

Strongest As 1611

Chapter 1611: Immortal Spirit Herb Mountain

Two days later, Ye Mo appeared at Chaos Star Realm level four. Ye Mo thought it would be a dull space like the previous three levels.

But at level four he realized he was completely wrong. There still was no sun here but there were stars and some light.

Ye Mo believed those specks in the sky were planets. Once you flew to a certain height you would be suppressed. Ye Mo knew that with his current power it was impossible to reach those planets. He didn't know if immortal emperors could go there or if someone who left the Chaos Star Realm from the void could go there.

At level four, Ye Mo didn't go anywhere else and went directly to the immortal spirit herb mountain. The immortals at level four were mostly great unity immortals or above. Rarely did abstruse immortal come over. Even if they did, it was abstruse immortal tertiary stage cultivators and they didn't dare to go very deep.

Even Ye Mo didn't dare to put Blue Moon speed at max. He saw on the jade slip that the Shadowless Vultures here were already level four.

Theoretically, they were as strong as great unity immortals. Despite them being only good at ambushing and have little battle power, Ye Mo didn't dare to be careless.

A few days later, Ye Mo didn't encounter any Shadowless Vultures nor void whirlpools, and only then did he speed up.

Today, Ye Mo just wanted to go inside Blue Moon when he felt some waves at this spirit sense domain. He sliced back with Zi Xu without thinking.

With a shriek, a few feathers fell and there was nothing else.

It was a Shadowless Vulture. The ones here were indeed much stronger than the ones at level three. Their speed was far superior too.

Ye Mo was certain that the main feathers of these Shadowless Vultures could even be used to make level six flying immortal artifacts.

The Shadowless Vulture might be level four, but if its position was exposed its battle power might be weaker than a level three immortal beast.

Knowing this, Ye Mo even hoped Shadowless Vultures would come. Level four Shadowless Vultures were too fast, but Ye Mo wasn't worried. He had an immortal nirvana body, even if he was ambushed he wouldn't be ripped apart like other cultivators.

Ye Mo didn't intend to go inside the ship anymore. Zhen Bingyu didn't have spirit sense but she could eat pills herself now.

The only pity was that it had been another few days and he was about to arrive at the immortal spirit herb mountain soon, but there was still no signs of Shadowless Vultures.

Level four Shadowless Vultures were much smarter than the other lower level ones. One mistake and they might run. The Shadowless Vulture that attacked him was probably heavily injured by his sword ray. Perhaps due to this, other Shadowless Vultures were scared of him. Maybe he needed to stop waiting and attack.

Thinking about this, Ye Mo slowed down and released his spirit sense outside. In less than five minutes he found a stealthed Shadowless Vulture.

It was hidden in the void, barely tangible, and even Ye Mo's spirit sense couldn't sense it, but Ye Mo's spirit sense domain could. Anything that appeared in his spirit sense domain would be noticed.

After noticing it, Ye Mo kept driving Blue Moon in the same way and casually passed by it. However, when it was behind him, he suddenly attacked.

The stealthed Shadowless Vulture clearly didn't expect Ye Mo would notice him and would be this sly.

Bloody light flashed and the level four Shadowless Vulture was killed without resistance.

Ye Mo rejoiced and quickly took the pair of main feathers and beast core before preparing to ambush the next one.

Five days later, Ye Mo found that there were less and less Shadowless Vultures. Eventually, he couldn't find a single one. They probably all left.

But for Ye Mo it was enough. he got 11 sets of main feathers and beast cores. This was quite a small fortune.

...

On the ninth day, Ye Mo came to the outskirts of the immortal spirit herb mountain and he realized why it was hard to find.

It wasn't at a place with dense immortal spirit chi, it was in a desert with no immortal spirit chi at all.

Plus, one needed a jade card to go in the mountain. Ye Mo didn't know where Zhen Bingyu's master got the jade card from, but he was certain she must've had a great encounter in here.

After entering the desert, Ye Mo soon found the entrance to the immortal spirit herb mountain. If Zhen Bingyu didn't tell him, he wouldn't be able to see the entrance formation at all. He was certain this stealth formation was beyond level six.

He patted the jade card in the air and a faint yellow ring expanded. Soon, a formation door opened. Ye Mo put away the jade card and entered the formation door. Then, the formation door disappeared.

The dense immortal spirit chi inside made Ye Mo realise why immortal spirit herbs could grow here.

A moderately tall mountain appeared before him, the slope was very steady. It was more like the staircase farms he had seen before.

There were immortal spirit herbs everywhere from level one to level six. They were distributed evenly. Each level had its own region.

Clearly, someone intentionally planted these or else wouldn't there be some natural immortal spirit herb mountain? Plus, this wasn't a few hundred like Zhen Bingyu said before, there were tens of thousands of immortal spirit herbs. There were even thousands of level five and level six immortal spirit herbs.

Ye Mo was certain that there was more than one immortal range below here.

"So many immortal spirit herbs..." even Zhen Bingyu was shocked.

"How many do we collect?" Ye Mo looked back at her and asked.

Although these immortal spirit herbs were not necessarily grown by her master, they still belonged to her master. If Ye Mo found this himself, he would move everything including the immortal range into this Golden Page World without hesitation, but clearly he couldn't do this now.

"Collect however many you think you need," Zhen Bingyu said without hesitation. Regardless whether she could recover, it was due to Ye Mo she could live until now. Although she said Ye Mo could only collect a small part, she couldn't resist at all now so Ye Mo didn't even need to ask her.

Ye Mo felt his chin. "I'll only collect a part and I need to cultivate here for a while."

He was indeed a bit embarrassed.

"That's fine," Zhen Bingyu said without hesitation. She knew her failure in nirvana didn't have much to do with Ye Mo. It was more because she didn't prepare well enough. She saw that Ye Mo could succeed and thus wanted to try as well, but in the end she failed.

Ye Mo took out the cultivation artifact mansion and sent Zhen Bingyu inside. Then, he began digging the level five and level six immortal spirit herbs. He didn't even touch the level four ones except for a few that were useful to him.

Chapter 1612: I Like Divine Damnation

Zhen Bingyu couldn't use spirit sense now so Ye Mo just set up a simple barrier formation and brought a bunch of immortal spirit herbs into the Golden Page World.

The tidy looking place looked messy now. Ye Mo dug level five and level six immortal spirit herbs from the area with the densest immortal spirit chi.

But Ye Mo didn't care, he was concocting pills in the Golden Page World like crazy. He was mainly concocting immortal grade level six pills. One of his reasons for coming here was to reach level six immortal pill great master.

The Dual Spirit Pill couldn't completely cure Zhen Bingyu, but it could allow her essence spirit to not cripple. If her essence spirit gathered, she would get better day by day. Even if in the end she couldn't cultivate due to her spirit roots dissolving, she wouldn't be in life threatening danger.

One month later, Ye Mo successfully reached level six immortal pill great master. Since he was in a rush, he wasted more than 80% of the level six immortal spirit herbs here. He collected the remaining 20% into his Golden Page World too.

If he did things slowly he could reach level six immortal pill great master in a year, but that was too slow.

As soon as he became level six immortal pill great master, Ye Mo immediately concocted a few cauldrons of Dual Spirit Pills. They could not only repair spirit sense but also repair souls and essence spirits. Even if your spirit sense and essence spirit weren't injured you could use it to cultivate and the effects were quite great.

Used with Corner Soul Weeds and the Soul Nourishing Well, its spirit sense cultivation effect would be at the best. However, it was an immortal grade pill and the caliber of the Soul Nourishing Well wasn't

enough. Ye Mo only got one drop a year so he could only use it with Corner Soul Weeds to cultivate spirit sense.

But that wasn't important for Ye Mo anymore. He had Dual Spirit Pills, how many in the immortal realm could use them to cultivate spirit sense?

Ye Mo took out a few bottles of Dual Spirit Pills and came out of the Golden Page World. He needed to give the pills to Zhen Bingyu first; otherwise who knew how long he might be in solitary cultivation?

Zhen Bingyu spent most of her time sleeping, and when she woke up, she would use her body refinement cultivation method to repair her meridians. Even though she knew it was useless, she never wanted to give up. She had no other way but to use her body refinement cultivation method.

When Ye Mo came in this time, Zhen Bingyu was awake. She had always been someone to endure loneliness and didn't feel dissatisfied at Ye Mo for leaving her alone in the house.

Seeing Zhen Bingyu still trying to cultivate her body refinement cultivation method, Ye Mo was helpless. He gave her quite some pills, even Snow Winged Pills and Zhi Qiong Pills, and even set up a spirit gathering formation here, but her injury wasn't something that could recover through cultivation.

