

Strongest As 1631

Chapter 1631: Melancholic Scene

Thud thud

Two heavy strikes landed on Ye Mo's chest and Ye Mo spat a mouthful of blood. Even his immortal nirvana body couldn't take a blow from the asteroids.

If he hadn't reached immortal nirvana body, he would've been smashed to pieces already.

But Ye Mo didn't pay the price for nothing, his hand grabbed the fleeing Void Flying Snow. A sense of coolness rose up to Ye Mo's head, making his heart feel serene.

"This is the Void Flying Snow?" Ye Mo looked at the Void Flying Snow with a sliver of blood. He was a bit excited. It was said that even great eternity immortals found it hard to catch these things, but he actually caught one. He paid a price, but to Ye Mo it was worth it.

The Void Flying Snow was shaped like a snow flower, it had a cool sensation making people feel peace and comfortable.

Zhen Bingyu looked at the blood covered Void Flying Snow but didn't feel happy, she felt worried. She began to fear, fear that she would owe Ye Mo too much. She even feared that one day she didn't persuade Ye Mo to cultivate her dao heart but instead she would accept Ye Mo's emotional dao.

The more she was dependant on Ye Mo, the more she didn't want this martial brother to go take risks or see him heavily injured. Was this the premonition of her liking him? She had never liked anyone before and didn't know if this was it.

Ye Mo immediately felt Zhen Bingyu shiver on his back, just when he didn't want to say to not worry about the Void Flying Snow, he heard a shocked voice.

"Void Flying Snow?"

A figure landed extremely quickly before Ye Mo, then this figure said with even more excitement, "It really is Void Flying Snow..."

Ye Mo saw who this person was, it was that great unity immortal manager of the lower deck. Seeing the fire in his eyes, Ye Mo knew this guy wanted his Void Flying Snow.

Ye Mo put the Void Flying Snow in a jade box, put it in his storage ring, and ate a Dual Spirit Pill before looking at this great unity immortal primary stage manager.

He seemed to be heavily injured. What Ye Mo didn't understand was why this great unity immortal manager came to the Realm Domain Void? Did he not have enough immortal crystals?

"It's you? I guessed you weren't ordinary and now it seems so indeed. You can even catch Void Flying Snow!" the great unity immortal said in shock and confusion.

An abstruse immortal primary stage carrying a heavily injured woman could catch Void Flying Snow. There definitely was a huge secret on him. He thought that Ye Mo would be coming down from the middle deck soon, but he never came back down again.

He asked the other people who got in with Ye Mo but no one knew who Ye Mo was. He was certain they didn't lie to him because he had pretty much taken all of their immortal crystals.

"He wants you to give the Void Flying Snow, we'll give it to him and go back," Zhen Bingyu whispered in Ye Mo's ear.

Zhen Bingyu knew how hard it was for Ye Mo to get this Void Flying Snow. He waited a few days using spirit sense and finally got it after being injured. But faced against a great unity immortal, Ye Mo probably was no match for him. This place didn't limit immortal essence. There were very small limits on spirit sense, but it didn't affect great unity immortal masters.

Ye Mo said calmly, "You're wrong, he won't ask me to hand over the Void Flying Snow."

“He suspects there are secrets on me so he wants our lives.”

The great unity immortal heard this and smiled. “That’s right, you’re smart. No wonder you can stay at the middle deck. But I’ve tortured your friends at the lower deck enough, in about one or two months they will be going to the refinery.”

Then the great unity immortal released his power.

A powerful killing intent loomed over Ye Mo, a huge hand reached out from the void and slowly patted against Ye Mo.

“I know you’re strong, you can kill abstruse immortal tertiary stage. If you were at my power level perhaps even I wouldn’t be a match for you. But today, you can stay here.”

Then his hand grew even bigger and Ye Mo couldn’t feel the flow of time under this palm.

What cultivation method was this?

Ye Mo was shook and hacked out with Zi Xu, Illusion Cloud Hua Mountain Strike.

The purple sword beam was a vibrant ray of purple in the void and hacked towards the great unity immortal palm.

Rumble

Mountains and rivers birthed from this great unity immortal’s palm, the palm turned into a lively world.

At this moment, Ye Mo even felt the calling of this world as though wanting him to go into this world and stay quiet.

“Martial brother let’s go in, it’s so beautiful there, I want to go in and rest,” Zhen Bingyu murmured.

Ye Mo shivered and instantly woke up by using the Three Birth Chant. This was an illusion, he definitely couldn't go in. His spirit sense blades severed the intense desire to go in and hacked onto the mountains and rivers without stopping.

However, Zi Xu was blocked by all the things in the world. Zi Xu hummed and Ye Mo received a backlash from this strike, he spat a mouthful of blood and flew out.

But at this moment, Ye Mo saw that the palm was the illusion while the painting of the world was real. It easily blocked Ye Mo's strike and shocked him instead.

"Hmm..."

The great unity immortal was greatly astonished seeing that Ye Mo wasn't mesmerized by his small world painting and instead hacked out with his magic artifact.

An ordinary abstruse immortal wouldn't be able to resist at all under it and would be sucked in. Then he would slowly deal with him.

Such a powerful magic artifact, Ye Mo ate another Dual Spirit Pill and condensed his spirit sense and immortal essence. This painting was very extraordinary.

He knew his world rock only had one chance to succeed. If this opponent knew the power of his world rock, he would be wary. Moments later, Ye Mo decided to ignore the painting and focus on this great unity immortal.

"Go in!" the great unity immortal roared as he inserted his immortal essence and spirit sense into the painting like crazy. The painting rose drastically, turning from a small village to a town with lots of people in it.

Fancy restaurants, brothels, immortal feasts...

There was a small bridge over a stream, an ancient road, and the setting sun. A scene of extreme beauty showed before his eyes. It was as though if he walked in, he would be able to experience that beauty.

Ye Mo sneered. He didn't fall for it the first time, so how could he fall for it now?

Seeing the confusion in Ye Mo's eyes and how Ye Mo even put away his magic artifact, the great unity immortal sneered. "A mere abstruse immortal primary stage could last so long, that's quite hard for you. I want to see how many secrets you have.

"Hurry up and go in!" the great unity immortal roared and the painting opened up completely.

Ye Mo walked towards the painting but his footsteps weren't fast. They were even a little slow. The great unity immortal frowned, he rarely saw people who wanted so slowly while being enchanted by his painting.

Just when he wanted to use more power to make Ye Mo go in faster, a black asteroid suddenly appeared. It seemed to be getting bigger and bigger, but also seemed as though it was only getting bigger because it was getting closer.

The great unity immortal frowned and wanted to slice apart that rock, but he found it turned a corner as though forced away by his power.

The great unity immortal nodded, it seemed his power rose again. But before he could focus his attention on the painting, that asteroid smashed back like lightning and was instantly before him.

Chapter 1632: There's No Way I Wouldn't Dare to Kill You

Not good, even an idiot would realise that there was something wrong with this huge black asteroid now, much less this great unity immortal.

Even though he was ambushed, the great unity immortal wasn't too worried. The magic artifact of a mere abstruse immortal primary stage couldn't do much to him.

Rumble

As soon as he released his shield, the black asteroid smashed against it.

Crack

A terrifying power came, but this definitely wasn't the power of an abstruse immortal primary stage – it seemed to be the power of nature. The force didn't slow or weaken due to hitting the shield, instead exploding with even more terrifying power.

The partially activated shield was instantly smashed to pieces. Before the great unity immortal could see clearly what the black rock was, it smashed into his chest.

Crack

The great unity immortal clearly heard the cracking of the bones in his body.

Multiple purple blood arrows shot out and were devoured by the endless void. The great unity immortal realized he completely underestimated Ye Mo's battle power. He didn't kill an abstruse immortal tertiary stage by luck, he was completely an absurd abstruse immortal that was no weaker than him.

What terrified him was Ye Mo's weighing stone magic artifact. He had never seen such a magic artifact. He had seen many small mountain magic artifacts, but none absurd as this black rock. Its weight was like a boundless mountain, but that power didn't seep out at all and was all focused on him.

If he didn't think of a way to run, this would be where he would die today.

The great unity immortal's spirit sense swept out and completely surrounded him. He was going to run away by burning his sea of consciousness. He didn't even care about his painting treasure.

"Can you get away?" Ye Mo sneered. Shadowless darted out from the side. He smashed out with the world rock again while expanding his spirit sense net to trap this great unity immortal.

