

Strongest As 1641

Chapter 1641: People in the Void

Zhen Bingyu nodded. "Okay, but I can't cultivate so I can't scan out spirit sense for a long time."

Ye Mo thought for a moment and said, "True, if I go into solitary cultivation, I might do so for a long time. I know you really want my cultivation method, if you can swear that other than us two you won't tell the cultivation method to a third person, I can give it to you."

Zhen Bingyu immediately said solemnly, "I, Zhen Bingyu, swear that if martial brother Ye Mo passes his cultivation method to me, I will definitely not leak it to a third person. If I betray my oath, I will die from divine damnation."

To Zhen Bingyu, the great dao was everything. Ye Mo's heritage was extremely powerful, she had tried a few times before to get it from Ye Mo, but he ignored her. Now, Ye Mo probably had no choice. He wanted her to help him but didn't want her to interrupt his cultivation, so he could only give it to her.

In fact, she guessed right. Ye Mo was going to use the time formation disk for solitary cultivation. He indeed needed Zhen Bingyu's help. Ye Mo was certain that the cultivation method born from the Three Birth Chant might not be able to recover her, but it could let her walk.

"You're immortal water spirit root, my cultivation method is called Three Birth God Water Chant. After reaching hollow immortal with this cultivation method, it can birth the cultivation method for the next level based on your experience." Ye Mo gave Zhen Bingyu a jade slip.

Once a cultivator reaches hollow immortal, his spirit roots would turn into immortal spirit roots. Zhen Bingyu had water spirit roots, and after she reached hollow immortal, they became immortal water spirit roots.

"It's a cultivation method that can form itself? You gave me a cultivation method beyond immortal grade? No, this cultivation method is beyond god grade!" Zhen Bingyu took the jade slip and said in disbelief.

Even level nine immortal grade cultivation methods, god grade, and divine grade cultivation methods wouldn't be able to automatically form the cultivation methods for the next state. This was why Zhen Bingyu was so shocked.

The Three Birth Chant was too absurd, if it appeared in the immortal realm, Ye Mo wouldn't even have any bone dust left. Even if Ye Mo ran into the void, he probably wouldn't escape the hunt of powerful beings.

Wait – Zhen Bingyu suddenly thought of another thing. Ye Mo had lightning element magic artifacts, he might not be cultivating the water element. Did this mean he had other ones?

Zhen Bingyu just looked at Ye Mo but didn't ask, she felt she didn't need to know.

...

Ye Mo set up a stealth formation in one corner and took out the time formation disk and a bunch of immortal crystals, starting his solitary cultivation.

Spirit sense couldn't scan into the place where Ye Mo cultivated at all. The immortal spirit chi had completely condensed into mist above Ye Mo, Zhen Bingyu thought it was no wonder Ye Mo was so happy. Who else could travel in the void at such speed and cultivate without being affected at all?

However, the place Ye Mo cultivated gave her a very strange feeling. It seemed to be beyond space and time. If she scanned her spirit sense there, it would be swept into a huge whirlpool and disappear.

Piles of immortal crystals were consumed.

...

Two years later.

In Ye Mo's immortal spirit herb garden, a blue dressed female was carefully watering the herbs. Her actions and manners seemed very serene.

This was Zhen Bingyu who cultivated Three Birth God Water Chant. Her spirit roots hadn't recovered yet, but she could walk now.

Her expression didn't seem to be cold like before; at least when she looked at the immortal spirit herb her face was joyful and peaceful.

After watering the immortal spirit herb, Zhen Bingyu placed down the tools and scanned her spirit sense out of the orb.

This was her routine job, Ye Mo told her to note where they were at all times. During these two years, this was all she did other than cultivation.

But soon, her face changed. She saw a flying magic artifact pass their Void Flying Snow. One immortal was planning to capture this Void Flying Snow but failed.

She immediately notified Ye Mo. At this moment, Ye Mo was devouring immortal crystals like crazy. He had only about 1 million immortal crystals left from the 100 million. Even if Zhen Bingyu didn't call him, he was planning to stop.

One hundred million only let him reach abstruse immortal middle stage peak. He didn't even reach abstruse immortal tertiary stage. This made Ye Mo realise just how hard his cultivation was. When he reached great immortal, using immortal crystals to cultivate probably wasn't going to be very useful.

The Three Birth Chant was indeed powerful but the cultivation resources it required was insane. Ye Mo even suspected he needed more cultivation resources than a status immortal.

When the communication bead lit up, Ye Mo stopped cultivation immediately.

Ye Mo put away the time formation disk.

“Martial sister Bingyu, you can walk now?” Ye Mo came up to Zhen Bingyu and said joyfully.

“Yes, thank you. I cultivated using your cultivation method and my body is recovering to that of a normal person’s, I can walk now,” Zhen Bingyu said happily.

“Martial sister Bingyu, I feel you have changed but I can’t tell how.” Ye Mo looked at Zhen Bingyu strangely.

Zhen Bingyu knew her change of course. Before, her dao heart was that everything was ethereal except the great dao. Nothing could stop her dao heart, but after cultivating the Three Birth God Water Chant, her dao heart was gradually changing. One grass, one tree gave her inspiration. In the grand scheme of all things, even a small blade of grass had a chance to vindicate the dao. The dao heart was the extension of life, not the exclusion of all things.

Zhen Bingyu wasn’t certain of these changes herself too. Everyday she watered these immortal spirit herbs, she was communicating with them to find the truth.

“By the way, why did you call me out, martial sister Bingyu?” Ye Mo asked.

Zhen Bingyu immediately reacted. “Martial brother Ye, I just saw a few immortals flying in front of us and they were planning to capture the Void Flying Snow.”

“What power level are they?” Ye Mo immediately became excited. It could only mean two things that there were immortals nearby: first was that there was land nearby, and the second was that there was an immortal ship nearby.

“I didn’t see clearly but their flying magic artifact was much slower than the Void Flying Snow,” Zhen Bingyu answered.

“I understand martial sister, get on, let’s go out,” Ye Mo said and carried Zhen Bingyu on his back, tying her before sweeping out with a few spirit sense nets.

The rapidly flying Void Flying Snow was stopped by Ye Mo's spirit sense net and slowed down. Ye Mo took Zhen Bingyu out from the Flying Snow Orb and took it.

The Void Flying Snow then instantly disappeared after Ye Mo released it.

"Martial brother Ye you don't want that Void Flying Snow?" Zhen Bingyu asked.

Ye Mo released Blue Moon. "That Void Flying Snow took us flying for two years or so. Regardless of whether it's sentient, it helped us, letting it go is the best."

Zhen Bingyu nodded and seemed to understand something even more.

A few days later, Ye Mo indeed saw two flying magic artifacts fly across. They were low grade flying immortal artifacts. Usually, these belonged to abstruse immortals or great unity immortals. They seemed to be collecting asteroids in the void. One great unity immortal held a net-shaped magic artifact. Ye Mo knew it was for capturing Void Flying Snow.

The immortals saw Ye Mo's Blue Moon fly over and immediately stopped theirs, watching Ye Mo warily.

"Friends, may I ask if you came from heaven domain ship or from a continent?" Ye Mo saluted with his fists.

One great unity immortal asked Ye Mo in confusion, "Did you not come from Void Star Continent?"

Ye Mo was dazed, he had heard of all the 33 heaven domains but not some Void Star Continent.

"Is this a middle heaven domain?" Ye Mo asked again

Chapter 1642: Zong Piao Contribution Points

“Middle heaven domain? There’s about half a year journey till middle heaven domain,” the abstruse immortal studied Ye Mo’s flying magic artifact and answered.

“This is in the void?” Ye Mo asked in shock. He didn’t understand why these people dared to collect materials in the void. But seeing they weren’t interested in talking, Ye Mo could only send some immortal crystals over.

After getting the immortal crystals, they clearly was more proactive in answering. Ye Mo soon knew that this was still the void, but the realm domain void rather than heaven domain void.

There was very little Void Flying Snow in here. It was lucky that Ye Mo’s Void Flying Snow could fly to here.

Void Star Continent was just an outpost star in the middle heaven domain. It moved very slowly and had its own atmosphere. Some outpost stars can stay in the void for hundreds of thousands or even millions of years.