Most people would lose their body after failing nirvana, but because Zhen Bingyu used part of the Chaos Blue Reed, her body was fine but her essence spirit and spirit roots were damaged.

"I've made a new pill today, have a look." Ye Mo took out the Dual Spirit Pill and passed it to her. He believed she hadn't seen the pill before as Dark Weeds were extinct in the immortal realm.

Zhen Bingyu didn't look carefully at the jade bottle Ye Mo gave her. She opened and took out a pill and placed it in her mouth. She was certain that Ye Mo was an immortal pill great master so she didn't doubt the pills he gave her.

Moments later Zhen Bingyu's face shook, there was extreme shock on her face. Then, she closed her eyes and started using her cultivation method. She could feel she could finally use her cultivation method. Although her dissolving spirit roots couldn't be repaired, her weakness and crippled essence spirit could be repaired.

Ye Mo clearly saw two streaks of tears rolling down her eyes.

She must be very excited seeing that her injuries had signs of recovery.

Ye Mo was shocked as well. This was the first time he saw Zhen Bingyu cry. He thought that someone like her wouldn't cry even if she was about to be killed.

She teared up now not because she might be saved but because she could cultivate again.

Ye Mo sighed, this woman was too obsessed. Words couldn't describe her obsession for cultivation. Ye Mo knew she definitely was a reasonable person and her social experience was no lesser than other people, but everything was based on cultivation.

Ye Mo had seen this woman smile once before. He was very shocked, he believed that when she smiled, it was many times prettier than when she had a cold face. Now that he saw her tear up, it was definitely many times prettier than when she was cold.

Ye Mo shook his head, he really couldn't correlate this woman to the woman who thought of her body as just flesh and bones.

He didn't disturb her, he left behind a few more bottles of Dual Spirit Pills and left. He also needed to go in solitary cultivation.

...

50 top grade immortal crystals, Ye Mo didn't save any for cultivation.

He set up layer upon layer of immortal crystals spirit gathering formations and ate pill after pill. The time formation disk ran for two years and then Ye Mo suddenly got up. He finally reached golden immortal peak stage from golden immortal tertiary stage.

He just needed to have his divine damnation and he would be an abstruse immortal. After abstruse immortal, he would leave here. According to his calculations, Susu and them wouldn't ascend this quickly. It was best for him to leave the 11 low heaven domains and go into the 11 middle domains to find his opportunity of reaching great immortal. Lu Zhengqun was calculating his location and it had been so many years already. If he really found it, then he would have nowhere to hide in the 11 low heaven domains.

Ye Mo knew that although he had Great Unity Pill, his cultivation wasted too much resources. He used 10 million top grade immortal crystals to go from golden immortal tertiary stage to golden immortal peak stage. Just how many would he need to go from abstruse immortal primary stage to abstruse immortal peak stage?

And Ye Mo felt that although the effect of immortal crystals cultivation wasn't bad, it was far from as good as the immortal well. If he found another top grade immortal well, his cultivation speed would rapidly increase.

Ye Mo went out of the Golden Page World and immediately scanned Zhen Bingyu with his spirit sense. She could sit and cultivate now. It seemed the pills were quite effective. She looked considerably better than before.

Seeing Ye Mo come in, Zhen Bingyu stopped cultivation and stared at Ye Mo asking, "You gave me Dual Spirit Pills? Where did you get Corner Soul Weeds?"

Ye Mo was shook, he didn't expect her to really recognize what pill it was but he said heavily, "Would you believe it if I said I found it in the Corner Soul Domain when you didn't notice?"

Zhen Bingyu frowned and said no more.

"Not bad, you can sit up now." Ye Mo walked over and carried Zhen Bingyu on his back again.

"Thank you for your pills, if it wasn't for that I wouldn't even be able to stabilize my essence spirit. I can use spirit sense now and open my own storage ring," Zhen Bingyu said.

“You’re welcome, you’re injured partly due to me. Do you have pills left? If not, I’ll give you a few more bottles,” Ye Mo asked.

Zhen Bingyu fell silent for a while and said, “There’s still a lot left, I don’t use much.”

Ye Mo took out another storage ring and gave it to her. “There are some pills I made in here, you can have them. I’ve also put some of the essence spirit recovery pills inside too.”

Zhen Bingyu asked in confusion, “Why? Why not keep these pills on you and give it to me when I need it?”

“It’s the same sooner or later. I’m about to have my abstruse immortal divine damnation. After I reach abstruse immortal I will be leaving the Chaos Star Realm. I think that will be in at most one year. This means that in about a year you can go back to your sect. We might not see each other again so I might as well give the pills to you now,” Ye Mo explained.

Zhen Bingyu nodded and said no more. When Ye Mo put away the cultivation artifact mansion and carried her on his back again, she suddenly said, “If one day I can recover I won’t forget that you saved me before.”

Ye Mo smiled. “No need, it’s better for you to forget about me.”

Zhen Bingyu didn’t say much and asked, “How much confidence do you have in passing your divine damnation?”

This time Ye Mo said, “Actually, I love having divine damnations. Believe it or not, up to you.”

Chapter 1613: What Divine Damnation is This?

Zhen Bingyu shook her head and said no more.

Ye Mo took out the jade card and left the immortal spirit herb mountain again, returning to the desert of level four. Looking at this boundless desert, he had to admit that whoever set this formation up was quite powerful.

He could set up such a formation, but hiding such a huge immortal spirit herb mountain in the formation would only be possible once he reached level five or level six immortal formation great master.

Most of the times when Ye Mo had his divine damnation, he didn't set up spirit gathering formations as he could devour lightning source. He didn't care if there was the immortal spirit chi was plentiful or not, but in this desert almost devoid of immortal spirit chi, Ye Mo set up a spirit gathering immortal formation.

Last time when he had his golden immortal divine damnation, he was almost ambushed by the divine damnation. Luckily he reached golden immortal at the last moment, so this time he set up an abundant immortal spirit chi gathering formation. As for lighting attraction and storage formations, Ye Mo couldn't be bothered setting them up. He knew with the current power of the divine damnation, the formations wouldn't be able to store it even if he set them up.

Seeing Ye Mo set up so many immortal spirit chi gathering formations, Zhen Bingyu was speechless. To be honest, Ye Mo was just having an abstruse immortal divine damnation, why did it seem like he was having his great immortal divine damnation? And he even said his favourite things were divine damnations.

Ye Mo was already using the Three Birth Chant in the formation at this moment, ready to draw down the divine damnation. Zhen Bingyu hadn't seen Ye Mo's cultivation scene but now that she saw all the immortal spirit chi of the immortal crystals around Ye Mo gather and form a mist, she was shocked.

No wonder he cultivated so fast, the impact of his cultivation was this huge. Soon, she saw eight huge immortal spirit chi whirlpools spinning above Ye Mo's head. They grew bigger and bigger until they combined into one.

There were about ten million immortal crystals outside. That seemed a lot, but not for someone who cultivated like Ye Mo.

To be honest, if an ordinary golden immortal used so many immortal crystals to cultivate, he might not be able to use them up within a few thousand years, but with Ye Mo's speed, Zhen Bingyu was certain they wouldn't last him even a hundred years.

Thinking that Ye Mo needed a hundred times more immortal crystals than others, Zhen Bingyu took in a cold breath. She had seen some prodigies in the sect but none of them has such a grand cultivation scene. Ye Mo's heritage was too powerful. Zhen Bingyu shook her head, she also benefited from Ye Mo's heritage or she would've turned to dust from nirvana already.

However, no matter how powerful Ye Mo's heritage was, he wasn't going to give it to her. If she didn't save his life, she might not even have the body refinement cultivation method.

Ye Mo ate the Abstruse Clear Pill.

15 minutes later, the dim sky got darker and Zhen Bingyu knew Ye Mo's divine damnation was here.

Rumble rumble

Nine faint red lightning arcs fell down. Zhen Bingyu dazed on the side – what was going on?

Since when was the first wave of abstruse immortal divine damnation nine bolts? Usually there were at most three. Abstruse immortal divine damnations were usually 18 bolts, if there were nine in the first wave then wouldn't that mean there would only be two waves?

Plus, no matter how powerful the golden immortal peak stage was, he wouldn't be able to stop nine bolts at the same time. These nine bolts were extremely thick too. How could Ye Mo survive that? And what was this faint red lightning bolt? She had never seen it before.

