation disk stopped and Ye Mo opened his eyes. He was a little disappointed however.

Other than the few hundred immortal crystals he saved for the time formation disk, he had used up nearly ten million immortal crystals, yet he cultivated for less than four hundred years in the time formation disk. The amount of immortal crystals he used multiplied with the increase of his cultivation level. Just much many immortal crystals would he need to reach immortal emperor? It couldn't even be counted in units of hundreds of millions.

Four years had passed outside and he only reached from golden immortal middle stage to tertiary stage, there was still a huge distance to golden immortal peak stage.

Chapter 1605: Ye Mo's Weighing Stone

Ye Mo looked at Zhen Bingyu's communication bead, there was no message. So, he put away the time formation disk and brought over all the materials he had collected, he was preparing for forgery.

Luckily despite his cultivation speed being slow, his forgery and pill concoction speed weren't. Half a year later, he could begin to forge level four immortal artifacts. A year later, he could forge level four immortal artifacts with ease. It was a pity he had too few level five materials or he would even start to forge level five immortal artifacts.

As soon as he could forge level four immortal artifacts, Ye Mo took out Blue Moon and upgraded it.

Flying magic artifacts used little materials, but Ye Mo didn't worry – he had large sums of Shadowless Vulture main feathers, these were the best materials for forging flying magic artifacts.

This time, Ye Mo didn't waste them like before. He took out two pairs of main feathers and fused them into Blue Moon, bringing Blue Moon to a middle grade flying immortal artifact. Although it was the lowest caliber among middle grade flying immortal artifacts, Ye Mo was very happy. He felt his Blue Moon wouldn't be slower than ordinary level five flying immortal artifacts.

It was too important for Ye Mo to have a middle grade flying immortal artifact. He kept using Zhen Bingyu's rainbow stamp before and it was only a little faster than his Blue Moon while its defensive capabilities were extremely bad. Now that he had his own middle grade flying immortal artifact, he didn't need to use that woman's flying magic artifact.

Ye Mo really wanted to upgrade Zi Xu, but he didn't have better materials so he could only give up. Zi Xu was his favourite magic artifact and quite possibly would stay with him forever. Without good materials, he wouldn't ruin Zi Xu.

Ye Mo knew his offensive magic artifact was too lacking and this affected his fighting quite a bit. In order to have a suitable attack magic artifact, Ye Mo thought of all the possibilities and this time he set his eyes on the black rock on the World Mountain.

Ye Mo brought this black rock into Golden Page World with Bitter Bamboo. He dug this rock off the World Mountain when he found it, but it was very heavy so Ye Mo didn't touch it.

Thinking about this, Ye Mo immediately jumped next to the rock that sunk into the earth.

When he looked at it again, it had already sunk very deep into the ground. Before he was only a nascent soul state cultivator and couldn't even pick it up, now he was golden immortal tertiary stage, that rock shouldn't be too much trouble.

Ye Mo waved his wand wanting to lift the rock up, but he found he couldn't lift it up.

Thus, Ye Mo could only go down and grab the rock. What confused him more was that this rock was getting heavier and heavier. When he was nascent soul state, he could move it barely by burning essence blood, but now he still needed to burn essence blood to move it.

Just what was it? The World Mountain's rock was this heavy?

He thought of the time when he was at the top of the World Mountain, he could only cut off a small piece next to the Bitter Bamboo. He realized later he could do that because the Bitter Bamboo recognized him as its master. Otherwise, he wouldn't be able to cut it open.

Without the Bitter Bamboo, the rock became extremely heavy again. Ye Mo released Mist Lotus Heart Fire and burned the rock, but it didn't move at all. His heaven flame was more than ten times stronger than before. Thus, it was obvious that the World Mountain was countless times harder after leaving the Bitter Bamboo.

Ye Mo wasn't that insolent small cultivator from before, he immediately knew there was this invaluable treasure in his Golden Page World.

In his joy, Ye Mo used all his effort to move the black rock to the ground and immediately spat a mouthful of essence blood out to try and refine it.

Ye Mo thought if he didn't try to forge the rock into a magic artifact and just tried to refine it, it shouldn't be too hard, but when he tried it he realized just how hard it was. A month later he found he hadn't even refined one percent of it.

Ye Mo could only take out the time formation disk again and spent a whole five years inside before completely refining the rock. Five years just to refine a rock, Ye Mo was speechless.

He put away the time formation disk and looked at it happily. This world rock was light as a feather in his hand now.

The only thing he didn't like was that it looked like a rock on the side of a scale, not aesthetic at all. Other people had towers and seals but he had kitchen knives and weighing stones.

Ye Mo put away the things and immediately came out of the Golden Page World. He had spent nearly seven years on forgery in the Golden Page World and wondered if Zhen Bingyu had reached nirvana.

Ye Mo didn't go find Zhen Bingyu immediately, he instead released his world rock and smashed it at a huge ice peak.

Rumble

A terrifying explosion sounded and Ye Mo looked dazedly at the mountain that had now turned into a rain of ice shards.

He just casually released the stone and it was this powerful? If he inserted immortal essence into it and let it expand, then that power...

Ye Mo didn't even dare to keep thinking, didn't that mean he could easily kill an abstruse immortal tertiary stage and not be that much weaker than a great immortal?

Realizing this, Ye Mo was overjoyed. He immediately put away the stone and cursed himself for being an idiot. He had such a good thing in his Golden Page World and he wasted it for all these years. If he had the stone before, he wouldn't be afraid of that Han Weichen at all.

Ye Mo took a deep breath and put this treasure away carefully. He would rely on this the next time. Compared to slicing things into bloody mist, Ye Mo preferred to smash things to pieces.

It's time to see that ice woman. Ye Mo felt very satisfied. His cultivation speed was a little slow but he reached golden immortal tertiary stage, his forgery skills reached immortal forgery great master, he upgraded Blue Moon, and his pill concoction skills reached level five immortal pill great master.

Most importantly, he got this weighing stone.

