

Strongest As 1651

Chapter 1651: Prodigies meet

Thud.

The black pebble was smashed by the world rock. Lu immediately felt he couldn't control it anymore and then there was this twisting pain in his sea of consciousness.

Such a terrifying weighting stone, such strong attack method. Tu immediately knew he was no match for Ye Mo. The difference was too great. Even he and his friend combined was no match for Ye Mo. He finally realized now why Lu immediately left seeing Ye Mo. This guy was no weaker than great unity immortal.

"Hang Feng, let's run..." Tu just said this and was about to run out of the room. Ye Mo's stone smashed at Hang Feng while a purple ray swept at Tu.

Hang Feng knew that Ye Mo's power was not on the same level as theirs. He didn't completely release his flag and was about to dash out of the room before Tu. He took the opportunity and only paid the price of his magic artefact being destroyed and escaped Ye Mo's world rock. But just when he got to the door, an extremely bored shadowless charged up.

In just two strikes, the two abstruse immortal were killed by Ye Mo and shadowless. Ye Mo took the storage rings but didn't take back world rock. He just smashed at the restriction.

Crack, the restriction crippled quickly.

This time Ye Mo swa clearly. The blue flying sword was a level seven immortal artefact, this was top grade immortal artefact. There another frosty sword that was also level seven immortal artefact.

Ye Mo put away the sword and gave the flying sword to Zhen Bingyu in the flying snow orb. Then he picked up that jade slip.

It was an immortal range cultivation method but it was completely useless to Ye Mo so he threw it into his storage ring.

“No wonder he asks if I had a map.” Ye Mo found a map from Tu’s storage ring. It was very clear and marked all the routes in the palace clearly. This route didn’t clearly say which room had magic artefact but those people taking this route would go into a room when they see one for sure.

“There’s actually such a clear map.” Zhen Bingyu came out of the flying snow orb and saw the map.

This map was indeed very clear. Ye Mo was rejoiced that he got such a clear map but hearing Zhen Bingyu’s words, he was confused.

This map was indeed very clear but near the end it seemed to get obscure. This map didn’t have a final destination.

“This is really interesting.” Ye Mo put away the map.

“You’re suspecting this map?” Zhen Bingyu asked. She knew this map was probably real or this Tu wouldn’t be able to find this room.

“I don’t doubt the map but I trust shadowless more.” Ye Mo answered. If he didn’t have shadowless, he would have to follow the map but he does have shadowless so why follow the map?

Zhen Bingyu nodded and went into the flying snow orb. She trusted Ye Mo’s judgement was correct. This map was a bit strange indeed. Shadowless’ capabilities were no weaker than the map, or he wouldn’t have been able to find here in 9 days.

...

In the next few days, Ye Mo followed shadowless. Ye Mo felt shadowless was more powerful than a map. He would find good things everytime, he even got two level seven immortal spirit herb. on top of that, Ye Mo collected a lot of cultivation method jade slip and magic artefact on the way.

Ye Mo compared shadowless' path with the map. Only the first few parts were similar but then it became completely different.

On the 29th day, Ye Mo followed shadowless through this twisted formation and came to a huge altar.

There was a blue stage and on it was a jade slip. The jade slip was under two faint golden materials.

"Sky mobility gold?" Ye Mo recognized the two golden materials. It was level seven immortal material sky mobility gold. It was for making top grade flying magic artefact.

Ye Mo was immediately interested. Compared to sky mobility gold, other level seven materials were nothing.

Without a doubt, the jade slip under it wouldn't be simple. Ye Mo's spirit sense scanned that aqua stage, he felt that the stage was on par with the sky mobility gold, as though it would be very useful to him as well.

What was this?

Ye Mo hesitated for a moment and decided to break the restriction first and then put it in his collection before studying.

As soon as Ye Mo released the world rock, he felt an extreme sense of danger. The world rock instantly blocked behind him.

Rumble.

A black beam struck world rock. Ye Mo retreated tens of meters before barely stopping himself. His world rock was smashed away to the side.

Ye Mo was shook, this was the first time he encountered a guy who could hack away world rock. Such powerful ambush, it was a great unity immortal without a doubt, a rather strong one too.

But when Ye Mo settled his mind, he saw the person who stood before him seemed even younger than him. what shocked him even more was that this guy was abstruse immortal tertiary stage.

Ye Mo had always been the one to instant kill abstruse immortal. Yet one day an abstruse immortal tertiary stage almost ambushed him and injured him lightly.

The abstruse immortal tertiary stage was calm and his face sunken like water. He stared at Ye Mo as though contemplating something. In terms of looks, Ye Mo felt he was far from this guy. He was certain this guy was abstruse immortal tertiary stage indeed.

But this ambushing handsome abstruse immortal was more shocked but he didn't show it on his face at all.

Ever since he came out, there had never been an abstruse immortal to survive under his ambush much less an abstruse immortal middle stage. So what if it was great unity immortal, he had killed more than a few.

Yet this very young abstruse immortal middle stage not only stopped his ambush and was unscathed. Where did this guy come from? how could there be such a strong abstruse immortal middle stage? Was he like himself, having a huge secret.

He came for that jade slip, otherwise why would he ambush an abstruse immortal middle stage. That jade slip was too important to him.

"Who are you here? How did you appear here?" the abstruse immortal tertiary stage calmed his shock and stared at Ye Mo asking. He had to know how Ye Mo came.

Ye Mo saw this abstruse immortal tertiary stage had a black smoke around his wrist, was that what struck away world rock?

"Who are you? How did you appear here?" Ye Mo asked as well.

"I'm Yan Jiutian, my heritage has left a map so I came here." Unexpectedly, this abstruse immortal tertiary stage answered pridefully.

"Your heritage left behind a jade slip?" Ye Mo asked "show me."

Ye Mo was being unreasonable, he didn't believe this guy would show him.

However, Yan Jiutian threw a jade slip at Ye Mo without hesitation "it's here, you can see it."

Ye Mo realized that Yan Jiutian was just telling him that the things here doesn't belong to him. keep dreaming, since he saw it, he would have to get it.

Ye Mo scanned this jade slip and saw it was pretty much the same as what he got from Tu. The only difference was Tu's map didn't clearly point to here but Yan Jiutian's did.

Giving the map back, Ye Mo said calmly "My map is different, I have a few path leading to here but you only have one."

Yan Jiutian's face changed but then he sneered "I was wondering why, you bought the incomplete map I sold. Does your map only have the route but not this altar?"

Chapter 1652: Opponent

Ye Mo dazed, selling such map out? Was his brain broken? What did he mean?

Ye Mo dind't believe Yan Jiutian was this generous.

"So the map you got is mine, of course it's your fortune to get the map but it's what my heritage left me. I can only ask you to leave. But of course, I will give you compensation..."

Yan Jiutian wasn't scared of Ye Mo, he desired that jade slip too much. He knew that with his current power, if he got the jade slip, he would be able to instantly kill great immortals. As his power grew, his power to fight beyond his level would be stronger. Even if he had to kill Ye Mo, it would be after he got the thing. He knew Ye Mo was no match for him but he had to be careful.

Hearing this, Ye Mo suddenly thought of something and instantly realized what was going on. He smirked "I believe there's more than one way here right? Every route would have some good things on the way but you don't have the time to go collect it all yourself so you can only ask others to help you. Perhaps you did something on the map. Once you get what's here, you would go find them one by one."

Yan Jiutian's face changed again, Ye Mo immediately knew his guess was right. Yan Jiutian was willing to give up the other things in the other routes for the things here. Clearly it was something substantial. Otherwise, he wouldn't do this. He might not be able to collect back 100% of the things other people with the map got.

"You're very smart and the most powerful opponent I've encountered. In that case, let's not waste time talking..." before Yan Jiutian finished, the black mist rose up and turned to a thick black shadow smashing towards Ye Mo.

The black shadow was extremely fast and tore through the space like a black river tipping.

Ye Mo released world rock and brought with it a huge immortal essence whirlpool. The black shadow in the whirlpool also charged at the black flow.

After the black flow landed, it seemed overwhelming and dominant. Ye Mo's black world rock seemed miniscule in this grand flow.