Crack

The nine bolts all blasted on Ye Mo's body, but what Zhen Bingyu didn't understand was that Ye Mo didn't even release a defensive magic artifact. Did he not have one or did Ye Mo think he could take it head on because he had an immortal nirvana body?

It might be that Ye Mo really didn't have a defensive magic artifact. She had been with Ye Mo for quite long and she had never seen him take out a defensive magic artifact.

When the nine bolts struck him, Ye Mo knew these lightning arcs were so much stronger than his golden immortal divine damnation.

Ye Mo's Three Birth Chant ran and he devoured the lightning source incessantly, converting them all to immortal essence. He could clearly feel that the red lightning was much stronger than before, but he was damaged less. Only his skin cracked open.

Only now did Ye Mo feel the benefits of body refinement immortal body.

Seeing Ye Mo easily survive the nine bolts, Zhen Bingyu was completely dumbfounded. This was the first time she had seen an abstruse immortal divine damnation this powerful and someone pass it so easily.

No wonder Ye Mo didn't release a defensive magic artifact, he was prepared. Was an immortal nirvana body really this powerful?

More than ten cracks sounded in the air again, 18 bolts of lightning fell at the same time and they seemed thicker and more ferocious than before.

"What's going on?" Zhen Bingyu looked at the divine damnation in confusion. This was 27 bolts already, only an extremely rare few golden immortal cultivators would have 27 bolts.

Thinking about how Ye Mo could kill abstruse immortals as golden immortal, Zhen Bingyu seemed to realise something, but even 27 bolts didn't come in just two waves.

But Ye Mo didn't fear them at all, he charged up against the wave. He felt he was lucky he finished his nirvana before this divine damnation or else this time he wouldn't have it so easy.

Rumble

The lightning bolts struck him but he used Three Birth Chant to devour the lightning power. The faint red lightning was rapidly devoured by Ye Mo and turned into lightning element immortal essence increasing his cultivation level.

“He’s actually fine?” Zhen Bingyu was dazed again. The 18 bolts didn’t even heavily injure Ye Mo.

Rumble

Two more bolts fell down. Zhen Bingyu was completely bewildered now, this was beyond 27 bolts.

However, Ye Mo’s power began to rise rapidly now. It didn’t stop at the two bolts, more fell. Two more, three more, two more...

Lighting arcs fell down nonstop and grew thicker and thicker until Ye Mo was completely immersed in red lightning bolts.

Zhen Bingyu looked dazily at this, she didn’t understand at all just what kind of divine damnation Ye Mo was having.

How could there be so many bolts of abstruse immortal divine damnation?

Suddenly, Ye Mo let out a long howl and charged up while releasing black lightning to fight against the pink lightning in the sky.

He was crazy, Zhen Bingyu finally realized why Ye Mo said he loved divine damnation. She had never seen someone have divine damnation like this. This was attacking divine damnation. Was he trying to show off his power or trying to anger the divine damnation?

Zhen Bingyu didn’t know that Ye Mo was long past the angering divine damnation phase. He charged up to fight divine damnation so his Lightning Sword would improve. Each time he used Lightning Sword against divine damnation, its power would increase a level.

Now that he had completely finished divine damnation and reached abstruse immortal, how could he waste such an opportunity to improve his Lightning Sword?

Rumbling sounds were incessant in the air. Ye Mo's black Lightning Sword clashed with the red lightning bolts.

Five minutes later, the lightning slowly dissipated and the immortal spirit chi cloud finally came. Ye Mo put away his Lightning Sword and started devouring the immortal spirit chi cloud. This divine damnation was too easy.

But Ye Mo knew that the abstruse immortal divine damnation was the easiest divine damnation among all of the immortal divine damnations.

Feeling the power of abstruse immortal essence and spirit sense, Ye Mo was very happy. It was indeed too hard to kill abstruse immortals as a golden immortal. If it wasn't that his cultivation method was so absurd, it would be impossible.

Chapter 1614: Premonition of Danger

At this moment, Ye Mo thought of the words of that blue dressed status immortal: 'You will forever be a golden immortal for the rest of your life'. It had only been a few years and he was already abstruse immortal.

Even though Ye Mo knew this wasn't due to him but to the Three Birth Chant, yet he still felt very satisfied.

Ye Mo cleansed himself and changed into a new set of clothes before putting away the extra immortal crystals. Then, he came to Zhen Bingyu.

"Let's go, we can go back to the Extreme Sword Sect," Ye Mo released Blue Moon and said.

Zhen Bingyu sighed, she realized that even though she doubted Ye Mo to be bluffing, it turned out he was telling the truth. When she thought she knew a lot of secrets about Ye Mo, she only in fact knew less than one percent.

Ye Mo carried Zhen Bingyu onto Blue Moon and released it, flying towards the entrance of level three.

He was abstruse immortal primary stage now and his immortal essence was many times stronger. His spirit sense also increased greatly. The speed with which the level four flying immortal artifact Blue Moon was going was unfathomable.

The level four Shadowless Vultures seemed to know that Ye Mo wasn't easy to mess with, so not a single one came to stop Ye Mo.

In a short three days, Ye Mo was back at level three. He realized that even if one had a good flying magic artifact, it needed someone good to use it. If he wasn't an abstruse immortal and was still a golden immortal, he wouldn't be able to make Blue Moon go this fast no matter what.

Before he flew across level three for a year, but now when he flew to the second level entrance, he took less than half a year. When Ye Mo went into level two, he immediately became careful and stealthed Blue Moon.

There was the Corner Soul Domain at level two, Ye Mo didn't know if powerful beings were here checking it. If he encountered a status immortal and they pressured him with spirit sense, he really wasn't sure if he could keep Golden Page World a secret.

Just in case, Ye Mo hid his power back to golden immortal primary stage. After all, he came here as a golden immortal primary stage, but in just ten years he was abstruse immortal primary stage.

Ye Mo could've come to the entrance of level two in three months but he was very careful and went around.

However, Ye Mo felt it was strange that level two was so calm. He didn't meet many immortals on the way.

Seeing that he was about to leave level two, Ye Mo finally couldn't resist it and stopped two golden immortals.

They were both golden immortal peak stage.

The two weren't worried that a golden immortal primary stage stopped them but instead studied Zhen Bingyu a few times.

"Two friends, I've been in solitary cultivation and I just came out. I want to go to the Corner Soul Domain but I haven't been able to find the direction. May I ask where it is?" Ye Mo saluted with his fists.

"You want to go to the Corner Soul Domain?" a golden immortal asked in confusion.

"Yes, my martial sister's spirit sense is injured," Ye Mo answered.

The two looked at Zhen Bingyu and didn't suspect and then immediately said, "You don't need to go anymore. The Corner Soul Domain is actually a small world and was taken away by someone ten years ago. The person who took it away is very evil, he didn't let a single person who went inside out. Now it's nonexistent."

Ye Mo was a little confused – was he the only one who predicted that the Soul Corner Domain was a sea of consciousness?

"Did no one check it out?" Ye Mo asked again.

The golden immortal said plainly, "Of course, three immortal emperors from the grand heaven domains came. They found that the small world had been spirit controlled and the owner took away all the immortals in it. The three immortal emperors were furious and immediately locked up the surroundings of the Corner Soul Domain, not allowing anymore to get near. They're trying to calculate who spirit controlled the small world."

Ye Mo quickly thanked them and saluted with his fists before flying off. After he was outside of the two's spirit sense range, he released Blue Moon and flew rapidly towards level one.

He was very clear that the three immortal emperors must've noticed something strange about the Corner Soul Domain and might've even guessed it was Wushuang immortal emperor's sea of consciousness.

Calculate who spirit controlled the small world? Immortals who were great immortal and above wouldn't believe such a lie.

Even if all the people in a low heaven domain died, probably not a single immortal emperor would come to care, much less a small world and a few thousand immortals. Small worlds were valuable to ordinary people but each immortal emperor probably had quite a few.

If it was some truth spirit world or chaos world those immortal emperors would come check, but it was impossible they came for a small world and a few thousand low grade immortals. So, Ye Mo had to leave as quickly as possible in case he was involved.

Luckily what Ye Mo worried about didn't happen, or perhaps he overestimated himself. He was only a golden immortal.

When Ye Mo came back to the level one entrance he found that marketplace was still there, but there were all strangers. Only a few familiar faces were there.

Before they could recognize him, Ye Mo left with Zhen Bingyu rapidly.

Two months later, Ye Mo brought Zhen Bingyu to the asteroid door.