The Void Star Continent was this place. Many immortals from the middle heaven domain came here and go into the void to capture Void Flying Snow or some forgery materials.

Because Void Star Continent was not far from both the heaven domain void and the realm domain void, so some heaven domain immortal ships would choose this place as a stop over.

There were many immortal ships stopped on this star. These ships would drop off some immortals and take away some. Ye Mo also knew that the nearest heaven domain here was called Zong Piao Heaven. It would take less than half a year by immortal ship to get over.

Hearing this, Ye Mo couldn’t help exclaiming that the Void Flying Snow was too fast. It just used two years to come here. Even that immortal ship he was on before wasn’t this fast.

...

Ten days later, Ye Mo easily found Void Star Continent with the jade slip the two gave him.

This place wasn't small indeed, Ye Mo's spirit sense couldn't even scan to the ends of it. There were marketplaces and immortal residential areas.

But Ye Mo really didn't like this dull grey place. He didn't need to ask other people and immediately dragged Zhen Bingyu over to the immortal ship station.

The immortal ships here could go to a few heaven domains but Ye Mo chose the nearest heaven domain without hesitation. Luckily he still had about 1.3 million immortal crystals. After buying two tickets and spending 1.2 million, he was in poverty again and only had a hundred thousand immortal crystals.

Aboard this ship, Ye Mo finally breathed easy. This ship was much better than that Tang Feng Heaven Domain ship. At least after paying a ticket, there was free room. Even if you went to other places, you didn't have to pay immortal crystals.

...

In the extremely large Piao Yi immortal ship station of Zong Piao Heaven, there would be tens of immortal ships passing here everyday.

Today, an immortal ship stopped here. Tens of thousands of immortals got off, some soon released their magic artifacts and disappeared off into the distance, some stayed at the station and didn't leave.

At this moment, one man and woman got off too and left the station.

The male immortal was abstruse immortal middle stage, he was only average compared to the countless handsome male immortals in Zong Piao Heaven.

However, the female immortal next to him was extremely beautiful. Even the ordinary blue dress she wore couldn't cover her extreme beauty. It was as though even the most beautiful goddess in Zong Piao Heaven couldn't compare with her. With her soft steps, the immortals nearby all had an urge to go protect her.

“Such a pretty goddess!” all the immortals who saw her praised.

“Martial brother, where do we go?” the female immortal asked the male immortal next to her.

Hearing Zhen Bingyu’s question, Ye Mo didn’t answer. He looked at the shining sun and said, “Finally, we can see sunlight again.”

Then he said, “Let’s find a place to ask around, this is our first time here.”

Ye Mo saw there were mostly abstruse immortal or above around him and knew the immortal levels of Zong Piao Heaven were much higher than a low heaven domain.

“Mhm, the immortal spirit chi here is much better than Gong Hua Heaven. If I can recover, it’s quite good to cultivate here.” Zhen Bingyu sighed.

The immortal spirit chi here was indeed much better than low heaven domain but to Ye Mo, just having a little more immortal spirit chi wasn’t enough.

At the square in the station there was a huge display screen in the centre. Many immortals were watching the information on it.

There were big and small things: secret realms opening, void adventure teaming, auctions, and level seven immortal spirit herb information.

“Martial brother look, Zong Piao Heaven’s Blue Lightning Mountain’s blue lightning immortal well is opening up. Inviting all immortals there for body refinement, we can go check it out too?” Zhen Bingyu asked.

To Zhen Bingyu, it seemed that Ye Mo cared about immortal wells a lot. Ye Mo stayed at that low grade immortal well for half a year in the Chaos Star Realm and he knew lightning element cultivation method.

Ye Mo was looking at this news too, it was very hard for his cultivation to progress now. It wasn't that his talent was bad but his cultivation resources couldn't keep up. Ye Mo knew the benefits of immortal wells, it was the fastest he had seen ever since reaching hollow immortal.

But he saw the conditions below it. It seemed very generous inviting everyone, but in order to be invited, one needed to satisfy some criterias. Those to go in must be top 50 on the Zong Piao contribution points leaderboard. He didn't even know what Zong Piao contribution points were.

"Two friends, are you not from Zong Piao Heaven?" one abstruse immortal tertiary stage heard Zhen Bingyu's words and asked.

"No," Ye Mo answered.

The abstruse immortal tertiary stage said, "No wonder, in the 11 middle heaven domains, Zong Piao Heaven is the one invaded by demons and beasts the most. Places like the Lan Yu Forest and Ping Piao Plains have completely become the domain of beasts and demons. Some sects there were forced to migrate too. If it wasn't for a few immortal king masters guarding Zong Piao Heaven, perhaps it would completely turn into the lands of beasts and demons.

"Zong Piao contribution points are calculated based on the amount of beasts immortals killed. It's useful anywhere in Zong Piao Heaven, it's even more useful than immortal crystals. You can exchange them for immortal crystals even at other heaven domains. If you've just come then you don't need to go to blue lightning immortal well. There are only 100 spots, 50 for great immortals and 50 for heaven immortals. The spots have been set already, just look at the huge tablet and you will know."

Ye Mo and Zhen Bingyu's glances focused on a huge tablet next to the display formation. There were three rankings, one was heaven immortal Zong Piao contribution points. There was 1000 rankings.

The second was great immortal Zong Piao contribution points ranking, 1000 ranks too. The third was total 1000 rank. Most of the names on the total ranking was great immortals.

Ye Mo saw that the number one on the heaven immortal ranking was called Xu Ji with 12.37 million points. The number one of the great immortal ranking was more than 100 million.

“So this news is useless then?” Zhen Bingyu asked.

The abstruse immortal shook his head. “Not completely useless, there’s still a year until the well opens. Many people would hunt beasts like crazy for it or use immortal crystals to buy the heaven domain contribution points.”

Ye Mo asked in confusion, “Heaven domain contribution points can be bought?”

“Of course, one contribution point for 20 top grade immortal crystals. This is a public price but because it’s so favoured, it’s often sold for 30 to even 50 immortal crystals for one,” the abstruse immortal said.

“Then what about the demon beasts? How much contribution points for killing one?” Ye Mo asked.

Chapter 1643: Piss Off

That abstruse immortal didn’t think Ye Mo was planning to get into the top 50. He answered quite precisely, “Demon beasts are immortal spirit beasts that have mutated from devouring too much demonic chi. Two level one demon beasts can get one contribution point, one level two can get two. Level three demonic beasts can get five, level four demonic beasts can get 30. Level five can get 80, level six can get 200...”

Hearing this, Ye Mo knew that no matter how powerful he was, he wouldn’t be able to get top 50 within a year. The top fifty of heaven immortal was nearly 10 million contribution points. It was impossible for him to kill that many demonic beasts.

“If the demonic beasts stay at a certain place, why don’t the immortal king masters go annihilate them?” Ye Mo asked.

The abstruse immortal shook his head. “There are also level seven and above demonic beasts. They usually don’t appear in the settlements. And they have a tacit agreement that as long as status immortals don’t annihilate ordinary demonic beasts, those high level demonic beasts won’t casually slaughter immortals below status immortal.

Ye Mo realised why there was no status immortal ranking now. Both sides were gathering power, the winning factor was still how many status immortals one had.

...

Ping Piao Plain, this was the first stop Ye Mo and Zhen Bingyu came to at Zong Piao Heaven.

The main thing was that there were a lot of demonic beasts here. It was also very close to Blue Lightning Mountain. If he happened to get into top fifty Ye Mo would really like to go cultivate at the immortal well.

He must buy a contribution point jade card before he killed the demonic immortal spirit beast. These jade cards were a small teleportation magic artifact. When an immortal killed a demonic immortal spirit beast, he can dig out the beast core and send it into the jade card. The beast core would immediately be teleported away and after that the jade card would show the contribution points.

This type of jade card was called five colored contribution points card. The highest grade card can not only show the top 100 of the three ranks but also show what rank the jade card's owner was at. This jade card was purple, it can only be bought by those immortals who have 10 million or more contribution points.

The next was blue jade card, it can show the top 50 of the two ranks. It can be bought after reaching 5 million contribution points. The next jade card is aqua color, it can be bought after reaching 100k points, it will show the ranking of the top 50 of your ranking ladder.

Below blue is green, it can be bought after reaching 50k points. Most immortals use green cards, this card can show your own rank and contribution points.