Ye Mo was shook and inserted his immortal essence into the world rock like crazy. Without his help, the world rock wasn't as powerful as the black flow.

Rumble.

The world rock and the black flow collided together. Immortal essence scattered everywhere, exploding on the sturdy floor. Ten meter deep ravines were created.

The black ray and black mist splashed away onto the restriction on the altar.

Ye Mo flew back and the world rock was smashed to the side again. This was smashed away in a head on clash not in an ambush. Yan Jiutian's immortal essence was on par with him and his spirit sense was on par with him too. Ye Mo didn't know what the black mist flow was but it seemed harder than his world rock.

Yan Jiutian didn't get the upper hand too. The mist flow split apart as though about to dissipate. But when Yan Jiutian stabilized himself, the mist quickly gathered together and circulated around Yan Jiutian.

Yan Jiutian grunted and suddenly lifted his hand. The black mist turned into multiple black arrows and flew towards Ye Mo.

Suddenly a silver dragon appeared next to him. Yan Jiutian patted the dragon's back "tear him apart."

Shew.

Tens of black lines pressed towards Ye Mo while the silver dragon chased right after.

Ye Mo knew that such weapon was divided from a magic artefact that could fight with the world rock. Even his immortal nirvana body can't take a hit head on.

Yan Jiutian's power was far beyond Ye Mo's expectations. The lines looked ordinary but all the space around him was locked by the flying arrow. He had no other way but to take it head on.

Ye Mo released octagonal cauldron and smashed at the silver dragon with the world rock.

Rumble.

The black arrows shot on octagonal cauldron creating huge explosive sounds. Ye Mo's sea of consciousness ached as he spat multiple mouthful of blood. There was a cracking sound, Ye Mo knew the octagonal cauldron cracked.

Ye Mo knew the octagonal cauldron came from a very mysterious place, the Truth Fall Palace forbidden grounds, where the World Mountain was. He could only control 5 levels of restrictions inside and couldn't control anymore.

Yet such a magic artefact actually shattered under the black arrows.

Thud.

The world rock smashed with the silver dragon. Blood mist sprayed, the silver dragon stopped the world rock but was smashed to the side and instantly retreated back to Yan Jiutian. He looked at Ye Mo with a sliver of fear.

Ye Mo quickly put the octagonal cauldron back in his ring and didn't even have time to eat pills. He released Zi Xu which turned into a purple ray and smashed down at Yan Jiutian.

Yan Jiutian was starting to attack the restriction now. even though Ye Mo was heavily injured, how could he let this guy have what he wanted.

Yan Jiutian saw Ye Mo was fine again and just spat a few mouthful of blood. He was even more shocked. The black arrows gathered into the mist again.

Yan Jiutian's face looked bad, never had he thought he would fight so arduously with an abstruse immortal middle stage. When the purple ray came, the mist turned into a spear and stopped the purple ray like a ghost.

Purple ray splashed around but the spear didn't move at all.

Yan Jiutian didn't keep attacking Ye Mo nor did Ye Mo keep attacking Yan Jiutian. Ye Mo had the lower hand in the battle and was a little injured.

“You’re the strongest abstruse immortal middle stage I’ve seen but it ends today. Pity, you had a bright future ahead of you.” Yan Jiutian held the black spear and didn’t care about the heavily injured silver dragon.

“Silie, attack.”

Then Yan Jiutian brought a flurry of spear shadows and smashed at Ye Mo. He knew he wouldn’t be able to get what he wanted if he didn’t kill Ye Mo.

Ye Mo sighed, Ye Mo was scared of this guy defending. If Yan Jiutian didn’t take the offensive, he really didn’t know what to do.

The world rock smashed at the dragon again. The dragon was already very scared of the world rock but he didn’t dare to retreat. He could only roar and charge at the world rock.

“Die...”

Yan Jiutian roared as he attacked Ye Mo.

The explosive immortal essence was like a terrifying mountain. Before Yan Jiutian even neared Ye Mo, it already pressed towards Ye Mo without mercy.

Ye Mo grunted, his immortal essence and spirit sense rushed. He hadn’t released lightning sword yet but the lightning lights already surrounded him.

“Lightning element...”

Yan Jiutian stared at this lightning in shock. But so what if Ye Mo was lightning, who would escape when he was determined to kill him?

Ye Mo felt a very terrifying thing emit from Yan Jiutian but he didn’t know what it was.

He can't be any slower, shadowless charged up. Zi Xu released a shocking purple beam tearing the distance between him and Yan Jiutian.

Illusion Cloud Hua Mountain strike, Kill!

Lightning sword rumble!

Yan Jiutian suddenly had the impression that something was ambushing his meridians. No, something really was ambushing his meridians.

Rumble.

Zi Xu clashed with the black spear, Zi Xu didn't stop at all, Illusion Cloud Hua Mountain strike, the strike of one road and no return!

But Yan Jiutian felt his black spear pause for that brief moment when clashing with Ye Mo but that was enough for Ye Mo.

Chapter 1653: Vindicate my dao

Rumble.

At the same time, Ye Mo's lightning sword smashed down. Seeing Zi Xu's force, Ye Mo knew it should be fine hacking open this terrifying mist spear. Now that Yan Jiutian was ambushed by shadowless and paused for a moment, he wouldn't be able to escape his lightning sword.

Splurge...

Zi Xu hacked on Yan Jiutian's chest but Ye Mo dazed. He almost didn't believe his eyes. He clearly felt the distance between Zi Xu and Yan Jiutian suddenly increase. The strike that should've sliced Yan Jiutian in half only left a deep gash on Yan Jiutian.

The main reason was that the distance between them suddenly increased, without any premonition.

Ye Mo was certain that increase in distance wasn't something that could be achieved by Yan Jiutian retreating. Yan Jiutian couldn't retreat, he was certain that space appeared out of nowhere. Just like how the nine headed void devouring bug makes space disappear for no reason. Now, space appeared for no reason.

"Space law..." Ye Mo called out in shock.

He instantly realized, Yan Jiutian was a mere abstruse immortal tertiary stage but he learned a sliver of space law. This was too terrifying. This was something only top status immortals could learn. One at least had to be above immortal king to learn this or must be a very talented immortal king. Yan Jiutian was only an abstruse immortal tertiary stage.

This was different to the nine headed void devouring bug, that nine headed void devouring bug had a natural ability but Yan Jiutian truly learned this space god art.

Ye Mo also knew why he felt this terrifying thing on Yan Jiutian. This guy touched on space law.

Thud

Suddenly, the black spear split and still pierced into Ye Mo's chest.

The spear couldn't penetrate Ye Mo entirely but he splashed no lesser blood than Yan Jiutian.

"Immortal nirvana body..." Yan Jiutian was no less shocked than Ye Mo. Ye Mo was only an abstruse immortal middle stage. His means were this terrifying and was an immortal nirvana body. Just where did this insane abstruse immortal come out from? what ambushed him before?

The silver dragon was smashed again and looked even more withered. He retreated next to Yan Jiutian.

Although Ye Mo and Yan Jiutian were both heavily injured, Ye Mo was immortal nirvana body and recovered much faster than Yan Jiutian.

Yan Jiutian knew that if it wasn't for his space law, he would've lost his life. Seeing Ye Mo's power rise again, he knew that if he stayed here today he would probably die.

He felt very depressed. He would smirk in contempt if someone said he was no match for an abstruse immortal middle stage but now he really was no match for an abstruse immortal middle stage. It's not that he wasn't strong but this abstruse immortal middle stage was too absurd. He was certain Ye Mo didn't hide his power.

"Lightning element, immortal nirvana body, and such terrifying means. I see." Yan Jiutian ate a few pills and his force rose drastically. He knew he was no match for Ye Mo but he really didn't want to leave this place.

"I just want that jade slip, you can have the rest and I'll give you 5 million contribution points." Yan Jiutian said heavily.

Ye Mo seemed like he didn't hear this. He suffered this much today and this bastard wants him to compromise. Keep dreaming.

Zi Xu sliced out again, Illusion Cloud domain kill strike.

Purple sprayed all over the heavens.

Feeling the space around him change, Yan Jiutian's face changed. He still had killing blows he didn't use but he knew Ye Mo also had killing blows he didn't use.