In less than three minutes, Ye Mo came back to where Zhen Bingyu was. As soon as he saw her he knew she was in trouble.

She wasn't floating in the air like he was before. She was laying on the ice mountain, there were no more clothes on her body. However, her skin was pale and her eyes tightly shut. There was blood on her chest.

Clearly she failed nirvana and had experienced a heavy backlash.

Ye Mo immediately carried her up. He felt her body was cold but luckily the body refinement cultivation method was still running on its own. But this wasn't because she was cultivating, this was just keeping her alive. If it stopped, Zhen Bingyu would immediately be turned to nothing by this terrifying frost.

Ye Mo took her away from here immediately and put multiple pills in her mouth before using a few cleaning spells and taking out a set of clothes from her storage ring.

But Ye Mo hadn't put on such clothes before and had quite some trouble.

At this moment Zhen Bingyu woke up and looked weakly at Ye Mo, saying thank you before shutting her eyes again.

Ye Mo breathed easy, as long as she could talk she would be able to recover quickly.

"How dare you, you shameless bastard? I'm going to kill you..." a roar sounded and a rainbow lighting loomed over at Ye Mo.

The ferocious killing intent rushed at Ye Mo. How could Ye Mo help Zhen Bingyu dress? He released Zi Xu and hacked over.

Crack

Purple and rainbow colors splashed, illuminating the dull obscure surroundings.

“Hmm..” the female immortal was shook and studied Ye Mo.

She didn’t understand how a golden immortal primary stage had the ability to stop the magic artifact of an abstruse immortal middle stage.

Ye Mo’s face went cold, he was ambushed for no reason. This woman looked as good as Qin Nianmei, but she attacked him for no reason.

If it was someone else, he would already be dead.

“You hid your power?” The red robed woman frowned.

Ye Mo said coldly, “Now isn’t the time to be asking about my power, did I offend you? Why did you attack me for no reason?”

Chapter 1606: Nirvana Failure

“This is too funny, ambush you? You’re a mere golden immortal, do you deserve my ambush? Shameless bastard, die!” The red robed woman released her flying sword.

Ye Mo sneered and released his lethal weapon, the big weighing stone.

This time, Ye Mo smashed down with immortal essence inserted in it. The world rock instantly turned into a terrifying black mountain, suppressing all the space nearby.

Feeling the boundless pressure around her, the female cultivator's face changed. What magic artifact was this? The threat of death came and the red robed female cultivator couldn't care about anything else. She knew that if she didn't run, she wouldn't be able to dodge that black mountain.

The huge mountain also had a terrifying pressure with it, as though binding all the space around her. No matter if Ye Mo hid his power or not, she was no match.

Thinking about this, she released her five color sword and an umbrella shaped defense magic artifact.

With these two magic artifacts stopping the peak, she barely flew back.

Crack

The female cultivator saw her sword and umbrella turn into pieces and couldn't hold in the shock inside her anymore. She released an instant transmission rune without hesitation and disappeared.

"So powerful." Ye Mo put the world rock back in his hands and murmured.

After being inserted with immortal essence, the rock was this powerful. It easily smashed two good quality low grade immortal artifacts.

Just a 20 centimeter rock was this powerful, if a powerful being could control the entire World Mountain then...

Ye Mo shivered, he didn't dare to imagine. If someone spirit controlled the World Mountain, who in this world would be a match for him?

If the World Mountain was released, even a realm would be smashed to pieces.

When he took the Bitter Bamboo at the Truth Fall Palace forbidden grounds, the World Mountain flew off somewhere.

Ye Mo prayed that no one saw the World Mountain, otherwise, even if he reached divine body he wouldn't be able to stop it. If the World Mountain was taken by his opponent, there would be nothing he could do. Luckily, one needed to be extremely powerful to control it. With his current state, he might not be able to control the World Mountain even after trying for a few hundred million years.

Casting these thoughts aside, Ye Mo put away the world rock and wanted to see how Zhen Bingyu was. But he saw her open her eyes and say feebly, "Please send me to Extreme Sword Sect, my master will pay you..."

Then she was about to pass out again. Ye Mo looked at her helplessly, he couldn't leave her here but it was hard for him to send her back to Extreme Sword Sect.

"Is there some other way to treat you? If possible tell me, I will try to help you," Ye Mo said.

Zhen Bingyu replied with a coarse voice, "My nirvana failed, my meridians are turning hollow. My spirit roots are going to dissolve and my essence spirit is about to dissipate, send me to my master..."

Ye Mo was shook. If it was some ordinary injury Ye Mo believed he would be able to deal with it. But the hollowing of meridians and dissolving of spirit roots wasn't something he could help with.

"Chaos Blue Reed is the best nirvana immortal spirit herb, how did you fail? Plus we're cultivating the same cultivation method," Ye Mo put a level five immortal pill Zhi Qiong Pill in her mouth and asked.

The pill melted immediately and gave Zhen Bingyu some extra life force. She coughed and said, "I used too little of the Chaos Blue Reed and my nirvana didn't complete. There's a jade slip map in my storage ring..."

Then she fell unconscious again.

Ye Mo heard this and felt guilty. They said they would split the Chaos Blue Reed evenly, but in the end she only took a small branch, and because of this her nirvana failed. Ye Mo felt he got the Chaos Blue Reed alone so he didn't mind, but now that something happened, he felt he needed to be responsible.

Ye Mo released Blue Moon and carried Zhen Bingyu onto it before taking her storage ring.

He looked inside, the contents were very simple. There were just some pills, jade slips, magic artifacts, and a pile of blue robes. They were all the same color and style. There was no pretty goddess dress or accessories.

He found a jade slip and scanned his spirit sense inside. It introduced clearly the first four levels of the Chaos Star Realm. It seemed her master gave her this, but there was nothing else after level four.

With Zhen Bingyu like this, Ye Mo didn't have the mood to find a place to cultivate. He wanted to find that immortal spirit herb mountain at level four and then see if he could send her back to Extreme Sword Sect. Although he didn't want to go back there, he couldn't take her around everywhere.