As for the worst card, it was yellow. It can only show how many points you had, nothing else. Rarely did people buy such jade cards.

After all, a good jade card meant that one had contribution points and status. If people were forming squads and you took out a yellow jade card, then you would be lower than everyone.

Ye Mo didn't have many immortal crystals and this could only buy the yellow jade card.

If it wasn't that the Zong Piao Heaven tried to encourage all immortals to hunt for these demonic immortal spirit beasts and lowered the jade card price, Ye Mo wouldn't even be able to afford the yellow jade card. He bought two yellow jade cards for him and Zhen Bingyu and used up pretty much all his immortal crystals.

In order to avoid trouble, Ye Mo changed his name to Mo Ying when recording the jade card. Now, both of their cards showed zero.

There were a lot of immortals on the Ping Piao Plain, ranging from golden immortal to great eternity immortal. But after coming here, they would pretty much all go to the plain in teams. Even great eternity immortals would form squads.

The great eternity immortals didn't dare to go into the depths alone to kill high level demonic immortal spirit beasts.

Just like the Black Weed Forest, there was a small town at the outskirts of the plain. There was an extremely simple marketplace and a huge team forming hall. Immortals from everywhere who wanted to go into the plain would form squads here.

Some squads spent a lot of time here and their names were famous.

Ye Mo and Zhen Bingyu went into the team forming hall and immediately caught the attention of all the immortals here. Ye Mo was abstruse immortal middle stage, neither high nor low here. Everyone was watching Zhen Bingyu.

Most of the immortals here lived in blood bath and could tell Zhen Bingyu was heavily injured and had no immortal essence.

If Ye Mo was by himself, someone would still want to form a team with him, but no one knew what Ye Mo meant by bringing in this heavily injured female immortal.

Everyone would be willing to team up with an extreme beauty like Zhen Bingyu, but if she was useless, then no one would want to bring this dead weight. It was no joke inside the plain.

Ye Mo didn't come to form a team, he came to buy a map of the outskirts of the plain. He knew that by bringing Zhen Bingyu with him, no one would be willing to form a team with him. Zhen Bingyu couldn't protect herself, it was practical to let her stay at the town alone.

If it was some extremely dangerous time, he would rather send Zhen Bingyu into the Flying Snow Orb, but it was a pity, the Flying Snow Orb couldn't be sent into the Golden Page World nor storage ring when carrying people. With Ye Mo's forgery capabilities, the Flying Snow Orb's truth abyssal chi couldn't be hidden from great eternity immortal and above, so Ye Mo didn't want to take it out unless necessary.

Ye Mo bought a map and then some info about the demonic immortal spirit beasts here before leaving.

"That abstruse immortal wouldn't be taking that heavily injured female immortal into the plain right?" someone asked in confusion.

"He's no idiot, if he goes in alone he wouldn't live long and he's carrying a heavily injured person – is he asking to die?"

"Hehe, I think he's settling his dao partner, perhaps he will be back to find someone to group up."

One red robed abstruse immortal tertiary stage heard this and left the hall following Ye Mo.

As soon as Ye Mo and Zhen Bingyu came in he saw. His eyes were set on Zhen Bingyu, Zhen Bingyu was extremely beautiful but what was more important that such extreme beauty was a virgin. If her spirit root was a single element spirit root, then he might be able to break through to great immortal if he got that female immortal.

He thought Ye Mo would settle Zhen Bingyu and come to form a team but instead Ye Mo carried her on his back and flew into the plain. He immediately rejoiced.

If Ye Mo was really going to settle her in the town, it would be troublesome for him, but this abstruse immortal middle stage dared to bring a heavily injured woman into the plain. This was a god given opportunity. Plus, he was also interested in Ye Mo's Blue Moon.

Some people knew this red robed abstruse immortal who left and all shook their heads.

Ye Mo just flew for five minutes and slowed down.

Zhen Bingyu immediately noticed this and her spirit sense scanned the following red robed abstruse immortal.

"Someone followed over?" Zhen Bingyu saw that the abstruse immortal was extremely fast and neared Blue Moon in the blink of an eye.

"That's right, so we'll wait for him." Ye Mo nodded.

Zhen Bingyu frowned. "But we don't even have a single contribution point, why does that person want to follow us?"

Ye Mo smiled. "Perhaps because he thinks you're very pretty so he wants to kill me and take you."

"Then he really chose the right person." Zhen Bingyu smiled.

Ye Mo sighed, he felt during the two years in the void, Zhen Bingyu seemed to have changed a lot. At least her face wasn't forever cold. Sometimes, she would smile. Ye Mo suspected this was due to her change in cultivation method.

A red figure appeared before Blue Moon.

Ye Mo didn't even put away Blue Moon and stared coldly at this red robed abstruse immortal, not even bothering to talk.

“Hehe, I’m Feng Shangjian. Friend, I saw you were going in the plain with only two people so I came to team up with you.” The red robed abstruse immortal scanned Zhen Bingyu and couldn’t control the joy in his heart.

“Piss off!” Ye Mo yelled, scanning a great unity immortal coming over here quickly.

Chapter 1644: Hard to Increase Contribution Points

Feng Shangjian thought that since he was abstruse immortal tertiary stage and Ye Mo was only abstruse immortal middle stage, he would agree to reject. He just needed an excuse, he wasn’t really going to team up.

He was waiting for Ye Mo to reject and use that as an excuse. But now that Ye Mo said ‘piss off’, he didn’t need to act – he was furious.

With this, Feng Shangjian raised his hand and a strange scented magic artifact was released.

This was a rapidly expanding flower that was shaped like a trumpet. It grew bigger and bigger and a strange smell kept emitting from it. It made Ye Mo feel his immortal essence rapidly decrease, the area covered by that flower made people lazy as though not wanting to leave again.

Ye Mo released his world rock and smashed at the flower.

Seeing this, Feng Shangjian sneered. His flower didn’t fear such magic artifacts at all.

Zhen Bingyu’s immortal essence was gone and she couldn’t resist at all. Plus, she had been with Ye Mo all this time and wasn’t wary at all. How could she stop this extremely lustful flower aroma?

Before the magic artifact fully released, she stuck to Ye Mo’s back even closer. Luckily she didn’t completely lose her dao heart and could keep awake a little.

Thud

The world rock smashed on the flower and the flower shook, that strange aroma was instantly gone.

Crack

After pausing for a brief moment, the world rock smashed through the flower and the flower instantly broke apart.

“How is this possible?” Feng Shangjian looked at this and said in disbelief.

He immediately realized now wasn’t the time to be shocked as he would be the next target for that weighing stone.

But he realized that too late. After smashing the flower, the world rock broke through the flower and smashed Feng Shangjian.

Splurge

Blood and flesh was torn apart, Feng Shangjian’s essence spirit couldn’t even escape and was smashed to nothing. This was the first abstruse immortal essence spirit to be smashed by the world rock.

Ye Mo took Feng Shangjian’s storage ring and shook his head. He had this little power and dared to be cocky. To him now, ordinary abstruse immortals were really of no threat at all.

“Are you okay?” Ye Mo noticed Zhen Bingyu’s abnormality and asked.

Zhen Bingyu breathed and let loose of her hands saying weakly, “I’m fine, I finally realise it.”

“What is it?” Ye Mo asked.

Zhen Bingyu bit her lips but didn't answer, she felt she finally understood what lust was. When she stuck closely to Ye Mo, that feeling. It seemed that after she lost her immortal essence, her will lowered to Ye Mo's level.

Ye Mo's attention rested on the great unity immortal not far away. The great unity immortal saw Ye Mo kill Feng Shangjian with one move and didn't come over. He rapidly turned to leave.

Ye Mo breathed easy, he wasn't scared of a great unity immortal, but if he really fought, it would be very hard bringing Zhen Bingyu.

Blue Moon flew again, Ye Mo started to count the storage ring of this abstruse immortal. There were 500k top grade immortal crystals and some simple forgery materials and pills. Ye Mo didn't need such things but cared about the jade card the most. Ye Mo picked it up, there was a small line, "Feng Shangjian, 175,000 contribution points, rank 467821."

"What a trash, he's ranked more than 400,000 away!" Ye Mo cursed.