Yan Jiutian didn't hesitate at all now, the black mist circulating around him exploded and instantly formed a dark ray. The jade slip was important but it wasn't as important as his life.

When Zi Xu sliced across, the dark ray disappeared.

“So powerful.” Ye Mo ate a few pills and felt very threatened by this Yan Jiutian. Although he won today, that was because Yan Jiutian couldn’t completely use his space law and Yan Jiutian didn’t know he had so many means. If the two met again, it wouldn’t be so simple to gain the upper hand.

Yan Jiutian was the most powerful same level opponent he had encountered. That black mist was even a little more powerful than world rock.

If possible, Ye Mo would kill Yan Jiutian at all costs but he knew he wouldn’t be able to stop Yan Jiutian from going.

Ye Mo sighed and smashed the world rock on the restriction.

After the restriction was broken, Ye Mo immediately charged on the stage. He took the sky mobility gold and the jade slip while sweeping away the aqua stage into his golden page world.

As soon as he did this, the altar lit up. Ye Mo was immediately about to charge out but he couldn’t resist at all and was surrounded by the light and disappeared.

Ye Mo calmed down once he was bound by the light. He knew this was probably a teleportation formation. He didn’t know where it was to but he couldn’t tell it was a teleportation formation before at all.

Ye Mo felt a little dizzy, he forcefully controlled his sea of consciousness making himself stay conscious.

Luckily this process wasn’t long and in just tens of seconds, Ye Mo fell to the ground.

Ye Mo looked dazily at what was before him. A huge, grand and ancient palace appeared before him.

This gigantic force made Ye Mo even want to kneel down and pray to this palace.

Ye Mo forcefully hacked out a few spirit sense blades in his sea of consciousness and barely controlled this urge to kneel down. He was shocked, what was this place?

After a long while, Ye Mo came back to his senses and studied this palace. It wasn't big but it was very tall. Even his spirit sense couldn't reach the top.

There was a huge altar in front of the palace, there was a few candles burning on the side. These few candles gave him an extremely eerie feeling. What candle was this, burning after all these years.

Ye Mo walked a step forward.

Kuang.

A soul shocking sound appeared in his sea of consciousness, Ye Mo subconsciously shivered. Was this footstep sound?

Ye Mo didn't keep going forward, he carefully scanned the 8 candles before reaching a golden statue. It was a very fat middle aged man but he seemed ethereal.

Before Ye Mo moved his spirit sense away, that same sound appeared again.

"Those who vindicate my dao, receives my heritage, serve me as master... kneel..."

"Those who vindicate my dao, receives my heritage, serve me as master... kneel..."

This sound repeated again and again as though striking the depth of one's soul.

Ye Mo suddenly had this intense pious urge to kneel and worship but the next moment, the Three Birth Chant led immortal essence in cycles and shivered Ye Mo. Before he could do anything, Zhen Bingyu dashed out of the flying snow orb.

Ye Mo caught her the instant she came out. Before she could kneel down, he knocked her out and sent her into the flying snow orb.

Ye Mo closed his eyes and ran the Three Birth Chant like crazy. That pestering sound slowly dissipated from his brain but it was still in the palace.

After a long while, Ye Mo opened his eyes.

If it was someone else, he would've probably knelt down, even that Yan Jiutian. Sending him off was helping him.

Ye Mo had always been cultivating under the bitter bamboo and used the Three Birth Chant born from the chaos. His mind was firm like a boulder. Even heart demon couldn't affect him.

Although Ye Mo hadn't come into contact with dao vindication masters but he wasn't an idiot about dao.

The Three Birth Chant thought that. Dao people created itself, those who achieve great dao are born from all the things in the world. dao gives birth to one, one becomes everything.

This everything includes himself but Ye Mo knew that no dao could be vindicated from someone else. Dao vindication came from relying on one's own great wisdom, perseverance and fortune...

Yet the first thing this palace said was "those who vindicate my dao..." it was completely opposite to his understanding of dao.

Chapter 1654: Spirit Will Nine Transformations

Even though Ye Mo couldn't derive dao, he didn't believe dao could be vindicated from someone else or use someone else's heritage to vindicate dao.

There were millions of ways to dao vindication but not a single one was made by others and ready for you to use. Each dao vindicator had his own path.

Of course, the prerequisite for this was the ability to think and stop worship. Ye Mo had the ability to think and didn't lose his consciousness.

Facing against this sound, the higher the power the more enticing it would be.

Realizing this, Ye Mo completely ignored that sound.

After focusing his mind, Ye Mo set his gaze on the altar again. There were also a few jade slips on it and in the centre of the 8 candles, there was a subtle light flickering. Ye Mo felt the light seemed to be alive or perhaps was the heritage light of that sound.

Ye Mo calmed down. He gave up taking the jade slips, no matter how good the cultivation method, he didn't believe it would be as good as Three Birth Chant. But then Ye Mo was shook, he realized he couldn't get out at all.

Everything around him was empty, the only thing he could see was that 8 candles and the jade slip in the center as well as that light.

Ye Mo's spirit sense scanned to the top of the palace, it seemed high and low at the same time. Sometimes you could touch it, sometimes you didn't know how high it was. This entire palace seemed to be big and small variably.

Seeing this, Ye Mo's heart sunk. He had a bad feeling. It seemed that after entering this palace, he had no choice but to accept the heritage. This was a very eerie palace. If it was someone else here, this palace would not only not be eerie but the bright lantern leading him to dao vindication.

After a long while, Ye Mo took another step forward. The soul shaking voice in his mind grew more intense. Ye Mo had a feeling that if he knelt down and crawled forward piously he would be able to get to the altar quickly.

Ye Mo closed his eyes and didn't keep going forward. He wanted to find a way out.

After calming down again, Ye Mo took forward a big step but soon he found that the sound was ever more penetrating. What shook Ye Mo more was that after he took this step, he found that he didn't seem to have moved at all.

"Space law..."

Ye Mo murmured to himself with a bad face. He appeared in a palace with space law. He was certain that there didn't seem to be another way out but to accept the heritage.

At the same time, he realized why Yan Jiutian had such a map. He wasn't lying when he said his heritage left this.

His heritage probably let him come here to receive dao vindication heritage. Pity, he was sent running away before coming in here. Perhaps he really helped this Yan Jiutian.

It must be a very powerful being to have left the heritage here, otherwise, no matter how talented Yan Jiutian was, he wouldn't be able to fight on par with him at abstruse immortal tertiary stage.

...

Ye Mo knew there was no point in panicking, it would make him lose his wits and fall into that heritage eventually.

Now the only other possibility of getting out was if he learned a sliver of space law too.

In order to prevent Zhen Bingyu from waking up and keep charging out. Ye Mo took out away the control rights of flying snow orb and closed his eyes starting to derive the space laws around him.

Ye Mo relied on not his abstruse immortal middle stage power but the Three Birth Chant. That Yan Jiutian could learn a sliver of space law, he didn't believe he couldn't. Ye Mo knew he couldn't take out the time formation disk.

One was the risk of exposing it, second, time formation disk used time law. He wasn't sure if the two would conflict.

...

Days passed by and the mist demon palace had been open for three months now. all sorts of things happened inside but no one knew that Ye Mo had stood there silently for a few months.

Another month passed and Ye Mo suddenly opened his eyes. He took a long breath. The palace was still the same but he felt a little different.

He realized that this palace only had fragmented space law.

He didn't know what real space law was but the derivation the Three Birth Chant gave him was that only space law that could entwine with time law was true space law.

Different space appeared in different time, when he realized one day how to connect different space and different time, he would completely understand space law.

But now, just like Yan Jiutian he only knew a sliver but this sliver was enough for him.

The next moment, Ye Mo suddenly took a few steps and then moved one step to the side.

An extremely bright light shone down and Ye Mo took a long breath. He knew the scene before him clearly. It was Ping Piao plain. It only took him a few steps to leave that palace and come out into the plain, not the mist demon palace.

In just four months, Ye Mo could learn a sliver of space law and leave from that palace. Even he felt a sense of accomplishment. He knew he couldn't use space law into battle like Yan Jiutian yet but it was only a matter of time.