“You dare to kill me? I’m the immortal ship manager, if you kill me your essence spirit will be burned...” Seeing this spirit sense net and Shadowless come at the same time, he knew Ye Mo had too many lethal blows. The fighting power he showed on the stage was only the tip of the iceberg. He suspected that Ye Mo was hiding his true strength, and this was indeed the case.

When the rock smashed down again he knew there was no point in resisting. Even if there wasn’t this world rock, he might not be able to beat this absurd abstruse immortal primary stage.

“I don’t dare to kill you...”

Ye Mo’s words made him rest easy a bit, and just when he was about to make promises, the world rock kept coming and smashed on his head. “No way!”

Endless darkness befell him. His body was squeezed into a meat pie and his essence spirit fell into Shadowless’ mouth. There was no use in regret, but he could only regret now. He regretted not setting up a plan to kill Ye Mo.

Ye Mo breathed easy and instantly took the storage ring of this great unity immortal and that floating painting.

Zhen Bingyu only came back to her senses after Ye Mo took the painting away. She immediately realized what had just happened and blushed, feeling a little awkward.

With her dao heart she wouldn’t lose her mind so quickly, but she had lost her immortal essence and was thinking about things before. If her mind wasn’t drifting, she wouldn’t lose her mind that quickly.

“Let’s quickly go.” Ye Mo packed up things and changed directions.

“Didn’t you just kill that manager?” Zhen Bingyu asked while admiring Ye Mo extremely.

Ye Mo was an abstruse immortal primary stage but he could kill a great unity immortal – this was just purely insane! At least she had never heard of anyone who was able to kill great unity immortals at abstruse immortal primary stage.

“That manager came over heavily injured. His injuries weren’t from fighting, they were probably due to a void storm or something more powerful. That manager attacked us immediately, wanting to kill us quickly; clearly there are other people,” Ye Mo spoke while Blue Moon sped up.

Zhen Bingyu immediately understood and said, “You’re saying his friend might come over?”

“Not might, definitely will. The manager has some status and would definitely be able to contact his friend, but I’m too weak. Otherwise, if I kill them both I can get rich,” Ye Mo said helplessly.

Just when Zhen Bingyu wanted to ask if there would be a problem with the storage ring, she saw an overwhelming whirlpool of asteroids arrive. That terrifying storm was enough to devour the entire void. Space collapsed before it even arrived. She was dazed – what person could stop such a terrifying whirlpool? Even immortal kings would be dead if they charged in.

“It’s an asteroid storm whirlpool...” Zhen Bingyu heard these four words and immediately felt Ye Mo pat her back. Then, she fell unconscious.

When the whirlpool was before Ye Mo, he just put away Blue Moon.

The terrifying suction power of the whirlpool was so powerful that not even immortal kings might be able to get away, much less these two.

He put away Blue Moon and went into the Golden Page World.

The five elements of the Golden Page World weren’t complete, so he wouldn’t be able to bring Zhen Bingyu in for more than five seconds.

Ye Mo could only hope that after these five seconds the storm would have passed. He knew that they came fast and left even faster. If the storm wasn't gone after five seconds, he would go in the Golden Page World again.

Indeed, he only lasted a few seconds with Zhen Bingyu inside before he was pushed out again.

Thud

Ye Mo just flew out and was struck by the remnant whirlpool that just passed.

Ye Mo breathed easy and cursed himself for being naïve. Facing such a terrifying asteroid whirlpool, he wouldn't have the chance of going in the Golden Page World after coming out. Luckily the five seconds saved him this time.

Ye Mo spun like a twirl in the void.

Just when Ye Mo was getting dizzy, the power finally slowed down. Ye Mo forcefully controlled himself and ate a pill before patting Zhen Bingyu awake.

"We're dead?" Zhen Bingyu said immediately and realized she asked the wrong question. They were still in the void.

"How did you escape?" Zhen Bingyu asked shakily.

Ye Mo said, "By luck. We'll stay here and catch the Void Flying Snow. I checked, the void location disk can still find the immortal ship. If it wasn't for Yu Liansang, we would be lost by now."

Zhen Bingyu nodded and said nothing. Ye Mo treated her well but that was because it was who he was. In the depths of his heart, he was still wary of her.

But she didn't feel uncomfortable, she felt what Ye Mo did was right. There was no relationship between them.

“Mhm.” Zhen Bingyu agreed.

Ye Mo released Blue Moon and immediately took out that great unity immortal storage ring. The great unity immortal had been collecting so many immortal crystals at the lower deck; even if he had to hand some over, he would definitely have a lot on him.

Chapter 1633: Seeking Help

Even though Ye Mo knew the great unity immortal manager’s storage ring would have a lot of immortal crystals, he was still shocked once he saw the amount.

The immortal crystals were stacked up like mountains inside. There were also large amounts of immortal spirit herbs and forgery materials.

He finally became wealthy now, Ye Mo breathed easy. There were at least 50 million immortal crystals in here, and there were also immortal crystals cards. They were like bank cards but for storing immortal crystals. But these immortal crystals storages were all at the top deck, Ye Mo didn’t dare to go there.

He didn’t know if these cards had identity attached to them, but even if they didn’t he didn’t dare to go take the crystals. If he suddenly took so many immortal crystals, even an idiot would suspect him.

After putting a part of the immortal crystals in his storage ring, Ye Mo tipped the rest of the things in the Golden Page World.

“I’m scared there will be marks on the storage ring, it’s best to throw it away,” Zhen Bingyu reminded.

“It’s fine.” Ye Mo waved his hand.

If someone could scan into his Golden Page World with spirit sense, he would’ve been long dead.

Seeing Ye Mo so confident, Zhen Bingyu didn't fuss over the matter. She saw Ye Mo take out that painting again and frowned. "What painting is this? It's so powerful!"

Ye Mo looked at it and shook his head. "It's not a simple thing, but it's not the original. It's probably a copy. I don't have time to look at it now."

Then, Ye Mo threw the painting into the Golden Page World.

In the next two months, Ye Mo and Zhen Bingyu stayed here capturing Void Flying Snow. Ye Mo had encountered Void Flying Snow three times, but he only caught one. Even though he was more proficient with his spirit sense net, he couldn't capture them all.

The Void Flying Snow didn't all fly at the same speed, some were slower but some were simply too fast.

When half a year's time was about to be up, Ye Mo brought Zhen Bingyu back to the ship quietly. He earned quite a bit during this half year, not only did he get two Void Flying Snow but he also got large sums of immortal crystals.

Ye Mo lacked a few immortal spirit herbs for concocting Flying Snow Pills, but the great unity immortal manager's storage ring solved this problem for him.

...

When Ye Mo and Zhen Bingyu went back to their pill tower, they didn't open up immediately. Ye Mo kept concocting pills, he had a lot of immortal crystals and wasn't in a rush to do business.

Cai Yi didn't lie indeed, in less than two weeks Zhen Bingyu felt different. She knew that after eating the Flying Snow Pill, her spirit roots stopped dissolving. As long as she found the Clear Mind Lotus, she would be able to recover.

A month later, the immortal ship shut the restriction for flying out and set off again. Ye Mo's pill tower opened business as well.

The first to come was Yu Liansang.

Yu Liansang immediately saluted with his fists. "Great master Ye, congratulations on making it back safely. Nearly 1000 people didn't come back this time."

Ye Mo was shook. So many immortals died with one stop, this was too shocking. But Ye Mo tried the danger in the void, if he didn't have the Golden Page World, he wouldn't be able to come back this time.

"As soon as I went out I knew that I couldn't stay in there for long with my power, so I came back quickly," Ye Mo quickly said.

Yu Liansang nodded. "It's good to be back, you don't even need to go to the Domain Realm Void with your capabilities."

Yu Liansang chatted with Ye Mo for a while and then spoke about some of the things that happened during this stop and then asked Ye Mo to help concoct a cauldron of pills before leaving.

After he left, Zhen Bingyu asked in shock, "So many died with one stop – if the ship stops a few more times, then how many more will die?"

"This isn't a good place," Ye Mo said heavily. Ye Mo felt this ship didn't take the lives of the immortals on board seriously at all. The only creed of this ship was collecting immortal crystals.

"Luckily the ship has some principle and doesn't rob immortal crystals from immortals. If we have enough immortal crystals we can last," Ye Mo comforted.

"Who do you think Peng Gandang and them are? They seem to be very wealthy. How do they have so many immortal crystals?" Zhen Bingyu was very confused.

Ye Mo waved his hand. "Martial sister Bingyu, we shouldn't discuss about them anymore. I'm certain they're not ordinary, but not matter what their plans are, it has nothing to do with us..."

Before Ye Mo finished he stopped talking, as moments later, Peng Gandang appeared before his shop.