Zhen Bingyu calmed down from her emotions and hearing this, she wanted to laugh. Ye Mo had not a single point himself.

Then, Ye Mo transferred all the contribution points to his jade card without hesitation.

Then, he threw the jade card away and sped off on Blue Moon.

He didn't even start killing demonic immortal spirit beasts and got more than 170k contribution points.

...

Five days later, Ye Mo got of Blue Moon. He knew from that the map that this place was where demonic immortal spirit beasts appeared. He hadn't seen what it was yet, he would kill his way in to gather experience.

“The jade slip says that the lower the level, the more ethereal their bodies. After reaching level seven, the demonic immortal spirit beast had a physical form...”

As soon as Zhen Bingyu said this, Ye Mo sliced out with Zi Xu.

A shriek sounded and a faint figure was hacked apart by Ye Mo. A grey beast core landed on the ground and the figure quickly disappeared.

Ye Mo picked it up and said, “This is probably a level one demonic immortal spirit beast core, why does Zong Piao Heaven want to collect this? Or is it just for contribution points?”

Ye Mo then threw it into the jade card and 0.5 contribution points were added.

“Perhaps they could be used for pill concoction or something else,” Zhen Bingyu said.

Just when Ye Mo wanted to speak, a few extremely faint demonic immortal spirit beasts rushed over. Ye Mo hacked out too and a few more contribution points appeared in his jade card.

“This way is too slow, let’s go find some high level demonic immortal spirit beasts,” Ye Mo said.

Two days later, Ye Mo began to meet some level three demonic immortal spirit beasts, they had a complete body shape and seemed half materialised. Their offensive power had also greatly increased too. Not only could they use demonic blades but also use demonic chi to corrode souls. Some powerful ones could use demonic chi chains. One wouldn’t be so well if caught by the chains.

No wonder the immortals needed to form teams. That way, even if they were caught by the chains, they could save their essence blood.

But this wasn’t a problem for Ye Mo. His Heaven Flame Nine Suns was about to form the 4th sun. Coming from the inside, any demonic chains would be burned.

“Too slow.” After killing low level demonic immortal spirit beast for ten days, Ye Mo sighed. He had killed thousands of level two and level three demonic immortal spirit beasts, but his contribution points only increased by 30,000.

Now, Ye Mo realized how hard it was to reach 10 million in contribution points.

Even if he earned 30k every ten days, then in one year it would at most be a million or so. It was impossible to reach 10 million.

Zhen Bingyu felt guilty. She knew Ye Mo didn’t mean anything but she couldn’t help Ye Mo and was dragging him back.

A month later, Ye Mo had 400k contribution points in his jade card but he still didn’t find places with large amounts of the beasts, even level fours were very rare.

The most powerful thing about level fours were their demonic chains and soul corrosion. It was lethal to others but nothing much for Ye Mo.

His spirit sense and heaven flame can easily stop them. But the pity was he couldn’t find where the level four beasts lived.

Ye Mo didn’t dare to just run into the depths. He knew that if he fell into level five crowd, he wouldn’t even be able to get away.

“It’s almost all level three and below here. We don’t know this place either. How about we ask someone?” Zhen Bingyu knew Ye Mo wanted to go cultivate at the blue lightning immortal well.

“Someone is coming.” Ye Mo saw a few dashing lights come over.

It was four immortals, two men and two women, all abstruse immortal power. They were coming directly at Ye Mo.

Chapter 1645: Offend Everyone

Two of them were abstruse immortal peak stage.

“It’s just you two?” the pink dressed female immortal stared at Ye Mo and Zhen Bingyu asking in confusion. Clearly she thought Ye Mo’s cultivation level was too low and he took a heavily injured Zhen Bingyu. They shouldn’t have even been able to make it here.

“Yes, Mo Ying greets immortal friends.” Usually, rarely did people call immortals below great immortals ‘immortal friends’. Ye Mo said this to show respect.

The leading man looked at Ye Mo and Zhen Bingyu. “This is the border of level four region of the plain, you’re an abstruse immortal middle stage carrying a heavily injured goddess who dares to come here? Are you asking to die?”

“Thank you for your care, I want to ask if it’s level four area beyond this place?” Ye Mo saluted with his fists. Ye Mo knew sometimes, it wasn’t the deeper you went the higher the level of the demonic immortal spirit beast. It was possible that just beyond the level three area was level five area.

“That’s right, a little further down would be where level four demonic immortal spirit beasts are. Hurry up and take your dao partner away.” The leading abstruse immortal looked at Zhen Bingyu on Ye Mo’s back and added out of good will.

The pink dressed female immortal said, “Brother Xian, there are a lot of level four demonic immortal spirit beasts behind here, if they meet a level four demonic immortal spirit beast on the way, then...”

Brother Xian waved his hand to Ye Mo. “The Mist Demon Palace just opened. We’re going there so we can’t take you two. I have a jade slip for you, just retreat according to it and you’ll have a chance to get out of there.”

Then he was about to take out the jade slip.

Ye Mo quickly asked, “Brother Xian, may I ask what’s the Mist Demon Palace?”

He knew these were nice people, Ye Mo was grateful but didn't plan on retreating. He came here to kill the beasts, how could he leave before reaching top 50.

"Brother Xian, if we go any later we'll fall behind," another abstruse immortal man reminded.

Brother Xian nodded and threw two jade slips to Ye Mo. "Have a look yourself, we're going first."

Then the four released flying magic artifacts and disappeared from the depths of the plain.

Ye Mo scanned his spirit sense in the two jade slips. One was a rather precious route of the plain. Ye Mo could retreat out of here along this. Another jade slip was about the Mist Demon Palace.

The past life of the Mist Demon Palace was the trial secret realm of the great eternity immortal sect Mist Spirit Sect. The sect members could come in here every century for trials. There were all sorts of immortal spirit herbs and treasures inside. The sect members could get different fortunes based on their luck and power.

It's said that the Mist Spirit Sect set up their sect here because of finding this mist palace. So the mist palace had a longer history than the sect. Pity, demonic immortal spirit beasts invaded here and the sect was annihilated. The mist palace became the Mist Demon Palace.

It opened every thousand years, it's shrouded in mist and has all sorts of immortal spirit beasts. Of course, it's all demonic immortal spirit beasts. Every time it opened, many immortals would go in. Although there's a greater chance of dying, the chances of loot were also increased. Not only could you get large sums of contributions points here, you can also get many immortal spirit herbs or precious cultivation resources.

Ye Mo passed the jade slip to Zhen Bingyu and said, "Martial sister Bingyu, the palace is about to start, let's go see it too."

...

Outside a valley shrouded in mist, more than ten thousand immortals squeezed here. They were all staring at the misty entrance to the valley as though waiting for something.

“brother Xian, look, that guy didn’t leave and came here instead so cockily too.” The pink dressed female immortal immediately saw Ye Mo and Zhen Bingyu on Blue Moon.

“He probably doesn’t know the rule,” The other female immortal next to the pink dressed female immortal said.

Ye Mo didn’t know the rule of landing before the valley, and that flying was disrespecting all the people who came here beforehand. If he knew he would definitely get down, no matter how prideful he was, he wouldn’t dare to disrespect so many immortals.

“Martial brother, they don’t seem to be glancing at us nicely.” Zhen Bingyu immediately noticed.

Ye Mo guessed that it was probably because they kept flying. He immediately put away the flying magic artifact and landed.

“Kid, you’re very cocky taking a pretty dao partner around, you dare to fly directly to the valley entrance...” one great unity immortal sneered. He was going to teach Ye Mo a lesson even if he said nothing.

Ye Mo knew he offended everyone by flying. He didn’t fear one great unity immortal but there were so many immortals here.

“Immortal friends, it’s my first time here and I don’t know the rules, please forgive me.” Ye Mo saluted with his fists to everyone.

Hearing this, everyone stopped caring. There were few people who didn’t know the rules but it didn’t mean there were none. Since Ye Mo said this, he clearly really didn’t know.

“Kid, you’re indeed cocky.” The great unity immortal knew what Ye Mo meant. He apologised to everyone else first because he was annoyed at him picking on him.

Ye Mo sneered, he wasn't scared of a fight. He already explained why he didn't land.

"The mist is gone, the palace is open."

The great unity immortal immediately heard this and pulled his attention away from Ye Mo.