After Ye Mo removed the restriction of flying snow orb, he sent a news to Zhen Bingyu and quickly left there. A day later, Ye Mo found a quiet place and took out that jade slip immediately.

Ye Mo really wanted to know what it was for Yan Jiutian to desire it so much.

When Ye Mo scanned his spirit sense in, he found it was an incomplete jade slip. It was heavily incomplete but it kept at the depth of the mist demon place under two sky mobility golds.

The words on it was very obscure, Ye Mo took a long while to recognize it.

“Spirit will nine transformations...”

Ye Mo’s hands shook almost dropping the jade slip. Spirit will was spirit sense? Spirit Will Nine Transformations was spirit sense nine transformations?

Did he get a spirit sense cultivation method? This was what he wanted since the cultivation realm but never got?

Ye Mo’s heart skipped rapidly. The extreme number of the heavens was nine. All those cultivation method called nine were extreme grade cultivation method. Even if it wasn’t the best in the world, it was extremely hard to get just like his flying sword.

Ye Mo knew the power of spirit sense cultivation method. He derived the lowest one from the three eyed purple frog but it was too level. he couldn’t even use spirit sense cultivation method to cultivate his spirit sense, only other treasures.

To Ye Mo, spirit sense cultivation method would be the most helpful cultivation method to him other than Three Birth Chant. If this Spirit Will Nine Transformations was really a spirit sense cultivation method, then he would have a new beginning. It didn’t matter it was incomplete. As long as he had some hint at the start, he would be able to use Three Birth Chant to derive a new cultivation method.

No wonder Yan Jiutian wanted this so bad. If Yan Jiutian really took it, how could he be a match for him the next time they meet. If Yan Jiutian had the other part to it one could foresee that after he completely learned Spirit Will Nine Transformations, he would be invincible.

Ye Mo took a long breath and suppressed the excitement in his heart. He scanned his spirit sense inside. He knew now wasn't the time to study it but it was too enticing.

"Spirit Will Nine Transformations... spirit sense one transformation into blades, blades of thousands, sever enemy sea of consciousness, dominate everywhere..."

Ye Mo just realized that his previous spirit sense cultivation method after working on it for so long was only the first transformation and was incomplete too. If it was the true first transformation it should be much more powerful than this.

Now, Ye Mo had greater hopes for Spirit Will Nine Transformations. He really wanted to know who would be more powerful, his newly derived Spirit Will Nine Transformations or Yan Jiutian's space law.

Chapter 1655: I Object

Before Ye Mo finished reading the first transformation, a huge explosion sounded. Ye Mo immediately put away the jade slip and scanned his spirit sense out.

Ye Mo saw brother Xian and his team. The explosion was two abstruse immortals fighting. It was brother Xian fighting another abstruse immortal tertiary stage. That abstruse immortal tertiary stage also had three behind him. the two teams were clearly fighting for something.

Seeing the situation, brother Xian clearly had the upper hand. The other six didn't fight, clearly they were letting the result of this battle decide the outcome. Ye Mo could tell that one of the three on the toher side was abstruse immortal middle stage. Brother Xian's team had higher overall power but brother Xian was still willing to fight one on one. He was indeed an open and upright person.

Ye Mo wasn't interested in such battle at all. He knew that no matter how much he wanted to study the Spirit Will Nine Transformations, Ping Piao plains wasn't a good place. he had to find a quiet place and go into solitary cultivation.

Ye Mo had decided to stay at the plain for a year. If he could reach top 50, he would go to the lightning immortal well. If not, he would find a place for solitary cultivation and use the du luo heaven fruit to reach abstruse immortal peak stage and then break through to great unity immortal.

The reason he doesn't break through to great unity immortal now was because he knew if he reached great unity immortal now, he wouldn't get a chance to reach top 50 at least in the short term.

The top 50 of heaven immortal rank was 10 million points but for great immortals, top 50 was 100 million.

Just when Ye Mo was about to take back his spirit sense, he saw two more immortals fly over and landed near where the fight was. Ye Mo knew this person. It was that great unity immortal who made him hand over the du luo heaven fruit.

Ye Mo wasn't planning to go over but seeing this great unity immortal, Ye Mo was immediately annoyed. This guy dared to mark him with spirit sense mark and only left because the mist demon palace was opening.

If he didn't see this guy then never mind but now that he saw this guy, Ye Mo released Zi Xu and flew over without hesitation.

The battle stopped as soon as the great unity immortal came over. The two sides were originally against each other but now they were all against this great unity immortal.

"There's a mud lotus, you guys are quite lucky. Oh no I mean I'm quite lucky." That great unity immortal could see an extremely hidden mud lotus but it was revealed now.

The great unity immortal said to brother Xian and them "okay you can all go now, I'll have this mud lotus now."

"What for? We found this first, the fight is between us eight, you're going to be this domineering just because you're a little stronger?"

The abstruse immortal middle stage said unhappily. He thought that if all eight of them attacked together they would still have a chance. He had seen four abstruse immortal work together to kill a great unity immortal. But now, there was eight of them.

“Because of my flying sword...”

The great unity immortal raised his hand and a faint yellow beam flashed. It shot instantly at the abstruse immortal middle stage’s neck.

The abstruse immortal middle stage didn’t seem to be weak and immediately tried to dodge but then he felt the space around him slow and he could only barely move his neck aside but the flying sword sliced across his shoulder.

Blood shot out, the abstruse immortal middle stage’s face was scarily pale. None of the people dared to say a thing. He didn’t even dare to pick up his shoulder.

This great unity immortal was scary to this extent. He couldn’t even resist.

“Hmm...” the great unity immortal saw the abstruse immortal middle stage avoided death and took back the flying sword before saying coldly “seeing as you dodge that, I won’t take things seriously with an insect like you. I’m going to take the mud lotus now, who disagrees?”

“I disagree.” To the surprise of the great unity immortal, someone actually said something. But then he realised the voice didn’t come from the eight people but from the side.

How did he not notice this person at all. Just from this, he knew he was no match for this person.

The rest of the people all saw a purple light land.

“It’s you?” the great unity immortal clearly knew Ye Mo. Ye Mo left with another great unity immortal and he saw this clearly. He even heard the loud battle sounds of Ye Mo with the other great unity immortal.

Now that Ye Mo was here, one didn't even need to guess what happened to that great unity immortal.

He was already very concerned with Ye Mo at the entrance to the palace. Now that Ye Mo came over without any fear, he was concerned even more.

"It's you?"

Brother Xian and them recognized Ye Mo too.

The other four didn't know Ye Mo but when they saw it was an abstruse immortal middle stage disagreeing they were all shook. Was there someone who really didn't fear death for a mud lotus.

"brother Xian long time no see." Ye Mo smiled and saluted with his fists to brother Xian.

"Yes, yes, long time no see..." Brother Xian quickly saluted with his fists.

"Cough cough, so it's friend..." The great unity immortal's face looked really bad. He knew he was probably no match for Ye Mo, otherwise how did Ye Mo dare to be this cocky.

Ye Mo sneered "I don't remember when we're friends but I'm a very credible person. before I went into the palace, you made me hand up my immortal spirit herb. I remember that, now that I see you, I came quickly to give my immortal spirit herb."

"Friend you're funny hahaha..." the great unity immortal's face was bad. He knew Ye Mo was cruel and vengeful. There were two thousand people at the entrance and great extreme immortal there but he dared to kill an abstruse immortal tertiary stage who offended him. It seemed a battle was unavoidable.

Brother Xian and them saw the great unity immortal act like this and was confused. The other four were completely dazed. An abstruse immortal middle stage was clearly threatening a great unity immortal and this great unity immortal didn't dare to retaliate.

The abstruse immortal middle stage quickly picked up his shoulder and ate a few pills.

Seeing Ye Mo just sneer, the great unity immortal's heart was cold. If Ye Mo could kill another great unity immortal he could kill him. Plus, he didn't feel it was worth fighting someone like Ye Mo for a mud lotus.

He was great unity immortal, mud lotus could at most be used to make great unity pills, it wasn't much use to him.

"Since friend disagrees I won't have this mud lotus, good bye." The great unity immortal saluted with his fists and was about to go.