Ye Mo couldn't be bothered finding a group so he just flew into the void himself.

This time, his luck was much better. He only encountered an asteroid flow and a void storm group, nothing else very threatening.

Even so, Ye Mo just took 11 days to come back to Far Star Castle.

...

Ten years was really nothing in the immortal realm, it passed in the blink of an eye.

Ye Mo didn't want anyone to notice him so he immediately used the teleportation formation to Gong Hua Heaven.

Coming out of the teleportation formation Ye Mo used Blue Moon at full power, flying towards Extreme Sword Sect.

Ye Mo had long planned to immediately leave Gong Hua Heaven after sending Zhen Bingyu to Extreme Sword Sect and head towards the middle heaven domains.

In just a few days, Ye Mo neared the land of Extreme Sword Sect again. Seeing that he would arrive in just three hours, Ye Mo suddenly stopped Blue Moon.

"What's wrong?" Zhen Bingyu was excited too, she really wanted to know if her master could save her so she had been constantly noting the distance to Extreme Sword Sect.

Ye Mo frowned. "I have a feeling we can't go too fast, it's not very safe ahead."

Chapter 1615: Sect Annihilation

"It's Extreme Sword Sect, how can it be not safe?" Zhen Bingyu looked at Ye Mo in confusion and seemed to have realized something and added, "Don't worry, I definitely won't allow my master to attack you nor let the sect do anything to you. My injuries have nothing to do with you."

Ye Mo didn't doubt her words and believed she could do it. Her master's status was very high, seemingly just below the sect leader. Even so, he felt uneasy.

Ye Mo had always trusted his sense for danger. This sense had never been wrong ever since he cultivated Three Birth Chant. Ye Mo stopped and instead changed directions and left.

Zhen Bingyu frowned and stared at Ye Mo asking, "Why?"

"Very sorry, I can't go to Extreme Sword Sect, I keep sensing there is danger ahead. If you must go you can release your rainbow stamp. But if you trust me, then I suggest you to not be in a rush to go back. Wait until I find out why I feel uneasy," Ye Mo answered heavily.

Zhen Bingyu stared at Ye Mo for a long while and remembered that when she was with Ye Mo he never seemed to have lied, so she said, "Okay, I choose to believe you. If you don't find out why I hope you can send me back as soon as possible."

Ye Mo ignored her, that sense of danger was getting denser. He left the nearby area of Extreme Sword Sect rapidly.

Zhen Bingyu thought Ye Mo would go to nearby cities and ask about the sect, but she was soon disappointed. Ye Mo instead went to further places.

Zhen Bingyu knew resistance was futile so she said no more. She had doubted Ye Mo many times but it always ended up with her being wrong, so she chose to believe Ye Mo this time. She knew that if she really wanted to go back herself, Ye Mo would agree.

A month later, Ye Mo came to a rather distant city from the sect, Xin Kui Immortal City.

"You had best cover your face," Ye Mo put away Blue Moon and carried Zhen Bingyu on his back and said.

Zhen Bingyu could be said to be the prettiest woman in Gong Hua Heaven, people would definitely notice such a woman. He didn't want her to expose her identity.

"Okay." Zhen Bingyu took out a face veil and covered her face.

Ye Mo carried Zhen Bingyu to the city gates and found there was a huge statue of an immortal.

“That’s Xin Kui great emperor, the only immortal emperor to have ever come from Xin Kui City. The city was built by him,” Zhen Bingyu said.

Ye Mo knew about great emperors, one must be immortal emperor peak stage and be revered by other immortals to have such a title. Yu Miaodan didn’t expect the low heaven domain that rarely had an immortal king would have an immortal emperor.

But he didn’t have the mood to ask about this emperor. The magnitude of this city seemed even better than Bi Yi Immortal City. Immortals came flowing by.

Ye Mo took out 100 middle grade immortal crystals and made two temporary jade cards at the city gates and took Zhen Bingyu in. he also recovered his power to be abstruse immortal primary stage.

With Zhen Bingyu’s guidance he came to the most popular immortal rest tower in the city. He came here to find news of course. There were rooms but they didn’t go. He took Zhen Bingyu to one corner in the lounge and ordered two cups of immortal spirit tea.

Many people came here and quite a lot of people came here to search for news. But most of them were here for cultivation resource related news.

There was a huge display formation at the front of the lounge showing news of forming teams and exchanges.

Ye Mo signaled to Zhen Bingyu and was prepared to find someone to indirectly ask about Extreme Sword Sect when they heard people on the right discussing about it.

There were two golden immortal cultivators, and even though they weren’t loud, Zhen Bingyu could hear them clearly.

“If something didn’t happen to Ming Hua, us three could have formed a team for this. It’s a pity her entire sect has been annihilated.”

“Sigh, the Extreme Sword Sect did nothing to deserve this. Who did they offend? They were just straight up annihilated. They are a sect passed down from the ancient times. Even in the low heaven domain, sects without a status immortal are insects.”

“Yeah, a great eternity immortal sect is high up there in Gong Hua Heaven but it was so easily annihilated.”

“Let’s find someone else.”

...

Ye Mo frowned, he didn’t expect his sense of danger was Extreme Sword Sect being annihilated. They were first grade power in Gong Hua Heaven, who had the power to dare to annihilate them? Did the Gong Hua Heaven’s heaven lord not say anything? Why were they annihilated?

Zhen Bingyu’s face was pale. Although she was focused on the dao, she was only abstruse immortal primary stage. Extreme Sword Sect was where she grew up and her master was there. Now that the sect was annihilated, how could her master be safe?

At least she knew Ye Mo’s premonition was right.

Ye Mo was silent. The sect annihilation wasn’t what made him feel endangered. He could still go in after the sect was annihilated, but the reason he felt danger meant that there was someone waiting for something there.

“Let’s go.” Ye Mo got up. He knew staying here was pointless. This place was one month away from the sect but that was just to him. For some powerful beings, it might just be a few hours.

Zhen Bingyu was numb. For the first time she lost a sense of direction. Even though she was heavily injured, she wasn’t lost like this because she could at least go back to her sect. Now that her sect was gone, where could she go?

She didn't know what to do at all now. Ye Mo told her to leave so she could only go with Ye Mo. Plus, she could only rely on Ye Mo.

"Hmm, an immortal ship flying towards Tang Yao Heaven Domain will be passing by here in a day!" a golden immortal suddenly said in shock.

"Isn't Tang Yao Heaven a middle grade heaven domain? Why would a ship going there stop at Xin Kui Immortal City?"

"It has nothing to do with the city. Heaven domain flying ships stay to earn immortal crystals."

"That's true, if that's so then this is really good news."

"Good news my ass, look at how many immortal crystals are needed. Can ordinary immortals afford that?"

"15 million top grade immortal crystals for a low grade seat? Oh my god, this is too terrifying!"

Chapter 1616: Expensive Ticket

Ye Mo saw this news too and immediately carried up Zhen Bingyu. Tang Yao Heaven was a middle heaven domain, now that he had such an opportunity, he must go. Ever since he left the Chaos Star Realm, he had been feeling uneasy. Lu Zhengqun was like this huge mountain blocking in front of him.

He felt danger in the 11 low heaven domains, this place wasn't good to stay. He must leave the 11 low heaven domains. Even if he couldn't get to the grand 11 heaven domains, the middle 11 heaven domains were good. Ye Mo was planning to go the middle 11 heaven domains anyways.

Ye Mo left the immortal rest tower with Zhen Bingyu. If Zhen Bingyu was to go too, then the ticket would cost 30 million top grade immortal crystals and Ye Mo happened to have that much.

“I want to go to Tang Yao Heaven, are you coming with me or going somewhere else?” Ye Mo asked. If she wanted to go somewhere else, he would be happy to send her over but only if he could get back on time.

Zhen Bingyu was still lost. Ever since she was born, her goal was straightforward – cultivate and cultivate and turn Extreme Sword Sect into a status immortal sect. After she reached status immortal, she would seek to become an immortal emperor and achieve dao.

But half of her life goal has been destroyed. Even after countless years when she reached status immortal, Extreme Sword Sect wouldn't be able to be what it used to be.

“I have nowhere to go.” Zhen Bingyu shook her head.

“Since you have nowhere to go, come to Tang Yao Heaven with me. It's a middle heaven domain, perhaps we can find a way for you to recover there,” Ye Mo said.

Ye Mo had thought of another way to heal Zhen Bingyu, but he wouldn't do that. He had the small sapling in his Golden Page World. If he gave her to eat it she would definitely recover.