Ye Mo also noticed that the impenetrable mist began to clear up.

The mist started dissipating and an entrance was revealed. The mist was like two side moving doors, slowing moving to the side.

The impatient immortals all charged in as though if they went in late, they would lose a share of the things inside.

The great unity immortal glared coldly at Ye Mo and charged into the mist too.

Now, only Ye Mo and Zhen Bingyu remained.

"Let's go in too." Ye Mo carried Zhen Bingyu.

"The immortal spirit chi is so dense." Zhen Bingyu couldn't resist saying.

Ye Mo nodded in agreement. "With such dense immortal spirit chi here, there might be an immortal range inside. If we find one we wouldn't need to go cultivate at the blue lightning immortal well. Recently, my cultivation hasn't progressed at all. Sigh, cultivation resources..."

Zhen Bingyu shook her head. She saw Ye Mo's growth. When she first saw him, he was only golden immortal middle stage, how long had it been and he was now abstruse immortal middle stage peak? Yet, he still said he was progressing slowly. How would others feel about this?

The two went into the depths of the valley.

15 minutes later, nine ancient big doors appeared before Ye Mo and Zhen Bingyu.

Chapter 1646: Terrifying Heaven Flame Nine Suns

Ye Mo stopped at this door, which one should they go in? When he was still hesitating, a few immortals came too. They just casually scanned Ye Mo and Zhen Bingyu before choosing one random door.

“It seems every door is the same, let’s go in too.” Ye Mo took Zhen Bingyu in a door.

A misty scene appeared before them but these mists were still dissipating. After a while, they would be all gone.

As Ye Mo went in, some low level immortal spirit herb started to show before them. There were some extraordinary ones too.

Some of them were dug away but most of the low level immortal spirit herbs were untouched.

“it seems there’s quite some good things here.” Ye Mo laughed and sped up.

If there weren’t a lot of good things here, even the low level immortal spirit herb wouldn’t remain.

Ye Mo was extremely fast and he didn’t find anything on the way. After flying for half a day, he finally saw some other immortals. The only thing was they were flying out from inside, there were a few hundred of them.

Seeing Ye Mo and Zhen Bingyu walk in, none of them said anything. It was as though they didn’t seem him.

“It seems something happened inside, let’s leave too.” Zhen Bingyu saw this and knew they must’ve encountered some danger. Otherwise, they wouldn’t be running away this rapidly.

Ye Mo wasn’t dumb and was immediately about to turn.

But as soon as he did, a grey fast like lightning figure dashed towards him. Ye Mo clearly saw it was a grey robed abstruse immortal peak stage who released this. that guy was last to run and attacked him.

Just one moment, Ye Mo and Zhen Bingyu were surrounded by countless demonic immortal spirit beast. Waves of demonic chains and blades flew towards Ye Mo. Ye Mo immediately knew that guy wanted him to help stall the demonic immortal spirit beast.

The fact was that the guy had succeeded. Just when Ye Mo flew back to the tide, that guy had disappeared.

Those immortals who hadn’t come out were devoured clean already.

When Ye Mo was chained by the demonic chains, he released mist lotus heart fire. The chains melted instantly but immediately, more chains and blades flew at him. Ye Mo’s spirit sense scanned out and found there were tens of thousands of demonic immortal spirit beast. They were all pretty much level three, some level four.

Ye Mo didn’t know what this group of bastards did to piss off so many demonic immortal spirit beast.

“Martial brother Ye...” Zhen Bingyu’s tone was getting shaky. She knew Ye Mo was strong but how could he attack so many. Even going into the flying snow orb won’t save their lives, it only had a level three defense formation.

Once the orb was shattered, they would disappear.

Just like storage ring, she had never heard of things being able to exist after a storage ring was shattered except for a few top grade magic artefact that could resist the pressure of space shattering. Most things would dissipate after the storage ring broke.

Ye Mo saw more demonic chains form quickly and knew that just relying on defense won't last them very long. He didn't have time to explain to Zhen Bingyu and released four purple suns. The fourth sun's color was a bit dim as Ye Mo's Heaven Flame Nine Suns hadn't completely reached level four.

The purple flame ball rose and endless purple rays shone down on the densely clustered demonic immortal spirit beast and they began to melt.

Those demonic immortal spirit beast melted by the Heaven Flame Nine Suns kept dropping all sorts of beast cores. The beast cores gathered on the ground. No matter how many demonic immortal spirit beast there were below level three, they wouldn't even essence blood able to get away from Ye Mo's Heaven Flame Nine Suns.

The purple didn't shrink and instead expanded enveloping those at the border. Even level four demonic immortal spirit beast began to wither.

The few hundred level four demonic immortal spirit beast knew things weren't good. They really wanted to charge to Ye Mo but there were more and more purple rays and even their bodies began to melt.

Some level four demonic immortal spirit beast who were smart quickly left the range of the sun and disappeared. More level four demonic immortal spirit beast wanted to follow but Ye Mo reacted. Even though Heaven Flame Nine Suns was very hard to use, he released Zi Xu.

Illusion Cloud domain kill strike.

A huge purple sword ray slashed down.

Screech. Sharp screams sounded and beast cores fell.

The offensive capability of level four immortal spirit beast were much stronger than level threes but after losing half their life to the Heaven Flame Nine Suns, they could only die.

In less than 5 minutes, the dense clutter of demonic immortal spirit beast had been cleared up. There were only piles and piles of beast cores. Some level one and level two beast coers even began to melt. But level three and level four were still complete.

Ye Mo ate a few pills and waved all the beast cores into his jade card.

His contribution points immediately increased by 100,000.

Zhen Bingyu looked at this scene in shock. Not daring to believe Ye Mo did this. she knew Ye Mo had heaven flame and could gather into a sun but she didn't expect it to be this scary. Even a great eternity immortal would need more time to kill this many demonic immortal spirit beast.

Ye Mo ate a few pills and felt his footsteps weak. Zhen Bingyu noticed this immediately and asked worriedly "martial brother are you okay?"

Ye Mo waved his hand and said "I'm fine, these things give contribution points quick but it's too exhausting."

Despite this, Ye Mo was still very shocked. His Heaven Flame Nine Suns was still on the fourth sun and was this powerful already. If he could release 9 suns then so what if tens of thosuands of immortal emperors attacked him?

"There shouldn't be any great eternity immortal, send me into the flying snow orb. Otherwise, it'll affect you too much. Plus, I can see what's going on outside inside the flying snow orb." Zhen Bingyu said.

This was only the outskirts and the demonic immortal spirit beast here were so powerful. There might be more demonic immortal spirit beast inside. But she couldn't even help Ye Mo.

Ye Mo fell silent for a moment and said "okay, there shouldn't be a lot of great eternity immortal. If they come I'll let you out immediately and put away the flying snow orb."

"Mhm." Zhen Bingyu breathed easy.

Ye Mo hung the flying snow orb on his chest. It was indeed much more convenient to do things alone. He had much less concerns. Plus, the Three Birth Chant didn't need one to stop to recover immortal essence and spirit sense.

When Ye Mo came before a hill, he dazed and immediately became excited. A two people tall blue fruit tree was in the middle of the hill. There were 6 blue fruits on it.

"Du Luo heaven fruit..." Zhen Bingyu called out excited.

Ye Mo knew this was level six Du Luo heaven fruit.

It was blue on the outside and red on the inside. It could be used to concoct many pills. But most immortals wouldn't use it for pill concoction and would just eat it straight up.

This was much better than using it for pill concoction. It can allow any immortal below status immortal to break through a small level. Ye Mo was abstruse immortal middle stage now, if he ate the fruit, he would immediately reach abstruse immortal tertiary stage.

It also had no side effects. Thinking that he would reach abstruse immortal peak stage immediately, then he would be able to have divine damnation to reach great unity immortal. He had large amounts of great unity immortal pills unlike other abstruse immortals.

Great immortal was right before his eyes.

Chapter 1647: Where did your dao partner go

He lacked time now the most, so a fruit that could save his cultivation time undoubtedly made Ye Mo very excited. However one could only eat one Du Luo heaven fruit. Otherwise, if he ate all of them he might be great extreme immortal now.

Ye Mo became very grateful to those demonic immortal spirit beast, they were better than immortals. At least they wouldn't touch the fruits before they were mature.