Ye Mo laughed "Is the mud lotus yours? You seemed to have come after."

"What do you want?" the great unity immortal frowned, he was ready to release his magic artefact. They might have to fight.

He added "I have no enmity with you, why do you have to start trouble with me?"

"Hehe, did you not mark me? I have a lot of good things but I hate people scheming for it..." Ye Mo laughed and his force rose drastically.

The great unity immortal's face was green and he suddenly roared "If you want to fight then fight, don't think I, Zheng Bingchao, is scared of you."

Chapter 1656: Just Love These Contribution Points

Ye Mo's power burst up but he didn't have to fight this Zhen Bingchao. He definitely wasn't scared of him but he had too many secrets. He would prefer not exposing them.

The main reason he came here was to ask for benefits. If Zhen Bingchao planned to give nothing then don't blame him. He wanted to rob him first so now he was here to get back at him.

“We can fight of course but if I fight I might not be able to stop myself. That Suo Fei wants my things at the mist demon palace entrance, I didn’t stop myself in time and caused some regrets...”

As soon as Ye Mo said this, Zhen Bingchao’s heart went cold. From what Ye Mo said, that great unity immortal really was killed by him.

“What do you want?” Zhen Bingchao’s tone softened again. If possible he really didn’t want to fight with Ye Mo.

He was dominant but also careful. Even if he was going to rob, he would rob people who were far weaker than him. if there was someone who could threaten him, he wouldn’t act tough. This was why he could reach great unity immortal, he was cruel but clear minded.

Ye Mo nodded “You marked me with spirit sense mark for no reason, making me worry more. I don’t have any other hobbies but I like to collect some contribution points...”

Zhen Bingchao cursed, worry my ass hole. Who doesn’t like contribution points.

“How much contribution points do you want?” Zhen Bingchao asked.

Ye Mo really wanted to ask how much do you have but he knew if he asked this they would end up fighting.

That Suo Fei had one million or so so this Zhen Bingchao shouldn’t have lower than 1 million. He’ll just take half. Ye Mo said “500k.”

“What?” Zhen Bingchao dazed. He only had 700k altogether. Even though he knew he was no match for Ye Mo, he would still fight. If he couldn’t beat Ye Mo he would run but what if he couldn’t run? Zhen Bingchao was a little hesitant.

The abstruse immortals around dazed, Ye Mo was too cruel asking for 500k contribution points straight up. It was hard even for great unity immortal to take out 500k contribution points.

"I only have 700k contribution points. If you're willing I can give you 300k. If you don't agree to that then we'll have to fight." The great unity immortal couldn't take it after being oppressed like this.

Ye Mo frowned, he wasn't afraid of fighting Zhen Bingchao but his main purpose was contribution points. Zhen Bingchao didn't seem to be lying. Thinking about this, Ye Mo took out Sui Fei's aqua contribution card "can you swipe out some of the contribution points in here. If you can, I can ask less of you."

Seeing this, Zhen Bingchao's heart went cold again. His last sliver of hope was gone. This aqua jade card was definitely great unity immortal, perhaps the great unity immortal who chased Ye Mo before. without a doubt, he was killed if his jade card was in Ye Mo's hands.

"Immortal friend Ye Mo, I can't open this spirit sense mark but I have a way to sell out 30% of the contribution points inside." Zhen Bingchao's tone grew even weaker. The courage he just summoned up was gone.

Hearing this, he gave a few jade cards all to Zhen Bingchao and said, "I'll give you all the jade cards here, give me your contribution points."

Zhen Bingchao took the jade cards and found there was even one with 2 million contribution points. He was shocked. If he exchanged all these jade cards he could get nearly 100 million contribution points. He would be earning.

Even if he wasn't earning he wouldn't want to fight with Ye Mo anymore.

"Sure." Zhen Bingchao took out his jade card and removed the spirit sense mark and gave it to Ye Mo.

Ye Mo took the card and found there was indeed only 700k points. He swiped it all to his card without hesitation.

Taking the jade card Ye Mo threw back, Zhen Bingchao didn't even look and quickly saluted with his fists "Good bye."

The abstruse immortals here looked dazily at this deal. The main thing was that Ye Mo used a yellow jade card, this was the lowest grade. Even a golden immortal rarely used that.

Seeing Zhen Bingchao and the other abstruse immortal tertiary stage disappear brother Xian came up to Ye Mo “Brother Mo thanks for helping, you deserve this mud lotus.”

Ye Mo had too many of them, he didn’t care about one.

Ye Mo quickly waved his hand “No need I’m not interested in that thing.”

Although Ye Mo didn’t fight at all, people from both sides saw Ye Mo’s power. The other team quickly saluted with his fists “We won’t take this mud lotus...”

Brother Xian was a rather righteous person and said “We’ll give you some contribution points then.”

Hearing this, Ye Mo thought and asked “Brother Xian, how much contribution points is needed for a great unity immortal pill?”

“Good quality ones usually cost one million contribution points. Some abstruse immortal wouldn’t be able to save up this many points after countless years.” Brother Xian answered.

Ye Mo thought, he had so many great unity immortal pills, if he sold them all wouldn’t he immediately be rich. But then he immediately gave up the thought. Great unity immortal pills were the top resource of big sects. If so many great unity immortal pills suddenly appeared, people would definitely investigate. He was only a mere abstruse immortal middle stage, not enough to fight against even a finger of great eternity immortal.

“Brother Xian I also want to ask, where there is more level four demonic immortal spirit beast?” Ye Mo said.

Brother Xian quickly took out a jade slip and said “The blue area in this jade slip are where the level four and level five demonic immortal spirit beast are at. You must not go to the red areas.”

“Why not?” Ye Mo asked.

“Because it’s where they gather in masses. If you go in, there’s no chance for survival.” Brother Xian quickly said.

Ye Mo realized, when he got the du luo heaven fruit, he encountered countless demonic immortal spirit beast. It must be because those immortals went to the red area and were chased. But this also meant that there would be good treasures there.

“In that case, good bye.” Ye Mo was going to leave.

“Brother Mo, wait...” that red robed female immortal stopped Ye Mo.

Ye Mo immediately knew what she wanted to say so he said “My friend is very safe thanks for your concern.”

Then Ye Mo took out Zi Xu and disappeared.

“He’s probably a great unity immortal qian bei right?” the abstruse immortal tertiary stage fighting brother Xian asked.

“I don’t know, but I saw him kill an abstruse immortal same power as me in one move.” Brother Xian shook his head.

“He’s that powerful?” the other four abstruse immortal finally realised what that great unity immortal would take out his contribution points and leave.

...

Ye Mo wasn’t interested in the blue areas. Level four and level five demonic immortal spirit beast weren’t easy to deal with. To him, the best was level three, the more the better.

He went to the red marked area.

Chapter 1657: Ambushed

Ye Mo stood before a red forest and scanned his spirit sense in. this was the red marked place on the jade slip. There was three red circles around this place showing just how many demonic immortal spirit beasts there were.

The reason Ye Mo came here was because this was the closest.

Checking out the surroundings, Ye Mo went in the forest without hesitation. He was ready to leave if he saw that he couldn't take on this place.

There were only some level two demonic immortal spirit beast at the outside but the deeper Ye Mo went, there were more.

After 15 minutes, Ye Mo stopped. This was far from the depth of the forest, it was still the outskirts but there were dense clusters of demonic immortal spirit beast. Just how many would there be in the depth?

Luckily these were all level two and level three. There weren't level four. If they were all level four, Ye Mo would leave without hesitation. There were more than ten thousand around him now.

In just a few seconds, Ye Mo was completely surrounded. Countless demonic blades, chains flooded him.

After ensuring there was not a single level four demonic immortal spirit beast. Ye Mo immediately released Heaven Flame Nine Suns.

Two purple suns were released and the dense clusters of demonic immortal spirit beast crippled under them. But soon, more demonic immortal spirit beast replaced the annihilated ones. They charged at Ye Mo tirelessly.

Ye Mo breathed easy. Two suns were much less taxing on his spirit sense than four. There weren't level four demonic immortal spirit beast so two suns were perfect.