He was injured by that sword tip back in the cultivation realm and his injuries couldn't recover. However the small sapling easily healed him when he just got near it. Plus, Lu Zhengqun used so much effort just to cultivate that small sapling. One could see how precious it is.

He definitely wouldn't take it out unless someone close to him was about to die.

Thinking about that sword tip, Ye Mo thought of Yimo. He inserted his spirit sense dao will into it and gave it to Yimo.

...

The notice on the immortal rest tower was clear, those who wanted to go on the immortal ship would need to go to city management and sign up.

When Ye Mo brought Zhen Bingyu over, there were more than ten immortals already, ranging from golden immortal to great extreme immortal. But most were abstruse immortals.

No one noticed Ye Mo, an abstruse immortal primary stage, but people immediately started to watch when Ye Mo carried a heavily injured woman inside.

Most immortals in the immortal realm were shrouded in rainbow clouds and appeared like gods, but selfishness was embedded in their bones.

Behind their glamorous looks were robbery and ambush. With the limited cultivation resources, if one didn't compete for them they would be disqualified in the endless pursuit of immortal dao. Relatively, those sect members of big sects had greater morals. At least with a big sect they wouldn't easily kill unless there was something truly valuable.

These people were confused seeing Ye Mo carry a heavily injured woman. Most of them were golden immortal and above and could easily tell Zhen Bingyu couldn't cultivate anymore.

Some people saw the perfectly beautiful body of Zhen Bingyu and how Ye Mo was carrying her; they believed that Ye Mo loved this woman too much to be willing to take out an extra 15 million for her.

An abstruse immortal primary stage could take out 30 million top grade immortal crystals, this was very shocking. Most great immortals wouldn't be able to take out even 10 million top grade immortal crystals. Just how wealthy was he? This wasn't a middle or grand heaven domain.

All the immortals here saved countless years of immortal crystals or were helped by their heritage.

At the sign up place, Ye Mo paid 30 million top grade immortal crystals without hesitation and got two tickets. Then he sat on the side waiting for the immortal ship.

Now Ye Mo had less than 100k immortal crystals, but he wasn't worried. He would have his way when he went to Tang Yao Heaven.

The other immortals immediately respected Ye Mo's ability to pay 30 million top grade immortal crystals and some even moved away from the window seat to let Ye Mo sit down.

"Friend, are you from Gong Hua Heaven?" one abstruse immortal middle stage asked.

Ye Mo said, "No, I'm from Extreme Wind Heaven. I heard there was a heaven domain flying ship here so I came wanting to try my luck at the middle heaven domain."

Ye Mo also carefully watched this abstruse immortal, he wore a grey immortal robe and looked very ordinary. But Ye Mo didn't feel he had any bad intentions, he probably came to talk to him because he easily took out 30 million top grade immortal crystals.

"That's right, the immortal spirit chi in the low heaven domains is too scarce and there aren't enough cultivation resources. It doesn't work at all to fully rely on immortal crystals for cultivation. So I gritted my teeth and took out all my savings to check out the middle heaven domains. I might even be able to reach great immortal there," the grey robed immortal said.

Ye Mo nodded and smiled but said nothing.

This grey robed immortal was very talkative and said again, "Friend, it's quite amazing you could get news of this ship ahead of time. I only got this news by luck. If I got this news at Extreme Wind Heaven, I wouldn't be able to make it for the immortal ship."

"I'm Lan Disheng, I heard it takes a few years to fly there. We're all from low grade heaven domains, we should get to know each other so we can take care of each other out there," Lan Disheng said.

"I'm Ye Mo, this is my martial sister," Ye Mo said, but didn't say Zhen Bingyu's name.

Soon Ye Mo got to know Lan Disheng and the two others on the side also joined the conversation. One was a female cultivator. She was abstruse immortal middle stage power and called Tan Xiaolian. Another abstruse immortal tertiary stage man was called Xiang Qilin. They all wanted to reach great immortal in the middle heaven domain.

Ye Mo's power was the lowest, but no one dared to underestimate him.

Tan Xiaolian couldn't compare with Zhen Bingyu in terms of looks but she was rather good looking. Xiang Qilin looked ferocious like Ye Mo when he had just reached immortal nirvana body. But Ye Mo knew he wasn't a body refinement cultivator, his ferocious temperament was probably natural or due to his trial experiences.

Nonetheless, he spoke very amicably.

Zhen Bingyu said nothing and no one asked about her.

The three were all from Gong Hua Heaven and were solo cultivators, so they spoke casually.

The conversation was very pleasant. There were a few times Ye Mo wanted to ask about the Extreme Sword Sect, but he resisted the urge. He knew this wasn't a suitable time to ask about it. He could ask when they got on the ship.

Nearly 20 more people came and Ye Mo realized just how much the ship was earning. They could earn this much just by passing by this city, how much could they earn for the entire trip?

"These immortal crystals are too easy to earn." Tan Xiaolian sighed in admiration. There were 40 people here, and this could bring the immortal ship a few hundred million. How much could they earn for this entire ship? Plus they were only getting low grade seatings, what about middle grade, top grade, and special grade?

Lan Disheng shook his head. "Not anyone can earn these immortal crystals. Heaven domain ships can't be obtained by ordinary people. An ordinary one would require a few immortal forgery grandmasters to forge for up to 100 years. The running and maintenance costs of the immortal ship are also quite hefty. On top of that, the immortal ships heading from low heaven domains to middle heaven domains have at least three immortal king guards.

If that was the case, even if an immortal king was given a heaven domain ship, he wouldn't be able to run it.

"I heard there is also a teleportation formation from low to middle heaven domains," Tan Xiaolian said.

Lan Disheng said, "I've heard of it too, but no one knows where the teleportation formations are. Perhaps they don't run or can only be opened during times of emergency."

Chapter 1617: Scam Ship

A day passed quickly and the heaven domain ship arrived in time. It stopped at the outskirts of the immortal city. The ship was almost half the size of the city.

When Ye Mo and them left the city with the management, they entered the ship from below. It took only a few minutes for the ship to begin flying again once Ye Mo and them entered.

After the management left, a great unity immortal led them on the ship. He scanned them and said, "Welcome to the Tang Feng Heaven Domain ship, because you bought low grade tickets you can only stay at the low grade deck. The rent of each room is 100k immortal crystals a year..."

"Huh..." one abstruse immortal tertiary stage was shocked and asked, "Qian bei, we've already paid the ticket, why do we need to pay rent?"

The great unity immortal frowned and his tone suddenly went cold. "You mean that after you paid those few immortal crystals you can stay here for free and use the immortal spirit chi for free?"

The abstruse immortal tertiary stage shivered and didn't dare to say anything else.

Everyone including Ye Mo realized that they were scammed. The plane ticket didn't include a place to stay, what sort of logic was this? But no one dared to say anything. It was asking for death starting trouble with management here.

Ye Mo fell silent, luckily Zhen Bingyu had some immortal crystals in her storage ring. Otherwise, they wouldn't even have a place to stay.

Seeing the rest of the people stay silent the great unity immortal nodded. "Now you can buy room jade cards with me. As for other costs, they will be in each room."

Hearing this, everyone realized this was no immortal ship but a scam ship. However, most of the people had decided to stay in there room no matter what. This way, even if other places needed immortal crystals, it wouldn't be their problem.

Most people took out immortal crystals to buy a room other than a few individuals.

Ye Mo just bought one room, firstly because Zhen Bingyu couldn't even move and protect herself, and secondly since he didn't have that many immortal crystals. He paid for ten years, two rooms would cost 2.4 million. He didn't have that many immortal crystals in his storage ring, only Zhen Bingyu's storage ring still had a few million.

After getting a room number, the familiar people greeted each other and went to find their own rooms.

The low grade deck was at the lowest part of the ship in the middle. The immortal spirit chi was lacking here and there was no spirit gathering formation. It was just a place to stay. As for rooms on the side, they were top grade decks. The rooms at the top were special grade decks.

Ye Mo got Low D 298. He told Lan Shengdi and them before quickly going into his room.

When he went in the room, he was speechless. 100k immortal crystals a year got him a place was less than 10 square meters. If they weren't cultivators, ordinary people wouldn't be able to stay here at all. They weren't just staying for a year or two but for decades.

This place seemed not much better than the corner seat he got on the ship from Black Weed Forest.

Ye Mo took out some daily items and placed Zhen Bingyu down. He just noticed that the room was covered with signs full of prices.

"Go to the top deck and watch the void for a day, 10 thousand top grade immortal crystals."