“Great master Ye.” As soon as Peng Gandang came to the door, he saluted with his fists and greeted. Ever since Ye Mo rejected Han Changzhen’s offer he changed from ‘brother Ye’ to ‘great master Ye’.

“Brother Peng please sit.” Ye Mo quickly got up.

There was a sliver of guilt in Peng Gandang’s eyes. “Great master Ye, I said I was going to help you introduce some business from the top deck, but people don’t really trust me... I’m very sorry, if you owe immortal crystals, I can...”

Ye Mo quickly waved his hand. “No need, thank you brother Peng. Business isn’t so good here but I can manage to survive.”

After hesitating for a while, Peng Gandang suddenly gave a firm look. “Brother Ye, if one day you’re really in trouble, come find me at the top deck. Even if I lose face I will help you.”

Ye Mo laughed. “Thank you very much brother Peng, perhaps I will soon be coming to find you.”

At the same time, Ye Mo sneered on the inside, this Peng Gandang was speaking nonsense. If he really wanted to help him, it would be all too easy. Ye Mo didn’t believe his words. If he couldn’t find people to come to his pill tower, he wouldn’t say those words.

The main reason he came today was probably because he knew he went to the Realm Domain Void to see if he was willing to join them. This only meant one thing, they really needed a level four immortal pill great master like him.

Ye Mo didn’t want to know what they were doing nor join them. Just when it was awkward between the two, three abstruse immortals rushed in.

Seeing Ye Mo get up immediately, Peng Gandang said goodbye. He knew from Ye Mo’s face that he knew the three.

“Brother Lan, Xiang, martial sister Tan...” Ye Mo immediately knew why they came. Just looking at them, they were probably about to go to the refinery.

“Brother Ye, we didn’t expect that we wouldn’t be able to last even a year, sigh...” Lan Disheng saw Ye Mo had his own pill tower and sighed. The weakest among them was Ye Mo and he had a burden with him, yet he was doing the best.

Ye Mo knew from the great unity immortal that the three were in this state partly due to him.

“Brother Ye, if the great unity immortal manager didn’t die at the void we wouldn’t even be able to come find you. We had nearly 10 million immortal crystals altogether but they were all taken by that great unity immortal,” Xiang Qiling said. In Gong Hua Heaven he was an abstruse immortal and had some status, but on this ship he was nothing.

Seeing Lan Disheng about to say something, Ye Mo waved his hand. “We all come from the same place. I’ll lend some immortal crystals to you guys, when I have the capability it will be easy for you all to come to the middle deck.”

“Thank you brother Ye!” Lan Disheng and them quickly said. Immortal crystals were too precious on the ship, they would be hugely grateful if Ye Mo could lend them 100,000 immortal crystals.

Ye Mo took out three storage rings. “I’ll take out 15 million immortal crystals first, five million each.”

Chapter 1634: Dao Vindication Seed

The three glanced at each other, they just wanted to borrow some immortal crystals from Ye Mo but they didn’t even ask yet and Ye Mo gave them this much.

“This – brother Ye, this is too much,” Lan Disheng quickly said.

Ye Mo waved his hand with a smile. “It’s not much, I still have something I want you guys to help me with. Of course, it’s up to you.”

“Just say it brother Ye, as long as it’s something I can do I definitely won’t object,” Lan Disheng quickly said, the other two also said the same.

“Thank you.” Ye Mo saluted with his fists and said, “Since my magic artifact is too low grade, I need some top grade forgery materials. If anyone in the lower deck is selling these top grade materials, please keep an eye out for me.”

There were so many immortals in the lower deck, there was bound to be someone to have good things. But they just hide it very well. If they didn’t have immortal crystals, they would sell the best things they had, and he needed such materials.

As his power level kept increasing, Zi Xu couldn’t keep up anymore. He needed to find top grade materials to upgrade Zi Xu and at least make sure it could keep up with his world rock.

“No problem, don’t worry brother Ye. I will definitely look out for it. But what requirements do you have for the materials?” Lan Disheng said gratefully.

“The higher level they are, the better, the best would be if they’re beyond level four immortal material,” Ye Mo replied.

...

“Brother Lan, Ye Mo opened a pill tower here, he’s at least a level three immortal pill master right?” Tan Xiaolian asked.

“No, I think brother Ye is a level four immortal pill great master, did you not see his sign? He can concoct level four and below immortal pills.”

Lan Disheng said and sighed, “Any level four immortal pill great master would be very honoured in Gong Hua Heaven, but in this middle deck marketplace, there are quite a few of them. Brother Ye doesn’t have it easy here. He probably used the immortal crystals he saved up before to help us, I must help him find the high level materials he needs.”

“Me too,” Tan Xiaolian and Xiang Qilin said without hesitation.

...

After the three left, the pill tower returned to being calm. Other than Yu Liansang who came over to chat with Ye Mo a few times, Peng Gandang never appeared again.

Besides paying the exorbitant rent, he still had some extra immortal crystals left each month. Although there were always immortals asking Ye Mo to concoct level five immortal pills, Ye Mo rejected them all.

After Zhen Bingyu’s spirit roots stopped dissolving, she started cultivating again and thus didn’t think too much.

But Ye Mo could only study formations each day, he didn’t dare to go into the Golden Page World and thus could only do this in this boring environment.

Time flew by quickly. Another year passed like this, during this time Lan Disheng came to Ye Mo twice and brought him a level four immortal material Extreme Fire Wood and a level five immortal material wind lightning metal. But neither of them helped Ye Mo much.

The things needed for Zi Xu’s upgrade were very specific. If they weren’t up to par, Ye Mo would rather not upgrade Zi Xu.

Today, Ye Mo was studying level three immortal formations when Peng Gandang appeared in the pill tower again. Unlike before, he seemed very troubled.

“Brother Peng.” Ye Mo was as hospitable as ever.

But Peng Gandang didn’t even sit down and looked at Ye Mo for a while before saluting with his fists. “Brother Ye, the immortal ship is going to stop in the void for half a year again, I’m going to the void...”

Just when Ye Mo thought Peng Gandang was going to invite him to go, Peng Gandang stared at Ye Mo seriously and said, "Brother Ye, I know your future will be limitless. You helped me and I wanted to help you some, but instead I've brought trouble to you. It's a pity this isn't a heaven domain, there's not much I can do..."

Ye Mo frowned and said, "Brother Peng, just be straightforward. To be able to stay here, you helped me quite a lot."

"In that case I will." Then Peng Gandang grabbed at his eye and pulled it out. Ye Mo was shocked but didn't stop him. Peng Gandang dug out the eye that was damaged.

From it, Peng Gandang dug out an extremely bright gemstone. Then, he ate a pill, and with the use of immortal essence, his eye quickly recovered.

"My eye can be cured but I don't want to cure it. That's because I damaged it myself, the reason is this." Peng Gandang pointed at the peanut sized gemstone as he spoke.

Ye Mo stared at the gemstone and asked in confusion, "What is this?"

Peng Gandang asked, "Brother Ye, you're an immortal pill great master but do you know what the extreme of cultivation at the immortal realm is?"

"Isn't it immortal emperor?" Ye Mo said.

Peng Gandang shook his head. "No, immortal emperor isn't the extreme. After immortal emperor, dao vindication is the extreme. Only immortals who have vindicated dao are at the true pinnacle of the immortal realm. Since ancient times, there were many immortal emperors and many talented ones. Over the countless years, there was never a lack of prodigies, but it's extremely hard to hear about dao vindicators – do you know why?"

Ye Mo shook his head. "I don't, please tell me brother Peng."

Peng Gandang said seriously, "Because the world is incomplete. If an immortal emperor wants to vindicate dao, he needs a primordial chaos seed. These seeds are born with the universe. There many only be at most nine dao vindicator immortal emperors.

Each dao vindicator's power dominates the universe. He can destroy the entire 33 heavens with a flip of his hand. So, to all immortals, primordial chaos seeds are the most precious thing. When a dao vindicator immortal emperor dies, the primordial chaos seed won't disappear, it hides itself in the universe waiting for the fated person."

This was the first time Ye Mo heard this. He was certain most immortals didn't even know about this. He didn't know why Peng Gandang told him this, was that peanut sized thing a primordial chaos seed?

Seeing Ye Mo's surprised look, Peng Gandang set up a few restrictions and said heavily, "You guessed it, inside this small gemstone is a primordial chaos seed, but the gemstone has to be opened. It can't be opened now though or the chaos chi would spill and no one would be able to save us."