As more and more demonic immortal spirit beast came, the piles of beast cores around Ye Mo stacked higher. Ye Mo couldn't even collect them now.

Even though two suns were less taxing on spirit sense, he still couldn't take it.

Zhen Bingyu saw in the flying snow orb that Ye Mo used all his efforts to take on the demonic immortal spirit beast so she quickly flew out and helped Ye Mo collect those beast cores. Otherwise in time, those level two beast cores would melt.

Seeing Zhen Bingyu come help, Ye Mo breathed easy a little. He ate two dual spirit pills. He knew that he couldn't continue like this even if there wasn't level four demonic immortal spirit beast coming.

He signalled Zhen Bingyu to focus on collecting beast cores and threw his contribution point jade card to Zhen Bingyu. Then, he used Spirit Will Nine Transformations. The main use of Heaven Flame Nine Suns was on spirit sense, if Spirit Will Nine Transformations could allow him to maintain his spirit sense or exert very little, perhaps he would really be able to collect the contribution points he needed here.

Spirit will one transformation to blades... second transformation shatter spirit and break sea... third transformation domain birth, fourth transformation magic fuse, fifth transformation realm form. Sixth transformation nirvana, seventh transformation void, eighth transformation samsara, ninth transformation become one...

At the second transformation of spirit sense, it could sever the spirit sense other people extend out, at the extreme, one could even shatter someone's sea of consciousness. The third transformation was when domain was formed, one could form his own spirit sense domain. at the fourth transformation, one could fuse his most powerful magic into the spirit sense. it wouldn't be simply spirit sense blades anymore, any of his fire element or ice element could be instantly activated with spirit sense.

It could be said that at the fourth transformation, one could kill immortal king as great immortal. But this Spirit Will Nine Transformations was fragmented, there was only the cultivation method for the first

four transformations. But to Ye Mo, it didn't matter. He could use his Three Birth Chant to slowly derive the cultivation method.

Ye Mo now realized that the things he derived before were similar but not really. His spirit sense domain didn't have that much power nor a clear level. although he had Three Birth Chant but he didn't have anyone to teach him nor any hints.

Any of these cultivation methods were formed after the experience of countless years and countless powerful beings. His Three Birth Chant was formed in the chaos after countless years.

As for the fifth transformation forming one's sea of consciousness world, Ye Mo believed the corner soul domain in the chaos star realm was probably the sea of consciousness world of Wushuang immortal emperor. From this, it was clear that Mu Wushuang not only had spirit sense cultivation method but reached at least the fifth transformation.

Ye Mo slowly sunk into the Spirit Will Nine Transformations. Even though his purple eye soul sever wasn't completely right, it wasn't completely wrong. At least his first transformation was completely correct.

So he didn't need to cultivate the spirit sense turning into blades. He just skipped to the second transformation spirit shatter. It wasn't hard but in order to reach a high level, one needed tens of thousands of years.

The first step to level 2 was to sever other people's spirit sense. this was very important in battle.

When Ye Mo was deriving the purple eye soul sever, it could also sever people's spirit sense but its power was too weak. Instead of severing it was more like interference. This was only effective against people with weaker spirit sense than him. If someone had the same spirit sense as him, he wouldn't even dare to use it as he would be backlashed.

This Spirit Will Nine Transformations was completely different. If a cultivation method was only effective against people weaker than you, it would be meaningless. Purple eye soul sever was a cultivation method that was pointless. The reason he could use it against people was because his spirit sense was too powerful.

The Spirit Will Nine Transformations also provided a direction for spirit sense cultivation.

If there was enough time, Ye Mo would just look at this cultivation method and start deriving his own Spirit Will Nine Transformations but now he didn't have the time to so he could only cultivate according to it.

The demonic immortal spirit beast kept charging at Ye Mo and Ye Mo's two suns didn't weaken at all. He protected him and Zhen Bingyu inside. The demonic immortal spirit beast kept dropping beast cores and Zhen Bingyu kept collecting them. Meanwhile, Ye Mo went into a state for self forget.

Ye Mo used the Spirit Will Nine Transformations' way of refining his spirit sense.

Zhen Bingyu knew Ye Mo's sun was powerful but it couldn't last long. However, now she found that days had gone by and the two suns still hung in the air. Ye Mo didn't even realise that at the beginning he still used pills for cultivation but later on he didn't even use that too.

When there were more demonic immortal spirit beast, the suns would grow larger, when there were less demonic immortal spirit beast the suns could grow smaller.

At the start, Zhen Bingyu was amazed at Ye Mo's spirit sense but after a month or so, Zhen Bingyu felt something was wrong.

Ye Mo seemed to have lost his senses. He just numbly slaughtered demonic immortal spirit beast and was expressionless.

What worried her even more was that Ye Mo's skin started to get red and cold but yet he was using a heaven flame.

"Martial brother Ye... are you alright?" Zhen Bingyu called, there was some motion in Ye Mo's eyes but he still didn't move.

Now, Zhen Bingyu realized Ye Mo was in trouble. She gathered all her spirit sense power and yelled "Ye Mo..."

Ye Mo's body shook and spat many mouthful of blood of purple blood. His face was pale like snow.

"Bastard..." Ye Mo woke up and immediately put away Heaven Flame Nine Suns then he said "Let's go..."

Zhen Bingyu flew into the flying snow orb without hesitation. Zi Xu splashed out a purple view clearing the demonic immortal spirit beast ahead, then in a faint dashing light Ye Mo disappeared.

...

Ye Mo flew just for half an hour after leaving the red forest and stopped. He spot another mouthful of blood of blood and used earth mobility.

"What happened?" Zhen Bingyu immediately asked worriedly.

"I was ambushed by that bastard. Thanks for saving me, I need to recover don't talk to me." Ye Mo came to where he cultivated before and set up a stealth formation before going into the golden page world.

Chapter 1658: Sky Rocketing Name

The reason Qing Mo Immortal City could become one of the top ten immortal city of Zong Piao heaven was not because it was big nor popular but because of blue lightning mountain.

It was just a mountain but no one could go in usually. Only when the Blue Lightning Immortal Well was open would the city open teleportation formation to the mountain. The Blue Lightning Immortal Well was only an ordinary top grade immortal but its quality was very good. It was much better than other things for cultivation and breakthroughs.

The only pity was that it only opened every thousand years and only invited 100 people in each time.

Many immortals went to where demonic immortal spirit beasts were gathered and slaughtered them just for a chance to cultivate in the well.

But contribution points were very hard to gather. If you never used them then it wouldn't be hard to gather 10 million after a thousand years, but immortals needed to cultivate. Each time they went to adventure they would buy pills, magic artifacts, and runes.

If they weren't lucky, the contribution points they gathered wouldn't even be used and they would die. Some powerful immortals would improve their power with contribution points. Only then would they get more contribution points.

Now, the Blue Lightning Mountain was about to open, many immortals were gathered at the city. Other than the one hundred who could cultivate in the immortal well, the top 1000 on each leaderboard would be able to go in the mountain too. However, they could only search for immortal spirit herbs there.

In an immortal rest tower, a few immortals were congratulating a white faced abstruse immortal.

"Zheng Hong brother, congratulations, you reached the top fifty. This time you can definitely reach great unity immortal after going in the immortal well. We'll need your help in the future." An extremely seductive female immortal got up and drank.

Then, the other few immortals also drank.

The white faced abstruse immortal laughed and said, "If I can really go in and reach great unity immortal, I, Ji Zhenghong, definitely won't forget you all. But there's still a month till the place opens, I don't know if people can surpass me."

"Haha, impossible. Brother Zhenghong, you know that the city made the rule three months before the opening of the mountain, only those contribution points from killing demonic immortal spirit beasts will be counted. If it's obtained from some other method it would be ineffective. It can only be used to buy things and not go into the immortal well. There's only one month now, the top fifty is pretty much decided." A long bearded abstruse immortal smiled.

Ji Zhenghong clearly knew this. In order to ensure fairness, this three month rule was made.

There were other ways around this but there was only so much the immortal city could do. Those who could cheat would have large sums of immortal crystals and might not even be interested in ordinary immortal wells.

Ji Zhenghong nodded. “Yes, but it’s still better to be careful.”