Thinking about things carefully, Ye Mo decided to go to level four. After he left here he might not come back again. Even if he did, it would be after his power reached a certain level. Otherwise, if Lu Zhengqun calculated that he was in here it would be over.

Plus, Ye Mo also wanted to go to the immortal spirit herb mountain to collect some level six immortal spirit herbs and reach level six immortal pill great master. Then, he would be able to concoct the Dual Spirit Pill.

He wanted to do that mainly for Zhen Bingyu. She didn't abandon him when he was unconscious. Just because of that, he was going to send her back to Extreme Sword Sect and try his best to help her.

Thus, Ye Mo brought Blue Moon to fly towards level four.

He knew his Blue Moon would definitely be much faster than the rainbow stamp after being upgraded, but he didn't expect it to be this much faster. On top of that, upgrading Blue Moon with Shadowless Vulture also gave it some stealth attributes. If he activated the stealth formation, Blue Moon was a like a weaker version of the Shadowless Vulture.

Zhen Bingyu stayed in Blue Moon and woke up occasionally, but most of the time, she was unconscious.

...

Half a year later, Ye Mo could kill Shadowless Vultures on Blue Moon easily without sensing with spirit sense domain. He had killed more and more Shadowless Vultures on the way, and eventually they seemed to learn he was powerful and didn't dare to ambush Ye Mo anymore.

This made Ye Mo a little annoyed, without them he would lose a big source of income.

On the way, Ye Mo encountered some abstruse immortals and occasionally even great unity immortal cultivators, but none stopped him.

No one dared to underestimated an immortal who flew in the air at full speed. Even a great extreme immortal didn't dare to fly at full speed here.

Two months later, Ye Mo stopped at the entrance to level four. As soon as he got here, space shook violently.

Two abstruse immortal tertiary stages were fighting here. The two immediately stopped fighting when they saw Blue Moon dashing past over.

But when Ye Mo landed, the two saw Ye Mo was only golden immortal tertiary stage.

"Friend, how are you flying so fast in here?" a good looking abstruse immortal asked, but he was rather polite and saluted with his fists.

The other tall figured person didn't say anything but looked at Ye Mo, clearly wanting to know too.

Ye Mo was confused too. The two were just fighting with their lives but now they were standing together as though they didn't fight before.

Ye Mo got off Blue Moon and saluted with his fists. "I can kill Shadowless Vultures so I can go very fast. May I ask if this is the entrance to level four?"

ie." The red robed woman released her flying sword.

Ye Mo sneered and released his lethal weapon, the big weighting stone.

This time, Ye Mo smashed down with immortal essence inserted in it. the world rock instantly turned into a terrifying black mountain suppressing all the space nearby.

Feeling the boundless pressure around her, the female cultivator's face changed, what magic artefact was this? the threat of death came, the red robed female cultivator couldn't care about anything else. She knew that if she didn't run she wouldn't be able to dodge that black mountain.

The huge mountain also had terrifying pressure with it as though binding all the space around her. No matter if Ye Mo hid his power or not, she was no match.

Thinking about this, she released her five color sword and an umbrella shaped defense magic artefact.

With these two magic artefact stopping the peak, she barely flew back.

Crack.

The female cultivator saw her sword and umbrella turn into pieces and couldn't hold in the shock inside her anymore. She released an instant transmission rune without hesitation and disappeared.

"so powerful." Ye Mo put the world rock back in his hands and murmured.

After being inserted with immortal essence, the rock was this powerful. It easily smashed two good quality low grade immortal artefacts.

Just a 20 centimeter rock was this powerful, if a powerful being could control the entire World Mountain then...

Ye Mo shivered, he didn't dare to imagine. If someone spirit controlled the World Mountain, who in this world would be a match for him?

If the World Mountain was released, even a realm would be smashed to pieces.

When he took the bitter bamboo at the Truth Fall Palace forbidden grounds, the World Mountain flew off to somewhere.

Ye Mo prayed that no one saw the World Mountain, otherwise, even if he reached divine body he wouldn't be able to stop World Mountain. If the World Mountain was taken by his opponent, there would be nothing he could do. luckily one needed to be extremely powerful to control it. with his current state, he might not be able to control the World Mountain even after trying for a few hundred million years.

Casting these thoughts aside, Ye Mo put away the world rock and wanted to see how Zhen Bingyu was. But he saw her open her eyes and say feebly "please send me to Extreme Sword Sect, my master will pay you..."

Then she was about to knock out again. Ye Mo looked at her helplessly, he couldn't leave her here but it was hard for him to send her back to Extreme Sword sect.

"is there some other way to treat you? If possible tell me, I will try to help you." Ye Mo said.

Zhen Bingyu replied with a coarse voice "my nirvana failed, my meridians are hollowfying. My spirit root is going to dissolve and essence spirit is about to dissipate, send me to my master..."

Ye Mo was shook. If it was some ordinary injury Ye Mo believed he would be able to deal with it. but the hollowfication of meridian and dissolving of spirit root wasn't something he could help with.

“chaos blue reed is the best nirvana immortal spirit herb, how did you fail? Plus we’re cultivating the same cultivation method.” Ye Mo put a level five immortal pill Zhi Qiong pill in her mouth and said.

The pill melted immediately and gave Zhen Bingyu some extra life force. She coughed and said “I used too little chaos blue reed and nirvana didn’t complete. There’s a jade slip map in my storage ring...”

Then she fell unconscious again.

Ye Mo heard this and felt guilty. They said they would split the chaos blue reed evenly but in the end she only took a small branch and because of this her nirvana failed. Ye Mo felt he got the chaos blue reed alone so he didn’t mind but now that something happened, he felt he needed to be responsible.

Ye Mo released Blue Moon and carried Zhen Bingyu onto it before taking Zhen Bingyu’s storage ring.

He looked inside, the things were very simple. There were just some pills, jade slips and magic artefact and a pile of blue robes. They were all the same color and style. There was no pretty goddess dress or accessories.