He then looked at Ye Mo and saw Ye Mo just had a frown but wasn't lured by the seed. He immediately had an approving look, he thought rightly of Ye Mo indeed. This abstruse immortal primary stage was no ordinary person.

"Now I will give you this primordial chaos seed," Peng Gandang said.

Ye Mo didn't even reach out his hand to take it. He never believed money would fall from the sky and land on his head.

Peng Gandang smiled bitterly. "Brother Ye, do you know how many people in the 33 heavens would want to fight over it if word gets out?"

Ye Mo said calmly, "I don't know, but I know that if it really is a primordial chaos seed, something that can let immortal emperor vindicate dao, it won't be mine to use. Plus, this seed is yours."

Peng Gandang knew Ye Mo's suspicion and sighed. "You must be thinking why I don't keep it for myself or give it to Han Changzhen or holy nun right? Perhaps you're even doubting how I even got this."

Ye Mo said nothing but he was indeed thinking about these two things.

“It’s because I’m the descendant of the ancient grand emperor Peng Xu. The reason I’m leaving this seed to you is because I have no other choice. I’m certain I won’t be coming back after I go out this time. And I know that afterwards, Han Changzhen will come looking for you. If you don’t dare to accept it then pretend I said nothing.” There was a sad look in Peng Gandang’s eyes.

Then he stared at Ye Mo. “If you’re willing to trust me and willing to accept it, then you must agree to two of my conditions.”

Chapter 1635: Peng Gandang’s Entreaty

Finally, a sliver of fire appeared in Ye Mo’s eyes as his eyes glued to the peanut shaped gemstone.

Peng Gandang acted as though he didn’t see the light in Ye Mo’s eyes and said calmly, “The first condition is that one day if you can vindicate dao, please check for me who harmed Peng Shu grand emperor. If possible, please get revenge for him.”

Seeing Ye Mo still stare at his primordial chaos seed, Peng Gandang continued, “The second condition...”

Peng Gandang shook his head. “Never mind the second condition, as long as you can get revenge for grand emperor Peng Shu, even if I can’t reincarnate, I’d be willing...”

Ye Mo sighed and moved his gaze away from the dao vindication seed and asked Peng Gandang, “Brother Peng, this thing is so precious, I’m afraid...”

“Brother Ye, you know I have no place to go now. I can’t tell you the reason as it involves the young master. I should’ve told you about Han Changzhen but I swore to never betray young master. If it wasn’t that I know I probably won’t be coming back after this, I wouldn’t be able to make this decision. I believe young master Changzhen knows I have a rare treasure on me, but he just doesn’t know it’s a primordial chaos seed.” There was more sadness in Peng Gandang’s eyes.

"All my close friends on this ship belong to young master Changzhen, but I look favourably at you. You can kill abstruse immortal tertiary stage as abstruse immortal primary stage and your pill concoction skills are definitely beyond level four immortal pill great master. Plus you must be very young, so I believe you can definitely vindicate dao."

Ye Mo immediately realized that Peng Gandang investigated him, but he didn't mind. With Peng Gandang's capabilities and power, it would be strange if he didn't investigate him.

Seeing Peng Gandang wait for his answer, Ye Mo nodded and took out a jade box and opened it in his hands and placed it in front of Peng Gandang. There was more fire in his eyes. "Brother Peng, such worldly treasure and you're willing to give it to me. I definitely won't go back on your wishes. Don't worry brother Peng, if I can vindicate dao I will definitely investigate it clearly."

There was approval in Peng Gandang's eyes again. "I know you're a responsible person. This seed is yours, I believe you can vindicate dao successfully and investigate what happened to emperor Peng."

Then Peng Gandang carefully placed the seed into the jade box in Ye Mo's hands. Then he said, "I'm going to the void, take care..."

Peng Gandang walked to the door and turned back. "Young master Changzhen's father was once a heaven lord. He has big things to do here.... Just be careful with him and his people."

Then, Peng Gandang hurried and left the pill tower.

Ye Mo closed the jade box but his face wasn't good. The fire in his eyes disappeared cleanly.

"I heard it all, is there really primordial chaos dao vindication seed?" Zhen Bingyu asked in confusion.

Ye Mo didn't answer and just closed the doors and set up restrictions before taking Zhen Bingyu back to the room. "If I'm not wrong, the dao vindication seeds probably exist."

Hearing this, Zhen Bingyu looked a little envious and sighed, "This person is too honest, he's even willing to take out such a seed."

“Do you really believe it?” Ye Mo placed a few more restrictions on the jade box and then took out an even bigger jade box.

Seeing this, Zhen Bingyu asked in shock, “Do you suspect his words are fake? But when he spoke I saw it too, how could it be fake? Even his approval of you is genuine.”

Ye Mo waved his hand. “Martial sister Bingyu, we’re rather good friends right?”

“Of course.” Zhen Bingyu nodded. “I don’t have friends, but if I must name one it’s you.”

“Okay.” Ye Mo continued, “If you have a dao vindication seed and you’re going to do something extremely dangerous with a 90% chance you will die, would you give the dao vindication seed to me?”

“Yes,” Zhen Bingyu said without hesitation.

Ye Mo rubbed his hair helplessly. “Okay, I’ll put it another way. If it wasn’t me, but someone you know, for example... Nianmei or Hai Chuanwu, would you give the seed to him?”

“No,” Zhen Bingyu said without hesitation.

Ye Mo clapped his hands. “That’s right, if it’s really a seed for dao vindication, it’s immeasurably precious. How can Peng Gandang give it to me so easily? Plus, he hasn’t even died yet.”

“Huh...” Zhen Bingyu looked at the jade box and asked, “You’re saying...”

Ye Mo nodded seriously. “If I guessed right, there’s definitely a problem with this seed. Our relationship isn’t that good yet. I don’t know the things between him and Han Changzhen, but they’re definitely not simple. When he came to ask for pill concoction, the desperation came from the bottom of his heart.”

“But I saw that his approving tone of you was genuine,” Zhen Bingyu said and then seemed to have thought of something. “Do you think that Peng Gandang already found out I was listening and watching at the stairs and put on a show for me?”

Ye Mo said proudly, “He’s not that powerful yet, I’ve changed the formation of this small tower. People can only look down, not up. He doesn’t know that you saw this. If he’s acting, then he would only be acting to fool me.”

“Then what is this?” Zhen Bingyu looked at the jade box with concern.

Ye Mo shook his head. “I don’t know, but I guess it’s probably not some dao vindication seed. Even if it’s the real thing, it won’t be for my dao vindication. Which cultivator would give up this fortune if he isn’t dead yet?”

“You’re afraid of possession so you didn’t take it with your hands and used the jade box instead?” Zhen Bingyu asked.

“That’s right,” Ye Mo said.

Ye Mo didn’t even want to risk taking the seed into his Golden Page World.

What if there was really a powerful being inside the seed, what would he do? Perhaps after possessing him, he would take his Golden Page World. With his pill concoction abilities, who knew if this seed was for searching his secrets?

“Then what do we do? Should we throw this away?” Zhen Bingyu looked worried.

Ye Mo set up tens more restrictions on the jade box and then took out a storage ring and placed it inside. “I don’t have a choice now, I can’t throw it away. Even if I do, it has to be in the void – and if we do, we won’t be able to come back to the ship.”

“Then we can stay in the void,” Zhen Bingyu blurted out. She felt that even if Ye Mo stayed in the void he might not die.

But then she realized that it was impractical. Ye Mo would be able to protect them for a year or two, but a person's immortal essence and spirit sense were limited.

What she didn't expect was that Ye Mo nodded and said, "Perhaps your idea is good. We can only stay in the void. These bastards, I helped them and yet they came to scheme against me!"

Chapter 1636: Two Hundred Million

Zhen Bingyu looked helplessly at Ye Mo. "There's no point getting angry here. If we really don't have a place to go we can go to the void."

Just when Ye Mo wanted to talk, he felt the restriction on his door activate.

"It's Han Changzhen," Zhen Bingyu said.

"I'll go open the restriction." Ye Mo quickly opened the restriction and came down, seeing Han Changzhen standing worriedly at the door.

"Brother Han quickly come in..." Ye Mo looked happy and surprised.

Han Changzhen clearly didn't have the mood to go in and said, "Great master Ye, sorry for interrupting your solitary cultivation. Did martial brother Peng come here?"

"Martial brother Peng Gandang?" Ye Mo repeated and immediately said, "He came once saying he was going to the void and wanted to bid farewell."

There was surprise and joy in Han Changzhen's eyes. "Did he leave something or say something?"

Ye Mo shook his head. "No, brother Peng said if I don't have enough immortal crystals I can borrow some from brother Han..."