The female immortal laughed. “Brother Zhenghong is too careful. You have 9.46 million now. The 51st is at 8.08 million. Even a great eternity immortal wouldn’t be able to kill one million worth of beast cores in a month right?”

“I feel like brother Zhenghong is right, there are beast cores for sale in the city. If people buy it there’s still danger, but then again, even if someone buys them and beats brother Zhenghong temporarily it would be pointless. Brother Zhenghong is a master who almost reached the abstruse ranks. He only needs to go kill a few demonic immortal spirit beasts and it would be enough,” another dark skinned abstruse immortal said.

The female immortal shook her head. “Yes but there isn’t enough time to kill demonic immortal spirit beasts now, it has nothing to do with ability.”

The long bearded abstruse immortal smiled. “Those who have the ability to buy beast cores would’ve already done so already. The price of beast cores now are many times more than usual. No one would use that many immortal crystals to buy beast cores...”

Suddenly, Ji Zhenghong’s face changed.

“Brother Zhenghong, what happened?”

“The leaderboard is changing. Look, that Mo Ying guy...” the dark skinned abstruse immortal called out.

The female immortal also stared at the leaderboard in shock, an immortal called Mo Ying’s contribution points keep rising. It went up from 4 million to 6 million. It still hadn’t stopped – at the rate, it would

only be a matter of time before it broke through 10 million. If that happened, Ji Zhenghong would be squeezed below top fifty.

“What happened?” Ji Zhenghong’s face looked bad.

Everyone stared at the leaderboard nervously, in just a short while, Mo Ying’s contribution points were 9 million or so. In just half a minute, Mo Ying would become the 50th of heaven immortal leaderboard.

...

“Hmm, interesting.” An abstruse immortal peak stage saw the rising Mo Ying too.

“That guy is cheating right? He bought this many beast cores?” one extremely beautiful woman next to him asked.

The abstruse immortal peak stage was dressed in blue robes and looked very handsome. A long sword hung in the air behind his back.

“Cheating... even if he is cheating, he’s not simply to be able to get so many beast cores at this time.” The abstruse immortal laughed.

“Martial brother Xu, if he continues like this, would he reach first and be even above you?” the beautiful female immortal asked worriedly.

Xu Ji smiled in contempt. “So what if he’s first? Using such means, he’s no match for me.”

The female immortal nodded and smiled sweetly. “Of course, martial brother is top ten in the abstruse rank of Zong Piao Heaven. If it wasn’t for the Blue Lightning Well, martial brother would’ve already reached great unity immortal.”

However, Xu Ji looked regretful. “Only those with weaker foundations would fight over this. Those with more wealth wouldn’t even want to come.”

“Martial brother, don’t worry. Once you reach great unity immortal in the well, you can go to a wider world. I believe with martial brother’s power, you definitely won’t stop at the middle heaven domain. One day, you will be able to cross the void and charge into the grand 11 heaven domains,” that extremely beautiful woman said with confidence.

There was certainty in Xu Ji’s eyes, he nodded to that female immortal. “Thank you martial sister Yan Er, top ten of abstruse rank in Zong Piao Heaven is nothing. Only once you enter a greater world would you be able to find what you want.”

There was a sliver of sadness in the female immortal’s eyes but she immediately said happily, “Martial brother, you can do it.”

...

Ji Zhenghong looked at Mo Ying surpass him without stopping at all and clenched his fists tightly. He saved up for a few centuries and now at the last moment, his opportunity was taken.

“He’s still rising...” the female immortal stared at 43rd ranked Mo Ying and said in shock.

The long bearded abstruse immortal frowned. “Where did this guy come from? To buy this much beast cores at this time, how much immortal crystals would be needed?”

“I want to see which god this Mo Ying is.” Ji Zhenghong’s face was green and his jade cup was crushed.

...

Zhen Bingyu didn’t know her actions would make people so angry.

Ye Mo had been in solitary cultivation for a few months. She just now remembered to send the beast cores into Ye Mo’s card.

Chapter 1659: Ferocious Dao Will

In the Golden Page World Ye Mo slowly opened his eyes and stopped the time formation disk.

He had cultivated an entire 40 decades in the time formation disk before recovering.

Compared to before Ye Mo was much darker and skinnier. If Zhen Bingyu didn't wake him up before, he would probably burn himself out eventually.

That cultivation method was too ferocious. When he started cultivating it, he only had the primordial instinct to keep cultivating and using Heaven Flame Nine Suns. Ye Mo knew that the reason he could last a month was because the Three Birth Chant kept nourishing him and supplying him with life force. Otherwise in a few days he would completely turn into a layer of dried skin.

Ye Mo took out the jade slip of Spirit Will Nine Transformations and burned it to pieces immediately.

He knew that the problem wasn't with the Spirit Will Nine Transformations but there was a sliver of dao will in the jade slip. It was even hidden in every word. When he looked at the jade slip and wanted to cultivate it, the sliver of dao will formed a bridge with his consciousness.

The dao will then planted itself in his will and grew.

The dao will wasn't intended to kill the cultivator but turn the cultivator into a puppet. If someone's spirit sense grew to a certain extent cultivating from the jade slip, the dao will would be able to affect the cultivator. However, the person behind this didn't expect someone would be able to cultivate and battle at the same time.

The Three Birth Chant allowed Ye Mo to release Heaven Flame Nine Suns while cultivating Spirit Will Nine Transformations. The growing spirit sense couldn't last the use of Heaven Flame Nine Suns and thus couldn't control Ye Mo's soul and will. It could only give Ye Mo the message to keep cultivating to survive.

Even so, Ye Mo used a few decades to completely burn away that dao will and recover his lost essence under the Bitter Bamboo.

The Spirit Will Nine Transformations was an extremely high level spirit sense cultivation method, Ye Mo was certain the cultivation method was right but the problem was with the person who left it.

Ye Mo definitely needed to cultivate the Spirit Will Nine Transformations but he wasn't going to use this cultivation method. He would derive his own Spirit Will Nine Transformations.

As for the person who left the jade slip behind, without a doubt it was the person who left behind the voice in the palace. That guy was definitely a powerful being. He not only had a terrifying cultivation method like the Spirit Will Nine Transformations but could also form a palace with space law.

Originally, what that guy left behind had nothing to do with him but this Spirit Will Nine Transformations jade slip annoyed him. If it wasn't for Zhen Bingyu, even if he woke up he would die to demonic immortal spirit beast.

How could he not get revenge for this? Even if he couldn't get it now, he would eventually get it.

Ye Mo sealed the sky mobility gold and the blue platform in the Golden Page World. They came with the jade slip, no matter if there were something wrong with them or not he had to be careful. He didn't have time to look at them now.

...

"You're fine now." Zhen Bingyu got up in joy. she had been really worried about Ye Mo. Ye Mo seemed skinnier and darker but he should be fine.

Ye Mo nodded. "Thank you a lot this time. If it wasn't for you I would be dead."

"You saved me countless times, this is nothing. But who is that bastard you said?" Zhen Bingyu asked.

"If I'm not wrong, it's the guy who wanted us to kneel in the palace and accept his heritage," Ye Mo said.

Hearing this, Zhen Bingyu's face flashed with horror. If it wasn't for Ye Mo she would've knelt down and accepted the heritage.

"What are you doing?" Ye Mo saw the jade card in Zhen Bingyu's hand.

Zhen Bingyu got up and waved it saying, "Before I didn't have time to put the beast cores in the jade card, I could only throw them in the storage ring. I'm sending the beast cores in now to increase contribution points."

"How many contribution points?" Ye Mo asked and then remembered why he even came here. "How long till the opening of the immortal well?"

"11 million points now, there's still a month before the place opens. I was thinking if you still didn't come out we wouldn't have time," Zhen Bingyu said.

Ye Mo nodded. "Okay, let's go back immediately. 11 million should be enough, don't insert anymore inside, we don't want attention. By the way, how many contribution points are left in the storage ring?"

Zhen Bingyu gave the jade card to Ye Mo and said, "There's about 6 million, I'll give the storage ring to you. I have 100k in my card."

Ye Mo waved his hand. "No need, keep it in the storage ring. If we don't have enough we'll add more."