He found a jade slip and scanned his spirit sense inside. It introduced clearly the first four levels of the chaos star realm. it seemed her master gave her this but there was nothing else after level four.

With Zhen Bingyu like this, Ye Mo didn’t have the mood to find a place to cultivate. He wanted to find that immortal spirit herb mountain at level four and then see if he could send her back to Extreme Sword sect. although he didn’t want to go back there but he couldn’t take her around everywhere.

Thinking about things carefully, Ye Mo decided to go to level four. After he left here he might not come back again. Even if he does, it would be after his power reaches a certain level. otherwise, if Lu Zhengqun calculated that he was in here it would be over.

Plus, Ye Mo also wanted to go to the immortal spirit herb mountain to collect some level six immortal spirit herb and reach level six immortal pill great master. then, he would be able to concoct dual spirit pill.

He wanted to do that mainly for Zhen Bingyu. She didn't abandon him when he was unconscious. Just because of that, he was going to send her back to Extreme Sword sect and try his best to help her.

Thus, Ye Mo brought Blue Moon to fly towards level four.

He knew his Blue Moon would definitely be much faster than the rainbow stamp after being upgraded but he didn't expect it to be this much faster. On top of that, upgrading Blue Moon with shadowless vulture also gave it some stealth attribute. If he opened the stealth formation, the Blue Moon was a like a weaker version of shadowless vulture.

Zhen Bingyu stayed in Blue Moon and woke up occasionally but most of the time, she was unconscious.

...

Half a year later, Ye Mo could kill shadowless vulture on the Blue Moon easily without sensing with spirit sense domain. he had killed more and more shadowless vultures on the way and eventually, they seemed to know he was powerful and didn't dare to ambush Ye Mo anymore.

This made Ye Mo a little annoyed, without them he would lose a big source of income.

On the way, Ye Mo encountered some abstruse immortal and occasionally even great unity immortal cultivators but none stopped him.

No one dared to underestimated an immortal who flew in the air at full speed. Even a great extreme immortal didn't dare to fly full speed in here.

Two months later, Ye Mo stopped at the entrance to level four. As soon as he got here, space shook violently.

Two abstruse immortal tertiary stage were fighting here. The two immediately stopped fighting when they saw Blue Moon dashing past over.

But when Ye Mo landed and the two saw Ye Mo was only golden immortal tertiary stage.

“friend, how are you flying so fast in here?” a good looking abstruse immortal asked but he was rather polite and saluted with his fists.

The other tall figured person didn’t say anything but looked at Ye Mo clearly wanting to know.

Ye Mo was confused too. The two were just fighting with their lives but now they were standing together as though they didn’t fight before.

Ye Mo got off Blue Moon and saluted with his fists “I can kill shadowless vulture so I can go very fast. May I ask if this is the entrance to level four?”

Chapter 1607: Immortal Crystals Mine

The tall skinny abstruse immortal said, “That’s right, this place is the entrance to level four. You just said you can kill Shadowless Vultures, is this true?”

There was a sliver of disbelief. Ye Mo being so polite to them probably meant that he wasn’t a great immortal, so even if Ye Mo hid his power he was at most an abstruse immortal. Plus, he was certain that Ye Mo was indeed golden immortal tertiary stage.

“That’s right,” Ye Mo answered, thinking if the two had some high level materials or immortal spirit herbs they could trade.

“Friend, do you sell your Shadowless Vulture materials? If you do, then I have some immortal crystals and immortal spirit herbs,” the tall skinny abstruse immortal immediately said.

Ye Mo nodded and took out ten pairs of Shadowless Vultures he killed at level two and said, “There are ten pairs here, I only want level five or level six immortal spirit herbs or high level forgery materials.”

“It really is the Shadowless Vulture main feather!” the other good looking abstruse immortal called out in shock.

“How do you want to exchange? I want it, name a price,” the tall skinny cultivator quickly said and took out a pile of immortal spirit herbs and materials.

Ye Mo looked at the pile and was a little disappointed. There was only one level six immortal spirit herb and mainly level five immortal spirit herbs. The forgery materials were mainly level three, some level four. It was far from what Ye Mo wanted.

That great unity immortal storage ring had more things, Ye Mo sighed. The two really couldn’t compare.

The other abstruse immortal also took out a pile of things that were about similar in value to this tall skinny abstruse immortal.

Ye Mo knew that the main feathers and beast cores of Shadowless Vultures were very precious. He really didn’t value these things. If it was before his Blue Moon was upgraded he would exchange it, but now he knew the use of Shadowless Vulture main feathers. He wouldn’t need to set up stealth formations for Blue Moon to have stealth capabilities. How was this something ordinary materials could compare with?

“Friend, I know our materials aren’t enough to swap for the main feather of Shadowless Vulture, but I have a piece of news. If you think it’s fine then estimate the price,” the good looking abstruse immortal said.

Ye Mo nodded. “Tell me about it.”

“At level three there might be an immortal crystals mine, we’re not certain.” the abstruse immortal immediately said.

“Immortal crystals mine?” Ye Mo repeated in confusion and then asked, “If there was one, why don’t you guys go and instead fight here?”

Immortal crystals mines were good things regardless of whether they were low grade or top grade.

The tall skinny abstruse immortal quickly said, "We're fighting over it because the news was sent over by our friend. They said they only had three people and didn't have enough, so they wanted us to go over. I want to go but he wants to go to another place at level four. We couldn't persuade each other so we decided to fight it out and have the winner decide."

"It's indeed so, but if you're willing to trade Shadowless Vulture materials with us I agree to go to the immortal crystals mine," the good looking abstruse immortal said.

Ye Mo didn't suspect their words. The two were clearly fighting a heated battle, but now the two didn't seem to be wary against each other. Clearly that meant they weren't fighting with their lives.

"How far is the mine from here?" Ye Mo asked again.

If it really was an immortal crystals mine, Ye Mo would like to go see. Immortal crystals were too important to him. immortal crystals mines were just below immortal ranges.