“Of course, you can borrow however many immortal crystals you want from me. I don’t have much, but I have some immortal crystals. You’re friends with brother Peng and you saved my life, a few immortal crystals are worth nothing. I can finally breathe easy now, I thought brother Peng had some misunderstanding towards me and left a message here and left. Haha, it seems I’ve thought too much,” Han Changzhen said without hesitation. He knew Ye Mo wouldn’t actually borrow immortal crystals from him.

Ye Mo also looked happy. “I really don’t have enough immortal crystals, thank you brother Han!”

Han Changzhen was dazed. Ye Mo rejected going to the top deck just because he didn’t want to owe him, so now why did he ask for a few immortal crystals?

Ye Mo said again, “I want to go buy some immortal spirit herb at the top deck. I thought I could save some here but it’s been so long and I can just barely stay here.”

At this moment Han Changzhen’s communication bead suddenly vibrated. He looked at it and frowned. Then he took out an immortal crystal card and gave it to Ye Mo. “Use the immortal crystals in here. You can give it back to me if you don’t use them all. If it’s not enough then come to me again. I need to go now.” Then he stuffed the card in Ye Mo’s hands and quickly left.

Ye Mo compared it to the other two immortal crystals card he had in his pocket and compared the three. They were all the same, unnamed.

“Why did you ask for his immortal crystals card?” Zhen Bingyu asked in confusion.

Ye Mo said, “We’re about to leave the immortal ship, we can’t be lacking immortal crystals. We’ll go up now, gather some immortal spirit herbs, and quickly leave. This isn’t a place to stay, staying here is just waiting for death.”

Zhen Bingyu understood Ye Mo and climbed on his back. If Ye Mo’s guess was right, then it was indeed too dangerous for them to stay here.

Ye Mo shut the pill tower and hung up a solitary cultivation sign and quickly went towards the top deck.

...

After taking the immortal crystals, Ye Mo arrived at the top deck. He now realized why it was called the top deck.

The dense immortal spirit chi was on par with some big sects. The residential homes were all like big estates, extremely luxurious. Not only was there a marketplace, but there were all sorts of restaurants and merchant towers on the streets. This was an immortal city, a very prosperous immortal city.

There were quite a lot of immortals on the streets who came and went. Ye Mo scanned with his spirit sense and saw there were more than 100,000 immortals here.

The business at the restaurants was great, showing that all the immortals living here were extremely wealthy.

Ye Mo didn't intend to walk around here at all. He brought Zhen Bingyu to the marketplace extremely quickly. There were all sorts of immortal spirit herbs and materials. He would need a lot of immortal spirit herbs if he was going into the void.

Just when Ye Mo was planning to buy immortal spirit herbs en masse with Han Changzhen's card, he saw that one big merchant tower was surrounded by immortals.

"Let's go see." Ye Mo carried Zhen Bingyu into the merchant tower. He usually wouldn't come to see what the commotion was about, but now that he was planning to run he didn't care.

There was a big hall filled with all sorts of immortals, including great eternity immortal.

At the stage, a great extreme immortal was holding a jade box and everyone's eyes were glued to it.

"How many immortal crystals? Name a price. It's not good having more and more people come," someone called out impatiently.

Ye Mo squeezed over to an abstruse immortal tertiary stage and saluted with his fists. “Friend, may I ask what’s inside the jade box?”

The abstruse immortal stared at Zhen Bingyu on Ye Mo’s back in astonishment before saying, “It’s Truth Abyssal Mud...”

What?”

Ye Mo was dazed. This was a priceless treasure!

It was said that in order to make a small world, one needed lots of top grade Truth Abyssal Mud.

He didn’t know if that was true but, Truth Abyssal Mud was greatly useful to him. It could be used to forge immortal spirit herb gardens and a small survival space like a small world. It was said that the immortal spirit herb garden made with Truth Abyssal Mud could even be put inside storage rings and not affect the immortal spirit herb growth.

No wonder so many people were here. But Ye Mo didn’t get it – why was someone selling it?

“Everyone calm down, this Truth Abyssal Mud’s level isn’t high. Everyone knows the price I just bought it for, it was 80 million immortal crystals...”

Now Ye Mo realized why it was being sold, people saw it when it was brought in.

Even though it’s level wasn’t high, it shouldn’t be sold for only 80 million. the manger obviously earned big. Ye Mo knew a bad quality Truth Abyssal Mud was around 200 million. Although immortal spirit herbs and pills were more expensive in the ship than outside, forgery materials were cheaper.

“Okay, then use 80 million as the starting price and sell it to whoever can give you the most. Let’s do things quickly,” one great eternity immortal said impatiently.

Everyone knew what the great eternity immortal was thinking. If the immortal kings of this ship learned about it, there wouldn't be a share left for them.

"Okay, the starting price is 80 million, everyone start bidding," The manager said helplessly. He knew if he didn't sell it quickly his shop would explode.

"One hundred million!" someone bid immediately.

Ye Mo took out an immortal crystals card and looked at the abstruse immortal tertiary stage. "I borrowed an immortal crystals card from my friend, how do I check the immortal crystals inside?"

The abstruse immortal tertiary stage looked at Ye Mo in confusion. "Scan your spirit sense in and you will know."

It was that simple? Ye Mo was dazed and scanned his spirit sense inside the card. There were actually 100 million immortal crystals. It was quite a lot, but not enough for him to buy this mud.

"Do you want this mud?" Zhen Bingyu asked quietly.

Before Ye Mo could answer, there was the sound of laughter. One great unity immortal laughed at Zhen Bingyu and said, "I want this mud too, but I don't have enough immortal crystals."

Ye Mo didn't mind and scanned his spirit sense into the two immortal crystals cards of the dead manager.

He thought there wouldn't be more than 100 million crystals, but when he saw that both cards contained 100 million, he was dazed. A lower deck manager was this wealthy? Thinking about all the years the manager robbed immortal crystals, it didn't seem that surprising now.

This way, he had 300 million immortal crystals. He might really be able to buy it.

In a short time, the mud was priced at 160 million. but not many people were bidding now. This mud would be priced at most around 200 million.

“200 million!”

Everyone gathered their gaze on Ye Mo. All the immortals here were wealthy, but not everyone could easily take out 200 million.

Chapter 1637: Immortal Ship Incident

What shook everyone was that it was only an abstruse immortal primary stage bidding. He was probably the weakest in the hall and he was carrying a heavily injured female immortal on his back. She was an astonishing beauty. If he was willing to sell her, he might be able to make a few million.

But no one bid for now. This was first because the price was extremely high, and second was many people were thinking that if Ye Mo couldn't take out that many immortal crystals he would he sell the woman on his back.

Seeing it was only an abstruse immortal primary stage bidding, the manager's face sunk. “Do you know what price you need to pay if you can't take out 200 million?”

Ye Mo didn't seem to hear this and asked calmly, “Are you going to sell it or not? If you won't, then why care about how much I bid?”

“Haha, you want to act tough in front of me? You're too young! Even if someone adds 200 million more, it's nothing to me. I'll sell it to you today, give me the immortal crystals.” After waiting for a while and seeing no one bid, the manager smirked uncomfortably. He knew no one would add 200 million more, but if someone really did he would kick Ye Mo to the side without hesitation.

In fact he was very annoyed. Regardless whether Ye Mo had 200 million or not, he didn't like Ye Mo's bid. If the price was increased by 1 million each time perhaps this mud would sell for more than 200 million, but Ye Mo bid 200 million straight up, killing a lot of people's desire to bid.

Then he scanned around and asked, "Anyone else going to bid?"

No one else bid and they all looked at Ye Mo.

Ye Mo took out two immortal crystals card and passed it to the manager. "There are 200 million crystals inside, give the thing to me."

Before the manager handed the jade box to him, he grabbed it in his hand and opened the box, checking with his spirit sense.

The manager scanned his spirit sense in the cards and found there were indeed 200 million. He nodded calmly. "That's right, there are indeed 200 million. But I need to tell you, it's not easy to earn some immortal crystals. It's not easy for you to cultivate to abstruse immortal primary stage."

How could Ye Mo not know what the manager meant, but he ignored him and carried Zhen Bingyu away from this hall.

The manager meant that with his power, he wouldn't be able to keep the Truth Abyssal Mud. Getting it is only harmful to him but the manager didn't say that out of goodwill. He was reminding the immortals nearby that he was only an abstruse immortal primary stage.

Seeing Ye Mo's figure disappear, the great unity immortal who laughed at him said in shock, "Who is this person, he really bought the Truth Abyssal Mud?"