Although he was ambushed this time, he didn't lose completely. He got 10 million contribution points from killing demonic immortal spirit beasts with Heaven Flame Nine Suns for a month. From this, it was clear that the demonic immortal spirit beasts there were countless. It was only a matter of time before they overtook Zong Piao Heaven.

On top of that, Ye Mo's spirit sense rose drastically. After he burned the dao will, his spirit sense was almost on par with great extreme immortal tertiary stage.

...

Half a month later, a man and woman came to the Gu Lan City teleportation formation. It was Ye Mo and Zhen Bingyu. After the two came out, they immediately got on Blue Moon and bolted out of the Ping Piao Plains.

There were some demonic immortal spirit beasts stopping them on the way but it didn't affect them much.

They immediately went on teleportation formation from the Ping Piao Town to this Gu Lan City and then took the teleportation formation from there to Qing Mo Immortal City.

The teleportation formation was very busy and they had to line up. It had been six hours and it still wasn't their turn.

Just when it was about to be Ye Mo's turn, a harsh voice sounded, "Let me go on first, I have an emergency."

A red figure landed on the teleportation formation and moments later another green figure landed next to her.

There were many people lining up but these two female immortals suddenly cut in line. People were immediately unhappy but no one said anything. The green robed female immortal was at least great extreme immortal, everyone lining up was mostly below great unity immortal.

Seeing this green robed female immortal, Ye Mo's eyes narrowed and quickly slowed his immortal essence.

To others, she may seem like a great extreme immortal, but Ye Mo immediately knew she was an immortal king.

Chapter 1660: Rent Cultivation Home

The immortal king scanned across the immortals lining up and saw Ye Mo and Zhen Bingyu. When she scanned Zhen Bingyu there was a sliver of surprise in her eyes but soon she looked at Ye Mo.

“You seem very nervous?” the green robed immortal king’s voice sounded by Ye Mo’s ear.

Hearing this, Ye Mo calmed down instead. He was certain now that even if the immortal king scanned him with spirit sense, as long as the immortal king didn’t pressure him with spirit sense he didn’t need to worry about the Golden Page World being exposed.

Ye Mo didn’t know why the immortal king said this to him but luckily she didn’t keep focusing on Ye Mo as the teleportation formation had activated.

“This person is probably a great eternity immortal.” Some people discussed.

“Hmm, great eternity immortal? Are you dumb, she’s one of the ten big immortal kings of Zong Piao Heaven, Su Huan immortal king. Luckily you didn’t say much just then, she hates people gossiping. If you dared to speak, she would’ve shattered your brain.”

“What? She’s Su Huan immortal king?”

“Of course, she’s going to the Qing Mo Immortal City now desperately, probably for the opening of the Blue Lightning Immortal Well.”

...

Ye Mo was just listening on the side, he didn’t expect her to be one of the ten big immortal kings of Zong Piao Heaven.

An hour later, Ye Mo and Zhen Bingyu were on the streets of Qing Mo Immortal City. It was much more prosperous than Gu Lan Immortal City.

“Where do we go?” Zhen Bingyu looked at the boisterous streets and frowned.

Ye Mo knew what she meant, Zhen Bingyu didn't like to squeeze around where there were a lot of people. She liked quiet places.

"It's impossible to find a hotel or immortal rest tower. But we have another option, we can go rent a cultivation home from the immortal city." Ye Mo smiled.

This was the best choice. He was going to Blue Lightning Immortal Well but Zhen Bingyu couldn't go. Even if she went it was useless.

The city management was rather strict, even if you offended high level immortals you would be fine as long as you didn't go outside of city much less city managed cultivation homes. Safety was guaranteed.

"The biggest auction that takes place every century in the city is about to begin. Jade slips for the auction items, just one contribution point and you can get one..."

A few hollow immortal yelled on the streets.

"Give me one." Ye Mo took out his jade card and bought a jade slip from the hollow immortal. He didn't want to go to the auction but he wanted to see what was in these large scale auctions. One would need large sums of immortal crystals or contribution points to go. He only had a few million immortal crystals and not many contribution points.

After scanning it, Ye Mo sighed. No wonder it was the biggest auction of the century. There was everything here: high level immortal spirit herbs, materials, top grade flying immortal artifacts, high level cultivation methods...

No wonder so many people came to the city, it wasn't just for the immortal well but also for this auction.

This auction even had level seven immortal spirit herbs and extreme grade immortal artifacts.

...

The cultivation homes of the city were on the north side, there were no shops here but all sorts of spirit gathering and defense formations. Irrelevant people couldn't even get near. This was the city's main source of income.

Ye Mo and Zhen Bingyu were stopped by a golden immortal. "Halt, this is immortal cultivation home area."

Ye Mo saluted with his fists "I know, we came to rent a cultivation home."

The golden immortal said apologetically, "The cultivation homes here have all been rented out, sorry..."

This made Ye Mo frown. If they didn't have a place to stay, they couldn't sleep on the streets. If it was outside, he could set up his own cultivation home but in here, it was impossible.

Ye Mo took out a thousand immortal crystals to the golden immortal. "Friend, can you help?"

The golden immortal pushed the immortal crystals away reluctantly. "It's not that I don't want to help but the cultivation homes here have all been rented out. If there were free ones, I wouldn't stop you on purpose and I don't dare to."

Ye Mo still pushed the 1000 immortal crystals to the golden immortal. "Help me keep a lookout, if there's a free cultivation home rent it for me first."

The golden immortal knew that even if a cultivation home freed up, it wouldn't be his turn to make the decision, but these 1000 immortal crystals were free.

"You want to rent cultivation home?" a crisp voice sounded. A blue dressed female immortal appeared next to Ye Mo and Zhen Bingyu.

"Yes, qian bei." This female immortal was a great unity immortal. Ye Mo quickly bowed.

The blue robed female immortal looked at Zhen Bingyu and said, "Such a pretty immortal, I'll help you once. I'm going to leave the city and my rent period is up, you guys can have it."

"Thank you qian bei." Zhen Bingyu reacted quickly and bowed.

"No need. Let's go, I'll help you do the procedures. Otherwise, as soon as I leave it would be rented away. It's useless to ask this small golden immortal." The immortal waved her hand.

There was an awkward look on the golden immortal's face but he used the opportunity to explain the rules to Ye Mo.

There were four types of cultivation home, top, middle, low and special.

The female immortal rented a top grade home, it was 500k immortal crystals a year. This was high priced even for great immortals. It would be much cheaper to pay with contribution points however.

Ye Mo had some immortal crystals so he rented for ten years. As for contribution points, he didn't use them.

Seeing Ye Mo just take out millions and renting for a decade, she looked at Ye Mo with some surprise.

...

After the blue robed female immortal moved away, Ye Mo and Zhen Bingyu came to the cultivation home. They were very happy with this place.

This cultivation home was large and had a garden. There were cultivation rooms, bedrooms, pet rooms, side rooms. There was also a guest greeting room. there were low level immortal spirit herbs planted outside and a pond.

The level three immortal spirit gathering formation made the immortal spirit chi here very dense. The defense formation was level four immortal formation.

“This 5 million is very worth.” Ye Mo nodded.

“Yes I really like it here too. That qian bei was right, if we weren’t lucky we wouldn’t be able to rent this place,” Zhen Bingyu agreed.

“It’s a pity in such a good environment I can’t even cultivate.” Zhen Bingyu sighed. The immortal spirit chi here was much better than even Extreme Sword Sect.

Ye Mo didn’t know how to comfort her. After being with her for so long, it was impossible that he didn’t care about her at all.

“Don’t worry, I’m just exclaiming. The cultivation method you gave it very good, I can feel a sliver of immortal essence now.” Zhen Bingyu immediately knew what Ye Mo thought and quickly added.

Ye Mo shook his head. He knew that if her spirit roots couldn’t recover she couldn’t cultivate. That way, he couldn’t leave her behind.

“You stay at the main cultivation room, I’ll go to the side room.” Zhen Bingyu said feeling what she said before was inappropriate.

“No you use the main cultivation room. This cultivation home isn’t rented for us two,” Ye Mo said.

Zhen Bingyu was dazed and asked, “Then where are you going?”