There was a myth about immortal crystals mines, and that was immortal crystals had to be dug out to be used, unlike immortal ranges which could be used straight away.

Ye Mo only had a few hundred immortal crystals, even a high level hollow immortal was wealthier than him. He was golden immortal tertiary stage, if he wanted to reach abstruse immortal it was impossible without immortal crystals.

He had seen Zhen Bingyu's storage ring and there were three million top grade immortal crystals, but those didn't belong to him. Even if he used them all, he wouldn't be able to reach abstruse immortal.

Plus, although Zhen Bingyu was unconscious, her body refinement cultivation method was birthed from the Three Birth Chant so it could run on its own. With his pills, she would survive for a few decades completely fine.

"It's not very far away, if you fly over it only takes a day, but we need about ten days," the tall skinny cultivator answered while wondering if Ye Mo was abstruse immortal middle stage or tertiary stage.

"Okay, give me all these materials and I'll give each of you three pairs of main feathers and three beast cores," Ye Mo said.

"That's fine," the two immediately agreed. They only expected two sets.

After the exchange, Ye Mo let the two get on Blue Moon while they flew towards the so called immortal crystals mine.

After introductions, the two learned Ye Mo's name and Ye Mo knew that the tall cultivator was called Jin Chuanlin and the good looking one was Kong Gang. Although Ye Mo let them get on Blue Moon, he didn't let them go inside since Zhen Bingyu was in there.

...

Jin Chuanlin was right; in just a day, Ye Mo arrived at the place they mentioned.

As soon as Ye Mo got off, he saw a narrow valley that extended into the distance. Ye Mo's spirit sense seemed to be limited so it couldn't scan to the end.

"It's here?" Ye Mo asked in confusion. The immortal spirit chi was lacking here, there shouldn't be an immortal crystals mine.

"It's not here, we have to go through the valley for about a day to arrive. There seems to be some formation here or something, so we can't fly we can only walk," Kong Gang said.

Ye Mo knew that people couldn't fly here indeed. He glanced at the two and asked, "You two have been here before?"

“Yes, the five of us got an immortal crystals mine map so we searched here for nearly three months with no results. Then, Kong Gang and I thought the map was fake so we decided to head to level four. The other three thought there was still an immortal crystals mine here so they stayed. As soon as we got to the level four entrance, they sent news saying that they found it,” Jin Chuanlin said.

“Then you’re saying that this mine might not exist? Or it’s just possible that it exists?” Ye Mo stared at Jin Chuanlin and asked.

Kong Gang considered Ye Mo to be abstruse immortal tertiary stage and even a little stronger than them, so now that Ye Mo asked he quickly said, “Friend, you’ve misunderstood me. It’s because the friend who sent the message isn’t really reliable and I don’t really trust her words so I wanted to keep going to level four, but instead he wanted to come back and see.”

Ye Mo nodded. “In that case lead the way, I’ll go see too.”

Then, Ye Mo carried Zhen Bingyu off Blue Moon and onto his back before putting away Blue Moon.

Only now did the two realise there was someone inside Ye Mo’s magic artifact and she was an extremely beautiful woman. She seemed to be heavily injured and her chi was almost non existent.

But the two didn’t ask Ye Mo anything.

After leading the way for a while, Ye Mo was impatient, he felt the speed was too slow. He knew that they weren’t doing this on purpose and were afraid of getting caught in the void whirlpool, but Ye Mo still said, “Brother Jin, how about let me go ahead?”

As soon as Ye Mo said this Jin Chuanlin understood what Ye Mo meant and moved to the side awkwardly. “Brother Ye, you’re stronger than me so it’s best that you go ahead.”

Ye Mo didn’t mind, his time was precious.

Ye Mo didn’t worry about the void whirlpools as his spirit sense domain could long sense them beforehand, so with him leading the way the three immediately sped up.

Chapter 1608: Flying Magic Artifact Coveted

Jin Chuanlin and Kong Gang glanced at each other and there was some concern in their eyes. They didn't know where Ye Mo came from. Not only was he unafraid of Shadowless Vultures but he could also sense void whirlpools.

Under Ye Mo's lead, they arrived at a crossroad in half a day.

Ye Mo scanned his spirit sense and saw the three people in the depths of the crossroad. They were all abstruse immortal power, two abstruse immortal tertiary stage and one abstruse immortal middle stage peak.

There was a huge cave in front of them that had been excavated. This cave was on the side of a cliff and Ye Mo scanned that there were indeed some immortal crystals inside, they seemed to be low grade and middle grade.

"Hmm, martial brother Jin how did you guys get here so quick? Who is he?" One rather fiery looking abstruse immortal female cultivator walked up to the three and asked.

Ye Mo was just golden immortal tertiary stage and carried a heavily injured woman on his back, why was he brought here? She immediately saw the woman's appearance, she was some out of this world beauty. If it wasn't that both of them weren't lustful, she would've even thought that Ye Mo was forced over by them.

"Hmm!" One grey robed man exclaimed in shock, his eyes landed on Zhen Bingyu clearly shocked by her beauty.

Ye Mo could tell this cultivator was no good person. Jin Chuanlin and Kong Gang both saw Zhen Bingyu but stopped looking after the initial shock, but this male cultivator couldn't take his eyes off Zhen Bingyu.

Ye Mo sneered but said nothing. This grey robed man was abstruse immortal tertiary stage. With his world rock, he didn't fear him at all.

“Feng Guanglong, this is brother Ye and his dao partner.” Kong Gang saw what happened and immediately knew Ye Mo was unhappy so he came out to warn him.

Then, he pointed at the abstruse immortal tertiary stage female cultivator and said, “This is martial sister Hurong, the other person is Chen Pei.”

Chen Pei was an honest looking male cultivator who never spoke.

“Martial brother Jin, how did you guys come here so quickly?” Hu Rong asked.

Jin Chuanlin quickly said, “Martial brother Ye’s flying cultivation artifact can defend against Shadowless Vultures so we got here quickly.”