No one answered, a few great extreme immortal and great eternity immortals were following Ye Mo already. They couldn't attack on the ship, but they could force Ye Mo to hand it over.

Before Ye Mo even left the marketplace, he knew he was being followed. He quickly pulled over a great unity immortal and said, "I want to visit an immortal king of the special deck, may I ask where the immortal tower for getting immortal crystals are?"

The great unity immortal was scared by Ye Mo's words, visit an immortal king? He thought Ye Mo was asking where the immortal king lived but then Ye Mo asked instead where to get immortal crystals.

He quickly pointed outside the marketplace and said, "Go out of the market, and turn left, the sixth shop is the place for immortal crystals storage."

Then he quickly left.

As soon as he turned, he realized – if he even knew where the immortal king lived, how could he not know where to get immortal crystals? But at this moment Ye Mo had already left the marketplace.

Those few immortals following Ye Mo also heard his words. A few of them frowned and stopped following Ye Mo. They thought if Ye Mo must have been sent over by some immortal king, or else how would he have this many immortal crystals?

But a few immortals still followed behind Ye Mo, only when he truly went in the special deck would they believe Ye Mo.

Of course Ye Mo wasn't going into the special deck, he just said that to buy himself some extra time. Even if he was to go into the void, he would need to get some immortal crystals or else how was he to cultivate?

Ye Mo immediately went to the tower as quickly as possible.

"Take out all the immortal crystals in this card and place them in this storage ring." Ye Mo gave the card and a storage ring to the manager inside.

The manager looked at the card and the storage ring before looking at Ye Mo in confusion. "You're sure you want to take it all out?"

"Yes, I came from middle deck and I want to buy some pills at the top deck," Ye Mo said.

The manager asked no more, it didn't matter where Ye Mo's card came from. Plus, some immortal pills indeed needed immortal crystals to be paid for, not the card.

Ten seconds later, Ye Mo walked out of the tower with a storage ring filled with 100 million immortal crystals and quickly walked to the middle deck entrance.

After Ye Mo, two great eternity immortals and one great extreme immortal came in here.

“What did that abstruse immortal come do here?” the great eternity immortal asked.

The manager didn’t want to talk, but seeing it was a great eternity immortal he quickly got up and said, “He took out one hundred million immortal crystals...”

The great eternity immortal frowned and thought for a while before leaving the place and quickly heading towards the middle deck entrance.

Seeing the two great eternity immortals go down, the great extreme immortal followed without hesitation.

But Ye Mo was too fast, when the two great eternity immortals went into the middle deck, Ye Mo was long gone. The two great eternity immortals weren’t worried. Even though their spirit sense was limited, it was too easy for them to find someone here.

In a short time, the two heard that an abstruse immortal primary stage who carried a woman lived in the market and had a stall called Mo Yue Pill Tower.

The two great eternity immortal came to the pill tower as quickly as possible but saw the sign ‘Solitary cultivation, do not disturb’.

“Open the restriction immediately, if he doesn’t then we’ll break in.” One great eternity immortal sneered.

As soon as his voice sounded, he heard the sound of sirens.

The two great eternity immortal looked at each other, one of them said, "We'll come back later, something probably happened to the immortal ship. This abstruse immortal won't be able to get away."

"Okay."

The two left quickly.

...

The highest status people lived at the special deck. It was also the place of the three immortal kings.

Only the top grade auctions and feasts would be held here.

In a huge garden in the special deck, a middle aged man stood and behind him was a red clothed female immortal.

"You said Truth Abyssal Mud appeared in the market at the top deck?" The middle aged man turned around and frowned.

"Yes, master, it's indeed Truth Abyssal Mud. It's level isn't very high but it's not the worst." The female immortal bowed.

"Then where is it?" the middle aged man asked calmly. His voice seemed to come from the void.

"There were about a few hundred there, but it was eventually bought by an abstruse immortal primary stage for 200 million immortal crystals." Then she passed up a crystal ball and said, "Master, it's all recorded in here."

The middle aged man nodded and scanned his spirit sense in. Then he said in shock, "Such a beautiful goddess..."

After a moment, he put down the crystal and said, “Bring that abstruse immortal here, I need to ask him things. Bring the goddess he carries on his back too, I’ll see if I can cure her. Also investigate who he is and what he did on the ship – where did he get his immortal crystals from?”

“Yes master.” The female immortal left.

At this moment the ship suddenly shook. The middle aged man’s face changed and he immediately asked, “What happened?”

The heaven domain ship wouldn’t shake even if an extremely large asteroid smashed it.

“Not good, there is a flame beast tide. They charged up while the ship was stopped and the restrictions were open. They’ve broken into multiple restrictions, the restrictions can’t be shut now.” One great extreme immortal rushed over.

“Immediately notify the two other immortal kings and organize people to stop this beast tide while repairing the restrictions.” the middle aged man commanded and dashed out of the garden.

Chapter 1638: Please Allow Me to Fight

Of course Ye Mo wouldn’t be dumb enough to be in solitary cultivation. He had come to the exit to the void, but he didn’t expect his luck to be this bad.

The exit at the middle deck was in a mess. There was blood everywhere, with immortal corpses scattered across the balcony. Thousands of immortals had released their magic artifacts guarding the place.

Not far ahead were countless immortal spirit beasts covered in black flames.

Even though they hadn’t attacked yet, Ye Mo felt the waves of terrifying temperature.

“Everyone, don’t worry. As long as we defend one more wave of attacks, the immortal king will repair the top deck restriction and come to the middle deck to help us!” one great eternity immortal peak stage commanded.

With this, some of the worried immortals calmed down. More and more immortals came.

Ye Mo’s heart sunk, other people hoped the restriction would be repaired but he didn’t. He not only used the great unity immortal manager’s immortal crystals card but also bought a Truth Abyssal Mud.

Even if he could ignore these two things, he couldn’t ignore the immortal king coming. Plus, there was that Han Changzhen keeping his eyes on him. This guy was definitely no good person, neither was that seed Peng Gandang gave him any good.

He had to escape this immortal ship before the immortal king came. Even if he died in the void it was better than staying on this immortal ship.

“What are you doing here carrying a heavily injured person? Hurry up and retreat. These are void flame beasts, with your power you will die for sure if you see a high level one,” a great unity immortal reproached.

Ye Mo knew this great unity immortal said this out of goodwill.

With this, all the immortals nearby looked at Ye Mo, not understanding what he was doing. Even the head great eternity immortal looked over.

Ye Mo saw that great eternity immortal was about to speak and quickly spoke first, “The void flame beasts attacked our restriction and caused so many immortals to die. I’m also a member of the ship, how can I hide in the back? Plus, I have a combined attack with my martial sister, even if I can only kill one, I can relieve some pressure for everyone. If I don’t help because my power is low, more people will use this excuse. If the immortal ship is alive, I’m alive. If the immortal ship dies, I will still die. Masters, please allow me to fight.”

Ye Mo spoke firmly and adamantly, with killing intent in his eyes.

The great eternity immortal nodded. "Well done, one should have such thoughts in the ship, stand behind me later."

Then he said to the other immortals, "I hope everyone can be like this brother and not fear the beasts due to their power. We still have immortal kings on our side, how can we fear them? Plus we've encountered these beasts before and won."

Ye Mo stood behind the great eternity immortal while cursing these beasts.

Why did they have to come now when he was about to run? On top of that, they still didn't attack, what was the point of having a standoff?

"The top deck restrictions are about to be repaired, everyone hold on. Two immortal kings will be coming over soon!" one great extreme immortal rushed over and yelled.

Ye Mo was getting even more desperate, Zhen Bingyu could feel Ye Mo's mood. Just when she wanted to speak, the black mass of immortal spirit beasts charged over.

With this many coming over, the searing temperature made many low level immortals retreat. Ye Mo retreated too. He retreated further from the great eternity immortal.

In the roar of the immortal spirit beasts, many immortals released their magic artifacts to attack. Explosions sounded everywhere, magic artifacts and black flames clashed.

In the intense battle, many immortal spirit beasts were killed, falling to the balcony. There were also many immortals killed and thrown into the void or burned to death.

Abstruse immortals wouldn't even be able to attack nearby, they would have to go further away and release magic artifacts to harass these immortal spirit beasts.

One person was of the exception, that was Ye Mo. A purple flame rose around him surrounding him and Zhen Bingyu. The flames of the void flame beasts couldn't burn inside. But everyone's attention was on

the immortal spirit beasts, and although a few people saw Ye Mo's flame, they knew now wasn't the time to ask.

"Yi Hong immortal king master is here."

One immortal called out in joy. Ye Mo knew he couldn't wait anymore or he wouldn't have the chance again.