There was clearly some time before the fruits were ripe. Ye Mo wasn't going to wait here for it. Other people didn't have means but he had a lot. Not only did he have golden page world but even the flying snow orb could transplant the du luò heaven fruit.

But Ye Mo knew that if he transplanted the fruits to there it would be useless. The flying snow orb couldn't handle such good things, it could at most grow level four immortal spirit herbs.

Spirit sense Ye Mo was planning to send the du luò heaven fruit into this golden page world. He was planning to dig up this entire mountain. He was afraid other people's spirit sense would scan the fruit so Ye Mo threw down a spirit sense barrier formation.

"Wait..."

Just when Ye Mo dug up the fruit, a desperate voice sounded. Ye Mo's spirit sense scanned two people flying here, he just rapidly sent the hill into his golden page world as though he didn't hear it.

Zhen Bingyu saw Ye Mo didn't send the fruit into the flying snow orb and knew Ye Mo probably had another immortal spirit herb garden or small world.

"Did you just take the du luò heaven fruit?" that immortal stared at Ye Mo.

This was a great unity immortal, slightly fat and little hair. The other was abstruse immortal tertiary stage. Ye Mo estimated that he probably wasn't afraid of these two. Even if he can't beat them he could charge into the depth of the mist demon palace.

"Du luò heaven fruit? I don't know, I just saw there was a good immortal spirit herb so I took it." Ye Mo said calmly.

The great unity immortal frowned and said plainly "regardless, show me. if it's du luò heaven fruit, it would die quickly if you put it in your storage ring or immortal spirit herb. I promise that if it's really du luò heaven fruit I'll leave you one."

He wasn't too sure if Ye Mo had it or not. If Ye Mo really had it he would've attacked already but he was rather far and his spirit sense was strangely blocked so he didn't see clearly.

Ye Mo laughed, how was there such shameless guy. He didn't intend to take it out at all and just patted the dust on his body "why do I have to show you the immortal spirit herb I dug. Even if it's a chaos spirit item, what are you going to do if I don't show you?"

Then, Ye Mo was planning to fight.

"You're asking to die..." the abstruse immortal tertiary stage immortal saw Ye Mo was a mere abstruse immortal middle stage and dared to be this cocky to great unity immortal.

Suddenly, ten more figures flew over and the great unity immortal ate down his words.

Ye Mo laughed intentionally "I'm not going to give you the immortal spirit herb I dug, if you want it then come rob me, I've seen too many shameless people like you."

The other immortals didn't know what Ye Mo dug but they realized what was going on. They didn't expect this abstruse immortal middle stage to be this bold, not taking a great unity immortal seriously.

Realizing this, although no one spoke for Ye Mo but most people looked at the great unity immortal with contempt.

The great unity immortal sneered and just wanted to say something when he saw a few rainbow flares appear in the sky and immediately stopped talking.

The other immortals saw this and immediately all flew over.

The great unity immortal shot a few rays at Ye Mo and flew off.

Ye Mo sneered and burned the spirit sense marks on him with Heaven Flame Nine Suns. When he was only nascent soul state, he burned truth realisation state spirit sense mark. Now, a mere great unity immortal dared to mark him with spirit sense.

If it was some other person, he would change a direction and fly off but Ye Mo didn't intend to do so at all. He also flew towards the flare.

Ye Mo hadn't been here for long and didn't know the place. he didn't know where the good things were. Since so many people were rushing there, it must mean there are good things there. He wasn't going to pass up on such opportunity.

Ye Mo flew and on the way he saws tens more immortals head towards the same direction.

15 minutes later, Ye Mo saw a palace. Before it was a huge square, Ye Mo couldn't scan his spirit sense into the palace.

There was 2000 immortals gathered at the square all discussing or exchanging things.

A great extreme immortal primary stage flew up and said "friends, we're quite lucky to enter this door and found the entrance to the mist demon palace this quickly. Those who want to go in, let's attack together..."

Ye Mo looked at another abstruse immortal and said "was the door we entered before not the entrance?"

This abstruse immortal knew Ye Mo, the abstruse immortal middle stage who still flew on his flying magic artefact at the outskirts.

He explained "after entering the mist demon valley, there are 9 doors. It's said each door has different fortunes. There's a chance to find the real entrance to the mist demon palace at each door which is this palace. After the restriction of this palace is broken, it would recover after a thousand years. The real good things of the mist demon palace are in here. Inside is another world, there are a lot of good things but a lot of immortals die too."

Ye Mo knew that this abstruse immortal said the last bit to him, implying that his power was too low.

...

“Okay, let’s attack the restriction in groups.” The great unity immortal said.

Ye Mo just wanted to go contribute his power and he saw that abstruse immortal peak stage who ambushed him fly over.

At the same time, the grey robed abstruse immortal also saw Ye Mo. There was pure shock in his eyes when he saw Ye Mo. He thought Ye Mo had long died in the demonic immortal spirit beast tide.

Suddenly, a purple light rose up into the sky. All the immortals near Ye Mo retreated. Ye Mo’s killing intent flooded out.

Ye Mo just wanted to kill this grey robed abstruse immortal and didn’t realise that he caused too much scene releasing Zi Xu. But he didn’t care, he was going to kill this abstruse immortal no matter what.

“Hmm...” that great unity immortal forcing Ye Mo before was also surprised Ye Mo had such killing force.

At the same time, he couldn’t sense his spirit sense mark at all. Ye Mo clearly removed it.

Theoretically, Ye Mo should be running as far as possible but instead he followed here. This abstruse immortal didn’t fear him at all.

“Mo Ying...”

Ye Mo heard a crisp voice call him, soon another pink figure landed not far from Ye Mo.

Ye Mo knew this female immortal, it was one of the four immortals he met on the way. The other three followed.

Ye Mo quickly saluted with his fists “Mo Ying greet brother Xian, and everyone.”

“Hmph, Mo Ying, where did your dao partner go? She’s dead but you’re living quite well.” The red robed female immortal was full of contempt.

Chapter 1648: Ferocious abstruse immortal middle stage

Ye Mo immediately knew she misunderstood. This red robed female immortal probably thought Zhen Bingyu was killed and he felt Zhen Bingyu was cumbersome so he didn’t save her.

Knowing this, Ye Mo didn’t get angry despite her being rude with him. an ordinary person wouldn’t even care if you killed your dao partner or not.

This grey robed abstruse immortal was already concerned with Ye Mo to be able to escape from the demonic immortal spirit beast tide. Now, he seemed to have friends.

This abstruse immortal saw Ye Mo was talking with the female immortal and turned to leave. He knew quite some people here but there might not be a single one who would help him.

Ye Mo was going to kill him, how could he let him go. As soon as he turned, Zi Xu hacked out and he shot out multiple spirit sense blades. He was going to end it fast in case people interfered.

The people around immediately made space seeing Ye Mo was fighting the grey robed abstruse immortal. The abstruse immortal ignored Ye Mo’s sword ray and released a shield while activating his mobility magic.

But clearly, he wouldn’t be able to do this with Ye Mo’s spirit sense blades. His shield wasn’t able to stop the sword ray in time.

The purple sword rays sliced into his body and when his essence spirit flew out, he was still in disbelief. Why was his spirit sense hacked by an invisible sword? That pain in his spirit sense slowed his shield by just a little.

Spirit sense cultivation method? Spirit sense blades? As soon as he realized what was going on, the purple ray rolled back and his essence spirit along with his body was destroyed.

Seeing this abstruse immortal tertiary stage being sliced and diced with one strike from the back, everyone was dazed, not daring to believe what they saw.

Everyone could tell there was conflict between the two. The abstruse immortal was running probably not because he was scared of Ye Mo but the four abstruse immortal tertiary stage behind Ye Mo.

But this abstruse immortal tertiary stage died. He was running and clearly ready for Ye Mo's attack.

But that shield happened to be that bit slower and didn't block the sword ray. No one believed this was a mistake.

Killing an abstruse immortal tertiary stage as abstruse immortal middle stage in one move, not even letting the essence spirit go. This abstruse immortal middle stage was not only strong but ferocious.

Even that red robed female immortal dazed. Before she could keep talking, the other three in her team stopped her.