He didn’t say Ye Mo could kill Shadowless Vultures because otherwise, everyone would want to trade for them. He would wait after Ye Mo left and take out a pair of materials to trade, that way he would earn more.

“There’s such a flying magic artifact?” Hu Rong looked at Ye Mo in shock and so did the others. Feng Guanglong’s eyes flashed with surprise and joy. Ye Mo was a mere golden immortal tertiary stage but not only had such a beautiful woman but also a flying magic artifact that could defend against Shadowless Vultures. How was this something a golden immortal deserved to have?

“Brother Feng, didn’t you call us two here because you already found the immortal crystals cave? How come I don’t sense any immortal spirit chi? Did you guys just scatter the immortal crystals shards on the ground yourselves?” Kong Gang frowned and asked.

Feng Guanglong frowned and waved his hand. “Brother Kongm don’t worry about that yet. I’ll come and greet this martial brother Ye.”

Kong Gang could tell that Feng Guanglong was interested in Ye Mo’s flying magic artifact and his woman, so before he could speak to Ye Mo, Kong Gang’s face sunk. “Brother Feng, this brother Ye is my friend, we’re here to search for the immortal crystals mine together.”

“Search for the immortal crystals mine together?” Hu Rong asked.

The immortal crystals mine was very valuable, why did the two bring a golden immortal cultivator to help? And this golden immortal carried a heavily injured person.

Chen Pei said nothing but Feng Guanglong walked up to Ye Mo and casually saluted with his fists. “Martial brother Ye, is your dao partner injured?”

“It’s none of your business,” Ye Mo replied coldly.

Feng Guanglong smiled. “you don’t really know me. I’m friends with Kong Gang and we’re similar in character. I like making friends too, so since you can get along with Kong Gang we can definitely get along too.”

As soon as Feng Guanglong said this, Hu Rong and Chen Pei knew what he meant but none of them said anything. Kong Gang wanted to say something but Jin Chuanlin signaled him not to.

Ye Mo acted as though Feng Guanglong was non existent.

Feng Guanglong didn’t stop there and continued, “Martial brother Ye, I have some experience in treating internal injuries. How about give your dao partner to me and I’ll see if I can help?”

“Fuck off!” Ye Mo roared.

Hearing this, everyone looked at Ye Mo in shock, not expecting him to be this straight forward.

Just when Feng Guanglong was about to rage, he saw Zhen Bingyu open her eyes. That extremely beautiful face made him daze and his fury was gone. He smiled instead. “Never mind then I just wanted to help.”

Seeing that Feng Guanglong didn't attack, Kong Gang quickly said, "Martial sister Hu Rong, what happened with the immortal crystals mine? Is there one or not? If not, we're going to leave."

Hu Rong was surprised that Feng Guanglong didn't attack Ye Mo but then she thought he was concerned due to Kong Gang and Jin Chuanlin. She quickly said, "We already found the right place, we're more than 50% certain it's the entrance to the immortal crystals mine."

"So you threw some immortal crystals on the ground to draw us here?" Jin Chuanlin asked. The news he got from her before was that it was 100% here.

"We really didn't throw down the immortal crystals intentionally," Hu Rong said helplessly.

This time, Ye Mo said, "She's right, they didn't throw down the immortal crystals intentionally. They fell out when they excavated this cave."

Ye Mo's spirit sense had scanned deep into the cave, the rocks here were extremely tough and even spirit sense couldn't penetrate deeper.

"Really?" Jin Chuanlin felt Ye Mo was more credible.

"They are – look, there are immortal crystals shards on the walls," Hu Rong quickly said.

Jin Chuanlin saw this too and nodded. "So that's it. In that case, there really might be an immortal crystals cave here."

Ye Mo sneered. "These immortal crystals shards are remnants from a formation, they have nothing to do with an immortal crystals mine."

Hu Rong clearly knew this already and was shook by Ye Mo's insight.

"Is that so? Hu Rong goddess?" Jin Chuanlin didn't even call her 'martial sister' this time.

Hu Rong quickly said, “No, listen to me. After we dug into the cave we found a barrier restriction. It’s very powerful and we can’t break in quickly so we invited you guys. We’re guessing that after breaking this restriction, we can arrive at the immortal crystals mine.”

Ye Mo scanned his spirit sense in and indeed saw a barrier restriction.

With this, Ye Mo really believed her. The intention of this restriction was clear, to stop the immortal spirit chi from floating out.

“Then let’s go see.” Jin Chuanlin nodded and went into the cave.

Ye Mo and them followed.

After looking at the restriction, Jin Chuanlin sneered. “I was wondering why you were so nice, remembering us when there was an immortal crystals cave. This restriction isn’t so easily broken. Although I’m a level one immortal formation master, I can’t do anything about this. Sorry to disappoint you martial sister Hu Rong.”

Hearing this, Hu Rong quickly said, “Martial brother Jin what are you on about? This restriction can be broken with brute force. If we work together we can succeed.”

Chapter 1609: Smashed to Pieces

Chen Pei suddenly said, “Martial sister Hu Rong is right, if we work together we can indeed break this restriction.”

This person hadn’t spoken before but Ye Mo had long noticed this person. He looked very ordinary but there was a bleak chi around him. Ordinary cultivators really wouldn’t be able to sense it but Ye Mo sensed it immediately. This made Ye Mo not have a good impression of him.

But Ye Mo agreed with what he said. Even Ye Mo wouldn’t be able to break this restriction alone, this was at least level five or above. Even if the five attacked together they would need a few days. One less person and the time taken would multiply.

But Ye Mo felt that with him it wouldn't take that long. He just needed to smash down with his world rock.

"Wait, I see it," Jin Chuanlin suddenly pointed at a corner.

"What do you see?" Hu Rong asked.

Jin Chuanlin said excitedly, "This restriction is broken, we just have to attack from this broken formation flag and we might be able to break it in less than 30 minutes."

When Jin Chuanlin said this, Ye Mo noticed it too. He quite approved of Jin Chuanlin now. It wasn't easy for a level one immortal formation master to find that.