“Go to middle grade deck exchange social, marketplace, 10 thousand top grade immortal crystals a day, top grade marketplace 30 thousand a day.”

“Rent a stall place at middle grade market place, 100 thousand top grade immortal crystals a day.”

...

The price list was very long. Ye Mo was speechless, he couldn't even be bothered looking. It cost 10 thousand immortal crystals a day just to watch the view! This was the biggest scam he had seen.

“You're planning to keep taking me with you like this?” Zhen Bingyu saw Ye Mo turn around and suddenly asked.

Ye Mo said plainly, “When I was heavily injured and unconscious you didn't abandon me, so I should take you. Plus I'm going to Tang Yao Heaven anyways. In fact, I really want to know what you plan to do?”

Zhen Bingyu had woken up from that lost state and frowned. After a while, she said, “If possible I want to ask you to help me. As long as my wounds and spirit roots can recover, I can leave myself.”

Ye Mo nodded. “I don't know what immortal spirit herb is needed for your injuries, but I can definitely tell you I will help you. I'm planning to cultivate and undergo trial at Tang Yao Heaven. I will also watch out for how to recover from nirvana failure.”

“Actually, if there is another Chaos Blue Reed I can definitely recover, but I know it's not something common,” Zhen Bingyu said helplessly.

Other than Ye Mo, there was no one else to help her. She really wanted to know why Extreme Sword Sect would be annihilated. It was a big sect and even the greatest sect in Gong Hua Heaven or the heaven lord estate wouldn't be able to annihilate them so easily.

Ye Mo looked around the room, there was no surveillance formation or restrictions. Then he took out some immortal crystals and started to set up a spirit gathering formation.

After Ye Mo set up the formation, he immediately realized why it cost 10k immortal crystals to go watch the view. There was a higher level formation here, most of the immortal spirit chi he gathered would be sucked away.

Ye Mo was furious, how could one cultivate on this ship? But soon he knew being angry was pointless. He could only say to Zhen Bingyu "I'll go ask Lan Disheng about the situation, you can cultivate first."

"Take me too, I want to know how Extreme Sword sect was annihilated," Zhen Bingyu said firmly. She knew why Ye Mo was going to Lan Disheng.

...

Just when Lan Disheng was cursing as well, Ye Mo came over.

"Brother Ye, why did you come over?" Lan Disheng felt it was strange that Ye Mo carried his martial sister over.

Ye Mo saluted with his fists and said, "Brother Lan, I indeed need you for something."

Lan Disheng took out two chairs and let them sit down before asking, "What do you need help with brother Ye?"

Ye Mo nodded. "I won't hide it from you brother Lan, my martial sister and I came from Extreme Sword Sect..."

"What?" Lan Disheng almost got up hearing this, but soon he realized what was going on. No wonder Ye Mo said it now, if others knew they were from Extreme Sword Sect they wouldn't have a life left.

"I really didn't expect brother Ye could escape from that disaster. But Extreme Sword Sect, sigh..." Lan Disheng clearly felt pity for Extreme Sword Sect.

Ye Mo thanked him and said, "Brother Lan we didn't escape from there. We went out for trial a decade ago and only just got back. But when we were there we realized the sect was long gone."

"So you came to ask why the sect was annihilated?" Lan Disheng realized.

"Yes, please tell me brother Lan," Ye Mo said.

Lan Disheng sighed. "I'm not too certain what happened, I got this news from somewhere else. I can't guarantee if it's accurate or not."

"It's fine, just tell us brother Lan." Ye Mo nodded.

"Okay." Lan Disheng said, "You know the Freedom King, right?"

"Yes," Ye Mo said.

Lan Disheng nodded. "Two years ago, that Freedom King suddenly headed towards Extreme Sword Sect. It should be a happy thing that an immortal king was visiting them and indeed the entire sect was very happy. They even invited him to preach the dao there, but what the sect leader and the elders didn't expect was that he suddenly asked the sect leader to marry Zhen Bingyu to him as his concubine..."

Zhen Bingyu's face changed, she pulled down her veil. Her eyes were full of guilt. She never expected things to have happened due to her. She remembered when she stopped Ye Mo and was scanned by Freedom king's spirit sense. The trouble had begun there.

"So you're martial sister Bingyu." Lan Disheng quickly got up and saluted with his fists.

"Did martial sister Bingyu's master not agree and so Freedom King used this to annihilate the entire sect?" Ye Mo asked.

Ye Mo was sneering, Ye Mo didn't believe an immortal king would annihilate a sect for something as trivial as this. If he really wanted Zhen Bingyu he could've easily taken her before, why would he wait till now?

Chapter 1618: Help

Lan Disheng looked at Ye Mo in surprise, not knowing if he heard something or guessed it himself.

But he immediately nodded. "Yes, Freedom King was furious and attacked on the spot. A while after the Extreme Sword Sect was annihilated, I heard some other news that Qin qian bei got Peng Yue Immortal Fruit..."

"Peng Yue Immortal Fruit?" Ye Mo stared at Lan Disheng in shock. How could there be Peng Yue Immortal Fruit in a low heaven domain. Even if there were, it would probably have to be in the depths of the Black Weed Forest. Even if an immortal king went there he might not survive, Qin Peifu dared to go?"

Peng Yue Immortal Fruit was a level seven immortal spirit herb and could be used to concoct Yi King Pills. Peng Yue Immortal Fruit was top grade level seven, not even ordinary level eight immortal spirit herbs were as valuable as it.

Lan Disheng smiled awkwardly. "This is just what I heard. I heard that Freedom king heard that Qin qian bei got Peng Yue Immortal Fruit and wanted to buy it from him. Qin qian bei wasn't willing so Freedom king used this excuse."

Ye Mo frowned and Lan Disheng said again, "I heard another piece of news saying that sect leader Qin's daughter brought back a dao partner. That dao partner was an immortal pill master and had Mist Lotus Heart Fire..."

Ye Mo didn't expect he was involved too.

Lan Disheng continued, "The freedom king has a heaven flame called South Abyssal Hollow Flame, it's purple nirvana level three so he really wanted the Mist Lotus Heart Fire but he was told the pill master was nowhere to be seen."

Ye Mo knew the flames a lot. South Abyssal Hollow Flame was ranked seventh of the 108 types of flames. It had a special attribute and that was when it was purple nirvana level three, it needs to devour a nine clear flame to reach level four immortal flame. Mist Lotus Heart Fire was a type of nine clear flame.

“I don’t know for which reason it is exactly,” Lan Disheng said and also realized why Ye Mo was so wealthy. He came from a great eternity immortal sect.

“Brother Lan, may I ask if everyone in the sect was killed or whether some people escaped?” Zhen Bingyu worried about her master the most.

Lan Disheng shook his head. “That I don’t know. I heard some escaped but I didn’t even dare to get close to the Extreme Sword Sect with my power, so I don’t know the specifics.”

“Thank you brother Lan.” Ye Mo was very grateful to Lan Disheng.

It was quite amazing that he knew this much. The sect wasn’t annihilated for a simple reason. Otherwise, he wouldn’t sense danger after it was annihilated. Someone was still waiting there.

Lan Disheng quickly said, “It’s a small thing, no big deal, I’ve only heard about it on the way.”

Then he said angrily, “This ship is too greedy, we paid 15 million top grade immortal crystals and now we need to pay 1.2 million to stay for ten years. They’re robbing us of immortal crystals. I don’t know what there is in this room, it’s just an empty room and this costs a 200 thousand immortal crystal deposit. I’m certain that in the end they will say the room was damaged a little and the 200k won’t be given back.

Ye Mo said, “We’re under a roof so we have to keep our heads low. We may have paid a lot of immortal crystals now, but once we get to Tang Yao Heaven we might earn more. Not everyone has the opportunity to go to a middle heaven domain.”

“That’s true, we can only think that way now,” Lan Disheng said.

Ye Mo carried up Zhen Bingyu and said, "Then I'll be going first, we'll chat again when we're free."

Lan Disheng agreed and sent the two out of his room. Although the Extreme Sword Sect was annihilated, it was still a great eternity immortal sect. There were foundations, who knew when it would rise again? So after knowing the two were from the sect, Lan Disheng was very polite.

For the first time, Zhen Bingyu didn't have the mood to cultivate. Ye Mo didn't talk to her either. He was thinking about that Freedom King. He had seen him before and could remember his chi. If he stayed at Gong Hua Heaven, he might one day be found. Thinking about this, Ye Mo rejoiced that he made the decision to come here.

...