His purple flame barrier expanded and Ye Mo hacked out.

But this strike didn't hit any immortal spirit beast and Ye Mo was instead swept away by the dark flames into the tide.

"Huh..." One great unity immortal was shocked at Ye Mo's power but suddenly he saw Ye Mo get easily swept away.

His power level was too low. What a pity, that abstruse immortal was brave and hot blooded but he was only abstruse immortal primary stage.

Only this great unity immortal noticed Ye Mo, the other immortals were all focused on their enemies.

"Don't worry everyone, I will repair the restrictions!" A deep heavy voice sounded and all the immortals felt relaxed.

It was an immortal king, but he didn't repair the restrictions immediately. He charged to the front and waved out hundreds of beams while releasing his huge force.

Howls of pain sounded and the first few hundred void flame beasts were swept by the beams and fell to the balcony. Other flame beasts couldn't even stand up in front of the immortal king's power. They all retreated. This immortal king didn't stop there, he shout out a few hundred more beams into the tide.

The densely clustered void flame beast tide became scattered with just a few attacks of the immortal king. If they didn't retreat, more would die.

Seeing this force, the immortals of the middle deck took in a cold breath. Even a few great extreme immortals would take half a day to kill one, but when an immortal king came, he slaughtered countless with the wave of a hand.

If it was some immortal monarch or immortal emperor then how powerful would they be? Immediately, all the immortals showed respect and fear towards Yi Hong immortal king.

The flame beasts retreated knowing there was a powerful immortal here. This immortal king took out formation flags and repaired the broken restriction in a short time.

"Pity about that abstruse immortal carrying his dao partner. If he waited another moment he wouldn't need to die." That great unity immortal sighed.

"You guys did very well, not many restrictions were destroyed." That immortal king nodded to that great eternity immortal.

The great eternity immortal quickly bowed. "It's all because everyone worked together, one abstruse immortal primary stage even took his injured dao partner and charged at the front, saying if the immortal ship is here he is alive, if the immortal ship dies he dies. Even an abstruse immortal knows such logic, how can we great immortals not know..."

"Oh, there's such a hot blooded and loyal person? Where is he? Let me see." The immortal king was also shook. It was too hard for such a person to exist in the immortal realm.

The great eternity immortal quickly turned around but he didn't see Ye Mo. Just when he wanted to ask the great unity immortal said, "Master, the abstruse immortal charged to the front wanting to kill a flame beast, but his power was too low and he was swept into the void."

"It's a pity." The immortal king nodded and just when he wanted to say something another figure landed next to him.

“Brother Yi Hong, you’re already here.” That figure saluted with his fists. It was an ordinary looking middle-aged man.

The immortals who knew this man quickly greeted, “Greet immortal king Fei Ming master...”

“Haha, it’s brother Fei Ming, you’re not slow.” Yi Hong quickly saluted with his fists too.

Chapter 1639: Fury of the Immortal King

“There were a lot of flame beasts this time, but they were mostly level six and below. Of course, the middle deck defended really well and didn’t let a single beast enter. I just heard here that an abstruse immortal primary stage asked to go fight in order to stop the flame beasts. He even carried his dao partner and charged at the front. We need to reward such people.” Yi Hong nodded.

Fei Ming was touched. “There’s such a hot blooded immortal? He should be rewarded heavily, where is this person? Not only do we need to reward this person with cultivation methods and cultivation resources, we also need to give him a place to live at the top deck as a role model. We should all reward heavily those who proactively attacked the beasts.”

Yi Hong nodded and said in pity, “But this immortal was swept away by the flame beasts...”

Then Yi Hong asked that great eternity immortal, “What was that abstruse immortal and his dao partner called?”

The great eternity immortal already asked around and knew who Ye Mo was. He immediately answered, “Immortal king master, that abstruse immortal is called Ye Mo, his dao partner was injured and he had a pill tower at the middle deck market, stall number 560. He’s also a level four immortal pill great master.”

“Oh...” Yi Hong was touched too. Level four immortal pill great masters were valued everywhere and yet he had the courage to fight flame beasts.

“Heavily injured?” Fei Ming suddenly thought of that crystal ball he had seen and asked, “Did he carry his dao partner...”

Then, he passed the crystal ball to the great eternity immortal. "Is it this person?"

The great eternity immortal nodded and reported, "Yes immortal king Fei Ming master."

Fei Ming frowned, and just when he wanted to talk, a red figure landed next to him. It was a great extreme immortal female immortal.

Seeing her come over, Fei Ming immediately saluted with his fists to Yi Hong and said, "Brother Yi Hong, I need to go."

"Please do, brother Fei Ming..." Yi Hong was confused as to why Fei Ming would care so much about an abstruse immortal primary stage, but he still smiled.

...

In a luxurious room in the special deck, Fei Ming stared at that female immortal and said, "Tell me everything you found."

"Yes, master."

The female immortal answered, "This person is called Ye Mo, he's a level four immortal pill great master, he came from the lower deck to middle deck and rented a stall for his pill shop at the middle deck's marketplace. He's very low key and never goes out to attract business nor does he fight with people. However he is very strong. He fought two abstruse immortal tertiary stage cultivators at the low deck arena and won by luck, this is the record."

The female immortal gave another crystal ball over.

Fei Ming looked at the crystal ball once and frowned. He wasn't there but he could tell that abstruse immortal primary stage was intentionally suppressing his power.

“Hmm, luck? What huge luck!” Immortal king Fei Ming sneered.

“Where did he get his immortal crystals card from?” Fei Ming asked.

The female immortal quickly answered, “I checked the hidden marks of the three cards. Two belonged to low deck manager Gu Qianfeng. Gu Qianfeng went to the void at the last stop and never came back. One card comes from top deck’s Han Changzhen, Han Changzhen was invited to the ship by He Hou immortal king, I didn’t investigate him.”

“What a hot blooded immortal, he can even kill a great unity immortal manager – hot blooded indeed!” Fei Ming slammed the table into dust.

“He kept the immortal crystals card for a year and only used them today and bought the Truth Abyssal Mud. He takes out another 100 million and then charges into the void beast tide... such calculations. This person can go into the void, clearly he has other secrets...”

Fei Ming sneered to himself and ordered the female immortal, “Call over Han Changzhen immediately, I want to see what relationship he has with that Ye Mo...”

...

Han Changzhen’s face was also sunken. In a luxurious hall in the top deck sat more than ten immortals. The strongest was great eternity immortal, but Han Changzhen sat at the top. Peng Gandang who said he was going to the void sat on the right.

“Gandang, that Ye Mo borrowed one hundred million immortal crystals from me and went into the void. He acted so cockily at the top deck too. This is what he does after getting that thing?” Han Changzhen asked bleakly.

“I didn’t expect that Ye Mo was this powerful, he could even kill a lower deck great unity immortal manager. He cockily used two immortal crystal cards from the manager and took out 100 million crystals at the top deck to buy the Truth Abyssal Mud. Clearly, he wants to expose us. I’m certain that soon, the immortal king here will come to us!” a dark faced skinny great extreme immortal shrieked.

Peng Gandang sighed. "In my impression, Ye Mo isn't someone who knows calculations. He's very generous and a man of principle. In his most difficult time, he rejected young master's offer. Plus when I gave him something, he acted calm but the fire in his eyes was intense.

I thought his first closing of the shop was to check that thing, but now I realize that he took the thing with a jade box and didn't even want to touch it. he was suspicious at the time."

Han Changzhen sighed after a long while. "He intentionally drug us out, but that's okay; I'm afraid that he would do something to that thing, if he throws it into the void, sigh..."

"I don't think so." One great eternity immortal said, "No one would be able to reject that thing. Even if he is suspicious he will carefully look at it. As long as he takes it out, then it's done."

"Brother Wan is right, no one would be able to throw that away. Even an immortal king wouldn't be able to." Han Changzhen nodded.

"Cursed insect, he's so cunning! It's his fortune that we want his body!" One great extreme immortal cursed.

"Speak of this no more – plus, even if he goes into the void, as long as he takes out that thing, his body won't belong to him..." Han Changzhen waved his hand "Let's discuss how we answer the questioning of that one in the special deck.

...

As soon as Ye Mo charged into the flame beast tide, the purple flame around him crackled. This was the Mist Lotus Heart Fire and flame beasts flames burning each other.

There were too many beasts. Although many high level beasts wouldn't care about him, some low level flame beasts had charged at him already. Countless black flame blades purged at him.

Ye Mo's Mist Lotus Heart Fire instantly thinned down.