A few great unity immortals also frowned at Ye Mo, asking everyone to pause the attack.

The great unity immortal who marked Ye Mo also shook. He looked at Ye Mo with even more concern. Even he wouldn't be able to kill that abstruse immortal in one move nor stop his shield.

Ye Mo took the grey robed abstruse immortal's storage ring and saluted with his fists "I didn't know this person at all but when the demonic immortal spirit beast tide came, he ambushed me. I'm just getting revenge this time."

So that was it, the immortals realized. Some of them would've done the same to survive. But Ye Mo survived in that and came back for revenge immediately, not caring there were great unity immortal and great extreme immortal here.

"Wait..." suddenly, an eagle nosed immortal landed before Ye Mo.

It was a great unity immortal primary stage, Ye Mo knew this guy came for the storage ring.

The great unity immortal stared at Ye Mo and said "you just killed my friend. Since he ambushed you first, I won't care about it but I need to take back this storage ring."

Ye Mo sneered, he needed some contribution points the most, how could he give out what he took. He just put away the storage ring as though he didn't hear it.

Seeing this, the great unity immortal's face went bad and released a yellow magic artefact immediately.

The great extreme immortal before sneered "now is the time for everyone to enter the mist demon palace. Everyone will be attacking the restriction, if you have conflicts then resolve them elsewhere. If you keep fighting here, then don't blame me for what happens."

The great unity immortal's face changed and saluted with his fists before saying to Ye Mo "let's go resolve it on the side."

Ye Mo smiled calmly "very well, let's go resolve it on the side."

If it was elsewhere, Ye Mo wouldn't be interested in fighting this great unity immortal but he easily got 100k contribution points from Feng Shangjian last time. He really liked this method of collecting contribution points.

Seeing the two leave, the immortals nearby took back their glances. Some people shook their heads, Ye Mo was indeed powerful but no matter what he was still an abstruse immortal.

...

5 minutes later, the great unity immortal stopped and looked at this abstruse immortal middle stage who didn't fear him at all. He was a little confused, Ye Mo even seemed a little happy as though he was about to get something.

At this moment, he even felt a little creeped out. He didn't understand where Ye Mo got his confidence from.

"Give me Suo fei's storage ring, if you think you're losing something, I can give you some compensation." The great unity immortal frowned and didn't stay so dominant.

Hearing this, Ye Mo realized this great unity immortal really knew the grey robed abstruse immortal. But no matter what, Ye Mo wasn't going to give a storage ring he got away.

"If you want to fight then fight, stop wasting time. I still need to go to mist demon palace." Ye Mo said.

No matter what he was a great unity immortal. An abstruse immortal middle stage dared to be this cocky with him, how could he take it. he released the yellow magic artefact.

Screech.

Countless yellow rays shot out from it and entwined together. But they didn't shoot towards Ye Mo and instead slowly expanded forming a death chamber. The magic artefact then turned into two wheels.

The two wheels squeezed towards Ye Mo.

As the magic artefact sped up, the sounds grew louder, making Ye Mo's head dizzy. He even had the impulse of running away or his sea of consciousness would be overturned by this sound.

But before this sound got sharper, Ye Mo expanded his spirit sense domain and released world rock.

The terrifying sound weakened a lot immediately.

The great unity immortal breathed easy. He was very concerned with Ye Mo to be able to kill Suo Fei in one move but now Ye Mo didn't seem to be able to last under his soul sound. It seemed he overestimated this abstruse immortal middle stage or something went wrong with Suo Fei.

Suddenly, Ye Mo's world rock smashed over.

Rumble, crack.

The world rock collided with his magic artefact and a shocking sound flew out. Even with spirit sense domain, Ye Mo felt his sea of consciousness go dizzy.

The immortals before the palace all heard this sound and was shook. An abstruse immortal middle stage fighting a great unity immortal caused such a huge commotion.

Chapter 1649: Maze

The great unity immortal primary stage immediately noticed his magic artefact being smashed by the world rock. He received the backlash and spat a mouthful of blood. That terrifying sound also caused chaos in his sea of consciousness.

He immediately knew things wasn't good. Since when could an abstruse immortal middle stage smashed his magic artefact immediately. Even if Ye Mo really was abstruse immortal middle stage, that terrifying stone magic artefact wasn't something he could deal with. That rock after released with magic had a terrifying weight that ordinary magic couldn't deal with.

The great unity immortal realized this so when the black rock smashed over again, he desperately released his only other magic artefact wheel barely stopping the world rock.

Crack.

The terrifying sound exploded again, this time, it was also smashed to pieces. He was backlashed by his magic artefact twice and spat many mouthfuls of blood. He realized he was completely no match for Ye Mo, this abstruse immortal middle stage was too scary, or his black rock was too powerful.

“Stop...”

Seeing the rock smashed over again, he quickly called out. He really didn't understand why the exploding sound didn't injure Ye Mo.

Ye Mo wasn't going to stop. The world rock smashed down without hesitation.

Realizing that calling stop was useless, the great unity immortal released another light barrier shielding him. at the same time, his figure began to dim inside.

When the world rock smashed on the yellow barrier, it paused for a brief moment. The barrier crippled and the world rock charged in but this time was enough for that great unity immortal to disappear.

Then, the world rock floated before Ye Mo.

Ye Mo was extremely uncomfortable. He didn't feel this great unity immortal running at all, how did this guy get away. he didn't even feel space ripple at all.

Just when Ye Mo was certain the great unity immortal was gone, Zhen Bingyu spoke with him. Ye Mo immediately gave the control rights of the flying snow orb to Zhen Bingyu.

Zhen Bingyu immediately came out and said to Ye Mo “there's an extra rock on your left.”

Ye Mo immediately knew what Zhen Bingyu meant and the world rock flew up again smashing at that rock in lightning speed.

This rock was indeed a transformation magic used by that great unity immortal. It was a good high level magic. Although he turned into a rock, he was watching Ye Mo non stop. When Zhen Bingyu suddenly

appeared, he knew Ye Mo had a small world but before he could react the world rock smashed down again.

Seeing the world rock land on his body, the great unity immortal knew there was no time to run. He never had thought he would be killed by an abstruse immortal middle stage in a head on battle.

Blood mist sprayed, the rock was smashed to a meat pie. The rock disappeared, showing the body of the great unity immortal. Ye Mo released shadowless to devour the essence spirit and then picked up a storage ring.

Ye Mo opened the two storage ring he got. There were 8 million top grade immortal crystals in total, the great unity immortal had 6 million.

Other than this, there were some immortal spirit herb and materials as well as jade slips.

What Ye Mo cared about the most were the contribution points. The two jade cards were blue. Seeing Suo Fei's jade card, Ye Mo realized why this great unity immortal must take Suo Fei's jade card.

Suo Fei had 2 million contribution points, the great unity immortal only had about 1 million. Suo Fei also had some other jade cards that had some contribution points. Some had none some had a few hundred thousand.

"Finally got a little wealthier." Ye Mo smiled at Zhen Bingyu.

With all this, Ye Mo was near 4 million contribution points.

Ye Mo took out his jade card wanting to transfer the points to his jade card.

But what shook Ye Mo was he couldn't do it at all.

"What's going on?" Ye Mo looked at Zhen Bingyu in confusion. he easily transferred Feng Shangjian's contribution points. That card was green while these two were blue, was it to do with this?

Zhen Bingyu frowned “ask someone later, some of the jade cards in Suo Fei’s storage ring are empty meaning he transferred them but there are some he couldn’t.”

Ye Mo nodded, he decided to go ask that brother Xian.

“Go into flying snow orb, we’ll go to the mist demon palace now.” Ye Mo said and released Blue Moon immediately.

...

When Ye Mo came to the entrance again, there was just some broken restrictions but not a single person.

It seemed the group had gone in already.

Ye Mo went in without hesitation too.

This place was more like a maze than a palace. There were twists and turns everywhere, countless corridors.

Ye Mo walked for nearly an hour and didn’t see a single person. he doesn’t even remember the way back now. there would often be some rooms in the corridors but inside was only bones and nothing else. The storage ring on the bones were gone. These bone were undoubtedly immortals who died here before.

They probably couldn’t get and eventually died to demonic immortal spirit beast.

Zhen Bingyu saw this too and flew out of the flying snow orb.