A few days later, Ye Mo felt bored. Zhen Bingyu was patient and could still go cultivate.

Ye Mo couldn't take it. He couldn't cultivate in this small room nor concoct pills nor forge. Even if Zhen Bingyu knew he had the Golden Page World, he didn't dare to go into it. He was asking to die if he went into the Golden Page World when near an immortal king.

He almost exposed everything when the Freedom King just suppressed him with spirit sense. Although he was just a golden immortal at the time, he didn't feel he could withstand it just because he was abstruse immortal now.

"I want to go out," Ye Mo looked at Zhen Bingyu and said.

Zhen Bingyu stopped cultivation and asked Ye Mo, "Do you want to ask where you can earn immortal crystals?"

Ye Mo nodded. "That's right, we have just two million immortal crystals combined. This scam ship isn't so simple, if we run out of immortal crystals and they kick us out, it will be no good."

"Okay be careful." For the first time, Zhen Bingyu told Ye Mo to be careful. It seemed she also knew that their fates were entwined together.

This ship was like a moving immortal city. Although one couldn't see the entire shape of the ship from here, Ye Mo knew the ship was huge. It was hard to believe that this was a ship. One could only imagine how many materials were wasted on this ship that couldn't change size nor be taken into a storage ring.

In the low grade decks, spirit sense couldn't be scanned out, and Ye Mo didn't dare to scan his spirit sense out anyways.

Ye Mo walked forward in the narrow corridor for a few thousand meters before seeing a huge exit sign. There were two arrows, one pointing to the exit of the low grade deck and one pointing towards the marketplace.

Ye Mo didn't know if it would be middle grade deck going out from here but he wouldn't go to middle grade deck now. He turned and chose the marketplace.

Ye Mo saw a few more diverging paths on the way, Ye Mo knew they were all residential areas. Ye Mo sighed again, wondering just how much this ship was making.

As he walked onwards, there were more and more people. Many of them were planning to go to the marketplace like Ye Mo .

There were many people here, when he saw that even for the low grade marketplace he needed to pay 1000 immortal crystals to go in, he was speechless. It seemed going anywhere in this ship cost money.

Just when he wanted to go in, he saw an abstruse immortal primary stage explain something to the marketplace management.

"No," the great unity immortal manager rejected.

"What's going on?" Ye Mo asked the cultivator on the side.

The cultivator shook his head. "He doesn't have 1000 immortal crystals so he was stopped."

"If you don't hand over the immortal crystals or take out something in exchange of value, I will take you to law enforcement," the great unity immortal reproached.

Seeing that abstruse immortal cultivator so desperate, Ye Mo knew he really didn't have 1000 immortal crystals. He quickly walked over and gave 1000 immortal crystals to the great unity immortal. "I'll help him pay, let him out."

The great unity immortal glared coldly at Ye Mo and took the immortal crystals, but his eyes were full of contempt.

Seeing Ye Mo pay for someone else, all the immortals shook their heads.

Ye Mo was poor but 1000 immortal crystals were nothing to him. Plus, when he was at the Bi Yi Immortal City's gates, he didn't have immortal crystals to go in.

Finally, the abstruse immortal could come out of the marketplace and he thanked Ye Mo greatly.

"It's a mere 1000 immortal crystals, nothing to be thankful about. But since you don't have enough immortal crystals, why come to the marketplace?" Ye Mo asked.

The abstruse immortal sighed. "Friend, you must've been here only for a short while, right? Do you think you can stay inside the house and not come out so you don't have to pay immortal crystals? If that's what you think, you'll soon end up like me."

Chapter 1619: No Reason at All

Hearing this, Ye Mo knew this abstruse immortal had been here for at least a few years.

Ye Mo immediately changed his idea of going on and pointed at a spirit rest tower not far away. "Friend, if you have time let's go in and have a talk."

The abstruse immortal knew what Ye Mo meant and nodded.

Ye Mo knew that even the best immortal rest tower in the immortal city wouldn't cost more than 100 immortal crystals for two hours. Ordinary rooms only cost 10 immortal crystals or even just a few immortal crystals.

But when they entered a bird cage sized room, it cost 500 top grade immortal crystals for just 15 minutes.

Seeing Ye Mo pay 1000 immortal crystals for half an hour, the abstruse immortal's heart ached. If it was him, he wouldn't dare to spend this much in here.

Ye Mo knew the value of immortal crystals on the ship, but he thought differently. In a place like this, if immortal crystals were limited then there was no use in just saving. It would only delay using up your immortal crystals by a few days. It couldn't solve the problem from the root. The biggest problem was how to earn immortal crystals on the ship.

Ye Mo knew pill concoction and forgery, but this was an immortal ship. Even if materials weren't limited, people needed to have the immortal crystals to buy them.

Ye Mo asked for two cups of immortal spirit tea.

The abstruse immortal drank this extremely low quality tea and yet moaned in satisfaction. Clearly he hadn't been using immortal crystals for cultivation for a long time.

"I'm Wu Licong, thank you for helping me friend. However, I will definitely be sent to do labor soon," the abstruse immortal said apologetically.

Ye Mo waved his hand. "I'm Ye Mo, I believe you know why I came to you. I want to ask about the situation here, can you tell me what doing labor is?"

Wu Licong sighed. "The heaven domain immortal ship sounds good, but it is disgusting. Going anywhere here requires immortal crystals, if you use up your immortal crystals you will be kicked out of your place

and sent into the lowest ore refinery deck. Immortals without immortal crystals are kicked down there. Thousands of immortals stay in one big deck refining Void Secret Silver. Many immortals refine Void Secret Silver endlessly in a place without immortal spirit chi, so eventually they die.”

Void Secret Silver was refined from void asteroids. It was a top grade material for forging immortal artifacts. Depending on it’s quality, it could range from a level four to level six immortal material, the top grade might even reach level seven.

Void Secret Silver could be used to set up long distance teleportation formations or forge void element magic artifacts. It was highly valued, but the only drawback was that it was too hard to refine. Because these things only existed in void asteroids, even a mountain sized asteroid wouldn’t have much Void Secret Silver.

The ship flew in the void so of course people could get the asteroids, but then they needed people to refine them.

Realizing this, Ye Mo’s heart went cold. They were so cruel! After the immortals of the low grade decks have been stripped of their immortal crystals, they could only go refine the Void Secret Silver or they wouldn’t even have an opportunity to survive.

“Because I have no immortal crystals, I took out the only pills I had left to sell off at the marketplace, but the thing was that no matter how low I set the price I was unable to sell them and instead owed 1000 immortal crystals for the entrance fee. The people here want me to have no immortal crystals so I will have to go refine ores. Now that you helped me pay the immortal crystals, the great unity immortal manager would definitely hate you. You need to be careful,” Wu Licong said.

Ye Mo nodded and asked again, “Why is it that even if you stay in your place and not go out you still have to pay immortal crystals?”

Wu Licong sighed. “Because there will often be heaven domain storms or even more terrifying natural disasters flying in the void. Every year, people come and take ship maintenance fees.”

Hearing this Ye Mo almost wanted to curse. This wasn’t an immortal ship, this was hell. One couldn’t earn immortal crystals in the ship and each day they would be spending immortal crystals, even the wealthiest person would be drained.

“How do the immortals here earn immortal crystals?” Ye Mo asked.

“There are places to earn immortal crystals but they are mostly at the top deck. In the lower deck, one can only seek some opportunities in the marketplace. Of course you can ask to refine ores and can earn immortal crystals by refining asteroids, but that depends on how much you can refine. Sometimes, you might refine an entire asteroid and not find a single drop of Void Secret Silver,” Wu Licong said.

“How do you earn immortal crystals at the top deck?”

“Top grade decks are where the wealthy people are at. You can sell things of value at the marketplace, but the stall price is too high and the standards of those immortals there are also too high. You can’t sell ordinary things. Other than that, you can also contribute when the ship encounters natural disasters, but the contribution and the immortal crystals you receive aren’t equal. Of course you can find asteroids outside the ship and sell it to the ship.

“Just that?”

“It’s said that there are also gladiator arenas in the middle and top grade decks. If you go in and win you can earn immortal crystals. Casino, pill concoction, forgery, as long as you have the capability or the money to go to the top and middle grade decks to do business, you have an opportunity to earn immortal crystals. But I’ve always been at the lower decks so I don’t know.”

Seeing that Ye Mo was interested he quickly said, “Don’t go to middle grade and top grade decks so easily, that’s an endless drain. Many people want to get a stall to earn immortal crystals, but in the end they lose out and can only go refine ores.”