A few flame blades broke through the defense layer and struck Ye Mo's body, Ye Mo immediately felt a burning pain.

Zhen Bingyu groaned on his back, Ye Mo knew she was probably injured. He quickly waved and brought Zhen Bingyu to the front while charging out. He curved his body and increased the barrier of Heaven Flame Nine Suns.

The increasing flame blades made Ye Mo's heart sink. Who knew how dense this beast tide was? For now, no high level beasts noticed him. If they did, he might be eaten in one gulp.

Ye Mo changed the barrier to Heaven Flame Nine Suns and it could indeed stop most of the black flames, but it was too depleting on spirit sense. Even though he had great unity immortal middle stage spirit sense, it still couldn't withstand such use.

He had an immortal nirvana body, but despite Zhen Bingyu being shielded by Ye Mo, she was still bleeding from the flame blades.

Ye Mo knew that if this continued, the two of them wouldn't be able to get out at all. He didn't use the world rock for fear of attracting high level flame beasts' attention, but now it didn't seem like he had a choice.

Just when he was about to use the world rock, there was a rustling in the tide. Some void flame beasts stopped attacking him.

At this moment, Ye Mo knew it was probably the immortal king starting to counterattack. How could he not grasp such an opportunity? He immediately spat a mouthful of essence blood and used five element mobility.

With the weakening of the beast tide, Ye Mo also left the tide without any effort.

Chapter 1640: Wonderful Use of Flying Snow

Some asteroids flew past Ye Mo and he slowed down. Zhen Bingyu looked down at her chest that was being squeezed out of shape by Ye Mo and suddenly had a strange feeling. It was the same feeling as when she saw Ye Mo achieve nirvana, she felt her body temperature rise.

After escaping from the flame beast tide, Ye Mo finally breathed easy. He released Blue Moon and placed Zhen Bingyu inside before saying, "I finally got out. One day I'm going to throw the bastard immortal kings on this ship into the void."

When Zhen Bingyu was put down by Ye Mo, she had an empty feeling in her heart as though she didn't want to be put down. She was dazed and thought, was that strange feeling the premonition of lust?

Ye Mo saw Zhen Bingyu didn't answer. He looked down and saw her shirt was torn by the flame blades. Her snow white chest showed again, and even though this wasn't his first time seeing it, he still felt a little awkward.

Ye Mo coughed and said, "You should change clothes, the flames of these flame beasts were powerful indeed. If they weren't attacked it would be really hard to escape."

Zhen Bingyu nodded and ate the words she was about to ask. She really wanted to ask Ye Mo what lust felt like, but thinking she had hopes of recovery and couldn't try this with Ye Mo, she gave up asking.

When Zhen Bingyu changed into a new set of clothes, Ye Mo carried her on his back again and controlled Blue Moon, leaving quickly. In the void, as long as he was careful he could avoid some disasters.

Three months later, Blue Moon slowed down. The void location disk couldn't detect the immortal ship anymore. This meant that they had completely left the range of the immortal ship.

"What do we do now?" Zhen Bingyu looked at Ye Mo who got off Blue Moon and asked.

"Wait, let me see this." Ye Mo took out a storage ring.

“This is the dao vindication seed Peng Gandang gave you?” Zhen Bingyu immediately recognized the storage ring.

Ye Mo nodded. “That’s right, it’s that primordial chaos seed.”

“You want to check it out?” Zhen Bingyu looked at Ye Mo in confusion. Ye Mo said it wasn’t real before, why did he want to see it now?

Ye Mo raised the storage ring. “This might be a dao vindication seed but I’m not interested now.”

Zhen Bingyu nodded, she thought Ye Mo meant his power was too low but Ye Mo actually meant he had too many good things and didn’t need to risk it.

Ye Mo was almost possessed at the bottom of the pond in the Chaos Star Realm. He even felt this dao vindication seed wasn’t suited for him.

“I won’t open it.” Then Ye Mo placed the storage ring on Blue Moon.

“Then why don’t you throw it into the void? As long as you do, then its problem has nothing to do with you.” Zhen Bingyu asked in confusion.

Ye Mo nodded. “The reason I stopped here is to deal with this seed. I have a feeling that with my current capabilities, I can’t control it at all regardless if it’s real or fake.”

Ye Mo’s genuine feeling was so, he didn’t feel comfortable having this seed on him. Regardless, he was planning to throw it away.

Zhen Bingyu just watched. Ye Mo didn’t wait too long and in just four days, his spirit sense found another Void Flying Snow.

Seeing Ye Mo use a spirit sense net to capture it, Zhen Bingyu finally understood what was going on. Ye Mo wanted to capture the Void Flying Snow. She felt strange, theoretically Ye Mo should be trying to run now or find a way out.

She only needed one Flying Snow Pill, and she already had multiple of them. Ye Mo still had another Void Flying Snow, why did he want to keep capturing them?

But soon, Zhen Bingyu realized what was going on. When Ye Mo stopped the Void Flying Snow for the second time with his spirit sense net, he didn't grab it. He threw out the storage ring with the dao vindication seed. That storage ring instantly immersed into the Void Flying Snow. When Ye Mo released his spirit sense net, that Void Flying Snow instantly disappeared.

Then, Ye Mo released Blue Moon and went the opposite way.

"You're not curious at all?" Zhen Bingyu really didn't understand why Ye Mo wasn't curious at all. Even if he was suspicious of Peng Gandang, he could open it to look.

Ye Mo said calmly, "Anyone would be curious of this dao vindication seed, but I trust my own judgement more."

A few days later, Ye Mo slowed Blue Moon down. When it stopped, he took out the Truth Abyssal Mud.

"You want to forge a small world?" Zhen Bingyu couldn't help asking.

Even the best immortal forgery grand master would need to grasp the laws of the world to forge a small world. He must know quite something about space laws.

Ye Mo smiled. "I don't have such ambitions nor power, I just want to forge a small room."

Ten days later, the Truth Abyssal Mud turned into an extremely small grey bead. Precisely, it had been forged into a level four immortal artifact. It had no offensive capabilities but came with a level three defense immortal formation.

“What is this?” Zhen Bingyu looked at the bead and asked.

“We can call it Flying Snow Bead, we’ll live inside this bead from now on. My power is too low, I can’t cultivate on Blue Moon so I can only cultivate inside the bead. This is an immortal artifact I forged based on a small world. It’s very small but it can be an immortal spirit herb garden.”

Zhen Bingyu realized what Ye Mo meant, but this thing was small and didn’t have much use.

Ye Mo didn’t explain to Zhen Bingyu and kept capturing Void Flying Snow.

Finally, Zhen Bingyu understood what was going on. Ye Mo wanted to use Void Flying Snow to bring this bead around.

Ye Mo thought so indeed, in the realm domain void, he didn’t have a sense of direction nor a final destination. Instead of driving Blue Moon carefully, he might as well let Void Flying Snow lead the way.

The Void Flying Snow was extremely fast, far from what Blue Moon could compare to. Also, no matter how fast it was it wouldn’t ram into asteroids nor space storms.

Ye Mo was a genius, Zhen Bingyu looked at Ye Mo who was focused on capturing Void Flying Snow and admired him.

Anyone else who fell into the void wouldn’t have Ye Mo’s thinking and power.

Ten days later, Ye Mo caught the first Void Flying Snow. However, Ye Mo didn’t use it and took it into his storage ring instead.

A month later, when Ye Mo caught the fourth Void Flying Snow and finally put away Blue Moon. “Okay, the Void Flying Snows before were too slow, only this one satisfies me.”

He first put the Flying Snow Orb inside the Void Flying Snow and then let go of the Void Flying Snow while taking Zhen Bingyu instead the orb.

In the void, the Void Flying Snow rapidly accelerated and instantly regained its original speed, slicing through the void. It was very stable inside the orb.

Ye Mo scanned his spirit sense out and found that the Void Flying Snow didn't slow down due to the Flying Snow Orb at all. Even he felt happy with his cleverness. This speed was faster than an extreme grade immortal artifact.

"Haha..." Ye Mo couldn't resist laughing and feeling extremely satisfied.

Zhen Bingyu saw this space wasn't big but there was a small house and a pond, with even a few hundred low level immortal spirit herbs and tens of high level immortal spirit herbs. She couldn't help but exclaim, "Martial brother Ye, I really don't know how you thought of this, this place is amazing!"

Ye Mo put down Zhen Bingyu and said, "We might be staying here for a long while, at least until I use up all the immortal crystals on me. By the way, I suggest you don't go over to the place where I will cultivate. You can use your spirit sense and scan out, if you find a place to go out, notify me immediately."