There was a sliver of pity in Hu Rong's eyes. If she knew things were like this, she wouldn't have called them over, but then she immediately said joyfully, "Then let's hurry up and attack the restriction. I want to know if there's something inside too."

"I'll do it." Chen Pei released his magic artifact and smashed on the restriction. Seeing this, everyone released their magic artifacts.

Ye Mo knew that this restriction would be broken in less than 15 minutes so he didn't bother using his world rock.

Ye Mo was just golden immortal tertiary stage and didn't attack. He was carrying someone on him so the other five didn't let Ye Mo help.

In less than 15 minutes the restriction cracked, and with a few more attacks, it cracked down in front of them revealing a huge stone hall.

"It's broken?" Kong Gang stared at the hall in disbelief as though not believing it was this easily broken.

There was nothing in this stone hall, just three cave entrances. Neither spirit sense nor eyes could see what was in there.

“There are three caves here what do we do?” Chen Pei asked.

Everyone looked at Hu Rong, clearly she had some status here.

Hu Rong fell silent for a while and said, “I suggest we go in the three holes at the same time, we can divide into three teams.”

Everyone agreed to this immediately and at this moment Zhen Bingyu whispered at Ye Mo’s ear, “What place is this?”

Ye Mo said awkwardly, “This is level three, I’m here to search for an immortal crystals mine. It won’t waste much time, don’t worry.”

Zhen Bingyu was heavily injured, he didn’t take her back to her sect quickly and instead came to find immortal crystals so he was a bit embarrassed.

“Oh.” Zhen Bingyu said no more.

Feng Guanglong said, “We’ll do this: martial sister Hu Rong go with brother Chen, brother Kong and brother Jin go together. I’ll go with martial brother Ye.”

No one said a thing hearing this. Clearly they knew what he meant, this guy wanted to kill Ye Mo and take his flying magic artifact and his woman.

Just when Kong Gang wanted to say something, Ye Mo simply said, “Okay.”

Hu Rong, who was going to object, saw that even Ye Mo agreed so she said nothing. She didn’t want to agree not because she was looking out for Ye Mo but since she also wanted Ye Mo’s flying magic artifact.

"In that case let's begin. I choose the left hole," Feng Guanglong immediately said.

Then he smiled to Ye Mo. "Friend, let's go."

Seeing Ye Mo carry a woman and go into the same cave as Feng Guanglong, Kong Gang shook his head and said no more.

"Feng Guanglong crossed the line, he's taking everything himself," Hu Rong said coldly.

Jin Chuanlin sneered. "Taking everything himself? We don't know who will be the one doing the taking. Kong Gang let's go."

Then they went into the right cave, leaving the middle cave to Hu Rong.

"What does Jin Chuanlin mean?" Hu Rong asked.

Chen Pei frowned for a while and said, "I think he means that brother Ye isn't simple. Everyone knew what Feng Guanglong thought and so did that Ye guy. Since he's still willing to go on the same team as him, it's probably because he's not scared of Feng Guanglong at all."

Hu Rong also fell silent. Ye Mo never seemed to be scared or worried before. He told Feng Guanglong to fuck off too, he was probably not easy to mess with.

"Let's go in too, if we can't find anything we'll go to Feng Guanglong's cave first," Hu Rong said.

...

After Ye Mo followed Feng Guanglong into the cave, he said nothing. He knew Feng Guanglong wanted to kill him and take his things. Everyone else knew too.

The cave was completely dark but it was fine for Ye Mo and Feng Guanglong. Spirit sense was suppressed in here too but one could still see in a thousand meter radius.

After walking for about four hours, they came to an open place. There were some stone tables and chairs. There was also an illumination formation with faint light emitting.

Feng Guanglong stopped.

“Martial brother Ye, let’s rest here for a bit.” Feng Guanglong smiled at Ye Mo.

Ye Mo didn’t say anything, he really didn’t have the mood to waste time with this guy.

Seeing Ye Mo not talk, Feng Guanglong didn’t both acting anymore and just said, “Friend, I like your flying magic artifact, name a price. If you give it to me for free, I’m willing to treat your dao partner.”

“Fuck off!” Ye Mo roared.

Feng Guanglong’s face turned cold. “You told me to fuck off outside and I haven’t done anything yet, but now you still dare to be cocky! I’ll count to three, give me your flying magic artifact and your dao partner...”

Zhen Bingyu wasn’t unconscious anymore and she heard what Feng Guanglong said. She was speechless inside, this guy was asking for death.

Ye Mo just threw out the world rock.

Ever since he got the world rock he only had one fight. He was itching to use it, and now that this Feng Guanglong challenged him, he immediately used it.

The terrifying pressure from space came.

Feng Guanglong didn't know what that expanding black rock was but that immense pressure made him unable to control the horror in his heart. Ye Mo wasn't golden immortal tertiary stage?

Feng Guanglong released a red fire, wanting to block the world rock.

Rumble

The world rock had already been activated and Feng Guanglong could only release his golden drum in a rush. It was barely a middle grade immortal artifact, but it wasn't even completely activated.

He didn't expect Ye Mo dared to attack first and due to this he couldn't bring the situation back in his favor.

Crack

The golden drum cracked.

Chapter 1610: Immortal Nirvana Body Miner

Just one round of attacks and Feng Guanglong's golden drum was shattered. Feng Guanglong was shook on the spot, and before he could understand what was going on, Ye Mo's world rock smashed down once again.

"Don't – I have something to say..." Feng Guanglong said in horror.

Ye Mo was contemptuous, this Feng Guanglong was weaker than the abstruse immortal middle stage he and Zhen Bingyu killed before. If the two had met, Feng Guanglong would be killed for sure and yet he still dared to rob him. Feng Guanglong really overestimated himself.

Thud

The world rock smashed on Feng Guanglong's body without hesitation, and even though he was abstruse immortal tertiary stage, he was smashed into a meat pancake.