“By the way, I heard there were immortal kings on the ship. Will we be able to see immortal kings?” Ye Mo asked.

Wu Licong looked at Ye Mo speechlessly. “Immortal king masters are all at the top grade cultivation rooms of the special deck, how can they come out? They’re all in solitary cultivation, unless there are special circumstances, they won’t even be seen at special grade decks.

Ye Mo breathed easy, as long as he didn't see immortal kings it was good.

"I understand, thank you." Ye Mo got up.

Wu Licong shook his head, he knew this abstruse immortal probably wouldn't listen to him. When he suffered, he would know he didn't lie to him.

Ye Mo and Wu Licong went down the stairs. Just as Wu Licong thought, he indeed wanted to go to the middle grade area or top grade area to have a look.

Seeing Ye Mo about to leave, Wu Licong added, "Brother Ye, try to not have conflict with people here."

Wu Licong explained, "That's because this is a place where you can kill. Power is reason. The managers won't say anything. If there is conflict between two immortals, one of them can challenge the other. If you don't agree, you must compensate with immortal crystals. If you don't have immortal crystals, then your opponent can tell you off to the managers and your storage ring will be taken and you will be sent to ore refinery."

"There's no reason at all?" Ye Mo frowned and asked.

"No reason at all," Wu Licong answered. "If you agree to the challenge you will have to go to the battle arena, usually only one returns."

Wu Licong added, "Brother Ye if you offend someone then it's pointless to even stay at where you live. People can break into your place to challenge you and not be held responsible. You will have to pay for the damages. If you were killed, he can get all your belongings and can pay the damages too. The immortal ship doesn't care. As long as they get compensation it is fine by them."

Hearing this, Ye Mo realized it was very wrong of him to help Wu Licong pay immortal crystals today. Wu Licong felt bad and thus told him that much.

Him paying for Wu Licong meant he was wealthy. According to what he said, anyone could look for trouble with him, there was no reason at all.

Thinking about this, Ye Mo said goodbye and quickly left.

After walking for a few hundred meters Ye Mo knew he was being followed, but he didn't stop.

Moments later Ye Mo came to his room, but he was furious to see an abstruse immortal smashing the room's restrictions.

Chapter 1620: Challenging Three People

The immortal smashing the restriction saw Ye Mo come back and stopped. He felt it was strange – he should've long broken the door, but it had been this long and the restriction only just started to loosen.

Ye Mo looked coldly at this cultivator, he was abstruse immortal tertiary stage and looked very ferocious. There were some people hiding to the side, but no one dared to get close.

"Hehe, you're back, perfect," the abstruse immortal said without any worry.

If it was before Ye Mo would be furious and even ask for the low grade deck manager, but now he didn't think of that at all.

"You want to ask me to go to the battle arena right?" Ye Mo asked without any anger.

The abstruse immortal tertiary stage was dazed. He didn't come to Ye Mo for a fight, he just wanted to scam some immortal crystals and then take Ye Mo's female cultivator for a few days.

"You dare to fight me?" the abstruse immortal tertiary stage seemed to have heard of the funniest thing in the world.

"Wait..." before Ye Mo could answer, the two abstruse immortal cultivators following Ye Mo also came. One was abstruse immortal tertiary stage and one abstruse immortal middle stage.

“You have no right to challenge someone, I’ve challenged you already, I’m Han Bu.” It was the abstruse immortal tertiary stage who followed Ye Mo. He had an average build but his eyes were very fierce. He wasn’t planning to fight with Ye Mo, but seeing Ye Mo challenged by someone he would have no chance if that happened. So, he said it quickly.

“What about you?” Ye Mo looked plainly at the abstruse immortal middle stage cultivator.

The abstruse immortal middle stage smiled. “Of course I’m challenging you, but since brother Han has already done so I have no business.”

Seeing this, the ferocious abstruse immortal immediately realized what was going on. He quickly said, “I, Xu Buchen, came first! Are you going to go against the rules?”

Han Bu was an abstruse immortal tertiary stage just like him.

Ye Mo said with annoyance, “Shut up! I’ll take my martial sister from my room first and then we’ll go to the arena. I’ll challenge all three of you – and you, what’s your name?”

Hearing this, Han Bu and Xu Buchen were dazed. The abstruse immortal middle stage didn’t dare to believe his ears. A mere abstruse immortal primary stage dared to challenge two abstruse immortal tertiary stage and one abstruse immortal middle stage? The immortals watching this were all shocked too.

After dazing for a while, the abstruse immortal middle stage subconsciously answered, “I’m Xia Jingdao...”

But then he wondered why he answered.

Ye Mo ignored the two and opened the door’s restriction. He saw Zhen Bingyu sitting inside worriedly.

“What happened?” Zhen Bingyu saw Ye Mo come back and immediately breathed easy.

Ye Mo carried Zhen Bingyu on his back and took everything in the room and said, "A few blind people want to fight me. We'll go to the battle arena now, this isn't a place to stay for long."

After the talk with Wu Licong, Ye Mo had decided to leave the low grade decks. He believed he could get a place in the middle grade or even top grade deck. Unlike other immortals, he was an immortal pill great master and an immortal forgery great master.

"Why are you fighting?" Zhen Bingyu asked.

Ye Mo explained, "People can be killed here and they can smash your place. If your fist is bigger than others then you can go to the battle arena and kill people."

"There's such a thing?" Zhen Bingyu was shook.

Seeing the three still look at him dazedly, Ye Mo said coldly, "Lead the way, we'll go to the battle arena."

"You're going to challenge us three?" Xu Bucheng asked in disbelief. This wasn't some other place where if you agreed you could still trick them and run away. This was the immortal ship, if you agreed you would have to go.

"Do you want to fight here then? If you do, I can stay with you but I need to tell the low grade deck manager first."

"No, no, I don't dare to fight here." Xu Bucheng was lost for words.

"Yeah I thought so." Ye Mo carried Zhen Bingyu out and asked a golden immortal peak stage on the side, "Where is the battle arena?"

The golden immortal peak stage quickly pointed at a tunnel. "That way qian bei, there's a sign at the end of the passage."

“Thank you.” Ye Mo nodded and then looked back at the three. “I’ll be waiting for you three at the battle arena. If you don’t dare to come then I’ll report you to the manager.”

Seeing Ye Mo quickly disappear, the three looked at each other. They were here to force Ye Mo to give immortal crystals but now they were really fighting.

“He’s a mere abstruse immortal primary stage, can I be afraid of him? I’m taking that female immortal.” Xu Bucheng snarled and followed.

At the end of the tunnel there was indeed a sign for the battle arena.

After going past it, Ye Mo came to a huge square. There was a stage in the center.

Ye Mo looked at this stage speechlessly. This immortal ship was really eerie. The places people lived in were like bird cages, but this battle arena was insanely big.

“We’re going to middle grade deck after the battle?” Zhen Bingyu asked knowing that Ye Mo had no pressure killing them.

“Ye,s we must leave here, there’s no opportunity to survive in the low grade decks. You saw it, even if you stay in the room there will be people smashing your door. Such things won’t occur if you go to the middle grade or top grade decks. Plus, the ship often taxes immortal crystals. The few immortal crystals we have aren’t even enough for them,” Ye Mo said.

Zhen Bingyu nodded, her fate was tied with Ye Mo’s. If Ye Mo was killed she might as well commit suicide. She knew the cruelty of the immortal realm and knew there wouldn’t be another person on this ship who would treat her like Ye Mo.

When Ye Mo got here there was no one at the battle arena. When Ye Mo entered, immortals soon rushed in.

News of Ye Mo challenging the three quickly spread out. Wu Licong stood at one corner guiltily. Those people came to Ye Mo due to him.

What was more shocking was that Ye Mo was still carrying a woman on his back while fighting.

Did the two want to die together or could the woman help him?

While people were discussing, Ye Mo took out a chair and placed Zhen Bingyu on the chair and moved it not far below the stage.

Ye Mo knew that even if he carried Zhen Bingyu he could easily beat them but the rules here were determined by the managers. If the manager insisted that he fought with help, he would be punished.

Seeing Ye Mo put her down, the immortals breathed easy. They thought the abstruse immortal primary stage was really so powerful to dare to fight while carrying someone.

Many people saw Zhen Bingyu now, her immaculate beauty and perfect figure immediately caught the attention of many immortals. The days on this ship was definitely boring. If one had such a beautiful female immortal to accompany them it would be very good.

"I'll come," Xu Bucheng said first and went on the stage before the other two could talk.