“It seems we’re late, there’s definitely people who have a map of the inside here. People definitely have at least a simple map to get out. We don’t have a map, we might get lost in here.” Ye Mo said.

“This probably isn’t a palace, it’s a trap formation. My master told me about this but I’m no formation great master, neither is my master. she says if we don’t have a map, we wouldn’t even be able to get out.” Zhen Bingyu said.

Soon, Ye Mo thought of something. He flipped out a few jade slips from his storage ring and found a jade slip with a map. He scanned his spirit sense in and rejoiced momentarily after “There’s a map of the palace in here, it only has a marking of the exit, no precise map of the palace.”

Zhen Bingyu knew the jade slip probably came from the great unity immortal and nodded “actually, we have another way that doesn’t include the map...”

Ye Mo was dizzy, he hated mazes. He quickly asked in joy “what way?”

“Usually in such places, if we have spirit seeking beasts we can follow them to find the most valuable room.

Zhen Bingyu’s words cooled Ye Mo down. He didn’t have spirit seeking beast. He had a snow fox in the golden page world but that snow fox’s level was too low and was now Luo Ying’s pet.

“I don’t have spirit seeking beast.” Ye Mo shook his head. He wasn’t planning to walk around here, he was going to study the trap formation.

“No you have something better than spirit seeking beast.” Zhen Bingyu shook her head.

Ye Mo immediately understood and blurted “you’re talking about shadowless?”

Zhen Bingyu nodded “yes, even though it’s level is low, it’s definitely the most useful thing here. He can’t tell you the exact situation but he can definitely point to you the place with the best immortal spirit chi or the place that would benefit him the most.”

Ye Mo cursed himself for being dumb. Shadowless was a natural bottomless hole, it would eat anything that had immortal spirit chi. He only needed to order shadowless to go to the place with the best immortal spirit chi.

Shadowless was clearly very excited after Ye Mo called him out. It immediately blinked in front of Ye Mo and disappeared.

Chapter 1650: How About No

With shadowless leading the way, Ye Mo didn't go around cluelessly like before. in just half a day, he found a immortal spirit herb garden. There was just a few level four immortal spirit herb but this was a target for Ye Mo.

On the 9thday, shadowless suddenly became excited. He sent Ye Mo a strong message and flew in through a tunnel. Ye Mo didn't have time to care what Zhen Bingyu thought and grabbed her hand and sent her into the flying snow orb before chasing shadowless.

In less than 5 minutes, Ye Mo followed shadowless into a larger room. this room was larger than all the rooms he had been in.

The first thing he saw was a light restriction in the center. He didn't look at what was inside and stopped instead telling shadowless to not run around.

This was because he wasn't the first to come into this room. before he came in, there was four people already. They were discussing hwo to divide the things in the restriction. At least they hadn't reached an agreement now or this restriction would've been broken already.

These four were all abstruse immortal tertiary stage power. The instant Ye Mo came in they all looked at Ye Mo. Their expression was very strange as though confused how Ye Mo could find here.

"It's you?"

One tall abstruse immortal tertiary stage called out in shock clearly recognizing Ye Mo.

Ye Mo saw this abstruse immortal tertiary stage and immediately recognized him. this immortal was there when he left with that great unity immortal, Ye Mo had an impression of him because he was very tall.

“Brother Lu you know this person?” another pretty eyed immortal asked.

“Yes I know.” The tall abstruse immortal saluted with his fists “brother MO, I didn’t expect you were this fast too.”

He knew Ye Mo’s name was Mo Ying from the pink dressed female immortal. He didn’t dare to be rude to someone as powerful as Ye Mo. Ye Mo killed an abstruse immortal tertiary stage in one move and then left with another great unity immortal. It was clear that they were fighting with their lives.

Now that Ye Mo was here, that great unity immortal was probably dead.

“How did you come here? Do you have a map too?” the pretty eyed immortal frowned seeing Lu knew Ye Mo and was very respectful to him.

Ye Mo ignored this guy, his eyes scanned to the restriction in the room.

There were two magic artefact and another jade slip. There were for here, clearly they couldn’t divide things.

“Are you deaf? Did you not hear me talking to you?” that pretty eyed immortal said.

He was planning to let Ye Mo who might have a map leave. Ye Mo’s attitude gave him an excuse.

But then he looked at Lu with a little concern, the two seemed close.

However, Lu saw this and saluted with his fists “brother Mo, Lu will be going first, the things inside have nothing to do with me.”

Then he walked to the door, the abstruse immortal with Lu also left without hesitation. They both saw Ye Mo fight. Ye Mo wasn't even scared of great unity immortal, even though they had four here they were probably no match for Ye Mo together. Plus, it was just two magic artefact here, no need to fight with Ye Mo.

Seeing this, the pretty eyed immortal glanced at his friend. He didn't understand why Lu was leaving. Ye Mo was just an abstruse immortal middle stage.

"Wait." Ye Mo suddenly stopped Lu.

Lu shivered but he stopped and saluted with his fists "brother Mo what do you need of me?"

The abstruse immortal tertiary stage with Lu also stopped.

"Do you have a map to be able to find here?" Ye Mo asked.

Lu quickly waved his hand "no I accidentally found them two had a map so I followed them."

"Okay, I have one more thing to ask." Ye Mo nodded.

"Please ask brother Mo." Lu had a very good attitude.

"When I got the green contribution card, I could easily transfer the points to my card. How come when I got a blue card I can't transfer it?"

Hearing this, Lu's face changed. He definitely didn't believe that Ye Mo didn't know about the five colored contribution cards. Now that he asked this, he was definitely warning him not to speak around.

This meant that he had killed that great unity immortal and that great unity immortal's contribution card was on him. If he dared to do anything, Mo Ying would definitely show no mercy.

Little did he know that Ye Mo actually didn't know.

Even though it was a warning he didn't dare to not answer "not only blue cards can't transfer but even some green cards can't transfer."

"Why is this?" Ye Mo asked in confusion.

Seeing that Ye Mo seemed to really not know, Lu was confused but he still answered carefully "cards above green color can imprint spirit sense mark. Of course you don't have to. Those with spirit sense mark won't allow other people to transfer contribution points unless he removes the spirit sense mark or control it with his own spirit sense."

Ye Mo immediately realized those cards that couldn't be transferred already had spirit sense mark.

Seeing Ye Mo frown, Lu added "the spirit sense mark is marked by the place that distributes the card. Ordinary immortals can't remove it. people who buy contribution jade cards can pay an additional 100k immortal crystals to mark with spirit sense.

Ye Mo was annoyed, he had a few million contribution points but how was he to remove the spirit sense mark.

"How do you remove the spirit sense mark?" Ye Mo asked.

Lu said "only the owner of the jade card can remove it. as long as the essence spirit still exists, the spirit sense mark can be removed. Some immortals use their spirit sense mark to trade for the freedom of their essence spirit."

"Thank you brother Lu." Ye Mo knew where the problem was.

Hearing this, Lu saluted with his fists and disappeared in the corridors.

As soon as Lu left, Ye Mo thought of another thing. He already killed Suo Fei and his card also had spirit sense mark. Why did that great unity immortal still want Suo Fei's storage ring? Was it not for his jade card?

Now, no matter how dumb the pretty eyed immortal was, he realized Ye Mo was no ordinary.

Otherwise, two abstruse immortal tertiary stage wouldn't immediately leave and be so respectful.

The pretty eyed abstruse immortal smiled and saluted with his fists "friend, my surname is Tu. There's only us three now. there happens to be three things inside we can have one each."

Ye Mo moved his glance from the restriction and said coldly "are you blind, did you not see my look inside?"

This abstruse immortal immediately knew Ye Mo was cursing him back for calling him deaf.

He looked at his friend and saw him slowly shake his head clearly signaling him not to start trouble.

Ye Mo could see it was a long sword and a blue flying sword inside but he didn't know what grade they were.

"Friend, what do you think of martial brother TU's suggestion?" the other abstruse immortal asked seeing Ye Mo said nothing.

"How about no." Ye Mo said calmly "leave your storage ring and piss off."

"You're asking to die." Lu couldn't take it anymore and released a black pebble.

He threw it out and his friend also released a huge flag.

But before their magic artefact were fully released, Ye Mo's spirit sense blades and world rock smashed out.