After putting away the world rock, Ye Mo waved Feng Guanglong's storage ring over. There were only tens of thousands of top grade immortal crystals inside and some immortal spirit herbs. As an abstruse immortal tertiary stage, this guy was indeed quite poor. Ye Mo thought that this guy probably only started trouble with low level cultivators.

Seeing Ye Mo kill Feng Guanglong with one move, Zhen Bingyu knew that Ye Mo's power increased a lot and that rock that he suddenly had didn't seem ordinary. But then a wave of fatigue came, and although this time she didn't fall unconscious, she went to sleep.

Ye Mo knew Zhen Bingyu went to sleep and didn't talk to her. He knew she was too weak at this moment.

Ye Mo rapidly left this area and sped up. Half an hour later, Ye Mo stopped. He appeared before a restriction that was sort of tattered. There was only some faint immortal spirit chi seeping out, but Ye Mo was certain there were probably things inside.

Ye Mo smashed down with the world rock without hesitation.

This restriction couldn't take a single hit and cracked completely.

Dense immortal spirit chi seeped out. Ye Mo immediately knew that Jin Chuanlin didn't trick him, there really was an immortal crystals mine here, and a top grade one too.

It was a pity he couldn't take away this immortal crystals mine, he could only dig in it.

Ye Mo took out his mansion cultivation artifact and then sent Zhen Bingyu inside before starting to dig.

There had never been an immortal who dug like Ye Mo. While he was digging he also used the Three Birth Chant to cultivate. Never had there been an immortal nirvana body cultivator who used a level four immortal artifact to dig.

The advantage of a powerful body was fully showcased here, stacks of top grade immortal crystals were rapidly sent into the Golden Page World by Ye Mo. Seeing so many immortal crystals being sent in constantly, Shadowless immediately knew that Ye Mo encountered something good and asked to come out.

Ye Mo threw out Shadowless and let it go devour immortal crystals itself. He just needed to keep digging and send the immortal crystals in.

A year later, Ye Mo looked at the 50 million immortal crystals in his Golden Page World and finally stopped. He estimated there to be about 200 million immortal crystals in this mine, but he didn't want to waste time anymore. He felt this way of acquiring immortal crystals was too slow. He had no choice before, but when he was higher power, he wouldn't need to dig mines to get immortal crystals.

A year later, none of them came, Ye Mo knew that they probably found something similar but he didn't know if they found immortal crystals mines or not. Ye Mo didn't plan to go see either, he had decided to leave here and head towards level four.

After putting away Shadowless and picking Zhen Bingyu up on his back again, he completely hid this immortal crystals mine with a formation before leaving here.

He was afraid that he might need to come back in the future in case he couldn't get immortal crystals.

Ye Mo left rapidly, but just when he was about to go he stopped. He had a bad feeling as though there was some danger waiting for him at the entrance.

Ye Mo trusted his instincts, cultivating the Three Birth Chant gave him this indescribable sense.

This meant that there might be people ambushing him at the entrance. Ye Mo released a few spirit sense blades and saw there wasn't a formation outside, but a magic artifact that was blocking his spirit sense.

Those ambushing him could only be those who went to the other two caves. Ye Mo felt that Kong Gang and Jin Chuanlin weren't the type to ambush so the only possibilities were Hu Rong and Chen Pei. It wasn't likely to be Hu Rong so Ye Mo felt it was most likely that Chen Pei.

Thinking about the bleak chi on Chen Pei, he knew the best way to fight him was to use Heaven Flame Nine Suns.

Thinking about this, Ye Mo released his heaven flame at the entrance. The three purple suns fused into once and rushed out of the cave. Even a great immortal might not be able to dodge the heaven flame that suddenly appeared.

A hideous shriek sounded. Ye Mo heard it clearly, it was indeed Chen Pei. The magic artifact lost the ability to block spirit sense due to its master being injured. Ye Mo immediately scanned a black figure running out of the cave.

The next moment, Ye Mo appeared in the big stone hall. Chen Pei stared at Ye Mo like he was a ghost. There was extreme shock and fury in his eyes. The black figure must be someone else.

"It's you indeed, you killed Feng Guanglong and now you want to kill me!" Chen Pei's words made Ye Mo feel speechless. There was someone this shameless, he was ambushing him at the entrance.

This Chen Pei would ambush whoever came out. This guy was clearly just waiting at the door to ambush whoever came out so he could collect the immortal crystals other people dug. He just didn't know if the two had been ambushed already.

The other black figure who escaped might be Hu Rong, or someone who conspired with Chen Pei.

Ye Mo didn't even have the interest to explain and just smashed down with world rock.

Chen Pei didn't dare to underestimate Ye Mo at all anymore after seeing his Heaven Flame Nine Suns. He immediately released a huge coffin magic artifact, expecting to block Ye Mo's heaven flame.

But instead Ye Mo didn't release any flame. He used a huge terrifying weighting stone.

It gradually turned into a small mountain and fell down.

Chen Pei had seen many mountainous magic artifacts, but never once did they make him feel this terrified.

Before he could think, all the space around him seemed to have been squeezed together by the huge rock.

Not good, the black mountain smashed on the huge coffin and that terrifying pressure instantly made him spit blood.

Chen Pei couldn't care about getting revenge now, he spat out a rune which instantly turned into a dark green light that enveloped him.

Ye Mo immediately realized this guy wanted to run and inserted more immortal essence into the world rock.

Rumble

The coffin was smashed to pieces but Chen Pei was long gone.

Ye Mo put away the world rock in dissatisfaction. These bastards all had ways to escape.

These guys all used escape runes, it seemed he needed to get a few runes so that when he lost a battle he could also run. If he learned to make runes then maybe a hundred years later he could become a rune master, but he really didn't want to learn these things.

Pill concoction and forgery already wasted large amounts of his time, he still needed to learn formations too.

Chen Pei got away and Ye Mo didn't get a single immortal crystal. However there was nothing he could do. He looked at the stone caves. He didn't know who the black figure was but he didn't care. He got 50 million top grade immortal crystals, this was enough to reach abstruse immortal.

Ye Mo left without hesitation.
